ABOUT THE DEP BULLETIN

The DEP BULLETIN is an informational service provided free of charge by the N.J. Department of Environmental Protection. It contains a list of construction permit applications filed with or acted upon by D.E.P. Interested persons will thus be able to determine the status of applications dealing with Waterfront Development permits, Wetlands permits, Stream Encroachment permits, Sewerage Extension permits, and CAFRA permits (Coastal Area Facility Review Act). In addition the circular provides a calendar of Events of Interest and a Schedule of Public Hearings. (The Public Hearings however, are not official DEP notices). Environmental Impact Statements acted upon during the week are also shown. Any additional information concerning the permits may be obtained by contacting the appropriate person listed below.

A UNIQUE SERVICE FOR NEW JERSEY INDUSTRY

.USE THIS SERVICE FOR MAJOR PROJECTS

As Staff to Commissioner John J. Horn of the Department of Labor and Industry, the Office of Business Advocacy provides personalized assistance in resolving problems encountered when doing business in New Jersey. OBA's technical personnel function as industry ombudsmen in all areas of governmental activity.

The Office of Business Advocacy's objective is to cut red tape and get solutions to permit problems. OBA will designate a Permit Expediter to your project. The Permit Expediter will:

- A. Advise you of the state permits required for your project, upon completing "MASTER PERMIT INFORMATION APPLICATION FORM"
- B. Coordinate contacts with relevant local and state regulatory agencies upon request.
- C. Monitor the progress of your permit applications.
- D. Act to ensure processing of most permits within 90 days of application.
- E. Schedule "OVER THE COUNTER" processing for permits meeting appropriate criteria.

OVER-THE-COUNTER PERMITS

I. STREAM ENCROACHMENT (609) - 292 - 4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, P.O. Box CN029, Trenton, NJ 08625.

II. WATERFRONT DEVELOPMENT (609) - 292 - 0060

DEP has a one-day processing service for minor waterfront development projects. This over-the-counter service applies to waterfront construction activity in man-made lagoons and minor maintenance and/or repair or replacement of lawful existing structures. For further information contact: Waterfront Development, P.O. Box 1889, Trenton, NJ 08625.

III. SEWER EXTENSIONS (609) - 292 - 3846

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallonage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer ban, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, P.O. Box CN029, Trenton, NJ 08625.

MASTER PERMIT INFORMATION APPLICATION

DEP has developed a Master Permit Information Application which, upon completion, will indicate all the DEP permits required for the project. Forms may be obtained by contacting the Office of Business Advocacy (See inside cover for details).

THE COMMISSIONER

Proposed Amend Fees for 90-Day Construction Permits

Jerry Fitzgerald English, Commissioner of Environmental Protection, pursuant to authority of N.J.S.A. 13:1B-3 and N.J.S.A. 13:1D-33, proposes to amend N.J.A.C. 7:1C-1.5 concerning fees for the Department's development permits under the 90-day law. This proposal is known within the Department as Docket No. DEP 011-81-02.

The proposed amendments are intended to provide adequate fees for the cost of administering the 90-day permit program in accordance with the requirements imposed by N.J.S.A. 13:1D-33. Under the present permit fee structure, the Department is not receiving fees adequate to cover the cost of the programs involved. In several cases, the permit fees are only covering 50 percent of the costs of the program. The proposed amendment will revise the fee schedule for permits issued for stream encroachments, waterfront development, and CAFRA permits. Fees for sewer extensions are not being revised at this time; however they may be revised to meet program cost needs, pending a review of current operating costs.

Full text of the proposed amendment follows (additions indicated in boldface thus; deletions indicated in brackets [thus]).

7:1C-1.5 Fees

(a) Except as provided in [subsection] (g) below, fees shall be charged for the review of any application for a construction permit in accordance with the following schedule:

1. Waterfront development (N.J.S.A. 12:5-3) (riparian permits):

i. The fee shall be [one half of one percent ($\frac{1}{2}$ of 1%)] one percent of the construction cost, or a minimum of \$100.00;

ii. The fee for permits for minor maintenance, and/or repair or replacement of lawful existing structures shall be [one half of one percent ($\frac{1}{2}$ of 1%)] one percent of the construction cost or a minimum of \$25.00.

2. (No change.)

3. CAFRA permits (N.J.S.A. 13:19-1):

i. The fee for residential facilities shall be [\$500.00] \$1,000 plus \$10.00 per dwelling unit;

ii. The fee for non-residential and mixed-use facilities shall be [\$1,000] \$1,500 plus \$10.00 per acre to be developed.

4. Stream encroachments [(N.J.S.A. 58:1-26)] (N.J.S.A. 58:16A-55.2):

i. (No change.)

ii. For minor projects, the fee shall be [\$50.00] \$100.00, except that no fee should be charged for such project in a drainage area of less than 320 acres which has been approved by the appropriate municipal or county engineer, or a professional engineer for State agency projects, and the certification of such approval has been submitted to and acknowledged by the department.

iii. Fees:

(1) (No change.)

(2) For other major projects the fee shall be [\$500.00] \$1,000 for each structure in or along the channel, or portion of the channel thereof up to one thousand feet. This fee shall include but not be limited to the following types of projects: bridges, culverts, small dams, concrete lining, major riprap and gabion protection, channel modification, channel realignment, channel relocation and all retaining walls. The fee for major projects such as culverts or bridges shall include channel work for a distance of 300 feet upstream and downstream.

(3) For major projects outside the channel but within the 100-year flood the fee shall be [\$500.00] \$1,000 for each project.

5. (No change.)

(b) Each extension of time requested must be accompanied with a [\$25.00] \$50.00 non-refundable fee. Each extension, if granted, will be a maximum period of one year. No permit will be extended beyond a total of five years from the original date of permit.

(c) Each request for an approval of a modification in detail of the approved project must be accompanied with a fee equal to [25] 50 [per cent] percent of the total permit fee charged to that portion of the project to be modified.

(d) (No change.)

(e) (No change.)

(f) (No change.)

(g) [The maximum fee for waterfront development, wetlands, and CAFRA permit applications shall be \$5,000, except for unusually large scale or complex projects where the appropriate agency determines, after consultation with the applicant, that additional fees are necessary for a proper review of the application.] There shall be no maximum fee for a waterfront development, a wetlands or a CAFRA application for an unusually large scale or complex project. The Department, after consultation with the applicant, shall determine the fee necessary for a proper review of the application.

Interested persons may present, in writing, statements or arguments relevant to the proposed action on or before April 17, 1981 to:

William McCarthy
Wallach Building
88 East State Street
Trenton, N.J. 08625

The Department of Environmental Protection may thereafter adopt rules concerning this subject without further notice.

All DEP Public Hearings, Administrative Hearings, and DEP
Events of Public Interest are open to the public.

DEP Events of Public Interest include: public hearings, council meetings, workshops, public information meetings, and exams.

Public Hearings (Quasi - Legislative) - are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide, or of broad general interest.

Administrative Hearings (Quasi - Judicial) - are held between the state and a particular party involving an application, enforcement - violation or an appeal. Interest in these hearings is generally limited to those directly involved.

(Recent press releases in capsule form)

March 4--MUA CITED FOR POTABLE WATER TURBIDITY--DEP's Division of Water Resources has issued a Civil Administrative Order to the Southeast Morris County Municipal Utilities Authorities (MUA) to upgrade the treatment of potable water for persons served by the MUA's Clyde Potts reservoir system. The Authority exceeded the limits for turbidity (muddied or clouded water with unsettled sediment) established by DEP, under terms set by the New Jersey Safe Drinking Water Act. The MUA has been ordered to install treatment facilities to reduce turbidity to within state standards.

* * *

March 5--DIVISION OF ENVIRONMENTAL QUALITY ENFORCEMENT ACTIONS--DEP's Division of Environmental Quality outlined the enforcement actions taken between February 11 and 23. The Division is responsible for resolving New Jersey's day-to-day and emergency problems in the areas of air pollution control, noise control, pesticide safety, radiation protection and solid waste management.

* * *

March 10--WATER POLLUTION PENALTY--DEP's Division of Water Resources has issued an Administrative Order and assessed a Civil Administrative Penalty of \$3,125 to the Township of Franklin Sewerage Authority (Somerset County) for bypassing untreated and inadequately treated wastewaters into Mile Run Brook on November 23 and 25, 1980.

* * *

March 11--WATER QUALITY STANDARDS ADOPTED--DEP Commissioner English announced the approval of a revised surface and new ground water quality standards establishing the level of purity required to protect existing and potential beneficial uses of the fresh, tidal, and coastal waters of the State. The primary uses to be protected are waters for potable supplies and household use, swimming, fishing and the aquatic environment.

* * *

March 11--ALERT ENDED FOR NUCLEAR RESPONSE--(Lower Alloways Creek, Salem County) at 8:35 a.m., Salem Reactor #1 initiated a standby alert of the state's Emergency Response network involving DEP, the New Jersey State Police, Salem County and local governments. The alert was initiated as a result of a suspected leak in the plant's auxiliary building that houses waste treatment systems. While a small amount of activity was released within the building, on-site monitoring teams detected no release in the environment. The state maintained its alert status throughout the incident, which was brought under control at 11:44 a.m. through identification and isolation of the leaking component in the plant's waste handling system.

* * *

March 11--CAFRA PERMIT APPROVED (Little Egg Harbor, Ocean County)--DEP's Division of Coastal Resources approved a Coastal Area Facility Review Act (CAFRA) permit for the construction of a 51-unit senior citizen rental apartment building to be called Park Plaza Apartments, in Little Egg Harbor Township.

* * *

March 12--FEDERAL FUNDS RECEIVED FOR OFF-SHORE STUDIES--DEP has received federal funding for state participation in Outer Continental Shelf (OCS) drilling and development activities. A \$123,000 grant from the National Oceanic and Atmospheric Administration (NOAA) will be matched by a state grant of \$52,714, with these funds being shared by DEP, the State Department of Energy, and the Center for Coastal and Environmental Studies at Rutgers University.

* * *

March 13--U.S. STEEL SIGNS CONSENT AGREEMENT TO REDUCE EMISSIONS--U.S. Steel Corp. signed an agreement with DEP saying it would clean up air pollution at the company's Fairless Works in Bucks County, Pa. The agreement which calls for U.S. Steel to install over \$40 million in pollution control equipment, promises to end the odors and clouds of red dust which have long plagued residents of Bordentown (Burlington County) directly across the Delaware River from the plant.

March 13--SYMPOSIUM SET FOR RESEARCH ON TOXICS IN WATER--DEP's Office of Cancer and Toxic Substances Research will sponsor an all day symposium on water quality research on Tuesday March 17 at the State Museum in Trenton.
