### Student Growth Trends and Progress

These graphs illustrate trends in student growth over the last three years. Student growth is measures by median student growth percentile. The table below tells us how student growth over the last three years compares to the state standard of 40-59.5 and to the statewide median.

Student growth is a measure of how much students are learning each year. Each student receives a Student Growth Percentile (SGP) for English Language Arts (ELA) in grades 4 through 8 and for Mathematics in grades 4 through 7 that explains their progress compared to students who had the same test scores in previous years.

A student's SGP falls between 1 and 99 and can be grouped into three levels: Low Growth: Less than 35 Typical Growth: Between 35 and 65 High Growth: Greater than 65

If the student growth percentiles for all students in the school are ordered from smallest to largest, the median student growth percentile (mSGP) for the school is the percentile in the middle of that list. Watch a short video about Student Growth Percentiles that explains how they are calculated for students and how median Student Growth Percentiles (mSGP) are calculated for groups of students.

#### Student Growth

This table shows the **median Student Growth Percentile (mSGP)** for both English Language Arts (ELA) and Mathematics both overall and for each student group with comparisons to the district and the state. This table also shows whether each mSGP Met Standard (40-59.5) as required by ESSA accountability.

### English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the statewide assessment (NJSLA for 2018-19 and PARCC for 2016-17 and 2017-18) and the DLM alternate assessment. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA/PARCC or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. NJSLA/PARCC results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

Performance Measure	2016-17 ELA	2017-18 ELA	2018-19 ELA	2016-17 Math	2017-18 Math	2018-19 Math

### English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English Language Arts both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our accountability resources.

#### Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for Mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our accountability resources.

### Mathematics Assessment – Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level or end-of-course exam on the statewide assessment for Mathematics for the past three years. 2018-19 data is from the New Jersey Student Learning Assessment (NJSLA) and 2016-17 and 2017-18 data is from the PARCC assessment.

<sup>† 2018-19</sup> results for Algebra I, Geometry, and Algebra II do not include students in grade 11, but 2016-17 and 2017-18 results do include students in grade 11. Therefore, trend data for these assessments may not be comparable.

## Mathematics Assessment - Performance by Grade: Grade 8

This table shows performance on the Mathematics section of the New Jersey Student Learning Assessment (NJSLA). The performance results in this table include all students that took the NJSLA assessment, which includes students that were enrolled less than half a year.

Note: Students that took the Algebra I, Geometry, or Algebra II end of course tests are not included in grade level results.

#### English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

#### English Language Proficiency Test - Participation and Performance

This table shows, by years in district, the number of English learner students taking the ACCESS for ELLs 2.0 Assessment for English language proficiency and the percentage of students tested that received an overall score of 4.5 or above. Students must receive a score of 4.5 or higher to be considered for proficient status.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

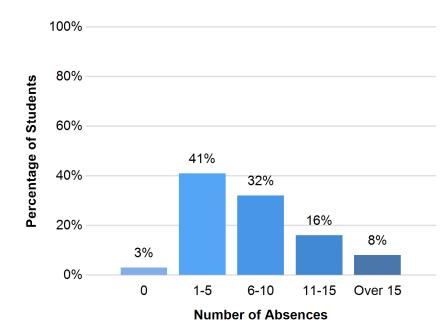

#### Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

Student Group	Number of Students Chronically Absent	Percent of Students Chronically Absent	State Average	Met State Average?

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories.

#### Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Incident Type	Number of Incidents
Violence	2
Weapons	0
Vandalism	0
Substances	0
Harassment, Intimidation, Bullying (HIB)	0
Total Unique Incidents	2
Incidents Per 100 Students Enrolled	0.42

#### Harassment, Intimidation, and Bullying (HIB) Investigations

This table shows, by the nature of the incident, the number of alleged and confirmed Harassment, Intimidation, and Bulling (HIB) investigations. The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

HIB Nature (Protected Category)	HIB Alleged	HIB Confirmed	Total HIB Investigations
Race	3	0	3
Religion	0	0	0
Ancestry	1	0	1
Gender	0	0	0
Sexual Orientation	0	0	0
Disability	0	0	0
Other	0	0	0
No Identified Nature	0		0

#### **Police Notifications**

This table shows, by incident type, the number of cases where an incident led to police notification.

Incident Type	Incidents Reported to Police		
Violence	0		
Weapons	0		
Vandalism	0		
Substances	0		
Harassment, Intimidation, Bullying (HIB)	0		
Other Incidents Leading to Removal	0		

#### Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

Removal Type	Number of Students	Percent of Students	
In-School Suspensions	*	*	
Out-of-School Suspensions	*	*	
Any Suspension	*	*	
Removal to other education program	0	0.0%

### **School Day**

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School		
Typical Start Time	8:30 AM		
Typical End Time	3:15 PM		
Length of School Day	6 Hrs 45 Mins		
Full Time - Instructional Time	5 Hrs 51 Mins		
Shared Time - Instructional Time	5 Hrs. 51 Mins.		

#### **Device Ratios**

This table shows the student to device ratio, which is the number of students in tested grades 3 through 10 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3 through 10. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

### Key terms for staff data:

Faculty: All classroom teachers and educational support services personnel (such as Librarians, Nurses, Counselors, and Child Study Team members)

Teachers: All classroom teachers

Administrators: Principals, assistant principals, supervisors, coordinators, directors, and other central-office administrators, as well as superintendents and other district-level administrators

### Teachers and Administrators - Level of Education

This chart shows the highest level of education attained by teachers and administrators. The Bachelor's category may include other degrees/certificates such as a Specialist's degree. Administrators are required to have a Master's degree or higher.

## Teachers and Administrators - One-Year Retention (District Level)

This table shows the percentage of teachers and administrators assigned to this district in 2017-18 that were still assigned to this district in 2018-19. Staff who were not retained may have changed districts or no longer work for the state (including retirements).

Job Type	District	State

2017-18 Administrators: Same district 2018-19	80.0%	87.9%

### **Faculty Attendance**

This table shows the percentage of days that faculty members were present during the school year. Approved professional days, personal days, staff training days, bereavement days, jury duty, and absences due to extended illness are not counted against days present, and faculty members on long-term leave or disability are excluded from this calculation.

## Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

For more information regarding this table please refer to the guidance for school level reporting, which is available on the NJDOE webpage ESSA School Level Reporting Information. More in-depth information about district and charter school spending can be found in the User Friendly Budget and the Comprehensive Annual Financial Report (CAFR) and Auditor Management Reports (AMRs).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

Link to District Summary of 2018-19 School-Level Per Pupil Expenditures by Source.

An option to download all school-level summaries by district in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA).

Every three years (last identification in 2019, next identification in 2022), NJDOE will identify schools in the following three federal categories:

Comprehensive Support and Improvement - Overall Low Performing: Schools with a summative score in the bottom 5% of Title I schools.

Comprehensive Support and Improvement - Low Graduation Rate: High schools with a four-year graduation rate of 67% or less

Targeted Support and Improvement - Low Performing Student Group: Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools

Annually, NJDOE will identify schools in the following federal category:

**Targeted Support and Improvement - Consistently Underperforming Student Group**: Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these <u>accountability resources</u>.

## **ESSA Accountability Status**

The table below provides the school's federal school status for the 2020-21 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support.

Status for 2020-21 School Year	Not in Status
Category of Identification	n/a
Year Eligible to Exit Status	n/a
Student Group Status: White	
Student Group Status: Hispanic	
Student Group Status: Black or African American

Student Group Status: American Indian or Alaska Native	
Student Group Status: Two or More Races	
Student Group Status: Economically Disadvantaged Students	
Student Group Status: Students with Disabilities	
Student Group Status: English Learners	

<sup>†</sup> This flag is used if a school is identified for Comprehensive Support and Improvement, but one or more student groups met criteria for Targeted Support and Improvement.

## **ESSA Accountability Progress**

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency represent the percentage of students that met or exceeded expectations on statewide assessments (NJSLA/PARCC or DLM). ELA and Math Growth represent the median student growth percentile. Four- and five-year graduation rates represent the adjusted cohort graduation rates. Progress toward English Language Proficiency, which was first available in 2017-18, shows the percentage of English Learners that demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Chronic absenteeism represents the percentage of students that were absent for 10% or more of the days enrolled during the school year.

ESSA Acountability Indicator	2016-17	2017-18	2018-19
ELA Proficiency	85.1%	86.3%	85.9%
Math Proficiency	78.0%	78.7%	76.5%

## Accountability Indicator Scores and Summative Ratings - 2018-19 School Year

New Jersey developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement every three years. During the three-year federal status period, schools receive additional resources and support. NJDOE will next identify schools for Comprehensive Support and Improvement in 2022.

This year accountability indicator scores and summative ratings are not used to identify schools for Comprehensive Support and Improvement, so these data are not included in the School Performance Reports. Review the previous two pages to see a school's current status, in the ESSA Accountability Status table, and to monitor a school's school progress on each accountability indicator over the last three years using the new ESSA Accountability Progress table.

## Accountability Summary by Student Group - 2018-19 School Year

This table shows whether student groups in this school met annual ESSA accountability targets and standards for each indicator. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16 or the first year data was available. The standard for student growth is a median student growth percentile of 40-59.5. The target for chronic absenteeism is the statewide chronic absenteeism rate based on students enrolled in the grades served by the school. For more details on accountability targets, see these accountability resources.

The accountability system will not be used to identify schools for Targeted Support and Improvement – Low Performing Student Group for 2018-19, so student group summative scores are not included in this table this year.

Literacy and numeracy are developed through an interdisciplinary approach in a joyful, collaborative, and social environment. Elementary classes are self-contained and Middle School classes are departmentalized with extended periods for core disciplines built into the weekly schedule. The core curriculum is standards-based and instructional approaches are influenced by student age and developmental stage and are grounded in effectiveness research. Students are offered various supports for homework during and after school hours. STEAM enrichment is offered in the elementary grades through flexible grouping in math classes, Genius Hour and Aquaponics instruction in Grades 3-5. Junior Great Books, based on the study of the classics and universal themes, is facilitated through shared inquiry and Socratic Seminars with high-achieving ELA students in Grades 3-5. Academic support is provided as part of a Response to Intervention model in ELA and Mathematics.

Sports and Athletics:

Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Cross Country (Coed), Field Hockey (Girls), Soccer (Boys & Girls), Softball (Girls), Tennis (Coed), Track and Field - Spring (Coed), Wrestling (Coed)

The Cranbury School District offers eleven different sports and is a member of the Tri-County Conference. We have a "no cut" policy for at least one sport for each season, so that all students have an opportunity to participate in athletics. Our focus is on developing sportsmanship, leadership skills, and an appreciation for the foundational skills, rules, and strategies necessary to be competitive in high school. In 2018, our Girls' Field Hockey team was undefeated with a record of 10 wins and no losses. Moreover, the team did not have a single goal scored against them!

Clubs and Activities:

Cranbury School offers an extensive array of clubs and activities: MathCounts Team, Christian Brothers Academy Math Team, Mathematical Olympiad competition, Continental Math League competition, AMC 8 and 10 math competitions, New Jersey Math League competition, National Current Events League, District Spelling Bee, National Geographic Geography Bee, Dance Club, Art Club, Drama Club, Empowering Young Writers Club, Debate Club, Peer Leaders, Wingman Program, Student Council, Perspective and Equity in Action (PEAC) Club, National History Day, K-8 Odyssey of the Mind, Advanced Choir, Kindness Club, Concert Band, Jazz Band, Jazz Ensemble, Acapella, Colonial Band, Viking Band, Cadet Band, Choir, Voice Lessons, Science Olympiad, Garden Club, National Scholastic Art and Writing Awards program and Le Grand Concours competition.

Before and After School Programs:

The District provides before- and after-school supplemental support programs in the areas of English Language Arts and mathematics. Select students in Grades three through eight are eligible to participate in Homework Room, which is offered after-school hours. The District also offers before- and after-school care through a third-party provider.

Staff and Professional Learning:

Our belief is that our teachers should be involved in every facet of current educational policy, developing our vision for change, and articulating a response to needs that arise through collaboration, Professional Learning Communities and committee. Our teachers work collaboratively with administrators to spearhead new curriculum development, refine policy, recommend new materials and resources, evaluate the need for innovative technology upgrades, and participate in all levels of student support services.

Cranbury School utilizes the tiered instruction and intervention framework Response to Instruction and Intervention. This model ensures high levels of student learning and achievement through the lens of learning as a continuum, where most needs are met through the high quality, standards-based, research-centered instructional strategies and materials of the general education program. Some student needs are found on each end of the learning continuum, requiring additional enrichment, academic support, or both. Student interventions and enrichment supports are based upon individual student needs and substantiated by student performance data. Students identified as "twice-exceptional" may have learning disabilities that mask their giftedness. We actively identify their special learning needs as well as areas of talent and develop both sides of the continuum.

Student Health and Wellness:

Cranbury School provides Self Awareness Management education for students and staff members. Elementary students participate in mindful movement activities with our school counselor in the general education classroom. This approach is based on five elements, which include activities and tools that benefit our children not only in the classroom, but also in all aspects of life. The Responsive Classroom and Developmental Designs approach for our Kindergarten through eighth grade students respectively also promote a sense of community, connectedness, and well-being. Our Wellness and Sustainability Council meets monthly to discuss ways to enhance sustainable efforts in our school. The District received a Bronze Award from Sustainable New Jersey.

Parent and Community Involvement:

The Board of Education, parents, community, and staff are integral to the success of Cranbury School students. The PTO sponsors teacher mini-grants, motivational speakers and Artist in Residence programs. The Cranbury Education Foundation supports capital projects, community events, and sustainability efforts. The Cranbury Arts Council provides STEAM workshops for students during the summer months. The Municipal Alliance funds assemblies on social media and mental health awareness for student and parent audiences and funds "chat groups" for students. The Women's Club, Municipal Alliance and Environmental Commission sponsor annual awards for graduates. Annually, our Student Council and Kindness Club select a charity of their choice as their capstone project. Through our Garden Club activities and sustainability efforts, local food banks are provided fresh produce. Moreover, our school partners with local charitable organizations through food drives and clothing donations.

School Safety:

Students have numerous opportunities to help maintain a safe school environment through peer leadership, peer mediation, buddy classes, character education and diversity programs. Both Positive Behavioral Support and the Responsive Classroom models foster an inclusive, preventative and interactive approach. All students are expected to be RESPECTFUL, RESPONSIBLE and READY to learn each day. These school-wide expectations promote a safe and secure learning environment. Students are expected to follow the specific guidelines established for each class and area of the school, thereby creating a common language throughout the grades. These guidelines ensure a safe, orderly and cooperative environment and to foster good citizenship and self-discipline. The Board of Education contracted with an outside provider to conduct a comprehensive audit of the District's security processes and procedures in order to make recommendations for improvement and secure grant funding where possible.

Technology and STEM:

Students in Grades K-2 develop the use of digital tools for word processing, organizing information and creating original work while navigating virtual worlds. Students in Grades 3-5 develop keyboarding skills and explore computational thinking and programming through basic, visual programming language and make use of Google tools across the curriculum. Students in Grades 6-7 participate in a Research Technology course focusing on digital citizenship, media literacy and communication. Our K-8 Industrial Arts program provides a progressive and fully integrated STEAM approach, culminating in students' exploration of engineering, technology and robotics in Grade 8. The Cranbury Education Foundation purchased 3-D printers for student use in Industrial Arts, Visual Arts and enrichment. Middle school students can choose to participate in Technology Club, where they assist their peers and teachers with basic troubleshooting and use of technology equipment. Programming clubs are also offered.
