

The Port Authority of New York & New Jersey

April 2011

Monthly Traffic Report

Newark Liberty International John F.Kennedy International LaGuardia Stewart International Teterboro & regional satellite airport summaries

Aviation Department - Traffic Statistics

Doug Wilson
John Cuneo
Deyssi Mesa

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Regional passenger traffic grew 4.2 percent in April on a 3.4 percent scheduled capacity gain. Domestic traffic growth lagged international by a 0.8 percent to 11.4 percent ratio, with domestic to international seat gains of 2.3 to 7.2 percent. The region's traffic growth bettered ATA member airline averages, which showed 1.6 percent growth, split between 1.1 percent domestic and 6.2 percent international growth. A number of special factors need to be kept in mind regarding year-over-year comparisons, such as the disruption to traffic in 2010 from the Iceland volcano eruption.
