Steps for employers to participate in Pathways to Recovery

- 1 [Complete Qualtrics Form](#)
- 2 Connect with the [Grantee of your county](#)

- 3 Watch the [training videos](#)
- 4 Share declaration of commitment to become a Recovery and Trauma Informed Workplace with your organization
- 5 Receive designation from DOL (Logo cling for door, logo for website)
- 6 Recommended: continue your learning by taking a [free Naloxone training](#)

Within the last year, approximately 46.3 million individuals aged 12 or older qualified as having a substance use disorder, with 24 million of them classified as having a drug use disorder.

—SAMHSA

About P2R

Launched in 2019 by Governor Murphy and supported by the New Jersey Department of Labor & Workforce Development, New Jersey's Pathways to Recovery initiative provides employment assistance to those impacted by opioids both directly and indirectly. The program offers training and supportive services to impacted individuals.

Mission

Pathways to Recovery provides opioid-impacted populations with the opportunity to learn and practice the skills necessary to be successful in the labor force. These efforts assist communities across New Jersey to strengthen services and promote recovery through employment.
