John Cuneo
Deyssi Mesa
Sukhrob Khalilov

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Our airports served 10.6 million passengers this month, setting a new July record as traffic grew 1.3 percent compared to last year. This increase is better than the 1 percent gain for the nation's passenger traffic, as reported by A4A. Although domestic traffic was up a tepid 0.6 percent and has not reached the pre-recession July levels, strong international travel lifted this segment's traffic by 2.6 percent and pushed YTD international traffic up 4 percent overall. With the region's YTD traffic up 1.7 percent, our facilities are on track to set an all-time record this year. Cargo business at our facilities has been in decline since mid-2011 and sadly, continued dropping in July with an 8.2 percent decrease.
