i. Ensure that the obligation to make a free, appropriate public education available to each eligible student begins no later than the student's third birthday and that an individualized education program is in effect for the student by that date;

ii. Ensure that a free, appropriate public education is available to any student with a disability who needs special education and related services, even though the student is advancing from grade to grade;

iii. Ensure that the services and placement needed by each student with a disability to receive a free, appropriate public education are based on the student's unique needs and not on the student's disability;

2. Ensure that students with disabilities are educated in the least restrictive environment;

3. Ensure the provision of special education and related services;

4. Ensure that the rights of students with disabilities and their parents are protected;

5. Assist public and private agencies providing educational services to students with disabilities; and

6A:14-2.2 Surrogate parents and foster parents

(a) Each district board of education or responsible State agency shall ensure that the rights of a student are protected through the provision of an individual to act as surrogate for the parent and assume all parental rights under this chapter when either:

1. The parent as defined according to N.J.A.C. 6A:14-1.3 cannot be identified;
2. The parent cannot be located after reasonable efforts; or
3. An agency of the State of New Jersey has guardianship of the student.

(b) Each district board of education or responsible State agency shall establish a method for selecting and training surrogate parents.

(c) The person serving as a surrogate parent shall have:

1. No interest that conflicts with those of the student he or she represents; and
2. Knowledge and skills that ensure adequate representation of the student.

(d) The person(s) serving as a surrogate parent may not be an employee of the Department of Education, the district board of education or public agency providing services to the student. A surrogate parent may be paid solely to act in that capacity.

(e) When a student (who is or may be a student with a disability) is in the care of a foster parent, the district board of education where the foster parent resides shall contact the student's case manager at the Division of Youth and Family Services (DYFS) in the Department of Human Services to:

1. Determine whether the parent retains the right to make educational decisions; and
2. Determine the whereabouts of the parent.

(f) If the parent retains the right to make educational decisions and the parent's whereabouts are known to the district board of education, the school shall obtain all required consent from and provide written notices to the parent.

(g) If the district board of education cannot ascertain the whereabouts of the parent, the district board of education shall consult with the student's case manager at DYFS to assist in identifying an individual, including the foster parent, who may serve as a surrogate. The district board of education shall appoint a surrogate parent and obtain all required consent from and provide written notices to the surrogate parent.

(h) If the rights of the parent have been terminated, the district board of education shall consult with the student's case manager at DYFS to determine whether the foster parent meets the criteria established at N.J.A.C. 6A:14-1.3 in the definition of "parent" and can act on behalf of the student. If so, the district board of education shall obtain all required consent from and provide written notices to the foster parent.

1. If it is determined that the foster parent cannot serve as the parent on behalf of the student, the district board of education in consultation with DYFS shall appoint a surrogate parent and obtain all required consent from and provide written notices to the surrogate parent.

Successful challenge to local board's decision to remove multiply handicapped child from residential school into home and local school programs. *Geis v. Bd. of Ed., Parsippany-Troy Hills, Morris Cty.*, 589 F.Supp. 269 (D.N.J.1984), affirmed 774 F.2d 575 (3rd Cir.1985).

Individuals with Disabilities Act (IDEA) imposed no federal requirement of statewide uniformity of methods for the selection and training of surrogate parents, and state special education regulations which provided for establishment of selection and training systems by each district board of education or responsible state agency were not arbitrary, capricious or unreasonable. *Baer v. Klagholz*, 771 A.2d 603 (2001).

State special education regulations defining eligibility for appointment as a surrogate parent which did not prohibit appointment of an employee of a nonpublic agency involved in the education or care of the child as that child's surrogate parent improperly failed to conform to federal conflict-of-interest standard. *Baer v. 6A:14-2.4 Native language

(a) Written notice to the parent shall be provided and parent conferences required by this chapter shall be conducted in the language used for communication by the parent and student unless it is clearly not feasible to do so.

1. Foreign language interpreters or translators and sign language interpreters for the deaf shall be provided, when necessary, by the district board of education at no cost to the parent.

(b) If the native language is not a written language, the district board of education shall take steps to ensure that:

1. The notice is translated orally or by other means to the parent in his or her native language or other mode of communication;

2. That the parent understands the content of the notice; and

3. There is written documentation that the requirements of (b)1 and 2 above have been met.

Case Notes

Parents of disabled students failed to sustain their burden of demonstrating that state special education regulations were arbitrary, capricious, or unreasonable, or were violative of Individuals with Disabilities Education Act (IDEA), federal regulations, or state special education laws. Baer v. Klagholz, 771 A.2d 603 (2001).

6A:14-2.5 Protection in evaluation procedures

(a) In conducting the evaluation, each district board of education shall:

1. Use a variety of assessment tools and strategies to gather relevant functional and developmental information, including information:

i. Provided by the parent that may assist in determining whether a child is a student with a disability and in determining the content of the student's IEP; and

ii. Related to enabling the student to be involved in and progress in the general education curriculum or, for preschool children with disabilities to participate in appropriate activities;

2. Not use any single procedure as the sole criterion for determining whether a student is a student with a disability or determining an appropriate educational program for the student; and

3. Use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors.

(b) Each district board of education shall ensure:

1. That evaluation procedures including, but not limited to, tests and other evaluation materials according to N.J.A.C. 6A:14-3.4:

i. Are selected and administered so as not to be racially or culturally discriminatory; and

ii. Are provided and administered in the student's native language or other mode of communication unless it is clearly not feasible to do so; and

iii. Materials and procedures used to assess a student with limited English proficiency are selected and administered to ensure that they measure the extent to which the student has a disability and needs special education, rather than measure the student's English language skills;

2. Any standardized tests that are administered:

i. Have been validated for the purpose(s) for which they are administered; and

ii. Are administered by certified personnel trained in conformance with the instructions provided by their producer;

3. The student is assessed in all areas of suspected disability;

4. Assessment tools and strategies that provide relevant information that directly assists persons in determining the educational needs of the student are provided;

5. Tests are selected, administered and interpreted so that when a student has sensory, manual or communication impairments, the results accurately reflect the ability which that procedure purports to measure, rather than the impairment unless that is the intended purpose of the testing;

6. The evaluation is conducted by a multi-disciplinary team of professionals consisting of at least two members of the child study team and where appropriate, other specialists. At least one evaluator shall be knowledgeable in the area of the suspected disability; and

7. In evaluating each student with a disability, the evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the suspected eligibility category.

(c) A parent may request an independent evaluation if there is disagreement with the evaluation provided by a district board of education.

1. Such independent evaluation(s) shall be provided at no cost to the parent unless the district board of education initiates a due process hearing to show that its evaluation is appropriate and a final determination to that effect is made following the hearing.

3. Have an apportioned amount of time for case management responsibilities; and
4. Be responsible for transition planning.

6A:14-3.3 Location, referral and identification

(a) Each district board of education shall develop written procedures for students age three through 21, including students attending nonpublic schools, who reside within the local school district with respect to the location and referral of students who may be disabled due to physical, sensory, emotional, communication, cognitive or social difficulties.

1. The requirements of this section apply to highly mobile students with disabilities, such as migrant and homeless students, and to students who may be disabled even though they are advancing from grade to grade.

2. The activities undertaken to locate nonpublic school students with disabilities shall be comparable to activities undertaken to locate public school students with disabilities. In addition, each district board of education shall consult with appropriate representatives of nonpublic school students on how to carry out these activities.

3. The referral procedures shall provide for:

i. Interventions in the general education program according to N.J.A.C. 6:26;

ii. Evaluation to determine eligibility for special education and related services; and/or

iii. Other educational action, as appropriate.

(b) The procedures shall provide for referral by instructional, administrative and other professional staff of the local school district, parents and agencies concerned with the welfare of students.

(c) Interventions in the general education program to alleviate educational problems shall be provided to a student unless the student's educational problem(s) is such that direct referral to the child study team is required according to (d) below.

1. The staff of the general education program shall maintain written documentation of the implementation and effectiveness of the interventions.

2. When it is determined that interventions in the general education program have not adequately addressed the educational difficulties and it is believed that the student may be disabled, the student shall be referred for evaluation to determine eligibility for special education programs and services under this chapter.

3. A determination whether or not to conduct an evaluation shall be made in accordance with (e) below.

(d) Interventions in the regular education program are not a prerequisite to an evaluation for services under this chapter when:

1. It can be documented that the nature of the student's educational problem(s) is such that evaluation to determine eligibility for services under this chapter is warranted without delay; or

2. The parent makes a written request for an evaluation to determine eligibility for services under this chapter. Such a request shall be considered a referral and shall be forwarded without delay to the child study team for consideration.

(e) When a preschool age or school age student is referred for an initial evaluation to determine eligibility for

special education programs and services under this chapter, a meeting of the child study team, the parent and the regular education teacher of the student who is knowledgeable about the student's educational performance or if there is no teacher of the student, a teacher who is knowledgeable about the district's programs shall be convened within 20 calendar days (excluding school holidays, but not summer vacation) of receipt of the written request. This group shall determine whether an evaluation is warranted and, if warranted, shall determine the nature and scope of the evaluation, according to N.J.A.C. 6A:14-3.4(a). The parent shall be provided written notice of the determination(s), which includes a request for consent to evaluate, if an evaluation will be conducted, according to N.J.A.C. 6A:14-2.3(a).

1. To facilitate the transition from early intervention to preschool, a child study team member of the district board of education shall participate in the preschool transition planning conference arranged by the Department of Health and Senior Services.

2. Preschoolers with disabilities shall have their IEPs implemented no later than age three. To assure that preschoolers with disabilities have their initial IEPs implemented no later than age three, a written request for initial evaluation shall be forwarded to the district at least 120 days prior to the preschooler attaining age three.

3. When a preschool age child is referred for an initial evaluation, a speech-language specialist shall participate as a member of the child study team in the meeting to determine whether to evaluate and the nature and scope of the evaluation.

4. For students ages five to 21, when the suspected disability includes a language disorder, the child study team, the parent, a speech-language specialist and the regular education teacher of the student who has knowledge of the student's educational performance or if there is no teacher of the student, a teacher who is knowledgeable about the district's programs shall participate in the meeting to decide whether to evaluate and the nature and scope of the evaluation.

5. For students ages five to 21, when the suspected disability is a disorder of voice, articulation and/or fluency only, the decision to evaluate and the determination of the nature and scope of the evaluation shall be according to (e) above, except that the meeting shall include the speech-language specialist, the parent and the regular education teacher of the student who has knowledge of the student's educational performance or if there is no teacher of the student, a teacher who is knowledgeable about the district's programs.

(f) When it is determined that an evaluation for eligibility for services under this chapter is warranted, the student shall be considered identified as potentially disabled. If the student is removed for disciplinary action, limitations on the amount of time the student is removed and the requirement

to provide services shall be consistent with procedures in N.J.A.C. 6A:14-2.8.

(g) Audiometric screening according to N.J.A.C. 6:29-5 shall be conducted for every student referred to the child study team for a special education evaluation.

(h) Vision screening shall be conducted by the school nurse for every student referred to the child study team for a special education evaluation.

Case Notes

Requirements of regulations under Individuals with Disabilities Act (IDEA) that each state have on file with Secretary of Education description of how "child find" policies and procedures will be monitored to ensure that the state educational agency (SEA) obtained information on number of children identified within each category of disability, information adequate to evaluate effectiveness of those policies and procedures, and description of method used by state to determine which children were receiving special education and related services were not met by state regulations merely mandating that each school district develop written procedures. *Baer v. Klagholz*, 771 A.2d 603 (2001).

State special education regulations requiring each district board of education to develop written procedures for locating potentially disabled students satisfied requirement of the Individuals with Disabilities Education Act (IDEA) that each state have policies and procedures to ensure that practical method for locating disabled students be developed; neither IDEA nor its regulations established any particular "child find" method to be used, or require states to establish uniform methods. *Baer v. Klagholz*, 771 A.2d 603 (2001).

State special education regulations which failed to include portions of the Individuals with Disabilities Education Act (IDEA) or its regulations setting forth filing requirements in connection with "child find" requirements were impermissibly inconsistent with federal standard, despite state's contention that filing requirements applied only to state and not to local school districts, where result of failure to incorporate federal standard in regulations was lack of public awareness of applicable standards and how standards were applied. *Baer v. Klagholz*, 771 A.2d 603 (2001).

6A:14-3.4 Evaluation

(a) The child study team, the parent and the regular education teacher of the student who has knowledge of the student's educational performance or if there is no teacher of the student, a teacher who is knowledgeable about the district's programs shall:

1. Review existing evaluation data on the student including evaluations and information provided by the parents, current classroom-based assessments and observations, and the observations of teachers and related services providers, and consider the need for any health appraisal or specialized medical evaluation;

2. On the basis of the review in (a)1 above identify what additional data, if any are needed to determine:

- i. Whether the student has a disability under this chapter;

- ii. The present levels of performance and educational needs of the student;

- iii. Whether the student needs special education and related services; and

- iv. Whether any additions or modifications to the special education and related services are needed to enable the student with a disability to meet annual goals set out in the IEP and to participate, as appropriate, in the general education curriculum; and

3. Determine which child study team members and/or specialists shall conduct the evaluation.

(b) Prior to conducting any assessment as part of an initial evaluation, the district shall request and obtain consent to evaluate according to N.J.A.C. 6A:14-3.3(e).

(c) After parental consent for initial evaluation of a preschool age or school age student has been received, the evaluation, determination of eligibility for services under this chapter, and, if eligible, development and implementation of the IEP for the student shall be completed within 90 calendar days.

1. If initial evaluation of a preschool age child is warranted, the district board of education shall take steps to ensure that consent to evaluate is obtained without delay.

(d) An initial evaluation shall consist of a multi-disciplinary assessment in all areas of suspected disability. Such evaluation shall include assessment by at least two members of the child study team and other specialists in the area of disability as required or as determined necessary. Each evaluation of the student shall:

1. Include, where appropriate, or required, the use of a standardized test(s) which shall be:

- i. Individually administered;

- ii. Valid and reliable;

- iii. Normed on a representative population; and

- iv. Scored as either standard score with standard deviation or norm referenced scores with a cutoff score; and

2. Include functional assessment of academic performance and, where appropriate, behavior. Each of the following components shall be completed by at least one evaluator:

- i. A minimum of one structured observation by one evaluator in other than a testing session;

- (1) In the case of a student who is suspected of having a specific learning disability, one evaluator shall observe the student's academic performance in the regular classroom;

(2) In the case of a student of preschool age, a child study team member in an environment appropriate for a child of that age;

ii. An interview with the student's parent;

iii. An interview with the teacher(s) referring the potentially disabled student;

iv. A review of the student's developmental/educational history including records and interviews;

v. A review of interventions documented by the classroom teacher(s) and others who work with the student; and

vi. One or more informal measure(s) which may include, but not be limited to, surveys and inventories; analysis of work; trial teaching; self report; criterion referenced tests; curriculum based assessment; and informal rating scales.

(e) When the suspected disability is a disorder of articulation, voice or fluency according to N.J.A.C. 6A:14-3.6(e), the speech-language specialist shall:

1. Meet with the parent and the student's regular education teacher who is knowledgeable about the student's educational performance or, if there is no regular education teacher, a regular education teacher who is knowledgeable about the district's programs to review existing data on the student including evaluations and information provided by the parents, current classroom-based assessments and observations, and the observations of teachers and related services providers;

2. Obtain consent to conduct the evaluation according to N.J.A.C. 6A:14-3.3(e)5;

3. Conduct an assessment according to (d)1 and 2 above. The assessment shall include written information from the classroom teacher of the educational impact created by the speech problem. Such assessment shall fulfill the requirement for multi-disciplinary evaluation as required in (d) above; and

4. Prepare a written report of the results according to (f) below.

(f) A written report of the results of each assessment shall be prepared. At the discretion of the district, the written report may be prepared collaboratively by the evaluators or each evaluator may prepare an individually written report of the results of his or her assessments. Each written report shall be dated and signed by the individual(s) who conducted the assessment and shall include:

1. An appraisal of the student's current functioning and an analysis of instructional implication(s) appropriate to the professional discipline of the evaluator;

2. A statement regarding relevant behavior of the student, either reported or observed and the relationship of that behavior to the student's academic functioning;

3. If an assessment is not conducted under standard conditions, the extent to which it varied from standard conditions; and

4. When a student is suspected of having a specific learning disability, the documentation of the determination of eligibility shall include a statement of:

i. Whether the student has a specific learning disability;

ii. The basis for making the determination;

iii. The relevant behavior noted during the observation;

iv. The relationship of that behavior to the student's academic performance;

v. Educationally relevant medical findings, if any;

vi. Whether there is a severe discrepancy between achievement and ability that is not correctable without special education and related services; and

vii. The determination concerning the effects of environmental, cultural or economic disadvantage.

(g) The reports and assessments of child study team members or specialists from other public school districts, Department of Education approved clinics or agencies, educational services commissions or jointure commissions or professionals in private practice may be submitted to the IEP team for consideration. The IEP team may accept or reject the entire report(s) or any part of the report(s). Acceptance of the report shall be noted in writing and shall become part of the report(s) of the district. If a report or part of a report is rejected, a written rationale shall be provided to the parent by the IEP team.

(h) Upon receipt of a written referral to the child study team, the school nurse shall review and summarize available health and medical information regarding the student and shall transmit the summary to the child study team for the meeting according to N.J.A.C. 6A:14-3.4(a)1 to consider the need for a health appraisal or specialized medical evaluation.

6A:14-3.5 Determination of eligibility for special education and related services

(a) When an initial evaluation is completed for a student age three through 21, a meeting according to N.J.A.C. 6A:14-2.3(i)1 shall be convened to determine whether the student is eligible for special education and related services. A copy of the evaluation report(s) and documentation of eligibility shall be given to the parent. If eligible, the student shall be assigned the classification "eligible for special education and related services." Eligibility shall be determined collaboratively by the participants described in N.J.A.C. 6A:14-2.3(i)1.

(b) In making a determination of eligibility for special education and related services, a student shall not be determined eligible if the determinant factor is due to a lack of instruction in reading or math or due to limited English proficiency.

(c) A student shall be determined eligible and classified "eligible for special education and related services" under this chapter when it is determined that the student has one or more of the disabilities defined in (c)1 through 13 below; the disability adversely affects the student's educational performance and the student is in need of special education and related services. Classification shall be based on all assessments conducted including assessment by child study

team members and assessment by other specialists as specified below.

1. "Auditorily impaired" corresponds to "auditorily handicapped" and further corresponds to the Federal eligibility categories of deafness or hearing impairment. "Auditorily impaired" means an inability to hear within normal limits due to physical impairment or dysfunction of auditory mechanisms characterized by (c)1i or ii below. An audiological evaluation by a specialist qualified in the field of audiology and a speech and language evaluation by a certified speech-language specialist are required.

i. "Deafness"—The auditory impairment is so severe that the student is impaired in processing linguistic information through hearing, with or without amplification and the student's educational performance is adversely affected.

ii. "Hearing impairment"—An impairment in hearing, whether permanent or fluctuating which adversely affects the student's educational performance.

2. "Autistic" means a pervasive developmental disability which significantly impacts verbal and nonverbal communication and social interaction that adversely affects a student's educational performance. Onset is generally evident before age three. Other characteristics often associated with autism are engagement in repetitive activities and stereotyped movements, resistance to environmental change or change in daily routine, unusual responses to sensory experiences and lack of responsiveness to others. The term does not apply if the student's adverse educational performance is due to emotional disturbance as defined in (c)5 below. A child who manifests the characteristics of autism after age three may be classified as autistic if the criteria in this paragraph are met. An assessment by a certified speech-language specialist and an assessment by a physician trained in neurodevelopmental assessment are required.

3. "Cognitively impaired" corresponds to "mentally retarded" and means a disability that is characterized by significantly below average general cognitive functioning existing concurrently with deficits in adaptive behavior; manifested during the developmental period that adversely affects a student's educational performance and is characterized by one of the following:

i. "Mild cognitive impairment" corresponds to "educable" and means a level of cognitive development and adaptive behavior in home, school and community settings that are mildly below age expectations with respect to all of the following:

(1) The quality and rate of learning;

(2) The use of symbols for the interpretation of information and the solution of problems; and

(3) Performance on an individually administered test of intelligence that falls within a range of two to three standard deviations below the mean.

- ii. "Moderate cognitive impairment" corresponds to "trainable" and means a level of cognitive development and adaptive behavior that is moderately below age expectations with respect to the following:
- (1) The ability to use symbols in the solution of problems of low complexity;
 - (2) The ability to function socially without direct and close supervision in home, school and community settings; and
 - (3) Performance on an individually administered test of intelligence that falls three standard deviations or more below the mean.
- iii. "Severe cognitive impairment" corresponds to "eligible for day training" and means a level of functioning severely below age expectations whereby in a consistent basis the student is incapable of giving evidence of understanding and responding in a positive manner to simple directions expressed in the child's primary mode of communication and cannot in some manner express basic wants and needs.
4. "Communication impaired" corresponds to "communication handicapped" and means a language disorder in the areas of morphology, syntax, semantics and/or pragmatics/discourse which adversely affects a student's educational performance and is not due primarily to an auditory impairment. The problem shall be demonstrated through functional assessment of language in other than a testing situation and performance below 1.5 standard deviations, or the 10th percentile on at least two standardized oral language tests, where such tests are appropriate. When the area of suspected disability is language, assessment by a certified speech-language specialist and assessment to establish the educational impact are required. The speech-language specialist shall be considered a child study team member.
- i. When it is determined that the student meets the eligibility criteria according to the definition in (c)4 above, but requires instruction by a speech-language specialist only, the student shall be classified as eligible for speech-language services.
 - ii. When the area of suspected disability is a disorder of articulation, voice or fluency, the student shall be evaluated according to N.J.A.C. 6A:14-3.4(e) and if eligible, classified as eligible for speech-language services according to N.J.A.C. 6A:14-3.6(a).
5. "Emotionally disturbed" means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a student's educational performance due to:
- i. An inability to learn that cannot be explained by intellectual, sensory or health factors;
 - ii. An inability to build or maintain satisfactory interpersonal relationships with peers and teachers;
 - iii. Inappropriate types of behaviors or feelings under normal circumstances;
 - iv. A general pervasive mood of unhappiness or depression; or
 - v. A tendency to develop physical symptoms or fears associated with personal or school problems.
6. "Multiply disabled" corresponds to "multiply handicapped" and means the presence of two or more disabling conditions. Eligibility for speech-language services as defined in this section shall not be one of the disabling conditions for classification based on the definition of "multiply disabled." "Multiply disabled" is characterized as follows:
- i. "Multiple disabilities" means concomitant impairments, the combination of which causes such severe educational problems that programs designed for the separate disabling conditions will not meet the student's educational needs.
 - ii. "Deaf/blindness" means concomitant hearing and visual impairments, the combination of which causes such severe communication and other developmental and educational problems that they cannot be accommodated in special education programs solely for students with deafness or students with blindness.
7. "Orthopedically impaired" corresponds to "orthopedically handicapped" and means a disability characterized by a severe orthopedic impairment that adversely affects a student's educational performance. The term includes malformation, malfunction or loss of bones, muscle or tissue. A medical assessment documenting the orthopedic condition is required.
8. "Other health impaired" corresponds to "chronically ill" and means a disability characterized by having limited strength, vitality or alertness, including a heightened alertness with respect to the educational environment, due to chronic or acute health problems, such as attention deficit disorder or attention deficit hyperactivity disorder, a heart condition, tuberculosis, rheumatic fever, nephritis, asthma, sickle cell anemia, hemophilia, epilepsy, lead poisoning, leukemia, diabetes or any other medical condition, such as Tourette Syndrome, that adversely affects a student's educational performance. A medical assessment documenting the health problem is required.
9. "Preschool disabled" corresponds to preschool handicapped and means an identified disabling condition and/or a measurable developmental impairment which occurs in children between the ages of three and five years and requires special education and related services.
10. "Social maladjustment" means a consistent inability to conform to the standards for behavior established by the school. Such behavior is seriously disruptive to the education of the student or other students and is not due to emotional disturbance as defined in (c)5 above.

11. "Specific learning disability" corresponds to "perceptually impaired" and means a disorder in one or more of the basic psychological processes involved in understanding or using language, spoken or written, that may manifest itself in an imperfect ability to listen, think, speak, read, write, spell, or to do mathematical calculations, including conditions such as perceptual disabilities, brain injury, minimal brain dysfunction, dyslexia, and developmental aphasia.

i. It is characterized by a severe discrepancy between the student's current achievement and intellectual ability in one or more of the following areas:

- (1) Basic reading skills;
- (2) Reading comprehension;
- (3) Oral expression;
- (4) Listening comprehension;
- (5) Mathematical computation;
- (6) Mathematical reasoning; and
- (7) Written expression.

ii. The term does not apply to students who have learning problems that are primarily the result of visual, hearing, or motor disabilities, general cognitive deficits, emotional disturbance or environmental, cultural or economic disadvantage.

iii. The district shall adopt procedures that utilize a statistical formula and criteria for determining severe discrepancy. Evaluation shall include assessment of current academic achievement and intellectual ability.

12. "Traumatic brain injury" corresponds to "neurologically impaired" and means an acquired injury to the brain caused by an external physical force or insult to the brain, resulting in total or partial functional disability or psychosocial impairment, or both. The term applies to open or closed head injuries resulting in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual and motor abilities; psychosocial behavior; physical functions; information processing; and speech.

13. "Visually impaired" corresponds to "visually handicapped" and means an impairment in vision that, even with correction, adversely affects a student's educational performance. The term includes both partial sight and blindness. An assessment by a specialist qualified to determine visual disability is required. Students with visual impairments shall be reported to the Commission for the Blind and Visually Impaired.

(a) "Eligible for speech-language services" means a speech and/or language disorder as follows:

1. A speech disorder in articulation, phonology, fluency, voice, or any combination, unrelated to dialect, cultural differences or the influence of a foreign language, which adversely affects a student's educational performance; and/or
2. A language disorder which meets the criteria of N.J.A.C. 6A:14-3.5(c)4 and the student requires speech-language services only.

(b) The evaluation for a speech disorder shall be conducted according to N.J.A.C. 6A:14-3.4(e). Documentation of the educational impact of the speech problem shall be provided by the student's teacher. The speech disorder must meet the criteria in (b)1, 2, and/or 3 below and require instruction by a speech-language specialist:

1. **Articulation/phonology:** On a standardized articulation or phonology assessment, the student exhibits one or more sound production error patterns beyond the age at which 90 percent of the population has achieved mastery according to current developmental norms and misarticulates sounds consistently in a speech sample.
2. **Fluency:** The student demonstrates at least a mild rating, or its equivalent, on a formal fluency rating scale and in a speech sample, the student exhibits disfluency in five percent or more of the words spoken.
3. **Voice:** On a formal rating scale, the student performs below the normed level for voice quality, pitch, resonance, loudness or duration and the condition is evident on two separate occasions, three to four weeks apart, at different times.

(c) When the initial speech-language evaluation is completed, classification shall be determined collaboratively by the participants at a meeting according to N.J.A.C. 6A:14-2.3(i)1. The speech-language specialist who conducted the evaluation shall be considered a child study team member at the meeting to determine whether a student is eligible for speech-language services. A copy of the evaluation report(s) and documentation of eligibility shall be given to the parent.

1. Community rehabilitation programs shall be approved according to N.J.A.C. 12:51-11 by the New Jersey Department of Labor, Division of Vocational Rehabilitation Services to provide vocational evaluation, work adjustment training, job coaching, skill training, supported employment and time-limited job coaching;

2. Placement shall be made according to the student's IEP. The IEP shall specify the core curriculum content standards to be met and shall address how the instruction will be provided; and

3. Within 10 calendar days of placement in community rehabilitation facilities, the district board of education shall provide written notification of the placement to the county office.

Amended by R.1998 d.527, effective November 2, 1998.
See: 30 N.J.R. 2852(a), 30 N.J.R. 3941(a).

In (b)3, divided the learning and/or language disabilities program category into Mild to moderate and Severe.
Amended by R.2000 d.230, effective June 5, 2000.
See: 32 N.J.R. 755(a), 32 N.J.R. 2052(a).
Amended (b)3; in (d)2, added second sentence.

Case Notes

State special education regulations governing placement of secondary-level students in community rehabilitation programs for vocational rehabilitation services, permitting students to be placed in programs approved by the state Division of Vocational Services (DVRS), were insufficiently broad to encompass placement in programs approved by agencies serving the blind or those so severely developmentally disabled as to be unemployable, as required under the Individuals with Disabilities Education Act (IDEA). *Baer v. Klagholz*, 771 A.2d 603 (2001).

6A:14-4.8 Program criteria: home instruction

1. Prior written approval to provide home instruction shall be obtained from the Department of Education through its county office.
2. Approval may be obtained for a maximum of 60 calendar days at which time renewal of the request may be made. Each renewal of the approval may be granted for a maximum of 60 calendar days.
3. N.J.A.C. 6A:14-4.9(a)2, 3 and 4 shall apply.
4. Instruction shall be provided for no fewer than 10 hours per week. The 10 hours of instruction per week shall be accomplished in no fewer than three visits by a certified teacher on at least three separate days.

The hours of instruction shall be provided in no fewer than three visits by a certified teacher on at least three separate days;
 - iii. Instruction may be provided by direct communication to a classroom program by distance learning devices. If provided, such instruction shall be provided in addition to the one to one according to (a)5 above or small group instruction according to (a)6ii above;

7. Students shall receive a program that meets the requirements of the district board of education for promotion and graduation;

8. For students with disabilities, the district shall provide a program that is consistent with the student's IEP to the extent appropriate. 9. When a nondisabled student is confined at home or to a hospital by a physician for more than 60 calendar days, the school physician shall refer the student to the child study team according to N.J.A.C. 6A:14-3.3(e).

Amended by R.2000 d.230, effective June 5, 2000.

See: 32 N.J.R. 755(a), 32 N.J.R. 2052(a).

6A:14-4.10 Exceptions

(a) Exceptions for the age range and group sizes specified in N.J.A.C. 6A:14-4.4 through 4.7 shall be granted:

1. On an individual basis;
2. Only with prior written approval of the Department of Education through its county office; and
3. For a period not to exceed the balance of the school year.

(b) The county office shall determine whether the granting of the exception would interfere with the delivery of a free, appropriate public education to the student, or other students in the group and on that basis shall either:

1. Approve the request; or
2. Deny the request.

(c) If the request is denied, the district is still obligated to implement the IEP.

(d) The parent of a student with a disability for whom the exception is requested, and the parents of the students who are affected by the request for an exception shall be informed by the district board of education that such a request is being submitted to the county office of education.

(e) Upon approval of the exception by the county office, the district board of education or the appropriate education agency shall inform the parents of the students with disabilities who are affected by the exception.

(f) As of July 6, 1998, no waivers or equivalencies pursuant to N.J.A.C. 6:3A shall be granted to this chapter. Any waiver or equivalency previously granted under N.J.A.C. 6:3A for N.J.A.C. 6:28 shall expire on July 6, 1998.

6A:14-4.11 Statewide assessment

(a) Students with disabilities shall participate in Statewide assessments according to the following:

1. Accommodations and/or modifications approved by the Department of Education for the administration of the Statewide assessment shall be provided in accordance with the student's IEP.

2. If the nature of the student's disability is so severe that the student is not receiving instruction in any of the knowledge and skills measured by the Statewide assessment and the student cannot complete any of the questions on the assessment in a subject area with or without accommodations, the student shall participate in a locally determined assessment of student progress.

3. By the year 2000, alternate assessments shall be administered by the Department of Education so that all students are included in the Statewide assessment system.

4. A student with a disability may participate in the Special Review Assessment for the High School Proficiency Test after one administration of the High School Proficiency Test when the student fails one or more sections of the test and when the IEP team determines that the student requires an alternate format to demonstrate the knowledge and skills measured by the High School Proficiency Test.

Amended by R.1998 d.527, effective November 2, 1998.

See: 30 N.J.R. 2852(a), 30 N.J.R. 3941(a).

In (a)4, inserted "after one administration of the High School Proficiency Test when the student fails one or more sections of the test and" following "when".

6A:14-4.12 Graduation

(a) The IEP of a student with a disability who enters a high school program shall specifically address the graduation requirements. The student shall meet the high school graduation requirements according to N.J.A.C. 6A:8-5.1(c), except as specified in the student's IEP. The IEP shall specify which requirements would qualify the student with a disability for the State endorsed diploma issued by the school district responsible for his or her education.

(b) Graduation with a State endorsed diploma is a change of placement that requires written notice according to N.J.A.C. 6A:14-2.3(e) and (f).

1. As part of the written notice, the parent shall be provided with a copy of the procedural safeguards statement published by the Department of Education.

2. As with any proposal to change the educational program or placement of a student with a disability, the parent may resolve a disagreement with the proposal to graduate the student by requesting mediation or a due process hearing prior to graduation.

3. In accordance with N.J.A.C. 6A:14-3.8(e) a reevaluation shall not be required.

APPENDIX D

34 C.F.R. §§300.519 to 529—Discipline Procedures (64 Fed. Reg. 12453-12455, March 12, 1999)

Discipline Procedures**§ 300.519 Change of placement for disciplinary removals.**

For purposes of removals of a child with a disability from the child's current educational placement under §§ 300.520–300.529, a change of placement occurs if—

(a) The removal is for more than 10 consecutive school days; or

(b) The child is subjected to a series of removals that constitute a pattern because they cumulate to more than 10 school days in a school year, and because of factors such as the length of each removal, the total amount of time the child is removed, and the proximity of the removals to one another.

(Authority: 20 U.S.C. 1415(k))

§ 300.520 Authority of school personnel.

(a) School personnel may order—

(1)(i) To the extent removal would be applied to children without disabilities, the removal of a child with a disability from the child's current placement for not more than 10 consecutive school days for any violation of school rules, and additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under § 300.519(b));

(ii) After a child with a disability has been removed from his or her current placement for more than 10 school days in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under § 300.121(d); and

(2) A change in placement of a child with a disability to an appropriate interim alternative educational setting for the same amount of time that a child without a disability would be subject to discipline, but for not more than 45 days, if—

(i) The child carries a weapon to school or to a school function under the jurisdiction of a State or a local educational agency; or

(ii) The child knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school or a school function under the jurisdiction of a State or local educational agency.

(b)(1) Either before or not later than 10 business days after either first removing the child for more than 10 school days in a school year or commencing a removal that constitutes a change of placement under § 300.519, including the action described in paragraph (a)(2) of this section—

(i) If the LEA did not conduct a functional behavioral assessment and implement a behavioral intervention plan for the child before the behavior that resulted in the removal described in paragraph (a) of this section, the agency shall convene an IEP meeting to develop an assessment plan.

(ii) If the child already has a behavioral intervention plan, the IEP team shall meet to review the plan and its implementation, and, modify the plan and its implementation as necessary, to address the behavior.

(2) As soon as practicable after developing the plan described in paragraph (b)(1)(i) of this section, and completing the assessments required by the plan, the LEA shall convene an IEP meeting to develop appropriate behavioral interventions to address that behavior and shall implement those interventions.

(c)(1) If subsequently, a child with a disability who has a behavioral intervention plan and who has been removed from the child's current educational placement for more than 10 school days in a school year is subjected to a removal that does not constitute a change of placement under § 300.519, the IEP team members shall review the behavioral intervention plan and its implementation to determine if modifications are necessary.

(2) If one or more of the team members believe that modifications are needed, the team shall meet to modify the plan and its implementation, to the extent the team determines necessary.

(d) For purposes of this section, the following definitions apply:

(1) *Controlled substance* means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

(2) *Illegal drug*—

(i) Means a controlled substance; but

(ii) Does not include a substance that is legally possessed or used under the supervision of a licensed health-care professional or that is legally possessed or used under any other authority under that Act or under any other provision of Federal law.

(3) *Weapon* has the meaning given the term "dangerous weapon" under paragraph (2) of the first subsection (g) of section 930 of title 18, United States Code.

(Authority: 20 U.S.C. 1415(k)(1), (10))

§ 300.521 Authority of hearing officer.

A hearing officer under section 615 of the Act may order a change in the placement of a child with a disability to

an appropriate interim alternative educational setting for not more than 45 days if the hearing officer, in an expedited due process hearing—

(a) Determines that the public agency has demonstrated by substantial evidence that maintaining the current placement of the child is substantially likely to result in injury to the child or to others;

(b) Considers the appropriateness of the child's current placement;

(c) Considers whether the public agency has made reasonable efforts to minimize the risk of harm in the child's current placement, including the use of supplementary aids and services; and

(d) Determines that the interim alternative educational setting that is proposed by school personnel who have consulted with the child's special education teacher, meets the requirements of § 300.522(b).

(e) As used in this section, the term *substantial evidence* means beyond a preponderance of the evidence.

§ 300.522 Determination of setting.

(a) *General.* The interim alternative educational setting referred to in § 300.520(a)(2) must be determined by the IEP team.

(b) *Additional requirements.* Any interim alternative educational setting in which a child is placed under §§ 300.520(a)(2) or 300.521 must—

(1) Be selected so as to enable the child to continue to progress in the general curriculum, although in another setting, and to continue to receive those services and modifications, including those described in the child's current IEP, that will enable the child to meet the goals set out in that IEP; and

(2) Include services and modifications to address the behavior described in §§ 300.520(a)(2) or 300.521, that are designed to prevent the behavior from recurring.

(Authority: 20 U.S.C. 1415(k)(3))

§ 300.523 Manifestation determination review.

(a) *General.* If an action is contemplated regarding behavior described in §§ 300.520(a)(2) or 300.521, or involving a removal that constitutes a change of placement under § 300.519 for a child with a disability who has engaged in other behavior that violated any rule or code of conduct of the LEA that applies to all children—

(1) Not later than the date on which the decision to take that action is made, the parents must be notified of that decision and provided the procedural

safeguards notice described in § 300.504; and

(2) Immediately, if possible, but in no case later than 10 school days after the date on which the decision to take that action is made, a review must be conducted of the relationship between the child's disability and the behavior subject to the disciplinary action.

(b) *Individuals to carry out review.* A review described in paragraph (a) of this section must be conducted by the IEP team and other qualified personnel in a meeting.

(c) *Conduct of review.* In carrying out a review described in paragraph (a) of this section, the IEP team and other qualified personnel may determine that the behavior of the child was not a manifestation of the child's disability only if the IEP team and other qualified personnel—

(1) First consider, in terms of the behavior subject to disciplinary action, all relevant information, including —

(i) Evaluation and diagnostic results, including the results or other relevant information supplied by the parents of the child;

(ii) Observations of the child; and
(iii) The child's IEP and placement; and

(2) Then determine that—

(i) In relationship to the behavior subject to disciplinary action, the child's IEP and placement were appropriate and the special education services, supplementary aids and services, and behavior intervention strategies were provided consistent with the child's IEP and placement;

(ii) The child's disability did not impair the ability of the child to understand the impact and consequences of the behavior subject to disciplinary action; and

(iii) The child's disability did not impair the ability of the child to control the behavior subject to disciplinary action.

(d) *Decision.* If the IEP team and other qualified personnel determine that any of the standards in paragraph (c)(2) of this section were not met, the behavior must be considered a manifestation of the child's disability.

(e) *Meeting.* The review described in paragraph (a) of this section may be conducted at the same IEP meeting that is convened under § 300.520(b).

(f) *Deficiencies in IEP or placement.* If, in the review in paragraphs (b) and (c) of this section, a public agency identifies deficiencies in the child's IEP or placement or in their implementation, it must take immediate steps to remedy those deficiencies.

(Authority: 20 U.S.C. 1415(k)(4))

§ 300.524 Determination that behavior was not manifestation of disability.

(a) *General.* If the result of the review described in § 300.523 is a determination, consistent with § 300.523(d), that the behavior of the child with a disability was not a manifestation of the child's disability, the relevant disciplinary procedures applicable to children without disabilities may be applied to the child in the same manner in which they would be applied to children without disabilities, except as provided in § 300.121(d).

(b) *Additional requirement.* If the public agency initiates disciplinary procedures applicable to all children, the agency shall ensure that the special education and disciplinary records of the child with a disability are transmitted for consideration by the person or persons making the final determination regarding the disciplinary action.

(c) *Child's status during due process proceedings.* Except as provided in § 300.526, § 300.514 applies if a parent requests a hearing to challenge a determination, made through the review described in § 300.523, that the behavior of the child was not a manifestation of the child's disability.

(Authority: 20 U.S.C. 1415(k)(5))

§ 300.525 Parent appeal.

(a) *General.* (1) If the child's parent disagrees with a determination that the child's behavior was not a manifestation of the child's disability or with any decision regarding placement under §§ 300.520–300.528, the parent may request a hearing.

(2) The State or local educational agency shall arrange for an expedited hearing in any case described in paragraph (a)(1) of this section if a hearing is requested by a parent.

(b) *Review of decision.* (1) In reviewing a decision with respect to the manifestation determination, the hearing officer shall determine whether the public agency has demonstrated that the child's behavior was not a manifestation of the child's disability consistent with the requirements of § 300.523(d).

(2) In reviewing a decision under § 300.520(a)(2) to place the child in an interim alternative educational setting, the hearing officer shall apply the standards in § 300.521.

§ 300.526 Placement during appeals.

(a) *General.* If a parent requests a hearing or an appeal regarding a disciplinary action described in § 300.520(a)(2) or 300.521 to challenge

the interim alternative educational setting or the manifestation determination, the child must remain in the interim alternative educational setting pending the decision of the hearing officer or until the expiration of the time period provided for in § 300.520(a)(2) or 300.521, whichever occurs first, unless the parent and the State, agency or local educational agency agree otherwise.

(b) *Current placement.* If a child is placed in an interim alternative educational setting pursuant to § 300.520(a)(2) or 300.521 and school personnel propose to change the child's placement after expiration of the interim alternative placement, during the pendency of any proceeding to challenge the proposed change in placement the child must remain in the current placement (the child's placement prior to the interim alternative educational setting), except as provided in paragraph (c) of this section.

(c) *Expedited hearing.* (1) If school personnel maintain that it is dangerous for the child to be in the current placement (placement prior to removal to the interim alternative education setting) during the pendency of the due process proceedings, the LEA may request an expedited due process hearing.

(2) In determining whether the child may be placed in the alternative educational setting or in another appropriate placement ordered by the hearing officer, the hearing officer shall apply the standards in § 300.521.

(3) A placement ordered pursuant to paragraph (c)(2) of this section may not be longer than 45 days.

(4) The procedure in paragraph (c) of this section may be repeated, as necessary.

(Authority: 20 U.S.C. 1415(k)(7))

§ 300.527 Protections for children not yet eligible for special education and related services.

(a) *General.* A child who has not been determined to be eligible for special education and related services under this part and who has engaged in behavior that violated any rule or code of conduct of the local educational agency, including any behavior described in §§ 300.520 or 300.521, may assert any of the protections provided for in this part if the LEA had knowledge (as determined in accordance with paragraph (b) of this section) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.

(b) *Basis of knowledge.* An LEA must be deemed to have knowledge that a child is a child with a disability if—

(1) The parent of the child has expressed concern in writing (or orally if the parent does not know how to write or has a disability that prevents a written statement) to personnel of the appropriate educational agency that the child is in need of special education and related services;

(2) The behavior or performance of the child demonstrates the need for these services, in accordance with § 300.7;

(3) The parent of the child has requested an evaluation of the child pursuant to §§ 300.530–300.536; or

(4) The teacher of the child, or other personnel of the local educational agency, has expressed concern about the behavior or performance of the child to the director of special education of the agency or to other personnel in accordance with the agency's established child find or special education referral system.

(c) *Exception.* A public agency would not be deemed to have knowledge under paragraph (b) of this section if, as a result of receiving the information specified in that paragraph, the agency—

(1) Either—

(i) Conducted an evaluation under §§ 300.530–300.536, and determined that the child was not a child with a disability under this part; or

(ii) Determined that an evaluation was not necessary; and

(2) Provided notice to the child's parents of its determination under paragraph (c)(1) of this section, consistent with § 300.503.

(d) *Conditions that apply if no basis of knowledge.* (1) *General.* If an LEA does not have knowledge that a child is a child with a disability (in accordance

with paragraphs (b) and (c) of this section) prior to taking disciplinary measures against the child, the child may be subjected to the same disciplinary measures as measures applied to children without disabilities who engaged in comparable behaviors consistent with paragraph (d)(2) of this section.

(2) *Limitations.* (i) If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under § 300.520 or 300.521, the evaluation must be conducted in an expedited manner.

(ii) Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.

(iii) If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the agency and information provided by the parents, the agency shall provide special education and related services in accordance with the provisions of this part, including the requirements of §§ 300.520–300.529 and section 612(a)(1)(A) of the Act.

(a) Expedited due process hearings under §§ 300.521–300.526 must—

(1) Meet the requirements of § 300.509, except that a State may provide that the time periods identified in §§ 300.509(a)(3) and § 300.509(b) for purposes of expedited due process hearings under §§ 300.521–300.526 are not less than two business days; and

(2) Be conducted by a due process hearing officer who satisfies the requirements of § 300.508.

(b)(1) Each State shall establish a timeline for expedited due process hearings that results in a written decision being mailed to the parties within 45 days of the public agency's receipt of the request for the hearing, without exceptions or extensions.

(2) The timeline established under paragraph (b)(1) of this section must be the same for hearings requested by parents or public agencies.

(c) A State may establish different procedural rules for expedited hearings under §§ 300.521–300.526 than it has established for due process hearings under § 300.507.

(d) The decisions on expedited due process hearings are appealable consistent with § 300.510.

(b)(1) An agency reporting a crime committed by a child with a disability shall ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom it reports the crime.
