#### **19:45-1.41 Procedure for filling payout reserve containers of slot machines and hopper storage areas**

(a) Each hopper of a slot machine may be filled by requesting coin, slot tokens or prize tokens, which are compatible with the hopper to be filled, on a Hopper Fill Slip, or by utilizing coin, slot tokens or prize tokens that are compatible with the hopper to be filled and that are stored in its corresponding hopper storage area pursuant to N.J.A.C. 19:45-1.36A.

1. A slot hopper may be refilled at any time, provided however, that:

- i. An entire sealed bag of coin or tokens is used for the hopper fill and placed into the hopper;
- ii. The hopper cannot be filled beyond its operational capacity;
- iii. The hopper cannot be filled beyond its present inventory level; and
- iv. The procedures for ensuring (a)1i through iii above have been approved by the Commission.

(b) The filling of a hopper or a hopper storage area by means of a Hopper Fill Slip shall be accomplished as follows:

1. Whenever a slot supervisor, attendant or mechanic requests coins, slot tokens or prize tokens to fill a hopper or a hopper storage area of a slot machine, he or she shall obtain a properly completed and signed Hopper Fill Slip ("Hopper Fills") from a slot cashier, general cashier or master coin bank cashier.

2. Hopper Fills shall be serially prenumbered forms, each series of Hopper Fills shall be used in sequential order, and the series numbers of all Hopper Fills received by a casino licensee shall be accounted for by employees independent of the cashiers' cage and the slot department. All original and duplicate void Hopper Fills shall be marked "VOID" and shall require the signature of the preparer. Notwithstanding the above, a serially prenumbered combined Jackpot Payout/Hopper Fill form may be utilized in conjunction with N.J.A.C. 19:45-1.40(b), as approved by the Commission, provided that the combined form shall be used in a manner which otherwise complies with the procedures and requirements established by this section.

3. For establishments in which Hopper Fills are manually prepared, the following procedures and requirements shall be observed:

i. Each series of Hopper Fills shall be a three-part form, at a minimum, and shall be inserted in a locked dispenser that will permit an individual slip in the series and its copies to be written upon simultaneously while still locked in the dispenser, and that will discharge the original and duplicate while the triplicate remains in a continuous, unbroken form in the dispenser; and

ii. Access to the triplicates shall be maintained and controlled at all times by employees responsible for controlling and accounting for the unused supply of Hopper Fills, placing Hopper Fills in the dispensers, and removing from the dispensers the triplicates remaining therein.

4. For establishments in which Hopper Fills are computer prepared, each series of Hopper Fills shall be a two-part form, at a minimum, and shall be inserted in a printer that will: simultaneously print an original and a duplicate and store, in a machine-readable form, all information printed on the original and duplicate; and discharge the original and duplicate. The stored data shall not be susceptible to change or removal by any personnel after preparation of a Hopper Fill.

5. On originals, duplicates and triplicates, or in stored data, the Hopper Fill shall include, at a minimum, the following information:

- i. The asset number of the slot machine to which the coins, slot tokens or prize tokens are to be distributed;
- ii. The date and shift during which the coins, slot tokens or prize token are distributed;
- iii. The denomination of the coin, slot tokens or prize tokens that are to be distributed;
- iv. The amount of coins, slot tokens or prize tokens that are to be distributed;
- v. The location from which the coins, slot tokens or prize tokens are distributed;

vi. The signature and, if computer prepared, the identification code of the preparer;

vii. The signature or identification code of the person requesting coins, slot tokens or prize tokens to fill the hopper (on the original and the duplicate only); and

viii. Whether the coins, slot tokens or prize tokens are to be placed in the slot machine's all-purpose hopper or payout-only hopper, or in its corresponding hopper storage area.

6. The time of preparation of the Hopper Fill shall be recorded at a minimum, on the original and duplicate upon preparation.

7. All coins, slot tokens or prize tokens distributed from a slot booth, master coin bank or the cashiers' cage to a slot machine or its corresponding hopper storage area shall, during their transportation directly to the machine and until their deposit into the appropriate hopper, remain in pre-wrapped secured bags; provided, however, that:

i. A casino security department member shall transport the pre-wrapped secured bags containing loose coin, slot tokens or prize tokens directly to the slot machine or its corresponding hopper storage area, accompanied by the duplicate Hopper Fill for signature;

ii. The secured bags in which prize tokens are transported shall have sufficient identifying features, approved by the Commission, to distinguish those bags and their contents from the secured bags in which coins or slot tokens are transported; and

iii. The casino security department member shall observe the deposit of the coins, slot tokens or prize tokens in the appropriate slot machine hopper or the slot machine's corresponding hopper storage area, and the closing and locking of the slot machine or its corresponding hopper storage area by the slot mechanic or slot attendant before obtaining the signature of the slot mechanic or attendant on the duplicate copy of the Hopper Fill.

8. A slot mechanic who participates in filling a slot machine hopper shall inspect the slot machine and, if the hopper is empty, determine if the empty hopper resulted from a machine malfunction. A slot attendant participating in a hopper fill shall review the Machine Entry Authorization Log and alert a slot mechanic to inspect the slot machine if the entries in the log indicate a consistent malfunction problem.

9. Signatures attesting to the accuracy of the information contained on the Hopper Fill shall be, at a minimum, of the following personnel at the following times:

i. The original:

(1) The slot cashier, master coin bank cashier or general cashier—upon preparation; and

(2) The security department member transporting the coins, slot tokens or prize tokens to the slot machine—upon receipt from the cashier of the coins, slot tokens or prize tokens to be transported; and

(2) The security department member transporting the coins, slot tokens or prize tokens to the slot machine—upon receipt from the cashier of coins, slot tokens or prize tokens to be transported; and

(3) The slot mechanic or attendant—after depositing the coins, slot tokens or prize tokens in the appropriate hopper of the slot machine and closing and locking the slot machine.

10. Upon meeting the signature requirements as described in (b)9 above, the security department member shall maintain and control the duplicate and the slot cashier, master coin bank or general cashier shall maintain and control the original of the Hopper Fill Slip.

11. At the end of each gaming day, at a minimum, the original and duplicate Hopper Fill Slip shall be forwarded as follows:

i. The original Hopper Fill Slip shall be forwarded, in exchange for coin, currency or credit, to the master coin bank if prepared by a slot cashier or to the main bank if prepared by a general cashier. All original Hopper Fill Slips received or prepared by the master coin bank or received by the main bank shall then be forwarded to the accounting department, which, as reasonably practicable after receipt, shall confirm that the information on the original Hopper Fill agrees with the information on the triplicate or in stored data.

ii. The duplicate Hopper Fill Slip shall be forwarded directly to the accounting department, which, as reasonably practicable after receipt, shall record the information from the Hopper Fill Slip on the Slot Win Sheet, and shall confirm that the information recorded on the Hopper Fill Slip agrees with the meter readings recorded on the Slot Meter Sheet and with the information on the triplicates or in stored data.

(c) Each slot machine hopper may be filled from its corresponding hopper storage area as follows:

1. Whenever a slot machine's hopper requires coin, slot tokens or prize tokens, a slot attendant or mechanic, after confirming that the hopper storage area contains the necessary coin, slot tokens or prize tokens to replenish the hopper to be filled, may, in the presence of a member of the security department, transfer the necessary coin, slot tokens or prize tokens from that slot machine's hopper

storage area directly to the appropriate hopper of the corresponding slot machine. The security department member shall observe the deposit of the coins, slot tokens or prize tokens in the appropriate slot machine hopper and the closing and locking of the slot machine and its corresponding hopper storage area by the slot mechanic or attendant.

2. After transferring the coins, slot tokens or prize tokens to the slot machine's appropriate hopper, the slot attendant or mechanic shall make the entries required on the slot machine's log, which, at a minimum, shall include the following:

- i. The date and time of the transfer;
- ii. The type of hopper in the slot machine to which the coins, slot tokens or prize tokens were transferred;
- iii. The amount of coins, slot tokens or prize tokens that were placed in that hopper; and
- iv. The name and license number of the slot attendant or slot mechanic who made the transfer.

(d) Hopper storage areas shall be filled by using Hopper Fill Slips, in accordance with the procedures in (b) above.

(e) Each casino licensee shall submit and have approved internal controls for detecting and removing prize tokens from the all-purpose hoppers of its slot machines. Each casino licensee so removing a prize token shall count it, for purposes of calculating its gross revenue pursuant to N.J.S.A. 5:12-24, as cash received from gaming operations for the face amount of the prize token.

(a) Except as provided in N.J.A.C. 19:45-1.38(d), and (b) through (d) below, no coin, slot tokens, or slugs shall be removed from a slot machine hopper.

(b) If a slot machine malfunctions during a payout and the slot machine cannot be repaired in a timely manner, coin and slot tokens may be removed from a slot machine's hopper in order to complete the slot machine paid jackpot. The coin or slot tokens shall be removed from the slot machine hopper by a slot attendant, slot mechanic or supervisor thereof. The removal of the coin or slot tokens shall be documented on the Machine Entry Authorization Log pursuant to N.J.A.C. 19:45-1.36(j). Nothing in this section shall preclude a casino licensee from preparing a Jackpot Payout Slip for the amount of coin or slot token owed the patron provided that the payout is completed in accordance with N.J.A.C. 19:45-1.40 and a notation is made on the Jackpot Payout Slip indicating the reason for the slip.

(c) If coin or slot tokens are inserted by a patron and are neither registered nor returned to the patron by the slot machine, a member of the slot department in accordance with (b) above may remove the coin or slot tokens from the slot machine hopper and return them to the patron. The removal of the coin or slot tokens shall be documented on the Machine Entry Authorization Log pursuant to N.J.A.C. 19:45-1.36(j). Under no circumstances shall a casino licensee remove more coin or slot tokens than the maximum number of coin or slot tokens which can be wagered on one handle pull of the slot machine.

(d) Whenever slugs are found in a slot machine's hopper the following procedures and requirements shall be followed:

The envelope or container may be maintained inside the slot machine until the number of slugs in the envelope or container is nine. When the number of slugs in the envelope or container reaches nine or at such other times as may be necessary, the slot attendant, slot mechanic or slot supervisor shall complete a three-part Slug Report which contains, at a minimum, the following:

vi. An indication as to whether the bill meters or numerical coupon meter confirmed the variance, if applicable;

vii. The manufacturer and model number of the slot machine to which the bill changer is attached or embedded;

viii. The manufacturer of the bill changer involved;

ix. The total number of reported variances by manufacturer and model number of the slot machine;

x. The total number of reported variances by manufacturer of the bill changer;

xi. The total number of reported variances compared to the total number of slot cash storage boxes counted; and

xii. The signature and license number of the preparer.

(r) Unless otherwise authorized by the Commission, a casino licensee which has approval to read and record a bill changer's meter readings with an approved computer system shall be required to read the bill changer's meter and coupon meters manually if 10 percent or more of the bill changers counted during the week have reported variances pursuant to (q) above for a period of three consecutive weeks. The manual meter readings shall continue until the Commission is satisfied that the computer system can accurately read and record the bill changer's meter readings.

#### 19:45-1.43 Procedure for counting and recording contents of slot drop buckets and slot drop boxes

(a) The opening, counting and recording of the contents of slot drop buckets and slot drop boxes (the "hard count") shall be performed in the count room required pursuant to N.J.A.C. 19:45-1.32 in the presence of a casino key employee who shall be referred to herein as a count room supervisor. The hard count shall be performed by at least three employees (the "count team"), which may include the count room supervisor. Except as otherwise provided in (i) below, the hard count shall be performed in the presence of a Commission inspector. To gain entrance to the count room, a Commission inspector shall present an official identification card issued by the Commission which contains his or her photograph.

(b) The contents of slot drop buckets and slot drop boxes shall be counted and recorded immediately after removal from their slot machine compartments. Each casino licensee shall file with the Commission and the Division the specific times during which the contents of slot drop buckets and slot drop boxes shall be counted and recorded.

(c) All members of the count team present in the count room during the counting process shall be required to wear a full-length, one-piece, pocketless outer garment with no openings other than for the hands, feet and neck.

(d) No person shall carry a pocketbook or other container into the count room at any time unless it is transparent.

(e) All persons exiting the count room shall be inspected with a metal detector by a casino security department employee in the presence of a Commission inspector. The counting and recording process shall be discontinued and all coin and slot tokens shall be secured during any work break or emergency where the minimum number of count room personnel required by (a) above are not present or are not capable of performing their responsibilities.

(f) Immediately prior to opening and counting the contents of the slot drop buckets and slot drop boxes:

1. The doors to the count room shall be securely locked;

2. A count team member shall notify a surveillance department employee assigned to the closed circuit television monitoring room required by N.J.A.C. 19:45-1.10 that the count is about to begin; and

3. The count room supervisor or his or her supervisor shall notify the Commission inspector, in writing, of the name and Commission licensee number of each person who shall participate in the counting process and whether each such individual is scheduled to:

i. Be present in the count room during the entire counting process;

ii. Enter the count room during the counting process; or

iii. Leave the count room prior to the conclusion of the counting process.

(g) No person shall be permitted to enter or leave the count room during the counting process, except in an emergency, unless his or her name is on a written notice required by (f) above and a Commission inspector is present.

1. If a casino licensee permits a member of the count team to enter or leave the count room during the counting process, any employee remaining in the count room shall be required to display his or her hands and move to a location away from any coin or slot token until the count team member has entered or left the count room. All activity in the count room shall be discontinued during any period when a count team member is entering or exiting the count room.

2. Once the counting process has been started, the count room supervisor shall be required to notify the closed circuit television monitoring room whenever a count room door will be opened.

3. The surveillance department shall monitor and make a video recording, with the time and date inserted thereon, of the entire hard count, including any entrance to or exit from the count room by any person during the hard count and all metal detector inspections performed by casino security. The video recording shall be retained by the surveillance department for at least five days from the date of recordation unless otherwise directed by the Commission or the Division.

(h) No prize tokens, coins or slot tokens shall be removed from the count room after the commencement of the hard count until the hard count has been completed and the prize tokens, coins or slot tokens have been recounted and accepted by a main bank cashier or master coin bank cashier in accordance with (j)4 below.

(i) Procedures and requirements for conducting the hard count shall be as follows:

1. Prior to the first slot drop bucket or slot drop box being emptied and counted, employees of the casino licensee shall:

i. Check, in the presence of the Commission inspector, the accuracy of all weighing and counting equipment, with the exception of coin or slot token wrapping machines, to insure proper calibration for each denomination of coin and slot token; and

ii. Complete and sign a calibration report.

2. All slot tokens in denominations of \$25.00 or more shall be counted or weighed at the beginning of the hard count, in the presence of the Commission inspector. The casino licensee may count or weigh other denominations of coins or slot tokens at the same time, provided that the high denomination slot token count proceeds to completion without interruption, except as otherwise provided herein. The Commission inspector shall, independently of the casino licensee, record on a countdown sheet the total amount of each slot token in a denomination of \$25.00 or more which is counted or weighed. The inspector shall compare the totals on his or her countdown sheet with the amounts of those slot tokens recorded by the hard count team on the Slot Win Sheet, and verify that the amounts are in agreement and are correct, and if not, shall either satisfactorily account for any discrepancies, if possible, or document the incident and promptly report it to the Division. At the conclusion of the hard count, the inspector shall recompare the totals on the countdown sheet with the final totals determined by the casino licensee.

3. Before each slot drop bucket or slot drop box is emptied, one count team member shall hold it up in full view of the closed circuit television camera and the count team member recording the count so as to permit proper recording of the number contained thereon.

4. The contents of each slot drop bucket or slot drop box shall be emptied, counted and recorded separately and such procedures shall at all times be conducted in full view of the closed circuit television cameras located in the count room.

5. The contents of each slot drop bucket or slot drop box shall be emptied separately into either a machine that automatically counts the coins or slot tokens or a scale that automatically weighs the coin or slot tokens; provided, however, that any prize tokens or foreign slot tokens shall be manually counted and separately recorded on the Slot Win Sheet.

6. Immediately after the contents of each slot drop bucket or slot drop box are emptied into either the counting machine or scale, the inside of the slot drop bucket or slot drop box shall be held up to the full view of the closed circuit television camera and shall be shown to at least one other count team member and the Commission inspector, if present, to assure that all contents of the slot drop bucket or slot drop box have been removed.

7. As the contents of each slot drop bucket or slot drop box are counted by the counting machine or weighed by the scale, one member of the count team shall manually record or cause a computer system to record, in a manner approved by the Commission, the following information on the Slot Win Sheet or a supporting document:

i. The asset number of the slot machine to which the slot drop bucket or slot drop box contents corresponds, if not preprinted thereon;

ii. The number of coins or slot tokens, or the weight of the coins or slot tokens contained in the slot drop bucket or slot drop box; provided, however, that if the value of the coins or slot tokens is not converted into dollars and cents until after the counting process is completed, the conversion shall be calculated and the dollar value of the drop shall be entered by denomination on the Slot Win Sheet;

iii. The number and dollar of each denomination of prize token issued by any casino licensee, and the total dollar value of all prize tokens issued by any casino licensee; and

iv. The number and dollar value of each denomination of foreign slot token and the total dollar value of all foreign slot tokens.

8. A Commission inspector may, at any time, require the accuracy of any weighing, wrapping or counting equipment, or the amount of any previously weighed, wrapped or counted coin or slot tokens, to be checked or rechecked.

9. After all slot tokens in denominations of \$25.00 or more have been counted, wrapped or placed in racks, and then secured in a manner approved by the Commission, the Commission inspector may leave the count room to perform other functions as required by the Commission. Upon leaving the count room, the inspector shall:

i. Notify the surveillance department of his or her departure; and

ii. Test and activate the light system or other approved device at the count room door required by N.J.A.C. 19:45-1.32(d).

10. No person shall enter or leave the count room during the hard count when a Commission inspector is not present except in an emergency.

11. After the contents of all the slot drop buckets and slot drop boxes are counted or weighed and recorded, each count team member shall sign the Slot Win Sheet or other document as approved by the Commission attesting to their involvement in the hard count. Any person who, in accordance with (f) above, is scheduled to leave the count room prior to the completion of the entire count process, shall also record the time that he or she exited the count room. Any person who enters or leaves the count room due to an emergency shall sign, and record the time of the entry or exit on, the Slot Win Sheet or such other document as approved by the Commission; except that, if the person exiting the count room is unable to sign the document due to the emergency, the count room supervisor shall record the person's name and time of exit and a notation describing the emergency on the document.

12. At the conclusion of the hard count, any slugs that have been found shall be presented to a main bank cashier or master coin bank cashier together with the duplicate Slug Report. The Slug Report shall be a three-part form, at a minimum, which shall include the date, the total number of slugs received, the signature of the preparer and the signature of the main bank cashier or master coin bank cashier who accepted receipt of the slugs from the hard count representative. The original Slug Report shall be delivered to the Commission and the triplicate shall be delivered to the Division's in-house office by the end of the gaming day. The duplicate Slug Report shall remain with the slugs until their destruction.

13. Each prize token issued by any casino licensee that is removed from a slot drop bucket or a slot drop box and counted pursuant to this section shall be counted, for purposes of calculating gross revenue pursuant to N.J.S.A. 5:12-24, as cash received by the casino licensee from gaming operations for the face amount of the prize token, and, notwithstanding the prohibition on prize tokens activating slot machine play, no adjustment to the amount recorded on the Slot Win Sheet in accordance with (i)7iii above shall be allowed.

(j) Procedures and requirements at the conclusion of the hard count shall be as follows:

1. Approximately 15 minutes prior to the end of the hard count, if a Commission inspector is not present, an inspector shall be notified that the hard count is about to be completed.

2. Upon reentering the count room, the Commission inspector shall:

i. Examine the light system or other approved device to ascertain whether any person has entered or exited the count room during the period of his or her absence, and if so, either satisfactorily account for those events, if possible, or document the incident and promptly report it to the Division; and

- ii. Compare the original list of count team members with the persons present at the conclusion of the hard count, ascertain whether the identities of the persons in the count room remained unchanged during the hard count, and if not, either satisfactorily account for any changes in personnel, if possible, or document the incident and promptly report it to the Division.
3. At least one count team member shall sign the Slot Win Sheet attesting to the accuracy of the information recorded thereon.
4. Any prize tokens, foreign slot tokens, wrapped coins, wrapped slot tokens, bagged coins or bagged slot tokens removed from the slot drop buckets and slot drop boxes shall be recounted in the count room by a main bank cashier or master coin bank cashier, in the presence of a count team member and the Commission inspector, prior to the cashier having access to the information recorded on the Slot Win Sheet. Any bagged coins or bagged slot tokens shall be recounted on a random sample basis as follows:
- i. The main bank cashier or master coin bank cashier shall randomly select, at a minimum, 10 percent of all bagged coins and bagged slot tokens. The sample bags selected shall then be weighed by the cashier in the presence of a Commission inspector.
  - ii. If a discrepancy greater than plus or minus \$1.00 for any denomination of bagged coins or greater than plus or minus one token for bagged slot token denominations of \$25.00 and below is found during the weighing of a sample bag, then the sample bag shall be opened and recounted by a counting machine in the presence of the Commission inspector provided, however, for slot token denominations greater than \$25.00, any discrepancy shall require a recount. If more than one sample bag has a discrepancy and the problem cannot be resolved, then the Commission inspector may require that the scales be recalibrated and that all bagged coins and bagged slot tokens be recounted.
5. The inspector shall then compare the amounts of the slot tokens, foreign slot tokens and prize tokens listed on his or her countdown sheet with the amounts of each of those tokens shown on the Slot Win Sheet, and verify that the amounts are in agreement and are correct, and if not, either satisfactorily account for any discrepancies, if possible, or document the incident and promptly report it to the Division.
6. The cage cashier or master coin bank cashier shall then attest by signature on the Slot Win Sheet to the accuracy of the amount of coin, prize tokens, foreign slot tokens and slot tokens received from the slot machines. The inspector shall then sign the Slot Win Sheet evidencing the inspector's presence and the fact that the inspector, the cashier and count team have agreed on the total amount of coin, prize tokens, foreign slot tokens and slot tokens counted. The coins, prize tokens, foreign slot tokens and slot tokens thereafter shall remain in the custody of cage cashiers or master coin bank cashiers.
7. A casino security department employee, in the presence of the Commission inspector, shall:
- i. Inspect all persons with a metal detector upon their exiting the count room; and
  - ii. Conduct a thorough inspection of the entire count room and all equipment located therein, for unsecured coins, foreign slot tokens, prize tokens and slot tokens.
8. The Slot Win Sheet and supporting documents shall be transported directly to the accounting department and shall not be available, except for signing, to any cashiers' cage or slot personnel.
9. The preparation of the Slot Win Sheet shall be completed by accounting department employees who shall:
- i. Compare for agreement, for each slot machine, the number of coins or slot tokens counted and recorded by the count team to the drop meter reading recorded on the Slot Meter Sheet; provided, however, that the accounting department, in making the comparison, shall account for any prize tokens and foreign slot tokens that were counted pursuant to this section after being improperly accepted by the coin acceptor and diverted to the slot drop bucket or slot drop box;
  - ii. Record, for each machine, the Hopper Fills to each slot machine;
  - iii. Record, for each slot machine, the Payouts and compare for agreement Payouts to the manual jackpot meter reading recorded on the Slot Meter Sheet;
  - iv. Calculate and record the win or loss for each slot machine;
  - v. Explain and report for corrections of apparent meter malfunctions to the slot department all significant differences between meter readings and amounts recorded; and
  - vi. Calculate statistics by slot machine.
10. The Slot Win Sheet, the Slot Meter Sheet, Payouts, and Hopper Fills shall be:
- i. Compared for agreement with each other and, if applicable, to triplicates or stored data on a test basis;
  - ii. Reviewed for the appropriate number and propriety of signatures on a test basis;
  - iii. Accounted for by series numbers;
  - iv. Tested for proper calculation, summarization, and recording;
  - v. Subsequently recorded; and
  - vi. Maintained and controlled by accounting department employees.
