Statement by Governor Mikie Sherrill on Donald Trump's Latest Loss at the Supreme Court

"States run elections, not Donald Trump. Yesterday's Supreme Court decision reinforces what we've long known: vote-by-mail is a safe, secure, and reliable way to vote.

"Our Founding Fathers understood the danger of putting too much power in the hands of one person. They built a Constitution that gives the states the authority to administer elections for a reason.

"This is another win for New Jersey voters and another loss for Donald Trump's attempt to rig elections."
