REPORT.

OFFICE OF THE
NEW JERSEY STATE LIBRARIAN.
TRENTON, N. J., Nov. 1st, 1893.

To His Excellency George T. Werts, Governor, and ex-officio President of the Board of Commissioners of the State Library of New Jersey :

SIR—Permit me to submit the following report of the condition of the State Library, for the fiscal year ending October 31st, 1893.

At the time of my last annual report, the number of books, pamphlets, magazines and newspapers in the Library was 40,141. During the past year the following additions have been made by exchange with the General Government, the States and Territories and Canada, and by donation and purchase, as particularly specified in the appendix :

By exchange from other States, Territories and Canada..	457
By exchange from the United States.....	248
By individual donations, books, pamphlets, &c..	118
By individual donations, newspapers	78
By subscription, papers and magazines	71
By purchase, miscellaneous books.....	281
By purchase, law books..	265
From the State, bound volumes.....	200
Total additions.....	1,718

Making the whole number of books, &c., now in the Library, 41,859.

During the year 336 books and 17 newspaper files have been bound, and 231 books have been repaired. It is intended, after the session of the courts and the Legislature, to have many more repaired that cannot now be spared from the shelves.

As the Library is one of reference, and not of general circulation—there being no books of light literature upon its shelves—it has been my effort to collect, by purchase or otherwise, all the more prominent works of science, art, history, philosophy, religion, travels, and biography that could be obtained, and in this I have been cheerfully indorsed by the Chancellor and Chief Justice, the purchasing committee of the Commissioners, until both in the Law and Miscel-

lany the Library will favorably compare with any State Library in the country, while as a practical, "working" library, it has no superior.

To the Law Department every valuable work announced has been added, and the collection is the constant theme of admiration of leading old lawyers of Philadelphia, New York, Jersey City, Newark and Camden, who are employed in our State and United States Courts.

The Miscellaneous Department is celebrated for its varied treasures. Upon one wall is a complete set of the journals of Congress, including the "Globe" and the "Record," without a volume missing, and on another wall is a complete set of Patent Office Reports, including the Official Gazette, to date. Here the patent lawyers and their clients revel, and we call it our "Patent Office." In this department we have also all the leading Encyclopedias of the world, all the standard Histories, especially of the States, all the leading works on Theology, Philosophy, Science, Travels, Art and Biography, and the tables are constantly occupied by persons hunting up their pedigrees, students of the Normal School and Business Colleges preparing for debates and other exercises, and numerous reporters ascertaining or verifying facts for public information.

During the year we have been able to obtain a copy of that rare book, Carter's "Ancient Architecture of England," during the British, Roman, Saxon and Norman eras, down to the time of Edward III., illustrated by one hundred and nine royal folio engravings. There has also been added to the Library a full set of Harper's Magazine, with an index.

Through Mrs. Mercer Beasley the Library has also obtained a copy of Otto Lossing's "Bau-Ornamente," published in Berlin in 1878, in five folio volumes, with one hundred page plates.

Judge John Clement, of Haddonfield, has presented the Library a folio edition of "The Journals of the Lords and Commons of England," during the reign of Queen Elizabeth, 1558-1603, published in London in 1693. The frontispiece is a full-page engraving of the Queen and Parliament in session.

From Mr. F. Wolcott Jackson, General Superintendent of the New Jersey Division of the Pennsylvania Railroad, we have received the "Origin and History of the Camden and Amboy Railroad," written by J. E. Watson, Civil Engineer, Washington, D. C., while by Mr. Watson himself we have been favored with his "Biography of John Stevens and His Sons," and "Sketches of John S. Darcy, John P. Jackson and Robert F. Stockton," making a unique history of the old-time rival companies.

In accordance with the hope expressed in my last report, I am gratified to be able to state that during the past year the five attic rooms of the Library have been completed and lighted by electricity, so that I have succeeded in having 10,000 books of the United States and the individual States and Territories properly shelved and arranged, so as to be at all times accessible.

REPORT OF STATE LIBRARIAN.

7

During the year the entries upon the Register amounted to 2,350, being about 300 more than last year, although many visitors neglected to register.

The accompanying Appendix presents an itemized statement of the additions to the Library since my last report.

Respectfully submitted,

MORRIS R. HAMILTON,

State Librarian.
