JOURNAL OF THE SENATE

STATE OF NEW JERSEY,
SENATE CHAMBER,

TUESDAY, January 10, 1967.

At 12:00 o'clock noon, this being the time and place appointed by the Constitution for the assembly of the Legislature, the Senate was called to order by the Honorable John A. Lynch, Senator from Middlesex County.

The following statement was read by Mr. Robert E. Gladden:

STATE OF NEW JERSEY,
DEPARTMENT OF STATE.

I, ROBERT J. BURKHARDT, Secretary of State of the State of New Jersey, DO HEREBY CERTIFY that the following members of the Senate have been duly qualified:

First District—Frank S. Farley.

Second District—John A. Waddington.

Third District—Frederick J. Scholz, A. Donald Bigley.

Fourth District—Edwin B. Forsythe.

Fifth District—Richard R. Stout, William T. Hering.

Sixth District—Sido L. Ridolfi.

Seventh District—John A. Lynch, J. Edward Crabel.

Eighth District—William E. Ozzard.

Ninth District—Nelson F. Stamler, Mildred Barry Hughes.

Tenth District—Thomas J. Hillery, Milton Woolfendon, Jr.

Eleventh District—Nicholas T. Femicola, John J. Giblin, Maelyn S. Goldman, Hutchins F. Inge.

Twelfth District—William F. Kelly, Jr., Frank J. Guarini, William V. Musto.

Thirteenth District—Ned J. Parsekian, Jeremiah F. O'Connor, Alfred W. Kiefer, Matthew Feldman.

Fourteenth District—Anthony J. Grossi, Joseph M. Keegan.

IN TESTIMONY WHEREOF, I have hereunto set my hand and affixed my Official Seal at Trenton, this tenth day of January, A.D. 1967.

ROBERT J. BURKHARDT,
Secretary of State.

Senator Ridolfi, nominated Senator Kelly as temporary President. There being no further nominations, Senator Kelly was declared elected to the office of temporary President by voice vote.

Senator Lynch named Senators Farley and Musto to escort Senator Kelly to the rostrum.

Senator Ridolfi moved that Robert E. Gladden be nominated temporary Secretary, which motion was adopted.

Senator Bigley nominated Robert E. Gladden.

The motion was seconded by Senator Scholz. There being no further nominations, Mr. Gladden was declared elected by voice vote.

Senator Ridolfi moved to elect a President *pro tempore*, which motion was adopted.

Senator Keegan nominated Senator Grossi for the office of President *pro tempore*.

There being no further nominations, the temporary Secretary was directed to call the roll.

In the affirmative were—

Messrs. Bigley, Crabiell, Farley, Feldman, Femicola, Forsythe, Giblin, Goldman, Guarini, Hiering, Hillery, Hughes, Inge, Keegan, Kelly, Kiefer, Lynch, Musto, O'Connor, Ozzard, Parsekian, Ridolfi, Scholz, Stamler, Stout, Waddington, Woolfenden—27.

In the negative—None.

TUESDAY, JANUARY 10, 1967

Senator Grossi was declared elected President *pro tempore*.

Senators Keegan and Stout escorted Senator Grossi to the rostrum, whereupon Senator Kelly administered the oath of office to Senator Grossi as President *pro tempore*.

Senator Ridolfi moved to elect a permanent President, which motion was adopted.

Senator Waddington nominated Senator Ridolfi for the office of permanent President.

Senator Forsythe seconded the nomination.

The Secretary was directed to call the roll.

In the affirmative were—

Messrs. Bigley, Crabel, Farley, Feldman, Fernicola, Forsythe, Giblin, Goldman, Grossi, Guarini, Hering, Hillery, Hughes, Inge, Keegan, Kelly, Kiefer, Lynch, Musto, O'Connor, Ozzard, Parskian, Scholz, Stamler, Stout, Waddington, Woolfenden—27.

In the negative—None.

Senator Ridolfi was declared elected as President of the Senate and was escorted to the rostrum by Senators Feldman, Guarini and Woolfenden.

Senator Kelly appointed Senators Grossi, Fernicola, Stout and Lynch to escort Supreme Court Justice Thomas Schettino to the rostrum for the purpose of administering the oath of office to President-elect Ridolfi.

The oath of office was administered to President Ridolfi by Supreme Court Justice Thomas Schettino. The bible was held by Senator Ridolfi's daughter Jane.

President Ridolfi presented his family, and thanked the members of the Senate for the great honor bestowed on him. He stated that with help from everyone, he hoped that a good year would be forthcoming.

President Ridolfi then addressed the Senate as follows:

On this day, which has such significance to the public affairs of our State, I hope I will be pardoned if I open my remarks on assuming the responsibilities of the Presidency

of the Senate of New Jersey with a few personal observations.

For my family and for me, today's events have a special meaning. I have taken the oath to serve the interests of the almost 7 million citizens of New Jersey here in a city in which I was born and have made my life. Only a few years ago, it might have seemed presumptuous for me to aspire to this honor and to this responsibility. Therefore, let me extend my deep thanks to my Senate colleagues, to the people of Mercer County and to my devoted wife and children who have made all this possible. I want to pledge at the very outset of my service as Senate President my unsparing efforts to reflect credit on all those who have evinced their faith in my ability to fulfill these new obligations.

This indeed is a historic meeting of a venerable New Jersey institution—the State Senate. After a two-year interim in which new foundations for legislative representation were laid in this house, our membership next year will grow from 29 to 40. Our entry into a new era will be marked also by the fact that this probably will be the last year in which we will meet in this chamber—the scene of much accomplishment, much honest debate and the fulfillment of many dreams.

Let us, therefore, make this another year of accomplishment—one which builds upon the productive work, in 1966, of this body and the General Assembly. By our efforts of that memorable session, we set new standards for legislative responsiveness. While the achievements of 1967 may not be as dramatic as those of 1966, there nevertheless is room for solid gains. Many of the new fields of public responsibility to which New Jersey entered as the result of our efforts of last year, will demand legislation to further implement the State government's efforts. In other areas—such as the enactment of modern legislation affecting labor and business—we were not able to finish the job last year. Let us resolve to complete that work in 1967 and to complete it with equity toward all and with the beneficial development of our State as the guide to our action.

Much has been said in recent days about "progressive government" and "new areas of service." At times, it seems that those whose principal concern is partisan advantage feel that such gain can be achieved if they can

but out-promise their rivals. Such thoughts and such aims are not compatible with what we know to be the duties of responsible legislators. Those of us who have served in the Senate and the Assembly of New Jersey know that rhetoric cannot provide the hard answers that we must furnish. Slogans and solutions are not synonymous. We know that when a costly new program is proposed, its proponents must be prepared to take the responsibility for providing revenues to underwrite that program.

Thus it is clearly irresponsible for those who advocate popular—and costly—new programs to couple this position with a self-righteous denunciation of taxes.

A majority of both parties in this house and in the Assembly last year undertook the difficult duty of providing the revenues necessary for New Jersey's growth and, indeed, for New Jersey's life. Acting together, we ended many decades of official neglect. This year and in the next few years we will be implementing those remedies.

But this does not mean that we should close our eyes to the future—that we should couple this concern with a responsibility to the taxpayer to build such programs in conformance with his ability to support them. Demagogic advocacy of popular programs does not bring those programs to fulfillment. And, despite the hopes of some, I submit that it does not win elections.

Much of what we accomplished last year was achieved through responsible co-operation by the minority party with the majority in which was vested the responsibility to lead. I want to thank Senator Bill Ozzard and Senator Ed Forsythe, last year's Minority and Assistant Minority Leaders, good friends and effective public servants, for this co-operation. I know that the new Majority Leader, Senator John Waddington, will enjoy the same cooperation from the new leaders of the minority this year, Senator Forsythe and Senator Milton Woolfenden.

I think both parties share the hope that we can conduct a deliberate, yet effective, session that will permit early adjournment. Hopefully, we can conclude our work by May 1. Very little is accomplished for the public good by a drawn-out legislative meeting. If that timetable is to be met, we must work most diligently. That is why I have recommended that Thursdays be set aside for committee

meetings to permit the bulk of our activity on Mondays, the official meeting day, to be concerned with action on bills.

To expedite this action, we require a setting in which each member can fully reflect on the important matters before the Senate. We will not permit undignified as well as unsettling activity by unauthorized persons on the Senate floor. We recognize that the points of view of various interests are entitled to be presented to legislators; that the press has a right to ask questions and receive answers. Nevertheless, we feel that these obligations can be met at times and in places where the dignity and effectiveness of the Senate will not be impeded or destroyed.

This is a day of harmony and good feeling. As the session progresses, controversy of course will assume a more dominating role. But controversy is the stuff of which public achievement is made. Only through honest debate and honest reconciliation of differences does government move forward. All of us are privileged to join in that search for answers to the needs of New Jersey's people. To an important degree, the concern and the fairness of the presiding officer of the Senate can facilitate the finding of these answers. I pledge to give all that is within me to the achievement of the public purposes to which we all are sworn.

Senator Waddington moved for the election of a permanent Secretary, which motion was adopted.

Senator Bigley nominated Robert E. Gladden, as permanent Secretary to the Senate.

Senator Scholz seconded the nomination.

There being no further nominations President Ridolfi directed Mr. Patterson to call the roll.

In the affirmative were—

Messrs. Bigley, Crabiell, Farley, Feldman, Fernicola, Forsythe, Giblin, Goldman, Grossi, Guarini, Hiering, Hillery, Hughes, Inge, Keegan, Kelly, Kiefer, Lynch, Musto, O'Connor, Ozzard, Parsekian, Ridolfi (President), Scholz, Stamler, Stout, Waddington, Woolfenden—28.

In the negative—None.

President Ridolfi declared Mr. Gladden elected as permanent Secretary of the Senate and administered the oath of office.

The session was opened with prayer by Reverend Joseph McLaughlin, pastor of Our Lady of Good Counsel Church, West Trenton, N. J. -

Under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

In the affirmative were—

Messrs. Bigley, Crabiel, Farley, Feldman, Fernicola, Forsythe, Giblin, Goldman, Grossi, Guarini, Hiering, Hillery, Hughes, Inge, Keegan, Kelly, Kiefer, Lynch, Musto, O'Connor, Ozzard, Parsesian, Ridolfi (President), Scholz, Stamler, Stout, Waddington, Woolfenden—28.

Mr. Waddington offered the following resolution, which was read and adopted:

Resolved, That a committee of four be appointed to await upon His Excellency the Governor and inform him that the Senate has organized and elected the Honorable Sido L. Ridolfi, of the County of Mercer, President, and Robert E. Gladden, of the County of Camden, Secretary, and is now ready to proceed to business and to receive any communications that he may forward.

President Ridolfi appointed Senators Waddington, Grossi, Forsythe and Ozzard to await upon the Governor in accordance with said resolution.

Mr. Waddington offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be directed to inform the General Assembly that the Senate has organized and elected the Honorable Sido L. Ridolfi, of the County of Mercer, President, and Robert E. Gladden, of the County of Camden, Secretary, and has proceeded to business.

Mr. Waddington offered the following resolution, which was read and adopted:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:30 P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency, Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

Mr. Waddington offered the following resolutions, which were read and adopted:

Resolved, That there be employed for each Senator Secretarial Assistants, to be designated by him, at an aggregate salary of \$2,500, payable in the same manner as all other Senate employees, for the legislative year.

Resolved, That unless otherwise ordered, the daily session of the Senate shall begin at 2:00 o'clock in the afternoon.

Resolved, That the Legislative Manual be distributed to the Senate on the same basis as for the session of 1966.

Resolved, That 1,000 copies of each bill, joint resolution and concurrent resolution be printed for the use of the Senate, and 900 copies of each official copy reprint.

Resolved, That the Committee on Ways and Means be authorized to procure bill files and the necessary stationery and supplies for the use of members and officers of the Senate.

Resolved, That the President of the Senate is hereby directed to instruct the printer to mail to each member of the Senate, at his residence and business address, at least one copy of each bill and resolution, both Senate and General Assembly, as soon as the same is printed.

Resolved, That 500 copies of the weekly Senate Journal be printed and the printer directed to mail copies to each member of the Senate and General Assembly and to the clerical officers of each body.

Resolved, That the Rules of the Senate for the legislative year 1966 be temporarily adopted as the Rules of the Senate for the legislative year 1967, except that Rule 22 of the Rules for the legislative year 1966 shall be amended to include the following new committees:

Banking and Insurance,

Air and Water Pollution and Public Health.

TUESDAY, JANUARY 10, 1967

The functions relating to Public Health formerly performed by the Institutions, Public Health and Welfare Committee under the Rules for the legislative year 1966 shall be performed by the new committee for Air and Water Pollution and Public Health. Said rules as amended and adopted shall stand until further order of the Senate.

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That the printer be directed to furnish, as soon as printed, and without waiting for the regular distribution, the number of copies of each bill, joint resolution and concurrent resolution introduced in the Senate and General Assembly, each committee substitute therefor, each official copy reprint thereof, and each printed amendment thereof, herein designated, to the following:

The Governor—21.

The Secretary of State—46.

The Attorney General—4

Law Revision and Legislative Services—15.

State Library Legislative Reference Bureau, for use of said Bureau and for exchange with other States—100.

Be It Further Resolved, That the printer likewise furnish to the State Library Legislative Reference Bureau 20 copies of each weekly installment of the Journal of the Senate and Minutes of the General Assembly.

WHEREAS, Section 52:27B-15 of the Revised Statutes requires that a request officer be appointed, and the act regulating receipts and disbursements requires the designation of approval officers for the payment of the necessary expenses of all divisions of the government; therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That the Secretary of the Senate and the Clerk of the General Assembly be designated as request officers for the Legislature for the Legislative year.

Resolved, That the Governor's message be spread in full upon the Journal of the Senate and a sufficient number of copies of same be printed for distribution.

Resolved, That the "Official Manual for Use in Drafting Legislation for Introduction in the New Jersey Legislature," prepared and published by the Law Revision and Legislative Services, be adopted as the official manual of practice and procedure of the Senate governing the form of bills to be introduced in the Senate and governing the conduct of the preliminary examination of bills proposed for introduction in the Senate required by the Rules of the Senate; and

Be It Further Resolved, That in order to carry out said practice and procedure, William M. Lanning, H. Arthur Smith, Jr., Mary Joan Dickson, and John Gero be designated as counsel to the Committee on Revision and Amendment of Laws of the Senate, and that the duties of such counsel shall be to conduct said preliminary examination of bills proposed for introduction in the Senate under the general supervision of the chairman of said committee and through the Division of Bill Drafting and Legal Services of the Law Revision and Legislative Services pursuant to law, and that they shall receive such additional compensation for acting as such counsel as shall be determined by the Senate by resolution.

Resolved, That all statements of expenses of the Senate, or of the Legislature on account of the Senate, be referred to the Ways and Means Committee and, when approved by said committee, as indicated by the signature of the chairman thereof, and by the Secretary of the Senate; said bills shall be forwarded to the Legislative Budget and Finance Director for audit, and to the Director of the Division of Budget and Accounting and the State Treasurer for payment.

Resolved, That Leon Leopardi, of the County of Atlantic, be appointed Journal Clerk of the Senate for the legislative year at a salary of \$3,500.00.

Resolved, That Roy J. Schleich, of the County of Passaic, be appointed Assistant Secretary of the Senate for the legislative year, at a salary of \$2,500.00.

Resolved, That Henry H. Patterson, of the County of Monmouth, be appointed Deputy Secretary of the Senate for the legislative year at a salary of \$5,500.00.

SENATE RESOLUTION No. 1

A resolution to create an investigating committee consisting of 6 members, to be appointed by the President of the Senate, with power to investigate any public body receiving funds in whole or in part from the State.

Be It Resolved By the Senate of the State of New Jersey:

1. There is hereby created a committee to be known as the "Senate Investigating Committee" to be composed of 6 Senators to be named by the President of the Senate, who shall constitute a committee for the purpose of investigating the finances, affairs and operations of any and all departments, boards, officers and commissions of the State Government, and all other bodies and political subdivisions of the State who shall be receiving State moneys or public funds of any kind. The committee is authorized to examine into the pay and duties of the employees and the conduct of the work and affairs of all such boards and political subdivisions of the State who shall be receiving State moneys, for the purpose of recommending ways and means of reducing costs of administration and promoting efficiency.

2. Such committee shall serve without pay, but is authorized to employ counsel and such accounting, investigating, clerical or other assistants as it may deem necessary.

3. Such committee shall have the power to subpoena and examine witnesses and any accounts, records, or other matter pertaining to the operating of any department or departments of the State Government, of any political subdivisions of the State, or of any other body receiving State moneys or public funds of any kind, or of any bi-state commission which may be acting jointly with another State.

4. The committee may appoint a secretary who need not be a member of the committee. Said committee shall meet from time to time, hold hearings and examinations in a manner and in places which to them may seem best and proper.

5. Any agency, board or department of the State Government, any officer or employee of any political subdivision of the State or of any other body receiving State funds, and the officers and employees of any bi-state commission which may be acting jointly with another State, shall furnish to

such committee such information, records, and data as may be required for a comprehensive analysis of the operation and financial affairs of such agency, board or commission, or other public body, including any bi-state commission, as from time to time such committee shall determine.

6. Investigations and examinations may be made privately or publicly, but it shall be unlawful for any person to divulge the results of any investigation or examination to any person or persons other than such committee, unless a public hearing shall have been first held. Whenever any person shall be examined by such committee or by its duly authorized representative or representatives, under the powers contained in this act, at a public hearing, the officer, department, board, bureau, commission or individual under investigation or scrutiny may, through his or its authorized representative or representatives, cross-examine any such person or any phase of the matter concerning which he has been examined or questioned, and such officer, department, board, bureau, commission or individual may introduce other evidence to explain, enlarge upon, or clarify the matter, situation or condition under investigation or scrutiny to the end that the full details of any such matter, situation or condition may be developed and presented at one and the same time.

7. This committee shall remain in effect and force until the opening day of the 1968 Legislature, notwithstanding any sine die adjournment.

The following message was received from the General Assembly by the hands of its Clerk:

Resolved, That the payroll for the officers and employees of the Senate be adopted and that the Secretary be authorized to authenticate the same as approval officer.

| | GENERAL ASSEMBLY CHAMBER, | |
| <i>Mr. President:</i> | January 10, 1967. | |

I am directed by the General Assembly to inform the Senate that the General Assembly has passed the following concurrent resolution:

Be It Resolved by the General Assembly of the State of New Jersey (the Senate concurring):

1. That the Legislative Index be purchased for the use of the members of the Senate and the General Assssembly, and for such other persons as the President of the Senate and the Speaker of the General Assembly shall designate, one copy of each issue to be mailed to the local address of each member of the Senate and the General Assembly, and to each officer or other person designated to receive the same, and in addition thereto one copy of each issue shall be delivered at the State House for each member of the Senate and the General Assembly and for each other person designated to receive the same: that the publisher of the Legislative Index shall from time to time furnish such special proofs of the Legislative Index as may be ordered by the President of the Senate or the Speaker of the General Assembly; that payment for the Legislative Index shall be at the rate of forty dollars (\$40.00) for each subscription for a period not to exceed ten weeks, and three dollars and seventy-five cents (\$3.75) per copy furnished thereafter, bills for services received to be submitted at the end of each five weeks; and that statements of expenses for the Legislative Index and special proofs for charges to the Senate and the General Assembly be referred to the Secretary of the Senate, and to the Clerk of the General Assembly, respectively, and when approved by them said approval shall be indicated by the signature of the Secretary of the Senate for an expense of the Senate, and the Clerk of the General Assembly, for an expense of the General Assembly, respectively, and said bills, when approved, shall be forwarded to the Legislative Budget and Finance Director for examination and audit, and said bills, when certified by the Legislative Budget and Finance Director, shall be forwarded to the Director of the Division of Budget and Accounting, who shall execute and deliver warrant checks in settlement thereof, and transmit the same forthwith to the State Treasurer for signature and delivery.

In which the concurrence of the Senate is requested.

JOHN J. MILLER, JR.,
Clerk of the General Assembly.

The Assembly message was taken up, and Mr. Waddington moved that the Senate concur in the resolution.

The President put the question, "Shall the Senate concur in the resolution?"

Upon a viva voce vote being taken, the President declared the resolution adopted.

Messrs. Waddington, Grossi, Forsythe and Ozzard returned from the Governor's office and reported they had informed His Excellency, The Governor, that the Senate had organized and elected the Honorable Sido L. Ridolfi of the County of Mercer, President, and Robert E. Gladden, of the County of Camden, Secretary, and is now ready to proceed with business and also to receive any communications he may forward.

The following was received from the General Assembly by the hands of its Clerk:

| <i>Mr. President:</i> | January 10, 1967. | } |

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:30 P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency, Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

JOHN J. MILLER, JR.,
Clerk of the General Assembly.

Mr. Waddington offered the following resolution, which was read and adopted:

Resolved, That the Senate do now recess and proceed to the Assembly Chamber for the purpose of receiving the Annual Message of the Governor.

FIFTH ANNUAL MESSAGE

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

Just a year ago, as this Legislature was beginning its work, I offered it a respectful challenge. The words were plain, the responsibility clear. I said: "Together you and I can redeem the past . . . Together we can write the laws and programs New Jersey wants and expects . . . Together we must seek those common revenues to move this State forward."

And, together, as colleagues in government, we did all those things and more. Any man who contributed can be proud to stand on that record and go to the people.

In meeting its challenge, the 1966 Legislature wrote, not just for today, but for future generations, one of the most remarkable records of public accomplishment in the 300-year history of the Garden State.

It is a record which speaks eloquently for itself and deals with every essential area of human concern. Your achievements are unparalleled in education, from the grade school through the community college to the university and the new Department of Higher Education, in transportation, fiscal reform, public health, water and air pollution control, gun control, law enforcement, consumer protection, the arts, industrial development and business tax reform, the most significant package of labor laws in recent history, economic policy, control of dangerous drugs, community affairs, civil rights, capital planning for colleges and institutions, aid to the handicapped and the unfortunate, reapportionment and congressional redistricting . . . the list is long and highly creditable. Compassion was matched with wisdom, and the public interest was served well.

There were differences between us, some which seemed at moments to be insurmountable. Yet, together we overcame them as public men should. There was partisanship, healthy and strong, as we would expect from a vital two-party system. Thus, on the overriding issues of paramount public concern, many Democrats stood with many Republicans for joint action—and we are proud of those instances when the public interest overrode partisan interests.

Without a doubt, this Legislature will rank in our history with New Jersey's best, for your actions, for your political courage, for your acts of statesmanship and for your vision of the high quality of life which can be attained by a modern state.

Much of New Jersey's accumulated neglect and inaction was attended to in 1966 by the great accomplishments of that year. As we open this new legislative session we turn to newly projected problems and responsibilities.

Nineteen sixty-seven will be a time of implementation, of program evaluation, of judgment as to how far we have come and how far we still must go. Some of our remaining tasks will be clearer, while other proposals will require careful review before sound judgments can be rendered.

But in at least two areas the pressures of modern life present a clear mandate to act—for pollution control and increased consumer protection.

AGAINST POLLUTION

We are beneficiaries of a great natural heritage in New Jersey, but we have too long taken for granted the environment which has sustained us—the air we breathe—the water we use. We have done this seemingly because these things are free for the taking. To our regret, we now know that we have, in fact, paid a high price for misusing these precious resources. Many of our rivers and streams are polluted and our air is becoming poisoned.

If we continue this abuse of nature—the pollution of our air and water—in careless disbelief that our environment can be destroyed, the future will be a most unhappy one. But with

determination and firmness of purpose we can atone for our past history of waste. The streams can be clean again and the air much cleaner if we are willing to make the effort. This must be a massive effort, not only in dollars, which will be many, but in the marshaling of public support for a comprehensive program with rigorous enforcement.

As to water pollution control, we have already made a start. Last year, you, the Legislature, supported my request for full funding of the State Public Sanitary Sewerage Facilities Act of 1965. This law established the concept of State financial assistance for the planning of intermunicipal, regional and stream valley sewerage facilities. With the funds provided, this has already stimulated and aided the development of 20 crucially important regional pollution control engineering plans, some ready for immediate construction.

The State Health Department is now in the process of classifying our streams and establishing water quality standards in these waters. In four of our basins—the Raritan, the Hackensack, the Passaic, and the Hudson River—Arthur Kill and its tributaries—the classifications have been established and regulations on the treatment of waste water promulgated. This foundation will permit us to take advantage of the programs provided by the Federal government under the Federal “Clean Waters Restoration Act of 1966.”

Much more remains to be done. For survival, we must establish a construction grant program which, in combination with Federal funds, will make it possible for our local governmental agencies to build proper sewerage and sewage treatment facilities. We must expand our water pollution control staff to permit more technical assistance to our communities and our industries—to permit more rigorous enforcement of our statutes. The present staff of 36, while comparatively better than that in most other states of the nation, cannot cope with even half of our minimum needs. No pollution control program can function without adequate manpower. To meet the problem will require more than a mere increase in authorized strength. We must reorganize our effort and support that reorganization with a comprehensive

program of recruitment and training. Legislation to carry out these proposals will be submitted to you during this session.

The situation with regard to air pollution control is strikingly similar—and just as alarming. Meaningful action was taken by this body last session. Chapters 15 and 16 of the Laws of 1966 empowered the State to undertake direct action against pollution caused by motor vehicles. Before we can implement this legislation, it will be necessary for an appropriate test system to be developed. With the help of the Federal government, such a test system is being developed and soon we can expect motor vehicles licensed in this State to comply with the appropriate standards. This being done, New Jersey will be a leader in the field with such an anti-contaminant system built upon the foundations of our already existing, and excellent, automobile inspection system.

In spite of this affirmative record, further action is needed. Here, too, we should reorganize our existing control program and staff it adequately through vigorous recruitment and training. The role of the Air Pollution Control Commission is now under reexamination and I expect to make specific recommendations to the Legislature in time to consider such proposals this session.

In order to strengthen our enforcement of air pollution control measures and to reach persistent violators—as well as to illustrate again our determination of purpose—I shall also submit a proposal to increase the maximum fines from the present \$500 to a substantially larger amount. I expect to submit specific recommendations also as to the licensing of those active as incinerator operators. Authority should also be given to municipalities to adopt ordinances which are consistent, but which may be, depending on local circumstances, more strict than those of the State itself.

The Department of Health of New Jersey should be given the power to require new plants to submit plans and specifications of processes producing, or apt to produce air contaminants, together with specifications of the techniques to be provided to avoid such contamination, before construction can proceed.

In these efforts to preserve our environment we enjoy the cooperation of our neighboring states. A continued multi-state effort is being actively pursued through such vehicles as the Middle Atlantic Governors Conference and the Delaware River Basin Commission. This is all to the good—but we must constantly recognize that the basic responsibility is ours. To clean up New Jersey's environment requires New Jersey action. To support the idea of regional cooperation, however, this Administration, as a matter of policy, will keep our sister Middle-Atlantic States informed of our new legislation and enforcement techniques as they are adopted.

PROTECTING THE CONSUMER

Our concern for the public's well-being should not stop with new and stringent anti-pollution measures.

We have long known that State government cannot permit *Caveat Emptor*—let the buyer beware—to be its policy in the area of consumer affairs. The nature of today's economy—in which so many of our daily necessities are prepackaged, prepared by remote suppliers and distributed through intricate channels of commerce in a manner that often defies comprehension—requires positive and meaningful programs by government to protect every citizen in his pursuit of the goods and services he needs.

In recognition of this responsibility, in 1960 the State established the Bureau of Consumer Fraud in the Department of Law and Public Safety to investigate and prevent unfair selling and advertising practices. In 1966 alone this Bureau received 4,139 new consumer complaints. In addition, it conducted 1,671 personal interviews and 40 hearings which enabled the Bureau to secure refunds to many defrauded consumers.

Since its creation the Bureau has voided hundreds of fraudulent contracts which resulted in the cancellation of millions of dollars in contracted value.

The success of this program merely highlights the extent to which further action is required. Lately, there has been much

discussion about the creation of the office of ombudsman. Although the ombudsman is concerned with the activities of government, much of the interest in this proposal, I believe, is centered around the people's need for a more effective spokesman and defender in the area of consumer activities. It is in this area that the greatest immediate needs exist.

I, therefore, urge the Legislature to create the Office of Consumer Protection within the Department of Law and Public Safety. This office, under the supervision of an executive director, would have as its responsibility the receiving and processing of all types of consumer complaints and would administer the operations of the Consumer Fraud Bureau. It would be an agency to which any consumer could go for a review and consideration of his particular problem and its executive director would be the individual in State government who would have the continuing responsibility to resurvey from time to time our consumer protection laws and administrative practices to determine what further changes may be required. The office would act as the coordinating agency on consumer affairs for not only its own operations, but also the Division of Weights and Measures and certain agencies in the Department of Banking and Insurance and other departments which are charged with the responsibility for protecting citizens in their everyday business transactions. Such an office will provide all our consumers with an effective "one-stop" protective unit for safeguarding their legitimate interests.

To insure maximum enforcement in this area, I will recommend in my budget message that additional funds be provided to this agency to increase the legal and investigatory staffs assigned to the Office of Consumer Protection.

As a part of this proposal, I will also recommend the creation of a Citizens Advisory Council, consisting solely of representatives of the public, to advise the Office of Consumer Protection of any changes which may be required, from time to time, to improve further the effectiveness of the office. Legislation regarding this and other proposals on this subject will be presented to you shortly for your consideration.

In light of the recent increases in the cost of certain types of insurance, particularly health insurance which is so significant that it is discussed separately, the time has come when the consumer must be assured that future rate increases are fully justified by circumstances. I can conceive of no better device to achieve that end than the utilization of something comparable to the rate defender system which has worked so effectively with public utilities. I have already announced the appointment of an attorney to protect the public interest in connection with the pending Blue Shield request for a 25 per cent increase. This Legislature should consider the advisability of legislation requiring that a public defender be designated in every case where general increases are sought.

The Attorney General's office is also preparing legislation to improve many of our existing laws designed to protect the purchaser. Some of these, all extremely important, are the revision of our weights and measures law, proposals to regulate cemetery operations and amendments to the security and real estate laws. Recommendations will be made for legislative consideration this session and will warrant your careful attention.

THE QUALITY OF HEALTH PROTECTION

No discussion of consumer affairs can be complete without a reference to the cost of health services. The great increase in the past two decades in the cost of hospital and other health services has caused great public concern. While the general cost of living was going up 39% during the period since the end of World War II, the cost of hospital care has more than tripled. In 1948 a day of hospital care cost \$13.09. In 1965 the price of a day's care was \$44.48.

A large share of the burden created by this cost spiral has fallen on subscribers to the Blue Cross Plan. Since 1956 subscriber rates have risen six times for a total increase of over 100%. At present, there is pending before the Commissioner of Banking and Insurance a request from the Blue Shield Plan for a 25% rate increase. Each succeeding increase has resulted in greater public dissatisfaction, until it is obvious that steps

must be taken to maintain public confidence in our public and private hospital systems.

At the end of 1965, I appointed a Committee composed of eminent representatives of the health professions, of organized labor and of insurance and consumer groups to study the question of Blue Cross rates. At the time, I expressed a desire that the Committee complete its work by the beginning of 1966. I now realize that I imposed an impossible time limitation on the Committee. Its work is now complete and I wish to thank the members for their tireless efforts and for the fresh and meaningful recommendations which they have made.

The Committee has concluded that much of the increase in cost is attributable to improved health services and to a greater awareness of and desire for those services on the part of the public and that if those factors were fully understood the outcry over rate increases would be lessened. Yet, the Committee also believes that it is possible to assure a more effective and economical use of money allocated for hospital care. Several wasteful practices have been identified and the Committee concludes that they are a result of a lack of a powerful agency having general supervisory responsibility over hospitals. It proposes that such an agency be established.

I have asked my staff to consider how best the foregoing recommendation and others contained in the report might best be implemented. It is my hope to propose for your consideration legislation which will provide the people of New Jersey with the assurance that for every dollar spent on health care a dollar's value is returned.

State government's role in the health field, however, in the coming years will not be limited merely to regulating health insurance plans such as Blue Cross. By reason of Title 19 of the Social Security Act adopted by Congress in 1965, the State, acting independently or through an intermediary, must soon become a provider of additional health services. Title 19, or *Medicaid*, as it is more commonly called, has as its ultimate goal the providing of basic health services for every American citizen regardless of age and regardless of financial circumstances.

Unlike the better known Medicare program, Medicaid, will require a substantial financial investment by State government. In recognition of the impact which such a program would undoubtedly have on the already strained financial structure of State government, the Congress gave the states five years in which to implement the program and further made provision for a step-by-step approach to the ultimate goal. The five year limitation expires in 1970. We in New Jersey should not ignore the invitation implicit in the federal law to move with deliberation. We should, however, move with the benefit of sound planning, fully aware of the financial consequences, toward the establishment of a fair and equitable program prior to the beginning of 1970. The Department of Institutions and Agencies has undertaken a comprehensive review of our obligations under the 1965 amendments of the Social Security Act. This Administration and the Department of Institutions and Agencies are concerned about implementation in New Jersey of the 1962 Amendments to the Social Security Act which provide benefits to the children of unemployed fathers. Both of these programs must be implemented within the next several years.

IN BEHALF OF THE HANDICAPPED

In 1965, the Department of Institutions and Agencies provided services to 425,000 of our fellow citizens in need of psychiatric facilities, mental retardation services, corrections and welfare. To service this growing number of New Jersey citizens in need of help, its Department has been developing long-range plans that will enable us to meet the human needs of our population.

The capital construction program for mentally and physically handicapped is proceeding apace. We shall make every effort in our new capital budget to meet demands, within our very tight fiscal situation. The new State School at Woodbridge for the Mentally Retarded, opened almost two years, is today at capacity. Bids will soon go out for a similar institution in Hunterdon County. Plans are moving forward for a series of local community mental health centers. The private purchase of care programs for the retarded, instituted over two years ago,

has already succeeded in reducing some of the pressures on our own institutions. I hope to include new funds in the forthcoming budget for a beginning in a Day Care Center program thus freeing the families of mentally retarded children for participation in the labor force, or for increased attention to other elements of family life.

Professional services have been upgraded in the Division of Mental Health and Hospitals through selective salary increases for psychiatrists, doctors, psychologists, nurses, etc. Pilot programs of intensified vocational training for inmates in prisons and juvenile institutions are being undertaken, stressing preparation of rehabilitated prisoners for a return to community life.

Yet, we still face a series of unresolved problems, some of which will involve money, others which require organizational change and bold ideas.

Coordinating means are needed for long-range planning of efforts in both mental retardation and mental health.

There is a disturbing and often tragic problem of fees charged to families for life maintenance of mentally or emotionally handicapped persons, especially children, in state institutions. The gross inequities among counties which have been reported makes this both a problem of conscience and of economics. I am now reviewing recommendations made by the Department of Institutions and Agencies, and I shall make legislative recommendations this year to help these families achieve an equitable and human solution to this problem.

The problems in institutions of staff shortages must be faced, and this is not just a question of money. It is a question of in-state preparation for the trained professionals and sub-professionals needed. I recently said that I hoped the two new publicly supported colleges of medicine in our State would in their development prepare the specialists needed for our institutions. And I shall request the new Commissioner of Education and the Chancellor of Higher Education to work with the Department of Institutions and Agencies toward the establishment or

expansion of educational programs designed to meet some of the State's professional institutional needs.

And finally, a complete restructuring of field services is being proposed of the Department of Institutions and Agencies into single integrated regional units in which all social services would be combined, and through which both economic efficiency and a greater degree of service to the citizen would be achieved. This reorganization envisions regional welfare service centers as integral parts of the new Model Cities programs—which could yield New Jersey millions of Federal dollars over the next several years.

IN DEFENSE OF THE INDIGENT

On March 7, 1966, the Supreme Court held in *State v. Rush* that attorneys assigned to defend indigent persons accused of crime are entitled to receive moderate compensation for their services and that counties had a duty to pay such compensation to attorneys so assigned after January 1, 1967.

In delaying the effective date of its ruling, the Court recognized that the Legislature would need an opportunity to determine whether the State's obligation to defend the indigent should continue to be met by the traditional system of assignment at the county level or whether a state administered public defender system would better foster the ideal of equal justice under law.

Having studied the report of the Commission on the Defense of Indigent Persons Accused of Crime, I have come to the conclusion that the defense of the indigent in a court of law can best be assured through a State administered and State financed public defender system. I will be submitting recommendations for the creation of such a program in the near future. It should be pointed out at this time that, according to the commission, this program will cost the State more than \$2 million annually. This expenditure, coupled with an additional \$2 million burden which the State will be assuming for the counties in the administration of the revised Chapter 51 laws, are the results of a determined effort by the State government to do everything it possibly can

to be of assistance to our counties within our budgetary limitations. In all candor, I must admit that further proposals requiring additional expenditures in support of county programs must be accompanied by realistic recommendations which would provide the additional revenues to enable us to meet such obligations.

SAVING HUMAN LIFE

As was true in almost every area of governmental activity, last year you took meaningful steps to improve our laws concerning the operation of motor vehicles. The enactment of the implied consent law and the driving while impaired legislation will give our law enforcement officials two strong tools with which to improve motorists respect for life and property.

The great toll exacted through the use of motor vehicles in New Jersey, however, continues to rise, reaching 1,118 in 1966. This was 23 more than the previous year. Preventive action is as essential as law enforcement efforts. I have therefore requested the Department of Law and Public Safety, in conjunction with the Department of Education, to develop a meaningful driver education program which can be placed before this body for its consideration during the present session. I would hope that such a proposal will receive your most serious consideration.

STATE MEDICAL EXAMINER

There is a need for a critical reappraisal of the present system in this State of conducting post-mortem examinations, particularly in cases which suggest death by suspicious origin. This involves information which may be vital to criminal prosecutions and to the control of disease. Only a few of our counties have adequate medical examiner systems. A type of statewide medical examiner system would resolve these inadequacies and again would serve the public interest. I have asked the Attorney General to submit a report on this matter so that we can consider legislative action in this area during this session.

TOWARD EQUALITY

Nineteen sixty-six will be remembered as the year when partisanship and emotionalism were laid aside and the latest comprehensive civil rights laws were adopted by New Jersey, giving us one of the strongest and far-reaching civil rights statutes in the United States:

The expanded fair housing act—long overdue—was passed and now prohibits discrimination in the sale or rental of almost all private and public housing in this State.

The extension of the employment provisions of the law against discrimination to cover virtually all employers—regardless of number of workers—has brought under the legal protection of the State the equal employment rights of additional hundreds of thousands of workingmen and women.

The transfer to the Attorney General of enforcement responsibility for discrimination on public works projects was another indication that this Legislature is determined to foster aggressive legal protection for the equal employment opportunity of minorities.

Not content with legal guarantees alone, this Legislature appropriated considerable funds last year for an expanded enforcement program of the State's Division on Civil Rights. The result has been greater State emphasis on correcting *patterns* of discrimination in addition to compliance on complaints. Increased cooperation with the Federal government brought us new Federal funds for civil rights surveys. Our police community relations education efforts almost tripled in size, and by quadrupling its caseload in only four years the Division on Civil Rights has moved closer to the goal of becoming both a shield for protection of rights and an aggressive instrument for their realization.

But, as I have said many times before, the law is only one of a number of important factors which contribute to possible civil rights solutions today. We must extend our ideas beyond legal

guarantees to the creation of opportunity, and the means to fulfill it, for many New Jersey citizens too long denied an open door into society.

Last year I announced the creation of the Interdepartmental Committee on Equal Opportunity to be headed by the Attorney General. That Committee has functioned throughout the year and has performed a substantial service in recruiting qualified members of minority groups for State employment. The practice of ethnic recruiting is novel but is completely justified in light of the long years of deprivation which have been visited upon certain minority groups. It is a practice which is being emulated by private industry and institutions of higher education. The State must continue to devise ways by which people—too long excluded—are brought into the main stream of American life.

The question of de facto school segregation continues to plague us. It has long been the policy of this administration, as enunciated by the former Commissioner of Education, to seek the elimination of de facto segregation wherever possible. A similar commitment to quality education for all, regardless of race, is desired in the new Commissioner of Education. I am now actively seeking a person who will bring dedication to that goal, together with new approaches and techniques for its achievement, to serve as Commissioner of Education.

EDUCATION—OUR COMMITMENT TO EXCELLENCE

In 1966, this Legislature gave massive attention to the State's educational problems. You allocated the greatest single increase in State aid to local education in the history of New Jersey. You created a new Department of Higher Education to concentrate on the almost frightening responsibility of bringing higher education in New Jersey to a degree of excellence, in years in which the demands for college education will be very difficult to meet. You appropriated a substantial increase in the State's support to the education of the handicapped and emotionally disturbed children. You invested additional millions in a substantial increase in the State's contribution to the success of our community

TUESDAY, JANUARY 10, 1967

college program. These were but some of your accomplishments, and you should be proud of them.

New Jersey is committed, and you have shown your commitment, to the goal of providing each individual with an education which will insure his development as an effective and productive member of society.

The attainment of this goal is a formidable task. New programs must be designed and present programs expanded to meet the needs of the pre-school child, the child in school and the school dropout; the handicapped and the disadvantaged; the under-employed and the unemployed; the college-bound child and he who will become a technician; the adult illiterate and the unskilled person who has no hope without education.

State and Federal appropriations have made possible the rapid expansion and improvement of vocational and technical education programs. Enrollments have more than tripled for secondary and post-secondary youth and adults in the past three years. Cooperative vocational education which provides school and work experience for high school students has been assisted by more than 4,000 New Jersey companies in providing training stations in more than 130 different job classifications. Six multi-occupational skill centers have come into operation. Over 15,000 students who were not enrolled in vocational education a year ago are now receiving education and training for employment in more than 350 pilot projects.

Effective programs of vocational education and training are being provided in comprehensive high schools, specialized county schools, skill centers, technical institutes, community colleges, private trade and technical schools, and private business and correspondence schools. A State master plan for vocational education is being developed.

Because of the great changes in the law last year and the necessity to appoint two new heads of our educational departments, for whom I am still seeking the very best men available, I am not now presenting detailed recommendations concerning the general educational needs of the State. But they are there and they are real and they are massive, as everyone in this State now

knows. I believe that the new Commissioner and new Chancellor should have an opportunity to be appointed and to consider their respective departments before other substantial changes are proposed. My budget message, however, will contain specific recommendations concerning financial support for our educational programs, particularly those concerned with the capital construction of higher educational facilities.

However, there are some programs which do warrant prompt consideration by the Legislature. As you know, I have been concerned about the critical shortage of nurses in New Jersey and have in the past made several recommendations to help alleviate this shortage. For example, previously we expanded the State nursing program to include nursing students. I believe, however, that the State must participate more directly in the cost of nursing education, as it already has done in the area of medical education. Although the need for nurses will be met in part by newly established nursing education programs within the community college system, this program will not have full effect until some few years from now.

In order to better meet our immediate needs and to assure New Jersey a continued supply of trained nurses, I will submit a proposal to create a State aid program for hospital nursing schools which would provide funds for one-half the cost of nursing education up to \$600 as we now do in the community college program. I am hopeful that this degree of State support will encourage our hospital nursing schools to remain open and perhaps enlarge their facilities, thus insuring a continued or improved supply of skilled nursing personnel from this source.

Another program which should be undertaken this year would provide State aid for transportation of students of private schools whose residences are remote from those schools. Many other states provide such transportation and, considering the dangers implicit in modern travel, there seems to me to be little logic against such a program. Indeed, a deep concern for the physical well-being and safety of our boys and girls of school age would seem to support such a program. I would strongly recommend its early enactment by this Legislature, to add yet another achievement to its brilliant record in the field of education.

SERVING OUR COMMUNITIES

No public business is more pressing than the need to improve the quality of life in our urban areas. This Legislature, rising again to its task, joined us in the establishment of a new state-level Department of Community Affairs which will act as a central service organization for New Jersey's 567 municipalities. We also expect it to be a self-generating agent of reform and innovation in fiscal planning, local government, economic opportunity, human resource development, and housing and urban renewal.

We already have in operation an expert task force designed to help New Jersey cities respond to the newly passed Federal Demonstration Cities and Metropolitan Assistance Act. This group is the forerunner of the technical assistance teams which will be a major part of the new department and which will help municipalities throughout the state to take full advantage of new and existing state and federal aid programs.

In 1966 you courageously adopted an optional municipal rent control law to curb slums and save individuals from rent gouging on deteriorated and dilapidated dwellings. In 1967, you will be asked to approve the establishment of a New Jersey Housing Finance Authority which will be empowered to foster the construction of moderate-income housing through low-interest, long-term loans. The State Bureau of Housing estimates a current shortage of 100,000 units in moderate income housing, of which private enterprise provides only a portion annually. We believe that such a moderate-income authority would make inroads into our housing supply deficit; that it will be beneficial to urban areas now trying to retain or attract middle-income residents; that it will economically benefit the housing construction industry and the real estate community; and that it would be valuable to the entire state which must offer new and established residents the opportunity for a decent home in a decent neighborhood.

The approval of this proposal would fill a serious gap in New Jersey, for while there are Federal programs geared to meet low income needs, there is no such program to serve the demands for moderate income housing.

If we want a revival of our cities, then the State will have to make some financial contribution to the local cost share of urban renewal programs. We shall introduce legislation in this session to make that beginning possible.

A revision of the Tenement House Law will be introduced. This law has not been substantially amended since its adoption more than 60 years ago. It could now help insure that all multiple dwellings meet modern standards of health and safety. In addition, I expect to place before the Legislature other proposals relating to rehabilitation, housing and urban development.

Other programs of interest to urban areas already are being developed through the joint efforts of my Task Force on Adult Literacy Opportunities and our State Manpower Development Coordinating Committee. These specialized groups are comprised of officials from the State Departments of Education, Labor and Industry, and the Office of Economic Opportunity. They have proposed concrete and imaginative programs to meet the related problems of adult illiteracy and unemployment in a comprehensive fashion, primarily utilizing federal resources.

The Manpower Committee will soon be headed by the new Commissioner of Community Affairs. His department, in cooperation with the others, will establish "opportunity centers" in the most concentrated areas of poverty in New Jersey to provide intensive prevocational training, counseling and medical services. These centers will once and for all tie together all of the relevant State, local and Federal agencies involved in manpower training. By including new programs to combat adult illiteracy, they will help eliminate one of the major stumbling blocks to even the most preliminary attempts to train individuals for employment.

The new Department of Community Affairs also will continue and expand the human resource development activities of the present Office of Economic Opportunity.

TRANSPORTATION—A NEW PERSPECTIVE

With the establishment of the new Department of Transportation, the state must now be prepared to reappraise the approaches we have been taking with regard to New Jersey's transportation problems—problems that in many instances are more complex and costly to resolve than anywhere else in this nation.

The Legislature has mandated that the Department produce a master plan for transportation and work on this project will be carried forth as promptly as possible. In the meantime, however, neither the Department nor the State can afford to await the completion of a plan which may take some time to produce. There are immediate pressing problems which must be confronted and resolved.

One of these problems concerns the Central Jersey Expressway. The New Jersey Highway Authority cannot fulfill its commitments with regard to the Expressway project unless the Congress will permit the Authority to purchase the free sections of the Garden State Parkway and to impose tolls in that area. The Task Force for the Central Jersey Expressway and I will endeavor to determine as quickly as possible whether the Congress will approve this essential request of the state. If Congress will not act, the Central Jersey Expressway proposal will have to be reappraised. In such an event, the Department of Transportation will be requested to submit a report promptly concerning the alternatives which would then be available to the State so that this essential road project can be carried to a speedy conclusion.

The creation of the new Department also focuses attention on another long delayed project of great importance to the State of New Jersey—the fourth jetport for the metropolitan New Jersey-New York area. The first public recommendation for such a facility was made in 1959, nearly eight years ago. The latest report of the Port of New York Authority on the jetport was released only several weeks ago and we are no nearer agreement now than we were then.

Because of the overwhelming importance of this major facility to the commercial and economic well-being of the entire region, I have directed the Department of Transportation to undertake a resurvey of this entire problem in the hope of coming up with alternative proposals which could pave the way to an acceptable solution. I do not know whether any such solution is attainable. In the final analysis, however, the people are entitled to know whether this facility will be lost to the area because of the lack of a suitable site and the consequences that will occur in such an event.

The new Department's activities encompass also the State's rail and mass transit responsibilities. Our efforts in past years have been substantial in this regard and have been growing at a rapid rate. During the next fiscal year the State will commit to the support of rail transportation nearly \$30 million by way of passenger service contracts, tax relief and capital improvements. The success of these programs is of the greatest importance to the State. If we are to have any hope whatsoever of improving the transportation snarl that blankets the northeastern section of our State and entwines nearly half of our population, we must look to mass transit solutions.

In this area the Tri-State Transportation Commission has assembled complete data on travel and transport providing us with a factual base on which the transportation needs to serve a rapidly expanding population can be programmed confident that we will qualify for maximum federal financial assistance.

In addition to specific projects under development, I have requested the Department to develop one or more pilot programs for application in the northeastern part of the State that will establish the suitability of mass transit as an alternative to automobile travel.

The Department is also continuing its efforts to improve suburban passenger service. Less than two weeks ago, the new Commuter Operating Agency was activated and a contract for nearly \$10 million was authorized for the purchase of 35 modern commuter cars which will improve the quality and character of

the passenger service being rendered on the Pennsylvania Railroad. This is but the first step in a program envisioning the purchase of 80 modern cars. The Commuter Operating Agency also recently authorized the filing of the final application with HUD for a \$30 million program to refurbish the New York and Long Branch Railroad. If Federal approval of this application is obtained, we can expect substantial improvement in our suburban passenger service within the next several years.

The Commuter Operating Agency has also authorized the holding of a public hearing with regard to proposals for an interim contract with the Erie-Lackawanna Railroad. This contract will cover the rendering of passenger service during the current fiscal period and will anticipate the continued negotiation of a long term contract of services on this most important rail line. The successful negotiation of these contracts is essential to a proper disposition of the Erie-Lackawanna's application for inclusion in the Norfolk and Western system.

The Department is also working with the Federal government, the Pennsylvania Railroad and our sister states in the corridor from Boston to Washington with regard to the development of high speed inter-city transportation. New Jersey will be a direct participant in this high speed program. These trains will stop in Newark and will also service Trenton and perhaps other stops in New Jersey provided the necessary adjustments to the local facilities are made so that these new trains can be accommodated. An appropriation of \$300,000 to prepare the Trenton station for such service will be submitted in my Budget Message next month. The Commissioner of Transportation, however, has indicated that the legislation establishing the new Department may be too restrictive in the manner in which it permits the Department to participate in the inter-city program. Most of the Department's responsibilities are limited to suburban transportation problems. Legislation to correct this technical shortcoming and several other aspects of the new Department legislation will be submitted for your consideration.

The highway activities of the new Department will also require legislative attention during the forthcoming session. Last year

the Legislature authorized an increase in the state aid program for counties and municipalities. Although this will be a continuing program, last year's special authorization did not go far enough in placing the overall program on a sound footing. The Department of Transportation has prepared a proposal for an overall state aid program funded with this additional revenue which would place our program of state support on a systematic basis. This proposal will warrant your prompt attention. The Department will also request approval of legislation to implement the provisions of the Federal Highway Beautification Act and the Federal Highway Safety Act of 1966.

The Department also urgently requires the enactment of legislation which will permit it to acquire, for highway purposes, entire parcels of property where it is not feasible to purchase only that portion within the right of way of the road itself. While these proposals do not have the scope of some of the items to which I have referred earlier, they are all essential to the proper functioning of the highway program and warrant your earliest attention.

FOR THE WORKINGMAN

More was done for the workingman during the 1966 session of the New Jersey Legislature than was accomplished during any comparable period in the history of our State. It has been estimated that the wages of more than 100,000 people were raised to at least a subsistence level by the passage of a broad and comprehensive minimum wage law. After years of neglect, the workmen's compensation law was revised guaranteeing a living level of compensation to those persons totally disabled and to the survivors of those persons killed in industrial accidents. Of equal importance, the workmen's compensation law was revised so as to assure that past neglect will not be repeated. This was done by tying workmen's compensation benefits to the cost of living.

In addition, a number of less important but still significant measures were adopted for the benefit of labor. For example, employees were protected against the indignity resulting from being forced to submit to lie detector tests as a condition of con-

TUESDAY, JANUARY 10, 1967

tinued employment. Legislation was enacted to enhance the safety of railroad employees. A law was passed making an employer who willfully failed to make payments into a welfare fund a disorderly person. These measures and many more sufficiently characterize the solicitude of the 1966 Legislature for the dignity and well-being of working people.

Notwithstanding the accomplishments of last year, there still remains unfinished business. Two problems important to labor and to every citizen of this State are under study. The Commission to Study the Workmen's Compensation Law and the Public and School Employees' Grievance Study Commission will be giving serious consideration to these important areas.

Two changes in the above-mentioned minimum wage law will be in order during this session of the Legislature. First, it will be necessary to include a two-year statute of limitations on back wage claims. Further, the protection against disastrous back wage claims should be given to employers who, in good faith, rely on administrative interpretation of the law only to find that such interpretations are invalid. Neither of these changes would impair the effectiveness of the minimum wage law. They would, however, assure that all sectors of the economy are treated fairly.

It is clear that if New Jersey is to continue to occupy its position of preeminence among the states in its concern for basic human rights, some steps must be taken to improve the condition of farm laborers. I have already publicly announced that it is my intention to ask this Legislature for legislation abolishing the Migrant Labor Board and vesting its functions in the Department of Labor and Industry. The existing law has a built-in potential for a conflict of interest and I now request the necessary legislation to change that law. I have appointed a task force composed of members representative of the various groups concerned with this vital problem. If out of their study it appears that further legislative action is necessary, the Legislature will be so advised. Further, I am requesting that the money allocated in the budget for the Migrant Labor Board be substantially increased to provide the kind of enforcement which is so obviously needed for the protection of farm workers.

Another item of unfinished business to which the Legislature should address itself is the much-needed revision of the unemployment compensation law. Last year, such a revision was introduced and that measure should be re-examined to ascertain whether any changes are necessary to facilitate its passage in the coming Legislature.

While the services available to the handicapped people of the State have already been greatly expanded, it is necessary that we continue to do everything possible to assure that these unfortunate people do not want for a future of productivity and dignity. Our present New Jersey Rehabilitation Act needs amendment to conform to the new Federal legislation and I will present such a measure for your consideration in this legislative session. Finally, it is my hope that the Legislature will favorably consider the proposals which will be advanced to strengthen the various laws governing employee and public safety.

ECONOMIC GROWTH

The foundation for New Jersey's prosperity must continue to be a viable and growing industrial structure. This administration has taken a number of important steps to enhance New Jersey's attraction to job-producing industry.

Last year you authorized a program of State assistance for economic feasibility studies on behalf of prospective industrial citizens of New Jersey. Most important, you revised the entire structure of business personal property taxation so as to achieve stability and predictability through State assessment and collection of these taxes for later reimbursement to the municipalities. Under this new program, business continues to bear its fair share of the tax burden, no municipality stands to lose a single tax dollar, and the danger of a sudden damaging jolt of "tax lightning" is removed.

But there remain further opportunities for improvement. We are examining the present State business tax structure—in relation to the systems of other states—with a view toward removing

tax inequities that remain between companies located in New Jersey and out-of-state firms doing business here. Our hope is to make New Jersey even more attractive to companies that want to locate their headquarters and manufacturing facilities within our borders.

From time to time in the past I have drawn your attention to our restrictive laws relating to branch banking. Our present laws, formulated many decades ago, have so handicapped our New Jersey banking system that it is inadequate to properly serve our large, new and expanding industries. Such major industries are forced to turn for their credit needs to money centers outside New Jersey and necessarily maintain corresponding deposits in those areas. These deposits are thus not available to promote the economic well-being of New Jersey. This is a serious problem that became even more critical in the past year of tight money. The subject has been thoroughly discussed, legislation has been presented, and public hearings have been held. The New York Federal Reserve Bank, our own Banking Department and others have indicated the need for a change. I urge that the Legislature delay no further and act early in 1967 to alleviate this most pressing situation.

DEVELOPING OUR PORTS

Public hearings have now been concluded by the Joint Legislative Commission studying the facilities for consolidation of the South Jersey Port Commission with the Delaware River Port Authority.

At issue is the method by which the port facilities on the Delaware River can best be developed. For some time we have been considering whether these port facilities could best be developed by the use of a number of separate agencies such as the Delaware River Port Authority, Delaware River Joint Toll Bridge or the South Jersey Port Commission and the like, or whether there should be one agency which should be responsible for port developing in the broader sense all the way from Cape May to Trenton.

It is my belief that this dialogue has served an important purpose in developing alternative approaches to the solution of the problem and also in heightening the public understanding of the need for port development. However, I think that the time has come for the dialogue to be brought to a conclusion, and I hope that you will give consideration during this session to appropriate solutions to the overall development of the port facilities along the Delaware River.

AGRICULTURE—PRESERVING AN ASSET

A happy combination of brisk trade and robust agriculture continues to be the source of great pride in New Jersey. One measure of this relationship has been our establishment, through the cooperation of producers and marketers, of self-regulatory programs which enhance the marketability of our farm products. At present, however, the programs are limited to a select few of our many commodities, and the mechanics necessary to secure their benefits for other producers are too involved. Thus, there is a need for legislation continuing the present system of commodity promotion within the tried and successful context of free enterprise, but establishing a unified program and a simple method for the admission of all producers who desire its advantages.

The achievements of American agricultural science are famous. In an age of sophistication, nevertheless, we depend upon the talents of many specialists to maintain and advance them. The services of such specialists, however, are not always available locally, and although there exists within the nation as a whole a vast pool of expertise, our efforts to tap this source have been frustrated in the past because statutes relating to public employment status have prevented the individual mobility of such personnel. The Federal government and a number of state governments have already taken steps to remove such obstacles. I, therefore, recommend that measures be considered to enable New Jersey to participate in such manpower exchanges.

Another problem which transcends state boundaries is the spread of plant pests. Frequently, such pests are present or

thriving in a state where they do no damage to local agricultural plant varieties but would menace the agriculture of other states should they escape. Although it is impossible to control the migration of such pests except by their eradication at the point of origin, there presently exists no way of inducing a state of origin where they do no local economic harm to destroy them. The Council on State Governments has proposed and the Secretary of Agriculture has endorsed a compact which would enable New Jersey to secure the eradication of pests beyond its borders which threaten its agriculture and to receive financial assistance to eradicate non-deleterious pests for the benefit of other states when requested to do so.

RECLAIMING THE MEADOWLANDS

For the past several years, I have called your attention to the potential value of the North Jersey Meadowlands—the last large tract of undeveloped land in the metropolitan New Jersey-New York area. During this period of time, certain essential studies were begun and these studies are now reaching a termination point. One has been concluded.

The Commission to Study Meadowland Development, headed by former Governor Meyner, has just completed a comprehensive supplemental report which makes specific suggestions regarding the solution of the title problem in the meadows and the reclamation and development of this area. I wish to take this opportunity to express my appreciation to this Commission for its efforts. Without doubt, their recommendations, as encompassed by their two reports, will be of great assistance in the preparation of a comprehensive legislative program for the meadows.

During 1967, the United States Army Corps of Engineers, which has been pursuing a review of methods to reclaim the meadows, shall be in a position to make suggestions regarding reclamation and possible cost allocations between Federal and local governmental agencies. The local land use plan, which is an essential element of the Army Corps study, is being prepared by the Division of State and Regional Planning in conjunction with the Meadowlands Regional Development Agency. This Division

has nearly completed several alternative proposals which must be reviewed and considered not only by the Army Corps of Engineers and State officials but also by the various local officials who will have to participate directly in any reclamation program.

It is therefore most essential that we all work together during the next six months to obtain a consensus on a local land use proposal so that we can then proceed to the next steps which will concern a consideration of how the cost of reclamation is to be satisfied and what type of agency or agencies is to be employed in order to carry out such a massive reclamation project. We are therefore at a most delicate point in this entire undertaking. The great promise of the meadows stands before us and I believe it can be realized in the immediate future. Our efforts, however, can be thwarted if we permit provincial considerations to predominate over the regional demands essential to a successful project.

For this reason, I am assigning to the new Department of Community Affairs full responsibility for supervising State efforts to develop a solution to the problems of the Meadowlands and to specifically review the suggestions contained in the report of the Commission to Study Meadowland Development as well as the conclusions of the other studies as they are made available.

A FISCAL REVIEW

Last session the Legislature, in a fine show of bi-partisan unity, responded to the needs of our local governments for increased State financial participation with the enactment of a broad-based tax. As a result of the revenue that was realized from the sales tax, State government for the fiscal year ending June 30, 1967 was able to allocate more than 75 percent of the estimated yield of this tax to local government needs. Nearly \$129 million in new aid was made available to our counties, municipalities and school districts.

In the budget which I will submit to you next month, a similar amount will be allocated for relief of local financial pressures.

As commendable as this development was, we must all recognize that the enactment of this new tax did not represent a solution to the long-range needs of State government itself. This is particularly true with regard to capital programs. I am, therefore, suggesting that the State Tax Policy Commission be authorized to undertake a prompt review of appropriate methods for financing essential capital construction programs for such essential needs as water resources development, sewerage construction, education—including a possible South Jersey Medical School—and the like.

In other states, the tendency has been to finance substantial capital programs, including highway construction, by the use of bonds. Through the use of self-supporting capital development agencies and authorities, many states have been able to finance necessary programs. In New Jersey, in the past, we have not been able to use this approach to any great extent. The creation of the New Jersey Education Facilities Authority last year, however, marks what may be a beginning of a change in direction. Certainly this aspect of the problem should be given most careful attention in any study that is undertaken.

The State Tax Policy Commission should also be requested to undertake a review of the State sales tax to determine whether any further improvements or changes should be made in this law. The Department of the Treasury is to be commended for the very efficient way in which this new tax was implemented on such short notice. I believe that the tax is working well and that it is as fair and equitable as any such tax in the nation. We will soon have a year's experience under this tax, however, and I believe that an experienced and impartial body such as the State Tax Policy Commission should review it thoroughly to see what further changes should be considered.

CONGRESSIONAL REDISTRICTING

Last year, in order to satisfy the requirements of the United States Constitution and rectify long-standing inequities in the apportionment of congressional representation, this Legislature

reorganized the congressional districts. Under severe attack in the courts, this plan withstood all constitutional objections except for three comparatively minor details involving variations in populational strength which could have been reduced. One of the first items of business in this session of the Legislature should be to adopt legislation meeting the Court's three specific recommendations.

THE JUDICIARY

We in New Jersey are justly proud of one of the finest judicial systems in the Country and our pride in this system is matched by our pride in the judiciary. We have attracted some of our best legal talent to this high calling, and this Legislature has aided this system by its recognition of the need to pay adequate salaries to attract men of high caliber and has provided an adequate number of judges to handle the burgeoning case load.

Despite our pride in the judicial branch, however, there is one area to which I would respectfully call your attention, for I believe that it represents an opportunity for substantial further improvement in the system. I refer to the possible integration of the Superior and County Courts. At the present time the civil list of these two courts are merged so that the judges are presiding in these matters in a fully interchangeable way. Similarly, although the criminal trial lists are separate, judges from either court can be used interchangeably here also. The judges of both courts receive the same salary and by the granting of the tenure to the county court judges after ten years, you have made even this facet of the judicial office practically the same. Despite all these similarities, however, we have over the years perpetuated a difference between the two courts which limits the flexibility in the use of these judges.

I would, therefore, urge you to consider a merger of these two courts so as to make all county court judges members of the Superior Court and merge the functions of the two courts. Such a move would give the system a flexibility that would permit the optimum employment of each judge for the job and the location in which his service can best be utilized. This would also

insure that every county would have a Superior Court Judge sitting.

FOR FUTURE GENERATIONS: TOCKS ISLAND

Much concern has been expressed recently about the undesirable land development practices occurring in or near the proposed Tocks Island Dam and the national recreation area. In recognition of the extreme importance of this project, I created an interdepartmental task force on Tocks Island with representation from the various state governmental agencies which will have some involvement with developments in that area. This task force has been working on various proposals. Consideration is now being given to implementing the provisions of Chapter 143 of the Laws of 1966 which authorizes the Department of Health to impose restrictions on the types of sewerage facilities that can be constructed in certain critical areas of the State.

The task force is considering certain other proposals such as legislation to authorize the purchase of scenic easements and to permit the new Department of Transportation to exercise strip zoning powers along new sections of land service roads. Should the work on these proposals be completed in time, they will be submitted for your prompt consideration.

CONCLUSION

Much has been done this past year. A master plan has been written for New Jersey's human and material growth and development into the next century.

Those who felt that too much was done too soon may be consoled by the fact that the major outlines for a vital modern State have now been adopted and the resources provided to fulfill the promises of approved legislation.

This does not mean that everything was accomplished or that all expectations were fulfilled, even though the sum total of accomplishment was unprecedented in any legislative session in New Jersey history.

Nineteen hundred and sixty-seven will be a year of working programs out, of new efforts, of careful evaluation, and of matching available resources to pressing need.

There are certain moments in the life of a State—as in the life of a person—when it can be said that a new beginning was made and a new course charted. For New Jersey such a year was 1966.

This new year, then, will be one of testing. It will determine whether we can carry out successfully the programs we have adopted. It will test our ability to act on still remaining areas of crucial human concern.

When this Legislature completes its work in the Spring, I believe we will be able to say with deep pride that 1966 and 1967 were years of giant accomplishment in New Jersey history; that we acted when action was necessary; that we remained true to our personal and political values; and that we placed this State on a solid foundation for future development.

Which amendments were adopted.

Amend page 2, section 2, line 14, delete "30" and insert in lieu thereof "90".

Amend page 3, section 2, line 44, after line 44, insert 2 new sections as follows:

"3. (a) Any municipality which acquires, or seeks to acquire, real property pursuant to the provisions of this act for the purposes authorized herein shall do any and all things necessary to assure that a workable relocation assistance program for displaced persons and business concerns, offering the services prescribed by subsection (b) of this section, is available to reduce hardship to those affected, and to reduce delays in public improvements.

"(b) Every workable relocation assistance program required by subsection (a) of this section shall include such measures, facilities, or services as may be necessary or appropriate, (1) to determine the needs of displaced persons, business concerns, and non-profit organizations for relocation assistance; (2) to assist owners of displaced

business concerns in obtaining and becoming established in suitable business locations; (3) to supply information concerning programs offering assistance to displaced persons and business concerns; (4) to assist in minimizing hardships to displaced persons in adjusting to relocation; and (5) to secure to the greatest extent practicable, the coordination of relocation activities with other project activities and other planned or proposed governmental actions in the community or nearby areas which may affect the execution of the workable relocation program.

“(c) A municipality which acquires, or seeks to acquire, real property pursuant to the provisions of this act for the purposes authorized herein shall, within 30 days of the filing of the declaration of taking and the depositing of the estimated compensation as required by section 2 of this act, designate or appoint a public officer of the municipality who shall be charged with the formulation and implementation of the workable relocation assistance program as required by subsection (a) of this section. The municipality, acting through the public officer so designated or appointed may utilize the facilities, personnel, and services of any other officer or agency of the municipality, or of any agency or authority created or chartered thereby, or may enter into appropriate contracts or agreements with any officer or agency of the Federal, State, county or municipal government, or of any agency or authority created or chartered thereby, or with any non-profit organization, for the purpose of implementing the workable relocation assistance program.

“4. Any municipality which acquires, or seeks to acquire, real property pursuant to the provisions of this act for the purposes authorized herein shall provide for:

“(a) the payment by the municipality to any displaced business concern or non-profit organization—

“(1) of its reasonable and necessary moving expenses and any actual direct loss of property except goodwill or profit for which reimbursement or compensation is not otherwise made; Provided, That such payment shall not exceed \$3,000 (or if greater, the total certified moving expenses); and

“(2) an additional \$2,500 in the case of a private business concern with average annual net earnings of less than \$10,000 per year which (a) was doing business within the location sought to be acquired pursuant

to provisions of this act, (b) is displaced by reason of proceedings pursuant to this act, and (c) is not part of an enterprise having establishments outside the area sought to be acquired pursuant to the provisions of this act. Notwithstanding the provisions of this section, a business concern which is not being displaced from an area sought to be acquired pursuant to the provisions of this act shall be eligible for payments of its certified actual moving expenses with respect to its outdoor advertising displays being removed from the area sought to be acquired pursuant to this act in the same manner as though such business concern were being displaced; and

“(b) the payment to any displaced individual or family of his or its reasonable moving expenses and any actual direct loss of property for which reimbursement or compensation is not otherwise made; provided, that such payment shall not exceed \$200 and provided further that the municipality may make payments to individuals and families of fixed amounts, but not in excess of \$200 in any case, in lieu of their respective and reasonable moving expenses and actual direct loss of property.

“In addition to the payments required by this section, a municipality which acquires, or seeks to acquire land pursuant to the provisions of this act for the purposes authorized herein may pay (in addition to any amount provided under subsection (b) of this section) on behalf of any displaced family, or any displaced individual sixty-two years of age or over, during the first five months after displacement, a relocation adjustment payment, not to exceed \$500, to assist such displaced individual or family to acquire a decent, safe and sanitary dwelling. The relocation adjustment payment shall be an amount which, when added to 20 per centum of the annual income of the displaced individual or family at the time of displacement, equals the average rental required, for a 12-month period, for such a decent, safe and sanitary dwelling of modest standards adequate in size to accommodate the displaced individual or family (in the area sought to be acquired or in other areas not generally less desirable in regard to public utilities and public and commercial facilities): Provided, That such payment shall be made only to an individual or family who is unable to secure a dwelling unit in a low-rent housing project assisted under the United States Housing Act of 1937, or under a State or local program

found by the public officer designated or appointed pursuant to subsection (c) of section 3 of this act to have the same general purposes.”

Amend page 3, section 3, line 45, delete “3.” and insert in lieu thereof “5.”

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER, }
Mr. President: February 14, 1967. }

I am directed by the General Assembly to inform the Senate that the General Assembly has concurred in the following concurrent resolution:

Be It Resolved by the Senate (the General Assembly concurring):

That at 3:00 P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Budget Message of His Excellency, Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

JOHN J. MILLER, JR.,
Clerk of the General Assembly.

Mr. Waddington moved that the Senate recess, to meet in joint session with the General Assembly to receive the Budget Message from the Hon. Richard J. Hughes, Governor of the State of New Jersey.

BUDGET MESSAGE

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

As partners in the affairs of New Jersey's government, we are faced with challenges and responsibilities which may seem insurmountable. We are living in a time in which perplexing problems appear almost daily. This budget is a steppingstone towards the solution of these problems, which cannot be ignored if we are to meet our obligations to the citizens of this State.

Last year we made some very significant strides in this forward direction. For example, with the bipartisan enactment of the sales tax program, we were able to lessen the burden on our citizens for the cost of education in the local school districts. Yet, we must look forward to an even greater expansion of educational opportunity, to the provision of more meaningful clean air and clean water programs, to the establishment of medical services for the medically indigent, to the development of a well-balanced transportation system, to the rehabilitation of our urban areas and to the development of so many other essential governmental services which are required by the phenomenal growth of this State and the just expectations of its citizens.

The challenges, indeed, are great, and I am sure that we are all humble and yet hopeful as we look to the future. As difficult as our task may be, I am sure you will agree that we must try with all our energy to fulfill it.

This budget will provide the funds which will enable us to make important beginnings in some areas and to continue to move forward in others. It certainly is not the solution to all of our problems. However, it enables us to act as responsible men seeking to foster the well-ordered growth of New Jersey within a reasonable fiscal framework.

Thus, to a great extent, this budget provides funds as a springboard to the future. It requires no new or increased taxes and will leave a surplus to backstop any disappointment in our revenue estimates.

BUDGET REQUEST

As part of our continuing quest for improvements in the budget process, all department heads were asked to set forth their goals for the next three years so that we could consider not only next year's program and the means by which it will be financed, but the program for the ensuing two fiscal years as well. Many departments and agencies responded with statements of goals that augur well for the quality and extent of service the public may be receiving in the future.

But because our resources are limited and because full implementation of programs may not be achievable next year even if funds were available, I have eliminated almost 20% from the total of the departmental requests of \$1,236 million.

RESOURCES

As the result of a continued unprecedented prosperity in the nation, our revenues have reached the point where we can anticipate total resources of \$1,020 million in 1967-68, after providing for necessary supplementals for 1966-67. In arriving at these resources, we anticipate a surplus on July 1, 1967, of \$67.4 million which, together with the anticipated revenues in 1967-68 of \$952.6 million, will produce total resources of \$1,020 million.

My recommendations in this budget of \$998.8 million will leave an anticipated surplus at the end of the fiscal year, on June 30, 1968, of \$21.1 million.

While this surplus is meager, it will, among other things, protect us against possible burdens involving changes in Federal law having to do with water pollution facilities and the cost of whatever indigent defense program is decided upon by this Legislature.

THE BUDGET IN BRIEF

Resources

| | | |
|---|--------------|-----------------|
| Estimated Surplus, July 1, 1967 (after providing for supplementals) | \$67,368,994 | |
| Estimated Revenue for 1967-68 | 952,560,649 | |
| | | |
| Total Expected Resources | | \$1,019,929,643 |

Recommendations

| | | |
|--|---------------|---------------|
| General State Operations | \$414,272,881 | |
| State Aid | 452,606,472 | |
| Capital Construction | 131,922,982 | |
| | | |
| Total Recommendations | | \$998,802,335 |
| Estimated Surplus, June 30, 1968 | | \$21,127,308 |

The amount recommended of \$998.8 million is approximately \$108.3 million more than the adjusted appropriations for the current fiscal year. As will be seen, the major part of this increase is reflected in the areas of education, health, welfare, employee benefits and expanded salary program, and the administration of our newly revised tax structure.

THE LEGISLATURE

To conform to the mandate delivered by the people on November 8, 1966, the budget must provide salaries for 40 members of the Senate and 80 members of the General Assembly. The recommendations in this budget will provide for such salaries, together with salaries for the members' staff services and other employees incident to an enlarged legislative body.

The work of the Commission on Efficiency and Economy in State Government will continue with a recommended appropriation of \$125,000, twice the amount appropriated for this year. This is a legislative body and will work closely with the Division of Budget and Accounting in the Department of the Treasury. The results of any studies by either of these groups will be co-ordinated to the end that both the executive and legislative branches are working toward a common goal—the development of patterns which will benefit our citizens by providing the most economical system of operation in the departments which are reviewed.

As a result of the enlarged Legislature and a strengthening of legislative services to the Legislature, this budget provides \$3.6 million for 1967-68 or \$875,000 more than in the current fiscal year.

JUDICIAL ADMINISTRATION

The budget for operating the State court system is being increased by \$225,499 or 5%, to a total of \$4.6 million. This increase is almost wholly due to adding 34 positions to meet administrative and workload requirements.

State aid to the county court system is being increased by \$115,000 to \$2.2 million.

EDUCATION

The educational needs of the citizens of this State have always been and shall continue to be the paramount concern of this Administration. We cannot ignore education without betraying the very future of New Jersey.

By far the largest part of this budget will be devoted to the educational opportunities of our youngsters in grade school, in high school, and to our young people at the University and the State Colleges. A total of \$462.9 million of the total budget, an increase of \$57.2 million over this year, is set aside for these educational programs. Of this sum, \$336.6 million represents State aid, an increase of \$28.6 million over the current year.

We have allotted \$38 million for higher education capital construction programs, an increase of \$17.6 million over the current year. And \$88.2 million is set aside for the operation of our various State colleges, the State University, the New Jersey College of Medicine and Dentistry, the Newark College of Engineering, the Katzenbach School for the Deaf and the administration of the various agencies making up our Department of Education and the Department of Higher Education. This represents an increase of \$11.8 million over the current fiscal year.

I should like to point out at this time, and I might say with a feeling of deep personal satisfaction, that the amount

to be spent by State Government for all educational purposes in 1967-68 will be some \$200 million more than was spent in the fiscal year prior to the enactment of the sales tax program. Even to those who question our new sales tax, it must be apparent that the public's money could not be more wisely invested.

State Aid to Local School Districts

Increases in State aid to local school districts include: formula and school building aid, \$1.7 million; aid for atypical pupils, \$273,000; vocational education, \$450,000; transportation aid, \$547,000; aid for maladjusted pupils, \$558,000. And the increase in the State's contributions to the teachers' pension system totals \$17 million.

Higher Education

We are continuing to do everything possible to nurture the growth of a county college system which will meet high educational standards while at the same time accommodating our many young people who are desirous of entering college in New Jersey. A total of \$14.7 million is made available for county colleges—an increase of \$7.5 million, to help provide for operational costs in six counties and for capital purposes in twelve counties. In addition, \$539,000 is recommended for aid to the State's two county-assisted junior colleges.

For all operational expenses of higher education, generally, I have recommended \$82.7 million, an increase of \$11.4 million over 1967. Of this amount, \$72.9 million is recommended for our ten State institutions of higher education, \$7.1 million for our Scholarship and Student Loan program, and \$2.7 million for general administration of the Department of Higher Education, including \$2.5 million for interest on higher education bonds.

The \$72.9 million recommended for the institutions of higher education is \$10.3 million more than was appropriated for these institutions this year. These appropriations will provide for a total full-time equated enrollment of 54,902 students, about 2,700 more than now enrolled. This consists of 37,656 full-time students and 88,485 part-

time students, who are equated to 17,246 full-time equivalent students. Thus, our ten institutions will be serving a total of 126,141 students in 1968, about 5,400 more than in 1967.

In order to teach these additional students and broaden the program offerings of these institutions, I am recommending 252 more college and university faculty for 1967-68 and 384 additional non-teaching personnel. Of the non-teaching personnel, 35 have been recommended as the first step toward relieving teaching faculty at the six State Colleges who have been "borrowed" for administrative duties and replacing them with budgeted administrative positions.

Included in the \$32.3 million recommended for Rutgers, The State University, is \$1.2 million for the Rutgers Medical School, in its second year of operation.

A total of \$4.1 million has been recommended for operation of the New Jersey College of Medicine and Dentistry, which will be starting its third full year as a State institution in 1968. As you know, this college is well on its way toward beginning construction of a permanent plant, including a teaching hospital. This budget also recommends \$9 million as the initial State contribution toward the construction of the buildings.

Because of the ever growing need for expanded medical services for our citizens, I have asked the New Jersey Council on Medical and Dental Education to undertake a thorough study on the question of the need for other medical school facilities. I have been advised that the Council is currently seeking Federal funds to conduct this important survey, which hopefully will give us a clearer picture as to future medical and dental school requirements in this State.

With funds appropriated in the current fiscal year we are preparing plans and specifications for construction of additional educational buildings at the public colleges. In this budget, I am recommending an additional \$10.4 million to begin construction of these classroom and library facilities at the six State colleges. I am also recommending

\$6 million for the State University for construction projects anticipated to be under way during the next fiscal year and for planning future expansion. In addition, I am recommending that the State complete its commitment for construction funds to the Rutgers Medical School by appropriating \$4 million for this purpose in 1968.

Recognizing that the buildings constructed by the funds provided herein will not completely meet the State's commitment to its youth, I am recommending that \$750,000 be provided at the six State Colleges for the preparation of plans and specifications for the next group of buildings required in developing higher education facilities and an additional \$250,000 for planning a new State College.

Salaries

As you are well aware, the question of salaries for faculty in our State institutions of higher learning has given rise to a number of serious problems which require our careful attention. A thorough study of this matter will be among the recommendations which I will make to the Chancellor for higher education as soon as we are able to find a highly qualified man for this important position.

Scholarship and Loan Programs

For our State scholarship and loan programs, I am recommending \$7.1 million which, together with expected unspent appropriations of this year, will provide total funds of \$8.1 million for all programs. This compares with \$5.7 million to be spent this year. All told, we should be able to grant 14,215 competitive scholarships (against 13,150 in 1966-67) and 2,750 incentive scholarships (against 2,350 in 1966-67) at a cost of \$6.2 million. We should also be able to guarantee 23,000 new student loans with a value of \$23.4 million (against 17,000 loans in 1966-67 with a value of \$16 million), pushing the total amount of loans outstanding to \$51 million, representing 54,000 loans.

In May 1966, the minimum guarantee requirement was reduced from 20% to 10% of face value of outstanding loans. Our minimal default experience in this program continues to justify this reduction; it is estimated that net defaults on June 30, 1967, at the end of the first five years

of the program, will total about one-tenth of one percent out of \$28 million in loans expected to be outstanding at that time.

Libraries

It is imperative that we continue to expand our State library system if we are to continue to make significant contributions to the cultural and educational development of every citizen. It is for this reason that we are recommending \$2.9 million, an increase of \$1.1 million, if you so legislate, for aid to local libraries to further the program to establish a statewide library system with regional centers in which local libraries may participate.

LAW AND PUBLIC SAFETY

It is the continuing objective of this Administration, the Legislature and the Department of Law and Public Safety to make New Jersey the best law enforcement state in the nation. Only by such excellent administration of justice can we assure the maximum safety of every citizen in every community—large and small.

Recommendations for this Department total \$33.2 million, which is \$2.2 million above this year's appropriation.

The pressing legal problems confronting our various departments and agencies call for greater legal attention by the staff of the Division of Law. To provide these necessary legal services will require an appropriation of \$1.2 million, an increase of \$125,000 over the present year.

State Police

I am asking for an appropriation of \$12.6 million for this Division, an increase of \$935,000 over this year. Part of this increase is to add 60 Troopers to the force for use particularly in patrolling as many as 149 miles of limited access interstate highways which have already been opened and for which police patrols are especially necessary because the road design precludes service facilities which must be located off the highways. Much of the remainder of the increase is for 41 other positions which will be used

to help implement the newly enacted statutes on Uniform Crime Reporting, Firearms and Implied Consent, as well as improved crime laboratory services to local police agencies. I am also including \$20,000 for a feasibility study for a comprehensive police record, information and communications system for both State and interstate purposes. Eventually, such a system would be co-ordinated with a national information system.

Motor Vehicle Division

The recommended budget for the Division of Motor Vehicles is \$15.3 million, an increase over the current year of more than \$1 million.

In the field of traffic safety, the Federal Government is now taking steps to initiate and stimulate state efforts in areas in which we in New Jersey have been conducting operating programs for a number of years. Our highly developed traffic record system; our driver licensing, clinic and retraining programs; our mandatory vehicle inspection program—each of these has continuing support in this budget.

Another dimension of the Division's services to the citizens of this State is revealing itself in the field of air pollution control. With the perfection of a practical motor vehicle exhaust detection device, which is now being researched by the State Department of Health, it should be anticipated that our vehicle inspection procedures will eventually include this safety check on all cars and trucks.

This budget provides funds in the amount of \$232,702 to commence the Division's five-year program to establish a unified and integrated driver, owner and vehicle record system through electronic data processing. This system will be of inestimable value for more effective driver control, law enforcement, and traffic safety in this State.

This budget provides capital funds of \$538,000 to replace the present Whippany and Morristown vehicle inspection stations with a three-lane facility for inspection and driver testing in Morris County. A single-lane inspection station is also budgeted in the sum of \$90,000 for south Ocean County.

Civil Rights

This budget contains \$374,000, an increase of 25% over the current year and nearly 50% more than was spent last year. The expansion of this program for enforcement of our civil rights laws and for continuing the education of our public in what these laws stand for is to be expected into the future.

INSTITUTIONS AND AGENCIES

Every responsible government—every government with a sense of compassion—must provide adequate care for the less fortunate citizens of every age in our society.

As with so many other programs, the operational costs of our Department of Institutions and Agencies continue to rise in proportion to the demands of our increasing population.

Funds required in 1968 for the operation of the many activities and programs of the Department of Institutions and Agencies have gone over the \$100 million mark, in fact to \$104 million, an increase of \$8.9 million over 1966-67. Along with consideration for priority of need in improving existing programs and implementing new ones, there were searching evaluations of probable ability to utilize fully the requested resources. These were among the factors which I have had to weigh in allocating funds to this Department to carry out its important missions.

Correctional Institutions

Reduction of overcrowding in the correctional institutions and its consequent ills remains an essential goal. By the end of the current fiscal year, a work camp will be established at the Vineland State School for 40 women from the Clinton Reformatory; and 1967 will see (1) the opening of a work camp at the Wharton Tract for 60 boys from Jamesburg, and (2) the activation of the 900-bed Youth Reception and Correction Center at Yardville. This \$14 million facility is an integral part of the reformatory complex, along with the Annandale and Bordentown institutions. The immediate effect of the opening of this Center

will be to relieve overcrowding at the existing reformatory units. The aim of Yardville is (1) to provide for the reception, study and classification of all male reformatory commitments; (2) to establish a special 60-bed treatment unit for the severely disturbed inmate; and (3) to operate a rehabilitative correction program for over 500 inmates. The \$1.9 million Yardville budget in 1968 includes 139 new positions which augment 151 existing positions. The Yardville budget includes \$35,000 for the State to assume the costs of continuing the Robert Bruce House. The Federal grant which has financed this "half-way house" since fiscal year 1963 terminates next fiscal year. This meaningful program extends the rehabilitation efforts of the reformatory into the community to improve the chances for ex-inmates to make successful adjustments to society.

For the immediate future, the Diagnostic Center will be responsible for practically all aspects of the sex offender treatment program other than housing. The 85-bed facility for these offenders now being established at the Rahway Prison will accommodate many now at other institutions. Funds in the amount of \$118,000 are included in the Diagnostic Center budget to administer this unit.

Mental Retardation

Mental retardation efforts are aimed at the integration of programs and services so that each retarded person receives the service he requires without interruption and at optimal times in his development. Federal support by way of the Hospital Improvement Program, the In-Service Training Program and Title I of the Elementary and Secondary Education Act of 1965 have enhanced our State programs in this area.

Our Division of Mental Retardation has aided the New Jersey Association for Retarded Children to establish Day Care Centers which, last year, cared for 284 severely retarded children between the ages of 4½ and 21 years who were excluded from public schools. The present appropriation subsidizes a case load of 350 children in such centers. During the 1968 fiscal year the State is making \$615,000 available to purchase services for 270 children in these centers and to operate six State-owned day care centers

which will be opened to accommodate up to 360 such children.

The Purchase of Care program, initiated in fiscal year 1965, now provides placement in private facilities for about 300 mentally retarded for whom space is not available in State institutions. Additional funds—\$500,000—are provided to expand this number to 450 because of the increase in those on the waiting list for admission to State institutions.

Mental Health

Mental health planning includes far-reaching recommendations to the citizens of New Jersey for the improvement of mental health services. In order to make meaningful progress in this area, an increase amounting to \$2.3 million is being recommended.

During the next fiscal year it is expected that four children's units of 75 beds each at our State hospitals will be fully activated. To complete their staffing I am recommending 36 additional positions at a cost of \$90,774.

The State hospitals have made substantial progress in a program of sectionalization. This program, as it unfolds, is providing semi-autonomous administrative, therapeutic units which directly admit patients according to classification. Under this plan, there will be an identity of professional staff with each patient, from his admission to his discharge or to further treatment, rather than the comparatively impersonal relationships which have heretofore existed and which may have impeded earlier recovery. In order to establish 105 necessary staff positions, \$648,594 is recommended to recruit and hold qualified psychiatrists and auxiliary staff.

The increased rate of admissions to our mental hospitals demonstrates the enlightened attitude of our citizens towards mental illness and their confidence in the treatment program offered. Yet, in spite of increased admission rates, the patient population of our mental hospitals continues to decrease because of more effective treatment and care programs. This is a tribute, not only to dedicated em-

ployees and improved programs, but also to those who have supported increased appropriations to bring about these marked changes in our State's mental health program.

All of our State hospitals have three-year accreditation by the Joint Commission of the American Psychiatric Association and the Council on Medical Education. This fact speaks highly of the quality of our mental hospitals, for New Jersey is one of only two states, of those having more than one mental hospital, in which all its mental hospitals are fully accredited.

The development of comprehensive community health centers is progressing and the recommendations in this budget reflect emphasis on the need for central office staff to lead, assist and support essential mental health services for our citizens.

Our State continues to support a limited mental health research program; however, its potential far exceeds the State and private funds made available to it. State funds amounting to almost \$3.3 million have been appropriated since 1954 with almost an equal amount provided by the Federal Government and private sources. Research projects contribute to more exact diagnoses and allow for more accurate evaluation of patient change. A continuing search for better understanding of mental illness and the development of practical aids in diagnosis, treatment and evaluation are most desirable.

Public Welfare

Funds to support New Jersey's participation in welfare administration are increased by \$2.2 million in 1968, and I am recommending 339 new positions to strengthen the administrative efforts of the Division of Public Welfare, to take advantage of Federal matching funds, and to meet the needs of rising case loads.

Included in this total are 135 new positions in the Bureau of Children's Services to meet, with constant vigor and determination, the State's grave responsibility for the care and protection of our needy children. This agency must have the ability to make meaningful, mature and effective

judgments with respect to the treatment plans for these children. Staff is needed to do this.

Twenty-six new positions have been provided for the Central Office of the Division to implement its recent reorganization, to provide additional staff services to counties and to augment its medical audit program.

Also the 24 positions included for the Commission for the Blind will not only meet increasing demands for services but also make it possible for the agency to expand its rehabilitation activities under recent Federal legislation.

And finally, effective January 1, 1967, the State's Medical Assistance for the Aged program was extended to include eligible patients, 65 years of age and over, in State hospitals for mental diseases and tuberculosis. Federal participation in this extended program is authorized under the 1965 amendments to the Social Security Act. I have included \$774,000 for 154 additional positions in the Division's budget to administer this program, the grants for which are provided in the State aid budget.

The New Jersey Memorial Home for Soldiers at Vineland expects a new 100-bed nursing care facility to be completed during this coming year. It is being constructed on a matching fund basis with Federal and State funds. To staff this facility, 49 positions for a partial year are recommended at a cost of \$53,000.

State Aid

The State is wrestling with a major dilemma, a most complex problem—welfare costs rising despite the health of our State and national economy. The situation is under attack by numerous public and private agencies; the impact of some programs is significant and gratifying results can be achieved. Nevertheless, the case load exists and the costs are increasing so we must provide for them until we have more knowledge and means to ease the burden. More than 90% of the cases added to the rolls in the last two years are in one category—Aid to Dependent Children, most of them without fathers in the home.

Even with the trend we are experiencing, New Jersey has the lowest proportionate recipient rate for Old Age Assistance, Disability Assistance, Aid to Dependent Children and Blind Assistance of the three Middle Atlantic States—New Jersey, New York and Pennsylvania.

Total expenditures in New Jersey for all assistance programs—all funds (Federal, State and County)—in a three-year period (1965-1968) are expected to rise from \$114.5 million to \$172 million, an increase of 50%.

The total State Aid recommendation next year for Institutions and Agencies is \$67 million—an increase of almost \$16 million. In this amount, there is \$3.6 million for the State's share of extending Medical Assistance for the Aged to those in State hospitals. Federal aid anticipated as an offset to this amount is \$7.1 million. Savings of \$2.0 million accrue to the counties also under this program.

Capital Construction

I am recommending an amount of \$1.4 million for major utility repairs at the several State institutions. Adequate and well maintained boilers, steam lines, water distribution systems and electrical systems are vitally necessary to assure the health and comfort of patients in our State hospitals and for the avoidance of disturbances among inmates in the State correctional institutions.

I am also recommending an amount of \$9.8 million to begin construction of major capital institutional projects for which planning money was previously provided. Such projects, which are expected to be under construction in the next fiscal year, include a nurses' training center at the Greystone Park Hospital, administration facilities at the Woodbine State Colony and the Jamesburg Home for Boys, a training center for multi-handicapped children at the Johnstone Training Center, children's psychiatric treatment facilities at the Trenton State Hospital and the Diagnostic Center, and replacement of cottages and a medical infirmary at the Vineland State School.

I am recommending a total of \$4.5 million to complete work on such deferred items as an additional cottage at the

Clinton Reformatory for Women, several new cottages at the Training School for Boys, development of administrative facilities at the New Lisbon State Colony and the restoration of \$2.9 million for the psychiatric institute project.

DEPARTMENT OF TRANSPORTATION

This budget contains \$131.3 million for operations, State aid and capital construction for which the newly created Department of Transportation will be responsible in its first full year of existence.

Capital Construction

Within this sum is \$27.9 million to provide the State's share in the Federally-aided highway construction program, including planning and research activities, which will match \$116.4 million of Federal money. There is also \$20 million for construction of highways not eligible for Federal assistance and for acquisition of right-of-way. Another \$1.4 million is provided to match \$7.7 million of Federal money to beautify our State highways. The necessary additional personnel which are recommended in the Construction Division will permit acceleration of both right-of-way acquisition and State highway system design and proper inspection of an increasing amount of construction in progress.

To provide better working conditions for the employees of the Division of Maintenance and Equipment as well as adequate facilities to carry out the Department's highway maintenance function, this budget recommends \$1.2 million for the construction and improvement of maintenance facilities located along the State's highways. These structures will contain modern work and shelter areas for maintenance crews engaged in repair of State highways, snow removal, ice control and repair of bridges, structures, signs and traffic signal devices.

General Highway Operations

I am also asking for an appropriation of \$2 million, an increase of \$1.3 million, toward the replacement of seriously deteriorated equipment in the Department's automo-

tive fleet—a condition which has given rise to hazardous working conditions and which has prevented the efficient and economic operation of these vehicles. Such improvement of the fleet will not only provide safer, more efficient and modern equipment for the Department's personnel, but there should be a dividend from reduced costs of maintaining our rolling stock.

Public Transportation Services

This budget also contains \$9.2 million to continue subsidy payments to the passenger-carrying railroads in the State. This will guarantee the availability of commuter transportation for our citizens living in the highly suburbanized areas and thus provide some measure of relief to our congested highways. Other aspects of this budget which support the mandate of the Transportation Act of 1966 to "foster efficient and economic transportation services," include \$1.8 million to match an equal amount of Federal funds to acquire modern coaches for the Erie Lackawanna Railroad; \$1 million as a contribution to develop high-speed transportation facilities among the main line of the Pennsylvania Railroad between Newark and Trenton; \$8.9 million to aid in the rehabilitation of the New York and Long Branch Railroad; and \$1.5 million to acquire available right-of-way along existing rail lines in Bergen County which will be reserved for express transportation purposes in this congested area of the State. This budget also includes \$700,000 for the first stage in the development of a Trenton Transportation Center, a project which will provide a modern and efficient railroad station befitting our State capital.

I am also asking an additional \$78,000 to strengthen the Department in carrying out its aviation responsibilities. Such funds will promote flight and landing safety of the public as well as airport facility planning in conjunction with other transportation services.

State Aid for Local Highways

I am recommending that extraordinary State aid for county and municipal roads, which was added to appropriations for the first time in the current year, be continued

at a rate of \$15 million annually. But I am also recommending that the method of appropriating grants for highway purposes be changed from a calendar year to a fiscal year basis. Present appropriations provide State aid funds for the duration of calendar year 1967. This budget recommends an amount of \$15.7 million to be paid for the period January 1 to June 30, 1968 for both the statutory State aid heretofore authorized and the added extraordinary State aid. Appropriations for fiscal 1968-69 and thereafter will contain full-year costs of such grants.

Because counties and municipalities operate on a calendar year basis, legislation should be enacted to permit them to anticipate the amounts which would normally be available for the period July 1 to December 31, 1968, so that they will sustain no losses from this change in method of appropriating State funds.

CLEAN AIR, CLEAN WATER AND IMPROVED HEALTH SERVICES

The sincerity and determination of this administration and the Legislature to control air and water pollution and to provide other urgently needed public health services can best be demonstrated through the provision of adequate funds to make such programs a reality.

The Department of Health is spearheading the drive against the spreading pollution of air and water. In my opinion, no more pressing problem faces us than the preservation of the health of our citizens. The recent Federal Interstate and Enforcement Conference held in New York City pointed out the enormity of the problem of air pollution. Prior to that conference, I requested the Federal Public Health Service to review the State's air pollution program to determine the financial requirements to make an adequate impact on this problem. As a result of this request, we were advised that an effective job of air pollution control would be sustained by continued steady growth of resources to a level of \$2 million annually.

The Commissioner of Health is of the opinion, and I concur, that about \$1.3 million can be wisely spent for this

purpose in 1967-68. Of this sum, the State must provide \$711,000 and the balance will come from Federal funds. This compares with a total program in the present year of \$681,000 which includes \$431,000 in State funds, or an increase of \$280,000. This sum will permit us to increase the staff by 20, which, together with necessary equipment, will help implement the State air pollution warning system; build and man additional air monitoring sites and intensify enforcement of the State's air pollution laws.

I am also continuing the State's participation with the Federal Government in our joint motor vehicle emission control program to develop auto exhaust measuring devices for use in auto inspection activities. State dollars of \$58,000 will match about \$180,000 in Federal funds, all of which will continue the joint project initiated last September.

Water Pollution

The present water pollution staff of 41 in the Department of Health must be substantially increased if we are to cope adequately with our needs. Intensification of studies, surveys and other field work related to enforcement proceedings, coupled with increased laboratory needs, will be necessary as a consequence of all of New Jersey's surface waters being classified and water quality standards established. Additional staff is also needed to review and approve construction plans for new sewerage facilities promptly. I recommend that \$388,293 be appropriated to expedite our fight against water pollution through the hiring of up to 20 additional staff and the use of automated laboratory techniques.

In the initial budget conference between the State Budget Director and the Commissioner of Health, there was evidence that a total of \$28 million could be expended for construction grants in sewerage facilities, a new program in which \$7 million would be provided by the State; \$7 million by local jurisdictions; and \$14 million by the Federal Government. I had fully agreed to provide the \$7 million, together with an additional \$1 million in loans for engineering plans, until it was learned that the Federal program would be cut to a total of \$5.6 million. I am recommending in this

budget \$2.8 million as the State's share to match all of the Federal money which can be anticipated from the President's Budget. Should additional Federal support become available, we must look to our surplus for the State's share to permit full participation in this program.

Solid Waste Disposal

At the present time, it appears that the Federal Government will assist New Jersey in this program to the extent of \$70,000. However, because of the seriousness and the need for increased activity in this area, the Department of Health is again submitting to the Federal Government a request for a project grant in the amount of \$125,000 for the next fiscal year. In view of the uncertainty of the receipt of this \$125,000 grant, I am again recommending \$70,000 needed to match the presently known Federal assistance. Should the Congress increase the amount available to New Jersey for this purpose, I recommend that the Legislature provide additional funds as may be needed for matching purposes.

State Aid for General Health

You will recall that the Legislature of 1966 adopted a State aid program which would provide more than \$4 million annually to local communities for health purposes, although in the first year only \$2.2 million was needed because the program did not become effective until January 1, 1967. To meet the commitment made by the Legislature for this program, I am recommending a full year's appropriation for this purpose in the sum of \$4.1 million.

State Aid—Crippled Children's Program

There is recommended in this budget \$498,722 which almost doubles the amount available in the current year. This sum is necessary because of the impact of Federal legislation which requires the payment of so-called reasonable hospitalization costs. In order to accede to the request of the Federal Government, the various counties must continue their share of this program if we are not to lose Federal participation.

Other Health Programs

Funds are recommended in the budget to strengthen other activities conducted by the Department, including control of tuberculosis and other communicable diseases, radiological and occupational health, the departmental laboratory, and for local health and consultation services.

To summarize, the amount recommended in 1967-68 for all of the areas of of public health, exclusive of Federal and local funds, equals \$15.1 million, an increase of \$3.2 million over that appropriated in the current year.

DEPARTMENT OF COMMUNITY AFFAIRS

For the Department of Community Affairs, I am requesting \$5.9 million, \$3.8 million more than current appropriations.

The 1960's may well have begun an era in America which will come to be known as the age of the states. And the partner and natural beneficiary in the modernization of state governments will be the local communities. This is as it should be, for it is our firm conviction that strengthened local government means better state government.

It is imperative in this era of spreading urban and concentrating rural populations to move quickly from old images of Federal, state and local government relationships to new and more realistic models.

As of July 1, the local share in anti-poverty programs increases from 10% to 20%, and I trust the State will provide the necessary supplementary funds which I am recommending to keep crucial programs going and allow new programs to begin.

A modest appropriation to the new Department, above and beyond the operating budgets of the present agencies which will be transferred to it, will allow for massive expansion of our State's efforts to provide for the redevelopment of our communities. For example, a major revision of the Tenement Housing Law—the first in 60 years—will be submitted for your approval. You will be asked to authorize a program of State assistance for urban renewal

programs though no funds are requested in this year's budget. You will be asked to approve an urgently needed middle-income housing program, an area in which New Jersey has been lagging far behind its sister states. In order to insure that all of these new efforts to alleviate New Jersey's pressing urban problems are effective, a reorganization of our present housing code enforcement, urban renewal and technical assistance activities is contemplated by the new Department.

Through this new Department we plan to assist our communities to help themselves and achieve the capability to develop plans and projects which suit their particular need and match available Federal resources.

Through our plans for training interns for municipal government, we will provide much-needed personnel for local governing bodies, and develop a closer working relationship with our institutions of higher learning. Through our Office of Community Services, we will provide a one-stop service to local officials seeking the aid of the State in solving community problems. And through an expanded housing and urban renewal program, new relationships with cities will develop through an expanded role for the Bureau of Housing Inspection.

To help in the often complicated process of matching community documentation of needs and goals with available Federal programs, we propose a data bank which will include profiles of our communities and swift, accurate information about Federal requirements and resources. With a system that can respond in minutes, the maze of intergovernmental relations will be more easily traversed, allowing even the smallest community to plan effectively for its future growth and development. To help fund this program, Title IX of the Demonstration Cities and Metropolitan Development Act of 1966 provides that 50% of the cost for such technical assistance services be borne by the Federal Government.

Grants under Title IX, when matched by the State, would also allow us to expand considerably the program of technical assistance to New Jersey communities which the Department hopes to offer. Under this program, national ex-

perts on the full range of local problems would be made available to those communities requesting such help.

We are also requesting authorization to use a portion of these funds for research and development, for studies which will show the way to reduction of costs and the application of new techniques in the administration of community services.

A basic responsibility of the new Department is the development of programs to rehabilitate and rebuild neighborhoods and restore or replace the substandard and deteriorating dwellings in which many residents live, both in large and small cities and in rural areas.

I, therefore, am recommending that funds be appropriated to the Department to develop demonstration programs and new mechanisms to fuse presently available government aids with private enterprise to rebuild New Jersey's deteriorating areas and to provide improved housing for our low-income families, rural or urban, at prices they can afford.

One such device might be the organization of a state-wide private, non-profit urban development corporation with the cooperation of the State's industrial organizations, contractors, unions, homebuilders and public interest groups. Working capital would be provided through contributions by the State, private industries and foundations. Such capital could provide the economy of scale, the massive markets, and the technological expertise to provide a substantial increase in low-cost housing at reduced cost per living unit. A major result would be a large new source of employment as the State's neighborhoods are revitalized.

Manpower co-ordination for the State will be handled through the Department of Community Affairs. The programs planned under our Task Force on Adult Literacy Opportunities and our State Manpower Development Coordinating Committee, especially the "opportunity centers" which will provide literacy instruction with work training, highlight our resolve to meet the manpower needs of the State and the employment needs of the poor.

I have asked Commissioner Ylvisaker to submit further details on these proposals to the members of the Legislature as soon as the Department is formally organized.

LABOR AND INDUSTRY

I am recommending total appropriations of \$14.3 million for this Department, \$1.8 million above this year. The largest part of this recommendation is \$8.3 million for the Rehabilitation Commission, which is \$1.4 million more than the current year. About \$6.5 million of these costs will be provided from Federal funds, which, together with State funds of \$1.8 million, will aid about 17,400 persons, 2,500 more than this year, to improve their physical abilities and productivity. This is a truly gratifying program, demonstrating as it does how government can help people to healthy and useful lives.

Far-reaching measures approved by this Legislature for the benefit of the workingman and important administrative changes require additional funds and personnel for effective implementation. A total of 339 positions is being budgeted against 266 in the current year. Most of the increase is in the area of Worker Health and Safety, although I am also asking for added funds to further implement the Prevailing Wage Act.

I am asking for an increase of \$70,000 in State appropriations over the present sum of \$96,000 available for the operation of the Migrant Labor Bureau. This increase enables us to assume the cost of the sanitation program for our migrants which was heretofore financed by the Office of Economic Opportunity. It will also provide additional new positions requested by the Department to strengthen and improve the total program. As the Department increases its capacity for the protection of migrant workers through this increased appropriation, I shall request the additional funds needed for more effective enforcement.

CONSERVATION AND ECONOMIC DEVELOPMENT

The programs of the Department of Conservation and Economic Development touch the daily lives of New Jersey citizens to a far greater extent than is generally realized. The amount recommended in the budget for this Department totals \$20.1 million and represents an increase of ap-

proximately \$2 million over the current year. While this is a relatively small increase when compared with other activities, it will be used for the improvement of programs which, as I have already noted, affect the lives of so many of our citizens.

As an example, it is expected that 3,200,000 people will attend, at some time during the next fiscal year, one of the parks or recreational areas available throughout the entire State. Picnic sites and other recreational facilities will provide for the enjoyment of those of our citizens who take the advantages offered in the various parks from High Point Park in the North to Cape May in the South.

Over the past few years the State, together with counties and municipalities, has secured, for the future enjoyment of New Jersey citizens, open land space through the "Green Acres" Program, and our task next year and in the years to come will be to make these lands available for recreational purposes for all our citizens.

In this budget we are making available \$1.5 million, or roughly \$850,000 more than is available in the current year, for the development of recreational areas throughout the various State parks and those sites acquired under the "Green Acres" program.

Modest sums have been included in the budget to continue our ever-present problem of policing water supplies and for the rebuilding of our shell fish industry

To continue our policy of utilizing all of the funds derived from licensing our hunters and fishermen, I have recommended additional funds for the administration of this program, reserving to this group funds in excess of those anticipated from such licenses.

For promotional expenses in the Division of Economic Development, there is recommended \$400,000, which is a \$50,000 increase over the amount provided in the current fiscal year. Many other states spend millions for promotional purposes and one day New Jersey, in its own self interest, must be prepared to spend more.

The budget will continue at the present rate the amounts provided to combat beach erosion along the New Jersey

shore. These State funds, together with Federal funds available, should continue the program at a level enjoyed over the past few years.

SOUTH JERSEY PORT COMMISSION

In anticipation of an appropriate solution to development of the South Jersey Port area, I am recommending an appropriation of \$250,000 as the State's share of the cost of constructing additional docking space at the Camden Marine Terminal. Present and anticipated reserves of the South Jersey Port Commission may be sufficient, with the State's appropriation, to complete the project. This investment in port expansion will forestall obsolescence of these port facilities by permitting their use for more and larger ships.

CIVIL SERVICE

With continuing growth in the number of counties, municipalities and other bodies for which the Department of Civil Service is responsible, it naturally follows that the amounts required to administer the civil service program must likewise be increased.

With the use of data processing equipment, it has been possible to hold to a minimum the amount required for new positions in this agency. With available Federal funds, the Department has been able to establish a staff training program which has been of considerable help in the recruiting and retraining of personnel on both the State and local level. A total of \$2.3 million has been recommended for this Department which is \$274,000 more than that available in the current fiscal year.

STATE EMPLOYEE COMPENSATION

We, in New Jersey, have been fortunate in the high caliber and dedication of our State employees, for therein lies the effectiveness of our government. This is reflected in the fact that the cost to operate our State Government is one of the lowest in the nation. I am proud of this Admin-

istration for its record of improvement of employee benefits. But this record could not have been accomplished without the support of the Legislature.

The vigor and expansion of our nation's economy has brought about the tightest labor market in the last half century. This has resulted in the State's inability to compete for those sufficiently qualified or trained, or for those with ability to staff our agencies.

Equity also demands that we recognize the rise in cost of living which has accompanied the expanding economy. Private industry can move quickly, in comparison with government, to adjust its pay scales. The Federal Government (which has a substantial establishment in New Jersey) and New York State have granted substantial raises since 1965. The annual salary survey of the Department of Civil Service shows that State pay averages have fallen behind industry and neighboring states and local governments.

There are too many vacant positions waiting for qualified applicants and there is too much turnover of personnel. If we expect to retain and recruit the qualified employees which today's government programs require, we must provide more adequate compensation. Therefore, I propose in this budget \$10,850,000 for a 5% increase in salary rate for State employees, \$550,000 to permit payment of an annual salary rate of no less than \$4,000 for full-time employees responsible for care of patients and certain other service worker class titles, and \$600,000 for the cost of establishing competitive hiring rates for some occupations and to permit a salary increase after six months for employees in certain designated college trainee positions.

I have also included \$4,000,000 for the additional costs which will result from authorized overtime at a rate of 1½ times the employee's salary rate in accordance with Senate No. 393 which I have just signed.

TREASURY

The Department of the Treasury will require total appropriations of \$34.5 million for all purposes, a net increase of \$1.8 million over fiscal 1967 adjusted appropriations.

General State Operations alone will cost \$19 million, an increase of \$2.7 million, much of which will be required to manage the newly enacted tax replacement programs for the once controversial but now extinct business personal property tax sections of Chapter 51 which was enacted as stopgap legislation only a few years ago. I believe we can all feel relieved for having eliminated the tax lightning statutes which so inhibited commerce and industry because of tax uncertainties. However, the attainment of the desirable solutions found in the replacement taxes which you enacted last Spring is not without some pain in appropriating the necessary funds to administer them. Altogether, these costs total \$1.2 million and will require personal services of 211 employees with which the replacement tax activities can be accommodated. Moreover, it can be expected that, as these tax programs are fully implemented in the following years, their administrative costs could be greater.

In the administration of the sales tax, which will cost \$3.1 million next year, there must be a continuing effort to assure that every dollar of the people's money is spent prudently. This tax program, as all others, must be administered to provide maximum service at minimal cost and with the least amount of inconvenience. The people of New Jersey have a right to expect that we do no less.

As soon as final reports are received from the first full year of operation of the Sales Tax Bureau, the Treasury Department will undertake a thorough survey and review of this agency with an eye toward paring costs and improving its operations wherever possible.

Another principal increase within the Department of the Treasury is to be found in the Division of Pensions which has been beset by problems resulting from recent adoption of new pension laws affecting State and local government employees. I am recommending an increase of \$380,000, including the cost of 51 new positions, to help in administering the total pension program.

State aid programs administered by the Department of the Treasury will cost \$15 million next year. While the apparent increase over the current year's adjusted appropriation is only slight, there is more to the sum recommended

than may meet the eye. The fact is that the State's cost for payments to municipalities to avoid loss of receipts from railroad taxes, as required by recent legislation, will be \$5.5 million next year compared with \$4.3 million this year; the State's contribution to the Consolidated Police and Firemen's Pension Fund is increased by \$700,000; and the State's payments to counties for their share of inheritance taxes will be increased by \$600,000. Offsetting these increases, however, is the non-recurrence next year of a \$2.5 million appropriation made in fiscal 1967 to save municipalities harmless from possible loss of tax revenue resulting from the elimination of local property taxes on business personalty. The amounts to be paid under this save-from-harm statute will not be known or required until fiscal year 1968-69 because of the statutory due dates for both the receipt and payment of these replacement taxes.

OTHER DEPARTMENTS

For the Department of Agriculture, I am recommending \$2.3 million, an increase of \$195,000 for next year. This sum will permit the Department to initiate the development of biological counter-agents against the infestation of the gypsy moth, thereby reducing the spraying that has been found objectionable in many areas of our State. It will also enable the Department to carry on its new program of blackbird control for which a supplemental appropriation was voted last year.

For the Department of Banking and Insurance I am recommending \$2.9 million which includes funds for additional staffing in the Real Estate Commission so that it may service the real estate industry in accordance with recent legislation.

For the Department of Defense, I have recommended \$3.1 million for operations, an increase of \$192,000 above the present year. Much of this increase is for maintenance of the State's 57 armories and other service areas, in order to keep them in respectable repair so that they can continue to be useful in training the National Guard and other military components of this Department.

For the Department of State, I am recommending \$736,000, an increase of \$24,000 over the current year. This modest sum will permit the Department to accommodate the daily demands made upon it by the public for the various services it renders and continues the \$75,000 appropriation made last year for the Council on the Arts.

LOOKING AHEAD

I believe the record will show that we have done much to provide the services the people need. But there is a great deal of unfinished work before us. As we look to the future, we must remember that vast sums will still be required in several important areas, including education, transportation, pollution control, and institutional and medical care.

As I have already indicated, we face enormous and seemingly insurmountable tasks. However, the record shows that we have risen to similar challenges before. I, for one, am confident that if we work together toward a common objective—the well-being of the people we represent—we shall continue to lay the groundwork for progress in New Jersey. I look forward to your continued cooperation in this mutual task and stand ready to work with you in every way possible.

Respectfully submitted,

RICHARD J. HUGHES,
Governor of New Jersey.

Attest:

LAWRENCE BILDER,
Secretary to the Governor.

M.,* and that said Committee make written report thereof to the Senate.

Mr. Crabel offered the following resolution, which was read and adopted:

Resolved, That the Rules of the Senate for the 1966 Session be adopted as the 1967 Senate Rules, subject to the following amendments:

1. Amend Rule 11 to read as follows:

11. The [Senate may elect a] President, pro tempore, [who] shall possess all the powers and discharge all the

duties of the President, when the latter is absent; provided, that, at any time when the need should arise, the President may designate a member to serve as President, pro tempore, for the duration of such need but not beyond the time set for the next regular meeting of the Senate.

2. Amend Rule 17 to read as follows:

17. All Standing Committees shall meet *at least* once each week, except when the Legislature is in extended recess or has adjourned sine die, for the consideration of measures referred to them [,] . [and] *All committee public* hearings shall be announced in open session and advertised by posting a notice thereof in a conspicuous place in the Senate Chamber and also at some prominent point in the main corridor of the State House.

3. Amend the list of Senate Standing Committees as listed in Rule 22 to read as follows:

SENATE STANDING Committees

Air and Water Pollution and Public Health Committee.

[Agriculture, Conservation and Economic Development Committee.]

Appropriations Committee.

Banking and Insurance Committee.

Business Affairs Committee.

Defense and Veterans Affairs Committee.

Economic Development, Conservation and Agriculture Committee.

Education Committee.

Federal and Interstate Relations Committee.

Highways, Transportation and Public Utilities Committee.

[Institutions, Public Health and Welfare Committee.]

Institutions and Welfare Committee.

Judiciary Committee.

Labor and Industrial Relations Committee.

Law and Public Safety Committee.

Revision and Amendment of Laws Committee.

State, County and Municipal Government Committee.

4. Amend Rule 33 to read as follows:

33. Two copies of every bill, joint resolution, and concurrent resolution proposing an amendment or amendments to the Constitution, introduced shall be printed on good bond paper, to be approved by the Supervisor of Bills, one of which copies shall be retained in his office and the other of which shall be used thereafter as the official copy of said bill, joint resolution or concurrent resolution [;], and *shall be forthwith delivered to the Committee to which it has been referred, if it has been so referred, otherwise to the Secretary of the Senate.* Whenever an amendment of any bill, joint resolution, or concurrent resolution of that character, originating in the Senate is adopted by the Senate, or an amendment of any bill or joint resolution so originating is adopted by the General Assembly, and is concurred in by the Senate, the same course shall be followed as to the bill, joint resolution or concurrent resolution in its amended form.

5. Amend Rule 62 to read as follows:

62. Every Senator, in speaking, shall address the President, confine himself to the question under debate, and avoid personality. [No Senator, in speaking, shall mention a Senator, then present, by name.]

6. Amend Rule 76 to read as follows:

76. The final question to be placed before the Senate in public session upon every nomination shall be, "Will the Senate advise and consent to this nomination?" which question shall not be put on the same day on which the nomination is received, nor on the day on which it may be reported by the Committee, unless [by the unanimous consent of the Senate] *the Senate shall so resolve by vote of three-fourths of all its members*; provided, however, that an affirmative vote of at least fifteen Senators shall be necessary to advise and consent to any and all nominations. The names of the Senators voting for and against the nomination and the report, if any, of the Senate Judiciary committee with respect thereto, shall be entered on the journal of the Senate. *Notwithstanding any of the provisions of this rule or of rule 75, consideration of the final question as to whether the Senate will advise and consent to the nomination of any person for the office of Attorney General or Secretary of State, may be considered and acted*

upon by the Senate on the same day on which such nomination is received from the Governor.

7. Amend Rule 81 to read as follows:

81. No standing rule or order of the Senate shall be suspended unless by the consent of a majority of the Senators elected, nor rescinded or amended but by the same number, and if objection should be made to the consideration of a motion for such purpose, when made, the motion shall lie over until the next meeting of the Senate, *unless the Senate shall consent, by vote of at least three-fourths of all its members, to such suspension, rescission or amendment of a standing rule or order at the meeting at which a motion therefor is made.*

The following message was received from the General Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
GENERAL ASSEMBLY CHAMBER,

Mr. President:

February 14, 1967. }

I am directed by the General Assembly to inform the Senate that a printed copy of Senate Concurrent Resolution No. 7, entitled "A concurrent resolution to amend

Article V of the Constitution of the State of New Jersey to create the office of Lieutenant Governor and to provide for his election," has this day been placed upon the desk of each member of the General Assembly while the same was in open meeting.

JOHN J. MILLER, JR.,
Clerk of the General Assembly.

Messrs. Bigley and Scholz offered the following resolution, which was read and adopted:

WHEREAS, It has pleased Almighty God in His infinite wisdom, on February 3, 1967, to call from this world Judge Edward A. Reid, of the Juvenile and Domestic Relations Court of Camden County; and

WHEREAS, Judge Reid was born in Camden; he attended the Camden Public Schools and was admitted to the New Jersey Bar Association in 1931; and

WHEREAS, Judge Reid served as the Borough Solicitor of Landside for seven years; he was Assistant City Solicitor for three years for the city of Camden; he served as Assistant County Prosecutor of Camden County for two years and he was appointed Judge of the Juvenile and Domestic Relations Court of Camden County, in 1960; and

WHEREAS, Judge Reid will always be remembered as a respected and devoted member of the Camden County and the New Jersey Bar Associations and for his years of public service which were spent in doing good for others; now, therefore,

Be It Resolved, That the members of the Senate of the State of New Jersey extend their sincere sympathy to Mrs. Pauline Reid, his wife, in her bereavement; and

Be It Further Resolved, That a copy of this resolution signed by the President of the Senate and attested by the Secretary be forwarded to his widow, Pauline Reid.

Messrs. Guarini, Kelly and Musto offered the following resolution, which was read and adopted:

A RESOLUTION of congratulation and commendation to the Jersey Journal upon its 100th anniversary.

WHEREAS, The Jersey Journal has for 100 years diligently, skillfully and courageously served to inform, en-

lighten and entertain the inhabitants of Jersey City, Hudson County and environs; and

WHEREAS, The said Jersey Journal has achieved and observes high standards of journalistic integrity and public service, and has become a traditional and respected ornament of the journalistic profession in this State and the Nation; and

WHEREAS, The said Jersey Journal is currently observing the centennial year of its publication; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

That the Senate extend its congratulations and commendations to the said Jersey Journal upon the completion of its first 100 years of service to the people of Jersey City, Hudson County and the State of New Jersey and that an authenticated copy of this resolution, signed by the President of the Senate and attested by the Secretary, be transmitted to the publisher of the said Jersey Journal.

Mr. Stamler offered the following resolution, which was read and adopted:

WHEREAS, Walter R. Darby of Westfield died February 2, 1967, at the age of 92 years; and

WHEREAS, In his 38 years of service with the State of New Jersey extending from 1915 until his retirement in 1953 he, more than any other person, was responsible for developing a program in the field of municipal finance which became the model for many other States and assured the fiscal responsibility of New Jersey municipalities during periods of prosperity, wars and deep depression; and

WHEREAS, Development of the local bond law, the local budget law, the sinking fund law and the Local Government Board, which he headed for many years, are monuments to his work which continue to serve the State and its municipalities with efficient effectiveness; and

WHEREAS, The importance of Walter Darby's many contributions to the solution of complex problems of municipal finance have served, are serving, and will long continue to serve the people of New Jersey well; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. The members of the Senate honor the memory of Walter R. Darby and his many important contributions to the State of New Jersey and its municipalities and record their regret at his death after a full and useful life.

2. A copy of this resolution signed by the President and attested by the Secretary of the Senate be forwarded to the son and daughters of Walter R. Darby, as an expression of high regard for the memory of Walter R. Darby.

Mr. Giblin and all Senators offered the following resolution, which was read and adopted:

WHEREAS, Friday, March 17, will be St. Patrick's Day to be celebrated by thousands of true Sons of Erin who will glow with pride in their ancestry; and

MONDAY, MARCH 13, 1967

WHEREAS, Irishmen from all other countries will also become temporary Sons of Erin and join in the many celebrations in honor of St. Patrick and the Irish; and

WHEREAS, the growing of the green grass and the return of the robins from the southland on St. Patrick's Day provide a preview of long awaited warm spring weather; and

WHEREAS, as soon as the sun peeks over the Labor and Industry Building on Friday morning, the Leprechauns and other wee people will occupy the seats of the Senators in the Senate Chamber for a very brief moment, to predict a much better New Jersey for the future; and

WHEREAS, everyone is invited to attend this colorful apparition in the early morning if they can get up during such an hour; and

WHEREAS, because of the Irish love of freedom, equality, adventure, good government and fun; now, therefore,

Be It Resolved, that the Senate of the State of New Jersey extend warm greetings to all good Irishmen, honorary Irishmen and adopted Irishmen, which includes everyone, and express sincere thanks for their historic and cultural achievements, past and present, their steadfast devotion to the promotion of the finer things of life, and to the Irish generally for the Wearin' of the Green.

A Resolution of congratulation and commendation to the Very Rev. Thomas J. Conroy on the fortieth anniversary of his ordination to the priesthood.

WHEREAS, The Very Rev. Thomas J. Conroy, pastor of Sacred Heart Church, Vailsburg, New Jersey, and director of hospitals in the Archdiocese of Newark, observed on March 19, 1967, the fortieth anniversary of his ordination to the priesthood; and,

WHEREAS, Monsignor Conroy has faithfully served his co-religionists of the Archdiocese of Newark in a pastoral and administrative capacity for forty years, and has, moreover, been active in community endeavors for the benefit of his fellow-citizens of all religions; and,

WHEREAS, Monsignor Conroy served both his country and his church as a chaplain in the United States Navy during World War II, including service with the Third Fleet in the Pacific Campaigns of that war; and currently, in addition to his pastoral and administrative duties, is state chaplain to the American Legion and the Ancient Order of Hibernians; and,

WHEREAS, Monsignor Conroy has been the recipient of various honors, during his long and distinguished career, including his elevation to the rank of domestic prelate in 1954; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. That the Senate extend its congratulations and commendation to Monsignor Conroy on the occasion of the fortieth anniversary of his ordination to the priesthood, and in recognition of his services to both his co-religionists and other citizens of this State and Nation.

2. That an authenticated copy of this resolution, signed by the President of the Senate and attested by the secretary, be transmitted to Monsignor Conroy.

With Senate committee amendments.

Signed—J. Edward Crabel, Maelyn S. Goldman, Frank J. Guarini, Jr., Richard R. Stout.

Mr. Feldman offered the following Senate committee amendments to Assembly Committee Substitute for Assembly Bill No. 21, which were read and adopted:

Amend page 1, title, line 2, after “Statutes,” delete “and”.

Amend page 1, title, line 4, after “(P. L. 1954, c. 85)”, insert ”, and amending chapter 130 of the laws of 1963”.

Amend page 1, section 1, line 20, after the word “routes.”, insert the following new sentences: “It shall be the obligation of the parent, guardian or other person having legal custody of the child attending a remote school other than a public school, except such schools operating for profit in whole or in part, to register said child with the office of the secretary of the board of education at the time and in the manner specified by rules and regulations of the State Board of Education in order to be eligible for the transportation provided by this act. Whenever any regional school district provides any transportation for pupils attending schools other than public schools pursuant to this act, said regional district shall assume responsibility for the transportation of all such pupils, and the cost of such transportation for pupils below the grade level for which the regional was organized, shall be prorated by the regional district to the constituent districts on a per pupil basis after approval of such cost by the county superintendent of schools. This paragraph shall not require school districts to provide any transportation to children attending a school other than a public school where the only transportation presently provided by said district is for school children transported pur-

suant to chapter 29 of the laws of 1966, as amended and supplemented.”.

Amend page 1, section 1, line 20, after the word “Any”, delete “such”; after the word “transportation”, insert “to a school other than a public school, except such school as is operated for profit in whole or in part,”.

Amend page 2, section 2, line 13, after line 13, insert the following new section:

“3. Section 1 of chapter 130 of the laws of 1963 is amended to read as follows:

“1. In addition to the provision of transportation for children living remote from any schoolhouse, and for mentally retarded and physically handicapped children, the board of education of any school district may provide, by contract or otherwise, in accordance with law and the rules and regulations of the State Board of Education, for the transportation of other children to and from [public] school.

“The cost of transporting children pursuant to this act shall not be included in calculating the amount of State aid for transportation of pupils.”.

Amend page 2, section 3, line 14, delete “3.”, and insert in lieu thereof “4.”.

Mr. Crabiel moved the following Senate committee amendment to Assembly Bill No. 112, which was read and adopted:

Amend page 1, section 1, line 8, after the word “way”, insert “on which passenger or freight services are operated, or to abandon, sell or lease any of its right of way over which services have previously been abandoned and title to such right of way currently remains with the railroad”.

Said nominations were referred to the Committee on Judiciary.

Mr. Waddington moved that the Senate do now go into Executive Session, which motion was unanimously carried, upon the conclusion of which and under the direction of the President, the Secretary called the Senate, when the following Senators appeared and answered the call:

Messrs. Bigley, Crabel, Farley, Feldman, Fernicola, Forsythe, Giblin, Goldman, Grossi, Guarini, Hiering, Hillery, Hughes, Inge, Keegan, Kelly, Kiefer, Lynch, Musto, O'Connor, Ozzard, Parsekian, Ridolfi (President), Scholz, Stout, Waddington, Woolfenden—27.

Mr. Kelly offered the following resolution, which was read and adopted:

WHEREAS, The Town of Kearny, named in honor of the distinguished Civil War hero, General Philip Kearny, is this year celebrating the centennial of its founding; and

WHEREAS, The 37,500 residents of the Town of Kearny are justifiably proud of the Town's one hundred years of progress and accomplishment as witnessed by its churches and synagogues, its outstanding system of public and parochial schools, its fine police, fire and public works departments, its diversified recreational and park facilities, and its public-spirited service organizations; and

WHEREAS, The industrial and business community of Kearny is proud of its growth in a most favorable and harmonious business climate so that goods manufactured in Kearny are shipped daily from Port Kearny to destinations around the globe; and

WHEREAS, The citizens and industries of the Town of Kearny have made major contributions to the political, social and economic growth of the State of New Jersey; now, therefore,

Be It Resolved, That the Senate of the State of New Jersey extend its congratulations and best wishes to the citizens of the Town of Kearny on this, the Town's one-hundredth anniversary; and

Be It Further Resolved, That the Senate recognize and welcome Mayor Joseph M. Healey, the members of the Kearny Centennial Commission, and student representatives from all of the public and parochial schools of Kearny who are present here today; and

Be It Further Resolved, That copies of this resolution, signed by the President of the Senate and attested by its Secretary, be forwarded to the Mayor and to the Centennial Commission of the Town of Kearny.

Messrs. Giblin, Fernicola, Inge and Goldman offered the following resolution, which was read and adopted:

A SENATE RESOLUTION of commendation and congratulations to Philip Lax of Maplewood, Essex County, New Jersey.

WHEREAS, On May 16, Philip Lax of Maplewood will be installed as President of District Grand Lodge No. 3, B'nai B'rith, which district includes the States of New Jersey, Pennsylvania, Delaware and West Virginia, and

WHEREAS, Mr. Lax has the distinction of being a Past President of the North Jersey Council of B'nai B'rith, the world's most active council and a Past President of the South Mountain B'nai B'rith Lodge in Maplewood, New Jersey, the world's largest lodge with more than 3,000 members; and

WHEREAS, Philip Lax, in addition to his accomplishments and continuing activities in B'nai B'rith, has gained recognition for his devotion to a variety of public service activities in his home community, this State and nationally;

WHEREAS, It is appropriate to afford due recognition to this outstanding New Jersey resident on the occasion of his installation; now, therefore,

Be It Resolved by the Senate of the State of New Jersey:

1. That the members hereby commend Philip Lax for his many accomplishments and express their sincere congratulations on his installation as President of District Grand Lodge No. 3 of B'nai B'rith.

2. That a copy of this resolution signed by the President of the Senate and attested by the Secretary of the Senate be transmitted to Philip Lax.

WHEREAS, The Township of Lakewood, incorporated by chapter 121 of the laws of 1892, this year marks the 75th anniversary of its creation as a municipality; and

WHEREAS, The said Township of Lakewood, favorably situated in the mild climate of the pine forests of the southern costal plain, and with the natural advantages of its situation having been diligently improved and beautified by the industry of its citizens, has gained nation-wide fame as an all-season resort and has spread its reputation far beyond the bounds of this State; and

WHEREAS, The citizens of the said Township of Lakewood are planning a week-long 75th anniversary celebration, from July 1 to July 8, 1967, to highlight this important milestone in the history of their municipality; and

WHEREAS, The Senate desires to join the citizens of Lakewood Township in recognition of this historic event; now, therefore,

Be It Resolved, That the Senate of the State of New Jersey extend its congratulations and best wishes to the

citizens and the governing body of the Township of Lakewood on its 75th anniversary.

Be It Further Resolved, That this resolution be spread upon the Journal of the Senate, and that a copy, signed by the President of the Senate and attested by the Secretary, be forwarded to the Honorable Joseph Buckelew, Mayor of the Township of Lakewood.

Sido L. Ridolfi, President
New Jersey Senate
383 West State Street
Trenton, New Jersey 08618

Dear Si:

This is to notify you that I herewith submit my resignation as New Jersey State Senator representing the Eighth Senatorial District, such resignation to become effective at 4:00 p.m. on Monday, July 10, 1967, or as soon thereafter as I take the oath of office as a member of the Board of Public Utility Commissioners, Department of Public Utilities, in and for the State of New Jersey.

I have thoroughly enjoyed my service as a member of one of the finest legislative bodies in the United States and am truly grateful for the many fine associations it has permitted me to develop. I look forward to my new activities in the Executive branch of government with a high degree of

interest, but I know that I will miss the vigor and excitement that are a prominent part of all the legislative activities.

Sincerely,

WILLIAM E. OZZARD.

SENATE BILL NO. 48

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 48, with my objections, for reconsideration.

Senate Bill No. 48 is designed to close a loophole which may exist in Section 18:14-3 of the Revised Statutes. That statute and this bill are intended to enable district boards of education to apply minimum age requirements for admission to kindergarten. The existing law has been construed to require that boards accept on transfer pupils from other schools when they reach the age of 5 years, even though such pupils were not old enough at the opening of school to qualify for admission. Thus, it has been possible for some parents to circumvent standards established by boards for admission to school of children who are under 5 years of age on October 1, by placing such a child in a private school and then transferring the child to the public school later in the school year when he reaches his fifth birthday.

Section 18:14-3 of the Revised Statutes, as amended by chapter 233 of the Laws of 1965, provides :

“Children *who have never attended any public or private school* may be admitted to a public school on or before October 1 following the opening of the school for the fall term, and at no other time except by a majority vote of all the members of the board of education of the school district in which the school is situated.”
(Emphasis added).

In *Wilcox v. Board of Education of Oceanport*, 1953-54 S. L. D. 75, the Commissioner of Education ruled that the underlined wording above makes the Section inapplicable to

children who have attended any school before seeking admission to the public school. At the time of the *Wilcox* case, the Section contained the wording "during the 10 days immediately following the opening of the school for the fall term." The amendment by chapter 233 of the Laws of 1965 changed this to "on or before *October 1* following the opening of the school for the fall term." The 1965 amendment, however, does not affect the interpretation placed on the Section in the *Wilcox* case.

I am in agreement with the purpose of Senate Bill No. 48 in closing this loophole which results in special treatment to those otherwise inadmissible children whose parents can afford to place them temporarily in a private school. It is generally agreed among educators that a child benefits by entering school together with others of his own age group and that educational and emotional harm may result if a child is enrolled when too young or immature. Boards of education should be able to apply a uniform minimum age standard within their districts with such exceptions as they may establish by rules or regulations for children who, though slightly under the minimum age, evidence such emotional maturity and intellectual ability as to justify their enrollment.

I am returning Senate Bill No. 48 only because of the possibility that one word in its language may be misconstrued so as to cause unnecessary confusion. In section 1, line 2, "eligible" might, conceivably, be regarded as broad enough to cover not only age but the domiciliary requirements of Section 18:14-1 of the Revised Statutes. The Statement of purpose indicates that the bill is intended to relate only to age requirements. In order that this intent be clearly expressed in the language of the bill, I recommend that the words "by reason of age", be inserted after "eligible". The other modifications I suggest are intended merely to increase slightly the clarity of the bill's language and to adjust its effective date.

Accordingly, I am returning Senate Bill No. 48 for reconsideration, with the recommendation that it be amended as follows:

On page 1, section 1, line 2, after "eligible" insert "by reason of age".

On page 1, section 1, line 2, delete "by" and insert in lieu thereof "on".

On page 1, section 1, line 3, delete “following the opening of school” and insert in lieu thereof “of that school year”.

On page 1, section 2, line 1, delete “July 1, 1967” and insert in lieu thereof “immediately”.

Respectfully,

RICHARD J. HUGHES,

Governor.

SENATE BILL NO. 161

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 161, with my objections, for reconsideration.

This bill would authorize municipalities to regulate by ordinance the entrances to and exits from parking yards and parking places which are open to the public or to which the public is invited.

The Department of Transportation has expressed serious reservations about this bill because of the possibility that municipal regulation of entrances to and exits from parking yards and parking spaces along State highways could interfere with the Department's efforts to apply uniform standards for access to and from the State Highway System. At present, access to and from State highways is strictly regulated and permits from the Department of Transportation are required. The Department is undertaking to tighten these uniform standards in accordance with concepts being developed by the National Highway Safety Bureau.

In order to meet the objection raised by the Department of Transportation, I suggest that entrances to and from State highways be exempted from this bill.

MONDAY, NOVEMBER 20, 1967

Accordingly, I herewith return Senate Bill No. 161 for reconsideration and recommend that it be amended as follows:

On page 2, section 1, line 28, after "invited" insert
 " , except that this shall not apply to entrances or exits
 to and from State highways".

Respectfully,

SENATE BILL No. 288

To the Senate:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Senate Bill No. 288, with my objections, for reconsideration.

This bill would require the inspection of motorcycles by the Division of Motor Vehicles and would mandate the use of certain safety devices in the operation of motorcycles. The provisions of the bill would take effect on January 1, 1968.

The need for such legislation is becoming increasingly apparent. There has been, in the last few years, a rapid growth in the popularity of motorcycles. Between 1965 and 1966 the number of motorcycles registered in this State increased from 28,828 to 40,555 and the indications are that this trend will continue. Unfortunately, however, the number of accidents involving motorcycles has also increased, and at an alarming rate. According to the 1966 statistics there was a 43% increase in the number of accidents involving motorcycles as compared with similar accidents in the previous year, and there was a 104% increase in the number of such accidents resulting in a fatality. Adequate steps, therefore, must be taken to protect motorcycle operators and their passengers, as well as the public in general. This bill which includes the recommended standards of the

Federal Highway Safety Program for motorcycles, along with a companion measure, Senate Bill No. 447, which deals with the licensing of motorcycle operators, will permit only capable and adequately protected persons to operate motorcycles in this State and this, hopefully, will result in a reduction of accidents involving motorcycles.

There has been, however, some question raised regarding the safety value of one of the requirements contained in Senate Bill No. 288, which requirement was not included in the recommended Federal Standards for motorcycles. Pursuant to section 3 of Senate Bill No. 288 all motor operated bicycles, tricycles and scooters included within the legal definition of motorcycle would have to be equipped with a crash bar. At my request the Division of Motor Vehicles reviewed the provisions requiring crash bars and has recommended its deletion. It would appear from the Division's investigation that it is not practical to install crash bars on all vehicles within the motorcycle classification and that the presence of crash bars does not improve the safety of motorcycles and, in certain cases, could prove to be a hazard. Therefore, I recommend that the crash bar requirement be deleted.

For this reason, I, herewith, return Senate Bill No. 288 for reconsideration and recommend that it be amended as follows:

On page 1, section 3, lines 18 and 19, delete the section in its entirety.

On page 1, section 4, line 20, delete "4" and insert in lieu thereof "3".

On page 1, section 5, line 24, delete "5" and insert in lieu thereof "4".

On page 2, section 6, line 9, delete "6" and insert in lieu thereof "5".

On page 2, section 7, line 12, delete "7" and insert in lieu thereof "6".

On page 2, section 8, line 20, delete "8" and insert in lieu thereof "7".

On page 2, section 9, line 26, delete "9" and insert in lieu thereof "8".

On page 2, section 10, line 30, delete "10" and insert in lieu thereof "9".

On page 2, section 11, line 36, delete "11" and insert in lieu thereof "10".

Respectfully,

RICHARD J. HUGHES,

Governor.
