DRCs allow residents to speak one-on-one to recovery representatives. FEMA program specialists are available to provide registration and other information, and to answer questions at the centers.

These include mitigation specialists who can provide guidance on cost-effective rebuilding and repair techniques to reduce property damage in future disasters.

In addition to FEMA program specialists, customer service representatives from the U.S. Small Business Administration (SBA) are available to answer questions about the SBA low-interest disaster loan program, and to assist with disaster loan applications.

Anyone affected by Hurricane Sandy is encouraged to apply for assistance before going to a DRC. Individuals can register for assistance and follow up on previous applications by registering online at www.DisasterAssistance.gov, or by web-enabled mobile device at m.fema.gov. By phone or 711/VRS, you can call **1-800-621-FEMA (3362)** or TTY **1-800-462-7585**.
