Mr. Shepard offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to the Hon. Herbert J. Pascoe, Register of Deeds of Union County, a former member and Speaker of the General Assembly and a former Senator of the State Senate.

The committee appointed to wait upon the Governor reported that they were cordially received by the Governor and that they had informed him that the General Assembly was organized and ready for business. The Governor asked them to convey his compliments to the Speaker, to the Clerk and to the entire membership and extended his best wishes for a successful year.

Mrs. Savage offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the privileges of the floor be extended to Mrs. Brown, first vice-president of the Women's State Republican Club, president of the Lakewood Women's T.A.M. Republican Club, and of the Ocean County Women's Republican Club. I ask that the Speaker extend to her cordial greetings.

Mr. Mills offered the following resolution, which was read by the Clerk and adopted:

A CONCURRENT RESOLUTION to provide for subscriptions to the 1953 Current Service New Jersey Legislation with binders by the Senate and General Assembly.

BE IT RESOLVED *by the General Assembly of the State of New Jersey* (*the Senate concurring*):

1. The Current Service New Jersey Legislation for 1953 be subscribed to, including appropriate binders for the same in new subscriptions for the use of the members of the Senate and General Assembly and for such officers of the Senate and General Assembly and for such other persons as the President of the Senate and the Speaker of the General Assembly shall respectively designate, the same to be mailed to the local address of each member of the Senate and General Assembly and to the local address of each such officer or other person so designated to receive the same, as shall be furnished by the President of the Senate or Speaker of the General Assembly, respectively, and that payment for each such subscription be made at the rate of twenty-five dollars ($25.00) and that statement of the expense for the subscriptions and binders furnished to the members and officers of, and to such other persons for the account of, the Senate or General Assembly, respectively, be referred to the Committee on Incidental Expenses of that House and when approved by said committee, said approval to be indicated by the signature of its chairman, and of the Secretary of the Senate or Clerk of the General Assembly, respectively, as an expense of said house,, the said bills shall be forwarded to the Director of the Division of Budget and Accounting in the Department of the Treasury.

The Speaker announced his appointments of membership to standing committees as follows:

The Speaker declared a short recess.

The General Assembly reconvened at 1:25 o'clock P. M.

Upon the calling of the roll, the following members appeared and answered to their names:

Messrs. Barnes, Beadleston, Bianco, Bowser, Brady Brixie, Cavinato, Deamer, Duffy, Dwyer, Field, Fowler, Glenn, Gray, Haines, C. W., Haines, M. D., Hauser, Hoff, Jones, Joya, Junda, Knight, Krawczyk, Kurtz, Lassans, Lazzio, Little, Mackey, Maebert, Murphy, Newton, Pilger, Saiber, Salsburg, Savage, Schaeffer, Shannon, Shepard, Silver, Simmill (Speaker), Smith, A. M., Snediker, Stewart, Thompson, Tompkins, Vervaet, Williams—48.

Absent—

Messrs. Bowkley, Cahill, Casciano, Evans, Hillery, Jamieson, Knoblauch, Marggraff, Mills, Musto, Salvest, Smith, N. C.—12.

The Clerk declared a quorum present.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: January 13, 1952.

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution.

BE IT RESOLVED *by the Senate of the State of New Jersey (the General Assembly concurring)*:

That at 1:30 o'clock P. M. both houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency Alfred E. Driscoll, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

New Jersey State Library

The Senate message was then taken up and

Mr. Thomas moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 13, 1952.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has organized and elected the Honorable David Young, 3rd, of the County of Morris, President, and Oliver F. Van Camp, of the County of Ocean, Secretary, and has proceeded to business.

OLIVER F. VAN CAMP,
Secretary of the Senate.

Mr. Thomas offered the following resolution, which was read by the Clerk and adopted:

Resolved, That Richard Leigh Polhemus, grandson of the Honorable Elvin R. Simmill, Speaker of the General Assembly, be adopted as the grandson of the General Assembly for 1953.

Mrs. Marggraff offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the privileges of the floor be extended to Mrs. Eleanor Robertson, chairman of the Bergen County Women's Club, and to Mrs. Stewart Alexander, Associate National Director of the Eisenhower for President Club, who are present here today; and,

Be It Further Resolved, That the Speaker call upon Mrs. Robertson and Mrs. Alexander to say a few words.

The Speaker invited Mrs. Robertson and Mrs. Alexander to address the General Assembly.

Mrs. Robertson and Mrs. Alexander addressed the General Assembly briefly.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
Mr. Speaker: January 13, 1952.

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution:

WHEREAS, Section 59:19–20 of the Revised Statutes requires that a requisition officer be appointed, and the act regulating receipts and disbursements requires the designation of approval officers for the payment of the necessary expenses of all divisions of the government; therefore

BE IT RESOLVED *by the Senate of the State of New Jersey (the General Assembly concurring)*:

That the Secretary of the Senate and the Clerk of the General Assembly be designated as requisition officers for the Legislature, their compensation to be seven hundred fifty dollars ($750.00) each; and

Be It Further Resolved, That all statements of expenses of the Legislature be referred to the Committee on Incidental Expenses of the Senate and General Assembly, respectively, and when approved by said committee said approval shall be indicated by the signature of the Chairman of the Senate Committee on Incidental Expenses for expenses of the Senate, and by the Chairman of the House Committee on Incidental Expenses for expenses of the General Assembly, together with the signature of the Secretary of the Senate or the Clerk of the General Assembly, respectively, and said bills, when approved, shall be forwarded to the Comptroller of the Treasury for payment.

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up and

Mr. Thomas moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
January 13, 1953.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That the present contract with MacCrellish & Quigley for furnishing all legislative printing be continued on the same terms until definite arrangements are made with the Director of the Division of Purchase and Property.

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The resolution was received and held for further action.

Mrs. Dwyer offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the privileges of the floor be extended to Hon. Nicholas LaCorte, Mayor of the City of Elizabeth.

The Speaker invited Mayor LaCorte to address the General Assembly.

Mayor LaCorte, addressed the General Assembly briefly.

The Senators arrived to conduct a Joint Session for the purpose of hearing the Governor's message delivered in person.

Honorable David Young, President of the Senate presided. After the Joint Session adjourned. Mr. Thomas moved that the Governor's message be spread in full upon the Minutes.

Which motion was adopted.

SIXTH ANNUAL MESSAGE

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

As we open this legislative year, our first and foremost thought must be for those who are fighting the terrible, undeclared war in Korea against a tough and ruthless adversary. Our military forces must be given every advantage that the finest materiel and most able diplomacy can afford. We all share the hope that a new national administration will bring the Korean war to a successful and honorable conclusion. This war, however, is but one aspect of the contest for freedom in which our Nation is engaged on a global scale. During this period of national emergency, we must stand ready to apply the principles of equality of sacrifices without fear or favor.

Despite the best efforts of the new administration, we shall undoubtedly be faced with a substantial continuation of the heavy Federal tax burdens. All governments will be required to sacrifice some of the extras that we would all like to have, but which must be deferred until the day when peace has been achieved and, at the very least, a balance of power secured which will permit us to substantially reduce expenditures for the military service. During this period, our State and municipal governments may be required to postpone the inauguration of policies, however desirable, which would place too heavy an economic burden upon a people already struggling under a war economy and its tax burdens. In the operation of our government, as well as in our daily conduct, we must be realistic as well as optimistic.

During the past six years, New Jersey has achieved a legislative record unsurpassed in this country. During a

period that has been marked by worldwide frustration and national disappointments, New Jersey has gone steadily about the business of strengthening the foundations of free government and preparing itself for an ever-increasingly important position in our Union of States. We have steadfastly insisted that the best road to domestic security is to be found in a prosperous, dynamic, free enterprise economy.

Accordingly, a first objective of my administration has been to create and maintain the kind of governmental environment in which our industrial life could grow and expand. The number of new industries moving to New Jersey or building new plants—all providing precious, new and better job opportunities—demonstrates that New Jersey does have a favorable environment for private enterprise.

During the period that I have mentioned, there were many significant achievements and, as was to be expected, some serious disappointments. The programs that you have initiated are now being copied by many of our sister states.

During 1952, we made good progress in the expansion and modernization of our institutional facilities. This program is bound to result in substantial benefits to society generally.

We have taken the first long steps to reduce the incidence of chronic illness and provide for more effective care for those who become chronically ill. A comprehensive program for insurance to protect our Civil Defense volunteers has been placed in operation.

For the first time in the modern history of our State, we adopted a comprehensive building program for our teacher colleges. Our teachers' pension program, a strong inducement to teach in this State, was liberalized and strengthened.

Unsound local police and firemen's pension funds were finally converted into a sound pension program. Provision was made for equal pay for equal work for women in busi-

ness and industry. Our social insurance programs, including workmen's compensation, temporary disability insurance and unemployment compensation, were strengthened, liberalized and improved in administrative procedures.

We have moved from one effective program to another with such rapidity that yesterday's accomplishments appear to be soon forgotten or at least accepted as a matter of course. For example, the final and, perhaps, most important section of the main stem of the New Jersey Turnpike, was completed in January of last year. In the first 12 months of its operation, this modern highway was used by more than 18,000,000 vehicles. It is easy to imagine the condition of our parallel State highways if this volume of traffic had been forced to use them.

During last year, despite steel shortages and other handicaps imposed by the current world crisis, we continued the most important State highway construction program in the history of New Jersey. Among the significant achievements of the past year was the approval of plans for the speedy completion of the 165-mile Garden State Parkway. I am pleased to report that work on this project is proceeding "ahead of schedule." In co-operation with Pennsylvania and New York, provision has been made for additional interstate crossings of the Delaware and the Hudson.

Provision was made for the protection of New Jersey residents against financial loss due to injury by uninsured motorists operating vehicles in this State. The legislation adopted in 1952 gives New Jersey one of the most comprehensive plans ever adopted in this country. Our State Police forces have been expanded, new training programs for local police forces provided.

Further steps were taken to strengthen our law enforcement activities in a campaign against the forces of crime and corruption that have grown surprisingly strong throughout our Nation. For decades this growth has fed on public complacency, a lack of a comprehensive State and interstate plan to combat these forces, and failure of all levels

of government to accept their rightful responsibilities. At long last, we now have a co-ordinated program. Our forces have been mobilized and effective steps are being taken to overcome the menace. Among the important steps taken last year was the creation of a Law Enforcement Council, which, as I indicated in my Message of a year ago, was designed "(1) To develop plans and programs insofar as possible to eliminate the basic causes of crime; (2) To review and evaluate our criminal laws for the purpose of making them more effective deterrents to crime; (3) To examine and appraise, on a continuous basis, the administration of all law enforcement facilities and, *wherever necessary in its judgment, make such investigations as may be required to permit it to advise the Governor, the Attorney General, the Legislature and our citizens on law enforcement within the State.*"

These and other accomplishments are part of a program that began with constitutional revision and was continued when we achieved the best judicial system in the country, reorganized the Executive Branch of our State Government, adopted a modern social security program, built new super-highways and modernized institutions, established a truly significant civil rights program, with one first-class citizenship for all, and provided comprehensive provisions for our veterans upon their return to civilian life.

We have lived within our income, balanced our budgets, and are now operating our State Government with fewer State employees in proportion to our population than any other State in the Nation. We shall continue these prudent policies.

Our task now is to complete the progress that we have begun, to consolidate our gains and to prepare for new and imaginative improvements and services that must soon be undertaken. Government is a dynamic business. Old problems refuse to stay solved and the legislative defeats of yesteryear are the foundation upon which we build the next year's achievements. Deterioration in government begins when those entrusted with its administration are

satisfied that it has reached its peak of efficiency. In our business there is always room for improvement. While perfection is our goal, a government of laws administered by men and women is hardly likely to achieve that objective. Hence, the challenge to try to achieve this illusory goal is one of the principal attractions for men and women of good will to accept "a painful and thankless office." Changing circumstances require us to reappraise old programs and seek new solutions for new as well as old problems. In this message, I shall not attempt to outline all of the subjects that will require legislative action. A number of the more acute issues confronting our State, of very great significance, must be considered against the background of available revenues. These will be discussed in the Budget Message.

REAPPORTIONMENT

Equitable representation of the people of our State is a key requirement of our republican form of government. While there may be some difference of opinion as to the mathematics of the question, there can be no compromise with the immediate need to reapportion the General Assembly in accordance with the 1950 Federal census of population, as required by our Constitution. I renew my recommendation that you make this a first order of business, since the failure to act promptly may make it impossible in a number of counties to nominate and elect members of the General Assembly in accordance with the requirements of the Constitution.

ABSENTEE VOTING

The best guarantee for the preservation and strengthening of our way of life lies in the widest possible participation by voters in elections. The right to vote is one of the great privileges of American citizenship; and yet that right has been denied to a substantial number of our citizens otherwise qualified to vote, because New Jersey does not have a civilian absentee voting law. A New Jersey citizen in the

military service is eligible to vote under our military service voting law; but his wife, who may be with him away from the State, is denied the privilege.

This State once had a civilian absentee voting law. It was repealed in 1926 due to abuses in its operation. The sponsor of the repeal bill cited as reasons for repealing the law the opportunity afforded for fraud, the fact that few qualified absentees availed themselves of the voting privilege, and the expense entailed in printing a relatively large number of ballots that were not used.

Apparently there was some fraud during the time the law was in effect, for on March 13, 1926, an editorial in the *Trenton Evening Times* stated:

> "There is no question but that the law providing for the casting of ballots on election day by voters absent from the State has been abused."

Conditions have changed materially in the past quarter century. The new mobility of our citizens, due to world conditions, decentralization of industry, and improved transportation have combined to make a new absentee voting law essential. Fortunately, we now have permanent registration, which they did not have in 1926. It is my conviction that a properly designed law could be well administered and that it is possible to protect the integrity of our ballot while permitting civilian absentee voting. Accordingly, I recommend: (1) Absentee voting be authorized for any registered voter who is absent or expects to be absent from this State on election day; (2) absentee voting be authorized for any registered voter who is unable to appear at the polls due to illness or physical disability; (3) voters be permitted to cast their "absentee" ballot in person at the office of the County Board of Elections during the weekend preceding election day—a form of this privilege is provided in 18 states and in our military service voting law.

I also recommend that the time within which the military service ballot must be mailed be extended to 45 days prior to any election.

It is important to go further, however, and consider the removal of any other needless impediments to the exercise of the voting privilege. It would be worthwhile to reconsider all of the qualifications for voting, including the requirement of residence for five months within the county.

COURT INTEGRATION

Under our new Constitution, and with great judicial leadership, we have achieved a judicial system generally recognized as the best in the country. In his Annual Message to the New York Legislature last week, Governor Thomas E. Dewey, in urging judicial reform in that State, said: "In the neighboring State of New Jersey we have seen an enviable improvement in the administration of justice." Despite the excellence of our judicial system, this bulwark of our republican form of government may further be strengthened and improved.

A month ago, the Constitutional Convention Association, composed of the living delegates to the Convention of 1947 and a limited number of representative citizens of New Jersey, overwhelmingly approved integration of the present County Courts with the Superior Court. This decision by the members of the association, following intensive study by its judicial committee, confirms previous recommendations made by me on this subject. It is interesting to note that substantially all of the delegates who were in the forefront of the opposition to inclusion of the County Courts in the completely unified plan submitted by the Judiciary Committee at the Constitutional Convention have, in the light of subsequent experience, altered their views.

There are a number of substantial reasons for integrating the present County Courts with the Superior Court. The basic flexibility of the present system does not overcome the inherent disadvantages which flow from the necessity of maintaining separate County Courts with jurisdiction over judicial business for which the Superior Court is entirely appropriate. A separate County Court

means separate judges who have neither the status nor the security of Superior Court judges. The judicial assignments of county judges can only be on a temporary basis, and the present arrangement necessitates the undesirable practice of having some part-time county judges assigned to try matters pending in a higher court.

Existing constitutional distinctions between the Superior Court and the County Courts require special treatment, procedures, schedules of fees, records and trained personnel. Integration will eliminate the possibility of error, delay, unnecessary expense, and possible injustice. It will insure for the people of our State the fullest measure of prompt and efficient judicial administration.

It is difficult to obtain the best available talent for appointment to the County Courts. Practicing lawyers, who have achieved outstanding reputations for their legal abilities, will not lightly abandon the far greater financial returns available to them in private practice to accept any lesser place on the Bench than the Superior Court would afford.

There would appear to be two methods by which we may achieve the integration that is now earnestly recommended: The first method is by constitutional amendment. The second method is to proceed within the framework of the Judicial Article of the Constitution. The delegates to the Constitutional Convention in 1947 wisely included the following provision (Article VI, Section IV, paragraph 4): "The jurisdiction, powers and functions of the County Courts and of the Judges of the County Courts may be altered by law as the public good may require." Under the authority of this provision of the Constitution, the Legislature may alter the existing County Courts by repealing their existing jurisdiction and transferring to them all of the jurisdiction, powers and functions of the county district courts. If the Legislature will adopt this course of action, it may increase the number of Superior Court judges to permit the transfer by appointment of the present

County Court judges to the Superior Court and the transfer of existing county district court judges to the new County Courts. The compensation of the judges of the new County Courts would, of course, be the same as that now paid to the same judges in their capacities as judges of the county district courts. The counties should be relieved of the burden of paying the salaries of these judges. The county district courts, as such, would be abolished after the transfer of their jurisdiction and judges to the new County Courts. There are advantages to this procedure which go beyond the immediate purpose of integration of the existing County Courts with the Superior Court, including a new opportunity to strengthen the operation of our traffic law enforcement.

With respect to the operation of the judicial system, I repeat my previous recommendation that the authority to appoint jury commissioners be transferred to the Supreme Court where it naturally belongs. The jury system is an integral and very important part of our judicial system, and it should be administered as part of the general administration of justice. Such a step could, moreover, develop into a useful contribution to improved law enforcement.

CRIME

The strengthening of our local governments coupled with a greater and more productive participation of our citizens in political activities has been and continues to be a major goal of this Administration. We have worked long and hard to bring home to our citizens the full realization that they have it in their power to achieve the kind of government they want. Time and time again, we have stressed the vital importance to good government of sound local law enforcement programs. Our local police forces are and must continue to be the first line of defense against those who would

violate our laws. Aided by an ever-vigilant press, substantial strides have been made in arousing public interest in the need to attain this objective.

In 1949, following a complete reorganization of our State law enforcement agencies, we opened a broad attack on the problem of organized crime—something that all signs now indicate was neglected by all levels of government in many parts of the country for more than a generation. The task carried us into questions of local police departments, the operation of the courts and county prosecutors' offices, prison and parole administration, and a whole range of interstate and even international implications of organized crime. We knew the job would be long and difficult. Syndicated crime does not respect state lines. Our geographic location, in the most densely populated region in the United States, has its disadvantages as well as its advantages. We warned in 1949 that there would be repercussions and that the dirt that had theretofore been hidden would be exposed, whatever the consequences.

Frankly, I have been impatient with our progress even though much has been accomplished. We have revitalized our criminal courts and procedures, alerted all county prosecutors and superseded those who have moved too slowly or failed in their assignments. We have strengthened the State Police to augment the work of local police departments. The Department of Law and Public Safety has succeeded in breaking at least three major crime syndicates—lottery, bookmaking by telegraph, and gambling combines of nation-wide scope—and caught some underworld chieftains in our nets.

Our State has been singled out for commendation by the head of the Federal Bureau of Narcotics as "doing more than any other state to suppress the abuse of narcotic drugs"; and the establishment of our State narcotic squad as an arm of the Division of State Police has been termed by him "the finest act taken by any state in recent years." Our State law enforcement officers gathered and provided

valuable evidence to the Federal Senate Committee to Investigate Crime and to the New York State Crime Commission; and they have reciprocated. Much has been done and much more will and must be done. But it is apparent that all levels of government have underestimated the nature, strength and ingenuity of the enemy.

I have not been satisfied with the results to date—I will not be satisfied until every violator has been indicted, tried and convicted; and until corrective measures to prevent the recurrence of the evils are adopted and put into effective operation. We have set our sights upon these objectives. I am convinced that our forces of law enforcement are now geared up to the true size of the gigantic problem of organized crime.

The bi-state waterfront investigation which New Jersey initiated in 1951 with our neighboring State of New York is still in its early stages. Racketeering and restrictive practices which have apparently plagued the waterfront for half a century must be routed out if we are to keep the Port of New York a pre-eminent center of shipping and commerce. It should be remembered, however, that sensational headlines alone do not produce lasting remedies. When the first phase of the current investigation of the waterfront is completed, I plan to submit to you specific proposals for the further strengthening of our law enforcement activities along the waterfront. The corrective legislation will undoubtedly be required to be uniform in character and in the finest tradition of interstate co-operation that has prevailed between the States of New Jersey and New York.

Accordingly, I urge that you immediately strengthen the hands of our Law Enforcement Council. This can be done by adopting the recommendation which I submitted to you in my Annual Message a year ago, that our Law Enforcement Council be made a permanent continuing agency with adequate financial support.

During the past year, I discussed with the members of our Law Enforcement Council the work of our prosecutors

and the structure and functioning of their offices. I am requesting the council to consider a proposal that seems to me to have much merit; namely, that in all counties where there is provision for more than one county judge, the prosecutors and the members of their staffs be required to devote full-time to their duties. I recognize that the adoption of this proposal would require the persons who accept the difficult and frequently very burdensome task of prosecutor to make substantial sacrifices. In the past, it has not always been easy to secure the acceptance of the best qualified men for appointment to the position of prosecutor. If the proposal made to the council were accepted and prosecutors and members of their staffs in the counties designated are not permitted to engage in the private practice of law, as in my judgment should be the case, I would recommend that the prosecutors be given the same salary as a Superior Court judge.

During recent years, we have witnessed the unedifying spectacle of officials who refuse to testify when called before public investigatory bodies. The practice has been common in Washington; it is not unknown elsewhere in the Nation. The constitutional privilege against self-incrimination has been used to keep from the public information of the most vital concern and which it has every right to have. This privilege has been invoked by those who have held public office while unfaithful to their trust, irresponsible in action, corrupt or disloyal. There is no logic in permitting a public official or employee who so refuses to testify to continue to exercise the powers and advantages of his office. I strongly recommend legislative action which will forfeit the office or position, tenure and pension rights of any such person.

CORRECTIONAL INSTITUTIONS

The fact that New Jersey has been sending criminals to jail—among these some who, despite their activities, appear to have been immune from punishment in other states—was brought unpleasantly to our attention last year when a comparatively few inmates of our correctional institutions participated in disturbances that had their counterparts elsewhere in the Nation. The only concessions made by the authorities were that there would be an investigation of the parole system, the prisoners having expressed an opinion that our parole system was unduly harsh, and that corporal punishment, prohibited under the rules of the Department of Institutions and Agencies, would not be meted out to the rioters.

Until the new Constitution was adopted in 1947, the office of Principal Keeper of the State Prison had a constitutional status. Since 1951, when the constitutional status of the carry-over Principal Keeper terminated, and on my insistence, the appointing authority has resided in the Board of Managers of the Prison, subject to the approval of the State Board of Control of Institutions and Agencies. As a result, we achieved a career administration for the first time in the modern history of that institution. The one condition I imposed upon the appointing authority and our Board of Control was that appointments be based upon merit and that the Principal Keeper and his staff be qualified by experience, character and judgment to perform their difficult duties. This change opens up new opportunities for our penal and correctional institutions. The transition from the old *laissez-faire* days, when the prisoners were reasonably content because in effect they exercised an authority they never should have been permitted to exercise, was not expected to be an easy one. Unhappily, my fears were confirmed.

It is my hope that you will read the constructive report of the committee I appointed to examine and investigate the prison and parole systems of New Jersey. Mr. Justice

Harry Heher and his associates, Dr. Austin H. MacCormick and Mr. Stanley P. Ashe, are entitled to our grateful acknowledgment and thanks for the time and effort they devoted to the investigation as well as for the constructive character of their excellent report. Many of the recommendations contained in the report either have been or are in process of being adopted. The report confirms an opinion I have previously expressed to the effect that "the State Prison at Trenton has long since outlived its usefulness * * *."

The purpose of our correctional institutions is at least threefold: the protection of society, the custody of prisoners, and the rehabilitation of the offenders. We must constantly bear in mind that in most instances prisoners committed to our correctional institutions will be returned to society. Accordingly, our physical facilities, the staff and the program must be designed to rehabilitate the prisoner, returning him to society as a useful citizen determined to avoid any further conflict with the law.

We should promptly begin the construction of a new prison to replace the present State Prison in Trenton. In the meantime, improvements presently in process at Rahway should be completed. Our correctional institutions are an important and integral part of our institutional program.

A substantial portion of the money that has been authorized by our citizens for the improvement of our institutions should be made available for the beginning of construction of the new prison.

During the past year, our Departments of Institutions and Agencies and Civil Service, under the leadership of Commissioner Sanford Bates and Dr. Lester Clee, respectively, have completely reviewed, revised and strengthened the civil service in our correctional institutions. Our salary schedule is now one of the best in the country. This should permit us to recruit competent men. In addition, new training programs for personnel have been initiated which should prove very helpful.

With increasing rapidity we are overcoming the neglect of a great many years in the physical facilities of our institutions. As a result of the action taken by you last year, our citizens confirmed our judgment that the capital improvement program for the modernization and expansion of our institutional facilities should be continued. It is my hope that the legislation allocating the funds for this important program will be promptly approved.

YOUTHFUL OFFENDERS

In my Annual Message last year, I pointed to the Highfields Experimental Treatment Project as one of the significant New Jersey contributions to the difficult task of treating the young offender. I stated that it was entirely possible that with this project New Jersey may have discovered a type of treatment for the pre-delinquent and adolescent offender which is more economical, more humanitarian, and more effective than the traditional type of discipline heretofore imposed.

The Highfields Project has been conducted by the State Department of Institutions and Agencies since July 1, 1950. For a completely objective evaluation of the effectiveness of the work of that project, an independent agency was established to undertake a detailed, five-year study of the work being performed and its effects in the treatment of boys sent to the Treatment Center. The Director of Research for the agency, the Scientific Advisory Committee, has recently filed an interim report based on a 17-month operational period. The citizens of New Jersey may well be encouraged by the results already disclosed. For example, the report states that the Highfields Project "accomplishes as much, if not more, in its four months of residential treatment as the reformatory at Annandale does in its more than twelve months." In the cases included in the study, 85 per cent of the boys released from Highfields were shown to be successful on probation or parole, as compared with only 61 per cent for Annandale. "High-

fields,'' the report concludes, ''may even do better, but such results can only be known after more cases are analyzed in the years ahead.''

I cite this merely as another illustration of a bold New Jersey experimental program of attacking the basic causes of crime while at the same time conserving our human resources. This program as well as the tremendously encouraging program of the Child Treatment Center at Allaire, that of the Diagnostic Center, and others that are presently being administered by the Department of Institutions and Agencies should be supported and expanded.

TRAFFIC SAFETY

The daily accidents on our highways constitute a ''crime'' of another character. On several occasions county prosecutors have recommended that the words ''willful'' and ''wanton'' should be deleted from the statute having to do with death by automobiles. The alarming number of deaths and accidents on our highways overshadows the fact that New Jersey has one of the best highway safety records in the country. It must be improved. We can ill afford to adopt a complacent attitude toward this problem.

In the Fall of 1951, we created the Bureau of Traffic Safety, in the Department of Law and Public Safety. This Bureau is presently providing constructive leadership in a comprehensive, state-wide traffic safety program.

The ''point system,'' adopted by the Department of Law and Public Safety last year, is proving a useful preventive measure, designed to deter users of our highways from reckless and careless conduct. It is significant of the public concern that this measure has won widespread public support.

Likewise, the driver clinic that we established last year as a part of our program to reduce the number of motor vehicle violations, has already demonstrated its worth and should be continued.

Now I recommend the adoption of legislation, proposed by the State Co-ordinating Council on Traffic and Safety, for special examinations and licenses for the drivers of tractor-trailers.

Likewise, provision should be made in our laws for limited driver licenses to be issued by the Division of Motor Vehicles based on scientific tests where individual disabilities demonstrate that such limited licenses are in the public interest.

HIGHWAYS

I am pleased to be able to report that the plans for extensions of the New Jersey Turnpike have been substantially completed and that work on several of these extensions will be begun in the near future. In the case of the Newark Bay Bridge and the Hudson County extension, this has thus far been a co-operative venture of the New Jersey Highway Department and the Turnpike Authority.

As was to be expected, the New Jersey Highway Authority, responsible for the construction of the Garden State Parkway, and the Highway Department, have collaborated to speed the completion of this tremendously important project.

The Highway Department itself is proceeding with its construction program as rapidly as steel and available funds will permit. If we are to protect our new highways from commercial encroachment and the hazards of traffic friction that inevitably accompany marginal business, the Department should be given a greater opportunity to build limited-access highways and freeways. The legislation adopted last year should be expanded this year. This action by you will permit the Highway Department to build State highways that will support the free and safe flow of traffic on our new highways and protect them against unsightly encroachments.

INTERSTATE CO-OPERATION

In 1952 we substantially expanded our interstate co-operative programs. The new interstate crossings that are being constructed under or over the Hudson and Delaware rivers are a challenge to this State to build the finest approach highways to these new crossings that have ever been planned or built in this country.

In addition to the new crossings that are actually being built (one of these was completed in December of 1952), it is apparent that we will need additional crossings. I am requesting the Delaware River Port Authority to plan now for another crossing of the Delaware between Gloucester county and the southern part of Philadelphia.

We have completed our studies and preliminary engineering plans for a ferry service between Cape May and Lewes, Delaware. Looking further ahead, it is apparent that within the foreseeable future a bridge will span the Delaware Bay and we shall have, for the first time in the history of our country, a complete "ocean highway" from Florida to Maine. The construction of such a bridge would be of inestimable benefit to the southern part of our State.

The need for high-speed rail transportation in the North Jersey-New York metropolitan area, as well as in the South Jersey-Philadelphia metropolitan area, is becoming more urgent every day. We are fortunate in now having State and interstate agencies committed to determine the development of a blueprint for action. I refer to the Delaware River Port Authority, created by the Legislatures of the States of Pennsylvania and New Jersey in 1951; the Port of New York Authority, which has rendered such important service to the citizens of New York and New Jersey; and the Metropolitan Rapid Transit Commissions, created respectively by the Legislatures of New York and New Jersey last year.

I continue to be of the opinion that one of our primary needs is for additional rail facilities between the metropoli-

tan areas of New York and North Jersey, Philadelphia and South Jersey.

The rehabilitation of Port Newark by the Port of New York Authority, pursuant to legislation adopted concurrently by New Jersey and New York in 1948, will soon be followed by the modernization of important Hoboken piers which will materially strengthen the economy of Hudson county and the entire State. The Port Authority has spent or committed about $20,000,000 in its rehabilitation and development program for Port Newark. It is estimated that the cost of rehabilitating the Hoboken harbor area will amount to approximately $22,000,000. Since commerce is a part of the lifeblood of our economy, these activities and others that have been completed—including the $8,000,000 Union Motor Truck Terminal in Newark designed to take huge over-the-road trucks off city streets, the new runway at the Newark Airport, and the bus terminal in New York that serves over 60,000 New Jersey commuters daily—constitute important achievements of interstate co-operation.

NATURAL RESOURCES

Last year you made provision for the acquisition of additional water reserves and recreational areas.

We are nearing the end of our negotiations for the purchase of Island Beach.

We have reached a tentative agreement with representatives of the Federal Government with respect to the Wharton Tract, with its important recreational opportunities and water reserves.

It is my hope that during 1953 we will complete our negotiations for the acquisition of Sandy Hook.

EDUCATION

In 1952, near the end of the legislative session, you received the concluding section of an important report from our State School Aid Commission recommending an in-

crease of from $55,000,000 to $60,000,000 in State aid for public education.

I wish to express my personal appreciation to the Commission for the time and energy it devoted to its work and to thank it for the contribution it has made to public thinking on one of our most important problems. The Commission, in its report, recognized that consideration of its proposals raised many perplexing issues that obviously could not be settled over-night. It is obvious that any substantial increase in State aid will require additional revenue which must be provided by the Legislature. Therefore the Commission concluded: "Until a proper program of taxation sufficient to provide the additional support recommended by the Commission can be determined and made operative, the Commission urges the Legislature to make available as much additional State School Aid from other sources as can be appropriated." This has been done.

I am sure that the appropriate committees of this Legislature will wish to consider very carefully the recommendations made by the State School Aid Commission.

Certain facts stand out in the Commission's report. The first of these is that New Jersey has one of the best public school systems in the United States, judged by the amount of expenditure per pupil in average daily attendance. The purpose of the proposed additional State aid, and this is another fact of the report, is directed as much to diverting the burden of supporting this excellent school system from local real estate to some other tax base to be specified by the Legislature, as it is to the provision of additional State aid in and of itself. The question of more State aid thus becomes as much a question of tax policy as of educational policy. In brief: Is it better to continue to pay for our schools principally from the local real estate tax, or would it be better to adopt some new and additional tax to be collected by the State and distributed to school districts, thereby shifting some of the burden to a non-property tax base? It is pertinent to note that so-called replacement taxes seldom achieve their objectives.

The question of State aid for schools is easy to confuse with the quality of public schools. We all want the best possible public schools, adequately financed. During the past five years, we have taken some rather effective steps to increase teachers' salaries, substantially increase State aid for education and, as previously noted, to liberalize and strengthen teachers' pension programs. Now we are engaged in the task of enlarging our teachers' colleges so as to increase the number of graduates who will be prepared to teach in our public schools.

Any consideration of our tax and school problems requires us to consider present methods of distribution of State aid for education. The formulas are inequitable and need to be completely revised. Even the measure of need for State aid must depend upon reform of the real estate tax which presently provides the major financial support for education.

There will shortly be submitted to you a report of the Commission on State Tax Policy. The Commission, at my request, has been engaged in an intensive study of assessment and equalization of real estate taxes.

In my Inaugural Address in 1947, and on more than one occasion thereafter, I have stated that our entire system of taxation—which is really no system at all—needs overhauling and that we should begin with our local assessment procedures and practices.

All of these subjects—so intimately interwoven—will be discussed by me in the Budget Message.

SOCIAL WELFARE

A task of every modern government worthy of public confidence is to help its citizens to maintain at least minimum standards of human decency. The privilege of the more progressive and able governments is to raise those minimum standards in recognition of the general rise in the standard of living. Since our economy is not static,

and since the battle against human misery is never completely won, we are well advised to review each year the progress we have made and the current needs of all social welfare programs.

Over the past six years, constructive co-operation between the Legislative and Executive Branches of our State Government has produced many major improvements. Beginning with the guarantee of labor's right to organize and bargain collectively, incorporated in the new Constitution, our State has made good progress in assuring equality of opportunity and a single first-class citizenship. A pioneer and leader in the field of workmen's compensation, New Jersey now enjoys the benefits of full coverage of all occupational diseases under our workmen's compensation law. We are one of only four states (California, New York, and Rhode Island are the other three) to adopt a temporary disability benefits program which is now safeguarding more than 1,800,000 workers against loss of wages due to off-the-job accidents or illness.

In recognition of the increase in the cost of living and of the rise in general wage structure, the benefits of all social insurance programs (workmen's compensation, unemployment compensation, and temporary disability benefits) have been substantially increased. Last year, at the same time that you enacted the most recent of the benefit increases, you provided for a complete overhauling of the legislative standards and administrative procedures that apply to the unemployment and disability benefit systems. This is the first month that the new legislation has been in full operation and I am informed that its administration is proceeding smoothly.

We need some time to consolidate our gains. There is no reason to assume that we have gone as far as we ought to go in this type of legislation. The primary need this year, however, is to strengthen and improve the programs we already have. To this end, I recommend legislation to:

(1) Extend the coverage of the unemployment compensation and the temporary disability benefits laws to include those working for firms with 1-or-more employees rather than the present 4-or-more coverage. Under the Federal social security law and our own State workmen's compensation law, these smaller firms are covered, and there is no reason to discriminate against them in other social insurance programs.

(2) Revise our State minimum wage law so as to establish a uniform hourly minimum in conformity with Federal regulation of interstate commerce, and continuing the present provision for wage orders, setting higher minimum wages applicable to specific industries, upon appropriate economic findings.

(3) Increase the maximum workmen's compensation rate payable to widows and other dependents in death cases from $25.00 per week to $30.00 per week, for the number of allowable weeks. As a result of recent amendments, the workmen's compensation law now provides for a maximum weekly compensation rate of $30.00 for temporary disability, and for partial permanent disability and total permanent disability. We should make the maximum weekly amount payable in death cases conform to the previously established amount in other cases.

I shall submit additional recommendations to you during the course of this legislative session. It has been well said that in the long run the best economic security for the wage earner must depend upon steady employment at a good rate of earnings. This principle is recognized in the recommendations I am making to you and has been the guide to our proposals of the past. We have sought to discharge the proper responsibilities of State government to the working people in a leading industrial State, and at the same time to maintain New Jersey's position as a favorable environment in which to locate new employment-giving industries. That we have apparently succeeded in this policy is evident in the great increase in industrial develop-

ment throughout New Jersey. At the same time, we have been perfecting a superior social welfare program during the past six years.

PUBLIC ASSISTANCE

Specialists in public assistance are agreed that more should be accomplished in the integration of public assistance services administered by professionally qualified persons. They are not, as yet, agreed on the form and degree of such further integration.

The Commission to Study the Administration of Welfare in New Jersey, under the able leadership of Walter L. Kidde, has applied itself diligently to this knotty problem. I am informed that the commission will submit legislative recommendations. I urge that you carefully study them so that there can be agreement on legislation which will advance the objectives of fair and humane treatment to those in need, sound and professional administration, and economy of operation.

CHRONIC SICK

The inadequately controlled incidence of chronic illness is adding significantly to the mounting costs of all levels of government. We now know there are long-term chronic illnesses which are preventable. We have in the last year made a new and promising beginning on a control program. While we know that we cannot prevent all chronic illness, with the knowledge that we now have we can prevent some types of chronic illness and defer the onset of other types. Prevention is far cheaper than prolonged institutionalization and cure. We must, in my judgment, give very serious consideration to the possibility of strengthening the preventive program with the assurance that any investment that can be made will pay big dividends in the savings of institutional and other social costs.

LEGISLATIVE PROCEDURE

In the course of much of the constructive work we have accomplished together in the past, it has become apparent that improved legislative procedures could contribute to a better functioning of the Executive as well as the Legislative Branch of our State Government. I am fully conscious that the responsibility for legislative procedures is the particular province of the two Houses of the Legislature. Under the constitutional requirement that all bills passed by the Legislature be transmitted to the Governor for his consideration, however, certain aspects of legislative procedure may also affect the executive function. Over the past years, for example, it has been my duty, a distasteful duty I might add, to exercise the veto power, both qualified and absolute, over a substantial number of bills. From time to time, I have become aware of the fact that part of the difficulty has arisen because of inadequate legislative procedures.

At a time when democracy is fighting against a ruthless adversary in many parts of the world, it is more important than ever to preserve at home the highest possible standards of representative government. To this end, you may wish to consider the advisability of these steps:

(1) Provide an opportunity for a public hearing on every bill by the committee to which it has been referred. This will require the assignment of hearing rooms and dates for the various committees, and the establishment of a hearings calendar. I can assure you of the full co-operation of the Executive Branch to this end. Such a step should assure the removal of one major cause of dissatisfaction with the existing legislative processes.

(2) Require each legislative committee to submit a formal written report with the bills it reports out, and require it to report out any bill upon petition of seven Senators in the Senate or twenty members in the General Assembly.

(3) Strengthen and increase facilities of the Legislature for bill drafting and committee staffing, as the need appears.

MODERNIZATION OF STATUTES

The 1951 Special Session of the Legislature adopted a complete revision of Titles 2 and 3 of the Revised Statutes. Your prompt action in approving of the work of the Committee on Revision of Statutes added immeasurably to effective judicial administration in our State and has received merited national attention. I urge that you adopt the recently completed work of this important committee in order to insure a uniform body of practice and procedure and the effective operation of the Judicial Branch of our State Government.

The task of modernizing Title 48 of the Revised Statutes relating to public utilities is going forward. It is my hope that this work will be completed with all possible dispatch. The provisions of that title are clearly outdated; effective administration requires that they be replaced. In addition to this task, other titles affected by the Administrative Reorganization Program of 1948 are receiving the attention of the Legislative Commission on Statute Revision. The Legislature has taken a truly progressive step in re-considering the entire body of our statute law in the light of modern conditions.

This work of statutory revision will be of lasting public benefit. It will eliminate antiquated provisions, clarify and simplify governmental regulation, and assure every citizen the far-reaching benefits of a well ordered and clearly stated set of laws under which he is to be governed.

There are other important subjects which will require your attention. Among them will be rent control, a continuing attention to our veterans' benefits programs, and further reference to recommendations which I have made in

previous messages. I will, of course, direct your attention to the salary needs of State employees, as well as to other financial matters, in the forthcoming Budget Message.

CONCLUSION

1953 may be reported as a year of transition. Within a few days there will be an historic change in the administration of the Federal Government. This is a proper and perhaps an auspicious time to reappraise the relationship between the various levels of government in the firm hope that such a re-examination of the business of government in this country, followed by appropriate action by Congress and State Legislatures, may make it possible for us (1) to strengthen and preserve American principles of government, including the restoration of a working federalism in this country; (2) conserve tax dollars, thereby securing less government and better government for less money; (3) conserve the time and energy of our executives and legislators, both State and Federal, by the elimination of a major portion of the divided responsibility that presently exists in many fields of governmental endeavor, including duplication of services and administration and competition for the same tax dollar; and (4) provide for the effective performance of essential governmental services by the agencies best equipped to perform those services.

A Committee of State Governors is presently engaged in a determined effort to reduce the cost of government and to achieve substantial progress on the program that I have outlined.

Therefore, as we consider the requests that are constantly being made to government for new services, involving as they do additional taxes, we must be mindful not only of the cost of our war effort but also the total impact of all taxes levied by all government on our citizens. We must consider every opportunity for economy and avoid the danger of piecemeal tax legislation. The obvious need is for a thorough co-ordinated overhauling of the Federal

and State tax laws for which the word "system" is hardly descriptive.

Over the years, we have worked together on the basis of mutual respect and confidence. We have recognized that in our representative form of government, an occasional disagreement, however disappointing it may be at the time, may be as much an evidence of strength as weakness. It is the weakness of the communists that compels them to stifle debate and requires slavish adherence to the party line.

In New Jersey, a dramatic evidence of our strength is to be found in the tremendous number of public-spirited men and women who daily serve as volunteers in various official capacities. Advisory boards and councils in the principal departments, as well as the members of our National Guard, the Air National Guard, the Naval Militia, and those who staff our Selective Service and Civil Defense agencies, are rendering outstanding service for which our State is grateful. The officers and men of our military forces have been acclaimed by representatives of the National Department of Defense for their efficiency as well as for their valor.

Among the many volunteer citizens to whom we owe a debt of gratitude are the 232,000 members of our civil defense forces. This number is a substantial increase over last year. Despite the fact that we spend less money for the administration of civil defense than almost any other state, the officers and members of our civil defense forces have won nation-wide recognition for their fine program and constructive service.

All of these volunteers are cast in the image of the men who first won our freedoms. They represent one of our best hopes, enlightened citizen interest and active participation in the government of our land. In them, we see democracy at work. Mindful of their service and the service of the men and women in our military forces, particularly those who are fighting a mean war, we can have faith and confidence that our Republic will survive all the vicissitudes of

a trying era. In their spirit of dedication, and with Divine Guidance, we may turn with renewed hope and understanding to take up our mutual responsibilities of the year ahead.

Respectfully submitted,

ALFRED E. DRISCOLL,
Governor.

[SEAL]

Attest:

LEON S. MILMED,
Counsel and Acting Secretary to the Governor.

Mr. Thomas offered the following resolution, which was read by the Clerk and adopted:

Resolved, That when the General Assembly adjourns it be to meet on Friday, January 16, at 10:00 A. M., and that when it then adjourns it be to meet on Monday, January 19th, at 11:00 A. M., Eastern Standard Time.

Mrs. Hutchinson sang "America the Beautiful." The Reverend Harry L. Hadley, rector of St. James' Episcopal Church of Bradley Beach, pronounced the benediction.

Mr. Thomas moved that the General Assembly adjourn.

Which motion was adopted.

The Speaker declared the General Assembly adjourned.

FRIDAY, January 16, 1953.

At 10:00 o'clock A. M. the General Assembly met.

Upon calling the roll the following members appeared and answered to their names:
Messrs. Hauser, Pilger, Salsburg,

Mr. Salsburg, Speaker *pro tempore,* in the Chair

There being no quorum present, the Speaker *pro tempore* declared the General Assembly adjourned until Monday January 19, 1953, at 11:00 A. M. Eastern Standard Time.

MONDAY, January 19, 1953.

General Assembly met at 11:00 o'clock P. M.

Prayer was offered by Assemblyman C. W. Haines.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Barnes, Beadleston, Bianco, Bowkley, Bowser, Brady, Cahill, Deamer, Duffy, Dwyer, Evans, Glenn, Gray, Haines, C. W., Hauser, Hillery, Joya, Junda, Knight, Knoblauch, Lassans, Mackey, Maebert, Mills, Murphy, Musto, Salsburg, Salvest, Savage, Schaeffer, Shannon, Shepard, Silver, Simmill (Speaker), Snediker, Stewart, Thomas, Thompson, Vervaet, Williams—40.

Absent—

Messrs. Brixie, Casciano, Cavinato, Field, Fowler, Haines, M. D., Hoff, Jamieson, Jones, Krawczyk, Kurtz, Lazzio, Little, Marggraff, Newton, Pilger, Saiber, Smith, A. M., Smith, N. C., Tompkins—20.

The Clerk declared a quorum present.

The Minutes of the last meeting being read by the Clerk, Mr. Thomas moved that the Minutes of January 13, 1953, be approved and that the further reading of the Minutes be dispensed with.

Which motion was carried.

The following bills were introduced, were read for the first time by their title, ordered to have a second reading, and were referred to committee as follows:

By Mr. Thomas,

Assembly Bill No. 1, entitled "An act relating to State institutional buildings and making appropriation for construction, reconstruction, development, extension and improvement of several State mental, charitable, hospital, relief, training, correctional, reformatory and penal institu-

tional buildings and to provide equipment and facilities therefor and for health and welfare purposes,''

Referred to the Committee on Judiciary.

By Mr. N. C. Smith,

Assembly Bill No. 102, entitled ''An act to amend 'An act concerning public holidays and regulating the transaction of business in the public offices in this State and the counties and municipalities in this State on such days, and supplementing chapter one of Title 36 of the Revised Statutes,' approved April twenty-third, one thousand nine hundred and forty-six (P. L. 1946, c. 129),''

Referred to the Committee on Municipalities.

By Mr. C. W. Haines,

Assembly Bill No. 103, entitled ''An act providing for the repair, construction and reconstruction of Smithville dam on the Rancocas creek in the township of Eastampton in the county of Burlington and State of New Jersey,''

Referred to the Committee on Commerce and Navigation.

By Messrs. Beadleston and Saiber,

Assembly Bill No. 104, entitled ''An act to amend 'An act making uniform regulations on net fishing in certain waters within the jurisdiction of this State, and providing for the licensing of same, and repealing sections 23:9–59 to 23:9–93, inclusive, 23:9–99, 23:9–101 to 23:9–107, inclusive, and 23:9–113 of the Revised Statutes,' approved June fourteenth, one thousand nine hundred and forty-one (P. L. 1941, c. 211),' as said title was amended by chapter two hundred and ninety-four of the laws of one thousand nine hundred and forty-two,''

Referred to the Committee on Game and Fisheries.

By Mr. Duffy,

Assembly Bill No. 105, entitled ''An act concerning standard time, and amending section 1:1–2.3 of the Revised Statutes,''

Referred to the Committee on Judiciary.

By Mr. Beadleston,

Assembly Bill No. 107, entitled "An act to apportion the members of the General Assembly among the several counties of the State, and amending section 52:10–1 of the Revised Statutes,"

Referred to the Committee on Judiciary.

By Mr. Duffy,

Assembly Bill No. 108, entitled "An act concerning disorderly persons, and supplementing chapter one hundred seventy of Title 2A of the New Jersey Statutes,"

Referred to the Committee on Revision and Amendment of Laws.

By Mr. Salsburg,

Assembly Bill No. 110, entitled "An act relating to the retirement on pension of certain clerks of the county district courts,"

Referred to the Committee on Municipalities.

By Messrs. Thomas and Mackey and Mrs. Dwyer,

Assembly Bill No. 111, entitled "An act to apportion the members of the General Assembly among the several counties of the State, and amending section 52:10–1 of the Revised Statutes,"

Referred to the Committee on Judiciary.

By Mr. Beadleston,

Assembly Bill No. 112, entitled "An act to impose a highway use tax on certain motor vehicles, to require a highway use permit for the operation of such motor vehicles on the public highways of this State, prescribing the methods of collecting the tax, providing penalties for violations of the provisions of this act, and making an appropriation to the Division of Taxation in the Department of the Treasury,"

Referred to the Committee on Taxation.

By Mr. Beadleston,

Assembly Bill No. 114, entitled "An act to provide an annual vacation for appointed and elected municipal officers,"

Referred to the Committee on Municipalities.

By Mr. Tompkins,

Assembly Bill No. 135, entitled "An act concerning exemption of property of certain young people's associations, and amending section 54:4–3.24 of the Revised Statutes,"

Referred to the Committee on Taxation.

By Mr. Mackey,

Assembly Bill No. 153, entitled "An act to validate certain proceedings for the issuance of bonds or other obligations of school districts and any bonds or other obligations issued or to be issued in pursuance of such proceedings,"

Referred to the Committee on Education.

By Mrs. Newton,

Assembly Bill No. 165, entitled "An act concerning the sale and distribution of newspapers, magazines and other publications in certain cases, and supplementing subtitle ten of Title 2A of the New Jersey Statutes,"

Referred to the Committee on Judiciary.

By Mr. Beadleston,

Assembly Bill No. 113, entitled "An act regulating the sale or offering for sale of meat, meat products and poultry, providing penalties for violations thereof, and supplementing chapter one of Title 51 of the Revised Statutes,"

Referred to the Committee on Revision and Amendment of Laws.

By Messrs. Haines, Shepard, Evans, Knight and Cahill,

Assembly Bill No. 115, entitled "An act providing for the apportionment of the members of the General Assembly, and amending section 52:10–1 of the Revised Statutes,"

Referred to the Committee on Judiciary.

By Mr. Saiber,

Assembly Bill No. 116, entitled "An act concerning the Passaic Valley Sewerage Commissioners and the sanitation facilities constructed or to be constructed by it, providing for the issuance of bonds and other obligations for financing such facilities, and prescribing powers and duties of said commissioners and of municipalities with respect thereto, and supplementing chapter fourteen of Title 58 of the Revised Statutes,"

Referred to the Committee on Municipalities.

By Mr. Saiber,

Assembly Bill No. 117, entitled "An act to amend 'The Banking Act of 1948' (P. L. 1948, c. 67),"

Referred to the Committee on Banking.

By Messrs. Saiber, Salsburg and Knoblauch,

Assembly Bill No. 118, entitled "A supplement to 'An act concerning control, regulation and protection of cemeteries, and supplementing chapter three of Title 8 of the Revised Statutes,' approved June twenty-seventh, one thousand nine hundred and forty-one (P. L. 1941, c. 227),"

Referred to the Committee on Public Health.

By Mr. Saiber,

Assembly Bill No. 119, entitled "An act concerning appointive officers for boroughs, and amending section 40:87–15 of the Revised Statutes,"

Referred to the Committee on Municipalities.

By Mr. Saiber,

Assembly Bill No. 120, entitled "An act concerning the licensing of certain veterans to practice medicine and surgery in all its branches in certain cases, and supplementing chapter nine of Title 45 of the Revised Statutes,"

Referred to the Committee on Public Health.

By Mr. Saiber,

Assembly Bill No. 121, entitled "An act to amend 'An act concerning insurance, regulating the making and applying of insurance rates, and providing for the licensing of rating organizations, and repealing sections 17:29–1, 17:29–2, 17:29–3, 17:29–4, 17:29–5, 17:29–6 17:29–8 and 17:29–9 of the Revised Statutes,' approved March ninth, one thousand nine hundred and forty-four (P. L. 1944, c. 27),"

To the Members of the Senate and General Assembly:

This is the seventh Budget Message it has been my privilege to submit to the Legislature of New Jersey. It has much in common with my previous Budget Messages. Like its predecessors, it will cover a period of national crisis, when all of our citizens will be called upon to bear very heavy Federal tax burdens. As in the case of all previous budgets, we have achieved a balance between our available resources and recommended appropriations. We can carry on our present programs for another year without the need for new taxes.

On January 9, 1953, the then President of the United States submitted a Budget to Congress recommending total expenditures of more than 78 billion dollars. In his Budget Message, he anticipated a deficit of almost 10 billion dollars. This deficit in the Federal Budget, and the ones that have preceded it, constitute one measure of the inflationary forces that have bedeviled and harassed business, housekeepers, and State, county and municipal governments alike.

A first order of business for government is to put its house in order, confining its expenditures to available income—restricting exceptions to this rule to those limited occasions when the Nation may be in mortal peril. Even as men and women become accustomed to peril and accept peril as a part of their lives, so our Nation and its governments must learn to perform their normal duties in the world atmosphere in which we find ourselves. Without minimizing our danger or shirking our responsibilities, we must strive to avoid a perpetual "state of emergency." If we adopt this philosophy, we shall promote the general welfare by the acceptance of principles and practices which time has demonstrated to be consistent with our constitutional, representative government and proven laws of economics.

The present peril that confronts this Nation in the struggle between the forces of freedom and slavery is likely to be with us for a considerable period of time. We are, therefore, required to achieve a long-range balance between the necessity to repulse the forces that are ranged against us, while maintaining national stability and an adherence to sound principles.

If the recommendations that I have made in the proposals which I am now submitting to you are adopted, we shall once again "pay as we go" the costs of operating our State government and our cash assistance programs to our counties, municipalities and school districts.

We shall continue to avoid deficit financing. We shall, moreover, seek to maintain New Jersey's record of doing more for less money. New Jersey, for example, operates its State government with fewer State employees in proportion to its population than any other State in the Union.

The reorganization of the Executive Branch of our government, under the new Constitution, has and will continue to pay substantial dividends in the form of better government for less money.

Each of our fourteen State departments, under wise leadership, is rendering distinguished service to the citizens of the State. The programs initiated in New Jersey are now being copied by many other States. In this Message, it is appropriate that I call your attention particularly to the work of the Department of the Treasury. In this department are concentrated all of the fiscal services of the State including the Division of Budget and Accounting. Our State Treasurer, Walter Margetts, the chief executive of the department, and his associates, by their prudent and careful management of the funds entrusted to the department, have saved or earned for the State very large sums of money.

It is appropriate that we should also acknowledge the fine service of the Director of the Division of Purchase and Property, Mr. Fred Ferber, and his associates. During the past five years, the leaders of this division have supervised one of the largest capital improvement programs (apart from highways) ever

undertaken by this State. The new facilities that had been needed for a great many years have at long last been built or are in the process of being built. Our historic State House, for many years neglected, with its antiquated and, in some cases, dangerous facilities is one of the beneficiaries of this program.

The fact that New Jersey has achieved more effective budgetary controls and better business practices than any other government in the United States is due in large measure to the extraordinarily fine service rendered to the citizens of this State by Mr. J. Lindsay deValliere, Comptroller and Director of the Division of Budget and Accounting; Mr. Abram M. Vermeulen, the Deputy Director; and their associates. In our reorganization program, Mr. deValliere has assumed burdens and has been called upon to perform difficult and frequently unpopular tasks. He has been compelled to say "No" when it would have been easier and far more pleasant to say "Yes." He and his associates have helped to make New Jersey a pioneer in fiscal reform. They have been of immeasurable help to this administration, as it has achieved the lowest per capita State tax collection in the Nation.

It is comparatively easy for a government, or the leaders of government, to achieve a temporary popularity. It is somewhat more difficult for a government to be right. If a government is right, it may ultimately expect to have that rightness recognized, even though its adherence to proper standards may compel its leaders for a period to travel through the valley of articulate disapproval. In the performance of our assignment, we have consistently striven to recognize that the methods we employ are frequently as important as our objectives. Wise methods, skillfully employed, may ultimately achieve our objectives. The adoption of practices and procedures that are contrary to the basic principles of our constitutional form of government and proven laws of economics, however popular or expedient they may appear at the moment, may destroy all chance of achieving our objectives.

It is apparent that the concentration of the State's fiscal functions in the Department of the Treasury, under the new Constitution, with its wise balancing of power and responsibility, has been one of our most notable achievements.

REVENUES

During the past and current fiscal year, our revenue experience has followed the national pattern. Fortunately, collections have exceeded anticipations. This experience was taken into consideration in arriving at the revenue estimates used in the preparation of this Budget. It is estimated that if the present trend continues, the resources available to support the formal recommendations contained in this Budget will amount to $220,989,457. There is an anticipated budget surplus as of July 1, 1953 (not yet earned, but in process) of $24,181,131. Revenues for the fiscal year 1953-54, it is estimated, will amount to $196,808,326.

For at least two reasons I deem it inadvisable for you to make any major revision upwards in the recommendations contained in the proposed Budget:

(1) As I stated in my Budget Message of a year ago, "Practically all of the taxes levied by the State of New Jersey are subject to substantial change during this period of national emergency." The tax levies upon which our State relies are in many respects vulnerable. Our best estimates may be changed overnight by some presently unforeseen action by the Federal Government. Practically all the taxes that we now levy are in competition with similar taxes levied by the Federal Government which, in many instances, gets to the taxpayer "fustest with the mostest."

(2) The balance estimated for July 1, 1954, is $1,209,902. Considering the size of our business and the extent of our responsibilities, this is a dangerously low balance, leaving little room for error and practically none for unforeseen emergencies.

Budget Requests

In the preparation of this Budget, we were confronted with requests from public-spirited citizens, civic groups and others for additional State services, capital improvements and expansion of State Aid programs which, if adopted, would have cost the State more than a billion dollars for the next fiscal year. Following informal conferences between representatives of the Division of Budget and Accounting and the various departments, formal requests were filed with the Director, totalling more than $281,000,000. To achieve a balanced budget, and in an effort to avoid new taxes to support current operations, we have been compelled to reduce these requests. Many of the new services that have been requested have real merit. It is my hope that in an orderly way we may ultimately find a way to support a number of these services.

In the development of this Budget, I have felt that it was incumbent upon me to recognize the weight of the total tax burden that our citizens are presently being called upon to bear. It is my hope that the next fiscal year will be a year of transition from the muddled, expensive Federal programs of the past, with their complexities, excessive costs and waste, to a more orderly future and that the total cost of government may be reduced with a greater share of tax levies being made available for essential State and local services.

BUDGET RECOMMENDATIONS

Following the practice of previous budget messages, the proposed Budget is in reality three budgets in one: namely, (1) General State Operations; (2) Capital Improvements; and (3) State Aid (assistance to our municipalities, counties and school districts).

The following table summarizes estimated income, as well as proposed allocations for the three budgets:

Estimated Surplus July 1, 1953	$24,181,131.00
Less Deficiencies and Supplementals for 1952-53	452,393.00
	$23,728,738.00
Estimated Revenues for 1953-54	196,808,326.00
Total Estimated Resources for 1953-54	$220,537,064.00
Budget—Part I—General State Operations	$117,619,364.00
Part II—Capital Purposes	23,074,581.00
Part III—State Aid	78,633,217.00
Total recommended for 1953-54	$219,327,162.00
Balance for Reservations and Surplus	$1,209,902.00

Gross appropriations for the current fiscal year (1952-1953) total $220,756,045. This figure includes reappropriations of approximately $4,800,000, supplemental appropriations and adjustments of $4,650,000, as well as appropriations for non-recurring capital improvements (shown in last year's Budget Message as Reservations) of $13,250,000.

Total appropriations for the fiscal year 1953-1954 and reservations pending action of the Legislature total $219,842,162. Included in this recommendation is an increase in State Aid of $9,200,000, provision for salary increments, increases, adjustments and new positions to staff our new facilities and perform additional services totaling $8,900,000. The reservations total $515,000 and include a recommended appropriation to support the work of the Law Enforcement Council in the amount of $250,000. It is my hope that this sum will be included in the supplemental appropriation bill.

Legislation has been introduced clarifying the status of members of the National Guard inducted into Federal service and to correct inequities that presently exist. If this legislation is adopted, it will cost the State approximately $190,000. Accordingly, a reservation of this amount has been made. In addition, $75,000 to support the educational television research project of the Department of Education is included in these recommended reservations, subject, of course, as in all such cases, to legislative approval.

Of the total recommended Budget of $219,327,162, $58,939,619 has been allocated to the support of our educational programs; and $50,200,028 has been devoted to the support of our various welfare programs. Thus, more than 50 per cent, including adjustments, of the total Budget has been allocated to the administration of our Departments of Education and Institutions and Agencies, and the State Aid programs administered by them.

BUDGET—PART I

CURRENT STATE OPERATIONS

The amount recommended for the operation of the various State Departments to support presently authorized services for 1953-54 is $117,619,364, which is $11,818,415 less than the $129,437,779 requested of the Budget Director.

I shall confine my Message to a brief review of major requests. The details covering all requests will be found in the schedules attached to the Message.

Department of Education

In the Department of Education we are fortunate in having a fine, new leader, Commissioner Frederick M. Raubinger, the successor to Commissioner John Bosshart, who made a fine contribution to the welfare of our society during his tour of duty. The primary concern of the Department of Education is the education of our youth.

The Department is presently engaged in the largest capital improvement program for our State Teacher Colleges in the modern history of our State. With this program and others we are seeking to strengthen our programs for the recruitment of new teachers.

More than 12 per cent of the total recommended for the General State Purpose Budget, or approximately $14,500,000, has been allocated for educational purposes at the State level. This allocation is designed to support our State Education Department, including the State Teacher Colleges, the School for the Deaf, and the Manual Training School at Bordentown. Within this allocation, provision has been made for support for the Newark College of Engineering and the State University.

The amount recommended is approximately $1,000,000 more than was appropriated for the current fiscal year. The increase will provide funds to carry on a number of new research projects

and to initiate new training programs for social and library services.

Provision has been made to strengthen our teacher training and recruitment program. It is anticipated that the appropriation will also permit the Department to render more effective assistance to local school districts engaged in the construction of new schools.

Department of Institutions and Agencies

We turn now to a department which has tasks that are not always pleasant. Its primary concern is to help citizens who, for one reason or another, have suffered adversity and need our help. It, too, is one of our most important departments. We are fortunate in having fine leadership in this Department. Commissioner Sanford Bates, the chief executive of the Department, and a constructive member of my Cabinet, is a world-renowned penologist.

Committed to its care in the various institutions operated by the Department are approximately 26,000 members of our society. In addition, the various humanitarian programs administered by the Department are designed to help an additional 53,000 aged persons, dependent children, blind persons, permanently and totally disabled persons, as well as others entitled to public assistance.

One of the primary tasks of the Department is to restore to a productive citizenship the mentally sick, the physically handicapped, the unfortunate victims of our industrial revolution, as well as those who have failed to recognize that an orderly society requires observance of our laws.

Of the total sum recommended for General State Operations, $35,330,028, or slightly more than 30 per cent of the total Budget for State Operations, is allocated to this Department.

We are presently engaged in the most important institutional construction program in the history of the State. Our older institutions are being renovated, modernized and rebuilt. New facilities are being constructed. The Budget recommendation includes adequate provision for staffing the new facilities to be completed during the next fiscal year.

More than $500,000 has been provided in the proposed Budget for new positions to provide better care and treatment for the 15,000 patients in our mental hospitals, the Village for Epileptics at Skillman, and other similar institutions.

An additional $600,000 is included in the Budget to provide salary adjustments for the employees of our correctional institutions, and for new positions in these institutions. The adoption of this recommendation will be a long step in our efforts to comply with the recommendations of the committee which recently reviewed our prison and parole systems.

Likewise, we have provided increases for the care and maintenance of our institutions for the feeble-minded, the tubercular, and the soldiers' homes.

Although a recent survey of our dietary practices and procedures found them ample and basically sound, a continuation of high food prices, as well as the desirability for some changes to strengthen our program, has resulted in our recommendation of an increase in the appropriation for food and maintenance.

Additional funds have also been provided to support and expand the programs at the Highfields Treatment Center, the Child Treatment Center at Allaire, and the Diagnostic Center.

Department of Health

The sum of $1,912,379 has been allocated in the proposed Budget for the operation of this Department. Commissioner Daniel Bergsma assumed command of this important department in 1948 when he became a member of the Cabinet, after a distinguished career in the field of public health and as Assistant Theater Surgeon, Caribbean Defense Command, U. S. Army. Under his constructive leadership, the Department has been completely reorganized.

Included in the proposed appropriation is $300,000 to initiate research and preventive programs in chronic illness. It is appropriate that New Jersey, with its great industrial research facilities, should be the first to emphasize the need for effective programs designed to prevent chronic illness. In the past, we have spent

more for cure than we have for prevention. Chronic disease is the cause of two-thirds of our deaths today. It exacts a terrible toll, overloading our hospitals, retarding our production lines, and spreading gloom in our families.

Accordingly, the program recommended by a distinguished Committee on the Chronic Sick, appointed in 1949, pursuant to legislative action, is of major importance. Our own State institutions will be included within the research activities that will be supported in the event my recommendations are adopted.

Department of Law and Public Safety

Proportionately, the largest increase recommended in the proposed Budget is allocated to the Department of Law and Public Safety, led by Attorney-General Theodore D. Parsons, a conscientious public servant who patriotically agreed to assume one of the most difficult services in this State, at great personal sacrifice. Under his leadership, the Department has assumed many new, constructive and important duties never heretofore assumed in this or any other State.

In the schedules attached to this Message, you will find an allocation to this Department of $13,082,806, representing more than 11 per cent of our total State Operating Budget. This is an increase over current allocations of $2,500,000.

The Division of State Police has been allocated funds for 93 new positions, many of them to relieve uniformed personnel for law enforcement activities.

In addition, I am recommending an appropriation for a complete revision of the communications system of our law enforcement agencies.

Likewise, provision has been made for a substantial increase in personnel for the enforcement of our traffic laws. While in the schedules an allocation amounting to $541,744 has been made to the Division of Motor Vehicles, it should be understood that it may be used to augment our State Police force, as well as to strengthen the activities of the Motor Vehicle Division.

In this Budget, we have made provision for the establishment of the new Security Responsibility Bureau, in the Division of Motor Vehicles. The establishment of this bureau, however, will not constitute an additional burden on State revenues, because it is anticipated that this activity will be supported by revenues derived from insurance carriers.

Department of Defense

Provision has been made in this Budget for a continuation of the various programs of this Department. There is included within the requested appropriation $132,600 to support our Civil Defense activities. Despite the magnitude of our Civil Defense program, it is operated at far less cost than in any other comparable State.

Department of Civil Service

Included in the appropriation of $667,673 for the Department of Civil Service is a sum sufficient to support the first phase of an in-service training program. This program, recommended by the fine President of the Civil Service Commission, Dr. Lester Clee, has tremendous possibilities for our taxpayers, as well as for our State employees.

Department of the Treasury

In the proposed Budget, there has been allocated to the Department of the Treasury $5,583,512 to maintain the present services of the Department and to continue the renovation of our State office buildings.

Department of Labor

This Department has been allocated for the next fiscal year $2,876,009. Included in this allocation is an appropriation for an additional school for the children of migrant laborers. New Jersey has been a leader in the education of children of migrant laborers. Its first school has been a great success. There is a substantial need for a second school. The Commissioner of Education concurs in this recommendation.

Department of Conservation and Economic Development

$3,589,415 has been allocated in the proposed Budget to the Department of Conservation and Economic Development. Included in this appropriation is a comparatively small sum to support a research program to help one of New Jersey's oldest activities—its oyster industry.

The State Highway Department

In the proposed budget there has been allocated to the State Highway Department for its operation, $13,689,415. This is almost 12 per cent of the total State Operating Budget.

This Department, under the energetic leadership of Commissioner Ransford J. Abbott, is engaged in the most important highway construction program in the history of the State. The Department is exceeding all previous productive records. The funds that have been allocated should be sufficient to maintain our present roads, as well as those that are under construction and to be completed during the next fiscal year.

It should be noted that the responsibilities of this Department have been substantially increased in recent years. It was a major contributor to the success of the New Jersey Turnpike. It is presently engaged, in a co-operative effort with the New Jersey Turnpike Authority, in the expansion of the Turnpike; and is likewise assisting the New Jersey Highway Authority in the construction of the Garden State Parkway.

* * * * * *

There has been allocated to the remaining State Departments the following sums: Department of Agriculture, $1,013,691; Department of Banking and Insurance, $1,352,027; Department of State, $188,850, and Department of Public Utilities, $505,240.

A sense of gratitude compels me to acknowledge the fine service that is being rendered by the chief executives of our State Departments: Willard H. Allen in the Department of Agriculture, Warren N. Gaffney in the Department of Banking and Insurance, Lester H. Clee in the Department of Civil Service, Charles R. Erdman, Jr., in the Department of Conservation and Economic Development, Major General Edward C. Rose in the Department of Defense, Frederick M. Raubinger in the Depart-

ment of Education, Ransford J. Abbott in the State Highway Department, Daniel Bergsma in the Department of Health, Sanford Bates in the Department of Institutions and Agencies, Percy A. Miller, Jr., in the Department of Labor and Industry, Theodore D. Parsons in the Department of Law and Public Safety, John E. Boswell in the Department of Public Utilities, Lloyd B. Marsh in the Department of State, and Walter T. Margetts, Jr., in the Department of the Treasury. These men who serve without protection of tenure, operating substantial businesses that in private life would provide them far greater remuneration, are constructive leaders in the business of government. The salaries they receive are far below those that private industries would pay for similar services. These men assume heavy responsibilities, working as they do in an arena where criticism is freely given and praise, despite a job well done, is the exception rather than the rule.

One of the disappointments that I have experienced is the difficulty of drafting the best men and women in our society to serve in governmental positions. It is my hope that an increase in salaries for services in our top level offices, including the Cabinet, will make governmental service somewhat more palatable by reducing slightly the sacrifice that men and women in public life must make.

The salary of the Governor of $20,000 was set by the Legislature many years ago. No increase in the salary has been made to offset the impact of the Federal income tax or the increase in the cost of living and the new burdens that the Governor's office has assumed under our new Constitution. There was a time, not many years ago, when the Governor of this State devoted a portion of three or four days a week to his tasks, reserving the remainder of his time to personal interests. Today, the responsibilities of the Governor require his continuing attention around the clock. The disparity between the remuneration of the Governor and the salaries paid to the judiciary, who fortunately labor in an atmosphere not so highly charged with controversy as that which surrounds the office of the Chief Executive and his associates, has been the subject of comment. During my tour of

duty as Governor, it has been frequently suggested that the Governor's salary should be increased. My personal feelings as well as the Constitution compelled me to reject such suggestions. Mindful, however, of the burdens of the office and the heavy toll it exacts, I believe the salary of the next Chief Executive of this State should be increased to $30,000. I am also recommending that there be included in the Budget for the Chief Executive's Office an amount of $5,000 to permit the Governor-elect to begin informal work immediately following his election and prior to the time that he takes office so that the transition may be orderly and efficient, avoiding delay of the State's business.

Debt Service

There is continued in the Budget, the sum of $9,449,437.50 for the service of the State debt. This represents an increase of approximately $800,000 over the current fiscal year to meet the needs of our present capital improvement program.

Salaries

During 1952-53, a program of selective range revision, first initiated in July, 1949, reached its peak and required an appropriation for the current year of $8,186,720 for salary adjustments and increments. This appropriation was a wise investment in the excellent program that has been developed by the Civil Service Department and is being carried forward to completion under the energetic leadership of Dr. Lester Clee. The Department has made certain additional recommendations to complete a program of equalization in which a heavy emphasis has been placed on incentive. Accordingly, I am recommending an appropriation of $3,333,987 which, together with funds that have been provided for normal increments, will make available a total sum of $5,500,000 for State employees' salaries, increments and adjustments. As previously indicated, provision has been made in the budget for new positions to staff our new institutions as they are completed, and to increase certain other very important services. The total cost of these new positions will be $3,400,000.

Reservations

In my Annual Message, I urged that our Law Enforcement Council be made a continuing agency with adequate financial support. I hope this legislation strengthening our Law Enforcement Council will be speedily adopted. Pending the adoption of this legislation, I have in this Budget Message reserved the sum of $250,000 which I hope will be appropriated to the Council in a supplemental bill as soon as the Council has been placed upon a permanent basis.

A distinguished committee of our fellow citizens has been engaged in exploring the use of television as an educational medium. In the budget, there is reserved for a continuation of these research and experimental activities for television and education the sum of $75,000. Finally, I have reserved $190,000 to support legislation designed to clarify the status of members of our National Guard inducted into Federal service.

Supplemental Appropriations

Because of legislative changes in the Motor Vehicle Act and the passage of our new Motor Vehicle Security Law, it was necessary to permit the Department to use $25,000 from their present appropriation for printing new drivers' manuals. This fund must be repaid to the regular division accounts or they will be unable to continue operations to the end of the fiscal year. Accordingly, I am recommending that a supplemental appropriation be given this division in the amount of $25,000.

While the Security Responsibility Law for motor vehicle owners does not go into effect until July 1, 1953, it is necessary that the staff be established prior to that date. Accordingly, I am recommending a supplemental appropriation in the amount of $163,212.75 for this purpose.

The Legislature in 1952 passed an act creating a State Board of Examiners of Ophthalmic Dispensers and Ophthalmic Technicians. While this board will eventually be self-supporting, it will be necessary to establish a staff prior to the receipt of any revenues. Accordingly, I am recommending a supplemental appropriation in the amount of $9,180.

It is recommended that there be appropriated to the Department of Law and Public Safety an additional sum of $250,000 to enable the State to protect its tremendously valuable water rights that are now under attack in litigation before the United States Supreme Court.

Budget—Part II

Capital Expenditures

I am recommending the allocation of $23,074,581 for capital improvements for the fiscal year 1953-54.

Highways

We plan to continue our highway construction program, which presently is the largest and most important ever undertaken by this State. On the one hand, we have sought to avoid saturating the market, thus losing the advantages of truly competitive bidding; while, on the other hand, building the maximum number of roads that our limited finances will permit. We have been encouraged by the competitive bids that we have been receiving. We propose to continue our normal State highway program.

There has been allocated for this purpose $20,000,000, together with any highway user taxes collected by the Federal Government which may be returned to the State for highway construction purposes.

Lands and Buildings

There has been allocated to the Department of Law and Public Safety $550,000. Three hundred thousand dollars of this amount is for improvement at the headquarters of the New Jersey State Police at West Trenton. Included in these improvements are additional administration and classroom facilities, and the movement of a warehouse and substation. The New Jersey Police Academy at the headquarters is now the center of training for instructors in civil defense. We likewise plan to strengthen our traffic refresher courses, assist regional training schools conducted by the Federal Bureau of Investigation, provide training programs for auxiliary police and additional training programs for local police forces. These programs are designed to get to the very heart of our problem of law enforcement. If we are to have good law enforcement in this State, we must have it at the local or community level. Our local police forces and their auxiliaries

are our first line of defense against criminal activities. It would be a great mistake for either the local police forces, the citizens of our communities or for the State to consider that the latter can adequately take the place of community action to enforce our laws. Therefore, the major task of our State law enforcement agencies is to backstop community efforts. One way that this can be achieved is by providing adequate training programs for community forces. These programs, initiated by Attorney-General Theodore D. Parsons, have deservedly won the approval of local, State and Federal authorities, as well as civic-minded groups. Additional facilities are required to expand this program, and additional appropriations may be required to support them.

$250,000 has been allocated to the Motor Vehicle Division for the establishment and equipment of new testing stations in critical areas.

To the Department of Conservation and Economic Development there has been allocated $100,000 to complete the Delaware-Raritan Canal, a very important source of water for a growing industrial area. In addition, it is recommended that the unexpended balances in the accounts for the current year for the acquisition of wildlife, recreational areas and water resource areas be reappropriated. Negotiations are presently well under way to acquire these properties. In the event these negotiations are not consummated this year, the amounts appropriated for the current year should be reappropriated so that New Jersey will not lose an opportunity to protect its resources.

There is allocated to the Department of Education $2,119,000 for additional facilities at the State University. This allocation will permit us to complete the library project commenced last year. An adequate library is the heart of an educational institution. The lack of an adequate library at the State University has been a great handicap to the University and to the educational programs of this State. Included in the allocation is a $100,000 allocation to the New Jersey College for Women for the construction of a service building. $15,000 is likewise allocated for the construction of an oyster research laboratory.

Included in the total recommendations for capital improvements is $60,000 for new buildings at Clinton Reformatory and the Vineland State School, both within the Department of Institutions and Agencies.

BUDGET—PART III

STATE AID

As in previous years, it has been comparatively easy for the State to maintain basic, essential State operations within presently available or reasonably to be anticipated revenues. Thus, in this Message, it is apparent that we have sufficient revenues to manage present services including a reasonable capital program. Our difficulties really become acute when we begin to consider State aid to our counties, municipalities, and school districts. In this Budget Message, I am recommending an appropriation for State aid of $78,633,217, the largest State aid program in the history of the State. This recommendation is an increase of $9,200,000 over the appropriation for the current fiscal year, which totaled $69,447,277 and substantially complies with the official requests received by the Budget Director from the various State boards.

General State Aid

Chapter 358 of the Laws of 1952 consolidated under State control the various police and firemen's pension programs which, prior to that date, were administered in our municipalities. This law initiated a program, the need for which had long been recognized, destined to place these funds, heretofore threatened with bankruptcy and, in any event, a potentially heavy drain upon the municipalities, on an actuarially sound basis. In an effort to rehabilitate the funds and to achieve the laudatory objectives of the law, the State agreed to make a substantial contribution to the fund. The amount required for the next fiscal year to keep the legislative commitment is $3,500,000 or $2,500,000 more than that allocated for the current fiscal year.

The Department of the Treasury has strongly recommended an increase in the salaries of our various county tax boards. It is anticipated that the work of these boards, under the programs that are presently being developed by the Department, and which will be the subject of comment in the next report of the State Tax

Policy Commission, will be increased substantially. $87,000 has been allocated for this purpose.

In the Budget, I have recommended continuation of our current State Aid programs for veterans services. I have likewise recommended a continuation of our present beach protection program.

State Aid for Highways

State aid to our counties and municipalities for highway purposes has been increased in the proposed Budget by $1,050,000. The total sum recommended is $17,010,355.

It is my hope that before the current fiscal year is completed, the Federal Government, in a co-operative effort with the States, will repeal the Federal gasoline tax, which was first levied as an emergency tax and thereafter recognized by Congress on numerous occasions as belonging to the States. This proposal is now supported by the Council of State Governments, the Conference of State Governors, and the committee, of which I have the honor to be Chairman, which is actively engaged in exploring this proposal with representatives of the Congress of the United States and the President of the United States.

From 1939 to 1953, inclusive, it is estimated that the Federal Government has collected from highway users more than 14 billion dollars. Less than 5 billion dollars has been appropriated by the Federal Government during this period for highway construction. The present system handicaps highway construction by its delays and its waste. We are devoting too many dollars to administration. Many of the tax dollars that are presently being devoted to the administration of two competing taxes on the same activities, duplication of administrative responsibilities, should be devoted to highway construction. In the event a substantial change is achieved in the relationship between the Federal Government and the States, State aid to our counties and municipalities for the maintenance and construction of our highways may be substantially increased.

I hope to be able to report to the Legislature on the progress of our negotiations with the Federal Government in the near future. The Committee of Governors is working under favorable auspices.

Welfare

The amounts recommended for the various welfare programs follow rather closely the allocations made available for the current year. These allocations will support present programs for old age assistance, dependent children, relief subsidies, permanently and totally disabled, as well as current subsidies for county, mental, and tubercular hospitals.

When the Commission to Study the Administration of Welfare in New Jersey has completed its work, it is my hope that you will carefully review our entire welfare aid program. A clarification of administrative responsibility is desired. As a part of such clarification, it is anticipated that the State's share of the financial burden should be increased.

State Aid for Education

There is allocated in the proposed budget, for direct State Aid to our school districts, the sum of $28,016,031, and to the Teachers' Pension and Annuity Fund, $13,824,397. This phase of our State Aid program, therefore, will require a total appropriation of $41,840,428. This is more than 53 per cent of our total State Aid Budget, and constitutes an increase of $5,500,000 over last year.

The increase in the State's contribution to the Teachers' Pension and Annuity Fund reflects in part the substantial increase in salaries that our teachers have received in recent years. The proposed appropriation also includes an allocation to make up the deficiency between the interest earned by the Teachers' Pension Fund and interest guaranteed by the State. It is noteworthy that the Teachers' Pension Fund contains assets valued at $221,000,000 as of December 31, 1952. The proposed appropriation contains an increase of approximately $1,900,000 more than last year for direct State Aid to our school districts.

Last year the New Jersey State School Aid Commission filed a report in three parts, the last dated March 26, 1952, recommending a very substantial increase in State Aid for our school districts. This report states that there are a number of taxes that may be levied to provide the funds required for additional State Aid. This report recognizes that within the limits of presently available revenues it will be impossible to increase the State appropriation beyond that recommended in the proposed budget. The difficult determination is referred back to the Legislature for decision.

Section VI of Article IV of the Constitution of 1947 states, "All bills for raising revenue shall originate in the General Assembly; but the Senate may propose or concur with amendments, as on other bills."

While I recognize that there is a need for some additional State Aid for education, I submit that there are certain preliminary steps that should be taken.

Within a few days, there will be submitted to you the Sixth Annual Report of the Commission on State Tax Policy. This report will demonstrate the inequities that presently exist in the assessment of real estate in this State. According to the Commission:

> "Real estate in New Jersey is assessed at an average assessment ratio of 34 per cent of its appraised value. Among the municipalities this average ranges from under 10 per cent in seven municipalities to over 60 per cent in two municipalities. On an over-all basis, the State-wide average tax rate of $6.77 per $100 of valuation taxable in 1952 represents an average effective tax burden of $2.30 per $100 of full value."

A first step that should be taken immediately by the Legislature is to completely revise and modernize our practices and procedures for the assessment and collection of our real estate taxes. I discussed this subject in my Budget Message a year ago and referred to it in my Annual Message this year, as in previous Annual Messages. Until this step is taken, we are "laboring in the dark," unable to determine the true ability of our munici-

palities to support local services, and the extent of their need for additional State assistance or new tax sources. A fair and sound administration of the general property tax may provide more municipal aid for schools at the local level and would certainly nourish the very roots of successful local self-government. By eliminating inequities in the administration of the property tax, we may well enable local government to help itself more effectively than with any possible outside aid.

It is my hope that the Sixth Annual Report of the Commission on State Tax Policy, together with previous reports of this excellent commission, will be referred to the appropriate committees of the Legislature, together with the report of the State School Aid Commission.

Section I, of Article VIII of our Constitution provides: "Property shall be assessed for taxation under general laws and by uniform rules. All real property assessed and taxed locally or by the State for allotment and payment to taxing districts shall be assessed according to the same standard of value; and such real property shall be taxed at the general tax rate of the taxing district in which the property is situated, for the use of such taxing district."

Thus far we have failed to implement this section of our Constitution effectively by the classification of property and the adoption of realistic laws.

These reports contain all the basic material required to permit the committees to review current and proposed taxes authoritatively and to reach basic decisions with respect to the same. I submit, however, that it would be ill-advised, at this time, for you merely to superimpose more taxes on the taxes that are presently being levied by all levels of government.

Our present school aid formulae, as I have stated in previous Messages to the Legislature, are inequitable and should be completely revised. This revision is the second step that should be taken to help our school districts.

As you consider the plea for additional State Aid, you will undoubtedly be mindful of the total impact of all taxes that are

presently being levied. The total tax bill is too high! Therefore, a third step is to close present loopholes and to correct current inequities. We cannot afford to subsidize waste.

As we consider the need for additional State Aid, we should be mindful of the fact that for the first time in many years there is a strong possibility that we may be nearing an agreement with the Federal Government for a reallocation of service responsibilities and supporting taxes. The opportunity for savings, through a realignment of Federal-State services and a fairer apportionment of taxes between the various levels of government, is favorable.

The problem of Federal-State relations is not a new problem—it was the primary question at the time the Republic was established; it is still a primary question. About fifty years ago, a very distinguished American statesman said: "The question of the relation of the States to the Federal Government is the cardinal question of our constitutional system. It cannot be settled by the opinion of any one generation because it is a question of growth and every successive stage of our political and economic development gives it a new aspect, makes it a new question." All agree that we are entering a new stage of political and economic development which makes it imperative that we examine anew the whole question of Federal-State relations.

Our entire tax program, with all of its vulnerabilities and inequities, should be reviewed. It is my hope that the recommendations I have made in previous Messages will receive the earnest consideration of the committee, or committees, to whom the reports that I have mentioned are referred for legislative action.

We are more fortunate than our predecessors in that we may have an opportunity to achieve substantial economies by a redefinition of the business of government and a co-ordinated Federal-State-local tax program that has heretofore eluded our best efforts. Accordingly, we should strive to avoid expediency—piecemeal legislation. Any revision of our tax laws that may be undertaken should be comprehensive, apportioning the tax burden

fairly and equitably among all of our citizens. The system should be designed to conserve, rather than to unnecessarily expend, our resources. You will undoubtedly recognize that there is always a point of diminishing returns. It is significant that those States that have adopted new tax programs without taking the preliminary steps that I have recommended have completely failed to solve their problem. While vested interests in these new taxes have been swiftly acquired, they have failed to stifle the clamor for additional State Aid.

History teaches us that worthwhile objectives are not accomplished quickly or easily. Our task is to reconcile ourselves to the hard facts of the world environment and to gird ourselves for the long pull.

As in the past, I look forward to working with the Legislature in a common effort to solve our mutual problems.

Respectfully submitted,

ALFRED E. DRISCOLL,
Governor of the State of New Jersey.

Attest:

LEON S. MILMED,

The Speaker presented Mrs. Dwyer, of Union county, who delivered the Lincoln's Day address as follows:

It is with a great sense of pride that I join with you today in the commemoration of that great American, Abraham Lincoln, whose birthday we celebrate this week.

A little more than ninety years have passed since Abraham Lincoln dominated the American scene, yet, in that comparatively short period of human history more has been written about him than about any other historical character. In the files of our country's libraries there are to be found more than five thousand titles on Lincoln. One biography alone—Carl Sandburg's—has sold two million copies. Charnwood's biography has probably equalled that number. Articles in newspapers and magazines never cease to appear. One man spent fifty years trying to catalog the magazine articles written about our great Civil War president. Surely, we should by now have the perfect literary portrait of the man whose impact upon American life was so profound. Surely, by now we should have embossed for all time on the pages of history the perfect tribute to Lincoln. But the common people of this nation—and the freedom-loving people of the entire world—who hold Abraham Lincoln as the symbol of their hopes and ambitions will never tire of learning and reading about him. We will continue to have more Lincoln stories, books and pictures as long as mankind can thrill over the story of a man who rose from poverty, walked with kings but never lost the common touch, proclaimed so eloquently the basic principles of freedom and democracy, and gave his life that his country might have a new birth of freedom.

What kind of portrait of the man emerges from the millions of words written about him? To invoke the name of Abraham Lincoln is to place first emphasis on complete integrity. Today this goes far beyond the meaning of the "Honest Abe" given him by his contemporaries. Today, the name Abraham Lincoln symbolizes for us the positive conception of personal goodness and political righteousness. The name Lincoln also connotes the dignity of a great simplicity, the enemy of pretentiousness and vanity. Americans everywhere are humble in his presence in the realization that he, too, was humble in the presence of the great tasks that confronted him. It is because Lincoln himself was so much "of the people" that he could speak

so convincingly of government by and for them. And at the same time, he gave us our most eloquent and simplest real definition of government by the consent of the governed. He made us feel that we are our masters so long as we kept faith with the ideals that have been set up for us.

Those sterling qualities that have emblazoned the name of Lincoln on the American conscience were displayed personally in this very State Capitol. On February 21, 1861, Mr. Lincoln, then president-elect, addressed the New Jersey Assembly. His words were simple, frank and forthright; they are as applicable to the present day and to the circumstances which we of 1953 face as they were to our countrymen of 1861. Deeply concerned with the conflicting demands being made on the national leadership and threatening seriously the unity of the nation, Abraham Lincoln said, ". . . this is a time when the bravest and wisest look with doubt and awe upon the aspect presented by our national affairs. Under these circumstances you will readily see why I should not speak in detail of the course I shall deem it best to pursue. It is proper that I should avail myself of all the information, and all the time at my command, in order that when the time arrives in which I must speak officially, I shall be able to take the ground which I deem the best and safest, and from which I may have no occasion to swerve. I shall endeavor to take the ground I deem most just to the north, the east, the west, the south, and the whole country; take it, I hope, in good temper, with no malice towards any section. I shall do all that may be in my power to promote a peaceful settlement of all our difficulties. The man does not live who is more devoted to peace than I am; none who would do more to preserve it; but it may be necessary to put the foot down firmly; and if I do my duty and do right, you will sustain me. . . ."

The facts of Abe Lincoln's life are legend. Every school boy and girl has heard and read of them. He was born on February 12, 1809, in Hardin county, Kentucky, in the roughest of log cabins of a shiftless and unlettered father and a frail, delicate mother who died when he was nine. To his mother, doubtless, young Abe owed his passionate love of study and his ability to learn, and to his stepmother the few opportunities of his boyhood for acquiring an education. Although he had practically no formal schooling, he was possessed with an extraordinary curiosity. He read

everything he could get, ciphered and wrote by himself, stretched out on the cabin floor in the firelight.

His early manhood was spent in Illinois. He worked at splitting rails, keeping store, taking supplies down the river to sell, and nearly all the various industries of a new country. From childhood he had been acquiring the reputation as a debater, speechmaker and teller of apt stories. He participated in the Black Hawk War where he was captain of his company. As he was able to find opportunity, he studied law, and his first experience in public office was in the State Legislature, to which he was elected in 1834 as one of four representatives from Sangamon county. This gave him the opportunity to study law more diligently. He was elected to the State Legislature four times, and in 1846, to the United States Congress.

Lincoln was opposed to slavery all his life and in the Illinois Legislature in 1837 had so gone on record. In the summer of 1858 he and Stephen A. Douglas held debates upon this question throughout the State, and the reputation thus gained by Lincoln helped his candidacy for the office of President in 1860 on the Republican ticket.

After his election excitement ran high. The Southern leaders knew that a man had been chosen who would tolerate no weakening on the part of the national government. Lincoln's loyalty to the Constitution was fully equal to his conviction against slavery, and not for a moment did he admit the possibility of peaceable secession.

Throughout the trouble and tumult of the succeeding years, Abraham Lincoln never flinched from his heavy task, never wavered in his adherence to basic principles and with every crisis reached and passed, the confidence of his fellow-countrymen deepened and strengthened. The climax of his noble work was the Proclamation of Emancipation, on the 22nd of September, 1862, announcing that from the following New Year's day the slaves should thenceforth and forever be free.

When the cause of Union and Freedom had been won, and the President, who had stood firm throughout all the cares and sorrows of that heart-breaking time, had been triumphantly re-elected, at the very hour when a greater hope than ever had dawned for our nation's life, he was

assassinated, and the loss to the country was irreparable. But Lincoln's name and character could not be reached by the assassin; they belong to America.

Lincoln's enduring fame rests on a number of things: his dramatic rise from obscure poverty to the highest office of the land; his masterful conduct of the presidency during one of the greatest crises in American history; his successful welding together of the diverse factions of his times to insure victory; his steady adherence to the ultimate goal; his tolerance, balance, sure judgment, good sense, earthy stories and homespun humor; the classic clarity of his state papers; the dramatic manner of his death in the very hour of the nation's triumph; and, most important of all, the amazing way the dominant forces of succeeding generations have come together to use Lincoln as a symbol.

And he has become a symbol not of one but of many forces. To the American patriot Lincoln was the protagonist of nationalism and the Savior of the Union. To the members of the Republican party he was their first President and a staunch exponent of sound business in government. To the farmer he was a friend of the Homestead Act and the developer of the West. To the Negro he was the Great Emancipator and humanitarian. To the Southerner he was a tolerant and kind man who might have saved the country from the excesses of radical Reconstruction. To the wage earner he led the fight against the system wherein free labor was compelled to compete with slave labor. And to lovers of democracy in the world Lincoln led a revolution against injustice and waged a mighty war while still pursuing the essentials of the democratic process.

Surely, these are times when we should once more call upon the spirit of Abraham Lincoln and what it represents for the strength and encouragement he can give us. We are still engaged in a great struggle to see if our security, founded on the concepts of individual freedom and personal dignity, and attacked daily from within and without our borders, can survive and endure. From Abraham Lincoln we can once more hear a call for a new dedication to that never-ending struggle against those evil forces that would subjugate our American way of life. In his words, his deeds and his great character is the living, powerful force we need so desperately to guide us in our present hour.

Minority Report No. 1, on Assembly Bill No. 40,

By Mr. Musto.

Pursuant to Rule 76, I herewith submit a minority Report of the Assembly Judiciary Committee on Assembly Bill No. 40. I do not believe that Assembly Bill No. 40 providing for a municipal rent control is an adequate solution for the problem that faces the State.

Accordingly I recommend that the contents and substance of Assembly Bill No. 608 providing effective State-wide rent control be substituted for Assembly Bill No. 40.

Mr. Brady made the following motion:

Pursuant to Rule 76, I move that the minority report No. 1 by Mr. Musto be substituted for the majority report of the Assembly Judiciary Committee on Assembly Bill No. 40.

The following report was sent to the desk and read by the clerk:

Minority Report No. 2 on Assembly Bill No. 40.

By Mr. Musto.

Pursuant to Rule 76, I herewith submit a minority Report of Assembly Judiciary Committee on Assembly Bill No. 40:

Assembly Bill No. 40 should be amended to read as follows:

On page 5, line 5, after the period, insert a sentence as follows: "The municipality shall file a quarterly statement of its expenditures for administration of rent control with the State Department of Conservation and Economic Development, in accordance with regulations to be promulgated with that department, and shall be reimbursed for such expenditures out of funds heretofore or henceforth appropriated to said department".

On page 6, line 17, change the period to a semicolon, and add the following: "*provided, however,* there shall be no general increase or decrease allowed in rents".

On page 6, line 30, after the word "general" insert the words "or partial".

On page 7, line 7, strike out the word "shall" and substitute the word "may".

On page 8, line 8, after the word "act" strike out the rest of the line and insert in lieu thereof the words "but not later than April thirtieth, one thousand nine hundred fifty-three;".

On page 8, section 8, line 14, strike out the words "fifty-two", and substitute the words "forty-seven".

On page 9, section 11, strike out lines 13 and 14.

Mr. Brady made the following motion:

Pursuant to Rule 76, I move that the minority report No. 2 by Mr. Musto be substituted for the majority report of the Assembly Judiciary Committee on Assembly Bill No. 40.

Amendment to Assembly Bill No. 625:

An amendment to Assembly Bill No. 625, an act concerning increased transcript rates for stenographic reporters in the courts, and amending section 2A:11–15 of the New Jersey Statutes.

1. Section 2A:11–15 (b) of Assembly Bill No. 625 is amended to read as follows:

Section 2A:11–15. (b) When copies of the stenographic record of any court proceedings are ordered by any person, the reporter shall be paid therefor by such person at the rate of [thirty cents ($0.30)] twenty cents ($0.20) for each folio of the original transcript and ten cents ($0.10) for each folio of the accompanying carbon copy; any additional copies thereof furnished the person so requesting the original transcription shall be paid for at the rate of ten cents ($0.10) for each folio of each additional copy. Copies furnished any other person shall be paid for at the rate of [thirty cents ($0.30)] twenty cents ($0.20) for each folio of the first such copy and at the rate of ten cents ($0.10) for each folio of each additional copy. If the judge of any court shall order the initial transcription of the stenographic record of a civil case heard by him, the reporter shall be paid by the parties; the cost of the transcript so supplied shall be apportioned among the parties, and allowed as part of the taxed costs in the case, in the discretion of the court. If a party to a civil case shall order the initial transcription of the proceedings, he shall, when requested by the court, at the same time order an additional copy of the transcript for the use of the court. The cost of the court's copy, in the discretion of the court, shall be allowed as part of the taxed costs. If a judge orders a transcript in a criminal case, the reporter shall be paid therefor in the same manner and from the same sources as the reporter's salary or per diem fees are paid.

Mr. Barnes moved the adoption of the Assembly amendments to Assembly Bill No. 625.

Was taken up on second reading.

Mr. Barnes offered the following amendments to Assembly Bill No. 434, which were read.

Amending an act to license electrical contractors of the State of New Jersey and the establishment of a board of electrical examiners:

2. There is created a State Board of Examiners of Electrical Contractors consisting of five members. The members of such board shall be qualified electors appointed by the Governor for terms of one, two, three, four and five years from July first, one thousand nine hundred and fifty-three; and annually thereafter he shall appoint for a term of five years, one member to replace the member whose term expires. The Governor shall fill any vacancy in said board for the unexpired portion of the term. Two members of the board shall be qualified electrical contractors, [one of whom shall be an engineer licensed by the State of New Jersey,] one shall be a qualified electrical inspector, one shall be a [person] journeyman employed in the electrical contracting industry, and one shall be a public member not associated with the electrical industry.

16. The provisions of this act shall not apply to electrical work or construction which is for the following purposes or which is by or for the following agencies:

(c) Any work involved in the testing, servicing or repairing of electrical equipment or apparatus. [provided that this exemption shall not include permanent wiring.]

(h) Commercial radio and television transmission equipment. [*provided, however,* that electric equipment and construction used for power supply to transmitting equipment, electrical equipment used for radio transmission in amateur stations and outdoor receiving aerials shall not be exempted.]

(k) Installation, repair, manufacturing or maintenance work on premises occupied by a firm or corporation and performed by its regular employees.

(l) Installation, repair or maintenance performed by regular employees of a municipality, county, school district or State on the premises or property owned or occupied by a municipality, county, school district or State.

17. Electricians regularly employed by the State, a county or municipality or by firms or corporations other than electrical contractors may provide maintenance, repair, installation [for] of electrical equipment on the premises occupied by the State, county or municipality, firm or corporation as heretofore.

The following message from the Governor, was sent to the desk and read by the Clerk:

May 18, 1953.

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 240.

The purpose of this bill is to include the Marine Corps League of the United States among the list of veterans' organizations with respect to which a public employee may attend a State or national convention under a leave of absence with pay. Through an inadvertence, another veterans' organization which had already been included in the list was omitted in the course of the legislation. The bill also fails to place a limit on the number of days leave with pay that may be granted where the employee is a duly authorized representative of two or more of the enumerated organizations.

Accordingly, and with the approval of the sponsor, I am returning herewith Assembly Bill No. 240 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 13, before the word "Marine" insert a comma.

On page 1, section 1, line 14, after the word "Association,' 'insert the words "War Veterans Employees Association,".

On page 2, section 1, line 21, after the word "convention", delete the period and insert the following: ", provided that no person shall be entitled to such leave or leaves of absence including in the aggregate more than five working days in any year."

Respectfully,

ALFRED E. DRISCOLL,
Governor.

ATTEST:
LEON S. MILMED,
Counsel and Acting Secretary to the Governor.

A Resolution providing for appointment of a bipartisan special General Assembly committee to investigate the facts and circumstances surrounding the construction of a third tube for the Lincoln tunnel by the Port of New York Authority, and all related matters thereto.

WHEREAS, On September 25, 1952, the Port of New York Authority commenced construction in the city of New York of a third tube for the Lincoln tunnel; and

WHEREAS, It has subsequently awarded contracts totaling $14,000,000.00 towards the construction of said third tube; and

WHEREAS, It has not yet obtained, as required by law, the consent of the township of Weehawken for the location and construction of street connections and the opening of said tube in said township; and

WHEREAS, On May 14, 1953, said Port Authority announced that the building of a $500,000.00 construction shaft for said tube in the township of Weehawken would commence before the end of the month; and

WHEREAS, It is questionable whether the Port of New York Authority should proceed with the construction of the third tube until public hearings in the township of Weehawken are held and consent of the Township is obtained; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. There is hereby created a commission to consist of four members of the General Assembly, to be appointed by the Speaker, no more than two of whom shall be members of the same political party, who shall serve without compensation and shall organize by appointment of a chairman and secretary from their own number.

2. It shall be the duty of said commission to investigate and inquire into the facts and circumstances surrounding the construction of a third tube for the Lincoln tunnel by the Port of New York Authority and all related matters thereto and particularly in reference to the western terminus thereof and report to the present session of the Legislature.

3. The commission empowered to call upon and use the facilities of such State departments, offices and agencies for such assistance as it may require for the purpose of said investigation and report.

4. This resolution shall take effect immediately.

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,
May 25, 1953.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following bills:

Senate Concurrent Resolution No. 5, entitled "A concurrent resolution creating a joint committee to study the subject of public accountancy and the regulation and licensing of certified public accountants and other public accountants, and prescribing its powers and duties,"

And

Senate Concurrent Resolution No. 7, entitled "A concurrent resolution extending the thanks and appreciation of the Legislature to the volunteer workers who assisted in the preparation of the preliminary draft of the Proposed Revision of Titles 2 and 3 of the Revised Statutes,"

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Senate Concurrent Resolution No. 5, entitled "A concurrent resolution creating a joint committee to study the subject of public accountancy and the regulation and licensing of certified public accountants and other public accountants, and prescribing its powers and duties,"

And

Senate Concurrent Resolution No. 7, entitled "A concurrent resolution extending the thanks and appreciation of the Legislature to the volunteer workers who assisted in the preparation of the preliminary draft of the Proposed Revision of Titles 2 and 3 of the Revised Statutes,"

Were read for the first time by their titles, and given no reference.

Mr. Thomas offered the following resolution, which was read by the Clerk and adopted:

Resolved, That Assembly Committee Substitute for Senate Bill No. 357 and Senate Bill No. 357 be recommitted to the Committee on Judiciary for the purpose of further consideration.

Messrs. Evans, Cahill and Knight offered the following resolution, which was read by the Clerk and adopted:

A resolution appointing a commission to inquire into the facts and circumstances surrounding the proposed increase in tolls on the Camden-Philadelphia Bridge.

WHEREAS, It has been commonly believed by many citizens of New Jersey that the motor vehicle tolls for travel over the Camden-Philadelphia Bridge would be collected to such amounts only as would be necessary to pay the operating costs of the bridge and to amortize the indebtedness incurred in its construction; and

WHEREAS, On May twentieth, one thousand nine hundred and fifty-three the Delaware River Port Authority passed and promulgated a resolution increasing said tolls from twenty cents ($0.20) to twenty-five cents ($0.25), to become effective on or about June twenty-fifth, one thousand nine hundred and fifty-three; and

WHEREAS, It is generally understood that by reason of the great increase in traffic over said bridge during the last few years the present tolls are completely adequate for the purposes for which they are to be collected and the citizens of Camden County and the municipal officials of the various municipalities within the county are desirous that a public hearing or hearings be held at which the facts and matters pertaining to said increase may be discussed and the reasons therefor ascertained;

Be It Resolved, by the General Assembly of the State of New Jersey:

1. There is hereby created a commission to consist of four members of the General Assembly, to be appointed by the Speaker, no more than three of whom shall be members of the same political party, who shall serve without compensation and who shall organize by appointment of a chairman and secretary from their own number.

2. It shall be the duty of said commission to investigate and inquire into the facts and circumstances surrounding the toll increase on the Camden-Philadelphia Bridge proposed by the Delaware River Port Authority and all matters related thereto, and to hold a public hearing or hearings to ascertain the reasons for such proposed increase and the probable effect thereof upon the public, and to report its findings thereon to the General Assembly at an early meeting thereof which may be held after June fifteenth, one thousand nine hundred and fifty-three.

3. The commission is empowered to call upon and use the facilities of such State departments, offices and agencies for such assistance as it may require for the purpose of said investigation and report, and to request the authorized representatives of the Delaware River Port Authority to be present at said public hearing or hearings for the purpose of making known the reasons for said proposed increase.

4. This resolution shall take effect immediately.

Whereupon the Speaker appointed the following as members of the Commission, referred to in the above resolution:

Messrs. C. W. Haines, of Burlington County, Peter B. Hoff, of Salem County, N. Smith, of Cape May County and W. Kurtz, of Middlesex County.

commission or other public body or municipality singly or collectively designated by the Legislature of said Commonwealth to construct and maintain said dams and reservoirs and use the water impounded therein for said purposes as a public project, subject to certain terms, conditions and limitations; providing for participation by the State of New Jersey in the said project; providing for the exercise of the power of eminent domain in connection with said project by the New Jersey State Department of Conservation and Economic Development; granting certain powers to and imposing certain duties upon said department in connection with said project; providing for the inoperation of the act unless and until the Legislature of the Commonwealth of Pennsylvania shall enact into law legislation consistent with the terms of this act; and repealing 'An act to ratify and confirm an agreement, made between commissioners appointed by the Legislature of the State of Pennsylvania, and commissioners appointed by the Legislature of the State of New Jersey, for the purpose of settling the jurisdiction of the river Delaware, and islands within the same,' passed May twenty-seventh, one thousand seven hundred and eighty-three (P. L. 1783, chap. XX, 2d sitting), and any and all acts inconsistent herewith,"

Senate Bill No. 397, entitled "An act to validate marriages heretofore solemnized by any person elected as a police justice under the provisions of any city charter who was not at the time of such solemnization authorized to solemnize marriages,"

Senate Bill No. 402, entitled "An act concerning fees and costs, and amending section 22A:2–11 of the New Jersey Statutes,"

Senate Concurrent Resolution No. 3, entitled "A concurrent resolution to amend Article VIII, section II, of the Constitution of the State of New Jersey,"

And

Senate Concurrent resolution No. 6, entitled "A Concurrent Resolution memorializing Congress not to enact Senate Bill No. 281, now pending in the United States Senate, and to enact appropriate legislation to restate the true and original intent of section thirteen of the Interstate Commerce Act and restore to local authority the regu-

lation of matters of primary local concern and defining the respective spheres of State and Federal authority in the field of utility regulation,''

Special message from the Governor on the subject of establishing a Waterfront Commission of New York Harbor and authorizing a compact between the State of New Jersey and the State of New York for the establishment of such a Commission.

New Jersey State Library

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

By acting together with the State of New York, we hope to drive the gangsters and hoodlums off the waterfronts of New York harbor. I am proposing legislation to give the honest, hard-working longshoreman a chance to earn a living free of the coercion, intimidation and discrimination of the criminal element which has infested the piers in the port of New York district. It will free shipping in the port from the illegal toll of bribery, pilferage and gangsterism which is a real threat to the successful operation of our great port facilities. The ultimate consumer of goods will gain since the illegal levy of corruption on the waterfront must eventually show up in the cost of food, fuel and the other necessaries handled through the piers.

In the latter part of 1951, Governor Thomas E. Dewey and I discussed this subject at length and agreed that the two States should mobilize their forces in an unremitting drive against racketeering, organized crime and restrictive practice which have increasingly hamstrung the port of New York. Immediately after its creation in 1952, the New Jersey Law Enforcement Council cooperated with the New York Crime Commission in the study and investigation that was being made by that Commission. As a result of these investigations, a number of very important reports and Grand Jury presentments have been made with specific recommendations which have received our earnest consideration and, I believe, general approval on the part of the public.

The record of these official investigating bodies points to an appalling neglect or inability, for as much as thirty years, on the part of the shipping industry to rid itself of crime and corruption that have been preying upon the port area. Considering that the very lifeblood of the nation, as well as of the two States of New Jersey and New York, flows through the port of New York, it is apparent that government must step in to restore ordinary honesty on the piers for the good of everyone concerned. The industry itself now recognizes that State regulation is necessary and desirable.

All investigations agree upon the urgent necessity of certain remedies: the method of hiring longshoremen known as the "shape up" must be outlawed; the public loading racket, which has been used as an aid to theft, pilferage and extortion, must be abolished.

Those holding key jobs on the docks and piers such as pier superintendents, hiring agents and port watchmen must be carefully licensed to rid the port of the gangsters who have used these jobs for their own purposes. It is also essential to eliminate corrupt practices by stevedoring companies to induce their hire by carriers or to induce officers and representatives of labor organizations to betray their trust to their members. Loan sharks, goons and hoodlums who have preyed upon longshoremen must be driven off the waterfront.

It is now proposed to create an interstate commission to free the port district from the domination of gangsterism and to protect and promote the great economic assets of our country. The situation confronting the States of New Jersey and New York is unique and, hence, calls for a unique solution. We are now given an opportunity to terminate the malicious exploitation of labor and industry which has cast an evil shadow over the port, handicapped its development and made it difficult for both labor and industry to perform efficiently their normal and proper functions.

A main purpose of the bill is to protect labor from intimidation and violence. Of equal note, is the assurance that the proposed compact offers to employers that they may conduct their business in the open in an orderly manner, likewise without fear of intimidation, coercion or the threat of being compelled to pay tribute.

The cost involved is very small to pay for the security that can be achieved by the elimination of the abundant opportunities for extortions that exist under the present way of operation.

Of primary importance, the shipping industry may fairly be expected to accept its full measure of responsibility for tolerating or condoning conditions as they are, and to cooperate fully in this joint effort of the States of New Jersey and New York to restore law and order to the nation's greatest port. Within the scope of this legislation, labor and management are given a new opportunity to work out

effective procedures to arbitrate their differences without the frightful costs of strikes and work stoppages. If full advantage is taken of this opportunity, after there has been a reasonable time to test the value of the law and the ability of the industry to place its own house in order, the whole problem may be reappraised in the light of future conditions.

A summary of the proposed act "to establish a Waterfront Commission of New York Harbor," is attached.

Respectfully submitted,

[SEAL] ALFRED. E. DRISCOLL,
Attest: *Governor.*

RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Summary of an act to establish a Waterfront Commission of New York Harbor and authorizing a compact between the State of New Jersey and the State of New York for the establishment of such a Commission

The act authorizes a compact between the States of New Jersey and New York to improve waterfront labor conditions in the port of New York district, establishes a bi-state commission to administer the plan, and provides that in the interim, until Congress grants its consent to the compact, the two States may separately but cooperatively place the program in operation.

THE COMPACT

The proposed compact is set forth in the sixteen articles which make up section 1 of the bill.

LEGISLATIVE FINDINGS

Article I contains legislative declarations and findings which reflect the conclusions of the New Jersey Law Enforcement Council, Hudson County Grand Jury presentments, our Department of Law and Public Safety, the report of the New York State Crime Commission on the port of New York waterfront and the record of the public hearings held thereon by Governor Thomas E. Dewey on

June 8 and 9, 1953. In substance the findings are that the methods now used in the port of New York district for hiring waterfront labor, and the conduct of the businesses of public loading and stevedoring are uneconomic, unjust and degrading insofar as the worker is concerned, foster waterfront crime and corruption, and adversely affect the economical and expeditious handling of port commerce. Accordingly, it is declared that the present practices of public loaders must be eliminated and that the occupations of stevedores, pier superintendents, hiring agents, pier watchmen and longshoremen must be regulated in the public interest.

BASIC PLAN

The plan to improve waterfront labor conditions has five basic features:

1. Licensing of pier superintendents and hiring agents. Only persons of good character (convicted criminals are barred for at least five years) will be licensed for these key positions. The license must be requested by the employer concerned, is good only for the duration of the employment and may be revoked for specified cause;

2. Licensing of stevedores and port watchmen;

3. The abolition of "public loading";

4. Registration of longshoremen. The right to register is absolute unless the person has been convicted of a crime (but this disqualification may be waived by the Commission) or is engaged in subversive activity or unless his employment on the waterfront is clearly likely to endanger the public peace or safety. Longshoremen who are not attached to the waterfront labor market may be dropped from the register under specified conditions thus providing more and steadier work for and increasing the earning capacity of those who depend on this work for their livelihood;

5. Operation by the Commission of regionally located employment exchanges for registered longshoremen and licensed port watchmen, replacing the wasteful and inhuman "shape-up" method, providing information as to available employment and flexibility in obtaining such employment, but without interference with em-

ployer-employee freedom of selection or with provisions of collective bargaining agreements.

The rights of licensees and registrants are carefully protected by procedural safeguards set forth in Article XI including hearings, court review and other requirements for the protection of the individual.

THE WATERFRONT COMMISSION

Article III creates the Waterfront Commission of New York Harbor. The Commission consists of two members, one from each State appointed by the Governor with the consent of the Senate, to serve for a term of three years. It is contemplated that they may be compensated either on a full time or per diem basis dependent upon whether the office will be a policy making one with administration delegated to an executive director or a full time executive assignment.

Appropriate provision is made for the transfer of civil service employees to service with the Commission without loss of civil service or retirement privileges.

The general powers of the Commission as set forth in Article IV are to make rules and regulations to carry out the statutory plan, to administer oaths and issue subpœnas, to have access to the waterfront in the performance of its duties, to investigate waterfront practices in the port district and to advise and consult with other public officers and with representatives of labor and industry on matters within its jurisdiction, including problems involved in rule making, in the granting and denial of registrations and licenses and in the maintenance of the longshoremen's register. The Commission is required to report annually to the Governors and Legislatures of both States and to make recommendations for the improvement of the conditions of waterfront labor within the port district.

In order to insure that public regulation of waterfront labor practices shall not unnecessarily continue once law and order has been restored to the waterfront, the Commission is expressly required to include in its Annual Report findings as to whether the public necessity still exists for continued registration of longshoremen, licensing of the other waterfront occupations and public operation of the employment information centers.

LICENSING OF PIER SUPERINTENDENTS AND HIRING AGENTS

Article V requires that on and after December 1, 1953, any person who wishes to act as a pier superintendent or hiring agent for a shipping company or stevedore at a pier or other waterfront terminal within the port district must be licensed. Because pier superintendents and hiring agents are, or should be, key supervisory representatives of the employer for whose acts the employer should be held responsible, the application for these licenses is to be made by the prospective employer. A person is disqualified for either of these licenses if he has been convicted of a felony or high misdemeanor or of the following violations of law which, while less serious in themselves, make him a bad risk for waterfront employment: Illegally using, carrying or possessing a dangerous weapon; making or possessing burglar's instruments; buying or receiving stolen property; unlawful entry; aiding an escape from prison; unlawfully possessing or distributing narcotic drugs and previous violation of the Compact. However, if a person so disqualified submits satisfactory evidence of good conduct for at least five years, the Commission may waive this statutory disability.

Additional grounds for disqualification for a license as a pier superintendent or hiring agent include subversive activities by the applicant or a finding that he is not a person of good character or integrity.

The term of a pier superintendent's or hiring agent's license is tied to his employment by the employer-applicant. However, it may be revoked or suspended or he may be reprimanded for the following specified causes: violation of the Compact; conviction of a crime or other cause which would have been disqualifying originally; consorting with criminals for an unlawful purpose; fraud in securing the license or while acting thereunder; addiction to or trafficking in narcotic drugs; violation of the Compact; bribing public officers or anyone else to violate their duties under the Compact; unwarranted giving of his license to someone else; impersonation of another licensee; accepting a bribe in connection with his work; coercion of longshoremen; lending money to or borrowing money from a longshoreman for a fee.

Pier superintendents and hiring agents are ineligible for membership in any union which represents longshoremen.

STEVEDORES

Article VI requires that on and after December 1, 1953, all stevedores in the port district must be licensed. The license application must fully disclose the real parties in interest. A license will be granted if the Commission is satisfied as to the good character and integrity of the real parties in interest and if the applicant is a bona fide stevedore, that is to say that he has, or will, if licensed, have a contract with a shipping company to load and unload the company's ships at a pier in this port.

Prior conviction of the same serious crimes which disqualify pier superintendents and hiring agents also disqualify a stevedore. The Commission is authorized to waive this disqualification upon a showing of at least five years' good conduct. Additional grounds for disqualification in the case of stevedores are prescribed to accord with the Crime Commission's specific findings of abuses and evils now prevalent in this industry. These include payments made for an improper or unlawful purpose and are designed to reach the payment of bribes to a shipper to obtain a stevedoring contract or to a union representative to betray his trust.

PUBLIC LOADING

Article VII sets forth the States' policy against "public loading" and reviews the compelling policy reasons for abolition of the public loader system. Under the bill loading service will be performed in the port of New York as it is in every other major American port—by water carriers; operators of piers and other waterfront terminals at their own facilities; railroads, truckers, and other carriers in connection with freight being carried by them; shippers or consignees in connection with their own freight; and licensed stevedores, in the regular course of business, and through their own employees.

LONGSHOREMEN

A longshoremen's register is to be established by the Commission by December 1, 1953. Article VIII sets forth the provisions with respect to the registration of longshoremen.

There is no fee for registration and no special qualifications are prescribed. The applicant must provide his name,

address, social security number and such further facts as may be needed to establish his identity and criminal record, if any.

Conviction of certain serious crimes or engaging in subversive activities is made basis for disqualification. The Commission, however, may waive the disqualification in a proper case and it may register a longshoreman even though he has previously been convicted of a crime.

In the light of the Crime Commission's disclosures of the activities of known waterfront gangsters who have so far escaped being convicted of crime, provision has been inserted to permit the Commission to deny registration as a longshoreman to a person "whose presence on the piers or other waterfront terminals in the port of New York district is found by the Commission, on the basis of the facts and evidence before it, to constitute a danger to the public peace or safety."

A longshoreman may be removed or suspended from the register only for specified cause. In such case he is entitled to a hearing before the Commission, counsel, his own witnesses, and court review. The causes specified are similar to those specified for removal of hiring agents and wilful acts involving physical injury to a person or damage to or misappropriation of property at a waterfront terminal.

Article IX contains the provisions designed to permit purging the longshoremen's register periodically of drifters and floaters who, although they are not bona fide longshoremen, have been permitted under the present system to take work away from longshoremen who depend on it for their livelihood.

For each six months' period, and in advance, the Commission will establish the minimum number of days a man must work or offer himself for work as a longshoreman in order to stay on the register. A person failing so to qualify will be dropped on ten days' notice and cannot again be registered for one year unless he can show that his absence was occasioned by military service, sickness or other good cause.

PORT WATCHMEN

Port watchmen will be licensed pursuant to Article X. Applicants must not only possess qualifications similar to those prescribed for pier superintendents, but must also

meet reasonable standards of physical and mental fitness. Since these port watchmen are security officers, prior criminal conviction is an absolute bar to a license. Because of the nature of their duties, port watchmen are not permitted to belong to the same union as longshoremen or pier superintendents or hiring agents.

The term of the port watchmen's license is three years and is not tied to a particular employment. The grounds for revocation or suspension are basically the same as those for pier superintendents and hiring agents.

HEARINGS AND COURT REVIEW

Article XI safeguards the rights of licensees and registrants by prescribing procedures for Commission hearings and assuring court review of Commission determinations. A registered longshoreman or any licensee must be given notice of any charges made against him and is entitled to a hearing at which he may have counsel and cross examine witnesses and the licensee or longshoreman can require the Commission to subpœna witnesses requested by him. At least ten days' advance notice of such a hearing must be provided.

The refusal to register a longshoreman or issue a license cannot be effective until after opportunity has been afforded for such hearing and any Commission determination affecting the right to work is subject to court review. The reviewing court is granted power to stay the Commission's action for thirty days. No provision is incorporated in the bill which makes refusal to testify or refusal to answer questions, without other cause, grounds for refusing or rescinding a license or registration.

EMPLOYMENT INFORMATION CENTERS

Article XII authorizes the Commission to establish employment information centers throughout the port district to replace the "shape up."

All hiring of longshoremen and port watchmen will be through these publicly operated centers. The employer would have freedom of choice in the selection of employees at such centers but there would be no interference with normal and proper hiring practices, including the gang or unit system, or procedures established under collective bar-

gaining agreements not inconsistent with the requirements of the compact. The Commission will establish a system of records and communication with employers and workers designed to provide the maximum possible information as to available employment for longshoremen. The Commission is empowered to obtain any Federal assistance that may be available under the Wagner-Peyser Act for the operation of the employment centers.

EXPENSES OF ADMINISTRATION

Article XIII and other sections of the act adopt the principle of charging the cost of administration upon the basis of service received. The Commission will prepare an annual budget of estimated expenses and assess the cost, over Federal or other contributions, against the employers of the registered and licensed waterfront employees in proportion to their gross annual payments to such employees. The rate of assessment may not be more than two per cent of the payroll payments. Expenses of the Commission, in excess of amounts produced by the two per cent payroll assessment will be met by the two States, proportionately, out of general revenues. Until the Commission is jointly established by the two States, or July 1, 1954, whichever is earlier, the rate will be one and one-half per cent in each State.

The budget of the Commission may be reduced or modified by the Governor of each State. In addition, the Commission may establish procedures to enable employers to protest budget estimates and computations of the rate of assessment.

It is felt that the savings to employers and consignees which may be obtained through a reduction in pilferage, the elimination of "phantom" employees from the payroll and other exactions and levies on commerce will greatly exceed the cost of administration of the waterfront commission program.

VIOLATIONS

Article XIV concerns general violations of the compact and prosecutions and penalties therefor. Contempt is made punishable in accordance with normal judicial process. Wilful, false statements under oath are constituted as perjury and other violations of the compact or attempts or conspiracies to violate it are made punishable as is interference with the orderly registration of longshoremen.

The statute also prohibits loitering on the waterfront without satisfactory explanation. The language for this section is taken from comparable provisions of law which presently exist in both States.

Section 8 prohibits the collection of funds for waterfront labor unions having officers or agents who are convicted felons unless they have been subsequently pardoned or have received a certificate of good conduct from a board of parole or similar authority.

COLLECTIVE BARGAINING SAFEGUARDED

There is nothing in the statute which is designed or can reasonably be construed to interfere in any way with the right of the waterfront industry to select its own employees, or with the right of industry and labor to bargain collectively and agree on any method for the selection of longshoremen and port watchmen by way of seniority, experience, regular gangs or otherwise in conformity with the license, registration and employment information center provisions of the statute. Because of apparent misunderstanding of this point within the shipping industry, an express declaration to this effect has been included as Article XV in the Compact.

Similarly, Article XV includes an express statement that the statute is not designed and shall not be construed to limit labor's rights.

THE INTERIM ARRANGEMENT

Since there could be some delay in procuring Congressional consent, the statute in each State provides for a single state commission to perform within that State the functions of the bi-state commission until Congressional approval of the compact is obtained. The bill is so drafted that a single commissioner will be able to function in each State from the time of enactment of the bill.

Section 3 authorizes the commissioners from each State to work in the closest possible cooperation with each other to effectuate the purposes of the act.

The bill also provides for a returnable cash advance by each State, to provide for expenses of administration pending the assessment of such expenses against employers in accordance with the compact.

The licensing, registration and employment center provisions of the bill do not become operative until December 1, 1953.

STATE OF NEW JERSEY,
SENATE CHAMBER,
August 17, 1953.

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution:

Be It Resolved by the Senate (the General Assembly concurring):

That when this Constitutional Session of the Legislature adjourn, it be to meet on Thursday, September 10, 1953, at two o'clock P. M., Eastern Daylight Saving Time.

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up and

Mr. Thomas moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

ASSEMBLY BILL No. 102

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 102 for the following reasons:

Under present law Saturdays during July and August are considered "as public holidays," with respect to the transaction of business in public offices of the State, counties and municipalities. The purpose of this bill is to extend the period during which Saturdays are such public holidays to include June 15 through September 15.

While I am most sympathetic to the interest of public employees in this bill, and have again given that interest most thoughtful consideration, we must continue to be conscious of the fact that public offices exist only for the convenience and service of the public. I am informed that municipalities already have power to close municipal offices on the four Saturdays in question wherever local conditions indicate that such action would be warranted by the public convenience. I regret that there is nothing in the present bill which differs from previous measures with respect to which I have been constrained to withhold approval.

Accordingly, I am constrained to return Assembly Bill No. 102 without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

Attest:
RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Mr. Thomas moved that the message be received and spread in full upon the Minutes.

Which motion was adopted.

Mr. Thomas offered the following resolution, which was read by the clerk and adopted.

Be It Resolved, That all Assembly Bills returned by the Governor with absolute veto be filed in the State Library.

Mr. Thomas offered the following resolution, which was read by the clerk and adopted.

Be It Resolved, That Assembly Bills Nos. 164, 165, 173, 265, 282, 287, 288, 297, 324, 380, 406, 433, 473, 475, 488, 517, 524, 536, 538, 564, 566, 615, 643 and 653 be given first reading.

Mr. Thomas offered the following resolution, which was read by the clerk and adopted.

Be It Resolved, That the rules be suspended and the following bills be advanced to second reading: Assembly Bills 164, 165, 173, 265, 282, 287, 288, 297, 324, 380, 406, 433, 473, 475, 488, 517, 524, 536, 538, 564, 566, 615, 643, and 653.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
August 17, 1953.

ASSEMBLY BILL No. 160

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 160, for the following reasons:

This bill would require an immediate expenditure by the State to the extent necessary to purchase uniforms for correction officers at the State Prison, the Prison Farms at Leesburg and Rahway and the Reformatories at Bordentown and Annandale. It would also require the State to make an annual grant of $50.00 to each such correction officer who has completed the required period of probation and has been permanently appointed, for the purpose of repairing or replacing the uniform.

The bill carries no appropriation to support the proposed immediate and mandatory expenditure. In this respect it is in conflict with that provision of Article VIII, Section II, paragraph 2 of the State Constitution which prohibits the drawing of any money from the State Treasury "but for appropriations made by law."

I am, accordingly, returning the bill herewith without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Attest: *Governor.*
RUSSELL E. WATSON, JR.,
Secretary to the Governor.

Mr. Thomas moved that the message be received and spread in full upon the Minutes.

Which motion was adopted.

ASSEMBLY BILL No. 164

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 164.

The general purpose of this bill is to control the disposition of carcasses of dead animals, so as to avoid the spread of livestock diseases which has been traced to the improper handling of such carcasses and their transportation from farms to disposal plants.

In order to carry out the purposes of the bill efficiently, however, it is necessary to avoid conflict with existing jurisdiction of the State Health Department and to extend the protection of the bill to include the transportation of carcasses of domestic animals from outside the State into the State.

Accordingly, I am returning herewith Assembly Bill No. 164 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, line 11, by inserting after the word "inspection" and before the period, the following: ", or under the supervision of the State Department of Health".

Amend page 1, section 1, line 13, by deleting after the word "dead" the words "domestic animals" and inserting in lieu thereof the word "livestock".

Amend page 2, section 5, line 5, by deleting the word "Board" and inserting in lieu thereof the word "Department".

Amend page 3, section 7, lines 1-8, by deleting all of said section and inserting in lieu thereof the following:

"7. Any person desiring to transport carcasses of domestic animals or meat-packing house refuse into New Jersey from without this State, or outside the State from within this State, shall obtain a license for such purpose from the Department in the same manner, under the same conditions, and upon payment of the same fee as the operator of a disposal plant which is located in this State. Each conveyance used by such person on the highways of New Jersey, and the records kept by him, shall meet the requirements of this act and regulations adopted hereunder, and shall be subject to inspection, either within or without the State, in the discretion of the Department. Any disposal plant operated outside the State by any such licensee shall be subject to inspection in the discretion of the Department, as a condition of such license.".

Amend page 5, section 12, line 2, by inserting after the word "plants" the words "pursuant to this act,".

Amend page 7, section 19, by deleting all of said section and inserting in lieu thereof the following:

"19. This act shall take effect January first, one thousand nine hundred and fifty-four.".

Respectfully,

ASSEMBLY BILL No. 165

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 165.

This bill is in large part the outgrowth of the campaign of the Department of Law and Public Safety, under the direction of Attorney-General Parsons, to clean up news stands and other places which may offer questionable publications for sale. The State's campaign has been based upon education and customer influence upon the dealers. Several departments of the State have co-operated in this program, including the Department of Public Utilities, the Department of Education and the Department of Health.

As a matter of legislation the problem is particularly difficult in that any good law must avoid censorship by legislative decree on the one hand and interference with normal distribution of desirable publications on the other. The present bill represents a sincere effort to avoid these two extremes, and it is worthy of a reasonable opportunity to prove its effectiveness. Unfortunately, in the course of the amending process, the body of the bill was amended without conforming the title.

Accordingly, I am returning herewith Assembly Bill No. 165 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

Amend the Title, lines 1 and 2, by deleting the words "newspapers, magazines and other publications" and

inserting in lieu thereof the words "goods, wares, publications or other articles".

Amend the Title, line 2, by deleting "subtitle ten" and inserting in lieu thereof "Chapter 170".

ASSEMBLY BILL No. 173

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 173.

The object of the bill is to protect the existing pension rights of employees of a newly created borough where the employee has performed part of the required period of service in the municipality from which the new borough was created.

The bill intends to incorporate employees of such a newly created borough into the present law concerning pensions for borough employees, which is Chapter 262, P. L. 1949. Instead of amending that law, the bill purports to amend section 43:12–63 of the Revised Statutes although there is no such section of the Revised Statutes. The reference made by the bill is apparently to the New Jersey Statutes Annotated.

Accordingly, I am returning Assembly Bill No. 173 herewith for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, delete the Title in its entirety, and insert in lieu thereof the following:

"An act to amend 'An act concerning the retirement and pensioning of certain persons holding office, position or employment in boroughs,' approved May twenty-eighth, one thousand nine hundred and forty-nine (P. L. 1949, c. 262)."

On page 1, section 1, delete lines 1 and 2 in their entirety and insert in lieu thereof the following:

"1. Section one of the act of which this act is amendatory is amended to read as follows:"

On page 1, line 3, delete the section number "43:12–63" and insert in lieu thereof the section number "1".

ASSEMBLY BILL NO. 196

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 196, for the following reasons:

The purpose of this bill is to limit any printing which is done in a State prison to the use of "hand-set type and

hand-fed printing presses." Representatives of the printing industry have been most energetic and resourceful in presenting the arguments in favor of the bill. The basic argument has been that it would encourage the proper training of printers in our State Prison as part of the vocational rehabilitation of these men. It has been added that hand work would employ more men than mechanized work.

After the most serious consideration of these and other arguments, I am convinced that if the bill were to become law it would be a step backward which could do far-reaching harm to an enlightened prison administration. It may well be that the objectives of the sponsor and supporters of the bill, to replace machines with hand labor, may be accomplished by administrative action without the limitations and implications of precedent presented by this measure. The objection is certainly not to putting more men to doing printing by handwork, but rather to our fear of a legislative precedent.

The State use principle, upon which our prison industries are operated, limits the use of prison production solely for the use of the penal institutions themselves and for other tax supported institutions and agencies. If we were to depart from the freedom of the prison management to select the manner in which prisoners are to be trained with respect to printing, it would be perfectly logical to accept comparable restraints with respect to other products.

The State Use Division of the Department of Institutions and Agencies is engaged in production of items concerned with 33 different activities. While these institutional industries are of importance to the rehabilitative programs of our institutions, as well as to our taxpayers who realize the savings resulting from their operation, the total production of the State Use Division amounted to only 15.48% of the State's purchases last year.

If printing in State institutions is to be limited to hand methods, it would not be long before we would be faced with demands to limit sewing to hand methods and to eliminate the use of machines in the various State Use Industries where they are employed. This would represent a great loss in morale as well as in production among the wards of the State. The whole value of the printing activity performed in the prisons might well be impaired insofar as

prison administration is concerned, once it became apparent to the prisoners that their production was inconsequential and that they were merely being kept busy rather than being engaged in work which, to them, is interesting as well as time-consuming. A prison industries' system for State use must be diversified and of interest to the prisoners, as well as in accord with sound rehabilitation procedures. This point was forcefully made by the report of the Governor's Committee to Examine and Investigate the Prison and Parole Systems of New Jersey (November 21, 1952) which states on page 35:

> "... All those who had short-sightedly opposed the extension of a reasonably diversified system of productive industries, none of which would be large enough to offer any serious competition to free labor and all of which would be producing goods for the use of the departments and agencies of the State and its political subdivisions, must accept their share of the blame for the situation at the time of the riots. Every citizen should feel deeply concerned, not only over the heavy burden which maintaining prisoners in idleness imposes on the taxpayers, but also for the low morale and feeling of bitterness which inevitably develop in the minds of idle prisoners and frequently break out in destructive and costly demonstrations."

Accordingly, I am constrained to return herewith Assembly Bill No. 196 without my approval.

ASSEMBLY BILL No. 235

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 235, for the following reasons:

This bill would introduce an actuarially unsound feature into an existing county employees' pension system. It would deprive some members of the pension fund in question of the security of additional resources in that fund by offering the estates of certain deceased employees a refund

of 75 per cent of the employee's contribution where the employee dies before retiring, leaving no surviving spouse, children under 18 years of age, or parent.

The purpose of pension legislation is to protect the employee and his close dependents. It is not to create an estate.

ASSEMBLY BILL NO. 237

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 237 for the following reasons:

The stated purpose of this bill is "to limit the lien of certificates of indebtedness of the Unemployment Compensation Commission." The statement appended to the bill observes that "Other State taxes are limited to ten years and there is no reason for a longer period of limitation on unemployment contributions."

The State of New Jersey, with respect to unpaid contributions, penalties and interest due to the unemployment compensation and temporary disability benefit funds, however, does not have the advantage of any automatic tax lien, as it has with respect to other unpaid taxes. Where

the State does have an automatic tax lien, there has been a trend in recent years to limit the effective period of such a lien to ten years, but there has been no precedent to limit the effectiveness of a lien arising out of a judgment taken for non-payment of taxes.

There are two different theories involved, the automatic lien which accrues in the case of other State taxes and the judgment for unemployment compensation contributions which arises upon the filing by the Division of Employment Security of a certificate of debt with the clerk of the Superior Court. In the case of the automatic lien the agency administering the tax may have taken no action whatsoever to audit the tax and reduce the State's claim to a specified amount due. In the case of a judgment arising under the present statute the Division of Employment Security is required to take formal action to make a certificate stating the amount of the employer's indebtedness and describing the liability under the statute. Once a judgment is entered it is a matter of record and the employer has a complete remedy by statute to have it set aside and discharged. It is his own failure to act rather than any inchoate lien of the State which may cause the lien of the judgment to remain unsatisfied for any period longer than ten years. It is also noted that this measure is in conflict with Senate Bill No. 396, which has already been approved.

Accordingly, I am constrained to return Assembly Bill No. 237 without my approval.

Respectfully,

COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL No. 250

To the General Assembly:

I am returning herewith, without my approval, Committee Substitute for Assembly Bill No. 250, for the following reasons:

Having the laudable purpose of advertising the natural advantages of our great State, this bill would require passenger car motor vehicle registration plates to be imprinted with the words "Garden State". There might be some advantages to be derived from this form of embellishment of motor vehicle license plates, but upon full consideration I am impressed with the disadvantages. In order to achieve the result desired by the bill, it will be necessary to have larger license plates at extra cost and perhaps some inconvenience to motorists, since any reduction in the size of the present lettering could not be considered. The registration plate itself, moreover, is an important legal device evidencing compliance with the laws of the State of New Jersey, and it should be confined to that purpose without the detraction of any mottoes or phrases. The doubtful quality of the advertising that might be expected from the proposal does not, in my judgment, warrant either the increased cost or the possible loss of public appreciation of the purpose of the license plates.

Accordingly, I am constrained to return the bill without my approval.

ASSEMBLY BILL No. 265

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 265.

The general purpose of the bill, as introduced, was to clarify existing law regarding pre-marital blood testing and to establish uniform serological testing and reporting procedures. The bill was intended to make only one substantive change in the present law, in that it would permit a report of a blood test to be waived upon certification of a duly licensed physician that a female applicant for a marriage certificate was near the termination of her pregnancy, or that the death of one or both applicants was imminent. Such a waiver could be had only upon certification of the physician that he had taken blood samples adequate for serological testing from such applicant or applicants, except one whose death was imminent, and had forwarded the same to the State Department of Health.

In the course of enactment, an amendment was added to section 5 of the bill in the apparently mistaken impression that the pre-marital blood test might require the acceptance of any medical or related assistance against a disease which might appear to be present, regardless of the applicant's religious convictions in respect to medical treatment. No such requirement is contained in the bill.

I am advised by the Commissioner of Health that the amendment "would create a menace to public health". It would destroy the benefits to public health provided by laws in existence for many years which require all persons desiring to marry to have their blood tested to determine whether they are ill or infected with a venereal disease. These pre-marital blood testing laws do not require any person to accept any medical or related assistance whatsoever.

Accordingly, I am returning herewith Assembly Bill No. 265 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

On page 2, section 2, line 4, after the word "test," insert the word "or".

On page 3, section 5, line 10, strike out the words "No per-".

On page 3, section 5, lines 11 through 15, delete entire lines.

Pursuant to Article V, Section I, Paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly No. 282.

This bill has the laudable purpose of establishing sound procedures to be applied in the formation of new school districts. In order to properly effectuate the objectives of the measure, however, it is necessary to first correct certain obvious technical errors which appear in it.

Accordingly, I am returning herewith Assembly Bill No. 282, for reconsideration and with the recommendation that amendments to the bill (Official Copy Reprint) be made as follows:

On page 1, section 1, line 14, before the word "possible" delete the word "is" and insert the word "as."

On page 4, section 6, line 4, after the words "Conservation and" insert the word "Economic."

ASSEMBLY BILL No. 285

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 285, for the following reasons:

This bill is identical with Assembly Bill No. 244 of 1952 and deals with the personnel policies of counties, municipalities and school districts operating under Title 11 of the Revised Statutes (Civil Service). In returning that bill to the Legislature last year, without my approval, I pointed out that in 1951 the State Government adopted a policy of increased vacation time for older employees. I stated that:

> "From the point of view of the administration of State government, we believe that this was a desirable policy and we have been prepared to adjust our finances accordingly. It is the responsibility of those in charge

of the administration of local government to decide for themselves upon the best policy to follow with respect to vacation time. State law has guaranteed all employees a certain minimum vacation. It has not placed any ceiling on vacation time. In any local government where longer vacations are desirable, the local governing bodies have full power and responsibility to apply such policies as they find in the best interest of their employees and of their public responsibility, commensurate with the salary scales and other working conditions in each separate local government."

For these reasons, I am returning Assembly Bill No. 285 herewith without my approval.

ASSEMBLY BILL No. 308

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 308, for the following reasons:

This is a bill to divide between the county and the municipality fines received under the State Motor Vehicle Act where a municipal police officer makes the arrest or complaint. At present, all such fines are paid to the county to be used for road work. The bill would divide these fines by allocating 50 per cent to the county and 50 per cent to the municipality by which the police officer is employed.

A redistribution of fines in this way would have the undoubted merit of recognizing the very real progress our municipalities have made in improving traffic law enforcement. It is my hope, however, that some form of direct State aid, possibly an increase in grants from highway revenues, could be used for this purpose.

The present bill has three serious disadvantages. First, it would take from the counties money which is now being used for road purposes and divide that money into relatively small amounts which, separately administered, would undoubtedly provide less benefit to the people of the county. Secondly, it would invite the possibility of speed traps (by which I mean discriminatory arrests of nonresidents of a municipality). I am happy that one of the products of our judicial reform program has been to eliminate completely this old practice. Thirdly, and perhaps most important, the bill would only serve to take from one pocket and add to the other, insofar as the taxpayer is concerned. Each taxpayer supports both county government and municipal government, and what he gains in nontax revenues at the municipal level he would lose at the county level, in addition to the other disadvantage of the bill.

Accordingly, I am constrained to return Assembly Bill No. 308 herewith without my approval.

ASSEMBLY BILL No. 365

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 365, for the following reasons:

The object of this bill is to reduce the population required for a five-member township committee in the townships of Atlantic and Ocean Counties. The bill is in irreconcilable conflict with Assembly Bill No. 611, which I am also returning without my approval.

The present bill would authorize the townships affected to establish a ward basis of representation on the township committee, such wards being designated by the bill as "districts." The bill fails to take into account existing provisions of R. S. 40:144–1 et seq. for the division of townships into wards where the township has a population of more than 7,000, and would lead to confusion between the two sources of authority for ward representation.

The mechanics of the bill for the installation of the system of district representation are intended to provide that "no more than three members of the township committee shall be elected in any one year." To accomplish this purpose, the township committee is given power to provide by ordinance for the time when the township committeemen shall be elected and for the extension of the term of any incumbent beyond the term for which he was elected. These are charter-making powers which can be exercised only by the Legislature under our State Constitution.

On June 22nd, long after the present bill was introduced in the Legislature, the Joint Legislative Committee to Study the Effect of the 1950 Census on County and Municipal Offices, made its report to the Legislature regarding the effect of the so-called "Freeze Acts". The report recommended that the whole question of changes in the structure of local government, due to increased population determined by the 1950 Federal census, should be reviewed by the various local governments affected, in light of the findings of the report. After an opportunity for such review, the report also recommended, the Legislature should reconsider the problem. An orderly approach to this subject, as well as the long-run best interests of the municipalities affected, requires us to follow the recommendations of the Joint Legislative Committee's report.

In any event, there can be no nomination or election of additional township committeemen before the primary and general elections of 1954, and the Legislature will have ample opportunity to consider this problem in the light of the Committee's report at its next session.

Accordingly, I am constrained to return Assembly Bill No. 365 without my approval.

ASSEMBLY BILL No. 379

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 379, for the following reasons:

The only purpose of this bill is to require the pension payable to a widow, under the Board of Health pension fund in the City of Paterson, to be increased from $2,000 to $3,600 per annum. It requires a mandatory increase in pension benefits payable under a municipal pension fund which is already actuarially unsound. It has been the policy of this Administration to require additional pension fund benefits to be supported by provision for additional contributions, wherever the State has undertaken to legislate on local pension questions.

For many years the Legislature and the Governor have been working together to achieve security for State, county and municipal employees through soundly financed State and local pension funds. It has been our purpose to establish these funds on a sound actuarial basis, so that their members could be assured that when the day came for retirement there would be no question of the ability of their public employer to meet the expected pension benefits. Our achievements toward this end have been recognized in actuarially sound benefits under the State Employees' Retirement System, the consolidation and strengthening of local police and firemen's pension rights, to mention only two examples of many. During the same time, we have been faced with a disturbing continual flow of non-contributory pension bills for the benefit of particular employees who have not been members of the established pension systems. These bills have at least had the minimum virtue of not being mandatory on the local governing bodies.

In pension legislation especially, the law cannot be cold and insensitive to the human values involved in long and faithful service by an employee for a public employer.

When the time for retirement arrives, whether because of age or disability, there is a mutual benefit to the employer and the employee in having a satisfactory pension system available. Lacking such a system, local authorities have from time to time sponsored permissive legislation, which has been adopted, authorizing pensions for particular employees whose cases appear to them to be especially meritorious. This practice must in the long run be demorializing to other employees who are not treated equally well. This effect is not lessened, however necessary it may be to make up for the failure of counties, municipalities and school districts to assume their proper pension obligations on the orderly basis of membership in a sound pension system. Those who must contribute a working lifetime for pension benefits upon retirement, cannot but look upon special pension legislation for the benefit of particular employees doing similar work as a form of favoritism which is discouraging and discriminatory. Furthermore, they must know that such legislation places in grave doubt the very security they have been seeking.

Accordingly, I am constrained to return the bill without my approval.

Governor.

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 390 for the following reasons:

The general purpose of this bill is, according to the statement, to allow the county boards of election additional time to "take care of the insertion of new registration sheets and transfers" in the permanent registration binders. Unfortunately the bill depends upon a change in the scheduled time for the delivery of the signature copy registers to the municipal clerk in which a special election, primary election for the general election, or a general election is to be held. Such deliveries, according to amendments made by the bill, would be "on or before the Saturday preceding" the election in each case. This would leave inadequate time for the addressing and mailing of sample ballots by the various district boards of election after they receive the registers from the respective municipal clerks. Even if the district boards were to find it physically possible to mail the ballots prior to the election day it is most unlikely that the voters would receive them in time to be of any use. While the purpose of the bill is undoubtedly salutary it appears to require further study.

Accordingly, I am constrained to return the bill without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

ASSEMBLY BILL No. 392

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 392, for the following reasons:

As to any city of the second class having more than 130,000 inhabitants, the present bill would eliminate the existing mandatory requirement for revision of ward lines whenever the population of any ward in the city shall exceed the population of any two other wards in the city. If this bill were to become law the readjustment of wards would be left in the discretion of the governing body. This important provision for adequate representation of the legal voters of any city should be a matter of right not of discretion in any governing body.

The long range best interest of effective local self-government demands that no segment of any city's population should be deprived of its proper representation on the governing body. The only justification for a ward system of representation is to afford such sectional representation. If that purpose can be defeated there would be no reason to continue a ward system at all.

Accordingly, I am constrained to return the bill without my approval.

Respectfully,

ASSEMBLY BILL No. 414

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 414, for the following reasons:

There is and should be a clear responsibility on the part of government for the education of our mentally retarded children. They have every right to participate in a properly organized, appropriately planned, community educational program. Our task is to see to it that the plan adopted will not only be feasible but will in fact achieve the high purpose that has motivated those who have supported this bill.

It is with the greatest regret therefore that I find myself unable to add my approval to this bill, which has worthy objectives. The bill would take effect almost a year hence, July 1, 1954, and it is my sincere hope that a start will be made toward the achievement of its objectives by the immediate establishment of the position of Director of Education for the Physically and Mentally Handicapped, in the State Department of Education. I am informed by the Commissioner of Education that, due to current economies, the department is able, within existing appropriations, to establish this position. It may be anticipated that the first duty of a new director would be to bring together all of the various groups concerned with the problem of mentally retarded children to complete the development of the legislative program which this bill seeks to achieve.

While the sponsor of the present measure and his associates have spared no effort to develop a satisfactory and workable program, the bill has the united opposition of the Department of Education, the State Federation of District Boards of Education, and the New Jersey Education Association, as well as numerous superintendents of schools throughout the State. In the face of the contrary counsel of all of these educators, whose abiding interest in the welfare of all the children of our State is beyond question, it would be untimely to adopt a legislative

program of such far-reaching consequences to the public schools of New Jersey.

Because of the deep concern of the State with the problems and needs of mentally deficient children, a commission to study the subject was established by the Legislature in 1950. Although much of its task has been accomplished, the commission has not yet been able to submit its final findings and recommendations. It has, however, submitted an interim report, dated March 10, 1953, in which it recommended that the responsibility for administering all organized classes, including day training classes as well as special classes, for the mentally handicapped, be undertaken by local boards of education under the close supervision and guidance of the State Department of Education, and that home training and residential school programs remain, as at present, a function of the State Department of Institutions and Agencies.

The present bill does not conform to those recommendations, but makes the public school system responsible for all mentally retarded children whose parents desire them to receive instruction through the public schools, except children who are either unable to care for their personal physical needs or who are dangerous to themselves or to others. Thus, the public school system must, under this bill, provide special services and instruction for many children who should, in the opinion of the commission, be the responsibility of the Department of Institutions and Agencies.

The State Department of Education has not yet been able to complete a survey which it has undertaken, to determine the full extent of the problems of handicapped children in this State, the estimated cost to the local districts of an appropriate program for such children, and the amount of State aid necessary therefor. Although it is apparent that substantial expenditures by the State will be needed to aid the school districts in such a program, no accurate estimate can yet be made as to the cost to the local districts of providing the services called for under this bill. Until the extent of the problem is known and a reasonable program developed within the abilities of boards of education to provide, it would not be wise to increase their financial burden by asking them to assume the affirmative responsibility set forth in the bill.

The bill combines old legislation designed to serve the physically handicapped with new provisions for the mentally retarded, but our educational leaders advise that the problems of educating the physically handicapped and educating the mentally handicapped differ in many important respects.

The bill would not take effect, in any event, until July 1, 1954. The Commission to Study Problems and Needs of Mentally Deficient Persons, in its interim report of March, 1953, has already carried the problem closer to solution than ever before. That commission, the New Jersey Association for Retarded Children, and the Department of Education, together with representatives of the school districts, and other interested groups could, I am sure, perfect this legislation in time for early action next year so that there would be no delay in achieving its ultimate objectives. If Assembly Bill No. 414 were to become law at the present time, however, it would clearly face resistance and considerable ill-feeling among the local boards of education, in addition to its serious administrative defects and unresolved problems of public policy. I am requesting all interested parties to take up the subject of Assembly Bill No. 414 without delay, and to be ready to present their unified judgment to the next session of the Legislature.

Accordingly, I am constrained to return the bill without my approval.

Respectfully,

ASSEMBLY BILL No. 418

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 418, for the following reasons:

This measure would permit the extension for an additional two-year period of any contract heretofore entered into between the Administrator of the Public Housing and Development Authority and any municipality, involving veterans' emergency housing projects under the Veterans' Emergency Housing Act (c. 323, P. L. 1946, as amended and supplemented). The extension would be allowed where the governing body of the municipality prior to the termination of the five-year emergency period set forth in the act, adopts a resolution stating that a need for emergency housing continues to exist in such municipality.

Under the Veterans' Emergency Housing Act, numerous projects have been constructed and erected and many buildings owned by municipalities have been converted for the purpose of creating housing accommodations for veterans of World War II. It has been a source of personal satisfaction to me, that New Jersey has had the benefits of a $50,000,000 veterans emergency housing program, which has been proportionately greater than any other State.

The projects include both temporary and permanent units. Under the present policy of the administrator, approved by the Veterans' Services Council, temporary projects are extended where the governing body of the municipality adopts a resolution declaring a continuing need; permanent projects are not extended. The reason being that, if contracts for temporary projects are not extended, the buildings are removed from the site and demolished, thus decreasing the number of housing accommodations available in the municipality; whereas, in the case of permanent projects, the project is sold pursuant to the act and the regulations, thus in no way decreasing the number of

housing accommodations within the municipality and permitting continued occupancy by veteran-occupants.

In some municipalities there are both temporary and permanent projects of various types. The provisions of this bill would not permit a municipality to extend a contract with regard to one particular project and to withhold extension with regard to another since, under its terms, the adoption of a resolution by a governing body automatically extends all contracts.

The present administration of this act and the regulations permit consideration of all requests for extension of contracts and the Administrator and the Veterans' Services Council, despite the general policy set forth above, will extend contracts regarding permanent projects in individual cases so as to avoid extreme hardship and enable municipalities and the State to obtain the best price for the project.

Accordingly, I am constrained to return the bill without my approval.

ASSEMBLY BILL No. 444

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 444, for the following reasons:

This measure would validate affidavits, acknowledgements and proofs of deeds, mortgages and other writings,

and the certificates thereof, heretofore taken or made before or by any commissioner of deeds in and for this State, or foreign commissioner of deeds for this State, or notary public of this State, who had been duly appointed but had failed to properly qualify, or whose term of office had expired or whose commission was void at the time of taking such affidavit, acknowledgement or proof. The provisions of Assembly Bill No. 444, like those of Assembly Bill No. 128 of 1952, a substantially identical measure which was returned to the Legislature on May 27, 1952, without my approval, are entirely too broad. It would circumvent many statutory provisions enacted for the protection of the public requiring certain instruments to be sworn to before an officer who possesses present authority to do so.

As I stated in my message accompanying the return of Assembly Bill No. 128, of 1952:

> "There are a number of validating acts on the statute books covering certain instances of the kind treated in this measure. Carefully circumscribed bills to meet hardship situations would appear appropriate, but a blanket validation of the type proposed by the instant measure is undesirable."

For these reasons, I am constrained to return Assembly Bill No. 444 without my approval.

ASSEMBLY BILL No. 490

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 490, for the following reasons:

The legislation establishing the county employees' pension fund which would be affected by this bill prescribes as a general rule that from and after July 1, 1953, any employee who is or becomes a member of such retirement system may not withdraw therefrom and shall not be entitled to a refund of any moneys theretofore and thereafter deducted from his salary under that pension plan. The section then goes on to list two classes of exceptions: the first, where the employee separates from the county service through his discharge, resignation, or for any reason other than retirement; and second, where the service of an employee is terminated by his death. Assembly Bill No. 490 would add a third exception to the general rule. It would provide for the return of what amounts to one-half of the employee's contributions to the fund in the event that the employee retires under some other pension act.

As I have pointed out on numerous occasions—even more important than the extent of a pension program is the knowledge that it is secure. The whole policy of this Administration has been to build sound employees' pension systems. Assembly Bill No. 490, by adding the additional exception to the general rule referred to above, would further weaken the position of the county employees' pension fund affected. Accordingly, mindful of our policy to strengthen, rather than weaken, our pension programs I cannot, as a matter of principle, support the further exception contemplated by this measure without adequate provision being made in the legislation for its cost.

I am, accordingly, returning this bill without my approval.

Respectfully,
ALFRED E. DRISCOLL,
Governor.

ASSEMBLY BILL No. 492

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 492 for the following reasons:

This bill would authorize the establishment of county boards of parole in counties wherein county penitentiaries are maintained. The board, under the terms of the bill, would consist of three members, the warden of the penitentiary, the chief probation officer of the county, and a third member to be appointed from among the citizens of the county by the judges of the county court. The bill prescribes that the warden and chief probation officer may each designate an assistant to act "with full power, in his place and stead at any meeting of the board of parole."

The county parole board so established would have exclusive parole authority with regard to all inmates under sentence in the penitentiary who have served at least 60 days of the sentence imposed upon them, except those committed under a sentence which provides that a fixed portion of the sentence must be served in custody and the remaining portion on probation.

The bill would, accordingly, remove from the authority of the State Parole Board jurisdiction to hear and determine parole applications by prisoners in county penitentiaries serving terms having a maximum greater than one year, as conferred by Section 35 of the 1948 Law establishing the State Parole Board (P. L. 1948, c. 84). That legislation (Chapter 84 of the Laws of 1948), established for the first time in New Jersey modern, forward-looking parole procedures which are generally recognized as among

the best in the Nation. In the 1952 volume setting forth the Report by and Research Studies Prepared for the American Bar Association Commission on Organized Crime entitled "Organized Crime and Law Enforcement" there appears the following pertinent comment: "In a few jurisdictions the quality of the paroling authorities is emphasized, chiefly in New York, New Jersey, Michigan, California, and the federal government. Parole operates at its best in these jurisdictions."

There appears to be no sound reason for transferring from the State Parole Board parole authority with regard to prisoners serving sentences in county penitentiaries. Moreover, I am advised that several of the provisions of the bill are not in keeping with tested and well-established parole procedures.

Accordingly, I am constrained to return Assembly Bill No. 492 without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

ASSEMBLY BILL No. 528

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 528 for the following reasons:

This bill would permit the use of red identification lights of the blinker type on the front of "Any vehicle owned by active members of first aid squads and rescue squads, employed to provide ambulance service for any community in the State, and any vehicle used to augment the police force of any community, municipality or county in the State, . . ." These first aid and rescue squads are the pride of communities throughout our State, for their efficient life-saving work in time of greatest need. Our natural inclination is to favor any legislation which might appear helpful to them, but it is necessary to keep in mind the general needs of all forms of emergency vehicles.

Legislation adopted in 1951 extensively revising and modernizing the State motor vehicle traffic code included an amendment to R. S. 39:3–50. The section as amended prescribes in part that: "No person shall drive or move any vehicle or equipment upon any street or highway equipped with any device or lamp thereon capable of or displaying a light visible from directly in front thereof, of any other color than permitted by this section, [that is, white, yellow or amber] except: (a) an authorized emergency vehicle or (b) a vehicle authorized by a permit issued by the director [of Motor Vehicles]". The same section of the law authorizes the Director, "when necessary, in his discretion, for the reasonable and safe movement of traffic", to issue permits authorizing vehicles to be equipped with lamps, visible from directly in front of the vehicles, displaying lights of other colors. It would accordingly appear that ample statutory procedures are available to meet the needs of the groups covered by the bill consistent with the reasonhable and safe movement of traffic.

To add a rigid statutory provision to existing law could do more harm than good. The red blinker light is useful to emergency vehicles, including the first aid ambulances, only so long as such lights are not commonly used by other vehicles. The average motorist could well become immune to the red warning signals if their use was extended to an increasing number of vehicles which to all intents and purposes give the appearance of private automobiles. The State Coordinating Council on Traffic and Safety has advised against the bill.

I am, therefore, constrained to return the bill without my approval.

ASSEMBLY BILL No. 611

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 611, for the following reasons:

The general purpose of this bill is to establish new population classifications for the number of township committeemen required in townships in Atlantic, Monmouth and Ocean counties. Unfortunately, the bill is in conflict with Assembly No. 365, which relates to Atlantic and Ocean counties and also purports to authorize the establishment of wards in the election of township committeemen in the townships of those counties.

While the present bill amends R. S. 40:146–2, it expresses no legislative policy with respect to the companion section R. S. 40:146–3, which permits the voters of any township having less than the population required for a five-member township committee to determine to increase the membership from three to five members by referendum. In the absence of such a policy, it is undesirable to legislate on the section amended by the bill.

Our statute regulating the number of township committeemen is one of the few remaining municipal charter provisions of uniform character throughout the State. The township as a form of government has a long tradition in our State, and it is most difficult to distinguish between townships according to the county in which they are located. Legislation which attempts to do so obviously casts a serious constitutional doubt upon the governments of the affected townships.

On June 22nd, long after the present bill was introduced in the Legislature, the Joint Legislative Committee to Study the Effect of the 1950 Census on County and Municipay Offices, made its report to the Legislature regarding the effect of the so-called "Freeze Acts." The report recommended that the whole question of changes in the structure of local government, due to increased population determined by the 1950 Federal census, should be reviewed by the various local governments affected in light of the findings of the report. After an opportunity for such review, the report also recommended, the Legislature should reconsider the problem. An orderly approach to this subject, as well as the long-run best interests of the municipalities affected, requires us to follow the recommendations of the Joint Legislative Committee's report.

In any event, there can be no nomination or election of additional township committeemen before the primary and general elections of 1954, and the Legislature will have ample opportunity to consider this problem in the light of the committee's report at its next session.

Accordingly, I am constrained to return Assembly Bill No. 611 without my approval.

ASSEMBLY BILL No. 621

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 621, for the following reasons:

In 1951 an act was passed (P. L. 1951, c. 223) to provide for the pensioning of "Any person who has been in the employ of any township in any county of the second class of this State for a period of twenty-five years and has at the present time attained the age of seventy years. . . ." The act provides that such retirement shall be in the discretion of the local governing body and that the pension shall be at a rate "not to exceed one-half the annual salary or compensation of such employee at the time of his retirement." While general in terms, the act was obviously special in effect to the extent that it could only apply to persons who has then fulfilled the required conditions.

The present bill would convert the 1951 law into a permanent noncontributory pension plan under which township employees could be retired in the discretion of the governing body upon a pension not exceeding one-half pay. The difficulty with the bill from the employee standpoint is that the township would have a good reason to refrain from joining the actuarially sound State employees' pension fund, and at the same time the employee would not know until it was too late whether or not he was to be the beneficiary of the township's largess. The bill would place pressure upon every township committee, on the other hand, to provide a pension for every employee even though the accumulated burden of such payments might be greater than the township taxpayers could reasonably be expected to bear. The only sound way in which to provide for the

general requirements for retirement of township employees upon pension is through membership in an actuarially sound pension system. This principle is further developed in my messages of this date accompanying the return of Assembly Bills Nos. 235 and 379.

Accordingly, I am constrained to return Assembly Bill No. 621 herewith without my approval.

ASSEMBLY BILL No. 637

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 637, for the following reasons:

This bill purports to require the sum of $50,000 which has been appropriated to the Department of Conservation and Economic Development for flood control purposes, to be paid over to the boards of chosen freeholders of the counties of Passaic and of Morris. The bill would require the counties to use the funds jointly for the purposes of flood control in those counties. While the county governing bodies have a very proper interest in the manner in which the funds are expended, it would be a most unfortunate precedent to require the distribution of a form of State aid in the manner proposed. The department of the State Government which has been charged with the administration of the funds has

agreed to co-operate with the counties to assure the most effective program. Furthermore, at the present time a committee including representatives of the counties and the State Administration is presently engaged in the difficult task of developing such a program. Any further legislative direction, under the circumstances, could in the long run do more harm than good.

Accordingly, I am constrained to return the bill herewith without my approval.

ASSEMBLY BILL No. 641

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 641, for the following reasons:

This bill is similar in purpose to Assembly Bill No. 260, of 1952, which I was constrained to return without my approval. The present bill, like last year's measure, purports to represent a revision of the commission form of government law, known as the Walsh Act. It proceeds on the assumption that there are over sixty municipalities operating under that law, and that the people of those municipalities, constituting almost one-half of the population of the State, are in agreement on the changes in their municipal

charters that this bill would bring about. In common with last year's measure, the present bill does not appear to have had the benefit of any citizen participation in this charter-making activity. If the bill were to become law, it would change the charter without any action on the part of the citizens of the municipalities affected. In fact it would interrupt the orderly consideration of charter change which is now proceeding in the largest city of our State.

Many practical politicians as well as students of government have assented that "Commission government is on the way out." The original promoter of commission government, the city of Des Moines, Iowa, has abandoned it. If tinkering could fix it, certainly the city which practically owned the copyright would have found the way. Experience has taught that the commission plan is basically unsound, and that the best way to correct its defects is to adopt another form of government. In those municipalities where the people desire such improvement, the Legislature has provided, in the enactment of Chapter 210 of the Laws of 1950, for a complete set of alternative modern charters.

Few of the objections expressed in the message of last year relating to Assembly Bill No. 260 are met in Assembly Bill No. 641 of this year. The amendments contained in the present bill to deal with the question of the assignment of departments, the executive power of the mayor, and existing weaknesses in the formulation and adoption of the municipal budget, are basically subject to the same objections that I expressed last year.

Despite the fact that an important judicial decision, affecting the question of "park bench commissioners" has been handed down by our Supreme Court (*Grogan* vs. *De Sapio,* 11 N. J. 308 (1953)) since last year, the present bill approaches the matter of the assignment of departments in a manner similar to that employed in last year's bill. It would require the board of commissioners to assign powers and duties "to appropriate departments; . . .". The bill adds the proviso that this shall be done "in good faith, . . . in order that there may be as nearly as possible an appropriate distribution of the various divisions, bureaus, officers and functions of government among the departments." In the first instance, the board of commissioners would determine what is meant by this use of the term "appropriate", apparently in two different senses

of the word. In the last analysis, it would be left to the courts to determine what is "appropriate", and experience prior to 1927 proves that the courts are not suitably equipped to the exercise of any such supervision over the board of commissioners.

A continued distrust of commission government is evidenced in the further provision of the same section that an assignment once made to "appropriate departments" may not be changed, altered or in any manner modified during the term of office of the commissioners unless by resolution adopted by a two-thirds vote. As I stated last year, the whole idea of good organization implies reasonable flexibility to make changes as new conditions and experience develop. In effect, the present bill would seek to reinstate a provision governing assignment of departments which was discredited and abandoned as long ago as 1927, and would go even further in freezing decisions thereunder against change, unless four members of a five-member board of commissioners could agree.

This year's bill differs from last year's in that the present measure purports to establish the Director of the Department of Revenue and Finance as the "budget director" under the commission form of government. There is no requirement that the office of Mayor and of Director of Revenue and Finance shall be held by the same man. Even if this new "budget director" were a workable office, which does not appear to be the case, the separation of the office of Mayor from the reconstituted office of Director of Revenue and Finance could very well become a new cause for friction under commission government. There would, in effect, be two chief executives, neither of which would be saparately elected for the office by the voters. The Mayor would still have no veto power but he would be given a new power of "investigating" with which to heckle his fellow commissioners, and would remain to be chosen by the commission at its organization meeting. The Commissioner of Revenue and Finance, who would be given a new power to submit the municipal budget, the items of which could not be increased without a two-thirds vote of the entire board, would also be chosen at the organization meeting of the commission. It has been said that "the commission plan has a built-in incentive to discord." and that "the allocation of functions and the mayorality becomes a matter of secret or even public 'horse trading' ".

With two posts of special power to divide among five commissioners, these possibilities are enhanced, and the problem of dividing them among three commissioners becomes even more complex.

A greater incentive to discord is not offset by any workable character or benefits to be derived from the proposed budget section. The section contains no provision for orderly formulation of the budget or even for public hearing on the budget requests of the separate commissioners in advance of their submission to the "budget director". The section would require the commissioners to submit their "portion of the budget" on or before January 10th of each year. It is only a little more than a month later that the local budget law requires the board of commissioners to approve the municipal budget. The Commissioner of Revenue and Finance, as budget director, is given neither the time nor the facilities to do more than pay lip service to the idea of a single budget for the city. Once the budget is adopted, moreover, the bill is devoid of any power in the budget director to control its operation, and each commissioner would return to his former status as a law unto himself with respect to his "portion of the budget."

Once again these basic changes, however unworkable, would be imposed upon the citizens of the sixty-one cities of this State that are operating under the Walsh Act. Again the bill fails to recognize the principle of home rule which would allow the voters of each municipality to decide for themselves whether or not they want to make the changes in their charter that the bill would impose. Under our Constitution of 1947, moreover, the governing body of any commission-governed municipality is free to apply to the Legislature for a special act to accomplish these changes. Under existing law, the Legislature has adopted the policy that any such special act would be referred by referendum to the voters of the municipality affected.

In summary, the present bill would make some worthwhile changes in the mechanical aspects of the commission government law, to conform it to the election law. Its principal provisions, however, would make fundamental changes in the official relationships of commission government without the consent of the voters affected. It is reasonable to anticipate that these changes might be worse rather than

better than the present law. The bill comes at a time moreover when it could only serve to confuse and confound the issue of charter reform in the City of Newark, a reform movement initiated by the voters of that city themselves. The duly elected charter commission of the City of Newark, in its recently issued *Preliminary Report,* of August 8, 1953, has in fact recognized this situation as follows (Pages 25-26 of the Report):

> "The Charter Commission has rejected the idea of trying to correct the defects of the commission form of government, either by Walsh Act amendments or by special charter. At best, this would be an inferior solution to the city's needs, and would fail to remove the basic evils of commission government. Retention of the commission plan in any form would mean a continuation of the philosophies and traditions that have developed over a period of 36 years.
>
> "The idea that each commissioner is autonomous would necessarily continue. The lack of a legislative check on the administration would continue to plague the city's operations. The confusion of politics and administration would go on. The mixture of legislative and administrative powers would continue. Control of administration would still be distributed among five individuals, with little chance for effective leadership and responsibility. In fact, there is great likelihood that the mayor or commissioner of revenue and finance would become a political whipping boy as the other four commissioners use him as an excuse for their own errors. A clean break with the past is necessary if any permanent improvement is to come from charter revision. Such a break cannot be made by trying to patch up a system of government that has been tried and found wanting, not only in Newark, but in cities throughout the country, many of which have already tried one or more of the suggestions now being made to improve commission government in New Jersey."

In recognition of the need for mechanical improvements of the Walsh Act, I have approved two bills which incorporate some of the changes that would have been made by Assembly Bill No. 641, namely, Assembly 299 and Assembly 646. It is with sincere regret that I find myself unable to

concur in the major points of public policy that have been raised by this second effort to correct the admitted defects in the commission form of government law.

For these reasons, I am returning Assembly Bill No. 641 without my approval.

ASSEMBLY BILL No. 649

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 649, for the following reasons:

This bill is a special or private act. The preamble to the bill discloses that one William McCorkell was the owner of certain personal property within the State and died intestate leaving no survviving spouse, heirs or known kindred capable of inheriting the property. Under these circumstances Section 2A:37–12 of the New Jersey Statutes prescribes that "such personal property, of whatsoever nature the same may be, shall escheat to the State."

The bill proposes to distribute the property, after payment of debts, funeral charges and other expenses, in three parts: one part to each of two individuals and their respective wives, and a third part to the New York Foundling Hospital. I am informed that the property includes accumulative savings and United States bonds.

Without otherwise passing upon the merits of the bill, its enactment into law would run contrary to the prohibition contained in Article VIII, Section III, paragraph 3 of the Constitution of 1947 that "No . . . appropriation of money shall be made by the State . . . to or for the use of any society, association or corporation whatever."

Accordingly, I am constrained to return the bill without my approval.

Respectfully,

[SEAL] ALFRED E. DRISCOLL,
Governor.

ASSEMBLY BILL NO. 287

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 287.

This bill has the desirable purpose of permitting an emergency commitment to a State, county or municipal hospital of a person found suffering from a nervous or mental illness or from a psychosis caused by drugs or alcohol. Such an emergency commitment would be permitted under the bill only when the patient is incapable of executing a voluntary application for admission, and only upon the certificate of a duly licensed physician and at the discretion of the officer in charge of the institution.

Under the bill the emergency admission is limited to a period not exceeding seventy-two hours (excluding Satur-

days, Sundays and holidays). I am advised that the time allowed would be insufficient for a proper and complete examination of the patient under many circumstances. In view of the expanding mental health facilities which this State has undertaken, it will be appropriate to give such a patient the benefit of a complete examination before he is discharged.

Accordingly, I am returning herewith Assembly Bill No. 287 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

On page 1, section 1, line 9, delete "seventy-two hours," and insert in lieu thereof "seven days".

Respectfully,

ASSEMBLY BILL No. 288

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration, and with my objections, Assembly No. 288.

The object of this measure is to bring within the regulatory features of the Perishable Agricultural Commodities Licensing and Bonding Law (R. S. 4:11–15 et seq.), agents, brokers, commission merchants and dealers engaged in the business of purchasing poultry and poultry products.

The amendment proposed to R. S. 4:11–20 (relating to the surety bond to accompany the application for a license) does not conform to the classifications of persons to be licensed, as defined in R. S. 4:11–15. In addition, the bill has an immediate effective date. A reasonable period of time should be provided for the new groups covered by the legislation to make application for license to the Secretary of Agriculture, file the required surety bond, and to have the Secretary of Agriculture process the application.

Accordingly, I am returning herewith Assembly Bill No. 288 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

On page 3, section 3, lines 7 to 9, delete the words ", for buyers of fruits and vegetables and for buyers of poultry and at least five hundred dollars ($500.00) for buyers of eggs," and insert in lieu thereof the words "(except that any such bond accompanying the application of any person for a license to engage in or carry on the business of agent, broker, commission merchant, or dealer for the purchase of eggs only shall be in the sum of at least five hundred dollars $500.00))".

On page 3, section 4, line 1, delete the word "immediately" and insert in lieu thereof the words "January first, one thousand nine hundred and fifty-four."

Respectfully,

Governor.

ASSEMBLY BILL No. 297

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 297.

The purpose of this bill is to clarify and improve the school election law. If it is to accomplish its objective, however, several amendments are required in order to conform its provisions with the terms of Assembly Bill No. 195, which has already been approved and is now P. L. 1953, c. 255, changing the title of district clerks of boards of education to that of secretary.

Accordingly, I am returning herewith Assembly Bill No. 297 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

Amend page 3, section 3, line 6, by deleting the words "district clerk" and inserting in lieu thereof the word "secretary."

Amend page 4, section 5, line 3, by deleting the words "district clerk" and inserting in lieu thereof the word "secretary."

Amend page 5, section 7, line 14, by deleting the words "district clerk" and inserting in lieu thereof the word "secretary."

Amend page 7, section 8, line 9, by deleting the words "district clerk" and inserting in lieu thereof the word "secretary."

Amend page 9, section 10, line 36, by deleting the words "district clerk" and inserting in lieu thereof the words "secretary of the board."

Amend page 9, section 10, line 40, by deleting the words "district clerk" and inserting in lieu thereof the words "secretary of the board."

Amend page 9, section 10, line 44, by deleting the words "district clerk" and inserting in lieu thereof the words "secretary of the board."

Amend page 11, section 12, line 9, by deleting the words "district clerk" and inserting in lieu thereof the words "secretary of the board."

Amend page 11, section 12, line 14, by deleting the words "district clerk" and inserting in lieu thereof the words "secretary of the board."

Amend page 11, section 13, line 8, by deleting the words "district clerk" and inserting in lieu thereof the "secretary of the board."

Amend page 11, section 13, line 9, by deleting the word "district" and inserting in lieu thereof the words words "secretary of the board."

Amend page 12, section 13, line 10, by deleting the word "clerk."

Amend page 12, section 16, line 3, by deleting the entire line and inserting in lieu thereof the following: "18:7–69. A secretary appointed under the title of district clerk or a secretary appointed as provided in section 18:7–68 of this Title, shall have all of the powers and perform all of the duties provided by law to be exercised or performed by a district clerk including the following:".

Amend page 13, section 16, line 30, by deleting the words "district clerk" and inserting in lieu thereof the word "secretary."

Amend page 13, section 16, line 32, by deleting the words "district clerk" and inserting in lieu thereof the word "secretary."

Amend page 13, section 17, lines 1 and 2, by deleting the words "July first, one thousand nine hundred and fifty-three" and inserting in lieu thereof the word "immediately."

ASSEMBLY BILL No. 324

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 324.

This bill is related to Senate 260, which has been approved and is now P. L. 1953, c. 297. That bill increased the jurisdiction of County District Courts in automobile negligence cases to three thousand dollars. The purpose of the present bill is to authorize transfer to the County District Court by the assignment judge of the Superior Court or the judge of the County Court of an action which is pending in the Law Division of either of those courts where the amount in controversy is within the jurisdiction of the County District Court. The present bill does not take into account the change in the jurisdiction of the County District Court accomplished by Senate Bill No. 260. It is obvious that both bills should conform to each other.

Accordingly, I am returning herewith Assembly Bill No. 324 for reconsideration and with the recommendation that amendment be made to the bill (Second Official Copy Reprint) as follows:

Amend page 1, section 1, lines 2, 3 and 4 by striking out the words "in dispute in such action does not exceed, exclusive of cost, the sum or value of one thousand dollars ($1,000.00)," and insert in lieu thereof the words "is one within the jurisdiction of the county district court,".

ASSEMBLY BILL No. 380

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 380.

This measure provides for the registration with the State Board of Medical Examiners of bio-analytical laboratories and the licensing by the board of the directors of such laboratories.

One of the sections of the bill (Section 26) would amend Section 45:9–1 of the Revised Statutes relating to the composition of the State Board of Medical Examiners. This

same section was amended in other respects by the Legislature this year when it adopted Assembly Bill No. 456, which I approved and which is now Chapter 233 of the Laws of 1953. Approval of Assembly Bill No. 380 in its present form would nullify the amendments to R. S. 45:9–1 made by Assembly Bill No. 456. To preclude this result, Section 26 of Assembly Bill No. 380 should be amended to incorporate the amendments to R. S. 45:9–1 made by Assembly Bill No. 456.

The bill in its present form, also fails to cover out-of-State laboratories which establish pick-up points in New Jersey and thereby compete with laboratories in this State, as well as expose our people to the same dangers as an unregistered laboratory of this State. The penal provisions of the bill, as passed, also come into effect before the licensing sections could be operative.

Accordingly, I am returning Assembly Bill No. 380 herewith for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

Amend page 8, section 21, line 5, by inserting after the word "director," the following: "or who solicits, receives, accepts or delivers material originating from the human body on behalf of any bio-analytical laboratory located without this State and which is not under the direction of a licensed bio-analytical laboratory director and registered under this act, or similarly licensed and registered under the laws of the State in which it is located,".

On page 10, section 22, line 47, after the words "three hundred" delete the comma.

On page 10, section 22, line 49, after the words "five hundred" delete the comma.

On page 11, section 26, line 13, delete the word "term" and insert in lieu thereof the word "terms".

On page 11, section 26, line 15, delete the words "each of whom shall be licensed" and insert in lieu thereof the words "and shall possess a license".

On page 11, section 26, line 15, after the words "his or her" insert the word "respective".

On page 11, section 26, line 15A, delete the words "this State" and insert in lieu thereof the words "New Jersey".

On page 12, section 26, line 23, before the word "board" insert the word "said".

On page 12, section 26, line 26, before the word "board" delete the word "the" and insert in lieu thereof the word "said".

On page 12, section 26, immediately following line 37, insert the following new paragraph:

"The Governor shall appoint two chiropractors who are licensed to practice chiropractic in the State of New Jersey to serve for a term of three years each and until their successors are appointed and qualify, who shall be available to assist the board in the administration of sections four, five, six, seven, eight, nine, twelve, fifteen and sixteen of chapter two hundred thirty-three of the laws of one thousand nine hundred and fifty-three which act supplements chapter nine of Title 45 of the Revised Statutes, and contains this amendment to this section. Within the limits of available appropriations therefor each such chiropractor shall be paid a fee of ten dollars ($10.00) for each applicant assigned to him for examination and when designated and authorized by the board to do business on behalf of the board outside of the State shall receive fifty dollars ($50.00) per day and when performing authorized official duties in or out of the State shall be reimbursed for all proper expenses incurred in the performance of such duties."

On page 15, section 28, line 58, delete the word "or".

On page 15, section 28, line 61, after the word "thereof" delete the period and insert in lieu thereof "; or".

On page 15, section 29, line 1, after the word "immediately" insert ", except that Section 21 hereof shall take effect January 1, 1954.".

ASSEMBLY BILL No. 406

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 406.

The general purpose of this bill is to protect a newspaper against the loss of its qualification to accept legal advertising under the requirement that it shall be "published *continuously* in the municipality where its publication office is situate for not less than two years". There are occasions when a purely involuntary suspension of publication would work an undue hardship under this provision. The bill as drawn, however, still fails to meet the objections expressed in my message of last year with respect to a similar bill and, in addition, it is in conflict with Assembly 642, which has been approved.

Accordingly, I am returning herewith Assembly Bill No. 406 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, line 11, by inserting after the word "general" the word "paid".

Amend page 2, section 1, line 22, by inserting after the word "publication" the words "for a period not exceeding six months,".

Amend page 2, section 1, lines 22 and 23, by striking out the words "failure or unavailability of operating facilities, equipment or personnel from whatever

cause,'' and insert in lieu thereof the words ''mechanical or electrical failure of typesetting equipment or printing presses or the unavailability, due to conditions beyond the control of the publisher, of paper or other materials and supplies necessary for operation, or resulting from a labor dispute with a recognized labor union,''.

Amend page 2, section 1, line 25, by striking out the words ''one week after it again becomes possible'' and inserting in lieu thereof the words ''said period of six months''.

Amend page 2, section 2, line 12, by inserting after the word ''general'' the word ''paid''.

Amend pages 2 and 3, section 2, lines 23 through 26, by striking out all of said lines and inserting in lieu thereof the following: ''publication for a period not exceeding six months resulting from loss, destruction, mechanical or electrical failure of typesetting equipment or printing presses or the unavailability, due to conditions beyond the control of the publisher, of paper or other materials and supplies necessary for operation, or resulting from a labor dispute with a recognized labor union, and any newspaper so affected shall not be disqualified hereunder in the event that publication is resumed within said period of six months.''.

ASSEMBLY BILL No. 433

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 433.

This bill and Assembly No. 266 both deal with the salaries payable to court attendants. The permissive schedule incorporated in this bill is in irreconcilable conflict with the provisions of Assembly No. 266. The objectives of both bills may be accomplished by amendment of the present measure.

Accordingly, I am returning herewith Assembly Bill No. 433 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

Amend page 1, section 1, line 4, by omitting the word "six" and inserting in lieu thereof the word "three".

Amend page 1, section 1, lines 8-18, by inserting after the word "salary" the following: "to be fixed by the sheriff, with the approval of the board of chosen freeholders,".

Amend page 2, section 1, line 34, by inserting after the word "ninth" the words "and each succeeding".

Amend page 2, section 1, line 38, by deleting the words "one hundred and seventy-five" and inserting in lieu thereof the words "three hundred".

Amend page 2, section 1, line 41, by inserting after the words "County Court," the words "the Juvenile and Domestic Relations Court and".

Amend page 2, section 1, line 52, after the word "respectively" delete the following ", but not more" and insert in lieu thereof a period.

ASSEMBLY BILL No. 473

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 473, for the following reasons:

It is stated that this is an unfair practice and not a price control bill, although one of its objectives is undoubtedly to prevent price wars in the sale of gasoline at the retail level. The bill would make it unlawful and a violation of the act (Section 4 (a)) for any distributor, refiner, wholesaler or supplier (hereafter referred to as the distributor) to offer, or for any retail dealer to accept, a rebate, concession, allowance, discount or benefit, of any kind whatsoever, in connection with the sale or distribution of motor fuel or other products marketed by the distributor; (b) for any distributor to lease or make a contract on condition, promise, etc., that the lessee shall not use or deal in goods, wares, merchandise, supplies, etc., of a competitor of such distributor, except as to gas when pumps are furnished by the distributor; and (c) for any distributor to discriminate in tank wagon price between

different retail dealers purchasing the same grade of branded motor fuel.

The bill alleges: "Certain discriminations and practices, services or facilities furnished involving the sale of motor fuel have been and are demoralizing and disorganizing the retail sale of motor fuel business" in New Jersey.

A report by Dun and Bradstreet listing the rate of failures for 1952 in 24 selected retail lines, discloses that gas stations had the lowest rate of failure—5 for each 10,000 concerns as compared to 70 for each 10,000 engaged in the retail sale of appliances, radio and T.V. Retailing, an analysis of the report disclosed, was relatively a much safer business to engage in than either wholesaling or manufacturing.

Assembly Bill No. 473 is the product of a study by a Gasoline Study Commission which, during 1952, devoted a very substantial amount of time and thought to the manifold problems confronting the petroleum industry. Prior to the creation of the Gasoline Study Commission in 1952, a Gasoline Study Committee in 1951 filed a report on this subject, in which it concluded, *inter alia,* that the problems confronting the industry did not call "for some form of governmental control" and that any "legislation fixing the margin of profit would tend to be in opposition to our fundamental concept of free enterprise, and undoubtedly affect the future price of the commodity." With this conclusion I find myself in complete agreement. This committee held: "Price fixing with its artificial support is an invitation to maintain the status quo." The committee pointed out a fact recognized by many, that although "New Jersey is among the Nation's leading state-wide markets for petroleum products, the marketing field is somewhat overcrowded, a factor which itself leads to spirited competition for sales." In conclusion, the committee recommended "that only those marketing laws now applicable to the retail sales of gasoline in the State of New Jersey be utilized in governing the extent of the widespread sporadic competition among dealers."

The Gasoline Study Commission, in its report dated February 16, 1953, stated its opposition to a proposed cost survey and said that such a procedure would "result in price fixing" and that such legislation would "tend to eliminate rather than preserve the free enterprise system . . .".

I commend the members of the Legislature who have devoted much time to a serious consideration of current practices within the industry. I know from my conferences with representatives of the Commission that it is their desire to help the little businessmen of this State, and to stabilize a tremendously important industry.

It is a proper task of government to strive to create an economic environment in which private enterprise can grow and flourish, and in which the small businessmen and economic units, as well as those of greater size, may reap the just rewards of their industry, prudence and mental and physical talents. In the United States we have developed a strong and healthy economy that has been called upon to carry worldwide burdens. This is in large measure the result of our adherence to the private enterprise system, with its enlightened self-interest and its incentive to those who are prepared to invest their capital as well as their labor in industrial activities. Accordingly, while we may adopt legislation designed to promote competition and protect this private enterprise system, we should be chary of legislation, in whatever guise, which may, in fact, curtail competition. For the heavy hand of bureaucracy is far more likely to stifle than to stimulate the lifeblood of our economic well-being, private initiative and private enterprise.

It has been held that the sale of gasoline is not a business "affected with the public interest" (*Williams* vs. *Standard Oil Co.*, 278 U. S. 235 cf. *Reingold* vs. *Harper,* 6 N. J. 182 and *Sperry & Hutchinson Company* vs. *Margetts,* 25 N. J. Super. 568). Even though a business is affected with the public interest, legislative regulations, if they are to survive judicial test, "must be reasonable in their nature, directed to the prevention of real evils and adapted to the accomplishment of their avowed purpose. Under the guise of protecting 'the general welfare, there cannot be arbitrary interference with business or irrational or unnecessary restriction.' . . .". (*Sperry & Hutchinson Co.* vs. *McBride,* 307 Mass. 408, 425).

On the other hand, "it is not always essential that a business be wholly affected with a public interest to be subject to regulation." (*Lane Distributors, Inc.* vs. *Tilton,* 7 N. J. 349, 365).

A careful study of Assembly 473, however, clearly discloses that in its present form it is unconstitutional and would undoubtedly be struck down by either the State or Federal courts. A naked assertion by the Legislature of "a public interest," if not supported by the facts or incorporated in legislation truly designed to promote the public interest, will not pass judicial scrutiny. One's business is not clothed with a public interest unless it bears "such a substantial and definite relation to the public interest as to justify an indulgence of the legal fiction of a grant by the owner to the public of an interest in the use." (*Tyson & Bro.* vs. *Banton,* 271 U. S. 418. *Fairmount Creamery Company* vs. *Minnesota,* 274 U. S. 1). Furthermore, within the same industry different activities sought to be regulated may result in different judicial conclusions with respect to the right of the State to regulate.

The general public welfare is the paramount interest that must be protected and promoted. This general public welfare must take precedence in our consideration over any class or special interest.

To the extent that the purpose of the present bill is to prevent predatory pratices designed to promote monopolies, there is undoubtedly much to be said in favor of the objective of its sponsors. Apart from constitutional questions, and my own deep concern and doubts with respect to the wisdom of governmental regulations of the kind here proposed, from a practical point of view, it seems to me that the proposed bill will not accomplish its avowed objectives. Indeed, a strict interpretation of the provisions of the bill might very well ruin many of the very parties whom it seeks to save. For example, a large single distributor, owning and operating a single station or a limited number of stations, pursuant to the proposed law, if it chose to do so could precipitate a predatory price war which would present the industry with the unpleasant dilemma of enlarging the price war to cover the entire State or leaving the local retailers in the area to suffer the consequences. A distributor would undoubtedly be reluctant to help a retailer meet local competition if the consequences of his act required him to reduce prices throughout the State, thereby precipitating the very situation which the sponsors of this bill so earnestly desire to restrain.

In its blanket condemnation of all discounts (section 4 a), the bill would appear to be in restraint rather than in favor of private enterprise and wholesome competition. Strictly construed, it would undoubtedly deprive retailers of the benefits that they now derive from their diligence, skill and industry. Uniform discounts for timely payment, or based on quality or quantity, are a traditional part of the private enterprise system. They tend to reward diligence and industry.

Fortunately, the Legislature is not lacking an opportunity to effectuate its major objectives. A federal statute, known as the Clayton Act, as amended in 1936 by the Robinson-Patman Act, 15 U. S. C. A. 13 et seq., offers a tried and tested method of preventing practices that are likely to destroy competition in private enterprise.

In section 11 of Assembly Bill No. 473, the task of enforcing the provisions of the bill is delegated to the Director of the Division of Taxation in the Department of the Treasury. There are presently approximately more than 10,000 service station operators in New Jersey. There are 35 persons or corporations that may be described as distributors, and a large number of other persons and corporations who would presumably come within the purview of the act and subject to the regulation of the Director. The State is presently collecting, pursuant to R. S. 54:39–30 (retail fuel dealer license fees), approximately $60,000 annually. This entire sum is required for the administration of Chapter 163 of the Laws of 1938, an act to regulate the retail sale of motor fuels. Undoubtedly, therefore, additional funds would be required to carry out and enforce the provisions of this bill. No appropriation has as yet been provided for this purpose by the Legislature. In the event the Legislature after a reconsideration of the issues raised by this bill determines that some action in this field is necessary, the effective date should be changed to July 1st, 1954 so that an appropriation may be included in the budget for the next fiscal year.

Accordingly, I am returning Assembly Bill No. 473 for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

On page 3, section 4, line 1, after the word "act" and before the colon, insert the words "for any distributor, refiner, wholesaler or supplier, with intent to injure competitors or destroy or substantially lessen competition."

On page 3, section 4, line 2, delete the line in its entirety and insert in lieu thereof the words "(a) To offer."

On page 3, section 4, line 3, delete the words "any retail dealer to accept."

On page 3, section 4, line 6, after the word "supplier" delete the semi-colon and insert the following words "except that this shall not apply to discounts uniformly applied for timely payments, quantity or quality; or."

On page 3, section 4, line 7, delete the line in its entirety and insert in lieu thereof the words "(b) To lease or make."

On page 3, section 4, line 8, after the word "understanding" insert the words ", where the effect of such lease, contract on condition, promise, agreement or understanding may be to substantially lessen competition."

One page 3, section 4, line 13, after the word "fuel," delete the period and insert "; or".

On page 4, section 4, line 14, delete the line in its entirety and insert in lieu thereof the words "(c) To".

ASSEMBLY BILL NO. 475

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 475.

This bill would permit any county to purchase fuel for heating purposes pursuant to "a contract with any person, firm or corporation . . . for any term not exceeding two years." While the present bill seems to have the purpose of assuring the legal validity of such a two-year contract, it could also have the unintentional effect of completely eliminating the competitive bidding requirements which have long been recognized as the best way of carrying on public purchasing.

Accordingly, I am returning herewith Assembly Bill No. 475 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 3, after the word "years" and before the period, insert the following: ", subject to the provisions of Chapter 25 of Title 40 of the Revised Statutes".

ASSEMBLY BILL No. 488

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 488.

This bill as originally introduced in the Legislature would have required that any prisoner confined in any jail, workhouse or penitentiary under sentence who is, while so confined, sentenced to imprisonment in the State Prison, be immediately taken to the State Prison there to serve his State Prison sentence, and upon his release from the State Prison to be recommitted to the jail, workhouse or penitentiary to serve out the balance of his sentence therein. By an amendment to the bill the requirement to serve out the balance of the jail, workhouse or penitentiary sentence was deleted. The new provision would, in cases where the prisoner is sentenced to the State Prison for a term the minimum of which is equal to or exceeds the sentence then being served by him in the jail, workhouse or penitentiary, vacate the balance of the latter sentence and require the

prisoner to be immediately taken to the State Prison there to serve only the State Prison sentence.

The stated purpose of the bill, as introduced, was to "avoid keeping prisoners facing such serious sentences from being kept in institutions which lack maximum security". I am in accord with this stated objective. However, the bill in the form presented to me presents the serious constitutional problem of legislation remitting sentences imposed by the courts—an inherent phase of the executive clemency power vested in the Governor under Article V, Section II, paragraph 1 of the State Constitution.

The purpose of the bill may be accomplished by amendment authorizing the sentencing court to direct, in its discretion, that the State Prison sentence run concurrently with the balance of the penitentiary sentence and that the prisoner be immediately taken to the State Prison there to so serve both such sentences.

Accordingly, I am returning Assembly Bill No. 488 herewith for reconsideration and with the recommendation that amendment be made to the bill (Second Official Copy Reprint) as follows:

On page 2, section 1, delete lines 32 to 35, inclusive, in their entirety and insert in lieu thereof the following: "served by him in any jail, workhouse or penitentiary, the court imposing such sentence of imprisonment to the State Prison may, in its discretion, direct that the sentence to imprisonment in the State Prison shall be served concurrently with the balance of the sentence then being served by such prisoner in the jail, workhouse or penitentiary and that the prisoner shall be immediately taken to the State Prison by the sheriff, there to serve such sentence to imprisonment in the State Prison and the balance of the sentence then being served by such prisoner in the jail, workhouse or penitentiary, concurrently, in accordance with law."

ASSEMBLY BILL No. 517

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 517.

The purpose of this bill is to add to the existing law on workmen's compensation, coverage for out-of-State servive and for service on federal property by volunteer firemen. The Attorney-General reports a similar bill has been enacted in New York. Assembly Bill No. 354, which has been approved and is now Chapter 340 of the Laws of 1953, added assistant county fire marshals to the group of covered firemen. The present bill conflicts with this earlier enactment and an amendment is necessary in order that they may conform.

Accordingly, I am returning herewith Assembly Bill No. 517 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Page 1, section 1, line 11, after the word "marshal" insert the words "and assistant county fire marshal,".

Page 2, section 1, line 20, delete "or".

Page 2, section 1, line 21, after "marshals" insert "or assistant county fire marshals".

ASSEMBLY BILL No. 524

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 524.

I am in accord with the object of this measure, i.e., to grant to municipalities establishing a joint municipal court full authority to determine upon the name of the court. However, the bill requires a technical amendment of a clarifying nature.

Accordingly, I am returning Assembly Bill No. 524 herewith for reconsideration and with the recommendation that an amendment be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 6, after the words "so established" delete the words "by one municipality".

ASSEMBLY BILL No. 536

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 536.

The primary purpose of this bill is to overcome a legal question that has been raised with respect to the enrollment of the employees of the interstate agencies to which the bill relates in the State Employees' Retirement System. Some employees of these agencies have been enrolled in that system on the assumption that they were paid at least in part by the State and, consequently, were State employees. There has been an Attorney General's ruling to the contrary.

Ordinarily, a new pension bill should contain a provision requiring all future employees to join the system as a condition of employment. The present bill does not make this requirement for the reason that the employees affected are not in the classified service of the civil service. They may accordingly be treated in the same manner as unclassified employees who, under our statute, may be covered but are not required to become members.

In order to assure that those employees who do join the State system will be treated in the same manner as unclassified State employees, both for the purpose of contributions and benefits and for the purpose of accumulated service, the bill requires amendment.

Accordingly, I am returning herewith Assembly Bill No. 536 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

Amend page 1, section 1, line 2, by inserting after the word "State", the word "employees' ".

Amend page 1, section 1, by deleting lines 9 and 10 and inserting in lieu thereof the following:

"Upon such enrollment, the said employees shall be subject to the same contribution and benefit provisions of the retirement system as State employees."

ASSEMBLY BILL No. 538

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 538.

The purpose of this bill is to carry forward the state, county and municipal programs for the destruction of useless records, with important savings in costly office and storage space. While the bill has a meritorious objective it does not provide adequate safeguards for the preservation of records which may be of continuing public interest and importance. In this respect provision should be made in the bill for the extension of the State Records Committee established pursuant to Section 6 of the measure, to include in addition to the State officers mentioned, the Director of the Division of Local Government in the Department

of the Treasury. This State Records Committee should be properly empowered to enact regulations governing the granting of consent by the Bureau of Archives and History to the destruction of public records.

In addition, Assembly Bills 274 and 275, which have already been approved, concern the destruction of certain records, after the passage of designated periods of time, in the offices of county clerk or register of deeds and mortgages. It was not the purpose of the latter two bills to subject them additionally to the requirements of Assembly Bill No. 538. In order to avoid possibility of conflict between the present bill and Assembly Bills 274 and 275, a further amendment to Assembly Bill No. 538 is required.

Accordingly, I am returning herewith Assembly Bill No. 538 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 2, immediately following line 12, insert the following new paragraph:

"As used in this act the word "bureau" means the Bureau of Archives and History in the Department of Education."'

On page 2, section 3, line 5, after the word "bureau" and before the period insert the following words "; which consent may be given by said bureau only if the same is in conformance with regulations governing the granting thereof which shall be made and promulgated by the State Records Committee established by section six of this act."

On page 2, section 5, line 4, after the word "Committee" insert the words "established by section six hereof."

On page 2, section 6, line 2, delete the word "consisting" and insert in lieu thereof the words "which is hereby established in the State Department of Education and which shall consist."

On page 2, section 6, line 3, after the words "State Auditor," insert the words "the Director of the Division of Local Government in the Department of the Treasury."

On page 2, section 6, following line 5, insert a new paragraph as follows:

"The State Records Committee shall have the powers and duties prescribed for it herein and shall make and promulgate such regulations, not inconsistent with law, as may be necessary to adequately effectuate such powers and duties."

On page 2, section 8, line 4, delete the word "title" and insert in lieu thereof the word "act."

On page 3, section 9, line 11, after the word "bureau" and before the period, insert the words ", subject to regulations which shall be made and promulgated by the State Records Committee established by section six hereof."

On page 3, section 10, line 1, after the word "bureau" insert the words ", subject to regulations which shall be made and promulgated by the State Records Committee established by section six hereof,".

On page 4, section 12, line 2, before the word "shall" insert the words ", with the approval of the State Records Committee established by section six hereof,".

On page 5, section 16, line 1, after the word "shall" insert the words ", with the approval of the State Records Committee established by section six hereof,".

On page 5, section 17, line 3, change the word "script" to "scrip."

On page 5, following section 17, add the following new section:

"18. In the event of any inconsistency between the provisions of this act and the provisions of 'An act concerning certain papers and records on file in the offices of the county clerks and registers of deeds and mortgages, and supplementing Chapter 3 of Title 47 of the Revised Statutes,' approved July twenty-fifth, one thousand nine hundred and fifty-three (P. L. 1953, c. 269) or of 'An act concerning the destruction or other disposition of certain papers on file in the offices of the county clerks, pertaining to the former courts of oyer and terminer, circuit courts, courts of common

pleas, courts of quarter sessions and courts of special sessions,' approved July twenty-fifth, one thousand nine hundred and fifty-three (P. L. 1953, c. 270), the provisions of such other act shall prevail."

On page 5, section 18, line 1, change the section number "18." to section number "19."

ASSEMBLY BILL No. 564

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 564.

This bill would validate acknowledgments or proofs of deeds, mortgages, or other instruments in writing, heretofore made or taken, including acknowledgments by attorneys in fact, notwithstanding any errors, omissions, or imperfections in such acknowledgments or proofs. The only proviso incorporated in the bill is that the deed, mortgage, or other written instrument must have been recorded for at least five years in the proper recording office.

The bill is not adequately circumscribed in scope and lacks the necessary proviso that no proceeding shall have heretofore been instituted in any court respecting the validity of any such deed, mortgage, acknowledgment or proof.

Accordingly, I am returning herewith Assembly Bill No. 564 for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, Title, after the word "deeds" delete the remainder of the Title and insert in lieu thereof the words "or mortgages.".

On page 1, section 1, line 1, after the word "deeds" delete the remainder of the line and insert in lieu thereof the words "or mortgages".

On page 1, section 1, line 2, delete the words "ments in writing," at the beginning of the line.

On page 1, section 1, line 3, after the word "shall" insert the words ", if otherwise valid,".

On page 1, section 1, delete lines 4 to 7, inclusive, in their entirety and insert in lieu thereof the following: "for all purposes whatsoever, notwithstanding any imperfection in said acknowledgments or proofs; *provided, however,* that all such deeds or mortgages shall have been duly recorded for a period of at least five years in the proper recording office; *and provided, further,* that no actions or proceedings shall have heretofore been instituted in any court in respect to the validity of any such deed, mortgage, acknowledgment or proof."

ASSEMBLY BILL No. 566

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 566.

This bill relates to final decrees or judgments in foreclosure proceedings instituted under Chapter 149 of the Laws of 1943 by purchasers of tax sale certificates. The defect in the procedure required to be followed pursuant to that legislation, which this bill proposes to cure, is that the final decree or judgment in the foreclosure proceedings was not filed or recorded within two years from the date of the confirmation of the sale or such extended period of time as may have been granted. The bill, however, does not set forth any time limit for recording the decree or judgment.

In addition, in the process of enactment, words apparently intended to be included in the bill were omitted. An amendment is therefore required to avoid doubt as to its effect.

Accordingly, I am returning Assembly Bill No. 566 herewith for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 10, after the words "to foreclose" insert the words "resulting in".

On page 1, section 1, line 14, after the word "act" and before the period, insert the following words "; *provided,* that such final decree or judgment has been duly recorded not later than six months after the resolution releasing such condition is adopted by said governing body".

ASSEMBLY BILL No. 615

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 615.

The bill proposes to remove a requirement of the present law requiring skimmed milk containers to carry a "metal tag or label" identifying the product with letters at least two inches in height. In its final form the bill would require the containers of skimmed milk, nonfat milk or nonfat fortified milk to be appropriately labelled in letters not less than one-eighth inch high. No distinction is made with regard to bottle cap labels and other types of labels. It was apparently overlooked that large quantities of skimmed milk are sold in containers which are usually imprinted in large bold type. The law should continue a requirement for larger letters on labels other than glass battle cap labels where ample space is conveniently available, as a guide for all distributors so as to minimize any possibility of confusion on the part of consumers.

Accordingly, I am returning Assembly Bill No. 615 herewith for reconsideration and with the recommendation that amendments be made to the bill (Second Official Copy Reprint) as follows:

On page 3, section 2, line 6, delete the words "in letters not less than one-eighth inch high".

On page 3, section 2, line 7, after the word "be" and before the period, insert the following: ", in letters not less than one inch in height and the lines of which shall be at least one-eighth of an inch in width, except

that in the case of glass bottles where the label appears on the caps thereof the lettering shall be not less than one-eighth of an inch in height".

ASSEMBLY BILL No. 643

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 643.

The purpose of this bill is apparently two-fold: first, to bar from the use of the highways any farm machinery equipped with wheels that will damage the highways and, second, to remove the present necessity of a special permit now required where a farmer wishes to draw one vehicle behind another vehicle, where both are used exclusively as farm machinery or farm implements.

The present law authorizes the director to register such vehicles to use the highways for the purpose of moving them from one farm, or portion thereof, to another farm, or portion thereof, for an annual registration fee of one dollar. This special registration does not permit operation on the highway between sunset and sunrise and also is limited in other ways. The existing law as amended has become so encumbered with dependent clauses, however, that it is difficult to read, let alone understand.

Accordingly, I am returning herewith Assembly Bill No. 643 for reconsideration and with the recommendation that clarifying amendments be made to the bill (Official Copy Reprint) as follows:

Page 1, section 1, line 3, delete "commissioner" and insert "director".

Page 1, section 1, lines 7 through 16, delete all of said lines and insert in lieu thereof the following: "vehicles. The fee for such registration shall be one dollar ($1.00) per annum, whether the registration is issued for a yearly period or only a portion thereof. Any vehicle so registered may draw not more than one vehicle used exclusively on the farm and a vehicle so drawn need not be registered. A vehicle registered pursuant to this section shall not be:

(a) used to traverse more than five (5) miles of highway in traveling from one farm, or portion thereof, to another farm, or portion thereof; or

(b) used to deliver or transport any farm products, goods, wares or merchandise, except from one farm, or portion thereof, to another farm, or portion thereof, both owned or managed by the registered owner of the vehicle or vehicles; or

(c) operated on the highway at any time between sunset and sunrise; or

(d) operated on the highway if it is equipped with wheels of a type that will damage or will be likely to damage the highway, or if any vehicle drawn by it is equipped with such wheels; or

(e) operated upon the highway at a speed exceeding four (4) miles per hour if such vehicle, or the vehicle which it may be drawing, is not equipped with rubber tires on all wheels."

Amend page 2, section 1, lines 17 to 24, by deleting all of said lines.

ASSEMBLY BILL No. 653

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the State Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 653.

This measure would amend Section 2A:151–43 of the New Jersey Statutes which sets forth the list of those excepted from the application of N. J. S. 2A:151–41 (prohibiting the carrying of firearms or other weapons without licenses.)

The proposed amendment relates to the exception made in the case of regularly employed members, including detectives, of the police department of any municipality, or any special policemen appointed by the governing body of any municipality; and provides that the exception shall extend to these officers "at all times while within the State of New Jersey."

I am advised that the Department of Law and Public Safety and an overwhelming number of county prosecutors have recommended that the exception granted to special policemen should be confined to that period during which they are actually engaged in the performance of their duties. Such a limitation would appear to be sound and entirely in keeping with the principle underlying amendments to N. J. S. 2A:151–43 adopted last year (P. L. 1952, c. 308).

Accordingly, I am returning Assembly Bill No. 653 herewith for reconsideration and with the recommendation that amendments be made to the bill (Official Copy Reprint) as follows:

On page 1, section 1, line 10, after the word "municipality," insert the words "at all times, while within the State of New Jersey,".

On page 1, section 1, lines 11 and 12, delete the words "at all times, while within the State of New Jersey" and insert in lieu thereof the words "while engaged in the actual performance of his official duties."

STATE OF NEW JERSEY,
SENATE CHAMBER,
December 21, 1953

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following bill:

First Special Session Senate Bill No. 12, entitled "An act concerning the construction and maintenance of certain dams and a storage reservoir across and in the Delaware river and of certain reservoirs in and immediately adjacent to the said river, for the purpose of impounding the waters of said river to provide a supply for domestic, commercial and industrial purposes and compensation flow; providing for the giving of authority to the Commonwealth of Pennsylvania, or, through it, to any commission or other public body or municipality singly or collectively designated by the Legislature of said Commonwealth to construct and maintain said dams and reservoir and use the water impounded therein for said purposes as a public project, subject to certain terms, conditions and limitations; providing for participation by the State of New Jersey in the said project; granting to the Commonwealth of Pennsylvania, or its authorized agency, the right to acquire property in New Jersey for the purposes of this act; providing for the exercise of the power of eminent domain in connection with said project by the New Jersey State Department of Conservation and Economic Development; granting certain powers to and imposing certain duties upon said department in connection with said project; prescribing the procedure for condemnation; providing for the inoperation of the act unless and until the Legislature of the Commonwealth of Pennsylvania shall enact into law legislation consistent with the terms of this act; and revoking in part (subject to Pennsylvania's concurrence) the compact between New Jersey and Pennsylvania dated April twenty-sixth, one thousand seven hundred and eighty-three, and ratified by the act entitled 'An act to ratify and confirm an agreement, made between commissioners appointed by the Legislature of the State of Pennsylvania, and commissioners appointed by the Legislature of the State of New Jersey, for the purpose of settling the jurisdiction of the river Delaware, and islands within the same,' passed May twenty-seventh, one thousand

seven hundred and eighty-three (P. L. 1783, chap. XX 2d sitting),"

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and
