General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Stream Encroachment (SE) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA).

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed does not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed inside the back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Bureau of Safe Drinking Water Revises Technical Manual

The Bureau of Safe Drinking Water (Bureau) has revised its Technical Manual for Public Water Works Facilities Approvals. The revisions reflect the changes in the Bureau's regulations for the construction of public community water systems (N.J.A.C. 7:10-11) which were adopted on November 18, 1996.

The technical manual has been prepared as guidance to water purveyors and consulting engineers who need to ascertain whether a permit application is necessary for the construction of water works facilities. More importantly, it serves to provide guidance to the consulting engineer as to what is required of an applicant for the permit application. It highlights areas of most frequent deficiencies, and it accentuates areas of critical concerns in each of the permit categories.

The manual may be obtained by sending a check or money order, made payable to the Treasurer, State of New Jersey, for \$7.00 to NJDEP Maps and Publications Sales, General Services, P.O. Box 438, Trenton, NJ 08625 or by calling 1-609-777-1038.

Questions pertaining to the technical manual and applicable regulations should be directed to the Bureau's Compliance and Permit Section at 1-609-292-5550. Office hours are from 8:00 am to 4:30 pm Monday through Friday.
