ABOUT THE DEP BULLETIN

The DEP BULLETIN is an information service provided free of charge by the N.J. Department of Environmental Protection. It contains a list of construction permit applications filed with or acted upon by DEP. Interested persons will thus be able to determine the status of applications dealing with Waterfront Development permits, Wetland permits, Stream Encroachment permits, Sewerage Extension permits, and CAFRA permits (Coastal Area Facility Review Act). In addition the circular provides a calendar of Events and Interest and a Schedule of Public Hearings. (THE PUBLIC HEARINGS HOWEVER, ARE NOT OFFICIAL NOTICES.) Environmental Impact Statements acted upon during the week are also shown. Any additional information concerning the permits may be obtained by contacting the appropriate person listed below.

ENVIRONMENTAL IMPACT STATEMENTS

AND ASSESSMENTS.....Lawrence Schmidt.....(609) 292-2662

DIVISION OF COASTAL RESOURCES

For Coastal Permits (CAFRA, Wetlands and Waterfront Development) inquire according to location.

Waterfront Region.....Darryl Jennis.....(609) 292-8202
(Bergen, part of Burlington along the Delaware River, Camden, Essex, Gloucester, Hudson, Mercer, Middlesex and Union)

Northern Shore.....Philip Sandine.....(609) 292-0060
(Monmouth, Ocean, small segment of Burlington near Mullica River)

Southern Shore.....Karl Braun.....(609) 292-0061
(Atlantic, Cape May, Cumberland, Salem, Ocean, part of Burlington)

DIVISION OF WATER RESOURCES

STREAM ENCROACHMENT.....John O'Dowd.....(609) 292-2373

NEW JERSEY POLLUTION DISCHARGE ELIMINATION PERMITS (NJPDDES)

Permit Administration.....Ellen Radow.....(609) 292-5262

Printing and circulation of the DEP BULLETIN is handled through the Documents Distribution Center, Persons desiring to be included on the mailing list may call: (609) 292-9769 or write - Documents Distribution Center, CN 402, Trenton, N.J. 08625.

A UNIQUE SERVICE FOR NEW JERSEY INDUSTRY

.....USE THIS SERVICE FOR MAJOR PROJECTS.....

As Staff to Commissioner Borden R. Putnam of the Department of Commerce and Economic Development, the Office of Business Advocacy provides personalized assistance in resolving problems encountered when doing business in New Jersey. OBA's technical personnel function as industry ombudsmen in all areas of governmental activity.

The Office of Business Advocacy's objective is to cut red tape and get solutions to permit problems. OBA will designate a Permit Expediter to your project. The Permit Expediter will:

- A. Advise you of the state permits required for your project, upon completing "MASTER PERMIT INFORMATION APPLICATION FORM"
- B. Coordinate contacts with relevant local and state regulatory agencies upon request.
- C. Monitor the progress of your permit applications.
- D. Act to ensure processing of most permits within 90 days of application.
- E. Schedule "OVER THE COUNTER": processing for permits meeting appropriate criteria.

THE OFFICE OF BUSINESS ADVOCACY

Administrator.....Rocco Guerrieri, Ph.D
Permit Coordination Project Manager.....Paul Krane
State Permit Expeditors.....Samuel Mastrull, Jeffrey A. Horn,
Charles J. Coyle
Environmental Specialist.....John Serkies
Government Affairs Specialist.....Charles E. Connell, Jr.
Business Advocacy Specialists.....Joseph T. Grossi, James L. Waldron

PUBLIC NOTICE OF NJPDES INTERIM PERMITS
FOR DISCHARGES TO GROUNDWATER
(N.J.A.C. 7:14A-1.8(c))

The Department of Environmental Protection's Division of Water Resources is currently embarking upon an ambitious program to implement the New Jersey Water Pollution Control Act (hereinafter "State Act"). This statute is the principal water quality protection law in the State of New Jersey. It is the purpose of the State Act to protect water quality and thereby, insure protection of the public health and the environment.

The State Act is similar to the federal water pollution control laws. However, there is a major difference between the federal and state laws. The federal law only regulates discharge of pollutants to navigable waterways (i.e., streams, lakes and the ocean). The State Act regulates discharges of pollutants to the land and into the groundwater as well as discharges to surface water.

On April 13, 1982 the United States Environmental Protection Agency delegated its authority to administer the federal water pollution control permit system (NPDES) to the State of New Jersey. At that time, all federal surface water permits became state discharge permits (NJPDES). As there had been no federal permits issued for groundwater discharges, a comparable action was not taken for dischargers of pollutants onto the land or into the groundwaters. Therefore, under the State Act, in accordance with the schedules in the "New Jersey Pollutant Discharge Elimination System Permit" regulations, all such groundwater or land dischargers were required to obtain permits, by filing complete and extensive permit applications in accordance with Section 10.1 of the NJPDES regulations (N.J.A.C. 7:14A-1 et seq.). The Department finds that most persons required to submit NJPDES applications have failed to comply with the deadlines in Section 10.1.

Currently within the State of New Jersey, there are over 1,000 facilities which discharge pollutants onto the land or into the groundwater that do not hold any federal or state groundwater permits. These facilities are currently unregulated, and, therefore, unmonitored and uncontrolled. These unregulated facilities create a cause for concern since groundwater accounts for about half of the water supply used in New Jersey.

The Department has reviewed this situation and has further evaluated the comprehensive NJPDES discharge to groundwater program. The Department finds that it will be reasonable to implement the groundwater permit protection program in two steps, as described below. Since this action by the Department may be construed as a partial waiver of NJPDES requirements this Notice is published pursuant to Section 1.8(c). The Department will not institute this revised groundwater protection permit program for at least thirty (30) days from publication of this notice. Any comments concerning this notice may be sent to:

Ellen Radow, Chief
Office of Permits Administration
Division of Water Resources
CN-029
Trenton, New Jersey 08625

It should be noted, however, that the Department adopted a regulatory amendment to the NJPDES Regulations, (N.J.A.C. 7:14A-2.1), which became effective January 17, 1983 which provides for this two-step permit issuance process.

The first step in this revised program is the establishment of adequate monitoring through the issuance of groundwater monitoring permits (initial interim NJPDES Permits) to the numerous facilities in the state that are currently existing and discharging without the required permits. These permits will be issued based upon data currently available to the Department, where practical. Fees will be assessed for any person who is issued a NJPDES permit in accordance with N.J.A.C. 7:14A-1.8. Initial interim NJPDES permits should not be viewed as, nor are they intended to be, long-term approvals for activities being conducted which result in unacceptable impacts on the environment. New facilities will be required to obtain a complete NJPDES permit at the outset.

The data generated through the initial interim NJPDES groundwater monitoring permits will be used to evaluate the current status and impact of existing facilities on groundwater quality and will allow the Department to determine the priority and intensity of the future permitting effort regarding the compliance of each of these facilities within the intent of the State Act. Simultaneously, it will give the Department adequate information to determine if there is any potential threat to public health or safety or damage to the environment due to current practices. Most of these interim permits will be issued for one (1) to three (3) years. Some permits may be issued for shorter or longer periods. The Department will review existing data and information in its files, the files of the USEPA, and any other available data to determine if the information contained therein is adequate to issue the initial interim NJPDES/DGW permits. The Department will evaluate any other applications which have been filed with the state or federal government which contain water related information. If additional information is necessary for the permit review, the Department will request this from the applicants. This information may have been previously required under N.J.A.C. 7:14-A10.1 et seq.

As a secondary benefit, this initial interim permitting procedure will relieve some of the regulatory burden for permittees who had previously submitted data to the Department. Where the Department is able to issue an interim NJPDES permit, the permittee will not, in most cases, have to submit a full permit application for at least one (1) year, unless existing conditions cause the Department to require earlier submission in accordance with N.J.A.C. 7:14A-10.1(h). The Department intends to phase-in some permit requirements, including any necessary remedial action, based upon monitoring data submitted as a result of the initial interim NJPDES/DGW permits.

In summary, this initial interim NJPDES permit is intended to assist in the phase-in of the groundwater regulatory program and is not intended to waive or reduce any requirements or liability which have been established pursuant to NJPDES Regulations or the Water Pollution Control Act. It is the responsibility of all NJPDES permit applicants to submit the information required pursuant to the regulations which were adopted March 6, 1981. After the interim NJPDES permit has been issued, and adequate groundwater monitoring data collected, the Department will process a final NJPDES permit.

GENERAL INFORMATION

I. STREAM ENCROACHMENT (609) 292-4869

DEP now has a one-day processing service for certain minor stream encroachment permits. This "over-the-counter" service is limited to minor projects which do not adversely change the water carrying capacity of the floodway, do not increase erosion or sedimentation in the stream, and do not require substantial channel modification or relocation. For further information contact the Bureau of Flood Plain Management, CN 029, Trenton, NJ 08625.

II. SEWER EXTENSIONS (609) 292-3846

DEP has a one-day processing service for "minor" sewer extension projects. Eligible projects must meet certain criteria, such as, length of 1000 linear feet or less, cost of \$25,000 or less, sewage flow per day of 12,000 gallons or less. No projects with pump stations, force mains, siphons, gallorage transfers or holding tanks will be processed over-the-counter. Projects can not be located in areas under sewer bans, administrative orders, or litigation.

Projects must be in-house by 9:30 a.m., and all administrative documents must be in proper order. Pre-application conferences are strongly recommended. For further information contact Division of Water Resources, CN 029, Trenton, NJ 08625.

MASTER PERMIT INFORMATION APPLICATION

DEP has developed a Master Permit Information Application which, upon completion, will indicate all the DEP permits required for the project. Forms may be obtained by contacting the Office of Business Advocacy (See inside cover for details).

DEP PUBLIC HEARINGS, ADMINISTRATIVE HEARINGS, AND DEP EVENTS OF PUBLIC INTEREST

Public Hearings (Quasi-Legislative) are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest.

Administrative Hearings (Quasi-Judicial) are held between the state and a particular party involving an application, enforcement - violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

GLOSSARY OF ABBREVIATED TERMS

RIP.....	WATERFRONT DEVELOPMENT	COLL. SYS.....	COLLECTION SYSTEM
S. ENCR.....	STREAM ENCROACHMENT	ADD. & ALT.....	ADDITIONS AND ALTERATIONS
SEW. EXT.....	SEWER EXTENSION	CAFRA.....	COASTAL AREA FACILITY REVIEW ACT
