NEW JERSEY HOUSING FINANCE AGENCY

Proposed Amendments on the Conversion of Nonprofit Sponsored Projects to Limited Dividend Ownership

The New Jersey Housing Finance Agency, pursuant to authority of N.J.S.A. 55:14J-34(f), proposes to delete the current text of N.J.A.C. 5:80-2.1 et seq. and adopt new text therein concerning the conversion of nonprofit sponsored projects to limited dividend ownership.

Full text of the proposed new rules follows:

SUBCHAPTER 2. CONVERSION OF NONPROFIT SPONSORED PROJECTS TO LIMITED DIVIDEND OWNERSHIP

5:80-2.1 Reasons for permitting conversion

(a) The New Jersey Housing Finance Agency will approve conversion of nonprofit sponsored projects because such conversion benefits the project in the following manner:

1. A conversion will provide additional reserves that will further protect the project's financial stability. Some specific concerns are accelerating energy costs and the uncertainty of the availability of future funds for rent increases under the Federal Section 8 Program.

2. A conversion provides additional security to our bonds and mortgage loans, thereby making our portfolio more attractive.

3. A conversion increases the livability of the project for the tenants by providing funds otherwise unavailable for additional physical improvements that will reduce operating costs and for amenities that will enhance the project environment.

4. A conversion will provide additional social services for tenants, such as visiting nurses, recreational activities, etc.

5. A conversion permits community development activities.

5:80-2.2 Choice of syndicator and counsel

Nonprofit sponsors (developers) who intend to convert their projects must interview several syndicators and evaluate their proposals with the advice of counsel. Counsel for the nonprofit sponsor shall not be permitted to

represent any other parties involved in the transaction in any manner whatsoever.

5:80-2.3 Nonprofit sponsor as managing general partner

The nonprofit sponsor must remain on the project as the managing general partner.

5:80-2.4 Interest on seed money loan

The conversion agreement must contain a provision for interest payment to the Department of Community Affairs on seed money originally loaned to the nonprofit sponsor. The interest shall be determined at the rate of one percent over prime and shall be paid to the Department of Community Affairs at the time of the first payment of syndication proceeds to the sponsor.

5:80-2.5 Fees; legal and financial services

No member of the non-profit sponsor, its employees or professional advisors, including loan consultants and attorneys, shall receive any fees payable from syndication proceeds other than those disclosed to and approved by the New Jersey Housing Finance Agency. The sponsor shall obtain the legal and financial services that are necessary to protect the project's interest.

5:80-2.6 Proceeds of syndication

(a) The syndicator, in its proposals, shall submit a schedule of the source and use of the gross capital contributions of the syndication, covering items such as net proceeds to sponsor, net proceeds to syndicator, legal fees, accounting fees, etc. The syndication proceeds and all income from the investment of those proceeds received by the sponsor shall be paid to the New Jersey Housing Finance Agency as trustee for the sponsor and the use of these funds must be approved by the Executive Director of the Housing Finance Agency.

(b) The syndicator shall provide cash or irrevocable letters of credit covering at least 30 per cent of the capital contributions as security for future payments.

(c) The sponsor shall receive a minimum of 70 per cent of the gross capital contributions raised by the partnership from the limited partners. The sponsor's portion of the gross capital contributions shall be applied as follows:

1. Ten per cent of the net proceeds received by the sponsor, up to a maximum of \$100,000, shall be placed in a New Jersey Housing Finance Agency portfolio reserve account for the general security of the outstanding loans on all outstanding Agency projects. In the case of projects located in the urban aid communities of the state as defined by the legislature (currently 31), a maximum of \$25,000 shall be placed in this portfolio. Funds in this account shall be used for payment of debt service and any operating deficits which, in the opinion of the New Jersey Housing Finance Agency, cannot be adequately funded from normal income of the project. A prerequisite for use of these funds by any given project shall be a staff finding that the sponsor and the managing agent for the troubled project are performing their duties in a satisfactory fashion. In addition, staff shall determine the use of these funds for the project.

2. There shall be created a development cost escrow (hereinafter "DCE") amounting to at least 60 per cent of the proceeds received by the sponsor less the amount placed in the portfolio reserve account pursuant to N.J.A.C. 5:80-2.6(c)1. This DCE shall be used as a reserve to fund debt service and operating deficits of the project to the extent such deficits are not covered by funds otherwise available. Any other uses must be requested by the sponsor and approved by the Executive Director.

3. There shall be created a community development

escrow (hereinafter "CDE") comprising the remainder of the proceeds, less conversion costs (i.e., attorney's fees, accounting fees and title insurance endorsement) of the sponsor. These funds shall be utilized by the sponsor to increase the amenities of the project and reduce maintenance and replacement costs, provide desirable social services, and to permit additional community development. The outline of the intended uses of these funds must be submitted for approval to the Executive Director prior to syndication.

(d) The New Jersey Housing Finance Agency shall receive a conversion fee of 1/2 of one per cent of the original mortgage amount, or \$50,000 whichever is less, plus a yearly servicing fee of \$2,500 to be paid from interest earned on the sponsor's trust accounts which contain the syndication proceeds. The Agency shall provide the general partners with a semi-annual accounting of the trust accounts.

5:80-2.7 Investment income

(a) The investment income earned on the DCE and CDE funds is to be distributed as follows:

1. The first \$2,500 per annum to the New Jersey Housing Finance Agency as servicing fee (N.J.A.C. 5:80-2.6(d)).

2. The limited partners and general partners shall be paid an amount which, when combined with the net cash flow from the normal operations of the project, provide a maximum of two per cent return per annum on the stated equity as established by the Agency.

3. Any residual funds shall remain in the trust accounts.

5:80-2.8 Notice to municipality

Prior to conversion, the non-profit sponsor shall give the local municipality 30 day's notice of its intention to convert to a limited dividend partnership.

5:80-2.9 Sales tax

Provisions shall be made for the payment of the New Jersey Sales Tax.

5:80-2.10 Profits upon sale or refinancing

The profits received by the partnership upon the sale or refinancing of the project, not subject to payment to the State of New Jersey pursuant to N.J.S.A. 55:16-5, after repayment of the original capital contributions received by the sponsor, shall be distributed 45 per cent to the general partners, 45 per cent to the limited partners, and 10 per cent to the HFA.

5:80-2.11 Termination of mortgage

At the termination of the mortgage, funds remaining in any of the escrow accounts shall be distributed 45 per cent to the general partners, 45 per cent to the limited partners, and 10 per cent to the New Jersey Housing Finance Agency.

5:80-2.12 Loan consultants' fee

The loan consultants' fee paid by the nonprofit sponsor at the time of project closing shall be repaid and shall become part of the development cost escrow.

5:80-2.13 Agency determination

Prior to any conversion, the New Jersey Housing Finance Agency shall make a determination that the syndication proceeds are a necessary part of the project and constitute an essential portion of the total project cost. It shall also determine that the mortgage loan does not exceed 90 per cent of the total project cost.

PINELANDS PLANNING COMMISSION

Proposed Standards for Review And Certification of Applications For Development or Construction

CHAPTER 1G. PINELANDS PLANNING COMMISSION

SUBCHAPTER 1. INTERIM STANDARDS FOR REVIEW AND CERTIFICATION OF APPLICA- TIONS FOR DEVELOPMENT OR CONSTRUCTION UNDER EXECU- TIVE ORDER # 71

7:1G-1.1 General provisions

(a) Until the enactment of State legislation which is consistent with Executive Order #71, or the approval by the Secretary of Interior of the comprehensive management plan for the Pinelands as set forth in the federal act, or eighteen months from the date of the Order, whichever is earlier, State approvals related to development and construction in the Pinelands National Reserve area as supplemented by the Pinelands Review Committee, will require prior approval by the Pinelands Planning Commission and must be responsive to the needs to strictly control development of the Pinelands while planning required by Federal law is underway.

(b) No state department or agency shall take final action on any grant, permit, certificate, license or other approval for any development or construction within the Pinelands National Reserve as supplemented by the Pinelands Review Committee and described in Executive Order #71 until the application has been reviewed and certified as approved by the Development Review Board or the Executive Director. Actions of the Review Board or the Executive Director may be appealed to the full Commission by the applicant, a commissioner or a member of the public with standing. If the Commission decides to hear the appeal, approval may be granted only on absolute 2/3 votes of the Commission.

(c) In granting such certifications particular attention will be paid to the cumulative effects of approvals and to their direct or indirect impact on the natural resources of the Pinelands.

(d) In order to coordinate the Commission approvals with local and county police power and planning responsibilities, preliminary local and county action will be required before an application will be accepted for review.

(e) Compliance with the "no substantial impairment" sections of the Executive Order will be required in all cases. All reviews will give detailed consideration to: the degrading effects of storm water runoff; maintenance of air quality; protection of threatened and endangered plant and wildlife habitat; hazards of flood and fire; protection of aesthetic interests and value of critical and sensitive areas, cultural and recreational sites; and the preservation of ground and surface waters; and the protection of

headwaters of all streams flowing within the Pinelands. The goal of these criterias is to prevent substantial impairment of the natural resources of the Pinelands. Approvals may be conditioned to prevent such impairment by an otherwise eligible application.

7:1G-1.2 Certification in Pinelands preservation area

Certifications for approval of development or construction will require a demonstration that there exists a compelling public need or that denial of an approval would result in extraordinary hardships. Such certifications must be consistent with the goals and objectives of Executive Order #71 and prevent substantial impairment of the natural resources of the Pinelands.

7:1G-1.3 Certification in Pinelands protection area

Certifications of approval for development or construction will require a demonstration that there exists a compelling public need or a denial would result in extreme hardship or the proposal is consistent with the goals and objectives of Executive Order #71 and the federal legislation. All such approvals must meet all conditions deemed necessary to prevent substantial impairment of the natural resources of the Pinelands.

7:1G-1.4 Certification in CAFRA zone

Applicants which are currently undergoing the CAFRA permit review process will continue to do so unimpeded. Those projects which are in the CAFRA Zone which overlaps the Pinelands National Reserve Area outlined in Executive Order #71 and which are subject to the CAFRA review process are exempted from review by the Pinelands Planning Commission. The exception to this exemption category in the Executive Order is the portion of the CAFRA area which lies west of the Garden State Parkway in the Mullica River Watershed portion of the preservation area. All applications for state permits in this area are subject to the review process as established by the board.

7:1G-1.5 Demonstration of compelling public need

(a) Rules on demonstration of compelling public need are:

1. Letter from appropriate local county, and state agencies that the public health, safety and welfare requires construction prior to completion of the Pinelands Management Plan; and
2. Demonstration that public benefits outweigh public losses; and
3. Discussion of alternative means of meeting this public need, until the plan is completed.

7:1G-1.6 Proof of extraordinary hardships

(a) Rules on proof of extraordinary hardships are:

1. Evidence that a substantial and irretrievable commitment of monies or resources directly associated with physical improvements to the land were made in good faith reliance on local approval received prior to February 8, 1979; or
2. Evidence that in good faith reliance on local approval received before February 8, 1979 the applicant incurred financial obligations to a lending institution which, despite a thorough review of alternative solutions, the applicant cannot meet unless construction proceeds; or
3. Evidence that the applicant is an individual who purchased a single lot or group of adjacent lots prior to February 8, 1979 for the purpose of constructing one single family dwelling for use of his or her family as its principal residence and delay in construction will result in a significant financial detriment to the applicant; or
4. Evidence that the applicant, for reasons of health or

safety must develop on property owned by the applicant prior to February 8, 1979.

5. Each applicant must include a discussion of possible means to alleviate the hardships during the planning period.

7:1G-1.7 General requirements

(a) Rules on general requirements are:

1. Copies of minutes, filed maps or letters of approval of local boards showing that applicable local and county preliminary subdivision or site plan approvals have been granted.

2. An objective analysis of alternatives in both design and land use to the proposed action which, if carried out, would avoid some or all of the adverse environmental effects of the project.

3. A list of local, county, state, and federal grant, permit, certificate, license, loan, and other approvals required to conform to all applicable state and federal regulations.

7:1G-1.8 Consistency and avoidance of substantial impairment

Certification of approval in any case will only be granted if the Commission is satisfied that the proposal poses no threat of substantial impairment to the Pinelands ecology. In cases of hardship, proof will be developed by the staff. In all other cases, the burden of proof lies with the applicant.

7:1G-1.9 Land use consideration

(a) Prior to the completion of the plan, construction and development will not be approved for applications which fall in the following categories:

1. Sites with seasonal high water tables less than five feet below the natural grade level, unless the project is not dependent on on-site waste disposal, in which case water table depths of 3-5 feet will be considered if all other conditions are met.

2. Sites which are dependent on on-site waste disposal systems where percolation tests conducted in accordance with Title 199 indicate a percolation rate of under 10 minutes to the inch.

3. Sites the development of which would, in the Commission's opinion, generate a need for off-tract improvements such as street improvements, water systems, sewerage, drainage facilities and other utilities.

4. Sites which the staff determines are in the process of appraisal for acquisition by local, county, state and federal agencies.

5. Sites which lie within 1,000 feet of the center line of a nominated or designated national or state wild or scenic river, or rivers listed on the final list of potential national wild and scenic rivers.

6. Sites where it can be verified to the Commission contain unique habitats which are essential to the protection of the Pinelands ecosystem or which harbor endangered or threatened plant and animal species, or registered "specimen trees" as approved by the Division of Fish, Game and Shellfisheries.

7. Sites which contain bogs, swamps, especially Atlantic white cedar stands, and other wetland types as defined by poorly drained, very poorly drained and alluvium soils as delineated by SCS Soil Maps, vegetative maps or other more site specific data, as well as areas within 300 feet of these wetlands.

8. Sites and structures where it can be verified to the Commission are included in or eligible for inclusion in state or national registers of historic places or determined by the State Historical Preservation Office to be potentially eligible on the register.

9. Sites where it can be verified to the Commission are registered Natural Landmarks or areas recognized by the Department of Interior as potential natural landmarks.

10. Sites where residents health and safety will be threatened by forest fire or smoke or where the implementation of the proposed action will curtail the use of fire in the maintenance of the Pinelands ecology as referenced by the Bureau of Forestry.

7:1G-1.10 Criteria for adequate design

(a) Where applicable, the applicant must demonstrate that, both during and after construction, the proposed action either directly or indirectly:

1. Will prevent increases in on-site or downstream flood flow velocities and volume from storm water runoff. SCS standards should be utilized in making these determinations.

*2. Will utilize best management practices to avoid impacts on ground and surface water quality of pollution from point and nonpoint sources.

*3. Will not, insofar as practicable, transfer potable or wastewater across primary or subwatershed lines, except in cases of agricultural use.

4. Will not reduce natural floodwater storage capacity of floodplains, bogs, swamps and other wetlands (see page 3).

5. Will not divert the flow of streams and natural drainage areas, except in cases of agricultural uses.

*6. Will conform to all applicable state and federal regulations on air quality including, but not limited to the New Jersey State Implementation Plan and the Federal Clean Air Act as amended.

7. Consistency with Executive Order #71 requires that a variety of design techniques be utilized to maintain the scenic, aesthetic and cultural resources of the Pinelands. During the planning period the Commission will encourage applicants to incorporate these and other design factors in their final plans:

i. Criteria for adequate design:

(1.) Utility lines placed in existing vegetative cuts or underground;

(2.) Indigenous vegetation used to visually obscure development or construction from public roadways;

(3.) Limited removal of existing vegetation;

(4.) Limited selective pruning and removal of dead trees;

(5.) Limitations on present and future use of fertilizers, pesticides, herbicides, road salts, etc.;

(6.) Appropriate visual and vegetative buffering of stream corridors, wealands and main roadways through the use of indigenous vegetation;

(7.) Protection of areas recognized as wildlife corridors and necessary to the movement of wildlife through the site to adjacent habitats and open space areas.

*The applicant for single family units in subdivisions of five units or less will not be required to demonstrate.

Interested persons may present statements or arguments in writing relevant to the proposed standards on or before July 27, 1979 to:

THE COMMISSIONER

Proposed Amendments Concerning the Green Acres Tax Exemption Program

Daniel J. O'Hern, Commissioner of the Department of Environmental Protection, pursuant to the authority of N.J.S.A. 54:4-3.63 et seq., proposes to amend certain rules concerning the administration of the "Green Acres" Tax Exemption Program. This proposal is known within the department as Docket No. DEP 033-79-06.

The proposed rules: (1) amend the definition of eligible organizations, (2) establish standards for excluding ineligible improvements and land from approvals, (3) establish a standard for consolidation of recertification applications, (4) amend the landowners liability rule, and (5) establish standards for sign posting on approved sites.

Full text of the new and amended rules follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

7:35-1.3 Eligible organizations

Any non-profit organization who qualifies for exemption from Federal Income Tax under Section 501 (c)(3) of the Internal Revenue Code of 1954 or its predecessor and who owns natural open space land in the State of New

Jersey is eligible to make application under this program[,] unless the Charter of such organization or corporation specifically or by implication prohibits them from carrying out the purposes for which the exemption is granted.

7:35-1.4(a)6. Improvements on the subject real property which are not exclusively used for public recreation and/or conservation purposes will be excluded from the exempt area along with five (5) acres of land as a buffer, unless natural or man made boundaries demonstrate that a smaller area serves as an appropriate buffer, for each excluded improvement.

7:35-1.5(g) Recertifications will be scheduled to include all approved land comprising one site. If sections of the site are approved for exemption during separate years, a consolidation will permit one recertification for the entire site every three years.

7:35-1.7 Landowners liability [Save harmless liability]

[The non-profit organization, its servants, licensees, agents or invitees shall accept all liability arising out of the use of the certified property.]

By the issuance of a certification of tax exemption the State of New Jersey assumes no liability for any claim or action which may in any manner arise from the use of the certified premises by the non-profit organization, its servants, licensees, agents or invitees, express or implied.

7:35-1.9 Sign posting

(a) Signs are to be conspicuously posted at the point(s) of access indicating that the site has been granted a tax exemption for public open space purposes.

1. DEP will provide the property owner with a permanent site sign noting the public interest in the site.

2. Signs indicating the accessibility of the facility to the handicapped (if applicable) are available from DEP.

3. The property owner will be responsible for erecting and maintaining the site signs.

(b) The property owner is responsible for placement of signs identifying activities, facilities and services provided at the site.

1. Credits for donations are acceptable.

2. The property owner is encouraged to use the uniform

2. The property owner is encouraged to use the "uniform international" sign system.

(c) Commercial billboard advertising of a permanent nature promoting products or services available elsewhere will not be permitted.

(d) Political campaign signs will not be permitted on the site.

The Green Acres Tax Exemption Program provides real property tax exemptions to certain non-profit organizations who own recreation/conservation land in New Jersey and choose to open that land for public use and enjoyment.

Public comments (solicited in the Register, Feb. 1, 1979) were used along with staff recommendations to identify areas of concern within the existing rules.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before June 27, 1979 to:

Proposed Rules Concerning the New Jersey Wild and Scenic River System

Betty Wilson, Deputy Commissioner of the Department of Environmental Protection, pursuant to the authority of N.J.S.A. 13:8-45 et seq., proposes to adopt new rules to be cited as N.J.A.C. 7:39-1.1 et seq., concerning the administration and regulation of wild, scenic, recreational and developed recreational rivers.

The proposed rules: (1) establish criteria for the administration of designated river areas, and (2) establish minimum standards for the regulation of designated river areas and classifications. These rules apply to lands of the State and other public governing bodies and privately owned properties which may lie within a designated river area. Designated lands and waters may include lands immediately adjacent to rivers which have been delineated by the Department as a floodway, flood fringe or flood hazard area as well as any additional lands in which the Department has or acquires a fee simple interest or an easement.

The rules herein proposed are based on the previously proposed "Rules Concerning the Designation and Administration of Wild, Scenic, Recreational and Developed Recreational Rivers." Public hearings on those rules, held November 29, 1978 at Stockton State College and November 30, 1978 at Parsippany High School, and written comments received thereafter, raised the following major issues:

- 1) assurance of protection of agricultural uses as prescribed by the Wild and Scenic Rivers Act;
- 2) recognition of minor technical use violations through a variance, where not affecting classification;
- 3) recognition of other regional and statewide interests which may conflict with the Wild and Scenic Rivers System, especially public utilities and their transmission lines, and the need to provide a means for reviews and variance, where possible;
- 4) formation and responsibilities of local river commissions, emphasizing the desirability of joint river commissions and the availability of existing councils, association and commissions to serve as local river commissions;
- 5) noise as a major factor in the protection of areas classified wild or scenic; and
- 6) simplification of the rules to reflect only essential administrative and regulatory elements, rather than including elements such as study and classification guidelines.

Issues raised and comments received have been reviewed by a 37 member citizen task force. The rules herein proposed are the result of public comment and the considerations of the task force.

Copies of the proposed rules may be obtained and written comments submitted by contacting:

Mr. Curt J. Hubert, Administrator
The Green Acres Program
Department of Environmental Protection
P.O. Box 1390
Trenton, New Jersey 08625

Comments shall be accepted until July 25, 1979.

The Department may thereafter adopt these rules substantially as proposed upon notice to the New Jersey Legislature, to be effective 60 days following such notice.

Delete text of N.J.A.C. 9:2-2.7 and insert new language as follows:

9:2-2.7 Qualifications for rank

(a) Regarding faculty: The academic attainment level and professional experience requirements for college faculty academic rank are set forth below. Conditions concerning promotion or appointment to such rank are defined in section 9 of this chapter.

1. Instructor: An earned master's degree or its equivalent from an accredited institution in an appropriate field of study and enrollment in and actively pursuing an accredited terminal degree program in an appropriate field of study.

2. Assistant Professor: An earned doctorate or other appropriate terminal degree or its equivalent from an accredited institution in an appropriate field of study or completion of all requirements for the doctorate in an accredited institution except the dissertation.

3. Associate Professor: An earned doctorate or other appropriate terminal degree from an accredited institution in an appropriate field of study and five (5) years of professional experience.

4. Professor: An earned doctorate or other appropriate terminal degree from an accredited institution in an appropriate field of study and eight (8) year of professional experience.

5. Distinguished Professor: As established by the Board of Trustees of each college, this rank is intended to provide for the individual who has demonstrated outstanding scholarship, teaching ability, or distinction in a field.

6. The Board of Higher Education recognizes that individuals may present qualifications as to education and experience that their peers will recommend to be the equivalent of the above qualifications although not corresponding to them to the letter. The requirement of an earned doctorate or other appropriate terminal degree or its equivalent for promotion to the rank of Associate Professor shall not apply to faculty members employed in the colleges prior to September 1, 1968. The requirement

of an earned doctorate or other appropriate terminal degree or its equivalent for promotion to the rank of Assistant Professor shall not apply to faculty members employed in the colleges prior to February 22, 1974, nor shall such requirement apply to reappointment of such employees except for a reappointment conferring tenure. This in no way implies that such affected faculty members will be promoted or reappointed automatically, nor does it place them at the top of any eligibility listing.

(b) Rules concerning librarians are:

1. Librarian III - A master's degree in Library Science or its historical antecedent from a then ALA accredited library school. Previous professional library experience is desirable, but not required.

2. Librarian II - A master's degree in Library Science or its historical antecedent from a then ALA accredited library school and three (3) years professional library experience. A minimum of five (5) additional years' professional library experience may be considered in substitution for the second master's degree or ABD status in an approved doctoral program depending upon the quality of the experience. Demonstrated and/or potential administrative and coordinating ability.

4. The requirement for a master's degree in Library Science or its historical antecedent from a then ALA accredited library school may be met by substituting a master's degree in a related field relevant to an individual's duties. The Library Personnel Committee, where appropriate may consider and make recommendations on whether such other master's degrees should be so substituted.

(a) members of the professional staff not holding faculty rank may be appointed for one-year terms concurrent either with the calendar or academic years, provided, however, that after employment in a college for five consecutive calendar or academic years, such employees shall be eligible for multiyear contracts [from two to five full calendar years in length]. Each initial appointment to a multiyear contract (after completion of five years of probationary service) shall be for three (3) full calendar years in length. Eligible professional staff members whose initial appointment is from April 1 through September 30 may be given a term from the date of appointment to June 30, following September 30, and this appointment shall be considered as one full academic year of service for the purpose of these regulations.

(c) Eligible professional staff members serving a term which is concurrent with the academic year must be notified by the president no later than December 15 in their fifth full academic year of service of their reappointment or nonreappointment to a contract of from two to five full academic years in length. Eligible professional staff members serving a term which is concurrent with the calendar year must be notified by the president no later than July 15 in their fifth full calendar year of service of their reappointment or nonreappointment to a contract of from two to five full calendar years in length. An offer of a multiyear contract shall be made on a form prescribed by the Chancellor of Higher Education.

(d) Notwithstanding subsection (a) of this section, professional staff members serving under a multiyear contract who are promoted in title shall, at minimum, serve one year in his/her new position before becoming eligible for consideration of a multiyear contract in that new position.

(e) Professional staff members serving under a multi-year contract may be assigned by the president to any professional position within their area of competence and qualifications during the term of the contract, but their salary may not be reduced during the duration of the

(f) Prior to the implementation of these guidelines, the board of each college shall establish a formal procedure for considering and approving the offering of multiyear contracts [and for determining whether the length of such contracts shall be two, three, four, or five years]. [(g) This section shall take effect no later than April 1, 1977.]

The material contained at 9:6-1.3 "Career Development" is deleted. The former 9:6-1.3 is marked reserved.

9:3-1.4 Career development

(a) The following criteria shall be used for the purposes of the evaluation of professional staff mandated by N.J.S. 18A:60-10.

1. Teaching effectiveness.

2. Effectiveness of performance of other assigned duties and responsibilities.

3. Scholarly achievement.

4. Contributions to college and community.

5. Effectiveness of performance of other responsibilities.

6. Changing institutional needs do not constitute personal professional deficiencies.

9:3-2.14 Criteria; merit award recipients

(a) The Merit Award Program is intended to recognize outstanding professional contributions of members of the faculty, librarians and non-teaching professionals.

(b) The College's promotional procedure constitutes the normal method of recognizing highly satisfactory performance of general professional responsibilities over a period of years. The Merit Award presumes that eligible candidates have demonstrated at least satisfactory performance in all areas of professional responsibility and, in addition, during the two years immediately preceding the award, have made one or more outstanding professional contributions that confers distinction upon the individual and upon the College.

(c) Regarding faculty, the Merit Award is intended to recognize at least satisfactory performance in all areas of responsibility and one or more noteworthy professional contributions. Meritorious contribution(s) may be in one or more of the following areas:

1. Teaching;

2. Scholarly/Creative Activity; Research;

3. Professional Activity;

4. Service to the College.

5. Since teaching is the primary mission of the State Colleges, outstanding performance as a teacher is the primary focus for Merit Award consideration. Examples of meritorious achievements in teaching could include a teacher who has had great influence on his/her students, has made a significant contribution to the improvement of teaching in his/her Department or the College or has otherwise notably enhanced the teaching activity of the institution.

6. With regard to scholarly/creative activity and research, outstanding contribution(s) should be verified by

recognized authorities in the appropriate field and the significant impact of these accomplishments upon the candidate's field or discipline clearly indicated.

7. Significant success in professional activity would normally require that a person have served in a key role with policy implications in the major professional organization in his/her field and have been instrumental in the formulation and implementation of major decisions which affect the discipline.

8. Service to the College could include the chairmanship of a key committee whose work resulted in critical changes or improvement in major college programs; the development of an outstanding course or program which enables the institution to answer an important need of the public or student body or which enhances the Department.

(b) Regarding non-teaching professionals, the Merit Award is intended to recognize at least satisfactory performance in all areas of responsibility appropriate to an individual's assignment and one or more noteworthy professional contributions which confers distinction upon the individual and upon the College. Noteworthy contribution(s) may be in one or more of the following areas:

1. Service to the College

2. Professional Activity.

3. Since the non-teaching professional's primary responsibilities are to provide academic and administrative support services, a meritorious service to the college that extends beyond the satisfactory performance of assigned professional responsibilities is the primary criterion for Merit Award consideration. Noteworthy contributions could include more effective delivery of academic and administrative services; initiation of more cost-effective techniques within an office unit, division or within the college generally; chairmanship of a key committee whose work resulted in critical changes or improvements in major college programs or services; enhancement of the college's relationships with the general public; initiation and implementation of a noteworthy grant funded activity.

4. With regard to Professional Activity, a significant contribution(s) made by an individual in meeting professional responsibilities beyond the campus could be cited for Merit Award consideration. Noteworthy contributions of professional activity could include serving in a leadership role with policy implications in the major professional organization in an individual's field; making a significant and identifiable contribution to system-wide committees established by the higher education community that deal with issues falling within the individual's areas of professional expertise; pursuing advanced study, the results of which have a significant impact on the individual's field that extend beyond his/her regular professional responsibilities.

9:2-2.12 Limitations for professional classification

(a) Not more than 30 per cent of a teaching faculty at any college shall be professors and distinguished service professors.

(b) Not more than [50] 55 per cent of a teaching faculty at any college shall be professors and associate professors.

(c) Subsections (a) and (b) of this section should not be interpreted as providing quotas for any department of other division within a college.

Interested persons may present statements or arguments in writing relevant to the proposed action on or before July 25th to:

Full text of the proposal follows (additions indicated in boldface thus):

9:7-2.10 Verification of enrollment and Academic Performance

Before payment may be made to an eligible student, the Department of Higher Education must receive certification from the college that the student is an enrolled full-time undergraduate as of the end of the college's period for changing course load without penalty and that the student is meeting the minimum standards for academic performance at the institution. Each institution must provide copies of its minimum standards for academic performance and satisfactory academic progress to the Department of Higher Education at the beginning of each academic year.

9:7-4.1 Eligibility requirements

Undergraduate Garden State Scholars must meet minimum academic requirements as defined below, demonstrate financial need as defined herein, and be selected by the institution they attend or plan to attend. In addition to the financial need determination explained in section 2.4 of this chapter, undergraduates must have an estimated family contribution of cost of attendance minus the amount of the scholarship or \$3300, whichever is less, to qualify for a monetary award. The family contribution level will be reviewed annually thereafter. Garden State Scholarship recipients who transfer to another eligible New Jersey institution may transfer their Garden State Scholarship eligibility status provided they have demonstrated satisfactory academic progress and subject to the financial need requirements of the program at the receiving institution. Graduate fellows will be selected primarily on the basis of academic merit. In academic year 1978-79, only initial awards will be made. The program will be phased in one year at a time thereafter.

Emergency Amendments Concerning Student Eligibility and Award Tables

On May 8, 1979, the New Jersey Student Assistance Board in the Department of Higher Education, pursuant to authority of N.J.S.A. 18A:71-26.8, adopted emergency amendments concerning student eligibility and award tables.

Full text of the adoption follows (additions indicated in boldface thus; deletions indicated in brackets [thus]):

9:7-2.5 Student notification

Students will initially be notified of grant eligibility through the Student Eligibility Notice issued by the Office of Student Assistance, Department of Higher Education. The Student Eligibility Notice allows the student to estimate the amount of tuition assistance for which he/she may be eligible at a given institution of higher education. This estimate is subject to change based on the annual level of appropriation and other resources available to the student [(See section 3.2)] (see section 2.9). Students should also be notified in writing, by the institution's financial aid officer, of the content of his or her financial aid

package. The institution's written notification to the student regarding State student assistance shall contain a clause absolving the State of any responsibility for funding in the event that the grant is based upon fraudulent, inaccurate, or misleading information.

9:7-2.6 Dependent/independent student defined

(a) A dependent student is one who 1) resides with his or her parents or guardians for more than [two consecutive] six weeks last, this, or next year; or 2) is dependent upon them for more than [\$600] \$750 in support of any kind including food, clothing, or shelter last, this, or next year; or 3) is claimed, or will be claimed, as dependent for income tax purposes for last, this, or next year.

(b) An independent student is one who: 1. Has not lived, and will not live, with parents or guardians for more than [two consecutive] six weeks last, this, and next year; and 2. Has not received, and will not receive, financial assistance from parents of more than [\$600] \$750 in support of any kind including food, clothing, and shelter last, this, and next year; and 3. Has not been claimed, and will not be claimed, as an exemption on parents' or guardians' tax return last, this, and next year; and 4. Has resources, which should be at least equal to the level of public assistance in the preceding calendar year. For 1978-79 and subsequent years, unless revised, this level is \$1,400.

(c) If circumstances have prevented the student(s) from having resources of a minimum of \$1,400 for the calendar year prior to the academic year for which aid is requested and the student(s) has qualified for independent status based on the other three criteria, then, as an alternative, in-kind support equal to at least \$1,400 must be documented and placed in the student(s) file before he or she is considered an independent student. Such documentation must be furnished to the Office of Student Assistance, Department of Higher Education, in writing, through the established appeals procedure or through the use of a properly prepared change form.

SUBCHAPTER 3. TUITION AID GRANT PROGRAM

9:7-3.1 Tuition aid grant award table

The value of the grant, which ranges from a minimum of \$100 to a maximum of [\$1,000] \$1,200, is related to the tuition charges of the various institutional sectors in New Jersey and the student's ability to pay for educational costs. The award table below shows approximate award levels depending upon tuition and ability to pay. [and subject to the adjustment rules defined in Section 3.2.]

9:7-3.2 [Award table adjustment rules] (Reserved)

[Student grants, as shown on the Tuition Aid Grant Award Table, are subject to adjustment based upon the resources available to the student for meeting educational costs. For students attending public colleges in New Jersey, grants will be adjusted upward if the student's resources, defined as the total of the Estimated Family Contribution, Federal Basic Grant, and Tuition Aid Grant, are not equal to 50% of the student's approved college budget as defined below. For students attending independent colleges in New Jersey grants will be adjusted upward if the resources defined above do not equal 35% of the student's approved college budget. The approved college budget is defined as the appropriate resident or commuter budget approved by the federal Basic Grant program at the institution the student is attending. College financial aid officers will use the appropriate budget based upon institutional determination of the student's resident or commuter status. State grants will be de-

creased if the student's resources, as defined above, exceed 85% of the student's approved college budget. These adjustments in grants will be made by the college financial aid officer and students will be advised of any adjustments to grant values found on the award table. Stu-

dents attending eligible out-of-state institutions (see section 3.4) are subject to the same award table adjustment rules described above for in-state independent institutions.]

Editor's Note: This replaces current table.

Any assistance granted by reason of nondisclosure during such one year period represents an overpayment and is to be processed accordingly.

i. Any disposal or abandonment for reasons other than to qualify or to avoid repayment shall be reviewed by the MWD to determine whether or not recovery can be effected. If so, the matter is subject to the provisions of subsection (d) of this section, Potential Resources. A.C. 11:1-5.8, concerning distribution of taxes paid to Firemen's Relief Associations.

Full text of the proposed rule follows:

11:1-5.8 Distribution of fire insurance premium tax

(a) Fire insurance premium taxes paid by insurers not domiciled in the State of New Jersey are required to be distributed to the respective Firemen's Relief Associations in which the property is situated.

(b) A three digit Firemen's Relief Association Code, published in the ISO New Jersey Public Fire Protection Classifications Manual, has been promulgated by the Insurance Services Office (ISO) for the purpose of coding the policies to properly allocate the premium taxes.

(c) The following steps shall be taken to assure correct tax distribution:

1. All agents, surplus lines agents and brokers producing fire insurance on any risks located in New Jersey are required to properly describe the risk and its location on the Policy Declaration Sheet.

2. The description of the property shall include the complete address and the Firemen's Relief Association Code as promulgated by the Insurance Services Office.

3. All insurance companies writing fire insurance on property located in New Jersey shall require their agents to designate the Firemen's Relief Association by code on each Policy Declaration Sheet and disclose the complete address of the location at which the risk is situated.

4. Each insurance company shall use the Firemen's Relief Association code as promulgated by the Insurance Services Office in making its annual report pursuant to N.J.S.A. 54:18-1 to the respective treasurers of the duly incorporated Firemen's Relief Association in which any

property on which the company has taken a fire insurance risk is located.

Proposed Rules Concerning Minimum Standards for Health Insurance

James J. Sheeran, Commissioner of the Department of Insurance, pursuant to authority of N.J.S.A. 17:1-8.1, 17:1C-6(e), 17B:22-1 et seq., 17B:26-1 et seq., and 17B:26-45, proposes to adopt new rules to be cited as N.J.A.C. 11:4-16.1 et seq. concerning minimum standards for individual policies of health insurance.

This proposal addresses four general subject categories. The first (N.J.A.C. 11:4-16.1 et seq.) contains minimum standards for the provision of benefits in individual health insurance policies. Definitions of policy terms, prohibitions against certain policy provisions and coverages, mandatory disclosure of benefit provision to insureds and requirements for submission of forms to the Department are included within the first subject area. The second subject category (N.J.A.C. 11:4-17.1 et seq.) includes rules concerning the solicitation, promotion and sale of policies. N.J.A.C. 11:4-18.1 et seq. designates the third subject area which concerns rates and rate filings. The last section (N.J.A.C. 11:4-10.1 et seq.) deals with simplification of the language of policies and forms to promote clarity and understanding.

The purpose of these rules is to provide reasonable standardization and simplification of policy language terms and coverages; to eliminate provisions which may be misleading or unreasonably confusing in connection with either the purchase of insurance or the settlement of claims; to eliminate provisions which may be contrary to the health care needs of the public and those so limited in scope as to be of no substantial economic value; and to eliminate unfair renewal practices which are contrary to the health care needs and economic well-being of the public. The purpose of the rate filing section is to set forth criteria for making a determination as to whether or not benefits are unreasonable in relation to the premium charged.

Copies of the 50 pages of the proposal may be obtained by contacting the person named below.

A public hearing will be held on Monday and Tuesday, August 6 and 7, 1979 at 10:00 A.M. at the Department of Insurance, 201 East State Street, Trenton, New Jersey 08625 regarding this proposal.

Interested persons may appear at the hearing or present statements or arguments in writing relevant to the proposed action to Richard B. Goldman, Special Assistant to the Commissioner, Department of Insurance, at the above address.

The Department of Insurance may thereafter adopt rules concerning this subject without further notice.

iii. Buildings which are in danger of collapse because of serious structural conditions.

iv. The insured has been indicted for or convicted of arson or burning with intent to defraud, or there is evidence of incendiarism or attempt thereat by the insured or representative of the insured, absent a clear showing of special mitigating circumstances in an unusual case.

v. Buildings which have an exceptional degree of hazard, such as fire ruins or dilapidated condition, not contemplated by the applicable rating plans, as approved by the Commissioner.

vi. Buildings which have any of the following conditions existing:

1. Repeated failure to furnish heat, water, sewer or public lighting;

2. Failure to correct conditions dangerous to life, health or safety;

3. Failure to maintain the building in accordance with applicable law;

4. Failure to pay property taxes for two years.

vii. Buildings with at least sixty-five (65) percent of the rental units in the building unoccupied and at least twenty-five (25) percent of said unoccupied units are left unprotected against trespass. A rental unit will be deemed to be unprotected against trespass when an entrance door to such unit or an exterior door to a hall, stairway, or other common passage leading to such unit is missing, unlocked, not capable of being locked, or otherwise unsecured, or when a door or window in such unit which is accessible to entry has not been replaced or boarded up within 2 days after the insured has been notified to replace or board up the door or window.

viii. Buildings from which fixed and salvageable items have been or are being removed and the insured can give no reasonable explanation for such removal.

ix. Buildings which have been condemned.

x. When there is reasonable knowledge and belief that the property is endangered and is not reasonably protected from possible arson for profit.

11:1-5.6 FAIR Plan short notice cancellation procedures

(b) The association shall submit to the Commissioner, no later than three days after the last day of each month, a copy of all short notice cancellations issued during that month.

(c) The association shall notify the insured of any cancellation in a writing setting forth the reason or reasons for cancellation and the effective date. The writing shall advise the insured of a right to appeal the cancellation to the association within 15 days of the date of mailing, and, if the appeal is denied, to the Department of Insurance. Nothing herein shall imply a right to hearing procedures described in the Administrative Procedure Act, particularly "contested case" procedures. The appeal shall be processed in the following manner:

1. Upon issuance of a short notice cancellation, the file will be placed into special suspense, for a period of 15 days from the date of mailing of notice. If no written notice of appeal is received from the insured or his representative within that period, cancellation will be processed and return premium (if any) forwarded to the producer of record.

2. If timely written request for appeal is received, the following steps will be taken:

i. The N.J.I.U.A. appeals committee will review and determine the appeal within five working days from receipt of request for appeal. If the result of the appeal is favorable, a letter advising the insured or his representative, the producer and the mortgagee (if any) of favorable action will be sent together with reinstatement notice stating that no lapse in coverage has occurred.

ii. If the appeals committee denies the appeal for reinstatement, a letter advising the insured or his representative, the producer and the mortgagee (if any) of this action and a right to appeal to the Commissioner will be sent; a copy will be forwarded to the Department of Insurance.

(1) The file will remain in suspense for 30 days awaiting notice of appeal to the Commissioner.

(2) Upon receipt of the appeal request, the Department of Insurance will notify N.J.I.U.A. and advise that the file should be held in suspense for an additional period.

(3) If, after 35 days have elapsed from the association's decision to deny appeal and no notification has been received from the Department of Insurance of a pending appeal, cancellation will be processed and return premium (if any) forwarded to the producer of record.

(4) The Department of Insurance will advise N.J.I.U.A. of its decision. If the appeal is granted, the policy will be reinstated without lapse. If the appeal is denied, cancellation will be processed and return premium (if any) will be forwarded to the producer of record.

Take notice that a printing error in the Notice of Proposal appeared regarding N.J.A.C. 18:12A-1.14(f). No changes were intended to be made to N.J.A.C. 18:12A-1.14(f). Only the new text in N.J.A.C. 18:12A-1.14(g) was intended.

In order to clarify the situation, the full text of the adoption follows:

18:12A-1.14 Revaluations; reassessments

(a) Regarding voluntary revaluation, when a taxing district proposes to revalue real property in said district voluntarily, it must notify the Board of such intent and must obtain approval of the revaluation contract from the Director, Division of Taxation, as prescribed by law (N.J.S.A. 54:1-35.35 et seq. and N.J.A.C. 18:12-4.1 et seq.).

(b) Regarding revaluation ordered by county board of taxation, when a Board determines the need to order a taxing district to revalue its real property, it shall submit the proposed order to the Director, Division of Taxation, for his approval, outlining the reasons that warrant such action. Upon approval of such order, the Board shall take appropriate action to implement same.

(c) Regarding reassessment, when an assessor proposes to revise the assessment list, he shall submit the reassessment plan to the Board setting forth the method to be used, the date of completion and the year in which such reassessment shall take effect. The Board shall advise the assessor of its approval or disapproval of such reassessment proposal within 30 days from the date submitted. In case of disapproval, the reason, therefore, shall be made known to the assessor. The Board shall notify the Director, Division of Taxation, of the assessor's reassessment plan.

(d) The Board shall require a written monthly progress report from the assessor of each taxing district undergoing a revaluation under subsection (a) and (b) hereof or reassessment under subsection (c) hereof.

(e) The Board shall require that the assessor of a taxing district shall actively participate in any such revaluation program and shall be familiar with all facets of such program.

(f) In case of an approved reassessment, the provisions of N.J.S.A. 54:3-22(f) shall be applicable with respect to the year in which the program becomes effective.

(g) Where a contract for a revaluation under subsections (a) or (b) of this section has been entered into by a municipality with an appraisal company, the Director, Division of Taxation before approving or disapproving said contract, shall forward a copy thereof to the appropriate County Board of Taxation for its review and comment. The Board shall, within two weeks from a date specified in a notice to it, submit its comment to the Director. In the event that the Board fails to respond to said request within the prescribed period, the Director shall assume that the Board has no comment to make and the Director shall proceed with his review and shall indicate his approval or disapproval of the contract, as provided by law.
