2007 State of the State Message

of Governor Jon Corzine

Happy New Year and thank you all for attending today's State of the State Address

Mr Senate President, Mr Speaker, Chief Justice Zazzali, Justices of the Supreme Court, Members of the Legislature, Members of the Cabinet, Governors Florio, DiFrancesco, and Bennett, Honored guests and fellow New Jerseyans,

It is a pleasure to be with all of you

Now let me turn to my purpose today

Let me start by saying, my first year as your governor has been the most remarkable experience of my professional life humbling and invigorating

I must say, I've learned some new things this past year I've learned that rollaway cots aren't really comfortable, that the red knot is a bird, that Asian Long Horned Beetles are a real menace

I've learned more about bear contraception than any person should ever know

And most importantly I've learned that Jersey Girls don't pump gas

It has been, as they say, a most interesting year

Seriously, let me begin by expressing my appreciation to the Legislature for your partnership in the successes we've enjoyed in 2006

I am certainly grateful for the encouragement and support that has come from both sides of the aisle

With all due respect, I've noticed the barbs and bullets can come from both sides as well

That said, I would be remiss if I didn't congratulate Senate President Codey and Speaker Roberts for their invaluable work this year

The substantial areas of progress made in 2006 would not have been possible without them

And it has been a pleasure to work with Minority Leaders Lance and DeCroce

I want especially to thank Senator Bill Gormley who is retiring after 30 years of dedicated public service

You have been a good friend and a worthy adversary, and you often make us laugh

But above all else - Bill - you have been a tenacious advocate for your constituents and for the good of our state

So, as some of you in the Legislature may have heard, I was considering putting my thoughts in a letter rather than giving remarks

I mean, my letter writing has been so effective I figured I could save everyone a trip

But Dick, like St Paul on the road to Damascus, I saw the light and decided I'd best fulfill my constitutional responsibility in person

Seriously, thank you all for being here to review the condition of our state and its future at such a crucial time

As a starting point for my remarks, I was reflecting on the recent loss of President Ford, his important contributions to America and the lessons from his stewardship

With the perspective of 30 years, President Ford is acknowledged as a special leader during a time of deep national turmoil - Vietnam, Watergate, and economic stagflation

He was a leader unafraid to put the common good of the nation ahead of his personal ambition or benefit

He understood well the wisdom expressed by Woodrow Wilson that a leader who spends too much time worrying about his reelection is probably not worth electing in the first place

His selfless, common good philosophy will be essential to all of us as we face difficult decisions to bring closure to the threshold issues of property tax relief and reform, sustained in the context of ethical and fiscal discipline

In those decisions, and with respect to each of our judgments, the common good must be our standard

To that end, the common good is not that of our party, our county, our region, a particular profession or organization, or any other narrow definition

The common good is not about a single issue or interest

It is only about what is best for our nearly nine million citizens for our children, parents, grandparents, neighbors, and friends

Throughout the history of our great state, when our leaders have embraced the common good, our people have seen real progress and enjoyed significant benefits

In 1947, regional and local leaders put aside deeply felt personal interests to forge the compromises that gave us our modern state Constitution

Senator Lance's father, who is now 98 years old, was a leader in those efforts doing what he felt was in the larger public interest just as Leonard and so many of you do today

In 1978, 1998, and again in 2004, governors and legislators overcame intense political challenges to preserve the Pinelands, the Highlands, and to create the Garden State Preservation Trust

In 1976, 1982, and 1991, governors and legislators held their noses and took the political risk of enacting taxes so we could build and sustain the nation's best educational system

And think of what the current generation, circa 2006-07, has already accomplished

We are poised to build the world-class New Jersey Stem Cell Research Institute as well as biomedical research labs across our state

Those investments will cement our position as the medical research capital of America and, in time, improve the lives of all humanity

And let me add, we should build on these historic plans by asking the public in 2007 to approve stem cell research grants

After years of failure and sometimes tragic results in our child welfare system, structural reform and new investments have put us on a track to protect thousands of at-risk children

We licensed more foster homes, trained more caseworkers, and reduced turnover, But, most importantly, adoptions of foster children increased by 124 percent above our plans

Our structural deficit has been substantially reduced, we have made real progress building a budget that matches recurring revenues to expenditures

More budget reforms are needed and we should work this year's budget process with an eye towards greater transparency, multi-year projections, updated aid formulas, and an end to midnight spending

We replenished, grew, and most importantly reformed the Transportation Trust Fund

Those efforts allowed us to invest significantly expanded resources in mass transit and in highway safety, repair, and maintenance

The historic civil union legislation struck a blow for equal justice under the law for every committed relationship

At long last, we passed a clean needle law making good on fifteen years of work by courageous legislators and community leaders to slow the spread of HIV/AIDS including some, like Wynona Lipman, who did not live to see the fruits of their struggles

With equal determination, we should work to implement the thoughtful recommendations of the Death Penalty Study Commission

We've also begun to see the benefits of New Jersey's new strategy for economic growth

We reduced business taxes, began new venture funds and international marketing, and initiated a business-friendly outreach program seeking retention and acquisition of companies, jobs and revenues

These efforts will carry a special focus on supporting women- and minority-owned businesses

Our initiatives to increase transparency in government, strengthen disclosure requirements, and reform governance at the independent agencies have allowed us to continue neutralizing the toxic mix of money, politics, and policy

Although on this topic, there is more to do

I especially want to congratulate Senate President Codey for his proposed steps to strengthen legislative ethics and increase budget transparency

On ethics reform, we should push even further with a ban on wheeling and pay-to-play at all levels of government

From my perspective, it is clear that every time we have allowed long-term thinking and the common good to drive our decisions, we have improved the state of our state

In contrast, when government has sought less when it has pursued objectives based on narrow, stakeholder or regional interests, when it has allowed selfish economic or political motives to dominate decision-making, or when it has been too cautious to embrace political risk, our citizens, and their future have suffered and progress has stalled

I don't need to remind anyone of the sad history at UMDNJ, the School Construction Corporation, or, frankly, far too many situations of public abuse

I need not remind each of us that New Jersey is the only state in the nation still grappling with a structural deficit after four and half years of national economic expansion

Or that we have the fourth highest debt burden per capita in America

By omission and commission, we have not always been faithful to long term thinking or the common good

It is time for this to change

In seeking change from ethics reform to property tax relief we labor under the weight of history, a history that impacts us heavily as I speak today to the state of our state

While recognizing that we have a substantial to do list in many critical areas, we also should not lose sight of the strengths of New Jersey

In many ways, the state of our state is strong and it is far stronger than we often acknowledge

We appropriately talk about our problems, but there is much to celebrate

For instance, Coach Schiano and his classy, wood-chopping Rutgers football team

Or Kerry Close, a bright young lady from Spring Lake, who won last year's National Spelling Bee

From an economic perspective, our household income is the highest of any state

We're an engine of the nation's economic life located within four hours of 60 million consumers, the distribution hub of international commerce, host to the present and future promise of the gaming industry, the medicine chest to the world, and a powerhouse of medical research

We have the highest high school graduation rates in the nation, and 10 percent of all high school students with perfect SAT scores in 2006 came from New Jersey

We are the nation's most ethnically diverse state and a welcoming home to immigrants in both our thriving suburbs and vital urban centers

We enjoy the beauty of the Delaware, clean beaches at the shore, and the excitement of Atlantic City

We have a rich history, from the Crossroads of the Revolution to the Underground Railroad From Thomas Edison to Paul Robeson and Althea Gibson From Celia Cruz to Jon Bon Jovi and Bruce Springsteen

We are home to two members of the United States Supreme Court, the Chairman of the Joint Chiefs of Staff, the Chairman of the Federal Reserve, leading entrepreneurs and venture capitalists, research scientists, and extraordinary working men and women in all walks of life

We ought to be damn proud of this state - I know I am

We are a great state with an even greater future

Even our problems present opportunities

Einstein, who lived and worked in New Jersey, said In the middle of every difficulty lies opportunity

I agree

In facing our most troublesome issues we find our greatest opportunities to improve the conditions of life

I come before you sensitive to the many, many issues that confront our people in their daily lives

Their challenges should be our agenda

I know we must increase health care access and affordability for the 1 3 million uninsured citizens of New Jersey and the millions more that are under-insured

I know we must create stronger academic research capacity and make quality higher education available to more of our students at an affordable cost

I know we need to protect our open space and create more urban parks, particularly in light of the need to ask the voters to renew the Garden State Preservation Trust

I know we need to address the scourge of guns and gang violence with a comprehensive approach for prevention, enforcement, and prisoner re-entry

I know our great urban communities from Newark to Camden, and Atlantic City to Paterson, demand investment and deserve the opportunity to realize the American promise

So from affordable housing to economic development, to high quality pre-school to full day kindergarten, to renewable and alternative energy, to chemical and port security, I know there is no shortage of pressing issues for us to address, sooner rather than later

And my friends, I promise you, we will get there

But today, right now, there is one challenge we must meet

This is an extraordinary moment when we can turn our citizens' greatest burden into the opportunity for a brighter future

The time to act on property tax relief and reform is now

Property taxes are the cork in the bottle that constrains New Jersey's resources and attention and holds back the public's confidence in our future

For today, I don't want to use this time to repeat what I have already said on property taxes it is available at www nj gov

Today, I want to focus my comments on what's on the table - and implore all of us to finish our work

Let me start by acknowledging the obvious - we did miss a self-imposed deadline

But the annals of history are filled with great outcomes born of missed deadlines

Our nation's constitutional convention in 1786 had to be reconvened the following summer because the delegates could not reach agreement

I am not sure who had the harder job - us or them!

Notwithstanding the momentary setback, significant progress has been made, and we have no excuse for not finishing our work and reaching our objective

People in the Legislature, especially on the special committees, worked their tails off over the past six months and I congratulate them

I don't want to play-down what lies ahead - there's a lot of tough sledding in front of us - but we are far closer to a historic, comprehensive agreement than is generally appreciated

It took much give-and-take to get to this point, but the Senate President, the Speaker and I have a broad conceptual agreement on almost every important element of a plan

We agree that we must significantly increase the amount of direct property tax relief on a progressive basis

We agree that we should migrate from checks to credits

We agree that we must cap the allowable increase in the property tax levy

We agree that we must revise the school aid formula and increase the level of funding to reflect the needs of each New Jersey child

We agree that we must reform health care and pension benefits for state employees and public officials

We agree that we must stop the well-connected and self-serving from exploiting benefits intended for career employees

We agree that regular and independent auditing of government spending is both an important fiscal and ethical discipline

We agree that we must do more to incentivize the sharing of services and the voluntary consolidation of government and school units

We agree that we must modernize the archaic civil service laws that impede efforts for governmental cooperation

And that's just 10 things I figured if I went through all 98 it would just confirm that I had actually studied every recommendation

We may not yet be in total agreement on every detail of every issue, but the road we have traveled is much further than the stretch we have left

And I am confident that if we share the burden, we will find the flexibility and courage to go the last mile

I recognize how far we have come on issues and outcomes that were unthinkable just a few years ago - even a few months ago some of this stuff was taboo

Some might have argued it was more likely for a meteor to hit a house in Freehold than for all of us to take on a sacred cow or touch a third rail

Well, the meteor hit, and we are on the threshold

I recognize the sheer dimension of legislation we are considering is overwhelming

Every issue in this debate is substantively complex and politically risky

That said, we all know that New Jersey homeowners bear a regressive $6000 property tax burden that is increasing every year at nearly 7 percent

We must act

We must act now

The common good demands nothing less

Neither I, nor any of us, expect every piece of legislation to be drafted according to our personal specifications

If it were ever appropriate to use the phrase the perfect should not be the enemy of the good, it is in this debate

At the end of the day, we should judge the legislative package as a whole against a single criterion

Does it serve the common good?

That's my yardstick

And by common good, I mean our efforts must achieve the following

- Organization and management reforms throughout government that will create more accountability, oversight, and efficiency,

- Pension and health reforms that will protect the integrity of the benefit system and prove financially viable over time,

- A school funding formula that improves the educational outcomes of all children regardless of their zip code,

- And, yes, significant and sustainable property tax relief for the vast majority of New Jersey homeowners

Now, without reviewing every detail of the proposed package, let me convert the yardstick into specifics

The centerpiece of the relief plan, and the one that matters most in the minds of our citizens, is a direct credit reducing their property tax bill

Under this plan, 1 4 million homeowners making under $100,000 - or 70 percent of all taxpaying households - will see their property tax bill reduced by 20 percent - for an average benefit of slightly over $1,000

An additional 300,000 homeowners - whose income is between $100,000 and $150,000 - will see their property tax bill reduced by 15 percent for an average benefit of slightly less than a $1,000

Finally, 200,000 homeowners - with incomes between $150,000 and $250,000 - will see their bill reduced by 10 percent for an average reduction of $750

All in all, 1 9 million of New Jersey's two million property taxpayers will receive significant property tax reduction

It should be noted that the senior rebate as well as other property tax programs such as senior freeze will remain in place

Let me note that I believe assistance for tenants should also be increased and my upcoming budget will reflect that priority

That is the good news Some might say the easy part

The hard part is paying for it

No one committed to the long-term well being of New Jersey should support a tax relief program without a viable and sustainable financing plan

Enacting tax cuts without a way to pay for them is a recipe for disaster

That would be the type of governance that helped create both New Jersey's structural budget problems as well as the federal government's deficit

The public can have confidence that a sustainable financing plan is a prerequisite for my approval

Our package cannot and will not be built on a one-time election year miracle

Financing the credit program, however, should not be as daunting as it seems

If we are willing to subject ourselves to greater fiscal discipline and some political risk, a sustainable financing plan can be quickly produced

The recently dedicated revenues from the sales tax and the redirected homestead rebates make up the overwhelming majority of the necessary funding

The balance can come from the following

1 Cost savings achieved through regular and independent auditing by a new, non-political state comptroller,

2 Consolidations and shared services,

3 Collective bargaining on pension and health benefits,

4 Asset monetization designed to reduce the state's credit card payments and provide the capacity to make capital investments in the future of our state

But practically and more crucial than any of these important elements is the 4% cap on the increase in the property tax levy

This cap, with limited exceptions and provisions for voter override, is the key to the sustainability of the credit relief

The credits and caps work off each other They are a tandem, like Lewis and Clarke, or Batman and Robin, breaking new ground and protecting the public

Reducing the increase in the tax levy by nearly half - from 7 percent a year to a maximum 4 percent - is a tangible and significant outcome for taxpayers

Combined with the $1,000 reduction most taxpayers will receive and you have a result that people will feel on their bottom line

The 4 percent cap will serve as the public's blind side protection to ensure that the relief we provide is not eaten up in a few short years

The public understands this That is why they overwhelmingly support a cap

The public understands that the cap sustains the value of the credit by breaking the back of the almost 20 years of 6 5 percent to 7 percent average annual tax hikes

Finally, the cap will require all governmental units to prioritize spending decisions and to aggressively search for structural changes that will bring down long term costs, ensuring the sustainability of our efforts

The cap is as essential to the package as the credits are to the public

I can't emphasize this enough, the 4 percent cap is absolutely critical to what we are trying to achieve

But the cap won't produce financing sustainability by itself, we need to take other steps

As noted, we need a non-political and properly staffed state comptroller that provides consistent oversight and accountability of the finances of all units of government

Instead of reading about the Attorney General or the US Attorney cleaning up some mess after the fact, let's actually prevent the mess in the first place

Outside audits work in the private sector, and they will in New Jersey's public sector too

Whether in the Governor's office, or independent agencies, or at the local level, regular and independent auditing of spending and contracts will check waste, fraud, and abuse before it settles into a comfort-zone in our institutions

The comptroller will save us money

It will improve performance

And it will be another step to clean up corruption in our state

Second, we need to think constructively about potential savings from shared services and consolidations

I congratulate Speaker Roberts for his leadership on this topic

Let's not forget that New Jersey has more governmental units per square mile than any other state

We have 566 municipalities, 616 school districts, 486 local authorities, and 792 fire districts and companies

For crying out loud, we have 23 school districts that don't operate a single school

The facts speak for themselves, we should stop talking about this and do something

People understand the power of economies of scale

They shop at Sam's Club and COSTCO

They see cost savings in their private lives, in the economy, and in governments across the country

They see our organizational fragmentation and ask why?

Our job in Trenton is not to jam some edict down the throat of local communities nor dictate who has to merge with whom

No one has that intention

What we can do is encourage the search for savings by creating independent commissions and offices to make recommendations as to which services and governmental units are best suited for consolidation and the sharing of services

Our responsibility is to provide the public with informed choices, to remove legal impediments and to offer financial incentives to defray the up-front costs for deferred paybacks

Ultimately, the choice to merge or not merge - the choice to seek the benefits of economies of scale or to keep the status quo - must come through a democratic process that requires the public to pass judgment on whatever recommendations experts, planners, or politicians might advance

So that's it for credits and caps, the comptroller, and the consolidation elements of the plan, but that's only half the package

Pension and health benefits issues, a new school funding formula and asset monetization are the final pieces of a comprehensive plan to provide the financing and sustainability of the proposed relief

These three issues - like ethics - demand independent attention and would be high on our agenda even if our property tax system wasn't so painfully dysfunctional

First, on pension and health care issues, our career employees, and the public, must recognize that current benefits are financially unsustainable

Without a dramatic increase in taxes or a draconian reduction in services, state and local government cannot meet the benefit obligations on the books

The massive unfunded liability in pension benefits reflects both a failure of government in years past to make required contributions and recent unfunded increases in the benefits themselves

More threatening, health benefits for active and retired workers remain totally unfunded

The system is a pay-as-you-go operation with costs rising nearly 10 percent a year - a problem unique neither to New Jersey nor state government

The amount of the combined unfunded liabilities for pensions and retiree health care may well be in excess of $60 billion - and - growing

The truth is state government and our employees will struggle with this problem for years as we work to gradually fill the holes created by past decisions

As is known, my administration has already started good faith negotiations and discussions with state employees

Many of the recommendations endorsed by the Legislature's special committee are informative to that dialogue

Ultimately, some of the agreements from collective bargaining will need to be ratified by legislation

Without going into specifics, let me say that tough and painful accommodations by all parties are necessary

Collective bargaining agreements are by their nature a package

We should recognize that for employees, pension and health care benefits are not independent of other economic issues like wages, workplace rules, holidays, etc

A change in one factor impacts the outcome in others

The state is committed to a good benefits package and a fair contract, but we need a real sharing of the future burdens if we expect to both realize the promise and assure the long term structural integrity of our benefit plans

The state and its taxpayers have already contributed $1 2 billion to the pension fund this fiscal year - more than all the contributions in the past decade combined

We are taking our responsibilities seriously

And, we have shown our commitment to collective bargaining

But structural changes need to be negotiated through good faith bargaining and discussions, and soon

If good faith efforts fail, we will have to revisit these topics in other forums

Outside of the collective bargaining process - padding, tacking, boosting, and dual office holding should be ended statutorily, whether we save one dollar or ten million dollars

These reforms were no-brainers last July and they still are - even if they are only done prospectively

And we must have stronger laws regarding the mandatory forfeiture of pensions for anyone convicted of abusing the public trust - whether they are elected officials or public employees

We should acknowledge that professional service providers who are retained by contract are not public employees

Our policies should reflect the distinction between those who merely perform a service for government and those who work for the government

Like ethical transgressions, benefit abuses by the few poison the atmosphere and erode the credibility of government - and they must be ended

Moving on, property tax bills in many communities are largely, and appropriately, driven by the requirements of educating our children

As most New Jerseyans know, school funding over the last decade has primarily been dictated by State Supreme Court decisions as a result of our collective failure to adopt and fund an acceptable formula

My administration and members of the Legislature are committed and focused on developing a new formula as soon as possible

Our efforts on school funding are driven by five overarching goals

First and foremost - we should determine school aid on the basis of what is needed for each child to achieve quality educational outcomes

Second - we should distribute school aid more broadly across the state in order to help more of our communities finance the cost of education

Third - we should recognize that our formula must account for economic and demographic differences

Fourth - school spending must come with greater accountability

Finally - the timing

We all want a new formula as soon as possible, but structuring it right while meeting Constitutional and educational muster is the first order priority

Our proposal is still being refined and before a new formula is adopted, education experts, teachers and administrators, elected officials, parents, and the public will all have an opportunity to comment

Whatever we do, we must keep and enhance the nation's best school system

Let me end my comments on the financing plan by touching on the issue of asset monetization - truly another bottle, with a cork to be removed

Of all the issues before the Administration, the Legislature, and the public, this one bears the greatest potential - if not the greatest complexity - in allowing us to achieve a multitude of policy goals

The potential is that we literally restructure the state's finances by paying down billions of dollars of debt and, in turn, free up billions of dollars of cash flow for capital investment

In the property tax context, if we pay off the state's credit card bills and reduce the size of our mortgage, we can restore our financial credibility, and use existing tax receipts to pay for services and tax relief rather than principle payments and interest charges

The challenge is the risk that we receive too low a price for the assets, we set terms and conditions that do not sufficiently protect the state's or the public's interest or, worst of all, our reinvestment choices squander the proceeds

Working together, I'm confident we can establish a framework for asset monetization that preserves the high standards of safety, service, and maintenance that the public expects

If we can't, we should not proceed

I believe we can implement a reasonable and predictable schedule to control the price of services over time

If we can't, we should not proceed

And I believe we can maintain an important role in the governance of potential assets to be monetized

If we can't, we should not proceed

Most importantly, if we do proceed, under no circumstances will asset monetization proceeds be used as a one-time budget fix to cover routine operating expenses

Proceeds will only be used for debt relief and capital investment

We have retained a financial advisor under the direction of Treasurer Abelow, and we are in the process of analyzing multiple options and scenarios

At this point it is premature to say anything more - except that I expect a report in the months ahead and, when we have that report and its recommendations, we will be prepared to discuss and debate the issue in full

So my friends, that's the package And it's a comprehensive package

Its sustainable

It puts the common good first

And it will work in year one, year two, and beyond

It will work for the very reason it is so hard - because it shatters the status quo

The responsibility to act and to deliver now falls to us - the elected representatives of the people

Talk of property tax relief and reform has been around Trenton for 20 years

At some point, there is an obligation to do more than just talk

That time is now

We, the elected representatives of the people, should not pass these decisions onto the next Legislature or governor - or the next generation

The challenge is our responsibility

If we stand down - if we are unable to bring closure to our efforts - we should ask for a constitutional convention this fall

Regrettably, I don't see another choice

The status quo may be comfortable, even beneficial, for some

But the status quo is not working for the majority of the people in the state of New Jersey not by a long shot

New Jersey needs change

We have the power and the opportunity to deliver that change

We must act

As I close with a plea for action, I am reminded of the cadet maxim from West Point that is spot-on for our work in the weeks ahead

"Risk more than others think is safe Care more than others think is wise Dream more than others think is practical Expect more than others think is possible "

The ball is in our court It's time to finish

To the public I ask, hold us accountable

The Clerk read the following message from the Governor

Conditional Veto of Assembly No 17

Ms Watson Coleman moved that the message be spread in full upon the Minutes

Which motion was adopted

ASSEMBLY BILL NO 17

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 17 with my recommendations for reconsideration

This bill seeks to eliminate various State mandates imposed on public school districts I commend the sponsors of this bill for their efforts in responding to Recommendation 26 of the Special Session Joint Legislative Committee's December 1, 2006, School Funding Final Report, calling for the elimination of a variety of unnecessary State mandates The bill rightfully eliminates several unnecessary mandates and gives school districts the

flexibility needed to conduct business in the most effective and least costly manner

I further agree with the removal of State mandates requiring public schools to commemorate a variety of holidays, leaving commemoration decisions to be made by the school districts themselves Nonetheless, I am concerned with including Memorial Day and Veterans' Day among the list of those holidays whose observance is left to local discretion Given the past sacrifices of our veterans and the sacrifices now being made by those serving in the Armed Forces, especially the sacrifices of those who gave their lives in service to their country, it is imperative that New Jersey school children be reminded of those valiant men and women who have demonstrated their patriotism, love of county, and willingness to serve and sacrifice for the common good I am further concerned about the bill's removal of the observance of President's Day, Columbus Day and Commodore Barry Day, each of which serves as needed recognition of the many great leaders who have helped form this nation

Accordingly, I herewith return Assembly Bill No 17 and recommend that it be amended as follows

Page 7, Section 5, Line 1	Delete "Washington's Birthday, Memorial Day,"
Page 7, Section 5, Line 2	Delete "Columbus Day, Veterans Day," After "Thanksgiving Day," insert "and" After "Arbor Day" delete ", and" and insert " "
Page 7, Section 5, Line 3	Delete "Commodore Barry Day "

ASSEMBLY BILL NO 2282

(First Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No 2282 (First Reprint) without my approval

This bill would repeal the cosmetic medical procedure gross receipts tax statute that was enacted in June 2004 as part of the Fiscal Year 2005 budget process Since its enactment, all revenues collected from this tax have been deposited into the Health Care Subsidy Fund to support annual charity care payments to hospitals for medical services provided to individuals who require treatment, but cannot afford to pay for it To date, the tax has generated more than $22 million for charity care

The statute defines a taxable "cosmetic medical procedure" to include any medical procedure performed on an individual that is directed at improving the procedure subject's appearance and which does not meaningfully promote the proper function of the body or prevent or treat illness or disease The statute includes exceptions from taxation for reconstructive surgery or dentistry, including surgery or dentistry performed on abnormal structures caused by, or related to, congenital defects, developmental abnormalities, trauma, infection, tumors, or disease, as well as procedures to improve function or give a more normal appearance As required by the statute, the tax is paid by the subject of the cosmetic medical procedure, and is collected from the procedure subject by the person billing the gross receipts from the procedure when collecting the payment for the procedure This bill would repeal the tax effective on the first day of the second month following enactment

I commend the sponsors of this bill, and the Legislature as a whole, for their ongoing efforts to work cooperatively with the State Treasurer, my administration, and me as we continue our efforts to restore fiscal integrity to the State of New Jersey As I emphasized last March in my budget message and recommendations, the current budget represents an important first step in a multi-year process of re-establishing prudent management of the State's finances The Fiscal Year 2007 appropriations act reflects necessary fiscal discipline by matching ongoing expenditures with recurring revenues in a realistic manner Nevertheless, the State continues to face formidable fiscal challenges, including a projected budget gap for Fiscal Year 2008 that could be as much as $2 billion

As we prepare to begin the budget process for Fiscal Year 2008, it should be recognized that, as was the case in 2004 when the cosmetic medical procedure tax was first enacted, the State continues to require reliable, recurring sources of revenue to support charity care and other worthy programs that improve the lives of people in New Jersey The revenues generated by the cosmetic medical procedure tax, while somewhat less than

the original revenue forecast in 2004, are nevertheless recurring and dependable In Fiscal Year 2006, the tax generated over $10 million to support charity care For the first two quarters of Fiscal Year 2007, the Division of Taxation has collected over $5 million from this tax, and anticipates total collections in excess of $10 million for the entire fiscal year, if the tax is not repealed In this context, I cannot support repealing this tax, midway through the fiscal year, without establishing an alternative revenue stream to support charity care

I believe that legitimate questions concerning what is, or is not, an appropriate revenue source to support an essential State program should be considered as part of the overall budget process, prior to enactment of the annual appropriations law At that time, mutually agreeable accommodations can be made to ensure appropriate funding levels for all essential programs within the means provided by predictably recurring State revenues I look forward to the day when the finances of the State of New Jersey are sufficiently sound and stable to allow a comprehensive review of all revenue sources At that time, I will gladly work together with the Legislature to repeal, scale back, or phase out any taxes determined to be unnecessary

Accordingly, I herewith return Assembly Bill No 2282 (First Reprint) without my approval

Respectfully,
Jon S Corzine
Governor

Senate President Codey Speaker Roberts Majority Leaders Coleman and Kenny Minority Leaders Lance and DeCroce Chief Justice Zazzali Justices Long LaVecchia Wallace Rivera-Soto Alben and Hoens Former Governors Brendan Byrne Jim Florio John Bennett Members of the Cabinet Distinguished Guests My fellow New Jerseyans Good morning

Thank you, President Codey and Speaker Roberts for allowing me to deliver my address five days early

As you know, after last year, we need the extra time with this process

I'd like to start today with a simple thank you to all the members of the legislature -- and to the retiring members in particular

The last 15 months have had their moments They haven't always been easy

We have dealt with a lot

I think we all know there's more to do -- a lot more that we have to take on and face

And I'll talk about that in a moment

But let's get to the budget

As you know, a budget is more than just a set of numbers

It touches on every aspect of every life in our state

It's inevitable that when we talk about the budget we talk about the challenges people face

But amidst all the fiscal terms -- unfunded liabilities, structural deficits, and monetization -- let's not lose sight of WHY budgets matter

They matter because they impact peoples' lives today, tomorrow, and far into the future

That said the proposal I will present next week I believe is a very good budget for the people of New Jersey

It confirms the Legislature's and my commitment to meaningful property tax relief

It does this in the context of the fiscal principles we established and fought for last year

It's financially disciplined and restrained

It's responsibly balanced with honest numbers

We don't rely on any strategies that mortgage our future

It's the first budget in six years with no new taxes or tax increases

In fact, the only tax change proposed is a tax cut -- a progressive cut for almost 300,000 working families I'll come back to that

This budget provides the largest increase in direct property tax relief in New Jersey history And the first real increase in school and municipal aid in a number of years

Finally, this budget preserves the safety net for the most vulnerable in our society -- our seniors, the poor, the mentally ill, and the physically disabled

After last year, some, might label this budget boring

I heard the Senate president say "boring is good "

I suspect that nowadays in Trenton boring is good

So, let me quickly review the numbers First and foremost, this is a property tax relief budget

The credit program is fully funded

1 9 million of 2 million property taxpayers will receive an average of $1,000 in relief -- $750 of which is new money

Half a million tenants will see their $75 checks increased to as high as $350

Year over year, there's $580 million more in aid to education

For the first time in many years, aid to every single school district will be increased

New aid will be dedicated toward educational priorities that focus on the individual needs of children

In particular, non-Abbott communities with high concentrations of children living in poverty will receive more funding

And there are new incentives for full day kindergarten and expanded pre-school

Our focus on individual children is conceptually consistent with the new funding formula being developed for the FY '09 budget

Finally for the first time in three years, there will be an across-the-board 2% increase in municipal aid

Over 80% -- or more than $1 8 billion -- of all new spending in this budget reflects our mutual efforts to provide more property tax relief and more aid to schools and local governments

The overwhelming majority of the remaining new spending is driven by the cumulative impact of obligations created over the last 15 years

Specifically, the budget contains $730 million more than last year to meet healthcare costs for state workers and retirees contractual salary increases court ordered Abbott and child welfare funding and Medicaid increases, federal mandates, or offsets to federal cutbacks

Reflecting fiscal realities This budget regrettably has few new initiatives -- although the painful spending cuts we saw last year are limited

I must say, it's frustrating to have so few financial resources to invest in our future

I didn't run for public office to be a number cruncher or to play scrooge - although I suspect some of you thought I did

Like so many of you, I sought to serve because I care passionately about making New Jersey a better place for our families and communities

So recognizing the constraints I've made an allowance of roughly $100 million for new initiatives that will have both short- and long-term paybacks

There is $9 million for the new comptroller's office to root out waste prevent fraud and reduce spending

There is -- $20 million for a consolidation fund to provide meaningful incentives for schools and local governments to share services and reduce costs -- an idea promoted by Speaker Roberts

There is $10 million for stem cell research grants -- and $5 million for autism

And finally, as part of a broader anti-poverty initiative we are seeking $64 million to raise the threshold to $40,000 for Earned Income Tax Credits

Today, New Jersey cuts off EITC eligibility at $20,000 - the only state that matches up with the federal government in doing this

This change will mean almost 300,000 working families will receive a double tax cut -- one from New Jersey and the other from Washington

Considering our tough budget last year, I'm very pleased we could fund these modest, but important, initiatives

Still I'm almost embarrassed to highlight them because they are a fraction of what we really should be doing

So let me summarize the spending

In short almost 50 cents of every dollar in this $33 billion budget goes to property tax relief

That's a total of $16 6 billion Let me repeat - $16 6 million of the $33 million budget goes to tax relief

Overall spending is up 7 2 percent from last year -- or $2 2 billion

However, setting aside the growth in property tax relief and the increases in school and municipal aid which really go into that package spending is up a mere 2 percent, year over year

Let me repeat less than 2%

Now, let me break down and explain how we pay for this net $2 2 billion in new spending

First, $665 million is a non-recurring use of the dedicated FY '07 half penny

We've benefited from two years of value in this budget -- which I know and you know will be an issue in FY '09

Second, $670 million is a result of stronger FY '07 revenues -- coupled with spending restraints and efficiencies that built up surplus

This came from a lot of hard work from a lot of people

400 -- or one-half -- of all political appointees were eliminated Head count was reduced by 1,300 across government -- even as we added staff for Homeland Security, Children and Families, and the Public Advocate Technology improvements paid dividends New furniture and office space purchases were suspended Travel and promotions were -- and still are -- frozen 1,200 state cars were auctioned And we began an energy conservation program that has already produced savings

All these actions have lowered the cost of doing business, and will be pursued vigorously in the '08 cycle

Third, an additional $150 million was saved through better management of state debt, minor spending reductions, and initiatives like improved debt collection

Finally, our '08 budget includes almost $750 million projected revenue growth as a result of strong economic expansion

Growing our revenue base is part of our long-term strategy to stabilize the state's finances

It's also fundamental to our economic objectives and the well being of the people of our state

It's why we are giving so much focus to creating a better business climate

Although we're far from taking a victory lap, we have had some great wins

Campbell's Soup Bayer Pharmaceutical Unilever Citigroup and Verizon, among others, are all making significant New Jersey expansions --with good, high-paying jobs

And there are others in the pipeline

So that's the budget -- it's pretty much as expected -- $33 billion spent, $33 billion raised

Those are the facts so let's talk about the future

The real news of this budget isn't what's in it but rather what's not and what will NEVER be in future budgets unless, together, we do something to further restructure the state's finances

Spending for individuals with mental illness and developmental disabilities is up but only a fraction of what is truly needed to provide proper care and housing

Just consider the tragedies at Ancora in the last six months

Autism rates among children in New Jersey appear to be the highest in the nation but we've only touched the surface of the necessary response

Hospitals are treating more and more of the uninsured but we haven't been able to increase charity care funding

In fact, the only items that are fully funded are mandatory costs over which we have little discretion

The constant focus on short term priorities without consideration of long-term costs has led to financial decisions that hang over the state today, tomorrow, and far into the future

We must break with the patterns of the past

To do that, we need to build greater public confidence in the actions of government -- especially when it comes to transparency and accountability of the purse strings

We have tough choices coming And the public needs to trust that we are working for them not ourselves not our friends not for anyone else

We have to openly debate and defend our priorities, choices, and decisions That's what politics is about

And to be more precise, we have to put an end to the midnight spending sprees

I applaud President Codey for the steps he has proposed to bring greater openness to the budgetary process

To reinforce those efforts I am sending a letter today -- it's another one of those letters from Paul to the Epistles, Dick (Codey) - to the legislative leadership of both parties, outlining further steps to build public accountability -- including in the executive branch

Specifically, the legislature's proposed budget should be available for public review seven days prior to final passage

In addition, the executive branch needs three days after passage to actually study what's in the budget We need a thorough budget review

And, finally, treasury will prepare a "Budget in Brief" that summarizes the enacted budget just as it does for the Governor's proposal -- so the public can see how we're actual appropriating their money

The Codey package of reforms plus my recommendations should be implemented this cycle

Together, let's open up the process Let's straighten this out for all time's sake

Now if our only objective was to meet the constitutional obligation to balance revenues and expenditures

Our job would be hard but not impossible

What is becoming impossible is to balance the budget consistent with the letter and the spirit of the constitution meeting mandated and committed costs while still making necessary investments for our future

Let's examine history to see why

Right or wrong, in the '90s, the state issued bonds to fill an unfunded pension liability -- and then took a 10-year holiday from making contributions

Right or wrong, in this decade, the state borrowed against the tobacco settlements to balance its operating budget

Right or wrong, in both decades, the state provided employee benefit enhancements and undertook borrowing -- for important things like school construction -- without any means to finance the carrying costs or pay back our borrowed obligation

As a result of these kinds of decisions

The unfunded liability of today's pension system is nearly $25 billion -- and our unfunded healthcare liability approaches an incredible, mind boggling $80 billion

If that weren't bad enough we remain one of only six states with a structural deficit --after four and a half years of national economic expansion

And our debt burden, per capita, is the third highest in the nation

As serious as these financial challenges are

The problem goes beyond how money was raised, spent, or promised

We are paying huge sums of money every year to meet court orders on Abbott and child welfare because responsibilities to the most vulnerable were neglected

Not only have children suffered unnecessarily

Our failure to invest appropriately has cost more in the long-run than to have done it right in the first place

Unfortunately, I fear we are perilously close to additional court-ordered mandates We have to change

Yes we've started to wean ourselves off the gimmicks and borrowings that were used to meet the letter of our constitutional obligations

We've stopped the annual raid on the unemployment insurance fund

And we ended inappropriate bonding

Because of spending controls, the half penny, and fewer uses of one-shots, the structural deficit has been reduced -- for the moment

But like Freddy Krueger --- it'll be back

Next year, we estimate we begin the budget season $2 5 billion in the hole -- give or take a few dollars

This year, we're in the eye of the hurricane It's kind of calm

But no one should let the calm of the '08 budget lull them into a false sense of security

Just look at the mandatory cost increases we face

In the next five years, total debt service will increase from $2 7 billion to $3 4 billion, assuming expected borrowing for school construction, open space, and stem cell research

Healthcare costs for state workers and retirees are projected to double -- from $1 4 billion to $2 8 billion in five years

Post-retirement medical costs for teachers are expected to more than double -- from $750 million this year to $1 8 billion in just five years

Fortunately, people are living longer that's a good thing

But it means pension liabilities are increasing faster

It also means that in five years, our required pension contribution will be $3 3 billion instead of $1 3 billion today

Let's get real -- there is no way to close the structural deficit with the avalanche of growing fixed costs that hang over the state

It's just not going to happen unless we change

So we have choices to make tough choices

We can continue struggling every year -- scraping by with duct tape and baling wire, and pulling together no frill, investment-free budgets

Or we can change course

Keep in mind we have one of the best performing public school systems in America

We have one of the most educated, best trained workforces

We have an expansive transportation and mass transit network

We have the highest median income in the nation

I could go on but some future Governor standing here isn't going to be able to make those statements, if we choose a path of just "getting by "

If we want universal pre-K and kindergarten where are the resources?

If we want to build new schools and expand higher education facilities where are the resources?

If we want to build mass transit in South Jersey where are the resources?

If we want to revitalize brownfields, purchase open space, and ensure compensation for highlands farmers where are the resources?

Again I could go on

How can we do any of these when future revenues are already spoken for?

We all have a vision for a brighter New Jersey but today we can't afford the investments to make our vision a reality

To a large degree, this year's budget was decided well before I became governor

We need to make choices that will change old paradigms so that future budgets are not tied up in knots

One choice is to stand pat -- just chip away at the structural deficit, and resign ourselves to a more limited future

A second choice is to raise taxes -- and there are a lot of unattractive options on this path that could well erode New Jersey's competitiveness and make our state less affordable

We could raise the top income tax rate even higher

We could push more middle class families into higher tax brackets

We could expand the sales tax to professional services

We could increase the gas tax

Need I go on?

If tax increases are the way, we can probably find an option or a series of options that can generate the revenue to make some, but not all of the investments we need that's what we have done in the past

But I ask, what is the net effect for the people of the State of New Jersey?

A third choice is to lay off thousands of state workers and dramatically cut services where no legal mandates exist

This means people who work in areas where the state has some "discretion" -- healthcare personnel, prison guards, environmental officers, motor vehicle workers, and state police among others

Consider every thousand workers laid off potentially saves $50 million per year

So to fund $500 million, we would need to lay off ten thousand workers

You get the math Not very pretty

Or we can search for other ways to raise the revenue needed to restructure the state's long-term finances

Some would suggest VLT's or Keno -- and we're looking at them --- but no one suggests these activities would solve the problem by themselves

So we pretty much know the impact of more tax hikes or massive layoffs -- and we can all handicap the likelihood of either happening

The one option that is new and that we are now studying is asset monetization

It's something that has been implemented in other states and, I can assure you, successfully around the globe

I think it's fair to say that most governmental entities across the country, led by Democrats and Republicans, are examining its feasibility and appropriateness

The economic potential from restructuring the state's interest in our asset portfolio is too significant to ignore whether that asset is the Turnpike, the lottery, naming rights, air rights, or whatever

Potentially, asset monetization could reset the state's finances by dramatically reducing our debt burden, and consequently reducing debt service

Monetization could free up as much as a billion dollars or more in every year's budget -- long into the future

Just look at what debt service is doing to the state budget today

It consumes every dollar brought in from corporate taxes

We spend twice as much to pay investors as we do to support student aid charity care prescription drugs and parks -- combined

The debt service payments made every year could more than fund the universal health care initiative that I'm working on with Senator Vitale

I know a number of others have other concepts that they want to promote

Asset monetization gives us the potential to reduce our crushing debt burden -- and meet New Jersey's long-term capital needs in a way no other alternative provides

Now let me be clear

Borrowing to meet operating expenses is a terrible idea -- right Leonard (Lance)?

And transferring an interest in a state asset to fund operating expenses is worse

And it is not under consideration I repeat It is not under consideration

What we have done under the guidance of Treasurer Abelow and Commissioner Kolluri is undertake a thorough and intellectually rigorous analysis of public-private partnership structures or public ownership options

Make no mistake -- with any proposal we would insist on protective conditions

If we can't ensure that the high standards of operations and maintenance will continue we won't proceed

If we can't ensure public safety will be maintained we won't proceed

If we can't ensure the state will maintain oversight in the governance of the asset we won't proceed

If we can't ensure that price increases will be predictable and reasonable we won't proceed

Today, I'm not ready with recommendations to you all

(I hope you can understand we've been a little busy)

When we are ready, we'll be back with a very detailed proposal

We intend to give asset monetization, and all its derivatives, the same level of serious focus we've given to property tax relief and reform

To take this option off the table is to accept some combination of hand-to-mouth budgets without capital or social investments long into the future

Whatever choices we make, I think it's time for a new paradigm for the state's fiscal future

So that's the budget for 2008 and a perspective on our financial future

But before I close, let me touch on some unfinished business

Yesterday, the state reached a tentative agreement with our public employees

The agreement reached is the result of the collective bargaining process -- one I am committed to and deeply respect

These were not easy negotiations -- not by any stretch

But the outcome was a sea-change in public employee bargaining

I suspect that both sides found the outcome less than ideal

But bargaining requires give-and-take -- and this agreement represents compromise on both sides

It creates a defined contribution pension plan for new state, municipal, and educational employees with earnings above $97,000

We'll be the first State in the Northeast to make this change

It also increases the retirement age for new employees to 60

Both of these changes only apply to new hires because existing hires have non-forfeitable rights that were obligated by court decisions and statute and confirmed by case law

The agreement calls for progressive healthcare contributions by state employees

It includes plan-design changes that should both benefit employees and cost the state less

Our public employees will make additional pension contributions

And the state will contribute at least $1 billion to the pension fund for the next three years at least

The agreement contains wage increases of 3% in each of years one and two of the contract -- and 3 5% in years three and four

It also includes workplace and grievance rule changes changes to pension governance and a more precise definition of "essential employees "

While the agreement will produce savings this year, the real benefits will be felt over the next two or three decades -- long after all of us are gone -- and will result in hundreds of millions of dollars of savings

Over the long run, this agreement will protect the stability and solvency of the benefit structure for taxpayers and public employees alike

I want to acknowledge the goodwill and hard work of all our public employees -- and thank those at the bargaining table who chose to make it happen

Our career employees serve our people well and should be commended for a job well done

I also want to thank Senator Scutari, Assemblywoman Pou, and other members of the pension and health benefit committee who worked for months to frame the issues that led to this agreement

Now

We all have to pull back and work together to turn these agreements into law, by revisiting the still pending proposals from the special session

The same reforms that emerged from collective bargaining need to be applied to elected and appointed officials in a consistent and coherent manner

It has always been clear to me that career employees were not the source of benefit abuses that have so infuriated the public

Applying these negotiated reforms across the board to all public officials and employees will eliminate most -- if not all -- of the most egregious abuses of the system

Now that we have established a pension and benefit reform package, we have two additional topics to address

Each has been long debated and is well understood by the public

Dual office holding is an obstacle to achieving the common good I think we all desire

I cannot tell you how strongly I feel that we need to end this now

To that end

I am pleased to announce that Speaker Roberts and President Codey have made a personal commitment, and I to them, that a ban on dual office holding will be passed and sent to my desk before it's time to sign this budget

This is a reform that is long overdue -- as are bans on pay-to-play and wheeling

If we're truly serious about restoring the public's trust in government about restoring their trust in us it's time to act on these reforms sooner rather than later

So let me close -- you can wake up and get ready to go home

The budget I present to you is in far better shape than it has been in years

There are no new taxes and no old gimmicks

There is more direct property tax relief than ever

Schools and local governments are finally receiving overdue aid

But when we look to the long-term, I acknowledge the situation is filled with challenges

Now is the time to change the paradigm

Now is when we should decide to build the capacity to invest in New Jersey's future

We demonstrated on property taxes, regardless of how others categorize it, we can take on tough tasks and make progress

We must demonstrate on ethics that we can end the toxic mix of money and politics

The public has entrusted all of us to choose and chart a way forward

A hero of my youth Dag Hammarskj said it best "Only he who keeps his eye fixed on the far horizon will find the right road "

Let's stay focused on that far horizon

And let's find a path to a tomorrow that's worthy of a state as great as ours

The Benediction was delivered by Bishop Lemmie N Forbes, of the Faith Based Temple, in East Orange, New Jersey

Ms Watson Coleman moved that the message be spread in full upon the Minutes

Which motion was adopted

ASSEMBLY BILL NO 1016

(Second Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No 1016 (Second Reprint) with my recommendations for reconsideration

This bill would authorize the creation of a new nine member regulatory board within the Division of Consumer Affairs, Department of Law and Public Safety The new board would regulate "Heating, Ventilation, Air Conditioning and Refrigeration Contractors" throughout the State

I commend the bill sponsors for their concern with consumer safety and quality assurance in a field that impacts virtually every citizen in this State However, I have several concerns about this bill as drafted

First, the definition of HVACR includes the repair and maintenance of "flues and patented chimneys " As written, the bill would force those in the Chimney Guild to discontinue practicing their crafts unless they take an exam and are licensed to do refrigeration, heating and air conditioning I suggest the bill be amended to exempt those in the chimney guild, much in the same way that the bill presently exempts architects, engineers, electricians and plumbers

Also, under Section 13 of the bill, eligibility for the Master HVACR contractor's license requires that the applicant be employed in the HVACR contracting business for the five years preceding the date of the application The bill explains that three of those five years must be spent as a journeyperson or licensed plumber The bill further explains that four of the five years must be spent in an HVACR apprenticeship or other approved apprenticeship program This needs clarification As written, it would take the applicant at least seven years to be eligible to take the Master HVACR exam – rather than five I suggest that this section be amended to mirror the Master Plumber's Licensing Law (N J S A 45 14C- 15(b)), which allows the five-year pre-exam training requirement to be satisfied with one year as a journeyperson along with four years as an apprentice

Moreover, the bill allows an individual with a four-year degree in HVACR technology to apply for a Master HVACR license after three additional years of field training I see this requirement as unnecessarily demanding since an applicant seeking to be a Master Plumber after obtaining

a four-year degree in that area could take the exam after only one year of field training The two sets of requirements should be consistent

The bill also has what I believe to be an unintended negative effect on programs currently offered at trade schools and community colleges Currently, several trade schools and community colleges offer one- and two-year HVAC programs As written, the bill would not provide any credit toward a license for completion of such a program I propose amending the bill such that completing an HVAC program at a trade school or community college would result in the applicant receiving two years worth of credit toward filling the bill's apprenticeship requirement As a result, instead of being compelled to complete four years as an apprentice and one year as a journeyperson after having already completed an HVAC program at a trade school or community college, an individual having completed a trade school or community college HVAC program would need to complete two additional years as an apprentice and one year as a journeyperson before being allowed to take the Master HVACR exam

Lastly, there are also problems with the insurance section of the bill The last paragraph of Section 24(b) of the bill provides that "every certificate of insurance required to be filed with the board pursuant to this section shall provide that cancellation of the insurance shall not be effective unless and until at least ten days notice of intention to cancel has been received in writing by the board " I am advised that insurance producers could not comply with this requirement as general liability insurance policies issued in this state do not provide for notice of cancellation to anyone other than the policy holders, and certificates of insurance cannot amend the policy terms Thus, I suggest the removal of the last paragraph of Section 24(b) from the bill

Accordingly, I herewith return Assembly Bill No 1016 (Second Reprint) and recommend that it be amended as follows

Page 3, Section 2, Line 21	After "cabinet heaters," insert "or"
Page 3, Section 3, Line 22	After "coil units" delete ", flues, or patented chimneys"
Page 6, Section 8, Line 7	After "electrical contractors," delete "or"
Page 6, Section 8, Line 7	After "master plumbers," insert "or any chimney service professional registered as a home improvement contractor with the Division of Consumer Affairs,"
Page 7, Section 13, Line 22	After "license " delete "Three" and insert "One"
Page 7, Section 13, Line 31	After "by the board " insert "Successful completion of an HVAC program given by an accredited technical school, trade school, county college or community college shall satisfy two years of the minimum four years that must be spent in an approved apprenticeship or other training program "

Page 7, Section 13, Line 36	After "for" delete "three years" and insert "one year"
Page 7, Section 13, Line 40	After "for" delete "five" and insert "three"
Page 11, Section 24, Lines 4-8	Delete "Every certificate of insurance required to be filed with the board pursuant to this section shall provide that cancellation of the insurance shall not be effective unless and until at least 10 days' notice of intention to cancel had been received in writing by the board "

Respectfully,

Jon S Corzine

ASSEMBLY BILL NO 1044

(Fourth Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No 1044 (Fourth Reprint) with my recommendations for reconsideration

This bill would require private employers with 100 or more full-time employees to provide employees, union representatives and certain government officials with at least 90 days notice prior to any "mass layoff," "transfer of operations," or "termination of operations," as defined in the bill

An employer's failure to provide notice in accordance with the provisions of the bill would result in the employer paying severance pay to each full-time employee that is equal to one week's pay for each full year the employee worked for the employer The bill further provides that the amount of the severance would be calculated based on either the average regular rate of compensation received during the employee's last three years of employment with the employer, or the final regular rate of compensation paid to the employee, whichever rate is higher The bill would require the severance pay to be in addition to any other severance pay provided by the employer to the employee pursuant to a collective bargaining agreement or for any other reason The bill would also authorize the employee, or a representative, to initiate suit in Superior Court to enforce these protections

I commend the sponsors for crafting a bill that seeks to balance the needs of both employees and employers and to address shortcomings with the federal Worker Adjustment and Retraining Notification Act, 29 U S C § 2101 et seq ("WARN Act") It is imperative that employees, union representatives, and governmental officials be provided notice prior to any mass layoffs or plant closures or transfers Advance notification will allow public officials, employees, and their representatives to bring their energies to bear to save or restructure going concerns, or, in the alternative, afford government the lead time necessary to implement job training and other workforce programs in a timely fashion However, employers benefit from consistency with respect to notification laws of this type In this respect, it is important to note that, under

the federal WARN Act and under the laws of other states that have adopted their own plant-closure mandatory notice laws, employers are required to provide at least 60 days notice

While I strongly encourage all employers to provide employees with as much notice as possible, and I support efforts in the Congress to lengthen the minimum notice provided under the WARN Act from 60 to 90 days, I recommend that New Jersey use the notification period that currently is in use in all other states – 60 days I further recommend that this notice period be automatically extended to match any extension that may be made in the notice period under the WARN Act

Accordingly, I herewith return Assembly Bill No 1044 (Fourth Reprint) and recommend that it be amended as follows

Page 3, Section 2, Line 43 — Delete "90" and insert "60 or the period of time required pursuant to the federal Worker Adjustment and Retraining Notification Act, 29 U S C § 2101 et seq , or any amendments thereto, whichever is longer"

Respectfully,

Jon S Corzine

ASSEMBLY BILL NO 1698

(Second Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Bill No 1698 (Second Reprint) with my recommendations for reconsideration

This bill would require tax preparers engaged in the business of assisting with or preparing federal or state income tax returns to follow certain guidelines The bill requires that tax preparers meet certain standards of conduct, including providing clients with copies of documents requiring their signature, maintaining confidentiality, and completing client tax returns in a prompt and accurate manner The bill also provides much needed regulation in the area of "refund anticipation loans," which often employ usurious rates in exchange for the client being able to receive a refund a little sooner

I commend the sponsors for this bill in that it provides needed protections for many hard working citizens I share the sponsors' belief in the importance of not allowing our low to moderate income citizens to receive tax services without being fully informed of their rights and obligations I further agree that citizens should be protected from inaccurate tax assistance from individuals refusing to sign their names to the tax returns they prepare, as well as protection from being charged exorbitant interest rates and fees related to the receipt of tax refunds they have earned The bill is therefore necessary and I applaud the sponsors for its passage

I also commend the sponsors for their insight in recognizing the need for several exemptions The bill appropriately exempts entities and individuals

not likely to engage in tax preparation for profit, including individuals providing tax services to a spouse, child, or parent Also exempt are organizations that already have existing standards of professional conduct, such as attorneys licensed in New Jersey and certified public accountants Not contained on the list of exemptions, however, is the Internal Revenue Service's Volunteer Income Tax Assistance (VITA) Program

VITA was created to provide free tax assistance to handicapped, non-English speaking, elderly and other taxpayers who earn low to moderate incomes and are unable to prepare their own tax returns In addition to free tax preparation services, VITA also offers free credit counseling Certified volunteers receive training by the Internal Revenue Service to help prepare basic tax returns in communities across the country The conduct of individuals serving the public through the VITA program is governed by the Volunteer Agreement Standards of Conduct I firmly believe that the purpose and practice of the VITA program fits squarely within the rationale behind the bill's current list of exempt tax preparers as it is both an entity not engaged in the tax preparation business for profit and also monitors individuals through existing standards of professional conduct Because the VITA program is not included in the list, I recommend the bill be amended to include this beneficial program on the list of tax preparers that are exempt from the bill's provisions

Accordingly, I herewith return Assembly Bill No 1698 (Second Reprint) and recommend that it be amended as follows

Page 4, Section 6, Line 46	Delete "or"
Page 5, Section 6, Line 2	After "Service" insert ", or h the Internal Revenue Service's Volunteer Income Tax Assistance (VITA) Program, provided that it receives no compensation for or in connection with any services performed for or products purchased by the taxpayer "

ASSEMBLY BILL NO 4295

(First Reprint)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Assembly Bill No 4295 (First Reprint) with my recommendations for reconsideration

This bill seeks to provide new mechanisms to ensure proper oversight of the hospital charity care system It provides for the collection of demographic and financial information and the creation of an interagency agreement between the Department of Health and Senior Services and the Medicaid Inspector General to address fraud and mistakes in the charity care system It also provides for recovery from persons fraudulently benefiting from the charity care system and for the reduction in payments to hospitals that fail to reasonably prevent charity care fraud

I agree that this bill is necessary It provides several important tools to safeguard the integrity of the charity care system It provides authority for the Medicaid Inspector General to investigate fraud and recover funds from persons abusing the system It provides for hospitals to be penalized when they are insufficiently vigilant, but it authorizes innocent hospitals to pursue costs from persons who fraudulently mislead them These steps are important and proper, and I commend the sponsors for responsibly addressing possible weaknesses in the charity care system I have, however, a technical concern with the bill It sensibly provides for an inter-agency agreement between the Department of Health and Senior Services, the Department of the Treasury and the Medicaid Inspector General to perform random checks of the personal State income tax returns of persons determined eligible for charity care in order to determine the validity of claims of charity care eligibility Personal income tax records are, however, confidential and may not generally be disclosed R S 54 50-8 (N J S A 54 50-8) The records may, however, be disclosed to governmental officials other than tax officials, but only if the disclosure is expressly authorized in statute R S 54 50-9 (N J S A 54 50-9) The bill as written does not contain such specific authorization I therefore recommend that the provision of the tax laws permitting disclosure for other valid governmental purposes be amended such that the Commissioner of Health and Senior Services, the Medicaid Inspector General, and their duly authorized agents would be permitted to examine the personal tax records identified in this bill for the purposes set out in this bill

Accordingly, I herewith return Assembly Bill No 4295 (First Reprint) and recommend that it be amended as follows

Page 3, Line 21 Add new section as follows

"6 R S 54 50-9 is amended to read as follows

54 50-9 Nothing herein contained shall be construed to prevent

a The delivery to a taxpayer or the taxpayer's duly authorized representative of a copy of any report or any other paper filed by the taxpayer pursuant to the provisions of this subtitle or of any such State tax law,

b The publication of statistics so classified as to prevent the identification of a particular report and the items thereof,

ASSEMBLY COMMITTEE SUBSTITUTE FOR
SENATE BILL NO 597
(Second Reprint)

To the Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey State Constitution, I am returning Assembly Committee Substitute for Senate Bill No 597 (Second Reprint) with my recommendations for reconsideration

This bill seeks to regulate donation clothing bins by requiring the charity or other person operating the bin to inform donors of the likely destination and list of possible beneficiaries of their donated items The bill will also require municipal registration of clothing bins and written consent from the property owner to place the bin on his or her property

I support the objectives of this bill and commend the sponsors for their efforts I agree that there is a need to regulate the used clothing donation industry on a consistent statewide basis Those whose kindness and generosity cause them to donate should be fully informed of all likely beneficiaries of their kindness I further agree that a property owner should have the power to refuse placement of a clothing bin on his or her property

Nonetheless, the use of clothing bins remains a viable source of revenue for many worthy causes including veteran's quality-of-life programs, drug and gang resistance education, development projects in third-world countries, and police athletic leagues

As drafted, however, this bill would prohibit placement of clothing bins within 100 yards of a school or public building, deeming such placement in all instances to be a safety hazard Hundreds of donation clothing bins – benefiting many worthy causes -- are presently located on public properties throughout the State without incident These bins do not represent any more of an inherent safety risk than many other objects, including dumpsters or other trash receptacles In fact, some such bins are placed at police stations,

with the full knowledge and consent of the police departments The Office of Homeland Security and Preparedness does not view clothing bins as presenting any particular safety or security threat and does not believe there is a need to designate them as a per se hazard

For these reasons, I recommend that the bill be amended to remove language prohibiting placement of donation clothing bins within 100 feet of schools or public buildings Under the proposed amendments, an affected municipality will still be required to deny a permit application if the municipality determines that the contemplated location of a particular clothing bin is a safety hazard But there is no reason to mandate denial for bins within 100 feet of schools or public buildings, especially when the result would be the forced removal of hundreds of clothing bins from public properties and a negative impact on organizations providing worthwhile programs for needy citizens of this state

I also recommend technical amendments to (i) ensure smoother implementation of the bill, and (ii) remove references to the Division of Consumer Affairs, which under the final version of this legislation as passed by both houses is not intended to be involved in the regulation of donation clothing bins under the bill

Accordingly, I herewith return Assembly Committee Substitute for Senate Bill No 597 (Second Reprint) and recommend that it be amended as follows

Page 2, Section 1, Line 15	After "contribution " insert "'Appropriate municipal agency' means the agency determined by resolution of the municipal governing body "

The Clerk read the following message from the Governor

Conditional Veto of Assembly Substitute for Assembly Bill No 2134 (First Reprint)

Ms Watson Coleman moved that the message be spread in full upon the Minutes

Which motion was adopted

ASSEMBLY SUBSTITUTE FOR
ASSEMBLY BILL NO 2134 (FIRST REPRINT)

To the General Assembly

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Assembly Substitute for Assembly Bill No 2134 (First Reprint) with my recommendations for reconsideration

A Summary of the Bill

This bill would amend and supplement current law governing the regulation of dental decisions by insurers and third party administrators In this regard, this bill provides that an insurer or a third party administrator may make dental decisions in connection with the processing or payment of a dental claim The bill specifies, however, that dental decisions made by an insurer or third party administrator must be consistent with certain guidelines set forth in the bill, including a requirement that any decision to deny a claim must be based in the first instance on a determination made by a licensed dentist The bill further provides that a dentist licensed out of state may receive a limited registration certificate authorizing that dentist to make dental decisions pursuant to the bill, and subjecting the out-of-state dentist to discipline by the New Jersey Board of Dentistry

In addition, this bill would alter the current composition of the New Jersey Board of Dentistry by requiring the appointment of an additional member who shall have resided and practiced dentistry in the State for at least ten years and who shall have a background in and be actively involved in dental consulting

B Recommended Action

I compliment the sponsors of this bill for recognizing the importance of establishing clear standards and guidelines governing decisions by insurance companies and third party administrators in the processing and payment of dental claims These decisions have a direct effect upon the health and welfare of New Jersey's citizens It is imperative that decisions about dental services performed or to be performed in the State of New Jersey are made with all due care and with a fair opportunity to challenge adverse decisions as to which the treating dentist disagrees

I support the sponsors' efforts to ensure that those making dental decisions for services performed or to be performed in New Jersey should be registered

in this State and subject to oversight by the New Jersey Board of Dentistry This bill helps to ensure that these professionals are subject to the same standards of honesty, integrity, and competency as others making dental decisions in this State

While I support most of the provisions of this bill, I am concerned about the section that would expand the current membership of the Board of Dentistry It is axiomatic that the professional boards of this State exist to serve and preserve public health, safety, and welfare by establishing appropriate standards of practice, providing oversight of practitioners, administering appropriate discipline, and hearing grievances of the public regarding those regulated professionals The current configuration of the Board does not require that any particular business segment in which dentists practice be represented I am concerned that adding a new member to this Board who is required to be actively involved in a particular business segment - dental consulting - would establish an undesirable precedent and could detract from the primary mission of the Board, which is to protect the public as a whole I believe the public would be better served if the new member added to the Board by this bill is qualified for his of her service by the same criteria applicable to the current dentist-members of the board

Accordingly, I herewith return Assembly Substitute for Assembly Bill No 2134 (First Reprint) and recommend that it be amended as follows

Page 5, Section 10, Lines 16-20	Delete "and who shall have a background in and be actively involved in dental consulting In making the appointment, the Governor shall give due consideration to, but shall not be bound by, recommendations submitted by the New Jersey Association of Health Plans"
Page 5, Section 11, Line 22	Renumber Section 11 as Section 10

Respectfully,
Jon S Corzine
Governor

The Clerk received the following letter

Dated January 4, 2008

Dear Madame Clerk

As you are aware, the General Assembly is considering legislation which would render an increase in salary to judges, county prosecutors,

administrative law judges, workers compensation judges and constitutional officers in the State of New Jersey Please be advised that my brother serves as the Hunterdon County Prosecutor and would benefit under this increase in addition to every other New Jersey state court judge, county prosecutor, administrative law judge, workers compensation judge and county constitutional officer

Please be advised that I have been advised by the General Counsel of the Assembly Majority Office that it was appropriate to hear and vote on this legislation so long as I do so in a fair and objective manner Respectfully, I submit that I am able to consider Assembly No 2135 fairly and objectively

Sincerely,
