7:15-3.4 Water quality management plan amendment procedures

(a) The Department and the designated planning agencies shall propose amendments to the Statewide and area-wide WQM Plans whenever such amendments are necessary or desirable. Amendments may be proposed for various reasons, such as to implement or comply with applicable State or Federal law; respond to new circumstances; improve the economic, social, or environmental impact of WQM plans; or resolve issues disclosed through the consistency review procedure.

(b) Procedures for amendment of the Statewide WQM Plan are as follows:

1. Water quality related provisions in present and future rules adopted by the Department shall be considered to be part of the Statewide WQM Plan. Such provisions may not be adopted, amended, or repealed through the WQM plan amendment process under (b)5 below.

2. Priority systems, intended use plans and project priority lists for wastewater facilities that are developed by the Department and accepted by the United States Environmental Protection Agency (USEPA) pursuant to USEPA regulations, or that otherwise are developed by the Department under N.J.A.C. 7:22, shall be considered to be part of the Statewide WQM Plan. Such priority systems and project priority lists shall be adopted or revised in accordance with USEPA regulations and N.J.A.C. 7:22, as appropriate, and shall not be adopted or revised through the WQM plan amendment process under (b)5 below.

3. Statewide Sludge Management Plans, District Sludge Management Plans and sludge management rules that are promulgated or approved by the Department pursuant to N.J.S.A. 13:1E-1 et seq. shall be considered to be part of the Statewide WQM Plan. Such plans and rules shall be promulgated, revised, updated or approved in accordance with N.J.S.A. 13:1E-1 et seq., and shall not be promulgated, revised, updated, or approved through the WQM plan amendment process under (b)5 below.

4. Lists of water quality limited segments, lists of segments where TMDLs will be developed, and project priority lists for TMDL development which are developed

by the Department under N.J.A.C. 7:15-6 shall be adopted as amendments to the Statewide WQM Plan. TMDLs developed in accordance with N.J.A.C. 7:15-7 shall be adopted as amendments to the relevant Areawide WQM Plan(s). However, such lists, and TMDLs shall be adopted or revised in accordance with N.J.A.C. 7:15-6 or 7:15-7, as appropriate, and shall not be adopted or revised through the WQM plan amendment process under (b)5 below. The Department may also publish a draft amendment as an Interested Party Review document or as a pre-proposal prior to formal proposal of the amendment.

5. Components of the Statewide WQM Plan other than (b)1 through 4 above may be amended by using the procedure specified in (g) below, except that the Commissioner shall render the final decision identified in (g)9 below.

(c) Areawide WQM plans for designated areas may be amended by designated planning agencies pursuant to their approved plan amendment procedures. The Department may amend the areawide WQM plan for any non-designated area, pursuant to the procedures under (g) below. Amendments or provisions thereof for any areawide WQM plan whose specific purpose or effect is to address projects or activities covered by (i) and (j) below, or that are either proposed, constructed, operated or conducted by the State or Federal government, or that are regulated by the Solid Waste Management Act (N.J.S.A. 13:1E-1 et seq.), shall be processed only by the Department, regardless of whether the areawide WQM Plan is for a designated area or a non-designated area. By the mutual consent of the Department and the designated planning agency, the Department may also process all other amendments to an areawide WQM plan for a designated area.

(d) Plan amendment procedures developed by the designated planning agencies shall be consistent with this section and approved by the Department. Such procedures shall include, but need not be limited to, provisions that:

1. Allow any interested person to submit to the designated planning agency written, documented petitions to amend the areawide WQM Plan;

2. Provide for review by the Department of all proposed amendments prior to public notice;

3. Allow the Department to identify governmental entities, sewerage agencies, and BRC-regulated sewer or water utilities that shall be requested to issue written statements of consent for proposed amendments, such parties being in addition to any governmental entities, sewerage agencies, and BRC-regulated sewer or water utilities identified by the designated planning agency;

4. Provide for publication of public notice of proposed amendments in the New Jersey Register and in a newspaper of general circulation in the designated area; and

ii. Submit written requests to the ORP that the Department extend the public comment period up to 30 additional days; or

iii. Submit written requests to the ORP that the Department hold a non-adversarial public hearing.

3. The modifications set forth in (h)1 and 2 above shall be used only for amendments whose sole purpose is to address the following projects:

i. Schools, health care facilities, or correctional facilities, if such schools or facilities are publicly owned or operated; or

ii. New sewers or pumping stations to serve a project or activity that is partially within a future sewer service area depicted in an areawide WQM plan, if such sewers or pumping stations would convey wastewater from such project or activity to the existing DTW whose sewer service area is depicted in that WQM plan, and if a resolution of consent is received from the owner or operator of that DTW. If a project or activity is partially or entirely within two or more depicted sewer service areas, the new sewers or pumping stations may convey wastewater to one or more such existing DTW, provided that resolutions of consent are received from the owners or operators of the affected DTW in each of the sewer service areas. This subparagraph shall apply only to wastewater service area modifications of less than 10 acres.

iii. Notwithstanding (h)3ii above, the modifications set forth in (h)1 and 2 above shall not be used for sewers or pumping stations whose construction would violate N.J.A.C. 7:14A-12.21, or that would convey wastewater to DTW whose capacity must by statute, rule or other legal requirement be reserved for other projects or activities. The Department may require the applicant to provide proof from the owner or operator of DTW that would receive the conveyed flow that capacity is available for the applicant's project or activity. This paragraph applies whether treatment works approvals are sought for both construction and operation, or for construction only, of sewers or pumping stations.

(i) Effluent limitations, including, but not limited to, water quality based effluent limitations, and schedules of compliance established in accordance with N.J.A.C. 7:15-3.1 as NJPDES permit conditions under N.J.A.C. 7:14A-8.6 shall be considered to be part of the areawide WQM plans. NJPDES permit conditions shall be modified only through the procedures specified in the Department's New Jersey Pollutant Discharge Elimination System rules (N.J.A.C. 7:14A), in accordance with applicable Department rules, and shall not be modified through the WQM plan amendment process under (c) or (g) above. This subsection, however, shall not preclude the adoption of effluent limitations or schedules of compliance in areawide WQM plans under (g) above, prior to the establishment of such effluent limitations or compliance schedules as new or revised NJPDES permit conditions.

(j) (Reserved)

(k) Water quality management planning related documentation in present and future 201 Facilities Plans that are approved by the Department and USEPA after May 31, 1975 shall constitute amendments to areawide WQM plans. This documentation may include, but is not limited to: selected facilities alternative, future design capacity and flows, treatment levels, sewer service areas, septage management areas, sludge and septage management and disposal plans, environmental constraints mapping, identification of management agencies, and grant conditions. Itemized abstracts of the appropriate documentation shall be available at the Division of Water Resources. Water quality management planning related documentation in 201 Facilities Plans completed on or prior to May 31, 1975 may be adopted into areawide WQM plans on a case-by-case basis under (c) or (g) above.

(l) In preparing amendments to areawide WQM plans, the following policies shall be adhered to:

1. Existing regional DTW shall be used where such use is cost-effective, environmentally sound, and feasible from an engineering standpoint. Expansion or upgrading of existing regional DTW is generally preferable to construction of additional DTW that would produce additional direct discharges to surface water at new locations.

2. Where a sewer connection ban is in effect under N.J.A.C. 7:14A-12.21 on a DTW, the sewer service area for that DTW shall not be altered unless such alteration would, even in the absence of the sewer connection ban, be cost-effective, environmentally sound, and feasible from the engineering standpoint.

State, Dept. of Environmental Protection*, 242 N.J.Super. 519, 577 A.2d 845 (A.D.1990).

Failure to timely act on application to amend does not require automatic approval. *Toll Bros., Inc. v. State, Dept. of Environmental Protection*, 242 N.J.Super. 519, 577 A.2d 845 (A.D.1990).

Interested party may bring action to compel Department of Environmental Protection to act. *Toll Bros., Inc. v. State, Dept. of Environmental Protection*, 242 N.J.Super. 519, 577 A.2d 845 (A.D.1990).

7:15-3.5 Water quality management plan review, revision, and certification

(a) The Department and the designated planning agencies shall periodically review Statewide and areawide WQM Plans in order to propose appropriate amendments under N.J.A.C. 7:15-3.4, and to prepare appropriate revisions under this section.

(b) The Department and the designated planning agencies shall prepare revisions to Statewide and areawide WQM Plans under this section whenever such revisions are necessary to:

1. Correct, clarify, or update erroneous, unclear, or outdated statements in Statewide and areawide WQM Plans regarding:

- i. Development and wastewater treatment facilities existing at the time of the most recently adopted areawide WQM plan or amendment affecting the site; or

- ii. Proposed projects, provided that all other Department approvals were received, in full compliance with applicable regulations, at the time of the most recently adopted areawide WQM plan or amendment affecting the site;

2. Transfer or assign wastewater management plan responsibility under N.J.A.C. 7:15-5.13;

3. Revise schedules for submission of wastewater management plans under N.J.A.C. 7:15-5.23(g); or

4. Provide for the following substantive changes in Statewide and areawide WQM plans where the Department determines no significant individual or cumulative impacts will occur to environmentally sensitive areas or other natural resources (such as water supplies) due to the proposed revision (individually or in combination with past revisions in the area), that the changes are consistent with N.J.A.C. 7:15-3.6 and 3.7, and that certain directly affected municipal and county agencies and other interests as identified by the Department have been provided an opportunity to review and comment on the proposed revision:

i. Any increase in flow (including both increased loadings and no increased loadings) from industrial treatment works where no change in service area or discharge type (for example, discharge to surface water or ground water) is proposed and the discharge is not to a waterbody segment for which a TMDL has been proposed or adopted under N.J.A.C. 7:15-7. The Department may process such revisions prior to or simultaneously with a NJPDES permit for the same change in flow;

ii. The transfer of sewer service area from one domestic treatment works to another, provided that the approved sewer service areas in the areawide WQM plan are currently contiguous in the area to be transferred, neither domestic treatment works is subject to a sewer connection ban, the proposed revision includes only areas currently designated for sewer service, both the sending and receiving wastewater management planning agencies concur with the proposed revision, and no new or expanded treatment works other than sewer line extensions is proposed as part of the revision;

iii. Any increase of 20,000 gpd or less in planned wastewater flow to an on-site NJPDES-permitted discharge to ground water for a school or public institution, using the same general type of treatment works (for example, direct discharge to ground water, spray irrigation);

iv. Any change in the estimated wastewater flow (see N.J.A.C. 7:15-5.16(b)8) or design capacity (see N.J.A.C. 7:15-5.16(b)9) to a NJPDES-permitted discharge to ground water from less than 20,000 gpd to more than 20,000 gpd, provided (b)4v below is satisfied and the same general type of treatment works is proposed;

v. Expansion of a future sewer service area to contiguous lots, where the expansion involves less than 100 acres, contributes less than 8,000 gallons per day of additional wastewater flow, and does not create a significantly new pattern of sewered development such that a significant potential or incentive is created for additional revisions or amendments to open new areas to sewered development.

(c) The documents that are automatically adopted into the Statewide or areawide WQM Plans under N.J.A.C. 7:15-3.4(b)1 through 4, and 7:15-3.4(i) shall not be revised under this section.

(d) The procedure for revision of Statewide and areawide WQM plans is as follows:

1. The Governor or his designee shall adopt revisions to areawide WQM plans and the Commissioner shall adopt revisions to the Statewide WQM Plan. Such revisions shall take effect immediately, unless the adoption notice specifies otherwise.

2. The Department shall, on an annual basis, make publicly available a list of adopted revisions to WQM plans. Under N.J.A.C. 7:15-3.4, interested persons may submit petitions to amend WQM plans to repeal or modify such revisions.

(e) Designated planning agencies shall revise areawide WQM Plans in accordance with procedures established by such agencies and approved by the Department. All revisions to areawide WQM plans are valid only upon their adoption by the Governor or his designee.

(f) The Governor or his designee shall certify adopted WQM Plans in accordance with United States Environmental Protection Agency regulations.
