Students in high schools begin to demonstrate college readiness behaviors long before they actually graduate from high school. These include participating in advanced course work such as **Advanced Placement (AP)** or **International Baccalaureate (IB)** courses and exams and **dual enrollment** courses where high school students can enroll in college courses for credit.

AP/IB Coursework – Participation and Performance

This chart shows the percentage of 11th and 12th graders who enrolled in one or more AP or IB courses, who took one or more AP or IB exams, and who had one or more exams with an AP score of 3 or higher or IB score of 4 or higher.

Dual Enrollment Coursework - Participation

This graph shows the percentage students enrolled in at least one dual enrollment course during the school year. Dual enrollment courses allow high school students to enroll in college courses for credit prior to their high school graduation.

AP/ IB Courses Offered

This table shows the list of AP/IB Courses that were offered by the school or for which students took the corresponding AP/IB exam along with the number of students enrolled and the number of students taking the exam. Students do not need to take a course to take the exam and not all students enrolled in a course take the exam. The last two rows show the total number of exams taken and the number of exams with AP scores of 3 or higher or IB scores of 4 or higher. Students who take multiple examples are counted more than once in the last two rows.

Student absences provide important information about a school's culture and climate. Research shows that absences impact a student's ability to succeed in school. The New Jersey Department of Education used input from New Jersey communities to select chronic absenteeism as its measure of school quality and student success for the ESSA accountability plan. **Chronic absenteeism** is defined as being absent for 10% or more of the days enrolled during the school year. A student who is not present for any reason, whether excused, unexcused, or for disciplinary action, is considered absent unless permitted by state statute or regulations.

Chronic Absenteeism

This table shows the number and percentage of students in grades K-12 both overall and by student group who were chronically absent during the school year. The last two columns show the chronic absenteeism state average for students in the grades offered and whether the rate for each student group was above the state average ("Not Met") or less than or equal to the state average ("Met").

The New Jersey Department of Education migrated to a new reporting system, the Student Safety Data System (SSDS), which includes improved definitions, new reporting fields, and updated guidance for reporting incidents. As such, comparing this year's report to previous years' data can lead to inaccurate conclusions in many reporting categories. As such, the 2017-18 report should be considered a baseline year.

School Day

This table shows the start and end times and length of school day for a typical student at this school. Instructional time is the amount of time that a typical student was engaged in instructional activities under the supervision of a certified teacher. Full time students attend this school for more than half of the school day and shared-time students attend the school for half of the school day or less.

Category	School

Typical End Time	2:30 PM
Length of School Day	7 Hrs 0 Mins
Full Time - Instructional Time	5 Hrs 35 Mins
Shared Time - Instructional Time	2 Hrs. 45 Mins.

Device Ratios

This table shows the student to device ratio, which is the number of students in tested grades 3-11 per device. Devices are computers such as tablets, iPads, laptops and Chromebooks. The count includes only devices that meet nationally recommended specifications for digital learning in grades 3-11. This information comes from the elective NJTRAx survey, therefore data may not be available for all schools. Additionally, schools that have adopted a Bring Your Own Device policy may appear to have a very low Student to Device ratio due to this policy decision.

Per-Pupil Expenditures (District Level)

This table shows the total current expenses for regular and special education students taught within the district's schools. NJDOE will be collecting school-level per-pupil expenditures data for the 2018-19 school year, and that data will be included in future reports.

New Jersey's school accountability system identifies schools that are in need of comprehensive and targeted support as required by the Every Student Succeeds Act (ESSA). For more information about New Jersey's accountability system, how indicator and summative scores were calculated, and how federal accountability status is determined, see these [accountability resources](#).

Comprehensive Status

This table shows whether this school is identified as requiring Comprehensive Support and Improvement during the 2019-20 school year and whether it will be eligible to exit comprehensive status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement.

Targeted Status

This table shows whether one or more student groups in this school has been identified as requiring Targeted Support and Improvement during the 2019-20 school year and whether each student group will be eligible to exit targeted status in January 2021 or January 2022. Schools must meet exit criteria in order to exit status. Student groups with a summative score that would be in the bottom 5% of schools and student groups that miss annual targets for all indicators for two years in a row are identified as requiring Targeted Support and Improvement. Note: Schools identified as requiring comprehensive support may have student groups identified as needing targeted support below, but the date they are eligible to exit status is based on their comprehensive status.

Accountability Indicator Scores and Summative Rating - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Comprehensive Support and Improvement. This table shows the indicator scores for each indicator included in the accountability system and the weight that each indicator receives when calculating the overall Summative Score. The Summative Rating is the percentile rank of the Summative Score as compared to other schools across the state. Schools with a summative score in the bottom 5% of Title I schools or with a four-year graduation rate of 67% or less are identified as requiring Comprehensive Support and Improvement. For more information about New Jersey's accountability system and how these indicator scores were calculated, see these [accountability resources](#).

Accountability Summary by Student Group - 2017-18 School Year

New Jersey has developed a school accountability system as required by the Every Student Succeeds Act (ESSA) to identify schools that are in need of Targeted Support and Improvement. Any student group where the summative score would be in the bottom 5% of schools is identified for Targeted Support for a Low-Performing Student Group. Any student group that has missed annual targets for all indicators two years in a row is identified for Targeted Support for a Consistently Underperforming Student Group. In the table below, schools in which one or more student groups are identified for Targeted Support will be noted in the Schoolwide row. Annual targets for proficiency and graduation rate were set based on a school or student group's performance in 2015-16. The target for chronic absenteeism is the state average for chronic absenteeism based on students enrolled in the grades served by the given school. For more details on accountability targets, see these [accountability resources](#).

At DVRHS we focus not only on students' physical well being, but on the importance of a healthy mind. A full time student assistance counselor and a mental health counselor keep our students involved through contests, promotions, a multitude of support groups, and individual and group counseling. Through partnerships with community agencies, DVR is able to offer referrals for additional services outside of those the school provides.

Parent and Community Involvement:

DVRHS greatly benefits from the support of our booster organizations: the All-Sports Booster Club and the Performing Arts Boosters. Through these groups, parents and volunteers are able to provide opportunities for our students at a level that cannot be achieved through the local budget and tax dollars alone. All DVRHS parents can monitor their child's academic progress through a parent portal in our student information system, PowerSchool.

Our facilities are maintained by an outstanding custodial and maintenance staff, and the district benefits from their skills and expertise; most projects are completed in-house. Our next major facilities projects include a roof replacement and renovations to our chemistry labs. Our recently completed projects include new seating and flooring in our auditorium and new biology labs.

Other Information:

Delaware Valley Regional High School is located in pastoral and beautiful Hunterdon County. The district serves approximately 800 students in grades 9-12 who reside in the townships of Alexandria, Holland and Kingwood, and the boroughs of Frenchtown and Milford. We have made it our mission to recognize the achievements, strengths, and talents of all of our students. We appreciate that success comes in many shapes and forms, and we acknowledge that students are not merely their test scores. Students are featured each month at board meetings, and are publicly recognized for their contributions to our programs and/or school and community. Our website and Facebook page provide just a glimpse into our exceptional student body. We are extremely proud to announce that in September 2017 DVRHS was certified as a Future Ready School - NJ. This program recognizes, "schools that are dedicated to best preparing their students for success in college, career, and citizenship in the digital age." In an effort to contain costs, DVR prides itself on its commitment to "Acting Like a K-12" through the sharing of professional and educational services. Our Superintendent, Business Administrator, IT Manager and Facilities Manager all serve in their respective roles in other districts. We are grateful to the faculty, students, parents, and community for their continued support. Delaware Valley appreciates a strong sense of community and family; our students are our center. Our first priority is the growth, success and well-being of each of these fine young men and women. Our Mission: At DVRHS, we engage and prepare our students through a broad range of dynamic opportunities, inspiring them to achieve their fullest potential, and graduate ready to embrace their future.
