Deep tech for humanity

SOSV's core mission is to fund visionary, deep tech founders who aim to deliver a radically beneficial impact on human and planetary health. As of April 2022, our top [100 climate tech companies](#) have an aggregate valuation of more than \$11 billion and have raised \$3.85 billion, while our top [100 health startups](#) are valued at \$5.7 billion with \$1 billion raised. SOSV is consistently ranked by PitchBook as a top investor in both categories.

Prototype development at HAX

First of many checks

At SOSV, a pre-seed investment is the beginning, not the end. We start investing with up to \$500,000 when a startup joins one of our programs. We continue funding successful companies through series seed, series A and beyond, thanks to the SOSV Select Fund. Our general partners tap our network of thousands of investors to help founders find lead investors and syndicate partners. In 2021, SOSV made follow-on investments in 196 program alumni companies. Last year, SOSV companies raised \$2.2 billion.

IndieBio SF demo day

SOSV for life

A typical startup "accelerator" has little to offer once demo day is done, which is one reason SOSV no longer uses the term. At SOSV, we not only continue investing long after startups have completed our programs, we offer an open platform to support our program alums.

We continue to make investor introductions and provide ongoing access to experts on the SOSV teams. SOSV also maintains a vibrant, Slack-based peer-to-peer founder community and programs private founder-focused events covering topics from legal to marketing. We also provide our startups visibility through public franchises such as the SOSV Climate Tech 100, the SOSV Human Health 100, and the
