### SUBCHAPTER 5. DESIGNATION OF TRAILS TO THE STATE TRAILS SYSTEM

#### 7:5D-5.1 Qualifications for designation

(a) To qualify for designation to the State Trails System, a trail must satisfy one of the following qualifications:

1. The trail right-of-way is owned through fee simple title or held under a conservation restriction or scenic easement by the State and administered by the Department;
2. The trail right-of-way is owned through fee simple title or held under a conservation restriction or scenic easement by a local unit or a charitable conservancy, and access to and use of the trail right-of-way is guaranteed through a legal instrument dedicating the trail right-of-way for trail purposes duly filed with the appropriate county clerk; or
3. The trail right-of-way is owned by the Federal government or State agency other than the Department and there is a written cooperative agreement between the owner agency and the Department designating land or water areas for trail purposes.

#### 7:5D-5.2 Procedure and criteria for designation to the State Trails System

(a) Any Federal or State agency, local unit, private organization or person may submit to the Department a request

for designation of a trail to the State Trails System in accordance with the criteria for eligibility set forth at (d)1 through 7 below. The trail designation request shall also include documentation prepared to support eligibility for designation in accordance with (e) below. The trail designation request shall be submitted to the Department at the following address: State Trails System, Office of Natural Lands Management, Department of Environmental Protection, PO Box 404, Trenton, New Jersey 08625-0404.

(b) The Division, with the advice of the Council, shall evaluate the request for designation and the eligibility of each trail according to the criteria at N.J.A.C. 7:5D-5.1 and this section. If the Division determines that the trail meets the qualifications for designation and the criteria for eligibility, the Division shall prepare a recommendation for the Commissioner's review evaluating the proposed trail's suitability for designation and recommending that the Commissioner approve or disapprove the proposed trail designation.

(c) The Commissioner shall review all trail designation recommendations submitted by the Division and shall take one of the following actions on each proposal:

1. Propose the trail designation and designated uses of the trail as an amendment to N.J.A.C. 7:7D-8.1;

3. Reject the proposed trail designation.

(d) A proposal to designate a trail to the System shall be based on the following eligibility criteria:

3. **Length:** Trails shall be a minimum of five miles in length to be eligible for consideration as scenic trails, but this criterion may be satisfied by segments or components of a group of trails totalling five miles or more. Recreation or connecting trails are not subject to a length criterion;
4. **Multiple Use:** Trails which are managed in a safe and environmentally protective manner to accommodate more than one type of trail use are preferred for designation to those which can support only a single use;

5. **Development and Maintenance Costs:** Trails which require little capital development or reconstruction of areas critical to the purpose of the trail are preferred to those which require extensive time and cost to develop and maintain;

6. **Public Support:** Public input and recommendations from counties, municipalities, private citizens' groups or other persons indicating endorsement of or opposition to future trail designation; and

7. **Environmental Impact:** Trail development will cause minimal erosion or destruction of plant, animal, historic or cultural resources unless no alternative routes are available.

(e) Eligibility for designation to the system shall be determined by the Department based on the submittal of the following documentation:

1. A written narrative description of the trail area and trail right-of-way, including a description of the length, surrounding land use, physical condition, and need for land acquisition and/or development for the proposed trail, and a description of public support of or opposition to the proposed trail;
2. A United States Geological Survey 7.5 minute quadrangle map marked to show the location of the proposed trail;
3. A written evaluation of whether the proposed trail should be designated as a scenic trail, recreation trail or connecting trail as set forth at N.J.A.C. 7:5D-4;
4. A written statement of how the proposed trail meets the qualifications for designation under N.J.A.C. 7:5D-5.1 and the criteria for eligibility under N.J.A.C. 7:5D-5.2(c);
5. A listing and justification of proposed uses for the trail upon designation; and
6. If the person proposing the trail designation is not the administering agency for the trail, a letter from the administering agency supporting the designation proposal.

#### **7:5D-5.4 Repeal of trail designation**

(a) If at any time after the designation of a trail to the System the Department determines that the trail is not meeting its designated uses and/or management objectives and that mitigation measures are not available to bring the trail into conformance with its designated uses and/or management objectives, the Department may propose to repeal the designation of the trail to the System.

that the trail is not meeting one or more of its designated uses and/or management objectives, it may authorize the administering agency to undertake mitigation measures, including temporary prohibition of one or more trail uses. If the Department determines that mitigation measures are not available to bring the trail into conformance with its designated uses and/or management objectives, it may recommend repeal of the trail designation in accordance with the procedure at N.J.A.C. 7:5D-5.4.

The Department may require permittees to take measures to mitigate the impact of proposed projects on designated trails if such measures are consistent with the statutory and regulatory authority governing the permit program.

(c) The Department's review under (a) or (b) above shall assess the following:

1. The location and nature of the proposed project, including the length of time the project is expected to be under construction;

The potential impacts of the proposed project on the trail, including, but not limited to, soil erosion, sediment deposition, degradation of water quality, flooding, safety and health hazards, destruction or degradation of natural, historic or cultural resources, or disruption of scenic values; and
3. Proposed or potential methods for mitigating or remediating the proposed project's impacts on the trail.

(d) The Division, with the advice of the Council, shall review a proposed Department-funded construction project within 90 days of receipt of the project plans from the Department's funding program and shall provide a recommendation on the proposed project to the Commissioner.

(e) The Commissioner shall review the recommendation of the Division made under (d) above and shall take one of the following actions on the recommendation:

1. If the Commissioner determines that the proposed Department-funded construction project will temporarily interfere with the trail right-of-way, the Commissioner may require, as a condition of Department funding, mitigation measures to maintain or relocate the trail and its facilities in a manner consistent with the designated classification of the trail during the period of construction or permanently thereafter; or
2. If the Commissioner determines that the proposed Department-funded construction project will permanently interfere with the trail right-of-way or its uses, thereby rendering the trail unsuitable for its designated purposes, and that no satisfactory remediation or mitigation is possible, the Commissioner may disapprove use of the trail for the proposed project. Remediation for permanent interference with the trail right-of-way may include relocation of the trail right-of-way in a manner consistent with N.J.A.C. 7:5D-5.1 and 5.2.

(f) Emergency measures to protect public health, safety and welfare may be undertaken in the trail right-of-way without prior review by the Department. However, persons or organizations undertaking such measures must notify the Division in writing within 24 hours of commencing such measures.
