

The Port Authority of New York & New Jersey

May 2009

Monthly Traffic Report

Newark Liberty International John F.Kennedy International LaGuardia Stewart International Teterboro & regional satellite airport summaries

Aviation Department - Traffic Statistics

Doug Wilson
John Cuneo
Deyssi Mesa

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized. "Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

Aviation Department

May's traffic declined 8.3% for the 14th straight month as hopes of improvement brought about by April's milder 4.9% decline proved to be more about the timing of Easter than more flying. Nevertheless, this result is still better than the double-digit declines posted in the first quarter of the year. The -9.6% Ytd pax growth suggests that attaining -3.9% growth in 2009 will be a major challenge. We should not be surprised to see 2009 growth between -4.4% and -6.2%.
