SUBCHAPTER 1. GENERAL PROVISIONS

8:43G-1.1 Scope and purpose

(a) These rules and standards apply to each licensed general or special hospital facility. They are intended for use in State surveys of the hospitals and any ensuing enforcement actions. They are also designed to be useful to consumers and providers as a mechanism for privately assessing the quality of care provided in any acute care hospital.

(b) This chapter contains rules intended to assure the high quality of care delivered in hospital facilities throughout New Jersey. Components of quality care addressed by these rules and standards include access to care, continuity of care, comprehensiveness of care, coordination of services, humaneness of treatment, conservatism in intervention, safety of environment, professionalism of caregivers, and participation in useful studies.

8:43G-1.2 Definitions

The following words and terms, when used in this chapter, shall have the following meanings, unless the context clearly indicates otherwise.

“Hospital” means an institution, whether operated for profit or not, whether maintained, supervised or controlled by an agency of the government of the State or any county or municipality or not, which maintains and operates facilities for the diagnosis, treatment or care of two or more non-related individuals suffering from illness, injury or deformity and where emergency, out-patient, surgical, obstetrical, convalescent or other medical and nursing care is rendered for periods exceeding 24 hours.

“Hospitalization” means the admission and care of any person for a continuous period, longer than 24 hours, for the purpose of diagnosis and/or treatment bearing on the physical or mental health of such persons.

“Licensee” means the corporation, association, partnership or person authorized by the Department of Health to operate an institution and on whom rests the responsibility for maintaining acceptable standards in all areas of operation.

“Patient” means a person who receives a health care service from a provider.

Case Notes

Hospital exemption does not apply to health maintenance organization (HMO) facility property tax status; facility not a hospital as no continuous care provided and it does not exist to further the aims and goals of a functioning hospital. *New Brunswick v. Rutgers Community Health Plan, Inc.*, 7 N.J.Tax 491 (Tax Ct.1985).

8:43G-1.3 Classification of institutions

(a) Hospitals shall be classified generally as:

1. Private, non-profit, which shall include any hospital owned and operated by a corporation, association, religious or other organization, no part of the net earnings of which is applied, or may lawfully be applied, to the benefit of any private shareholder or person;

2. Private proprietary or profit, which shall include any hospital owned and operated by a person, partnership or corporation, the net proceeds of which are subject to distribution for the benefit of such person, corporation or shareholders; and

3. Public hospital, which shall include any institution maintained, supervised or controlled by an agency of the government of the State or any county or municipality that provides diagnostic and/or treatment services for the care of two or more non-related individuals suffering from illness, injury or deformity.

(b) Hospitals shall be further classified as:

1. General hospital, which shall include any hospital which maintains and operates organized facilities and services for the diagnosis, treatment or care of persons suffering from acute illness, injury or deformity and in which all diagnosis, treatment and care are administered by or performed under the direction of persons licensed to practice medicine or osteopathy in the State of New Jersey;

2. Special hospital, which shall include any hospital which assures provision of comprehensive specialized diagnosis, care, treatment and rehabilitation where applicable on an in-patient basis for one or more specific categories of patients; and

3. Psychiatric hospital, which shall include any hospital which assures provision of comprehensive specialized diagnosis, care, treatment and rehabilitation where applicable on an in-patient basis for patients with primary psychiatric diagnoses.

(a) When the written application for licensure pursuant to N.J.A.C. 8:43G-2.2 is approved and the building is ready for occupancy, a survey of the facility by representatives of the Division of Health Facilities Evaluation and Licensing of the Department shall be conducted at the Department's discretion to determine if the facility meets the standards set forth in this chapter.

1. Representatives of the Division of Health Facilities Evaluation and Licensing of the Department shall discuss the findings of the survey, including any deficiencies found, with representatives of the hospital facility.

2. The hospital facility shall notify the Division of Health Facilities Evaluation and Licensing of the Department in writing when the deficiencies, if any, have been corrected. Following review of the hospital facility's report, the Division of Health Facilities Evaluation and Licensing may schedule one or more surveys of the facility prior to occupancy.

(b) A temporary license shall be issued to the operator of a facility when the following conditions are met:

1. An office conference for review of the conditions for licensure and operation has taken place between the Licensing and Certification Program and representatives of the hospital facility, who have been advised that the purpose of the temporary license is to allow the Department to determine the hospital's compliance with N.J.S.A. 26:2H-1 et seq., and amendments thereto, and the rules pursuant thereto;

2. Written approvals are on file with the Department from the local zoning, fire, health, and building authorities;

3. Written approvals of the water supply and sewage disposal system from local officials are on file with the Department for any water supply or sewage disposal system not connected to an approved municipal system; and

4. Survey(s) by representatives of the Department indicate that the hospital meets the mandatory standards set forth in this chapter.

(c) No hospital facility shall accept patients in any new service, unit, or facility until the hospital has a written approval and/or license issued by the Licensing and Certification Program of the Department.

(d) The hospital shall accept only that number of patients for which it is approved and/or licensed.

(e) Survey visits may be made to a hospital at any time by authorized staff of the Department. Such visits may include, but are not limited to, the review of all hospital documents and patient records and conferences with patients.

(f) A temporary license shall be issued to the operator of a hospital facility for a period of six months and shall be renewed as determined by the Department.

1. The temporary license shall be conspicuously posted in the hospital facility.

2. The temporary license shall not be assignable or transferable and shall be immediately void if the facility ceases to operate, if the facility's ownership changes, or if the facility is relocated to a different site.

8:43G-2.5 Full license

(a) A full license shall be issued to the operator on expiration of the temporary license, if the surveys by the Department have determined that the health care facility is operated as required by N.J.S.A. 26:2H-1 et seq., and amendments thereto, and by the rules pursuant thereto.

(b) A license shall be granted for a period of one year or less as determined by the Department in accordance with (a) above.

(c) The license shall be conspicuously posted in the facility.

(d) The license shall not be assignable or transferable and shall be immediately void if the hospital ceases to operate, if its ownership changes, or if it is relocated to a different site. A representative of the hospital shall notify the Department of any change in the ownership form or controlling interests affecting hospital governance. The Department shall determine whether a certificate of need or licensing application must be completed prior to the implementation of any ownership changes based upon the information filed and the criteria within N.J.A.C. 8:33-3.3.

(e) The license, unless suspended or revoked, shall be renewed annually on the original licensure date, or within 30 days thereafter but dated as of the original licensure date.

1. The facility shall receive a request for renewal fee 30 days prior to expiration of the license. A renewal license shall not be issued unless the licensure fee is received by the Department.

2. The license may not be renewed if Departmental rules, regulations and/or requirements are not met.

1. Violation of any provisions of N.J.S.A. 26:2H-1 et seq. or any rules and regulations issued pursuant thereto;
2. Permitting, aiding or abetting the commission of any illegal act in said facility; and/or
3. Conducting practices contrary to accepted procedures and detrimental to the welfare of the patient.

8:43G-2.7 Surrender of license

At least 30 days prior to voluntary surrender of its license where approved by Certificate of Need, or as directed under an order of revocation, refusal to renew, or suspension of license, a facility must directly notify each patient and the patient's physician concerned of the intended closure. The license shall be returned to the Licensing and Certification Program of the Department within seven calendar days from voluntary surrender, order of revocation, expiration, or suspension of license, whichever is applicable.

8:43G-2.8 Waiver

(a) The Commissioner or his or her designee may, in accordance with the general purposes and intent of N.J.S.A. 26:2H-1 et seq., and amendments thereto, and the standards in this chapter, waive sections of this chapter if, in his or her opinion, such waiver would not endanger the life, safety, or health of the patient or public.

(b) A facility seeking a waiver of the standards in this chapter shall apply in writing to the Director of the Licensing and Certification Program of the Department.

(c) A written application for waiver shall include the following:

1. The nature of the waiver requested;
2. The specific standards for which a waiver is requested;
3. Reasons for requesting a waiver, including a statement of the type and degree of hardship that would result to the facility upon full compliance;

8:43G-2.9 Action against licensee

(a) Violations of this chapter may result in action by the New Jersey State Department of Health to impose a fine, pursuant to N.J.S.A. 26:2H-1 et seq., cease admissions to a facility, order removal of patients from a facility, revoke or suspend a license, and/or impose other lawful remedies.

(b) If the Department determines that operational or safety deficiencies exist, it may require that all admissions to the facility cease. This may be done simultaneously with, or

in lieu of, action to revoke licensure and/or impose a fine. The Commissioner or his or her designee shall notify the facility in writing of such determination.

(c) The Commissioner may order the immediate removal of patients from a facility whenever he or she determines there is imminent danger to any person's health or safety.

(d) Any licensee made subject to action by the Department for suspension or revocation of license or who is assessed a fine under terms of this section shall have the right to a fair hearing in accordance with the Administrative Procedure Act, N.J.S.A. 52:14B-1 et seq., and the Uniform Administrative Procedures Rules, N.J.A.C. 1:1.
