Senate Resolution No. 1, entitled "A resolution to create an investigating committee consisting of 5 members, to be appointed by the President of the Senate, with power to investigate any public body receiving funds in whole or in part from the State,"

Be It Resolved by the Senate of the State of New Jersey:

1. There is hereby created a committee to be known as the "Senate Investigating Committee" to be composed of 5 Senators to be named by the President of the Senate, who shall constitute a committee for the purpose of investigating the finances, affairs and operations of any and all departments, boards, officers and commissions of the State Government, and all other bodies and political subdivisions of the State who shall be receiving State moneys or public funds of any kind. The committee is authorized to examine into the pay and duties of the employees and the conduct of the work and affairs of all such boards, commissions, officers and departments and other bodies and political subdivisions of the State who shall be receiving State moneys, for the purpose of recommending ways and means of reducing costs of administration and promoting efficiency.

2. Such committee shall serve without pay, but is authorized to employ counsel and such accounting, investigating, clerical or other assistants as to it may seem necessary.

3. Such committee shall have the power to subpœna and examine witnesses and any accounts, records or other matter pertaining to the operating of any department or departments of the State Government, of any political subdivision of the State, or of any other body receiving State moneys or public funds of any kind, or of any bi-State commission which may be acting jointly with another State.

4. The committee may appoint a secretary who need not be a member of the committee. Said committee shall meet from time to time, hold hearings and examinations in a manner and in places which to them may seem best and proper.

5. Any agency, board or department of the State Government, any officer or employee of any political subdivision of the State or of any other body receiving State funds, and the officers and employees of any bi-State commission which may be acting jointly with another State, shall furnish to such committee such information, records and data as may be required for a comprehensive analysis of the operation and financial affairs of such agency, board or commission, or other public body, including any bi-State commission, as from time to time such committee shall determine.

6. Investigations and examinations may be made privately or publicly, but it shall be unlawful for any person to divulge the results of any investigation or examination to any person or persons other than such committee, unless a public hearing shall have first been held. Whenever any person shall be examined by such committee or by its duly authorized representative or representatives, under the powers contained in this act, at a public hearing, the officer, department, board, bureau, commission or individual under investigation or scrutiny may through his or its authorized representative or representatives cross-examine any such person on any phase of the matter concerning which he has been examined or questioned, and such officer, department, board, bureau, commission or individual may introduce other evidence to explain, enlarge upon, or clarify the matter, situation or condition under investigation or scrutiny, to the end that the full details of any such matter, situation or condition may be developed and presented at one and the same time.

7. This committee shall remain in effect and force until the opening day of the 1958 Legislature, notwithstanding any *sine die* adjournment.

Mr. Forbes offered the following resolution, which was read and adopted:

WHEREAS, The Senate and General Assembly of the State of New Jersey believe it is an informative public service to continue a nonpartisan report for the television and radio stations of the State of New Jersey on the activities of the Legislature; therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

1. That the President of the Senate appoint three members of the Senate, and the Speaker of the General Assembly appoint three members of the General Assembly, including minority representation, to carry on the existing radio and television legislative report.

2. That the Senate and General Assembly extend high praise to New Jersey's radio and television stations for their outstanding record of programs presented in the public interest.

The Secretary was directed by the President to carry said resolution to the General Assembly and inform that body that the Senate has passed the same and requests its concurrence therein.

Mr. Forbes offered the following resolution, which was read and adopted:

WHEREAS, Senate Concurrent Resolution No. 1 authorizes the continuation of a nonpartisan report for the television and radio stations of the State of New Jersey on the activities of the Legislature,

Be It Resolved, That the chairman of said committee is hereby authorized to engage the services of a person or persons to assist in the preparation of material for use in connection with such television and radio report of the Legislature at a cost not to exceed $75.00 per week.

Mr. Stout offered the following resolution, which was read and adopted:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

1. That the New Jersey Legislative News be purchased for the use of the members of the Senate and the General Assembly, and for such other persons as the President of the Senate or the Speaker of the General Assembly shall designate, and that the New Jersey Legislative News shall be furnished, as soon as possible after adjournment each day and before the next session convenes, one of each issue, to be mailed immediately upon preparation to the local address of each member of the Senate and General Assembly, and one to be delivered at the State House for each member of the Senate and General Assembly, and for such other persons as designated to receive the same, the name and address of whom shall be furnished by the President of the Senate or the Speaker of the General Assembly; and that payment for the New Jersey Legislative News shall be made at the rate of $30.00 for each subscription; and that statements of expenses for the New Jersey Legislative News be referred to the Secretary of the Senate and the Clerk of the General Assembly, respectively, and, when approved, said approval shall be indicated by the signature of the Secretary of the Senate and the Clerk of the General Assembly, and said bills, when approved, shall be forwarded to the Legislative Budget and Finance Director for examina-

tion and audit, and said bills, when certified by the Legislative Budget and Finance Director, shall be forwarded to the Director of the Division of Budget and Accounting, who shall execute checks in settlement thereof and transmit the same forthwith to the State Treasurer for signature and delivery.

2. This resolution shall take effect immediately.

The Secretary was directed by the President to carry said resolution to the General Assembly and inform that body that the Senate has passed the same and requests its concurrence therein.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: January 8, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following concurrent resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:30 o'clock P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the annual message of His Excellency Robert B. Meyner, Governor of the State of New Jersey, which will be delivered in person.

WILLIAM J. KOHM,
Clerk of the General Assembly.

Mr. Stout moved that the Senate do now recess and proceed to the General Assembly Chamber for the purpose of receiving the annual message of the Governor.

Governor's Annual Message to the Legislature

January 8, 1957.

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

I appear before you, the members of the 181st Legislature of New Jersey, to inform you of the progress of the State and to recommend policies and measures that will minister to the happiness and prosperity of the more than 5,000,000 people whom we serve.

It is hardly necessary to remind you of the thousands of ways in which State Government affects the lives of our citizens.

It plays a vital role in the education of our children, in the care of the poor, the sick, the retarded, the handicapped and the aged; in the administration of justice; in the preservation of order; in the construction and maintenance of our highways; in safeguarding the rights of labor; in protection of health; and in many of the smallest details of our daily lives.

State Government affects everyone every day, from the person who is assured an honest weight in the food markets, to the person who turns on an electric light, rides a bus, buys an insurance policy, deposits money in a bank, uses a water faucet or operates a motor car.

An Ever Finer Instrument

These facts are cited to emphasize not only our grave responsibilities to the people, but to point up our endless opportunities to make State Government an ever finer instrument of public service. In the three years since becoming Governor, I have given unremitting study to the problems of New Jersey and it is out of that rewarding experience I speak to you today.

Moreover, as a former member of the State Senate, I believe I have a grasp of the difficulties and pressures of the legislative task. Therefore, at all times have I sought to lay before you the facts concerning State issues and to co-

operate with you in the hammering out of fair, just and progressive legislation.

AN ELECTION YEAR

In November of this year, there will be an election for Governor and for 70 of the 81 seats in the Legislature. Therefore, the eyes of the people will be fastened upon you, the Legislature, and upon me, the Governor, to scrutinize our behavior. If we permit partisan politics to influence our judgment, if we permit ambitions to sway our actions, we will be judged accordingly. For myself, I promise to work with you in every way consistent with my convictions.

A FEEBLE STEP

In the interest of frankness, I must allude to certain points of difference with the Legislature.

Looking back to my inaugural address on January 19, 1954, I find the following statement: "Of its own volition, the Legislature is taking the highly laudable step of abolishing the old caucus system and of breathing life into the committees."

The step turns out to have been a feeble one. The caucus system has not been abandoned and artificial respiration has not been applied to the committees. To a large extent, majority party policies are cut and dried in secret sessions, open committee hearings are the exception and not the rule and the State is deprived of the wholesome effect of real debate on the floor of both houses.

It seems plain that, if many important measures were openly discussed and the power of public opinion brought into play, they would be passed.

PIGEONHOLING OF APPOINTMENTS

It is my responsibility, enjoined by the Constitution and the statutes, to exercise the appointive power with the advice and consent of the State Senate. In the past three years, in growing intensity, nominations have been stuffed without action into senatorial pigeonholes.

Examples are nominations for judgeships, the Delaware River Port Authority, the Passaic Valley Sewerage Commission and numerous other positions.

No reasons are given for failure to act. Important work of the State is thus held up, to say nothing of the injury to distinguished citizens who have permitted me to offer their names. No wonder that some of New Jersey's ablest men hesitate to enter public service.

NEED FOR REAPPORTIONMENT

It is the responsibility of the Legislature to reapportion the Assembly in accordance with population changes. The Constitution provides this shall be done at the first session following the national census. Yet six sessions have come and gone since the 1950 census and no action has been taken.

The Legislature is required to redistrict the State for congressional seats, but it has not been done for more than a quarter of a century. Meanwhile there have been huge shifts in population, so that many of our people are not fairly represented in the Assembly and in Congress. Proper representation lies at the very roots of the democratic principle.

The 181st Legislature could go down in history as one which courageously attacked and solved these problems. Here is in outline some of the highlights of this message, taken from the far more comprehensive survey of departments.

CONDITION OF THE STATE

It is a pleasure to say that New Jersey's phenomenal growth continues. Each year more than a hundred thousand persons are added to our population, and their productive power swells the State's prosperity. New industries, including many plants for industrial research, are providing new jobs for skilled workers. The building of homes is vastly increased.

Our real wealth, the people themselves, grows apace. A State which was settled in 1664, nearly 300 years ago, and which was admitted into the Union in 1787, not only has a long and rich historical past, but a magnificent present and a limitless future.

PROBLEMS OF PROGRESS

But growth brings with it added tasks for the State Government. In my last annual message, I pointed out that most

of the problems that confront the State are products of our growing population and our expanding economy.

This is why we need more highways, more schools, more parks and beaches, more hospital facilities and so on. If grass were growing in our streets and if smoke were not pouring from the stacks of our factories, we would not have to face what might be called the problems of progress.

With all this accent on growth, however, our State Government has attempted to lead and serve at the lowest possible cost. New Jersey ranks fourth among the 48 in per capita income; yet our State Government collects the lowest per capita tax in all of the 48.

HIGHEST CREDIT RATING

In the past three years we have striven to undertake improvement and extension of services on a pay-as-you-go basis. Not a single dollar of State debt has been authorized during this period. In fact, we have reduced the State debt by nearly 20 million dollars. Last year the State won a rating of Aaa. This means that for the first time in more than 20 years, New Jersey's State Government has earned the highest possible rating from an authority looked upon as standard for the national bond market.

To help achieve this rating, I have vetoed measures that would have cost millions of dollars, not only in immediate expenditure but in annual recurring obligations. Many of these bills were special and local in nature and not of Statewide benefit.

ANOTHER PLAGUE SPOT IS CLEANED UP

A major scandal was unearthed in the Delaware River Joint Toll Bridge Commission following my appointment of new members to this body. They found that it reeked with waste, extravagance and inefficiency, the lurid details of which were fully exposed. The Governor of Pennsylvania joined New Jersey in dismissal of the persons responsible and in disinfecting the whole operation.

Sweeping reforms were put into effect, including economies to save more than half a million dollars annually. Criminal charges were filed in Pennsylvania, where the alleged offenses occurred. No less than 115 jobs, more than one-third of the total, were abolished as useless. Between

August, 1955, and December, 1956, the new Commission retired 3,282 bonds amounting to $3,282,000. This is in contrast to only 591 bonds, amounting to $591,000, retired by the old Commission between December, 1952, and August, 1955. The new broom swept clean.

No Magic

The State Government, mindful that all funds come out of the taxpayers' pockets and that there is no magic in operation of the State Treasury, has tried to apply the age-old principles of thrift and prudence in the spending of money. As a result, New Jersey still enjoys pre-eminence as a State which imposes neither a sales tax nor an income tax.

There come times, however, when failure to spend money would be against the public interest and perhaps disastrous. I refer, for example, to the absolute necessity of providing funds to take advantage of the new Federal highway program. In some areas, New Jersey will get $9 of Federal money for every $1 it contributes. It is the greatest bargain that ever was offered. It will fill a critical need, for increasing traffic will surely strangle the State unless it is given more room to operate.

To Match Federal Aid

On the pay-as-you-go principle, I have recommended additional revenue to insure the new Federal contributions. I oppose the effort of some legislators to dissipate the State surplus.

The surplus is actually no surplus. It is money carefully saved, in the sock, as it were, to balance the budget and to meet the imperative expanding needs of the State in the coming fiscal year.

If we do not provide new revenue to match Federal funds, we will wreck the State's fiscal balance and only postpone the day of reckoning.

High Birth Rate

In the field of education, the picture we see is basically the happy circumstance of an enormous increase in the birth rate. Some 5,000,000 babies are now born in this country every year, more than twice the number in the depression '30s. The increase in birth rate began during the Second

World War, dipped a bit and then increased again with the Korean War. It means that our country, with a present population of some 166,000,000, will increase to 190,000,000 by 1965 and 207,000,000 by 1975.

THE OLD AND THE YOUNG

It is an interesting fact that many of the problems of government throughout the United States are created by the growing proportion of young people who must be educated, and by the growing proportion of older people who are enjoying a longer life span, but who need various types of assistance and guidance. Citizens in the productive middle group should face up cheerfully to this new phenomenon.

We have already felt the impact in New Jersey of the burgeoning school population. In the past three years there has been an increase of 16% in enrollment. What had become an intolerable burden on local school districts has been considerably relieved by State aid. Contributions from the State to such districts have almost tripled.

We must plan, too, for the tremendous tasks that lie in the near future at the doors of our colleges and universities, both public and private. It is estimated that the number of young people who will seek higher education will be tripled by 1973.

NEW POLICIES FOR THE AGED

There are now almost a million persons in New Jersey 60 years of age or older; twice that number are over 45. This is a blessing of medical and dietary science that creates new challenges in the field of social science.

During the past three years, we have developed special policies to help older workers get jobs; stepped up programs of rehabilitation; developed aid for the chronically ill; provided an improved pension structure for public employees, increased public assistance benefits; and emphasized nursing home and family care rather than prolonged hospitalization.

We are deeply concerned over the large number of aged persons who are often inappropriately placed in State mental hospitals. We are hoping to establish a geriatric center where treatment could be given to enable such older persons to return to their families. Such a policy would

have the added benefit of permitting mental hospitals to concentrate more effectively on therapy for patients who require active psychiatric treatment.

FIGHT AGAINST MENTAL DISEASE

In a special message to the Legislature in 1955, I spelled out in detail a program for the mentally ill, including the increased use of new drugs.

I am delighted to be able to tell you that, in the 12 months ending last October, the number of patients in our mental hospitals declined by 303. This is in dramatic contrast to the large increases which have occurred for many years.

There is real hope that new attitudes, both public and professional, the so-called wonder drugs and intensified psychiatric treatment will serve to permit more and more patients to return to their homes and to useful places in society.

We must fight constantly against the miserable old concept of mere custodial care, by which patients led a dreary vegetable existence. We must attack mental disease with every weapon at hand, both at the community and State level, lest it grow to unmanageable and fearfully expensive proportions.

LABOR'S NEEDS

If it be true that labor is enjoying the highest wage levels in history and that jobs are more plentiful than ever, it is also true that various injustices need be remedied. We have improved administration of workmen's compensation, but legislation to give workers better protection is badly needed. We need a more realistic schedule of weekly payments, in the light of rising living costs.

While unemployment compensation is now promptly paid, as contrasted with the long delays of three years ago, we should increase the benefits in proportion to present wage scales and prices.

Our minimum wage law is hopelessly antiquated and should be revised to cover adult males as well as women and children. We need a specified minimum wage for all citizens. As has so often been emphasized, a State labor relations act is desirable in the interest of industrial justice and labor-management peace.

STERN LAW ENFORCEMENT

Whereas, three years ago, New Jersey was plagued by organized gangsters and gamblers, the door has been slammed in their faces by a policy of strict vigilance and stern law enforcement. The new criminal investigation division continues to operate expertly. A close relationship has been built up by the Attorney-General with the 21 county prosecutors, by regular meetings with them and by furnishing assistance through the Division of Law, State Police, Motor Vehicle Inspectors and the Bureau of Traffic Safety.

It is deeply satisfying to report that in 1955, despite even denser traffic, New Jersey had the lowest death rate in its history. It was second only to Rhode Island in this regard. But we must not become complacent, and therefore, throughout each year we are using every device, from public education and road safety features to strict traffic supervision, to cut down the death and accident rate.

We have co-operated with the courts to bring the criminal calendar up to date. This has been achieved partly by getting rid of more than 30,000 untriable indictments, some of which had been gathering dust for more than a century, while many of the persons accused had long ago gone to their graves.

A STREAMLINED SYSTEM

Completed is the Herculean task of converting the old drivers' license and motor vehicle registration system into a streamlined, mechanized mail order system. This major accomplishment ministers to the convenience of all motorists, who no longer have to stand in long lines to obtain these licenses. Moreover, renewals have been staggered, with the result that the Motor Vehicle Division has a steady monthly workload.

TO SAFEGUARD STATE FUNDS

In the operation of the State Treasury, numerous steps have been taken to surround State funds with greater safeguards and to increase the interest yield of the vast sums of money in the State's keeping. These investments alone total more than seven hundred million dollars. The State is, in effect, a billion dollar-plus corporation when its cash

resources are added to its tremendous assets in physical property.

Every possible step has been taken by the Treasury to make impossible another happening like the scandalous embezzlement unearthed at the outset of my administration. All depository banks are required to provide United States bonds as security, and a system of verifying all State bank accounts has been instituted.

GREATEST IN A CENTURY

In the field of taxation, the greatest strides in a century have been made in the improvement of real property assessment practices. Last year, for the first time in our history, real property ratables were actually equalized for the purpose of allocating costs of county government. The work of local assessors has been aided by close co-operation of the State Division of Taxation. But as I have indicated in prior messages, legislative reform of the real and personal tax structure is long overdue.

The whole system of State purchasing has been tightened up and improved in the interest of economy and efficiency. A unit has been set up to standardize specifications and to test and inspect, as to quality, the goods to be purchased by the State. The Construction Bureau has been revitalized. A great deal of money has been saved by the volume purchasing of drugs, office equipment, motor vehicles and many other things.

ECONOMIC SECURITY FOR PUBLIC EMPLOYEES

With the establishment of the Public Employees' Retirement System, the great majority of State and local employees now enjoy the increased benefits of a comprehensive pension system, integrated with Federal Social Security. Employees are accorded death benefits equal to one and one-half times yearly salary. It seems fair to say that these increases in economic security have tended to improve the morale of public servants and to increase the value of their work to the public.

ROUND VALLEY

One of the State's most pressing unsolved problems is the need for water storage to provide for our domestic and

industrial needs. A step forward was taken last year when the Legislature authorized the acquisition of Round Valley, the site of a natural bowl in Hunterdon County ideal for the purpose. Over half of the site has already been acquired and the remainder will be bought in the coming months.

However, the Legislature unrealistically limited Round Valley to the use of Delaware River water. For many reasons, it is necessary to lift this restriction, so that the reservoir can take waters from the Raritan River basin, with due safeguards to preserve the normal levels of streams and lakes in this area.

The Legislature is urged to take another step forward to make Round Valley a source of water supply. Let us keep in mind that it can be filled with overflow water, water that is now wasted. Let us keep in mind also the basic fact that New Jersey's annual rainfall is bounteous enough for all the State's requirements; we need only to save water which now runs uselessly to the sea.

NOT BY BREAD ALONE

I have spoken of some of the problems created by our growing population. Man cannot live by bread alone, so it is the State's responsibility to provide more recreational facilities for our people. This is becoming increasingly desirable as the shorter work week, longer vacations and pension benefits have added to our people's leisure time. The Department of Conservation and Economic Development, along with its numerous other functions, is pursuing a four-year program to develop the State park system.

In recent years, the State has acquired Island Beach, the Worthington and Wharton tracts, a total of 104,000 acres, increasing State-owned parks and forests to 181,000 acres, not counting 82,500 acres devoted to fish and game preserves. These new territories need development so that they can offer pleasure and wholesome recreation to New Jersey's millions. For just one example, I look forward keenly to the time when miles of marvelous ocean front on Island Beach can be freely enjoyed by our people.

STATE OFFICE BUILDINGS

In a special message to you of last September, I set forth in detail the urgent reasons for new office buildings to house

the Departments of Health, Education, and Labor and Industry. These buildings could be constructed out of available funds and with substantial savings in operational costs. No action has yet been taken and I urge that the 181st Legislature authorize this sorely-needed construction.

STATUTE REVISION

Our statutory law, in many instances, is a kind of legislative jungle in which the lawyers of the State must hack their way through a maze of conflicting provisions. A thoroughgoing revision is needed particularly of Title 11, concerning Civil Service; Title 18, Education; Title 19, Elections; Title 40, Counties and Municipalities; Title 48, Public Utilities.

NO CHINESE WALLS

Though the State Government is organized by departments, we have taken care that they are not surrounded by Chinese walls. Most major problems transcend departmental lines. They can be attacked successfully only by the work of various departments working in concert. It has been one of the major concerns of this administration to keep all cabinet members informed of our objectives, and to obtain the full co-operation of department heads and their staffs. Thus, we have the encouraging sight of increased inter-departmental action to produce the best service to the public.

LEGISLATURE'S OPPORTUNITY

With these remarks, I have touched only passingly upon a few of the accomplishments of the past three years and a few of the many needs of the State of New Jersey. In the remainder of the message, I have set forth, in much greater detail, the work and requirements of the State Government, department by department. You will find, in studying the entire message, that the Legislature has a banner opportunity to make this session an historic one in service to our people.

STATE HIGHWAYS

Of paramount importance is the need for New Jersey to participate fully in the new Federal highway program. Nowhere is the need for traffic relief more urgent than in our

own State where highway transportation establishes unparalleled records each year.

Until 1930 New Jersey was a leader in the creation of a then modern highway system. However, largely because of the diversion of 275 million dollars in motor vehicle revenues to other State needs, we gave up this position of leadership. It is estimated that it would take more than 2½ billion dollars to meet our current highway needs.

A Reappraisal

After World War II highway funds, in limited and unrealistic amounts, were appropriated. The State Highway Department began construction of the New Jersey Turnpike and the Garden State Parkway. It was soon apparent that funds were hopelessly inadequate to complete these projects. Therefore, two authorities were formed to finance these highways as toll roads with bonds sold to the public.

In 1954 the State Highway Department was already faced with many construction commitments for which millions of dollars had been allocated. To assure most efficient use of the limited and uncommitted balance, the Department was compelled to reappraise its entire program in terms of safety and traffic relief.

A Face-Lifting Job

New techniques were developed. Old highways have been dualized by center line barriers. Uphill creeper lanes have provided separate paths for slow-moving vehicles; and additional intersection improvements and construction of overpasses have reduced congestion and prevented loss of life. The list of these face-lifting operations is long.

But there is a definite limit to the work which can be done with limited funds. The need for additional highway construction is increasing at a rate far in excess of the Highway Department's resources.

It is disturbing to note that, while New Jersey motor vehicles have doubled since 1946 and now approach the 2½ million mark, only 80 miles have been added to the State highway system. This is an average of a mere 4 miles for each of our 21 counties.

REFORM IN THE DEPARTMENT

When this administration took office the Highway Department was badly in need of improvement. Personnel had not been effectively assigned in many instances and numerous existing procedures were costly and inefficient. A modern merit-rating system for employees was put into operation. We have established standard operational procedures and eliminated much duplication of effort. State-wide two-way radio communication was installed to increase the efficiency of maintenance, equipment and snow removal work.

A continuous inventory system was established and student training courses set up throughout the Department. To assure a continuing flow of qualified new personnel, a recruitment program was started in colleges and universities. Now in its third year, this program has brought to us many able young engineers.

These are but a few of the many ways in which our Highway Department has prepared for the greatest challenge of our times—the new Federal highway program.

Attention has been called repeatedly to the need for vastly increased State funds to take full advantage of the Federal program, as well as the necessity of prompt action in the face of rising costs. The importance of non-Federal participating projects in promoting safety and relieving congestion on our highways has been stressed. Emphasis has been given to the importance of providing adequate funds for the advance acquisition of rights-of-way as a means of saving millions of dollars.

NEW LIAISON WITH RELATED AGENCIES

A major innovation has been the designation of the State Highway Commissioner to work as a liaison officer with the New York Port Authority, the Delaware River Port Authority, New Jersey Turnpike Authority, New Jersey Highway Authority (which operates the Garden State Parkway), the Palisades Interstate Parkway Commission and the Delaware River Joint Toll Bridge Commission.

All of these bodies have an intimate bearing on New Jersey's transportation problems. For example, the New York Port Authority is proceeding with its plan to double deck the George Washington Bridge. In this connection, the

Authority has agreed to contribute 24 million dollars for construction of the East-West Bergen Expressway, which will serve as an approach to the bridge. Again, the New Jersey Authority is extending the Garden State Parkway to connect with the New York Thruway. Our Turnpike has recently been connected with the Pennsylvania Turnpike and the Holland Tunnel.

Rapid Transit

It might be appropriate here to note a deep concern with the establishment of convenient, economical rapid transit in the metropolitan areas of both North and South Jersey. Last year the Delaware River Port Authority submitted a comprehensive study of the problem in the southern part of the State. The Metropolitan Rapid Transit Commission, with the help of the New York Port Authority, is making a similar study for North Jersey and will submit a report during the early part of this year. I hope we can work out a program based on these reports which will relieve congestion and provide our people with comfortable transportation at reasonable rates in the metropolitan areas of North and South Jersey.

Education

New Jersey's school problem is caused largely by a vastly increased birth rate since World War II which has produced an enormous increase in enrollment. During the past three years, this increase amounts to 16%. It will continue to grow in the years to come.

During the current year, more than 880,000 pupils attended public grade and high schools and the total enrollment is increasing at the rate of 40,000 per year. In the past school year, school districts spent 285 million dollars at an average cost per pupil of $340.

To ease the burden on school districts, the State in the past three years has greatly increased State aid for current expenses. The current year's appropriation for such aid is $66,600,000. It will increase to almost 71 million dollars in the next fiscal year.

TRIPLING STATE AID

A separate State-aid program for capital construction has been set up. It provides for spending more than 10½ million dollars this year among the school districts and 13½ million dollars during the next fiscal year. Thus, the total State-aid to school districts is now about 3 times greater than in 1953-1954 and it will increase by over 7 million dollars next year.

We should give consideration to the small number of districts which, in spite of State-aid and high local tax rates, cannot obtain sufficient funds to build necessary school facilities. It may be that the State, in some instances, should provide a substantial part of the cost so that children in these districts will not be denied equal educational opportunities.

NEW TEACHERS

There are now some 37,000 teachers in the 567 school districts of the State. To attract new teachers, a State-wide minimum salary schedule has been adopted and the teacher pension system has been liberalized. Our State Teachers' Colleges have increased their enrollments from 3,900 to 5,200 full-time, not including 5,300 part-time students. Even so, we have been forced in this time of dire teacher shortage, to refuse admission to hundreds of well-qualified applicants.

The valuable work of the State Library was broadened by an allocation of $50,000 for the purpose of adding a field staff to work for the improvement of local library services throughout the State.

State-aid classes have been developed for mentally retarded children and for the physically handicapped at an increased cost to the State of almost 2 million dollars.

PROBLEMS OF HIGHER EDUCATION

During the year, the administrative structure of Rutgers, The State University was reorganized. Since 1953 the State's annual contribution to the University has increased over 3 million dollars. Rutgers now has an enrollment of some 14,000 full- and part-time students. But those seeking admission to Rutgers will greatly increase in the very near future.

A study conducted by the Department of Education estimates that by 1963 the number of New Jersey students seeking admission to college will double. It will triple by 1973. By 1963, in spite of planned expansions by private and out-of-state institutions, one out of every three potential college entrants may have no place to enroll. If more facilities are not provided by 1973, one of every two possible entrants may be without a place.

It is apparent the State must begin planning immediately to meet this critical situation. The study should include an analysis of the functions and facilities of the State University, the ability of private colleges to absorb a part of the increased enrollment, and a survey of the six State Teachers' Colleges to see to what extent they should be expanded and broadened in scope. The State Board of Education is undertaking a study of these problems and will submit a report during the current year.

STATUTE REVISION

The Department has completed a draft of a long-needed revision of Title 18, laws relating to education. The revision will be submitted to you for enactment during this session. The State Board of Education is codifying its rules and that code, plus a volume of judicial and administrative decisions under the education law, will be issued shortly. It will be the first such publication since 1949.

CIVIL RIGHTS

In the field of civil rights, which have been denied in some States to persons because of their race or religion, we in New Jersey have reason to be thankful. We have faced our problems and have met them with considerable success.

The annual report of the Division Against Discrimination for 1955-1956 shows that 230 complaints were disposed of in that year. The State may take pride in the fact that only one employment case was required to go to public hearing; indeed this was the only public hearing among 1,183 formal employment complaints in 11 years. All other cases were dismissed or successfully adjusted.

HUMAN RELATIONS

In addition to handling complaints, the Division does a good job in improving human relations among all the elements of our cosmopolitan population. Through employment and public accommodation surveys, work shops, conferences, lectures and other means, our people are kept informed of the prevailing climate in civil rights and thus are able to adjust many problem situations.

Notably, the division has worked with intergroup agencies in helping more than 30,000 Puerto Ricans to work and live among us.

INSTITUTIONS AND AGENCIES

By far the largest of our fourteen departments is the great complex of humanitarian services entrusted to our Institutions and Agencies. With the completion of substantially all of the bond issue construction authorized after World War II, the staff of this vital program has increased to almost 11,000 men and women in a variety of occupations.

There are 104,000 persons, or about one of every 50 in the State, directly affected by the Department's program.

You will recall that in the special message on mental health in March of 1955, I urged the Legislature to invest heavily in a strengthening of our attack on this front. The people of New Jersey will be gratified to learn that for the first time in memory, the number of patients in our State mental hospitals declined by 303, even though our growing population was reflected in growing admission rates.

TO ENCOURAGE FRESH VENTURES

New attitudes, new drugs, new approaches, and a new public awareness have contributed to this encouraging trend. News of this heartening advance should be received with caution since it represents progress in only one small area of our total task of attacking mental illness. But it should serve to encourage fresh ventures and to justify our continuing resistance to the hopeless apathy that so long had characterized the approach.

We have just received the gratifying news that our Trenton State Hospital has been approved by the American Psychiatric Association for a three-year residency training

program for doctors. This is one of a very few approvals given to State hospitals not directly connected with university medical schools.

Again I urge that we move boldly to resist the onset of mental illness at the community level. For 30 years we have watched the success of the limited State "demonstration" clinics. Skilled professional teams have kept many patients from our State hospitals, have helped them remain in their homes and in their jobs.

GRANTS-IN-AID

But the State cannot and should not do this job alone. The communities in this State should be helped to provide these preventive services which many now find beyond their means. In the budget message, therefore, I shall propose the payment of grants-in-aid for community mental health projects. This can stimulate strong citizen support, stabilize the financing of these services, insure their development with high professional standards, and help to hold down the number of patients who would otherwise crowd into State hospitals.

I am confident that the people of New Jersey prefer such an investment as the 20th century alternative to the past emphasis on mere custody.

PROGRESS AT BORDENTOWN

At the former manual training school in Bordentown, we have established a training and research center. I am happy to report that already 100 mentally retarded boys are in training under expert guidance. As renovations to the plant progress, the number will be increased to some 400 boys and girls. The emphasis will be on research and on intensive training for family and job placement. This new center represents a bright new hope for handicapped children and their loved ones.

Some 200 prisoners are now employed on 21 projects in State forests and parks. By this means prison idleness is reduced, patients in non-correctional institutions are being relieved from maintenance work unrelated to their treatment, and training in useful work is done at a minimum cost and with resulting improvements in public lands.

VALUE OF PROBATION

At the State Prison and its branches, more supervisory officers have been provided and trained and the base of inspection and supervision has been broadened. Consistent with the recommendation of the Law Enforcement Council, parole supervision has been improved through higher salaries, reorganization of the bureau, and the development of a system to insure that no prisoner misses a legitimate opportunity for parole.

We must consider seriously ways by which probation services at the county level can be improved. Probation well administered offers better opportunities for rehabilitation than imprisonment.

NO BLACK AND GRAY MARKETS

Despite justifiable concern nationally, the people of New Jersey can be proud that in this State black and gray markets in adoption have been virtually eliminated. We protect the rights of the child, the parents and the adopting family.

PUBLIC ASSISTANCE

Improved procedures in public assistance have cut administrative costs and enabled case workers to give more effective services. At the same time, allotments for food, clothing and other personal needs were increased in line with cost of living changes. Use is being made of Federal surplus foodstuffs in order that the needy may share in our country's abundance.

Recent amendments to the Federal Old Age and Survivors' Insurance Act require certain changes in our State assistance laws which should receive your prompt attention.

Last year a commission was created to study the administration of public medical care. We await their report on the way in which such care is financed and furnished to people who receive public assistance.

COMPACT ON MENTAL HEALTH

Last month I signed the interstate compact on mental health. New Jersey is the third state to ratify this agreement for improved procedures for the transfer and treatment of the mentally ill in the various states.

Under its terms, the states recognize that care and treatment bears no primary relationship to the residence or citizenship of the patient and that the controlling factors should be humanitarian rather than technical.

Labor and Industry

We have sought to improve and expand the activities of the Division of Workmen's Compensation, so important to the welfare of the injured employee.

Provision is now made to plan the training of the seriously injured person immediately after the accident and to insure that he is given benefit of the latest advances in medical treatment and physical restoration.

Preference is being given to cases involving more serious disability so that early benefits may be paid. An arrangement with the Rehabilitation Commission has plugged the gap in payments to totally injured persons who are to receive benefits beyond the 450-week maximum award.

For More Adequate Protection

To insure fairer treatment in cases closed by settlement between employer and employee, the division has taken on responsibility of inquiring into the terms of settlement. During the past year, as a result of this program, hearings have resulted in additional benefits to injured workmen.

Existing procedures for judicial review of workmen's compensation cases are cumbersome and need revision. I am appointing a committee consisting of representatives of labor, industry, and the division to submit recommendations for revision of these procedures.

But improvement in administration is not enough. Legislation is overdue which will give employees more adequate protection. The recent increases in maximum weekly payments are not enough. The President of the United States and his Secretary of Labor have recommended adoption by the States of a more adequate schedule.

Employment for the Handicapped

Physically handicapped persons often have a hard time finding jobs. Some employers fear that if they take on such a person and he suffers injury, the employer or his in-

surance carrier may be compelled to pay benefits for the prior handicap as well as for the later injury.

It is recommended that legislation be adopted to provide specifically, as the law does now in cases of 100% disability, that in all cases the employer is to be held responsible only for such disability as results directly from the compensable injury. The 1% fund can be made available for the balance of the disability. Such legislation might also include provisions whereby an employer could ask the Rehabilitation Commission for a certificate specifically fixing in advance the percentage of disability of the prospective employee.

A draft of legislation has been prepared to cover the increasingly important problem of radiation hazard. However, the draft has been withheld at the request of the U. S. Department of Labor pending recommendations of a Federal committee which is now working on a model bill.

No More Delays

Consideration should be given to legislation which would increase benefits to 100% disabled employees, widows and dependents of workers in fatal accidents whose awards, based on prior statutory rates, are inadequate at the present time.

Employment Security

Three years ago, there was great and justifiable complaint about delays in the payment of unemployment compensation. In 1953 only 68 per cent of first claims were paid within the 2-week period established by Federal standards. Some were forced to wait 10, 12, or even 15 weeks. At present, more than 90% of first claims are paid within two weeks, and that figure is well above the national average.

Experience shows that some modifications of our employment compensation system are necessary. Benefit schedules both in dollar amount and in the maximum period for which they are payable should be revised. Again, the need for such revision has been suggested by the President and the Secretary of Labor.

Under the present system, an employer who has less than four persons in employment is not required to pay unemployment compensation. I recommend the law be amended to make it applicable to every employing unit.

Only four States, of which New Jersey is one, have not adopted legislation recommended by the Federal authorities which would permit reciprocal arrangements with other States for continuing wage credits. The required amendment to permit such reciprocal arrangements should be adopted.

INDUSTRIAL SAFETY

We have given much time and thought to the question of industrial safety. We have developed a mine safety program, a safety award program, in-service training for safety inspectors, and a board of inquiry to determine the cause of every fatal accident.

MINIMUM WAGE

Our minimum wage law, as I have pointed out, is completely out of date. It applies now only to women and children. It should provide a specified minimum and be made available to all who are engaged in intrastate employment.

Because of the increasingly restricted applications of the National Labor Relations Act, employer and employee in intrastate and some interstate industries are without protection. We need a State Labor Relations Law through which unfair labor practices may be defined and prevented, and through which collective bargaining representatives may be selected and certified. I recognize there are divergent points of view concerning such legislation and, therefore, recommend that public hearings be held so that the issues can be resolved.

LAW AND PUBLIC SAFETY

For the first time in the State's history, the Division of Law in the last three years has functioned on a full-time basis under the direction of a full-time Attorney-General.

Although the staff and the budget have remained reasonably constant, the work of the division has increased both in volume and scope. In addition to day-by-day advice to all departments, in 1955, 220 opinions were issued, 370 legislative memoranda prepared, and 64 appellate matters briefed and argued, 51 successfully. By contrast, only 88 legal opinions were rendered in 1952 and 113 in 1953.

Co-operation with Prosecutors

Enforcement of the criminal laws rests primarily in the 21 county prosecutors. The Attorney-General, however, has tried to achieve uniformity of their activities. A criminal investigation division is operating in his office. He is in constant communication with the prosecutors and furnishes assistance to them through the State Police, motor vehicle inspectors, Division of Law and the Bureau of Traffic Safety.

By close co-operation with the State Supreme Court, some 30,000 untriable indictments have been dismissed. Some of them had been gathering dust for more than 100 years. Our criminal courts have thus achieved a realistic concept of pending business.

Archaic Laws

Much remains to be done to combat an increasingly clever criminal element. We should re-examine our laws relating to our prosecutors' offices. In many respects, these laws are archaic and should be brought up to date.

Once again, I urge the adoption of a police training program such as is embodied in Senate Bill No. 178 of the 1956 session. We also need an adequate system of crime reporting, a recommendation in which the Law Enforcement Council recently joined.

Work of the State Police

In 1954 we conducted a survey of the methods, structure and operations of the State Police. It resulted in improved administration. In the fiscal year 1955-1956, the State Police had the greatest year in their 35-year history. They engaged in 46,823 general investigations, 37,323 criminal investigations and made 132,963 motor vehicle arrests. Through fines and costs and other sources, the State Police turned into the State Treasury the unprecedented total of $3,059,516.

Lowest Death Rate

In 1955, in this most densely traveled State in the country, we were able to achieve the lowest death rate in New Jersey's history. On a nation-wide basis our record was surpassed only by Rhode Island. I have reason to believe,

although the final figures have not been compiled, that we did as well or better in 1956.

We attacked the problem by a policy of strict enforcement, of constant use of the State Police, by the aid of county prosecutors, by setting up traffic co-ordinators in each county, by the safety engineering efforts of the Highway Department and by the help of the press, radio and television.

MOTOR VEHICLE CONVERSION

In less than nine months in 1955, the Motor Vehicle Division accomplished the conversion of our motor vehicle and driver licensing system. To do so it had to change its manual records into machine records. There were over 5 million of these old records. Personnel had to be trained to handle the machines and a rigid production schedule was set up.

It was a remarkable accomplishment which some experts said could not be completed inside of a year. Our motorists may now receive their registration and driver's license by mail. No longer must they wait in long lines. Renewals are staggered so that the division has a steady monthly workload. We look forward to even greater efficiency in the operation of this system.

Our Motor Vehicle Inspection stations have lagged far behind our constantly growing vehicle population. In the 18 years between 1937 and 1955, only two new inspection lanes have been added. The inadequate facilities were a source of vexation to car owners who often had to endure long and tedious delays to obtain this service.

In casting about for a solution, a new idea was developed, that is, the use of drive-in theatres. These theatres, not used for daylight performances, are ideal places for inspection lanes. Nine such lanes are now in operation at a very low cost for both construction and maintenance. Drivers enjoy off-street parking. In each lane, 45 cars can be inspected every hour. In this way years of neglect are being remedied.

With the construction of new lanes and temporary reduction of inspection from two to one annually, our motorists no longer cool their heels for hours for inspection of their cars.

A long range construction program of motor vehicle field stations is also giving New Jersey its first modern driver license examinations facilities. Two of these stations are under construction and four more will be begun this year. These will provide tremendous improvements in an even more neglected and important phase of New Jersey's highway safety program.

WATERFRONT COMMISSION

While not a function of the Department of Law and Public Safety, it seems appropriate to mention here the work of the Waterfront Commission of New York Harbor. The Commission has made progress in its efforts to improve the lot of the men who work along the waterfront and to restore peace and prosperity to the Port of New York, on which so much of the economy of the two States depends. Such progress has not been without opposition.

The Commission's program has increased work opportunities for bona fide longshoremen resulting in an increase in one year of over $1,000 in the average annual income of a longshoreman.

The legislation which this State has just adopted, and which it is hoped will be adopted shortly by the State of New York, should strengthen the hands of the Commission and permit more effective accomplishment of the objectives of the Compact. Improvement in physical security of piers and cargo is also to be expected from the recent amendments to the Commission's regulations governing port watchmen.

TREASURY

Better management of State funds has reduced idle money and greatly increased the interest income on its investments and bank deposits. Such interest in the present fiscal year is expected to exceed $2,900,000. This is about $775,000 more than last year and is about twice the highest amount received in any of the preceding four years.

Legislation establishing the State Investment Council was adopted in 1950, after it was found that prior practices in the investment of State funds had resulted in mismanagement, inefficiency, and actions based upon political considerations to the loss of the State and the trust funds involved.

The basic objective of the legislation is that the Council shall set policies to guide investments of State funds. The Council has a fine record of accomplishment. It should be permitted, without hindrance, to continue its efforts to attain the legislative objective.

IMPROVED METHODS

The risk to the State's demand deposits has been materially reduced by a program to require all depository banks to provide United States bonds as security. A system of verification of all State bank accounts has been worked out for national banks with the Federal bank examiners and for State banks with the State bank examiners.

A simplified form of financial report is now issued about 20 days after the close of each month, with tables showing current revenues and expenditures. This has proved a useful management tool.

Checkwriting for both payroll and general purposes has been put on a punch-card basis which has made possible a daily reconciliation of balances by mechanical equipment.

To improve efficiency of operations, studies are under way for increased co-operative use of modern business machines and equipment in the various departments.

FIRST TIME IN HISTORY

In the past three years, the greatest forward strides in the century have been made in real property assessment practices. In 1956, for the first time in history, real property ratables were actually equalized at the county level for apportionment of the cost of county government. This achievement was accompanied by apportionment of the cost of school districts comprising two or more taxing districts, and the distribution on an equalized basis of more than 60 million dollars of State school aid. Local assessors have been aided through assessors' manuals, instruction courses and information furnished by the Division of Taxation.

BETTER PURCHASING METHODS

The work of the Purchase Bureau, due to a 1955 reorganization, is now current. Through the newly established control system and regular monthly reports, the status of that work can be determined at all times. Previously there was

no way of determining, except from the volume of complaints, what part of purchase applications remained unprocessed and for how long.

A unit has been established to set up standard specifications and to test the quality of goods purchased for the State's account. It is saving substantial sums.

Through the establishment of a Coordinator of Motor Vehicles, large economies have been made in the purchase and operation of the State's motor vehicle fleet. We have adopted volume purchasing in many areas such as motor vehicles, drugs and office equipment, to produce savings over piecemeal buying.

No Gifts

Many old abuses have been eliminated and a healthier atmosphere created by the law which forbids acceptance of any form of gift or gratuity from persons doing business with the State. A 1954 Treasury regulation forbids any employee of that department from engaging in outside business or otherwise acting in any transaction which may present a conflict of interest. I again urge you to consider general legislation on this subject.

Over 4 million dollars' worth of Federal surplus commodities was distributed in the last fiscal year by the Agricultural Distribution Section of the Purchase Bureau. School lunch programs and State institutions shared. This was more than double the previous year's figure and it is expected the program will rise this year to 5 million dollars.

Progress in Pensions

With the establishment of the new pension system for public employees and teachers, the great majority of State and local employees were brought under Social Security. Members were accorded non-contributory death benefits equal to one-and-a-half times annual salary, plus survivors' and dependents' benefits. Public employee veterans were brought into the retirement system. Huge prospective liabilities of public employers under the Veterans' Retirement Act were eliminated.

Permission was granted by legislation to place all death benefits under contract with an insurance company. As a

result of competitive bidding, the Board of Trustees entered into an agreement with the private insurance company which had submitted the lowest schedule of retentions. The new program became effective December 1, 1956, and permits public employees to purchase additional life insurance at low rates.

Substantially the same benefits and rate structure were given the members of the Teachers' Pension and Annuity Fund that are applicable to the Public Employees' Retirement System. Thus, retirement allowances available to teachers were increased materially. In addition, special benefits for service connected disability and death were extended to them.

Conservation and Economic Development

Over the past three years, many steps have been taken to produce in this Department a more vigorous and compact administrative unit. They included development of an organization chart; an annual reporting system; regular staff meetings of division and bureau leaders; technical cooperation across division and bureau lines; re-establishment on a full-time basis of the post of State Forester; and reorganization at the bureau level.

Land Use

A Land Use Committee was created in 1954 to produce better management of New Jersey's physical resources. The land area of New Jersey, one of the smallest States in the union, supports the eighth largest population in the nation. Thus we are compelled—not by any attachment to abstract philosophy but by urgent practical needs—to achieve the most diversified possible use of lands under our jurisdiction.

The value of the Land Use Committees work is most apparent in long-range planning for use of Wharton Tract. With specialists from many fields, the committee has projected a program for this tract of timber production, watershed development, hunting and fishing and other forms of recreation, and the preservation of historic sites. The same multiple-use principle will be applied to other State lands such as Island Beach.

RECREATION NEEDS

Our expanding population, greater leisure time and increased interest in outdoor activities require more intensive development of the State park system. Our beaches, woodlands, lakes and rivers should be made readily available to all of our people.

During recent years, the amount of land owned by the State has increased. Island Beach, Wharton Tract and Worthington Tract, a total of 104,000 acres, have been acquired. This increases State-owned parks and forests to 181,000 acres, in addition to 82,500 acres devoted to game and fish preserves.

But the mere acquisition of more land is not enough. It must be put to full use by the public. Since 1954, after more than a decade of neglect, the State has corrected deferred maintenance, so that our public parks today are in the best condition they have ever been. The improvement program will be completed over a four-year period at a cost of 3 million dollars.

LESSONS OF THE 1955 FLOODS

The major floods of 1955 taught some valuable lessons. As a result, the U. S. Weather Bureau has strengthened its flood forecasting service for the Delaware River Basin and, at my request, has extended this service to the intrastate Passaic and Raritan River drainage areas.

A program has been undertaken to mark flood stages plainly and permanently. While adequate warnings and flood insurance will greatly reduce suffering, danger to life and property persists in the continued industrial and residential development of lowlands. Flood plain zoning is the key to the use of areas subject to inundation. A special committee should be created to examine benefits that may be derived under the Federal Flood Insurance Act and the requirements for State participation. I repeat my earlier request for such legislation.

MIDDLE INCOME HOUSING

A report of an advisory committee indicates that the "most important housing problem facing the State is the providing of adequate and decent accommodations for

families of moderate income." Subsequently, a report of the Legislative Middle Income Housing Study Commission found that "there is a need for middle income housing in the State of New Jersey."

A Suggested Plan

I recommend to the Legislature that laws be enacted to provide financial assistance to meet this need. It should be in the form of a no-cash subsidy program to avoid any new taxes. A plan has been suggested of pledging the State's credit to guarantee bonds to be issued by the Public Housing and Development Authority, so that funds may be obtained at the lowest possible interest rate. These funds could then be made available to groups which will construct this much-needed housing under proper State supervision and regulation. We should consider seriously this proposal.

To Attract New Industry

During the past three years, we have been active in seeking to attract new industry and to keep or expand industry already here. Several new techniques have been used, such as the Governor's Committee on Resort and Travel, whose purpose is to extend the regular shore season and to make fuller use of the Garden State Parkway. Also developed was the idea of naming economic ambassadors of New Jersey whose basic mission is to attract new enterprise. In addition a survey was started to determine how the State can assist the independent business man.

I plan to appoint an Air Facilities Planning Committee to insure that New Jersey keeps abreast of all new aviation developments and that the State shall be ever mindful of the safety and comfort of citizens in areas of heavy air traffic.

Navigation Problems

Because of the increased public interest in boating in both tidal and non-tidal areas, a serious law enforcement problem faces the State. I propose the establishment of a Marine Traffic Court with broader jurisdiction than the present navigation or municipal courts.

In 1955, 21,000 operator's licenses and 13,000 registrations for power vessels were issued. These figures have

risen in 1956. Operators of these boats who violate marine regulations should be brought to account.

At present, the Coast Guard requires that only outboard motor vessels over 16 feet in length be numbered. The large increase in vessels under 16 feet makes their registration desirable as well. Attention should be given to the bill submitted to you last year increasing the lighting requirements for pleasure craft.

NEED FOR WATER STORAGE

Last year legislation was adopted authorizing the acquisition of Round Valley as a reservoir site. The Department proceeded immediately with the necessary negotiations and appraisals. More than half of the area has now been acquired and it is estimated that by the end of the current fiscal year title to the remainder will lie in the State.

Favorable climatic conditions during the past year spared New Jersey from water shortages which have been common in prior years. It would be foolhardy, however, to be dependent upon such uncertainties. Our rainfall is sufficient to provide us with an ample water supply. But this can be utilized only by adequate storage capacity.

Present law limits Round Valley to the use of Delaware River water. The operation of the reservoir is not feasible on that basis. The act should be amended to permit the reservoir to store water from the Raritan River Basin with adequate protection for those dependent upon the water supply in that basin.

ROUND VALLEY RESERVOIR

Attention should likewise be given to the actual construction of the Round Valley reservoir. Whatever program is evolved, it should meet certain basic criteria: it must insure that the water resources of the State are used for the benefit of all the public at the lowest possible cost, and it must take into account demands for public and industrial water supply, irrigation, pollution abatement, recreation and flood control.

Because of the time required to plan, construct and fill a reservoir—five to seven years—it is imperative that the project be commenced this year if the State is to meet its obligations to its citizens. I hope that a program may be developed through bi-partisan co-operation so that a method

of financing the project can be submitted to the voters at the next general election.

In addition to Round Valley, prompt study should be given to the underground water table in South Jersey and to plans for the use of that water supply.

Health

The most urgent need for more effective public health administration at the State level is for modern facilities to replace the inadequate, dispersed, overcrowded offices and laboratories of the State Department of Health. New Jersey citizens deserve complete and prompt service to meet their health needs. To do so, we must have proper physical facilities.

Cramped Laboratory Facilities

It is difficult for the laboratory in its present cramped, unsuitable and unsafe facilities to analyze milk, food, drugs, water, sewage, air and industrial samples. More than 50 thousand of these are submitted annually in the conduct of health programs and in the enforcement of public health laws.

Similarly, technicians making over one-half million serological and other tests annually find laboratory facilities inadequate. Work in the diagnosis of poliomyelitis and other viral diseases must actually be referred to out-of-State laboratories where personnel from this department have the privilege of working.

Program for Chronic Illness

The problem of chronic illness has been vigorously attacked. Grant-in-aid funds have been effective in:

Providing equipment so that our citizens may have the earliest possible diagnosis of conditions involving the brain, heart and other vital organs;

Helping local hospitals develop services to control alcoholism;

Informing physicians of the latest advances of the treatment of the heart and circulatory system, including heart surgery;

Developing therapy to permit bed-ridden patients to leave hospitals and maintain themselves in the community.

TESTS FOR DISEASE

The department took over 360,000 chest X-rays from January, 1954, to January, 1956. The survey resulted in the referral of 11,705 persons to their physicians and to clinics for further chest X-ray studies from which 569 newly discovered cases of tuberculosis were reported. In addition, 13,512 persons suspected of having enlargement of the heart or large blood vessels, and 657 persons suspected of having malignant diseases were referred to their physicians. In 1955 and 1956 more than 26,000 received diabetes tests and 454 persons were referred to their physicians.

A code to control open burning formulated by the New Jersey Air Pollution Commission became effective May 1, 1956. As a result, a number of municipalities, industries and others have stopped open burning and New Jersey air is clearer to that extent. We have a long way to go, however, in the completion of this task.

Existing food and drug laws, patterned after Federal statutes at the time of their enactment, have become obsolete by changes in Federal law, technical advances and reorganization of the State Government. Amendments will be recommended during this session of the Legislature.

The Department has been alert to the needs for protection against the hazards of radiation which are rapidly increasing in number and intensity. In this regard, the program of the Department of Health is the most advanced of any in the country.

Actions to compel abatement of stream and water pollution are being pressed.

STATE

I have repeatedly recommended a complete revision of Title 19 covering election laws. In its present state of confusion, it is an enigma to lawyers and a headache to election board members.

Another recommendation of long standing is to provide voting machines in each of the remaining counties now using paper ballots. Voting machines are now used in 12 of our counties but nine still cling to the old method.

Many voters are disfranchised every election because of mistakes in handling the paper ballots. In addition to the

fact that voting machines are more convenient both for voters and election officials, they are less expensive in the long run.

To Reduce Residence Requirements

Many persons lose their right to vote because they cannot comply with the constitutional requirement providing for a minimum residence of one year in the State and five months in the county. This requirement may have been justified at the time of its adoption more than a hundred years ago, but it is an anachronism today. As noted in my first annual message, the people should be permitted to vote on a constitutional amendment reducing State residence requirements to six months and county residence to forty days.

Reapportionment

I cannot repeat too strongly my request for action on reapportionment of Assembly seats. It was encouraging to note that, following my annual message of last year, nine bills or resolutions were introduced on this subject. However, only two bills passed the Senate and the others remained in committee. The Assembly took no action at all. A formula should be adopted to eliminate partisan considerations from this constitutional duty.

Redistricting of congressional districts is needed. It is obviously unfair for one Congressman to speak for one-half million people while the Congressman in the next district represents only a fraction of that number.

The Bureau of Government Research at the State University prepared a survey of congressional redistricting which was distributed to you last summer. This matter has been hanging fire for more than a quarter of a century and further delay cannot be justified.

Bingo and Raffles

New Jersey can look with satisfaction upon three years' experience of the Legalized Games of Chance Control Commission, popularly known as the Bingo Commission. The entire nation watched this pioneering experience in New Jersey. To the satisfaction of the majority, the law has been administered for the benefit of religious, educational, public-spirited and charitable groups.

Since the approval of the program, 5,500 organizations have been given identification numbers and more than 60,000 games of bingo and raffles have been held. For the first 11 months of 1956, receipts from the games exceeded 20 million dollars.

Civil Service

Personnel

A modern State Government must, of course, place great reliance on the capacity and the ingenuity of its State employees. In the budget message last year the importance of sound and progressive policies for the State in its role as an employer was set forth. Much of this program and this philosophy needs continuing application and adjustment. Certain specific requests will be renewed in the budget message.

A Time-Worn Concept

Our employees share with students of government generally the conviction that much of our present personnel code grew out of the time-worn concept of civil service as a basically negative fight against the spoilsman and an attempt to thwart the attempts of administrators to toss out the career public servant.

Today's needs and today's conditions call for much more than that. They demand a positive personnel program; with vigorous new recruitment and selection techniques; with training and staff development as a major concern; with progressive employee relations policies; and with attention to all the phases of an enlightened personnel program that will guarantee the best of service to the State, with staff of high morale, and with appropriate recognition for the kind of devoted service they are called upon to render.

A Modern Program

Successful steps have been taken in the direction of a modern personnel program, and continuing studies of salary and wage data in comparable outside employment have been maintained. The benefits of old age and survivors insurance have been integrated into our pension system. Group life insurance has been provided. Pre-retirement

counseling is a continuing service. Expansion of in-service training programs has helped to prepare career employees for promotional opportunities and has enlarged their contribution to State service. Our colleges and universities have been tapped as a source for new young talent for State Government. Our paychecks are now on a biweekly basis. Continuous recruitment has been started for hard-to-fill stenographic and other jobs. Uniform grievance procedures and a clarification of overtime policies have been undertaken. Fire hazards and unsafe working conditions are being routed out. The State is, for the first time, vigorously applying to itself the standards that it has long enforced upon private employers.

A thorough study should be undertaken of our civil service statutes and the rules and regulations promulgated pursuant to Title 11 of the Revised Statutes.

APPOINTMENTS

When the conditions of work for our employees are improved, the State can rightfully expect dividends in the form of efficient service. Our public employees respond to fair treatment and effective leadership. That is why I have sought to fill appointive posts with men of integrity and capacity and the understanding to liberate most effectively the talents of career employees. Every effort has been made to restore among the State employees a real sense of pride in their accomplishment. And through all this, the people of New Jersey have a right to take pride in the calibre of their service.

AGRICULTURE

Despite the extension of industry and home building into rural areas, agriculture remains a vital segment of the New Jersey economy. More than one-third of the total area of the State is in farm use and more than 80,000 workers are employed in agricultural activities.

Farm land values and costs of production in New Jersey are among the highest in the nation. These factors demand efficient operation in terms of high yields, which account for the State's rank as number one in gross income per acre—$195.00. The value of our farm products is estimated for 1956 at 375 million dollars. With the exception of eggs and

milk, the returns for most New Jersey crops were improved last year.

CONTROL OF PESTS

New Jersey's position as a corridor State creates a continual threat of insect and disease invasion, against which the State Department of Agriculture is alert to act. Since 1950, the percentage of cattle in our brucellosis program has risen from 30% to 98%. By April 1, 1958, all herds must have been tested.

The timely use of emergency funds accounted in 1954, for the eradication of the white fringe beetle. This is a pest even more destructive than the Japanese beetle.

Last year, in co-operation with Federal authorities, the Department of Agriculture checked the gypsy moth by spraying over 50 thousand acres of woodland. This spraying will continue in 1957.

A prime factor in the development of our poultry industry has been the blood testing of breeding stock. Some 950 thousand such tests are made each year. Today poultry is our leading farm industry, accounting for more than 131 million dollars of income last year.

Prompt action has curtailed the spread of vesicular exanthema among our hog population.

A State-wide committee of livestock breeders has petitioned the department for a better and more complete diagnostic laboratory service. To protect our livestock industry, improvements of this nature must be given careful consideration.

AIDS TO MARKETING

New Jersey's crossroads position produces numerous marketing problems. Our nearness to large markets provides an outlet for our products but it is also productive of competition. The department has expanded its marketing services and facilities.

Last year the Division of Markets assisted in the movement of 840 million eggs, one-third of our entire production. Other marketing activities included the inspection and grading of about 165 thousand tons of tomatoes, four times the tonnage of 1955, and 54 million pounds of asparagus.

Since grades determine prices these services are of real benefit to the growers.

In Behalf of Milk Producers

Attempts have been made to alleviate the plight of milk producers in this State to insure a fair return to them and, at the same time, to protect the consumer. Milk producers believe that the best method is to get a separate Federal milk marketing area established in New Jersey. On recommendation of the Governor's Milk Committee and other interested parties, the U. S. Secretary of Agriculture held informal hearings in New Jersey in 1954. Formal hearings began in June of last year and every effort has been made to expedite the proceedings and to obtain a fair order for New Jersey producers.

The Rural Advisory Committee appointed by me is making a continuing study of rural problems in this State. The committee is composed of leaders in various phases of agriculture, as well as representatives from the State University. The committee has extensive plans for integrating farm activity with the over-all development of the State. Its plan will be treated in the budget message.

Banking and Insurance

This department protects the pocketbook of every one of our citizens. This becomes evident when we realize that it examines and supervises the affairs of hundreds of State banks, insurance companies, building and loan associations and finance companies. They have assets in excess of 100 billion dollars.

In conjunction with the Treasury, the department has carried out a plan for verifying deposits of State funds in banks, a safety program evolved after the disclosures of the investigation of the Division of Employment Security.

Insurance Overcharges

An inquiry by the department showed that many car owners have been overcharged in the purchase of automobile collision insurance. As a result, more than one-half million dollars have been refunded to policyholders as of last October. The inquiry is continuing and more refunds

are anticipated. Recommendations for amendments to the rating laws to make enforcement more effective will be submitted to you.

Other Abuses

Additional regulations relating to accident and sickness insurance have been issued to eliminate abuses which have developed in the sale of such insurance. A bill will be submitted to you to regulate financing of sales of motor vehicles to protect our citizens from abuses in that field.

Another area which warrants legislative consideration is the regulation or possible elimination of so-called debt adjusters. Investigations in neighboring States show that some of these unsupervised agencies have been engaged in activities harmful to their clients and the public. Some of these unsupervised agencies have begun to do business in this State.

Employee Welfare Funds

Discussion will be had with legislative leaders concerning a bill to protect members of employee welfare funds. Among other things, the bill should provide for registration of such funds with the Department of Banking and Insurance, the filing of periodic reports, examination of the funds, and disclosure to beneficiaries of the details of benefits and management.

Public Utilities

The work of this department also affects every citizen of this State. It has general supervision, jurisdiction and control over telephone, electric, gas, water and transportation facilities. Its responsibility is to assure continuous, necessary, safe, reasonable, adequate and proper services for the public at fair and just rates.

There are approximately 600 privately-owned public utilities under the department's jurisdiction, in addition to the intra-state activities of the State's railroads. Investment in the utilities, aside from the railroads, approaches 2½ billion dollars and their annual operating revenue amounts to 780 million dollars.

THE FIXING OF RATES

An important part of the department's activities involves the fixing of rates which public utilities may charge. In carrying out this function, this department conducts extensive public hearings. The public interest is represented not only by counsel for the consumers involved and the municipalities affected but also, in most cases, by rate counsel appointed by the Attorney-General.

The department inspects semi-annually, some 5,000 buses, investigates approximately 1,000 customers' complaints against utilities each year and passes upon corporate financing by utilities.

GRADE CROSSING ELIMINATION

Pursuant to the grade crossing elimination program, three railroad grade crossing projects have been completed during the past three years at a cost of 7½ million dollars. Under existing law, the State pays about 85% of this cost. Serious consideration should be given to additional grade crossing elimination.

In the interest of commuters, the department has intervened before the Interstate Commerce Commission in opposition to applications by railroads to eliminate services which are deemed necessary to the people of this State.

Title 48 covering Public Utility law is in need of revision and action should be taken with all reasonable dispatch.

DEFENSE

The New Jersey National Guard has made steady progress during the last three years in its three principal fields of endeavor: personnel recruiting, training and armory construction.

The aggregate strength of the National Guard has risen steadily from 12,564 in November, 1953, to 14,399 in November, 1956, of which 1,662 are in the Air Guard. This trend is expected to continue as more training facilities become available. We should be proud of the contribution our National Guardsmen are making as an integral part of our Nation's defense forces.

THE SPAATZ TROPHY AND OTHER AWARDS

During the same three-year period, our Army and Air National Guard have progressed substantially in their training program. Army National Guard units average "Excellent" in the annual inspection ratings by Regular Army Inspectors.

The high level of Air National Guard training is exemplified by the award of the Spaatz Trophy to the 119th Fighter-Interceptor Squadron, NJANG, as the outstanding Air National Guard Tactical Squadron in the United States. There have also been several Flying Safety Awards made to our squadrons, based on records made, despite their transition into the more complex jet aircraft. An innovation during the period was the integration of our National Guard Antiaircraft Artillery into the On-Site program. There are now six sites in the State which have been taken over by the Guard from the Active Army, although they still function as a part of the Active Army Defense System. These are manned 24 hours a day by Guardsmen.

NEW ARMORY CONSTRUCTION

Notable among our Department of Defense achievements is the progress made in constructing new armories and training installations. Since January 1, 1954, with 75% of the funds coming from the Federal Government, armories have been constructed or are under way at Phillipsburg, Bordentown, Franklin, Toms River and Washington, New Jersey. In addition, a number of our existing armories were altered or expanded under the same funding arrangement.

OTHER NEW FACILITIES

A considerable amount of building from 100% Federal funds was also accomplished. Among such projects completed or in process since January, 1954, are motor vehicle storage buildings at Long Branch and Tuckerton, organizational maintenance shops at Teaneck, Toms River, Morristown, Atlantic City, and Vineland; and a large Ordnance Maintenance Shop in West Orange. At McGuire Air Force Base work is nearing completion on an Air National Guard installation which will cost nearly one and a half million dollars.

All of these facilities will contribute to the further progress of our National Guard and legislative co-operation in making available required matching funds is necessary for the continuation of the program.

CIVIL DEFENSE

New Jersey has been fortunate this past year in not having a repetition of the hurricanes and floods of 1955. But with the experience gained during those disasters, the Civil Defense and Disaster Control office has set up improved procedures for warnings and operations during such emergencies. The efforts of nine State and Federal agencies have been co-ordinated to take united action to combat such disasters. These agencies include all State departments and Federal agencies such as the Weather Bureau, Corps of Engineers and the Coast Guard. There are now over 265,000 volunteer civil defense workers in the State.

The disaster warning and communications systems now include all 21 counties and the new Highway Department radio network and the Division of Fish and Game network, increasing the efficiency of operations during disasters.

CONCLUSION

In this message are numerous recommendations for legislative action in the interest of the people of New Jersey. Taken together, they offer a blueprint for progress and reform that will make for a more prosperous and a more progressive State. You may be sure that, as Governor, I will co-operate with you wholeheartedly. With the help of God, we will march forward to a bright and happy future.

Respectfully submitted,

ROBERT B. MEYNER,
Governor.

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
January 24, 1957.

Mr. President:

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following concurrent resolution:

Senate Concurrent Resolution of condolence on the death of Arturo Toscanini.

WHEREAS, On the sixteenth day of January, 1957, the world at large, and the citizens of the United States in particular, mourned the passing of the distinguished conductor, Arturo Toscanini; and

WHEREAS, During his nearly seventy years of uncompromising dedication to the high ideals of his art, Arturo Toscanini has left humanity incomparably richer and the world of music forever in his debt; and

WHEREAS, In addition to his artistic grandeur, Arturo Toscanini constantly and against all odds raised his voice and gave of his abilities opposing tyranny and upholding the dignity of free men everywhere; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring) that:

1. The Legislature and the people of the State of New Jersey express their profound grief upon the passing of this noble and incomparable genius and record their gratitude for his services for the betterment of mankind.

2. The condolences of the people of New Jersey be extended to his family and associates.

3. This resolution be spread in full upon the Journal of the Senate and that a copy, duly embossed, be presented to his bereaved family.

WILLIAM J. KOHM,
Clerk of the General Assembly.

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: January 26, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following concurrent resolution:

Senate concurrent resolution congratulating the Jersey City Medical Center on its twenty-fifth anniversary.

WHEREAS, The Jersey City Medical Center is presently celebrating the twenty-fifth anniversary of its founding; and

WHEREAS, During the past quarter of a century, the Jersey City Medical Center has grown from modest beginnings to one of the largest and most distinguished hospitals, surgical, research and educational institutions of medical science in the United States; and

WHEREAS, The physicians, surgeons, research experts and nursing staff of the Jersey City Medical Center have

rendered exceptional service to the community, the State of New Jersey and to humanity by virtue of their remarkable contributions in all fields of medical science; and

WHEREAS, In 1955 New Jersey's first medical school, the Seton Hall College of Medicine and Dentistry, was inaugurated at the Jersey City Medical Center; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring) that

1. The Legislature joins with the citizens of the State of New Jersey in offering sincere congratulations to the staff, directors, officers, physicians and personnel of the Jersey City Medical Center for their outstanding achievements during the past twenty-five years.

2. The Legislature joins with the community of Jersey City and the people of the State of New Jersey in the hope that this distinguished institution and its dedicated staff will continue to expand their activities in the improvement of scientific research, medical advance and general health education.

3. This resolution be spread upon the Journal of the Senate and that a copy, duly embossed, be presented to Dr. Earl J. Halligan, Medical Director of the Jersey City Medical Center.

Senate Bill No. 68,

Favorably, without amendment.

Signed—W. Steelman Mathis, Charles W. Sandman, Jr., Harold W. Hannold.

Senate Bill No. 68, entitled "An act authorizing and directing the Commissioner of Conservation and Economic Development to conduct hydrologic studies of ground-water resources on a comprehensive and continuous basis, and making an appropriation therefor,"

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Senate Concurrent Resolution No. 20, entitled "A concurrent resolution declaring the policy of the Legislature against further abandonment or curtailment of passenger rail service pending the final report of the Metropolitan Rapid Transit Commission,"

Was taken up.

Mr. Forbes moved the adoption of Senate Concurrent Resolution No. 20.

The President put the question, "Shall the Senate adopt the resolution?"

Upon a *viva voce vote* being taken, the President declared the resolution adopted.

Mr. Stout offered the following resolution, which was read and adopted:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 3:00 o'clock P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Budget Message of His Excellency, Robert B. Meyner, Governor of the State of New Jersey, which will be delivered in person.

Mr. Stout moved that the Senate take a recess for the purpose of a joint session.

Which motion was adopted.

BUDGET MESSAGE

To the Members of the Senate and General Assembly:

I should like to preface my analysis of the fiscal picture for 1957-58 by pointing out that a State Budget is no different in principle from the household budget which so many of our citizens use in the prudent management of their income in relation to their expenses. Just as Mr. and Mrs. Householder estimate the amount of wages or salary in the coming year, balancing this against what they can pay out for rent, groceries, clothing, etc., so does the State estimate its income from taxes, balancing this against its probable expenditures.

The word "estimate" is used in both cases because the making of a budget, whether for a household or a State Government, touches on the field of prophecy. It is impossible to say for sure just how much the State will collect and just how much it will have to pay out. However, the art and science of budget-making, for it is both, can be demonstrated by the past. This is my fourth Budget Message. Of the total amount appropriated in the past three fiscal years—$867,352,813—the Legislature has trimmed only $7,458,107 from my requests. This is less than 1%.

Keeper of the Purse

In the old English phrase, the Legislature is the Keeper of the Purse or, to put it in another way, the Governor proposes and the Legislature disposes. No Governor can spend a penny unless he is authorized to do so. If an unsound or extravagant Budget is submitted by the Governor, the Legislature can rip it to pieces and safeguard the State Treasury from unwise or foolish expenditures. Here we have a practical application of the system of checks and balances designed by our Founding Fathers to protect the people against abuse of power by any branch of government.

Just as the Legislature's duty is to act as a check upon the Governor, so it is the Governor's duty to act as a check upon the Legislature. During the last three years, I have vetoed bills which would have cost, immediately, $2,877,223 and, annually, $6,940,456. In addition, I have vetoed other bills whose cost cannot be reduced to dollars and cents in even an approximate way, but it is fair to say it would run well over a million dollars annually. In each case, detailed reasons have been presented to explain why it appeared that the added expenditures were unjustified.

GOLDFISH BOWL

The business of government—and particularly the spending of the people's money—must be conducted in a goldfish bowl. I have used the simple analogy of the average household Budget, but whereas this is a matter between husband and wife, the making of a State Budget is of course immensely more complicated. The Budget-making process begins in August following the receipt of requests from the heads of the 14 State Departments as to what they believe they will require in the ensuing fiscal year.

HOW IT OPERATES

From August 15 to December 15, hearings are held by the Budget Director, who is a career officer of many years standing, and these hearings are open to the public. Taxpayers groups are constantly in attendance. In some cases, such as the Department of Institutions and Agencies, the hearings are held at the various institutions. Other hearings are held at the State House. At these sessions, the Budget Director and his staff inquire closely into each department's expenditures for the past year and ask for all pertinent facts about projected programs for the next year. The purpose is to make sure that each department is operating on a sound basis, and to strike out any requests that cannot be fully justified.

MORE PUBLIC HEARINGS

From December to February, the Budget Director holds numerous conferences with the Governor until the Budget is ready for presentation to the Legislature. This is the stage we have

now reached. The estimates of income and expenditure will be scrutinized by the members of an appropriations committee from both houses of the Legislature, and beginning this year the committee will be aided by a Legislative Budget Director. Once again, public hearings will be held for a two-month period, at which officials must present themselves for a searching examination of their departments' requests. Once satisfied, the Legislature will proceed to enact appropriation bills.

In this way, the goldfish bowl operates.

Far From Unique

It would be most pleasant to be able to tell you that the Budget for the next fiscal year will be lower than for the present one. As it is, I am compelled to recommend appropriations of $342,463,962 for next year and $2,263,036 in supplementals for prior years. Next year's recommendations compare with $320,834,671 provided in the Appropriations Act of 1956. This is an increase of 6.7% and it will be fully explained. If we look around us, we will find that New Jersey is far from unique in this regard.

In our neighboring State of New York, the Budget *increase* being requested from the Legislature amounts actually to more than half of New Jersey's entire Budget. In the case of the Federal Government, the Budget has soared to about 72 billions of dollars, though as a candidate in 1952, the President said his major goal was "to cut Federal spending to something like 60 billions in the next four years." Of the 72 billions, it is estimated that New Jersey will contribute more than 3 billions in Federal taxes, about nine times as much as the entire State Budget.

People=Wealth

We are living in a period of rising prices and wages and in a period when government, at all levels, is facing increased demands from citizens for services. We are living also in a period of rising population. In New Jersey, with a present estimated population of 5,500,000, we are growing by 100,000 persons a year. People represent wealth. The more people we have, the greater

our productive power and the larger is our power to consume the products of our mass production industries and our vast merchandising systems. By the same token, more people require more schools, more highways, more institutional care, more welfare services and more of all the myriad services which the State Government is required to furnish.

No Longer News

It will be said in the press that this is a record Budget. This is no longer news when every Budget—national, State and local—is a record Budget. Let us look back at the last decade of New Jersey's financial history. It shows a steady, inexorable rise in the funds appropriated by the State Legislature, despite the rigorous Budget-making process I have described. Here is the record:

Fiscal Year	*Amount Appropriated*
1947-48	$130,704,286.00
1948-49	157,836,951.00
1949-50	164,116,485.00
1950-51	168,536,051.00
1951-52	178,987,434.00
1952-53	216,744,816.00
1953-54	221,417,366.00
1954-55	247,252,549.00
1955-56	299,085,593.00
1956-57	321,014,671.00

Reduction of State Debt

While appropriations have gone upward in the last ten years, New Jersey's pay-as-you-go fiscal policy and its management of the State debt, won, in 1956, the highest possible credit rating from Moody's—Aaa. As I pointed out in my third annual message, this is the first time in twenty years that such a rating has been achieved. The State debt has been reduced by nearly 20 million dollars during this administration, standing now at approximately 100 million dollars and, by reason of the debt service items in this Budget, will soon fall to 86 million dollars. The national debt amounts to $1,600 for every man, woman and child in the United States. New Jersey's debt amounts to only $18 for each person in this State. You and I should do all in our power to preserve and improve this enviable position of the State of New Jersey.

REVENUE ESTIMATE

We expect to begin the next fiscal year with a surplus of $23,537,004, the lowest since July 1, 1950. But this margin will be realized by next July 1 only if we are able to earn the revenues which were estimated by the Appropriations Committee when it was in session last spring. It must be pointed out that the committee was less conservative than the administration in forecasting next year's revenues.

It appears we will be fortunate, indeed, if this amount is actually realized. In all likelihood, earnings from motor fuel taxes and motor vehicle fees will not measure up to the amounts expected. On the other hand, revenues from inheritance, beverage, cigarette and corporation taxes should produce amounts in excess of those anticipated. It is hoped that the under-runs will be offset by the over-runs. Savings out of current appropriations, estimated at $3,000,000, make up part of the surplus.

A MISNOMER

Let me point out here that the word "surplus" is a misnomer. Actually, it is an amount of money that is laid by to meet the certain expenses of the next fiscal year. It is money, held in trust, so to speak, to pay bills. So-called surpluses have been produced in a variety of ways. For example, in 1954, the Legislature increased taxes on racing, motor fuels and general corporations to meet the rising costs of State aid to education. At my request, the Legislature appropriated to the schools one-fourth of the additional revenue, or $7,125,000, leaving $21,875,000 available for general purposes on July 1, 1955.

This was, however, only a one-shot remedy. Meantime, the revenues produced by the 1954 tax increases are not growing nearly so fast as the increases in the amount of money which is being spent for State aid for schools. The total State aid for schools is now about two and a half times greater than in 1953-54 and, because of mounting student populations, it will continue to rise in the years to come. In any case, the estimated surplus of $23,537,004 at the beginning of the next fiscal year will owe its existence in part to the incident cited. It shows that the State Government must be alert to every opportunity to keep its finances on a sound basis.

DANGEROUS GAME

In 1957-58, revenues cannot be expected to exceed $318,263,836. This estimate is based on a study of the collection pattern of the past seven years and the normal growth projected through June 30, 1958. It assumes a continuation of present economic conditions. To stretch these estimates would be to play a very dangerous game, and that is a course for which this administration has no taste. So, with anticipated surplus of $23,537,004 on July 1 next, and estimated revenue of $318,263,836, we will have $341,800,840 available in the general treasury for the 1957-58 Budget.

In addition, there will be sums derived from the sale of Permanent Veterans' Housing Projects; unspent balances in the Guaranteed Loan Fund, and moneys in the Unemployment Compensation Auxiliary Fund. I have previously recommended that a part of these funds be earmarked for capital building projects. However, since the Legislature has not done so, I recommend that $2,500,000 (from the sale of Veterans' Housing) be released to general State funds, so that total resources of $344,300,840 will be provided for the 1957-58 Budget. After taking $2,500,000, there will still be sufficient funds to carry out the major part of an office building program. I will discuss this later in this message.

So, this Budget, in brief, is as follows:

RESOURCES

Estimated Surplus—June 30, 1957	$25,800,040.09
Less: Supplementals for Prior Years	2,263,036.00
Net Estimated Surplus, July 1, 1957	$23,537,004.09
Estimated Revenues for 1957-58	318,263,836.40
Transfer of Funds Derived from Sale of Permanent Veterans Housing	2,500,000.00
Total Estimated Resources for 1957-58	$344,300,840.49

RECOMMENDATIONS

General State Operations	$163,851,774.00
State Aid	150,835,748.24
Capital Improvements	27,776,440.00
Total Recommendations for 1957-58	$342,463,962.24
Estimated Surplus, June 30, 1958	$1,836,878.25

Trimming the Requests

Total requests from the 14 departments for all purposes amounted to $566,000,000. These requests included, in addition to the housekeeping requirements of State Government and State aid to local districts, $227,000,000 for capital improvements—new highways, new buildings, new recreation sites and so forth. Obviously, these requests had to be trimmed in order to balance the Budget. In doing so, we have distributed the funds as equitably as possible, lived up to our agreements under the various State aid programs and carried out our obligations to citizens, particularly in education and welfare.

The principal increases in this Budget are for the following:

For Educational Purposes	$14,700,000.00
For Welfare, Hospital, Mental Health	4,800,000.00
State Employees' Benefits in Addition to Normal Increments	6,100,000.00
All Other Purposes	2,600,000.00
Total Gross Increases	$28,200,000.00

Offsetting these gross increases in 1957-58 were the following reductions because of non-recurring projects budgeted in 1956-57:

Debt Service on Veterans' Housing Bonds	$1,300,000.00
Channel for the New Manahawkin Bridge	300,000.00
Capital Projects	5,000,000.00
Total	$6,600,000.00

How Taxpayer Benefits

Because of the sharply rising school population, each year a greater part of the Budget is devoted to State aid to local districts. In this Budget, no less than 44% is being set aside for this fundamental purpose. In the last four years of the previous administration, State aid increased 28.4% while in the four years of this administration, State aid will have increased 91.8% or $72,202,531.

At this point, let me remind you of the degree to which State aid acts as a deterrent to rising local tax rates. If the sums here recommended were not paid to our municipalities, school districts and counties, the average taxpayer would pay, in local taxes, 26% more than he now pays.

In other words, a person paying $400 in local taxes would be required to pay more than $500. This is a fact to be pasted in our hats as we survey the over-all tax picture. Later, I will set forth in detail the fiscal situation concerning education. But first let me talk about what has become New Jersey's No. 1 problem—highways.

$90 FOR $10

It is of utmost importance that New Jersey should participate fully in the new nationwide Federal highway program, whereby on interstate roads the State will collect $90 for every $10 it contributes. If we do not do so, New Jersey taxpayers will be losing millions to other states for their interstate routes.

In the supplemental section of this Budget, I have provided $1,738,036 which, together with the $20,000,000 appropriated for road construction in the present fiscal year, will be sufficient to match the entire Federal allotment for 1956-57. In addition, I have provided $18,570,740 for the same purpose to match Federal funds for 1957-58. The appropriations recommended, together with Federal aid of $95,100,000 will serve to finance a program of more than $135,000,000 for the two years 1957 and 1958.

NO FUNDS FOR STATE PROJECTS

But this leaves no money at all for highway projects which are the sole responsibility of the State—a matter of grave concern to the people in all twenty-one counties. This means that many important local projects, keenly needed and desired by our citizens, must be neglected. We need at least 10 millions a year solely for such improvements, including center barriers, bridges, creeper lanes, new road connections and other work in the interest of safety and smooth flow of traffic. The Legislature has twice passed an appropriations bill providing $7,000,000 for such projects with no revenue to pay for them. As I have consistently maintained, however, we cannot use for this purpose the so-called surplus expected on July 1, 1957, because it would then be impossible to balance the Budget. The facts here presented, I am sure, will document this statement.

We Can Save Millions

Nor are funds available for the purchase of rights-of-way in advance of the time when most of their cost can be recovered from Federal funds. I am convinced that millions would be saved if we could set aside $10,000,000 per year, for advance purchase of land needed for road construction. It has been clearly shown, both by our own experience and that of other states, that land needed for highways has cost more because of home and commercial construction, and by speculative acquisition. It goes without saying that, if such areas could be bought up before improvements are made and before speculators enter the picture, our costs would be far less.

Ben Franklin Thrift

We know, from figures gathered by the U. S. Bureau of Public Roads, that property has cost as much as 30 times more because it was not acquired before improvements had been made. It has been a source of great concern to me that the Legislature has not seen fit to recognize and grapple with this problem. To do so is a matter of elementary prudence and the Ben Franklin kind of thrift. And this is particularly true since $90 out of every $100 will be paid back to the State on rights-of-way to be used for interstate system freeways in which the Federal Government will participate. What are we waiting for?

Golden Opportunity

I am sure I need not dwell on the vital necessity of providing revenues by which the State will be able to get its full share of future Federal contributions, as well as to take care of pressing intrastate needs. As I pointed out in my special message of September 17, 1956, our highways are the most heavily-traveled in the nation, 7½ times the national average. Our motor vehicle registrations have risen from 1,175,000 in 1946 to 2,142,000 in 1956, an annual increase of between 130,000 and 150,000. Added to this is the heavy traffic from other states, which have had comparable increases in registration. The new Federal program offers a golden opportunity to modernize our highway system, and to avert the creeping traffic strangulation from which New Jersey is now suffering.

Increases for Education

Of the additional $14,700,000 recommended for education, $7,000,000 is for State aid to education: $4,000,000 to local districts over and above funds already appropriated, because of the rising number of pupils, and $3,000,000 to local districts for aid in school construction. For the State's share of the Teachers' Pension and Annuity Fund, $4,000,000 is provided. The actual increase requested was $6,800,000. However, in reviewing the portfolio of this fund, it was found to contain a reserve of $2,800,000, a profit produced by the sale of investments.

Under the terms of existing legislation, the State is required to provide annually such sums as will keep the fund actuarially sound, so there is no reason for retaining this reserve. I recommend the use of this $2,800,000 in 1957-58, thus reducing the request of $6,800,000 to $4,000,000. To do so will not impair actuarial soundness.

The great influx of students at the Teachers' Colleges and the State University is responsible for a recommendation of $1,700,000 to operate educational facilities at the State level. In 1957-58, there will be 1,450 more students at the Teachers' Colleges than there were in this fiscal year, an enrollment increase of more than 25%.

Bulging at the Seams

Though new buildings were constructed out of the $15,000,000 bond issue for State Teachers' Colleges, their facilities are bulging at the seams, and it has been necessary to turn away hundreds of well-qualified applicants. This despite the dire teacher shortage. To provide more classrooms at the Paterson State Teachers College, it was necessary in 1957 to use money out of the State Emergency Fund to transfer some of the temporary veterans' housing units to the Paterson campus. These will serve about 120 students.

Likewise, the State University is badly in need of more facilities to provide higher education for our young people. A study of the Board of Education estimates that by 1963 the number of students seeking admission to college will double, and

that it will triple by 1973. The dramatic statement has been made that, in the next 15 years, the country must build facilities for higher education equal to the total built since the landing of the Pilgrims more than three centuries ago.

In this Budget is recommended approximately $600,000 more than the current gross appropriation to accommodate an increase of some 400 students at the State University.

Biology Building and Law Center

While we lack funds for an adequate building program, I am recommending an initial installment of a million dollars for a biology building, whose eventual cost will be $2,500,000.

Also recommended is $600,000 to augment a $500,000 appropriation made last year for construction of a State University Law Center in Newark. It has been only in recent years that New Jersey law schools have attained the standards set by the American Bar Association, and the proposed Law Center is badly needed to maintain such standards. Private sources have contributed some $500,000, but the bids received for construction approximate $1,770,000. If the Legislature appropriates the additional $600,000, bringing the total funds available to $1,700,000, the remainder no doubt will be privately contributed.

To Avoid Tragic Isolation

Our rise in population has created a waiting list at the School for the Deaf, and I am recommending $400,000 for a 34-bed dormitory. Let me point out here the interesting and important fact that, as a result of training at this school, every graduate is assured of a job and of a self-sustaining place in the community. Conversely, if such training were not provided, these unfortunate persons would be a charge on their families and on the public, and would be isolated in a world of tragic silence. We owe it to them and to ourselves to provide admission to a school whose modern methods do wonders in overcoming the handicap of deafness.

Education for Citizenship

The arrival of many Hungarian refugees again emphasizes the need for State aid to our communities to help them carry the cost of instruction of our foreign-born in the interest of good citizenship. I am recommending $53,000 for this purpose.

Mental Health

An increase of some $4,800,000 is recommended for the vast area of operations of the Department of Institutions and Agencies. Of this sum, $2,950,000 is required at the General State Operations level.

We are continuing to attack the problem of mental health, whose scope and danger were fully described in my special message of March 14, 1955, and to which you handsomely responded. We are beginning to reap benefits from new tranquillizing drugs, improved staffs and more active treatment. We are proceeding on the principle that mere custodial care is not enough; instead, we are using modern methods in positive programs to grapple with mental illness.

There is reason to hope that New Jersey is checking a fearful trend which otherwise would lead to ever-rising patient populations at fantastic cost to our taxpayers. Last year, for the first time in history, and despite an increase in admissions, there was a net decrease of a few hundred persons in our mental institutions. Under the Family Care Program, 267 patients were returned to the community in the last fiscal year, and this program will be vigorously pursued.

More Beds for the Retarded

The conversion of Bordentown Manual Training School and the building of other facilities have added 875 beds to our Schools for the Mentally Retarded. As a consequence, waiting lists have shown a steady decrease despite more than 400 new applications. We should not be satisfied until facilities are available for all mentally retarded persons who cannot be trained in the usual educational institutions and whose presence in the home imposes impossible burdens on the family.

Added Cost of New Facilities

Much of the increase for the Department of Institutions and Agencies is for the staffing of new facilities, such as Ancora, and to provide salaries for personnel already authorized. Funds for the latter, amounting to $850,000, were deferred when the present year's Budget was reviewed. Other increases, such as $478,000, for fuel and utility costs, are needed for new facilities and to meet higher prices. We are rapidly picking up the tab to pay for staffing and operating new buildings constructed from recent bond issues.

At Their Inception

As a corollary to the expanded mental health activity at our institutions, I am recommending $250,000 in State aid for Community Mental Health Services. A measure will be submitted to implement this program. Some counties and local organizations have advanced plans for extending this kind of aid. It is proposed that the State provide up to 20 cents per capita to counties participating, and the sum I recommend should be ample at this time.

The idea is to catch mental difficulties at their inception, and the clinics already in operation show the value of preventive measures. Early diagnosis and treatment of emotionally disturbed persons are of tremendous importance from a human point of view, and mean savings to the State in averting admission to mental and correctional institutions.

Were funds available, I would recommend appropriations for a number of most urgent capital items, such as the reconstruction, fireproofing and renovation of old buildings at Greystone Park and Trenton State Hospitals; a defective delinquent unit and replacement of buildings at the New Lisbon State Colony; a special treatment unit at Annandale Reformatory to which commitments have been skyrocketing; and an infirmary and research unit for the Edward R. Johnstone Training and Research Center at Bordentown.

VALUE OF RESEARCH

Believing deeply in the value of mental health research, I recommend the continuance of funds for this purpose. I hope that, with the assistance of the Council of State Governments, the Northeast States, through their conferences on mental health, will intensify their joint efforts to bring about studies to throw new light on this ancient problem.

MODERN REFORM PRACTICES

At the State Home for Boys, the State Home for Girls and the Clinton Reformatory, we have already provided additional positions and improved personnel classifications to advance the use of modern reform practices, including emphasis on small treatment groups, which has proved successful at Highfields. This Budget will continue that program. A personnel reorganization at the State Prison and its branches will make for better control. We are extending the employment of minimum security risk prisoners on State farms and public lands to do useful work and, at the same time, improve their own chances for rehabilitation.

NON-DEFERRABLE ITEMS

In addition to sums required for roads and approaches at our institutions, I am recommending $1,000,000 toward the cost of urgent capital requirements—such as boiler replacements, electrical equipment, heating system repairs, sewage disposal plants and water facilities. In my opinion, these cannot be deferred. This year, you may recall, we were able to draw on some appropriations reserves to replace two buildings at the New Lisbon State Colony where the walls had heaved. Otherwise, a supplemental appropriation most certainly would have been required. This shows how deferring necessary items catches up with us.

FOR THE BLIND

Provision is made in this Budget for the Commission for the Blind to expand its services, to absorb some of the backlog and to care for additional persons anticipated because of changes in the Social Security laws. In addition, the recommended funds will pay for instructing 66 blind children at residential schools,

and services to blind children in non-urban areas which the program of the Department of Education does not reach.

More Funds for Welfare

State Aid for Welfare requires an additional $869,000, of which $619,000 is for the increased cost of existing welfare categories, particularly the Home Life Assistance program, a responsibility of the Board of Child Welfare. In that program, there will be an increase in caseload of 2,025 adults and children. For Care and Custody, the caseload will increase by 585 children. An increased caseload of 700 in the Permanently and Totally Disabled will require additional funds.

People of Many Skills

At this point, let me say that, on the basis of my experience in State Government, I am convinced that there are some grave misconceptions about the ability, character and industry of public employees. It is not true that the State Government is a cellular structure largely inhabited by drones. State employees are people of many skills who are devoted to their work and give taxpayers their money's worth.

We have put an end to no-show jobs and we have weeded out incompetents. One of the many proofs of the high caliber of State employees is that we frequently lose them to private industry. As I said in my 1956-1957 message: "The State Government must be ever alert to see that it is competing favorably for the best talents. The level of pay and the other benefits of employment must be adjusted to the needs of changing times."

The State Lags

A continuing survey by the Civil Service Commission and by a Cabinet committee shows that private industry has generally increased its payments to employees. It shows also that the State lags in benefits to employees which are afforded by private employers. In addition, cost of living from July 1, 1956, to July 1, 1957, is expected to increase as much as 3%. Indeed, the increase has already reached 2.3%.

I am recommending, therefore that all State employees be granted one across-the-board increment which will cost approximately $4,000,000. The Budget also includes $2,500,000 for normal increments to State employees who have not reached the maximum of their salary ranges. An additional $1,600,000 is included for the increased cost of pension plans.

To Match Industry

In my Budget message last year, I recommended an item covering hospitalization and medical-surgical benefits to all State employees. This was deleted by the Legislature. This year I am again making this recommendation, so that New Jersey may follow the practice of private industry. It will cost about $1,000,000. So the total cost of additional employees' benefits will be $9,100,000. Since we will probably be able to save $500,000 by employee turnover, I am asking for $8,600,000.

For the further benefit of employees and their families, legislation should be passed to correct the long-irksome barrier to the payment of unused vacation credits. If not used before death, these earned credits should be payable to the estates of employees.

Legal Needs

In the Department of Law and Public Safety, additional legal assistance is needed to help our State departments meet their constantly expanding needs for legal services; to continue high standards of law enforcement and to promote the effective handling of litigation. Such litigation produces more revenue as well as protects the State against losses which may result from inadequate legal representation.

For years, the Board of Tenement House Supervision has stood below reasonable standards of performance and should be given the means more effectively to enforce the Tenement House Code. In the Division of Weights and Measures, there has been an increase in weighing station activity, and safety standards as they apply to people operating heavy duty equipment should be met.

We have constantly placed strong emphasis on traffic safety but the need is evident for even greater stress. I feel sure that the

value of the Bureau of Traffic Safety will be increased through the recommendations I have made for its operation.

Labor Requirements

In the Division of Labor of the Department of Labor and Industry, we should intensify the efforts of the Wage and Hour Bureau in enforcing minimum wage orders. Provision is also made for development of an adequate safety program in the more than 14,000 industries in New Jersey. There is a recommendation for using modern business machines for utilizing records and statistics. Not since 1922 has there been any revision or codification of the various laws and regulations governing the various plants and industries in the State. Each year thousands of requests are received for copies of such laws and regulations. Because they are not available, the State is justifiably criticized when it prosecutes persons without first providing them with adequate information.

Civil Service

The Department of Civil Service is responsible for the administration of the Civil Service Laws and Regulations, as well as the recruitment programs for the State, 20 counties and 113 municipalities and school districts—which have altogether some 85,000 employees. The activity of this department is constantly growing, particularly in the face of rapid turnover of personnel at all levels. It is becoming increasingly difficult to eliminate the huge backlog of civil service examinations. These should be held promptly if the State and its subdivisions are to have an adequate labor force. Funds have been recommended which, I hope, will place us in a current position.

A State Development Plan

The Division of Planning and Development in the Department of Conservation and Economic Development is one of the most difficult to administer because of the scores of functions for which it is responsible. In one of its most acute areas, that of planning, funds have been recommended to prepare effectively

a State development plan to assist in the planning for industrial growth and to provide more adequate local planning assistance.

The program for proper maintenance and care of our forests and parks can be expedited by the provision of funds for seasonal employees rather than full-year salaried positions. It is believed that this budgeting concept will better fulfill our needs. I recommend doubling to $100,000 the appropriation for ground water investigation and research now being undertaken by the Division of Water Policy and Supply. This should enable us to make fuller use of the ground water resources of the State.

In the Field of Health

The Department of Health needs increased appropriations to carry out its functions in the field of radiological and occupational health, as well as for air sanitation and in the general field of public health.

Out of an appropriation of $570,000 made in 1956 for the purchase of poliomyelitis vaccine, we have been able to save almost the entire sum through the use of Federal grants subsequently made available for the same purpose. I am, therefore, recommending that there be appropriated out of these unexpended balances the sum of $32,000 to establish additional clinics under the alcoholism program and the sum of $68,000 for the purpose of operating a virology program to provide laboratory facilities needed to identify causative agents of viral diseases. This will help us to prevent epidemics.

In addition, $82,500 of these balances is being recommended for the purchase of poliomyelitis vaccine in 1957-58 should Federal grants not be available for this purpose next year.

$75,000 is provided for the increasing cost of hospital care for crippled children.

Treasury

Some additional funds are reflected in the Department of the Treasury to enable it to carry on the critical functions it must perform. In the Division of Budget and Accounting, provision

is made to handle effectively its vast automated checkwriting, reconciliation and cash control duties, as well as to help develop its new workload method of justifying Budget requests.

The purchasing operations of the Division of Purchase and Property also needs to be kept at a current level in processing the thousands of items it buys for all our State departments. In the Bureau of Construction, the backlog of uncompleted projects for which appropriations have already been made must be cleaned up.

Taxation, Investments and Pensions

The Division of Taxation is not without its problems considering the load which it has been called upon to bear through passage of tax programs of the past. In particular, its Local Property Tax Bureau is rapidly coming to grips with its responsibility for preparing an annual table of equalized valuations as well as in assisting local tax assessors to obtain a more equitable distribution of the local tax burden. Funds are being recommended to handle these tasks.

Because of the huge and still mounting portfolio under the jurisdiction of the Division of Investment, security analysis and control require increased costs.

Our new Division of Pensions, with its many-faceted operations covering all pension funds and its integrated social security provisions for employees at every level of government in the State, continues to demand attention because of its expanding programs and annually increasing number of pensioners and members.

To Aid Agriculture

Included in the recommendations for the Department of Agriculture are funds for needed services to New Jersey's one and one-half billion dollar poultry industry, to improve adult fairs, boys and girls 4-H exhibits and other farm shows and exhibits. Also in high priority are funds to this department to finance the operations of the Rural Advisory Committee.

Because agriculture remains the chief source of income in certain counties and an important source in many others, we must maintain its economy, affected by a rapid trend toward urbani-

zation in this State. The impact of this trend on rural areas, moreover, is occurring when agriculture is not receiving a return commensurate with that of other groups. Faced with reduced market returns and inadequate aid under the Federal Farm Program, New Jersey's farmers need assistance with their problems. The Rural Advisory Committee should appraise and survey the situation in line with the State master plan and make recommendations to achieve the most efficient use of our agricultural resources.

Capital Improvements

I have already referred to the request of the various departments for the need of funds for capital improvements. It should be obvious that such improvements in many areas are a practical necessity. The serious lack of funds, however, makes it impossible for me to recommend many of the needed buildings for expanding facilities throughout the State.

As I have pointed out in this message, funds have been provided for certain projects which cannot be deferred to a future year. In the case of the State University, the $1,000,000 recommended for the biology building represents only the first installment. Subsequent Budgets must of necessity provide the remaining funds necessary to complete this project. The $1,000,000 recommended for capital improvements at the various institutions and agencies of the State also represents an installment against the total funds needed to protect our multi-million dollar investment in these various areas.

Office Building Needs

On numerous occasions in the past, I have presented to the Legislature the necessity for coming to grips with the problem of office space for departments in the City of Trenton. As you know, facilities now in use by the Department of Health would be condemned if they were operated by private agencies. The State Department of Education is hard-pressed to find adequate seating space for its employees in the Trenton offices. The Division of Employment Security in Trenton is presently operating in various inconvenient locations. We are spending more than one million dollars for rent in the Trenton area alone.

How to Finance Them

After providing for the purchase of Round Valley out of the Veterans' Guaranteed Loan Fund, there will be sums in excess of $4,000,000 left in this fund. This money, together with Federal funds available to the Department of Health under the Hill-Burton Act, will provide sufficient resources to erect either new buildings or additional office space for the Departments of Health and Education. Funds presently available in the Unemployment Compensation Auxiliary Fund, together with Federal funds available to the Department of Labor and Industry, will provide sufficient moneys to erect a building for this department.

I strongly recommend that the Legislature again review the office building problems and take steps to appropriate dedicated moneys for these urgently needed facilities.

Other Projects

I am not providing, in this Budget, any funds for the construction of new motor vehicle testing stations or for new armories for the National Guard. Funds for these purposes should be completely utilized before additional moneys are recommended. The operation of the present "drive-in" facilities for testing motor vehicles appears to be very satisfactory. With the continued use of these facilities, it may be unnecessary for the State to continue its building program for additional motor vehicle testing stations. However, we still need regional centers for driver examinations, clinics and agencies.

A review of the requests from the Department of Education for additional facilities at the various Teachers' Colleges; the State University for additional facilities for higher education; and the Department of Institutions and Agencies for additional facilities in caring for the mentally retarded and youthful offenders, places upon us the burden of long-range planning. New Jersey is a dynamic State. As our population increases, new capital facilities must be provided. These facilities cannot be built from present revenues.

CONCLUSION

I have given you highlights of the Budget for the coming fiscal year and trust that you will give my recommendations thoughtful consideration in the light of all the facts. It has been the constant aim of this administration to keep the State's house in trim order, and to use the taxpayers' money with all possible thrift and prudence, bearing always in mind that this is a sacred trust. It has also been the aim of this administration to keep abreast of modern thought and practice in every field relating to State Government—but to avoid grandiose proposals and circus performances.

By constitutional mandate, the Budget must be balanced. This Budget is balanced. Like Mr. and Mrs. Housekeeper, we have planned future expenses and fitted them into estimated future revenues. New Jersey's economy, thank God, is extremely strong and the State Government enjoys the highest possible financial rating. With good management, courage and vision to meet the problems confronting us, we can move forward with robust confidence.

Respectively submitted,

ROBERT B. MEYNER,
Governor of New Jersey.

Attest:

BRENDAN T. BYRNE,
Acting Secretary to the Governor.

Resolved, That Casper Farner, of the County of Burlington, be appointed Assistant Secretary to the President of the Senate for the legislative year, at a salary of $500.00.

Mr. Crane offered the following resolution, which was read and adopted:

WHEREAS, Former Senator Arthur N. Pierson of Union County died on March 8, 1957; and

WHEREAS, Although in recent years Senator Pierson has been regarded as an elder statesman rather than as one still actively engaged in public life, his many great achievements of lasting benefit to the State have not been forgotten; and

WHEREAS, He represented his county in the General Assembly for term after term commencing in 1914 and during that period of service was Majority Leader in 1918 and Speaker in 1919; and

WHEREAS, During those years Mr. Pierson began to display his unusual talent in the public field particularly as an authority on fiscal affairs; and

WHEREAS, Mr. Pierson in 1922 was elected to represent Union County in the Senate for an unexpired term and thereafter was re-elected several times to the Senate, serving therein until the end of 1932; and

WHEREAS, Senator Pierson was chosen Majority Leader in the Senate for the 1929 Session and President of the Senate in 1930; and

WHEREAS, During his term as President of the Senate he also served as Acting Governor of the State; and

WHEREAS, Among his achievements while so serving his county and State, Mr. Pierson personally prepared and sponsored such important laws as the Pierson Budget Act, the Pierson Bond Act, the Pierson Sinking Fund Act, the Revised Tax Act and Tax Sale Act, the Physical Training Law, the Road Bond Act, the Revised Election Law, the Commercial Arbitration Act, the Credit Union Act, the Revised Building and Loan Act and many other laws which still remain upon the statute books; and

WHEREAS, Mr. Pierson was one of the founders of the Good Roads Association of New Jersey which was organized in 1922, and one of his last major contributions to the highway field was to bring about a merger of the Good Roads Association of New Jersey with the New Jersey Citizens Highway Committee in the fall of 1955; and

WHEREAS, Besides sponsoring the Road Bond Act he followed the progress of the New Jersey Citizens Highway Committee with keen interest, frequently assisting with valuable advice and counsel, and more recently served as the Honorary Chairman of the Board of Trustees of the New Jersey Citizens Highway Committee thus being actively identified for upwards of 30 years in the Highway program of the State; and

WHEREAS, For over 25 years Mr. Pierson was actively interested in the regional concept of planning and in the problems pertaining to water supply and transportation in addition to the great interest in highway improvements; and

WHEREAS, Notwithstanding his manifold public duties, Mr. Pierson found time to author and publish the Municipal Finance Laws and a Tax and Tax Sale Book; and

WHEREAS, Mr. Pierson served as Chairman of the Commission for the Survey of Municipal Financing and as the expert Advisor on Research to the distinguished Commission created by chapter 95 of the Laws of 1938 to study the tax laws of the State; and

WHEREAS, After his service in the Legislature Mr. Pierson became the County Treasurer of Union County and held that post for upwards of 20 years; and

WHEREAS, Much of the soundness and stability in municipal, county and State financing is directly attributable to the guiding hand of the late Senator; and

WHEREAS, The State and its political subdivisions are greatly indebted and will remain indebted to Mr. Pierson for his many contributions to the statutory laws and for his ever willingly extended guiding hands and advice in governmental fiscal matters; and

WHEREAS, His home town of Westfield also owes a special debt of gratitude to Mr. Pierson for his continuous participation in the civic affairs of that municipality; now, therefore,

Be It Resolved by the Senate of the State of New Jersey that public expression is hereby given to the deep regard for the memory of former Senator Arthur N. Pierson with a special appreciation for his memorable contributions to the cause of good and sound government in this State and this body hereby extends to his family its sincere condolences and sympathy.

Be It Further Resolved, That a copy of this resolution be spread upon the Journal of the Senate and that a copy signed by the President and Secretary of the Senate be sent to the family of former Senator Arthur W. Pierson.

Mr. Dumont offered the following resolution, which was read and adopted:

WHEREAS, Paul H. DeRoner, manager of the Food Fair super-market at 680 Memorial Parkway, Phillipsburg, Warren County, New Jersey, has been cited as a National Good Citizenship Award winner by the National Association of food chains; and

WHEREAS, This award is given for outstanding community achievement; and

WHEREAS, The award program has been cited by the Freedoms Foundation, American Public Relations Association, American Society of Association Executives and Public Relations News for its contributions to the American way of life; and

WHEREAS, Mr. DeRoner is an active participant in community affairs, and has won his award in competition with more than 9,000 supermarket managers in the United States and Canada; now, therefore,

Be It Resolved, That the Senate of the State of New Jersey congratulate Mr. DeRoner on his being so honored, and wish for him continued success and prosperity; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and attested by the Secretary, be forwarded to Mr. DeRoner.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: March 18, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following concurrent resolution:

A concurrent resolution memorializing the late Willard H. Allen.

WHEREAS, Willard H. Allen, formerly Secretary of Agriculture of New Jersey, died on February 26, 1957; and

WHEREAS, Mr. Allen for many years was recognized as a leader in agriculture, industry and public life and was New Jersey's Secretary of Agriculture from 1938 until 1956; and

WHEREAS, His contribution to State Government will long endure not only because of his valuable service as Secretary of Agriculture but because of his relationship to agriculture and, in turn, to the entire economy of the State; and

WHEREAS, His geniality and efficiency in the handling of his many tasks endeared him to a host of friends and associates; and

WHEREAS, He gained and held the respect of many of the Governors of this State and of those with whom he came in contact in his work in the Department of Agriculture, particularly as he always found time to give complete consideration to the problems presented, both large and small; and

WHEREAS, In 1949, he was honored as the outstanding citizen of New Jersey for that year by the Advertising Club of New Jersey, and in 1955, by the receipt of the Gold Medalion for distinguished service to New Jersey agriculture, awarded by the New Jersey Agricultural Society, and in 1956 by being given a special citation for distinguished service to New Jersey agriculture, by the New Jersey Agricultural Convention; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That public expression of appreciation is hereby given for Willard H. Allen's contribution to the government of this State and to its citizens in the field of agriculture.

2. That a copy of this resolution be spread upon the Journal of the Senate and upon the Minutes of the General Assembly, and that a copy signed by the President of the Senate and the Speaker of the General Assembly and attested by the Secretary of the Senate and the Clerk of the General Assembly, be sent to the State Secretary of Agriculture to be appropriately displayed in the office of the New Jersey Department of Agriculture, as a memorial to that department's former Secretary, Willard H. Allen.

In which the concurrence of the Senate is requested.

WILLIAM J. KOHM,

WHEREAS, Mr. Keefe, a past president of the New Jersey Legislative Correspondents Club, was at one time Legislative correspondent of The Elizabeth Times and continued in that capacity when he joined the Star Eagle, predecessor of the Star Ledger; and

WHEREAS, He wrote a weekly political column for the old Newark Sunday Call under the name "Carteret"; and

WHEREAS, He was appointed director of public information of the New York Port Authority in 1927 and, in addition, three years later became secretary of the Authority, serving in such dual capacity until 1944; and

WHEREAS, Mr. Keefe, thereafter, returned to his political writing with The Sunday Star Ledger and The Elizabeth Daily Journal, serving the latter since 1952 as an editorial writer and columnist; and

WHEREAS, During his active career, Mr. Keefe was a friend and confidant of the Governors of our State and of many high public officials and numbered among his intimate acquaintances more politicians than probably any other man in the State; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. Tribute is herewith paid to the memory of the late Lawrence J. Keefe as an outstanding newspaperman, public servant, political correspondent and editorial writer of the State of New Jersey.

2. The Secretary shall cause a copy of this resolution to be spread upon the Journal of the Senate, and a copy, signed by the President and the Secretary, sent to the family of Lawrence J. Keefe.

Mr. Murray offered the following resolution, which was read and adopted:

WHEREAS, The 3rd day of May will mark the One Hundred Sixty-sixth Anniversary of the adoption of the Polish Constitution; and

WHEREAS, This memorable date commemorates the establishment of a free and independent Poland; and

WHEREAS, The great Polish nation and its indomitable people have, throughout the past century and a half, suffered repeated enslavement and persecutions in defense of their own independence and on behalf of the rights of free men everywhere; and

WHEREAS, The history of the fight for independence in the United States of America glows with the great contributions and valorous deeds of Polish volunteers and military leaders who fought on our behalf; and

WHEREAS, Countless Americans of Polish descent have contributed and are now lending their talents to the growth of the United States and its fundamental rights; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring) that:

1. Warmest congratulations be extended to Americans of Polish descent and the numerous civic and patriotic Polish-American societies on the anniversary of Polish Independence Day;

2. That public tribute be rendered to the invincible public courage which the Polish people displayed during World War II as they struggled fiercely inside and outside Poland to preserve their liberty;

3. That sympathy and support be extended to the continued struggle of the Polish people to rid themselves of communistic domination and to preserve their cherished liberties;

4. That free peoples everywhere prayerfully hope that a new day of liberty will dawn, and that we hereby associate ourselves with Poland's destiny for freedom and justice under God in a new and democratic land united to the free nations of the world; and

Be It Further Resolved, That a copy of this resolution, duly signed by the President of the Senate and attested by its Secretary, and signed by the Speaker of the General Assembly, attested by its Clerk, be forwarded to the several Polish societies celebrating this anniversary.

WHEREAS, This suspension of rail transportation service has resulted in severe hardship and inconvenience to some 65,000 commuters; and

WHEREAS, A further prolongation of the strike threatens to prevent permanently the resumption of this railroad service; and

WHEREAS, Any such condition would seriously affect the economic welfare of a substantial number of residents of New Jersey and of the State as a whole; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. That the Governor of New Jersey forthwith extend to labor and management in the Hudson and Manhattan Railroad strike his services and the facilities of his office in an effort to bring about a settlement of the differences between them.

2. That the Governor of New Jersey request the Governor of New York to sit with him, their respective conciliation and mediation services and the Federal mediation service in an all-out effort to settle the dispute.

3. That in the event such efforts prove to be unsuccessful, immediate Presidential action be sought.

Senate resolution of condolence on the death of Edward A. Haney, former Law Librarian of the State of New Jersey.

WHEREAS, Edward A. Haney, former Law Librarian of the State of New Jersey died at the age of 76 years on April 26, 1957, after serving as a valuable State attache over a period of 36 years; and

WHEREAS, He was a lifelong resident of Trenton and gained recognition for his charitable works and humility during a lengthy and useful life and left everyone who knew him incomparably richer in the good things of life; and

WHEREAS, Mr. Haney was an honorary member of the Mercer County Bar Association, although not a member of the bar of the State of New Jersey, an honor and tribute seldom accorded a layman, and

WHEREAS, Mr. Haney was an outstanding Catholic layman and a member of the St. Vincent de Paul Society of St. Mary's Cathedral; a member of the Mount Carmel Guild and the Holy Name Society of the Church of the Blessed Sacrament; and

WHEREAS, Mr. Haney served as clerk in the State Library from 1915 to 1924; Assistant State Librarian from 1924 to 1926; Law Librarian from 1936 to 1949; Senior Librarian from 1945 to 1949, and Reference Law Librarian from 1949 until his retirement on October 1, 1951; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. The Legislature and the people of the State of New Jersey express their profound grief upon the passing of this noble State official and employee and record their gratitude for his many years of service in the interest of the law and betterment of mankind;

2. The condolences of the people of New Jersey be extended to his family and associates;

Be It Further Resolved, That a copy of this resolution signed by the President of the Senate and attested by its Secretary be presented to his bereaved family.

Mr. Ridolfi offered the following resolution, which was read and adopted:

WHEREAS, The State of New Jersey is deeply conscious of its obligation to its future citizens; with a particular interest in the welfare of homeless and orphaned children; and

WHEREAS, The objectives of the State Board of Child Welfare and privately financed adoption agencies authorized and supervised by the New Jersey Department of Institutions and Agencies have been furthered through the diligent services rendered to adoption and child care programs by foster parents throughout the State; and

WHEREAS, The Children's Home Society of New Jersey, the State's oldest privately financed adoption and child service agency, relies for its workings entirely on services rendered by foster parents; and

WHEREAS, Of all foster parents currently affiliated with the Children's Home Society of New Jersey, Ruth and Christian Brodbeck have been designated as "Foster Parents of the Year" in recognition of the shelter, love and affection they have bestowed upon seventy children of all ages during 15 of their 19 years of married life during which time they have served the needs of the Children's Home Society of New Jersey; and

WHEREAS, Ruth and Christian Brodbeck so completely epitomize all those inherent good qualities desired not only of foster parents, but for all parents generally; therefore

Be It Resolved by the Senate of the State of New Jersey, That in order to honor and recognize foster parents serving in various capacities throughout the State of New Jersey and to pay tribute to the excellent work rendered by them in aiding the present and future lives of homeless children, that Ruth and Christian Brodbeck "pinch-hitting parents to seventy" shall be, and hereby are, designated New Jersey's Foster Parents of the Year; and

Be It Further Resolved, That an engrossed copy of this resolution be presented to Ruth and Christian Brodbeck in recognition of their services to the State's homeless and helpless youngsters seeking assistance in obtaining a secure grip on life.

At the request of President McCay, Mr. and Mrs. Brodbeck were brought forward where they were honored and given due recognition as the "Foster Parents of New Jersey."

Six communications were received from the Governor by the hands of his Secretary.

Mr. Stout moved that the communications be received and filed.

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: April 29, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following concurrent resolution;

WHEREAS, The 3rd day of May will mark the One Hundred Sixty-sixth Anniversary of the adoption of the Polish Constitution; and

WHEREAS, This memorable date commemorates the establishment of a free and independent Poland; and

WHEREAS, The great Polish nation and its indomitable people have, throughout the past century and a half, suffered repeated enslavement and persecutions in defense of their own independence and on behalf of the rights of free men everywhere; and

WHEREAS, The history of the fight for independence in the United States of America glows with the great contributions and valorous deeds of Polish volunteers and military leaders who fought on our behalf; and

WHEREAS, Countless Americans of Polish descent have contributed and are now lending their talents to the growth of the United States and its fundamental rights; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

1. Warmest congratulations be extended to Americans of Polish descent and the numerous civic and patriotic Polish-American societies on the anniversary of Polish Independence Day;

2. That public tribute be rendered to the invincible public courage which the Polish people displayed during World War II as they struggled fiercely inside and outside Poland to preserve their liberty;

3. That sympathy and support be extended to the continued struggle of the Polish people to rid themselves of communistic domination and to preserve their cherished liberties;

4. That free peoples everywhere prayerfully hope that a new day of liberty will dawn, and that we hereby associate ourselves with Poland's destiny for freedom and justice under God in a new and democratic land united to the free nations of the world; and

Be It Further Resolved, That a copy of this resolution, duly signed by the President of the Senate and attested by its Secretary, and by the Speaker of the General Assembly, attested by its Clerk, be forwarded to the several Polish societies celebrating this anniversary.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 20, 1957.

SENATE BILL No. 33

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 33 for the following reasons:

Senate Bill No. 33 would exempt from the operation of section 68 of the Teachers' Pension and Annuity Fund—Social Security Integration Act, certain members of the Teachers' Pension and Annuity Fund who obtained full Social Security coverage in public employment. It would thus permit those members to receive full retirement allowances under the act without deducting from the allowances the amount of benefits received by them under the Federal Social Security Act. Specifically, the bill would apply to men born after January 1, 1892 and before January 2, 1894, and women born after January 1, 1892 and before January 2,

1897, provided such individuals retired on or before July 1, 1957. A companion bill, Senate Bill No. 34, would effect the same results with respect to the Public Employees' Retirement System.

The Public Employees' Retirement System Act and the Teachers' Pension and Annuity Fund—Social Security Integration Act were adopted in 1954 and 1955, respectively, as part of a program by the State to liberalize and give more comprehensive pension, disability and death benefit protection to public employees. The benefits available to public employees under the new systems are substantially greater than the benefits available prior to the integration, and in addition, Social Security coverage has been extended, for the first time, to public employees in this State. The liberalization of the systems was made financially feasible only through integration of the State systems with Social Security. Part of the increased cost to the State is covered by the Social Security offset which reduces the pension paid by the State but not the annuity portion of the retirement allowance. So, too, by reason of such integration, it was possible to extend liberal death and disability benefits without any increased cost being imposed upon the members of the systems.

Pension payments under the new systems are reduced to the extent of Social Security benefits only in those cases where the members obtain permanent Social Security coverage through public employment. The offset provision was so limited in order to protect the rights of those members who obtain Social Security eligibility through private employment and retire before they become eligible for such benefits through public employment alone. This group was very limited in size and was given this special consideration to preserve their pre-existing rights to Social Security benefits arising under private employment. It should be noted that there is no offset under either of the systems for Social Security benefits paid to a spouse of a member.

Federal legislation, approved in August of 1956, amended the Social Security Act. Under the Federal amendments, benefits are increased and liberalized. Disability benefits are payable at 50 years of age instead of at 65; widows and wives may receive benefits at 62 instead of 65. In addition, working women may receive Federal benefits at 62 instead of 65, and both men and women may qualify for payments

with less months of coverage than before. Although the new Federal act provides for an increase in employee taxes, the New Jersey pension acts require that the State and other public employers shall bear this increased cost; no part is charged to the retirement system members. The 1956 amendments to the Social Security Act will require the State to increase its appropriations for Social Security purposes by $1,200,000.00 a year. Similar increased costs will be imposed upon other public employers. Supplemental appropriations for part of the current fiscal year will have to be made.

One provision of the recent amendments to the Social Security Act reduces the number of "quarters" (three-month periods) of coverage required for any person to become eligible for Social Security benefits. Thus, teachers and other public employees now fulfill the eligibility requirements earlier than under the previous Federal law. As a result, some 4,200 public employees in the age groups referred to in Senate Bills Nos. 33 and 34 now have permanent Social Security coverage in public employment and cannot avoid having their pension payments reduced at age 65 by the amount of their Social Security benefits.

Two groups of members have been affected by the acceleration in Social Security eligibility. The first were those who had retired prior to the Federal amendments without being subjected to the offset of Social Security. The members in this group had relied upon the law existing at the time of their retirement and had irrevocably committed themselves to retirement. The new Federal act required an unanticipated reduction in these retirement allowances. Through the enactment of P. L. 1956, chapters 218 and 219, those retired members of the two systems who were affected were insured the pensions they were to receive at the time they retired. The second group are those referred to in Senate Bill No. 33. This group includes those members who found themselves with complete Social Security eligibility upon the adoption of the Federal amendments as well as those who became eligible during the present school year.

The September 1956 issue of the official publication of the New Jersey Education Association recognized this problem and pointed out:

> "There will be some disappointed women teachers in the 60-65 age group who can no longer look forward

to timing their retirement so as to get both social security and their full State retirement allowances. We sympathize with them sincerely—it is never a happy experience to get less than you expected. However, teachers in this group should recognize (a) that the possibility of 'double benefits' always was a special advantage available to only a limited group of teachers rather than the mass; and (b) that it was not a major consideration in the decision to accept or reject the new plan. Without it, the new plan is far better than the old for virtually every New Jersey teacher; it is especially advantageous to the very group which had looked forward to the double benefits."

The actuary of the system has made an analysis of the effect of this proposal as it affects the 2,400 members of the Teachers' Pension and Annuity Fund in the group, based upon a conservative assumption that only one-half of those members would elect to take the benefits of the bill. The actuary has estimated the cost, based upon normal life expectancy of this group, at a present value of $10,100,000.00. This means that the State would need to have an additional 10 million dollars on hand today, invested at 3% interest, in order to pay this obligation.

If the State elected to pay the cost over a 15-year period it would require an additional annual appropriation of $908,000.00, or, if funded over a 20-year period, an additional annual cost of $743,000.00.

Assuming that 409 of the 818 State employees affected would take advantage of the companion measure, Senate Bill No. 34, the cost to the State of that bill is calculated to have a present value of $2,700,000.00. If the State amortized this obligation over a 15-year period, the cost would be $243,000.00 annually or if over a 20-year period, $199,000.00 annually.

Since the bills do not provide any funds and the combined present value of $12,800,000.00 is not available, the State would be obliged to amortize on either a 15- or 20-year basis. Thus, the total cost of the 2 bills to the Senate would amount to $1,151,000.00 annually for 15 years, or $942,000.00 annually on a 20-year basis. The total payments by the State over such period would thus amount to either $17,250,000.00 or $18,860,000.00.

In the case of Senate Bill No. 34, there is an additional cost to other public employers whose employees are members of the Public Employees' Retirement System.

As has been noted, the revision of the Teachers' Pension and Annuity Fund accomplished in 1955 by the Teachers' Pension and Annuity Fund—Social Security Integration Act was designed to increase substantially the retirement benefits of all members of the Fund.

The increased retirement benefits alone are best illustrated from the following list of cases selected at random from the files of the Teachers' Pension and Annuity Fund:

* Social Security payments to dependents are in addition to any payments made to the retired employee.

** The beneficial effect of the revision and Social Security integration of the present law is particularly apparent in the case of low salaried or short term employees.

Further, it should be noted that retirement income is given preferential treatment under Federal income tax laws in that all of the Social Security payments and a portion of the State pension and annuity payments are completely exempt.

Again, members of the Teachers' Pension and Annuity Fund have received other important benefits under the new law, including the following:

(1) Non-contributory life insurance protection equal to 1½ times salary while in service;

(2) Early retirement benefits after 25 years of service;

(3) A vested pension right after 20 years of service;

(4) Service-connected disability pension benefits of ⅔ annual salary;

(5) Special service-connected death benefits.

The laws establishing the Public Employees' Retirement System and the Teachers' Pension and Annuity Fund, in order to stabilize employee contribution rates, provide that the State and other public employers shall pay both the employer's and the employee's share of any increases in the Federal Social Security tax through 1959. On the other hand, the employer receives the value of any increase in the offset of the State retirement allowance at age 65 through any increases in the amount of Social Security benefits in the same period of time. This offset only applies to the pension part of the retirement allowance; it does not affect the annuity payment, nor does it apply until the retired employee attains the age of 65. Thus, any woman who is a member of the Fund may retire at age 62 and receive full pension and annuity payments without any offset until she attains the age of 65.

Senate Bills Nos. 33 and 34 would impose large additional costs upon the State. Yet the Legislature, in passing these bills, failed to make any provision to raise or provide the funds necessary to amortize this very large obligation.

During the next fiscal year, total costs to the State for all pensions will amount to over $40,000,000.00. These are mandatory expenditures under the present statutes and cannot be overlooked in analyzing the cost implications of any one pension bill on the State financial structure.

Based upon present revenue sources and revenue estimates, I do not feel that I can approve this measure, particularly since no action has been taken to first provide for the large number of unfortunate public pensioners who struggle for subsistence upon meager pensions.

I have presented to the Legislature a report of a special committee established for the purpose of studying the problem of the adequacy of retirement allowances now paid to public employee pensioners. My comments in the statement of my reasons for refusing to sign Senate Bill No. 61 (1956) are still pertinent:

> "The complexity of the problem existing in the case of pensions payable to retired State, county and municipal employees which, by reason of the rise in the cost of living since the retirement of those employees and the need for the adoption of a comprehensive program to meet that problem has long been apparent. I have so advised the Legislature on many occasions. Despite this notice, the Legislature has not come to grips realistically with the problem. Instead of adopting some comprehensive program, it has passed bills to benefit certain limited groups. These I was obliged to disapprove because of the piecemeal approach and the costs they involved."

In analyzing the effects of Senate Bills Nos. 33 and 34, I cannot overlook the administrative aspects. These 2 bills actually affect approximately 4,200 members of the 2 retirement systems. Each must make a careful decision with regard to retirement, including the selection of various options which extend different types of benefits to beneficiaries upon death. Such a decision must be based upon figures presented by the Division of Pensions to the individual concerned. The job of making available even rough approximations for this great number of people could not be accomplished in the time allotted by this legislation. The bills would, therefore, require certain members to make a decision of major importance on the basis of little or no information. Yet to extend the date of decision would compound the problem by requiring the inclusion of additional groups and increase the cost because of the larger number who would elect to avoid the offset.

Those whom Senate Bill No. 33 would benefit have already benefited substantially from the 1955 revision of the Teachers' Pension and Annuity Fund. Moreover, many of them will find themselves in a better financial position if they continue public employment to their normal retirement dates, because of salary increments and corresponding increases in retirement benefits.

For these reasons, I am constrained to return Senate Bill No. 33 herewith without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Governor.

SENATE BILL No. 34

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 34 for the following reason:

Senate Bill No. 34 would exempt from the operation of section 59 of the Public Employees' Retirement Social Security Integration Act, certain members of the Public Employees' Retirement System who obtained full Social Security coverage in public employment. It would thus permit those members to receive full retirement allowances under the act without deducting from the allowances the amount of benefits received by them under the Federal Social Security Act. Specifically, the bill would apply to men born after January 1, 1892 and before January 2, 1894, and women born after January 1, 1892 and before January 2, 1897, provided such individuals retired on or before July 1, 1957.

This is a companion measure to Senate Bill No. 33 which would accomplish the same result with respect to the Teachers' Pension and Annuity Fund.

For the reasons set forth in my message concerning Senate Bill No. 33, I am returning Senate Bill No. 34, herewith, without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Governor.

SENATE BILL No. 49

To the Senate:

I am returning herewith Senate Bill No. 49, without my approval, for the following reasons:

Senate Bill No. 49 would amend chapter 449, P. L. 1953, which established the New Jersey Commission on Narcotic Control, to increase its membership from 5 to 11 members. Of the 6 additional members, 3 would be members of the Senate, appointed by the President thereof, and 3 would be members of the General Assembly, appointed by the Speaker thereof. The legislative members of the Commission would serve so long as they are members of the House of the Legislature from which they are appointed.

The original act establishing this Commission was approved on January 11, 1954, by then Governor Driscoll, who on January 18, 1954 appointed the 5 original members of this Commission. Since that date, the Commission has operated as a 5-member body and has performed its duties conscientiously.

In the more than 3 years that the Commission has functioned, it has made numerous findings relating to narcotic control and has recommended various legislative changes, including a suggested change in the status of the Commission itself. At no time, however, has the Commission indicated that it felt the need of increased membership.

Senate Bill No. 49 is not accompanied by a statement nor have I received any indication why there is a need, at this time, for a more than 100% increase in the membership of this body. The fact that the 6 new members are to be appointed by the President of the Senate and the Speaker of the General Assembly and will outnumber those to be appointed by the Governor, indicates that the sole impetus for this legislation is political.

In filling the 4 vacancies that have occurred in this Commission during my administration, I have endeavored to select qualified individuals without regard to political con-

siderations. My appointments have included an outstanding penologist and a leading authority in the field of public health as well as the re-appointment of one of the members originally appointed by my predecessor and the replacement of one member, after his resignation, by his wife who had worked with him on many of the Commission's problems.

Matters as important to the welfare of all of the citizens of our State as the control and the elimination of traffic in narcotics should not be subordinated to and embroiled in the mesh of partisan politics.

For these reasons, I am constrained to return Senate Bill No. 49 without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Governor.

Upon a *viva voce* vote being taken, the President declared the resolution adopted.

The Secretary was directed by the President to carry said bill to the General Assembly and inform that body that the Senate has passed the same, and requests its concurrence therein.

Messrs. Forbes and Fox offered the following resolution, which was read and adopted by voice vote:

WHEREAS, The New Jersey Supreme Court has in its recent decision in the case of Morss v. Forbes, et al, upheld the fundamental right of legislative investigating committees to require witnesses to be present and to answer questions; and

WHEREAS, The instant case arose from an investigation by a committee of the New Jersey Senate into the vital question of wire-tapping; and

WHEREAS, The New Jersey Senate was represented before the Supreme Court by one of its distinguished members, Senator Walter H. Jones of Bergen County; and

WHEREAS, The preparation of the brief, the argument of the case, and the unprecedented re-argument of the matter on two subsequent appearances necessitated the expenditure of tremendous time and energy on the part of Senator Jones; and

WHEREAS, The decision of the Supreme Court represented a complete victory for the Senate in asserting the right of Legislative Committees to require the appearance of a witness and made other significant interpretations of the duties and obligations of State officers and other law enforecement officials; and

WHEREAS, The Senate has in the past called upon Senator Jones to appear as its counsel in cases involving serious questions of constitutional law relating to the State Rent Control Director and the State Law Enforcement Council; and

WHEREAS, Senator Jones served his fellow members of the Senate in all three cases with distinction; and

WHEREAS, In all three instances Senator Jones has, at his own insistence, served without compensation; now, therefore,

Be It Resolved, That the Senate of the State of New Jersey does hereby extend to Senator Jones its deep appre-

ciation for the important work he has performed as counsel to the Senate.

Mr. Hillery offered the following resolution, which was read and adopted:

Resolved, That the President of the Senate extend a cordial welcome to the members of the New Jersey Government Class of the Ninth Grade of Boonton High School, Morris County, who are present at the Senate session today, accompanied by their teachers, Mrs. Irwin and Mr. Merriweather, and that the privileges of the floor be granted to Miss Carol Bentley to briefly adrress the Senate.

At the invitation of the President, Miss Carol Bentley, briefly addressed the Senate.

Mr. Murray offered the following resolution, which was read and adopted:

Resolved, That the President of the Senate extend a cordial welcome to the members of the Senior Class of Weehawken High School, in the County of Hudson, who are visiting the Senate session today, accompanied by Mr. A. Wallace Gendron, Superintendent of Schools, and that the privileges of the floor of the Senate be granted to Charles Berwitz, President of the Student Council, to briefly address the Senate.

At the invitation of the President, Charles Berwitz, briefly addressed the Senate.

Mr. Fox offered the following resolution, which was read and adopted:

WHEREAS, The Legislature of this State created the Township of Millburn in Essex County at the time the County of Union was created and established; and

WHEREAS, The Township of Millburn, of which Short Hills is a part, was formerly part of an area purchased by a group of ninety-two people from Connecticut proprietors, which subsequently became the Township of Springfield; and

WHEREAS, In the past 100 years the Township of Millburn has grown from a farming and industrial community to one of the loveliest residential areas in New Jersey; now, therefore,

Be It Resolved, That the members of the Senate extend their congratulations and best wishes to the citizens of Millburn and the members of the Millburn Township Centennial Committee; and

Be It Further Resolved, That copies of this resolution, signed by the Governor and the President of the Senate, attested by the Secretary of the Senate, be forwarded to William B. Gero, Mayor, Township of Millburn, and to Mr. A. Ross Meeker, General Chairman of the Centennial Committee.

Mr. Stout moved that the Senate take a recess of one hour.

Which was agreed to.

Upon the conclusion of which and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call.

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hannold, Harper, Hillery, Jones, Lance, Lynch, Mathis, McCay (President), Murray, Ridolfi, Sandman, Sharp, Shershin, Stout, Waddington—21.

Mr. Dumont moved that Senate Bill No. 33, with veto message of the Governor attached, be reconsidered and do now pass, the objections of the Governor to the contrary notwithstanding.

Thereafter, before a vote, Mr. Dumont moved that action on his motion be temporarily laid over.

Which motion was adopted.

The following messages were received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: May 27, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following bill:

Assembly Bill No. 9, entitled "An act to amend 'An act to provide for a schedule of minimum salaries and incre-

ments for certain persons holding office, position, or employment under any district or regional board of education, or any board of education of a county vocational school of this State, and supplementing article 2 of chapter 13 of Title 18 of the Revised Statutes,' approved December 13, 1954 (P. L. 1954, c. 249),''

In which the concurrence of the Senate is requested.

WILLIAM J. KOHM,
Clerk of the General Assembly.

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following Senate Concurrent Resolution:

A Concurrent Resolution expressing the Legislature's appreciation of Paul L. Troast's services rendered the State.

WHEREAS, The retirement of Paul L. Troast from public life requires and deserves more than passing notice; and

WHEREAS, Mr. Troast's service to the State, as Chairman of the New Jersey Turnpike Authority, has been of surpassing excellence and far beyond the call of duty; and

WHEREAS, His business sense, know-how, foresight and long hours of hard work transformed the public dream of a super North-South Highway through the State into the fabulous New Jersey Turnpike; and

WHEREAS, Paul L. Troast was the driving force that enabled the very excellent New Jersey Turnpike Commission and its able force of devoted executives and engineers to construct the "Turnpike" in record time; and

WHEREAS, Mr. Troast's gratuitous service to the Commission and the State was rendered at very great sacrifice to his family and business; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

1. The Legislature expresses its deepest appreciation to Paul L. Troast for his services rendered to the State.

2. The President of the Senate and Speaker of the General Assembly shall cause to be prepared and they shall present to Paul L. Troast a plaque of suitable design and inscription in recognition of his services.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: June 3, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following concurrent resolution:

WHEREAS, The crippling effects of multiple sclerosis on young adults between 20 and 40 years of age is a problem of increasing concern to the citizens of New Jersey; and

WHEREAS, The National Multiple Sclerosis Society supports scientific research to find the cause and cure of this chronic, disabling disease, and further gives aid to multiple sclerosis patients through its four affiliated chapters in New Jersey, to wit, The Atlantic-Cape May Chapter, The Central New Jersey Chapter, The Greater Camden Chapter, and The Upper New Jersey Chapter, and

WHEREAS, 60% of all moneys contributed by the people of New Jersey remain in this State to provide assistance and services to these patients and to support multiple sclerosis clinics, and

WHEREAS, Public support is essential to the welfare of these citizens who are crippled or rendered helpless by multiple sclerosis; now, therefore

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring), That the month of June is directed to be known as Multiple Sclerosis Month and the residents thereof are urged to give their support to the Multiple Sclerosis Chest Campaign which finances the program of research and patient care; and

Be It Further Resolved, That the Governor, by appropriate proclamation, set aside the month of June as Multiple Sclerosis Month in New Jersey.

In which the concurrence of the Senate is requested.

WILLIAM J. KOHM,

Was taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Messrs. Stout and Fox offered the following resolution, which was read and adopted:

WHEREAS, Chief Justice Arthur T. Vanderbilt died on June 16, 1957, having continued in the active performance of his duties as the head of the New Jersey Supreme Court and as the Administrator of all the Courts of the State until within but a few days of his death; and

WHEREAS, No words in this resolution can possibly add to his great reputation as one of the leading jurists of the country and as the leading exponent and leader in the field of modernizing jurisprudence, still it is but fitting that some of his achievements be recited; and

WHEREAS, The late Chief Justice, a native son of New Jersey, having been born in Newark, July 7, 1888, for many years was the leader of the Clean Government group in Essex County and County Counsel of that county for over 25 years; and

WHEREAS, In the field of legal education, he served on the faculty of law at New York University from 1914 until 1948, and as the Dean of the Law School of that University from 1943 to 1948; and

WHEREAS, He was President of the American Bar Association in 1937, and during his incumbency in that office and for the period immediately following, he served on many important National committees dealing with the improvement of the administration of justice and, particularly, as Chairman of the Advisory Committee of the United States Supreme Court to draft the Federal Rules of Criminal Procedure; and

WHEREAS, Notwithstanding his manifold activities in the field of law, Chief Justice Vanderbilt found the time to prepare many notable contributions to the leading legal periodicals and to deliver important addresses before college and other groups; and

WHEREAS, His outstanding services and great abilities are very fully indicated by the honorary degrees conferred upon him by upwards of 30 of the leading universities of the country; and

WHEREAS, The new Constitution for this State, adopted in 1947, legally grew out of the proposal for a new Constitution made by the New Jersey State Constitution Revision Commission embodied in a draft authored by Chief Justice Vanderbilt; and

WHEREAS, Upon the reorganization of our court system following the adoption of the Constitution of 1947, it was but fitting and proper that Arthur T. Vanderbilt should be the first Chief Justice of the new Supreme Court and he was appointed to that high office by Governor Driscoll and served as such from the day of the taking effect of the Judicial Article of the new Constitution on September 15, 1948, until the day of his death; and

WHEREAS, In the difficult task of reorganizing the Courts and in providing the Rules of Practice and Procedure in all the Courts, Chief Justice Vanderbilt's guiding hand was that which has produced in less than ten short years a Court system which already is furnishing the pattern for judicial reform in many other of the States of the United States; and

WHEREAS, Chief Justice Vanderbilt was granted the great privilege of not being incapacitated by a lingering illness but, on the contrary, as he certainly must have wished, himself, was able to be fully active as the Chief Judicial Officer of the State until almost the end; now, therefore,

Be It Resolved by the Senate of the State of New Jersey, That its profound regret on the death of Chief Justice Arthur T. Vanderbilt is hereby expressed and the memory of his great achievements as a citizen and jurist of this State are hereby honored; and

Be It Further Resolved, That the Senate hereby expresses its profound condolences and sympathy to the bereaved family of the late Chief Justice; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and attested by its Secretary, be sent to the family of the late Chief Justice Arthur T. Vanderbilt.

At 2 o'clock P. M. the Senate met.

The session was opened with prayer by the Reverend W. Neal Raver.

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hannold, Harper, Hillery, Jones, Lance, Lynch, Mathis, McCay (President), Murray, Ridolfi, Sandman, Sharp, Shershin, Stout, Waddington—21.

On motion of Mr. Stout the Journal of the previous session was approved and its further reading was dispensed with.

Twenty communications were received from the Governor by the hands of his Secretary.

Mr. Hannold offered the following resolution which was read and adopted:

WHEREAS, Frank H. Sommer, one of New Jersey's outstanding Elder Statesmen, died on August 18, 1957, after a long and outstanding public career; and

WHEREAS, The Dean, as he has been affectionately known for a quarter of a century, has been an active participant in the public and civic affairs of this State ever since the turn of the century; and

WHEREAS, Dean Sommer's contributions to the political development of this State have been so many during his long and illustrious career as to preclude any complete recital but it is fitting that reference can and should be made to some of these achievements; and

WHEREAS, Mr. Sommer was one of the first adherents to the idea of political reform which first materialized in Essex County in the promotion of candidates for public office who became known as the "New Idea" candidates; and

WHEREAS, The forceful presentation of the ideas of this movement by Mr. Sommer resulted in the election of "New Idea" candidates including such men as Everett Colby who was elected as State Senator from Essex County in 1905 for the term commencing in 1906; and

WHEREAS, As a part of this new movement in political reform it was recognized that the jury system was greatly in need of freedom from political interference. Mr. Sommer ran for and was elected to the office of Sheriff of Essex County as an answer to the public demand for improvement in the selection of jurors; and

WHEREAS, Shortly following these events there came a public recognition of the need for regulation by law of the railroads and the public utilities; and

WHEREAS, In this field Mr. Sommer soon became an advocate of sound legislation for such regulation and very soon one of the leading authorities on the laws pertaining to railroads and public utilities; and

WHEREAS, After serving as a member of the New Jersey Railroad Commission, Mr. Sommer was largely instruemntal in drafting the legislation which resulted in the enactment into law of the first Public Utility Act during the term of Woodrow Wilson as Governor of New Jersey; and

WHEREAS, From that time forward and until the day of his death, Dean Sommer was a legal guiding hand of the Public Utility Commissioners and except during certain intervals acted as their Counsel and in recent times was the Deputy Attorney-General assigned to the Board of Public Utility Commissioners; and

WHEREAS, During the same period Dean Sommer rendered a great public service to the State in the solution of the problem pertaining to the Morris and Essex Canal which terminated in the disposition of the State's interest therein, including the transfer to the Lehigh Valley Railroad Company of a major part of such interest; and

WHEREAS, In the early stages of New Jersey's phenomenal industrial growth and growth in population incidental thereto, Dean Sommer recognized the need for a "Water Program" and he thereupon formulated the idea of the North Jersey Water District which resulted in legislation creating such District and as Counsel to the District Dean

Sommer greatly contributed to the sound development of the water supply to municipalities by the District; and

WHEREAS, In 1935 Dean Sommer was appointed to the Commission on Revision and Consolidation of Public Statutes which had been created by law in 1925 and almost immediately after his appointment to this Commission the work of the Commission culminated in the completion of the monumental work which was enacted into law as the Revised Statutes of 1937 and this work is but one evidence of Dean Sommer's accomplishments in the public domain and his great skill in formulating sound legislation; and

WHEREAS, Following the adoption of the Revised Statutes of 1937 it soon became evident that their integrity should be preserved by the creation of a special commission to deal with current legislation in respect to its impact upon the Revised Statutes and therefore, when the Commission on Statutes was created for this purpose in 1939, it was eminently fitting that Dean Sommer be appointed to it, as he was, and to serve as its Chairman; and

WHEREAS, Dean Sommer also served as a member and as Chairman of the Law Revision and Bill Drafting Commission which succeeded to the powers and duties of the Commission on Statutes in 1944. By virtue of that office he became a member of the present Law Revision and Legislative Services Commission, serving until July 1955, and thereafter acting as Advisory Counsel to the present Commission; and

WHEREAS, In the field of legal education Dean Sommer was a distinguished member of the faculty of the Law School of New York University, first as a Professor of Law, then as Dean of the Law School, and finally as Dean Emeritus of the Law School; and

WHEREAS, During his long association with that Law School, Dean Sommer was largely responsible for its attaining high standing among the law schools of the country, and it should be particularly remembered that this was before the day of the generous endowments which the law schools of standing and rank are now able to secure; and

WHEREAS, In his role as an adviser on all of the important public questions and later in his role as an Elder Statesman, Dean Sommer, over the years, has given generously of his time and of his abilities to men in public life,

both officially and otherwise, without any fanfare and without any desire for praise or even recognition, and it will be many a long year before the void left by his death can possibly be filled; now, therefore,

Be It Resolved by the Senate of the State of New Jersey, That public expression is hereby given to the esteem in which Dean Sommer has been held and appreciation is expressed for his countless and valuable services to the State during upwards of the past fifty years; and

Be It Further Resolved, That the Senate, on behalf of the Legislature and the people of this State, hereby extend to the family of Dean Sommer condolences and sympathy; and

Be It Further Resolved, That the State Treasurer be requested to forthwith cause the portrait of Dean Sommer, in the lobby of the State House, to be draped in black for a period of thirty days and that a copy of this Resolution be suitably displayed near the portrait; and

Be It Further Resolved, That a copy of this Resolution be spread upon the Journal of the Senate and a copy, signed by the President of the Senate, attested by its Secretary, be sent to the family of Dean Frank H. Sommer.

Messrs. Dumont and Waddington offered the following resolution which was read and adopted:

WHEREAS, James C. Jamieson, a former member of the General Assembly of this State, died on August 18, 1957; and

WHEREAS, Mr. Jamieson was a native son of New Jersey, having been born at Mountainview on August 13, 1908; and

WHEREAS, Mr. Jamieson, after attending the public grade schools, was graduated from Blair Academy, Blairstown, and the College of Applied Sciences of Syracuse University; and

WHEREAS, In December 1941, Mr. Jamieson enlisted in the United States Navy and served abroad and became a staff officer under General Eisenhower and, after retirement from active service, held the rank of Lieutenant Commander in the United States Naval Reserve; and

WHEREAS, Mr. Jamieson has been active in fraternal organizations and in the business world was engaged in conducting important insurance agencies; and

WHEREAS, After serving as a member of the Township Committee of Blairstown, Mr. Jamieson was elected to the General Assembly at the November 1947 election, and was reelected to the General Assembly in 1949, 1951 and 1953, serving as Minority Leader in 1952; and

WHEREAS, Mr. Jamieson in 1956 was nominated by the Governor and confirmed by the Senate for a four-year term on the Water Policy and Supply Council; and

WHEREAS, He had recently been elected to membership on the Board of Trustees of Blair Academy and was also a Director of the First National Bank of Blairstown; and

WHEREAS, He was a devoted husband and father to his wife and two children; and

WHEREAS, Mr. Jamieson's high standards of honesty, integrity, and devotion to duty won for him the admiration, respect and confidence of the many thousands of people whom he helped and served in Warren County and throughout the entire State of New Jersey; and

WHEREAS, The State has suffered a great loss in the death of an extremely fine public servant at the untimely age of 49 years; now, therefore,

Be It Resolved by the Senate of the State of New Jersey, That public expression is hereby given to the deep regard for the memory of James C. Jamieson, former member of the General Assembly of this State, and this body hereby extends to his family its sincere condolence and sympathy; and

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate and a copy, signed by the President and attested by the Secretary of the Senate, be sent to the family of James C. Jamieson.

On motion of Mr. Stout the Senate proceeded to the consideration of Executive business, on the conclusion of which and,

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call.

In the affirmative were—

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hannold, Harper, Hillery, Jones, Lance, Lynch, Mathis, McCay (President), Murray, Ridolfi, Sandman, Sharp, Shershin, Stout, Waddington—21.

Mr. Harper, on leave, introduced

Senate Bill No. 289, entitled "An act concerning taxation, and supplementing chapter 3 of Title 54 of the Revised Statutes,"

Which was read for the first time by its title.

Mr. Harper moved that the rules be suspended and that Senate Bill No. 289 be advanced to second reading without reference.

Which motion was adopted.

Was taken up, read a second time, considered by sections, agreed to, ordered to be printed, and to have a third reading.

Mr. Ridolfi, on leave, introduced

Senate Joint Resolution No. 15, entitled "A joint resolution for describing and engraving an amended Seal of the Secretary of State of the State of New Jersey,"

Which was read for the first time by its title.

Mr. Ridolfi moved that the rules be suspended and that Senate Joint Resolution No. 15 be advanced to second reading without reference.

Which motion was adopted.

Senate Joint Resolution No. 15, entitled "A joint resolution for describing and engraving an amended Seal of the Secretary of State of the State of New Jersey,"

Was taken up, read a second time, considered by sections, agreed to, ordered to be printed, and to have a third reading.

Mr. Murray offered the following resolution which was read and adopted:

Resolved, That the Senate of the State of New Jersey extend a very cordial welcome to the Committee Against 100% True Value Assessment which today has arrived from Hudson County to offer petitions to the Legislature and to the Governor.

We are happy to welcome Mr. John Echter, Chairman of the Committee, his officers, members and all interested citizens, together with the officials of the various municipalities of Hudson County who have accompanied this large group.

Senator Murray presented petitions signed by property owners against 100% True Value Assessment, which were received and filed.

Messrs. Farley, Shershin and Sharp offered the following resolution which was read and adopted by voice vote:

A RESOLUTION declaring the public policy of this State with respect to the purchase and distribution of Asiatic Influenza vaccine.

WHEREAS, The Governor and the Senate are conversant with the impending situation concerning the spread of a disease called Asiatic Influenza, which may increase substantially in this State during the winter months because the virus of the disease is a new strain and for which there is no natural immunity; and there is evidence that the production of antibodies is stimulated by injection of vaccine containing killed influenza viruses; and

WHEREAS, The State Commissioner of Health recommends that it is desirable that an appropriation in the amount of $400,000.00 be made for the purchase of vaccine for the immunization of persons who would otherwise not be able to pay the cost thereof; and

WHEREAS, The State Department of Health is authorized by statute, within the limits of available appropriations therefor, to purchase and to distribute free in accordance with rules of said department, biologicals and antibiotics for use in preventing communicable diseases; therefore

Be It Resolved by the Senate of the State of New Jersey:

1. That an appropriation be made for the purchase of Asiatic influenza vaccine and that the State Commissioner of Health be authorized to purchase such vaccine in such quantities and provide for the distribution thereof at such times as he may deem necessary to avoid the spread of the disease and that in the meantime, and until such appropriation is made, the Governor, Budget Director and the Legislative Finance Director are hereby requested to make available for this purpose, through transfers and such other budgetary means as may be appropriate, moneys on an emergency basis for the purpose of the purchase of said vaccine.

2. That it is the sense of this body that such appropriation bill shall be adopted as soon as both houses of the

Legislature reconvene and that such appropriation bill shall provide for reimbursement to the accounts from which any such transfers shall be made.

Messrs. Sandman, Lynch and Dumont offered the following resolution which was read and adopted:

WHEREAS, The State of New Jersey has been visited with one of the most disastrous droughts which has occurred in many years; and

WHEREAS, The farmers of the State have suffered and will continue to suffer tremendous losses by reasons of damage to their crops occasioned thereby; and

WHEREAS, The President of the United States has been requested to determine that the State is a disaster area, so that Federal aid may be made available to those suffering damage by reason of the drought and said request has been denied; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. The President of the United States is hereby respectfully requested to reconsider his determination that the farming areas of this State do not constitute disaster areas and to determine them as such disaster areas in order that Federal aid may be available to those persons who would be entitled thereto as a result of such determination.

2. The Secretary of the Senate is hereby directed to forward a copy of this Resolution, duly signed by the President and attested by the Secretary, to the President of the United States and to each of the United States Senators, and each member of the House of Representatives, from New Jersey.

The following communications were received from the Governor and, after being read by the Secretary, were ordered to be entered at large on the Senate Journal.

Senator Farley moved that Senate Bill No. 284 be recalled from the Governor's office.

Which motion was adopted.

Senator Stout moved that the Senate do now adjourn in accordance with adjournment resolution adopted June 17, 1957.

Which motion was adopted.

SENATE BILL No. 25

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 25 for the following reasons:

Senate Bill No. 25, except for its effective date, is identical with Senate Bill No. 185 of the 1956 Session.

In my message returning Senate Bill No. 185 to the 1956 Legislature, I said:

> "Senate Bill No. 185 deals with police training schools. To properly evaluate it requires a consideration of the events leading up to its introduction as well as the provisions of Senate Bill No. 178 for which Senate Bill No. 185 is, in effect, offered as a substitute.
>
> "In my Second Annual Message to the Legislature delivered on January 10, 1956, I urged the adoption in this State of a police training program and stated, in part:
>
> 'It seems to me unsound to give a man a badge, a club and a gun and send him out for police duty unless he is properly screened and trained.
>
> 'With increasing population in New Jersey, the burden on local law enforcement officers continues to mount. Modern conditions of travel and improvement in methods of criminal detection make the task of local officers far more complicated than it used to be. Today a criminal can traverse the State from north to south within three hours and from east to west in one hour.
>
> 'The job of police officer has lost its traditional concept of being local in nature. I recommend that we inaugurate a police training program, similar in nature to that already employed by the State Police and various local training programs, to apply to all municipalities. Such a program would require a potential police officer to receive a thorough course with academic subjects, clinical experience and physical training.***

'What I am proposing is that a movement which has already gained headway and public acceptance be broadened so that all police officers be properly trained before they assume their duties or after they have been appointed for a probationary period and before their appointment becomes permanent.***

'The legislation I request would not be designed to infringe upon local control but is advocated solely to aid the municipality in improving its service to our citizens.'

"In implementation of my recommendation, there was delivered to the legislative leaders at the legislative conference of March 19, 1956 a draft of a proposed bill which had been prepared by the Attorney General with the assistance of a committee representing civic, police and governmental organizations interested in achieving a uniform system of mandatory police training throughout the State. That bill, which was introduced by Senator Ridolfi as Senate Bill No. 178, represented more than a year of solid effort by a dedicated group of persons vitally interested in better law enforcement. The plan provided for therein received widespread approval not only within this State but also from qualified experts outside the State.

"Senate Bill No. 178 provides for the creation of a Police Training Commission composed of the Attorney General, the Superintendent of State Police, the Commissioner of Education, the Special Agent in Charge of the State of New Jersey for the Federal Bureau of Investigation, a representative of the New Jersey State Association of Chiefs of Police, a representative of the New Jersey State Patrolmen's Benevolent Association, a represenative of the New Jersey State Lodge, Fraternal Order of Police, a representative of the New Jersey State Superior Officers' Association, a representative of the New Jersey State League of Municipalities and 3 citizens of the State appointed by the Governor with the advice and consent of the Senate. It authorizes the Police Training Commission to administer and supervise a program of police training by providing uniform and approved standards for police training schools and their curriculum. Before a man could be given permanent appointment as a police-

man, he would first have to be appointed as a probationer for a period not exceeding 6 months, during which he would be required to undergo a course of training in an approved police training school. The basic purpose of that bill is to insure that before a police officer is permanently appointed, he has received a course of training in a training school which meets standards to be uniformly applied throughout the State. Senate Bill No. 178 does not violate the principle of home rule; control of local police forces is left in the local governing body.

"The Legislature has taken no action on Senate Bill No. 178. Instead it has passed Senate Bill No. 185 which was obviously introduced as an alternate proposal to Senate Bill No. 178.

"Senate Bill No. 185 would require each county board of chosen freeholders, on or before January 31st of each year, beginning January 31, 1957, to compile a list of police training schools which are available for police training for probationary members of the police departments of the county. The bill provides that the board of chosen freeholders shall approve of such schools according to the convenience of their location and upon the board being satisfied that each such police training school furnishes courses in police training upon a regular schedule of terms and hours in the subjects of the law and techniques of law enforcement by policemen. It also provides that after January 21, 1957 (sic) no policeman should be appointed as a permanent member of a county or municipal police force unless he shall have completed a police training course at a police training school approved by the board of chosen freeholders of the county.

"Senate Bill No. 185, although paying lip service to the necessity for adequate training of policemen before permanent appointment, would destroy any effective implementation of that purpose. The statement annexed to the bill reads, in part, that 'it holds to the principle of home rule by retaining in the county the right of approval for training schools'. The alleged preservation of the principle of 'home rule' is but a smoke screen. Senate Bill No. 185 would, in effect, provide 21 different standards for police training in this

State, standards adopted by 21 separate boards of chosen freeholders made up of laymen having little or no knowledge of law enforcement techniques and the requirements of proper police training. Approval of particular training schools would become the subject of political maneuvering within the respective boards of chosen freeholders.

"Effective law enforcement requires that standards for police training schools be established by persons expert in the field and that such standards be uniform throughout the State. There is no logical reason for providing different standards for the several counties. There is no correlation between law enforcement techniques and police training and the geographical borders of the counties; proper techniques and training do not vary from county to county.

"Adoption of Senate Bill No. 185 would be a serious setback to the realization of an effective police training program."

What I said with reference to Senate Bill No. 185 of the 1956 Session is equally applicable to Senate Bill No. 25 of the 1957 Session which is identical except for the substitution of the date "January 31, 1958" for the date "January 31, 1957". Similarly the bill which was Senate Bill No. 178 of the 1956 Session, with some minor changes is before the 1957 Session as Senate Bill No. 178 and bears bi-partisan sponsorship.

For the foregoing reasons, I am returning Senate Bill No. 25 herewith, without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,

SENATE BILL No. 242

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 242 for the following reasons:

Senate Bill No. 242 would grant the board of chosen freeholders of any first or second class county power to assume all control of the collection and disposal of garbage and other refuse within the county without the consent of either the municipalities affected or the electorate through the creation of an autonomous authority. It would, in effect, deprive the municipalities of their long-established power to provide for such services in a manner determined at the local level.

The bill authorizes the freeholders of any such county to create and establish a 9 member county refuse disposal authority with power to "acquire, construct, maintain, operate or improve works, properties, equipment and apparatus for the disposal of garbage or other refuse". The 9 members of the county refuse disposal authority are to be appointed by the freeholders for staggered terms of 3 years each with salaries, if any, fixed by the authority itself within limits established in the enabling resolution of the freeholders. The members may be removed by the governing body of the county for inefficiency, neglect of duty or misconduct in office. A person may be a member of the authority although he also holds office in the government of any county, municipality or the State.

Senate Bill No. 242 further empowers the authority to employ officers, agents and employees without regard to the provisions of the Civil Service Law and to determine their qualifications, terms of office, duties and compensation. The disposal authority would have power to acquire by purchase, gift, condemnation or otherwise, lands, equipment and other apparatus and property which it deems necessary for its purposes.

By Section 8 of the bill the disposal authority is permitted to charge and collect rents, rates, fees or other charges for its services and is authorized to assess and

collect those charges from the person contracting for such services or from the owner or occupant of any real property from which the refuse originated. The bill also makes the owner of any such real property liable to pay such service charges, apparently whether or not he personally entered into a contract with the authority.

The bill makes service charges of the disposal authority a lien on the real property affected and provides for interest at the rate of 1% a month on service charges not paid when due. It makes such lien superior to that of all liens except that of municipal taxes with which it is put on a parity.

The disposal authority would have power to issue bonds to finance the cost of its refuse disposal system and to sell such bonds at either public or private sale. The bond resolution may contain broad and general covenants restricting and limiting the powers of the authority to construct, acquire or operate or permit the construction, acquisition or operation of any similar plants, structures, facilities or properties which may compete or tend to compete with the refuse disposal system. Other provisions of the bill permit inclusion in the bond resolution of agreements permitting bondholders, in the event of default, to appoint a trustee and to have a receiver appointed for the refuse disposal system.

The county and municipalities within the county are authorized to appropriate and to loan or donate moneys to the disposal authority. Power is also given to municipalities and the county to enter into contracts with the disposal authority for the collection of refuse within the respective jurisdictions and for the payment therefor by the respective municipality or the county with the proviso that if the county or municipality defaults in payment, service charges may be collected from the individual property owners.

The unprecedented monopoly over a municipal function which would be granted to the county refuse authority is found in section 24 which provides:

> "After 1 year after a county shall have created a disposal authority, no lands or rights in land, incinerators, or other plants or works for the treatment, purification or disposal of garbage or other refuse originating from or on 50 or more parcels of real

property shall be constructed or operated in the county unless the disposal authority shall give its consent thereto and approve the plans and methods thereof.***"

The bill also contains a covenant by the State with the holders of any bonds issued by the disposal authority not to limit or alter the rights vested in the disposal authority as long as any bonds are outstanding. Audits of the accounts of the authority are to be made by a registered municipal accountant annually and a copy filed with the Director of the Division of Local Government, for information purposes only.

Finally, the bill provides that the authority is not to be subject to the provisions of Title 40 of the Revised Statutes which is generally applicable to municipalities and counties, and that it is not to be subject to regulation as to its service charges by any officer, board, agency, commission or other office of the State. Only the jurisdiction and rights of the State Department of Health and of the Water Policy and Supply Council are preserved.

There is a fundamental objection to this bill. It provides for the creation of an omnipotent body, created by the act of the board of chosen freeholders and governed by officials appointed by such board, free from any control or voice of the municipalities affected. Unlike the other statutes authorizing the establishment of county or municipal authorities, no opportunity is given to any municipality which does not desire to be part of the area to be served by the authority, to be excluded or to withdraw therefrom. See, for example, the sewerage authorities law, P. L. 1946, c. 138 (N. J. S. A. 40:14A–1 *et seq.*); the incinerator authorities law, P. L. 1948, c. 348 (N. J. S. A. 40:66A–1 *et seq.*).

This bill would confer such broad, extensive and exclusive powers upon an autonomous authority, created and the members thereof selected by the freeholders without the concurrence of the municipalities affected or their electorate, that it would seriously jeopardize home rule and democratic government of all municipalities in first and second class counties in the State.

Section 24 of the bill, quoted above, means that, unless permission is obtained from the authority, neither municipal not private facilities for the disposal of garbage and

refuse, which service more than 50 parcels of real property, could be constructed or operated in the county after 1 year from the creation of such authority. Delegation of such overriding power, from which the municipalities affected cannot dissent, has not been found necessary or desirable in the case of other authorities.

The power granted is particularly dangerous since there are no standards provided in the bill to preclude arbitrary action by the authority when its consent to the construction or operation of other disposal facilities is applied for. There is no warrant for the granting of such absolute discretion in the refuse disposal authority.

In view of this fundamental objection to Senate Bill No. 242, it becomes unnecessary to detail the various other deficiencies of the bill, both technical and substantive. However, it may be useful to note some of them.

The provisions of Section 5(e) which provides, in part:

> "* * * Every disposal authority may also, without regard to the provisions of Title 11 of the Revised Statutes, appoint and employ a secretary and counsel and such professional and technical advisers and experts and such other officers, agents and employees as it may require, and it shall determine their qualifications, terms of office, duties and compensation."

would exempt all officers, agents and employees of the authority from the provisions of the Civil Service Laws and regulations even though, quite obviously, many of the positions would fall within the proper scope of civil service.

The 1947 New Jersey Constitution established the policy of the people of this State on the matter of the merit system for public employees in Article VII, Section I, paragraph 2:

> "Appointments and promotions in the civil service of the State, and of such political subdivisions as may be provided by law, shall be made according to merit and fitness to be ascertained, as far as practicable, by examination, which, as far as practicable, shall be competitive;***"

Since it would be clearly "practicable" to fill many positions of such an authority by competitive examinations, this portion of the bill is in contravention of that policy.

Another absolute power granted to the proposed disposal authority by this bill is that of fixing the rates or fees to be charged for disposal services. Under section 8, the authority is apparently given wide discretion in determining its schedule of service charges as no standards are set out to limit the rates which may be fixed or the method of calculating and determining such rates, nor to insure that such charges will be reasonable for the service rendered. There is not even a specific requirement of equality or uniformity of treatment. No public hearings as to rates or charges are necessary under the bill. Nor is there any procedure provided for appeal from the schedule of service charges through either judicial or administrative review. In fact, section 30 provides that a disposal authority shall not "be subject to regulation as to its service charges by an officer, board, agency, commission or other office of the State". The unlimited discretion in fixing rates is particularly undesirable since it is coupled with the power to require all municipalities in the county to use the services of the authority.

The disposal authority would also have broad powers of condemnation in sections 6(b), 7(5) and 17. The last section authorizes condemnation of real property, within or without the district, including public lands, waters, parks, roads, playgrounds, reservations and public or private rights in waters. By amendment a proviso was added:

> "* * * no disposal authority shall acquire or take, by condemnation, any real property owned by the State or county or in which the State or county has any right, title or interest, or any real property owned by any county, municipality or other political subdivision or by any school district, of this State, and actually being used for public purposes."

Whether the limitation of "actually being used for public purposes" applies to State or county land, especially since the word "county" is used in both parts of the sentence, is not clear. If so, the power is unique in permitting condemnation of State and county land not actually used for public purposes by an instrumentality created by the county. The State does own land which might be characterized as not being actually in public use at present, but which will be needed in the future as the State grows. This almost unrestricted condemnation power in the authority could adversely affect broad planning for all citizens in the State,

and would establish a new and inadvisable principle whereby a creature of a governmental unit can take property from and against the will of its creator and the State. The scope of such power as would be granted by Senate Bill No. 242 is highly questionable.

Section 30 of the bill provides that the act shall be "complete and independent authority for the performance of each and every act and thing herein authorized," and that a disposal authority shall not be subject to any of the provisions of Title 40 or to any regulation of its service charges. A proviso preserves the jurisdiction and rights of the State Department of Health and the Water Policy and Supply Council. There is no preservation of the rights of the Interstate Sanitation Commission, the Interstate Commission on the Delaware Basin, the North Jersey District Water Supply Commission or the Passaic Valley Sewerage Commission. The operations of those public agencies could be seriously jeopardized by such a disposal authority.

The disposal of garbage and refuse has become a serious problem in our densely populated State. There is, however, an existing law, P. L. 1948, c. 348 (N. J. S. A. 40:66A–1 *et seq.*), which permits any municipality in the State or two or more such municipalities to form an incinerator authority for the proper collection and disposal of garbage and other refuse matter. The objective and purpose of that act are identical with those of Senate Bill No. 242. If that statute is inadequate to cope with existing problems or to meet present needs, it can be amended or supplemented in the respects necessary.

I am obliged to withhold my approval of any bill such as this which would create a private empire constituting an autonomous state within the State. The unbridled authority which could be created is alien to our democratic concepts of local government by elected officials responsive to the public.

For these reasons, I feel obliged to return herewith, without my approval, Senate Bill No. 242.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

STATE OF NEW JERSEY,

SENATE BILL No. 253

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning herewith, for reconsideration and with my objections, Senate Bill No. 253.

This bill was introduced to amend the "Absentee Voting Law (1953)" in order to permit an otherwise qualified and registered voter, who is unable to cast his ballot at the polling place in his district on the day of election because of the observance of a religious holiday pursuant to the tenants of his religion, to vote by absentee ballot. So much of the bill as makes that change in the law and permits such a voter to vote as a "civilian absentee voter" has my approval.

But Senate Bill No. 253, as amended in the Assembly and passed by the Legislature, contains another proposed change in the law of which I cannot approve. The latter change would amend the statutory definition of "military service" which is now defined as:

> " 'Military service' means active service by any person, as a member of any branch or department of the United States Army, Navy, or Marine Corps, or as a reservist absent from his place of residence and undergoing training under Army or Navy direction, at a place other than that of such person's residence."

by inserting the words "Merchant Marine" between the words "Navy," and "or Marine Corps" and would change the definition of "Military service voter", which is now defined as:

> " 'Military service voter' means any person in the military service, or any patient in any veterans' hospital, located in any place other than the place of his residence, having served as a soldier, sailor, marine, or nurse in the Armed Forces of the United States in any war in which the United States has been engaged and having been discharged or released from said armed forces, who prior to entering the military service or prior to being admitted as a patient in such hospital,

was a resident of this State and who, at the time of the holding of any election in this State, while this act is in effect, is a resident of the United States, is of the age of 21 years or more, is not disqualified by reason of conviction of crime from voting in this State."

by inserting the words "member of the merchant marine" between the words "marine," and "or nurse".

The present definition of "military service" and "military service voter" refers to components of the Armed Forces of the United States. Taken literally, the amendatory language would have no effect unless and until there was created a component of the Armed Forces of the United States known as the "United States Merchant Marine". At present, there is no such component of the Armed Forces of the United States.

I am advised that the purpose of the sponsor of the amendment was to give seamen employed by shipping companies—who, it may be noted may now vote by civilian absentee ballot if they are otherwise qualified and are registered voters,—the status of military service voters, so that they may vote by military service absentee ballot in cases where they are not registered voters.

Both our Constitution, Article II, paragraph 4, and the "Absentee Voting Law (1953)" differentiates between absentee voting by civilians and by members of the Armed Forces of the United States. The "Absentee Voting Law (1953)" sets up two separate classes of absentee voters, one, "civilian absentee voters" who vote by "civilian absentee ballot"; the other, "military service voters" who vote by "military service ballot".

The principal difference between the privileges granted the two classes of voters under the Absentee Voting Law involves registration as a voter. A civilian absentee voter must be a registered voter in order to vote by absentee ballot; a military service voter need not be a registered voter if he satisfies the residence requirements of the law.

The fundamental reason for requiring voters to register is to guard against fraudulent voting. In eliminating the requirement of registration in the case of military service voters, the act provides substitute safeguards against fraudulent voting. Those safeguards are possible only because of the official governmental character of the Armed

Forces of the United States and of their records; the fact that members of the Armed Forces, each of whom has a distinctive serial number, cannot quit service at will but must serve for substantially fixed and definite periods and the further fact that official governmental records always disclose the actual whereabouts of each man.

So, the "Absentee Voting Law (1953)" requires in case of military service voters that the voter's military serial number and the address at which he is stationed or can be found be set forth in the application for the military ballot and in the sworn certificate appearing on the envelope in which the ballot is returned to the election officials. Further, the certificate must be sworn to by the military service voter before his commanding officer or the superintendent of the veterans hospital in which he is a patient. Again, express provision is made in the act to enable election officials to verify the qualifications and signature of military voters and the data submitted by or on their behalf by making comparisons with the military records of the State.

None of these safeguards is available in the case of persons in private employment even though that employment be by shipping companies. The forms provided by the act for military service voters are not changed by this bill. If the proposed amendment were to become law, a member of the merchant marine using a military service ballot would have to leave blank the questions calling for his serial number and the address at which he is stationed. Moreover, election officials would be unable to verify qualifications and signatures by comparison with official governmental military service records.

Men employed in what is commonly referred to as the merchant marine are not, in fact, in military service. They are private employees employed by private shipping companies. In recognizing this fact, I do not intend to minimize the importance of the work done by the merchant marine and the men employed therein in support of the economy and defense of our country.

Nevertheless, such employees are not in military service. Permitting them to vote through the use of the military service ballot would permit an indeterminate number of civilians to vote without being registered. That privilege is denied to other civilians. It is granted to military service personnel only under conditions safeguarding against

fraudulent voting; conditions which are peculiar to military service and do not exist in the case of private employment.

There is no valid reason why persons employed in the merchant marine should not be required to register under our permanent registration law as are other employees in private industry. If they are away from home on election day, they may then avail themselves of the civilian absentee ballot procedures.

I am, therefore, returning herewith Senate Bill No. 253 for reconsideration and with the recommendation that the bill be amended as follows:

On page 2, section 1, line 23, delete the words "Merchant Marine".

On page 2, section 1, lines 29 and 30, delete the words "member of the merchant marine".

Respectfully,

SENATE COMMITTEE SUBSTITUTE FOR ASSEMBLY BILL No. 396

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I am returning Senate Committee Substitute for Assembly Bill No. 396 herewith, with my objections, for reconsideration.

This bill would amend the Unemployment Compensation Law in 5 respects.

(1) It provides a 6-year period of limitation, except in cases of fraud, within which the Division of Employment Security may file a certificate in the office of the Clerk of the Superior Court (which certificate has the effect of a judg-

ment), or may institute suit, against an employer who fails to pay contributions due, even though he had filed a contribution report or an assessment had been made against him. It clarifies existing provisions which, except in the case of fraud, limit to 4 years the period within which assessments can be made against employers who have not filed reports. It removes an ambiguity in existing law so that the imposition of interest is not limited where reports have been properly filed or assessments made within the 4-year period. Both the 4- and the 6-year periods referred to begin to run as of the last day of the calendar year with respect to which contributions are payable.

(2) It authorizes the Division to apply moneys received from an employer first on account of his contribution liability and then to interest and penalties.

(3) Fees collected for furnishing certificates of indebtedness are to be paid into the Unemployment Compensation Administration Fund, which is used to defray the cost of administration of the law, instead of, as heretofore, to the Unemployment Compensation Auxiliary Fund.

(4) It adds to section 14(b) of the act, dealing with the liability of employers for contributions due, the following proviso:

> "* * * no proceeding to enforce collection shall be taken after 10 years have elapsed from the date of entry of judgment heretofore or hereafter entered in any such civil action, or the date of docketing any certificate heretofore or hereafter docketed in the office of the Clerk of the Superior Court under subsection (e) of this section, or July 1, 1958, whichever date is later".

(5) It amends the section under which any certificate filed with the Clerk of the Superior Court has the same force and effect as any other judgment obtained in the Superior Court, i. e. it may be enforced and its lien is effective for 20 years and it may be revived, so as to provide that it should have that effect only for 10 years from the time of docketing or until July 1, 1958, whichever is later.

The first 3 changes made by the bill present no problem. However, the last two would bar the State, as the holder of a judgment against an employer who has not paid contributions due, from enforcing any of its rights under the judg-

ment after 10 years. Other judgment plaintiffs can enforce judgments for a period of 20 years and by appropriate proceedings revive the judgment. I find no persuasive reasons for so limiting and prejudicing the rights of the State.

Several reasons have been suggested to me in support of the changes listed as items (4) and (5). It is said that, as a practical matter, the Division collects but a small proportion of the moneys due on judgments and certificates which are as much as 10 years old and that keeping those indicia of indebtedness open on the Division's books creates administrative problems and expense. I appreciate the administrative problems involved, but they can be eliminated by the exercise of existing powers of the Division, or if it should be deemed advisable, by the adoption of additional legislation permitting the Division, administratively, to mark and treat the items as uncollectible on their own records. In this way, the obligation itself would continue in existence, so that if it should thereafter develop that the judgment is collectible, the State could proceed to collect it.

Finally, it is suggested that the proposed changes are desirable to aid employers who, because of financial reverses, have taken advantage of the Federal Bankruptcy Law to obtain a discharge of such debts as are dischargeable in bankruptcy. The State's claim for unemployment compensation contributions due, as well as the Federal government's claim for income and social security taxes, are not dischargeable in bankruptcy. I am advised that the Federal law provides a method by which such claims can be adjusted and settled at less than the full amount due, and sometimes at only a nominal amount. No such provision is found in the State law. The argument made is that with the State's claim remaining outstanding, a former employer is hindered in his efforts at financial rehabilitation.

I am not impressed by the argument made. If the State is to provide a method for settlement of such claims similar to that provided under the Federal law, it should be done by legislation authorizing and setting up procedures for such settlements, not by legislation which automatically bars the State, after 10 years, from taking any action to enforce the judgment which it holds, irrespective of the financial position of the judgment debtor.

Accordingly, I am returning herewith Senate Committee Substitute for Assembly Bill No. 396 for reconsideration and with the recommendation that it be amended as follows:

On page 3, section 1, lines 67, 68, 69, 69A, 69B and 69C, delete the words " ; and provided further, that no proceeding to enforce collection shall be taken after 10 years have elapsed from the date of entry of judgment heretofore or hereafter entered in any such civil action, or the date of docketing any certificate heretofore or hereafter docketed in the office of the Clerk of the Superior Court under subsection (e) of this section, or July 1, 1958, whichever date is later".

On page 4, section 1, lines 93, 94 and 95, delete the words "until the expiration of 10 years from the time of docketing, or July 1, 1958, whichever is later,".

On page 4, section 1, line 95, delete the words "within the period so limited,".

On page 5, section 1, line 98A, delete the words "within the period so limited,".

Respectfully,

SENATE BILL No. 249

To the Senate:

Pursuant to Article V, Section I, paragraph 15 of the Constitution, I appended to Senate Bill No. 249, at the time of signing it, a statement of certain items or parts thereof, to which I objected, so that such items or parts thereof should not take effect.

The items to which I objected were:

(1) $1,500.00 to Mary Ann Parello and Barbara Parello for injuries and property damage caused by crash of stolen car driven by 2 escapees from Annandale Reformatory;

(2) $2,000.00 to Anthony F. Pisacane for expenses and losses in obtaining reinstatement at the New Jersey Neuropsychiatric Institute.

The Department of Institutions and Agencies has recommended disapproval of both items as being without legal or moral justification and as establishing unwise precedents. The Department has successfully opposed many such claims in prior years.

My objection to the $1,500.00 item for injuries and property damage to Mary Ann Parello and Barbara Parello, caused by a crash of a stolen car driven by 2 escapees from Annandale Reformatory, is directed to the fact that there is no moral or legal responsibility residing in the State for the acts of an escapee. The inmates were not agents, servants or employees of the State. It does not appear to be appropriate for the State to establish a precedent of making payments for damages or injuries allegedly caused by escapees. While it is regrettable that such injuries did occur, it is nevertheless apparent that it would be improper to expect the public of this State to bear the financial responsibility for such damages or injuries.

As to the $2,000.00 item for expenses and losses to Anthony F. Pisacane in obtaining reinstatement at the New Jersey Neuropsychiatric Institute, I do not believe that this would establish a desirable precedent. The appropriation is either in payment of legal and other expenses incurred in preparation for a Civil Service hearing, or it is intended as payment of overtime, sick time and holiday time accumulating, according to claimant's petition, between August 27, 1948 and December 31, 1955, the date of his retirement. As to sick and holiday time the records of the institution disclose that this former employee has been paid in full.

The payment of legal expenses in preparation for Civil Service Commission hearings has no warrant in law or in past practice. Such expenses have never been assumed by the State.

For these reasons, I objected to the items noted above in Senate Bill No. 249 and I am attaching hereto a copy of my statement which I appended to the bill at the time of signing it.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

The President of the Senate extended a cordial welcome.

Mr. Farley offered the following resolution, which was read and adopted:

WHEREAS, Dr. William S. Carpenter, one of New Jersey's most valuable citizens, died in Princeton on November 9, 1957, after a brief illness; and

WHEREAS, During many years as a member of the faculty of Princeton University, he made distinguished contributions to our understanding of political institutions while playing an outstanding role in helping prepare thousands of young men for public service and other professional activities; and

WHEREAS, He combined with notable success a career as a scholar and teacher with active participation in government and was instrumental in improving many aspects of the governmental process; and

WHEREAS, In serving as President of the Civil Service Commission of New Jersey from 1944 to 1951, he brought to his duties a vision born of native ability and richness of experience which enabled him to breathe new life into the Civil Service System and to work a noteworthy transformation in the nature of the system, redounding to the interest of both the public and State employees; and

WHEREAS, He exhibited the same caliber of ability characteristic of his whole career in the position that he held at the time of his death as Acting Director, Division of Legislatve Information and Research of the Law Revision and Legislative Services; and

WHEREAS, In the role of scholar or the role of teacher or the role of public servant, he displayed a great warmth of personality, generous good humor, and continuing concern with the welfare of the individual; now, therefore,

Be It Resolved, That the Senate express its regrets and condolences upon the passing of Dr. Carpenter and that recognition of his contributions to the State be spread upon the record as part of the permanent proceedings of this body; and

Be It Resolved, That a copy of this resolution, signed by the President of the Senate and attested by its Secretary, be forwarded to his bereaved family.

Secretary Patterson announced

Petitions from the cities of Bayonne, Union City, Jersey City, Weehawken and Perth Amboy; the townships of North Bergen and Union; and the towns of Nutley, West New York and Guttenberg, relative to rent control therein, were received and filed.

Senator Murray announced that he had received, and was submitting herewith for filing with the Secretary, over six thousand signatures urging renewal of rent control. The petitions were ordered to be filed by the President.

L. 1955, c. 96) *and supplementing chapter 4 of Title 23 of the Revised Statutes,"*

Were taken up, read a second time, considered by sections, agreed to, and ordered to have a third reading.

Senate Bills Nos. 146, 207, 247 and 264, were received from the Governor together with Veto Messages attached to each.

Under the direction of the President, the seals of the Messages were broken and the Secretary read as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

SENATE BILL No. 146

To the Senate:

I am returning Senate Bill No. 146 herewith, without my approval, for the following reasons:

This bill is a special or private bill directing the Consolidated Police and Firemen's Pension Fund Commission "established pursuant to chapter 359—(*sic*—should read 358) of the laws of 1952, . . . to pay and to continue to pay to Sol Joseph Needles, Jr., of the city and county of Cape May, a pension of $1,500.00 per annum, together with all arrearages thereof from the time of the last payment of the same to him notwithstanding that he continues to hold the office of member of the board of commissioners of the city of Cape May."

The Consolidated Police and Firemen's Pension Fund Commission administers the Consolidated Police and Firemen's Pension Fund created by Chapter 358 of the Laws of 1952. The 1952 act consolidated some 203 local police and firemen pension systems into one system and provided for substantial State contributions to the system in order to make it solvent.

Under the law governing this pension system, an "active member", i.e., a member "who is a policeman, fireman, detective, lineman, driver of police van, fire alarm operator or inspector of combustibles and who is subject to call for active service or duty as such" (R. S. 43:16–17(2), may be retired on a retirement pension equal to one-half of his average salary if he has served honorably in the police or fire department for a period of 25 years and has reached the age of 51 years (R. S. 43:16–1). An "employee member", i.e., a member "who is *not* subject to call for active service or duty as a policeman, fireman, detective, lineman, driver of police van, fire alarm operator or inspector of combustibles" cannot retire on such pension until he has reached the age of 60 and has served for a period of 25 years (R. S. 43:16–1).

On July 29, 1953 Mr. Needles filed with the Pension Commission an application for a service retirement pension reading in part as follows:

> "I, Sol Joseph Needles, a fireman employed by the City of Cape May, having served the required number of years and having attained the required age as defined in the Revised Statutes 43:16–1, hereby request the Consolidated Police and Firemen's Pension Fund Commission to consider this application for a service retirement pension."

The application also bore the certification of Samuel Eldridge, as Mayor and Chief Fiscal Officer of the City of Cape May, certifying that Mr. Needles had executed the application and that "to the best of my knowledge and belief the applicant has been in the continuous employ of this municipality as a Fireman since October 16, 1927, and has been subject to the required pension deductions since that time."

Attached to the application was another certification by Mayor Eldridge reading in part:

> "This will certify that the records of my office or the records of this municipality available to me, indicate the following salary information relative to the employment of Sol Joseph Needles as a Fireman of City of Cape May.
>
> "The annual rate of salary effective on July 30, 1950 was $2,000.00. (This rate does not include bonus, cloth-

ing allowance, maintenance or other than basic salary upon which pension deductions have been based).

"List all salary changes of this employee since June 30, 1950, and the dates of each change.

"11/1/50 — July 24, 1950 salary increment from $2,000.00 per yr. to $3,000.00 per yr. No change since that date."

The facts set forth in the application and in the certification showed Mr. Needles to be an active member who had served some 26 years, who had attained the age of 51 years, and who, as such, was entitled to retire under R. S. 43:16–1. The Pension Commission granted him a pension of $1,500.00 per year effective, in accordance with his request, on November 1, 1953.

Sometime in 1956 the Pension Commission received information indicating that what had been set forth in the application and in the certifications did not conform to the facts. Investigation revealed that Mr. Needles ceased being an active member of the fire department on May 17, 1949 when, after being elected as such, he assumed office as a Commissioner of the City of Cape May and was designated as Director of the Department of Public Affairs and Public Safety. It appears that the Cape May Pension Commission had adopted a resolution on May 16, 1949 granting Mr. Needles

" . . . a leave of absence as a member of the Police and Fire Department of the City of Cape May for a period of four (4) years beginning May 17, 1949 and ending May 17, 1953; provided, however, that the said Sol Needles, Jr. shall continue to make regular contributions to the Police and Firemen's Pension Fund of the City of Cape May during said leave of absence."

Whether the governing body of the City of Cape May granted Mr. Needles a similar leave of absence does not appear but it is clear that Mr. Needles has not been an "active member" of the fire department since May 17, 1949. In fact the second recital in this bill itself concedes that he ceased to be an active member of the fire department on that date.

At the request of the Pension Commission, the Attorney General furnished an opinion, dated December 28, 1956, on

the question of whether Mr. Needles was entitled to the pension he was receiving. In the opinion, the Attorney General ruled that Mr. Needles was not entitled to the pension; that the Commission's action in retiring him on pension should be rescinded because Mr. Needles did not have, as he had claimed, 26 years of service as an active member, since for 4½ of those years he was not an active member of the fire department subject to call for active duty but instead served as City Commissioner. The Attorney General further ruled that even if Mr. Needles' years of service as Commissioner could be considered as years of service as an active member, he was not entitled to a pension because he had not in fact retired from the last-mentioned office but continued to act as Commissioner of the City of Cape May; the law being settled that a person claiming a pension payable on retirement from an office or position cannot be awarded the pension if he does not actually retire.

Since it had become evident that Mr. Needles did not qualify for the pension he was receiving, the Pension Commission rescinded its resolution retiring Mr. Needles and granting him a pension and demanded repayment of the pension payments theretofore made to him.

Thereupon, under date of January 31, 1957, Mr. Needles gave notice that he would apply for the passage of a private, special or local law, viz, Senate Bill No. 146.

Senate Bill No. 146 would single out one member from the approximately 5,500 active and employee members and the 5,000 retired members of the Consolidated Police and Firemen's Pension System and grant to that one member special privileges and pension rights; the privilege of receiving a pension on reaching age 51 even though he had only 21½ years of service as an active member instead of the 25 years required of all other active members and the right to receive that pension and at the same time continue to hold the office of Commissioner of the City of Cape May; service in which office, he urges, should be counted as part of the period of service required to entitle him to a pension.

There is no justification for thus granting special rights and privileges to one out of the many thousands of active and retired members of the Consolidated Police and Firemen's Pension System. To do so would be unfair to, and would discriminate against, all the other members of the System who, in order to be eligible for a pension, are or

were required to comply with the terms and conditions of the Consolidated Police and Firemen's Pension Law relating to age and years of service.

Further, there is serious question as to the constitutionality of this private or special law granting Mr. Needles, who continues to hold the office of Mayor and Commissioner of the City of Cape May, the sum of $1,500.00 a year in addition to the salary which he is now receiving as such Commissioner. The Constitution prohibits any private, special or local law creating, increasing or decreasing the emoluments, term or tenure rights of any public officers or employees (Article I, Section VII, paragraph 9).

Nor can the financial impact of this bill be ignored, calling as it does for the expenditure for an indeterminate number of years of $1,500.00 per year out of a fund to which the State is required to contribute substantial sums each year.

I am, therefore, returning Senate Bill No. 146 herewith without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

SENATE BILL No. 207

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 207 for the following reasons:

Senate Bill No. 207 is a special bill under Article IV, Section VII, paragraph 10 of the Constitution to authorize the governing body of the City of Asbury Park to lease lands bordering upon the ocean and specifically described in the bill for the construction and operation of a hotel or for hotel and apartment building uses, for a period not

exceeding 99 years. The lease would include the right to use the beach directly opposite the described premises for bathing by guests of the hotel and for the purpose of erecting cabanas, swimming pools and other appurtenances operating in connection with the hotel. Excluded from the lease is a 50-foot strip of land directly east of the described premises for the use of a boardwalk. At the expiration of the term of lease, the improvements are to revert to the city.

The bill, which is to remain inoperative until it is adopted by ordinance of the governing body of Asbury Park, provides that before such lease is executed, the governing body of Asbury Park must adopt a resolution declaring the lands to be no longer needed for public use and must advertise for a period of 4 weeks for bids for the leasing of the lands.

The premises in question are on the beach front of Asbury Park. The lease authorized by the bill would give what in effect would be exclusive control of so much of the premises as are part of the beach and also of the beach in front of the hotel or apartment house constructed pursuant to the lease. The general public would be excluded from that beach.

Such limited and restricted use of the beach front is contrary to the basic policy of this State. That policy seeks to develop and make our shore front available to the public generally. So, for example, in furtherance of that policy, the State contemplates the establishment of public beaches at Sea Girt, Island Beach, and other places along the Atlantic coast line.

It has not been found necessary in the case of other shore front municipalities which have hotels fronting on the ocean front to deprive the public generally of the use of beaches in front of the hotels. To establish a contrary policy at this time would be to encourage further grants of exclusive rights to beaches and further defeat completely the basic policy mentioned above.

Nor can we ignore the impact of the conversion of this beach into a private beach on the amount of Federal aid which will be available for shore protection work. The Federal government participates in shore protection work up to one-third of the cost thereof based on a formula which gives maximum aid to public beaches and none to private beaches.

The proponents of this legislation contend that the making of the proposed lease has been approved by a referendum of the people of Asbury Park. An examination of the record of the referendum does not sustain that claim. The referendum was authorized by resolution adopted on September 13, 1955 by the City Council of Asbury Park. The resolution recited that an offer had been received by the City for the purchase of the tract in question "but not including any portion of the boardwalk or beach in front of same" for the purpose of erecting not less than a 10-story hotel and apartment building. The resolution called for a nonbinding referendum on the following question:

> "Shall the City of Asbury Park offer for sale to the highest responsible bidder after advertisement according to law the premises owned by the City of Asbury Park running southerly from the northerly boundary line of the City of Asbury Park, a distance of approximately 350 feet and running from the easterly side of Ocean Avenue eastwardly approximately 185 feet *but not including any portion of the boardwalk or beach in front of same* for the purpose of erecting not less than a 10 story hotel and apartment building of the value of not less than $3,000,000 with appurtenances thereto?" (Underscoring supplied)

The referendum does not support the proposal made by Senate Bill No. 207. That bill provides for a lease, not a sale. Moreover, the bill would authorize grants of what in effect are exclusive rights in the beach in front of the premises. The referendum expressly barred any transfer of the beach in front of the premises.

I am, therefore, returning Senate Bill No. 207 herewith, without my approval.

Respectfully,

SENATE BILL No. 247

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 247 for the following reasons:

Senate Bill No. 247 would change the discount rate on cigarette tax stamp purchases by distributors from the present 3% discount to graduated rates. After a lesser schedule for 6 months the rates would increase commencing July 1, 1958 to 5% on the first $250,000.00 of stamp purchases, 3% on the next $200,000.00 of stamp purchases, 2% on the next $200,000.00 of stamp purchases, 1% on all purchases over $650,000.00.

The financial effect would be to increase the expense to the State for collecting cigarette taxes from the present amount of $1,031,000.00 to approximately $1,372,000.00—an increase of about $341,000.00 yearly.

In New Jersey payment of the tax on the sale and use of cigarettes is evidenced by a stamp or meter (machine) impression on the end of each package of cigarettes. Because the evidence of tax payment must be applied to each package of cigarettes, cigarette distributors are licensed as stamp affixing agents and are reimbursed for their costs in rendering this service to the State.

To compensate the distributor for his labor, material costs and overhead expenses, the Cigarette Tax Law, for the period from July 1, 1948 to April 15, 1956, provided that the distributor could buy 3-cent cigarette tax stamps or meter units for machine impressions at a 5% discount which amounted to 75 cents per case.

On April 16, 1956, the cigarette tax rate was increased from 3 cents to 5 cents per standard pack by P. L. 1956, c. 10. Concurrently, the distributors' discount rate was reduced from 5% to 3%. This reduction in rate did not, however, reduce the amount of compensation to the distributor for affixing the tax stamp since a 3% discount on a 5 cent tax produced the same result as a 5% discount on a 3 cent tax. Thus, the allowance per case for stamping was retained at 75 cents.

The cost of the stamping operation to the distributor is the same whether the rate of tax is 3 cents or 5 cents per pack. Precisely the same manual operations are necessary whatever the value of the tax stamp, so that the attendant costs are the same. If 75 cents per case was adequate compensation for affixing 3-cent stamps prior to April 16, 1956, that compensation did not become inadequate because the tax rate was raised to 5 cents.

Under P. L. 1956, J. R. 10 the Division of Taxation was required to conduct a study of the cost to the distributors of affixing and handling cigarette tax stamps and to report the results of such survey to the Governor and the Legislature within 60 days. The report, filed by the Division, concluded that each category of distributor, classified according to volume of cigarettes handled, was adequately reimbursed for its stamp affixing costs, with the exception of the two smallest categories, viz., those distributors purchasing less than $85,000.00 worth of tax stamps annually. As to them it was concluded that, because of their limited volume of stamping, it was practically impossible to determine, with reasonable accuracy the actual extent of their stamping costs. In view of these findings no change in the present discount rate of 3% was recommended.

A legislative commission created under Senate Concurrent Resolution No. 8 to study the cost of stamp affixing and to examine the report of the Division of Taxation held a public hearing on March 15 and filed its report with the Legislature on May 6, 1957. All witnesses appearing on behalf of the distributors conceded that the Division's cost survey fully considered all operating and overhead costs incurred by the distributors with the exception of labor costs. It was charged that the survey grossly underestimated the labor costs of all categories of distributors, excepting those in the largest category which consistently stamped a heavy volume of cigarettes daily. More specifically the charge was that the Division had used a so-called "norm" in establishing the labor costs of all distributors and that the Division had fallen into serious error in determining and applying this norm.

The Senate Commission report draws the conclusion that the Division's survey covered only the activities of the 3 largest distributors. That conclusion is in error. The survey report shows that it covered the operations of 47 licensed resident cigarette distributors in all categories.

It has been contended that the labor costs of each distributor should be the amount of the full salary actually paid to those employees used in stamping even though only a part of their time, and in many instances only a very small fraction of their time, was actually devoted to the stamping of cigarettes. There seems to be no sound reason why full pay for 3 men should be allowed under these circumstances. When their stamping duties were completed these employees were assigned to other work.

Until a more equitable formula is devised for determining reasonable labor costs in all distributor categories, there would appear to be no alternative but to use the norm applied by the Division. This results in the finding that all categories of distributors are adequately compensated for performing the stamping function except the very smallest distributors and as to them there is in fact no sound basis upon which their costs can be determined with reasonable certainty.

It must be understood, of course, that the discount rate, in itself, is meaningless. The rate is significant only when considered in relation to the tax rate. Thus, in the District of Columbia, the discount rate is 6% but the allowance per case for stamping is only 60 cents because the tax rate is 2 cents per standard pack.

I recognize the fact that all costs of doing business, including those in the tobacco industry, have increased since 1948. But it does not follow that the distributor is not being fairly reimbursed today, since the 75 cents allowance established in 1948 was not the result of a cost study. The discount rate of 5% on a 3 cent tax, producing a 75 cent per case reimbursement figure, was determined in 1948 simply on a consideration of the compensation being paid in other States at that time. By this standard, the present discount rate of 75 cents per case appears adequate, since it is as much or more than that allowed by the States of New York, Connecticut, Delaware, District of Columbia, Illinois, Rhode Island, New Hampshire, Iowa, Arizona, Missouri, Nebraska, Nevada, Ohio, Texas, Washington and Wisconsin.

I believe that there is need for a further study by experienced cost accountants. While the results of such a survey might be against the State's interests, it would be a fair course to take in view of the great difference of opinion on the matter of labor costs. It was readily conceded from the

start that Division personnel which had to be used on the survey were not grounded in cost accounting practices. The State's tax now running $34 million a year, and the distributor's allowances, which are in excess of $1 million, are in such large figures that a modest expenditure for such a survey by experts would appear to be well justified.

There is another related circumstance which should be noted. The rise in tax rate from 3 cents to 5 cents brought to distributors an additional monetary benefit which must be taken into account in any evaluation of the equity of their claim that they are not being adequately reimbursed. Under the provisions of the Unfair Cigarette Sales Act, distributors are permitted an average mark-up of 4% on the cost of the merchandise to them including the tax. Thus, when the tax was 3 cents per pack of $15.00 per case, the mark-up by reason of the tax allowance, was 60 cents per case. With the tax at 5 cents per pack or $25.00 per case, the mark-up on the tax went up to $1.00 per case, representing an average increased mark-up of 40 cents in the minimum sales price of each case. 75% of the price mark-up goes to the distributors. This approximates an increase for the benefit of the distributors of 30 cents per case resulting solely from the increase in the tax rate.

In view of all of these facts the conclusion that the cigarette distributor in New Jersey is being adequately reimbursed for his costs in stamping cigarettes seems reasonably well founded. The present payment of 75 cents per case is compatible with such payments in many other States and until such time as there is more conclusive proof of the insufficiency of the Division's survey, the 75 cents allowance should stand.

For these reasons, I am returning herewith Senate Bill No. 247 without my approval.

Respectfully,

SENATE BILL No. 264

To the Senate:

I am returning herewith, without my approval, Senate Bill No. 264 for the following reasons:

This bill would suplement the "Optional Municipal Charter Law" (P. L. 1950, c. 210) to provide for filling a vacancy which shall occur in the membership of a council of a municipality governed under Council-Manager Plan A, if the unexpired term exceeds 1 year from the occurrence of the vacancy and the remaining members of the council do not fill the vacancy within 60 days. Under the bill, upon petition of 5% of the entire vote cast in the municipality for members of the General Assembly in the last general election, filed within 30 days after the expiration of the 60-day period, the vacancy shall be filled at a special election to be held on the first Tuesday following the 60th day after the filing of the petition.

The bill would authorize a special election for the filling of a vacancy in the municipal governing body in only 1 of the 15 forms of municipal government provided for in the "Optional Municipal Charter Law." The cost of a special election is considerable. No logical reason appears why a special election should be authorized only in the case of 1 of the 15 forms of municipal government. There is no sound basis for such piecemeal alteration of the basic law. In the absence of a legislative determination that provision for special election as to all plans within a given class is desirable, I cannot participate in the erosion of the basic pattern of the act through approval of this measure.

The technical aspects of this bill raise many complications. The special election would have to be held between 4 and 5 months after the occurrence of the vacancy. Because of the mandatory time schedule running from the date of the vacancy, the special election might fall at a most inconvenient time and might well conflict with many existing provisions of the election law. In fact, under this bill a special election might be scheduled shortly after the regular municipal election at which, under other provisions of the law, the vacancy would be filled.

Section 2 of the bill provides that nominations shall be made at the same time and in the same manner as is provided for the holding of regular municipal elections. The applicable provision (P. L. 1950, c. 210, sec. 17-4) requires the filing of a petition of nominations at least 45 days prior to a regular municipal election. This inconsistency would compound the confusion.

In addition, I am advised that the Township of Parsippany-Troy Hills is the only municipality which would be affected by Senate Bill No. 264. The vacancy which existed in the council of this municipality was filled at the general election in November of this year.

A commission has been established to revise the county and municipal law in this State, P. L. 1956, c. 231. I believe that the proposal contained in this bill involves basic policy considerations relating to municipal governing bodies and should be evaluated by the members of that commission as well as by their advisory committee.

For the foregoing reasons, I am returning Senate Bill No. 264 herewith, without my approval.

Respectfully,

[SEAL] ROBERT B. MEYNER,
Attest: *Governor.*

BRENDAN T. BYRNE,
Acting Secretary to the Governor.

On motion of Mr. Stout, the above Messages were ordered to be spread in full upon the Journal of the Senate.

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: December 2, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following bill:

Assembly Bill No. 552, entitled "A supplement to 'An act to enable the owners of the tide swamps and marshes to improve the same, and the owners of meadows already banked in, and held by different persons, to keep the same in good repair,' passed November 29, 1788,"

In which the concurrence of the Senate is requested.

WILLIAM J. KOHM,
Clerk of the General Assembly.

The Assembly message was taken up, and

Assembly Bill No. 552, entitled "A supplement to 'An act to enable the owners of the tide swamps and marshes to improve the same, and the owners of meadows already banked in, and held by different persons, to keep the same in good repair,' passed November 29, 1788,"

Was taken up and read the first time.

Mr. Stout moved that the rules be suspended and that Assembly Bill No. 552 be advanced to second reading, without reference.

Which motion was adopted.

Assembly Bill No. 552, entitled "A supplement to 'An act to enable the owners of the tide swamps and marshes to improve the same, and the owners of meadows already banked in, and held by different persons, to keep the same in good repair,' passed November 29, 1788,"

Was taken up under suspension of the rules and read a second time.

Mr. Shershin offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That a cordial welcome be extended to the members of the Senior Class of the Eastern Christian High School, who are present today accompanied by their teacher, Milo Okkema; and

Be It Further Resolved, That Garry Newenhouse, Senior Class President address the Senate.

At the invitation of the President, Gary Newenhouse briefly addressed the Senate.

Assembly Bill No. 448, entitled "An act relating to the juvenile and domestic relations courts in certain counties, amending section 2A:4–10 and supplementing chapter 4 of Title 2A of the New Jersey Statutes,"

Was taken up and read a third time.

Upon the question, "Shall this General Assembly bill pass?" it was decided as follows:

In the affirmative were—

Messrs. Crane, Dumont, Farley, Forbes, Harper, Hillery, Jones, Mathis, McCay (President), Sandman, Shershin, Stout—12.

In the negative were—

Messrs. Cowgill, Fox, Lynch—3.

The Secretary was directed by the President to carry said bill to the General Assembly and inform that body that the Senate has passed the same, without amendment.

Assembly Bill No. 475, entitled "An act concerning mechanics', materialmen's and laborers' liens, and amending section 2A:44–71 of the New Jersey Statutes,"

Was taken up and read a third time.

Upon the question, "Shall this General Assembly bill pass?" it was decided as follows:

In the affirmative were—

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hannold, Harper, Hillery, Jones, Lynch, Mathis, McCay (President), Ridolfi, Sandman, Sharp, Shershin, Stout, Waddington—19.

In the negative—None.

The Secretary was directed by the President to carry said bill to the General Assembly and inform that body that the Senate has passed the same, without amendment.

One communication was received from the Governor by the hands of his Secretary.

Assembly Bill No. 468, entitled "An act concerning medical care and hospitalization of the poor, and amending section 44:5–16 of the Revised Statutes,"

Was taken up and read a third time.

Upon the question, "Shall this General Assembly bill pass?" it was decided as follows:

In the affirmative were—

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hannold, Harper, Jones, Lynch, Mathis, McCay (President), Ridolfi, Sandman, Sharp, Shershin, Stout, Waddington—18.

In the negative—None.

The Secretary was directed by the President to carry said bill to the General Assembly and inform that body that the Senate has passed the same, without amendment.

Assembly Bill No. 188, entitled "An act concerning unemployment compensation, and amending section 43:21–19 of the Revised Statutes,"

Was taken up and read a third time.

Upon the question, "Shall this General Assembly bill pass?" it was decided as follows:

In the affirmative were—

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hillery, Jones, Lynch, McCay (President), Ridolfi, Sharp, Shershin, Waddington—14.

In the negative—None.

The Secretary was directed by the President to carry said bill to the General Assembly and inform that body that the Senate has passed the same, without amendment.

Assembly Joint Resolution No. 5, entitled "A joint resolution reconstituting the commission created to study the administration of public medical care at various levels of government for the recipients of public assistance who are residents of the State of New Jersey and those residents, not requiring public assistance, but unable to finance medical care,"

Was taken up and read a third time.

Upon the question, "Shall this General Assembly bill pass?" it was decided as follows:

In the affirmative were—

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hannold, Harper, Hillery, Jones, Lance, Lynch, Mathis, McCay (President), Ridolfi, Sandman, Sharp, Shershin, Stout, Waddington—20.

In the negative—None.

The Secretary was directed by the President to carry said bill to the General Assembly and inform that body that the Senate has passed the same, without amendment.

Senate Bill No. 288, entitled "An act concerning education, providing for children's bureaus, authorizing county and municipal co-operation therewith, and supplementing Title 18 of the Revised Statutes,"

Was taken up and read a third time.

Upon the question, "Shall this Senate bill pass?" it was decided as follows:

In the affirmative were—

Messrs. Cowgill, Crane, Dumont, Farley, Forbes, Fox, Hannold, Hillery, Jones, Lance, Lynch, Mathis, McCay (President), Ridolfi, Sandman, Sharp, Shershin, Waddington—18.

In the negative—None.

The Secretary was directed by the President to carry said bill to the General Assembly and inform that body that the Senate has passed the same, and requests its concurrence therein.

Mr. Jones moved that Senate Committee Substitute for Assembly Bill No. 396, entitled "An act concerning unemployment compensation, and amending section 43:21–14 of the Revised Statutes," be given first reading for the purpose of reenactment.

Which was agreed to.

WHEREAS, JOHN P. DULLARD died on October 7, 1957, and was much revered by the citizens of Mercer County and the State of New Jersey as a journalist, public official and State Librarian; and

WHEREAS, He made great contributions to the schools and libraries of the State through his work as President of the Trenton Board of Education and as State Librarian; and

WHEREAS, He served the Legislature and the Courts of New Jersey by developing the legal collection of the State Library into one of the leading law libraries in the United States; and

WHEREAS, He represented newspapers in Newark, Jersey City and New York and the Associated Press in the City of Trenton and for a period of almost a quarter of a century was recognized as one of the "Old Guardsmen of the State House Press Corps," was an organizer and former Secretary and President of the New Jersey Legislative Correspondents Club, and did much to develop the Legislative Manual of the State of New Jersey into its present usefulness; and

WHEREAS, He served with distinction as a public official in the City of Trenton as a member of the Board of Assessors and as a member and later President of the Trenton Board of Education and was greatly responsible for the adequate system of modern school buildings in the City of Trenton today; and

WHEREAS, JOHN P. DULLARD was granted the great privilege by Almighty God of living for nearly a century in this

State in which time he saw his plans and designs for a better educated people and a better mode of living come to fruition; now, therefore,

Be It Resolved by the Senate of the State of New Jersey, that its profound regret on the death of John P. Dullard is hereby expressed and the memory of his great achievements as a citizen and State Librarian of this State are hereby honored; and

Be It Further Resolved, That the Senate hereby expresses its profound condolences and sympathy to the bereaved family of John P. Dullard; and

Be It Further Resolved, That a copy of this resolution, signed by the President of the Senate and attested by its secretary, be sent to Miss Ann Dullard, 25 South Dean Avenue, Trenton, New Jersey, who so unselfishly dedicated herself to the care and love of her distinguished father.

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,
Mr. President: December 16, 1957.

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following concurrent resolution:

WHEREAS, It has become necessary for the Legislature to take further action in connection with Assembly Bill No. 542 before the same shall become law, now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. The Joint Committee on Passed Bills is hereby directed to deliver Assembly Bill No. 542 to the Secretary of the Senate and the Senate is hereby requested to reconsider the vote by which said bill was passed and take such action in connection therewith as may seem to it to be desirable.

In which the concurrence of the Senate is requested.

WILLIAM J. KOHM,
Clerk of the General Assembly.

Mr. Ridolfi offered the following resolution, which was read and adopted:

WHEREAS, Former Mercer County Court Judge Charles P. Hutchinson of Trenton, died on December 14, 1957; and

WHEREAS, Before his appointment to the County Court Bench, Judge Hutchinson served as the County Clerk of the County for eighteen years; and

WHEREAS, As a life-long resident of Trenton, Judge Hutchinson was active in church, philanthropic, fraternal and veterans activities; and

WHEREAS, These activities included his work as a member of the Vestry of Trinity Episcopal Cathedral, as a member of the Board of Directors of the Rescue Mission of Trenton, as a past master of Trenton Lodge No. 5, F. & A. M. and as a 32d degree Scottish Rite Mason; and

WHEREAS, As a practicing attorney, Judge Hutchinson was active in Bar Association affairs and served as chairman of the Ethics and Grievance Committee for Mercer County, as trustee of the Legal Aid and as a member of numerous committees of the New Jersey Bar Association; and

WHEREAS, In his public career, Judge Hutchinson's activities included his service as a delegate to the Constitutional Convention in 1947; and

WHEREAS, As a County Judge, he gained great distinction, particularly as a presiding jurist in the first trial of "The Trenton Six," which attracted not only national but international attention; and

WHEREAS, Judge Hutchinson's personality was such as to endear him to a host of friends not only in the county but throughout the State; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That public expression is hereby given to the esteem in which Judge Hutchinson has been held and appreciation is expressed for his countless and valuable services to the State and, particularly, to Mercer County; and

Be It Further Resolved That sincere condolences and sympathy are hereby extended to the family of Judge Charles P. Hutchinson; and

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate and a copy signed by the President of the Senate and attested by its Secretary be sent to the family of Judge Hutchinson.

The following communication was received and filed.

BOARD OF CHOSEN FREEHOLDERS
COUNTY OF HUDSON
RESOLUTION

WHEREAS, A serious public emergency exists in Hudson County due to the continued shortage of rental housing space; and

WHEREAS, Rent control is essential to health, safety, and general welfare of the people of this County and State; and

WHEREAS, Chapter 146 of the Laws of 1956 is presently due to expire on December 31, 1957 and the enactment of supplemental legislation thereto is imperative; therefore,

Be It Resolved, That this Board hereby petitions the Legsilature of the State of New Jersey to pass appropriate legislation to continue Chapter 146 of the Laws of 1956, commonly known as the "Rent Control Act", and the Director and Clerk of this Board are hereby authorized and directed to sign and attest to the petition attached to this resolution and made part hereof, and to file same with the Legislature forthwith.

This resolution shall take effect immediately.

I, Frank E. Rodgers, Clerk of the Board of Chosen Freeholders of the County of Hudson in the State of New Jersey, do hereby certify the attached resolution to be a true copy of resolution passed at meeting of said Board held December 12, 1957.

FRANK E. RODGERS,
Clerk.

PETITION

To the Legislature of the State of New Jersey:

GREETINGS:

1. The County of Hudson, a body politic and corporate in law of the State of New Jersey, under and by virtue of a resolution adopted by the Board of Chosen Freeholders, the governing body thereof, does hereby petition the Legislature to enact a general law, particularly an act authorizing certain municipalities to make, amend, repeal and enforce ordinances to provide for the regulation of rentals and housing space with respect to certain properties and to make certain appropriations commonly known as the "State Rent Control Act."

2. The enactment of such a law is necessary due to the continuance of a public emergency caused by critical shortage of rental housing space adversely affecting the health, safety and general welfare of the residents of the County.

3. The enactment of such a law is for the purpose of continuing rent control in the County of Hudson upon termination of the State Rent Control pursuant to Chapter 146 of the Laws of 1956, which expires on December 31, 1957.

Wherefore, The County of Hudson has caused this Petition to be prepared by its Director of the Board of Chosen Freeholders, attested by its Clerk, with direction to file the same with the Legislature, by a resolution adopted on December 12, 1957, copy of which is annexed hereto.

THE COUNTY OF HUDSON,
By the Board of Chosen Freeholders
of the County of Hudson,
/s/ EDWARD P. CAREY, *Director.*

[SEAL]

Attest:

/s/ FRANK E. RODGERS, *Clerk.*
