## General Information

---

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

REQUEST TO RELEASE CONSERVATION EASEMENT  
-PUBLIC HEARING -

TAKE NOTICE that, in accordance with the New Jersey Conservation Restriction and Historic Preservation Restriction Act, N.J.S.A. 13:8B-5, the New Jersey Department of Environmental Protection, Division of Land Use Regulation (the “Department”) has received an application for a partial release of the current Conservation Easements/Declarations of Environmental Restrictions by and between New York Susquehanna & Western Railway Corp. and the New Jersey Department of Environmental Protection dated December 12, 2012, on property identified as Block 446:1, 2, B2 C2; Lots 442, 485, 446A. The lots are shown on the official tax map of the Township of North Bergen in Hudson County, New Jersey, and will be affected by a viaduct founded on piers, four of which will have a direct impact to the wetland mitigation site. In addition, an access road is needed for future maintenance of the railroad and for safety during emergencies. Finally, a bridge abutment associated with the crossing of the NYS&W and Conrail railroads will also impact the wetland mitigation site as part of the Hudson Tunnel project received by the Department on July 16, 2020 and currently under review, under File #0900-08-003.3. Mitigation and replacement resources will be provided as compensation for the partial release of the conservation restrictions described above, that at a minimum will result in an increased level of protection for the regulated resource, or in an equivalent area of resource protection that does not compromise in any way the value of the original protected resource.
