M = Permit Modification

P = Permit Decision Date
R = Complete for Review
T = Additional Information Received
W= Withdrawn

Specific Decision Application Codes

O = Other

REG = HMDC/Pinelands Exemption

Permit Descriptions

CAFRA - A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway or floodplain in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas. A Flood Hazard Area Permit, an U.S. Army Corps of Engineers Dredge and Fill Permit, and a Water Quality Certification may also be required.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.

Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

Coastal Wetlands: A permit authorizing disturbances to Mapped Tidal Wetlands under the Wetlands Act of 1970, N.J.S.A. 13:9A”

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs

**NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE TRANSFER STATION/MATERIALS RECOVERY FACILITY
AND CLASS A RECYCLING CENTER
PERMIT RENEWAL**

The New Jersey Department of Environmental Protection, Division of Solid & Hazardous Waste hereby gives notice that it has tentatively approved a Solid Waste Facility Permit renewal application regarding the operation of the existing Solid Waste Transfer Station Permit for Importico, Inc. TS/MRF and Class A Recycling Center located at 120 Baekeland Avenue, Middlesex Borough in Middlesex County

The application for a Solid Waste Facility Permit renewal was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types 10, 13, 13C, 23, 25 and 27 with an approved capacity of 500 tons per day with the exception that the facility may accept up to 600 tons of such material on any one day of the week provided the facility does not exceed the total of 3500 tons per week.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana
Chief
New Jersey Department of Environmental Protection
Division of Solid & Hazardous Waste
Bureau of Solid Waste Permitting
Mail Code 401-02C
P.O. Box 420
Trenton, New Jersey 08625-0420
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid & Hazardous Waste, the office of the Middlesex Borough Town Clerk and the office of the Middlesex County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Kimberly Beccia at the above address or contact her at (609) 292-9880.

**NOTICE OF PUBLIC COMMENT PERIOD
REGARDING A SOLID WASTE FACILITY PERMIT FOR A
SW Transfer Station Permit**

The New Jersey Department of Environmental Protection, Division of Solid & Hazardous Waste, hereby gives notice that it has tentatively approved a Solid Waste Facility Permit transfer of ownership application to transfer the ownership of the existing SW Transfer Station Permit for Lieze Associates d/b/a Eagle Recycling of NJ, Inc. solid waste transfer station located at 4711 Dell Avenue, North Bergen to **LINCOLN RECYCLING SERVICES, LLC**.

The application for a Solid Waste Facility Permit transfer of ownership was submitted in accordance with the requirements established at N.J.A.C. 7:26-2. The facility is currently permitted to accept waste types ID 10 (Non-Putrescible Municipal Waste - Household, Commercial and Institutional, ID 13 (Bulky Waste), ID 13C (Construction and Demolition Waste), ID 23 (Vegetative Waste) and ID 27 (Dry Industrial Waste) with an approved capacity of 1200 tons per day Monday through Saturday, with a weekly capacity not to exceed 6000 tons per week. The new owner is required to install a new air pollution control system to operate the transfer station at the noted 1200 tons per day capacity. No changes to the operation are proposed by the new owner beyond the installation of a new air pollution control system.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. During this period, any interested person may submit written comments concerning the draft permit action to:

Anthony Fontana, Chief
New Jersey Department of Environmental Protection
Division of Solid & Hazardous Waste (Mail Code 401-02C)
401 E. State Street, P.O. Box 420
Trenton, New Jersey 08625-0420
(609) 292-9880

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft Solid Waste Facility Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid & Hazardous Waste, the office of North Bergen Twp. Clerk and the office of the Hudson County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Richard Campbell at the above address or contact him at (609) 984-4567.

NOTICE OF PUBLIC COMMENT PERIOD REGARDING A SOLID WASTE FACILITY PERMIT

The New Jersey Department of Environmental Protection, Division of Solid & Hazardous Waste, hereby gives notice that it has tentatively approved applications for renewal and major modification of a Solid Waste Facility (SWF) Permit regarding the operation of the existing OCEAN COUNTY LANDFILL located in Manchester Township. The applications for a SWF Permit renewal and major modification were submitted in accordance with the requirements established at N.J.A.C. 7:26-2.

The renewal extends the SWF operating permit for an additional five (5) year period, and the major modification increases the maximum landfill elevation 10 feet, from 175 feet above mean seal level (amsl) up to 185 feet amsl. The permit renewal also continues the facility's authorization to operate a transfer station/materials recovery facility (TS/MRF). The TS/MRF has been constructed, but has not yet been put into use. The facility is currently permitted to accept waste types ID 10, Municipal Waste (household, commercial and institutional); ID 13, Bulky Waste; ID 13C, Construction and Demolition Waste; ID 23, Vegetative Waste; ID 25, Animal and Food Processing Waste; ID 27, Dry Industrial Waste (non-hazardous); ID 27A, Asbestos and Asbestos-Containing Waste; and ID 27I, Incinerator Ash and Ash-Containing Waste.

The public comment period on the draft permit action begins on the date of the publication of this notice and will close within thirty (30) days of this publication. Any interested person may submit written comments during this period to the Department concerning the draft permit action to:

Anthony Fontana, Chief
Bureau of Solid Waste Permitting
Division of Solid and Hazardous Waste
New Jersey Department of Environmental Protection
Mail Code 401-02C
P.O. Box 420
401 E. State Street, Trenton
New Jersey 08625-0420

Upon written request of any interested party, which raises the issues of fact relevant to the proposed agency action within thirty (30) days of this publication, a public hearing will be scheduled regarding the proposed agency action.

The application and all other supporting documents, as well as the draft SWF Permit and fact sheet are available for inspection at the above noted office of the Department's Division of Solid & Hazardous Waste. Copies of the application were also provided to the offices of the Manchester Township Clerk and Ocean County Clerk.

Anyone who would like to obtain copies of the draft permit and a fact sheet for the facility should notify Ms. Mary Anne Goldman at the above address or contact her at (609) 292-9880.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE A FRESHWATER WETLANDS VIOLATION**

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to settle an enforcement action pertaining to the below site and responsible party for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j.

IN THE MATTER OF: Algonquin Gas Transmission, LLC
NJDEP File #: NEA150001 – 0000-05-0021.1
Block 53, Lot 2 Block 54, Lot 3
Harding Township, Morris County, NJ

Comments regarding this settlement or requests for a copy of the settlement should be sent to: David Sumba, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 100 Chester Road, Chester, New Jersey 07930 or via email at david.sumba@dep.nj.gov. Comments must be received by NJDEP within 30 calendar days of this publication to be considered.

**New Jersey Department of Environmental Protection

Trenton, New Jersey 08625-0420**

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan
Amendment Applications pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Coastal and Land Use Planning, has received the following Water Quality Management (WQM) Plan site specific amendment requests pursuant to P.L. 2013, c.188 which was enacted on January 16, 2014. This legislation modifies some aspects of the WQM Planning Program for a period of up to two years. P.L. 2013, c.188 directs the NJDEP to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the WQM Planning rules at N.J.A.C. 7:15. Pursuant to the provisions of the WQM Planning rules at N.J.A.C. 7:15-3.4, notices of amendment proposals and the NJDEP's subsequent final actions are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 50,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the NJDEP Bulletin.

Notice of site specific amendment proposals that qualify for review under P.L. 2013, c.188 are individually provided below.

Written comments should be submitted to:

Colleen Kokas, Director
Office of Water Resource Management Coordination
Mail Code 401-02A
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals

**Water Quality Management Plan Amendment Proposals
DEPARTMENT OF ENVIRONMENTAL PROTECTION
OFFICE OF WATER RESOURCES MANAGEMENT COORDINATION
Proposed Amendment to the Monmouth County Water Quality Management Plan
Public Notice
RMS HOSPITAL AND MATTIE HOUSE**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Monmouth County Water Quality Management (WQM) Plan. This amendment proposal, entitled “ RMS Hospital and Mattie House”, submitted on behalf of the New Jersey Department of Treasury’s (Treasury) Division of Property Management and Construction, would expand the Western Monmouth Utilities Authority (WMUA) sewer service area (SSA) by 123.48 acres. The proposed project site is located in Marlboro Township, Monmouth County on Block 157, Lots 34.02 and 34.03; and on Block 159, Lot 11. This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules at N.J.A.C. 7:15 and P.L 2013, c.188. This preliminary notice represents the Department’s determination that the proposed amendment is in compliance with the regulatory criteria pursuant to N.J.A.C. 7:15.

The above referenced properties are currently located within the Marlboro Psychiatric Hospital SSA on the adopted Monmouth County Future Wastewater Service Area (FWSA) map. This SSA is served by an on-site Wastewater Treatment Plant owned by Treasury and permitted under New Jersey Pollutant Discharge Elimination System (NJDPES) permit number NJ0022586. This treatment plant, which is located on the Marlboro Psychiatric Hospital site was constructed in the 1930’s, and after an upgrade in the 1950’s, served the entire hospital complex of approximately 120 buildings. The treatment plant continued to serve the entire facility until the 1990’s when the Marlboro Psychiatric Hospital was closed. After the hospital closure, the treatment plant continued to accept the wastewater flow from the Mattie House Group Home on lot Block 157, Lot 34.03 and the RMS Hospital on Block 157, Lot 34.02 for treatment at the Marlboro Psychiatric Hospital’s Treatment plant. Due to its age and failing condition, Treasury has determined it’s necessary to take the treatment plant offline and to complete the on-going demolition of the Marlboro Psychiatric Hospital complex, including the electric plant and the wastewater treatment plant. The Marlboro Psychiatric Hospital property is proposed to be owned by the Monmouth County Parks System for use as a County Park. This amendment will transfer the Mattie House, the RMS Hospital, and a 113.3 acre portion of Block 159, Lot 11 (for eventual use by the Monmouth County Parks System), from the Marlboro Psychiatric Hospital SSA to the WMUA SSA. The projected wastewater flow, calculated in accordance with N.J.A.C. 7:14A-23.3, is 40,000 gallons per day (gpd). This includes 32,750 gpd from the RMS hospital, 1,250 gpd from Mattie House, and 6,000 gpd from the 113.3 acre portion of Block 159, Lot 11.

As outlined at N.J.A.C. 7:15-5.24(a), sewer service may only be provided to areas that are not identified as environmentally sensitive areas (ESAs), Coastal Fringe, Coastal Rural and Coastal Environmentally Sensitive Planning Areas, beaches, coastal high hazard areas, and dunes.

Pursuant to N.J.A.C. 7:15-5.24(b), ESAs are defined as contiguous areas of 25 acres or larger consisting of habitat for threatened and endangered species as identified on the Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, Natural Heritage Priority Sites, Category One (C1) special water resource protection areas, and wetlands, alone or in combination. These areas are not included in the proposed SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in proposed SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. Review of the project site has determined that no threatened or endangered species habitat exists on site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Review of the project site has determined that no Natural Heritage Priority Sites exist on site.

In accordance with N.J.A.C. 7:15-5.24(b)3, areas identified as special water resource protection areas along Category One waterways and their tributaries are not to be included in SSA's, except as provided under N.J.A.C. 7:15-5.24(e) – (h).

Two branches of a category one waterway, the Big Brook tributary, are located on Block 159, Lot 11. The tributaries and their 300 foot buffer areas will be excluded from the sewer service area and no sewage producing structures are proposed for these portions of the property.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). Wetlands have been identified on the proposed project site along the southern edge of Block 157, Lot 34.02. The provisions at N.J.A.C. 7:15-5.24(b)4, have been satisfied by the exclusion of the wetlands areas from the proposed SSA.

Pursuant to N.J.A.C. 7:15-5.24(c), certain coastal planning areas, not applicable here, must also be excluded from SSA. Specifically, there are no Coastal Fringe Planning Areas, Coastal Rural Planning Areas, or Coastal Environmentally Sensitive Areas on the project site.

In accordance with N.J.A.C. 7:15-5.24(d)1, areas with Federal 201 grant limitations that prohibit the extension of sewers are excluded from the adopted SSA either where local mapped information exists delineating these areas, or through a narrative description where mapping does not exist, except as provided under N.J.A.C. 7:15-5.24(f)1. Pre-existing grant conditions and requirements (from Federal and State grants or loans for sewerage facilities), which provide for restriction of sewer service to environmentally sensitive areas, are unaffected by adoption of these amendments.

In accordance with N.J.A.C. 7:15-5.24(d)1, there are other special restricted areas, which must also be excluded from SSA pursuant to N.J.A.C. 7:15-5.24(d)2 through 4. None of those special restricted areas are applicable here. Specifically, there are no beaches, coastal high hazard areas, or dunes on the project site.

In accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The Department has determined that the WMUA Pine Brook Treatment Plant has adequate available capacity to treat the proposed wastewater flow from this amendment. The projected wastewater flow for the proposed amendment, calculated in accordance with N.J.A.C. 7:14A-23.3, is 40,000 gpd. Currently the Pine Brook Treatment Plant (NJ0023728) is permitted to discharge up to 8.8 Million Gallons per day (MGD) of treated wastewater to the Pine Brook. Based on an average of the monthly average flow for the most recent twelve month period for which discharge monitoring data is available, the existing wastewater flow discharged from the Pine Brook Treatment Plant was calculated to be 7.9 MGD.

In accordance with N.J.A.C. 7:15-5.25(h)3, the water supply need for the proposed project has been evaluated. Water supply for any proposed development on the property will be provided by the Marlboro Township Municipal Utilities Authority (MTMUA) which holds PWSID 1328002. MTMUA is a public water system that withdraws water from the Farrington Aquifer. The location of the diversion is on Harbor Road under Water Allocation Permit number WAP030001, program I.D. 5055. The existing water allocation permit will not require modification to serve the proposed project. MTMUA is currently allocated 337 million gallons per month (MGM) and has a water supply surplus of 83.667 MGM. The proposed water demand of the project, calculated in accordance with N.J.A.C. 7:15-5.25(f)1i, is 1.034 MGM; therefore sufficient water supply is available to serve the proposed development within the existing water allocation permit.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2013, c. 188 directs that there is a presumption that an engineered subdivision or site plan is not required. Without such information a review and determination of compliance with the Stormwater Management rules (N.J.A.C. 7:8) is not possible. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development. Marlboro Township has an adopted stormwater management ordinance (No.2006-21) which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8.

In accordance with N.J.A.C. 5.25(h)5, riparian zones are not to be included in proposed SSAs, except as provided under N.J.A.C. 7:15-5.25(h)i –vii. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. Riparian zones have been identified on Block 159, Lot 11 as tributaries to the Big Brook (FW2-NTC1). The required buffer width for Big Brook is 300 feet. In accordance with N.J.A.C. 7:15-5.25(h)5i, the Riparian Corridor Analysis has been satisfied by applying a 300 foot buffer to the applicable portions of the Big Brook tributaries, and the exclusion of their buffer areas from the proposed SSA.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

Additional issues which may need to be addressed for any new or expanded wastewater treatment facility proposal include, but are not limited to, compliance with stormwater regulations, antidegradation, effluent limitations, water quality analysis, and exact locations and designs of future treatment works. Additionally, sewer service to any particular project is subject to contractual allocations between municipalities, authorities and/or private parties, and is not guaranteed by this amendment.

Approval of this amendment does not eliminate the need for any permits, approvals or certifications required by any Federal, State, County or municipal review agency with jurisdiction over this project/activity.

This notice is being given to inform the public that a plan amendment has been proposed for the Monmouth County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management Coordination 401 East State Street, P.O. Box 420, Mail Code 401-02A, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management Coordination at (609) 777-4349.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above, with a copy sent to Mr. Joseph Koehler, Hatch Mott MacDonald, 111 Wood Avenue South, Iselin, NJ 08830-4112. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment proposal.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**Notice of Public Comment Period Regarding Site Specific Water Quality Management Plan
Amendment Applications Pursuant to P.L.2013, c.188**

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP), Office of Water Resource Management Coordination, has received the following Water Quality Management Plan site specific amendment requests pursuant to P.L. 2013, c.188. P.L. 2013, c.188 directs the Department to accept and process certain site specific amendment proposals despite the absence of a wastewater management plan in compliance with the Water Quality Management Plan rules. Pursuant to the provisions of the Statewide Water Quality Management Planning rules (N.J.A.C. 7:15-3.4), notices of amendment proposals and the Department's subsequent final action are to be published in the New Jersey Register (NJR). In accordance with P.L. 2013, c.188, notice of site specific amendments for projects or activities having a wastewater planning flow of less than 20,000 gallons per day (gpd) or being less than 100 acres in size is to be published in the Department of Environmental Protection (DEP) Bulletin.

Notice of site specific amendment proposals for changes in sewer service area designation, which may include new or expanded wastewater treatment facilities, are individually provided below.

An appointment to review the file for any of the proposals may be arranged by calling the Office of Water Resource Management Coordination at (609) 777-4349. The Department's file is available for inspection between 8:30 a.m. and 4:00 p.m., Monday through Friday at 401 East State Street, Trenton, New Jersey.

Interested person may submit written comments on any of the proposals. When providing comments, specify which proposal the comments are being provided for. All comments must be submitted within 30 days of the date of this public notice to the address cited below. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request that the Department hold a non-adversarial public hearing or extend the public comment period up to 30 additional days for any of the proposals. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. The requests must be submitted within 30 days of the date of this public notice to the address cited below. If a public hearing is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

Written comments should be submitted to:

Colleen Kokas, Director
Office of Water Resource Management Coordination
Mail Code 401-02A
PO Box 420, 401 East State Street
Trenton, New Jersey 08625-0420

Notice(s) of site specific proposals that qualify for review under P.L. 2013, c. 188 are individually provided below:

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
OFFICE OF WATER RESOURCES MANAGEMENT COORDINATION
Proposed Amendment to the Tri-County Water Quality Management Plan**

**Public Notice
NJ Turnpike MD3**

Take notice that the New Jersey Department of Environmental Protection (Department) is seeking public comment on a proposed amendment to the Tri-County Water Quality Management (WQM) Plan. This amendment proposal, submitted on behalf of the New Jersey Turnpike Authority (NJTA) would expand the sewer service area (SSA) of the Albert C. Wagner Youth Correctional Facility Wastewater Treatment Plant (WTP) to include the proposed improvements of the Turnpike Maintenance District 3 facility by 7.8 acres to include Block 106, Lot 1 in Chesterfield Township, Burlington County. The SSA would expand to include a multi-use building including a staff area and garage bays with vehicle wash, salt storage building, vehicle fueling facility, calcium/magnesium chloride facility, bulk materials storage yards, auxiliary sheds, and parking areas. This project is identified as "NJ Turnpike MD3", Project Identification No. 435433, Activity No. AMD150002. This proposal would update the Chesterfield Township Wastewater Management Plan as well as the Tri-County WQMP.

This proposed amendment has been reviewed in accordance with the Water Quality Management Planning rules, N.J.A.C. 7:15-1 et seq. and P.L. 2011 c.203 as amended and supplemented by P.L. 2013 c.188. The proposal qualifies as a site specific amendment pursuant to Section 7 of P.L. 2013 c. 188.

Pursuant to P.L. 2011, c. 203, as amended by P.L. 2013, c. 188, the Department, in consultation with the applicable wastewater management planning agency, may approve the inclusion of land within a SSA notwithstanding that existing treatment works may not currently have the assured capacity to treat wastewater from such land without infrastructure improvements or permit modification. Therefore, amendments to modify a SSA may be approved if such actions are compliant with the applicable sections of the Water Quality Management Planning rule (N.J.A.C. 7:15) regardless of whether capacity has been fully assessed. However, in accordance with N.J.A.C. 7:15-5.25(h)1, the projected wastewater flow of the project has been evaluated. The total wastewater flow for 48 employees utilizing showers and toilets is estimated to be 1,920 gallons per day (gpd) as calculated in accordance with N.J.A.C. 7:14A-23.3. The volume of water used per wash, estimated at 45 gallons based on water use data from the Crosswicks vehicle wash, a similar wash facility, is multiplied by the number of vehicles, estimated based on the current facility's number of vehicles which will remain the same, resulting in a total waste wash water volume of 470 gpd. These flows include both normal usage of vehicle wash as well as seasonal totals. The total projected wastewater flow resulting from both employees and the vehicle wash is 2,390 gpd. Currently the Albert C. Wagner Youth Correctional Facility WTP is permitted to discharge 1.3 million gallons per day (MGD) to Crosswicks Creek under NJDPES permit No. NJ0026719. The average of the last twelve months of discharge monitoring data show that the WTP has discharged an average daily flow of 0.498 MGD. Currently, there is 0.802 MGD of wastewater capacity remaining at the plant. Even though the Chesterfield Township WMP allocates 0.455 MGD of the total plant capacity to the Planned Village Development (PVD) zone, most of this zone has already been built and connected to the WTP, leaving more than adequate capacity at the WTP for this proposed amendment (0.00239 MGD), future sewer service connections, or increases in population within the approved SSA.

In accordance with N.J.A.C. 7:15-5.24(b)1, to determine areas designated as threatened or endangered species habitat, the Department utilized the Division of Fish and Wildlife's Landscape Project Maps of Habitat for Endangered, Threatened or Other Priority Species, version 3.1. Areas identified by the Landscape Project as being suitable habitat for threatened and endangered species Ranks 3 (State threatened), 4 (State endangered), and 5 (Federal endangered or threatened) are not to be included in SSAs except as provided under N.J.A.C. 7:15-5.24(e) – (h), or unless a site has undergone a site specific Habitat Suitability Determination prepared in accordance with N.J.A.C. 7:15-5.26 that found the site to be not suitable habitat, or pursuant with N.J.A.C. 7:15-5.24(g)2, the Department determined the ESA is not critical to a population of endangered or threatened species the loss of which would decrease the likelihood of the survival or recovery of the identified species. No Threatened or Endangered Species habitats have been identified on this site.

In accordance with N.J.A.C. 7:15-5.24(b)2, areas mapped as Natural Heritage Priority Sites are not to be included in SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). No Natural Heritage Priority Sites are identified on this site.

In accordance with N.J.A.C. 7:15-5.24(b)4, areas mapped as wetlands pursuant to N.J.S.A. 13:9A-1 and 13:9B-25 are not to be included in SSAs, except as provided under N.J.A.C. 7:15-5.24(e) – (h). There are no wetlands or wetland buffers on this site.

In accordance with N.J.A.C. 7:15-5.24(c), lands within certain coastal planning areas (Coastal Fringe, Coastal Rural, and Coastal Environmentally Sensitive Planning Areas) are not included in the SSA. The project site is not in a coastal planning area.

Pursuant to N.J.A.C. 7:15-5.24(d), special restricted areas including areas with Federal 201 grant limitations that prohibit the extension of sewers to serve development in specified areas such as wetlands and

floodplains, in addition to special restricted areas of designated beaches, coastal high hazard areas, and dunes are not included in the SSA. These special restricted areas are not applicable to the project site.

In accordance with N.J.A.C. 7:15-5.25(h)3 the water supply need for the proposed project has been evaluated. Water is currently supplied by Aqua New Jersey which holds PWSID 1103001, is allocated 283.3 MGM, and currently has a water supply surplus of 50.374 MGM. As the site is already connected to the water supplier, this analysis only estimates the amount of total additional water demand arising from new or expanded development at the site. The number of employees (48) will not be changing, so water usage for employees will not change, however the proposed vehicle wash and fire protection system, will add an additional water supply demand. As stated earlier in this notice, the total water used for vehicle wash is estimated to be 470 gpd, or 0.0141 MGM. The fire protection system is designed to use 500 gallons per minute, and can be used up to 30 minutes during emergencies. It is difficult to approximate the volume of water in MGM as the system would only be used during an emergency and not continuously. The applicant has provided a "will serve" letter from Aqua New Jersey for the fire protection connection. The projected water demand of 0.0141 MGM is within the 50.374 MGM water supply surplus available from Aqua New Jersey.

In accordance with N.J.A.C. 7:15-5.25(h)4, a project or activity's stormwater management is to be evaluated. However, P.L. 2011, c. 203 as amended by P.L. 2013, c. 188, directs there be a presumption that an engineered subdivision or site plan is not required. Compliance with this standard shall be demonstrated by submission of an adopted stormwater management plan and ordinance that conform with the requirements of N.J.A.C. 7:8. The project is in compliance with this standard, as Chesterfield Township has adopted stormwater control ordinance #2006-12, which complies with the performance standards of the Stormwater Management Rules at N.J.A.C. 7:8. The county and local governments are responsible for review and implementation of the Stormwater Management rules during their review and approval of proposed development.

In accordance with N.J.A.C. 7:15-5.25(h)5i, riparian zones shall be protected. Riparian zones or buffers are established along all surface waters, based on the surface water body's classification designated at N.J.A.C. 7:9B, under the following regulations: the Flood Hazard Area Control Act Rules, the Stormwater Management rules, and the Water Quality Management Planning rules. There are no riparian zones on this site.

In accordance with N.J.A.C. 7:15-5.25(h)6, proposed development disturbance is not to be located in areas with steep slopes, defined as any slope greater than 20 percent. There are no steep slopes on the subject site.

This proposed amendment represents only one part of the permit process and other issues may need to be addressed prior to final permit issuance. Additional issues which may need to be addressed may include, but are not limited to, the following: compliance with stormwater regulations; antidegradation; effluent limitations; water quality analysis; exact locations and designs of future treatment works (pump stations, interceptors, sewers, outfalls, wastewater treatment plants); and development in wetlands flood prone areas, designated Wild and Scenic River areas, or other environmentally sensitive areas which are subject to regulation under Federal or State statutes or rules.

This notice is being given to inform the public that a plan amendment has been proposed for the Tri-County WQM Plan. All information related to the WQM Plan and the proposed amendment is located at the Department, Office of Water Resources Management Coordination, P.O. Box 420, Mail Code 401-02A, 401 East State Street, Trenton, N.J. 08625-0420. The Department's file is available for inspection between 9:00 a.m. and 4:00 p.m., Monday through Friday. An appointment to inspect the documents may be arranged by calling the Office of Water Resources Management Coordination at (609) 777-4349.

Interested persons may submit written comments on the proposed amendment to WQM Program Docket, at the Department address cited above with a copy sent to William Fleming, Jr., PE, PP, Churchill Consulting Engineers, 344 North Route 73, Berlin, NJ, 08009. All comments must be submitted within 30 days of the date of this public notice. All comments submitted prior to the close of the comment period shall be considered by the Department in reviewing the amendment request.

Interested persons may request in writing that the Department hold a non-adversarial public hearing on the amendment or extend the public comment period in this notice up to 30 additional days. These requests must state the nature of the issues to be raised at the proposed hearing or state the reasons why the proposed extension is necessary. These requests must be submitted within 30 days of the date of this notice to WQM Program Docket at the Department address cited above. If a public hearing for the amendment is held, the public comment period in this notice shall be extended to close 15 days after the public hearing.

**NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
BUREAU OF COASTAL AND LAND USE COMPLIANCE AND ENFORCEMENT
NOTICE OF INTENT TO SETTLE A FRESHWATER WETLANDS VIOLATION**

PLEASE TAKE NOTICE THAT THE DEPARTMENT OF ENVIRONMENTAL PROTECTION intends to settle an enforcement action pertaining to the below site and responsible party for violations of the Freshwater Wetlands Protection Act pursuant to N.J.S.A. 13:9B-21.j.

IN THE MATTER OF: ISENBERG, THOMAS & PEI LING
NJDEP File # NEA-150001-1918-14-0002.1
Block and Lot [9001, 74]
Sparta Township, Sussex County

Comments regarding this settlement or requests for a copy of the settlement should be sent to: Armand Perez, Region Supervisor, NJDEP Bureau of Coastal and Land Use Compliance and Enforcement, 100 North Road, Chester, New Jersey 07930 or via email at armand.perez@dep.nj.gov Comments must be received by NJDEP within 30 days of this publication to be considered.

NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION
DIVISION OF WATER QUALITY
PUBLIC NOTICE

Notice is hereby given that the New Jersey Department of Environmental Protection (NJDEP) proposes to issue the following New Jersey Pollutant Discharge Elimination System (NJPDES) permit actions in accordance with N.J.A.C. 7:14A-1 et seq. and by authority of N.J.S.A. 58:10A-1 et seq. The description of each proposed permit action is contained in the accompanying table.

This public notice has been prepared for these facilities as part of the administrative record to be filed at NJDEP, 401 East State Street, Trenton. Copies of the draft document are obtainable, for a nominal charge, and the administrative record is available for inspection by appointment only, Monday through Friday, by contacting the NJDEP file room at (609) 292-0400. Additional information regarding the draft document may be obtained from the contact person listed in the accompanying table.

Comments on the draft document or a request that NJDEP hold a non-adversarial public hearing on the document must be submitted, in writing, to the individual specified below (refer to the accompanying table for the appropriate permitting bureau) during the public comment period, which closes either:

1. 30 calendar days after publication of the last newspaper notice when a notice is published in the DEP Bulletin **and** a newspaper(s); or
2. 30 calendar days after publication of the DEP Bulletin notice when a notice is published in the DEP Bulletin **only**.

All persons, including permittees who believe that any condition of NJDEP's tentative decision to issue these permit actions is inappropriate must raise all reasonable issues of concern and submit all arguments and factual materials supporting their position during the public comment period. Any request for a public hearing shall state the nature of the proposed issues to be raised in the hearing. A public hearing will be conducted if NJDEP determines there is a significant degree of public interest. If a public hearing is held, the public comment period is automatically extended through the close of the hearing.

NJDEP will consider and respond to all significant and timely submitted comments. The permittee and each person who submitted written comments, will receive notice of NJDEP's final decision to issue, revoke or redraft the document.

Written comments should be submitted to the appropriate permitting bureau:

Public Notice of Proposed Permit Actions - 07/08/2015
(Division of Water Quality)

<u>Permit:</u> • Name • NJPDES No. • Type	<u>Facility Location:</u> • Address • County	<u>NJDEP:</u> • Case manager • Bureau • Phone No.	<u>Receiving Discharge:</u> • Stream or GW Formation or POTW • Stream or GW Classification • Watershed	<i>Executive Summary</i>
CONSTRUCTION & MARINE EQUIPMENT CO INC NJ0000264 DST	330 S Front St Elizabeth, NJ 07202 Union County	Kevin Ball Bureau of Nonpoint Pollution Control (609)633-7021	Arthur Kill SE3(C2) Elizabeth River	Stormwater Discharge Renewal Permit Action This is an renewal for an individual stormwater permit for Construction and Marine Equipment Co. Inc. (NJ0000264), located at 300 Front Street, Elizabeth NJ. The applicant is involved with marine cargo handling under the Standard Industrial Classification (SIC) 2992. The existing permit regulates stormwater discharges to the Arthur Kill, classified as SE3(C2).
VETERANS AFFAIRS NJ HEALTH CARE SYSTEM-LYONS NJ0021083 DSW Minor	151 Knollcroft Rd Lyons, NJ 07939 Somerset County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	unnamed trib of Harrisons Brk. FW2-NT(C2) Passaic River Upr (above Pine Bk br)	Surface Water Renewal Permit Action This existing facility discharges treated, disinfected domestic wastewater into an unnamed tributary of of Harrisons Brook, classified as FW2-NT (C2) waters. Harrisons Brook is located in the Passaic River Basin. The existing facility has a NJPDES flow value of 0.40 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 0.113 MGD. This action proposes limitations based upon a flow of 0.40 MGD.
ENGINEERED PRECISION CASTING CO NJ0077763 SIU	952 Palmer Ave Middletown, NJ 07748 Monmouth County	Nilesh Naik Bureau of Pretreatment and Residuals (609)633-3823	MIDDLETOWN TWP SEWER AUTH	Significant Indirect User (SIU) Renewal Permit Action The applicant is engaged in production of machine parts and other cast metal products by investment casting of steel, aluminum and copper alloy, SIC 3324. Additional operations at the facility include etching. Approximately 7500 gallons of combined process and sanitary wastewater is being discharged to TOMSA..
HUDSON CNTY DEPT OF ROADS & PUBLIC PROPERTY NJ0023566 DSW Minor	595 County Ave Meadowview Campus Secaucus, NJ 07094 Hudson County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Unnamed trib.- Hackensack R. SE2(C2) Hackensack R (below/incl Hirshfeld Bk)	Surface Water Renewal Permit Action The existing facility discharges treated, disinfected domestic wastewater into an unnamed tributary of the Hackensack River, classified as SE-2 waters. Hackensack River is located in the Hackensack River Basin. The existing facility has a NJPDES flow value of 0.75 million gallons per day (MGD) and currently discharges a monthly average flow of 0.180 MGD. This action proposes limitations based upon a flow of 0.75 MGD. Reuse requirements are proposed in this permit action.

PAULSBORO REFINING CO NJ0005029 DSW Major	800 Billingsport Rd Paulsboro Boro, NJ 08066 Gloucester County	Robert Hall Bureau of Surface Water Permitting (609)292-4860	Delaware River Mainstem Delaware-Zone 4 Cedar Swamp / Repaupo Ck / Clonmell Ck	Surface Water Renewal Permit Action This application is for a renewal of a NJPDES permit to discharge a long-term average flow is 9.19 million gallons per day (MGD) of treated and disinfected industrial wastewater from a petroleum refinery. Wastewater treatment at the plant includes screening, oil-water separation, sedimentation/settling, coagulation/flocculation, flotation, neutralization (pH adjustment), activated sludge, rapid sand filtration, and disinfection using sodium hypochlorite, followed by discharge to surface water through DSN001A.
CHERRY VALLEY STP NJ0069523 DSW Minor	192 Inverness Drive Montgomery Twp, NJ 08558 Somerset County	Kelly Perez Bureau of Surface Water Permitting (609)292-4860	Bedens Brook FW2-NT(C2) Millstone River (below/incl Carnegie Lk)	Surface Water Renewal Permit Action This permit action renews a NJPDES permit to discharge an average of 0.286 MGD of treated domestic wastewater.
PSEG NUCLEAR LLC SALEM GENERATING STATION NJ0005622 DSW Major	Alloway Creek Neck Rd Hancocks Bridge, NJ 08038 Salem County	Susan Rosenwinkel Bureau of Surface Water Permitting (609)292-4860	Delaware River Mainstem Delaware-Zone 5 Alloway Creek / Hope Creek	Surface Water Renewal Permit Action This renewal NJPDES/DSW permit is for an electrical generating facility that produces 2449 Megawatts. This draft renewal permit authorizes the intake of water from the Delaware River as well as the discharge of wastewater through DSN's 481 - 486, 48C, 487, and 489. This draft permit also incorporates Special Conditions that are included to minimize and understand the effects associated with the withdrawal of Delaware Estuary water as well as the thermal discharge of the circulating water system. This facility is a major discharger.
REGENCY @ SUSSEX APT NJ0029041 DSW Minor	10 Layton Rd Wantage Twp, NJ 07461 Sussex County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Unnamed Trib. of Wantage Brook FW2-NT(C2) Wallkill River (below road to Martins)	Surface Water Renewal Permit Action This existing facility discharges treated, disinfected domestic wastewater into an unnamed tributary of of Wantage Brook, classified as FW2-NT (C2) waters. Wantage Brook is located in the Wall Kill River Basin. The existing facility has a NJPDES flow value of 0.080 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 0.019 MGD. This action proposes limitations based upon a flow of 0.080 MGD.
CHEMTRADE SOLUTIONS LLC NJ0002551 DSW Major	235 Snyder Ave Berkeley Heights, NJ 07922 Union County	Leon Moss Bureau of Surface Water Permitting (609)292-4860	Passaic River FW2-NT(C2) Passaic River Upr (above Pine Bk br)	Surface Water Renewal Permit Action This renewal is to discharge an approved flow value of 0.99 MGD of treated processed wastewater, non-contact heat exchange water, and storm water runoff from the retention pond. Processed wastewater is treated via mixing, sedimentation, equalization, chemical precipitation, coagulation/flocculation, neutralization, landfill and pressure filtration prior to discharge to the surface water via an unnamed tributary. Or it may enter a six acre, unlined retention basin where it may combine with non-contact cooling water and stormwater runoff.
NAVAL WEAPONS STATION EARLE NJ0023540 DSW Minor	201 Rt 34 South- Bldg C15 Colts Neck, NJ 07722-5017 Monmouth County	Theodore Denberg, P.E. Bureau of Surface Water Permitting (609)292-4860	Hockhockson Brook FW2-TM(C2) Navesink River / Lower Shrewsbury River	Surface Water Renewal Permit Action This existing facility discharges treated, disinfected domestic wastewater into an unnamed tributary of of Hockhockson Brook, classified as FW2-trout maintenance waters. Hockhockson Brook is located in the Raritan River basin. The existing facility has a NJPDES flow value of 0.37 million gallons per day (MGD) and currently discharges a monthly average flow of approximately 0.073 MGD. This action proposes limitations based upon a flow of 0.37 MGD.

STEPAN CO NJ0128325 DST	201 4th St Fieldsboro, NJ 08505 Burlington County	Kerri Standowski Bureau of Nonpoint Pollution Control (609)633-7021	Delaware River Mainstem Delaware-Zone 2 Crafts Creek	Stormwater Discharge Renewal Permit Action Stepan Company has applied for a New Jersey Pollutant Discharge Elimination System (NJPDES) permit Renewal to the New Jersey Department of Environmental Protection (NJDEP), Bureau of Nonpoint Pollution Control. The applicant is involved in producing surface active preparations for use as wetting agents, emulsifiers, and penetrants and engaged in producing sulfonated oils and fats under the Standard Industrial Classification (SIC) 2843. The existing permit regulates stormwater discharges through outfalls DSN001A, DSN002A and DSN003A to the Delaware River, classified as Mainstem Delaware-Zone 2.
MARTIN PROPERTY NJ0135160 DGW	25 Rt 206 Hampton Twp, NJ 07860 Sussex County	Brian Sage Bureau of Nonpoint Pollution Control (609)633-7021	Undifferentiated glacial drift II-A	Ground Water Major Mod Permit Action The project includes the discharge of sanitary wastewater from a 746,972 square foot commercial building and one residential unit. All sanitary wastewater will be conveyed to a wastewater treatment plant prior to disposal at a subsurface disposal field. The sanitary wastewater will meet the GWQS prior to discharge to the disposal area.
SAW MILL PARK NEW BLDG 660 BT NJ0209481 DST	660 Belleville Tpk Kearny, NJ 07032 Hudson County	Daniel Kuti Bureau of Nonpoint Pollution Control (609)633-7021	unnamed tributary to Passaic SE3(C2) Passaic River Lower (Nwk Bay to Saddle)	Stormwater Discharge New Permit Action The proposed construction activity is to regrade the site to allow for the construction of a 21,187 sf warehouse and office space. The site is currently an uncapped form landfill. The Department plans to issue an individual construction permit for this activity.

The following minor modifications and administrative permit revocations were recently issued. These actions are listed for informational purposes only and are not open for public comment.
