Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Coastal Permit: A permit or an authorization issued under this chapter pursuant to CAFRA, the Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., or the Waterfront Development Law, N.J.S.A. 12:5-3.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway, floodplain or riparian zone in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests
Department of Environmental Protection
PO Box 402
Trenton, NJ 08625-0402

Division of Land Resource Protection
P.O. Box 420, Mail Code 501-02A,
Trenton, NJ 08625-0420
Tel. 609-777-0454 www.nj.gov/dep/landuse

Notice of the Department's intent to settle an administrative appeal and initiate a reconsideration of an application of substantive standards under N.J.A.C. 7:7A-13.1 of the Freshwater Wetlands Protection Act Rules and to provide a 30-day comment period as provided in N.J.A.C. 7:7A-13.1(j) and 7:7A-21.4

Reconsideration of application of substantive standards is being initiated for:

Righter Family LLC

Block(s): 60203; Lot(s): 1

Denville Township, Morris County

Freshwater Wetlands Application No. 1408-17-0001.1, FWW 180001

On August 29, 2019, the Department issued a Transition Area Special Activity Waiver Individual Permit on the above property for the construction of a single-family dwelling with associated improvements. The applicant subsequently appealed the conditions of the permit relating to mitigation. The Department has reached a settlement with the permittee and has begun to reassess the strict application of the freshwater wetland regulations and will determine if construction of the proposed development may occur in accordance with the amelioration rules under the Freshwater Wetlands regulations pursuant to N.J.A.C. 7:7A-13.1, and 7:7A-21.4.

A 30-day public comment period shall commence upon the publication of this notice in the April 8, 2022 DEP bulletin. Comments may be sent to:

Christopher Squazzo, Environmental Specialist III
Division of Land Resource Protection
Bureau of Highlands & Wetlands Permitting
NJDEP, Mail Code 501-02A PO Box 420
Trenton, NJ 08625-0420 chris.squazzo@dep.nj.gov
The office may be reached by telephone: (609) 777-0454

A copy of the settlement agreement may be obtained by contacting the above. A copy of the notice shall be sent to those agencies and individuals identified at N.J.A.C. 7:7A-13.1(j) and 7:7A-21.4.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
NOTICE OF REAUTHORIZATION OF PERMIT**

Notice of the Department's reauthorization of the Freshwater Wetlands General Permit #1 DLRP File No. 1508-18-0002.1 (FWW180001) and Minor Technical Modifications of Flood Hazard Area Individual Permit/Flood Hazard Area Verification/Freshwater Wetlands General Permit #1 and Waterfront Development Individual Permit DLRP File No. 1508-18-0002.1 (FWW210001/FHA210001/FHA210002) and 1500-16-0002.1 (WFD210001) issued to the New Jersey Department of Transportation, Office of Maritime Resources.

Project information:

New Jersey Department of Transportation
Office of Maritime Resources
Westecunk Creek Confined Disposal Facility
Block: 1; Lot: 2.01
Eagleswood Township, Ocean County
File Nos. 1508-18-0002.1 FWW180001/FWW210001/FHA210001/FHA210002
1500-16-0002.1 WFD210001

On December 17, 2018, the Department issued a Freshwater Wetlands General Permit #1 for the reconstruction of the existing Westecunk Creek confined disposal facility (CDF). The General Permit #1 authorized reconstruction of the CDF berms to 15' NAVD 88 to store dredge materials from dredging approved under a separate Waterfront Development Individual Permit 1500-16-0002.1 (WFD160001) of Cedar Run State Channel (#146), Westecunk Creek Channel (#147) and Parkers Run Channel (#148), with all construction activity to occur within the previously used footprint of the CDF. The December 17, 2018 General Permit #1 authorized the disturbance of 7.457 acres (324,918 square feet) of freshwater wetlands in the interior of the CDF and the temporary disturbance of 0.299 acres (13,028 square feet) of freshwater wetlands on the exterior of the CDF. On September 15, 2021, the Department issued a minor modification for the permits issued for the CDF reconstruction on Block 1; Lot 2.01, authorizing a change in the construction technique used to dewater the dredged material using geotextile bags and a flocculating polymer. The Department of Transportation modified the project to reduce the height of the berms during the first phase of reconstruction, before reconstructing the berms to 15' NAVD 88. The Department noted that these changes in construction technique would not result in additional impacts to freshwater wetlands, freshwater wetlands transition areas, and riparian zone disturbances.

On November 24, 2021, the Superior Court of New Jersey, Appellate Division issued an opinion in the appeal of the permits issued for this project (A-5525-17 and A-2208-18), remanding the issued Freshwater Wetlands General Permit #1 back to the Department for further consideration. On December 28, 2021, the court granted the Department's request to remand the minor permit modification for further consideration.

The Department noticed a 30-day comment period on the remand of the above referenced permit actions in the January 19, 2022 DEP Bulletin. The 30-day comment period ended on February 18, 2022.

The Department has considered the submitted comments and has completed its reevaluation of the projects' compliance with the Freshwater Wetlands General Permit #1 and has decided to reauthorize the above-referenced permits to NJDOT, OMR for the reconstruction of the West Creek CDF.

New Jersey Department of Environmental Protection
Land Resource Protection

The New Jersey Department of Environmental Protection, Office of Policy, has reviewed the Municipal Public Access Plan Application(s) listed below in accordance with the requirements of N.J.A.C. 7:7 (the Coastal Zone Management Rule) and has approved the following municipal public access plans:

Municipal Public Access Plan	County	Determination	Date of Determination
Mantoloking	Ocean	Approved Plan	3/21/2022

**NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE FACILITY PERMIT FOR A SOLID WASTE TRANSFER
STATION/MATERIALS RECOVERY FACILITY**

The New Jersey Department of Environmental Protection, Division of Sustainable Waste Management, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit major modification application regarding the operation of the existing **NATIONAL TRANSFER INC** Solid Waste Transfer Station/Materials Recovery Facility located at 445 North Main St., Lodi Borough, Bergen County.

The application for a Solid Waste Facility Permit major modification was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID 10 (Municipal Waste – Household, Commercial and Institutional), ID 13 (Bulky Waste), ID 13C (Construction and Demolition Waste), ID 23 (Vegetative Waste), and ID 27 (Dry Industrial Waste) with an approved capacity of 350 tons per day (TPD) Monday through Saturday. The major modification proposes to increase daily facility solid waste capacity by 99 TPD for a total of 449 TPD and extend hours of waste acceptance to Monday through Friday 6:30 a.m. to 3:30 p.m. and Saturday 6:30 a.m. to 2 p.m. Waste processing hours are proposed to be Monday through Friday 6:30 a.m. to 5:30 p.m. and Saturday 6:30 a.m. to 3:00 p.m.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close sixty (60) days after this publication. During this period any interested person may submit written comments concerning the draft permit action to:

Anthony Fontana, Chief
New Jersey Department of Environmental Protection
Division of Sustainable Waste Management
Bureau of Solid Waste Permitting
P.O. Box 420, Mail Code 401-02C
Trenton, New Jersey 08625-0420
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within sixty (60) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Sustainable Waste Management, the office of the Lodi Borough Clerk, and the office of the Bergen County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Katie Greer at the above address or contact her at (609) 292-3304.

Activity Number	Project Location	Project Description	Applicant	Project Manager
0508-21-0025.1 - LUP - 210001	WEST 17TH ST	Project activities are limited to previously disturbed and developed areas. Impacts to regulated resources are not proposed. The project is anticipated to result in approximately 0.344 acres of ground disturbance. No net new regulated motor vehicle surface is proposed. A Coastal Jurisdictional Determination was received from the NJDEP on the project in correspondence dated December 2, 2021, and confirms the project requires a CAFRA Individual Permit and a Waterfront Development In-water IP. 0906-21-0011.1 - LUP - 210001	89 DUFFIELD AVENUE	Soils contaminated with residual oil & tar material (OM/TM) will be addressed by installing a vertical barrier wall along the north and west sides of the property. It will extend at least to the meadow mat, which defines the vertical limit of OM/TM contamination. The vertical barrier wall will be constructed to approximately 10-15' bgs and keyed a minimum of one foot into the meadow mat. The meadow mat is a confining layer and is anticipated to prevent vertical migration of OM/ TM contamination.	PSEG @ M&R STATION	Christian Zografos, Gary Nickerson
