I am aware that this Voucher is required to be prepared by the regulations of the Casino Control Commission and I may be subject to civil or criminal liability if any material information provided by me is willfully false."

19:45-1.11A Jobs compendium submission

(a) Each applicant for a casino license shall, pursuant to N.J.S.A. 5:12-70j and 99a(2) and (3), prepare and maintain a jobs compendium consistent with the requirements of this section detailing job descriptions and lines of authority for all personnel engaged in the operation of the hotel, casino and casino simulcasting facility. Unless otherwise directed by the Commission, a jobs compendium shall be submitted to the Commission for approval at least six months prior to the projected date of issuance of a certificate of operation. The Commission shall review each jobs compendium and shall determine whether the job descriptions and tables of organization contained therein conform to the licensing or registration and chain-of-command requirements of the Act and the Commission's regulations. If the Commission finds

any insufficiencies, it shall specify the same in writing to the casino license applicant, who shall make appropriate alterations. When the Commission determines a submission to be adequate with respect to licensing or registration and chain-of-command, it shall notify the casino license applicant accordingly. No casino licensee shall commence gaming operations unless and until its jobs compendium is approved by the Commission.

(b) A jobs compendium shall include the following sections, in the order listed:

1. An alphabetical table of contents listing the position title and job code for each job description included in (b)3 below and the page number on which the corresponding job description may be found;

Each page of a table of organization shall specify the following:

i. The date of its submission;

ii. The date of the previously submitted table of organization which it supersedes; and

iii. A unique title or other identifying designation for that table of organization.

3. A description of each employee position which accurately corresponds to the position title as listed in the table of organization and in the alphabetical table of contents. Each position description shall be contained on a separate page, organized by departments or divisions, and shall include, at a minimum, the following:

i. Position title and corresponding department;

ii. Salary range;

iii. Job duties and responsibilities;

iv. Detailed descriptions of experiential or educational requirements;

v. Projected number of employees in the position;

vi. Equal employment opportunity class or subclass;

vii. Proposed registration or license rank consistent with the requirements of the Act and the Commission's rules;

viii. The date of submission of each employee position job description and the date of any prior job description it supersedes; and

ix. The date of submission and page number of each table of organization on which the employee position title is included.

(c) Except as otherwise provided in (d) below, any amendment to a previously approved jobs compendium,

including any amendment to a table of organization, may be implemented by the casino licensee without the prior approval of the Commission, provided that:

1. The amendment is immediately recorded in the jobs compendium maintained by the licensee on its premises; and
2. The amendment is submitted to the Commission by the end of the business day on the date of implementation, including at a minimum, the following:
 - i. A detailed cover letter listing by department each position title to which modifications have been made, a brief summary of each change, instructions regarding any changes in page numbers and the date of implementation; and
 - ii. The proposed changes to the information required by (b) above, including the corresponding job descriptions and tables of organization, contained on pages which may be used to substitute for those sections of the jobs compendium previously approved by the Commission.

(d) A casino licensee shall not be required to comply with the filing requirements of (c) above for amendments to job descriptions for the following positions:

1. Positions which do not require a license or registration;

2. Positions which require a casino service employee registration, provided that the casino licensee files with the commission a notice of any addition, deletion or amendment to any position that requires casino service employee registration. Such notice shall include the title, department, job code, salary grade and table of organization on which that position is identified.

(e) Notwithstanding any other requirement of this section, each casino shall submit a complete and up-to-date jobs compendium in accordance with (a) above to the Commission 18 months after its receipt of a certificate of operation and every two years thereafter, unless otherwise directed by the Commission.

(f) Each casino licensee shall maintain on its premises a complete, updated copy of its jobs compendium which shall be made available for review upon the request of the Division or the Commission.

(g) Whenever required by this section, a casino licensee shall file three copies of a jobs compendium and three copies of an amendment to a jobs compendium with the Commission. A casino license applicant shall file four copies of a jobs compendium with the Commission and one copy with the Division. Each copy shall be in a format prescribed by the Commission, including a cover indicating the name of the casino licensee or applicant, the date of the submission and the label "Jobs Compendium Submission" or "Jobs Compendium Amendment" as appropriate.

(h) Each casino licensee shall submit to the Commission a list of employees who have received compensation of \$100,000 or more, including salary, bonuses, incentives, profit sharing or any other compensation as indicated on the employees' annual Internal Revenue Service Form W-2. be maintained and controlled by the slot department. The other key, which shall be different from the key securing the corresponding slot machine, shall be maintained and controlled by the casino security department, in a secure area within that department, and access to that key may be gained only by a supervisor in that department. Removal of the key from this area may be undertaken only for use and return no later than the end of the shift of the department member to whom the key was issued, and upon the approval of a supervisor of that department, and entry of the following information into a log:

- i. The signature of the department member to whom the key was issued;
 - ii. The signature of the supervisor authorizing such issuance;
 - iii. The date and time issued; and
 - iv. The date and time replaced; and
3. Include a device that indicates when the door of the hopper storage area is open.

(d) Hopper storage areas shall be filled and utilized in accordance with the procedures in N.J.A.C. 19:45-1.41 and a casino licensee's system of internal controls. No hopper storage area and no compartment within a hopper storage area that supplies two or more slot machines shall contain more than triple the hopper inventory level of each of the hoppers in its corresponding slot machine.

19:45-1.37 Slot machines and bill changers; identifications; signs; meters

(a) Unless otherwise authorized by the Commission, each slot machine in a casino shall have the following identifying features:

1. A manufacturer's serial number affixed to the outside of the slot machine cabinet in a location as approved by the Commission.
2. An asset number that is permanently imprinted, affixed or impressed on the outside of the machine. The asset number must be conspicuous and clearly visible to persons involved in removing or replacing the slot drop bucket or slot drop box in the slot machine and through the casino licensee's closed circuit camera coverage system. The size and location of the asset number are subject to prior approval by the Commission;
3. A display located conspicuously on the front of the slot machine that automatically illuminates when a player has won a jackpot not paid automatically and totally by the slot machine and which advises the player to see an attendant to receive full payment;
4. A display on the front of the slot machine that provides fair notice of the following:
 - i. The rules of play, character combinations which will award payouts and the related payouts;
 - ii. If the slot machine offers a payout of merchandise or some other thing of value, a clear description of the merchandise or thing of value including its cash

equivalent value (unless the payout is an annuity jackpot), the dates the merchandise or thing of value will be offered if the casino licensee establishes a time limit for offering the merchandise or thing of value as provided in N.J.A.C. 19:45-1.40A, and the availability or unavailability to the patron of the optional cash equivalent value authorized by N.J.A.C. 19:45-1.40A(m). The display need only contain the name or a brief description of the merchandise or thing of value offered, provided that a sign containing all of the information specified in (a)4ii above shall be displayed in a location near the slot machine as approved by the Commission;

iii. If the slot machine offers a progressive jackpot, the dates the progressive jackpot will be offered and the payout limit, if the casino licensee establishes a time limit or payout limit as provided in N.J.A.C. 19:45-1.39. If no time limit or payout limit is established, the display shall state that the casino licensee reserves the right to change or discontinue the progressive slot machine upon 30 days notice. If no time limit may be established as provided in N.J.A.C. 19:45-1.39(n), the display shall state that the progressive jackpot amount may not be removed until won by a patron. The display need not contain this information provided that a sign which does contain this information shall be displayed in a location near the slot machine as approved by the Commission;

iv. If the slot machine is equipped with a payout-only hopper, a statement either that:

- (1) Any prize tokens that are paid out as a jackpot from that hopper cannot be used to activate play at any slot machine; or
- (2) Any coins or slot tokens that are paid out from that hopper cannot be used to activate play at that slot machine; and

v. If the slot machine is equipped with multiple hoppers and has the win meter permitted by (b)4ii below and N.J.A.C. 19:46-1.26(c)5, a statement, approved by the Commission, that reasonably explains to patrons the information disclosed by the win meter.

5. A mechanical, electrical, or electronic device that automatically precludes a player from operating the slot machine after a jackpot requiring a manual payout and requires an attendant to reactivate the machine;

6. A light on the pedestal above the slot machine that automatically illuminates when the door to the slot machine or any device connected which may affect the operation of the slot machine is opened; and

7. A location number that is affixed to the outside of the machine. The location number must be conspicuous and clearly visible to persons involved in removing or replacing the slot drop bucket or slot drop box in the slot machine and through the casino licensee's closed circuit camera coverage system. The size and location of the

location number are subject to prior approval by the Commission.

(b) Unless otherwise authorized by the Commission, each slot machine in a casino shall be equipped with the following:

1. A mechanical, electrical or electronic device, to be known as an "in-meter" that continuously and automatically counts the number of coins or slot tokens placed by patrons into the machine for the purpose of activating play;

2. A mechanical, electrical or electronic device, to be known as a "drop meter," that continuously and automatically counts the number of coins or slot tokens that are dropped into the machine's slot drop bucket or slot drop box;

3. For each hopper in a slot machine, a separate mechanical, electrical or electronic device, to be known as a "jackpot meter," that continuously and automatically counts, for that hopper only, the number of coins, prize tokens or slot tokens that are automatically paid by the machine from the corresponding hopper and that displays the aggregate number so counted; provided, however, that:

i. In lieu of the jackpot meter for a payout-only hopper displaying the aggregate number of coins, slot tokens or prize tokens paid out from that hopper, each casino licensee that uses a slot machine which is capable of converting the number of coins, slot tokens or prize tokens paid out from a payout-only hopper into the equivalent number of coins or slot tokens that match the denomination of the coin or slot token which that slot machine is designed to accept in order to activate play (the "machine denomination equivalent"), may, in accordance with internal controls approved by the Commission, set the jackpot meter connected to each payout-only hopper in that slot machine to continuously and automatically count and display the aggregate number of coins, slot tokens or prize tokens paid out from that hopper by its machine denomination equivalent (for example, the jackpot meter on a 25c slot machine may display the payout of one \$3.00 prize token as the payout of "12" quarters); and

ii. Each slot machine with multiple hoppers may have a single jackpot meter to count and display the aggregate number of coins, slot tokens or prize tokens paid out from that machine's hoppers provided that:

(1) Each hopper is connected to that meter;

(2) The jackpot meter counts and displays, in accordance with (b)3i above, the aggregate number of coins, slot tokens or prize tokens paid out from a payout-only hopper by its machine denomination equivalent; and

(3) Each payout-only hopper has a separate jackpot meter, to be known as a "payout-only jackpot meter," that counts and displays the aggregate number of coins, slot tokens or prize tokens actually paid out from that hopper only; and

4. A mechanical, electrical or electronic device, to be known as a "win meter," visible from the front of the machine, that, upon a player hitting a winning combination, advises the player of the number of coins, prize tokens or slot tokens for that round that have been paid to the player by the machine from the corresponding hopper; provided, however, that multiple win meters, as provided in (b)4i or ii below after approval of the casino licensee's internal controls therefor, shall be used on each multiple hopper slot machine whenever one or more winning combinations that are hit on the same round of play at that machine entitle the winning player to automatically receive coins, slot tokens or prize tokens from both hoppers and each hopper contains a different denomination of coins, slot tokens or prize tokens, as follows:

i. A separate win meter for each hopper that, for the round in which a winning combination is hit, advises the winning player of the actual number of coins, slot tokens or prize tokens won from that hopper only; or

ii. A win meter to which each hopper is connected that advises the winning player of the aggregate number of coins, slot tokens or prize tokens won that round from both hoppers after first converting the aggregate number of any coins, slot tokens or prize tokens won on that round from a payout-only hopper into its machine denomination equivalent, and a separate win meter, to be known as a "payout-only win meter," connected to each payout-only hopper that advises the player of the number of coins, slot tokens or prize tokens actually won on that round from the corresponding hopper only (for example, a win meter on a multiple hopper 25c slot machine may, pursuant to this paragraph, record the payout, on the same round of play, of one \$3.00 prize token and two quarters as the payout of "14" quarters, provided there is a separate payout-only win meter advising the player that one prize token was paid out).

(c) Unless otherwise authorized by the Commission each slot machine which does not totally and automatically pay the full amount of a jackpot to a patron shall be equipped with a mechanical, electrical or electronic device to be known as a "manual jackpot meter" that continuously and automatically records a pulse(s) for a predetermined number of coins or slot tokens that are to be paid manually.

(d) Unless otherwise authorized by the Commission, each slot machine that accepts currency shall have meters that accomplish the objectives set forth in (b) and (c) above.

(e) Unless otherwise authorized by the Commission, each slot machine that has an attached bill changer shall also be equipped with mechanical, electrical or electronic devices as follows:

1. A "cash box" meter that continuously and automatically records the total dollar amount of all currency accepted by the bill changer or, as an alternative, a connection to a computer system approved by the Commission that determines the total dollar amount of all currency accepted by the bill changer from data supplied from the bill meters required by (e)2 below;

2. A number of "bill meters," that continuously, automatically and separately count, for each denomination of currency accepted by the bill changer, the actual number of bills accepted by the bill changer; and

3. If the attached bill changer can accept coupons but does not contain the coupon meters identified in N.J.A.C. 19:45-1.46B:

i. A "numerical coupon meter" that continuously, automatically and separately counts the total number of all coupons accepted by the bill changer; and

ii. A "value coupon meter" that continuously, automatically and separately counts the total dollar value of all coupons accepted by the bill changer.

(f) All meters described in this section and in N.J.A.C. 19:46-1.26 shall be placed in a position so that the numbers thereon can be read and recorded without opening the slot machine.

(g) Each casino licensee shall set each of its slot machines to pay out, at minimum, 83 percent of the amount of coins, currency or slot tokens that are placed by patrons into that slot machine and shall maintain a record of each slot machine setting and theoretical payout percentage. No payout of any merchandise or thing of value or payment of cash in lieu of any merchandise or thing of value pursuant to N.J.A.C. 19:45-1.40A, or cash or noncash complimentary issued pursuant to N.J.A.C. 19:45-1.9(I), or any projected progressive amount in excess of the initial or reset amount shall be included in determining whether a slot machine meets the 83 percent minimum payout requirement. No cash issued to a slot machine patron shall result in a deduction from gross revenue unless the patron's entitlement to the payment is determined by the approved program that controls the slot machine and the payment is recorded on the jackpot or manual jackpot meter required by (b)3 and (c) above or the progressive jackpot meter required by N.J.A.C. 19:45-1.39(b)2.

(h) Each slot machine in a casino shall have such test connections as may be specified by the Division and approved by the Commission for the on-site inspection, examination, and testing of such machine.

(i) Each slot machine in a casino shall have devices, equipment, features and capabilities as may be required by the Commission for that particular model of slot machine after the prototype model is tested and examined by the Division.

(j) If the probability of hitting any jackpot that is offered by a slot machine is greater than 34 million to one, the slot machine shall not be approved by the Commission unless it is a linked progressive slot machine.

19:45-1.37A Electronic transfer credit systems

(a) A casino licensee may operate an electronic transfer credit system which permits a patron to convert cash complimentaries accumulated by the patron pursuant to N.J.A.C. 19:45-1.9(f) or received by the patron pursuant to N.J.A.C. 19:45-1.9(g) through (i) into electronic credits and to have those credits transferred directly to a slot machine.

(b) All aspects of an electronic transfer credit system, including all hardware and software utilized therein, shall be subject to review and approval by the Commission prior to the implementation of the system by the casino licensee. The internal control procedures submitted by the casino licensee shall address the integrity, security and control of its electronic transfer credit system and shall, without limitation, include:

1. An overview of the system design;
2. System access restrictions including, at a minimum, copies of all menus;
3. Hardware and software controls;
4. Magnetic tape controls;
5. Override policies and restrictions;
6. Copies of all reports generated related to the use of electronic transfer credits;
7. Backup and recovery procedures and failure analysis;
8. The duties and responsibilities of the MIS, internal audit, slot and casino accounting departments with regard to the electronic transfer credit system;
9. Access controls;
10. Procedures for handling customer disputes;
11. Network security;
12. Audit programs; and
13. The manner in which cash complimentaries in the form of electronic credits shall be issued, and how the recipients of those credits shall be identified.

(c) Each transfer of electronic credits to a slot machine authorized by this section shall be initiated by a patron using an access control approved by the Commission. All access controls shall require the use of a unique access code for each patron, which access code shall be selected by and only available to the patron.

(d) An electronic transfer credit system shall not permit a patron to transfer more than \$400.00 in electronic credits to a slot machine in a single transaction.

(e) A record of each transfer of electronic credits to a slot machine authorized by this section shall be maintained by the casino licensee and shall be identified by, at a minimum, the date, time and the asset number of the slot machine to which the transfer occurred and an identification number assigned to the patron who initiated the transaction. The identification number assigned to each patron for the purposes of this subsection shall be different from the unique access code selected by that patron as part of an access control.

(f) In addition to the requirements of N.J.A.C. 19:45-1.37(b), each slot machine which can be activated through the use of an electronic transfer credit shall be equipped with an "electronic transfer credit meter" that continuously and automatically increments in an amount equal to the value of any cash complimentaries which are converted into electronic credits and transferred to that slot machine by a patron. The electronic transfer credit system shall store this information in machine-readable form and such stored data shall not be susceptible to unauthorized alteration or deletion by any person. On a daily basis, a member of the casino accounting department shall generate a report of the amounts withdrawn from patron accounts and attach a copy of such report to the Slot Win Report in accordance with (h) below.

(g) No slot machine may be connected to, or disconnected from, an electronic transfer credit system without the prior written approval of the Commission.

(h) Each casino licensee shall develop a report or reports which shall be used by a casino accounting department employee to audit the system on a daily basis. Once the audit has been completed, the casino accounting department employee shall sign the report(s) and record the appropriate figures from the report(s) on the Slot Win Report. The report(s) shall be attached to the Slot Win Report for that gaming day. The report(s) required by this subsection and all related audit procedures shall be approved by the Commission.

(i) On at least a monthly basis, each casino licensee using an electronic transfer credit system shall provide a statement to each patron who has participated in the system that month. The statement shall include, at a minimum, the patron's beginning monthly balance, credits earned pursuant to N.J.A.C. 19:45-1.9(f), credits transferred to a slot machine pursuant to this section and the patron's monthly ending balance. In addition, if requested by a patron, the casino licensee shall have the ability to provide a detail account of all electronic transfer credit transactions initiated by that patron.

(j) No adjustment to the amount of any electronic transfer credit shall be made by a casino licensee without the approval of the Commission.

New Rule, R.1996 d.486, effective October 21, 1996.

3. If a casino security department member has not signed the Request, the slot attendant or slot attendant supervisor shall provide the duplicate Payout to the casino security department member who shall verify that the winning characters of the slot machine and the amount to be paid match those which appear on the duplicate Payout. If the jackpot amount is \$25,000 or more and the slot shift manager has not signed the Request, the slot shift manager shall similarly verify that the winning characters of the slot machine and the amount to be paid match those which appear on the duplicate Payout;

4. Once the verifications required by (m)3 above have been completed, if the payment is less than \$10,000, the slot attendant or slot attendant supervisor shall pay the winning patron in the presence of the casino security department member who verified the winning characters and the amount to be paid, if the payment is \$10,000 or more but less than \$25,000, the payment shall be made by a slot attendant supervisor in the presence of the casino security department member who verified the winning characters and the amount to be paid, and if the payment is \$25,000 or more, the payment shall be made in the presence of the casino security department member and the slot shift manager who verified the winning characters and the amount to be paid. Once the patron has been paid, all casino personnel required by this section to witness the payment shall sign the duplicate Payout attesting to the verification of the characters, the accuracy of the information on the Payout and the disbursement of the payment to the winning patron;

5. If a Receipt was issued and all the required verifications of the characters were completed in accordance with (b) above, the cashier shall give the slot attendant or slot attendant supervisor the original Receipt along with the duplicate Payout in accordance with (m)2 above to be transported with the payment. The patron shall be required to present the duplicate Receipt to the slot attendant or slot attendant supervisor and sign it in his or her presence in order to receive the payment. The slot attendant or slot attendant supervisor shall compare the duplicate Receipt to the original Receipt and if in agreement make the payment to the winning patron;

6. Once the patron has been paid and all necessary signatures have been obtained on the duplicate Payout in accordance with (m)4 above, a casino security department member shall as expeditiously as possible deposit the duplicate Payout into a locked accounting box at the security podium or other location as approved by the Commission;

7. The slot attendant or slot attendant supervisor shall immediately return the original and duplicate Receipt, if applicable, to the slot booth, cashiers' cage or master coin bank; and

8. The cashier shall attach the Request, if applicable, and the original and duplicate Receipt, if applicable, to the original Payout. If the disbursement is made from a

slot booth all forms shall be forwarded by the end of the gaming day to the master coin bank for reimbursement. If the disbursement is made from the cashiers' cage, all forms shall be forwarded by the end of the gaming day to the main bank for reimbursement.

(n) Nothing in this section shall preclude the use of a computerized data storage system, as approved by the Commission, that electronically records the information required on a Request.

(o) At the end of each gaming day, at a minimum, all forms required by this section shall be forwarded as follows:

1. The original Payout with the attached Request, if applicable, and the original and duplicate Receipt, if applicable, shall be forwarded to the accounting department, which, as reasonably practicable after receipt, shall confirm that the information required to appear thereon pursuant to (b), (d) and (i) above agrees with the information required to appear on the triplicate Payout or in stored data pursuant to (i) above; and

2. The duplicate Payout shall be collected from the locked accounting boxes located at the security podium or other approved location by an accounting department employee and returned to the accounting department, which, as reasonably practicable after receipt, shall record the information therefrom on the Slot Win Sheet and shall confirm that the information required to appear on the duplicate Payout pursuant to (i) above agrees with:

i. The meter reading recorded on the Slot Meter Sheet; and

ii. The information required to appear on the triplicate Payout or in stored data pursuant to (i) above.

(p) No casino licensee shall offer a jackpot of prize tokens unless that jackpot is totally and automatically paid directly from the slot machine.

Casinos. Steven P. Bann, 133 N.J.L.J. No. 14, 54 (1993).

19:45-1.40A Jackpot payouts of merchandise or other things of value

(a) This section shall apply to all jackpot payouts of merchandise or other things of value, including annuity jackpots as defined in N.J.A.C. 19:45-1.40B, except where such annuity jackpots are specifically exempted herein.

(b) Whenever a casino licensee offers any merchandise or thing of value as part of a slot machine payout, such merchandise or thing of value shall not be included in the total of all sums paid out as winnings to patrons for purposes of determining gross revenue or be included in determining the payout percentage of any slot machine. The cash equivalent value of such merchandise or thing of value shall be determined in accordance with the following requirements:

1. Any merchandise or thing of value of a type sold directly to the public in the normal course of a casino licensee's business shall be recorded at an amount based upon the full retail price normally charged for such item;

2. Any merchandise or thing of value which is of a type not offered for sale to the public in the normal course of a casino licensee's business but which is provided directly to the patron by the casino licensee shall be recorded at an amount based upon the actual cost to the casino licensee of providing such item;

3. Any merchandise or thing of value provided directly or indirectly to the patron on behalf of a casino licensee by a third party not affiliated with the casino licensee shall be recorded at an amount based upon the actual cost to the casino licensee of having the third party provide such item;

4. Any merchandise or thing of value provided directly or indirectly to the patron on behalf of a casino licensee by a third party who is affiliated with the casino licensee shall be recorded by the casino licensee in accordance with the provisions of this section as if the affiliated party were the licensee.

(c) The casino licensee shall retain and make available to the Commission and Division upon request supporting documentation relating to the acquisition and valuation of any merchandise or thing of value to be offered as a payout and shall accumulate the total cash equivalent value and number of such payouts. The supporting documentation shall include a detailed description of the merchandise or thing of value and shall specifically identify which slot machines offer which merchandise or things of value as payouts. If the payout is in the form of an annuity jackpot, the documentation shall include all annuity contracts purchased pursuant to N.J.A.C. 19:45-1.40B.

(d) Whenever a patron wins a jackpot which includes any merchandise or thing of value, an accounting representative, with no incompatible functions, shall prepare a Payout Slip ("Slip"). Such Slips shall be serially prenumbered forms, each series of Slips shall be used in sequential order, and the series of numbers of all Slips received by a casino shall be accounted for by employees independent of the cashiers' cage and the slot department. All original and duplicate void Slips shall be marked "Void" and shall require the signature of the preparer.

(e) For establishments in which Slips are manually prepared, the following procedures and requirements shall be observed:

1. Each series of Slips shall be a three-part form, at a minimum, and shall be inserted in a locked dispenser that will permit an individual Slip in the series and its copies to be written upon simultaneously while still locked in the dispenser, and that will discharge the original Slip and a duplicate copy while the triplicate copy remains in a continuous, unbroken form in the dispenser; and

2. Access to the triplicate copy shall be maintained and controlled at all times by employees responsible for controlling and accounting for the unused supply of Slips, placing Slips in the dispensers, and removing from the dispensers each day the triplicate copy remaining therein. These employees shall have no incompatible functions.

(f) For establishments in which Slips are computer prepared, each series of Slips shall be a two-part form, at a minimum, and shall be inserted in a printer that will: simultaneously print an original Slip and duplicate copy; store, in machine readable form, all information printed on those copies; and discharge the original Slip and duplicate copy. The stored data shall not be susceptible to change or removal by any personnel after preparation of a Slip.

(g) On the original and all copies of the Slip, or in stored data, the preparer shall record, at a minimum, the following information:

1. The asset number of the slot machine on which the jackpot was registered;
2. The winning combination of characters constituting the jackpot;
3. The date, shift and time when the jackpot occurred;
4. A description of the merchandise or thing of value won and, unless the jackpot is an annuity jackpot, its cash equivalent value;
5. The selection of merchandise or its cash equivalent value as made by the patron;
6. The time of the Slip's preparation; and
7. The signature or, if computer prepared, identification code of the preparer.

(h) Signatures attesting to the accuracy of the information contained on the Slip shall be, at a minimum, of the following personnel at the following times:

1. The original:
 - i. An accounting representative with no incompatible functions upon preparation; and
 - ii. A slot supervisor after observing the combination of characters indicated on the slot machine; and
2. The duplicate:
 - i. An accounting representative with no incompatible functions upon preparation;
 - ii. A slot supervisor after observing the combination of characters indicated on the slot machine; and
 - iii. A security department member after observing the combination of characters indicated on the slot machine.

(i) Upon meeting the signature requirements as described in (h) above, the security department shall maintain and control the duplicate copy of the Slip, and the accounting department shall maintain and control the original Slip.

(j) At the end of each gaming day, at a minimum, the original Slip and duplicate copy of the Slip shall be forwarded as follows:

1. The original Slip shall be forwarded to the accounting department for agreement with the triplicate copy or stored data; and
2. The duplicate Slip shall be forwarded to the accounting department for agreement with the triplicate copy or stored data.

(k) Except as otherwise provided in (m) below, any merchandise or thing of value to which a patron is entitled as a result of a slot machine payout shall be given to the patron. Documentation supporting the receipt by the patron of such merchandise, thing of value or, in accordance with (m) below, cash equivalent value shall be prepared by a representative of the casino licensee having no incompatible functions and shall be agreed to the triplicate copy of the Slip or stored data by a representative of the accounting department having no incompatible functions.

(l) A casino licensee may, at any time, establish a time limit of not less than 30 days for the offering of a jackpot of merchandise or other thing of value by providing notice of the time limit in accordance with N.J.A.C. 19:45-1.37(a)4.

(m) Except when the payout is an annuity jackpot, the casino licensee may permit a winning patron to request and receive the exact cash equivalent value of the merchandise or thing of value as determined in (b)1-4 above in lieu of the merchandise or thing of value. However, any cash so provided shall not be included in determining gross revenue or in determining the minimum 83 percent payout of any slot machine as required by N.J.A.C. 19:45-1.37(g). If a licensee chooses to offer a patron this option, the licensee shall advise the patron in advance of actual play pursuant to N.J.A.C. 19:45-1.37(a)4 and 19:46-1.26(a)5.

(n) Any advertising involving slot machine payouts of any merchandise or thing of value by the casino licensee shall include an accurate description of the merchandise or thing of value, the dates the merchandise or thing of value will be offered if the casino licensee establishes a time limit for offering the merchandise or thing of value pursuant to (l) above, and, except for annuity jackpots, the cash equivalent value of the merchandise or thing of value. Any advertising concerning annuity jackpots shall also provide clear notice of the following:

1. That the jackpot will be paid over time and not in one lump sum; and
2. The number of payments and the time interval between payments.

(o) Until the expiration of any time limit established in accordance with (l) above or, if no such time limit is established by the casino licensee, until the merchandise or thing of value offered as a slot machine payout is won by a patron, a casino licensee shall not decrease the probability of hitting the combination that will award the merchandise or thing of value, increase the denomination of the machine, nor in any other way vary the terms upon which the merchandise or thing of value is offered to the public.

(p) Slot machines which are linked to offer the same merchandise jackpot shall have the same probability of hitting the combination that will award that jackpot, provided, however, that the probability may vary among such machines when necessary to enable a casino licensee to

institute a change in the probability which is otherwise permitted by this section, if the change is completed expeditiously in accordance with procedures that have been filed with and approved by the Commission.

(q) Except as otherwise authorized by this section, a slot machine which offers merchandise or some other thing of value as a payout which is removed from the gaming floor shall be returned to or replaced on the gaming floor within five days. If the machine is not returned or replaced, the merchandise or thing of value shall, within five days of the slot machine's removal, be offered as a payout on a slot machine approved by the Commission which offers the same or a greater probability of winning the merchandise or thing of value, and accepts a denomination of coin or slot token not greater than the denomination accepted by the slot machine which was removed. Any time limit for offering a jackpot of merchandise or other thing of value shall be extended by the number of days during which the merchandise or thing of value was not offered as the result of any action taken by a casino licensee pursuant to this subsection.

19:45-1.40B Jackpot payouts in the form of an annuity

(a) For purposes of this section, the phrase "annuity jackpot" refers to any slot machine jackpot offered by a casino licensee or group of casino licensees pursuant to which a patron wins the right to receive cash payments at specified intervals in the future. No annuity jackpot shall be permitted unless it provides for the payment of fixed amounts at fixed intervals. In addition, no annuity jackpot shall be permitted unless it expressly prohibits the winner from encumbering, assigning, or otherwise transferring in any way his or her right to receive the future cash payments, except as permitted by (k)2i below, and except for a transfer to the estate of the winner upon his or her death. A casino licensee or group of casino licensees may, with the prior approval of the Commission, terminate all future payments to a winner who attempts to encumber, assign or otherwise transfer the right to receive future payments in violation of this prohibition.

(b) Any casino licensee or group of casino licensees planning to offer an annuity jackpot shall establish a trust fund which shall be used to make future cash payments. The trust fund shall be administered in accordance with a written trust agreement which shall be reviewed and approved by the Commission prior to the offering of the jackpot. The trust agreement shall, at a minimum, require that:

1. Any casino licensee participating in offering the annuity jackpot serve as trustee for the trust fund;

2. The monies in the trust fund be used to purchase annuity contracts or United States treasury bonds, treasury notes, or treasury bills in accordance with (c) or (d) below to assure that the trust will have sufficient monies available in each year to make all annuity jackpot payments which are required under the terms of the annuity jackpots which are won;

3. A reserve be established and maintained within the trust fund which is sufficient to purchase the annuity contracts, treasury bonds, treasury notes or treasury bills required under (b)2 above as annuity jackpots are won;

4. The trust continue to be maintained until all payments owed to winners of the annuity jackpots have been made; and

5. The trustees obtain and file with the Commission and the Division within 30 days of receipt an annual audit by an independent certified public accountant licensed to practice in the State of New Jersey attesting to:

i. The financial position of the trust fund, including whether the trust will be able to pay all of its obligations when due; and

ii. Disclosing whether the records and control procedures examined are maintained in accordance with the Act, the Commission's regulations, and generally accepted accounting principles.
