as to no. 4 project stafford forge and upper barnegat bay.  
lacey twp.

i oppose this exchange of land. the nj public loses open park land. a deal of 219 acres for 57 acres is hardly what we look for when exchanging lands. this does not make sense at all and the lands value as cited is clearly horribly inaccurate . losing land for the building of yet another office building for this agency makes absolutely no sense at all. these people are never in the office. they work from home mostly or out in field and its just fat cat bureaucracy. this agency already has many many offices all around this state. they dont need another one. they are bujilding one in north jersey although they have a few up there already. stop this fat cat bureaucracy that needs so many buildings for a declining number of hunters, trappers and fishermen. all of those numbers are going down in nj because the animals are sick. alot of them are sick. so they shoudl not nweed all teh bodieds after they have caused them to be sick to monitor them. the deer are dying on their own constantly from ehd, cwd and other diseaes that this agency has done nothing about. this agency is power hungry. iti s not adminisering

land for the people of nj at all. it works for a very small no of nj citizens, declining every year for the last ten years. and iot is sneaky as can be to those who oppose hunting. their sneaky actions are deplorable. this entire land exchange has been sneaky imo. there is no reason to have another building or to change like this so they can have another building for workers who work outside in the field or in other locations. deny this application.
