MIKIE SHERRILL
GOVERNOR

**FISCAL 2027 BUDGET
OF
MIKIE SHERRILL
GOVERNOR OF NEW JERSEY
TRANSMITTED TO THE FIRST ANNUAL SESSION
OF THE TWO HUNDRED TWENTY SECOND LEGISLATURE**

Mr. President, Mr. Speaker, and Members of the Legislature:

In accordance with the provisions of C.52:27B-20, I hereby present my budget recommendations for fiscal 2027.

This document provides a summary of my recommendations and outlines the key aspects of my overall financial plan for the governmental services to be provided by the State to the residents of New Jersey.

The budget detail, including information on specific line items of appropriations, will be transmitted separately to the Legislature.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Mikie Sherrill", written over a large, stylized blue circular flourish.

MIKIE SHERRILL
Governor of New Jersey

Attest:

A handwritten signature in blue ink, appearing to read "Tim Lydon", written over a large, stylized blue circular flourish.

Tim Lydon
Chief Counsel to the Governor

March 10, 2026

A Letter from Governor Mikie Sherrill

Dear Senate President Scutari, Assembly Speaker Coughlin, Members of the 222nd Legislature, and the People of New Jersey:

Today I am proud to present my budget proposal for New Jersey's Fiscal Year 2027.

My first budget continues my lifelong dedication to public service. It lays the foundation for a solid future. It responds to what New Jerseyans want and begins:

- To make their lives more affordable,
- To protect our kids, and
- To make our government more accountable and to change how business is done.

As part of this different kind of leadership, my budget includes tough choices. It includes nearly two billion dollars in spending cuts, closes tax loopholes, and asks large employers to help ensure their workers have quality health care.

These tough choices will help us redirect funding to serve people's greatest needs and to make government run as intended. This starts with addressing the cost of living. Affordability is not a slogan to me; it is a basic measure of whether New Jerseyans can live a secure life. This budget uses every tool available to take on rising utility costs. It invests in homeownership for first-time buyers and in new housing construction. And it targets property tax relief to those most in need.

This budget makes critical investments in our children, starting from the moment they are born. It expands the "Family Connects" home visitation program for new parents to every county, and it grows the state child care program. It contains record investments in pre-K through 12 funding, as well as a dramatic expansion of evidence based, high-impact tutoring programs to help bring all kids up to speed.

To protect our children from Big Tech and the addictive influence of social media, the budget supports the new Office of Youth Online Mental Health Safety and Awareness and creates a Social Media Research Center to study the impact of digital technology on young people's mental health. My Administration will also launch a new mental health program for schools to provide specialized, intensive care for students in crisis.

New Jersey's businesses, large and small, are the backbone of our economy. To help them grow and thrive, the budget is also creating a more efficient and transparent government. It enables the State's first-ever Chief Operating Officer to modernize systems across departments and agencies. It cuts business registration fees and supports streamlined permitting. These changes will save families and businesses time and money. They'll lower costs to taxpayers and ensure that we deliver effective services.

Unfortunately, while we try to fix what's wrong with government, Washington is looking to dismantle big parts of it. This budget prepares us to be more independent from a volatile federal government. We know the damage that poorly run governments can do. In New Jersey, we are demonstrating that strong state leadership can transform lives.

I've only been in office a month-and-a-half, and I know there are many big things for us to do together. And while this is the most fiscally responsible budget proposal this state has seen in years, it's just the start. Reality is forcing us to change not just the way we do our budget, but how we approach our work. It's asking us to make hard choices, for the sake of a better future.

I know that we won't back away from this mission—New Jerseyans never do. Together, we will build a future where workers can afford to live here, where our children are safe and can seize every opportunity, and where government delivers for the people and businesses it's meant to serve.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mikie Sherrill". The signature is fluid and cursive, with a large loop at the end.

Mikie Sherrill
Governor

Rising to the Mission: A More Affordable & Accountable New Jersey

Chapter 1: Rising to the Mission

Governor Mikie Sherrill has proudly served New Jersey and the public throughout her life. She is committed to making New Jerseyans' lives more affordable, protecting our kids, making our government more accountable and changing the way business is done.

These changes are more critical now than ever. New Jersey faces significant challenges, including massive funding cuts from Washington and years of one-off solutions at home that have failed to fix our structural deficit long-term.

Governor Sherrill immediately got to work developing a budget proposal that will leave New Jersey with a stronger fiscal foundation. New Jersey cannot afford unaccountable and inefficient spending. This proposal includes nearly \$2 billion in tough, but necessary, spending cuts.

In addition to these deep spending cuts, the proposal increases revenue by closing corporate loopholes. It ensures that big businesses relying on public benefits like Medicaid for their employees share that burden more fairly with the State.

Because of these difficult choices, the budget includes critical new investments to address utility and housing costs, improve health care and transportation, create educational opportunities, and increase online safety. And it advances the Governor's mission to make government work for the people.

While Washington is demonstrating how much damage a poorly run government can do, the Sherrill Administration will show how a well-run government can transform lives.

The Fiscal Year 2027 (FY 2027) budget proposal is an important step towards getting our fiscal house in order, and a platform from which we will generate jobs and growth for decades to come. It outlines the way that this Administration's dedication to public service will make New Jersey the land of opportunity over the long-term.

Making New Jersey More Affordable:

- **Direct Property Tax Relief:** New Jersey's highest-in-the-nation property taxes significantly increased in 2025. This year, Governor Sherrill will provide record direct property tax relief through programs like Stay NJ, ANCHOR, and Senior Freeze. The State will spend nearly \$4.2 billion on these efforts and over 2 million residents will receive some form of assistance. The Governor is proposing strategic reductions to Stay NJ, which include a \$250,000 income threshold limit and \$4,000 maximum benefit. The Governor also proposes maintaining the ANCHOR bonus for senior renters, which was set to expire after FY 2026 for nearly 111,000 renters. The current Stay NJ program gives seniors making under \$500,000 as much as \$6,500. The Governor's plan is a fairer, more efficient use of taxpayer money, directed to those who need it most.
- **Utility Ratepayer Relief:** New Jerseyans have seen shocking utility bill increases over the past few years. Governor Sherrill signed two executive orders on her first day in office to offset future rate increases and declare a state of emergency. Governor Sherrill's first budget will ensure she can provide meaningful ratepayer relief. The Governor will also continue

Rising to the Mission: A More Affordable & Accountable New Jersey

to swiftly expand multiple state programs to develop massive amounts of new power generation.

- **Housing:** New Jersey faces a severe housing shortage, and both home prices and rent costs have skyrocketed in recent years. Governor Sherrill will address this in FY 2027 by increasing Down Payment Assistance for first-time and first-generation homebuyers and using the Affordable Housing Trust Fund to advance more construction. The budget reduces Trust Fund diversions by over \$70 million. The Governor will also champion legislation that cracks down on rent-setting algorithms to fight digital collusion.
- **Shared Services:** The Governor's budget expands funding for shared services. This includes a \$1 million increase for the Local Efficiency Achievement Program (LEAP) and \$5 million for consolidating public safety infrastructure. The Department of Community Affairs calculates that for every \$1,000 awarded in LEAP grants, government units have saved \$3,000. Governor Sherrill will work with the Legislature to pursue consolidation for local governments and school districts, making sure that taxpayers' dollars are well-spent.

Protecting Our Kids:

- **Online Safety:** Governor Sherrill will fight to keep kids safe online. Her Department of Education will work with school districts as they prepare for the first cell phone free school year this fall. The budget includes funding for the Office of Youth Online Mental Health Safety and Awareness, which was created by Executive Order No. 6 in the Department of Health. It also includes \$500,000 to allow for the launch of a new Social Media Research Center at one of New Jersey's institutions of higher education to study the impact of digital technology on young people's mental health.
- **Youth Support:** The budget includes significant investments in kids' health and food security, including \$513.5 million in total State funding for the Children's System of Care and \$39 million for school-based services. It will also provide the first year of funding for School-based Partnerships for Access and Resilience for Kids (SPARK), a statewide initiative to expand mental health services in K-12 schools and help students with complex, high-acuity needs. The budget will also provide nearly 21,000 schoolchildren with free meals through the Working-Class Families Anti-Hunger Act and 850,000 children with health coverage through NJ FamilyCare.

Educational Opportunity:

- **Investing in Families:** Parents in New Jersey are struggling to afford child care, and this budget invests in our children from the moment they are born. This budget will allow Family Connects, New Jersey's nation-leading universal nurse home visiting program, to expand statewide for the first time ever. It also invests \$18 million more into child care assistance to open the program up for thousands of more families, and maintains support for New Jersey's Earned Income Tax Credit, Child Tax Credit, and Child and Dependent Care Tax Credit.

Rising to the Mission: A More Affordable & Accountable New Jersey

- **Pre-K to 12 Funding:** Governor Sherrill proposes \$12.4 billion for formula aid, the largest amount in state history, so that every child has access to a high-quality education that prepares them for success. The budget also includes a record \$1.4 billion for Preschool Education Aid, a nine percent increase over FY 2026, which will provide the nearly 300 districts with State-funded Pre-K with the resources they need.
- **Learning Acceleration:** The pandemic and persistent achievement gaps have prevented too many students from performing at grade level. Governor Sherrill proposes investing \$15 million into high-impact tutoring, which will help nearly 100 more districts and 13,500 more students than in the current fiscal year. The Governor will continue to advance other evidence-based programs through the Department of Education to improve third grade literacy and bring kids back up to speed.

Making Government Work:

- **Operational Excellence:** Governor Sherrill created the Chief Operating Officer role to drive efficiency, transparency, and accountability across state government. This budget includes an additional \$13.3 million for the New Jersey Innovation Authority, which will support major operating initiatives like the Permitting Dashboard and the New Jersey Report Card. The budget also authorizes a significant staffing initiative at the Department of Environmental Protection to expedite permitting for energy generation and housing construction. This greater permitting capacity will reduce construction delays that add millions of dollars to the cost of these projects.
- **Accountability:** Governor Sherrill knows that good government is essential for gaining the public's trust. This budget includes the first full pension payment for a first-year governor in decades. It also establishes new oversight initiatives, including adding new staff at the Division of Pensions and Benefits to improve contract compliance and additional experts at the Department of Education to monitor school district budgeting.
- **Supporting Small Business:** Small businesses are the backbone of New Jersey's economy and central to job creation, innovation, and strong local communities. Governor Sherrill's first budget includes a suite of business-friendly initiatives, including reduced business registration fees, a turbocharged Business Action Center under Lieutenant Governor Dale Caldwell, and procurement assistance for minority and women owned businesses.
- **Modernizing Technology and Transportation:** Improving how our state government uses technology is fundamental to eliminating bureaucracy and saving residents time and money. This budget supports significant upgrades across State government, including \$3 million for the Division of Consumer Affairs to upgrade its licensing system and complaint database. The Governor's budget also makes important investments for our commuters. It includes over \$1 billion in State support for NJ TRANSIT—which will prevent service cuts and support initiatives like a more user-friendly mobile app—and increases Transportation Trust Fund spending.

Rising to the Mission: A More Affordable & Accountable New Jersey

Defending New Jersey Values:

- **Addressing Homelessness:** Homelessness soared nationwide after the pandemic, creating new hardships for residents and social service systems. The budget includes \$25 million for the Department of Community Affairs to expand rapid re-housing programs. The Governor will also propose an additional \$11 million for Bringing Veterans Home, a joint initiative by the Departments of Community Affairs and Veterans Affairs to end veterans' homelessness. This program has already helped over 2,200 homeless veterans.
- **Standing up to Washington:** Governor Sherrill will lead on readying state-level solutions to shield residents from harmful federal decisions. In response to H.R.1, the budget includes over \$100 million to support counties with new Supplemental Nutrition Assistance Program (SNAP) administrative costs and to maintain Medicaid coverage for families despite needless red tape. The budget will also continue to support the Project for Federal Accountability in the Office of the Attorney General.
- **Protecting our Liberties:** This budget also defends New Jersey from actions in Washington that undermine constitutional protections and basic rights. It includes funding for family planning services and reproductive healthcare, and as the federal government threatens clean air and water, this budget also increases investments in water infrastructure by ten percent.

Chapter 2: The FY 2027 Budget

A Summary of the State Budget

The FY 2027 budget recommends appropriations totaling \$60.7 billion.

FY 2027 Budget

(in millions)

	FY 2026	FY 2027	Change	
	Adjusted		Budget	\$
	Approp.	Budget	\$	%
Opening Surplus (Undesignated)	\$ 8,729	\$ 7,258		
Open Space Reserve	269	230		
Revenues				
Income	\$ 22,453	\$ 22,909	456	2.0
Sales	14,195	14,713	518	3.6
Corporation	3,259	4,076	817	25.1
Corporate Transit Fee	654	814	160	24.5
Business Alternative Income Tax	4,821	4,781	(40)	(0.8)
Other	12,109	11,771	(338)	(2.8)
Total Revenues	\$ 57,491	\$ 59,064	1,573	2.7
Lapses	748	-		
Total Resources	\$ 67,237	\$ 66,552		
Appropriations				
Original	\$ 58,782	\$ 60,729		
Supplemental	967	-		
Total Appropriations	\$ 59,749	\$ 60,729	980	1.6
Ending Open Space Reserve	(230)	(459)		
Projected Ending Undesignated Surplus	\$ 7,258	\$ 5,364		

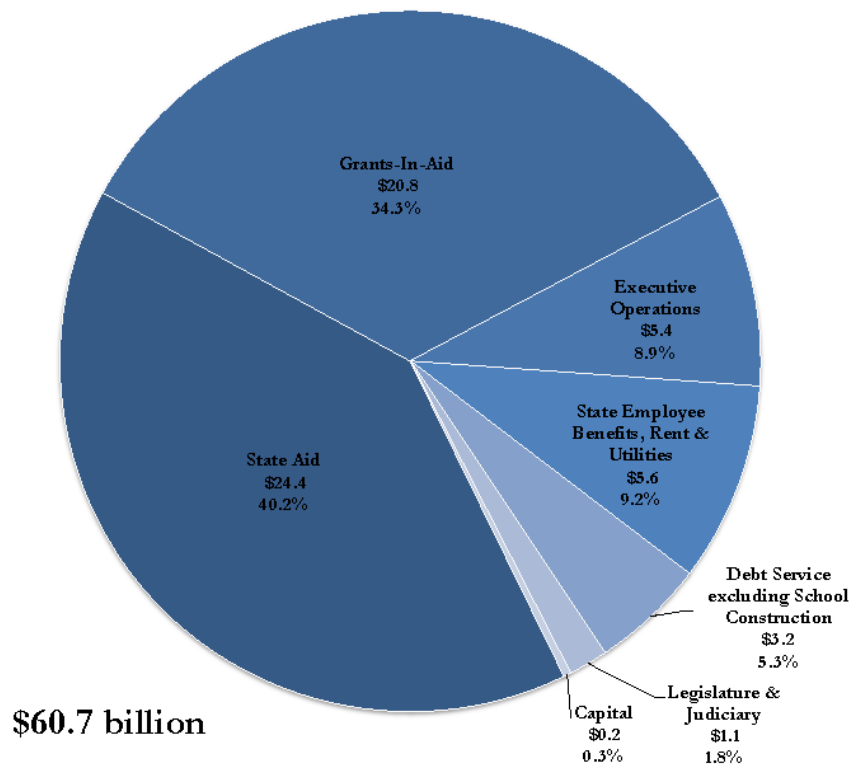

The FY 2027 Budget

- More than 40 percent of the state budget will be distributed in the form of school aid to districts, or in municipal aid payments to towns and cities across New Jersey. Appropriations of this type are referred to in the budget as State Aid, and total \$24.4 billion.
- Over half of the remaining budget, or 34.3 percent of the total, is used by state government to purchase services that directly benefit residents in need. These services, which include health care coverage for low-income residents and community-based support for those with disabilities, are categorized as Grants-In-Aid and total \$20.8 billion.
- Debt Service (excluding school construction, which is a form of State Aid) will be \$3.2 billion, over five percent of the budget.
- Executive Operations, which represent the various direct costs of running state government, is \$5.4 billion, or 8.9 percent of the total FY 2027 budget.

The revenues that will support the FY 2027 budget are anticipated to be \$59.1 billion.

Building the FY 2027 Budget

(in billions)

Executive Operations: includes adult prison and youth facilities, State Police and law enforcement, children and families, human services and mental health institutions, and veterans' homes.

Grants-In-Aid: includes property tax relief programs, NJ FamilyCare, child protection, the Children's System of Care, services and programs to support individuals with intellectual and developmental disabilities, and support for higher education.

State Aid: includes education aid programs, school construction debt, municipal aid, income assistance programs, and aid to county colleges.

Tough Choices

New Jersey stands at a turning point. For too long, hard choices have been deferred, with temporary fixes winning out over long-term solutions. Short-term thinking has allowed structural challenges in the state budget to grow year after year. Governor Sherrill's proposed budget addresses these realities directly.

It recognizes that a well-run government is a catalyst for opportunity and requires a balanced budget as a baseline. It builds the foundation for tackling our larger-scale systemic challenges in the years ahead. This budget makes tough choices to generate savings for taxpayers, while investing in working families, lowering costs, protecting our kids, and making government more accountable and efficient.

Property Tax Relief

Direct Property Tax Relief

Governor Sherrill is committed to an affordability agenda that prioritizes responsible budgeting and lowering the cost of living for New Jersey families. As part of this focus, the FY 2027 budget includes record property tax relief. Forty-seven percent of the FY 2027 budget recommendation, or \$28.7 billion, supports direct and indirect property tax relief programs. These programs include school aid, municipal aid, direct property tax relief to taxpayers, and other local aid. The Governor aims to ensure that working families can manage annual property tax increases and that people living on fixed incomes can stay in their homes.

Funding for Property Tax Relief

1.1% Increase
(in millions)

<u>Programs</u>	<u>FY 2026</u>	<u>FY 2027</u>	<u>Change</u>	
	<u>Adjusted</u> <u>Approp.</u>	<u>Budget</u>	<u>\$</u>	<u>%</u>
School Aid ¹	\$ 21,389.8	\$ 21,603.0	213.2	1.0
Direct Property Taxpayer Relief ²	4,148.1	4,167.1	19.0	0.5
ANCHOR Property Tax Relief Program	2,394.6	2,295.8	(98.8)	(4.1)
Property Tax Deduction Act	798.4	835.3	36.9	4.6
Stay NJ Property Tax Credit Program	590.5	651.6	61.1	10.3
Senior and Disabled Citizens' Property Tax Freeze	329.9	350.3	20.4	6.2
Veterans' Property Tax Deductions	29.2	28.5	(0.7)	(2.4)
Senior and Disabled Citizens' Property Tax Deductions	5.5	5.6	0.1	1.8
Municipal Aid	1,641.2	1,731.8	90.6	5.5
Other Local Aid	1,231.0	1,233.1	2.1	0.2
Total Property Tax Relief	\$ 28,410.1	\$ 28,735.0	324.9	1.1

¹ FY 2026 and FY 2027 amounts exclude \$882.4 million and \$891.8 million, respectively, in pension contributions funded from the Lottery Enterprise Contribution Act. Direct Property Taxpayer Relief includes Property Tax Deductions supported through the Gross Income Tax.

² FY 2026 reflects the amount needed for each program, including any anticipated lapse or supplemental need. The Stay NJ program in FY 2026 includes \$320 million in "lockbox" resources from prior years, and in FY 2027 includes prior-year balances projected to carry forward to support total costs in the budget year. Overall, FY 2027 program changes include the expiration of the additional \$250 ANCHOR benefit for senior homeowners and a reduced income limit and maximum benefit under the Stay NJ program. All other Direct Property Taxpayer Relief programs continue in FY 2027 unaltered.

The State will allocate nearly \$4.2 billion in six programs and tax deductions. Stay NJ is expected to benefit over 440,000 seniors, and ANCHOR is expected to provide direct property tax relief for nearly 1.4 million homeowners and over 673,000 renters. Because the State does not project reaching the 12 percent surplus required in P.L.2023, c.75, the Governor is proposing targeted reductions to Stay NJ this year – which includes modifying the income threshold to \$250,000 to align with ANCHOR and capping the maximum benefit at \$4,000. These necessary adjustments ensure the program remains financially sustainable and can continue delivering meaningful property tax relief to seniors over the long term.

At the same time, the Governor proposes maintaining the \$250 ANCHOR bonus for nearly 111,000 senior renters – a bonus that would have otherwise sunset in FY 2027. This ensures that property tax relief programs remain focused on assisting those who need support the most.

Eligibility for the Senior and Disabled Citizens’ Property Tax Freeze program will also expand this year. Since FY 2020, the program has grown significantly to benefit nearly 271,000 more residents.

Municipal Aid and Shared Services

To help our cities and towns provide high-quality services and achieve much-needed property tax savings, the FY 2027 budget includes over \$1.7 billion in municipal aid. At a time when many localities are facing financial pressures, the State recognizes the need to provide assistance; however, lasting affordability also requires local governments to pursue efficiencies and shared services that reduce costs for taxpayers. As such, the Governor’s budget expands funding for shared services programs. This includes a \$1 million increase for the Local Efficiency Achievement Program (LEAP), for a total of \$3 million in support. Since the program’s inception in FY 2020, the Department of Community Affairs has issued a total of 162 LEAP grant awards, amounting to over \$24 million made available to counties, municipalities, school districts, commissions, authorities, and fire districts to incentivize shared service implementation across New Jersey. The department calculates that for every \$1,000 awarded in LEAP grants, government units have saved \$3,000.

Active Shared Service Agreements by Year

<u>Year</u>	<u>Agreements</u>
2016	1,436
2017	1,479
2018	1,594
2019	1,614
2020	1,648
2021	1,679
2022	1,688
2023	1,744
2024	1,759
2025	1,778

Municipal Aid

(in millions)

	FY 2026	FY 2027	Change	
	Adjusted Approp.		Budget	\$
Consolidated Municipal Property Tax Relief Aid (CMPTRA) / Energy Tax Receipts	\$ 1,454.9	\$ 1,454.9	-	-
Transitional Aid to Localities	161.9	256.5	94.6	58.4
Local Recreational Improvement Grants	10.0	5.0	(5.0)	(50.0)
Open Space Payments In Lieu of Taxes (PILOT)	8.0	8.0	-	-
Highlands Protection Fund Aid	4.4	4.4	-	-
Shared Services and School District Consolidation Study and Implementation Grants	2.0	3.0	1.0	50.0
Total Municipal Aid	\$ 1,641.2	\$ 1,731.8	90.6	5.5

Of the amounts reflected above for Transitional Aid to Localities, \$35 million in FY 2026 and \$28.5 million in FY 2027 is funded by the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund.

Innovation and Government Efficiencies

Innovation and Transparency

Under the Sherrill Administration, state agencies will have a customer service mindset and a focus on transparency and accountability – all with the shared goal of saving time and money for residents and businesses. Agencies will deliver faster and more convenient services for New Jerseyans, modernize outdated systems and processes, and reduce delays and costs within the permitting and licensing process.

The Governor has long prioritized innovation as a central strategy for improving how New Jersey delivers services and supports residents and businesses. Recently codified into law, the New Jersey Innovation Authority (NJIA) provides a permanent capability to modernize how residents and businesses interact with government. The FY 2027 budget increases NJIA funding by \$13.3 million to ensure a stable foundation for this work and support the Governor’s efforts to improve customer experience, reduce administrative burdens, and make government more responsive and accountable.

Working in partnership with the newly established Chief Operating Officer (COO), NJIA will develop and implement the major initiatives created under Executive Order No. 5 to boost state agency effectiveness and transparency, including the Permitting Dashboard and New Jersey Report Card. Across agencies and departments, these initiatives will simplify processes, modernize outdated systems, and improve how residents and businesses engage with government programs.

The Permitting Dashboard will bring greater transparency and predictability to the permitting process by displaying the status of state permit applications so that applicants can see where their project is in the review process and agencies can identify and address bottlenecks that lead to approval delays. The Dashboard will also display the standardized permitting process across agencies and new permit timeframes, which will reduce delays and uncertainty within the project review and approval process. A faster and more predictable approval process will reduce housing and energy projects’ financing and construction costs, helping to improve affordability for families while accelerating project delivery and strengthening New Jersey’s economic competitiveness.

The New Jersey Report Card will be an interactive, public-facing online portal that provides information on the budget and state-funded programs to residents, with the goal of boosting public transparency and accountability regarding government spending and service delivery. This will make it easier for New Jerseyans to track spending, understand program outcomes, and evaluate how taxpayer dollars are delivering results in their communities.

New Jersey Innovation Authority State Funding

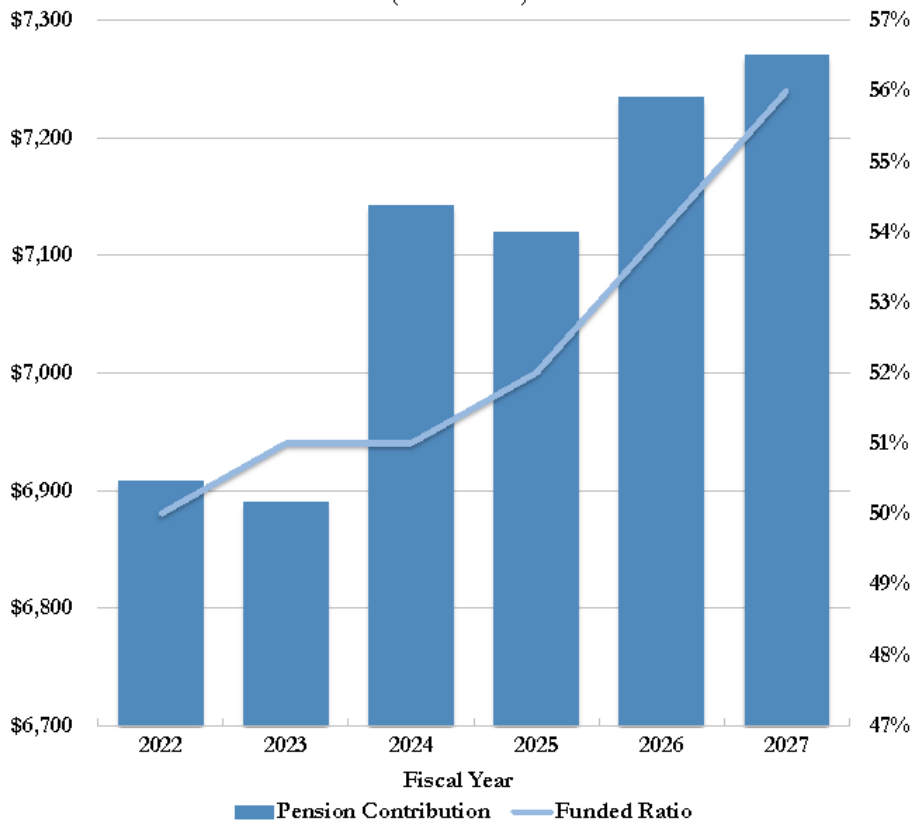

The New Jersey Innovation Authority (formerly the Office of Innovation) received \$41.25 million in federal funding in FY 2021 which is not reflected in the above totals.

Pension

Governor Sherrill is committed to tackling New Jersey’s fiscal challenges head-on. This starts with making the full actuarially recommended pension contribution to continue to address the State’s long-term liabilities. For FY 2027, the Governor recommends a \$7.3 billion pension contribution, which includes \$1.1 billion in revenue from the state lottery under the Lottery Enterprise Contribution Act. This one-year contribution is 12 percent of budgeted appropriations for FY 2027 and is already more than the total contributions made by Governors Whitman, DiFrancesco, McGreevey, Codey, and Corzine combined. For purposes of comparison, the contribution is more than two times the amount contributed by Governor Murphy in his first budget.

State Pension Contribution and Funded Ratio

(in millions)

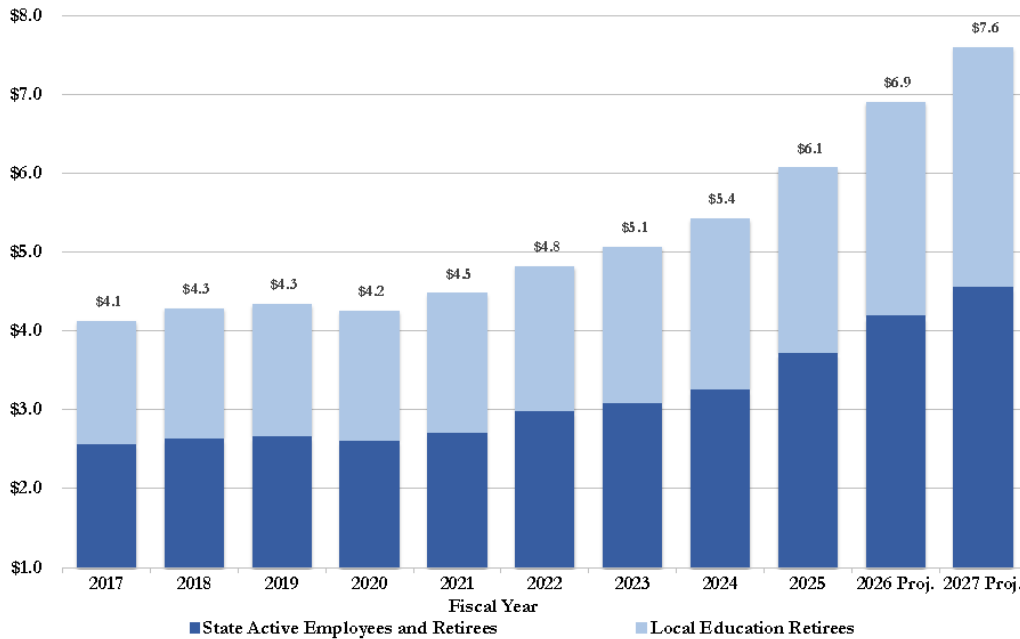

Health Benefits

In FY 2027, the State expects to spend approximately \$7.6 billion on health benefit payments for certain active and retired enrollees. This is a 10 percent increase from FY 2026 and an increase of approximately 84 percent, or six percent per year on average, since FY 2017.

State Health Benefits Spending

(in billions)

The growth in the cost of health care for our public employees is unsustainable. The rising costs far outpace the rate of inflation and wage growth and are crowding out critical investments in other areas of the budget. The rising costs reflect this country’s broken health care system, and are made worse by the federal government’s failure to demonstrate leadership. The Governor stands ready to work with all sides to develop meaningful reforms to public worker health benefits.

As a first step, the FY 2027 budget provides sufficient funding to the Division of Pensions and Benefits to hire additional employees to strengthen critical functions such as the Pensions Operations Audit Unit and planning, operations, and contract compliance for health benefits. These additional staff will help meet the Governor’s goal of enhanced accountability by strengthening oversight of the State Health Benefits Program and closely assessing program performance.

Governor Sherrill is also concerned about increased costs for local governments and their employees. The Governor is willing to use funds to forgive payments that the local government plan owes the State due to P.L.2024, c.86 if they are matched by actionable plan design changes that result in new, recurring, and actuarially verifiable savings in the local government plans starting January 1, 2027.

Energy Affordability and Reliability

The current cost of electricity has reached the point of crisis for so many New Jersey residents and families. Pursuant to Executive Order No. 1, the State is freezing rates by offsetting increases from the most recent electricity price auction. Because of efforts to rein in mismanagement by PJM, the regional grid operator, the recent state electricity price auction only yielded impacts of up to two percent. Without these efforts, rate hikes would have been comparable to last year's and the cost for 67 million Americans would have been \$27 billion.

Through off-budget funding sources, the Governor will shield New Jersey ratepayers from increases. Affordability is a top priority of the Governor, as is assisting households with the highest energy burdens. The Governor will support New Jersey programs that serve the most vulnerable, such as Comfort Partners and the Community Solar Energy Program.

Additionally, the Governor will direct the Board of Public Utilities to identify funds to issue another round of Residential Energy Assistance Payments (REAP) for lower-income residents and to provide further rate relief to customers as needed.

Expanding power generation is essential to lowering utility costs for New Jersey residents and businesses. Governor Sherrill is undertaking efforts to swiftly expand multiple programs to develop massive amounts of new power generation that secure reliability and create downward pressure on electricity prices. Solar, storage, energy efficiency, and demand response are some of the quickest and cheapest ways to get new electricity online. As such, the Governor is committed to prioritizing and accelerating timelines for programs such as the Garden State Energy Storage Program and Competitive Solar Incentive Program to alleviate the State's supply shortage, as well as aggregate distributed energy resources into "virtual power plants" to further reduce peak demand, improve reliability, and lower costs.

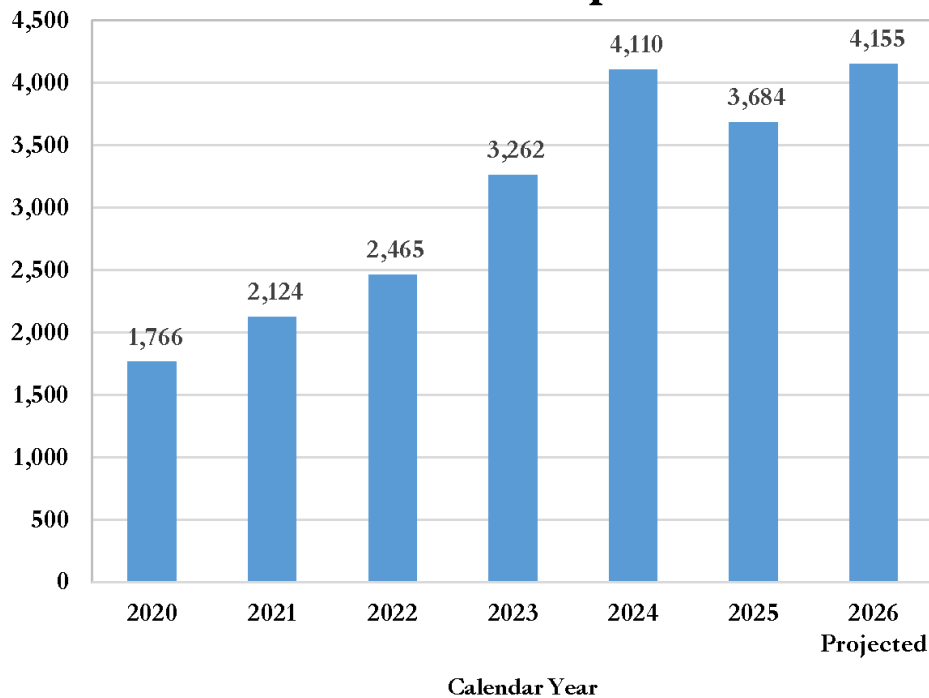

Additionally, new baseload generation is critical to helping meet future growth. The Governor will leverage New Jersey's unique attributes and partner with technology developers to show leadership on new clean energy generation that does not put undue burden on residents.

Community Affairs and Housing

Governor Sherrill is committed to lowering housing costs and expanding pathways to homeownership. This budget increases funding for the Down Payment Assistance Program by \$5 million, bringing the total investment to \$45 million, which is expected to help nearly 3,000 new first-time and first-generation homebuyers. This program has proven to be a powerful tool for helping working families achieve homeownership while beginning to close the racial wealth gap and support the creation of generational wealth.

The budget also begins restoring the Affordable Housing Trust Fund to its intended purpose, reducing diversions by more than \$70 million and making \$30 million available for new construction. Expanding the production of affordable housing helps relieve pressure on the housing market and lowers costs for families across New Jersey.

NJHMFA Down Payment Assistance Recipients

Homelessness Prevention

To begin addressing the sharp rise in homelessness, partly driven by declining federal support and the loss of pandemic era emergency housing funding, the budget includes \$25 million to expand rapid re-housing programs for vulnerable households in imminent risk of homelessness. These programs are a critical part of the State’s homelessness response system: they help individuals and families remain stably housed during moments of crisis and support those looking to secure permanent housing more quickly. By expanding this lifeline, the State aims to prevent more New Jerseyans from experiencing homelessness and to strengthen the pathways that help vulnerable residents regain stability and rebuild their lives. Investments like this help New Jersey prepare for the impending impact of federal funding cuts by strengthening state supports and ensuring that vulnerable residents are protected during times of crisis.

Pre-K to 12 Education

The Sherrill Administration firmly believes that a strong education system is fundamental to New Jersey's long-term prosperity and to ensuring that every child is afforded an opportunity to succeed. The FY 2027 budget provides \$22.5 billion in funding for pre-K to 12 education (including \$891.8 million from the Lottery Enterprise Contribution Act), an increase of \$222.6 million over the previous year. This includes direct payments for pension and health benefits payments for educators, and it is the highest amount of school aid funding provided in New Jersey history.

This year, the Governor proposes spending \$12.4 billion on formula aid. In a continued effort to enhance predictability and reduce volatility for school districts, this budget maintains a three percent cap on losses and a six percent cap on gains, calculates special education aid based on actual enrollment, and utilizes the multi-year average for property wealth and income measures. These guardrails provide funding stability while the State undertakes the important, long-term work of modernizing the current formula to better reflect today's educational needs and ensure a fair, sustainable approach to school funding in the coming years.

History of K-12 School Formula Aid

(in billions)

FY 2019 through FY 2025 represent the amount that was expended

Part of the initial reform to provide stable and transparent school funding will be to equip educators, families, and communities with the tools necessary to best understand how educational resources are allocated. As part of the Governor's accountability agenda, the Department of Education (DOE) will develop user-friendly dashboards and mapping tools on its website that clearly explain the primary drivers of state aid and how those allocations change annually. This information will provide greater transparency into trends and spending patterns across the state.

Additionally, school districts have recently experienced and reported fiscal strain due to inflationary pressures and other stressors. To improve school district fiscal accountability and support districts navigating financial challenges, the Governor proposes increasing DOE resources dedicated to oversight, technical assistance, and early detection of financial distress. By enhancing monitoring efforts for school districts, Governor Sherrill will help ensure that education funding is used effectively and that districts remain financially stable.

Learning Supports

The Governor is committed to ensuring that every child in New Jersey develops strong literacy and mathematics skills and has access to a world-class education. To continue building upon a solid foundation for long-term academic success, this budget expands investments in evidence-based learning supports that help students bolster academic skills and stay on track. This budget doubles last year's investment in high-impact tutoring to \$15 million, supporting targeted instruction that provides students with frequent, small-group tutoring aligned with classroom learning.

Early results from high-impact tutoring initiatives across the state demonstrate measurable improvements in student outcomes. In Franklin Township Public Schools, students achieved two or more grade levels of growth in literacy scores and 83.2 percent of students improved more than one grade level in their mathematics program. Similarly, in Essex County, People's Achieve Community Charter School's third-grade mathematics program saw 13.7 percentage point increases year-over-year, representing the highest third-grade proficiency in the school's history.

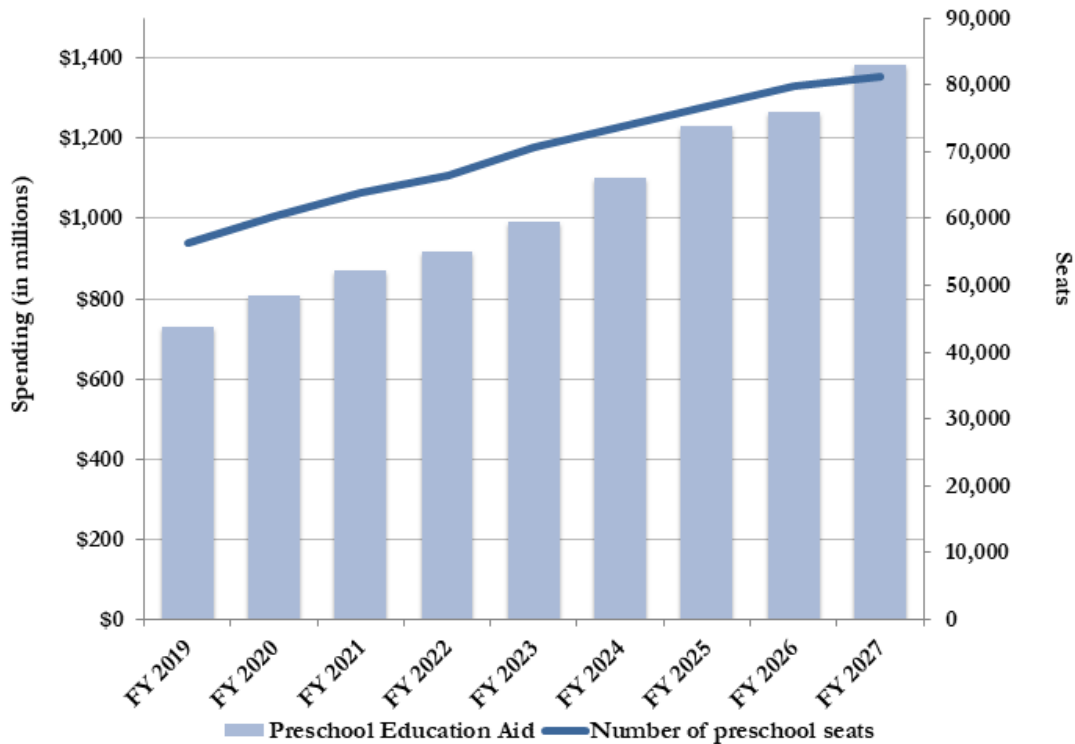

These results underscore the importance of targeted academic supports that accelerate learning and strengthen literacy development. By expanding high-impact tutoring, Governor Sherrill is investing in programs that produce measurable improvements in student achievement and ensuring that every child in New Jersey has the opportunity to succeed.

The FY 2027 Budget

Pre-K

The foundation for lifelong learning and opportunity begins in the earliest years. The Governor’s budget includes \$1.4 billion for pre-K, a 9.3 percent increase over FY 2026. In addition to this funding for existing districts, the Department of Education also has \$4.5 million to support new districts. More than half of school districts in New Jersey have access to a state-funded pre-K program.

History of Preschool Aid

FY 2020 Preschool Education Aid included \$5 million for preschool wrap-around care. This program has been shifted to a standalone appropriation starting in FY 2021.

FY 2019 through FY 2025 represent the amount that was expended.

School Construction

Following the schedule established in FY 2023, \$350 million will be made available to the Schools Development Authority (SDA) in FY 2027 for current projects and to help the SDA move forward on projects identified in its Statewide Strategic Plan. An additional \$50 million of General Fund appropriations will also support capital grants in SDA districts to ensure students have safe and modern learning environments.

Higher Education and Workforce Development

A strong economic future for New Jersey begins with preparing the next generation to succeed. Governor Sherrill has consistently emphasized that investing in the future of our children requires strengthening the full education-to-career pipeline – from our K-12 classrooms to our colleges, universities, and workforce training programs. State institutions of higher education serve as engines of innovation, research, and economic mobility. By continuing to invest in financial assistance programs, institutional support, and affordable pathways, New Jersey can ensure that every student is able to pursue higher education and build a successful future in the Garden State.

Higher Education Affordability

This budget includes more than \$3.3 billion (including \$131.8 million from the Lottery Enterprise Contribution Act) towards direct support of higher education institutions and for programs that provide financial assistance to students.

The budget maintains robust support for New Jersey's flagship, need-based aid programs, including \$530.2 million in funding for the Tuition Aid Grants (TAG) programs, which provide critical assistance to tens of thousands of eligible students statewide. In addition, the budget includes nearly \$109 million for the College Promise programs, which include the Community College Opportunity Grant (CCOG) and the Garden State Guarantee (GSG). These initiatives provide tuition-free community college for eligible lower-income students and reduce out-of-pocket costs at in-state, public, four-year institutions. The budget also includes \$54.8 million for the Educational Opportunity Fund (EOF) to provide academic support services for low-income students. Together, these investments reflect the Governor's commitment to ensuring that every student, regardless of zip code or income, can access the education and support needed to succeed.

Institutional Aid

Governor Sherrill is prioritizing stable and strategic investments in colleges and universities across New Jersey. The FY 2027 budget proposes \$755.2 million in operating support for State colleges and universities, \$169.1 million for county colleges, and \$4.6 million for independent institutions of higher education. These critical investments reflect the Sherrill Administration's commitment to supporting institutions that educate thousands of students annually while preparing the workforce that drives New Jersey's future.

Higher Education Institutional Support

(in thousands)

Sector	FY 2019	FY 2027	Change
Senior Public Colleges & Universities	\$494,500	\$755,206	52.7%
County Colleges	\$134,123	\$169,123	26.1%
Independent Colleges & Universities	\$1,000	\$4,600	360.0%
Total	\$629,623	\$928,929	47.5%

The FY 2027 Budget

Recognizing the critical role research universities play in innovation, the budget also includes \$60 million to offset the high fringe benefit costs faced by public research institutions. By easing these financial pressures, the Sherrill Administration is enabling universities to compete more effectively for federal, state, and privately funded research grants. Supporting research capacity will help attract additional investment and reinforce New Jersey's position as a national leader in research and talent development.

Labor

At the same time, aligning higher education investments with workforce development efforts will be critical to sustaining the State's economic competitiveness. Governor Sherrill has emphasized the importance of a cross-agency collaborative approach to best prepare students for the jobs of tomorrow. Building stronger partnerships among colleges, employers, and workforce training programs will expand apprenticeships, internships, and work-based learning opportunities that give students meaningful hands-on experience while building a stronger talent pipeline for New Jersey's economy.

Under Governor Sherrill's leadership, the Department of Labor and Workforce Development will expand access to workforce training programs, facilitate higher education and business partnerships and pathways, improve the quality and efficiency of government services, continue career opportunities for individuals with disabilities, and protect New Jersey workers. These efforts will ensure that all New Jersey workers are protected and supported as they navigate a changing labor market.

The budget includes an additional \$1 million for the Summer Youth Work Experience Program, reinforcing Governor Sherrill's longstanding commitment to expanding opportunities for teenagers and young adults to gain early job experience. During her time in Congress, the Governor championed bipartisan legislation to support summer employment programs that connect the next generation with meaningful work while building critical skills and supporting the local community.

To ensure that workforce investments are delivering the strongest possible outcomes, Governor Sherrill is requesting a review of existing workforce development programming across the State. This review will evaluate program effectiveness, identify opportunities to better align training with employer demand, and improve coordination among state agencies. Through these efforts, the Sherrill Administration will work to build a more responsive and accountable workforce system.

Economic Development

Governor Sherrill knows that economic growth is critical to making New Jersey more affordable and will seek to accelerate economic opportunity, expand access to capital for small and minority-owned businesses, and drive innovation across New Jersey's economy.

Small Business Assistance

The Sherrill Administration will prioritize small businesses and ensure that government supports their success, rather than get in the way. This budget maintains funding for the Main Street Recovery Fund. It also proposes cutting filing fees for corporations and non-profits.

As part of the Governor and Lieutenant Governor's focus on turbocharging the Business Action Center (BAC), the budget supports additional employees to provide more comprehensive solutions to the State's business community. The BAC is a critical institution for helping New Jerseyans to start their own business, navigate the permitting and licensing process, and access the capital needed to grow and expand. This new funding will allow the BAC to reach and support thousands of additional businesses, supercharging entrepreneurship, job creation, and innovation across New Jersey.

The 2024 New Jersey Disparity Study highlighted what so many business owners and residents know too well – the State's procurement process does not provide adequate access or a level playing field for minority-, women-, and veteran-owned businesses. The Governor is committed to addressing these disparities, starting by investing \$500,000 to strengthen state capacity by establishing a team of experts who can provide training and technical assistance to Minority and/or Women Business Enterprises (MWBE) navigating the State's procurement and contracting process. This effort will improve bid readiness and expand access to state contracts and capital for MWBEs. The budget also maintains funding for the Small Business Bonding Readiness Assistance Fund and Wealth Disparities Initiatives.

Social Impact Investment Fund

The Social Impact Investment Fund (SIIF) was created in 2023 to deploy below-market rate loans and other financial tools to support affordable housing predevelopment loans, early childhood education facilities, and infrastructure projects in vulnerable communities by leveraging public and private investments to advance socially beneficial projects. In FY 2023, the State appropriated approximately \$20 million in seed funding to help capitalize the SIIF, none of which has been expended. To move this work forward, this budget takes action to deploy this seed money to help small, minority and women-owned developers enter the multifamily housing construction market, supports the child care facilities that keep working families strong, and advances the infrastructure components of redevelopment projects that would otherwise struggle to get off the ground. The Governor's proposed budget allocates \$7.5 million to the affordable housing loan program, \$7.5 million to the child care facilities loan program, and \$5 million to the infrastructure loan program.

Together, these investments open doors for emerging developers, strengthen the foundation for parents to stay in the workforce, and empower local leaders to revitalize their communities.

Major Events

The Sherrill Administration will commemorate our nation's 250th anniversary and drive local tourism by highlighting New Jersey as the Crossroads of the American Revolution. The Administration is preparing to host the 2026 FIFA World Cup final, which will attract millions of visitors to the region. The Governor's budget will invest significant resources in public safety and transportation infrastructure to ensure that these global events are safe and successful, as well as to showcase New Jersey's economy and ensure that the economic benefits from these events continue for the long term.

Health Care and Human Services

Governor Sherrill's health and human services budget reflects the Administration's commitment to confronting fiscal and federal threats while driving down costs, protecting essential care, and delivering quality services. In response to the burdens caused by the federal government's H.R.1, this budget invests in modernizing services to keep families insured and supports patients and providers in confronting unprecedented challenges to best position New Jersey into the future.

The Governor's budget acknowledges that public health investments and access to affordable preventative care are key to improving outcomes while reducing long-term costs. Even as the Sherrill Administration makes difficult decisions to ensure every dollar is spent wisely, the budget continues targeted investments in evidence-based programs that support individuals with disabilities and older adults, address mental health needs and the opioid crisis, and expand access to reproductive health care. These investments also help confront persistent health challenges, including protecting children and reducing Black maternal mortality.

Health Care Affordability and Accessibility

NJ FamilyCare provides comprehensive health care benefits to more than 1.8 million New Jerseyans, including seniors, individuals with disabilities, low-income adults, and nearly half of the State’s children. This budget provides \$7.2 billion in State funding for New Jersey’s Medicaid program. Like all states, New Jersey relies heavily on federal partnership to fund Medicaid, with the federal government covering at least 50 percent of most costs and up to 90 percent for certain populations.

NJ FamilyCare Enrollment

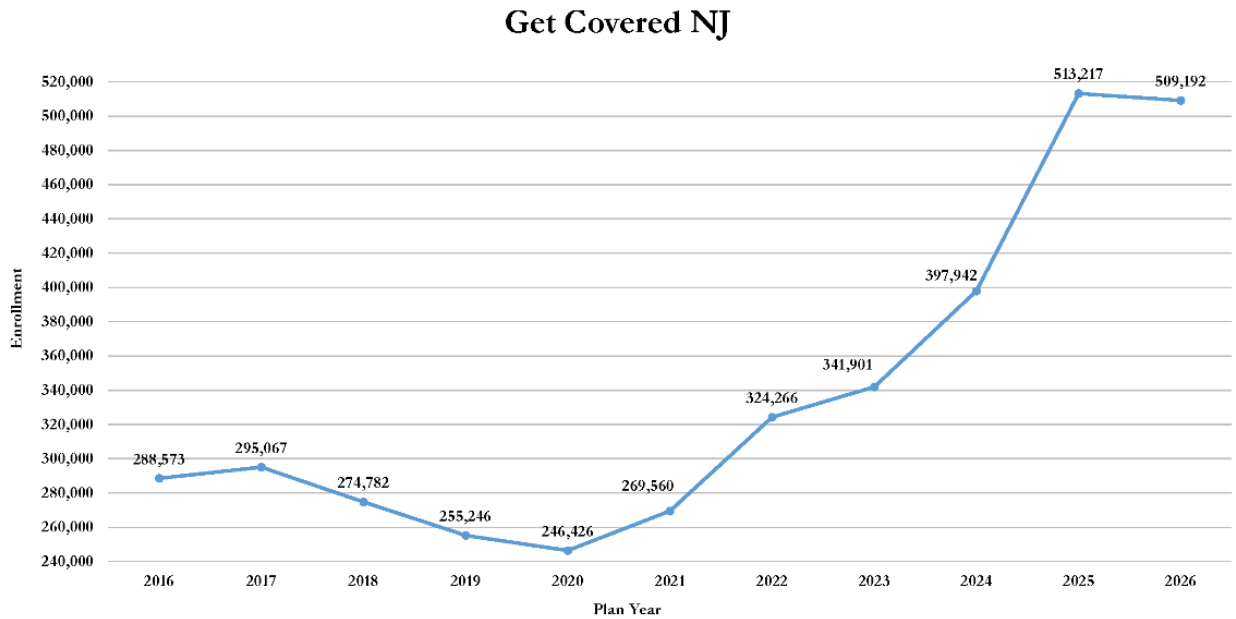

Children includes “Title XIX Children” and “Title XXI” enrollment groups, while Adults refers to all other Title XIX enrollment groups.

State Medicaid costs are projected to rise again in FY 2027 due to evolving medical needs and rising health care costs. Simultaneously, H.R.1 introduces new federal requirements that put access to affordable care at risk for New Jersey families. To ensure eligible residents continue to gain access to benefits through NJ FamilyCare, the Governor proposes targeted investments in the NJIA, county social services agencies, and professional services to strengthen enrollment systems and improve administrative coordination. This budget also continues the Cover All Kids initiative, with NJ FamilyCare projected to cover roughly 850,000 children.

The FY 2027 Budget

Separately, the State’s health care marketplace – Get Covered New Jersey – enrolled 509,192 New Jerseyans during the most recent open enrollment period. However, actions taken by the Trump Administration to eliminate key Affordable Care Act plan subsidies have significantly increased premium costs. As a result, the share of residents whose subsidies lowered premiums to less than \$10 a month has dropped from 48 percent in 2025 to a staggering eight percent in 2026.

In response, the Governor has directed the Department of Banking and Insurance to lead a Health Insurance Strike Team to help mitigate this federally driven crisis. As Governor Sherrill works to increase affordability through cost containment strategies and consumer protections, this budget strategically continues investment in the Office of Health Care Affordability and Transparency within the Department of Health.

Health System Funding

In FY 2027, New Jersey’s 70 acute care hospitals will receive approximately \$3.6 billion from direct subsidy programs. This includes continuation of subsidies for Charity Care, Graduate Medical Education (GME, GME-S, and GME-T), and the outpatient State-directed payment program. The downstream effects of federal funding cuts related to H.R.1 will ultimately reduce public health and hospital funding by an estimated \$3.3 billion in the out-years.

Additionally, through the Departments of Health and Human Services, the State is deploying the first year of \$147 million in federal Rural Health Transformation Program funding, which New Jersey fought to secure, to grow the health care workforce, expand innovative technologies like remote patient monitoring, and enhance prevention and treatment services.

FY 2027
Hospital Funding – Direct Subsidy Programs
 (in millions)

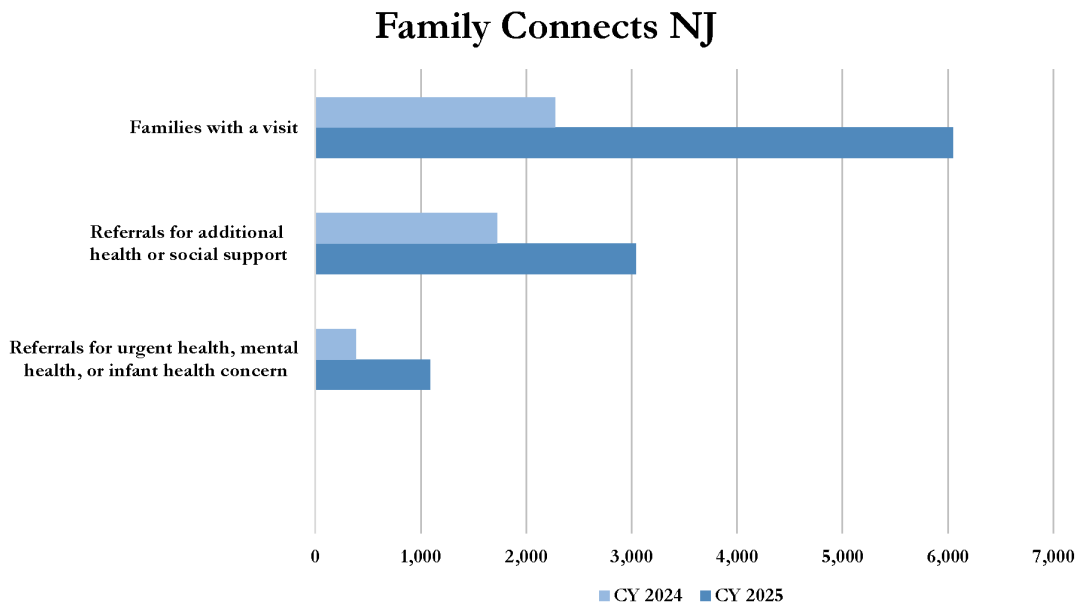

Note: This chart does not include the funding hospitals receive through the State’s County Option Hospital Fee Program

The FY 2027 Budget

Maternal and Infant Health

Governor Sherrill is committed to improving maternal and infant health outcomes and ensuring that every family has access to high-quality care before, during, and after pregnancy. This budget continues maternal health-related funding to bring data to action, grow the perinatal workforce, and promote innovation in care delivery. This includes sustaining resources for the New Jersey Maternal and Infant Health Innovation Authority, which is charged with advancing evidence-based strategies to reduce maternal mortality, reduce infant mortality, and close racial disparities in health outcomes. The Governor is also asking for cross-agency coordination on programs related to maternal and infant health to identify opportunities for collaboration.

The Sherrill Administration will expand Family Connects NJ, the State’s program to deploy registered nurses to conduct home visits for mothers and newborns within the first two weeks after birth. By embedding early intervention and health screenings directly in the home, this program improves maternal recovery, supports infant development, and proactively identifies urgent potential health concerns. Since its launch in January 2024, Family Connects NJ nurses have performed nearly 10,000 home visits – providing clinical assessments, postpartum support and counseling, and referrals for ongoing medical or social service needs. The budget includes an additional \$12.8 million to expand the program’s reach, allowing this initiative to now operate statewide. For the first time, every family in all 21 counties will be eligible beginning in 2027.

Reproductive Health

It is also a priority for the Governor that New Jersey remains a national leader in protecting reproductive freedom and expanding access to women's health care. The Sherrill Administration will continue shielding residents and providers from federal attacks while taking proactive steps to safeguard access to care. As part of this work, this budget maintains \$52 million for family planning services and reproductive health access. Of this amount, more than \$30 million supports care, regardless of an individual's ability to pay, at clinics in every county, and the \$22 million Reproductive Health Access Fund enables the State to respond to emerging threats and expand reproductive health care access.

Reproductive Health Funding

(in thousands)

Amounts represent appropriations in FY 2019 through FY 2026, and the recommendation for FY 2027.

Youth Mental Health

Governor Mikie Sherrill recognizes that protecting our kids is a public health priority that requires coordination across all agencies and systems. The Governor will continue fighting to keep kids safe online and expand mental health resources to support their overall well-being. This budget proposes an all-of-government approach to supporting youth mental health and aligns initiatives across the Department of Education and Department of Health to prioritize these efforts.

In the current fiscal year, the Department of Education is disbursing phone-free schools grants as it implements P.L.2025, c.195. The budget also includes funding for the Office of Youth Online Mental Health Safety and Awareness – established by Executive Order No. 6 in the Department of Health – and supports \$500,000 for a new Social Media Research Center at one of New Jersey's institutions of higher education to better understand the impact of online platforms on youth mental health.

The FY 2027 Budget

The Governor's budget also includes \$33 million for a new youth mental health initiative. The Administration plans to sunset the New Jersey Statewide Student Support Services (NJ4S) program and re-invest those funds into high-acuity services through the Department of Education. As these services shift, the Governor expects close collaboration between departments to ensure the least disruptive experience possible for students and families. The FY 2027 budget launches SPARK (School-based Partnerships for Access and Resilience for Kids), a statewide initiative designed to expand mental health services in K-12 schools and improve coordination among school districts and providers. SPARK grants will support districts in building or expanding partnerships with licensed mental health providers to increase access to school-based counseling and intervention services. The initiative will establish clear pathways for students with high-acuity behavioral health needs and meet students where they are – directly in their schools – ensuring timely access to supports in a familiar and trusted environment. The program will prioritize high-need districts and require measurable performance benchmarks related to service utilization and student outcomes. Through SPARK, the Sherrill Administration will build a more coordinated and comprehensive school-based mental health system – one that focuses on prevention, resilience, and the provision of timely and high-quality care.

Youth Protection Services

In 2023, New Jersey exited formal federal oversight of its child welfare system after two decades of reform. The Sherrill Administration is committed to sustaining that progress and maintaining a strong system that protects children from abuse and neglect. The proposed FY 2027 budget includes a total of \$1.2 billion in state, dedicated, and federal funds for the Division of Child Protection and Permanency in the Department of Children and Families.

Child Care

Access to reliable, affordable child care is essential to supporting working families and sustaining a strong workforce. The FY 2027 budget proposal includes \$582 million in state funds for child care assistance, which is projected to support care for up to 77,500 children, or 2,500 more than in FY 2026.

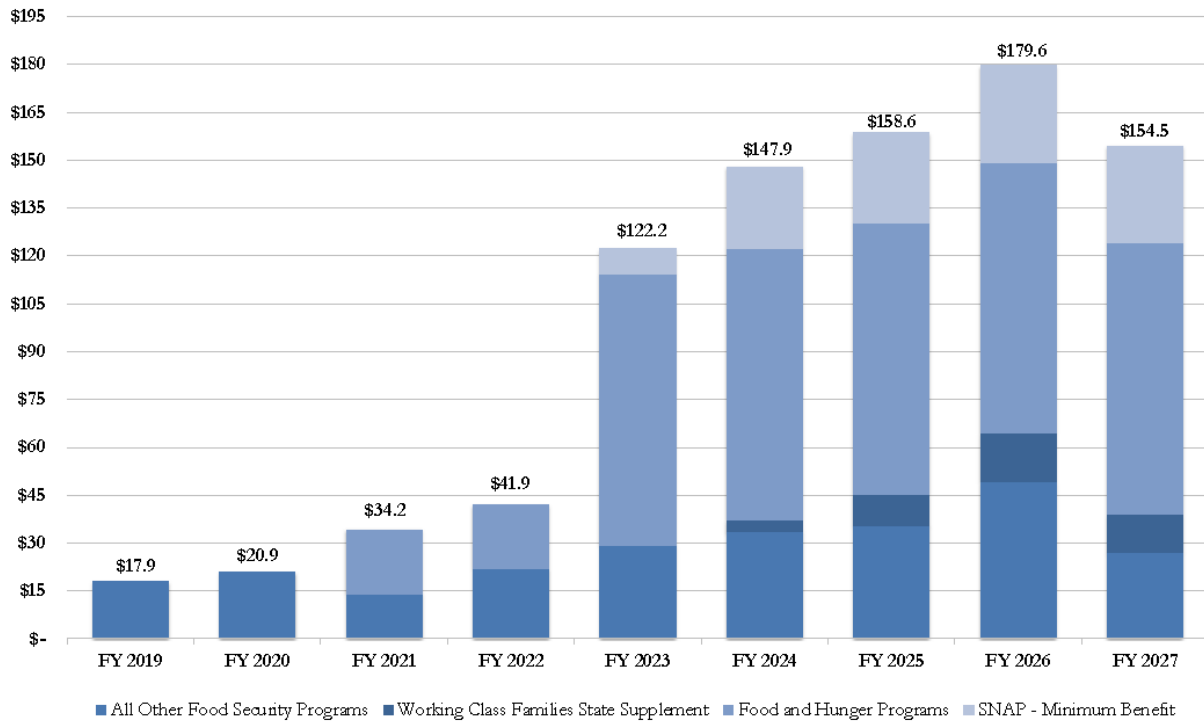

This year, the Sherrill Administration will direct \$7.5 million from the Social Impact Investment Fund to support child care facilities. Additionally, in FY 2027, the State expects to expend \$24 million on the Child and Dependent Care Tax Credit and \$207 million on the Child Tax Credit.

Food Assistance and Affordability

Ensuring that families have reliable access to nutritious food remains a core priority for the Governor. Addressing food insecurity, especially for children, is a basic building block for future success. This budget includes school meals funding for nearly 21,000 schoolchildren through the Working-Class Families Anti-Hunger Act, \$30.2 million to maintain a minimum monthly \$95 SNAP benefit for 40,000 households, and \$85 million for aid to the State’s food banks and emergency feeding organizations.

State Spending on Food Security Programs

(in millions)

FY 2019 through FY 2025 represent the amount that was expended. FY 2026 represents projected spending in the current year and FY 2027 represents the amount budgeted.

SNAP helps families access affordable, nutritious foods at more than 6,000 retailers across New Jersey and supports over 40 percent of participating children, one in three individuals with disabilities, and one in five seniors age 60 and older. As a result of H.R.1, the federal government is cutting its share of SNAP administrative funding from 50 percent to 25 percent, shifting a significant cost burden onto states and counties. In this transition year, the State is stepping in to assume this \$71 million burden on behalf of counties.

The FY 2027 Budget

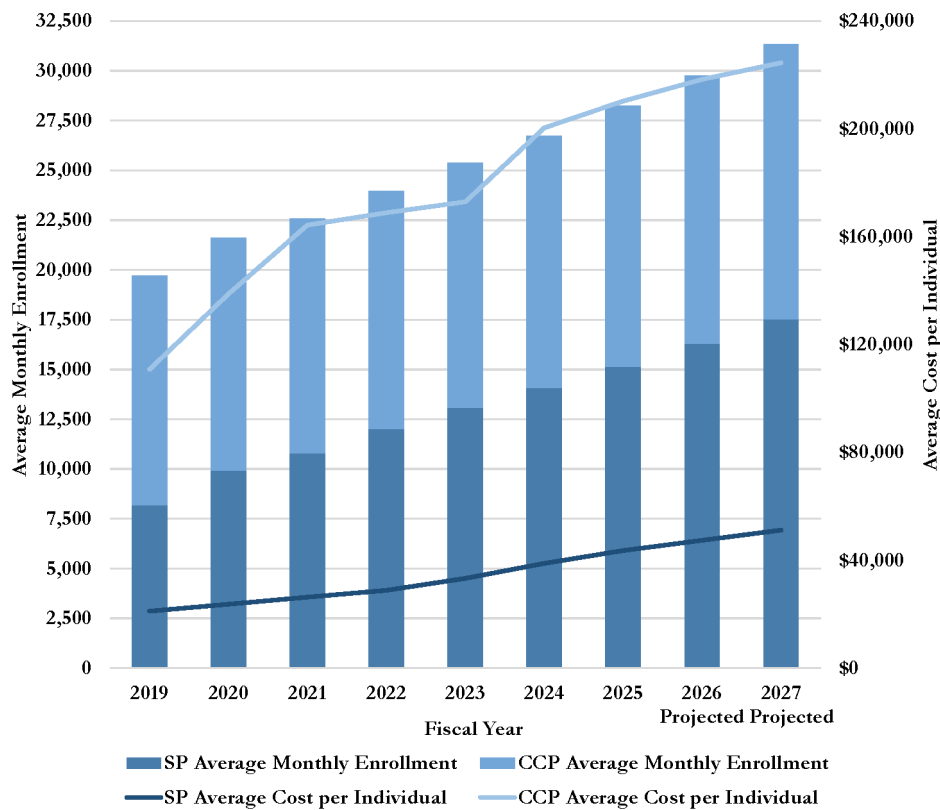

Public Health

To ensure ongoing readiness against public health threats, and combat misinformation spread by the federal government, Governor Sherrill is strengthening evidence-based and outcomes-driven public health interventions in New Jersey. This budget adds \$2 million to support the state-funded vaccination program, \$1 million to strengthen capabilities of the State’s Public Health and Environmental Laboratories, and \$5.4 million for data modernization.

Developmental Disability Supports and Services

In FY 2027, state spending for the Division of Developmental Disabilities is expected to increase by \$154 million to meet the needs of adults in this community.

Community Care Program (CCP) and Supports Program (SP)

Average Cost per Individual includes both State and federal funding.

The budget will continue to provide funding for the Office of the Ombudsman for Individuals with Intellectual or Developmental Disabilities and Their Families. This budget also continues investments in education, technology, and services to support inclusivity of blind and visually impaired individuals as well as deaf, deaf-blind, hard of hearing, and hearing-impaired individuals.

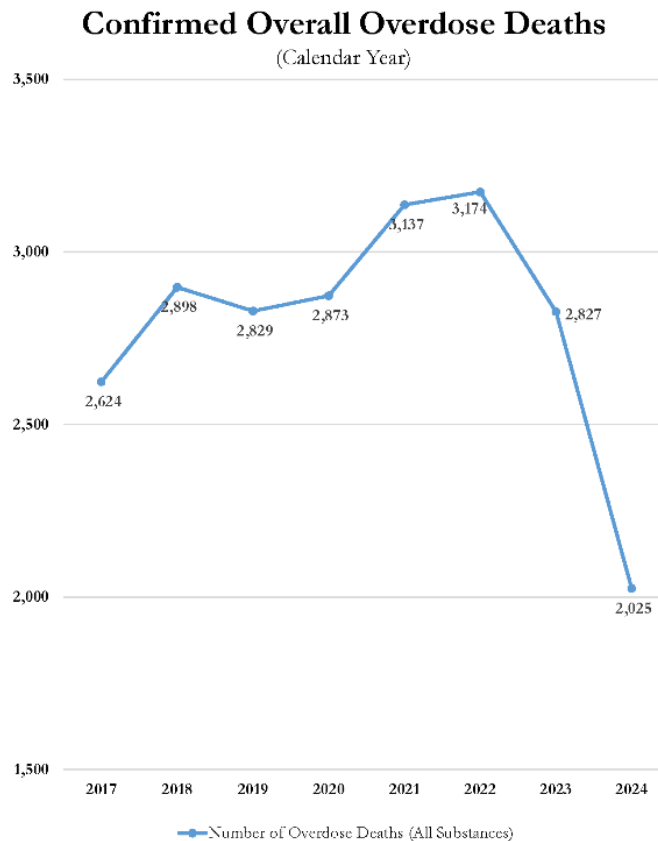

Aging

There are approximately 1.6 million older adults in New Jersey. This budget includes growth of \$397 million to meet increasing needs for NJ FamilyCare’s long-term care population. The budget also includes \$22.4 million for the Pharmaceutical Assistance to the Aged and Disabled and Senior Gold programs, which provide prescription drug benefits to nearly 158,000 New Jerseyans. RetireReady NJ is also sustained to help New Jersey workers save now for retirement.

Mental Health and Substance Use Disorder Services

As part of the commitment to residents in the State’s care, New Jersey is committing \$448.7 million towards the care of patients in the State’s four psychiatric hospitals.

Governor Sherrill continues to implement the recommendations of the Opioid Recovery and Remediation Advisory Council, created in 2022, and has already advanced nearly \$312 million in settlement resources. While any overdose is one too many, public health interventions are helping turn the tide in the opioid crisis. The Department of Health reports that opioid-related deaths declined nearly 30 percent between 2023 and 2024, and preliminary data forecasts this trajectory continued in 2025.

The FY 2027 Budget

New American Protections

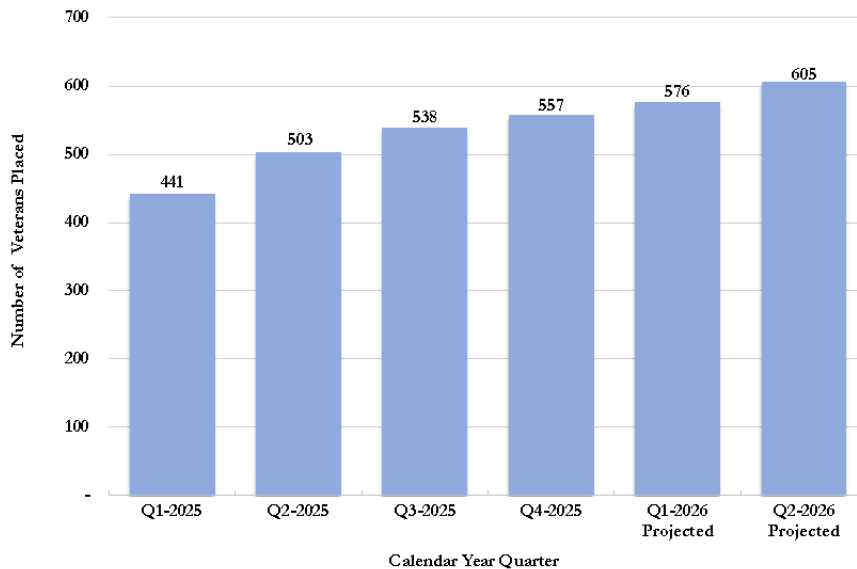

Governor Sherrill is committed to upholding the Constitution and stopping the federal government from violently endangering immigrant communities. In February, the Administration signed Executive Order No. 12 to prevent Immigration and Customs Enforcement (ICE) from staging operations on state property and published a “Know Your Rights” website. The Office of the Attorney General also launched a portal for residents to submit video footage of ICE interactions. The budget also supports accessibility of New Americans to vital services through continued investment in translation and interpretation services.

Military and Veterans Affairs

As the country’s first female veteran governor, Governor Sherrill will ensure a smooth transition for the State’s new Department of Veterans Affairs due to the enactment of P.L.2025, c.139 and she is committed to expanding resources for veterans.

The groundwork has been laid to end veterans’ homelessness across New Jersey; however, there will be more work to be done to keep veterans’ homelessness to a functional zero. This budget builds on the existing Bringing Veterans Home infrastructure, which has successfully adopted strategies to transition homeless veterans from temporary housing placements to stable, permanent housing solutions. This budget includes \$11 million for this initiative. Since its launch in January 2025, the program has helped over 2,200 homeless veterans. Without continued investment, New Jersey risks reversals in veteran housing gains and increased inflow of veterans entering homelessness. Governor Sherrill anticipates the Departments of Community Affairs and Veteran Affairs reaching all known homeless veterans this year.

Veterans Placed in Permanent Housing by the Bringing Veterans Home Initiative

Consistent with the Administration’s focus on outcomes-driven investments that deliver long-term value, the FY 2027 budget strengthens support for New Jersey’s veterans and military families while maintaining the facilities that serve them. The budget includes an additional \$10.5 million to cover increased operating expenses at the State’s three Veterans Memorial Homes to ensure the provision of high-quality care at these facilities. Additionally, the now independent Department of Military Affairs will receive \$12.9 million in state funds, which includes a \$1 million increase to help the department invest in critical maintenance upgrades at the State’s aging armories.

Law and Public Safety

As a former federal prosecutor, Governor Sherrill understands the importance of upholding the rule of law and protecting public safety. The Administration is committed to building on New Jersey’s recent success in reducing shootings and homicides to historic lows. The Department of Law and Public Safety plays a critical role in this effort, from combating price gouging, fighting for federal resources, and defending the rights and freedoms of New Jerseyans.

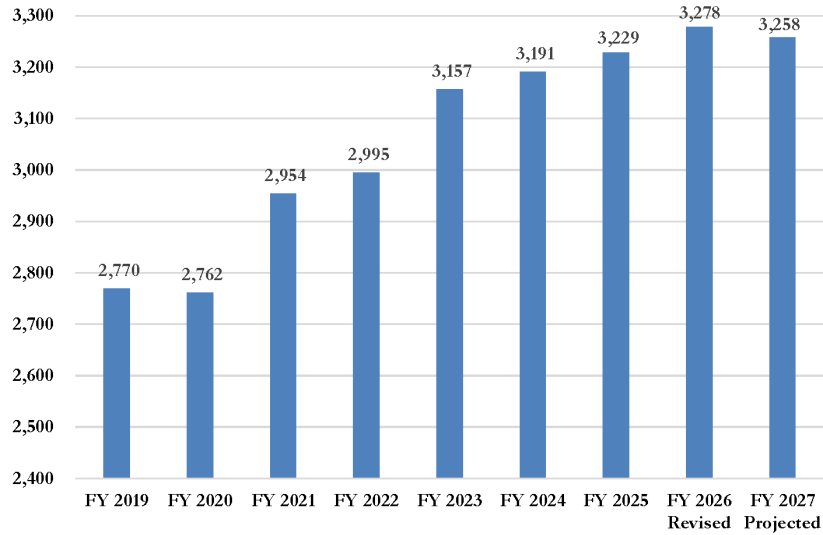

Declining Shooting Incidents

The FY 2027 Budget

This budget includes \$6 million for the 169th Trooper Class, as well as new support for body-worn camera maintenance and the P25 radio system.

End of Year State Trooper Count

This budget also includes approximately \$20 million for the Alternative Responses to Reduce Instances of Violence and Escalation (ARRIVE) Together Program, which partners police officers with mental health professionals when responding to a person who is experiencing a mental health crisis. It also continues to support hospital- and community-based violence intervention programs using \$25.5 million in revenues generated from adult-use marijuana.

Corrections and Parole

Maintaining a safe and effective corrections system requires continued investment in both facility operations and successful re-entry services. This budget includes \$1.3 billion for the Department of Corrections, underscoring the Governor’s commitment to improving the State’s corrections system and keeping corrections officers and inmates safe. This budget will also support the State Parole Board, which plays an integral role in sustaining New Jersey’s record low recidivism rates.

Department of Corrections

Incarcerated Population

* As of January 2026, the overall Corrections population is 12,324.

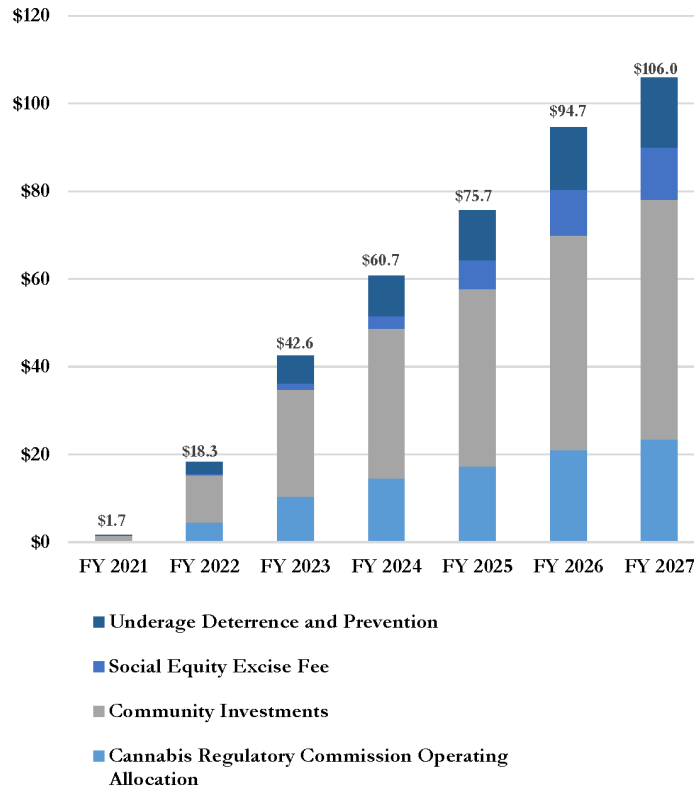

The FY 2027 Budget

Cannabis Regulatory Commission

Alongside reforms across the criminal justice system, New Jersey continues to implement the responsible regulation of legalized cannabis. The regulated cannabis market continues to grow, creating new businesses, jobs, and revenue for the State and local communities. The 2021 legalization of adult-use marijuana has led to nearly 400 licensed cannabis businesses operating in over 200 municipalities. In FY 2027, cannabis sales are expected to produce \$106 million in tax and fee revenues.

Cannabis Revenues

(in millions)

FY 2021 through FY 2025 represent actual revenues while FY 2026 and FY 2027 reflect projected figures.

Transportation and Infrastructure

Making responsible financial decisions means prioritizing the long-term investments that keep New Jersey moving. Even as this Administration makes difficult choices across the budget, it remains committed to maintaining and modernizing critical transportation infrastructure. The Sherrill Administration will work to improve commutes and strengthen coordination across transportation agencies so that New Jerseyans spend more time with family and friends and less time stuck on a train.

NJ TRANSIT

The FY 2027 budget includes more than \$1 billion in State support for NJ Transit, an increase of \$215.3 million or 26 percent from support provided by the State in FY 2026. This support includes NJ Transit's General Fund subsidy of \$282.2 million and \$765.6 million in dedicated revenue from the Corporate Transit Fee. NJ Transit's operating budget is also supported by revenues from the Clean Energy Fund, federal preventive maintenance amounts, and the Turnpike contribution.

The increased funding for NJ Transit will support an anticipated 11 percent increase in operating costs. NJ Transit faces a challenging cost environment in FY 2027 due to several factors, including increased costs for labor, materials and supplies and ADA/Access Link contracts. Additionally, farebox revenue is expected to remain flat, reflecting a post-pandemic new normal for ridership levels.

Governor Sherrill is committed to advancing the Gateway Tunnel Project and fighting to ensure the federal government supports New Jersey jobs and commuters. NJ TRANSIT will continue its efforts to have a fully modernized bus and rail fleet by 2031, which will increase reliability and reduce maintenance costs. The Governor will also support NJ TRANSIT's Leveraging Assets for Non-farebox Dollars (LAND) Plan, which proposes transit-oriented development and other land use reforms to provide new revenue for the agency while also improving housing opportunities for families.

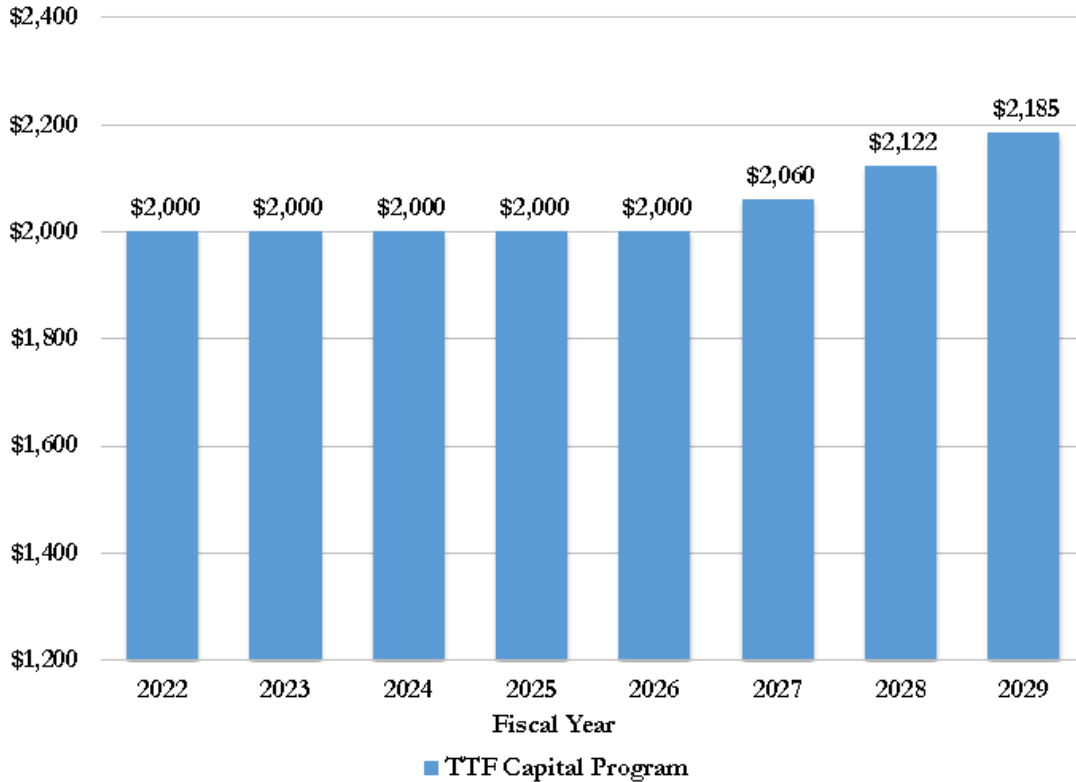

Transportation Initiatives

The Administration's focus on efficiency and accountability extends to the systems that support and fund New Jersey's transportation infrastructure. To advance this goal, this budget recommends \$10 million in upfront funding for the Department of Transportation (DOT) to begin converting its financial management system to NJHIVE, the State's modern enterprise accounting platform. This transition will significantly improve DOT's financial management capacity and enable the department to process more than \$1 billion in annual federal transportation project reimbursements more quickly and securely. This investment underscores the core principle of this budget: strengthening government systems so New Jersey can draw down more federal resources and deliver greater outcomes for its taxpayers.

The FY 2027 Budget

Additionally, Governor Sherrill’s FY 2027 budget appropriates approximately \$2.1 billion for the State Transportation Capital Program. This includes \$1.3 billion for critical investments in state, local highway, and bridge projects, and another \$782 million for NJ Transit capital projects. Pursuant to P.L.2024, c.7, Transportation Trust Fund funding will increase by \$60 million in FY 2027.

Transportation Trust Fund (in millions)

Fiscal years 2027 through 2029 incorporate funding increases pursuant to P.L.2024, c.7.

Environment and Agriculture

Environmental Protection

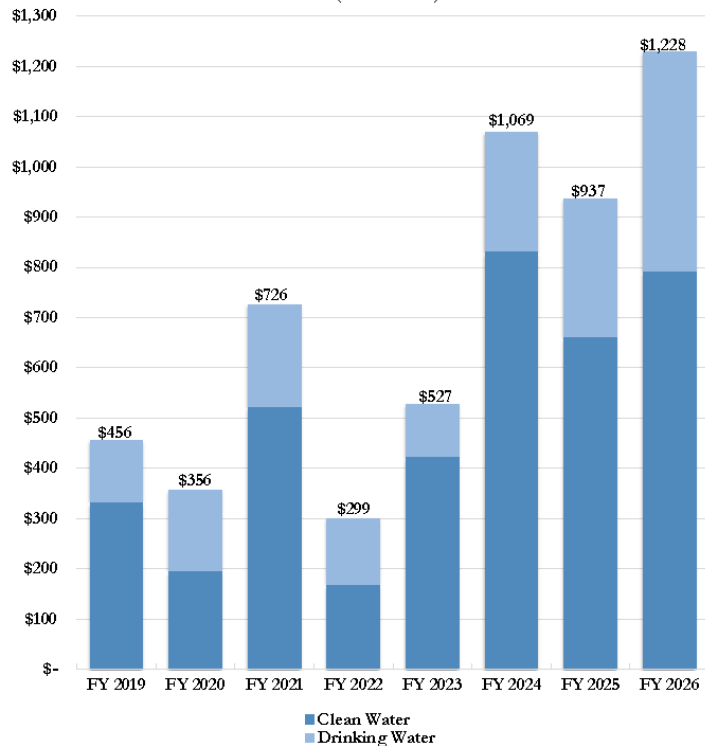

Under Governor Sherrill, the Department of Environmental Protection (DEP) will work to cut red tape, develop clear timelines for permitting, and foster economic growth while protecting New Jersey’s air, land, and water. The Governor is committed to creating a new culture of customer service, transparency, and accountability at the department, which will help to save businesses time and money while also ensuring a resilient environment and open spaces for generations to come.

To achieve the government efficiency objectives in Executive Order No. 5, this budget addresses the understaffing of the permitting function at DEP and establishes two new regulatory review teams. These additional resources will focus on reducing permitting process backlogs and delays and will expedite and streamline project reviews for critical projects like energy generation, grid support, and new housing. Greater permitting capacity at DEP will reduce construction delays that add millions of dollars to the cost of power generation and housing projects, which will save New Jersey families’ money on their utility bills, mortgages, and rental payments. The Department of Environmental Protection is also actively participating in the cross-agency permitting dashboard work outlined in Executive Order No. 5 being led by the office of the COO and NJIA.

The Sherrill Administration’s focus on efficiency also ensures the State can move quickly to deliver critical infrastructure investments and maximize federal funding opportunities. This budget proposes a ten percent increase in the Drinking Water and Clean Water Infrastructure line-item, which allows the State to access \$265 million in federal funds for water infrastructure projects. In FY 2027, \$4.5 million is available to the department to implement the Protecting Against Forever Chemicals law (P.L.2025, c.202) and reduce PFAS discharges. Additionally, the Department of Agriculture is provided funding to expand PFAS testing in soil and grains.

Water Infrastructure Spending

(in millions)

FY 2019 through FY 2025 represents the amount that was expended while FY 2026 represents the amount that was budgeted.

The FY 2027 Budget

A significant portion of DEP's funding will come from constitutionally dedicated Corporation Business Tax (CBT) revenue supplemental appropriations that have been provided separately from the Governor's budget each year since FY 2017. These dedicated funds account for about \$135 million in FY 2026 adjusted appropriations, and the removal of this funding in FY 2027 appears to result in a large reduction for year-over-year comparisons. The Administration will recommend to the Legislature supplemental appropriations again in FY 2027 to continue to support the constitutionally dedicated programming.

Agriculture

Including the funds for food security, the Governor's budget includes \$131.1 million for the Department of Agriculture. The department will support the State's food banks, school nutrition and farmland preservation programs, and expand the responsible use of solar energy on farms.

FY 2026 and FY 2027 Revenues

Economic Performance and Outlook

New Jersey experienced stable but slowing economic growth in 2025. The state's Gross Domestic Product (GDP) – a broad measure of economic output – showed moderate growth overall, while employment levels rose slightly. Price inflation continued to decline over the course of the year. Higher interest rates, which were intended to slow economic activity in order to tame inflation, eased slightly over the second half of 2025. However, despite this modest retreat, borrowing costs remained elevated enough to restrain activity in certain sectors, particularly the housing market. As 2026 begins, the economic outlook for both New Jersey and the nation points to continued slow growth. The Federal Open Market Committee (FOMC) lowered interest rates at the end of 2025 to encourage spending and investment, but additional rate cuts in 2026 remain uncertain and may depend on the upcoming change in leadership.

New Jersey's real GDP grew at a seasonally adjusted annual rate of 3.4 percent in the third quarter of 2025. Combined, over the first three quarters, New Jersey's real GDP expanded at a rate of 2.2 percent.¹

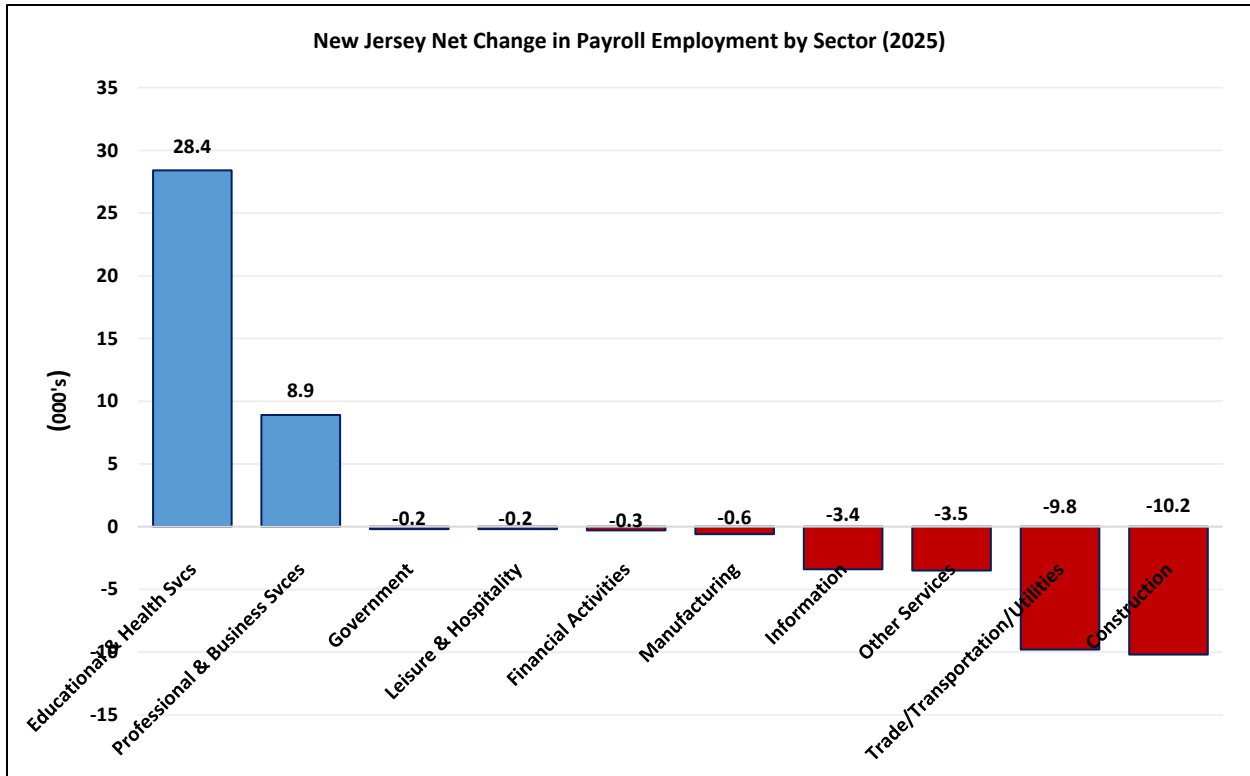

New Jersey's labor market has slowed in recent years. Following gains of 115,400 jobs in 2022, 64,200 jobs in 2023, and 39,200 jobs in 2024, preliminary estimates indicate only 9,000 jobs were added in 2025. Employment increased modestly in six of the year's twelve months. Payroll employment fell by an average of 2,600 jobs per month during the first half of 2025 but grew by an average of 4,100 jobs per month in the second half of the year, suggesting the potential for a rebound in momentum.

By the end of 2025, New Jersey had 177,100 more nonfarm jobs than before the COVID-19 pandemic, rising 4.2 percent from February 2020 to December 2025. This growth outpaced the employment gains in neighboring states over the same period, including New York (1.9 percent), Pennsylvania (2.8 percent), and Connecticut (0.9 percent).

New Jersey's labor force participation rate was 63.7 percent in December 2025, below its pre-pandemic level. The rate has continued to decline since the winter of 2024, after peaking at 64.5 percent in June 2024. New Jersey's December 2025 rate was higher than that of New York (61.5 percent) and Pennsylvania (61.6 percent), but lower than Connecticut (64.0 percent). The state's unemployment rate rose by 0.8 percentage points over the course of 2025, reaching 5.4 percent in December 2025, as the number of unemployed persons increased relative to the labor force.

Once again, job growth in 2025 was largely concentrated in the Educational & Health Services sector, while most other sectors saw minimal growth or declines. Only two sectors added more than 500 jobs over the year: Educational & Health Services (+28,400 jobs) and Professional & Business Services (+8,900). Construction lost 10,000 jobs, Trade, Transportation & Utilities declined by 9,800 jobs, and the Information sector lost 3,400 jobs.

¹ Fourth quarter State GDP data is not released until March 2026.

Employment in most sectors remained above pre-pandemic levels at the end of 2025. The only sectors still below their pre-pandemic employment levels were Construction (-8,300 jobs), Government (-2,100 jobs) and Other Services (-1,100 jobs).

New Jersey wages and salaries rose 4.3 percent over the first three quarters of 2025, while personal income grew by 4.5 percent, slowing somewhat for the second consecutive year. Meanwhile, stock markets have just completed three years of strong gains, likely boosting non-wage income sources. From the end of 2022 to the end of 2025, the S&P 500 grew 78.3 percent, and the Dow Jones Industrial Average increased 45.0 percent over the same period.

The U.S. housing market was relatively flat in 2025 as elevated mortgage rates and home prices continued to constrain activity. The average U.S. 30-year fixed rate mortgage softened in the second half of the year, hovering just above 6.2 percent in December. Despite the high cost of borrowing, the median sales price for a single-family home in New Jersey reached \$585,000 in 2025, an increase of 6.4 percent from 2024, following an 11.3 percent increase from the previous year.

According to New Jersey Realtors data, closed sales of existing homes beat their year-ago levels in ten of the twelve months. Previously, existing home sales weakened near the end of 2021, and total closed sales fell 17.8 percent in 2022, returning to levels last seen in 2015. Total market closed sales continued to decline throughout 2023 and 2024, and in 2025 they slipped by a modest 0.6 percent.

U.S. price inflation edged lower in 2025, with the national Consumer Price Index (CPI) rising 2.7 percent year-over-year in December. Although this remains above the FOMC's 2.0 percent target, it reflects a decline from the 3.0 percent rate recorded in January 2025. In contrast, inflation in the metropolitan area covering much of northern and central New Jersey has trended higher than the national rate since the spring 2024. Regional CPI increased 3.4 percent year-over-year in December 2025. This represents a significant cooling of inflation from the region's peak of 9.1 percent in June 2022.

Looking ahead, economic forecasters generally expect moderate growth will continue for both New Jersey and the United States in 2026 and 2027, despite several lingering uncertainties. International trade could face additional rounds of tariff adjustments, and while interest rates are more likely than not to decline further, inflation remains above the 2.0 percent target. Recent, significant escalations in the Middle East have introduced substantial shocks to global markets and created uncertainty. According to the FOMC's December 2025 projection, real (inflation-adjusted) GDP in the U.S. is expected to grow 2.3 percent in 2026, following a modest performance in 2025. Economists surveyed by the Wall Street Journal in January 2026 forecasted real GDP growth of 2.2 percent for the nation in 2026.

The revenue forecasts presented on the following pages assume the consensus outlook of moderate economic growth, lower price inflation, and declining interest rates in 2026 and 2027.

FY 2027 Revenues

(in millions)

Other	12,189	12,109	11,772	(337)	(2.8)
Total	\$ 57,309	\$ 57,491	\$ 59,064	\$ 1,573	2.7

FY 2026 and FY 2027 Revenues

After two relatively flat revenue-collection years in FY 2023 and FY 2024, stronger growth resumed in FY 2025 and continues in FY 2026. Aggregate growth through the end of January is 4.0 percent, slightly above the Appropriations Act's certified year-end target of 3.3 percent growth. Accordingly, the revised overall FY 2026 revenue forecast of \$57.5 billion is \$181.3 million above the certified target. While some revenues, such as the Gross Income Tax, are exceeding expectations, and other revenues such as the Corporation Business Tax are falling short, the overall outlook remains positive.

Consensus expectations point to stable but slow economic growth in 2026 and 2027. Key economic indicators, including GDP, personal income, price inflation, employment, and retail sales, are projected to maintain moderate levels, while the FOMC is expected to cautiously reduce interest rates over the coming year. Consistent with this outlook, the FY 2027 revenue forecast anticipates low underlying growth, with total revenues projected at \$59.1 billion, an increase of \$1.6 billion, or 2.7 percent, over FY 2026. Anticipated declines in non-tax revenue sources, such as investment earnings and one-time resources like the transfer from the Debt Defeasance and Prevention Fund, are offset by certain proposed revenue enhancements.

As part of Governor Sherrill's efforts to improve government operations without creating new burdens, the State will look to enhance revenues without enacting new taxes on everyday New Jerseyans. One key strategy will be to find innovative ways of identifying tax evaders through new technology and training. The detailed revenue forecasts are discussed in the following pages.

Gross Income Tax

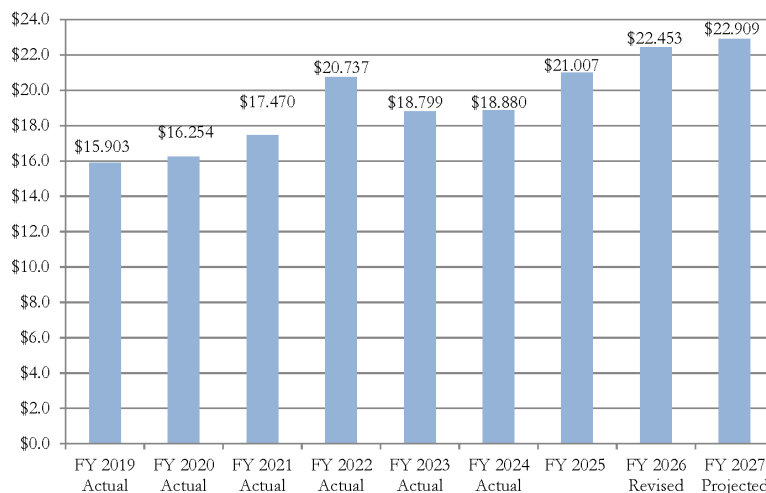

The Gross Income Tax (GIT) is the State’s largest revenue, accounting for roughly 39 percent of the total revenue forecast. Through January, net GIT collections are up \$1.0 billion, or 10.0 percent. Employer withholding—the largest component of the GIT—continues to be a source of consistent strength, rising 6.1 percent so far this fiscal year and posting growth of at least five percent in seven of the past eight fiscal years. Estimated payments are also up 21.8 percent, reflecting continued strength in capital markets during 2025, which have recorded three consecutive years of above-average gains. Refund activity has moderated as well, with refunds essentially flat through January.

Given the strong performance of estimated payments and capital markets, final payments this spring are now expected to at least match last year’s high level, compared with an initial expectation of a slight decline. The revised FY 2026 forecast of \$22.5 billion represents an increase of \$974.2 million over the amount certified in the Appropriations Act.

The FY 2027 forecast of \$22.9 billion is up \$456.7 million, or 2.0 percent, above FY 2026. The forecast assumes continued growth in employer withholding, though slightly below recent trends. Estimated and final payments are expected to moderate after three consecutive years of strong capital market performance. Refunds are expected to grow modestly, consistent with typical patterns absent significant tax policy changes.

As part of this budget, the Administration is proposing to amend the Alternative Business Calculation Adjustment by reducing the deduction for taxpayers with gross income between \$500,000 and \$1 million to 25 percent, and eliminating the deduction for those with gross income above \$1 million. This change is intended to better align the deduction with its original purpose—providing a benefit to small businesses and leveling the playing field with larger businesses. The adjustment is expected to affect approximately 10,000 taxpayers, representing less than one percent of all GIT filers.

Gross Income Tax (in billions)

Revenue Outlook

Sales Tax

The Sales and Use Tax (SUT) is the State’s second-largest budgeted revenue source. FY 2026 receipts are up 3.0 percent year-to-date through January, consistent with expectations. Since the fall of 2024, SUT revenue growth has trailed regional core consumer price inflation in most months. Consumers continue to spend, although they may be doing so with reduced discretionary income as nontaxable goods and services—such as groceries—consume a larger share of household budgets due to elevated price inflation. The revised FY 2026 forecast of approximately \$14.2 billion remains unchanged from the certified Appropriations Act amount and reflects growth of 3.7 percent over FY 2025.

FY 2026 collections continue to benefit from the full phase-in of the SUT on zero-emission vehicle sales, although revenues are likely to be weaker than originally projected due to federal tax policy changes under H.R.1. The federal law significantly reduced electric-vehicle subsidies, thereby lowering affordability and dampening sales. Conversely, H.R.1 is expected to generate substantially higher federal income-tax refunds for many taxpayers, which is anticipated to gradually bolster consumer spending in the latter half of the fiscal year.

The FY 2027 SUT forecast of approximately \$14.7 billion represents a 3.6 percent increase over FY 2026. Consumer spending is expected to remain resilient and at least keep pace with regional price inflation. Various pressures and tailwinds are likely to offset one another, and the State is expected to benefit in the early part of the fiscal year from the economic stimulus associated with hosting FIFA World Cup matches, as well as tourism-driven momentum that may continue throughout the summer.

Sales Tax

(in billions)

Sales Tax excludes the tax on energy.

Corporation Business Tax

The Corporation Business Tax (CBT) forecast has experienced substantial change since the adoption of the FY 2026 Appropriations Act eight months ago. For many CBT taxpayers, H.R.1 significantly reshaped the corporate tax landscape. Because these federal modifications were enacted after the State finalized the FY 2026 Appropriations Act, the certified CBT projections were based on a tax environment that has since changed.

H.R.1 alters the calculation of federal corporate taxable income, and these changes flow through to states that use federal taxable income as their starting point. As a rolling-conformity state, New Jersey automatically adopted several provisions—such as immediate R&D expensing and expanded interest deductions—that reduce corporate tax liabilities.

The revised FY 2026 CBT revenue forecast, excluding the Corporate Transit Fee (CTF), is \$3.3 billion, a decrease of \$883.7 million from the FY 2026 Appropriations Act forecast. This forecast reflects a recalibration of CBT expectations due to H.R.1, alongside an expectation for persistently high refund activity to continue this fiscal year.

Year-to-date collections through the end of January are down 36.7 percent due to weaker payments and increased refund activity. CBT estimated payments fell sharply in September—down 32.1 percent, marking the first major CBT payment deadline following the enactment of H.R.1. Estimated payments declined again in December, though less severely, by 12.2 percent. The effects of H.R.1 on the payment side are expected to be most pronounced in the near term, with payments expected to rebound in FY 2027.

Refund issuances, which declined by nearly \$500 million from FY 2024 to FY 2025, are up \$344.7 million year-to-date through January compared to FY 2025—a 50.4 percent increase. Elevated refund levels are driven by multiple factors, including overpayments from current and prior tax years, claims for various corporate tax credits spanning multiple tax years, and tax court settlements. Refunds are expected to remain elevated for the remainder of FY 2026 due to these ongoing factors.

The CTF is forecast to generate \$654.3 million in FY 2026. However, the actual accounting of CTF payments may not be fully known until after Tax Year 2025 returns are filed, which may not be completed until spring 2027.

FY 2027 CBT revenues are projected to reach \$4.1 billion, an increase of \$816.1 million or 25.0 percent over FY 2026. This growth is primarily attributed to a modest decline in refunds and a rebound in payments as the immediate impacts of H.R.1 on Tax Years 2025 and 2026 begin to moderate. Corporate profits are expected to remain steady throughout FY 2027. Meanwhile, the CTF is projected to generate \$814.4 million in FY 2027, an increase of \$160.1 million, largely due to the diminishing effects of H.R.1 and expected growth in corporate profits.

The FY 2027 forecasts for the CBT and CTF also include an estimated \$485.0 million in additional revenue generated from a temporary cap on the amount of Prior Net Operating Losses (PNOLs) and Net Operating Losses (NOLs) that may be deducted in a given privilege period. Under the proposal, taxpayers would be permitted to deduct no more than \$1 million in PNOLs and NOLs annually.

Revenue Outlook

With the enactment of P.L.2023, c.96, effective for privilege periods beginning on and after July 31, 2023, members of a combined group were permitted to pool and apply their PNOLs and NOLs against the combined group’s allocated entire net income. As a result, the total NOL deduction increased from roughly \$7.0 billion in prior years to over \$11.0 billion for the 2023 privilege period. Although the various provisions in P.L.2023, c.96 were intended to be revenue neutral over time, the impact of the PNOL and NOL changes materialized quickly, reducing revenues by nearly \$500 million in the first year. The number of taxpayers claiming NOL deductions greater than \$100 million also doubled.

As proposed, the temporary cap would delay, but not eliminate, a taxpayer’s ability to utilize excess PNOLs and NOLs to reduce allocated entire net income; thereby smoothing the fiscal impact of these changes on State finances. While the proposal is expected to generate approximately \$485.0 million in FY 2027, it is anticipated to affect about 600 taxpayers, representing less than one percent of all CBT filers in New Jersey. This proposal also comes in the context of significant federal corporate income tax reform, which New Jersey incorporates as rolling-conformity state, and from which businesses are expected to benefit substantially.

Corporation Business Tax (in billions)

Corporation Business Tax excludes the tax on energy as well as the Corporate Transit Fee.

Other Major and Miscellaneous Tax Revenues

In addition to the three largest revenues discussed above, the FY 2027 Budget includes forecasts for numerous other revenues. In the aggregate, most are performing close to the targets certified in the Appropriations Act last June and are expected to grow modestly in FY 2027. Among the most notable are the following:

Pass-Through Business Alternative Income Tax (PTBAIT). Through the end of January, PTBAIT collections are up 13.9 percent, reflecting strong performance in the financial services sector during 2025 and a reported increase in mergers and acquisitions. Accordingly, PTBAIT revenues are revised upward to \$4.821 billion, an increase of \$356.3 million over the amount certified in the Appropriations Act.

PTBAIT revenue is projected to decline slightly in FY 2027 to \$4.781 billion, a decrease of \$40.7 million from FY 2026. The underlying outlook for the tax remains positive; however, recent strength has been bolstered by robust capital markets and favorable economic conditions that supported mergers and acquisitions. In some cases, these transactions generated significant non-recurring payments, which have been factored out of the tax base.

The FY 2027 forecast also assumes minimal impact from federal tax policy changes under the federal H.R.1, primarily due to the expansion of the State and Local Tax Deduction. The continuing popularity of PTBAIT will maintain participation by New Jersey taxpayers, limiting any shift back to the Gross Income Tax.

Realty Transfer Fee. FY 2026 revenues are revised upward to \$566.2 million, an increase of \$32.3 million above the Appropriations Act forecast. Realty Transfer Fee collections are up 13.4 percent through January and have grown consistently since the summer of 2024, demonstrating a steady improvement in spite of elevated mortgage interest rates. FY 2027 Realty Transfer Fee revenue collections are projected to rise to \$577.6 million, a moderate increase of 2.0 percent.

Graduated Percentage Fee (GPF). Formerly known as the Assessment on Real Property Greater than \$1.0 million, the GPF was substantially amended under P.L.2025, c.69, to provide for a graduated rate structure on high-value property sales. The FY 2026 forecast of \$524.4 million is \$30.1 million lower than the Appropriations Act forecast, as rising gross collections have been partially offset by elevated refunds permitted under the new statute. The GPF is expected to grow to \$592.0 million in FY 2027, an increase of \$67.6 million as refunds return to lower historical levels and collections grow modestly.

Casino Revenue Fund. Collections growth is strong in FY 2026, up 45.4 percent year-to-date through January, supported by increased internet gaming and sports wagering tax rates under P.L.2025, c.66. The revised FY 2026 forecast of \$937.2 million is \$50.5 million above the certified level. Continued growth in the gaming market will boost collections to an estimated \$1.0 billion in FY 2027, an increase of \$65.9 million above FY 2026.

Revenue Outlook

Cigarette Tax. The Cigarette Tax no longer appears as an on-budget revenue, as the full amount of annual collections is now allocated as the off-budget dedication to the Health Care Subsidy Fund (HCSF). Smoking in general has faced a long-term decline, accelerated when consumers also shifted towards other nicotine products such as vaping. Total off-budget revenues are estimated to be about \$385.4 million for FY 2026 and \$350.6 million in FY 2027. The Cigarette Tax collections decline was slightly mitigated under P.L.2025, c.68, with an increased tax rate from \$2.70 per pack to \$3.00 per pack, but all collections are deposited into the HCSF.

Other Revenues. To reduce private employers' reliance on public benefits, the FY 2027 budget proposes Employer Healthcare Assistance Contributions, a charge on employers with 50 or more employees on NJ FamilyCare. The average State cost for covering this population is estimated at \$1,700 per person, and these payments are expected to generate \$145 million.

As part of the Governor's commitment to online safety and privacy protection, the budget also proposes a licensing system for commercial data brokers in New Jersey. Fees are projected to generate \$2.5 million.

Notes:

(a) Includes \$1.8 million from the Cannabis Regulatory, Enforcement Assistance, and Marketplace Modernization Fund for the Scholarship and Transformative Education in Prison Program.

(b) FY 2026 and FY 2027 include \$33.8 million from the Supplemental Workforce Fund for Basic Skills.

(c) Includes \$3m in FY 2026 and a minimum of \$850k in FY 2027 for the Health Care Professional Loan Redemption Program (formerly the Primary Care Practitioner Loan Redemption Program), which is part of the Reproductive Health Access Fund within the Department of Health.

(d) Includes \$1m in FY 2026 and FY 2027 for Pay It Forward, which is funded from the Workforce Development Partnership Fund in the Department of Labor and Workforce Development.

(e) Supports fringe benefits of State-supported employees at Senior Public Institutions and Community Colleges.

**SUMMARY OF APPROPRIATIONS:
MAJOR INCREASES AND DECREASES
(millions of dollars)**

This table summarizes the major increases and decreases in the fiscal year 2027 budget and is organized by category.

Categories of recommended appropriations are defined as follows:

State Operations consists of programs and services operated directly by the State government. The largest single component is for the salary and benefits of State employees. This portion of the budget is subject to the spending limitations imposed by the Cap Law.

Grants-in-Aid appropriations are for programs and services provided to the public on behalf of the State by a third party provider, or grants made directly to individuals based on assorted program eligibility criteria. The NJ FamilyCare program, Tuition Aid Grant Program, Affordable New Jersey Communities for Homeowners and Renters (ANCHOR), and funding for New Jersey Transit and State colleges and universities fall into this category.

State Aid consists of payments to or on behalf of counties, municipalities, and school districts to assist them in carrying out their local responsibilities. This category of expenditure includes school aid and municipal aid. It also includes funding for county colleges, local public assistance, and county psychiatric hospital costs.

Capital Construction represents pay-as-you-go allocations and debt service for construction and other infrastructure items.

Debt Service payments represent the interest and principal on capital projects funded through the sale of general obligation bonds.

The Annual Tax Expenditure Report

Pursuant to P.L.2009, c.189, the State must prepare, in time for the Governor's annual Budget Message, a report of all State tax expenditures made in the last completed fiscal year, the current fiscal year, and the fiscal year to which the Budget Message applies.

This year's Tax Expenditure Report is the seventeenth the State has issued. It includes expanded information on the objective or purpose of many tax expenditures and also includes several new categories of tax expenditures that were not part of previous reports.

The report may be accessed at:

<http://www.state.nj.us/treasury/taxation/taxexpenditurereport.shtml>
