About P2R

Launched in 2019 by Governor Murphy and supported by the New Jersey Department of Labor & Workforce Development, New Jersey's Pathways to Recovery initiative provides employment assistance to those impacted by opioids both directly and indirectly. The program offers training and supportive services to impacted individuals.

Mission

Pathways to Recovery provides opioid-impacted populations with the opportunity to learn and practice the skills necessary to be successful in the labor force. These efforts assist communities across New Jersey to strengthen services and promote recovery through employment.
