

Community-Port Collaboration

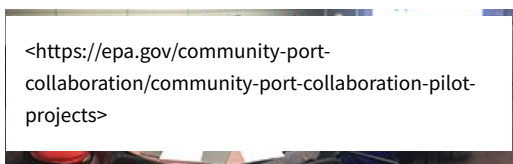

Emissions from diesel equipment operating at ports disproportionately impact nearby communities that are often comprised of low-income populations and communities of color. Through the EPA Ports Initiative <https://epa.gov/ports-initiative>, EPA is working to support effective communication and engagement between the port industry, communities, and other port stakeholders. To promote community-port collaboration for effective planning and engagement, EPA developed the following resources.

Toolkit, Roadmap & Primers

- Community-Port Collaboration Toolkit <https://epa.gov/community-port-collaboration/community-port-collaboration-toolkit>
- Ports Primer for Communities <https://epa.gov/community-port-collaboration/ports-primer-communities>
- Community Action Roadmap <https://epa.gov/community-port-collaboration/community-action-roadmap-empowering-near-port-communities>
- Environmental Justice Primer for Ports <https://epa.gov/community-port-collaboration/environmental-justice-primer-ports>

Pilot Projects

- Community-Port Collaboration Pilot Projects <https://epa.gov/community-port-collaboration/community-port-collaboration-pilot-projects>
- New Orleans Pilot <https://epa.gov/community-port-collaboration/new-orleans-community-port-collaboration-pilot-project>
- Providence Pilot <https://epa.gov/community-port-collaboration/providence-community-port-collaboration-pilot-project>
