AUDIT FINDINGS

NARRATIVE:

On October 21-22, 2014, an audit was conducted at the Adult Diagnostic Treatment Center to determine compliance with the Prison Rape Elimination Act standards finalized August 2012.

A complete tour of the facility was conducted on October 22, 2014. The following areas and operations were visited and observed: all inmate living areas including restrictive housing, medical operations, and facility operations (commissary, laundry, property room, and maintenance). Documents reviewed for this audit included policy, institutional supplement, contracts, staff training records, personnel files, housing log books, volunteer training records, sexual abuse & harassment complaints, and training curriculums.

Formal interviews were scheduled through random selection of staff and inmates from schedules and rosters provided by the staff prior to the audit. Interviews were conducted with the following: Administrator (warden), PREA compliance manager, one medical staff, the mental health lead psychologist, two additional psychologist, human resource manager, corrections officers and supervisors from each shift, the facility investigators (SID), thirteen inmates which included one who filed a complaint, two with limited English, one in restrictive housing, and two with physical challenges (wheelchair and hearing difficulties).

The agency commissioner was not interviewed as he participated in an interview at a previous PREA audit. It is very evident, however, that he clearly supports compliance with PREA and the requirements of the standard based on interviews with staff and processes implemented.

The auditor was allowed free access to all areas of the facility, had access to interview inmates selected randomly and intentionally, and to see any documentation requested. Posters were visible throughout the facility announcing the audit as well as how to contact the Ombudsman and the hotline.

Four letters were received from inmates. All were interviewed. Three were concerned about being moved in what they believed to be was for PREA reasons. One believed he was experiencing retaliation for filing a complaint in 2012. The issues were discussed with the facility administrator. After reviewing the concerns, the auditor found no issues with PREA standards.

DESCRIPTION OF FACILITY CHARACTERISTICS:

The Adult Diagnostic and Treatment Center (ADTC) currently houses 562 sex offenders who are involved in sex offender treatment, educational and vocational studies and hold numerous work positions within the institution. Thirty to thirty five professional staffs work at this facility to address this specific mission. There are four dormitory housing units and two wings dedicated to a therapeutic community with some dormitory bed and when earned, single cells.

The mission of the New Jersey Department of Corrections is to protect the public by operating safe, secure, and humane correctional facilities. The mission is realized through effective supervision, proper classification, appropriate treatment of offenders, and by providing services that promote successful reentry into society.

ADM.006.011 Investigations by SID, SID IMP #014 Sexual Offenses and SID IMP #035 Investigation Procedures addresses this standard. All elements are addressed in investigator training. As noted, the investigators are well trained, on-call to ensure immediate investigations and knowledgeable. They are trained to report facts, statements and provide evidence. They work directly with the prosecutor and are trained in the same manner as police, although some circumstances will initiate police involvement as well. They are actively involved and informed in all investigations within the correctional facilities. Investigations continue after a person has quit, and if substantiated, the department will proceed with termination. Preponderance of evidence determination is left with the prosecutor or person assigned to review the report in the cases of administrative investigations. Nine completed investigations were reviewed.
