19:47-1.8 Throw of the dice

Upon selection of the dice, the shooter shall make a Pass Bet or Don't Pass Bet after which he shall throw the two selected dice so that they leave his hand simultaneously and in a manner calculated to cause them to strike the end of the table farthest from him.

(a) A roll of the dice shall be invalid whenever either or both of the dice go off the table or whenever one die comes to rest on top of the other.

(b) The persons listed in (e) below shall have the authority to invalidate a roll of the dice by calling "No Roll" for any of the following reasons:

1. The dice do not leave the shooter's hand simultaneously;

2. Either or both of the dice fail to strike an end of the table;

3. Either or both of the dice come to rest on the chips constituting the craps bank of chips located in front of the boxperson.

4. Either or both of the dice come to rest in the dice cup in front of the craps stickperson, or in front of the mini-craps dealer or stickperson, or on one of the rails surrounding the table;

5. The use of a cheating, crooked or fixed device or technique in the roll of the dice; and

6. For any other reason the craps boxperson or stickperson, or the mini-craps dealer or stickperson, considers the throw to be improper.

(c) The call of "No Roll" under either (b)1, 2 or 6 above shall, whenever possible, be made before both dice come to rest.

(d) A throw of the dice which results in the dice coming into contact with any match play coupons or chips on the table, other than the craps bank of chips located in front of the boxman, shall not be a cause for a call of "No Roll".

(e) "No Roll" may be called:

19:47-1.10 Point throw; settlement of wagers

(a) When the dice come to rest from a valid throw, the craps stickperson or the mini-craps dealer or stickperson shall at once call out the sum of the numbers on the high or uppermost sides of the two dice. Only one face on each die shall be considered skyward.

1. In the event either or both of the dice do not land flat on the table (for example, one edge of the die is resting cocked on a stack of chips), the side directly opposite the side that is resting on the chips or other object shall be considered uppermost and skyward. If more than one side of a die is resting on a stack of chips or other object, the roll shall be void and the dice shall be re-thrown.

2. In the event of a dispute as to which face is uppermost:

i. In craps, the boxperson shall have discretion to determine which face is uppermost or to order the throw be void and the dice be re-thrown; and

ii. In mini-craps, the floorperson shall have discretion to determine which face is uppermost or to order the throw be void and the dice be re-thrown.

(b) In craps, after calling the throw, the stickperson shall collect the dice and bring them to the center of the table between himself and the boxperson. All wagers decided by

that throw shall then be settled, following which the stickperson shall pass the dice to the shooter for the next throw. When collecting the dice and passing them to the shooter, the stickperson shall use a stick designed for that purpose.

(c) In mini-craps, after calling the throw, the dealer or stickperson shall collect the dice and bring them to the center of the table. All wagers decided by that throw shall then be settled, following which the dealer or stickperson shall pass the dice to the shooter for the next throw. The dealer shall then collect all of his or her cards except his or her original face up card and place them face down in the discard rack. The dealer shall then move his or her original face up card to the area of the layout designated for the dealer's third hand and shall deal a second card to his or her original face up card in accordance with N.J.A.C. 19:47-2.6(h) and any additional cards required by N.J.A.C. 19:47-2.12(b), except

This wager shall be known as a progressive blackjack wager.

(b) Prior to the first card being dealt for each round of play, each player may make a progressive blackjack wager by placing a one dollar gaming chip in the designated chip acceptor device at his or her betting position. 2. Verify that the appropriate light on the acceptor device has been illuminated; and
3. Have a casino supervisor validate the progressive blackjack payout pursuant to approved internal control procedures.

(h) All winning progressive blackjack wagers shall be paid in accordance with the amount on the primary meter when the player's regular blackjack wager is settled pursuant to N.J.A.C. 19:47-2.3(e), provided, however, if more than one player at a table has four black or four red aces on the first four cards, each player shall share equally in the amount on the progressive meter when the first player with four aces is to be paid.
