CHAPTER 2 - EYE CARE PROFESSIONAL SERVICES200. SCOPE

This section is concerned with examinations and care for visual defects and/or eye disease.

201. PROVIDERS OF SERVICE

Within the restrictions of their respective licensure, the following are eligible providers of eye care:

201.1. OPHTHALMOLOGIST

Physicians certified by the American Board of Ophthalmology, or eligible for certification as a specialist in the care of the eye and all related structures (See Section 201.3, Physicians Manual - Definition of Specialist).

201.2. OPTOMETRIST

Any person who has met certain legal and educational requirements and is licensed by the New Jersey State Board of Optometry to engage in the practice of optometry, or similarly licensed by a comparable agency of the state in which he performs such functions.

201.3. An ophthalmologist or optometrist in another state who is duly licensed in that state.

202. PROFESSIONAL SERVICES NOT REQUIRING PRIOR AUTHORIZATION

## A. Screening Examinations

This shall constitute procedures performed to determine if a comprehensive examination is necessary. As a minimum, this shall consist of the following:

1. External examination
2. Visual acuity in each eye
3. Gross muscle balance

## B. Comprehensive Eye Examination

This shall include, as a minimum, with or without cycloplegics and with or without a post cycloplegic visit, the following:

1. Detailed case history
2. External and internal (ophthalmoscopic) examination
3. Refraction (objective and subjective)
4. Gross visual fields (central and peripheral)

5. Tonometry (when indicated for patients under 35; mandatory for all patients over 35) The specific method used should be identified (i.e. the finger palpation test is not acceptable.).
6. Binocular coordination testing (distance and near)
7. The diagnosis (ocular deficiency or deformity, visual or muscular anomaly, etc.)

#### C. Subnormal Vision Examination

##### Definition

Subnormal vision is defined as that condition where vision in the better eye is 20/70 or less with best correction.

### 203. PROFESSIONAL SERVICES REQUIRING PRIOR AUTHORIZATION

An eligible provider must request prior authorization from the Vision Care Unit, Division of Medical Assistance and Health Services, Post Office Box 2485, Trenton, New Jersey 08625, for the following services:

#### A. Vision Training

Vision training may be authorized only when -

1. Furnished in a licensed or certified health facility, or in a "special clinic" approved by the New Jersey Commission for the Blind.

a. The following is a list of currently approved clinics for vision training:

- (1) Newark Eye & Ear Unit, United Hospital Medical Center, 27 South 10th Street, Newark, New Jersey
- (2) Middlesex General Hospital, New Brunswick, New Jersey
- (3) Helene Fuld Hospital, Trenton, New Jersey
- (4) Atlantic City Hospital, Atlantic City, New Jersey

2. A professional multidisciplinary evaluation and decision indicates the need for therapy.

3. A diagnosis and treatment plan has been submitted to the Vision Care Unit, Division of Medical Assistance and Health Services.

#### B. Consultations

A consultant must qualify as a specialist as defined by this Program and who personally examines the patient and provides a written report of his findings and

recommendations. A consultation service in a discipline other than that of the attending practitioner requires no prior authorization but the request must be based on medical necessity. A consultation rendered by a specialist requested by an attending practitioner who is a specialist in the same discipline is an ineligible service. When unusual circumstances of medical necessity makes such a consultation advisable, prior authorization must be obtained.

C. Out of office visits other than emergencies require prior authorization.

D. Frequent Refractions

Refractions more frequently than once every two years for persons over the age of 16 or more than annually for persons 16 years of age or less.

E. All other professional services not specified.

204.

BASIS OF PAYMENT

Reimbursement for covered services shall be on the basis of the customary charge, not to exceed an allowance determined reasonable by the Commissioner (Institutions & Agencies), and further limited by federal policy relative to payment of practitioners and other individual providers. In no event shall the payment exceed that charged by the provider for identical services to other governmental agencies, private nonprofit agencies, trade unions, or other individuals in the community.

# THE PRUDENTIAL INSURANCE COMPANY OF AMERICA

## NEW JERSEY HEALTH SERVICES PROGRAM

Governmental Health Programs Department, P.O. Box 1900, Millville, N. J. 08332

December 21, 1970

ATTENTION: Providers of Optical Appliances

The procedures to be followed in submitting optical appliance claims to the New Jersey Health Services Program will be changed for all such services rendered on or after January 1, 1971. The major change consists of the elimination of the requirement for prior authorization for all items except those outlined in Section 302.2 of the attached revised pages of the optical appliance manual. Requests for prior authorization for those items should still be forwarded to the Vision Care Unit, Division of Medical Assistance and Health Services, P.O. Box 2485, Trenton, New Jersey 08625. However, claims for all other eligible items should be submitted directly to the Prudential Insurance Company of America, P.O. Box 1900, Millville, New Jersey 08332.

Please remove and destroy Chapters II through IV and replace them with the attached Chapters III through V which have been revised to clarify the services covered under the Program and to explain the new billing procedures. Chapter V lists the optical appliance codes and contains a new section pertaining to frames. The listing of frames will be updated periodically, but only those frames listed may be dispensed. Most of the material previously found in Chapter II has been incorporated into Chapter III. A revised edition of Chapter II, containing provider definitions, will be released to you shortly.

We are enclosing fifty revised claim forms to be used for billing services provided on or after January 1, 1971. Please use the present 1-70 edition through this year and continue to mail them to the Vision Care Unit for authorization.

CHAPTER III

OPTICAL APPLIANCES AND SERVICES

300. OPTICAL APPLIANCES

301. DEFINITIONS

301.1 Optical Appliances

Those items or devices prescribed by an ophthalmologist or optometrist to aid or improve vision, or to replace the eye.

301.2 Providers of Optical Appliances

Within the restrictions of their respective licensure, the following are eligible providers of optical appliances:

Physicians certified by the American Board of Ophthalmology, or eligible for certification as a specialist in the care of the eye and all related structures; persons licensed by the State of New Jersey to practice optometry; persons licensed by the State of New Jersey as opticians.

NOTE: Persons recognized as ocularists may be considered providers of artificial eyes upon recommendation of the prescribing practitioner and prior approval of the Division.

An ophthalmologist, optometrist, optician, or oculist in another state and holding no license to practice in New Jersey is eligible to provide optical appliances in the state in which he practices if he meets the requirements of his own state with regard to the dispensing of optical appliances.

302. SCOPE

The following optical appliances are covered under the Health Services Program, subject to the limitations listed below.

302.1 Optical Appliances NOT Requiring Prior Authorization

- A. Lenses and Frames listed in Chapter V.
- B. Repairs to optical appliances up to \$5.

302.2 Optical Appliances Requiring Prior Authorization

An eligible provider must request authorization from the Vision Care Unit, Division of Medical Assistance and Health Services, P.O. Box 2485, Trenton, NJ 08625.

- A. Contact Lenses
- B. Artificial Eyes

## OPTICAL APPLIANCES AND SERVICES

- C. Subnormal Vision Devices
- D. Vision Training Devices
- E. Repairs to optical appliances exceeding \$5.
- F. All optical appliance items not listed in Chapter V.
- G. Replacement or duplication of optical appliances within two years for persons over age 16 and within one year for persons age 16 or under.
- H. A statement indicating medical necessity must be submitted with request for two pairs of glasses in lieu of multi-focal lenses.

### 303. STANDARDS AND POLICIES

#### 303.1 Lenses

##### A. General

Lenses shall be first quality ophthalmic lenses meeting the American Standard Prescription Requirements. (See Exhibit I for Prescription Standards and Tolerances).

##### B. Safety Lenses

Case hardened lenses may be prescribed for any person as determined by the attending ophthalmologist or optometrist. These are required for all persons requiring minus cylinder or minus lenses, for persons under 21, for persons with monocular vision, for elderly ambulatory persons, for epileptics, and for persons with markedly impaired vision. Minimum thickness of all case hardened lenses is to be 2.0 mm.

##### C. Plastic Lenses

Acceptable only when justification of need is documented on the claim form.

##### D. Bifocals

Recommended for presbyopic needs.

##### E. Prescription for Eyeglasses

For pricing purposes all prescriptions shall be written in minus cylinder form.

##### F. Initial Prescription for Glasses

The total correction must be at least 0.50 diopter in spherical or cylindrical power.

## OPTICAL APPLIANCES AND SERVICES

### G. Subsequent Prescription Correction

The total change in the correction must be at least 0.50 diopter in spherical or cylinder power, or a change of 5 degrees or more in cylinder axis.

### H. Prescription Sunglasses (Not Covered Under Program).

### I. Contact Lenses

Prior authorization required and may be approved only when recommended for:

- a. Specific ocular pathological conditions. (e.g. Keratoconus monocular surgical aphakia or to effect binocular vision).
- b. Patients who cannot be fitted with regular lenses provided improvement of vision to at least 20/70 in the better eye can be accomplished.

### J. Duplication or Reproduction of the Same Correction

- a. Permitted only if lenses are lost, broken, or damaged, and must duplicate original Rx and frame.
- b. A re-examination and new prescription is required if more than one year (or two years in the case of an individual 16 years of age and over) has elapsed since the date of the original prescription.
- c. The provider must determine date and type of previous Vision Care Services.

## 303.2 Frames

- A. Only frames listed in Chapter V shall be dispensed.
- B. All frames shall bear the manufacturer's name, trademark or symbol permanently imprinted on the temple.
- C. Replacement of frames within two years allowed only if lost, or broken and not repairable.

## 303.3 Artificial Eye or Prosthesis

- A. Artificial eyes shall be plastic, stock or custom.

## OPTICAL APPLIANCES AND SERVICES

### 303.4 Advertising

Providers shall not advertise or otherwise solicit eligible welfare recipients through signs or displays indicating that the provider accepts persons covered by "Medicaid", "The New Jersey Health Services Program" or similar statements.

### 303.5 RECORD KEEPING

Providers are to keep such records as are necessary to fully disclose the kind and extent of services provided, including date(s) of services, prescription(s), etc., and make such information available as the Division or its agents may request.

### 304. BASIS OF PAYMENT

#### 304.1 Lenses

The reimbursement policy of the New Jersey Health Services Program provides for payment to the provider of the actual invoice cost of the optical appliance. Providers are requested to indicate the actual invoice cost of the material when submitting a claim. The service (dispensing) fee, to which the provider is entitled, should be indicated as a separate item.

#### 304.2 Frames

Maximum allowable wholesale cost for a frame is \$5.

## CHAPTER IV

### OPTICAL APPLIANCE BILLING PROCEDURES

#### 400. BILLING PROCEDURES

This chapter contains basic information necessary for the submission of a claim. Included is a sample claim form approved for use in submitting bills for covered items or services, and appropriate instructions for the proper completion of the form.

#### 401. GENERAL POLICY

Claims for optical appliances not requiring prior authorization will be paid only when the dispensing date is no more than sixty days following the Rx date. In those cases claims for optical appliance will be honored if the person was eligible for the service on the date of Rx regardless of his eligibility on the dispensing date.

#### 402. PATIENT IDENTIFICATION

Verify that the patient is a covered person on the first visit and each visit thereafter. This is done by viewing the patient's Validation Form (see Section 101) which is issued on the first day of each month. It is especially important to review a patient's Validation Form on each visit when extended plans of treatment have been authorized. Prior authorization is no guarantee that an individual is covered.

#### 403. PRIOR AUTHORIZATION

Items or services requiring prior authorization should not be provided until the authorization is received. When submitting claims for payment make certain all authorizations have been properly signed by the Vision Care Unit and are attached to the claim form. To assure prompt claim consideration the prescribing practitioner's name and Social Security Number must be recorded.

#### 404. COMBINATION MEDICARE/MEDICAID CLAIMS

Cataract lenses and/or artificial eyes are eligible for payment under Supplemental Medical Insurance Benefits (Medicare, Part B). Therefore, when these specific services are rendered to or for an eligible Medical Assistance (Medicaid) person who is age 65 or over, the claim should be made to Medicare, Part B. In these instances the Medicare Claim (Form SSA-1490), see Exhibit II, will also serve as the Medicaid (New Jersey Health Services Program) claim. The provider should complete Form SSA-1490 REQUEST FOR MEDICARE PAYMENT and send the claim directly to the Medicare Intermediary:

The Prudential Insurance Company  
Medicare B Division  
Post Office Box 6500  
Millville, New Jersey 08332

The provider must record both the Medicare identification number (Section 2) and the New Jersey Health Services Program Case and Person number in Section 5 on the Form SSA-1490.

OPTICAL APPLIANCE BILLING PROCEDURES

NOTE: No prior authorization by the New Jersey Health Services Program is required for Medicare covered services. However, the responsibility for reimbursement by the New Jersey Health Services Program is limited to payment of the unsatisfied deductible.

405. REQUEST FOR AUTHORIZATION & PAYMENT -- OPTICAL APPLIANCES MC9

This form is used when requesting authorization if required to furnish optical appliances, and once authorized, to bill for the appliances. Charges for services furnished in conjunction with the dispensing of optical appliances are also billed on this form. When prior authorization is not required, it is mailed directly to Prudential.

405.1 Instructions for Completion of Form MC9 (Exhibit III)

- 1-4. NAME, ADDRESS, CASE NO. and PERSON NO. - Copy Patient's Name, H.S.P. Case Number and Patient Person Number EXACTLY as it appears on the monthly Validation Form.
- 5-6. Self-explanatory
7. OTHER INSURANCE OR LIABILITY COVERAGE - If patient has other Health Insurance or Liability coverage, check appropriate block, provide the name and address of the carrier(s), and show amount paid.
8. EMPLOYMENT RELATED - If patient's illness or injury is work related enter name and address of employer.
9. PROVIDER NAME AND ADDRESS (This information may be preprinted).
10. ITEM AND CHARGE - Show the Item Code (See Chapter V) and charge for each item furnished.
11. Self-explanatory. Must be completed.
12. PRESCRIPTION - A prescription for new lenses MUST ALWAYS be given in MINUS CYLINDER.
- 13-15. LENS AND FRAME INFORMATION - Describe the type and style of appliance to be furnished. IMPORTANT: The prescribing practitioner's name and Social Security number must be recorded in the space provided if he is not the provider.  
  
REMARKS - This section should be used whenever additional information will assist in the evaluation of authorization request. It should also be used for describing any repairs to be made to existing appliances.
- 16-17. CERTIFICATIONS - The patient or his authorized representative and the provider must sign and date their respective certifications before a claim may be processed. The statement should be read to a patient who signs by mark, and witnessed by a person who knows the patient. Enter the name and address of the witness. If

## OPTICAL APPLIANCE BILLING PROCEDURES

the patient is a minor, or cannot sign because of his physical or mental condition, a parent or guardian should sign and indicate relationship.

### 405.2 Mailing Instructions

1. For items requiring prior authorization detach the last copy for your records and forward the original and first copy (carbon attached) to:

Vision Care Unit  
Division of Medical Assistance and Health Services  
P.O. Box 2485  
Trenton, New Jersey 08625

2. For items not requiring prior authorization and items for which prior authorization has been received, attach lens envelope(s), frame envelope(s) and/or fabricating laboratory invoice along with authorization approval, if required, to original copy of claim form and mail to:

The Prudential Insurance Company of America  
P.O. Box 1900  
Millville, New Jersey 08332

Retain the other copies for your records.

3. Invoices will be accepted only from established and recognized wholesale fabricating laboratories.

### 406. PHYSICIANS AND PRACTITIONERS CLAIM (MC-8) (EXHIBIT IV)

This form is used for the purpose of billing for professional services (i.e. diagnostic examinations, medical and/or surgical care) by physicians and optometrists. Do not use Form MC-8 to claim reimbursement for optical appliances and dispensing or service fee.

#### 406.1 Instructions for Completion of Form MC-8 (See Exhibit IV)

- 1-4 NAME, ADDRESS, CASE NO. and PERSON NO. - Copy Patient's Name, H.S.P. Case Number and Patient Person Number EXACTLY as it appears on the monthly Validation Form. (See Section 101.)
- 5-6 Self-explanatory.
7. OTHER INSURANCE OR LIABILITY COVERAGE - If patient has other Health Insurance or Liability coverage, check appropriate block, provide the name and address of the carrier(s), and show amount paid.
8. EMPLOYMENT RELATED - If patient's illness or injury is work related enter name and address of employer.
9. NAME AND ADDRESS OF PROVIDER - (This information may be preprinted).

## OPTICAL APPLIANCE BILLING PROCEDURES

### 10. REPORT OF SERVICES -

- A. Enter date(s) of each visit or surgical procedure.
- B. Place of service (see codes at bottom of claim form).
- C. Enter diagnosis.
- D. Enter description of services rendered.
- E. Enter charge for each service or procedure.

11-12. CERTIFICATIONS - The patient or his authorized representative and the physician or practitioner MUST sign and date their respective certifications before the claim may be considered. The statement should be read to a patient who signs by mark, and witnessed by a person who knows the patient. Enter the name and address of the witness. If the patient is a minor, or cannot sign because of his physical or mental condition, a parent or guardian should sign and indicate relationship.

### 406.2 Medical Groups

The instructions in Section 406.1 apply also to medical groups, but the individual physician rendering each service must complete the provider certification portion (Item 12) of the form.

### 406.3 Mailing Instructions

Mail the Original Copy (Contractor's Copy) together with any authorization forms (where appropriate) to:

The Prudential Insurance Company of America  
P.O. Box 1900  
Millville, New Jersey 08332

OPTICAL APPLIANCES  
EXHIBIT I  
PRESCRIPTION STANDARDS and TOLERANCES

Inspection Routine of Prescription Lenses	Tolerance	Provisions and Testing Procedures
<b>Physical Quality and Appearance</b>		
Surface Imperfections	No pits, scratches, grayness, or water-marks shall be acceptable.	Lenses shall be inspected against a dark background in light from an open-shaded 40 watt incandescent clear lamp with the lens 12 inches from the light source.
Glass Defects	No bubbles, striae, and inclusions shall be acceptable.	
Localized Power Errors	Waves (see provisions).	Waves found by visual inspection shall be passable if no deterioration in image quality is found when the localized area is examined with a standard lens measuring instrument.*
Refractive Powers	0.0 to 6.00 $\pm 0.06$ 6.25 to 12.00 1 percent of power Above 12.00 $\pm 0.12$	Power in each principal meridian shall be measured on a standard lens measuring instrument* at the optical center as specified. Maximum cylinder power variation $\pm 0.12$ .
Refractive Power Addition	$\pm 0.09D$ The curves for the reading and distance portions of a one piece bifocal shall meet sharply and both of these curves, immediately adjacent to the line, shall be free from surface irregularities.	Power of additions must be measured in accordance with instructions below.†
Cylinder Axis	0.12 to 0.37 $\pm 3$ degrees 0.50 to 1.00 $\pm 2$ degrees 1.12 on up $\pm 1$ degree	Axis shall be determined in relation to the cutting or mounting line.
Prism Power and Location of Specified Optical Center	Vertical $\pm 0.25\Delta$ for each lens or $0.25\Delta$ imbalance. Horizontal $\pm 0.25\Delta$ for each lens or $0.50\Delta$ imbalance.	The lens shall be measured at the specified reference point, formerly referred to as optical center. A lens specified without prism shall be treated as a $0\Delta$ lens.
Segment Size	$\pm 0.5$ mm. Pair must be symmetrical upon visual inspection. Trifocal intermediate vertical dimension shall be $\pm 0.25$ mm singly or within $\pm 0.25$ mm paired.	Segment size shall be measured on segment side of lens.
Segment Location	As specified within $\pm 0.5$ mm	Measured from the apex of the bevel to the highest portion of the segment on the concave side of lens.
Thickness	As specified within $\pm 0.2$ mm	To provide best cosmetic effect.
Lens Size		
Rimless	$\pm 0.5$ mm	Lens shape must match. Edges must be straight and smooth and sharp edges must be removed.
Bevel, for plastic frames	$\pm 0.5$ mm	
Bevel, for metal frames	To fit standard specified frame	
Heat-Treated Industrial Safety Eyewear	Tolerance for power, size, etc, shall be as above, except minimum thickness edge or center 3.0 mm.	Shall meet the requirements of American Standard Z2.1-1959.
Heat-Treated Dress Eyewear	Tolerance for power, size, etc, shall be as above, except minimum thickness as follows: Minimum thickness, 2.0 mm	Unmounted lens shall withstand an impact test of a steel ball dropped 50 inches as follows: Notched or drilled—Ball size— $\frac{1}{2}$ inch Beveled—Ball size— $\frac{5}{8}$ inch

\*Standard lens measuring instrument means the recognized type, such as a vertometer or lensometer that measures the vertex power.

†A generalized set of instructions for measuring the power of additions is as follows:

- (1) Place the lens in the instrument with the segment surface against the lens positioning tube.
- (2) Measure the power through the reading portion, focusing on the vertical lines of the target image.
- (3) Focusing on the vertical lines of the target image, measure the power through the distance portion. The measurement through the distance portion must be made as far above the optical center of the distance portion as the measurement through the segment is below the optical center of the distance portion.
- (4) The true reading addition is the difference between the distance and reading portions as measured in steps (2) and (3) above.
- (5) Because of prisms encountered when measuring a strong bifocal through the reading portion, the target may be blurred. To eliminate this, place on the prism holder an auxiliary prism of sufficient power to center the target image.
