Enrollment data reflects enrollment reported at the end of the school year and only includes students attending the school. Students that attend programs at other schools or outside of the district are not included in enrollment counts and percentages.

Enrollment Trends by Grade

This table shows the number of students enrolled by grade for the past three school years. Any students enrolled outside of the grades offered will be included in the total enrollment.

Grade	2016-17	2017-18	2018-19
9	178	207	226
10	208	175	205
11	202	219	177
12	238	209	227
Total	826	810	835

Enrollment Trends by Student Group

This table shows the percentage of students by student group for the past three school years.

Student Group	2016-17	2017-18	2018-19
Female	51.5%	52.0%	49.5%
Male	48.5%	48.0%	50.5%

Enrollment Trends by Full and Shared Time Status

This table shows the number of full and shared time students for the last three years. The full time equivalent is the number of full time students plus half the number of shared time students.

Enrollment Status	2016-17	2017-18	2018-19
Full Time Students	825	809	834
Shared Time Students	1	1	1
Full Time Equivalent	826	810	835

Enrollment by Home Language

This table shows the percentage of students by primary home language. Only the top 5 languages with at least 1% of students are shown, and students with other home languages are included in the Other Languages total.

Home Language	% of Students
English	86.6%

English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the statewide assessment (NJSLA for 2018-19 and PARCC for 2016-17 and 2017-18) and the DLM alternate assessment. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA/PARCC or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. NJSLA/PARCC results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

Performance Measure	2016-17 ELA	2017-18 ELA	2018-19 ELA	2016-17 Math	2017-18 Math	2018-19 Math

English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English Language Arts both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability resources.

Mathematics Assessment – Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level or end-of-course exam on the statewide assessment for Mathematics for the past three years. 2018-19 data is from the New Jersey Student Learning Assessment (NJSLA) and 2016-17 and 2017-18 data is from the PARCC assessment.

^{† 2018-19} results for Algebra I, Geometry, and Algebra II do not include students in grade 11, but 2016-17 and 2017-18 results do include students in grade 11. Therefore, trend data for these assessments may not be comparable.

English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grades 5, 8, and 11 will take the NJSLA-Science assessment. Students receive a score of Level 1, 2, 3, or 4 where levels 3 and 4 represent proficiency. Visit the NJSLA-Science website for more information about NJSLA-S. These results do not include students that took the Dynamic Learning Maps (DLM) Science assessment, visit the assessment reports page for DLM results.

Information about participation and performance on the PSAT, SAT, and ACT exams comes directly from College Board and ACT.

PSAT, SAT, & ACT - Participation

This table shows information about participation on the PSAT, SAT, and ACT exams. PSAT participation is the percentage of 10th and 11th graders that took the PSAT 10 or PSAT NMSQT exam in2018-19. SAT and ACT participation rates show the percentage of 12th graders that have taken the SAT or ACT this year or in prior years.

Participation Type	School Participation Rate	State Participation Rate
10th and 11th graders taking PSAT 10/NMSQT in 2018-19	70.4%	84.5%
12th graders taking SAT in 2018-19 or prior years	65.8%	72.1%
12th graders taking ACT in 2018-19 or prior years	64.0%	19.6%

PSAT, SAT, & ACT - Performance

This table shows how students performed on the PSAT, SAT, and ACT tests by subject area. The table includes average test scores, college readiness benchmarks, and the percentage of students that scored at or above these benchmarks. Benchmarks were defined by College Board and ACT and students that score at or above these benchmarks have a high chance of success in credit-bearing college courses.

Participation Type	School Average Score	State Average Score	College Readiness Benchmarks	School - Students Scores at or above Benchmark	State - Students Scores at or above Benchmark
PSAT 10/NMSQT - Reading and Writing	548	476	Grade 10: 430 Grade 11: 460	90%	61%

Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. These include participating in advanced course work such as **Advanced Placement (AP)** or **International Baccalaureate (IB)** courses and exams and **dual enrollment** courses where high school students can enroll in college courses for credit.

AP/IB Coursework – Participation and Performance

This chart shows the percentage of 11th and 12th graders who enrolled in one or more AP or IB courses, who took one or more AP or IB exams, and who had one or more exams with an AP score of 3 or higher or IB score of 4 or higher.

Dual Enrollment Coursework - Participation

This graph shows the percentage of 11th and 12th graders who were enrolled in at least one dual enrollment course during the school year. Dual enrollment courses allow high school students to enroll in college courses for credit prior to their high school graduation.

AP/ IB Courses Offered

This table shows the list of AP/IB Courses that were offered by the school or for which students took the corresponding AP/IB exam along with the number of students enrolled and the number of students taking the exam. Students do not need to take a course to take the exam and not all students enrolled in a course take the exam. The last two rows show the total number of exams taken and the number of exams with AP scores of 3 or higher or IB scores of 4 or higher. Students who take multiple examples are counted more than once in the last two rows.

Graduation rates are calculated based on the adjusted cohort graduation rate calculation. More information can be found on the NJDOE Graduation Rate page.

Graduation Rates

This table shows 4-year and 5-year graduation rates both overall and by student group. Annual ESSA accountability targets for the Class of 2018 4-year rate and the Class of 2017 5-year rates are included with a flag for whether the annual targets were met. Student group rows where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see these accountability resources.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

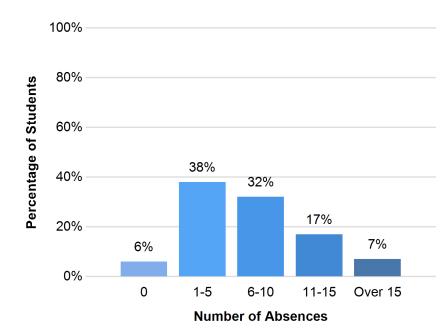

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

Student Group	Number of Students Chronically Absent	Percent of Students Chronically Absent	State Average	Met State Average?

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Incident Type	Number of Incidents
Violence	2
Weapons	0
Vandalism	0
Substances	2
Harassment, Intimidation, Bullying (HIB)	1
Total Unique Incidents	5

Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School	
Typical Start Time	8:00 AM

Length of School Day	6 Hrs 53 Mins	
Full Time - Instructional Time	5 Hrs 34 Mins	
Shared Time - Instructional Time	5 Hrs. 34 Mins.	

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3 through 10 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3 through 10. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

Link to District Summary of 2018-19 School-Level Per Pupil Expenditures by Source.

An option to download all school-level summaries by district in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA).

Every three years (last identification in 2019, next identification in 2022), NJDOE will identify schools in the following three federal categories:

Comprehensive Support and Improvement - Overall Low Performing: Schools with a summative score in the bottom 5% of Title I schools.

Comprehensive Support and Improvement - Low Graduation Rate: High schools with a four-year graduation rate of 67% or less

Targeted Support and Improvement - Low Performing Student Group: Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools

Annually, NJDOE will identify schools in the following federal category:

Targeted Support and Improvement - Consistently Underperforming Student Group: Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these <u>accountability resources</u>.

ESSA Accountability Status

The table below provides the school's federal school status for the 2020-21 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support.

ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency represent the percentage of students that met or exceeded expectations on statewide assessments (NJSLA/PARCC or DLM). ELA and Math Growth represent the median student growth percentile. Four- and five-year graduation rates represent the adjusted cohort graduation rates. Progress toward English Language Proficiency, which was first available in 2017-18, shows the percentage of English Learners that demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Chronic absenteeism represents the percentage of students that were absent for 10% or more of the days enrolled during the school year.

Comprehensive Support and Improvement - Low Graduation Rate: High schools with a four-year graduation rate of 67% or less

Targeted Support and Improvement - Low Performing Student Group: Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools

Annually, NJDOE will identify schools in the following federal category:

Targeted Support and Improvement - Consistently Underperforming Student Group: Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these <u>accountability resources</u>.

Accountability Indicator Scores and Summative Ratings - 2018-19 School Year

New Jersey developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement every three years. During the three-year federal status period, schools receive additional resources and support. NJDOE will next identify schools for Comprehensive Support and Improvement in 2022.

This year accountability indicator scores and summative ratings are not used to identify schools for Comprehensive Support and Improvement, so these data are not included in the School Performance Reports. Review the previous two pages to see a school's current status, in the ESSA Accountability Status table, and to monitor a school's school progress on each accountability indicator over the last three years using the new ESSA Accountability Progress table.

Accountability Summary by Student Group - 2018-19 School Year

This table shows whether student groups in this school met annual ESSA accountability targets and standards for each indicator. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16 or the first year data was available. The standard for student growth is a median student growth percentile of 40-59.5. The target for chronic absenteeism is the statewide chronic absenteeism rate based on students enrolled in the grades served by the school. For more details on accountability targets, see these accountability resources.

The accountability system will not be used to identify schools for Targeted Support and Improvement – Low Performing Student Group for 2018-19, so student group summative scores are not included in this table this year.

If there are questions about the information provided in the narrative section, please contact the school or district directly.

Highlights:	 Personalized Special Programs engage students and provide for achievement and differences. Digital Transformation, Flexible Learning Structures, Career Readiness are the hallmarks of instruction. A Culture of Innovation that promotes forward thinking by students and faculty.
Mission, Vision, Theme:	The vision of the Pascack Valley Regional High School District is to create a culture of innovation, inquiry, and individuality that promotes achievement and choice by cultivating the skills needed to compete and collaborate as ethical and responsible global citizens. Our mission is to prepare students for successful college and/or career experiences with the needed mindset, skills, structures, and knowledge to accomplish that goal.
Awards, Recognition, Accomplishments:	The district has been a 1:1 computing district since 2004; the first in New Jersey. This digital transformation has led the district to numerous instructional technology awards, including being named among the first "Future Ready" schools in N.J. Our students and staff are frequent award winners, including New Jersey's Teacher of the Year, the Princeton University Teacher Award, NJSBA "20 to Watch", and numerous student academic, athletic, and co-curricular awards.

Utilizing a mix of project-based learning, digital tools, and flexible learning spaces, students follow a curriculum that prepares them for higher education and real-world tasks. The curriculum adheres to NJ Learning Standards while independent and critical thinking tasks, and communication skills are emphasized. College preparatory, honors, AP, dual enrollment, online courses, and a robust internship program challenge students to meet high district expectations.

Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Bowling (Boys & Girls), Cheerleading (Coed), Cross Country (Boys & Girls), Football (Boys), Golf (Boys & Girls), Gymnastics (Girls), Ice Hockey (Coed), Lacrosse (Boys & Girls), Soccer (Boys & Girls), Softball (Girls), Swimming (Boys & Girls), Tennis (Boys & Girls), Track and Field - Spring (Boys & Girls), Track and Field - Winter (Boys & Girls), Volleyball (Girls), Wrestling (Boys)

The district recognizes the importance of offering a full complement of interscholastic athletic activities for students throughout their high school experience. Due to its regional nature, the district is able to offer swimming, gymnastics, ice hockey and dance teams as district-wide teams. Many of our teams have enjoyed success as county and state champions while individual athletes and coaches have garnered multiple honors. Highlights from 2018-2019: Boys Cross Country - League and Bergen County Group Champions; Gymnastics - County Champions; Baseball - Division, State Sectional, State Group Champions, Bergen County Small School Team of the Year and Number 4 Team in the State of New Jersey; Boys and Girls Tennis - League Champions; Golf - League Champions; Boys & Girls Track - League Sportsmanship Award.

Clubs and Activities:

Pascack believes that extra-curricular activities add real value and unique experiences for our students. The district offers dozens of clubs in each school ranging from the ski club, debate team, Teens Against Cancer, language clubs, student publications, and our highly-acclaimed robotics team. With the plethora of service, school, and academic clubs, there is no shortage of opportunities for interested students.

Students with special needs from both in and out of the district are able to have individualized instruction, accommodations, and modifications in a least restrictive environment via placement in collaborative classes or one of our highly successful self-contained programs that include Park @PVR, Learning & Language Disabled (LLD), RISE, Park Academy, and the Milestones 18-21 Program.

Student Health and Wellness:

Through a variety of passive and active measures, students and faculty can learn and work in an environment that is both safe and secure. We are one of a few school districts in the State of New Jersey that certifies all students, faculty, and staff in CPR. In 2016, the district opened a Wellness Center in each high school that is staffed by a therapist/psychologist and a student assistance counselor. This program provides multiple levels of support for students and their mental health and well-being. Programs occur during the year for all students on mental health and healthy living.

Parent and Community Involvement:

The local community is extremely supportive of its regional high school program. Local businesses and corporations partner with the schools to provide seniors with meaningful, year-long internships to prepare our students for their future careers. The school-based parent organizations work closely with the building administration on a variety of topics. The parent groups conduct multiple fundraisers to support senior scholarships, teacher grants, and a senior graduation celebration.

Climate Surveys:

Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Administrators, Teachers Each year parents, faculty, and students are given the opportunity to provide feedback via a school climate survey. This comprehensive survey boasts a high return rate and asks respondents to provide their view on the school schedule, assessments, instruction, technology, and communication. The results are communicated with the public and are used to continually modify and adjust instructional programs.

Facilities:

Pascack Hills High School was built in the 1960's and continues to experience expansion projects, remodeling, and constant updating so our students receive an education that will prepare them for the world of college and career. A robust wireless network allows students to be connected to their learning throughout the building and property throughout the day and the school is proud of it's modern STEM labs, auditorium, indoor and outdoor athletic facilities, science labs, and media center.

School Safety:

The district provides a safe and secure environment where students and faculty can work and learn. Passive and active safety and security initiatives have been put in place over the past several years to ensure this. Each school has three SLEO-III officers on duty that provide security and mobile patrols. Additionally, a robust camera, monitoring, electronic access system, and reinforced physical plant add further layers of surveillance and protection. The district works very closely with local law enforcement and EMS to support our programs. PVRHSD was the first district in the state to have all its students, faculty, and staff certified in CPR and there are multiple defibrillators in every building. Further, many staff and students have become certified in Bleeding Control.

Technology and STEM:

Various levels of computer science are offered for students to learn ways to code and apply their coding. Focus on the need to understand data has led to the expansion and enhancement of statistics, including interdisciplinary connections with science and social studies. Many students enroll in math or science electives in multi-year research courses, college-level or dual-enrollment courses including an Engineering course offered in partnership with the University of Texas. Technology Education students have access to cutting edge technology in the design and creation process, including 3D printing, laser engravers, and CAD software. Our award-winning Robotics team provides students with the opportunity to create and compete against other programs in the state, region, and country. Our arts programs utilize technology to create as well, whether it is digital photography, TV and Video production, web design, or music technology.

Other Information

Culture of Innovation: Students learn in personalized environments, mentored by faculty experts who engage them in a variety of instructional activities and assessments that foster critical thinking, creativity, and innovation to prepare them for the next stage in their lives. Digital Transformation: Our instructional technology is continually evolving to meet the needs of college and career-bound students. Every faculty member and student is issued a Macbook Air laptop with access to the latest versions of educational, business, and creation software. The district utilizes the Canvas Learning Management System for instruction, Genesis for record keeping, and a variety of online tools for specific educational purposes. More importantly, all these digital tools are used for teaching and learning to emulate experiences students will have in college and careers. Flexible Learning Structures: Beginning in the 2014-2015 school year, the "Pascack Schedule" provides students with variety and choice in terms of length of instructional periods, time of day of instruction, and a weekly "Pascack Period" that is used for administrative purposes, assemblies, and student choice for how they use their time. Schools, classrooms, and hallways have a variety of furniture and structures to promote both collaboration and independent study. Career Readiness: Through strategic placements in the Pascack Valley community and beyond, internship students are able to gain hands-on experience and exposure to a variety of career fields and occupations as part of their school day. Career preparatory experiences are embedded in the curriculum in both core and elective classes.

English Language Arts and Mathematics Performance Trends

These graphs show trends in the Proficiency Rate for Federal Accountability over the last three years. The data includes the results of students taking both the statewide assessment (NJSLA for 2018-19 and PARCC for 2016-17 and 2017-18) and the DLM alternate assessment. The Proficiency Rate for Federal Accountability measures the percentage of students that met or exceeded expectations on the assessments (NJSLA/PARCC or DLM) with an adjustment made if the participation rate is below 95% to ensure reporting on at least 95% of students. NJSLA/PARCC results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. The table below provides participation rates, proficiency rates, annual targets and status in meeting the targets, and statewide proficiency rates.

English Language Arts Assessment - Participation and Performance

This table shows performance on statewide assessments for English Language Arts both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our accountability resources.

Mathematics Assessment - Participation and Performance

This table shows performance on statewide assessments for Mathematics both overall and by student group. It includes the results of students taking both the NJSLA and DLM assessments. NJSLA results include only students in grades 3 through 10. Students that were enrolled for less than half a school year are excluded from performance results. A student is considered to have met or exceeded expectations if he/she scores at Level 4 or 5 on the NJSLA assessment or at Level 3 or 4 on the DLM assessment.

This table shows both the percentage of students that met or exceeded expectations and a proficiency rate used for federal accountability. The proficiency rate for federal accountability will be lower if the participation rate is below 95%. This table also shows progress towards meeting the state's long term goal of 80% proficiency by 2030. Annual targets are specific to each subgroup, school, and district and represent the expected proficiency needed to stay on track to meet the state's long term goal. Student groups where the annual target fields are grayed out are not required to meet annual targets under ESSA accountability. For more details on New Jersey's accountability system, see our accountability resources.

Mathematics Assessment – Performance Trends

This graph shows the percentage of students who met or exceeded expectations on each grade level or end-of-course exam on the statewide assessment for Mathematics for the past three years. 2018-19 data is from the New Jersey Student Learning Assessment (NJSLA) and 2016-17 and 2017-18 data is from the PARCC assessment.

^{† 2018-19} results for Algebra I, Geometry, and Algebra II do not include students in grade 11, but 2016-17 and 2017-18 results do include students in grade 11. Therefore, trend data for these assessments may not be comparable.

English Language Progress to Proficiency

This table shows the percentage of English Learners who demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. A student's expected growth is based on the student's initial year proficiency level and student growth expectations are increased by equal intervals each year so that the student meets the proficiency cut score of 4.5 within five years. The table shows the annual target for the percentage of students making expected growth and whether that target was met.

The New Jersey Student Learning Assessment for Science (NJSLA-S) measures student proficiency with the New Jersey Student Learning Standards for Science. All students in grades 5, 8, and 11 will take the NJSLA-Science assessment. Students receive a score of Level 1, 2, 3, or 4 where levels 3 and 4 represent proficiency. Visit the NJSLA-Science website for more information about NJSLA-S. These results do not include students that took the Dynamic Learning Maps (DLM) Science assessment, visit the assessment reports page for DLM results.

Information about participation and performance on the PSAT, SAT, and ACT exams comes directly from College Board and ACT.

PSAT, SAT, & ACT - Participation

This table shows information about participation on the PSAT, SAT, and ACT exams. PSAT participation is the percentage of 10th and 11th graders that took the PSAT 10 or PSAT NMSQT exam in2018-19. SAT and ACT participation rates show the percentage of 12th graders that have taken the SAT or ACT this year or in prior years.

Participation Type	School Participation Rate	State Participation Rate
10th and 11th graders taking PSAT 10/NMSQT in 2018-19	64.1%	84.5%
12th graders taking SAT in 2018-19 or prior years	85.4%	72.1%
12th graders taking ACT in 2018-19 or prior years	57.9%	19.6%

PSAT, SAT, & ACT - Performance

This table shows how students performed on the PSAT, SAT, and ACT tests by subject area. The table includes average test scores, college readiness benchmarks, and the percentage of students that scored at or above these benchmarks. Benchmarks were defined by College Board and ACT and students that score at or above these benchmarks have a high chance of success in credit-bearing college courses.

Participation Type	School Average Score	State Average Score	College Readiness Benchmarks	School - Students Scores at or above Benchmark	State - Students Scores at or above Benchmark
PSAT 10/NMSQT - Reading and Writing	539	476	Grade 10: 430 Grade 11: 460	86%	61%

Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. These include participating in advanced course work such as **Advanced Placement (AP)** or **International Baccalaureate (IB)** courses and exams and **dual enrollment** courses where high school students can enroll in college courses for credit.

AP/IB Coursework – Participation and Performance

This chart shows the percentage of 11th and 12th graders who enrolled in one or more AP or IB courses, who took one or more AP or IB exams, and who had one or more exams with an AP score of 3 or higher or IB score of 4 or higher.

Dual Enrollment Coursework - Participation

This graph shows the percentage of 11th and 12th graders who were enrolled in at least one dual enrollment course during the school year. Dual enrollment courses allow high school students to enroll in college courses for credit prior to their high school graduation.

AP/ IB Courses Offered

This table shows the list of AP/IB Courses that were offered by the school or for which students took the corresponding AP/IB exam along with the number of students enrolled and the number of students taking the exam. Students do not need to take a course to take the exam and not all students enrolled in a course take the exam. The last two rows show the total number of exams taken and the number of exams with AP scores of 3 or higher or IB scores of 4 or higher. Students who take multiple examples are counted more than once in the last two rows.

Career and Technical Education Participation by Student Group

This table shows the percentage of students, both overall and by student group, in grades 9 through 12 who were enrolled in courses in approved Career and Technical Education (CTE) programs. CTE participants have completed only one course in an approved CTE program. CTE concentrators have completed two or more courses in a single approved CTE program and/or have completed the entire CTE program. Students enrolled in shared-time CTE programs in a county vocational school district are included in the percentages for both the county vocational school and their sending high school.

Industry-Valued Credentials by Career Cluster

This table shows by Career Cluster the number of students enrolled in approved Career and Technical Education programs, the number of students that earned one or more industry-valued credential, and the total number of credentials earned. Students are only enrolled in one career cluster, but they may earn credentials in multiple clusters or earn multiple credentials within one cluster. Career Clusters without approved credentials are grayed out. Career Cluster rows will be hidden if no students were enrolled and no credentials were earned. The last row provides unique counts of students enrolled and students earning one or more credentials across all clusters.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

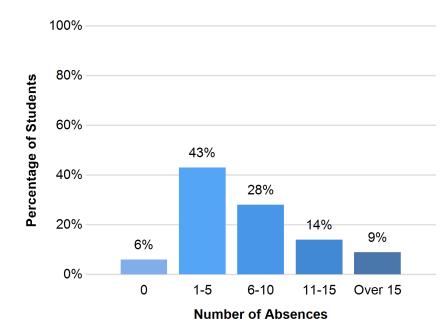

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School		
Typical Start Time	8:00 AM		
Typical End Time	2:53 PM		
Length of School Day	6 Hrs 53 Mins		
Full Time - Instructional Time	5 Hrs 34 Mins		
Shared Time - Instructional Time	5 Hrs. 34 Mins.		

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3 through 10 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3 through 10. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA).

Every three years (last identification in 2019, next identification in 2022), NJDOE will identify schools in the following three federal categories:

Comprehensive Support and Improvement - Overall Low Performing: Schools with a summative score in the bottom 5% of Title I schools.

Comprehensive Support and Improvement - Low Graduation Rate: High schools with a four-year graduation rate of 67% or less

Targeted Support and Improvement - Low Performing Student Group: Schools with one or more student group with a summative score that would be in the bottom 5% of Title I schools

Annually, NJDOE will identify schools in the following federal category:

Targeted Support and Improvement - Consistently Underperforming Student Group: Schools with one or more students group that missed annual targets or standards for all indicators for two years in a row

For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these accountability resources.

ESSA Accountability Status

The table below provides the school's federal school status for the 2020-21 school year, the category (or reason) for identification, the year the school is eligible to exit status, and, if applicable, the student groups identified for support.

ESSA Accountability Progress

The table below shows performance on each of New Jersey's ESSA accountability indicators for the last three years. ELA and Math Proficiency represent the percentage of students that met or exceeded expectations on statewide assessments (NJSLA/PARCC or DLM). ELA and Math Growth represent the median student growth percentile. Four- and five-year graduation rates represent the adjusted cohort graduation rates. Progress toward English Language Proficiency, which was first available in 2017-18, shows the percentage of English Learners that demonstrated the expected amount of growth on the ACCESS for ELLs 2.0 Assessment for English Language proficiency. Chronic absenteeism represents the percentage of students that were absent for 10% or more of the days enrolled during the school year.

Accountability Indicator Scores and Summative Ratings - 2018-19 School Year

New Jersey developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement every three years. During the three-year federal status period, schools receive additional resources and support. NJDOE will next identify schools for Comprehensive Support and Improvement in 2022.

This year accountability indicator scores and summative ratings are not used to identify schools for Comprehensive Support and Improvement, so these data are not included in the School Performance Reports. Review the previous two pages to see a school's current status, in the ESSA Accountability Status table, and to monitor a school's school progress on each accountability indicator over the last three years using the new ESSA Accountability Progress table.

Accountability Summary by Student Group - 2018-19 School Year

This table shows whether student groups in this school met annual ESSA accountability targets and standards for each indicator. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16 or the first year data was available. The standard for student growth is a median student growth percentile of 40-59.5. The target for chronic absenteeism is the statewide chronic absenteeism rate based on students enrolled in the grades served by the school. For more details on accountability targets, see these accountability resources.

The accountability system will not be used to identify schools for Targeted Support and Improvement – Low Performing Student Group for 2018-19, so student group summative scores are not included in this table this year.

	Highlights:	 Personalized Special Programs engage students and provide for achievement and differences. Digital Transformation, Flexible Learning Structures, Career Readiness are the hallmarks of instruction. A Culture of Innovation that promotes forward thinking by students and faculty.
	Mission, Vision, Theme:	The vision of the Pascack Valley Regional High School District is to create a culture of innovation, inquiry, and individuality that promotes achievement and choice by cultivating the skills needed to compete and collaborate as ethical and responsible global citizens. Our mission is to prepare students for successful college and/or career experiences with the needed mindset, skills, structures, and knowledge to accomplish that goal.
	Awards, Recognition, Accomplishments:	The district has been a 1:1 computing district since 2004; the first in New Jersey. This digital transformation has led the district to numerous instructional technology awards, including being named among the first "Future Ready" schools in N.J. Our students and staff are frequent award winners, including New Jersey's Teacher of the Year, the Princeton University Teacher Award, NJSBA "20 to Watch", Fulbright Distinguished Award in Teaching, and numerous student academic, athletic, and co-curricular awards.

Utilizing a mix of project-based learning, digital tools, and flexible learning spaces, students follow a curriculum that prepares them for higher education and real-world tasks. The curriculum adheres to NJ Learning Standards while independent and critical thinking tasks, and communication skills are emphasized. College preparatory, honors, AP, dual enrollment, online courses, and a robust internship program challenge students to meet high district expectations.

Sports Offered: Baseball (Boys), Basketball (Boys & Girls), Bowling (Boys & Girls), Cheerleading (Coed), Cross Country (Boys & Girls), Football (Boys), Golf (Boys & Girls), Gymnastics (Girls), Ice Hockey (Coed), Lacrosse (Boys & Girls), Soccer (Boys & Girls), Softball (Girls), Swimming (Boys & Girls), Tennis (Boys & Girls), Track and Field - Spring (Boys & Girls), Track and Field - Winter (Boys & Girls), Volleyball (Girls), Wrestling (Boys)

The district recognizes the importance of offering a full complement of interscholastic athletic activities for students throughout their high school experience. Due to its regional nature, the district is able to offer swimming, gymnastics, ice hockey and dance teams as district-wide teams. Many of our teams have enjoyed success as county and state champions while individual athletes and coaches have garnered multiple honors. Highlights from 2018-2019: Boys Bowling - League Champions; Gymnastics – League and County Champions; Wrestling – Bergen County Group B Champions and League Champions; Cheerleading – League Champions (2nd year in a row); Dance – National Champions; Girls Basketball – State Sectional Champions; Baseball – League Champions (6th year in a row) and Bergen County Umpire Association Sportsmanship Award Winner.

Clubs and Activities:

Pascack believes that extra-curricular activities add real value and unique experiences for our students. The district offers dozens of clubs in each school ranging from the ski club, debate team, human rights league, language clubs, student publications, and our highly-acclaimed robotics team. With the plethora of service, school, and academic clubs, there is no shortage of opportunities for interested students.

Students with special needs from both in and out of the district are able to have individualized instruction, accommodations, and modifications in a least restrictive environment via placement in collaborative classes or one of our highly successful self-contained programs that include Park @PVR, Learning & Language Disabled (LLD), RISE, Park Academy, and the Milestones 18-21 Program.

Student Health and Wellness:

Through a variety of passive and active measures, students and faculty can learn and work in an environment that is both safe and secure. We are one of a few school districts in the State of New Jersey that certifies all students, faculty, and staff in CPR. In 2016, the district opened a Wellness Center in each high school that is staffed by a therapist/psychologist and a student assistance counselor. This program provides multiple levels of support for students and their mental health and well-being. Programs occur during the year for all students on mental health and healthy living. Programs occur during the year for all students on mental health and healthy living.

Parent and Community Involvement:

The local community is extremely supportive of its regional high school program. Local businesses and corporations partner with the schools to provide seniors with meaningful, year-long internships to prepare our students for their future careers. The school-based parent organizations work closely with the building administration on a variety of topics. The parent groups conduct multiple fundraisers to support senior scholarships, teacher grants, and a senior graduation celebration.

Climate Surveys:

Is a Climate Survey Used: Yes; Who is surveyed: Students, Parents, Administrators, Teachers Each year parents, faculty, and students are given the opportunity to provide feedback via a school climate survey. This comprehensive survey boasts a high return rate and asks respondents to provide their view on the school schedule, assessments, instruction, technology, and communication. The results are communicated with the public and are used to continually modify and adjust instructional programs.

Facilities:

Pascack Valley HS was built in the 1950's and continues to experience expansion projects, remodeling, and constant updating so our students receive an education that will prepare them for the world of college and career. A robust wireless network allows students to be connected to their learning throughout the building and property throughout the day and the school is proud of it's modern STEM labs, auditorium, indoor and outdoor athletic facilities, TV production studio, and media center.

School Safety:

The district provides a safe and secure environment where students and faculty can work and learn. Passive and active safety and security initiatives have been put in place over the past several years to ensure this. Each school has three SLEO-III officers on duty that provide security and mobile patrols. Additionally, a robust camera, monitoring, electronic access system, and reinforced physical plant add further layers of surveillance and protection. The district works very closely with local law enforcement and EMS to support our programs. PVRHSD was the first district in the state to have all its students, faculty, and staff certified in CPR and there are multiple defibrillators in every building. Further, many staff and students have become certified in Bleeding Control.

Technology and STEM:

Various levels of computer science are offered for students to learn ways to code and apply their coding. Focus on the need to understand data has led to the expansion and enhancement of statistics, including interdisciplinary connections with science and social studies. Many students enroll in math or science electives in multi-year research courses, college-level or dual-enrollment courses including an Engineering course offered in partnership with the University of Texas. Technology Education students have access to cutting edge technology in the design and creation process, including 3D printing, laser engravers, and CAD software. Our award-winning Robotics team provides students with the opportunity to create and compete against other programs in the state, region, and country. Our arts programs utilize technology to create as well, whether it is digital photography, TV and Video production, web design, or music technology.

Other Information

Culture of Innovation: Students learn in personalized environments, mentored by faculty experts who engage them in a variety of instructional activities and assessments that foster critical thinking, creativity, and innovation to prepare them for the next stage in their lives. Digital Transformation: Our instructional technology is continually evolving to meet the needs of college and career-bound students. Every faculty member and student is issued a Macbook Air laptop with access to the latest versions of educational, business, and creation software. The district utilizes the Canvas Learning Management System for instruction, Genesis for record keeping, and a variety of online tools for specific educational purposes. More importantly, all these digital tools are used for teaching and learning to emulate experiences students will have in college and careers. Flexible Learning Structures: Beginning in the 2014-2015 school year, the "Pascack Schedule" provides students with variety and choice in terms of length of instructional periods, time of day of instruction, and a weekly "Pascack Period" that is used for administrative purposes, assemblies, and student choice for how they use their time. Schools, classrooms, and hallways have a variety of furniture and structures to promote both collaboration and independent study. Career Readiness: Through strategic placements in the Pascack Valley community and beyond, internship students are able to gain hands-on experience and exposure to a variety of career fields and occupations as part of their school day. Career preparatory experiences are embedded in the curriculum in both core and elective classes.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations. Students with fewer than 45 days in membership are excluded from attendance calculations.

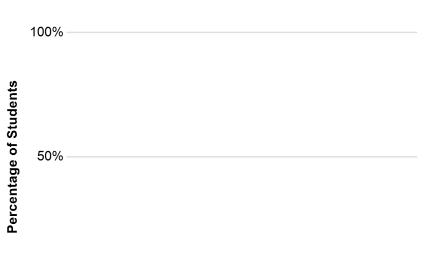

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

Student Group	Number of Students Chronically Absent	Percent of Students Chronically Absent	State Average	Met State Average?
Schoolwide	N	N	N	N
White	N	N	N	N

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), starting in 2017-18, which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. Comparing current data to data from 2016-17 and earlier could lead to inaccurate conclusions in many reporting categories.

Violence, Vandalism, HIB, and Substance Offenses

This table shows the number of incidents reported by type. A single incident may be counted under multiple incident types. The total unique incidents row provides an unduplicated count of incidents. The last row shows the rate of incidents for every 100 students enrolled.

Incident Type	Number of Incidents
Violence	0
Weapons	0
Vandalism	0
Substances	0
Harassment, Intimidation, Bullying (HIB)	0
Total Unique Incidents	0

Harassment, Intimidation, and Bullying (HIB) Investigations

This table shows, by the nature of the incident, the number of alleged and confirmed Harassment, Intimidation, and Bulling (HIB) investigations. The nature of an incident is based on the protected categories listed below, and the nature of a single HIB investigation may include multiple categories. All confirmed incidents must have an identified nature.

Student Disciplinary Removals

The first table shows, by removal type, the number and percentage of students who received disciplinary removals during the school year. Removal types include students receiving one or more in-school suspensions, one or more out-of-school suspensions, one or more suspension of any type, removal to another school or other educational program, expulsion with no further educational services, or arrest. The second table shows the total number of days missed due to out-of-school suspension for all students during the school year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School
Typical Start Time	8:20 AM
Typical End Time	2:20 PM
Length of School Day	6 Hrs 0 Mins
Full Time - Instructional Time	5 Hrs 34 Mins
Shared Time - Instructional Time	5 Hrs. 34 Mins.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3 through 10 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3 through 10. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Per-Pupil Expenditures by Source

The link below produces a table summarizing the most recently available expenses for regular and special education students taught at schools in the district. The amounts shown include expenditures for instruction, support services, administration, operations and maintenance, and extra-curricular activities.

For more information regarding this table please refer to the guidance for school level reporting, which is available on the NJDOE webpage ESSA School Level Reporting Information. More in-depth information about district and charter school spending can be found in the User Friendly Budget and the CAFR) and Auditor Management Reports (AMRs).

Please be aware that the total district expenditures represented in these reports are taken from audited district financial data, but the subsequent allocation of these resources to specific schools is not audited or otherwise verified by the New Jersey Department of Education. If you have specific questions about the assignment (or lack of assignment) of school-level amounts, please contact the district for additional information.

Link to District Summary of 2018-19 School-Level Per Pupil Expenditures by Source.

An option to download all school-level summaries by district in one spreadsheet is also available. However, because districts have flexibility in how certain costs are allocated to individual schools, school-level costs should not be compared between schools in different districts.
