

What Am I Supposed To Do Now?

To say I fully understand this disease called Covid-19 would be a lie.
I have been alive for sixty two years and never experienced anything like this.

Waiting on long lines to get inside the grocery store
In utter disbelief as I walk through each aisle.
Where is the hand sanitizer? The toilet paper? The paper towel?

Great, now I'm laid off from work.
How am I supposed to survive during these unprecedented times?
Apparently I didn't choose a career that deemed essential.

Do I have enough money to pay all my bills?
Will I be homeless? Will I have enough to afford food?
Its taking months to get on unemployment

I start to feel bloated and have a lot of abdominal pain.
However no one is seeing me at the moment.
My symptoms aren't in correlation to those of covid-19.
I'm told to hold off.

What am I supposed to do now?

Will I be able to see my family ever again?
No one wants to visit me because they are scared they are going to get me sick.
But I need them to help me.
I need this to be over.
