STATE OF NEW JERSEY
GENERAL ASSEMBLY

TUESDAY, January 11, 1955.

The Clerk, Mr. William T. Ludlum, called to order the One Hundred and Seventy-ninth Session of the General Assembly of the State Legislature at noon (12:00 o'clock), Tuesday, January 11, 1955, and read the following call:

This being the second Tuesday of January, the time fixed for the beginning of the legislative year, and by virtue of the authority vested in me as Clerk of the One Hundred and Seventy-eighth Session, the General Assembly of the State of New Jersey is now called to order to effect the organization for the conduct of its business for the One Hundred and Seventy-ninth session.

Prayer was offered by Rabbi Martin N. Weitz of Beth Israel Synagogue of Atlantic City.

The National Anthem was sung by Mrs. Laura R. Hutchinson of Trenton, accompanied by Mrs. Esther Daniels.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Bowser, Brady, Crabiel, Crane, Deamer, Del Tufo, Dwyer, Field, Franklin, Gant, Glenn, Gray, Haines, Hauser, Hughes, Hyland, Jamieson, Junda, Kay, Knoblauch, Kraus, Krawczyk, Kurtz, Lassans, Lazzio, Maebert, Marryatt, Metzger, Mills, Mintz, Mosch, Musto, Newton, Ozzard, Perfette, Ritter, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Stepacoff, Stewart, Thomas, Vanderbilt, W. R., Vervaet, Waddington, Werner—55.

Absent—

Messrs. Farrell, Meloni, Murphy, Vanderbilt—4.

2 MINUTES OF THE GENERAL ASSEMBLY

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Honorable Elden Mills administer the oath of office to the Speaker and other officers when they are elected.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the General Assembly do now proceed to the election of a Speaker for the One Hundred and Seventy-ninth Session of the General Assembly of the State of New Jersey.

The Clerk announced nominations for Speaker were in order and recognized Mr. Glenn of Atlantic County.

Mr. Glenn nominated Honorable Paul Salsburg, Assemblyman from Atlantic County, to be the Speaker of the One Hundred and Seventy-ninth Session of the General Assembly.

The Clerk recognized the following in turn, who seconded the nomination of Mr. Salsburg:

Messrs. Barnes of Essex County, Beadleston of Monmouth County (also speaking for the small counties), Musto of Hudson County, and Hauser of Hudson County, Lassans of Essex County, Field of Bergen County, Hyland of Camden County, Smith of Passaic County, Thomas of Union County, and Mrs. Savage of Ocean County.

Mr. Barnes moved that nominations for Speaker be closed.

Which motion was adopted.

The vote for Mr. Salsburg as Speaker was as follows:

In the affirmative—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Bowser, Brady, Crabiell, Crane, Deamer, Del Tufo, Dwyer, Farrell, Field, Franklin, Gant, Glenn, Gray, Haines, Hauser, Hughes, Hyland, Jamieson, Junda, Kay, Knoblauch, Kraus, Krawczyk, Kurtz, Lassans, Lazzio, Maebert, Marryatt, Meloni, Metzger, Mills, Mintz, Mosch, Müsto, Newton, Ozzard, Perfette, Ritter, Ruther-

furd, Savage, Savino, Silver, Smith, Stepacoff, Stewart, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet, Waddington, Werner—57.

In the negative—None.

The Clerk asked the following: Messrs. Glenn, Beadleston, Vanderbilt, R. A., and Musto to escort the Speaker to the Bar of the General Assembly, where the oath of office was administered by Mr. Mills of Morris County.

The committee then escorted the newly elected Speaker to the Rostum where he delivered the following address: *Members of the General Assembly and Friends:*

Today marks the opening of the 179th Session of the Legislature of the State of New Jersey.

As Members of the General Assembly, you have selected me as your Speaker for this session. I am completely aware of the honor that you have bestowed upon me and for this honor I am deeply grateful. I am fully conscious of the responsibilities which will be mine. It is, I assure you, with profound humility that I approach the duties which lie ahead.

I pledge to you my sincere co-operation in the common task which is ours. With Divine Guidance, may I ever be forthright in action, impartial and fair in judgment and exercise my trust with abiding consideration of each of your legislative problems.

It will be our duty to meet fearlessly each problem as it arises and I am certain that the wisdom and energy of the membership of this house will be devoted to the task that confronts us.

To all my neighbors and fellow citizens of my home county of Atlantic, who have continued me for a period of 8 years as a member of this great General Assembly, I extend my most grateful appreciation.

Over the years it has been my firm conviction that the prime objective of free government must be the protection of its citizens and the promotion of their general welfare. To all of the people of the State of New Jersey, I pledge my firm adherence to that principle in every endeavor which I undertake in the execution of the functions of this office.

I believe in a modern, progressive form of government which deals fairly with all the rights of our citizens, whether they be human rights or property rights. We must guard jealously those rights and privileges which we have come to know as our sacred bill of rights—those rights which are firmly embedded as fundamental principles in our Constitution.

As to property rights, we, the 179th Legislature of the State of New Jersey, must go forward, retaining that which experience has proven of value in the past and changing those things where new conditions require new solutions.

It will be my purpose to conduct the office of Speaker with absolute impartiality and most certainly without discrimination or partisanship.

Every member will be given the fullest opportunity of presenting his views on any and all measures before this house. Only through full and free debate, with honest difference of opinion which must be respected, can new ideas be tested in the light of experience and present conditions.

This house is one of the great divisions in the system of American Democracy. It is a deliberative body in which all shades of opinion must and will be heard. The orderly conduct of administration, necessarily presupposes that the will of the majority shall at all times prevail.

During this session we will be faced with many serious problems. One of which I feel must be solved is the water situation. It is of paramount importance to industry, to the welfare of our 5,000,000 people and to our growth as a State. Other matters involving many diversified subjects will confront us in the future as they have in the past. We must meet the challenge with great courage and fortitude. What we give forth in effort comes back to us in character. The alchemy is inevitable.

It is my fervent hope that this session will be distinguished by its record of achievement—that good judgment and sound reasoning shall at all times prevail in guiding our course. They must be our chart and compass.

Again I wish to thank the members of this house for choosing me as your Speaker. With your co-operation, which I know I will receive, we must labor untiringly for those who have placed their faith in us.

With firmness in the right, as God gives us to see the right, let us strive on together to solve the problems which will be ours to consider, to the end that we may bring greater happiness to the people of our State and to all of posterity. Thank you.

The Speaker presented Benjamin A. Rimm, of Atlantic County as his Secretary.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the General Assembly do now proceed to the election of a Clerk of the One Hundred and Seventy-ninth Session of the General Assembly of the State of New Jersey.

The Speaker recognized Mr. Field, of Bergen, who nominated Mr. William T. Ludlum, of Bergen County, as Clerk of the General Assembly. Which was seconded by Messrs. Thomas, of Union County; Smith, of Passaic County; Haines, of Burlington County (speaking also for the small counties), and Hyland, of Camden County.

Mr. Barnes moved that nominations for Clerk be closed.

Which motion was adopted.

The vote for Mr. Ludlum for Clerk was as follows:

In the affirmative—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Bowser, Brady, Crabel, Crane, Deamer, Del Tufo, Dwyer, Farrell, Field, Franklin, Gant, Glenn, Gray, Haines, Hauser, Hughes, Hyland, Jamieson, Junda, Kay, Kraus, Krawczyk, Kurtz, Lassans, Lazzio, Maebert, Marryatt, Meloni, Metzger, Mills, Mintz, Mosch, Musto, Newton, Ozzard, Perfette, Ritter, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Stepacoff, Stewart, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet, Waddington, Werner
—57.

In the negative—None.

The Speaker declared Mr. Ludlum elected.

Mr. Mills, of Morris County, administered the oath of office to Mr. Ludlum.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Speaker appoint forthwith a committee of seven to wait upon the Governor and inform him that the General Assembly has organized by the election of the Honorable Paul M. Salsburg, of Atlantic County, as Speaker, and of William T. Ludlum as the Clerk of the One Hundred and Seventy-ninth Session of the General Assembly of New Jersey, and is now ready to proceed to business.

Whereupon the Speaker appointed the following committee to wait upon the Governor:

Messrs. Haines of Burlington County, Smith of Passaic County, Beadleston of Monmouth County, Savage of Ocean County, Mosch of Essex County, Jamieson of Warren County, and Gray of Mercer County.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized by the election of the Honorable Paul M. Salsburg, of Atlantic County, as Speaker, and William T. Ludlum as Clerk of the One Hundred and Seventy-ninth Session, and has proceeded to business.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the General Assembly proceed to fill the remaining several offices of the General Assembly, and the nominations be made and a vote taken for all of the offices at one and the same time.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

To the Attorney General, 10 copies.

To the Law Revision and Legislative Services, 15 copies.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the "Official Manual for Use in Drafting Legislation for Introduction in the New Jersey Legislature," prepared and published by the Law Revision and Legislative Services, be adopted as the official manual of practice and procedure of the General Assembly governing the form of bills to be introduced in the General Assembly and governing the conduct of the preliminary examination of bills proposed for introduction in the General Assembly required by the Rules of the General Assembly; and

Further Resolved, That in order to carry out said practice and procedure, Charles DeF. Besoré and William M. Lanning be designated as Counsel to the Committee on Revision and Amendment of the Laws of the General Assembly and that the duties of such Counsel shall be to conduct said preliminary examination of bills proposed for introduction in the General Assembly under the general supervision of the chairman of said committee and through the Division of Law Revision and Bill Drafting of the Law Revision and Legislative Services pursuant to law.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the Clerk of the General Assembly be authorized to prepare the index of the Minutes of the Assembly in the same manner as for the 1954 session, and that he be paid six hundred dollars (\$600.00) as compensation for his services in preparing the same.

Mr. Del Tufo offered the following concurrent resolution, which was read by the Clerk:

A concurrent resolution to provide for the purchase and distribution of the Revised Statutes and Cumulative Sup-

plements to the Revised Statutes of New Jersey by the Senate and General Assembly.

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The following volumes shall be purchased and distributed to each member of the Senate and General Assembly such of the following as such member has not already received by distribution of the State, that is to say:

One complete set of the Revised Statutes (including volumes 4 and 5);

One volume, Revised Statutes Cumulative Supplement, 1938 to 1940;

One volume, Revised Statutes Cumulative Supplement, 1941 to 1944;

One volume, Revised Statutes Cumulative Supplement, 1945 to 1947;

One volume, Revised Statutes Cumulative Supplement, 1948 to 1950;

One volume, Revised Statutes Cumulative Supplement, 1951 and 1952;

One volume, Revised Statutes Cumulative Supplement, 1953 and 1954;

One volume, Titles 2A and 3A, New Jersey Statutes as revised in 1951, including 1954 pocket part;

and that payment therefor on the basis of \$15.00 per copy for each volume of the Cumulative Supplements, and \$10.00 for each volume of the New Jersey Statutes, for the account of, the Senate or General Assembly, respectively, be referred to the sub-committee on Incidental Expenses of that house and when approved by said committee, said approval to be indicated by the signature of its chairman, and of the Secretary of the Senate or Clerk of the General Assembly, respectively, as an expense of said house, the said bills shall be forwarded to the Director of the Division of Budget and Accounting in the Department of the Treasury.

Mr. Del Tufo moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Mr. Barnes offered the following concurrent resolution, which was read by the Clerk:

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That the Legislative Index be purchased for the use of the members of the Senate and the General Assembly, and for such other persons as the President of the Senate and the Speaker of the General Assembly shall designate, one copy of each issue to be mailed to the local address of each member of the Senate and the General Assembly, and to each officer or other person designated to receive the same, and in addition thereto one copy of each issue shall be delivered at the State House for each member of the Senate and General Assembly and for each other person designated to receive the same; that the publisher of the Legislative Index shall from time to time furnish such special proofs of the Legislative Index as may be ordered by the chairman of the Committee on Incidental Expenses in either the Senate or the General Assembly; that payment for the Legislative Index and special proofs shall be at the rate of thirty dollars (\$30.00) for each subscription for a period not to exceed ten weeks and two dollars and fifty cents (\$2.50) per copy furnished thereafter, bills for services received to be submitted at the end of each five weeks; and that statements of expenses for the Legislative Index and special proofs be referred to the Committee on Incidental Expenses of the Senate and the General Assembly, respectively, and when approved by said committee said approval shall be indicated by the signature of the chairman of the Senate Committee on Incidental Expenses for an expense of the Senate, and the chairman of the General Assembly Committee on Incidental Expenses for an expense of the General Assembly, together with the signature of the Secretary of the Senate and the Clerk of the General Assembly respectively, and said bills, when approved, shall be forwarded to the Department of the Treasury for payment.

Mr. Barnes moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Mr. Barnes offered the following concurrent resolution, which was read by the Clerk:

A Concurrent Resolution to provide for subscriptions to the 1955 Current Service New Jersey Legislation with binders by the Senate and General Assembly.

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The Current Service New Jersey Legislation for 1955 be subscribed to, including appropriate binders for the same in new subscriptions for the use of the members of the Senate and General Assembly and for such officers of the Senate and General Assembly and for such other persons as the President of the Senate and the Speaker of the General Assembly shall respectively designate, the same to be mailed to the local address of each member of the Senate and General Assembly and to the local address of each such officer or other person so designated to receive the same, as shall be furnished by the President of the Senate or Speaker of the General Assembly, respectively, and that payment for each such subscription be made at the rate of thirty dollars (\$30.00) and that statement of the expense for the subscriptions and binders furnished to the members and officers of, and to such other persons for the account of, the Senate or General Assembly, respectively, be referred to the Committee on Incidental Expenses of that house and when approved by said committee, said approval to be indicated by the signature of its chairman, and of the Secretary of the Senate or Clerk of the General Assembly, respectively, as an expense of said house, the said bills shall be forwarded to the Director of the Division of Budget and Accounting in the Department of the Treasury.

Mr. Barnes moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Mr. Barnes moved that the General Assembly recess for 10 minutes.

Which motion was adopted.

The General Assembly reconvened at 1:30 o'clock P. M.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Brady, Crabel, Deamer, Del Tufo, Dwyer, Farrell, Field, Gant, Glenn, Gray, Haines, Hauser, Hughes, Hyland, Jamieson, Junda, Kay, Knoblauch, Kraus, Krawczyk, Kurtz, Lassans, Lazzio, Marryatt, Meloni, Metzger, Mills, Mintz, Mosch, Murphy, Musto, Newton, Perfette, Ritter, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Stepacoff, Stewart, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet, Waddington, Werner—54.

Absent—

Messrs. Bowser, Crane, Franklin, Ozzard, Maebert—5.

The Clerk declared a quorum present.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

	STATE OF NEW JERSEY,	}
	SENATE CHAMBER,	
	January 11, 1955.	

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following concurrent resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 1:30 o'clock P. M., both houses of the Legislature meet in joint session for the purpose of receiving the annual message of His Excellency Robert B. Meyner, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,
Secretary of the Senate.

The Senate message was then taken up, and

Mr. Barnes moved that the General Assembly concur in the Senate concurrent resolution.

Which motion was adopted.

The Speaker declared the Senate concurrent resolution concurred in.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker appoint two members of the General Assembly to escort the Governor to the Joint Session.

Whereupon the Speaker appointed Mr. Mills of Morris County and Mr. Hauser of Hudson County to escort the Governor to the Joint Session.

Mr. Barnes moved that the General Assembly recess for the purpose of Joint Session to hear the Governor's Annual Message.

Which motion was adopted.

GOVERNOR'S MESSAGE

January 11, 1955

*Mr. President, Mr. Speaker and Members of the Senate
and General Assembly:*

In preparing this message, I found myself in the same dilemma that every Governor has to face: Should a legislative message reflect in broad terms a philosophy of government, or should it be a mere catalogue of proposed legislation?

I have tried to resolve this dilemma by sketching the philosophical framework in which I have set out to fulfill my responsibilities; but also by pointing to specific issues that I have discussed with members of the executive family.

Government in democracy must have both heart and head. Without heart, government cannot be warm, human, sensitive to the people's wants and needs. With head alone, government can be efficient—cold-bloodedly so. We don't want that, nor do we want a type of government given over to emotional excesses.

But with head and heart in proper balance, government can be effective and realistic without being cold—and it can be responsive to human needs without being irresponsible or profligate.

In examining the messages of my predecessors, I have often been struck by the continuing nature of the problems of our State; they never yield to final settlement, yet they must be attacked again and again as conditions change. In government, as in other phases of life, nothing is ever finished. I am reminded of the words of Woodrow Wilson:

“All through the centuries, there has been this slow, painful struggle forward, forward, up, up, a little at a time, along the entire incline, the interminable way. What difference does it make if we do not reach the uplands? We have given our lives to the enterprise, and that is richer and the moral is greater.”

From time to time, in this evolutionary process, it is well for man to pause a moment—to look backward at what has been done and then to look forward to plan the next stages of the journey. This I have tried to do in the message you are about to hear.

A year ago, the State was deeply troubled by charges that big time criminals and racketeers had been operating in connivance with public officials. Bergen County was a focal point. We promised action.

In Bergen, a special deputy with a number of assistants reorganized the prosecutor's office and made a frontal attack on a long list of pending indictments with fruitful results. Today, the prosecutor's office is in control of a resident official, so that the people of Bergen County can now feel that law enforcement is in competent and honorable hands. The county's problems in this regard are being handled promptly and effectively, in accord with high standards of morality. Elsewhere in the State, we have been vigilant to prevent organized crime from taking root.

As we promised last year, the State is being represented by an able legal staff in the office of the Attorney General. Practically the entire staff of approximately 38 lawyers is devoting full time to agency hearings, trials, appellate litigation and in rendering legal advice, including the preparation of formal and memorandum opinions, to all departments of State government.

I pledged during my campaign that I would do everything possible to insure the citizens of New Jersey that they would have the highest standards possible in enforcing the laws of the State. We know that criminals, hoodlums and racketeers are not restricted by the boundaries of any single county.

CRIMINAL INVESTIGATION SECTION

Therefore, a criminal investigation section has been newly organized in the Division of Law to specialize in state-wide investigations and to coordinate and supplement the activities of the many prosecutors. This means that all complaints will be carefully investigated and that the investigation section, with the cooperation of the prosecutors, will have full control of the law enforcement neces-

sary. If demanded, the Attorney General may act on his own initiative.

The Attorney General's Office has rendered expert service in the investigation of the Division of Employment Security of the Department of Labor and Industry. It has maintained high standards of service in the State Police, and in the Motor Vehicle and Alcoholic Beverage Control Divisions. It has effectively coordinated law enforcement by the state and county and local authorities.

Your chief executive, his cabinet members and teams of division and bureau heads, as well as many able state employees, have given increasingly of their time to meet with groups throughout the state to explain our state government program, to assist in the handling of local problems, and to learn the thinking of our people at first hand.

The theses upon which the executive department has sought to work are these:

(1) Legislative mandates should be broad in scope, allowing administrative discretion and implementation;

(2) able administrators should arrive at decisions impartially, on the basis of facts available to them;

(3) remedies for the solution of administrative problems should be sought within the department or between departments before resort is had to the Legislature;

(4) the services of the executive branch are and will be available to all equally.

IMPROVEMENT OF ADMINISTRATION

Within the existing framework of our Constitution and statutes, much has been done (1) to eliminate overlapping functions and to prevent duplications; (2) to reassign functions to those departments most competent to deal with them; and (3) to coordinate, as between departments, or to seek joint action on vital programs which defy treatment by compartmentation. An example is the attack upon juvenile delinquency by the Judiciary, the Departments of Law and Public Safety, Education, and Institutions and Agencies. Another example is a committee of six departments—Health, Education, Conservation and Economic Development, Law and Public Safety, Labor and Industry, Institutions and Agencies—to attack the housing problem.

In the task of making government work through an efficient executive department, we have been ably assisted by the cooperation of the Legislature and the Judiciary.

The conference on each legislative day with the President, Majority and Minority leaders of the Senate, the Speaker, Majority and Minority leaders of the Assembly, my personal counsel and myself, has done much to expedite the executive department's program and to fit the legislative program into effective administration.

Frequent conferences with the Chief Justice and occasional conferences with the entire Supreme Court have done much to coordinate the activities of the executive and judicial branches of our State government. They have also brought about further cooperation by the Legislature in matters pertaining to the Judiciary.

The executive department is also indebted to many interested groups which have given of their time and efforts unselfishly to make recommendations for helping to solve our governmental problems. Particularly are we indebted to business groups which have made surveys of several of our key departments and divisions. Eventual adoption of their suggestions should result in economies, as well as more orderly and efficient services to our citizens. I intend to continue to utilize the services of such public-minded individuals whenever I feel that their abilities and experience will benefit our State.

Much has been written and discussed about the conflicts between a Democratic Governor and a Republican Legislature. To you, I can say that much of the comment represents wishful thinking by partisans or headline seekers. The legislative and executive departments have cooperated during the past year and will continue to cooperate in the business of the State. In the coming year, you will find me most anxious to further this cooperation.

The record of the past year refutes the notion that we cannot get along. Though there have been failures, let us look at the solid achievements which were the fruit of joint effort.

STATE AID FOR SCHOOLS

We now have an improved program of state aid for local schools. For years there was a demand for increased state

aid to local school systems and for years the public decried failure of the legislative and executive branches to achieve it.

The new formula is simple and equitable. It provides for a foundation program of education below which no district may go. It assures minimum aid for each district and, at the same time, provides equalization aid based upon a true measure of real estate values. This new aid formula will more than double the State's contribution to the local school districts in its first full year of operation. This aid is exclusive of the State's contribution to the Teachers' Pension and Annuity Fund; Rutgers, the State University of New Jersey; the State Teachers Colleges; and the cost of operation of the administrative services of the Department of Education.

This you and I accomplished. It is of course true that increased taxes were imposed for a two-year period in this connection and the plan is to pay only one and a quarter year's payments of additional aid under the new formula. It must be realized that increased service means increased expenditure, and the increased demands of this new school aid formula may require additional revenue next year.

For years, leading educators and public-spirited groups have stressed the need for a state-wide teachers' salary schedule so that we could provide children in all parts of our state with the best teachers and the finest educational opportunities. This we have accomplished; the bill establishing new minimum salaries and annual increments is now law.

In the past several years many interested groups publicized the neglect of our educational system to provide adequately for the education of handicapped children, including the physically handicapped, but with particular reference to the severely mentally retarded. This past year, after a complete survey was made by the Department of Education, an integrated program for the education of handicapped children was adopted on a State-wide basis. Its success will depend in no small degree on school district cooperation and the administrative efforts of our State Department of Education.

NEED FOR MORE CLASSROOMS

A comprehensive survey of school building construction needs, recently completed by our Department of Education in cooperation with local school districts, indicates clearly that our school districts face a tremendous task to provide necessary additional classrooms and other facilities in the decade ahead of us. Various proposals have been made in the past aimed at assisting those districts which have exceeded their borrowing capacity and others which may face such a problem in the future.

The Tax Policy Commission which presented the report upon which the new State School Aid legislation is based is also considering the question of financing school building construction. Undoubtedly, the bulk of the financing will be done locally, as it always has been. There may be over and above this a need for some State assistance. I suggest that we await the findings of the Tax Policy Commission, and examine federal aid proposals before attempting to seek legislative remedies. Such proposals, I am informed, should be forthcoming within a matter of months.

By constitutional mandate in the 1953 election, the people authorized the Legislature to regulate bingo and games of chance for charitable purposes, on a local option basis. By legislative and executive cooperation, every one of the 567 communities in New Jersey had an opportunity to vote on whether or not bingo and raffles would be permitted in that community.

A MIDDLE COURSE FOR BINGO

Those which voted affirmatively were able to license organizations to engage in the enterprise as early as May, 1954. There will always be those who demand either complete freedom or complete prohibition with respect to gambling for charitable purposes. We have followed and will continue to follow a middle course which will permit realization of the charitable objective under restrictions necessary to protect the public interest. The law is not a perfect one and no doubt some changes have to be studied and effected when proved necessary.

The Supreme Court last year found the New York Port Authority wanting in statutory power to build a third tube, a project upon which millions of dollars had already been

28. MINUTES OF THE GENERAL ASSEMBLY

spent. The decision caused a costly work stoppage. In this emergency, the Legislature and the Executive solved the problem in nine hours.

By cooperative effort, we have taken the first step on a program to attack our air pollution problems within the State. We still must deal with the interstate aspects of the problem.

Again, we cooperated to improve the purchasing practices of the Treasury Department. We consolidated purchasing in the interest of economy and efficiency. We forbade the acceptance by State employees of gifts from persons doing business with the State.

The Department of Education is working on a revision of Title 18 of the Revised Statutes. During the past two years, members of the Department of Education have held many conferences with members of the Bar and school officials to study recommended changes. The Law Revision Division of the Legislative Services Commission is now supervising the rewriting of this Title. The Department of Education is planning to ask the Legislature to consider this revision during the current session.

In the field of labor and industry, a model mine safety law was enacted.

Long standing inequities in the parole system have been eliminated.

These are examples of cooperative effort which has resulted in constructive legislation for all our citizens.

AREAS OF INACTION

There are, of course, vital problems upon which the Legislature has not taken any action. I refer specifically to the failure to meet future water needs for both South and North Jersey, and also to the failure to reorganize our Motor Vehicle Department. The latter has caused delay in our program of issuing licenses by mail through a central office and of consolidating our services of motor vehicle inspection stations, licensing examination locations, point system examination offices and local motor vehicle agencies. Only a full public discussion of the need for rent control resulted in the passage of an extender.

In the main, we have proved that we can work together. We must continue to do so if we are to furnish to our

citizens the services they want and need and deserve in a dynamic and conscientious government. I should like to mention some of the aids by which we can seek effective cooperation between the executive and legislative departments.

You have recently passed and I have signed the bill known as Legislative Services Law, 1954, setting up three divisions:

- (a) Counsel to the Legislature
- (b) Law Revision and Bill Drafting
- (c) Legislative Information and Research.

These are services recognized as necessary for the operation of a modern legislature in its complex tasks.

You have my assurance that all departments will furnish to legislators any information you feel necessary.

Over the years, many surveys have been made of various activities of state government. These data, plus the factual material concerning the operation of any state department, as well as the views of the department, are yours for the asking.

The executive has endeavored to remain close to the people at all times. I know that you are close to your constituents and are often called upon to seek administrative information for them. We are most desirous of assisting you.

On every legislative day, so far as it is possible, department heads will be available at their respective offices to consult with legislators on executive or legislative problems. Conferences at other times will be arranged to suit the convenience of legislators and officials.

It is hoped that the legislative conference between the Governor and legislative leaders heretofore mentioned will continue. A parallel service might well be worked out by having a representative of the personal counsel's office or a department head or representative meet with legislative committees from time to time.

THE CAUCUS—INVISIBLE GOVERNMENT

You know I welcome constructive suggestions from you as to the operation of the executive branch. I trust you will take in the same spirit some suggestions from me as to the operations of the legislative branch.

Governors on occasion have a way of being a bit sanguine in their judgments. In 1952, Governor Driscoll said:

“While I am heartened by the report that the so-called caucus system is to be modified, if not abandoned, a prompt interment of an outmoded practice would appear to be in order.”

It happens that I, too, was overly optimistic. Last year in my inaugural message I said:

“Of its own volition, the Legislature is taking the highly laudable step of abolishing the old caucus system and of breathing life into the committees. It is hoped that the State can look forward to a new era of open debate and continued improvement of the legislative process.”

Yet, in the past year, the caucus system, particularly in the Senate, has shown its potency. A caucus for discussion's sake is desirable. But a caucus which decides that a bill shall not go on the board for vote by the Senate unless eleven of the majority members so desire, even though a majority of the whole house is in favor of it—that's invisible undemocratic government.

The Legislature should seriously consider the establishment of a working schedule. Many states have constitutional limitations setting up sessions of 60 days or the like. There is no doubt that a prescribed period of time in which a legislative program is to be adopted encourages achievement.

I know the Senate's objection to adjourning sine die. It has some trepidation of ad interim appointments. But the cost of not setting a target date for completion of legislation has led to inefficiency, needless rehashing of legislative problems, procrastination and failure to act at all on many important matters.

If the Legislature chooses not to adjourn sine die, it might, nevertheless, set up a procedure by rule to act on all legislation except emergency matters by a prescribed terminal date. This should be an especially attractive program in an election year.

COOPERATION WITH WASHINGTON

Some of my predecessors were rather anxious to ascribe the ills of the State to Federal Government intervention, notwithstanding that many problems are national in scope

and do not yield either to individual state action or joint state action. For instance, Incodel, a joint state plan for conservation of water resources, was scuttled by the refusal of one state to cooperate.

It is interesting to observe, in last week's State of the Union Message, that the President of the United States recognizes the need for Federal action in many fields. He favors Federal aid for more classrooms; new measures to facilitate construction of needed health facilities; strengthened programs to deal with water and air pollution; more public housing; the establishment in the White House of a coordinator of public works; more concern with Federal-state planning; and a 26-billion dollar highway program.

I call these Federal proposals to your attention, with the idea that New Jersey should study them all carefully and make sure that we get our share in each field. We pay out tremendous sums in income taxes and other revenue to the Federal Government; and if we do not take advantage of what Washington offers in return, we are merely subsidizing improvements in other states.

LAW AND PUBLIC SAFETY

We shall continue to utilize every weapon at our command to prevent the State of New Jersey from ever again becoming known as the "haven for the bigtime racketeer," and we shall root out and suppress illegal activities in any field wherever we may find them. If county and local officials fail to perform their duties, or if there is any indication of a breakdown of law enforcement in any area, we shall not hesitate to supersede those who have failed in their obligations.

In order to wage effective and continual war upon crime, it is essential that information be regularly and systematically obtained and compiled with respect to criminal activities. At present, we have no established system of crime reporting in the State. This should be corrected by the establishment of a compulsory system of reporting, embracing the following information:

- A. The volume, location and nature of crime reported by the police departments.
- B. The volume and nature of crime presented to grand juries and the results of all cases

brought to trial, as reported by prosecutors of the county.

- C. The results of cases handled by parole, probation authorities, and institutions.

This recommended system relates solely to information to be compiled within the executive branch of government and is entirely exclusive of those records presently maintained by the judicial branch. Mechanically, the creation of this system of crime reporting would be neither difficult nor expensive.

URGENCY OF CRIME REPORTS

Intelligent law enforcement requires an adequate and complete opportunity to review accurately past and present experience so that, at any given time, those charged with the ultimate responsibility of law enforcement may properly measure the results of their efforts.

I am not unaware of the fact that legislation seeking this end was introduced in 1953. It did not become law. The need was urgent then—it is more urgent now. I wholeheartedly recommend the establishment of an adequate system of compulsory crime reporting centering in the State Police.

In 1927 the New Jersey Security Law was adopted to protect the citizens of New Jersey from fraudulent and unscrupulous operations in connection with the sale or purchase of securities. A careful study of the situation which has grown up during the past several years, convinces me that we must require more strict regulation in this field. This is particularly so since amendments to the Pennsylvania and New York Security Laws, resulting in more exacting regulation, has made it advantageous for unscrupulous securities dealers once again to attempt to “invade” the State of New Jersey.

I, therefore, recommend that legislation be enacted to require registration of dealers, salesmen, solicitors and investment counsellors or advisers in the securities field. The registration fees should be sufficiently high to defray the cost of administration of this law. The Act should be carefully drafted so as not to dishearten or discourage those

legitimate sponsors of new enterprises which desire to establish themselves within the State of New Jersey.

JUVENILE DELINQUENCY

I now turn to the ever-present problem of juvenile delinquency. Upon a state level, we have commissions and committees which are engaged in a study of this situation. Additionally, many public-spirited groups and organizations are giving their attention to this problem. Here and throughout the country, there is a tendency to pass what can be properly termed stopgap legislation.

We are advised to legislate against the publication and distribution of certain "comic" books; to establish curfews; to curb certain types of TV programs; to enforce parental responsibility, both civil and criminal, by statute. In other words, there is a growing tendency to "pass a law" against juvenile delinquency.

I am not prepared at this time to recommend any type of legislation to combat this problem, for the problem itself is so fundamental and so far-reaching that it affords no easy opportunity of solution.

Only a very small percentage of our children can be classed as "juvenile delinquents" and, I suspect, as asserted by a leading psychologist in the field, that their difficulty probably arises from the fabric of our whole society; that we have bred into our children "our fears and insecurities"; that we have foisted upon them "our mistakes and misconceptions"; that perhaps "they are imprisoned by the blunders and delusions of us, their predecessors, and like all prisoners they are mutineers in their hearts."

We should not, in any event, minimize the seriousness of this situation or despair of its solution, but, on the other hand, we should not be unwisely led into the passage of unreasonable or unworkable legislation.

For the time being, a committee of four, representing the Judiciary, the Department of Institutions and Agencies, Department of Law and Public Safety and the Department of Education, is engaged in a study of the problem and in coordinating activities in the handling of juveniles.

It has come to our attention that abuses have arisen within the field of consumer financing, particularly relating

to automobiles and household appliances. I have asked the Department of Banking and Insurance to investigate the need and efficacy of legislation to authorize that department to extend its power of regulation into the field of consumer financing, so as to prevent and control improper practices.

The volume of complaints which I have received with respect to alleged improper practices by cemeteries indicates that a thorough and complete study, looking toward the adoption of proper regulatory statutes, is called for. I recommend that positive action in this field be taken at this session and have asked the Attorney General to confer with such committee as the Legislature may designate to examine into this problem.

MOTOR VEHICLE REFORM

At the present time, the Bureau of Tenement House Supervision and the Bureau of Hotel Fire Safety are within the jurisdiction of the Department of Law and Public Safety. The department is also required to administer the Liquefied Petroleum Act. Although these functions have an aspect of law enforcement, a study indicates that it is advisable to integrate the administration of the Tenement House Law, the Hotel Fire Safety Law and the Liquefied Petroleum Act into the Department of Labor and Industry. There they can be carried out more efficiently and effectively, and probably at less cost.

One of the State's most pressing problems is the need to change our present motor vehicle system. Licensing and registration procedures are antiquated and cause great inconvenience to the people. Many of our inspection stations are improperly located and overloaded—in fact, obsolete. The enactment of legislation to permit mail renewal of drivers' licenses; optional mail renewal of registrations; modernization of the records system in the Central Office of the Motor Vehicle Division; and the eventual complete replacement of the present inspection stations by modern Motor Vehicle buildings throughout the State—such legislation is an urgent necessity. The people of New Jersey already have waited too long.

An evil which has grown up in our complicated society is a particularly ugly and distasteful one. I refer to the way

in which unscrupulous solicitors take advantage of the generosity so characteristic of the American people by obtaining contributions under guise of charity, only to divert all or undue portions of the funds to their own enrichment.

The remedy devised by a vigilant democracy for these smug pickpockets is to bar solicitation of contributions by a charitable organization until appropriate information has been filed and made available to the public. There may also be required periodic reports to the Attorney General or some other State official of amounts raised and spent.

TREASURY

Progress has been made during this past year in raising the standards of ethics and security in the conduct of the State's business, especially in the areas of financial and purchase transactions.

A survey undertaken by able and public spirited experts from the business field, begun for the purpose of improving the operations of the Division of Employment Security, in order to reduce the time which the citizen who is out of work must wait before receiving the benefits which are his due under the law—this survey led to surprising and shocking revelations of the betrayal of public trust.

Even before this, some of the steps which were to prove necessary had already been taken. The new law covering purchases contained a general provision against acceptance of gifts by employees of the Department of the Treasury.

The disclosure that a prominent former State official had represented the State in dealings with a bank of which he was an officer, director and stockholder, brought to light the fact that there was no general recognition of the principle that State employees must refrain from representing the State in transactions in which they may have an interest opposed to that of the State.

Some of the department heads have already issued rulings applicable to their department to prohibit this sort of situation. It seems to me elementary that the State should be safeguarded against the possibility of injury due to an employee having an interest adverse to the State.

We have also found difficulty in installing modern and business-like controls over such everyday things as issuance of checks. I shall have specific recommendations for the establishment of uniform control and responsibility in areas in which the State has a responsibility for the integrity of financial transactions, whether the transactions are on behalf of a department of the State government or of an agency or fund which is not directly under the control of the Treasury.

In this connection I have found diverse and cumbersome procedures under various escheat laws, and I am told that the fees involved in some cases are inequitable. We shall have specific recommendations on this subject.

SOCIAL SECURITY FOR STATE EMPLOYEES

An important step forward was taken in behalf of the financial security of our State and local government employees. The added benefits available through integration of the State's public pension systems with Federal Social Security were obtained by the important legislation setting up the new Public Employees' Retirement System as of the first of January, 1955.

There remain substantial improvements which should be made in various pensions systems in order to achieve greater uniformity of benefits for people in like situations. There is need to place some of the funds which are actuarially unsound on a basis which will provide the reserves necessary to pay for the benefits without inordinate expense at that time to the taxpayers of the State, and to establish uniform procedures and security controls for the administration of the various funds. I shall recommend specific legislation to these ends, and shall explore further with you the desirability of consolidation of certain existing funds.

I favor making Federal social security available to all public employees.

I strongly urge enactment of legislation, which has been suggested also during prior administrations, for the creation of a Division of Public Pensions in the Department of the Treasury. The size of the administrative load alone would justify this, but sound organization also dictates it. The present Bureau of Public Employees' Pensions is

not logically placed in the Division of Investment, a specialized division created and staffed entirely for the purpose of supervising investments and not suited for supervision of the varied activities of the Pension Bureau. The senior State employee with responsibility for pension matters should report directly to the Treasurer.

EQUALIZATION OF ASSESSMENTS

Probably no public problem cries more urgently for solution or has been longer postponed than that of equalization of local tax assessments on real and personal property. The decision of the Supreme Court last Fall in the Baldwin Construction Company case underlines this problem and makes it my duty to call it to your attention.

It is common knowledge throughout the State that real and personal property are assessed with complete disregard of the statutory requirement that they be assessed "at true value." The result of the adoption of varying standards of valuation as between two property owners in one community is obvious and understood by all.

The result of a different average ratio of assessment to true value in different communities is less clearly understood but no less unfair. The result is inequitable sharing of the cost of county government and often of other costs like the maintenance of public schools. The ratio of assessment of land varies from around 12 per cent to around 70 per cent of true value. The variations in assessments of personal property are even greater.

The Baldwin Case indicates the need for legislation to define more clearly the powers and jurisdictions of tax boards to grant relief from discriminatory assessments.

But I believe that a further step is also required, following the excellent example set in the State School Aid Act of 1954. Under this Act, State Aid for Education will be distributed in accordance with a formula involving a determination by the State Director of Taxation of the facts required to equalize real and personal property values used as a factor in fixing amounts distributed as state aid.

I believe that the Legislature should seriously consider giving the State the power, after a reasonable time, to enforce equalization of assessments when the normal processes of home rule, of local assessment and of county and

State Tax Board appeals, have failed to produce true equalization. The Director of Taxation will already be in possession of the necessary facts in connection with his duties in the distribution of the State's School Aid.

In this connection, consideration will have to be given to the effect on municipal debt limits of effective assessment equalization, and it may be that municipalities should be authorized to incur specific indebtedness for the purpose of paying for the necessary re-valuation program.

STATE

The events of the past year serve to accentuate the need of change in our election laws. The last revision of our over-all law was made in 1930. Only nine of our 21 counties use the voting machine. The remainder use paper ballots. Delay in reporting returns and lack of uniformity in the voting process, with consequent public distrust, are the evils consequent upon continued use of the paper ballot.

Ease of registering with safeguards against fraud is a demand to be met. The deadline for filing petitions for office should be the close of the regular business day rather than midnight.

Drawings for ballot positions have a strange way of uniformly giving the preferred first place to the party of the county clerk's persuasion.

The people should have a chance to decide by constitutional amendment whether 18 year olds should be permitted to vote, and on whether the state residence requirement should be reduced from one year to 6 months and the county requirement from 5 months to 40 days. Party designations and slogans have a way of becoming the property of the opposition. Light paper and hard pencils can make a myth of the secrecy of the ballot. Over-all state coordination in election law practices and supervision of county election boards is lacking. The statutory procedure with respect to statewide recounts is ambiguous; it should be explicit. Legal loopholes permit campaign contributions to go unreported.

We need general election law revision badly. A commission has been at work for some time on this subject. We need voting machines in all 21 counties. This is a legislative responsibility.

The State Constitution requires that the Legislature reapportion the membership of the General Assembly as nearly as possible according to the population of the several counties after the 1950 Federal census. This has not been done, and I strongly urge that the Legislature fulfill its obligations in this respect, thus removing serious inequities in the representation of certain counties in the General Assembly.

I am further disturbed at the division of congressional districts within the State, cutting across county lines and amounting to what is called gerrymandering. The Legislature has a responsibility under the Federal Constitution to draw boundaries for congressional districts as nearly as possible by population. In New Jersey, we now have some congressional districts exceeding 400,000 in population, while others are barely 250,000. This results in unequal and undemocratic representation.

FOR A UNIFORM COMMERCIAL CODE

The American Law Institute and the National Conference of Commission on Uniform State Laws have drawn up a Uniform Commercial Code. It represents an immense amount of time and thought from a great many people well informed in both the business and the legal sides of the fields covered by the Code. I favor the adoption of such a Code for New Jersey.

Our many laws relating to certain commercial transactions in or regarding personal property and contracts and other documents concerning them, including sales, commercial paper, bank deposits and collections, documentary letters of credit, bulk transfers, warehouse receipts, bills of lading, other documents of title, investment securities, and secured transactions, including certain sales of accounts, chattel paper and contract rights—these laws need revision and consolidation.

The Code could replace many acts now on our statute books which have become outmoded through the passage of time and which have ceased to be uniform because of different interpretations of the same language by the courts of different states. It would be well to consider the merits of such a Uniform Commercial Code for the benefit of our

commercial transactions, financing institutions and the legal profession.

Now, as to another kind of code: The New Jersey Bar Association is studying a proposed New Jersey Administrative Procedure Act. It should provide for the prompt publication of rules and regulations, and provide minimum requirements of fairness in the conduct of hearings by state agencies. Article V, Section IV, Paragraph 6, states: "No rule or regulation made by any department . . . shall take effect until it is filed with the Secretary of State . . . The Legislature shall provide for the prompt publication of such rules and regulations." We should proceed to carry out the provisions of the Constitution.

EDUCATION

The State Board of Education, after a comprehensive study, has declared that the Manual Training and Industrial School at Bordentown should be closed as of June 30, 1955. The Board and the Commissioner of Education have kept me informed of their thinking and recently met with me and members of the Education Committee of both Houses of the Legislature to discuss their resolution to close the school.

The Manual Training School has served a very useful purpose in our State dating back to 1886. It has been staffed by many devoted people through the years since its founding. But times change. An institution may outlive its purpose.

The plain fact is, that although Bordentown was opened to pupils of all races in 1948, it has continued to be in fact a segregated institution, enrolling exclusively boys and girls of one race. This is contrary to the spirit of our new Constitution. I am convinced of the wisdom of discontinuing the school and therefore request that legislation be prepared and passed giving sanction to its closing.

In the past several years, there has been a great increase in the number of regional high school districts, and the probabilities are that this number will continue to grow. Some changes in present legislation governing the creation of regional districts are needed to provide for contingencies not foreseen in the original measure.

INSTITUTIONS AND AGENCIES

In my inaugural address I pointed out:

“One of the gravest tasks of the State lies in the fields of mental health, correction and welfare administration, presided over by the Department of Institutions and Agencies . . . In dealing with human beings who suffer the handicaps of disease, dependency or delinquency, it is my hope that the State can attain an eminent position. We need adequate personnel and research, training and educational programs; proper executive direction; increased attention to preventive measures. We should pursue such a course most actively.”

During the past year, no area of government has received more attention from me than the Department of Institutions and Agencies. I have visited many of the institutions and have met regularly with the State Board of Control. In addition I have had frequent conferences with the President of the Board and the head of the Department.

There has been discussion about creating out of this Department three separate ones, namely, welfare, mental health and correction. In addition, changes have been suggested in the existing relationships among the State Board of Control, the central executive office, and the twenty-two relatively autonomous boards of managers which, with their superintendents, administer the respective institutions.

NEW USE FOR BORDENTOWN

At this time, I am not ready to make any specific recommendations for such extensive changes. The existing framework is the result of years of study and experience. With the cooperation of the Board of Control and through the active efforts of the department head, all administrative changes will be weighed and such proposals adopted as may be deemed to improve the operations of the Department. If, in the course of these studies, there is demonstrated need for legislative change, we shall, of course, present such proposals to you for consideration.

Meanwhile, the administration has sought to speed the completion of the bond issue construction projects, in or-

der to reduce over-crowding and substantially to reduce the waiting list for our training schools.

In this connection, I have asked a special cabinet committee to work with my office in the development of plans for the most effective use of the facilities being relinquished by the State Board of Education at the Bordentown Manual Training School.

A number of constructive proposals have been received and we hope to select the one which may fill the greatest need consistent with the location and the type of buildings available.

It now appears that we may be able at this site to develop a center which may substantially reduce our waiting lists for the mentally retarded, while at the same time developing a foremost training and research center. Such a center could help us to develop qualified staff for our state training schools and, at the same time, help to find answers to some of the unknown quantities in this important field. I hope in a subsequent message to present to you a specific proposal for legislation to establish such a unit.

In reviewing the operations of this important department, we have tried constantly to focus our attention on our basic objectives of care and rehabilitation.

We can all agree that the answer must not lie in buildings and more buildings. We cannot afford the tragic waste and we cannot condone the human misery involved in such a course. Everyone is also agreed, I am sure, that the answer must ultimately lie in prevention; and, failing that, in rapid recovery through intensive, early treatment.

LABOR AND INDUSTRY

Employment Security is an integral part of the economy of the State. If it is to perform the purpose proposed by the original drafters some 20 years ago, it must be a realistic program, geared to our economy.

There are still thousands of New Jersey families who suffer from unemployment. Our present benefits system is inadequate to meet the present day stress. The partial restoration of wage loss by benefit payments shows a wide gap between the benefits paid and the previous earnings of workers in our state. The present \$30 figure, in my opinion,

is not realistic in its relationship to the current wage and salary level, or to the level of living costs.

It is my recommendation that the Legislature establish a weekly basic maximum benefit rate commensurate with existing needs. This would apply to both unemployment insurance and temporary disability insurance.

We have in the past year experienced heavy and prolonged unemployment in New Jersey which resulted in thousands of our citizens exhausting their benefit rights. Many of these citizens have only one recourse, to request public assistance. These exhaustions have been running between 1,500 and 4,500 weekly. It is my recommendation that the maximum duration for both unemployment and disability insurance payments be increased beyond the present 26 weeks.

The Honorable James P. Mitchell, Secretary of Labor, in a letter of January 8, 1954, has called upon me and the other Governors to bring to the attention of the state legislatures necessary improvements in the Unemployment Compensation laws which would, in his words, "most effectively perform the function of providing adequate benefits to jobless workers . . . and contributing to the growth and stability of the economy." Secretary Mitchell urged raising the maximum weekly benefits as well as extending the duration of payments.

REQUEST OF THE PRESIDENT

The President, himself, in his last economic report to Congress, asked both the state and federal legislatures to "modernize" the various unemployment insurance regulations. Unemployment benefits should not be viewed solely in terms of welfare, the President explained, but should also be considered of prime importance as stopgap measures which tend to curb economic decline during the interval necessary to bring other stabilizing forces into action. President Eisenhower insisted that "to protect and promote economic stability, we should take bold steps," and among these he appealed for extension of the duration, the coverage and the amount of weekly unemployment insurance benefits. I am in wholehearted agreement with the President on these proposals.

The rates of compensation paid to disabled and injured workers likewise are no longer realistic in the face of today's costs. It was the intention of the original Workmen's Compensation legislation to pay these workers up to two-thirds of the existing average wage rate.

The imposition of exact sums upon this underlying principle, and the rather fluid condition of the economy, necessitates regular revision to meet the needs of the disabled who are unable to provide for themselves and their families. The permanently disabled are presently faced with an arbitrary cut-off date after which these essential benefits cease. I recommend that both the amount and duration of these payments, too, be increased.

The Public Utilities Labor Disputes Law and its several amendments have been extensively studied by a committee representing all parties concerned and it is the committee's opinion that the present act is of doubtful use or constitutionality; that it reflects adversely upon the demonstrated good faith of public utilities management and labor; and that regulation of wages and working conditions by governmental directive, rather than by agreement of the parties themselves, is incompatible with our traditions and basic philosophy.

I concur in the unanimous recommendation of this group which represented public utilities management and labor as well as the general public, and I propose that the Public Utility Labor Disputes Law and its several amendments be repealed.

HIGHER MINIMUM WAGES

The present minimum wage standards, applying only to women and children in five categories of work, are vestiges of a period in which living costs were considerably lower than those with which the consumer is faced today. These standards are inadequate in scope as well as degree of guarantee, and should be revised to conform closely with federal regulations in order to provide the same protection to intra-state wage earners as is afforded inter-state workers.

In his State of the Union message of January 6, 1955, the President recommended that the present federal minimum wage law be increased from 75 to 90 cents an hour.

In New Jersey, minimum wages range from 26½ to 56 cents an hour.

The alarming toll of industrial accidents each year and the accompanying cost to both employee and employer required that additional measures be taken to protect the health, physical safety, and, indeed the lives of New Jersey's workers. The influx of heavy industries to replace the lighter, less hazardous activities requires that enforcement strength be added to the existing state safety regulations. I recommend that these regulations be appropriately supplemented as a means of assisting this administration in its efforts substantially to reduce the number of workers incapacitated by industrially-caused injuries and diseases.

In the interest of industrial peace and the uninterrupted progress of New Jersey's economy, I recommend the adoption of a state labor relations act with just and realistic provisions sufficient to win the support, as well as the acceptance, of labor and management. It is significant that most of the industrial states in the country have adopted such an act. The action of the Federal authorities in restricting the application of the National Labor Relations Act necessitates legislative action by the states to fill the vacuum so created in the labor affairs of local business and industry.

The harmony resulting from such legislation in other states suggests that a full study of this question should continue by all interested parties in an attempt to determine the ingredients best adapted to the needs of this State.

CONSERVATION AND ECONOMIC DEVELOPMENT

Our economy must continue to develop in a healthy, dynamic fashion.

This healthy economic growth will require planning—the systematic application of common sense and research to meaningful problems. As we stand on the threshold of a new industrial era—the atomic age, our thinking and planning must keep pace with, and indeed anticipate, technological progress.

The planning responsibility is especially significant in New Jersey, since we are the most highly urbanized state in the Union; since we possess a highly diversified economy;

and since we have a host of related needs in such areas as water, slum clearance, housing, and airport and rapid transit facilities. The long-time neglect of planning has not helped us in our current and continuing efforts to meet these needs.

The Department of Conservation and Economic Development has witnessed an increase in responsibilities at least commensurate with the growth of our economy and population. I am listing but a few of the major problems facing this Department:

1. Accelerated water use continues throughout the State at a time when ground levels are shrinking. This great demand has produced tremendous need for imaginative planning of our water resources. We must have adequate storage areas for our needs. The problem remains critical.

2. Legislation proposed last year would have authorized the acquisition of reservoir sites in Round Valley and the Wharton Tract. These sites are needed in addition to any possible new water sources evolved from presently dormant INCODEL proposals. I intend to investigate every possibility of utilizing those aspects of the original INCODEL proposal that may be salvaged, but the drive to obtain the Round Valley and Wharton sites must continue.

3. Our State Forests and Parks system is one area where neglect is rampant. Inadequate facilities mark the entire structure and our citizens are not getting the maximum use and benefit of our State-owned lands. We must take a long-range approach to this problem if we are to have an orderly expansion of our recreation facilities that will match population growth and increased leisure time.

FOR A SEASHORE PARK

4. For generations, a public state seashore park has been heralded as a vital addition to our recreational system. I hope that this year may see the attainment of this goal—the establishment of a state beach, operated without discrimination in the interest of all our citizens and the millions of visitors who have made our State a great vacationland.

5. Population growth has also pointed up the widespread inadequacies in lower and middle income housing. The recent survey of housing shortages illustrates our post-war

failure to provide sufficient housing. Slum clearance has not kept pace with the spread of the slum blight. We are in the process of studying new approaches toward the housing problem. The heart of the issue is selecting the best method of securing low-interest capital for lower and middle income housing. I am having studied programs adopted by other states to accomplish this purpose, and recommendations should be forthcoming at a later date.

6. Population increase and shift has caused a great need for the State to render technical assistance to municipalities undergoing "growing pains." I feel that our planning function should be strengthened, and the immediate availability of matching funds from the Federal Government under Title 7 of the Housing Act of 1954 offers a good medium.

7. Our Fish and Game laws require some revision, including: stiffening the penalty for persons convicted of illegal deer hunting, including confiscation of the weapon used; setting fishing regulations on the Delaware River between New Jersey and Pennsylvania under the Fish and Game Code, as is now done in Pennsylvania; and providing for revocation of license in event of law violation.

8. I urge the establishment of a joint legislative-executive commission to formulate plans observing the 1956 centennial anniversary of the birth of Woodrow Wilson. The preeminence of Wilson's role in New Jersey history suggests our active participation with the rest of the nation in commemorating the birth of one of our great statesmen.

9. I regret that the problem of proper utilization of Morven has not yet been resolved. Rather than take precipitate action, I have formed a committee of distinguished citizens to supply recommendations as to the best use of this historic building.

HIGHWAY DEPARTMENT

State highways in New Jersey carry a daily average of 11,000 vehicles per mile. This traffic represents seven times the national average; five times the Pennsylvania average; and nearly three times the volume on New York highways.

Travel on State roads has increased approximately 70 per cent since 1940 when 3¾ billion miles were traveled.

The 1953 total was nearly 6 billion. Within the same period of time, the number of accidents on the State system increased 160 per cent.

Such facts can no longer be dismissed as symptoms. They must be realized for what they are—the hardening of the arteries of transportation, a condition that can only be cured by forthright action.

Needless suffering, anguish, and loss of life, resulting from over-crowded and unsafe highways, require that remedial steps be taken immediately. The solution lies in building additional properly designed multilane highways, capable of transporting increased traffic loads in safety. Only through such roads can the needless slaughter be stopped and the interest of our expanding economy best be served.

Today vast urban areas within the State are suffering from traffic strangulation. Central business districts are finding it increasingly difficult to attract customers, and industry faces a more restricted labor pool each year because of inadequate highways. These are relics of the early days of automotive transport.

Local municipal governments can no longer cope with the insurmountable problems thus created. The State, therefore, must face its obligation in providing highway facilities capable of transporting vehicles safely and expeditiously to, from and through these areas.

Recent developments pointing to the availability of greatly increased Federal funds for highways is another factor which makes it imperative that additional State money be provided. The unmatched Federal aid balance next July 1 will be nearly \$28 million.

Mounting loss of life, increased accidents, impaired industrial and residential development, and expansion of New Jersey's vast recreational facilities—all call for a complete modernization of our highway system. The budget message will deal at greater length in recommendations as to our overall highway needs. The immediate legislative needs of the Highway Department also will be presented at the proper time and in the proper manner.

President Eisenhower's multi-billion program for national highways will no doubt soon be published in detail.

It is sure to be of great benefit to New Jersey, providing we take the proper steps to avail ourselves of it. This is being given careful consideration.

CIVIL SERVICE

Philosophy behind this administration's attitude toward State employees is concerned with what happens to them every day as human beings rather than just consideration once a year for an extra day off at holidays or every few years for pay raises. This department will continue to train supervisors to improve human relations with employees. We believe in relatively quick promotion for those employees who do the best job.

A division is being set up to do a continuing study of comparable salaries in industry and other public jurisdictions so that up-to-date information will always be available.

Effective January 1, 1955, the maximum award for suggestions from employees was increased from \$500 to \$1,000.

Studies are being made to determine the feasibility of a bi-weekly rather than present semi-monthly pay day so that it will always be on the same day of the week resulting in better budget planning for employees.

Also being surveyed is the feasibility and cost of paying longevity increments to those employees who remain at the maximum of their salary range for long periods and whose work records warrant such increases. This should be helpful in those situations where promotional opportunities are very limited.

In the past, the main emphasis of the Civil Service Department toward local jurisdictions has been one of enforcement. We hope, in addition, if sufficient staff is available, to be able to provide consulting services for their personnel problems. We also hope to provide classification surveys for county and municipal jurisdictions.

BANKING AND INSURANCE

The recent large defalcation which came to light, in connection with the Division of Employment Security, pointed out the very apparent need of a more adequate check upon

the funds deposited by the State of New Jersey in the various banks and other depositories throughout the state.

This subject was examined most exhaustively by the State Treasurer, the Commissioner of Banking and Insurance, the Attorney General and the State Auditor, and it was decided that proper safeguards could be worked out for this problem by administrative edict, and without the necessity for any changes in the existing laws.

Accordingly, a monthly report is now being submitted by the State Treasurer to the Commissioner of Banking and Insurance showing the balances in each depository of state funds. The next examination of the bank or other financial institution wherein the state monies have been deposited includes a verification of all such accounts and a report by the examiner to the State Treasurer.

A similar system of balance checking and audit of state funds in National banks has been worked out by the Commissioner of Banking and Insurance and the State Treasurer, through the cooperation of the National Bank supervising authorities.

HEALTH

Within recent months, upon invitation of the State Commissioner of Health, two committees of local health officers have undertaken to define recognized local public health activities and to establish minimum standards of performance. Upon adoption by the Public Health Council, these standards will establish long needed criteria for the measurement of local health activities. This effort was preceded by revision of the State Sanitary Code, which itself constitutes a minimum public health standard for our municipalities.

A great need in health work, in this state as in others, is for a really effective program of prevention of chronic illness and of rehabilitation for those who become ill or incapacitated. Almost one-fourth of our people are chronically ill, disabled, handicapped, or on the way to becoming such. Unless we reverse this trend, the curative and institutional costs will become an ever greater economic burden on society.

There must be especially an intensification of efforts to prevent the rise of so much mental illness, emotional in-

stability, or personality deviation, no matter what name we may give to it. It has many social expressions. Those who deal with delinquency, both adult and juvenile, see the almost ever present factor of inadequate personality integration. It is found, for example, among alcoholics, narcotic addicts, and sex deviates.

MENTAL HEALTH PROGRAM

While there are specific programs and efforts to deal separately with some of these social problems, as in alcoholism, it is clear that a statewide preventive program to conserve and promote mental health, as distinct from the diagnosis and treatment of mental disease, will affect favorably many of the social problems which now confront us all.

The individual approach, of course, is still needed and produces results. Alcoholism control provides an example. With assistance from the State Department of Health, outpatient clinics for alcoholics have been established at four general hospitals in the state and will soon be established at two others. By this approach, there is an acceptance of a community responsibility, community facilities are strengthened and, with a given investment, maximum benefits are obtained for our citizens.

There is another need in the alcoholism control program which will soon be met at least in part: that is for a treatment facility to handle the disturbed alcoholic who is not psychotic except for the disorientation created by excessive use of alcohol. The Neuropsychiatric Institute will offer this type of service.

Several health programs can be strengthened by amendment of existing statute. Such recommendations will be presented at the legislative conference, since many of them are technical in character.

AGRICULTURE

Our farmers are facing many problems of production and marketing, and this administration intends to be as cooperative and helpful as possible in assisting them with these problems.

Surplus milk, which moves into New Jersey from other States, is affecting the welfare of the dairymen. I have ap-

pointed an Advisory Committee of dairy farmers to make recommendations to me as to how the administration can be of greatest service to the industry. Solution may lie in a Federal-State Order to regulate the marketing of milk, because it is decidedly an interstate problem. This administration will work for a Federal-State Order if that is recommended by the Committee.

New Jersey serves as a corridor in the movement of agricultural products to market and also the avenue through which foreign products and materials move to their destination. Because of this, the farmers of New Jersey are faced with a continual threat of new infectious diseases of plants and animals and infestations of insects. It is the task of the State to be very vigilant and to take the necessary measures to stamp out in their initial stages such dangerous incursions.

RURAL ADVISORY COMMITTEE

In spite of our great suburban and industrial development, there is still an important future for agriculture in this state. The average gross farm income in New Jersey is \$210 an acre—the highest of any state in the nation. Approximately 36 percent of the total land area in the state is devoted to agricultural pursuits; that makes it big business.

I have appointed a Rural Advisory Committee to make a survey of rural and agricultural problems in the state. This committee is composed of leaders in the various phases of agriculture as well as representatives from Rutgers University. When the report of this committee is completed, I believe you and I should make a new appraisal of this field so that we can be guided accordingly in an effort to continue the development of New Jersey agriculture.

DEFENSE

It is believed that a general revision of State Militia Laws, Title 38, should be made to bring them up to date. The Department of Defense is studying the problem. It hopes to submit desired revisions for your future consideration.

I urge your cooperation with the Department of Defense in continuation of its five-year construction program, de-

signed to meet the needs of our greatly expanded post-World War II Army and Air National Guard. Federal funds have already been allotted to provide maintenance facilities and certain Air National Guard facilities, with 100 per cent of the cost to be borne by the Federal Government.

With respect to the rehabilitation of some of our older armories to provide modern training areas, and the construction of five new armories during fiscal year 1956, the Federal Government has agreed to supply 75 per cent of the funds covering construction costs and your approval is needed only for the remaining 25 per cent. Continuation of this vital construction program is dependent upon the maintenance of prescribed standards by our National Guard units; the provision of Federal funds; and favorable action by the Legislature.

PUBLIC UTILITIES

The Public Utility Commission hopes to receive a completely revised and effective Title 48 from your Legislative Revision Commission. I trust that when this revision comes before you, you will carefully consider every proposed change and give particular attention to that section of the act which deals with the appointment of Special Deputies Attorney General to represent the public at utility rate hearings.

I could think of several matters in which this Department might require legislative action, but it would be premature to mention them at this time. I feel that we should await the submission of the Title 48 revision.

* * * * *

I now turn from the needs of the State's 14 departments of government to direct your attention to certain other matters.

SPECIAL AND LOCAL LEGISLATION

In vetoing a number of legislative bills during the past year as being unconstitutionally special in nature, I noted the fact that the 1947 Constitution provides a new and specific method for the effectuation of legislation of a special or local character affecting municipalities and counties, where deemed necessary and desirable. Article IV, Section VII, Par. 10.

Upon petition by the governing body of any municipality or county and by vote of two-thirds of all of the members of each house, the Legislature may pass private, special or local laws regulating the internal affairs of such governmental subdivisions. Such special laws become operative after adoption by the Legislature, if also adopted by ordinance of the governing body of the municipality or county or by referendum of the voters.

By this means, the framers of the constitution recognized that occasions may rise where special legislation for a particular county or municipality may be justified in public policy and have provided safeguards and assurances for local concurrence in and approval of such legislation.

The writing of this new provision into the 1947 Constitution emphasizes, however, the renewed intention of the constitutional framers that special, local or private legislation not adopted pursuant to the new enabling provision should be prohibited, as heretofore.

With all due deference to the coordinate legislative branch of the government, I suggest that proposals for the adoption of special legislation in the ordinary manner be resisted by members of the Legislature, and that those making such proposals be advised to avail themselves of the constitutional method now provided.

NEED FOR CONSTANT REVISION OF LAWS

Much of our substantive law is subject to becoming gradually obsolete as changing social, economic and governmental institutions and activities undergo the changes inevitable in modern life. There is a natural inertia toward change of the substantive law which eventually creates an almost continuous condition of maladjustment between our laws and the activities of the community which they are designed to serve.

These conditions are supposed to be met and solved by the activities of the permanent Commission on Revision of Statutes. It is a matter of regret to have to point out that the Commission is not organized and equipped in such fashion as to enable it to carry out its intended responsibilities. I hope the recently enacted legislation strengthening the machinery for legislative services will lend impetus

toward the objectives of having the work of permanent statute revision carried on more effectively and productively.

I know of only three substantial projects now under way for substantive law revision: those pertaining to public utilities, education, and election laws. I have made incidental reference in this message to several other subjects which could well profit from the institution of similar programs, such as commercial law and administrative practices. In addition, I might also mention criminal law, municipal law and general state statutes.

THE WATERFRONT COMMISSION

The Bi-State Waterfront Commission recently concluded its first year of operation under the Compact enacted by the State of New Jersey and New York and approved by an act of the Congress. The work assigned to the Commission is of vital importance to the people of both states and to interests elsewhere which depend upon the shipping activities within the Port of New York.

I expect shortly to receive a report covering the problems confronting the Commission, and will then confer with the Governor of New York with a view toward providing such additional means as the Commission may need and arranging for the coordinated action of all law enforcement agencies, to the end that the Port of New York may be restored fully to its natural position of preeminence.

The waterfront holds nasty problems, but I can think of no vice which has defeated society in a head-on clash. The evils of the waterfront, deeply entrenched though they be, will surely yield to a concerted drive. If further legislation should seem necessary, I will discuss the matter with you.

CONCLUSION

By the length and complexity of this message, I realize I have made heavy demands upon your patience—that I have laid in your lap some very formidable tasks. But the matters I mention have all been the subject of long and thoughtful consideration by the executive branch and I have felt it necessary to go into them in some detail.

After 12 months in office, clear patterns form and clear courses of procedure suggest themselves. So I propose to you a somewhat belated New Year's resolution that we make 1955 a year of action for New Jersey, a year of accomplishment, a year of bold and vigorous leadership.

It has been suggested by some of the literary critics who examined this manuscript that it is too earthy. They say it needs a dash of Chanel No. 5, a touch of poetry, a breath of evangelism. Perhaps so. But to me the ideas presented to you today furnish their own intrinsic inspirational quality. And this is so because if you and I can work together to carry out these ideas, New Jersey will be a greater, more prosperous and happier place to live and to work.

You and I love this amazing little giant of a State. It has produced famous men and famous deeds since colonial times. It is called "the cockpit of the Revolution," and only a few miles from where I stand General George Washington crossed the Delaware on that winter night in 1776—an action eternally symbolic in the history of human freedom and the liberty of the individual.

Yet New Jersey today remains one of the foremost states in the Union—and is growing with a rapidity that challenges the energy and intelligence and imagination of all of us who are responsible for state government. New Jersey is a seat of learning and culture. Some of the world's greatest scholars sit among us to ponder the problems of the universe. Our industry is mighty. Our agriculture has a special importance. Our people are devoted to democracy—not only in abstract theory, but in everyday practice of the principles laid down by Thomas Jefferson.

We should face the future with gaiety and strength and high resolve and, by invoking the blessing of Almighty God, get on with the work that lies before us.

ROBERT B. MEYNER,
Governor

Mr. Barnes moved that the General Assembly recess for the purpose of a Joint Session to hear the Governor's Budget Message delivered in person.

Which motion was adopted.

BUDGET MESSAGE

To the Members of the Senate and General Assembly:

This year the Budget will be presented to you in sections. Today's section deals with two parts (1) the housekeeping needs of the 14 departments and (2) State Aid. It will be followed at a later date by a capital budget, which must be geared to a Federal program not yet fully disclosed, and by a message dealing with mental health.

This section of the Budget shows a surplus and no new taxes are requested. The surplus is accounted for in large part because increased taxes were levied last year on racing, motor fuels and general corporations. These taxes are estimated to produce, by June 30 next, the sum of \$29,000,000. Of this sum, \$7,125,000 was appropriated for one-fourth year's additional aid to school districts, leaving \$21,875,000 available for general purposes on July 1 next.

However, next year and every year thereafter, the tax increase will be wholly absorbed by school aid; indeed it is already apparent that requirements for this purpose will greatly outstrip the additional revenue provided last year. The cost of additional school aid in the coming fiscal year will be about \$33,000,000, exceeding by \$2,000,000 the estimate of the State Tax Policy Commission. Because of the rapidly growing student population, it is likely to increase substantially for a number of years.

In addition to the \$21,875,000 produced by last year's tax increases, we will have available July 1 next \$3,200,000 in moneys appropriated but saved by this administration. We will also have nearly \$20,000,000 representing under-estimates of revenue for a two-year period. I am using round numbers. So our total surplus on July 1 next will approach \$45,000,000.

We expect to collect in the next fiscal year \$260,400,000 which, added to the surplus, makes a total of \$305,000,000. We are recommending in this section of the Budget expenditures of \$256,500,000 made up of \$2,300,000 of current and past years additional requirements and \$254,200,000 for 1955-56 costs. So we expect a reserve of \$48,500,000 which can be devoted in whole or in part to our pressing highway needs, capital improvements and other very important projects.

In preparing this Budget, every effort has been made to tailor the cloth to fit the pattern. Whenever possible, requests for more expenditures have been resisted. During the past year, a constant search has been made to find out where economies could be practiced—a search that has been a rewarding one. We have tightened procedures in many parts of the government to save money and to provide added efficiency. In this process, we have been greatly aided by survey teams furnished by private business groups.

LIMITED EXECUTIVE DISCRETION

But there is a vast field of expenditure which cannot be altered by the executive. For instance, for 1955-56 State Aid of all kinds in the Budget totals \$119,000,000—or nearly half of the total sum recommended. Most of this State Aid—for schools, highways, welfare, local pension funds and so on—is distributed by specific legislative mandate and is not subject to executive discretion.

So, altogether, 47 per cent of the total in this Budget must be met without equivocation. The next biggest slice—34 per cent—represents the cost of operating our mental hospitals, homes for the retarded, prisons and reformatories and other institutions; it represents the cost of our educational system, including the State University and teachers' colleges; finally, it includes the operation of our highway system. The needs in these categories are so great that no further pruning can be done. Thus, the area of executive discretion is narrowed to a small fraction and even in that area discretion is limited.

Since 1949, the voters have approved \$65,000,000 in bond issues for new institutional and educational plant. This money pays for

the bricks and mortar. It does not provide for salaries for those who must staff the new buildings or for their maintenance. The new Ancora mental hospital, for instance, is now being completed and large sums are needed for its operation.

We have had to face the problem of deferred maintenance. Many State buildings have been permitted to run down. One of our most imperative obligations is to reduce fire hazards in various institutions and this alone will cost half a million dollars. Boiler plants in a number of places are obsolete. To remedy this, I have approved the transfer of a million dollars from interest on bond issue proceeds not yet expended on construction. This, however, should be profitable in the long run. In one instance, according to engineering opinion, savings of \$80,000 annually can be brought about by spending \$300,000 on new equipment.

TEMPER OF THE TIMES

The fiscal demands on the State bear a relation to the temper of the times. The State, like private business, must provide increased pay to meet increased living costs; it must also set aside large sums for pensions. We cannot deprive our State employees of the security they can find elsewhere. This year, State employees have the added benefits of Federal social security. It is estimated this will cost \$735,000 from January to June and increased appropriations in the future.

It would be the height of folly if New Jersey did not take advantage of the Federal aid programs already announced or to be announced by President Eisenhower. In his State of the Union message, he spoke of many areas—health, housing, education, public works, air and stream pollution among them—where the Federal Government shares a responsibility with the States and where Federal funds may be spent to supplement State funds. If we do not take advantage of these offers, we will be subsidizing improvements in other States, instead of getting a fair return on the vast sums in taxes our citizens pay to Washington.

NATIONAL HIGHWAY PROGRAM

The President is embarking on a national program for interstate highways. New Jersey, which has a traffic density seven times greater than the national average, and which is a corridor between the great metropolitan areas of New York and Philadelphia, should have a full share of the new funds to be spent. In addition to the regular 50-50 matching funds offered, certain New Jersey interstate roads may receive 100 per cent of the cost of improvement and new construction.

These are some of the broad considerations that must go into budget-making. The fact is that the growing complexity of modern society makes inevitable an increase in governmental participation at every level. No abstract philosophy can serve to roll our civilization back to the comparative simplicity of the nineteenth century, and that fact is evident in the Federal Government as well as in the States. Horses wore no license plates. The blacksmith shop required no interstate regulation. Kerosene lamps required no public utility commissions.

I have been accused lately of verbosity and, in the case of the annual message, my guilt is clear. But I shall resist the temptation to be long-winded in this discussion of the budget. I am going to try to give you merely some of the highlights so that you can get an idea of its contents without subjecting you to endless detail.

SOME OF THE HIGHLIGHTS

In the Department of Institutions and Agencies, I have already spoken of the need to staff Ancora, which will open about March 1 next. It will have a population of about 2,500 patients and will require an appropriation of \$3,000,000. Even with this added facility, our mental hospitals will be overcrowded because of the alarming rise in the mental hospital population. I will have more to say about this in a subsequent message. I have spoken, too, of the fire hazards present in our institutions and the needs resulting from deferred maintenance.

In education, we need additional funds for operating new buildings at State Teachers' Colleges at Glassboro, Paterson, Montclair and Trenton. The State University needs more money for new equipment and for maintenance of present buildings. Offsetting educational increases is a decrease of \$400,000 for the operation of the Manual Training School at Bordentown, whose discontinuance has been recommended by the State Board of Education. In another message, I will propose a new use for the Bordentown plant.

In the Highway Department, I am recommending increases to permit employment of more laborers to maintain our present system; for highway lighting in the interest of safety, and for other purposes. Some of the highway bridges, for instance, have not been painted for seven years. I will have much more to say about highways in my capital budget.

A MAIL ORDER SYSTEM

In the Department of Law and Public Safety, a major expenditure recommended is half a million for the cost of installing a mechanized mailing system for issuing drivers' licenses and automobile registrations. This is a reform which I have constantly urged since taking office, and I am hopeful that it will be approved by the Legislature. Funds for new positions in the Division of Alcoholic Beverage Control are more than offset by additional revenues obtained from greater fees collected. This division is a model in the Nation. I am asking \$100,000 for continuance of the Law Enforcement Council for another year.

An area of government which has undergone intensive study and improvement in the last year is the Department of the Treasury. The disclosures with respect to the handling of State funds, and the study of practices in purchase of property and other business dealings, have resulted in a general tightening of procedures. As recommended by a committee of distinguished citizens, higher interest rates on State deposits have increased the earnings rate by more than \$90,000 last year. Some additional funds are needed to see we get what we order by re-establishing a standards and specifications unit; to cut down construction de-

lays by strengthening the Bureau of Architecture; and to give more adequate staff as recommended by the State Investment Council to the Division of Investments, which has the management of 600 millions of dollars.

TO HELP THE HANDICAPPED

A major item in the Department of Labor and Industry is an increase of some \$250,000 for the rehabilitation of physically-disabled persons—a field in which New Jersey was a pioneer but in which it has now fallen behind. There are about 35,000 such persons in New Jersey and many of them can be trained to be self-supporting under this program. Federal matching funds will make it possible to double our services in this regard. This department's stepped-up program against accidents in industry requires funds for new inspectors.

Acquisition of the Wharton Tract calls for the employment of new foresters to protect our timber interests and the various rent-producing properties now in the Tract. It has been necessary to spend more than was appropriated last year to fight forest fires throughout the State, and the basic appropriation needs to be increased. The helter-skelter growth of New Jersey has long pointed up the need for intelligent planning in the interest of orderly future development. I have recommended a sum for this which will be supplemented by a sizable Federal grant. New legislation concerning deer management makes it necessary to spend more money in this field. Extension by the Legislature of rent control requires an appropriation for next year's operation.

AN IMPROVED CIVIL SERVICE

A study of civil service by a private business survey team has resulted in recommendations for new personnel to give quicker action on service requests by local jurisdictions; to speed up the holding of examinations; shorten the time to process employment lists; provide improved examinations; establish a recruitment program to attract able people to public employment; and other objectives. It should be realized that the Department of Civil Service processes not only 23,000 State employees, but over 56,000 at local levels.

For lack of funds, bank examinations, which should be held every 12 months, have been stretched to longer intervals. The Department of Banking and Insurance is also behind in testing the actuarial soundness of insurance companies. New positions to accomplish these purposes can be paid out of fees charged to banks and insurance companies and will not become a charge against the general taxpayer.

TO GUARD AGAINST DISEASE

The Department of Health needs more money to attack air and stream pollution; to guard against the effects of radiation; to finance an over-all prevention program to deal with chronic ailments, such as heart disease, epilepsy, cancer, tuberculosis, alcoholism, diabetes and so on.

To protect the State's cattle from the dread disease of brucellosis, the Department of Agriculture needs funds to pay farmers for cattle which have been condemned—a program initiated by the Legislature.

In the Department of Defense, maintenance of new armories—constructed mostly at Federal expense—requires moderate increases. After reviewing unexpended balances in the Office of Civil Defense, I have reduced its requested appropriations from \$234,000 to a recommended figure of \$97,000, with the proviso that unexpended balances as of June 30 will be reappropriated. I am assured that, with these funds, the Office of Civil Defense will be able to continue at its present level of operation.

So much for a bird's-eye view of the needs of the departments.

BREAKDOWN OF INCREASES

In last year's Budget I recommended \$128,000,000 for general State purposes. In this message, I recommend \$135,200,000—an increase of \$7,200,000. This increase is broken down as follows:

For normal salary increases and new positions to improve the quality of essential services	\$3,200,000
To staff new facilities created by bond issue funds	1,100,000
Increase in cost of housekeeping requirements	500,000
Increase in pension contributions	1,000,000
Fire protection	500,000
For highway maintenance and the State University	900,000

140 MINUTES OF THE GENERAL ASSEMBLY

In last year's Budget I recommended \$83,000,000 for State Aid. In this message, I recommend \$119,000,000—an increase of \$36,000,000. This increase is broken down as follows:

Education:	
Aid to local districts	\$32,700,000
Teachers' Pension Fund	1,600,000
Welfare Aid	1,600,000
Miscellaneous	100,000

SUPPLEMENTAL APPROPRIATIONS FOR PRIOR YEARS

I recommend in this Budget \$2,298,000 for supplemental appropriations for prior years. Of this sum, \$200,000 is allocated to the Department of Law and Public Safety to pay for investigation of the Division of Employment Security and other departments involved.

To provide funds for the State's share of the new Social Security program in the Public Employees' Retirement System, \$735,000 is recommended. This will pay the State's share from January 1 to June 30, 1955.

Additional funds are recommended to the Department of Institutions and Agencies to pay for the State's share of housing inmates in the various county mental hospitals; and for the State's share of the categorical assistance programs in which the counties participate. All of these funds are determined on established formulas and practically no administrative discretion can be exercised in their allotment.

CONCLUSION

I invite the scrutiny of this Budget not only by you, but by all public-spirited organizations and citizens. While it has been the subject of laborious study and preparation for many months, no such detailed projection of State finances can pretend to be without flaw. I assure you, however, it represents a determined effort, so far as is humanly possible, to conserve the taxpayers' money.

Respectfully submitted,

ROBERT B. MEYNER,
Governor of New Jersey.

Attest:

ROBERT J. BURKHARDT,
Secretary to the Governor.

January 31, 1955.

A., Vanderbilt, W. R., Vervaet, Werner—55.

Absent were—

Messrs. Crabel, Kurtz, Stepacoff, Waddington—4.

The Clerk declared a quorum present.

The following bills were introduced, were read for the first time by their title, and were referred to committee as follows:

By Mr. Waddington,

Assembly Bill No. 225, entitled "An act establishing standards of conduct for State officers and employees concerning possible conflict between private interests and official duties,"

Referred to the Committee on Judiciary.

By Mr. Crabel,

Assembly Bill No. 226, entitled "A supplement to 'An act concerning natural gas pipeline utilities and authorizing the Board of Public Utility Commissioners of New Jersey to promulgate reasonable rules, regulations, and orders for the safe construction, operation, and maintenance of pipelines for the transmission of natural gas within and through the State, providing for enforcement of orders and supplementing Title 48 of the Revised Statutes,' approved May 9, 1952 (P. L. 1952, c. 166),"

Referred to the Committee on Highways, Transportation and Public Utilities.

By Mr. Crabel,

Assembly Bill No. 227, entitled "An act to provide compensation to certain municipalities, wherein lands are held by any university or college supported wholly or in part from State appropriations, for the loss of tax revenue by reason of the exemption of such lands and the buildings and improvements thereon from taxation, whenever the Legislature shall make an appropriation for such purpose,"

Referred to the Committee on State, County and Municipal Government.

By Mr. Crabel,

Assembly Concurrent Resolution No. 11, entitled "A concurrent resolution proposing to amend Article VIII of the Constitution of the State of New Jersey, by adding thereto a Section V,"

Referred to the Committee on Judiciary.

By Mr. Crabel,

Assembly Joint Resolution No. 14, entitled "A joint resolution designating the Burnet street parkway, being a portion of New Jersey State Highway Route No. 18, as Memorial parkway,"

Referred to the Committee on Highways, Transportation and Public Utilities.

Mrs. Dwyer, Chairman of the Committee on Education, reported

Assembly Concurrent Resolution No. 6,

Favorably, without amendment.

Mr. Field, Chairman of the Committee on Revision and Amendment of Laws, reported

Senate Concurrent Resolution No. 5,

Favorably, without amendment.

Mr. Silver offered the following resolution, which was read by the Clerk:

Resolved, That the Rules of the General Assembly of the 1954 Session be adopted as the Rules of the General Assembly for 1955 Session with the following amendments and additions:

Amend Rule No. 31 to read as follows:

31. The yeas and nays shall be entered on the Journal of the General Assembly, upon the demand of one-fifth of the members present, and in taking the yeas and nays the names of the members, including the Speaker, shall be called alphabetically or be recorded by the use of the electrical voting system, if so ordered by the Speaker, but if any member present in the chamber shall not indicate his vote in the affirmative or the negative upon the voting machine or audibly, when so required by the Speaker, his vote shall be recorded in the negative unless he shall be ineligible to vote, or has been excused from voting, upon the question.

Amend Rule No. 41 to read as follows:

41. Each bill, joint resolution and concurrent resolution shall be proposed for introduction in the General Assembly

by presenting it to the Secretary of the Speaker, in quadruplicate, endorsed with the signature of the member offering the same. The Secretary to the Speaker shall number all bills and resolutions as they are presented and make a list of them. After numbering and listing each bill and resolution, he shall make available one copy to the legislative correspondent and shall deliver the original and two copies to the Committee on Revision and Amendment of the Laws for examination as to form. After such examination and when it shall be indicated on the bill or resolution that it has been released, the said committee shall return the original and one copy of said bill or resolution to the Secretary of the Speaker, retaining one copy for the files of the Law Revision and Legislative Services Commission. Thereupon the Speaker shall endorse upon the original the Committee to which it is to be referred and deliver it, with the copy returned to him, to the Clerk. At each session of the General Assembly, the Clerk shall read the number, title and Committee reference of each bill and resolution delivered to him by the Speaker, which shall be taken as the introduction and first reading of the bill or resolution and said bill or resolution shall then be released for printing.

The Speaker recognized Mr. Hauser who presented additional amendments as follows:

1955 RULES

PROPOSED AMENDMENTS TO 1954 RULES

By Mr. Hauser, Hudson County

Amendment to Rule 17:

Add the following sentence: "Provided, however, that any member may yield his time to any other member."

Amendment to Rule 34:

Amend last sentence to change word "seven" members each to "six" members each.

Add the following paragraph:

"The Speaker shall give proportionate representation to members of all political parties when making appointments to all standing committees."

Amendment to Rule 35:

"All members appointed to committees shall meet at the call of the chairman of such committees, but not less than

once a week during the regular session. Every bill or resolution referred to any committee shall be considered and acted upon by the full committee within three weeks after such referral. The committee shall either report its action as favorable, unfavorable or without recommendation. After such reports have been made the bills shall be presented for action by the General Assembly."

"Any member of the General Assembly may move a bill to second and third reading and a final vote by obtaining the consent of one-third of the members of the General Assembly either by motion orally made or by a written petition." "Every bill or resolution must be referred to Committee unless two-thirds of the members present agree that such bill or resolution can be without reference."

The vote on Mr. Hauser's amendments was recorded as follows:

Which motion, the ayes and nays being called, was lost by the following vote:

DIVISION OF TAXATION

Trenton, July 1, 1954.

*To the Hon. Robert B. Meyner, Governor of the State of New Jersey,
and the Legislature of the State of New Jersey:*

Pursuant to the provisions of R. S. 54:1-13, there is respectfully submitted herewith the 1954 Annual Report of the Division of Taxation in the Department of the Treasury covering the activities of the nine Bureaus of the Division and the Office of the Director of Taxation during the State fiscal year ending June 30, 1954, and setting forth the County and State Abstracts of Ratables for the calendar year 1954.

Major State tax collections for the State's fiscal year ending June 30, 1954, as compared with such collections for the previous fiscal year, are as follows:

	1954	1953
Beverage Taxes	\$17,541,854.63	\$16,700,764.79
Boxing-Wrestling Taxes	25,294.62	40,216.96
Cigarette Taxes and Licenses	20,012,014.36	19,938,725.50
Corporation Taxes	23,315,922.74	22,219,898.50
Inheritance-Estate Taxes	11,908,888.15	11,620,725.64
Motor Fuels Taxes	44,424,800.87	41,128,337.82
Motor Vehicle Fees, etc.	54,193,874.99	47,889,430.36
Outdoor Advertising Taxes	89,750.15	73,836.45
Pari-Mutuel Taxes	21,045,108.73	18,681,770.83
Railroad Taxes	18,701,642.97	18,338,670.40
Total Major State Tax Collections	\$211,259,152.21	\$196,632,377.25
State Use	\$194,289,036.63	\$181,840,253.13
Local Use	13,831,558.59	14,078,039.97
Dedicated	3,138,556.99	714,084.15

Attention is directed to the fact that enforcement of the laws relating to Boxing and Wrestling fees and taxes, Pari-Mutuel taxes and Motor Vehicle Registration and License Fees is not under the jurisdiction of the Division of Taxation. The revenues from these sources are included for the purpose of showing in one statement the total of major State tax revenues.

The Division for the calendar year 1954 also assessed taxes on public utilities, other than railroads, as follows:

Franchise Taxes	\$19,624,121.98
Gross Receipts Taxes	23,754,459.44
	<hr/>
	\$43,378,581.42

These taxes while State-assessed are certified to, collected by and for the sole use of, the several taxing districts of the State in which property of such public utilities is located.

The Division will, for the first time, publish a Table of Equalized Valuations for each of the 567 taxing districts of the State on October 1, 1954, pursuant to the requirements of Chapter 86, Laws of 1954 (NJSA 54:1-35.1). This Table will establish the equalized valuations of land and improvements throughout the State upon the basis of which a substantial part of state aid for schools will be apportioned for the school year 1955-1956 under Chapter 85, Laws of 1954.

It is contemplated that the accumulation of sales-assessment ratio data will be adequate by October 1, 1955, to warrant the use of the ratios not only for the distribution of state school aid but also for the more equitable apportionment of the costs of county government in the year 1956 and thereafter.

The development of these ratios will also disclose the taxing districts in which there is great lack of uniformity in assessments among individual property owners. This valuable information will be used in the effort to improve the quality of property tax administration and may ultimately form the basis for legislation to more effectively and economically handle property tax appeals involving alleged discriminatory assessment practices.

To provide revenues necessary to meet the requirements of additional school aid, the Legislature in 1954, by Chapter 109, increased the gasoline tax from 3c to 4c per gallon, by Chapter 87 increased the State's take from pari-mutuel betting by 1% and by Chapter 88 increased the rate of the Corporation Business Tax from .8 of a mill to 2 mills per dollar of net worth.

Several well attended in-service training courses and a four-day institute for assessors and others interested in good assessment practices were conducted by Rutgers University and one new municipal assessors' association was organized during the year. Revaluation programs were completed in several taxing districts and many others are contemplating such a program. The move in this direction is gaining momentum. These and many other activities of the past year indicate definite improvement in property tax administration.

Respectfully submitted,

AARON K. NEELD,

*Director, Division of Taxation,
in the Department of the Treasury.*

Mr. Barnes moved the adoption of the committee amendments to Assembly Bill No. 120.

Assembly Bill No. 38, entitled "An act to amend 'the New Jersey Highway Authority Act,' approved April 14, 1952 (P. L. 1952, c. 16),"

Assembly Bill No. 79, entitled "An act relating to playgrounds or recreation places under the control of boards of recreation commissioners in counties and municipalities, and amending section 40:12-5 of the Revised Statutes,"

Assembly Bill No. 96, entitled "An act to amend 'An act creating the New Jersey Racing Commission and defining its powers and duties; providing for the granting of permits and licenses for the operation of race meetings whereat the running, steeplechase racing or harness racing of horses only may be conducted; providing for the licensing of concessionaires and operators and their employees; regulating the system of pari-mutuel betting and fixing the license fees, taxes and revenues imposed hereunder and fixing penalties for violation of the provisions of this act,' approved March 18, 1940 (P. L. 1940, c. 17), as said Title was amended by chapter 137 of the laws of 1941,"

Assembly Bill No. 114, entitled "An act concerning standard time, and amending section 1:1-2.3 of the Revised Statutes,"

As amended,

Assembly Bill No. 119, entitled "An act concerning the salaries of county clerks, surrogates, sheriffs and registers of deeds and mortgages in certain counties,"

Assembly Bill No. 120, entitled "An act to prevent unfair competition and unfair trade practices in the sale of gasoline at retail; to prohibit the sale of gasoline at retail below cost; to regulate the retail sale of gasoline; to impose duties upon the Director of the Division of Taxation; providing penalties for violations; and repealing 'An act to regulate the retail sale of motor fuels, and providing penalties for violations,' approved May 12, 1938 (P. L. 1938, c. 163), and chapter 258 of the laws of 1952 supplementary thereto,"

As amended,

Assembly Bill No. 160, entitled "An act relating to workmen's compensation, and amending section 34:15-64 of the Revised Statutes,"

And

Senate Bill No. 31, entitled "An act providing for the payment of pensions to certain judicial officers in counties of the second class,"

Were each severally taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

The following bills were introduced, were read for the first time by their titles, and were referred to committees as follows:

By Mr. Lazzio,

Assembly Bill No. 323, entitled "An act concerning unemployment compensation, and amending section 43:21-7 of the Revised Statutes,"

Referred to the Committee on Labor and Industrial Relations.

By Mr. Junda,

Assembly Bill No. 402, entitled "An act concerning the recording of chattel mortgages and the disposition of the books wherein chattel mortgages are recorded, amending section 46:28-7, and supplementing chapter 28 of Title 46, of the Revised Statutes,"

Referred to the Committee on Revision and Amendment of Laws.

By Mr. Junda,

Assembly Bill No. 404, entitled "An act to amend 'The Banking Act of 1948,' approved April 29, 1948 (P. L. 1948, c. 67),"

Referred to the Committee on Business Affairs.

By Mr. Junda,

Assembly Bill No. 409, entitled "An act concerning motor vehicles and traffic regulation, and amending section 39:3-40 of the Revised Statutes,"

Referred to the Committee on State, County and Municipal Government.

By Mr. Metzger,

Assembly Bill No. 322, entitled "An act concerning the division into traffic lanes of certain county and municipal highways,"

Referred to the Committee on Highways, Transportation and Public Utilities.

The following communication was received and read by the Clerk:

SUPPLEMENTARY BUDGET MESSAGE

To the Members of the Senate and General Assembly:

In my Budget Message of January 31, I pointed out that, at the end of the fiscal year 1955-56, "we expect a reserve of \$48,500,000 which can be devoted in whole or in part to our pressing highway needs, capital improvements and other very important projects."

MANAGEMENT OF THE RESERVE

I now present to you my recommendations for the management of this reserve. It is proposed (1) that \$26,725,000 be appropriated for highway purposes, with the particular aim of anchoring Federal matching funds now allocated to New Jersey; (2) that \$2,270,000 be appropriated for other capital needs, hereinafter described; (3) that \$3,500,000 be used for the conversion of Bordentown Manual Training School into a research and training center for mentally handicapped persons—and for a bold, new approach to the massive problem of mental health.

MENTAL HEALTH

Mental health has been termed by a task force of the Hoover Commission as the "greatest single problem in the nation's health picture." More than half of the 1,500,000 hospital beds in the country are now devoted to mental patients and, if the present pace continues, one out of every 12 new-born children will spend some time in a mental institution. I have been giving intensive study to this problem, as it affects New Jersey, and my findings will be presented to you in a special message one week from today.

A \$16,000,000 BALANCE

If you adopt the foregoing recommendations in this capital budget, there will remain a balance of approximately \$16,000,000. This could give us a start on the 1956-57 budget. A planned surplus last year avoided a financial crisis this year.

NEW STATE OFFICE BUILDINGS

I now come to a second major phase of this capital budget, namely, a proposal that the State embark on a building program to relieve the intolerable conditions arising from the dispersal and overcrowding of State offices. Such a program was originally proposed by Governor Walter E. Edge, and was approved by the Legislature in 1946, when \$6,000,000 was appropriated for a new State office building—a sum later diverted for the establishment of the Veterans' Guaranteed Loan Fund.

PENALTIES OF DEFERMENT

In the ensuing nine years, the need for new quarters to house State offices has become progressively acute, and can be deferred only by heavy rental costs, by increasing inconvenience to the public and by resultant inefficiency in the conduct of the State's business.

I propose the construction of five new buildings over a period of years, the State House Commission to determine which buildings should be erected first and at what locations. The cost of the new structures is estimated at \$13,500,000. It would be financed by funds now or presently to become available to the State from the Veterans' Guaranteed Loan Fund, from the sale of veterans' housing and from the Unemployment Compensation Auxiliary Fund.

NO BEARING ON THE SURPLUS

The proposed building program, therefore, has no bearing on the management of the \$48,500,000 surplus that is expected at the end of the next fiscal year. It is made possible by the use of other available funds which now have served their original purpose, and by the use of the Unemployment Compensation Auxiliary Fund which is dedicated by law for administration or building construction.

HIGHWAYS

Since the fiscal year 1950, New Jersey has appropriated \$15,000,000 per annum for construction of roads and purchase

of rights-of-way. When this policy was established, it was expected the State would spend, together with Federal matching funds, some \$25,000,000 annually on its highway program. However, since State appropriations have been insufficient to match Federal allotments, lingering deficits have been produced.

Last April 26, in my Supplemental Budget Message, I pointed out that \$6,000,000 in Federal funds would be lost unless it were matched by State appropriations. It now appears that, on June 30 next, unmatched Federal funds will reach \$13,000,000. I am assured by the State Highway Commissioner that, if the usual \$15,000,000 appropriation be increased to \$20,000,000, we will be able to secure this \$13,000,000 presently available—thus safeguarding New Jersey against losing matching funds.

WHAT THE DIFFERENCE IS

The difference between \$20,000,000 and the total of \$26,725,000 recommended in this Budget for highway purposes is accounted for as follows: \$4,730,000 for the operating costs of the construction and rights-of-way division in the Highway Department; \$1,796,000 for new institutional roads and approaches, including \$250,000 for new roads in our new park and forest development program; and \$200,000 customarily appropriated for installation of traffic signals.

NIBBLE AT A BIG CHEESE

Let me make it plain right here that all of this represents but a nibbling approach to the State's basic highway needs. Engineering appraisals show that the cost of modernizing our present highway system and building new roads required today would be at least one billion dollars. This figure, large as it is, seems less startling when it is considered that the cost of just two super-highways built or planned—the New Jersey Turnpike and the Garden State Parkway—already approaches one billion dollars.

BUSY CORRIDOR

I need hardly remind you that traffic density on New Jersey roads is seven times the national average. In 1953 our highways carried an average of 10,000 vehicles per mile each day. Last

year alone some 19 billion miles were traveled within the State's borders—the equivalent of 790,000 trips around the earth. New Jersey is a part of two great metropolitan areas, with a combined population of 20,000,000 persons.

All traffic between New York and Philadelphia, including traffic between New England and the South, flows through New Jersey. Our highways have taken a terrible beating from the processes of age and of heavy loads.

THE PRESIDENT'S PROGRAM

President Eisenhower, recognizing the national need for highways adequate to cope with modern traffic density, is proposing a multibillion-dollar program for interstate thoroughfares. If such a need exists throughout the nation, it exists in intensive form in New Jersey, and we can expect to receive a full and fair share of new Federal funds to be allotted under the President's forthcoming program.

Until the details of that program are spelled out, I am unable to present to you a comprehensive highway plan for New Jersey. However, the expenditures suggested in this message will fill the Highway Department's routine needs until January 1 next. Between now and then, we will have a chance to take a long-time look at the whole picture, as well as possible plans for State financing.

PARKS AND FORESTS

To complete the acquisition of the Wharton Tract, which will be immensely valuable as a source of water supply for South Jersey, as well as for recreational purposes, I recommend \$523,000; to start the first phase of a new development program for our forests and parks, I recommend \$750,000.

After exhaustive surveys, the Commissioner of Conservation and Economic Development finds that New Jersey could well spend upward of \$3,500,000 to provide needed facilities for our people, and for tourists who spend their summer vacations here. The \$750,000 which I recommend for this purpose covers preparation for public use of Island Beach and the Worthington Tract, and development of Cheesequake, Allaire, Ringwood, Swartswood and Lake Hopatcong State Parks.

USE OF INCREASED LEISURE

Changes in our lives and habits emphasize the need for more recreational facilities in our parks and forests, and in the increased use of the seashore. There is need for better use of leisure time produced by shorter working weeks and more paid vacations. Because of employment laws, more leisure is available to our young people. Those in upper age brackets who are retired are increasing in numbers.

Millions of our people have the natural urge to get out into the country and enjoy the beauties and blessings of nature. The need for relaxation, play and recreation through family picnics, group outings and during vacation periods should be met by a more fully developed park, forest and seashore system.

A PROMISING START

The request here submitted can represent the beginning of a substantial program that will have a tremendous impact on the economy of our State. An imaginatively conceived plan will draw many visitors from other States, hence more income for our people and more revenue for the State.

STATE UNIVERSITY

Requests of \$3,515,000 were received from the State University for a biology building; for a law center at the College of Newark (for which some \$600,000 has been raised by a citizens' committee); for the purchase of a building in Newark; for development of a library at the College of South Jersey; and for several other smaller projects. There is no doubt the entire program would be desirable, but it has been decided against recommending all of it at this time. So I have recommended \$1,000,000 for the State University.

NEW ARMORIES

I recommend \$160,000 for two new armories and for expansion of the Trenton Armory, to which will be added \$480,000 in Federal funds.

NEW STATE OFFICE BUILDINGS

As I have said, the need for more State office space, recognized years ago by Governor Edge and by the Legislature, has become intolerable—and expensive. The State is now paying more than \$900,000 in rental and maintenance charges in the Trenton area. In this area, State business is transacted at 52 scattered rented sites, in addition to 10 State-owned locations, or 62 places in all.

CLASSIC EXAMPLE

A classic example of the difficulties that flow from this situation is the case of a man who has business with the Motor Vehicle Division. Invariably, he first comes to the State House. If he is here for a point-system hearing, he is sent to the State Office Building on Hanover Street. If the problem is one of license restoration, he must make his way up State Street to the Driver Improvement Section; if part of that problem involves the Security-Responsibility Law, he must then go to still another building. If he is an automobile dealer applying for a license, he will have to go from the State House to the Certificate of Ownership Bureau at 215 West State and then, to pick up dealer plates, to 117 West Hanover. Similar situations exist with regard to other sections of government.

FURTHER RENTALS?

If the shortage of office space is met through further rentals, the effect will be not only to increase the present yearly outlay, but further to disperse the State's activities with a corresponding loss of efficiency and convenience. Moreover since the Trenton area is already congested, it would be necessary to incur large expenditures to alter and remodel old buildings—and to yield to demands for long-term leases. Unless a building program is adopted, we will continue to house offices and laboratories in basements and attics.

FIVE SEPARATE STRUCTURES

At my direction, preliminary plans and estimates have been prepared showing that a total of \$13,500,000 should be made available to finance new building construction.

Five separate structures are contemplated and are listed in order of priority:

Department of Labor and Industry

253,000 square feet \$5,060,000

A site for this structure has not yet been chosen, but tentative plans call for a multi-story building to be constructed in stages over several years' time.

Department of Health

115,000 square feet \$2,018,250

This is the estimated net cost after a Federal contribution under the Hill-Burton Act of \$224,250. With 25% of the area devoted to laboratory purposes, the building would be fireproof, two-story and basement structure without elevators, and could be erected on ground owned by the State.

Department of Law and Public Safety

143,750 square feet \$2,805,625

This building would house all Trenton offices of this Department, with the possible exception of the Division of Law. It would be a fireproof, two-story and basement structure without elevators and could be erected on a State-owned site.

Department of Education

Administration: 50,525 square feet \$1,457,292

This building could be erected on a site provided by the State Teachers College at Trenton.

Department of Institutions and Agencies and Miscellaneous Departments

115,000 square feet \$2,242,500

This building could be erected on a site presently owned by the State west of the State House Annex.

It is contemplated that the building program be started immediately and that it progress in stages as specified by the State House Commission.

TO MEET THE COST

I have already referred to the enactment of legislation (Chapter 111, P. L. 1946), which appropriated \$6,000,000 for a new State office building. Before construction started, the Legislature canceled the appropriation and devoted the \$6,000,000—along with an additional \$5,000,000—to establish the Veterans' Guaranteed Loan Fund.

VETERANS' LOAN FUND

This fund is now reduced to \$9,800,000 in cash and investments. I have suggested we use \$3,000,000 for the acquisition of Round Valley as a water storage reservoir, leaving a balance of \$6,800,000. A total contingent liability of \$640,000 exists on all loans outstanding by veterans who have used the fund to borrow money at the banks. I am proposing the use of \$4,000,000 of the remainder for the building program. This would leave upwards of \$2,000,000 in the fund for whatever demands that might arise.

VETERANS' HOUSING REVENUES

Revenue estimates for the current fiscal year did not anticipate the receipt of \$1,000,000 from the sale of veterans' housing. The State has an estimated \$10,000,000 interest in these structures. An additional \$2,000,000 can be anticipated from a stepped-up program for the sale of such housing, with more to be realized in following years. I am proposing the use of \$3,000,000 from this source for the building program.

FROM PENALTIES AND INTEREST

The Unemployment Compensation Auxiliary Fund, authorized by R. S. 43:21-14 (g), as amended, derives its revenue from penalties and interest collected on delinquent accounts. As I have pointed out, it is dedicated by law for use of the Division of Employment Security for administration or building construction. The fund grows by about \$500,000 a year; it now contains \$2,250,000 and should exceed \$3,000,000 by June 30, 1956. This would pay for the stage of construction required to house the Division of Employment Security.

The Federal Government, which now pays \$327,800 as rental for the Division of Employment Security, would continue to pay, on completion of a building to house the Department of Labor and Industry, its proportionate share of maintenance costs for the space occupied. This would be in lieu of rental.

IN SUMMARY

To summarize, there should be available, between now and June 30, 1956, the following sums:

Veterans' Guaranteed Loan Fund	\$4,000,000
Veterans' Housing	3,000,000
Unemployment Compensation Auxiliary Fund	3,000,000
	\$10,000,000

It is my recommendation that legislation be enacted to appropriate this \$10,000,000 for transfer to a Capital Building Project Fund. It would thus be available to the State House Commission for authorizing construction contracts, on the basis of data furnished by the officials engaged in study of the office space problem.

This, then, is the capital budget. It represents the careful consideration of my associates and me in the interest of sound State fiscal policy and is

Respectfully submitted,

ROBERT B. MEYNER,
Governor.

Attest:

ROBERT J. BURKHARDT,
Secretary to the Governor.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,

SENATE CHAMBER,

May 16, 1955. }

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following bills:

Senate Bill No. 78, entitled "An act authorizing the appointment and establishment of a constabulary to be known as the 'Park Police' and the enactment of rules and regulations therefor in cities of the first class,"

Senate Bill No. 164, entitled "An act concerning municipalities, and amending section 40:46-5 of the Revised Statutes,"

Senate Bill No. 274, entitled "An act validating certain municipal conveyances,"

In which the concurrence of the General Assembly is requested.

OLIVER F. VAN CAMP,

Secretary of the Senate.

The Senate message was then taken up, and

Senate Bill No. 78, entitled "An act authorizing the appointment and establishment of a constabulary to be known as the 'Park Police' and the enactment of rules and regulations therefor in cities of the first class,"

Referred to the Committee on State, County and Municipal Government.

Senate Bill No. 164, entitled "An act concerning municipalities, and amending section 40:46-5 of the Revised Statutes,"

Referred to the Committee on State, County and Municipal Government.

And

Senate Bill No. 274, entitled "An act validating certain municipal conveyances,"

Referred to the Committee on Judiciary.

Were read for the first time by the titles, and referred to committees as indicated.

Mr. Field offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Assembly Bill No. 433 be recommitted to the Committee on Business Affairs for the purpose of amendment.

The Clerk read the following messages from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 16, 1955. }

ASSEMBLY BILL No. 16

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 16 for the following reasons:

This bill provides for the equal distribution between the State and counties of the costs of the Home Life Assistance program which are in excess of the Federal contribution. Two bills passed the Legislature during the 1954 session which would have had the same effect. They were Assembly Bill No. 247 and Senate Bill No. 346, neither of which received my approval.

The underlying theory behind this proposal is that it is fair and equitable to apportion the cost of the welfare programs equally between the State and the counties. If the premise were extended to all related welfare programs, I might well agree with it. I am compelled, however, to take exception to any bill which singles out one of the five existing welfare programs. The costs of two of the programs are now shared on an equal basis. The other three programs, Blind Assistance, Home Life Assistance and Old Age Assistance, are based upon unequal formulas. Based upon the fiscal year ended June 30, 1954, it was determined

that if the costs of these welfare programs were shared equally the result would be as follows:

	<i>State</i>	<i>County</i>
Blind Assistance	+\$155,209.00	-\$155,210.00
Home Life Assistance	+447,407.00	-447,407.00
Old Age Assistance	-1,333,749.00	+1,333,749.00
	<hr/>	<hr/>
	-\$731,133.00	+\$731,132.00

Thus, on a basis of equal division with respect to these programs, the cost to the State would be reduced by \$731,133.00 and the cost to the counties would be increased by a like sum.

I have been advised that, based upon the experience during the current year, the change with respect to Home Life Assistance would amount to \$518,700.00. Treatment of one program alone would thus impose an additional cost upon the State of more than \$500,000.00 per year.

I am obliged also to take into account the effect upon the State fiscal condition. The sponsors of this legislation have expressed, on many occasions, unequivocal opposition to any new or increased State taxes. Measures such as this, would impose additional burdens upon the State treasury, are irreconcilable with that position.

In view of the foregoing, I am returning herewith Assembly Bill No. 16 without my approval.

Respectfully,

[SEAL]

ROBERT B. MEYNER,
Governor.

ROBERT J. BURKHARDT,
Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 16, 1955. }

ASSEMBLY BILL No. 31

To the General Assembly:

I am returning herewith Assembly Bill No. 31, without my approval, for the following reasons:

The State of New Jersey now pays 10 cents per acre to local municipalities in lieu of taxes on State parks, forests and other reservations acquired by the State for historic, scenic or watershed protection purposes. The formula for tax lieus, which was enacted in 1929, would be raised to 30 cents per acre by Assembly Bill No. 31.

Including the Wharton Tract, the State-owned lands subject to this legislation total approximately 175,000 acres. Under existing law, the State must appropriate \$17,500.00; Assembly Bill No. 31 would increase the annual obligation in lieu of taxes by \$35,000.00 or thereabouts.

R. S. 54:4-2.1 deals generally with the payment by the State of compensation in lieu of local taxes. R. S. 13:1-22, which Assembly Bill No. 31 would amend, provides for an exception to the policy set forth in the statute first cited; and the proposed amendment would treble the cost to the State of that special treatment. That cost would constitute a permanent increase in the budget, and although the amount here involved is, in itself, small in relation to the total budget, yet as a matter of policy such permanent increases should be carefully considered, lest looseness in approach, encouraged by the smallness of individual items, lead to a trend having a sizable cumulative effect.

It must be kept in mind that State ownership releases local government of burdens which otherwise would be reflected in its tax rate, and that State ownership of certain property and the care given to it operate to enhance the values of other lands in the vicinity.

The proposed amendment would accomplish an arbitrary increase of an already arbitrary figure. If there is to be a change of the present rate of payment the formula must

be one which actually reflects the cost to the municipalities of furnishing services with respect to the property of the State and persons situated thereon.

For the foregoing reasons, I must return Assembly Bill No. 31 without my approval.

Respectfully,

[SEAL]

ROBERT B. MEYNER,
Governor.

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Barnes moved that its messages be spread in full upon the Minutes.

Which motion was adopted.

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT

May 26, 1955.

ASSEMBLY BILL No. 24

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 24.

This bill provides that any distributor of newspapers, magazines or publications who shall refuse to furnish to any retail dealer such quantities sought to be purchased by the retail dealer "because said retail dealer refuses to purchase or accept delivery of additional or other magazines or publications other than newspapers is a disorderly person".

This bill is designed to deal with the pressing problem of obscene and otherwise undesirable publications. It proceeds on the premise that retailers have been compelled by tie-in sales to purchase such publications, and, if protected from such compulsion, would refuse to handle them. I believe the bill is a sound measure. Retailers should be permitted to exercise self-censorship and should not be unwilling agents of publishers of literary trash. Insofar as the bill is related to that objective, I approve of it.

However, the bill would probably be construed to accomplish still another result which is wholly divorced from the objective to which I have referred. As drawn, the bill would appear to require the construction that, if a retailer desires to purchase a particular publication, a distributor may not specify the minimum quantity of that publication which he is willing to sell. I do not understand that the situation which I have just described constitutes a problem calling for legislative action or that the Legislature in fact intended by this bill to deal with it. It must be borne in mind that this bill provides that an offender shall be a disorderly person upon whom may be visited imprisonment for a year. In these circumstances, I am constrained to conclude that the bill must be amended so as to delete the language which would embrace that situation.

Accordingly, I am returning Assembly Bill No. 24 for reconsideration, with the recommendation that an amendment to the bill be made as follows:

On page 1, section 1, line 6, after the word "of" delete the words "additional or".

Respectfully,

ROBERT B. MEYNER,
Governor.

[SEAL]
Attest:

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Barnes moved that the message be spread in full upon the minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY
EXECUTIVE DEPARTMENT

May 26, 1955.

ASSEMBLY BILL No. 245

To the General Assembly:

I am returning herewith Assembly Bill No. 245 without my approval for the following reasons:

Assembly Bill No. 245 is the same as Assembly Bill No. 421 of the 1954 session which I returned without my approval. In my message to the Assembly concerning Assembly Bill No. 421 I made the following comments:

“Assembly Bill No. 421 affords special treatment to one group of employers in this State, the common carriers by air, in the payment of wages. The statute (R. S. 34:11-4) which now governs aircraft carriers, as well as other businesses, requires biweekly payment of wages with a maximum interval of 12 days between the earning and the payment of wages. Approximately 90% of the workers in New Jersey receive their wages once a week or at more frequent periods.

“Assembly Bill No. 421 by amendment to R. S. 34:11-2 would bring common carriers by air within the statute now applicable only to railroad companies. Pursuant thereto, wage payments could be at semi-monthly periods with as much time as 31 days between earning wages and their receipt. In addition, in the event that an employee missed one pay day through absence, payment of his wages could be deferred as long as 46 days. The railroad companies have more problems in collecting employment data than the air lines, but I am not sure that the 1911 statute which singles out the railroads for semimonthly wage payment periods is in accord with the socially desirable goal, recognized today, of expeditious payment of wages to all workers.

“Most of the common carriers by air operating in this State are in fact paying their New Jersey em-

ployees on a weekly basis, I am reliably advised. The State Department of Labor and Industry has, since 1953, carried out a vigorous drive to enforce the provisions of R. S. 34:11-4. To deprive the aircraft carrier employees of weekly pay periods would work a substantial hardship, discriminating against such workers without valid cause. There may be convenience and economy to the air lines in 24 instead of 52 payrolls per year. The same contention could be advanced for a special exemption in favor of every person and firm hiring workers in the State of New Jersey. I know of no justification for such preferential treatment of one particular business."

I have reviewed Assembly Bill No. 245 very carefully and find no reason to change my position with respect to this matter.

Accordingly, I am returning Assembly Bill No. 245 herewith without my approval.

Respectfully,

ROBERT B. MEYNER,
Governor.

"There may be included, as a part of each proposal to be submitted with respect to the creation of a regional school district, an authorization for the issuance of promissory notes or temporary loan bonds of the regional school district, in a principal amount not in excess of that stated in such proposal, for the purpose of providing for the current expenses of the regional school district until June 30 subsequent to the date of the first annual election of the regional school district. No such authorization shall be included in such proposal unless the State Commissioner of Education shall have made a finding, in writing, prior to the date of submission of such proposal, that the principal amount of such promissory notes or temporary loan bonds, as stated in such proposal, is not in excess of the amount of money reasonably expected to be necessary for the current expenses of the regional school district as aforesaid. If each of such proposals includes such an authorization and pursuant to such proposals such school districts shall vote to create a regional school district, such proposals shall after such vote be authority for the issuance of such promissory notes or temporary loan bonds of the regional school district to the amount and for the purposes set forth therein, and shall for all the purposes of chapters 7 and 8 of this Title and any other provisions of said Title, be deemed to constitute a proposal duly adopted on said date

by the legal voters of the regional school district authorizing the regional board of education to issue bonds of the regional school district, but no school debt statement need be prepared or filed prior to such authorization. Such promissory notes or temporary loan bonds of the regional school district shall be issued by the regional board of education in the manner provided in article 8 of chapter 7 of this Title, except that all such promissory notes or temporary loan bonds shall mature in not exceeding 1 year and may be renewed by similar promissory notes or temporary loan bonds which shall mature not later than 2 years from the date of the first of the original notes or bonds so issued. An amount, sufficient to pay the principal and interest, at maturity, of such promissory notes or temporary bonds shall be raised in the same manner as provided by law for the payment of bonds of the regional school district.

There may be included, as a part of each proposal to be submitted with respect to the creation of a regional school district, the authorization of bonds of the regional school district for any 1 or all of the following purposes: (a) any purpose or purposes described in section 18:7-85 of the Revised Statutes, (b) the purchase of any schoolhouse or schoolhouses or other buildings for school purposes with or without the sites thereof and lands appertaining thereto or the furniture and other necessary equipment therefor or the materials and supplies therefor, and (c) the making of additions, alterations, repairs or improvements in or upon any such schoolhouse or other building or purchasing school furniture or other necessary equipment therefor. Such an authorization shall for all the purposes of this Title, and particularly chapter 8 and article 18 of chapter 5 thereof, be deemed to constitute a proposal authorizing the regional board of education to issue bonds of the regional school district, but no school debt statement need be prepared or filed prior to the authorization of such bonds. A copy of each such proposal may be submitted prior to said election for consideration by the State Commissioner of Education and the Local Government Board under and for all the purposes of section 18:5-86 of the Revised Statutes. If each of such proposals includes such an authorization and pursuant to such proposals such school districts shall vote to create a regional school district, such proposals shall after such vote be authority for the issuance of bonds of the regional school district to the amount and for the

purpose or purposes set forth therein and, from and after the date of such vote, shall for all the purposes of chapters 7 and 8 of this Title, and any other provisions of said Title, be deemed to constitute a proposal duly adopted on said date by the legal voters of the regional school district authorizing the regional board of education to issue bonds of the regional school district for the purpose or purposes and in the amount or amounts set forth in such proposal. The bonds so authorized shall be issued, shall be dated and sold in all respects in accordance with the provisions of said chapters, and shall mature within the period or respective periods of time prescribed by such provisions, in each case computed from the date of such bonds."

WHEREAS, Our colleague, J. Peter Lassans, of Essex County, is confined to his home because of a heart attack; therefore,

Be It Resolved, That the members of the General Assembly extend to Mr. Lassans their best wishes for his speedy recovery.

Messrs. Kurtz, Crabel and Stepacoff offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Bernard W. Vogel, the Senator from Middlesex County, is confined to Perth Amboy General Hospital because of a heart attack; and

WHEREAS, Mr. Vogel served with distinction as a member of the General Assembly for eleven years and as a member of the Senate for seven years; therefore,

Be It Resolved, That the members of the General Assembly extend to Senator Vogel their best wishes for a speedy recovery and send him a basket of flowers; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be forwarded to Senator Vogel.

Messrs. Kurtz, Crabel and Stepacoff offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God in His infinite wisdom to call from this world Mrs. Minnie Vogel, mother of Senator Bernard W. Vogel of Middlesex County; therefore,

Be It Resolved, That the members of the General Assembly extend their sincere sympathy to Senator Vogel in his bereavement; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be sent to Senator Vogel.

Mrs. Maebert, Mrs. Berger, Mrs. Perfette, Messrs. Barnes, Bianco, Bowser, Del Tufo, Metzger, Mintz, Mosch and R. A. Vanderbilt offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God in His infinite wisdom to call from this world Miss Florence L. Haines, of South Orange; and

WHEREAS, Miss Haines served as a representative of Essex County in the General Assembly from 1927 to 1931 and was one of the first women members; therefore,

Be It Resolved, That the members of the General Assembly express their deep regret at her passing and extend their sincere sympathy to Miss Margaret Haines, her sister, who also represented Essex County in the General Assembly; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be forwarded to Miss Margaret Haines.

Mrs. Savage offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, It has pleased Almighty God in His infinite wisdom to call from this world Oliver F. Van Camp, of Point Pleasant, New Jersey; and

WHEREAS, Mr. Van Camp has served as Secretary to the Senate since 1930, the longest term of office of any other serving in that capacity; and

WHEREAS, Mr. Van Camp served the State with distinction as an officer in the New Jersey State Guard during World War II and at the time of his death held the Commission of Major QMC, New Jersey National Guard, Department of Defense; and

WHEREAS, Mr. Van Camp also served as Secretary to the Constitutional Convention in 1947; therefore,

Be It Resolved, That the members of the General Assembly express their deep regret at his untimely passing; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker and attested by the Clerk, be forwarded to the members of his bereaved family.

The following communication was sent to the desk and read by the Clerk:

A letter from Miss Jessie Murphy of Hudson County resigning as a member of the General Assembly of New Jersey (received on June 16, 1955).

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the resignation of Miss Jessie Murphy, Assemblywoman from Hudson County be accepted effective June 16, 1955, the date of her letter of resignation and that her letter of resignation be filed.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, A vacancy exists in the representation of Hudson County in the General Assembly by reason of the resignation of Miss Jessie Murphy, which resignation has been accepted by the General Assembly; now, therefore,

Be It Resolved, That a writ of election be issued which shall be in the nature of a proclamation directing that an election be held according to the laws of the State of New Jersey in the County of Hudson on Tuesday, the eighth day of November, 1955, for the purpose of electing an Assemblywoman for such county to fill the vacancy caused by the resignation of said Miss Jessie Murphy.

ANNOUNCEMENT

T., pursuant to Senate Concurrent Resolution No. 19—re a commission to study the desirability and practicability of the establishment of an institution for the care, training and rehabilitation of retarded children from the balance remaining in the Veterans Guaranteed Loan Fund.

ANNOUNCEMENT PURSUANT TO S. C. R. 13

The Speaker hereby appoints the following to serve on said Commission:

1. F. James Hitchen, Absecon, N. J.
2. George T. Scharffenberger, Clifton, N. J.
3. George L. Shipps, Delanco, N. J.
4. Walter G. Baumhogger, Montclair, N. J.

PAUL M. SALSBURG,

Speaker of the General Assembly.

Mr. Knoblauch offered the following resolution, which was read by the Clerk and adopted:

Resolved, That the privileges of the floor be extended to Mr. Alvin Klinger, Stuart Goldsmith and Richard Levenson.

The following communication was sent to the desk and read by the Clerk:

A letter of appreciation for the service of Assemblyman Bowser signed by Elizabeth Blake and other Republican friends.

Mr. Barnes moved that the communication be received and filed.

Which motion was adopted.

A resolution expressing appreciation for the service of Honorable Edward T. Bowser during his four years as Assemblyman from the County of Essex signed by James O. Hill, President Republican Political and Civic Council of East Orange, N. J.

Mr. Barnes moved that the communication be received and filed.

Which motion was adopted.

The Clerk read the following message from the Governor:

ASSEMBLY BILL No. 2

To the General Assembly:

I am returning Assembly Bill No. 2 herewith, without my approval, for the following reasons:

This bill provides that any person, the governing body of any municipality, the board of chosen freeholders of any county, the head of every department, board, commission or agency of the State, any board of education, any volunteer fire department and any religious or charitable organization shall be entitled to recover damages to the extent of \$300.00 from the parent or parents of any minor under 18 years of age, living with such parent or parents, who shall maliciously or willfully destroy any property belonging to or under the control of the persons listed.

This bill would impose absolute liability upon the parents of a child up to 18 years of age. Instances of absolute liability, that is, liability without fault, are quite rare in modern jurisprudence, except in areas in which the risk of loss can be passed on to society, as in the case of workmen's compensation.

An exception here pertinent does exist under R. S. 18:14-51 which provides:

“Any pupil who shall cut, deface, or otherwise injure any schoolhouse, furniture, fences, outbuildings, or other property of the school district shall be liable to suspension and punishment, and his parents or guardian shall be liable for damages to the amount of the injury to be collected by the board of education in any court having jurisdiction, together with the costs of the action.”

This provision was originally enacted in 1867 (P. L. 1867, c. 179, § 47) and has been continued in substantially its original form.

The present bill goes far beyond the quoted statute. It reaches beyond damage to school property, and encompasses damage to all property, by whomever owned, inflicted maliciously or willfully, by a minor up to the age of 18 years. A limitation is provided, to wit, that the minor be living with the parent or parents, although it is not apparent why that limitation is made, since the parent, under this bill, would be liable without a showing that he could have prevented the loss.

Under existing law, a parent is liable for injuries inflicted by a child, but only if the parent's negligence proximately caused the loss. *Mazzilli v. Selger*, 13 N. J. 296 (1952). Where the parent is negligent, such liability is reasonable and should be coextensive with the harm inflicted. In passing, it may be noted that the bill under consideration could be construed to limit the parent's liability to \$300.00 in situations in which the parent might be liable under existing law for the full claim. At any rate, the bill under consideration would eliminate the essential element of parental liability, namely, personal fault, and constitute a parent the insurer of the offspring. And this it would do, not merely with respect to infants within an age bracket wherein parental control might be effective, but also with respect to minors who have reached an age at which their decisions, unhappily, cannot always be directed by parental will. And, of course, liability would be imposed even though in fact the parent resorted to all conceivable measures to prevent the offending conduct of the minor. I cannot square such liability with accepted standards of legal responsibility.

I gather that proponents of this measure conceive that it represents a step in the struggle with juvenile delinquency. I cannot find an effective connection. Although parental failure in some cases may contribute to juvenile delinquency, the unfortunate fact is that delinquency appears also in well-ordered homes despite the earnest efforts of decent parents to rear their children into good citizenship. The psychiatric aspects are still to be fully explored. Surely this bill cannot rest upon a reasoned determination that all parents are in truth responsible for all juvenile failures. Nor can it reasonably be concluded that liability without

952 MINUTES OF THE GENERAL ASSEMBLY

fault would induce a parental vigilance greater or more effective than that which arises from the natural instinct of man. It would be a mistake to suppose that an easy solution, or even a palliative, reposes in the simple expedient of visiting liability upon the parent without even an inquiry into culpability in fact. This would be too great a burden upon parenthood.

Accordingly, I am returning Assembly Bill No. 2 without my approval.

Respectfully,

ASSEMBLY BILL No. 37

To the General Assembly:

I am returning Assembly Bill No. 37 herewith, without my approval, for the following reasons:

This bill would entitle any former member of the Consolidated Police and Firemen's Pension Fund or predecessor municipal funds for policemen and firemen, who resigned from his employment as a policeman or fireman since September 1, 1945, to the return of his accumulated contributions to such pension funds.

The Consolidated Police and Firemen's Pension Fund Act (P. L. 1952, c. 358) makes no provision for return to members of accumulated deductions paid into that fund or into one or more of the 213 municipal pension funds which were consolidated in the State fund established by that act. Thus, for the first time, this bill would authorize a substan-

tial benefit in favor of former employees who no longer qualify for membership in the fund. In the calculation of the deficit of the various funds in 1952, upon the establishment of the consolidated fund, no reserve was created for the return of contributions upon withdrawal.

No right to the return of accumulated deductions existed under the various municipal pension funds authorized by Chapter 160 of the Laws of 1920 and other statutes, to the authority and assets of which the pension commission of the Police and Firemen's Pension Fund succeeded pursuant to Chapter 58 of the Laws of 1952. Rates of contribution by the employees were computed in the light of the statutory exclusion of refunds of accumulated deductions.

To offset the deficits of the Consolidated Police and Firemen's Pension Fund, the State contributed \$4,109,000.00 and the municipalities \$8,218,000.00 in the current fiscal year. This bill would add appreciably to the already substantial financial cost of the consolidated program to the taxpayers of the State and the municipalities.

Many municipalities have no record of the contributions made by members prior to the establishment of the Consolidated Police and Firemen's Pension Fund and hence in some areas compliance with this bill would involve a difficult if not impossible administrative burden.

In addition to the foregoing considerations, there can be no merit in singling out for this windfall a group of former policemen and firemen who resigned between specified dates while others who resigned before and after the specified dates continue to be denied a return of the monies paid in by them. There is no rational basis for this classification.

For the foregoing reasons, I am therefore returning Assembly Bill No. 37 herewith, without my approval.

Respectfully,

ROBERT B. MEYNER,

Governor.

ASSEMBLY BILL No. 106

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 106 for the following reasons:

This bill amends a section of Title 11 of the Revised Statutes which relates to civil service. It changes the definition of veterans of World War II from those who served at least 90 days between September 16, 1940 and September 2, 1945 to those who served at least 90 days after September 16, 1940 and commencing on or before September 2, 1945.

The effect of this change is to include as a veteran one whose 90 days of service was attained partially after September 2, 1945, provided the service commenced no later than that date. This amendment does not apply to veterans who served during the Korean emergency as they are covered by another subsection.

The bill would increase the number of individuals eligible to be considered veterans for the purpose of the Civil Service law. It would bring within the definition of veteran one who did not serve the minimum of 90 days during a period when hostilities existed and hence was not in fact subject to combat duty. This would be inconsistent with the general legislative policy evident in the existing law. Veterans preference in public service is a valuable and far-reaching privilege. That preference constitutes a form of compensation or recognition for services rendered in the light of the sacrifice made and risk incurred. Accordingly, veterans preference should be based upon a substantial period of service and exposure. The existing standard of 90 days during the period set forth in the statute seems to me to be an irreducible minimum in the light of the subject matter. An unwarranted extension operates to dilute the compensation or recognition of the great body of veterans who qualify under existing law.

For these reasons, I am returning herewith Assembly Bill No. 106 without my approval.

ASSEMBLY BILL No. 107

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 107 for the following reasons:

Under the present law, "upon the recommendation of the department, board or committee having charge of the department in which policemen or firemen are employed", and upon the certification of a physician appointed by the governing body, the governing body of any municipality may, by ordinance, fix the amount of a disability award in lump sum, or annual allowance, to be paid to such policeman or fireman, provided the amount of such award together with any pension and workmen's compensation benefits shall not exceed the amount paid to him when employed.

Assembly Bill No. 107 would amend this section so as to delete the language quoted above, thereby permitting the making of such awards without the recommendation of the department, board or committee having charge of the policeman or fireman.

The department, board or committee is best situated to know the facts of such cases, and its recommendation to the local governing body should be required. By eliminating

the recommendation of such agencies, the bill would remove an important control for the proper administration of the statute.

I am, therefore, returning herewith Assembly Bill No. 107 without my approval.

ASSEMBLY BILL No. 161

To the General Assembly:

I am returning herewith Assembly Bill No. 161, without my approval, for the following reason:

Assembly Bill No. 161 provides that any person who, by word, act or other means, willfully and maliciously gives or causes to be given a false fire alarm is guilty of a misdemeanor, and adds that nothing in this act shall be deemed to supersede section 2A:170-9 of the New Jersey Statutes. The latter section denounces the identical conduct as a disorderly persons offense and differs from this bill only in that it covers as well a false police alarm.

If this bill were approved, we would have upon our statute books two provisions dealing with identical conduct, one interdicting it as a misdemeanor and the other as a disorderly persons offense. Accordingly, two persons guilty of identical conduct may experience vastly different consequences on the basis of a determination to prosecute under one statute or the other, without any standard to guide the

prosecuting authority. There is a serious doubt as to whether that situation can be squared with the constitutional requirement of equality contained in the equal protection clause of the Federal Constitution and the due process provision of both the Federal and State Constitutions. But whether a constitutional infirmity does or does not exist, I believe that such dual treatment is not consistent with fundamental fairness or good policy.

A choice must be made between misdemeanor and disorderly persons offense. I think the present statutory treatment of this conduct is adequate and appropriate. A disorderly persons offense carries with it maximum punishment of one year in prison or \$1,000.00 fine, or both. In the vast majority of the cases this quantum of punishment is adequate. On the other hand, if the conduct should be denounced as a misdemeanor, it is probable that grand juries would refuse to indict in the ordinary case because of the heavy consequences which would follow a conviction for crime, with the net result that most of these offenses, which warrant some punishment, would be visited with none at all.

I am, therefore, returning Assembly Bill No. 161 herewith without my approval.

ASSEMBLY BILL NO. 167

To the General Assembly:

I am returning herewith Assembly Bill No. 167, without my approval, for the following reasons :

This legislation would supplement chapter 9 of Title 39 of the Revised Statutes which sets forth the maximum number of hours of duty that operators of any commercial motor vehicle, omnibus, motor bus or tractor may perform during any 16 consecutive hours on the public highways of this State. The present law provides that such operators must keep in the vehicle time records of such duties on forms prescribed by the Director of the Division of Motor Vehicles. The purpose of the log is to insure enforcement of the act; without the log enforcement would be impossible.

Assembly Bill No. 167 would authorize the Director of the Division of Motor Vehicles to exempt from the statutory requirement to keep records certain operators of commercial vehicles where it has been established to his satisfaction that the commercial vehicle "will not normally be driven to any place further distant than 50 miles from the address listed on the vehicle's registration certificate, or the address at which such motor vehicle is customarily stored".

The aim of the present law is to prevent excessive driving after physical overstrain or fatigue on the part of the operator of a commercial vehicle. This basic objective appears to be sound in view of the well recognized danger on the public highways of drivers who are physically tired. In considering this measure, the paramount concern must be its effect upon traffic safety.

The present director has issued a very simple log which requires little effort to maintain as a record and is therefore not unduly burdensome.

Until the basic provisions of the present law have been demonstrated to be unsound, I cannot approve of exceptions to this law based solely upon the distance driven from a

place of business or storage. There is no reasonable relationship between the number of hours spent driving such a vehicle and the number of miles distant from a center of operation. A driver may experience similar fatigue from working excessive hours within an area 50 miles distant from the place of business or storage as he would operating in a larger radius. It must also be noted that the 50-mile radius means an operational area of 100 miles. In this State that would have the effect of nullifying the effective provisions of the present law.

If it should be determined after careful study that the provisions of the present law no longer meet present requirements, then repeal or revision, in the interest of traffic safety, may be indicated; but it should not be nullified by indirection.

By using a double standard for exemption, namely, either the registration address or storage place, the requirements of the law with reference to keeping necessary records render enforcement difficult because of possible shifting of the place of storage.

Moreover, sections 39:9-2 and 3 refer to "commercial motor vehicle, omnibus, motor bus or tractor" whereas this bill would exempt only "commercial vehicle". It is not clear whether this bill was intended to apply to omnibuses, motor buses or tractors, which are also commercial in operation.

For these reasons, I am returning Assembly Bill No. 167 herewith without my approval.

ASSEMBLY BILL No. 184

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 184 for the following reasons:

This bill would require the Director of the Division of Motor Vehicles to issue special registration plates to applicants holding an amateur radio station license. Such plates would have the official amateur radio call letters and numbers in place of the usual letters and numbers. Applications would have to contain proof of the radio license as well as an additional fee of \$2.00 for each registration.

The proponents of this measure have contended that the issuance of such special plates is warranted because of the civil defense and other public functions performed by the amateur radio operators. To the extent that the functions of civil defense require distinctive automobile identification, that can be accomplished by affixing appropriate insignia to the automobile for such purpose.

Administrative problems and considerable expense would result from this bill. The radio call letters have a letter, a number and two or three additional letters. This would necessitate the use of a larger plate of $13\frac{1}{4}$ by $6\frac{1}{16}$ inches. There is no consecutive sequence to such call letters and hence no series can be produced, but rather each pair of plates would be specially prepared.

One important consideration is the fact that the Division of Motor Vehicles is now in the midst of its conversion program pursuant to the mail order system authorized earlier this year. A special series of registration plates such as this would further complicate the problems faced by the Division at this time.

Furthermore, I do not see how recognition of this nature can be afforded to this particular group without giving similar treatment to the many others concerned with civil defense, and inviting like requests from other groups which would desire distinctive plates.

For these reasons, I am returning herewith Assembly Bill No. 184 without my approval.

ASSEMBLY BILL No. 196

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 196, for the following reasons:

This bill is a companion measure to Assembly Bill No. 197 which I am today returning without my approval.

This bill is identical with Assembly Bill No. 197 except that this bill applies to employees in the classified civil service of the counties, municipalities and school districts, whereas Assembly Bill No. 197 applies to State employees.

This bill differs somewhat from Assembly Bill No. 11 of the last session of the Legislature, which I returned without my approval, but the policy issue is the same, except that the present bill additionally provides for payment in the event of death, and hence goes further than Assembly Bill No. 11.

This bill would convert accumulated sick leave into a benefit payable upon death or upon retirement without regard to sickness.

962 MINUTES OF THE GENERAL ASSEMBLY

For the reasons set forth in my message returning Assembly Bill No. 197, I must conclude that this bill cannot be approved.

In returning Assembly Bill No. 197, I pointed out that the cost to the State during the present fiscal year could be \$1,863,332.00. I do not have an estimate of the annual cost of this bill to counties, municipalities and school districts, and so far as I know, none has been prepared by anyone. There, in fact, have been expressions of doubt that all of the public agencies affected possess complete and accurate records of accumulated sick leave. At any rate, a rough idea of the cost to these governmental bodies may be hazarded by comparing their annual payrolls against the payroll of the State. Their total payroll is approximately $4\frac{1}{2}$ times the payroll of the State.

I am, therefore, returning Assembly Bill No. 196 herewith without my approval.

ASSEMBLY BILL No. 197

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 197, for the following reasons:

This bill provides that if at the time of retirement or death of any employee in the classified civil service of the State, such employee shall not have taken all accumulated

sick leave, he shall be paid at the time of his retirement, or his estate shall be paid at the time of his death, a cash equivalent calculated as follows: his daily compensation or salary on the basis of the compensation or salary paid to him at the time of his retirement or death shall be multiplied by the number of accumulated days of leave. For accumulated days not in excess of 16 weeks, he or his estate would receive the full rate. With respect to any excess, he or his estate would receive an amount equivalent to 3 days' pay for each 5 days up to 10 weeks, "and the total aggregate of days for which payment shall be made shall not exceed 26 weeks".

The bill provides that the payment "shall in no way affect or decrease any pension or retirement benefit". In other words, the employee upon retirement would receive the lump sum cash payment, plus his pension or retirement benefit.

This bill differs somewhat from Assembly Bill No. 7 of the last session which I returned without my approval, but the issue of policy is the same, except that Assembly Bill No. 197 additionally provides for payment in the event of death and hence goes further than Assembly Bill No. 7.

In returning Assembly Bill No. 7, I pointed out that the sick leave benefit was intended to provide protection for employees in the event of sickness, and nothing else. The statute is explicit. Sick leave is in addition to the vacation leave benefit. The statute allows 15 days of leave for sickness per year. It permits unlimited accumulations of unused leave to the end that an employee may have security against prolonged illness. In effect, the program is a form of health insurance with respect to which the State is a self-insurer. The bill under consideration would, retroactively, convert this assurance against loss of pay resulting from illness, into a totally different benefit—payable absolutely upon retirement or death, subject to the maximum of 26 weeks. A companion bill, Assembly Bill No. 196, would make a like conversion of sick leave benefits accumulated by employees of counties, municipalities, and school districts.

This bill, and its companion bill, have been the subject of numerous communications and conferences. A study is presently under way with respect to compensation, fringe benefits and working conditions of State employees, and

the validity of the concept of conversion of sick leave as a prospective measure will be considered in that study as part of a complete balanced plan. The issue now before me is quite different namely, whether sick leave heretofore accumulated shall be convertible into cash despite the absence of the conditions of illness which the statute now requires. After careful consideration, I remain of the view that this measure cannot be approved. By reason of the substantial interest exhibited in this bill, I shall deal with each consideration advanced to me.

It is urged that some employees claim sick leave despite excellent health, and hence this measure is a fitting reward for the faithful and conscientious employee who does not thus avail himself of sick leave. Such a reward would also in effect approve the conduct of the offending employee. To urge payment on this basis is tantamount to suggesting to a private insurance carrier that it pay sickness benefits to a healthy insured because he did not claim to have been ill. I do not know to what extent sick leave has been improperly claimed but I have confidence in the integrity and devotion to duty of the vast majority of our public employees.

It is next contended that an employee who approaches retirement age frequently is genuinely infirm and hence it is fair to give him a commuted cash payment, which, it is said, would in fact be of advantage to the State where the sick leave accumulated exceeds the total of 26 weeks. This suggestion is without foundation in the bill. The bill does not require an employee to surrender his entire accumulated sick leave for the 26-week payment. On the contrary, the employee may still claim sick leave in the ordinary way until his remaining accumulation equals the total days translatable into the lump sum payment. Hence the employee who is truly ill, may continue to use his sick leave as stated immediately above, and the employee who allegedly claims sick leave despite good health may still pursue that course. I do not suggest that a sick employee who has accumulated 300 or 400 or 500 days, as many have, should be required to accept a 26-week payment. On the contrary, he is entitled to consume the full benefit which he accumulated for precisely that emergency. My point is that there is neither a benefit to the State, nor a deterrent against improper claims, and to the extent to which payment is made to a healthy employee upon retirement or to his estate upon death, the State is wholly out of pocket.

And while the State may profit by reason of the $\frac{3}{8}$ formula as to the 10 weeks described above in the case of a sick employee, this gain is out-weighted by the pension or retirement benefit which would be payable at once in addition to the cash payment authorized by the bill.

Lastly, it is pointed out that when an employee experiences a prolonged illness prior to retirement, his position or office remains occupied, thus preventing a permanent replacement and the benefit to the State service which the replacement would afford. This consideration is a substantial one, but the bill is not appropriately addressed to it. As noted above, the employee may still claim sick leave up to the point of advantage in the 26-week formula, so that the gain in this regard would be limited to that period. And the bill provides for payment in two situations which are foreign to that objective, to wit, the instances of a healthy employee and of the death of an employee. An acceptable solution must be one which in fact matches the problem.

I have attempted to estimate the cost of this retroactive benefit. It is difficult to do so with certainty, but I am informed that if all State employees who could take advantage of this bill during the current fiscal year should do so, the cost to the State during that fiscal year would be \$1,863,332.00, solely with respect to employees who will attain age 65 by December 1, 1956. It is estimated that by reason of inducements arising from social security considerations, it is likely that the election would amount to 75% of that figure, to wit, \$1,397,499.00. Although, to evaluate the actual net cost, a deduction would have to be made for bona fide claims for sick leave which normally would be experienced, yet, as pointed out, that saving is assured only with respect to the period needed for the 26-week payment, and the concurrent payment of retirement or pension benefits is a factor tending to offset the saving. These figures do not include estimates with respect to death, or retirement at ages 60 to 64.

If State employees should be entitled to a multi-purpose leave, legislation providing for it should be prospective only. Government cannot afford to go back and assume obligations not theretofore contemplated. That is a principle of sound business, private or governmental. Doubtless, as a measure operative prospectively, various attributes would be considered. One, for example, would be whether there should be a limitation upon the amount of

accumulations. With respect to sick leave, unlimited accumulations are reasonable because of the contingency against which they insure. Unlimited accumulations would not be reasonable if convertible into cash without regard to illness.

I make no recommendation at this time. My administration is presently engaged in a study of the compensation, fringe benefits and working conditions of State employees to the end that inequities or deficiencies may be remedied within the limits of available revenue. It would be unsound to deal separately with a single benefit. Good practice requires consideration of the total employee situation and not separate treatment of each aspect of the relationship.

Although the conclusion I have reached does not depend upon the observations in this paragraph, I note that some provisions of the bill seem to be ambiguous. The bill does not spell out a formula for the computation of the "daily compensation or salary" and hence there is a question whether the periodic salary shall be divided on the basis of a 5 or a 7-day week. For some administrative purposes, daily rates are determined on the basis of a 7-day week. There may also be uncertainty with respect to the maximum amount payable. The bill provides for payment "at the full rate up to and including 16 weeks, after which he or his estate shall be paid an amount equivalent to 3 days' pay for each 5 days of leave so not taken up to and including 10 weeks and the total aggregate of days for which such payment shall be made shall not exceed 26 weeks". With respect to the 10-week period, divergent views have been expressed as to whether there would be payment for $\frac{3}{5}$ of 10 weeks accumulated leave, that is, payment for 30 days, or whether there would be payment for $\frac{3}{8}$ ths of all accumulated leave in excess of the first 16 weeks, but not exceeding a payment for a total of 10 full weeks, that is, for 50 days, with respect to that excess.

Accordingly, for all the foregoing reasons, I am constrained to return Assembly Bill No. 197 herewith, without my approval.

Respectfully,

ROBERT B. MEYNER,

ASSEMBLY BILL No. 204

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 204 for the following reasons:

This bill would authorize the State House Commission to sell and convey to the Kearny Memorial Post No. 43—Amvets, certain land in the town of Kearny which is owned by the State. This sale is to be effected in the name of the State House Commission at a nominal sale price of \$1.00.

Article VIII, Section III, paragraph 3, of the Constitution of New Jersey provides:

“No donation of land or appropriation of money shall be made by the State or any county or municipal corporation to or for the use of any society, association or corporation whatever.”

I have been advised that the property in question has an appraised value in excess of \$14,650.00. It is, therefore, apparent that any disposition of this property by the State for a sale price of \$1.00 would violate the quoted constitutional provision.

I am, therefore, returning Assembly Bill No. 204 herewith without my approval.

ASSEMBLY BILL No. 300

To the General Assembly:

I am returning herewith Assembly Bill No. 300, without my approval, for the following reason:

This bill would amend P. L. 1953, c. 192, which authorizes a municipality, at the request of an owner of land deriving title through the municipality's foreclosure of a tax sale certificate, to re-foreclose the tax sale certificate against any person having an interest in the lands who was omitted as a party to the foreclosure action. The amendment would authorize the re-foreclosure to be had pursuant to the In Rem Tax Foreclosure Act instead of by a strict foreclosure against named parties.

The Supreme Court of our State upheld the validity of the In Rem Tax Foreclosure Act in *City of Newark v. Yeskel*, 5 N. J. 313 (1950), two members of the Court dissenting. One of the requisite conditions under that statute is that no part of any general land taxes assessed for the 4 years preceding the petition has been paid. The bill now under consideration would authorize proceedings under the In Rem Tax Foreclosure Act notwithstanding that taxes levied during the 4-year period have been paid. The majority opinion in the cited case pointed to the need for expedition in the collection of public revenues. No such need is evident under Assembly Bill No. 300, since the municipality has already obtained its moneys and the bill deals merely with re-foreclosures. I do not know whether these factors would lead the Supreme Court to the conclusion that Assembly Bill No. 300 offends the guaranty of due process of law.

A constitutional question would seem to be present. Apart therefrom, however, this bill departs from the policy of the In Rem Tax Foreclosure Act insofar as it does not contain the 4-year requirement mentioned above. I cannot find here any circumstances warranting a withholding of the usual process of judicial proceedings. The existing remedy of strict foreclosure is, in the circumstances to which the bill relates, both adequate and fair.

For the foregoing reason, I am returning Assembly Bill No. 300 herewith without my approval.

ASSEMBLY BILL No. 308

To the General Assembly:

I am returning Assembly Bill No. 308 herewith, without my approval, for the following reasons:

This bill proposes to amend section 2A:11-36 of the New Jersey Statutes, which deals with the compensation of court attendants in various counties, by increasing the mandatory salaries for such employees in counties between 300,000 and 600,000 in population. The salary increases effected by this bill for each such attendant would amount to \$1,300.00 per year, or in excess of 50% of the present salary ranges, with \$200.00 increments for each year of service. The four counties which fit within this population range are Bergen, Union, Passaic and Camden.

I returned without my approval Senate Bill No. 273 and Assembly Bill No. 310 of the 1954 Legislature, both of which sought to accomplish mandatory salary increases with \$200.00 annual increments for court attendants in Bergen, Union and Passaic counties. Senate Bill No. 273 of last year would also have required new mandatory salaries for court attendants in Camden county. In returning these measures, I pointed out that an indirect additional result would be the eventual effectuation of similar increases for jail guards, who, generally, take the same civil service status as court attendants.

My basic objection to these measures remains. The local county boards of chosen freeholders should not be compelled to pay out salaries to court attendants more than 50% in excess of the present fixed amounts of compensation. Sound principles of home rule reject such mandatory salary increases.

In addition, Assembly Bill No. 308 makes its mandatory salary increases and increments retroactive to January 1, 1955. This provision would disrupt county budgets for 1955 which were planned and adopted on the basis of existing law.

For the foregoing reasons, I am returning Assembly Bill No. 308 herewith without my approval.

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NO. 388

To the General Assembly:

I am returning herewith, without my approval, Assembly Committee Substitute for Assembly Bill No. 388 for the following reasons:

This proposal would amend the Teachers' Pension and Annuity Fund (P. L. 1953, c. 360) so as to establish a higher minimum retirement allowance. The effect would be to increase pensions to 773 persons already retired, in varying amounts, depending upon age and length of service.

During recent years the purchasing power of the dollar has decreased. The consequence has been a hardship upon all persons living on fixed income such as pensions, annuities or income from trusts. A large number of persons, in addition to those covered by this measure, have been adversely affected—policemen, firemen, other public employes, as well as many private pensioners.

I have been advised that the annual cost of this bill would be \$149,998.00, reducing annually for approximately 10 years. I do not see how, equitably, one group can be selected for particular treatment without giving the others comparable benefits. If all public pensioners were treated equally in this manner, the costs imposed upon the State, county and municipal governments would be extremely high. While I recognize the problem, I doubt that State and local governments can assume the enormous burden of attempting to save particular individuals or groups harmless from the impact of large inflationary changes in our national economy.

The bill does not provide a method for financing the proposal. One suggested method has been to defer the liability of the State to subsequent years. For several years the State has been making contributions of millions of dollars to the Teachers' Pension and Annuity Fund, in addition to

current payments, for the purpose of eliminating a large actuarial deficit in the fund. During the prior administration the payments on account of that deficit were substantially reduced in order to meet other obligations of the State. This, of course, increased the number of years required to eliminate the deficit. The proposed method of financing this measure would have the same effect. It would not increase the payments to the fund in any one year but would extend the period of payments. I fail to see how this alters the effect of the bill; it merely delays the day of reckoning. It would also increase substantially the ultimate cost because the State guarantees the interest actuarially necessary for the fund. I do not believe that deferring liability in this manner is in accord with a sound governmental fiscal program.

It is extremely difficult to withhold approval from measures, such as this, where the human considerations are so strong. There are, however, many other measures with equally strong equities which would, in all fairness, also have to be approved if this bill became law. The total cumulative effect could be catastrophic. The people of this State have indicated their desire to keep State expenditures within the existing revenue structure. Unless and until this basic position is changed, I am obliged to refuse to approve of measures which could compel the imposition of new or additional taxes against the will of the people.

I am, therefore, constrained to return Assembly Committee Substitute for Assembly Bill No. 388 without my approval.

Respectfully,

ASSEMBLY BILL No. 404

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 404, for the following reasons:

Assembly Bill No. 404 amends "The Banking Act of 1948." Under that act every bank is to be managed by a board of not less than 5 nor more than 25 directors. This bill would amend that provision by adding a subsection C to authorize a temporary increase to a maximum of 30 where the bank merges with another bank and the 30 directors are named in the merger agreement. The group of 5 additional directors would be eligible for reelection to succeed themselves, but so long as the board exceeded 25 in number, vacancies caused by death, disqualification, removal or resignation would not be filled.

On the basic proposition of increasing a board of directors of a bank to 30 members, I have serious reservations. A board of this size is extremely unwieldy and is not conducive to efficient management. Large boards tend to result in abdication by the members of their responsibilities, while, at the same time, operating to increase the total fees payable to them.

On the technical aspect of the bill, there are several ambiguities. One is whether in a contest for control of the bank, the opposition could run a slate of 25 or 30. If the opposition could run only 25, the effect would be discriminatory.

Another ambiguity reposes in the amendment of subsection A, which presently limits the number to 5 to 25 members, by adding thereto, "Except as hereinafter in this section provided". That amendment was made to exclude that limitation from the new subsection C which authorizes the increase to 30 members. That amendment, however, might also apply to the present subsection B which permits the stockholders to fix the number of directors in the absence of provision in the charter or by-laws. The amendment to sub-

974 MINUTES OF THE GENERAL ASSEMBLY

section A might thus be construed to remove the limitation on subsection B so that the stockholders could establish as large a board as they desired.

At any rate, by reason of my doubts as to the desirability of a board of such increased membership, I am returning Assembly Bill No. 404 without my approval.

ASSEMBLY BILL No. 422

To the General Assembly:

I am returning Assembly Bill No. 422 herewith, without my approval, for the following reasons:

This bill would amend section 140 of "The Banking Act of 1948" (P. L. 1948, c. 67) to provide that in the event of a merger only a stockholder of the merging bank shall have the right to dissent from the merger agreement and to obtain payment of the value of his shares. Under present law, that right exists in favor of stockholders of both the merging and the receiving bank.

I am informed that this bill is designed to curb activities of speculators in bank stocks who purchase shares, not for investment, but to gather a profit when a merger occurs, by

exercising the right to dissent and to be paid. The opportunity for such profit arises from the circumstance that section 140 is apparently thought by some to mean that the value of the shares may not be less than "the amount which would be paid upon such shares if the business and assets of the bank . . . were liquidated", which figure in many, if not most cases, exceeds the price at which the stock is traded in the market.

I agree that such adventures in bank shares should be discouraged, but I am unable to accept the method prescribed in this bill. While the bill, assuming it does not impair the obligation of contract, and I express no view with respect to that problem, would operate to terminate such practices, it would also defeat the personal right of bona fide shareholders who invested for the sake of investment and who, believing the terms of the merger to be disadvantageous, desire to be bought out. Not infrequently, the terms of a merger are quite liberal with respect to the valuation of the merging bank. Minority stockholders, who cannot control the terms of the merger, should have the right to be freed from the impact of the arrangement. It is ultimately a matter of balancing the respective interests, and I believe the balance is in favor of those now protected by the statute in its present form.

In support of the bill, it has been pointed out that instead of a merger, a bank may purchase the assets of another bank, in which event the stockholders of the purchasing bank do not have a right to be bought out. But that circumstance does not compel the conclusion that the existing right upon merger should be terminated.

Section 140 was heretofore amended to require the dissenting stockholder to serve notice of dissent at the principal office of the bank within 3 days prior to the date fixed for the meeting of the stockholders to vote on the merger proposal. That amendment affords some protection, in that merger arrangements may be accompanied with appropriate escape provisions to be used if the dissents should be of forbidding proportions and hence speculative investments of the kind discussed herein are somewhat dissuaded. That amendment, however, does not afford the total protection which the present bill seeks to give. The remedy, if one can be devised, should be confined to the evil, without transgressing the present rights of *bona fide* investors.

For these reasons, I am returning Assembly Bill No. 422 without my approval.

ASSEMBLY BILL No. 428

To the General Assembly:

I am returning Assembly Bill No. 428 herewith, without my approval, for the following reasons:

This bill would add identification officers to the enumeration of employees eligible for active membership in the Consolidated Police and Firemen's Pension Fund. At present, identification officers who are policemen subject to call for active duty qualify as active members of the fund, while civilian identification officers qualify as employee members with lesser retirement benefits. Retirement at age 51 is permitted for active members. Employee members cannot retire under the pension act until age 60.

Special treatment in the Consolidated Police and Firemen's Pension System for active members is justified by their hazardous employment. Many civilian identification officers perform clerical duties involving no risk of death or injury.

I cannot agree to upgrading identification officers into the class of membership in the Consolidated Police and Firemen's Pension Fund open to hazardous employments. The charge to the State in contributing one-third towards the

actuarial deficit of the Consolidated Police and Firemen's Pension Fund is \$4,109,000.00 in the fiscal year 1955-56. Although that increase in cost is not subject to exact computation, the enactment of Assembly Bill No. 428 would to a significant extent aggravate the actuarial unsoundness of that system by introducing a new class of active members entitled to special benefits.

Since active uniformed policemen who are identification officers are now fully covered with pension benefits suitable for hazardous employments, I suggest consideration of legislation to make civilian identification officers eligible for other State, county or municipal pension funds more advantageous than the employee membership of the consolidated fund.

I am, therefore, returning Assembly Bill No. 428 herewith without my approval.

ASSEMBLY BILL No. 429

To the General Assembly:

I am returning Assembly Bill No. 429 herewith, without my approval, for the following reasons:

Assembly Bill No. 429 would amend the Police and Firemen's Retirement System Act (P. L. 1944, c. 255) by redefining "policeman or fireman" to include any active permanent identification officer.

The Police and Firemen's Retirement System was established as a pension system for hazardous employments. It is supported by municipal and employee contributions. The State government defrays the administration expenses. In the calculation of the minimum retirement age and other benefits available, the element of risk of death or injury in such employments was a determining factor. Identification officers who are active uniformed policemen are eligible for membership in the Police and Firemen's Retirement System under the present definition. Civilian identification officers engaged in most cases in mechanical and clerical duties without special hazard should not be afforded advantage of the particularly favorable pension benefits of that system. Such employees have open to them membership in the same State, county or municipal pension funds as other employees not engaged in hazardous occupations are eligible to join.

I cannot on principle approve the broadening of membership eligibility in a hazardous employment pension system to include employees in non-hazardous occupations.

I am, therefore, returning Assembly Bill No. 429 herewith without my approval.

ASSEMBLY BILL No. 431

To the General Assembly:

I am returning herewith Assembly Bill No. 431, without my approval, for the following reasons:

This bill would effect salary increases for certain members of the judiciary. The members of the Supreme Court would receive an increase of \$2,500.00, raising the Chief Justice to \$27,500.00 and the associate justices to \$26,500.00. The bill would increase the compensation of Superior Court judges by \$2,500.00 to \$22,500.00. Full-time county court judges would receive an additional \$3,000.00, thus making their salary \$19,000.00.

This act would take effect as of July 1, 1955. In preparing my annual budget I did not have a request from the judicial branch for funds to provide for such increased expenditures. Consequently, there is no provision for the increase in the current appropriation act.

The budget requests were carefully prepared upon the basis of existing commitments and known needs in relation to anticipated income. It is not conducive to sound fiscal practice to enact into law after the budget has been adopted non-emergent measures which provide for increased expenditures.

In considering this measure, I made a careful study of the costs which it would impose. They are as follows:

Salary increases

Supreme Court (7)	\$17,500.00
Superior Court (38)	95,000.00
County Court (34) at 40%	40,800.00

Total annual salary increase ... \$153,300.00

The impact upon the cost of pension benefits consequent upon the salary increase must also be weighed. Under the present law, members of the Supreme and Superior Courts

retire in the event of disability or at age 70 with a pension of three-fourth of salary. In addition, widows of such judges are eligible for a pension of one-fourth of salary. Since the pensions are geared to a percentage of the salary payable, the increase of salary means an increase in pension benefits. The pensions are non-contributory and the State pays the entire cost. No fund has been set up, and hence pensions must be met out of current income each year.

As of July 1, 1955, the obligations of the State with respect to the pensions of members of the Supreme and Superior Courts under existing law and under Assembly Bill No. 431 have been estimated as follows:

	<i>Present Law</i>	<i>Under A-431</i>	<i>Increase</i>
Amount of fund necessary to assure payments with respect to present members.	\$2,186,000.00	\$2,417,000.00	\$231,000.00
Additional average annual amount thereafter necessary to meet pension payments	258,298.00	289,500.00	31,202.00

County court judges are eligible for membership in the State Employees' Retirement System, such judges and the State making equal contributions. While the rate of contribution varies with age of each member, the State and the judge each contribute approximately 5%. The annual increase in pension contributions by the State for county court judges would amount to \$5,100.00 under Assembly Bill No. 431.

Hence in addition to an increase in the accrued liability amounting to \$231,000.00, the annual cost of the bill would be:

Salaries	\$153,300.00
Pensions	36,302.00
Total cost	<u>\$189,602.00</u>

The impact of Federal income taxes is significant in contrasting the compensation of judges with that of lawyers in private practice. I have been advised that for a judge age 52 and his wife age 49, the annual premiums necessary to obtain the same benefits as are now provided under the Judges' Pension Act would be approximately \$11,795.00 for a judge with a salary of \$20,000.00 and \$14,154.00 for one with a salary of \$24,000.00. Based upon the assumption of a \$1,000.00 standard deduction, a \$1,200.00 personal exemption, a lawyer filing a joint return would have to earn, before Federal taxes, approximately \$41,314.00 and \$52,905.00 respectively, in order both to purchase contracts providing for these pension benefits and to have the take-home pay of judges presently receiving \$20,000.00 and \$24,000.00 annual compensation. Although these estimates do not reflect the entire picture since a judge pays income taxes on his pension benefits when they are received, whereas in the case of a private purchase of equal benefits with funds already taxed there would be partial exclusion from taxation of the ultimate benefits when received, yet these figures do indicate in a rough way the substantial amount of the actual compensation presently received by members of the Supreme and Superior Courts. I have not received an estimate of the dollar value of the fringe benefit available to county judges under the contributory pension plan which they may join.

From the foregoing, I believe it fair to say that salaries paid to these members of the Supreme and Superior Courts are not insignificant. Although I believe in salary ranges which will attract the ablest lawyers, yet I cannot be oblivious to the demands of other public servants in salary ranges far below those payable to our judges.

There has been a plethora of bills passed by the Legislature at the present and past sessions which, if approved, would have resulted in a staggering increase in the cost of government. The citizens are firmly opposed to new taxes. The chief executive is popularly the focal point of responsibility for maintaining a balance between income and expenditure. I cannot join in a course of legislation which may bring the State to the brink of financial crisis and thus force the people into new taxation. If I were to approve of this bill, I know of no reasonable basis upon which I could refuse to approve bills presently awaiting my action or bills pending or which would be introduced in the wake of such approval. I will not mortgage the future of our citizens

nor can I speculate with respect to future income. Absent a patent inequity, I will not endorse such additional obligations until and unless it clearly appears that an upsurge in revenues from existing sources will permit that course.

I regret that the action of the Legislature has made it necessary for me to return without approval a large number of bills imposing heavy financial obligations upon the State. I fully appreciate that denying requests for particular groups is not always the popular course but the opportunity to serve the whole public carries with it a correlative obligation.

For these reasons, I am obliged to return Assembly Bill No. 431 without my approval.

ASSEMBLY BILL No. 449

To the General Assembly:

I am returning Assembly Bill No. 449 herewith, without my approval, for the following reasons:

This bill provides for the equal distribution between the State and the counties of the costs of the welfare program, known as Home Life Assistance, which are in excess of the Federal contribution.

I have heretofore refused to approve three prior bills to accomplish the same objective. Two were in the 1954 ses-

sion—Assembly Bill No. 247 and Senate Bill No. 346. The other bill was Assembly Bill No. 16 which I returned to the Legislature on May 16, 1955.

In my message returning the last bill, I stated:

“The underlying theory behind this proposal is that it is fair and equitable to apportion the cost of the welfare programs equally between the State and the counties. If the premise were extended to all related welfare programs, I might well agree with it. I am compelled, however, to take exception to any bill which singles out one of the five existing welfare programs. The cost of two of the programs are now shared on an equal basis. The other three programs, Blind Assistance, Home Life Assistance and Old Age Assistance, are based upon unequal formulas. Based upon the fiscal year ended June 30, 1954, it was determined that if the costs of these welfare programs were shared equally the result would be as follows:

	<i>State</i>		<i>County</i>
Blind Assistance	\$+ 155,209.00	\$—	155,210.00
Home Life Assistance	+ 447,407.00	—	447,407.00
Old Age Assistance	—1,333,749.00	+1,333,749.00	
	\$— 731,133.00	\$+	731,132.00

Thus, on the basis of equal division with respect to these programs, the cost to the State would be reduced by \$731,133.00 and the cost to the counties would be increased by a like sum.

“I have been advised that, based upon the experience during the current year, the change with respect to Home Life Assistance would amount to \$518,700.00. Treatment of one program alone would thus impose an additional cost upon the State of more than \$500,000.00 per year.

“I am obliged also to take into account the effect upon the State fiscal condition. The sponsors of this legislation have expressed, on many occasions, unequivocal opposition to any new or increased State taxes. Measures such as this which would impose additional burdens upon the State treasury are irreconcilable with that position.”

There has been no change in circumstances which would warrant a reversal of my prior position. I will not join in the imposition of an additional burden of over \$518,000.00 upon the State treasury.

Two problems exist with respect to the Home Life Assistance program. The first is the question of what the formula for distribution of costs should be. I have recommended that all the welfare programs be amended on an equitable basis so that the costs of all are shared equally between the State and the counties. This proposal has apparently not met with the approval of the counties.

The second problem is a legal one and arose because certain counties questioned, in February of this year, their duty to make the contributions. This position was based upon certain alleged ambiguities in Chapter 138 of the Laws of 1951. I do not understand why the counties, after making the payments for four years, suddenly decided to stop their contributions and thus jeopardize the payments to the unfortunate beneficiaries who at best have a marginal existence under these payments. The Federal government has contributed to this program upon the hypothesis that the statute provides the necessary matching funds. An opinion of the Attorney General ruled that the counties remain obligated to continue their contributions. It was my understanding that a representative of one of the questioning counties thereupon desired clarifying legislation to avoid any conceivable criticism of continued contributions. Pursuant to this request, this bill was prepared by the administration, but prior to introduction, it was amended to include the change of formula which I have refused to approve on three earlier occasions. Most of the counties have respected their obligations. One county, however, has refused to pay its share. The State advanced approximately \$100,000.00 from other funds so that the beneficiaries would not be deprived of sustenance. Concurrently with that action, I instructed the Attorney General to institute appropriate proceedings to effect the collection of this sum.

For these reasons, I am returning Assembly Bill No. 449 without my approval.

ASSEMBLY BILL No. 495

To the General Assembly:

I am returning Assembly Bill No. 495 herewith, without my approval, for the following reason:

This bill would grant immediate salary increases of \$2,000.00 both to the Clerk of the Supreme Court and to the Clerk of the Superior Court. The statute here amended now fixes the annual salary of the Clerk of the Supreme Court at \$10,000.00 and of the Clerk of the Superior Court at \$12,000.00.

As I have pointed out several times, orderly fiscal administration requires that, in fairness to all employees, requests for salary increases throughout the State government be considered together at the time the annual budget is prepared.

In returning this measure without my approval, I do not foreclose favorable consideration in the event that the Judiciary recommends such proposed salary increases for the Clerks of the Supreme Court and the Superior Court for inclusion in the next annual appropriation to that branch of our State government.

Applications for salary increases should be weighed at the time of the adoption of the annual appropriations act in the light of anticipated revenues for the ensuing fiscal year.

For this reason, I am returning Assembly Bill No. 495 herewith without my approval.

ASSEMBLY BILL No. 551

To the General Assembly:

I am returning Assembly Bill No. 551 herewith, without my approval, for the following reasons:

This bill would authorize the governing body of cities of the second class with a population in excess of 20,000 to fix the salaries of its members by ordinance at not exceeding \$2,500.00 per annum. Within 30 days after final publication, 15% of the legal voters of the municipality could secure a referendum on the ordinance by petition presented to the governing body.

The statute which this bill would amend provides that the governing body in cities of the second class over 20,000 in population is empowered to increase the salaries of its own members other than mayor to a maximum of \$2,500.00 per annum, but only in the event that the legal voters had not previously fixed and determined such salaries by referendum.

I am advised that, in one such city, a referendum to increase the salaries of members of the municipal governing body overwhelmingly lost only last fall.

The effect of this bill would be to override the decision of the voters as thus clearly expressed. The citizens having thus spoken, the authority to reverse the decision should remain with them. I do not think it fitting that the State should interfere so pointedly with a local determination.

This bill brings up again a matter to which I have referred on prior occasions. The bill focuses attention upon the hodge-podge condition of our laws governing municipalities, a condition which not only is necessarily confusing and unsound, but which inevitably invites miscellaneous legislation which in reality is of special effect despite apparent generality of terms.

It may well be that in many situations compensation for members of governing bodies is inadequate. The change in value of the dollar within the last decade has been dramatic. Public officials should be justly compensated. The approach, however, should not be piecemeal, but rather should be comprehensive, to the end that there be a uniform treatment for all municipalities similarly situated.

I am, therefore, returning Assembly Bill No. 551 herewith without my approval.

ASSEMBLY BILL No. 563

To the General Assembly:

I am returning herewith Assembly Bill No. 563, without my approval, for the following reasons:

This bill would amend section 19:13-14 of the Revised Statutes so that no person could be nominated at a primary election unless he receives at least the same number of votes as the number of votes required for nomination by petition.

In a small municipality, the voters of which are predominantly of one political party, the candidate seeking to be nominated in a primary election of the minority party might not be able to obtain enough signatures on a petition to place his name on the ballot. He might, however, be nominated by a write-in vote in the primary to represent his party in the general election or as a county committeeman. The voters of the municipality might not be eligible to vote for such candidate in the primary election and yet would like to vote for him in the general election because of dissatisfaction with the incumbent administration.

This measure would also tend to deter greater participation in one or the other of the major political parties. It would make more difficult the election of county committeemen with the result that vacancies would be filled by the municipal county committeemen or the county committee. Since our whole election pattern is based upon the party system, I am opposed to any measure which will make it more difficult for a greater number of individuals to participate in party councils.

I am, therefore, returning herewith Assembly Bill No. 563 without my approval.

ASSEMBLY BILL No. 567

To the General Assembly:

I am returning herewith Assembly Bill No. 567, without my approval, for the following reasons:

This bill is a validating act of seriously questionable constitutionality. It would give effect to final judgments for the foreclosure of tax sale certificates despite the omission of cestui que trustent or beneficiaries under a will as parties to the proceeding. Such final judgment or decree must have been entered more than five years prior to the effective date of this bill, if enacted.

The decisions of the New Jersey courts have required that cestui que trustent under a will be joined as parties defendant in a foreclosure proceeding affecting the trust estate. This is recognized as a matter of fundamental due process of law. *Newark v. Fidelity Union Trust Co.*, 137 N. J. Eq. 92 (Ch. 1943). The rules of the Supreme Court recognize that principle of substantive law in providing in R. R. 4:30-1 that:

“A trustee of an express trust may be sued without joining with him the person for whose benefit a mortgage, judgment or encumbrance upon realty is held; but nothing herein shall permit an action against a trustee alone where he holds title to realty for the benefit of another.”

A judgment which is invalid because of lack of jurisdiction *in personam* over omitted parties cannot be validated.

At any rate, apart from the serious constitutional question, I feel that it is not consonant with fundamental fair-

ASSEMBLY BILL NO. 112

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning Assembly Bill No. 112 herewith, with my objections for reconsideration.

This bill amends Section 2A:52-4 of the New Jersey Statutes to provide that after a judgment permitting the change of name and correction of the record of birth or marriage accordingly, any certified copy of the record of birth or marriage shall show only the new name. The bill further provides that "Nothing herein contained shall be deemed to preclude a court of competent jurisdiction from ordering the issuance of a copy of the original certificate of the birth or marriage of the individual."

I approve of the bill insofar as it would authorize the issuance of certificates showing only the new name. To that extent, the bill is in harmony with the purpose underlying the statute relating to change of name. The bill, however, would seem further to forbid issuance of a copy of the original certificate unless a court of competent jurisdiction

orders its issuance. This would introduce an element of restriction which might well embarrass legitimate public and private investigations. Additionally, if any restriction is warranted, and I am not persuaded that it is, it would be necessary to specify the persons who shall be entitled to a copy of the original certificate and the basis upon which an application to a court shall be granted. These are matters of policy which the Legislature should determine. As drawn the bill would commit the subject to the judiciary without a definitive standard for its guidance.

I believe the ultimate objective would be achieved by amendment. I am returning Assembly Bill No. 112 for reconsideration and with the recommendation that it be amended as follows:

On page 1, section 1, lines 11 to 16, inclusive, delete beginning with the word "Any" in line 11 through the end of line 16 and insert in lieu thereof the following: "Any certified copy of a record changed as provided for in this chapter shall show the name at birth or marriage and the new name and date and manner by which obtained, but upon request shall show only the new name."

ASSEMBLY BILL No. 234

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning Assembly Bill No. 234 herewith, with my objections, for reconsideration.

This bill alters the procedure for amending the certificates of incorporation of non-profit companies organized under Title 15 of the Revised Statutes and also certificates filed under Section 15:1-12. The bill provides that the trustees pass a resolution declaring that an amendment, change or alteration is advisable and call a meeting of the members having voting powers. The meeting is held upon such notice as the by-laws provide or, in the absence of such provision in the by-laws, upon 10 days' notice given personally or by mail, and the notice shall contain a copy or a summary of the resolution. Upon a favorable vote by a majority of the members having voting powers present at the meeting the corporation files a certificate in the office of the Secretary of State.

Under the present law such a certificate can be amended by a majority vote. I have been advised that this has been construed to mean by a majority of all of the members whether present or not at the meeting. The obligations of the present law appear to be onerous because of the difficulty in obtaining the votes of a majority of all of the members of such a corporation.

I feel, however, that a simple majority of the number present is too small a requirement in the case of such an important change. Under Section 14:11-2 of the General Corporation Act relating to business corporations, the votes of two-thirds of all of the stockholders is necessary for such an amendment. Although I believe that in the case of non-profit corporations, the percentage should be figured on the basis of those present, yet the two-thirds requirement is desirable. Therefore the present bill should be amended to require a vote of two-thirds of the members

having voting powers present at the meeting in order to effect a change in the corporate certificate.

Accordingly, I am returning Assembly Bill No. 234 for reconsideration and with the recommendation that the bill be amended in the following respect:

On page 2, section 1, line 18, delete the words "a majority" and insert in lieu thereof "two-thirds".

ASSEMBLY BILL No. 259

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections Assembly Bill No. 259.

Assembly Bill No. 259 amends the Temporary Disability Benefits Law (P. L. 1948, c. 110) to provide for an increase in the maximum rate of weekly benefits from \$30.00 to \$35.00 per week effective as to periods of disability commencing on or after October 1, 1955. I heartily approve of the objective of this bill although I regret the use of the fraction $\frac{2}{5}$ instead of $\frac{2}{3}$ in determining the benefit to be paid in excess of \$30.00.

When this bill was under consideration by the Legislature, it was pointed out that if the new rate were made applicable to periods of disability which had already com-

menced, there would be a serious administrative problem because in those cases in which the maximum benefit was payable under existing law, the employer's report was not required to state the actual earnings of the employee concerned. With the increase in the maximum benefit payable, this further information would be essential to determine which employees are entitled to have their rate increased to the new maximum. In order to obviate this serious practical problem, amendments were made to the bill to incorporate the October date mentioned above. The amendments, however, in accomplishing that purpose, operate to create other difficulties. As the bill now stands, it provides that the act shall take effect October 1, 1955 "and shall apply only with respect to periods of disability commencing on or after October 1, 1955". Since the section here amended also provides for benefits for periods of disability prior to October 1, 1955, there no longer would appear to be any statutory authority for payments for such disability after that date, if this bill were approved. It is necessary that the provisions of the existing law be continued with respect to periods of disability commencing prior to October 1, 1955.

Accordingly, I am returning herewith Assembly Bill No. 259 for reconsideration and with the recommendation that it be amended as follows:

On page 1, section 1, line 15, after the word "disability", insert the word "commencing".

On page 2, section 2, lines 1, 2 and 3, delete the following: "October 1, 1955, and shall apply only with respect to periods of disability commencing on or after October 1, 1955" and insert in lieu thereof the word "immediately".

ASSEMBLY BILL No. 264

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections Assembly Bill No. 264.

Assembly Bill No. 264 amends the unemployment compensation law so as to provide for an increase in the maximum rate of weekly benefits from \$30.00 to \$35.00 per week effective as to claims made on or after October 1, 1955. I heartily approve of the objective of this bill although I regret the use of the fraction $\frac{2}{5}$ instead of $\frac{2}{3}$ in determining the benefit to be paid in excess of \$30.00.

When this bill was under consideration by the Legislature, it was pointed out that if the new rate were made applicable to existing claims, there would be a serious administrative problem because in those cases in which the maximum benefit was payable under existing law, the employer's report was not required to state the actual earnings of the employee concerned. With the increase in the maximum benefit payable, this further information would be essential to determine which employees are entitled to have their rate increased to the new maximum. In order to obviate this serious practical problem, amendments were made to the bill to incorporate the October date mentioned above. The amendments, however, in accomplishing that purpose, operate to create other difficulties. As the bill now stands, it provides that the act shall take effect October 1, 1955 "and shall apply only with respect to benefit years beginning on and after October 1, 1955". The bill, in its present form, would, if approved, eliminate provisions for the continued payment with respect to claims which ante-date October 1, 1955 and eliminate rights of review with respect to such prior claim, with perhaps a resultant conflict with the requirements of Federal law. It is estimated that there are about 65,000 persons whose benefit years will extend beyond the effective date provided in this bill.

Accordingly, I am returning herewith Assembly Bill No. 264 for reconsideration and with the recommendation that it be amended as follows:

On page 2, section 1, line 22, after the words "Weekly benefit rate." insert new paragraph reading as follows:

"(1) With respect to an individual whose benefit year commences prior to October 1, 1955, his weekly benefit rate under each benefit determination shall be $\frac{2}{3}$ of his average weekly wage; provided, that such rate shall be computed to the next highest multiple of \$1.00 if not already a multiple thereof, and shall not be more than \$30.00 nor less than \$10.00."

On page 2, section 1, line 34A, delete "(1)" and insert in lieu thereof "(2)".

On page 2, section 1, line 34A, after the word "individual" insert the words "whose benefit year commences on or after October 1, 1955, and".

On page 2, section 1, lines 34A and 34B, delete the words "(as defined in subsection (u) of section 43:21-19 of this Title)".

On page 2, section 1, line 34G, delete "(2)" and insert in lieu thereof "(3)".

On page 2, section 1, line 34G, after the word "individual" insert the words "whose benefit year commences on or after October 1, 1955, and".

On page 2, section 1, lines 34G and 34H, delete the words "(as defined in subsection (u) of section 43:21-19 of this Title)".

On page 21, section 4, lines 288 and 289, delete the words "October 1, 1955, and shall apply only with respect to benefit years beginning on and after October 1, 1955" and insert in lieu thereof the word "immediately".

ASSEMBLY BILL No. 275

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning Assembly Bill No. 275 herewith, with my objections for reconsideration.

Section 1 of Assembly Bill No. 275 provides that any person who fails to relinquish a telephone party line after being requested to do so to permit another to place a call in an emergency in which property or life are in jeopardy, and any person who shall request the use of such party line by falsely stating that such need exists, shall be guilty of a misdemeanor, provided that the party line at the time of the request is not being used for any other such emergency call. Section 2 of the bill provides, as more particularly stated below, that every telephone directory printed and distributed after January 1, 1956 to the general public in this State or any portion thereof, other than a classified telephone directory, shall contain therein a warning notice setting forth the substance of the first section of the bill.

I approve of the over-all objective of the bill but I am of the view that two amendments are necessary.

Section 1 denounces the prohibited conduct as a misdemeanor. A misdemeanor is a crime and in addition to carrying an authorized maximum sentence of three years or a fine of \$1,000.00, or both, would result in the imposition of a criminal record upon conviction, with the other consequences incidental to conviction for crime. I believe that the penalty does not fit the offense and that the conduct should be denounced as a disorderly persons offense which carries an authorized maximum of one year imprisonment or a fine up to \$1,000.00, or both. Not only would this treatment be more just from the standpoint of the defendant but also it would aid the State in prosecution. Experience has indicated that grand juries are reluctant to return indictments where the facts are not sufficiently serious to warrant the imposition of a conviction for crime,

and thus offenses which warrant some punishment pass without any penalty whatever. It was this appraisal of the problem of enforcement which led the Legislature to downgrade assault and battery to a disorderly persons offense. See *State v. Maier*, 13 N. J. 235, (1953) at pp. 242, 243. I believe that the same considerations are applicable here.

Section 2 of the bill requires the notice to be printed in a telephone directory "which lists the call numbers of any telephones, *located within this State*, of any telephone exchange located within or *without this State*". (Emphasis added) This language might require, in the case of foreign exchange service as, for instance, where a subscriber in Newark has an additional call number listed on the New York City exchange or where a subscriber in Camden has an additional telephone call number listed on a Philadelphia exchange, that the telephone directories issued by telephone companies operating in New York and Pennsylvania would be required, in the case of directories issued to such subscribers, to print therein the required warning notice. Since foreign exchange service is predicated upon the subscriber having additional local exchange service, it would seem unnecessary to require the telephone directories, as in the above illustration of New York and Pennsylvania telephone companies, to include the mentioned warning.

The amendment hereinafter recommended will have the effect of providing that the warning will appear in all telephone directories which are delivered within the State of New Jersey to all residents within this State in connection with the telephone service provided to them, but not including the out-of-State directories which are delivered to a limited number of subscribers within this State.

I note that Section 2 of the bill provides for no specific sanction against a telephone company which fails to comply with these provisions. I merely note this omission and suggest no amendment since I am satisfied that the telephone companies will comply notwithstanding the absence of specific penal provisions.

Accordingly, I am returning Assembly Bill No. 275 for reconsideration and with the recommendation that the bill be amended in the following respects:

On page 1, section 1, line 10, delete the words "guilty of a misdemeanor" and insert in lieu thereof the words "a disorderly person".

On page 1, section 2, line 3, after the word "State" delete ", of" and insert the words "and served from".

On page 2, section 2, line 4, after the word "within" delete the words "or without".

Governor.

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL No. 334

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections, Assembly Committee Substitute for Assembly Bill No. 334.

The proposed bill would fix new minimum and maximum salary ranges for identification officers in counties with populations between 325,000 and 600,000 (Bergen, Union and Passaic Counties) and would authorize the boards of chosen freeholders in counties with a population in excess of 600,000 (Essex and Hudson Counties) to fix the salaries of such officers within their discretion upon the recommendation of the sheriff. The bill thus parallels Assembly Bill No. 375 of the 1954 Legislature which I returned without my approval.

Identification officers are employees of the county sheriffs. Prior to 1943, there was no statute governing the amount of their pay in any county. Chapter 191 of the

1000 MINUTES OF THE GENERAL ASSEMBLY

Laws of 1943 for the first time set up mandatory salary ranges for identification officers in counties having a population exceeding 300,000. The boards of chosen freeholders in the 15 other counties of the State have at all times fixed the salaries of identification officers according to their judgment and not pursuant to statutory mandate. This discretion accords with the sound principle of home rule that county expenditures for salary of employees other than constitutional and statutory officers should be set by the respective boards of chosen freeholders in view of their first hand grasp of all pertinent considerations.

By this bill, only Bergen, Union and Passaic Counties will have mandatory salary ranges for the identification officers. Camden County is excluded because of the repeal of P. L. 1943, c. 191 and its supplements, and the limitation of the application of this bill to counties having a population exceeding 325,000. In addition, the Assembly Committee Substitute for Assembly Bill No. 334 would restore to the boards of chosen freeholders in all first class counties the discretion to fix the salaries of identification officers.

I am not impressed with the need for statutory salary scales for identification officers in three counties only. While the identification officers perform important and responsible work in fingerprinting, there is no valid reason why they cannot in all counties look to the judgment of the boards of chosen freeholders for the amount of their pay. I am, further, concerned with the drastic scope of the salary increases proposed by this bill, for example, from a minimum of \$2,500.00 and a maximum of \$3,800.00 for identification officers to a minimum of \$4,000.00 and a maximum of \$5,400.00. Both under the existing law and the proposed legislation, the statutory maximum salaries are subject to increase by resolution of the board of chosen freeholders.

Accordingly, in accordance with sound legislative practice dealing uniformly and without arbitrary exceptions with all counties, I recommend the amendment of the Assembly Committee Substitute for Assembly Bill No. 334 to retain the repealers of existing statutes, as follows:

On page 1, section 1, lines 1 to 5, eliminate section 1 in its entirety.

On page 2, section 2, lines 1 to 3, eliminate section 2 in its entirety.

On page 2, section 3, lines 1 to 13, eliminate section 3 in its entirety.

On page 2, section 4, lines 1 to 4, eliminate section 4 in its entirety.

On page 2, section 5, lines 1 to 3, eliminate section 5 in its entirety.

On page 2, section 6, lines 1 to 3, eliminate section 6 in its entirety.

On page 2, section 7, lines 1 to 4, eliminate section 7 in its entirety.

On page 3, section 8, lines 1 to 7, eliminate section 8 in its entirety.

ASSEMBLY BILL No. 394

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration, with my objections, Assembly Bill No. 394.

This bill would amend the section of the disorderly persons act which now provides that any person who uses a narcotic drug for a purpose other than the treatment of sickness or injury "as prescribed or administered by a person duly authorized by law to treat sick and injured human beings" is a disorderly person. This bill would include "any person under the influence of a narcotic drug *not prescribed by a duly licensed physician.*" (Emphasis added).

The object of this amendment is to authorize the conviction of persons under the influence of narcotics without proof, required under present law, that the narcotics were administered in this State. This objective was one of the recommendations contained in the "First Report of the New Jersey Commission on Narcotic Control", dated February 21, 1955, but the bill does not accurately follow the recommendation there made.

The report at page 11 recommended that the section be amended to specify "any person under the influence or having internal possession of a narcotic drug, not prescribed by a duly licensed physician, etc. (rest of law the same)."

The recommendation clearly did not contemplate quasi-criminal liability where a narcotic drug was lawfully administered, although not upon the prescription of a duly licensed physician. Under existing laws persons other than a physician may legally administer narcotic drugs. This bill, accordingly, would result in the anomalous situation where some other person, such as a dentist, could lawfully administer such drug and the person under the resulting influence would be subject to a year's imprisonment by reason thereof. See section 24:18-22 of the Revised Statutes.

Accordingly, I am returning Assembly Bill No. 394 for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 8, after the word "prescribed", insert the words "or administered".

On page 1, section 1, line 8, delete the words "duly licensed physician" and insert in lieu thereof "person

duly authorized by law to treat sick and injured human beings”.

ASSEMBLY BILL No. 435

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning Assembly Bill No. 435 herewith, with my objections, for reconsideration.

This bill would amend section 18:7-64 of the Revised Statutes so as to increase from \$500.00 to \$1,000.00 the amount of supplies which a school board may purchase at any time without advertising. It further provides that no contract for repairing an existing schoolhouse shall be entered into without first advertising for proposals if the cost is more than \$2,000.00, as compared with the \$1,000.00 limit contained in the present law.

In 1949 this section was amended by raising the limit on supplies from \$250.00 to \$500.00 and on repairs from \$500.00 to \$1,000.00. That amendment reflected the rise in material and labor costs since the enactment of the pre-existing statute in 1930. Prices and labor costs have risen further since 1949 and no reversal of the trend is in sight. Accordingly, I think the increase in the limits provided for in this bill is warranted.

1004 MINUTES OF THE GENERAL ASSEMBLY

There has been some confusion as to the meaning of the term "supplies" as used in this section. One construction has been that this term does not include furniture and desks, apparently on the theory that "supplies" refers to items which generally have a useful life not exceeding one year, and hence that furniture and desks of any amount may be purchased without advertising.

Municipalities are required to advertise for bids for purchases of furniture, desks and other materials. There is no reason why school boards should not be compelled to do the same. I understand that during the past year there has been considerable criticism of school purchasing practices. I believe that at the time of increasing the amount of the purchase which can be made without advertising, the language of the section should be clarified specifically to set forth that materials, furniture and desks are included among the supplies for which there must be advertising in excess of the stated amount.

I am, therefore, returning Assembly Bill No. 435 for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 4, after the word "furnishing" insert "materials, desks, furniture or other".

On page 1, section 1, line 6, after the word "further" insert "materials, desks, furniture or other".

ASSEMBLY BILL No. 469

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith for reconsideration and with my objections, Assembly Bill No. 469.

This bill would amend section 38:23-1 of the Revised Statutes, which deals with leaves of absence without loss of pay or time for any officer or employee of the State or a county, school district or municipality in connection with engagement in field training as members of certain reserve components of the armed forces.

The statute presently is limited to engagement in field training. The bill would amend the statute to embrace other active duty as well. The existing act contains no express limitation on the amount of leave to which such officers or employees are entitled. This measure would provide that such leaves shall not be in excess of 45 days in any calendar year.

I cannot agree with the bill insofar as it would authorize leaves without loss of pay or time to an amount of 45 days. I, of course, approve of the participation by public employees in the program of national defense, but the payment of the full compensation for a period of that length in addition to the compensation received from the armed forces seems unreasonable.

I believe that leave without loss of pay or time for a period of two weeks is a fair contribution by the State and its subdivisions in furtherance of the objective of the bill. Although it is suggested, in support of the bill, that presently there is no limit on the amount of leave, the fact is that a limitation does exist because the statute now deals only with field training, and such training, with respect to reserve components, covers approximately two weeks. The bill, accordingly, makes the period of 45 days applicable to "other active duty" training. The origin of the 45-day period is not apparent since ordinarily the service school

courses which constitute "other active duties" and training are for a period of 90 days.

The present statute refers to "the organized reserve of the Army of the United States"; the Armed Forces Reserve Act of 1952 describes the reserve act as the "United States Army Reserve Act" and accordingly it would be appropriate to amend the law to set forth the new designation.

Accordingly, I am returning herewith Assembly Bill No. 469 for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, lines 4 and 5, delete the words "organized reserve of the Army of the United States" and insert in lieu thereof "United States Army Reserve".

On page 1, section 1, line 8, delete the figures "45" and insert in lieu thereof "two weeks".

Respectfully,

ROBERT B. MEYNER,

Governor.

ASSEMBLY BILL No. 503

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 503, with my objections, for reconsideration.

R. S. 45:24-9 presently provides that honorably discharged veterans may hawk merchandise upon a license issued by the county clerk. It accords the same privilege to exempt members of volunteer fire departments. Assembly Bill No. 503 would amend this section so as to authorize municipalities to prohibit such hawking on any public beach or public boardwalk or to require a second license for hawking thereon to be issued by the municipality, with further authority in the municipality to limit the number of licenses.

The subject of hawking by veterans has a lengthy history recently summarized in *Tagmire v. Atlantic City*, 35 N. J. Super. 11 (App. Div. 1955). As appears therein, it has been the policy of this State since 1904 to permit our honorably discharged veterans to hawk anywhere in the State upon obtaining a license from the county clerk. In recent years, there have been a number of efforts to curtail that right, essentially with respect to public beaches and boardwalks. In 1949, Governor Driscoll vetoed a bill which would have authorized the total prohibition of hawking in such places, expressing the view that a municipality might well be authorized to regulate and control hawking without being compelled to choose between unregulated hawking and a total prohibition of it. In 1950, an identical bill was introduced, but was amended so as to authorize only regulation of hawking on public boardwalks and beaches and in that form was approved. In 1952 the power of regulation was extended to hawking on streets and highways.

I have received an unusual quantity of communications for and against this bill. The license to hawk is a valuable recognition of the services rendered by the veterans to their government, and public beaches and boardwalks doubtless offer attractive opportunities for hawking. On the other hand, concentrations on a particular beach or boardwalk apparently present problems which cannot, as a practical matter, be met by the exercise of the existing local power to regulate.

After carefully considering the matter, I feel compelled to agree that the municipalities should have the power to prohibit all hawking or to limit the number of hawkers upon the basis of local determination. But if a municipality should authorize hawking to any number, preference should be given to persons holding licenses under the State law.

If hawking is thus confined by a municipality to a limited number of licenses, there must be some formula which will insure equality of treatment among these veterans. An appropriate formula should be set forth in the statute. Since the number of holders of licenses under the State law undoubtedly would exceed the number of local licenses authorized by a municipality, entitlement thereto should be determined by lot. Additionally, the present right of veterans to hawk without license fee should be continued.

Accordingly, I am returning herewith Assembly Bill No. 503 for reconsideration and with the recommendation that amendments be made to the bill as follows:

On page 1, section 1, lines 5 to 8, inclusive, after the word "except" in line 5, delete ", however, the aforesaid right to hawk, peddle and vend any goods, wares or merchandise or solicit trade shall not extend to or include any public beach or public boardwalk" and insert in lieu thereof the words "as hereinafter provided in section 2 of this act".

On page 2, section 2, line 2, delete the word "paragraph" and insert in lieu thereof the word "section".

On page 2, section 2, delete lines 4 to 13 inclusive, and insert in lieu thereof the following:

"in any municipality (a) in which there is in effect an ordinance adopted after the effective date of this act prohibiting all hawking, peddling and vending thereon, or (b) in which there is in effect an ordinance complying with the terms of this section and adopted after the effective date of this act providing for the issuance of licenses therefor, unless such person shall hold a license issued under such ordinance. The governing body of every municipality or other authority having control over any public beach or public boardwalk may by ordinance prohibit all hawking, peddling and vending on such beach or boardwalk or provide for the licensing of all persons who hawk, peddle or vend thereon, including a limitation upon the number of licenses which shall be issued; provided, however, that if the number of licenses shall be limited every ordinance so providing shall comply with the following provisions. There shall be published once in a newspaper circulating in the municipality a notice that applications for such

license may be filed with the clerk of the municipality by a specified date, not less than 10 days after such publication, and specifying the time and place for a public drawing to determine which applicants will receive a license. At the time and place so specified, all applicants shall be drawn by lot, and a list prepared showing the order in which the applications were drawn. Licenses shall be issued to the applicants in the order in which their applications are so drawn. Licenses so issued shall be renewable annually. New or additional licenses shall be issued to the applicants on said list in the order in which they appear, and all new applicants shall be added to the list in accordance with the date of application. Preference shall be given to persons holding licenses as set forth in section 1 of this act, in the initial issuance of licenses and in the issuance thereafter of new or additional licenses, and no fee shall be charged to such persons for the issuance or renewal of any license. The municipality or other authority may provide for forfeiture of a license upon conviction for a second or subsequent violation of ordinances regulating such hawking, peddling and vending."

On page 2, section 4, line 1, after the word "effect" delete the words "July 1, 1955" and insert in lieu thereof the word "immediately".

Respectfully,

ROBERT B. MEYNER,
Governor.

1010 MINUTES OF THE GENERAL ASSEMBLY

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY, }
EXECUTIVE DEPARTMENT, }
August 8, 1955. }

ASSEMBLY BILL No. 511

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith Assembly Bill No. 511, with my objections, for reconsideration.

This bill would establish a uniform non-contributory pension system. It is the recommendation of the legislative Commission to Study Non-Contributory Pensions, (J. R. 7, P. L. 1954) and is intended to replace many special pension acts as well as to forestall future special pension bills.

Specifically, the bill, as originally introduced, would permit any county, municipality or school district to retire any public employee who is not a member of and was not required by law to become a member of a contributory retirement system and who is either 65 years of age or permanently and totally disabled. The maximum benefits payable thereunder would be (a) 30% of final average salary if the employee has under 20 years' service and (b) 50% of final average salary if over 20 years' service. Prior to passage, several amendments, referred to hereinafter, were made.

I am in accord with the basic objective of this legislation and the recommendations of the Study Commission. There are, however, certain defects which require the return of this bill for amendment.

The bill permits counties, municipalities and school districts to grant non-contributory pensions and disability benefits to employees who are 65 years of age or over without regard to the length of service of such employee. Thus, disability or pension benefits could be given to an employee with only 1 day of service if he were 65 years of age or over, in an amount up to 30% of final average salary. I fear that this liberality could lead to abuses or unwarranted expenditure of public funds. I am accordingly recommending that a minimum requirement of 5 years of service for disability

benefits and 15 years of service for pension benefits be incorporated in the bill.

With regard to benefits for permanent and total disability, no provision is made for periodic re-examinations, up to age 65, to establish the continuance of such disability. Such a provision is usually included in pension acts, and I am recommending an amendment accordingly.

The bill fixes certain maximum amounts to such pensions and also fixes a minimum of 25% after 35 years' service and age 65. It allows discretion within these limits to the county, municipality or school district allowing the pension. It would be possible under the bill for pension and disability benefits to be fixed at varying percentages of final average salary so that each case might be dealt with separately without regard to uniform percentages within the county, municipality or school district. This could lead to inequality and discrimination. I believe that the bill should be amended so that all pensions and disability benefits shall be at percentages uniform within each county, municipality or school district as the governing body of each shall determine.

By amendment to the bill the words "shall at his request" were inserted so as to give the employee an absolute right to a pension. This was done upon the assumption that the employer had an absolute discretion to fix the pension from zero to the maximum. I have grave doubts that the language would permit this construction and fear the courts would conclude that the Legislature did not intend to give a mandatory right merely to a nominal sum. Inasmuch as there was no intention to impose such liability upon all counties, municipalities and school districts as would result from a *mandatory* non-contributory pension system, I am recommending, in the interest of clarification, the deletion of the words quoted above.

Finally, section 5 (b), in an amendment to the original bill, inadvertently contains the word "pension" rather than the term "total retirement allowance". If the word "pension" remained, the provision might be construed to mean that employees within the category there referred to could receive both pension and social security benefits totalling together more than 50% of the salary. I am recommending a change accordingly.

1012 MINUTES OF THE GENERAL ASSEMBLY

Accordingly, I am returning Assembly Bill No. 511 for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 7, after the word "years" delete the word "immediately" and insert in lieu thereof the words "of his employment".

On page 1, section 1, lines 8, 9 and 10, delete the sentence "If he has less than 5 years' service, the final average salary shall be his average base compensation for his total service for the employer."

On page 2, section 1, line 21, after the word "duties," insert the following: "Any person who is retired for permanent and total disability hereunder, and who is under the age of 65 years, shall undergo an annual medical examination by a physician or physicians designated by the county, municipality or school district paying pension benefits based upon disability to such person. If upon examination it is determined that such disability no longer exists, the benefits payable hereunder for disability shall cease. If a person receiving pension benefits based upon disability refuses to submit to examination, the county, municipality or school district paying such benefits shall discontinue same until such person submits to a physical examination."

On page 2, section 2, lines 3 and 4, delete the words "shall, at his request, or".

On page 2, section 5, line 1, after the word "shall" insert the following: "be fixed by the employer according to uniform percentages of final average salary applicable generally to all employees of such employer subject to the provisions of this act, which percentages shall be adopted by resolution, but which shall".

On page 2, section 5, line 10, delete the word "pension" and insert in lieu thereof "total retirement allowance".

On page 2, section 5, line 11, after the word "benefit." insert a new paragraph as follows:

"No employee shall be eligible for pension benefits based upon disability hereunder unless he shall have at least 5 years of employment continuously, or in the ag-

gregate, with the employer. No employee shall be eligible for pension benefits other than benefits based upon disability hereunder unless he shall have at least 15 years of employment continuously, or in the aggregate, with the employer.”

Governor.

ASSEMBLY BILL No. 518

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 518 for the following reasons:

This bill provides that the board of chosen freeholders of any county, which has granted to any organization composed of veterans of any war of the United States the use of any rooms in any building owned by the county, may contribute a sum not exceeding \$4,000.00 per annum to such organization for a public county veterans' service bureau in any such building and appropriate and raise funds annually therefor in the same manner as appropriations are made for other county purposes.

The second section of the bill would authorize, during the fiscal year in which the bill is adopted, any such board of chosen freeholders which has not made a provision in its annual budget for such contribution to appropriate and use county funds not otherwise appropriated or dedicated or to appropriate and raise such funds during the current fiscal year and borrow the same and issue obligations to raise such funds.

These veterans' organizations are private corporations or associations. They are not instrumentalities or agencies of government. This bill accordingly would result in the donation of public moneys to such private corporations or associations for use in furthering an objective for which they were formed. The objective of these organizations is in the public interest, but constitutional provisions prohibit the action which this bill would authorize.

During the nineteenth century many abuses arose out of donation of public land and money to privately-owned enterprises. As a result, the 1844 Constitution was amended in 1875 to prohibit such donations of public property. These provisions were continued in substantially the same form in the 1947 Constitution in two sections. Article VIII, Section III, paragraph 2, provides:

“No county, city, borough, town, township or village shall hereafter give any money or property, or loan its money or credit; to or in aid of any individual, association or corporation, or become security for, or be directly or indirectly the owner of, any stock or bonds of any association or corporation.”

Article VIII, Section III, paragraph 3, provides:

“No donation of land or appropriation of money shall be made by the State or any county or municipal corporation to or for the use of any society, association or corporation whatever.”

The constitutional mandate prohibits the State or any county or municipality from donating property or moneys to private associations, even though engaged in activities beneficial to the public or activities which government could itself undertake through its own instrumentalities. See *Wilentz v. Hendrickson*, 133 N. J. Eq. 447, 474 to 477, (Ch. 1943), aff'd. 135 N. J. Eq. 244 (E. & A. 1944).

I do not wish to imply by my action on this measure or other comparable bills that I do not approve of the services rendered by such veterans' groups. It was apparently the intention of those careful and conscientious men who drafted the Constitution that the cost of providing such private services which benefit the public should be assumed by those members of the public who wish to give their support voluntarily, rather than be imposed upon all of the residents of

the governmental unit through taxation. Such concept is entirely in accord with the general philosophy of individual initiative which has contributed to the greatness of our country.

I realize that it is not politic to refuse to approve of measures such as this. I am obliged, however, by the obligation of my office to uphold the provisions of the State Constitution.

For these reasons, I am constrained to return Assembly Bill No. 518 herewith without my approval.

Respectfully,

[SEAL]

ROBERT B. MEYNER,
Governor.

Attest:

ROBERT J. BURKHARDT,
Secretary to the Governor.

Mr. Barnes moved that the message be spread in full upon the minutes.

Which motion was adopted.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL No. 525

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 525 for the following reasons:

This bill would require the submission to the voters in those counties which have not adopted voting machines, the question of the use of voting machines in elections in each such county. Such question would have to be submitted to the voters within 12 months after the effective date of the bill at either a general election or a primary election. It provides for the certification of the result of the referendum to the board of chosen freeholders within 10 days after the election.

The bill thus purports to proceed on the thesis that the introduction of voting machines shall depend upon local decision within each county. Even upon that questionable proposition the bill is incomplete. It contains no provision whatever for the implementation of the popular will as thus expressed. It does not require the board of freeholders to act in accordance with an affirmative result upon a referendum, but rather would permit a favorable determination of the voters to repose as a sterile expression of their wishes.

Under existing law the freeholders of a county are empowered to acquire voting machines for use in elections in their counties. It is apparent, therefore, that counties affected by this bill would be those in which the members of the boards of freeholders do not favor installation of such machines.

It should also be noted that the bill would authorize the referendum to take place at a primary election. The vote at primary election is comparatively small and not truly representative of the total electorate. It would seem most unwise to authorize the submission of such an important matter to the people at a primary election.

I wish to state unequivocally that I favor compulsory installation of voting machines in all counties in the State. The ballot is an essential heritage of the American people, and it is therefore imperative that everything possible be done to insure accuracy and simplicity in all elections. The entire State is concerned with the mode of voting. That matter should not be left to separate determination by each county. In the past the Legislature did not hesitate to compel the introduction of voting machines in a county which failed voluntarily to provide for them.

Provisions for financing the acquisition of voting machines can be established so that no county will be subjected to an undue burden. It is also significant that the installation of voting machines will save enough money over a period of 15 years to pay for the purchase price of the machines. The savings to the public are even more important where there are recounts or other questions concerning the election. I sincerely hope that the Legislature will adopt legislation designed to deal with this situation in a forthright manner.

1090 MINUTES OF THE GENERAL ASSEMBLY

It is of note that not only the Election Laws Study Commission, but other groups interested in election law reform, have voiced opposition to this measure based upon substantially the same conclusions as I have reached.

At the present time the election laws of this State are in a wretched state of confusion. The adoption of voting machines throughout the State would constitute a forward step in simplifying voting procedures.

For these reasons, I am returning herewith Assembly Bill No. 525 without my approval.

Respectfully,

[SEAL]

ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 119

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the Constitution, I am returning herewith Assembly Bill No. 119, with my objections, for reconsideration.

The bill as introduced provided for an increase to \$12,000.00 per year of the salaries of the county clerk, surrogate, sheriff and register of deeds in counties having a population of more than 375,000 and less than 600,000. The bill was amended in the Senate to lower the minimum population requirement to 325,000.

As originally introduced, the bill applied to Bergen and Union Counties. By the amendment mentioned above, it would apply also to Passaic County. Under existing law, the salaries for all of these offices (Bergen County does not have a register of deeds) are the same in all 3 counties.

Since the bill is thus limited to 3 counties and does not seek to revise the compensation payable to holders of these offices throughout the State, the justification must be found in new circumstances substantially peculiar to the 3 counties. The increase in population and business activities in Bergen and Union Counties have been quite pronounced, and hence it is fair to conclude that the activities and responsibilities of the officers in those counties have increased accordingly. No such changes have occurred in Passaic County to a degree significant with respect to this subject matter. Hence, although I accept the legislative determinative as to Bergen and Union Counties, I do not feel justified in approving the increases as to Passaic County. I regard Passaic County as more comparable with Camden County (the population differential is about 37,000 in favor of Passaic), where the salaries payable to the officers here concerned are the same as those now payable with respect to Passaic County.

Therefore, I am returning Assembly Bill No. 119 herewith for reconsideration and with the recommendation that the bill be amended as follows:

On page 1, section 1, line 2, delete the figure "325,000" and insert in lieu thereof the figure "375,000".

On page 1, section 2, line 2, delete the figure "325,000" and insert in lieu thereof the figure "375,000".

On page 1, section 3, line 2, delete the figure "325,000" and insert in lieu thereof the figure "375,000".

On page 1, section 4, line 2, delete the figure "325,000" and insert in lieu thereof the figure "375,000".

ASSEMBLY BILL No. 433

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 433.

This bill would authorize savings banks to invest in bonds payable from revenues derived from a utility owned or operated by a political unit as therein defined. The investments so authorized are in addition to investments now or hereafter authorized by other statutes to be made in revenue bonds of such political units.

Section 2 of the bill specifies certain requirements which must be met by the revenue bonds to qualify for investment. The requirement of Section 2 that the bonds "are not in default at the time of investment" seems inadequate. I recommend an amendment which would substantially match the existing requirement with respect to municipal bonds and a further minor amendment in the interest of clarity.

Section 3 of the bill restricts the quantum of investment in such bonds by a savings bank. The limitations therein set forth seem to me to be insufficient and accordingly I suggest the amendments hereinafter set forth.

Accordingly, I am returning Assembly Bill No. 433 for reconsideration and with the recommendation that amendments to the bill be made as follows:

On page 3, section 2, line 15, after the word "investment" insert "and were not within 5 years prior to the time of investment in default for a period of more than 6 months in the payment of any part of the principal or interest thereon".

On page 3, section 2, line 31, after the word "investment" insert the words "at least".

On page 3, section 3, line 4, delete the figure "20" and insert in lieu thereof the figure "10".

On page 3, section 3, line 7, delete the figure "2" and insert in lieu thereof the figure "1".

On page 3, section 3, line 10, delete the words "outside, the State of New Jersey".

On page 4, section 3, line 11, delete the figure "20" and insert in lieu thereof the figure "5".

On page 4, section 3, lines 11 and 12, delete the words "any such issue (including equal or prior liens)" and insert in lieu thereof "the total amount of all revenue bonds of that unit issued and outstanding".

ASSEMBLY BILL No. 592

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith, for reconsideration and with my objections, Assembly Bill No. 592.

This bill, which would amend the "Public Employees' Retirement-Social Security Integration Act" (P. L. 1954, c. 84), relates to employees of the State whose compensa-

tion is paid in whole or in part by any county or municipality. The amendments would provide that: (1) all State employees paid by a county which has not adopted the Public Employees' Retirement System and which has its own pension system would be ineligible for membership in the State system and would be considered as a county employee for pension purposes; (2) "all members of the judiciary who are State employees other than judges of the Superior and Supreme Courts" would nonetheless continue to be eligible for membership in the State system; (3) any such State employee who is a member of the State system on the effective date of the bill could elect within 90 days to remain in the State system; and (4) the free veterans' pension would remain available to such State employees not in the State system.

The State system has been adopted by 17 counties and one county has made no provision for general contributory pension coverage. The problem to which this bill is addressed arises with respect to the 3 counties which have their own pension systems. Those counties are Essex, Hudson and Passaic.

The problems concerning the 3 counties appeared after the adoption of Chapter 84 of the Laws of 1954. Prior thereto State employees who were paid by the counties in most instances considered themselves to be county employees and joined and contributed to the county pension system. Under Chapter 84 of the Laws of 1954 all State employees, regardless of the source of their compensation, became eligible for membership in the State system; and all State employees who were veterans automatically became members of the State system unless they affirmatively elected to reject membership. The adoption of Chapter 84 of the Laws of 1954 led to consideration of the eligibility of such State employees for membership in the county systems and apparently doubts have arisen as to such eligibility. It is claimed that some of these State employees prefer to remain in the county systems and the county systems claim that the removal of such employees from them will adversely affect the county pension programs. The purpose of the bill accordingly is to permit such State employees to elect within a specified period whether they wish to be in the county system or in the State system.

- These elections would be limited to existing employees. Future employees would be denied an opportunity to join the State system and would be relegated to a choice of joining the county system or none at all.

Another consequence of the bill would be that such employees, present or future, who are veterans could receive the benefits of the free Veterans' Retirement Act despite the policy established by the adoption of Chapter 84 of the Laws of 1954 that State employees shall thereafter be ineligible for the benefits of the free Veterans' Retirement Act.

As to State employees, I believe that the policy of Chapter 84 of the Laws of 1954 requiring them to be in the State system should be followed in the absence of strong considerations justifying a departure from it. I am willing to accept a narrow departure in the light of the hardship to the individual employees and to the county systems by reason of the obscurity which attended the relationship of the State employees described above to those systems. Such departure from the policy of Chapter 84 of the Laws of 1954 should be limited to an election by such State employees as in fact contributed to a county system upon the effective date of this amendment to be members of the county system or the State system, by so electing within a specified period. With respect to the free Veterans' Retirement Act, its availability should be restricted to those veterans who were contributing to a county system on that date and elect not to join the State system. The controlling considerations which lead to these exceptions do not obtain in the case of such employees as are employed after the effective date of this amendment and hence they should be eligible for membership only in the State system.

I, therefore, recommend amendments in harmony with the views set forth above, and providing that the governmental entity paying the compensation pay the employer's contribution.

Accordingly, I am returning Assembly Bill No. 592 herewith for reconsideration and with the recommendation that it be amended as follows:

On page 1, section 1, line 10, after the word "State" insert the words " , employed on or before the effective date of this amendatory act, ".

On page 1, section 1, line 15, after the word "statute," insert the words "and who were members of such system on the effective date of this amendatory act and do not apply for withdrawal from such system within 60 days from such effective date,".

On page 1, section 1, line 15, after the word "county" insert "or municipal".

On page 2, section 1, lines 19 through 24, delete the entire subsection (c) and substitute in lieu thereof the following:

"(c) Except as provided in subsection (b) hereof, an employee of the State whose compensation is paid in whole or in part by any such county or municipality or by any board, body, commission or agency of any such county or municipality maintained by funds supplied by such county or municipality shall be eligible for membership in the Public Employees' Retirement System and shall not be a member of any county or municipal pension system by reason of such State service. Any such veteran employee who is not a member of such county or municipal pension system on the effective date of this amendatory act may within 60 days from such effective date apply for prior service credit as provided in section 60 of this act, and shall be entitled to same as therein provided. The county or municipality shall be deemed to be the employer of such employees of the State for the purposes of this act and shall have the obligations as such employer as set forth in section 81 of this act.

"Any employee who applies to withdraw from a county retirement system, as provided in subsection (b) hereof, shall, within said 60-day period, file a copy of such application with the Board of Trustees of the Public Employees' Retirement System together with his application for membership in the Public Employees' Retirement System. The county retirement system to which such employee has made contributions shall cause to be transferred to the Public Employees' Retirement System within 90 days thereafter the amount of such employees' contributions to such county retirement system, without interest, for which such employee shall receive prior service credit for the time of

his membership in such county retirement system. Any such veteran member who, in his application for membership in the Public Employees' Retirement System requests prior service credit as provided by section 60 of this act, shall be entitled to same as therein provided."

On page 2, section 1, lines 25 through 35, delete the entire subsection (d),

On page 2, section 1, line 36, delete "(e)" and insert "(d)".

On page 2, section 1, line 36, delete the words "a member of" and insert in lieu thereof "eligible for membership, by reason of subsection (b) hereof, in".

On page 2, section 1, line 37, after the word "System," insert the word "and".

On page 2, section 1, lines 44 and 45, delete the words " , to the extent of the portion of said salary paid by said county or municipality".

ASSEMBLY BILL No. 239

To the General Assembly:

I am returning herewith, without my approval Assembly Bill No. 239 for the following reasons:

This bill would amend the definition of "average salary" in the Consolidated Police and Firemen's Pension Fund upon the basis of which the amount of pension benefits are determined. Under the present law "average salary" is defined as "the average annual salary paid during the last 3 years of a member's service". This bill would change the definition to "the average highest annual salary paid during any 3 consecutive years of a member's service".

The bill would introduce a new concept in this State in the method of determining the amount of the pension allowance of public employees. Public pension systems have been established upon the assumption that an employee will receive his highest salary during the period immediately prior to retirement, and the benefits and contribution rates have been calculated accordingly.

While this bill might benefit only a few individuals, it would establish a principle to which members of other pension funds would have equal equitable claim. In addition to the seven pension funds administered by State agencies, there are a large number of locally administered pension funds. None of these funds base benefit allowance upon salary other than that received during the years immediately prior to retirement.

Public employees who are members of one fund are concerned with preferential benefits afforded by another pension fund and insist upon parallel benefits. All public employees should be treated equally for comparable service and contribution. If the change suggested by this bill were also made with respect to other public pension systems, the total financial impact upon existing public pension funds could be very great, and it would result in a substantial increase in pension costs to public employers.

It is significant that the pension fund which would be affected by this bill is already one of the most liberal in that it takes into account a three-year period while others require a five-year base.

The State Government has a definite interest in the Consolidated Police and Firemen's Pension Fund as well as other pension funds for local government employees. In 1952 the police and firemen's pension funds were in serious financial difficulty and the State at that time assumed a large financial obligation in order to correct that situation. The State's contribution to the Consolidated Police and Firemen's Pension Fund for the current year alone is \$4,231,573.76. The assumption by the State of this obligation was based upon the understanding that the benefits of the fund would not be changed. There should be no increase unless there is a patent inequity and no such inequity has here been revealed.

For these reasons, I am returning herewith, without my approval, Assembly Bill No. 239.

Respectfully,

ROBERT B. MEYNER,

Governor.

ASSEMBLY BILL No. 242

To the General Assembly:

I am returning herewith without my approval, Assembly Bill No. 242 for the following reason:

This bill is a companion to Assembly Bill No. 239 and would make comparable amendments to the Police and

Firemen's Retirement System. The definition of "average final compensation" which now is "the average annual earnable salary of an employee during his last 5 years of service as an employee", would be changed to "the average highest annual earnable salary of an employee during any 5 consecutive years of service as an employee."

For the reasons set forth in my message on Assembly Bill No. 239, I am returning herewith, without my approval, Assembly Bill No. 242.

ASSEMBLY BILL No. 296

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 296 for the following reasons:

Assembly Bill No. 296 provides that the governing body of any city not bordering on the Atlantic Ocean and having more than 8,000 and less than 9,000 inhabitants, may by ordinance fix the annual salaries to be paid to its members, not to exceed \$900.00 per annum for any member elected at large or \$800.00 for each member otherwise elected. Provision is made for a referendum upon petition of a prescribed percentage of the voters.

The classification of cities on the basis of the narrow population range of 8,000 to 9,000 is artificial and doubtless the intention is to affect a single municipality. I am not aware

of any appropriate consideration which would justify this classification in the light of the constitutional mandate that laws relating to this subject shall be general, except where the constitutional provisions relating to the enactment of private, special or local laws are satisfied, and those provisions have not here been invoked.

This bill is one of a number which I have returned to the Legislature without approval because of conflict with these constitutional requirements. Legislation of this kind would worsen the existing pattern of multifarious and illogical treatment of municipal affairs. The subject of compensation for members of governing bodies of municipalities lends itself to equal treatment upon the basis of natural and rational groupings, and the Constitution requires that such be the approach to this matter.

I am therefore returning Assembly Bill No. 296 herewith, without my approval.

Respectfully,

ROBERT B. MEYNER,

Governor.

ASSEMBLY BILL No. 380

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 380 for the following reasons:

Assembly Bill No. 380 would amend R. S. 40:40-1 so as to eliminate coroners in counties having between 500,000.

and 600,000 inhabitants. Only one county, to wit, the County of Bergen, answers this description.

As originally introduced, the bill provided for the elimination of coroners in counties having a county physician or county chief medical examiner. The objective of a bill in that form is understandable since in such counties the primary function of the coroner is now in the hands of such physician or examiner, and much can be said for the elimination of what has there become, as a practical matter, a vestigial office. However, if a measure of that kind were to be enacted, it would be necessary to make provision for the performance by some other official of the present duty of a coroner to act where the sheriff is deceased, disqualified or disabled.

In the form in which it reaches me, the bill must be disapproved, not only because it fails to provide for the performance by some official of those duties of a coroner which are not performed by the county physician or chief medical examiner, but also because it presents a classification which has no rational basis. There is nothing about a county having between 500,000 and 600,000 inhabitants which, with respect to the subject of coroners, differentiates it from other counties which also have such physician or examiner. The bill accordingly offends the constitutional mandate with respect to private, special or local laws in Article IV, Section VII, paragraph 9 of the Constitution of 1947.

I am, therefore, returning Assembly Bill No. 380 herewith without my approval.

Respectfully,

ROBERT B. MEYNER,

ASSEMBLY BILL No. 423

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 423 for the following reasons:

The bill provides that the Director of the Division of Motor Vehicles in connection with his power to suspend or revoke motor vehicle driver's license, "shall consider as sufficient grounds for suspension of such license" of a person under 18 years of age, a single offense involving a moving motor vehicle.

Notwithstanding the use of the word "shall" in the language quoted above, I gather it is not the purpose of the bill to *require* the suspension of a license in the circumstances set forth therein, but merely to declare that a single violation shall suffice without restricting the Director's discretion. This being so, the bill will not add to the authority now vested in the Director. The Director of Motor Vehicles by virtue of Section 39:5-30 of the Revised Statutes now has discretionary power to revoke or suspend the driving privileges of any person for the violation of any of the provisions of the Motor Vehicle Act or on any reasonable grounds, regardless of the age of the offender.

Not only would this bill fail to enhance the Director's power, but on the contrary, the bill might serve to create doubts as to whether it curtails the existing authority. Two avenues for debate suggest themselves. The bill would declare a single offense to be sufficient grounds for "suspension" whereas under existing law the Director may revoke for a single offense. The question accordingly might be raised as to whether this bill was intended to deprive the Director of the power of revocation. The second area of doubt which could arise relates to the power of the Director to suspend or revoke for a single offense committed by a licensee who is 18 years or older. It might be well argued that a legislative declaration of the sufficiency of a single offense by a licensee under the age of 18 indicates that a single offense should not be deemed sufficient with respect to a licensee who has attained the age of 18.

I am sympathetic with the evident purpose of the bill to assist the Director in enforcement of law in this vital area, and although I believe that I cannot approve the bill for the reasons set forth above, yet the Director may properly accept the passage of this bill by the Legislature as an expression of its wish that in the administration of the motor vehicle laws, the Director be most circumspect in dealing with offenders who are under the age of 18.

For the reasons above stated, I am constrained to return Assembly Bill No. 423 without my approval.

Respectfully,

ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 439

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 439 for the following reasons:

Assembly Bill No. 439 would amend and supplement provisions of the banking law (P. L. 1951, c. 167) relating to investment by savings banks "in corporate interest-bearing securities not otherwise eligible for investment by savings banks". The bill would delete the word "corporate" and thus leave the broad term "interest-bearing securities" without identification or restriction as to the maker or obligor.

The effect of this bill would be to authorize investment, for example, in revenue bonds of political units or agencies,

without however specifying the tests for determination of safety of investment which authorities recognize to be required by prudence. The bill thus would be contrary in thesis to Assembly Bill No. 433 of this session which prescribes such requirements for investment in such revenue bonds, and which I am returning with recommendations for amendments. If accepted, the amendments would tighten the tests for safe investment contained in that bill. The public is vitally concerned with the safety of investment by savings banks. Statutes relating to these investments must contain adequate safeguards.

Since Assembly Bill No. 439 would thus open the door to investment without said restrictions and in fact would conflict with the approach evident in companion legislation, I am returning Assembly Bill No. 439 herewith, without my approval.

Respectfully,

ROBERT B. MEYNER,

Governor.

ASSEMBLY BILL No. 443

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 443 for the following reasons:

This bill would provide that every sergeant-at-arms of the Superior Court appointed to attend daily upon the Law Division or Chancery Division of that Court who has or shall have so served continuously for 5 or more years shall not be removed from his position or office except for good cause shown.

This bill accordingly would give tenure to these employees although at the time of their appointment it was understood that they would serve at the pleasure of the judicial officer who made the appointment.

Upon principle I am reluctant to approve of measures which grant tenure where the initial engagement was not pursuant to competitive examination, or legislation which otherwise assured tenure. In this particular situation, additional considerations weigh against the bill. I have been advised that the nature of the services performed by sergeants-at-arms makes it essential that they be persons in whom the judge has complete personal confidence, and that variations in the duties expected to be performed by sergeants-at-arms by different judges may mean that a sergeant-at-arms satisfactory to one judicial officer may not be wholly satisfactory to another.

I am, accordingly, returning Assembly Bill No. 443 herewith, without my approval.

Respectfully,

ROBERT B. MEYNER,
Governor.

ASSEMBLY BILL No. 600

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 600 for the following reasons:

This bill would amend P. L. 1948, Chapter 199, which prescribes the procedure for the enactment of private, special

and local laws regulating the internal affairs of a municipality or a county.

The present statute provides that a petition for such private, special or local law must be authorized by an ordinance of the municipality or a resolution of the board of chosen freeholders, as the case may be, or by a specified percentage of the voters, before it may be submitted to the Legislature. Following local action authorizing the petition, a notice of intention to apply to the next session of the Legislature for such law must be published. If the Legislature passes such law, it does not become operative until adopted by the voters of the municipality or county unless otherwise specifically prescribed in such law.

Assembly Bill No. 600 would amend the existing statute to allow the petition to the Legislature to be initiated by a resolution of the governing body of the municipality or county. It would retain the requirement for a public notice of intention to apply to the Legislature but would permit such notice to be given by posting it in the office of the clerk of the municipality or county, as the case may be. Only after the Legislature passes the private, special or local law would the bill require municipal action to be taken by ordinance and a law so adopted by the local governing body would become effective 30 days after the publication of the ordinance unless the voters petition for a referendum.

The effect of the enactment of Assembly Bill No. 600 would be to eliminate any significant public notice to the citizens of the community concerned until after the Legislature has already acted, whereas, under the existing statute requiring initiation by ordinance, publication occurs at that point. The existing additional requirement for the publication of the notice of intention would, by this bill, be reduced to the not too meaningful measure of a posting of the notice in the clerk's office.

I gather that this bill was introduced because of the considerable number of messages in which I was constrained to return without approval sundry bills which were intended to have private, special or local effect but which were phrased in language which superficially purported to be general in effect. The thought underlying this bill apparently is that if the procedure for the adoption of such laws

were simplified, bills intended to have only private, special or local effect would be cast in such terms and thus the objectives would no longer be sought to be achieved by the untenable indirection of irrational classifications.

This bill accordingly raises an important question of policy. Article IV, Section VII, paragraph 9 provides that the Legislature shall not pass any private, special or local law regulating the internal affairs of municipalities formed for local government and counties, except as otherwise provided in the Constitution. Paragraph 10 of the same article and section authorizes private, special or local laws within that area and paragraph 8, dealing with all private, special or local laws, requires "public notice of the intention to apply therefor" prior to the passage thereof and authorizes legislation to prescribe the manner of such notice.

Although the Constitution thus permits legislation to formulate the details of the procedure to be used with respect to such laws, it seems to me that the guiding thesis of the Constitution is that laws should ordinarily be general in application and that private, special or local laws should be distinctly exceptional. If this principle were abandoned, we might, by such private, special or local legislation, achieve a confusion in laws applicable to municipal affairs exceeding even the perplexing and disturbing condition which already characterizes laws relating to this important field.

Accordingly, upon the basis of policy I cannot approve of a bill which would ultimately encourage legislation of this kind. I agree, of course, that there should not be artificial or unnecessary obstructions. Yet the process should be attended by provisions which will assure to the local citizenry full notice and opportunity to be heard at the local level before the Legislature and Governor are asked to concern themselves with the proposal. I believe that a good deal of the legislation heretofore introduced with the appearance of generality but intended to have purely localized effect would not have survived scrutiny by the citizens concerned if the measures had been advanced in accordance with existing law. A process in which these private, special or local laws may become accomplished facts without an opportunity to be heard by the citizens who must foot the consequences of such legislation, except by the difficult tech-

nique of a petition for referendum at that late stage, would not in my view serve the public interest.

I am therefore returning Assembly Bill No. 600 herewith, without my approval.

Respectfully,

Mrs. Dwyer, Chairman of the Committee on Education, reported

Assembly Bill No. 556,

With the following committee amendments, which were read by the Clerk:

Amend page 1, Title, line 1, after "amend" insert "and supplement".

Amend page 1, section 1, lines 5 to 8, inc., omit. Insert: " 'Average daily enrollment,' shall mean the average daily number of full-time pupils enrolled in a public school during a school year; provided, however, that in determining for budget purposes the estimated amount of State aid, the commissioner shall use for average daily enrollment the number of full-time pupils enrolled on the last school day of September."

Amend page 2, after section 2, insert "3. Section 13 of the act of which this act is amendatory is amended to read as follows:

13. On or before November 15 in each year, the commissioner shall estimate the amount necessary to be appropriated to carry out the provisions of this act for the succeeding school year and shall determine for budget purposes the amounts estimated to be payable to each of the counties and districts under this act for such succeeding school year.

Except as to the sums to be ascertained and paid as county aid, transportation aid and aid for atypical children, the commissioner shall make such determination for budget purposes upon the basis of the number of pupils enrolled on the last school day of September of the current school year and the local fair share determined for the current calendar year. The payments for transportation aid and aid for atypical children to be made pursuant to this act shall be made upon the basis of operating statistics of the second preceding school year.

On or before September 15 of such succeeding school year, the commissioner shall make his final determination of the payments to be made under this act for said school year, except county aid, transportation aid and aid for atypical children, upon the basis of the average daily enrollment of the preceding school year.

4. For the school year 1956-1957 the commissioner shall forthwith make the estimate of the amount payable under this amendatory act, upon the basis of the number of pupils enrolled on September 30, 1955, and shall on or before January 1, 1956, or as soon thereafter as is feasible, notify each school district as to the additional State aid estimated to be payable under this act for the school year 1956-1957."

Amend page 2, section 3, line 1, omit "3." insert "5."

Amend page 2, section 3, line 1, omit "July 1, 1956" insert "immediately."

Mrs. Dwyer moved the adoption of the committee amendments to Assembly Bill No. 556.

Which motion was adopted.

Assembly Bill No. 556, entitled "An act to amend 'An act concerning State aid for schools, making an appropriation therefor, and repealing P. L. 1946, c. 63, P. L. 1948, c. 66, P. L. 1951, c. 227, sections 18:10-49, 18:12-4 through 18:12-9, and 18:15-6 through 18:15-16 of the Revised Statutes and amendments and supplements thereto,' approved June 30, 1954 (P. L. 1954, c. 85),"

As amended,

Was taken up, read a second time, considered by sections, agreed to and ordered to have a third reading.

Mr. Haines offered the following resolution, which was read by the Clerk and adopted by the following vote:

Pursuant to Paragraph 6 of Section IV of Article IV of the Constitution, the General Assembly does resolve that Assembly Bill No. 556 is an emergency measure, and that it proceed forthwith from second to third reading.

In the affirmative were—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Bowser, Crane, Deamer, Del Tufo, Dwyer, Field, Franklin, Gant, Glenn, Gray, Haines, Hauser, Hughes, Hyland, Jamieson, Junda, Kay, Kraus, Kurtz, Lassans, Lazzio, Maebert, Marryatt, Metzger, Mills, Mintz, Mosch, Musto, Newton, Ozard, Perfette, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Stepacoff, Stewart, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet, Waddington, Werner—51.

In the negative—None.

Assembly Bill No. 556, entitled "An act to amend 'An act concerning State aid for schools, making an appropriation therefor, and repealing P. L. 1946, c. 63, P. L. 1948, c. 66, P. L. 1951, c. 227, sections 18:10-49, 18:12-4 through 18:12-9, and 18:15-6 through 18:15-16 of the Revised Statutes and amendments and supplements thereto,' approved June 30, 1954 (P. L. 1954, c. 85),"

By emergency resolution,

Was taken up, and, on motion of Mr. Haines, was read a third time by its title, and passed by the following vote:

Was taken up on second reading.

Mr. Field offered the following amendments to Senate Bill No. 389, which were read:

Amend page 1, Title, delete entire title and substitute the following:

"An act concerning County Park Commissioners in certain counties and amending 'An act concerning county parks, playgrounds, and recreation places, and supplementing chapter 37 of Title 40 of the Revised Statutes,' approved May 3, 1946 (P. L. 1946, c. 276),"

Amend page 1, section 1, lines 1 to 13, strike out entire section and substitute the following:

“1. Section 2 of the act of which this act is amendatory is amended to read as follows:

2. In any county which *has adopted or shall adopt* the provisions of this act, the board of chosen freeholders shall by resolution passed by the affirmative vote of a majority of the whole board, elect a County Park Commission consisting of ([5] 9 residents of the county, to be known as ‘the County Park Commission’ (inserting name of county).

In any county which has heretofore adopted the provisions of this act the said County Park Commission shall consist of 9 members instead of 5 members and the 4 additional members shall be appointed by resolution passed by the affirmative vote of a majority of the whole board of chosen freeholders.”

Amend pages 1 and 2, section 2, lines 1 to 22, strike out entire section and substitute the following :

“2. Section 3 of the act of which this act is amendatory is amended to read as follows:

3. The commissioners first elected shall hold office for the term of 1, 2, 3, 4 and 5 years respectively, as indicated and fixed by the board of chosen freeholders. All commissioners thereafter elected shall serve for the term of 5 years and all vacancies shall be filled by the board of chosen freeholders for the unexpired term only. The members of the commission shall serve without compensation but their necessary expenses shall be allowed and paid from funds of the commission by the county treasurer upon warrants signed by the president or vice-president and secretary.

In counties now having a County Park Commission under the provisions of the act of which this act is amendatory and consisting of 5 members, the additional 4 members to be appointed under this amendatory act shall hold office for the terms of 1, 2, 3 and 4 years, respectively, as indicated and fixed by the board of chosen freeholders, and thereafter all such commissioners shall be appointed for a term of 5 years, and all vacancies shall be filled by the board of chosen freeholders for the unexpired term only. In counties not now having such a County Park Commission the commissioners first appointed shall hold office, as follows: 2 each for terms of 1, 2, 3 and 4 years and 1 for 5 years, respectively, as indicated and fixed by the board of chosen

freeholders, and thereafter all commissioners shall be appointed for terms of 5 years and all vacancies shall be filled by the board of chosen freeholders for the unexpired terms only.

Mr. Field moved the adoption of the committee amendments to Senate Bill No. 389.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
December 19, 1955. }

ASSEMBLY BILL No. 515

To the General Assembly:

I am returning herewith, without my approval, Assembly Bill No. 515 for the following reasons:

This bill would amend the act establishing the Employees' Retirement System of Essex County (Chapter 160, P. L. 1943) in a number of far-reaching respects. It would enlarge almost every benefit for members and their de-

pendents. Among such enlargements of benefits are the following:

(1) The maximum retirement allowance would be increased from \$2,500.00 to \$4,000.00 per year for persons joining the fund after April 8, 1943. There would continue to be no maximum with regard to persons who were members on that date.

(2) Non-members who were under age 45 at the time of appointment would be permitted to join the system. The present law fixes an age limit of 40.

(3) Retirement on a pension equal to $\frac{1}{2}$ salary would be permitted after 30 years of service. This pension would be increased by $\frac{1}{2}$ of salary for each year of service over 30 up to a maximum pension of $\frac{3}{4}$ of salary. Thus a member who began employment with the county at age 18 could retire at age 48 with a pension equal to $\frac{1}{2}$ salary and at age 58 with a pension of $\frac{3}{4}$ salary. The present law provides for a pension at $\frac{1}{2}$ salary after 35 years of service. Thus, in addition to increasing the pension, the bill would permit full retirement benefits at an age lower than the age possible even under pension systems applicable to hazardous employment, as for example, that of policemen and firemen.

(4) These increased pension payments would be continued to widows upon the death of a retired member, as is now provided by law, but the maximum rate would be $\frac{3}{4}$ salary whereas presently it is $\frac{1}{2}$ salary. And additionally, in the case of death after service disability retirement, the bill would accomplish the anomaly of providing $\frac{3}{4}$ salary for the widow whereas the employee in his lifetime would receive but $\frac{1}{2}$ salary.

(5) The bill would increase all existing pension payments to the sum of \$1,000.00. I am sympathetic to the problems of persons retired years ago at rates which reflected cost of living at that time, but as I pointed out in returning Assembly Bill No. 388 of this session without approval, the impact of a change of this kind must be considered in the light of the total impact if the same change were made with respect to all other pension systems. Before steps are taken in that direction, a complete study would have to be made so that the true dollar impact, as well as the justice of that course as against other possible approaches, would be clearly

presented to those who are charged with responsibility for legislation.

(6) The bill would provide for pensions of \$2,000.00 per year for dependent parents where there is no widow or minor children. Under the present law dependent parents are not beneficiaries.

(7) In the event of service-connected death, the bill would increase the pension payable to the widow from $\frac{1}{2}$ of salary to $\frac{3}{4}$ of salary.

In considering the significance of the various changes set forth above it should be kept in mind that the increase in the maximum allowance from \$2,500.00 to \$4,000.00 per year referred to in item (1) above, operates to increase the dollar effect of the other changes.

The bill authorizes the retirement commission to raise the rate of contribution for employees and the county from the present 5% level to a maximum of 7%. The bill would also require the county to contribute additionally the sum of \$100,000.00 a year for 20 years. The bill would continue the county's liability to meet any deficit in the fund.

In 1951 an actuarial study was made of this system and the study was brought up to date by the actuary in September, 1954. In the report of September, 1954, the actuary, who is one of the country's outstanding men in the field, concluded that the system was "in a most serious state of insolvency" with a deficiency of over \$23,000,000.00. Following the passage of Assembly Bill No. 515 by the Legislature, an arrangement was made for a further actuarial study in connection with which the executive branch of the government and the county each contributed \$2,500.00. The study was made by still another actuary, also nationally respected. The two studies were wholly independent. This new study resulted in a finding that as of June 30, 1955 the deficiency in the fund was \$23,886,580.00 and that unless corrective measures are taken the deficiency will increase at the rate of \$715,000.00 per year. This study further revealed that even if the commission should increase the rate of contribution by the employee and the county to 7% and the county should additionally pay \$100,000.00 a year for 20 years, the deficiency in the fund would be immediately increased to \$25,661,109.00 and the deficiency would grow at the rate of \$770,000.00 a year. The report

further shows that, if the deficiency is to be met, the county would have to appropriate a further sum in excess of \$1,300,000.00 per year for 30 years. The total cost to the county for the matching payment, the annual sum of \$100,000.00 and the additional \$1,300,000.00 per year just referred to would be over \$1,900,000.00 annually for 30 years.

These figures, as stated above are all based upon the hypothesis that the commission would in fact increase the rate of contribution from 5% to 7%. In fact, however, Assembly Bill No. 515 does not imperatively require the commission to order such increase but on the contrary leaves it to the discretion of the commission and provides as the standard for its action in increasing the rates between the minimum of 5% and the maximum of 7% that "so far as possible the value of future contributions of members and the county, when taken with present assets, shall not be less than the value of prospective benefit payments based upon membership service to be rendered after the effective date of this act." It is thus apparent that in addition to leaving the matter of increase of rates to a finding by the commission based upon investigation, valuation and report of its actuary, the increases, if ordered, will be wholly unrelated to the problem of dealing with the existing deficit or the increase in deficit which would be immediately accomplished by the signing of this bill.

In the conversations held between the executive branch and the persons interested in this bill, several contentions were urged in support of the measure. It was urged that the actuarial deficit is imaginary and hypothetical and not based upon realities. It was contended that the deficit is based upon the assumption that all present employees would retire at once or at the earliest possible opportunity. The fact is to the contrary. The deficit is calculated on the basis of probabilities and is based upon established tables of expectancy and experience with respect to the factors involved.

It is further contended that the circumstance that the fund presently has \$826,000.00 in assets demonstrates the solvency of the fund. Obviously the quantum of assets does reflect the solvency of the fund. The underlying thought seems to be that past experience demonstrates that current contributions by the employee and the county will always be

sufficient to meet benefits payable. The assumption ignores the facts. The level of pension payments has increased in the past and will increase sharply in the future. For the first 3 years after the establishment of the fund in 1929 there were no benefits paid. In 1932 the number of pensioners was about 5% of the number of active members. In 1938, the percentage was about 10% and so continued until 1941. By 1954 the percentage was about 27%. Translated into terms of dollars, the annual outlay increased from \$18,393.69 in 1932 to \$738,260.78 in 1954. The last actuarial study referred to above shows by projection that under existing law the cash payments by the year 1959 will be in excess of \$1,000,000.00, in the year 1964 will be approximately \$1,460,000.00, by 1969 will be approximately \$1,800,000.00 and by 1974 will be approximately \$2,100,000.00. These cash payments would be substantially increased under Assembly Bill No. 515. Evidence of the inroads which the payments heretofore made have already accomplished is quickly revealed by the fact that although the present active members of the fund have contributed to date approximately \$2,500,000.00 and the county has roughly matched that figure with respect to those employees, all that remains of the approximate total of \$5,000,000.00, which represents the fund to which the present active members would look for security as to their retirement, is the sum of \$826,000.00, the amount of assets presently on hand. Thus the experience to date has violated a fundamental principle with respect to pensions that at least the contribution of the present employees should be maintained as a trust fund for their benefit. It is their money.

It is urged that the fact that the county was required to make additional contributions to meet annual payments only in the years 1947 and 1948 indicates the capacity of the system to continue to meet its obligations out of current income. Apart from the other factors mentioned above, a significant reason for this apparent success is that the current contributions are based upon pay brackets substantially higher than the pay brackets upon which many of the outstanding pension payments are based. In due time that favorable factor will disappear since an increasing number of pensions will be payable upon the basis of current wage brackets unless our economy experiences still further inflation.

In the report of September 1954 the actuary said:

“I would impress on you most strongly the fact that the above deficiencies are not in anyway artificial. They represent the amounts by which the fund should be increased if it is to be in a position to pay the benefits that have accrued today. The fact that there may be sufficient in the fund (for the time being) to pay for current pensions does not indicate that a state of solvency exists. The true position is that if the pensions and other benefits promised are to be paid in full, the above deficiency must be liquidated.”

We have already had experience with like situations. Thus for example, the 211 local police and firemen's pension funds which were consolidated in 1952 at that time had assets of about \$12,000,000.00 but deficits of approximately \$238,000,000.00. The State annually contributes \$4,500,000.00 and the municipalities \$9,000,000.00 to fund that deficit over a period of 30 years.

It is further urged in support of the bill that the increase in the pension benefit from $\frac{1}{2}$ salary to $\frac{3}{4}$ salary by annual increments of $2\frac{1}{2}$ for each year over 30 of service will induce employees to remain in service for additional periods and thus substantially improve the status of the fund by delaying the date upon which the employee will seek to obtain benefits. Apart from the fact that such inducement runs contrary to the common approach that pension plans are intended to further withdrawals from public service of employees of an advanced age to permit replacement by younger employees; it is plain to me that any hope that this inducement could solve the problems of this fund is at most speculative and wishful. It must also be noted that the taxpayer will be paying maximum salaries to employees who otherwise would retire in favor of younger employees at lower pay brackets and that the ultimate benefit of $\frac{3}{4}$ of salary as against $\frac{1}{2}$ salary under present law would itself make a substantial inroad upon, or perhaps completely eliminate, the supposed saving.

It is true, that a part of the deficit is attributable to the fact that at the commencement of the pension system the county made no contribution to meet the credits given to their employees for prior service. But the facts still remain that provision must be made therefor and that the bulk of the deficit is attributable to the service rendered after the

system began. While perhaps complete actuarial soundness may not be immediately feasible, yet the present spread between assets and liabilities should be substantially reduced. One day there must be an accounting. The entire burden of the deficit should not be passed perhaps to another generation of Essex County taxpayers. And the present active members of the system should receive assurance against economic reversals which might imperil the benefits they hope to receive. Those benefits cannot be assured unless we discontinue the practice of using their contributions to pay existing pensioners and unless we provide adequate funding to meet the promises to the present active members.

I cannot approve of a bill which not only fails to deal with the deficit but in fact would increase it. I think it is imperative that this pension system be integrated with Social Security whereby a substantial part of the deficit will, in effect, be underwritten by the Social Security plan and thus free the taxpayers of Essex County of the imposing burden now upon them. This is the accepted pattern which has been followed by other funds in this State, by numerous public funds throughout the country, and by virtually all industrial pension systems.

I believe further that the Essex County system should be consolidated with the Public Employees' Retirement System. The latter system contains benefits which provide liberal protection to new and long-service employees alike without placing an undue burden upon the taxpayers of the State and has placed New Jersey in the forefront throughout the country in the field of sound public employee pensions. At the present time over 81,000 public employees in nonhazardous positions are either in the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund, both of which systems provide identical benefits and the number of such employees coming into the Public Employees' Retirement System is steadily increasing by voluntary action on the part of local governing bodies. The benefits which Assembly Bill No. 515 would provide exceed the benefits payable to any other group of public employees including even those engaged in hazardous work. There is no justification for such discrimination. Approval of this bill would inevitably lead to demands for legislation which would disrupt the patterns established in the two basic plans to which I have referred. The approval of this bill would

further greatly diminish the opportunity for eventual integration with the Social Security program.

There are a number of deficiencies in the bill which could be corrected by amendment and although for that reason they do not constitute the basis for my refusal to approve the bill, yet they are sufficiently significant to be noted in this message.

(1) With regard to service-connected disability the bill is obscure as to whether the pension payable would be $\frac{3}{4}$ or $\frac{1}{2}$ of salary.

(2) At various points in the bill the word "pay", rather than the word "salary", is used. "Salary" is defined but "pay" is not. "Salary" is defined to mean that portion of compensation upon which contributions and pensions are calculated. The use of the word "pay" would present problems as to whether, where that word is used, it is intended to mean the full compensation rather than that portion which is defined as "salary".

(3) The bill is so phrased that it might have to be construed to mean that there will be no pension payable to a surviving spouse or other beneficiary upon the death of an employee retired because of duty disability. This would be inconsistent with the protection given to survivor beneficiaries in the case of employees retired on the basis of age and service or on the basis of non-duty disability.

(4) I referred to the fact that salary is defined in the bill. Actually confusion exists in that definition because the word "salary" is there given three different meanings. One meaning is average salary; another meaning is the first \$8,000.00 of an employee's salary for any year being considered; and the third is the final year's salary received by a member. The amount of pension payable would depend upon which definition is used in the disposition of each claim for benefits.

(5) In Section 10 of the bill it is provided that "the value of any actuarial or pension benefits received" shall be deducted from a member's aggregate contributions when making a refund to him upon his withdrawal from the system. The actuary who made the study of this bill advises that the quoted phrase is not meaningful and could conceivably result in a complete denial of return of contribu-

tions. Moreover, that provision is in conflict with the general practice in connection with retirement systems to return the full contribution upon withdrawal of a member.

(6) The bill provides in Section 11 that "Upon and after the adoption of this act, membership of any person in the retirement system shall constitute a contractual relationship with the county." Under present law a member has a vested right with respect to his contributions and probably with respect to his accrued retirement right. The quoted language attempts to impose upon the county, without its consent, a contractual obligation which might incorporate a right to receive from the county all of the anticipated benefits of active members and preclude any alteration with respect to the plan, either as to benefits or contributions, which changing economic circumstances might make imperative. If this should be the true import of the quoted sentence, the consequences could be far-reaching.

For the foregoing reasons I am returning Assembly Bill No. 515 herewith without my approval.

Respectfully,

ROBERT B. MEYNER,

Governor.

[SEAL]

Attest:

ROBERT J. BURKHARDT,

Secretary to the Governor.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the rules be suspended and Assembly Bill No. 615 be advanced to second reading, without reference.

Assembly Bill No. 615, entitled "An act concerning the salaries of certain judges of county district courts, and supplementing chapter 6 of Title 2A of the New Jersey Statutes,"

Was taken up under suspension of rules, and read a second time.

Mr. Barnes offered the following resolution, which was read by the Clerk and adopted by the following vote:

Pursuant to Paragraph 6 of Section IV of Article IV of the Constitution, the General Assembly does resolve that

Assembly Bill No. 615 is an emergency measure, and that it proceed forthwith from second to third reading.

In the affirmative were—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Bowser, Brady, Crane, Deamer, Del Tufo, Dwyer, Farrell, Field, Gant, Glenn, Gray, Haines, Hauser, Hyland, Jamieson, Junda, Kay, Kraus, Kurtz, Lassans, Lazzio, Marryatt, Meloni, Metzger, Mintz, Mosch, Newton, Ozzard, Perfette, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Stepacoff, Stewart, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet, Werner—48.

In the negative—None.

Assembly Bill No. 615, entitled "An act concerning the salaries of certain judges of county district courts, and supplementing chapter 6 of Title 2A of the New Jersey Statutes,"

By emergency resolution,

Was taken up, and, on motion of Mr. Barnes, was read a third time by its title, and passed by the following vote:

In the affirmative were—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Bowser, Crabiel, Crane, Deamer, Del Tufo, Dwyer, Glenn, Gray, Hyland, Junda, Kay, Kraus, Lassans, Lazzio, Marryatt, Metzger, Mintz, Mosch, Newton, Ozzard, Perfette, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Stepacoff, Stewart, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet—39.

In the negative was—

Mr. Jamieson—1.

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the General Assembly has passed the same, and requests its concurrence therein.

Mr. Barnes moved that the General Assembly be placed under call.

Which motion was carried.

Upon calling the roll, the following members appeared and answered to their names:

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowser, Crabel, Crane, Deamer, Del Tufo, Dwyer, Field, Franklin, Gant, Glenn, Gray, Haines, Hughes, Hyland, Jamieson, Junda, Kay, Kraus, Kurtz, Lassans, Lazzio, Marryatt, Meloni, Metzger, Mills, Mintz, Mosch, Newton, Ozzard, Perfette, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Stepacoff, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet, Werner—47.

Absent were—

Messrs. Bowkley, Brady, Farrell, Hauser, Knoblauch, Krawczyk, Maebert, Musto, Ritter, Stewart, Waddington—11.

The Clerk declared a quorum present.

Mr. Barnes, majority leader, presented a gavel to Speaker Salsburg of Atlantic County, as a token of appreciation for his fine term of service and capable administration of the 1955 Session.

Mr. Hyland, minority leader, added his tribute, stressing the Speaker's fairness and courtesy.

The following also expressed appreciation of Mr. Salsburg's term:

Mr. Thomas, of Union County; Mrs. Savage, of Ocean County (speaking on behalf of the women in the General Assembly); Mr. Hauser, of Hudson County; Mrs. Newton, of Passaic County; Mr. Mills, of Morris County (speaking for the small Counties); Mr. Lassans, of Essex County; Mr. Deamer, of Bergen County; and Mr. Stepacoff, of Middlesex County.

Mr. Salsburg responded expressing his gratitude for cooperation and friendship from both the Majority and Minority groups.

Mr. Smith asked for the record on Assembly Bill No. 592,

The Clerk reported Assembly Bill No. 592 was returned by the Governor on December 5, 1955, vetoed but with recommendations.

Mr. Smith moved the passage of Assembly Bill No. 592, the Governor's objections notwithstanding.

Which motion was adopted.

Assembly Bill No. 592, entitled "An act to amend the 'Public Employees' Retirement-Social Security Integration Act,' approved June 28, 1954 (P. L. 1954, c. 84),"

The Governor's objections notwithstanding,

Was taken up, and, on motion of Mr. Smith, was read a third time by its title, and lost by the following vote:

In the affirmative were—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bowkley, Bowser, Crane, Deamer, Del Tufo, Dwyer, Field, Franklin, Gant, Glenn, Haines, Junda, Kay, Kraus, Lassans, Lazzio, Marryatt, Metzger, Mills, Mintz, Mosch, Newton, Ozzard, Perfette, Rutherford, Salsburg (Speaker), Savage, Savino, Silver, Smith, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet—38.

In the negative were—

Messrs. Hyland, Werner—2.

The Speaker declared Assembly Bill No. 592 lost.

The Speaker recognized Mr. Beadleston, who spoke words of praise for the leadership of Mr. Barnes in his position as Majority Leader.

Minority Leader, Mr. Hyland, expressed his appreciation of the ability and service of Mr. Barnes.

The following also spoke: Mr. Mintz of Essex County, Mr. Thomas of Union County, Mr. Brady of Hudson County, Mr. Waddington of Salem County, Mr. Stepacoff of Middlesex County, Mr. Junda of Passaic County, Mr. Kraus of Bergen County, Mr. Jamieson of Warren County, Mrs. Savage of Ocean County and Speaker Salsburg of Atlantic County.

Mr. Hyland Minority Leader, was also extolled for his leadership by: Mr. Stepacoff of Middlesex County, Mr. Barnes of Essex County and Speaker Salsburg of Atlantic county.

Senate Bill No. 252, entitled "An act to make certain corrections in the statute and revising parts of the statute law,"

Was taken up, and, on motion of Mr. Haines, was read a third time by its title, and passed by the following vote:

In the affirmative were—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Bowser, Crabel, Crane, Deamer, Del Tufo, Dwyer, Field, Franklin, Gant, Glenn, Gray, Haines, Hauser, Hughes, Hyland, Jamieson, Junda, Kay, Knoblauch, Kraus, Lassans, Lazzio, Marryatt, Meloni, Metzger, Mills, Mintz, Mosch, Musto, Newton, Ozzard, Perfette, Rutherford, Salsburg (Speaker), Savino, Silver, Smith, Stepacoff, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaeet, Waddington, Werner—50.

In the negative—None.

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the General Assembly has passed the same, without amendment.

Senate Bill No. 401, entitled "A supplement to 'An act relating to and providing for the government of cities of this State containing a population of less than 12,000 inhabitants,' approved March 21, 1899 (P. L. 1899, c. 52),"

Was taken up, and, on motion of Mr. Glenn, was read a third time by its title, and passed by the following vote:

In the affirmative were—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowkley, Crane, Deamer, Del Tufo, Field, Franklin, Gant, Glenn, Haines, Junda, Kay, Kraus, Lassans, Lazzio, Marryatt, Mills, Mosch, Newton, Ozzard, Perfette, Rutherford, Salsburg, (Speaker), Savage, Savino, Silver, Smith, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaeet—35.

In the negative were—

Messrs. Crabiel, Gray, Hyland, Jamieson, Meloni, Stepacoff, Werner—7.

Ordered, that the Speaker sign the said bill, and that the Clerk carry it to the Senate and inform the Senate that the General Assembly has passed the same, without amendment.

Mr. Barnes moved that the General Assembly recess for 30 minutes, to reconvene at 3:45.

Which motion was adopted.

The General Assembly reconvened at 4:10 o'clock P. M.

Upon calling the roll, the following members appeared and answered to their names:

Present were—

Messrs. Barkalow, Barnes, Beadleston, Berger, Bianco, Bowser, Brady, Crane, Deamer, Del Tufo, Dwyer, Field, Franklin, Gant, Glenn, Gray, Haines, Hauser, Hughes, Hyland, Jamieson, Junda, Kay, Kraus, Krawczyk, Lassans, Lazzio, Marryatt, Metzger, Mills, Mintz, Mosch, Musto, Newton, Ozzard, Perfette, Rutherford, Savage, Savino, Silver, Stewart, Thomas, Vanderbilt, R. A., Vanderbilt, W. R., Vervaet, Waddington—46.

Absent were—

Messrs. Bowkley, Crabiel, Farrell, Knoblauch, Kurtz, Maebert, Meloni, Murphy, Ritter, Salsburg (Speaker), Smith, Stepacoff, Werner—13.

The Clerk declared a quorum present.

Mr. Silver, Chairman of the Committee on Introduction of Bills, reported consent had been given to introduce Assembly Bill No. 616.

The following bill was introduced, was read for the first time by its title, ordered to have a second reading and given no reference.

By Messrs. Salsburg and Hyland,

Assembly Bill No. 616, entitled "A supplement to an act entitled 'An act making appropriations for the support of the State Government and for several public purposes for

the fiscal year ending June 30, 1956, and regulating the disbursement thereof,' approved June 23, 1955 (P. L. 1955, c. 95).

Mr. Rutherford offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Senate Bill No. 109 be committed to the Judiciary Committee for further consideration.

Assembly Bill No. 606, entitled "A supplement to the 'In Rem Tax Foreclosure Act (1948),' approved May 28, 1948 (P. L. 1948, c. 96),"

Assembly Bill No. 613, entitled "An act concerning school districts in townships, incorporated towns and boroughs, and in cities accepting chapter 7 of Title 18 of the Revised Statutes, and amending section 18:7-9 of the Revised Statutes,"

Assembly Bill No. 614, entitled "An act concerning elections, and amending section 19:31-10 of the Revised Statutes,"

Were taken up, read a second time, considered by sections agreed to, and ordered to have a third reading.

A message was received from the Senate by the hands of its Secretary as follows—and was read by the Clerk:

STATE OF NEW JERSEY,
SENATE CHAMBER,

Mr. Speaker:

Was taken up under suspension of the rules, and read a second time.

The Speaker announced that all committee chairmen are requested to deliver any bills remaining in their possession to the Clerk today.

The Speaker announced the appointments for the 1956 Session by Mr. Mosch:

Conference Committee

Paul M. Salsburg, Chairman, G. Clifford Thomas, Mrs. Lettie E. Savage, Edmund E. Field, Elden Mills, Arnold M. Smith, Mrs. Florence P. Dwyer, C. William Haines, Alfred N. Beadleston, Pierce H. Deamer, Raymond E. Bowkley, Mrs. Marie F. Maebert, Hymen B. Mintz, Ruby V. Perfette.

Rules Committee

Milton L. Silver, Chairman, Earl A. Marryatt, Arnold M. Smith, Hymen B. Mintz, Ruby V. Perfette, Frederick H. Hauser, William F. Hyland.

Mr. Barnes, Chairman of the Committee on Judiciary, reported

Senate Bill No. 109, by committee substitute.

Mr. Barnes moved the adoption of Assembly Committee Substitute for Senate Bill No. 109.

Which motion was adopted.

Mr. Rutherford offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the rules be suspended and Assembly Committee Substitute for Senate Bill No. 109 be advanced to second reading, without reference.

Assembly Committee Substitute for Senate Bill No. 109, entitled "An act to amend 'An act for the taxation of the gross receipts of street railway, traction, sewerage, gas and electric light, heat and power corporations using or occupying the public streets, highways, roads or other public places, for the exemption from taxation of the franchises, stock, and certain property of such corporations, and for the taxation of certain of the property of such corporations not so exempted from taxation,' passed January 23, 1940 (P. L. 1940, c. 5), as said title was amended by chapter 264 of the laws of 1952,"

Was taken up under suspension of rules, and read a second time.
