(a) The Agency may issue an order requiring a person to cease and desist from an unlawful practice or an order requiring him to take such other affirmative action as in the judgment of the Agency will carry out the purposes of the Act or these regulations upon the Agency's determination, after notice and hearing, that a developer has:

1. Violated any provision of the Act;
2. Directly or through an agent or employee knowingly engaged in any false, deceptive or misleading advertising, promotional or sales methods to offer or dispose of a unit;

A copy of any temporary cease and desist order shall be sent to the developer by certified mail.

(c) The Agency may, if it appears that a person has engaged or is about to engage in an act or practice constituting a violation of a provision of the Act or a rule, order or regulation of the Agency, bring an action in Superior Court to enjoin the acts or practices and to enforce compliance with the Act or regulations herein.

5:26-2.13 Annual report

Within 30 days after the anniversary date of the latest Order of Registration and while the developer retains any interest in the development or retirement community, the developer shall file on a form designated by the Agency an annual report reflecting any material changes in information contained in the original application for registration. This shall not diminish the obligation of the developer to notify the Agency of material changes as they occur. The annual report shall contain a yearly audit of association funds.

5:26-2.14 Order terminating responsibility

Upon a determination by the Agency that an annual report is no longer necessary for the protection of the public interest or that the developer no longer retains any interest and no longer has any contractual, bond or other obligations in the development or retirement community, the Agency shall issue an order terminating the responsibilities of the developer under the Act.

5:26-2.15 Registration in this State, other states or with the Federal Government

Any developer who desires to register a planned real estate development or retirement community which has been registered in this State, in other states or with the Federal Government and the requirements of that registration are substantially similar to those imposed by this chapter, may submit a certified copy of the approved application for registration filed in such other jurisdiction or with such other state agency or with the Federal Government and a certified copy of the letter of approval or other written approval thereof. In the event the Agency finds, upon review, that the approval substantially conforms to the standards and requirements imposed by the Act and by this chapter, the Agency may register such planned real estate development or retirement community; provided however, prior to such registration the Agency may require submission of such supplemental documents and information as it may deem necessary.

5:26-2.16 Consolidated filing

A developer may register additional property pursuant to the same common promotional plan as those previously registered by the Agency by submitting another application providing such additional information as may be necessary to register the additional lots, parcels, units or interests.

5:26-2.17 P.U.D. and P.U.R.D.

(a) The developer of a planned unit development or planned unit residential development shall register the development pursuant to N.J.A.C. 5:26-3 hereof regardless of whether the developer intends to offer the lots, parcels, units or interests to the public or to a builder or builders or to another developer.

(b) In the event the developer offers or intends to offer a number of lots, parcels, units or interests in a P.U.D. or P.U.R.D. to a builder or builders who will construct dwelling units thereon with the intention of offering them to the public, the developer and the builder may submit a joint application for registration or the developer may submit an application for registration and file an amendment pursuant to N.J.A.C. 5:26-3 hereof when the lots, parcels, units or interests are conveyed to the builder.

(c) The items requested in N.J.A.C. 5:26-3.1(a)1, 3, 4, 17, 18, 20 and 23 shall be submitted for both the developer and the builder.

Municipal construction code official's appearance for work for 11 days after his four-year term expired did not confer tenure on him on basis of appointment to second consecutive term. *Cutler v. Borough of Westwood*, 295 N.J.Super. 344, 685 A.2d 44 (A.D.1996).

Township's failure to make a proper temporary appointment in conformance with regulation resulted in plaintiff's appointment as subcode plumbing inspector becoming one of tenure pursuant to N.J.S.A. 52:27D-126(b). *DeStefano v. Washington Twp.*, 220 N.J.Super. 273, 531 A.2d 1090 (L.1987).

5:23-4.5A Selection of private on-site inspection and plan review agencies

(a) Whenever a local governing body having jurisdiction elects to contract with a private onsite inspection and plan review agency to carry out the enforcement of one or more subcodes, as permitted by N.J.A.C. 5:23-4.14, the agency shall be selected in accordance with the provisions of this section.

(b) Prior to the selection of an on-site inspection agency, the local enforcing agency shall notify each private on-site agency authorized by the Department to serve as a subcode official for the subcode(s) to be contracted. The notification, which shall specify the term of the proposed contract, shall be delivered by certified mail, return receipt requested. The notice shall specify any local procedural requirements, including, but not limited to, staffing and response time requirements exceeding the minimum standards set forth in the code, with which the construction official and/or the governing body would expect a private on-site agency to comply in order to effectively enforce a subcode in accordance with the performance standards of the local enforcing agency. No other notice shall be required.

1. The notice shall specify that a written, sealed bid is requested, together with a qualification statement containing the information set forth in N.J.A.C. 5:23-4.5A(d), shall identify the subcode(s) for which a bid is requested, shall state the date and time by which bids and accompanying qualification statements must be submitted, which shall not be less than 30 days following the date of mailing of the request for bids, and shall state the name and address of the person to whom bids and accompanying qualification statements shall be mailed or delivered.

2. All bids shall set forth the fees which the private on-site agency proposes to charge for work done by it in the municipality. Such fees shall be expressed as a uniform percentage, by subcode, which shall not exceed 100 percent, of the fees charged, as of the date on which the bids are opened, by the Department when it serves as an enforcing agency, which fees are set forth at N.J.A.C. 5:23-4.20.

3. The contract shall be awarded to the bidder that offers to charge the lowest percentage of the Department's fees and is determined by the governing body, after consultation with the construction official, to be able to effectively enforce the subcode(s) for which the bid was submitted.

4. The amounts to be charged by a private on-site agency awarded a contract pursuant to this section shall be the amounts set forth in N.J.A.C. 5:23-4.20 and/or 5:23-12.6(a) and (b) as of the date of the opening of the bids, multiplied by the percentage set forth in the bid. Such amounts shall be in effect for the entire contract period and shall not be affected by any subsequent increase in the fees set forth in N.J.A.C. 5:23-4.20 or 5:23-12.6(a) and (b).

(c) Written, sealed bids, together with separately sealed qualification statements containing the information required by (d) below, shall be submitted to the municipal officer responsible for receiving bids at or before the date and time established in the original notice of request for proposals. The said municipal officer shall forward all such qualification statements received to the construction official, who shall evaluate each qualification statement and advise the governing body, in writing, as to whether, in the construction official's judgment, each private agency submitting a proposal would be able to effectively enforce the subcode(s) for which the proposal is being submitted in the municipality, in accordance with the performance standards of the local enforcing agency.

(d) All qualification statements submitted by private on-site inspection agencies to serve as subcode officials shall be in writing and shall contain all of the information required by this subsection. Any omission of required information shall allow the local governing body the option to automatically disqualify the proposal. No additional information shall be required. The required information is as follows:

1. The name and principal business address of the agency;
2. The name of the person who will serve as the agency's responsible official and representative if the agency is awarded the contract;
3. A full listing of all agency technical, field inspection and supervisory personnel, grouped by job classification and title. The listing shall include the technical, educational and licensure qualifications of each person;

4. A full listing of the municipalities served by the agency. This list shall specifically identify the subcodes enforced in each case and the number of permits supervised and the number of inspections performed during an average month during the preceding year in each municipality;

5. A table of organization for the agency which is correlated by job title to the required personnel list;

6. The manner in which the agency compensates each class of employees, which shall be one of the following only: full-time salaried, part-time salaried, full-time hourly or part-time hourly. Where employees of a given class are compensated in more than one way, a percentage breakdown shall be provided;

7. The full address of each agency office which is open and staffed at least 35 hours per week by salaried or hourly agency employees;

8. A narrative description of the arrangements the agency plans to make for the issuance of minor work and single trade permits;

9. A narrative description of the arrangements the agency plans to make for discharging its plan review obligations;

10. The time in which the agency can perform, or has performed, plan reviews upon assignment by the construction official;

11. Any guarantees of time in responding to requests for required inspections or plan reviews where the time in responding is less than the maximum time established in these regulations. If an agency does not guarantee response time less than the maximum, the agency shall so state in its proposal.

12. The time in which the agency can respond, or has responded, to requests for required inspections from the construction industry; and

13. A narrative description of the arrangements the agency plans to make for providing emergency inspection services, including response time.

(e) When considering qualification statements submitted by authorized on-site inspection agencies seeking to act as a subcode official, construction officials and governing bodies shall base their determination as to whether an authorized on-site inspection agency would be able to effectively enforce the subcode on the following criteria:

1. The speed with which the agency can respond, or has responded, to requests for required inspections from the construction industry;

5:23-12.8 Alterations, replacements, damages, increases in size, changes in use group, minor work, ordinary repairs

(a) In complying with this chapter, calculations concerning alterations, replacements, damages, increases in size and changes in use group, in N.J.A.C. 5:23-2, shall be performed using data for entire structures. The alteration provisions applicable to the whole structure and/or calculations in N.J.A.C. 5:23-2 shall not be applied to individual elevator devices.

(b) For purposes of this subchapter, alteration of an elevator device means any change to equipment other than minor work and ordinary repair, as defined in N.J.A.C. 5:23-2.17A and 5:23-9.3. When work that includes the alteration of an elevator device has a total cost of less than 50 percent of the physical value of the building, the alteration of the elevator device shall comply only with the applicable requirements of Part XII (Alterations, Repairs, Replacements and Maintenance) of the most recent edition of ASME A17.1 referenced in the building subcode.

Amended by R.1995 d.564, effective November 6, 1995 (operative March 1, 1996).
See: 27 N.J.R. 2829(a), 27 N.J.R. 4281(b).

5:23-12.9 Certificate of compliance requirements

(a) A device shall be granted a certificate of compliance by the construction official for the time period specified based upon N.J.A.C. 5:23-12.3. No device shall be operated unless a valid certificate of compliance has been issued except for the initial period after work under a permit has been completed as per (f) below. Any violation shall be corrected before a new certificate of compliance may be issued.

(b) A temporary certificate of compliance may be issued by the construction official for a device in order to keep the device in operation on which work, as a result of violations, is being diligently performed, if the elevator subcode official finds that no hazard to the public is thereby created. A temporary certificate of compliance may be issued for no longer than 180 days, even if the device is inspected on an annual basis.

(c) The elevator subcode official shall provide written notice to the construction official whenever a temporary certificate of compliance or certificate of compliance is granted by the construction official.

(d) No certificate of compliance shall be issued for any elevator device in use on or before July 1, 1992 that is subject to these rules and is not registered with the Department in accordance with N.J.A.C. 5:23-12.4, except elevator devices in structures classified as Use Group R-3 and R-4 shall be exempt from registration. Elevator devices wholly within R-2 residences, not accessible to the general public shall also be exempt.

(e) No certificate of compliance or temporary certificate of compliance shall be issued for any elevator device, as required by this section, which has been approved to operate during the initial period, after a permit, in accordance with (f) below if the device has not been registered pursuant to this subchapter by its first routine inspection, even if a certificate of occupancy, temporary certificate of occupancy or certificate of approval has been issued.

(f) Except as otherwise provided in (e) above, a new device or an existing device which has had work done under a permit shall be issued a certificate of compliance upon the first cyclical inspection based on the following:

1. A device has been approved following the inspection and witnessing of an acceptance test, as required by N.J.A.C. 5:23-12.2, by the application of an Inspection Sticker Approval for Elevator and a recommendation by the elevator subcode official on an Elevator Subcode Technical Section form for a certificate of occupancy or approval, as the case may be.

- i. The date of the approval shall begin the cycle of inspections and tests for new devices in a new building and for new devices in an existing building which did not have elevator devices previously.

- ii. The date of the approval of an existing device in an existing building shall not change the device's existing cycle of inspections and tests. The cycle shall remain consistent with the inspection cycle in the building, except the device shall not be subject to the five year test before it is due as long as the acceptance test performed under the permit was a full five year test.

2. A device has been approved following the inspection process, as required for minor work by N.J.A.C. 5:23-2.17A(d)2 and 12.2, by the application of an Inspection Sticker Approval for Elevator and a recommendation by the elevator subcode official on an Elevator Subcode Technical Section form for a certificate of approval.

- i. The device may operate under the approval given under the permit until the next cyclical inspection, as determined by the inspection cycle of the building, and then shall be subject to a routine or periodic inspection the same as all other elevator devices in the building.

5:23-12.10 Inspections in seasonal facilities

(a) For purposes of this subchapter, a "seasonal facility" is defined as a building that is open, and available for use by members of the public, employees or maintenance personnel or any occupants, for a period of not more than 184 consecutive days and is then closed and not available for such use for at least 181 consecutive days.

(b) Elevator devices in seasonal facilities shall be subject only to the applicable periodic inspections and tests (one, three and five year). Such inspections and tests shall be performed prior to the building being used by employees, maintenance personnel, members of the public or occupants. A certificate of compliance or temporary certificate of compliance shall be granted only for the time period during which the device is allowed to operate in the seasonal facility.

1. The fees for performing such inspections and witnessing tests shall be in accordance with such provisions of N.J.A.C. 5:23-12.6 as may be applicable.

(c) An owner of a building with one or more elevator devices may obtain classification of the building as a "seasonal facility" from the local enforcing agency. A request for such classification shall contain the information in (d) below and shall be signed by the owner.

(d) An application for classification of a building as a seasonal facility shall include the following information:

1. The owner's name and address, the building address, the registration number, the device identification number(s), and the date of the last inspection;

2. That the total number of consecutive calendar days per year when the building is in use by the public, employees, maintenance personnel or occupants does not exceed 184 days and that the building is then closed for such use for at least 181 consecutive calendar days;

3. That the elevator devices in the building are not accessible to members of the public, employees, maintenance personnel or building occupants during the time in which the building is closed; and

4. That the disconnects located in elevator device machine rooms and machinery spaces are, during the time in which the building is closed, in the "off" position and locked; and that the access to the keys is secured.

(e) The seasonal facility classification shall become invalid when the conditions of the classification are no longer met. The owner shall immediately notify the enforcing agency of any change in the conditions upon which the approval of classification as a seasonal facility was based.

1. Classification of a building as a seasonal facility shall not be renewed if the classification became invalid as a result of a violation of any conditions of the approval of the classification.

(f) During the period of time in which any device in seasonal facility is in operation, it shall be subject to all applicable code requirements in the same manner as any other device subject to this subchapter.
