5:23-2.24 Conditions of certificate of occupancy

(a) Certificate of occupancy shall be conditioned upon the following:

1. That the completed project meets the conditions of the construction permit, the approved drawings including all amendments, and all prior approvals;
2. That all required fees have been paid in full;
3. That all necessary inspections have been completed and that the completed project meets the requirements of the regulations;
4. That all violations have been corrected and that any assessed penalties have been paid;
5. That all protective devices and equipment required to be installed by the regulations will continue to be operational as required by the regulations.

(b) No certificate of occupancy shall be issued for any new home, built by a builder, as such terms are defined in N.J.A.C. 5:25-1.3, except after filing by the builder with the construction official of proof that the new home has been enrolled in either the State New Home Warranty Security Plan or a private plan approved by the Department of Community Affairs. If the new home is enrolled in the State New Home Warranty Security Plan, proof shall be in the form of a validated copy of the Certificate of Participation, required pursuant to N.J.A.C. 5:25-5.5, and proof of payment of the warranty premium.

(c) No certificate of occupancy shall be issued for any new home built by an owner or in which any design, construction, plumbing or electrical work has been done by the owner unless the owner shall file with the construction official an affidavit in which he certifies that all work has been done in conformity with applicable law, acknowledges that work done by him or by any subcontractor working under his supervision, is not covered under the New Home Warranty and Builders' Registration Act (N.J.S.A. 46:3B-1 et seq.) and states that he will disclose this to any person purchasing the property from him within 10 years of the date of issuance of a certificate of occupancy. The affidavit

shall be filed on a form prescribed by the Department of Community Affairs.

(d) No certificate of occupancy shall be issued for any building used or intended to be used as a rooming house or a boarding house, as such terms are defined in section 3 of the Rooming and Boarding House Act of 1979 (P.L. 1979, c.496; N.J.S.A. 55:13B-1 et seq.), except after filing by the owner with the construction official of a photocopy of a license to own a rooming or boarding house issued to the owner by the Department of Community Affairs.

(e) No certificate of occupancy shall be issued for a hotel or multiple dwelling, as defined in the Hotel and Multiple Dwelling Law (N.J.S.A. 55:13A-1 et seq.), except after filing by the owner with the construction official of a photocopy of a certificate of registration issued by the Bureau of Housing Inspection of the Department of Community Affairs.

(f) No certificate of occupancy shall be issued for any building containing one or more elevators unless all of the elevators in the building have been registered with the Department in accordance with N.J.A.C. 5:23-12.

(g) No certificate of occupancy shall be required in the case of minor work as provided for by N.J.A.C. 5:23-2.17A.

5:23-2.25 Establishment of fees

The municipality, in accordance with this chapter, shall establish by ordinance enforcing agency fees for the following activities: plan review; construction permits; certificate of occupancy; elevator device inspections and tests; demolition permit; moving of building permit; lead abatement clearance certificate; annual electrical inspection of swimming pools, spas and hot tubs; and sign permit. The fee shall be collected prior to the issuance of the permit or certificate. A schedule of such fees shall be posted in the office of the construction official and shall be accessible to the public.

5:23-2.26 Plan review fees

Twenty percent of the construction permit fee shall be deemed to be the plan review fee. When a department plan review fee has been collected pursuant to the regulations or when a plan review is waived, then the enforcing agency construction permit fee shall be reduced by 20 per cent from the amount otherwise specified in the municipal enforcing agency fee schedule.

5:23-2.27 Refunds

In the case of discontinuance of a building project, the volume of the work actually completed shall be computed. Any excess for the uncompleted work shall be returned to the permit holder; except that all penalties that may have been imposed on the permit holder under the requirements of the regulations shall first be collected. Plan review fees are not refundable.

5:23-2.28 Volume computation

(a) General: For the determination of the permit fees, the volume of the structure shall be computed as provided in this section.

(b) Structures with basements: The volume of the structure shall include all enclosed dormers, porches, penthouses and other enclosed portions of the structure extending from the basement or cellar floor to the mean height of a pitched roof, or the average height of the top of the roof beams of a flat roof.

(c) Structures without basements: For structures without basements or cellars, the volume shall be based on the height measured to a level located one-fifth the distance from the first floor level to the bottom of the footings, but not to exceed 2½ feet below the first floor level.

(d) Open sheds: For open sheds and structures of a similar character, the volume shall be measured within the perimeter of the roof for a height from the grade line to the mean roof level.

(e) No fee shall be required for premanufactured construction, assembly or components transported to a construction site. A fee shall be required for work performed at the site, including, but not limited to, foundation systems, structural installations and external utility connections.

(f) No fee shall be required for commercial farm buildings, or portions of, constructed of pre-engineered systems specified in N.J.A.C. 5:23-3.2(d)3. A fee shall be required, unless exempted, for commercial farm building work performed at the site.

As amended, R.1982 d.7, eff. February 1, 1982.

See: 13 N.J.R. 717(a), 14 N.J.R. 142(a).

(e) added.

See: 27 N.J.R. 2655(a), 27 N.J.R. 4699(a).

5:23-2.29 Entry

(a) The owner of any premises upon which a building or structure is to be constructed shall be deemed to have consented to inspection, by the enforcing agency, of the entire premises and of any and all construction being performed on it until a certificate of occupancy has been issued.

(b) An inspector, or team of inspectors, on presentation of proper credentials, shall have the right to enter and inspect such premises, and any and all construction thereon, for purposes of insuring compliance with the provisions of the applicable construction permit, and the regulations. All inspection pursuant to the act and the regulations shall be between the hours of 9:00 A.M. and 5:00 P.M. on business days, or when construction is actually being undertaken; provided, however, that inspections may be conducted at other times if the enforcing agency has reasonable cause to believe that an immediate danger to life, limb or property exists, or if permission is given by an owner, or his agent, architect, engineer or builder. No person shall accompany an inspector or team of inspectors on any inspection pursuant to the regulations, unless his presence is necessary for the enforcement of the regulations, or unless consent is given by an owner or his agent, architect, engineer or builder.

(c) Any construction official, subcode official or any inspector, presenting themselves for inspection of any occupied building shall present to the owner the owner's agent or occupant their personal identification as provided by the municipality.

(d) After the certificate of occupancy shall have been granted, the construction official shall not enter upon such premises for purpose of inspection, unless upon reasonable grounds to believe that a condition of the certificate of occupancy has been violated, or in the case of equipment

granted approvals of limited duration pursuant to this subchapter, or in the case of emergencies, or unsafe buildings, or upon reasonable cause to believe construction work is underway without a permit having been issued.

(e) Nothing herein is intended to limit the right of a municipality to adopt property maintenance regulations and provide for inspection, pursuant to any other law, ordinance or judicial decision of this State. However, no such regulation shall conflict with any provision of the regulations.

Administrative Correction to (b): Changed "than" to "that".

See: 22 N.J.R. 2503(b).

5:23-2.30 Violation, notice and orders

(a) Whenever the construction official or the appropriate subcode official shall determine that there exists a violation of the provisions of the regulations, or of a detailed statement or plan approved thereunder, or where there exists a violation of a permit or certificate issued under the regulations, the construction official shall issue a notice of violation and orders to terminate directing the discontinuance of the illegal action or condition and the correction of the violation.

(b) The notice and orders shall contain at least the following information:

1. The name and address of the owner; the address at which the violation occurred; the name and address of the person to whom the order is directed, and if it be other than the owner, a copy shall be delivered to the owner or his agent stating that the owner bears joint responsibility for bringing about compliance with the person named and that if a penalty is imposed, the enforcing agency will not issue a certificate of occupancy until such penalty has been paid; the permit number, a citation to the sections of the regulations violated; an order to terminate violations within a time specified in the order; the amount of penalty assessed, if any, and if cumulative, an explanation of the method of computation; and shall be signed by the appropriate subcode official and the construction official.

2. Unless an immediate hazard to health and safety is posed, the construction official shall permit such time period for correction as is reasonable within the context of the situation.

5:23-3.3 Enforcement

(a) In accordance with the delineation of responsibility for enforcement specified herein, subject to specific reservations by the Department to itself, the appropriate official(s) shall enforce the subcode and shall act on any question relative to the mode or manner of construction, and the materials to be used in the erection, addition to, repair, renovation, alteration, reconstruction, removal, demolition, installation of service equipment, and the location, use and occupancy of all buildings and structures, except as may be otherwise specifically provided for in the regulations, including, but not limited to:

1. Applications, certificates and permits: Such official(s) shall review applications for permits for the erection, repair (other than ordinary maintenance), renovation, alteration and reconstruction of buildings and structures; indicate approval or denial to the construction official; and inspect the premises for which such permits have been issued and enforce compliance with the provisions of the regulations.

2. Notices and orders: Such official(s) shall issue all necessary notices or orders to remove illegal or unsafe conditions; to require the necessary safeguards during construction; and to insure compliance with all requirements for the safety, health and general welfare of the public.

3. Inspections: Such official(s) shall make all the required inspections, and all reports of such inspections shall be in writing and certified by them or they may engage such expert opinion as he may deem necessary to report upon unusual technical issues that may arise, sub-

ject to the approval of the construction official and appointing authority.

4. Enforcing agency records: Such official(s) shall assist in the keeping of official records of applications received, permits and certificates issued, fees collected, reports of inspections, and notices and orders issued as may be required by the construction official.

ELEVATOR SUBCODE

All (except as otherwise provided for in N.J.A.C. 5:23-12)

[†]These sections are enforced by the elevator inspector when elevator devices covered by N.J.A.C. 5:23-12 are installed in any use group structures excluding installations in Use Group R-3, R-4, or R-2 where the elevator devices are located wholly within dwelling units and are not accessible to the general public.

(f) Where responsibility for enforcement of a section is joint between two officials and there are conflicting opinions regarding enforcement, the construction official shall rule as to which interpretation or application shall be followed.

(g) Responsibility for enforcement of the barrier free and radon hazard subcodes shall be as delineated in N.J.A.C. 5:23-7.6A and 10.3, respectively.

(h) A mechanical inspector employed by the Department or by a municipality, and so assigned by the construction official, shall have responsibility for enforcement of all provisions of the code, except electrical, relating to the installation of mechanical equipment, such as refrigeration, air conditioning or ventilating apparatus, gas piping or heating systems, in Use Group R-3 or R-4 structures.

1. When assigned by the construction official, a plumbing subcode official shall have responsibility for the enforcement of all provisions of the code, except electrical, for the replacement of heating or cooling equipment or water heaters in Use Group R-3 and R-4 structures. A plumbing subcode official need not be a mechanical inspector to perform these inspections.

5:23-3.5 Posting structures

(a) Posted use and occupancy: Every building and structure and part thereof designed for business, factory and industrial, high hazard, mercantile, or storage use, (use groups B, F, H, M and S) as defined in article 2 of the building subcode shall be posted on all floors by the owner with a suitably designed placard in a form designated by the building subcode official, which shall be securely fastened to the structure in a readily visible place, stating the use group and the live load and occupancy load.

(b) Posted occupancy load: Every building and structure and part thereof designed for use as a place of public assembly or as an institutional building for harboring people for penal, correctional, educational, medical or other care or treatment (use groups A, E and I) shall be posted with an approved placard designating the maximum occupancy load.

(c) Replacement of posted signs: All posting signs shall be furnished by the owner and shall be of permanent design; they shall not be removed, or defaced and, if lost, removed or defaced, shall be immediately replaced.

(d) Posted hydraulic system data plate: In lieu of the nameplate of the referenced NFPA standard(s), fire sprinkler system contractors are required to identify hydraulically designed fire sprinkler systems by affixing a permanently marked weatherproof metal or rigid plastic sign at the alarm valve. The nameplate shall contain information relative to the design parameters of the system as indicated on Form No. F380. The plate shall be secured at the alarm valve with corrosion resistant wire, chain, or other approved means.

(e) Identifying emblems for structures with truss construction: Identifying emblems shall be permanently affixed to the front of structures with truss construction as required by N.J.A.C. 5:70-2.20.

1. The emblem shall be of a bright and reflective color, or made of reflective material. The shape of the emblem shall be an isosceles triangle and the size shall be 12 inches horizontally by six inches vertically. The follow-

ing letters, of a size and color to make them conspicuous, shall be printed on the emblem:

- i. "F" to signify a floor with truss construction;
- ii. "R" to signify a roof with truss construction; or
- iii. "F/R" to signify both a floor and roof with truss construction.

2. The emblem shall be permanently affixed to the left of the main entrance door at a height between four and six feet above the ground and shall be installed and maintained by the owner of the building.

3. Detached one and two-family residential structures with truss construction that are not part of a planned real estate development shall be exempt from the requirements of (e) above, unless required by municipal ordinance.

4. Individual structures and dwelling units with truss construction that are part of a planned real estate development shall not be required to have an identifying emblem if there is an emblem affixed at each entrance to the development.

(f) Swimming pools, spas and hot tubs: A valid electrical certificate of compliance and a bonding and grounding certificate shall be posted by the owner in a conspicuous place in or around the pool pump house or equipment control room.

Amended by R.1989 d.555, effective November 6, 1989.

5:23-3.6 Standards; accepted practice

(a) This chapter, together with the subcodes, national standards and appendices it adopts by reference, shall be the primary guide to accepted engineering practice in respect to any material, equipment, system or method of construction therein specified.

(b) When this chapter and the subcodes, national standards and appendices it adopts by reference are silent, a manufacturer's recommendations for the installation of any material or assembly may be considered to be accepted engineering practice; provided, however, that a manufacturer's recommendations shall not be read to overrule this chapter or any subcode, national standard or appendix which it adopts by reference.

New Rule, R.1988 d.283, effective June 20, 1988.

Case Notes

Contractor not liable for injuries caused by failure of subcontractor to provide and install material in conformance with State building code. *Miltz v. Borroughs—Shelving, a Div. of Lear Siegler, Inc.*, 203 N.J.Super. 451, 497 A.2d 516 (App.Div.1985).

5:23-3.7 Municipal approvals of nonconforming materials

(a) Approvals: Except as otherwise provided in N.J.A.C. 5:23-3.8, the appropriate subcode official may approve the use of fixtures, appurtenance, materials and methods of a type not conforming with the requirements of, nor expressly prohibited by, the regulations after determination that such fixture, appurtenance, material or method is of such design or quality, or both, as to appear to be suitable and safe for the use for which it is intended. A record of such approvals shall be maintained and shall be available to the public.

1. Any person desiring to install or use a fixture, appurtenance, material or method of a type not conforming with the requirements of, nor expressly prohibited by, the regulations shall, prior to such installation or use, submit to the appropriate subcode official such proof as may be required to determine whether such fixture, appurtenance, material or method is of such design or quality, or both, as to appear to be suitable and safe for the use for which it is intended.

(b) Research and investigations: The appropriate subcode official shall require that sufficient technical data be submitted to substantiate the proposed use of any material or assembly, and if it is determined that the evidence submitted is satisfactory proof of performance for the use intended, he may approve its use subject to the requirements of the regulations. The cost of all tests, reports and investigations required under these provisions shall be paid by the applicant.

(c) Research reports: The appropriate subcode official may accept, as supporting data to assist in this determination, duly authenticated research reports from approved authoritative sources for all materials or assemblies proposed for use which are not specifically provided for in the regulations.

Amended by R.1992 d.390, effective October 5, 1992.

See: 24 N.J.R. 1844(a), 24 N.J.R. 3515(b).

Reference to exception in 3.8 added.

5:23-3.8 Departmental approval of nonconforming materials

(a) Approval: Whenever the commissioner shall approve any fixture, appurtenance, material or method, such shall be binding and accepted in each municipality.

(b) Notice: Notice of intention to approve any such fixture, appurtenance, material or method shall be published in the New Jersey Register at least 45 calendar days prior to its final approval. Thereafter, notice of final approval, stating operative date, shall be published in the New Jersey Register.

(c) Prospective effect: Any approval issued pursuant to this section shall be prospective in nature and shall not alter the ruling of a subcode official already rendered in a specific instance relating to a specific permit or structure.

(d) The Department shall have exclusive authority to approve systems for indirect apportionment of heating costs in multiple dwellings.

Amended by R.1992 d.390, effective October 5, 1992.
See: 24 N.J.R. 1844(a), 24 N.J.R. 3515(b).

Exception added at (d).

Amended by R.1995 d.544, effective October 16, 1995.
See: 27 N.J.R. 2827(a), 27 N.J.R. 3933(a).

5:23-3.8A Products violating the Code

(a) The Department shall, after public hearing and in accordance with the Administrative Procedure Act (P.L. 1968, c.410, as amended), establish and distribute to all enforcing agencies a list of items, devices and materials the regular and intended use of which would violate any provision of the State Uniform Construction Code. A list of such items is set forth in (d) below.

(b) Upon determining that any manufacturer or distributor in the State is selling or offering for retail sale any product on the list which does not have a regular and intended use that does not violate the Code, or any product which may have one or more such non-violative regular and intended use but which is being advertised or promoted for a use that does violate the Code, the Department or any enforcing agency having jurisdiction shall give written notice of the violation of N.J.S.A. 52:27D-138a(5) to such seller. Such notice shall forbid the further sale or offering for retail sale of such product within the State and shall specify a date and time by which such product shall be removed from display to customers.

(c) Any person who, having received a notice of violation pursuant to this section, continues to sell or offer for retail sale products specified in such notice, shall be deemed to be knowingly selling or offering the product for sale in violation of the Code and shall be subject to penalty as provided by statute, in accordance with the procedures set forth in N.J.A.C. 5:23-2.31.

(d) The Commissioner has determined that the following materials and supplies are not in conformance with the State Uniform Construction Code:

1. Building materials and supplies:

i. Wood paneling being used as an interior finish not in conformance with section 803.2 of the building

subcode. This section specifies that finish shall be classified in accordance with ASTM E84;

ii. Carpeting used as an interior floor finish material not in conformance with section 805.2 of the building subcode. This section specifies that interior floor finish shall be classified in accordance with ASTM E648; and

2. Electrical materials/supplies:

i. As stated in the National Electric Code (sections 90-7, 110-2, 110-3, and 100), only products listed, labeled, approved, and identified are acceptable. Approval is to be based on tests and listings of testing laboratories such as Underwriters Laboratories Inc. (UL), Factory Mutual (FM), or Canadian Standards Association/Nationally Recognized Testing Laboratory (CSA/NRTL), etc.

3. Plumbing materials/supplies:

i. All purpose solvent cement, except transition glues permitted in the plumbing subcode;

ii. Clear PB piping;

iii. Flexible traps and tailpieces;

iv. Sheet and tubular copper and brass trap and tailpiece fittings less than B & S 17 gauge (.045 in.);

v. Water closets requiring in excess of an average of 1.6 gallons per flush, that either have a manufacturer's date stamp of July 1, 1991 or later or were not purchased by the distributor prior to July 1, 1991;

vi. Plumbing fixtures that do not meet the standards listed in the plumbing subcode.

4. Miscellaneous materials and supplies:

i. Portable unvented natural gas, liquified petroleum gas and kerosene heaters when offered for sale for use in buildings for human occupancy, unless they are tested, listed, labeled and certified by a nationally recognized testing laboratory such as the American Gas Association Laboratories (AGA), Underwriters Laboratories Inc. (UL) or Factory Mutual (FM);

ii. Urea formaldehyde foam insulation, unless offered for sale for use elsewhere than in buildings.

In (d)2i, added reference to CSA/NRTL standards; in (d)3i, added the exception for transition glues; and inserted (d)3vi.

5:23-3.9 Interpretations and opinions

(a) Whenever the Commissioner shall, in accordance with applicable provisions of the Administrative Procedure Act, make any rule constituting an interpretation of any provision of the regulations, such shall be binding provided, however, that such interpretations shall be prospective in nature. Such interpretations shall not alter the ruling of a subcode official already rendered in a specific instance relating to a specific permit or structure. Requests for interpretations shall be in the form, and submitted in accordance with the procedure, set forth in N.J.A.C. 5:2-2.

(b) In response to a written inquiry or request setting forth a specific factual situation, or upon its own initiative, the Construction Code Element may issue a formal technical opinion to clarify provisions of the adopted subcodes. Such formal technical opinion shall be signed by the Assistant Director of the Element and shall be binding upon the Element and upon other code enforcement agencies and licensed officials. Formal technical opinions shall be prospective in nature, shall be based upon adopted subcodes or upon authoritative test results or standards incorporated by reference into an adopted subcode and shall not alter the ruling of a licensed official already rendered in a specific instance relating to a specific permit or structure, except that any such formal technical opinion may be considered in the context of an appeal from any such ruling.

(c) The Construction Code Element may issue bulletins to provide advice to code enforcing agencies, builders, and designers. Bulletins may be issued when the Element finds that an issue that is in need of clarification is adequately dealt with by existing rules and that rulemaking is therefore not appropriate or necessary. Consultation with the Code Advisory Board shall be required prior to the issuance of any bulletin.

(d) In response to a written or oral inquiry or request setting forth a specific factual situation, a staff member of the Construction Code Element may issue an informal opinion as to the proper application of the regulations if the issue is one with which he has authority to deal. Such informal opinion shall only be in writing if it is issued in response to a written inquiry or request and shall not be binding upon the Element or any other party.

5:23-3.11 Enforcement activities reserved to the Department

(a) Except as otherwise provided in N.J.A.C. 5:23-3.11A(b), the Department of Community Affairs shall be the sole plan review agency for the following structures:

1. Electrical generating stations and substations, including nuclear;
2. Incineration plants;
3. Solid waste disposal plants;
4. Class I and Class II structures where required in accordance with N.J.A.C. 5:23-4.3A and N.J.A.C. 5:23-4.24(a)2ii;
5. Casino hotels;
6. Public mausoleums, vaults, crypts and other structures intended to hold or contain human remains;
7. All premanufactured systems for Class I and Class II structures, other than those authorized to be approved by an inplant inspection agency licensed to perform Class I and Class II plan review as provided in N.J.A.C. 5:23-4A.10, and all on-site installation of Class I and Class II premanufactured construction within the jurisdiction of a local enforcing agency that is not a Class I or Class II agency, as the case may be.
8. Health care facilities, as defined in N.J.A.C. 5:23-1.4; and
9. Public school facilities, as defined in N.J.A.C. 5:23-1.4.

(b) The Department of Community Affairs shall be the sole plan review agency for elevators, escalators, and moving walks in Use Groups other than R-3, R-4, or R-2 structures in which the elevator devices are wholly within dwelling units and not accessible to the general public, in all buildings and structures other than those that:

1. Are in a municipality that has an elevator subcode official; and
2. Are otherwise within the plan review jurisdiction of the local enforcing agency.

(c) A permit shall not be issued until the required plans for the building or structure have been released by the department. The department shall insure that the municipal enforcing agency receives a copy of the approved plans.

(d) The department may perform field inspections for any of the above projects when it deems such activity appropriate. However, such action shall not relieve the municipality of the obligation to perform field inspections for any project for which the municipality has granted a permit.

(e) Whenever the department shall determine that there exists a violation of these regulations, it shall take appropriate action and shall provide the municipality with copies of all notices, orders, and other applicable information. The department and any municipality may consolidate or take other steps to expedite any matter of which they jointly complain, but in no event shall the owner of any building subject to the act be sanctioned twice for the same violations.

(f) In any case where the department shall notify a municipality that a violation exists, no certificate of occupancy may issue until the department notifies the municipality that the violation has been abated.

(g) The Department of Community Affairs shall be the sole agency for the enforcement of the Barrier Free Recreation Standards (N.J.A.C. 5:23-7.15 through 7.31). Any complaint of noncompliance with these rules shall be forwarded to the Department.

(h) The Department of Community Affairs shall be the sole agency having authority to grant variations from the requirements of the Asbestos Hazard Abatement Subcode, pursuant to N.J.A.C. 5:23-8.4.

(i) The Department of Community Affairs shall be the sole agency for the enforcement of the Playground Safety Subcode (N.J.A.C. 5:23-11) with regard to all matters not within the scope of a construction permit issued by a local enforcing agency; provided, however, that this subsection shall not be construed as prohibiting the Department of Education from including review of compliance with applicable playground requirements in its ongoing district monitoring process.

(j) The Department shall be the sole enforcing agency for the following:

1. Amusement rides;
2. Ski lifts;
3. High pressure boilers;
4. Refrigeration systems;
5. Pressure vessels; and
6. Liquefied petroleum gas installations, except one- and two-family residential (building subcode Use Group R-3/R-4) which jurisdiction is retained by the municipal enforcing agency.

5:23-3.11A Public school facility plan review and inspections; Uniform Construction Code enhancements in public school facilities

(a) Plan review for the following types of projects shall be performed by the Department of Community Affairs. Prior to the release of plans for the following types of projects, the Department of Education shall ensure that the plans meet the standards for educational adequacy set forth in N.J.A.C. 6:22:

1. New public school buildings, including the creation of a new public school building through the change of use of an existing building;
2. Additions to existing public school buildings;

3. Alterations changing the total number of instructional spaces, the size of any such spaces or type of any such spaces;

4. Installations of mobile units; or

5. Any site or building change or alteration for the purpose of making the site and school barrier-free pursuant to N.J.A.C. 5:23-7 and accessible to the handicapped pursuant to section 504 of the Federal Rehabilitation Act of 1973.

(b) In lieu of obtaining construction code plan review and release from the Department of Community Affairs, a school district, upon notice to the Department, may secure construction code plan review and release from any municipal code enforcing agency, pursuant to P.L. 1990, c.23.

1. The municipal code enforcing agency providing construction code plan approval must agree to perform the review and must be appropriately classified for the proposed project in accordance with this chapter.

2. The municipal code enforcing agency performing the construction code plan review may require the payment of any municipal plan review fees.

3. No construction permit shall be issued for a public school facility unless and until the final plans and specifications have been released by the Department or an appropriately classified municipal code enforcing agency.

4. The municipal code enforcing agency within the jurisdiction in which the facility is located shall be responsible for construction permit issuance, construction inspection and certificate of occupancy issuance.

5. Amendments to released plans and specifications for reasons other than educational adequacy shall be submitted for review and release to the Department or the municipal code enforcing agency, whichever originally released the plans.

6. Release of the plans by the Department or the municipal code enforcing agency, as the case may be, shall not preclude the enforcing agency doing the inspection from issuing a stop work order in the event of a violation of the code. The enforcing agency doing the inspection shall not, however, issue a stop work order based on its disagreement with the released plans unless the agency that released the plans, be it the Department or another local enforcing agency, agrees that the issuance of such an order is appropriate. In the event that the enforcing agency doing the inspection believes there to be an error in the plans, that enforcing agency shall give prompt notice of the error that is believed to exist to the Department or the municipal agency that reviewed the plans, as the case may be.

(c) The Department or the municipal code enforcing agency providing construction code plan release or inspection shall be responsible for enforcing the following Uniform Construction Code enhancements in public school facilities:

1. An automatic fire alarm system shall be installed in all new buildings of Use Group E (educational), as designated in the BOCA National Building Code/96 Section 918.4.1 and in accordance with the applicable National Fire Protection Association standards. The system shall utilize:

i. Combination fixed-temperature and rate of rise devices in classrooms and other spaces not covered in (c)1ii below;

ii. Devices to detect abnormal visible smoke densities or gaseous products of combustion in corridors and exit stairs;

iii. An automatic fire suppression system and, in areas where suppression is deleted, automatic detection devices; or

iv. A combination of the above three types of detection devices except that a fixed-temperature detector shall be permitted in approved locations, such as in a boiler room or incinerator.

2. Manual fire alarm boxes, in addition to BOCA/96 Section 918.5 requirements, shall be provided in the natural path of escape from fire, near each exterior door from the corridor, kitchen, heater room and other exits that are required to serve 50 or more persons. Additional fire alarm boxes shall be located in the main office, stage, at each stairway entrance from a corridor or place of assembly and near one exterior exit in each section of a place of assembly. It shall not be necessary to traverse more than 200 feet of unobstructed horizontal distance on the same floor in order to reach a fire alarm box.

3. Each instructional space and room of assembly which is illuminated with the use of high intensity discharge (HID) sources, such as mercury vapor, high pressure sodium and metal halide lamps, shall also be provided with a second source of illumination to provide illumination instantly upon activation of the circuit. All high intensity discharge (HID) lamps shall be of the fail-safe type which will permanently extinguish within 15 minutes after the outer glass of the bulb is broken. All lamps shall be provided with a glass or plastic lens to protect the bulb.

4. All school buildings shall be equipped with a mechanical air supply and exhaust ventilation system which will provide, during periods of occupancy, standard tempered outdoor air supply and mechanical exhaust at the minimum rates set forth in the BOCA National Mechanical Code as amended.
