1. How Has Your Life Changed Since March As A Result Of The COVID-19 Pandemic?

Ever since covid-19 started, I been feeling very upset a little because we have to wear masks everywhere we go but for my safety and everyone else's safety, I respect it and wear it. Because schools are back open, I am happy I am very much excited. I just hope more establishments open back up like some clothing stores or shoe stores, the covid-19 is one of the worst viruses I have experienced in my lifetime. I just hope people stay safe and no one else catches COVID-19. As long as people wear a mask, they will stay safe and keep everyone else around them safe.

2. What Was The Hardest/Biggest Challenge For You Or Your Family/ During Amidst COVID-19?

The hardest part of COVID-19 was wearing masks and gloves to every store and inside every building I visited. We went from doing everything together and being close or in groups to having to stay 6ft away from each other, social distancing, and being tested Covid-19 on a regular basis. Since COVID-19 is an easy virus to catch and hard to cure because at this point there is no cure for this deadly virus, I have been worried when leaving where I live. I believe that it is best for everyone to stay 6ft apart and social distancing from each other when leaving the comfort of your own home. By doing this we will at some point try to contain Covid-19 and get rid of it.
