Tuesday PM

Release ~~on and after May 7, 1937~~

Copy of letter sent to members of Financial Assistance Commission.

SUBJECT: FINAL RESULTS FOR LAST HALF 1936

We have completed and attach hereto a report of the Direct Relief cost in the various municipalities throughout the State covering period July 1 to December 31, 1936, inclusive.

Our report was compiled from reports submitted by 432 municipalities. Of these, 371 are eligible under our formula for State aid. 61 municipalities had relief costs below the amount fixed as their municipal share or contribution, indicating that the taxpayers of these municipalities will pay through their tax rate less for relief than the taxpayers of municipalities receiving State aid. In addition there were 132 municipalities who filed no reports, indicating no desire for State aid but more generally, ineligibility under our formula.

Complete reimbursement of commitments covered by this report have not necessarily been completed. The amounts indicate the total commitments, municipal shares and State shares. Among those eligible to participate, some will not make claim and when final payments are made, there will probably be a cash balance in our funds exceeding \$25,000.

On the two pages covering the State summary by counties, two sets of figures usually appear for each county. The first set indicates figures for municipalities eligible to participate and the second set of figures followed by the asterisk (*) indicates municipalities not eligible; e. g., in Atlantic County, the sum of \$ 818.00 covers a municipality where the relief cost was less than the amount calculated as their municipal share.

Following the State summary sheet are county sheets listing the various municipalities and showing the amount of the relief cost, (commitments) the municipal share and the State share. Various key letters identify varying statuses. The county sheets, in addition, show the grades of the municipalities, their 1936 ratables and relief costs, municipal shares and State shares expressed in millage as related to ratables.

The final revision produced municipal shares expressed in mills as follows:

<u>Grade</u>	<u>Mills</u>
"A"	.206
"B"	.181
"C"	.149
"D"	.116
"E"	.100

It will be noted on the county sheets where the municipal share expressed in mills is less than the millage applicable to the municipal grade (as in the above table) that the municipality carried the complete cost of relief at less cost to its taxpayers than if the municipality had received State reimbursement. Before reimbursement can be made, the municipalities must first contribute, according to grade, the millage shown above, calculated on its ratables.

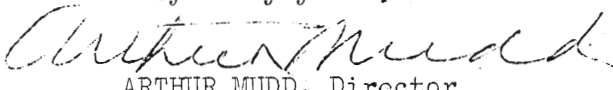

For example, in Ventnor City in Atlantic County, the relief cost amounted to only .047 mills as compared with .116 mills, the usual contribution for a "D" municipality. In Oradell Borough in Bergen county, the total relief cost represented .131 mills as compared with .149 mills, the usual contribution for a "C" grade municipality.

The third column from the right on the county sheets show relief costs (excluding administration) expressed in mills. The figures shown in these columns are striking illustrations of the irregularity in the distribution of relief throughout the State. In Atlantic County, for example, the variance (for participating municipalities) is from .195 mills to 6.51 mills. Burlington County shows a variation for participating municipalities from .24 mills to 7.685 mills. Camden County from .12 mills to 9.505 mills (Camden City - 2.844 mills). Essex County from .21 mills to 2.513 mills (Nowark - 2.113 mills). Hudson County from .167 mills to 2.515 mills (Jersey City - 1.121 mills). Please note variations in other counties.

Substantially, the same variation follows with regard to the State share expressed in mills, except as modified by the difference in millage assigned to the various municipal grades.

This report represents a considerable amount of labor and it is hoped that it will not be filed without a reading.

Very truly yours,

ARTHUR MUDD, Director
State Financial Assistance Commission
