JOURNAL OF THE SENATE

STATE OF NEW JERSEY,
SENATE CHAMBER,
TRENTON, TUESDAY, January 10th, 1893, 3:00 P.M.

As this was the time and place appointed by the Constitution for the assembling of the Legislature, the Senate was called to order by John Carpenter, Jr., Secretary of the last Senate.

The roll was called by the Secretary, when the following Senators appeared and answered the call:

Messrs. Adrain, Barker, Barrett, Butcher, Cornish, Hinchliffe, Keys, Marsh, Martin, McMickle, Miller, Perkins, Rogers—13.

Mr. Barrett moved that the Hon. Maurice A. Rogers be appointed President *pro tempore*,

Which motion was agreed to, and the Secretary appointed Senators Keys and Martin to conduct the President *pro tempore* to the chair.

Mr. Hinchliffe presented the credentials of Hon. Henry D. Winton, Senator-elect from the county of Bergen,

Which were read and approved, and the oath prescribed by law having been duly administered to Mr. Winton by the President *pro tempore*, he took his seat in the Senate.

Mr. Hinchliffe presented the credentials of Hon. Samuel D. Hoffman, Senator-elect from the county of Atlantic,

Which were read and approved, and the oath prescribed by law having been duly administered to Mr. Hoffman by the President *pro tempore*, he took his seat in the Senate.

Mr. Marsh presented the credentials of Hon. William H. Skirm, Senator-elect from the county of Mercer,

Which were read and approved, and the oath prescribed by law having been duly administered to Mr. Skirm by the President *pro tempore*, he took his seat in the Senate.

Mr. Cornish presented the credentials of Hon. Elias C. Drake, Senator-elect from the county of Morris,

Which were read and approved, and the oath drescribed by law having been duly administered to Mr. Drake by the President *pro tempore*, he took his seat in the Senate.

Mr. Barrett presented the credentials of Hon. Henry S. Terhune, Senator-elect from the county of Monmouth,

Which were read and approved, and the oath prescribed by law having been duly administered to Mr. Terhune by the President *pro tempore*, he took his seat in the Senate.

Mr. Barrett presented the credentials of Hon. William D. Daly, Senator-elect from the county of Hudson,

Which were read and approved, and the oath prescribed by law having been duly administered to Mr. Daly by the President *pro tempore*, he took his seat in the Senate.

Mr. Barrett presented the credentials of Hon. George G. Smith, Senator-elect from the county of Ocean,

Which were read and approved, and the oath prescribed by law having been duly administered to Mr. Smith by the President *pro tempore*, he took his seat in the Senate.

Mr. Miller presented the credentials of Hon. Edward C. Stokes, Senator-elect from the county of Cumberland,

Which were read and approved, and the oath prescribed by law having been duly administered to Mr. Stokes by the President *pro tempore*, he took his seat in the Senate.

Mr. Barrett presented the following protest, which was referred to the Committee on Elections, when appointed:

To the Senate of the State of New Jersey:

This, the petition of William Riddle, of the city and county of Atlantic, said State, respectfully shows unto your Honors:

That your petitioner is a citizen of the United States of America; was of the age of thirty years prior to the 8th day of November last past, and has been a citizen and inhabitant of said State for more than four years, and of the said county of Atlantic for more than one year continuously next before said date, and that he was, on the said date, eligible to be elected to the office of member of the said Senate for and from the said county.

That, by virtue of an act entitled "An act to regulate elections," approved April 18th, 1876, and the supplements thereto, an election was held on said date, in said county, for a member of said Senate from said county.

That at said election your petitioner insists that he received the largest number of votes legally cast for any person for said office of Senator from said county, and that he was duly elected to said office at said election, and should have been returned and declared so elected, and insists that he is now entitled to said office.

That one Samuel D. Hoffman was, by the board of canvassers of said county, declared to said office by a plurality of fifty-five votes,

and has since received, as your petitioner is informed, a certificate of election to said office.

That your petitioner protests that said certificate is false and untrue, and he contests the so declared election of the said Samuel D. Hoffman for the following causes, viz.:

Because of the illegal registration of a great many persons, not legal voters in said county, in the different precincts of said county, particularly in the said city of Atlantic; the said illegal registration being by members of the Republican party, and principally of the names of negroes, and for the purpose of voting on such names for the Republican candidates at said election, especially for said Samuel D. Hoffman; the number of names so illegally and fraudulently registered being far in excess of the declared plurality of said Samuel D. Hoffman as aforesaid; two instances of such registraiton are herein referred to as an illustration.

Such fraudulent registration being, in many cases, from empty houses and vacant lots, and in some instances of as many as eight negroes from one small two-story house, which had been occupied for several years continuously by but one family, containing only one man, no other man having ever slept or lodged or in anywise had his home or abode there during such years, and none of the persons so registered from said house, except the head of the house, being known to or by the head of the only family residing therein or to or by any member of his family; and furthermore, the only male member of such family, of the age of twenty-one years, being himself of foreign birth, of foreign parents, and not naturalized or entitled to vote; all being the names of negroes, and all, as testified to, being of the Republican party, and on all of which names so illegally registered (said names being given in to the registry board by a Republican negro, as testified to,) votes were cast by negroes at said election, and for the Republican candidates, including the said Samuel D. Hoffman for said office. And in another instance as many as nineteen (19) negroes being registered by a negro Republican from his own home, a small two-story building, with the lower floor used for a cigar store, kitchen and dining-room, and the upper floor for sleeping apartments; said negroes being said to belong to a Republican club having its meeting place there, so said by the negro who had them registered, whereas some of such negroes have testified that they never knew of any such club, and did not belong to it, and never stopped at said house, and did register and vote from elsewhere at said election, and that such negro knew that they lived and registered and voted from elsewhere; yet that such negroes' names, so registered, were in many cases voted on, from said house by negroes.

Because of the casting of a large number of illegal votes, in said county, at said election, for the Republican candidates, and particularly for the said Samuel D. Hoffman for said office, which

votes, so cast, were largely in excess of the said declared plurality of the said Samuel D. Hoffman; such votes being cast on the names of negroes and others, principally negroes, illegally and fradulently registered as aforesaid, and such votes, so illegally cast, being counted, returned, canvassed and declared for said Samuel D. Hoffman, for said office.

Because of mistakes made by the different election boards, in said county, at said election, whereby said boards counted and returned for said Samuel D. Hoffman, for said office, many votes which were legally cast and which should be counted and returned, canvassed and declared at said election for your petitioner aforesaid for said office and not for said Samuel D. Hoffman, and whereby said boards counted and returned for said Samuel D. Hoffman for said office many other votes which were not cast for him and which should not be counted for him; and whereby said boards failed to count and return, canvass and declare for your petitioner for said office a great many votes which were legally cast for your petitioner for said office at said election,—such votes, being so counted for said Samuel D. Hoffman, for said office, and not counted, as aforesaid, for your petitioner, for said office, being in excess of the declared plurality of the said Samuel D. Hoffman, for said office.

Because of the counting for said Samuel D. Hoffman for said office, at said election, of a great many ballots containing the name of said Samuel D. Hoffman for said office, but which ballots were so marked as to plainly distinguish them from the other ballots cast at said election the same in all respects as the ballots so marked, except such marks, which so distinguished such baltots from the other ballots; such marked ballots being so marked for the purpose of distinguishing them from the other ballots, in pursuance of a conspiracy entered into by and between Republican workers at said election and purchasable voters or floaters thereat,—the said ballots, so marked and voted and counted for the said Samuel D. Hoffman, being far in excess of the declared plurality aforesaid.

Because of unlawful conduct on the part of election officers, at said election, in failing to give to the voters, a full set of tickets, as they entered the polling places to vote; and in failing to give out the Democratic ticket to all such voters as they entered the polling place to vote; and in failing to give official envelopes to all voters as they entered the polling place to vote; and in rejecting many ballots cast for your petitioner because not cast in official envelopes, when the voters of said ballots were not furnished with any official envelope wherein to cast their ballots, and because of many other illegalities and irregularities in the conduct of said election to the prejudice of your petitioner, all of which will more fully appear by reference to the testimony taken in the matter of this contest before Samuel E. Perry, Master in Chancery of said State.

Your petitioner hereby protests against the said Certificate of Election issued to said Samuel D. Hoffman as aforesaid, and to the holding by said Samuel D. Hoffman of said office of member of the Senate, and prays that all the facts, matters and things relating to said election, held in said County of Atlantic for said office of Member of the Senate may be inquired into by your Honorable Body, and that said Certificate of Election so issued to said Samuel D. Hoffman be declared and held as null and void, and that your petitioner may be declared to be the duly qualified and elected member of the Senate for said County of Atlantic, and put in possession of said office.

Respectfully,

(Signed) WILLIAM RIDDLE.

Under the direction of the President *pro tempore*, the Secretary called the roll, when the following Senators appeared and answered the call:

Messrs. Adrain, Barker, Barrett, Butcher, Cornish, Daly, Drake, Hinchliffe, Hoffman, Keys, Marsh, Martin, McMickle, Miller, Perkins, Rogers, Skirm, Smith, Stokes, Terhune, Winton.

The Senate then proceeded to the election of a President of the Senate.

Mr. Barrett nominated Hon. Robert Adrain, of the county of Middlesex.

Mr. Stokes nominated Hon. Maurice A. Rogers, of the county of Camden.

Under the direction of the President *pro tempore*, the Secretary called the Senate, with the following result:

Senators voting for Mr. Adrain were:

Messrs. Barker, Barrett, Butcher, Cornish, Daly, Drake, Hinchliffe, Keys, Marsh, Martin, McMickle, Miller, Perkins, Rogers, Terhune, Winton—16.

Senators voting for Mr. Rogers were:

Messrs. Adrain, Hoffman, Skirm, Smith, Stokes—5.

Mr. Adrain, having received a majority of all the votes cast, was declared by the President *pro tempore* duly elected President of the Senate for the ensuing year, and was conducted to the chair by Senators Barrett and Stokes, after which he took the oath of office as President of the Senate.

Upon taking the chair, the President addressed the Senate, briefly thanking the Senators for the honor again conferred upon him, and said he would endeavor to discharge his duties with entire satisfaction to all.

The Senate then proceeded to the election of a Secretary.

Mr. Barrett nominated Samuel C. Thompson, of the county of Warren.

Mr. Rogers nominated J. Herbert Potts, of the county of Hudson.

Under the direction of the President, the Secretary called the Senate, with the following result:

Senators voting for Mr. Thompson were—

Messrs. Adrain (President), Barker, Barrett, Butcher, Cornish, Daly, Drake, Hinchliffe, Keys, Marsch, Martin, McMickle Miller, Perkins, Terhune, Winton—16.

Senators voting for Mr. Potts were:

Messrs. Hoffman, Rogers, Skirm, Smith, Stokes—5.

Mr. Thompson, having received a majority of the votes cast, was declared duly elected Secretary of the Senate, and took the oath of office prescribed by law.

Prayer was then offered by the Rev. George C. Maddock, of Trenton.

Mr. Barrett offered the following resolution, which was read and adopted:

Resolved, That a committee of three be appointed to wait upon His Excellency the Governor, and inform him that the Senate has organized and elected Hon. Robert Adrain, of the county of Middlesex, President, and Samuel C. Thompson, of the county of Warren, Secretary, and is now ready to proceed to business; and also to receive any communication he may make.

The President appointed Messrs. Keys, Cornish and Skirm as such committee.

Mr. Barrett offered the following resolution, which was read and adopted:

Resolved, That the Secretary of the Senate be directed to inform the House of Assembly that the Senate has organized, and elected Hon. Robert Adrain, of the county of Middlesex, President, and Samuel C. Thompson, of the county of Warren, Secretary, and has proceeded to business.

The Senate then proceeded to the election of an Assistant Secretary.

Mr. Barrett nominated William E. Ross, of the county of Sussex.

Mr. Rogers nominated William H. Long, of the county of Somerset.

Under the direction of the President, the Secretary called the Senate, with the following result:

Senators voting for Mr. Ross were:

Messrs. Adrain (President), Barker, Barrett, Butcher, Cornish, Daly, Drake, Hinchliffe, Keys, Marsh, Martin, McMickle, Miller, Perkins, Terhune, Winton—16.

Senators voting for Mr. Long were:

Messrs. Hoffman, Rogers, Skirm, Smith, Stokes—5.

Mr. Ross, having received a majority of the votes cast, was duly elected Assistant Secretary of the Senate for the ensuing year, and took the oath prescribed by law.

The Senate then proceeded to the election of a Journal Clerk.

Mr. Barrett nominated George K. Coleman, of the county of Essex.

Mr. Rogers nominated Joseph M. Engard, of the county of Camden.

Under the direction of the President, the Secretary called the Senate, with the following result:

Senators voting for Mr. Coleman were:

Messrs. Adrain (President), Barker, Barrett, Butcher, Cornish, Daly, Drake, Hinchliffe, Keys, Marsh, Martin, McMickle, Miller, Perkins, Terhune, Winton—16.

Senators voting for Mr. Engard were:

Messrs. Hoffman, Rogers, Skirm, Smith, Stokes—5.

The committee appointed to wait upon the Governor returned and reported that they had attended to that duty and that His Excellency would communicate with the Senate by message.

The following message was received from the Governor, by the hands of Mr. Abbett, his Private Secretary, as follows:

Gentlemen of the Senate ane General Assembly:

In obedience to the requirements of the Constitution, I herewith present to you my annual message, showing the condition of the State and recommending such measures as I deem expedient.

CONDITION OF THE STATE.

I congratulate the Legislature and the people upon the condition of the State at the close of the fiscal year of 1892. Its financial condition was never better. It has no floating debt; the old debt was paid off during the preceding year and none has been incurred since. The balance in the treasury at the close of the fiscal year was $217,532.19 greater than at the close of the preceding year. The Comptroller's report shows that the net expenditures for ordinary disbursements, special appropriations, payment on the war debt and for other purposes, amount to $1,656,351.96. There is due at the date of this

message on the old war debt the sum of $837,400, with more than sufficient assets in the possession of the State to pay this debt. There are assets in the Sinking Fund for this purpose amounting to the sum of $471,123.70, and the State owns 1,887 shares of the stock of the United New Jersey Railroad and Canal Companies which would now sell in the market for $437,784, and also riparian leases, the principal sums of which amount to $13,694.70, making a total of $922,602.40 for the payment of this indebtedness of $837,400. These war bonds would, therefore, be extinguished, but for the fact that they are not due, and the holders thereof demand a premium of thirty-five per cent. The debt is being extinguished as fast as it is legally possible to pay the same.

All the State boards and institutions are in excellent condition, and are being conducted as economically as possible, consistent with efficient management.

The policy recommended to the Legislature in 1884, and repeatedly since that date, has secured increased revenue to the State, and large sums have been paid thereunder to the localities from the tax derived from railroad and canal corporations. The liberal policy of the State toward miscellaneous corporations has largely increased its revenue from this source. This policy has induced numerous corporations to organize under our laws, and large amounts of foreign capital has thus been brought under our tax laws. The effect thereof is shown in the increase of revenue from this source; in 1885 it was $140,629.23, in 1892 it was $465,452.10. Many of these corporations come here merely for corporate existence, and to secure the benefit of exemption from the stringent laws of other States imposing liability upon directors and stockholders.

The result of this policy has been to secure to the State a large revenue which would have gone elsewhere, except for the existence of these liberal laws. This legislative policy has been, in my judgment, a wise one. The large revenues derived from it would not have been received if New Jersey had not offered greater inducements to capital than adjoining States. An illiberal policy would drive from the State the great mass of these corporations, which would seek investments elsewhere. It is our interest not only to keep them, but to encourage others to organize here, so that our people will derive a benefit from the revenue which they pay. By reason of the large revenue received from railroad and miscellaneous corporations, our people have been relieved of the burden of a direct State tax for governmental purposes.

New Jersey imposes no State tax whatever, except for school purposes. The amount collected for this purpose is returned to the localities, and not retained by the State. The people have always been willing to pay tax for the support of free public schools. The only complaint has been that our agricultural communities have paid a

larger portion of the school tax than the cities, and that this excessive burden was due to unfair school census returns made by certain localities. This complaint will have no force in the future. Under the recent act requiring a State census, an accurate and honest census of all the children of school age in the State has been taken, and this will serve as a basis for a fair distribution of the school tax raised. This census has been taken at a very small additional expense to that of the old census taken by the local assessors, while it has saved to the people of the State nearly one hundred thousand dollars, by eliminating from the census the names of thousands of children, that either had no existence or were outside the school age.

There is no necessity for any increased taxation, either upon corporations or individuals for ordinary State expenditures. The revenue we receive is sufficient to maintain all the different departments of the State government, and leave a surplus that can be used for extraordinary expenditures. The condition of the State, however, does not warrant any large expenditures for new buildings or extraordinary expenses. The only new source of revenue has been the imposition of a collateral inheritance tax, which, although but recently imposed, has secured to the State over $20,000 of increased revenue. If, however, the State should require additional revenue, the taxes upon railroad corporations can be increased until they pay equally with individuals. The municipalities of the State may properly ask for additional revenue, to relieve the heavy burdens now imposed upon them, which relief could be given them by removing the exemptions on corporate property taxed for local purposes allowed under the act of 1884, and such increase can legally be made until these corporations pay under the act of 1884 equal taxes with individuals in proportion to the property owned by them.

It has been suggested that the act which provides for the payment of the proceeds of new grants and leases into the State Fund be amended so that these moneys be paid to the School Fund. The net amount received by the State last year, after payment of expenses in collecting this fund, was $39,791.16. If this source of State revenue is to be extinguished it will diminish the power of the Legislature to use these funds for public purposes. If the money is paid into the School Fund it must be invested, and only the interest derived therefrom can be used. The principal is tied up for all time if once paid into that fund.

If any legislation is had upon this subject, as it will affect the State revenue. I recommend to the Legislature that it provide, first, that all the moneys expended by the State for salaries or expenses of the riparian board, or necessarily expended in collecting or taking care of this fund, be paid out of the moneys received from these grants and leases, so that the State will not be obliged to pay out of the State revenues the expenses of collecting the fund, when it

receives no portion of it. The legislature should then designate the use to which the balance of these receipts should be appropriated.

I recommend that the balance remaining be appropriated in bulk to the reduction of the State school tax imposed upon our people. The State school tax, and the other moneys expended for school purposes are heavy burdens in many farming localities, and I know of no better use for money devoted to school purposes than to apply it to a reduction of the State school tax, so as to lighten the burdens of taxpayers to that extent.

FINANCES.

The reports of the Comptroller and Treasurer present in detail the financial operations of the State for the fiscal year ending October 31st, 1892.

There are two funds referred to in these reports, one the State and the other the School Fund; they are kept separate from each other, and I shall deal with them in the same manner.

STATE FUND.

The State Fund received during the fiscal year the following net amounts:

RAILROAD TAX.

From tax on railroad corporations payable within the fiscal year		$967,475 17

DISBURSEMENTS.

Usual disbursements for fiscal year ending October 31st, 1892	$1,269,890 47	
Special appropriations paid	87,051 10	
Amount paid for expenses incurred in fiscal year ending October 31st, 1891, but paid in fiscal year ending October 31st, 1892, the items of which are shown in the Comptroller's report	60,050 16	
Paid on war debt	52,600 00	
Other expenditures	186,760 23	
Total net disbursements		$1,656,351 96
Balance on hand October 31st, 1892		619,701 15
Total		$2,276,053 11

The ordinary receipts on State account for the fiscal year ending October 31st, 1893, will in all probability be greater than those of the preceding fiscal year. There may, however, be a diminution in some of the sources of revenue, and it would not, therefore, be safe for the Legislature to act upon the basis of total ordinary receipts of over $1,800,000. This will leave a balance over ordinary State expenses for 1893, which can be used to meet appropriations heretofore made by the Legislature, and for which no other source of revenue has been provided.

ASSETS OF THE STATE FUND.

The securities of the State Fund are as follows:

1,887 shares of the stock of the United New Jersey Railroad and Canal Company of the par value of $188,700, now worth	$437,784 00
Principal sums named in riparian leases, granted under act of March 19th, 1890	13,694 70

I have not included in these assets the items of Centennial stock and bonds of the several counties of the State for surplus revenues of the United States, for the reason, as explained in my former message, that they are no longer of any value as assets.

SCHOOL FUND.

The investments of this fund are as follows:

Riparian leases held as the property of the fund	$635,877 35
Bonds secured by mortgages	563,413 50
Newark city bonds	505,000 00
Bonds of school districts	269,215 00
Union county bonds	185,000 00
City of Bayonne bonds	162,500 00
Mercer county bonds	120,000 00
Real estate	118,950 00
New Jersey bonds	117,000 00
Hudson county bonds	100,000 00
1,000 shares of stock of the Camden and Amboy Railroad and Transportation Company	100,000 00
New Brunswick city bonds	81,000 00
Paterson city bonds	75,000 00
East Orange bonds	72,500 00
Jersey City bonds	50,000 00
Franklin township, Essex county, bonds	50,000 00
Hoboken city bonds of 1890	50,000 00
Town of Freehold bonds	46,000 00
Union township, Bergen county, bonds	42,500 00
Township of Kearney, Hudson county, bonds	36,000 00
355 shares of stock of the New Jersey Railroad and Transportation Company	35,500 00
220 shares of stock of the Trenton Banking Company	11,000 00
Trenton city bonds	4,000 00
	$3,430,455 85
There was also cash on hand to the credit of the fund at the end of the fiscal year	$321,974 00

This item of cash on hand must gradually decrease, because the amounts of money which are paid out, under various acts of the Legislature, exceed the income of the fund. During the past year there was paid out the sum of $39,174.04, in excess of the income of the fund. There was also a loss of $4,000 on real estate sold, and

the sum of $798.49 was paid for accrued interest on bonds purchased during the year, only the principal of which is given in the list of securities in the School Fund. There was an increase during the year in the School Fund securities of $114,888.25, purchased and added to the fund.

The receipts of the School Fund during the past fiscal year were as follows:

From income—

Interest on bonds, and bonds and mortgages	$118,995 19	
Rent on riparian leases	38,441 21	
Dividends on stock	14,430 00	
Rents on Properties of School Fund	1,583 50	
		$173,449 90

From securities paid off—

Stocks and bonds	$10,500 00	
School district bonds	18,127 50	
Bonds and mortgages	47,575 00	
Riparian leases	2,434 25	
Real estate	10,000 00	
		88,636 75
Loans on sale of real estate		4,000 00
School Fund expenses account (return of insurance premiums)		143 66
Balance on hand November 1st, 1891		480,834 78
		$747,065 09

This amount is accounted for as follows:

Investment of school funds during year	$207,525 00	
Accrued interest paid on bonds purchased during the year	798 49	
Loss on sale of real estate	4,000 00	
		$212,323 49
Disbursements on account of Normal and Model, Farnum, and Deaf-Mute Schools, Industrial Education, State School Dept., and other items shown in the Treasurer's report		212,767 60
		$425,091 09
Balance on hand October 31st, 1892		321,974 00
		$747,065 09

SINKING FUND.

The assets of the Sinking Fund at the end of the fiscal year, October 31st, 1891, were as follows:

Loans on bonds and mortgages	$274,352 68	
Unpaid interest due October 31st, 1891	1,937 58	
Real estate, cost per statement	226,580 41	
Due from Thomas Crozer on decree	6,441 44	
Balance in bank	29,324 32	
Making total of		$538,636 93

The Treasurer reports the assets of the fund for the fiscal year ending October 31st, 1892, as follows:

Loans on bonds and mortgages	$269,066 68	
Unpaid interest due October 31st, 1892	2,702 71	
Real estate, cost per statement	191,838 60	
Due from Thomas Crozer or decree	6,441 44	
Balance in bank	1,074 27	
		$471,123 70
Decrease in assets during the fiscal year		$67,513 23

This decrease is accounted for as follows:

Bonds and mortgages, October 31st, 1891,	$274,352 68		
Bonds and mortgages, October 31st, 1892,	269,066 68		
		$5,286 00	
Real estate, October 31st, 1891	$226,580 41		
Real estate, October 31st, 1892	191,838 60		
		34,741 81	
Balance in bank October 31st, 1891	$29,324 82		
Balance in bank October 31st, 1892	1,074 27		
		28,250 55	
		$68,278 36	
Deduct unpaid interest, increased		765 13	
			$67,513 23

The following amounts were collected and received on this account during the fiscal year ending October 31st, 1892:

For interest	$12,779 98	
For rents	4,020 76	
For sales of real estate	28,750 00	
For mortgages paid in full and on account	4,000 00	
		$49,550 74
For State appropriation to pay war debt bonds due	$52,600 00	
For State loan to Sinking Fund	11,400 00	
		64,000 00
		$113,550 74
Balance in banks October 31st, 1891		29,324 82
		$142,875 56

The following amounts were disbursed from this fund:

Expenses paid on real estate, repairs, seed and fertilizers, &c.	$1,094 29	
Expenses paid for commissions on sale of real estate	475 00	
Principal and interest of debt paid	116,832 00	
State loans to sinking Fund, paid in full to date	23,400 00	
	$141,801 29	
Balance in bank October 31st, 1892	1,074 27	
		$142,875 56

TAXATION.

The State Board of Taxation was formed under the provisions of an act passed in 1891 (*P. L.* 1891, *page* 189). The act provided for the appointment of three Commissioners, and Albert H. Slape, Theodore P. Hopler and Charles C. Black were appointed, and are still acting. The Board was created to deal with the inequalities of taxation in different parts of the State in order to equalize these burdens. The farmers of the State, individually, in many cases, and through the State Board of Agriculture, and other organized associations representing this industry, favored some legislation which would give them relief.

There was no legal machinery in existence which would remedy the injustice of which they complained. The County Boards of Equalization of Taxation were powerless to do it; the courts under the writ of *certiorari* were unable to deal with the question so as to equalize the taxes; their functions were limited to correcting unfair assessments.

The board made its first report to the Legislature in January, 1892, and although it had only been organized nine months, it had revised some gross valuations in certain counties in the State, and had corrected certain individual assessments; it had formulated rules for the government of assessors and had been of great practical benefit by its patience, care, industry and tact in the performance of its onerous and ofttimes unpleasant duties. The Board had won the approval of the intelligent and reprentative farmers of the State, for whose benefit it had been especially established.

The Board has now entered upon the second year of its existence, and the members have continued in the faithful performance of their duties. They have popularized the Board by having sessions in different parts of the State for the benefit of the people in the various localities, so as to save them the expense of a journey to the capital. The Board has been in session fifty-eight days; it has heard and decided two hundred and three cases on appeal; it has formulated new rules, and the members have performed their duties so effectively that they have received the well-earned commendations of the State Board of Agriculture, as will be seen by the report of its president. The entire yearly expenses of the Board have been $10,178.84, while the rules it has laid down for the assessors, and its watchful care in enforcing the same, have caused an increase in the list of ratables returned by the assessors in 1891 of $51,340,329, and in 1892 of $41,314,668.

The report of the Board contains certain recommendations suggesting new legislation. I call the careful attention of your body to the

views as expressed therein and also to those stated in the previous report and which are referred to in my message of 1892.

The report will be presented to the Legislature under the provisions of the act creating the Board.

The main recommendations made by the Board are as follows:

First. Compelling assessors to obey the law by penalties of removal and forfeiture with increased pay of assessors in townships under ten thousand inhabitants.

Second. By making uniform in all taxing districts the time for assessment, and its completion, the collection of taxes, and lien on the property, and giving each taxpayer ample opportunity to see how the assessments are made, for the purpose of furnishing evidence for an appeal in case of unjust taxation.

Third. Re-drafting the law covering exemptions, and limiting the exemptions to those founded upon good reasons and public policy.

Fourth. Fixing a tax rate which shall not be exceeded in any taxing district.

Fifth. Requiring all assessments on lands and improvements to be made separately in municipalities.

Sixth. Giving the State Board of Taxation power to increase individual assessments.

Seventh. Requiring all incorporated companies in the State, on demand, to file with the State Board of Taxation a list of their shareholders, with the addresses, and requiring the said corporations to pay the tax on such shares as are held by non-residents of the State of New Jersey, thus increasing the amount of tax derived from invisible personal property.

Eighth. That there shall be no deduction for individual debts, except from the assessed value of personal property.

TAXABLE AND EXEMPT PROPERTY IN THE STATE.

In connection with the subject of taxation, it is interesting to consider the value of property in this State, and the extent of exemptions under existing laws, and the increase of ratables since 1879, and the wonderful increase during the past three years. The total assessed valuation of property in the State, subject to taxation, is as follows:

Value of railroad and canal property in 1892	$216,249,782 00
Other classes of property in 1892, as appears by the return of ratables in the Comptroller's office	742,759,082 50
Total	$959,008,864 50

To ascertain the total real and personal property in the State we must add to the above—

First—The deduction for debts made from the valuation of the real and personal estate of individuals by local assessors under section 20 of the act of April 11th, 1866, amounting to		$41,300,000 00
Second—The amount returned by local assessors of exempt real estate, as required to be valued by the local assessors under section 4 of the act of March 19th, 1891, viz.:		
Churches	$20,000,000 00	
Public school property	8,627,131 00	
Colleges and seminaries	6,000,000 00	
Cemeteries	11,000,000 00	
Public property	12,000,000 00	
		57,627,131 00
Third—The exemptions of veterans, National Guardsmen, firemen, etc., under special acts, amounting, as estimated by the State Board of Taxation, to		8,000,000 00
Total		$1,065,935,995 50

The inequalities in assessments and the violations of the law by local tax assessors in many localities, which demanded reform, were referred to in my inaugural message of 1890, and I there recommended the appointment of a non-partisan commission to examine into the subject. In pursuance of the recommendation, the Legislature passed a joint resolution, April 7th, 1890, providing for a committee of six persons to take into consideration the taxation of property, and prepare and report to the Legislature thereafter a bill for that purpose. This committee was appointed and their action was fully set forth in my message of 1891. They called attention to evils existing and suggested legislative action. Among other things recommended by them was the creation of a State Board of Taxation, in which I concurred. The Legislature passed on act creating this Board (*P. L. 1891, page 189*), whose work has been particularly referred to in this message. The action of the Executive, of the Commission, and of the State Board, together with the natural increase in the ratables of the State, has produced its effect, and the assessable valuation of real and personal property of the State (exclusive of railroads and canals) has, during the past three years, increased over $124,000,000, a greater amount than the combined increase of the preceding ten years, as will appear by the table given below.

These figures show the wonderful increase in the material property of the State during the past three years, under efficient and honest enforcement of the tax laws.

Increase in valuation in New Jersey from 1880 to 1892, inclusive:

	Increase.
1880	$9,725,180
1881	8,834,704
1882	8,016,654
1883	13,027,193
1884	6,633,045

	Increase.
1885	$10,709,841
1886	7,718,349
1887	13,651,057
1888	16,759,653
1889	14,427,810
1890	31,874,937
1891	51,340.329
1892	41,314,668

MUNICIPALITIES AND TAXATION.

I renew the recommendations in reference to this subject made by me in my message of 1892. Municipal taxation is the heaviest burden imposed upon the taxpayer, and the Legislature should endeavor to find some method which will render it impossible for extravagance, incapacity or fraud to impose unnecessary municipal burdens upon the taxpayer. If it had not been for the substantial aid received by the localities from the operation of the railroad tax act of 1884, certain municipalities would have been in danger of financial embarrassment.

I am still of the opinion, as stated in my last message, that the only sure method of limiting this burden is to fix a rate beyond which the local authorities cannot tax property.

The aggregate local tax assessed for 1891, as far as could be ascertained from data in the Comptroller's office, amounted to $18,238,706.98, of which about three million dollars were used for the payment of interest. The total amount of municipal floating and funded debt for 1892, as far as can be ascertained, is $54,160,960.15, an increase over last year of $245,159.84.

This is a first lien upon property in different taxing districts. It has increased to this enormous figure under legislation authorizing the issue of bonds for public improvements and other purposes. The Legislature cannot be too careful in the passage of such laws; they should only be enacted to meet an emergency where imperative public necessity demands immediate improvement, whose cost, if paid for directly by taxation, would be oppressive to the citizens.

I annex a schedule showing in detail the places and amounts of debt by which this sum is reached, with a list of the places that have made no report to the Comptroller. These figures and this condition must impress the Legislature with the seriousness of this question.

I repeat what I said in my last message: "No service that the Legislature can render the people will be more gratefully appreciated than a law which will stop the increase of public debt, provide for the payment of that now existing, and secure a limitation of the tax rate for municipal purposes.

STATE TAX ON RAILROADS AND CANALS FOR LOCAL USES.

The taxing districts of the State have received substantial aid from the operations of the railroad tax act of 1884. Under its provisions certain taxes are collected by the State for local uses and paid to the localities. The amounts thus received necessarily reduce the sums required to be raised by local assessments upon the ratables. The following table shows the aggregate amounts prid for the following years to the State and to the localit es thereunder:

YEAR.	STATE TAX.	LOCAL TAX.	TOTAL TAX.
1885	$902.848 90	$221,924 50	$1,124,773 40
1886	926.645 18	292,468 80	1,219,113 98
1887	930.991 63	292,633 38	1,223,625 01
1888	939.378 17	293,955 86	1,233,334 03
1889	963,237 81	324,471 32	1,287,709 13
1890	985,395 77	328,375 67	1,313,771 44
1891	1.007,899 35	338,507 03	1,346,406 38
1892	1,042,007 41	348,617 08	1,390,624 49

The details as to the companies paying this tax, and the municipalities and counties among which this local tax has been distributed, will be found in the Comptroller's report.

The amount of tax on railroad and canal corporations, levied and collected under the old law, for the year 1884, was $713,-655.46. This whole amount was used for State purposes, and no portion thereof was paid to the localities. A comparison of these figures with those above given will show how greatly the State and municipalities have been benefited by the railroad tax legislation of 1884.

RIPARIAN COMMISSION.

This Board was re-organized under the act of March 10th, 1892 (*P. L. 1892, page 84*). Under this act I appointed Willard C. Fisk, Miles Ross, Gustavus A. Seide and Alvin P. Hildredth. The Governor is, *ex-efficio*, a member of the Board. It was organized March 19th, 1892, by the election of the Governor, *ex-efficio*, as Chairman; Willard C. Fisk, Vice-Chairman, and Robert C. Bacot as Secretary and Engineer. The former employees of the Commission were continued, and the business proceeded without any delay.

COLLECTED FOR STATE ACCOUNT.

During the fiscal year for grants in fee	$33,268 54
Rentals on new leases	219 00
License to Pavonia Yacht Club	100 00

Licenses to railroad corporations to cross lands of the State under water	$19,700 00
Licenses for taking sand, etc	300 00
License to improve land under water in Passaic river	650 00
Total for State account	$54,237 54

The principal sum of new leases amounts to $5,399.70. There was expended for salaries and expenses of the Board the sum of $13,275.39, to which should be added the sum of $1,170.99, being the October, 1892, expenses, which were not paid until after the close of the fiscal year. This leaves the net amount of money received by the State Fund from this source, $39,791.16.

During the past year the School Fund received from this source the following sum:

Leases converted into grants	$2,434 25
Rents received by State Treasurer on old leases	38,441 21
Total received by School Fund	$40,875 46

During the fiscal year an extraordinary expense was incurred by the completion of a new set of maps, sixty-one in number, showing all the riparian lands within the State, and having accurately located thereon the bounds of all the grants and leases heretofore made, with the name and date of the grant or lease. These were compiled from data in the office, and the expense of their compilation and the necessary investigation and work in connection therewith amounted to the sum of $467.55. This is not an annual expense, but forms part of the aggregate expenses above stated. These maps are of great value, not only to the Commission, but also to purchasers and others interested in riparian lands.

During the year I have acted with the Commission in making personal examinations of the lands of the State, so as to intelligently readjust prices to be charged therefor. Particular attention has been given to the southern portion of the State. The result of this action has been to materially increase the prices charged for the remaining lands of the State under water.

AGRICULTURE.

I have always taken a deep interest in the advancement and care of the agricultural interests of the State, and have been assisted by the Legislature in the passage of measures which have been recommended to me by the State Board of Agriculture and organized bodies having in charge the interest of the farmers in different localities of the State. I have at all times received the advice and assistance of the president

and secretary of the State Board of Agriculture and the committees of the Board in furthering the interests of those engaged in this industry.

We have the New Jersey State College for the benefit of agriculture and the mechanic arts; the Agricultural Experiment Station, and the Weather Service Bureau, which, with the State Board of Agriculture, have intelligently and successfully worked to disseminate scientific and practical knowledge among the farmers of our State. At the request of the representatives of this industry, and in order to relieve the farmers of unjust valuations, the law creating the State Board of Taxation was passed. This Board has performed its duties in such a manner as to receive the approval of the State Board of Agriculture, as will be seen by a careful perusal of the very interesting reports of the president and secretary of that Board, to which I call your careful attention.

In order to assist the farmers in their demands for good roads, the Legislature, upon my recommendation, passed two acts (*P. L. 1891, page 380; P. L 1892, page 346*) authorizing the use of State funds to assist in the building of these roads, and making an appropriation of a sum not to exceed $75,000 per annum. There are now three roads in Middlesex county which have been completed under the provisions of these acts. The State has paid therefor $20,661.85, being one-third of the certified cost of their construction. These are the first roads that have been constructed in the United States under acts which provide for State aid for public highways. I am satisfied that these laws will be found to be of the greatest advantage in the near future to those engaged in agriculture, and that the farmers of the State will generally avail themselves of this legislation.

In addition to the recommendations I have made in previous messages, I earnestly invoke your attention to the suggestions made upon this important subject by the State Board of Agriculture and the other representatives of the agricultural interests of the State. There is, in my judgment, no industry which should receive greater consideration than agriculture. I am especially gratified that the State has taken advanced grounds upon this subject, and I am satisfied that the Legislature in the future will do everything within its constitutional power to make it profitable to those engaged in it.

In this connection I also call the attention of the Legislature to the report of the State Board of Agriculture, asking a further allowance to enable the Board to make a proper agricultural and horticultural exhibit at the Columbian Exposition in 1893. I recommend that a further appropriation be made so as to enable this Board to make such an exhibit as will be creditable to our farmers and advantageous to the State.

In view of the increased duties placed upon the president of the Board, by reason of the road laws, and the work in connection with

the Columbian Exposition, his time has been almost continuously occupied in the service of the State, and I recommend that he be properly compensated.

I also desire to call attention to the very interesting and instructive reports of the president and secretary of the Board. They report that the interest manifested by the Executive in his messages, and the laws passed by the Legislature in conformity thereto, have advanced the popularity and usefulness of the State Board of Agriculture, and have enabled it to begin lecture work on scientific questions connected with this industry in all its branches in the counties of the State, through County Boards of Agriculture, Grange meetings, and Farmers' Institutes. The University Extension movement, in charge of the State Agricultural College is also an efficient means for the diffusion of knowledge upon this subject.

They refer also to the laws of the State in reference to roads, and recommend that they be left without radical alteration. They commend "the township road law" of March 28th, 1888 (*P. L. 1888, page 240*), and say that its wisdom has been demonstrated, and that the same is now generally approved, although there was much opposition to it at the time it was enacted. They commend the laws passed giving State aid to the construction of permanent roads, and favor the continuance of this law without amendment until it has had a fair trial. In connection with these acts, they also call attention to the Union county or Miller law, of March 19th, 1889 (*P. L. 1889, page 58*). These acts, they state, give a comprehensive and unique code for the control and improvement of roads in our State, and place New Jersey far in advance of almost every other State in her legislation providing for a practical system of permanent roads. These laws will be of incalculable advantage to our farmers, by lessening the cost of transportation and expenses incident thereto; they will also bring new permanent residents which will increase the population of the State and the value of our lands. The secretary states that the business of agriculture in New Jersey is steadily advancing to a higher degree of efficiency and productiveness; that the tendency of those engaged therein has been to abandon the production of cereals and employ their lands in the growing of other crops which will give a greater pecuniary yield. The more intelligent farmers of the State are ever on the alert to better their condition by making a change in their products, which shows a thoughtful appreciation of the advantage of producing those crops which pay better in the great markets which lie near to us in adjoining States. The variety and importance of these crops will be clearly manifest in the State exhibit at Chicago in 1893, under the supervision of the State Board of Agriculture.

Attention is also called to the advance of the dairy interests in this State, and the increase in dairy products, and the decided improvement in the raising of dairy cattle. It is suggested that those engaged

in this business throughout the State should co-operate for mutual protection and reasonable profit.

The secretary calls attention to the necessity of legislation to control or suppress the swill-milk factories in some of our large cities, as both injurious to health and an unfair competition with the wholesome products of the farms.

He recommends the passage of a bill similar to that introduced at the close of the last session of the Legislature, for the purpose of securing the annual collection of agricultural statistics. He claims that, if it is wise for the State to pay out money for the collection of statistics for labor and manufacturing industries, there is no reason why farmers should not have the benefit and advantage of reliable statistics concerning this great industry.

He also calls attention to what was stated in my previous message, that there is no State in the Union where farm lands and improved farms can be purchased at such reasonable prices as in the State of New Jersey, considering its advantages in adjacent and profitable markets, and the productiveness and fertility of its soil. He believes, and I concur with him, that a large additional farming population would be attracted here if our advantages of cheap lands, fertility of soil and extensive and good markets were properly presented to those seeking investments.

He refers to the fact that the attention of colonizers and immigrants has been directed to the southern counties of the State, and the result has been an increase of population and productiveness in these localities, which have every assurance in their development of permanence and prosperity.

He also states that, as a factor capable of disturbing agriculture, the abandoned farm scare is a myth; that it arose from the fact that the cultivation of lands for cereals had ceased to be profitable, and that such lands are gradually being turned into the production of other crops which yield better revenue to the farmer.

STATE WEATHER SERVICE.

The work of the New Jersey Weather Service has been the preparation of the regular monthly and annual meteorological summaries, and the issue of the weekly "Weather Crop Bulletin." The crop bulletin was issued from May 6th to September 12th, and furnished to the farming interests throughout the State that information which is most useful to them, namely: The effect of current weather conditions upon the growing crops and their actual condition from week to week, from seeding to harvest time, as reported by seventy-five correspondents.

A permanent organization having been secured, much valuable climatic data will be obtained from its corps of fifty-four well-trained meteorological observers. One hundred and eighty-three persons are now engaged in the voluntary performance of the duties of the service.

EDUCATION.

The condition of the educational interests of the State of New Jersey is very gratifying. There has been additional school accommodation provided for, as shown by the report of the State Superintendent of Public Instruction, and the value of school property has increased nearly one million dollars. The school property of the State now amounts to $10,004,236. The total expenditure for school purposes during the past year was about $4.000,000. The sum of $748,718.78 was expended during the past year for new buildings and repairs, and additional accommodations were provided for 8,437 pupils. Our schools will now accommodate 235,839 pupils. The enrollment of children has been increased 5,754 during the past year, and 766 male and 4,015 female teachers were employed, being an increase of 144 over the preceding year. The average salary paid per month to the men is $75.34, and to the women $43.54.

Under the efficient management of the new Board there has been a decrease in the expenditures of the Deaf-Mute School of $18,088, while its general usefulness has been increased. The addition to the State Normal School has been completed and furnished, and is now in use; it has greatly improved the efficiency of the school. The total amount expended for this building and its furniture was $48,000.

The new State census taken under the supervision of Hon. John J. Mathews, appointed for that purpose, has enabled the State Board to obtain a correct statement of the children of school age in the State, and will enable the Board to distribute the ten per cent. of the school tax upon a more equitable basis than heretofore. The old method of taking the school census, it was well known, was unreliable, and the new census has demonstrated that great injustice has been done certain portions of the State by the distribution made under it. We now have a census on which we can rely.

The incorporation of industrial features into the schools has been of great practical benefit, and is growing in public favor. For manual and industrial training there has been paid by the State during the past year $24,325.95, and the localities have raised a like sum for these purposes.

A special committee was appointed by the Board for the purpose of having a creditable display of our school system at the World's Columbian Exposition at Chicago in 1893. This committee has

devoted a large amount of time and work to obtain a complete exhibit. Free supplies of stationery have been distributed among the schools, and the State Superintendent issued a comprehensive circular of instructions concerning the plan to be pursued in preparing the various exhibits. The committee report that the amount apportioned them by the New Jersey Commissioners of the World's Fair is inadequate to make the exhibit such as the State should send to Chicago, and they ask for a further appropriation.

I take pleasure in calling attention to the work of the State Board of Education during the past year. I cannot summarize it better than by referring to the statement made by Dr. Nicholas Murray Butler, chairman of the Committee on Education. He said at the last meeting of the State Board of Education that greater progress had been made during the past three years in educational matters than in any preceding decade in the history of schools in this State; that the Normal School during that time had doubled its attendance, extended its buildings, enlarged its facilities and had reached an unexampled era of prosperity; that many economies had been introduced, so that despite its rapid development it had become, to a considerable extent, self-supporting; that the Model School had increased its number of pupils, and was more popular than ever; that the Deaf-Mute School had been fully re-organized, the expenses reduced and the efficiency of the school largely increased. During the same period a new and correct census of children of school age had been taken under the recent act of the Legislature, which was a great advance on previous methods; that the whole system of State examinations and the licensing of teachers had been re-arranged and improved, and the standard of efficiency throughout the State had been raised.

The laborious and gratuitous work of the members of this Board is deserving of great praise, and is, I am convinced, thoroughly appreciated by all those who are interested in educational matters in the State.

I call particular attention to the recommendations and suggestions made in the report of the State Superintendent, and the committees of the Board, to still further advance our free school system. Our people have never complained of any tax imposed upon them under fair rules for the education of the children of the State. Taxation for this purpose is willingly borne because the prosperity and the advancement of the State depend upon the education of its children. In my messages for 1891 and 1892 I dealt fully with this subject, and I call attention thereto in connection with what I have here stated.

NORMAL AND MODEL SCHOOLS.

The Normal School was established under the act of 1855 (*P. L.* 1855, *page* 25), for the training and education of teachers in the art

of instructing and governing the common schools of the State. The school has had an exceptionally prosperous and successful year. Its course of study has been enriched, the standard of scholarship raised, and the methods of teaching sensibly improved by the new facilities placed at the disposal of the instructors. Since the establishment of the school it has graduated 1,429 teachers. The annual enrollment has increased from 43 to 398. Of this growth 143 have been added during the last three years, contemporaneous with an increase in the length of the course of study and the requirements for admission. During these three years the annual graduation has grown from 35 to 118. A very large percentage of the graduates are engaged in the actual work of teaching. They are well equipped for their work, as is amply demonstrated by the increased favor with which they are received, and the larger compensation which is paid them from year to year. The supply of these teachers is not equal to the present demand. An addition to the annual appropriation is asked, because of the enlargement of the corps of teachers rendered necessary by its growth.

The Model School is maintained as a pattern school wherein the Normal students can witness the best principles of teaching in practice and gain experience therein. This school is self-supporting. Its annual enrollment since its organization has increased from 125 to 603, there being a growth of 158 during the past three years. During these three years the annual earnings of the school have advanced from $13,959.46 to $19,794.65.

The total receipts of the two schools for the past year, including the balance from last account, annual appropriation, books and tuition, were $48,762.01. Disbursements, $44,567.17; balance, $4,194.84. During the past year the residence formerly occupied by the principal was added to and taken as an extension to the boarding halls, and a new residence purchased for the principal. The capacity of the halls was thus increased to accommodate 120 additional students.

The receipts for the boarding halls for the past year were $56,659.43. Disbursements, $56,012.39; balance, $584.04.

The total valuation of the property of these schools is estimated at $345,000.

FARNUM PREPARATORY SCHOOL.

The total enrollment of the Farnum School during the last year was 124. The total receipts for the year were $5,337.33. Expenditures, $4,379.88; balance, $957.45, an increase in the balance of $158.27 over that of last year. A small sum was spent for repairs during the year.

DEAF-MUTE SCHOOL.

The School for Deaf-Mutes is, on the whole, in a satisfactory condition. Its internal organization has been completely remodeled during the year, greatly to its advantage. The enrollment of pupils has remained practically stationary, although I think it reasonably certain that there are many deaf-mute children in the State who have not yet shared in the opportunities that it affords.

The number of pupils at the school during the fiscal year ending October 31st, 1892, was 142; the average attendance was 124½. The committee having the school in charge state that there is immediate need of extensive repairs, and an addition for hospital purposes.

NATIONAL GUARD.

The National Guard has been re-organized, in order to make it conform as nearly as possible to the new drill regulations of the regular army. The details have been carried out by the major-general commanding.

Since the State acquired title to the camp grounds at Sea Girt, additional improvements have been made which have beautified the grounds and placed them in a more perfect condition. There are still some needed improvements, as suggested by the Quartermaster-General, which will gradually be made, and when completed will make it an ideal camp ground in every respect.

The Second Brigade, under command of Major-General William J. Sewell, went into camp during the past year. The discipline, drill and appearance of the men, and the general improvement in the brigade in every respect were most noticeable and received cordial commendation, not only from the officers of the National Guard, but also from military visitors from every portion of the country. The expenses of the encampment were $27,228.68.

The National Guard has sustained a serious loss in the death of Brigadier-General Dudley S. Steele, whose long years of service in the guard, whose splendid soldierly qualities, and whose courteous and loveable disposition endeared him to every one connected with the service.

During the past year a provisional brigade, in command of Major-General William J. Sewell, consisting of twenty-five companies, attended the Columbian military parade and celebration in the city of New York on the twelfth day of September. The brigade was accompanied also by the Essex Troop. It was gratifying to the Commander-in-Chief, as it must have been to every citizen of New Jersey, to witness the magnificent reception given to the brigade and

the troop on the line of march, and hear the encomiums passed upon their splendid appearance and perfect discipline.

The National Guard consists of 303 officers and 3,727 enlisted men, making a total of 4,030, which is an increase during the year of 204. This force is now organized into fifty-six companies of infantry and two gatling gun companies.

The total expenditures for National Guard purposes were as follows:

For encampment	$27,228 68
For State Arsenal purposes	5,657 64
For rifle practice	5,551 70
Annual appropriation to companies in lieu of armory rent, etc	31,650 40
Expenses of State camp ground	6,906 86
All other expenses	22,589 43
Total	$99,584 71
The Quartermaster has paid into the State Treasury an amount, realized by the sale of arms of obsolete patterns, etc	14,770 15
Leaving the net amount paid by the State for National Guard purposes	$84,814 56

RIFLE PRACTICE.

There has been great advance in the proficiency of the soldiers of both brigades in rifle practice, as will be seen by the very interesting report of General B. W. Spencer, Inspector-General of Rifle Practice.

He reports that great interest has been manifested in rifle practice, and that the results have been most gratifying. He reports that the skirmish instructions and drill followed, as closely as possible, that in use in the United States Army.

The figure of merit for individual skirmish fire was 15.36, being 13.95 for the First and 17.40 for the Second Brigade. Nine hundred and eighty-six marksmen and sharpshooters qualified, being an increase of 141 over the preceding year. Increased efficiency was shown by the increase of the State figure of merit from 29.18 in 1891 to 34.73 in 1892.

In 1892 there were 39 qualified as sharpshooters, making a score of 42 and upwards, against 23 in the preceding year. He refers to the splendid practice of the Gatling Gun Company. He suggests the adoption by the National Guard of the new rifle recommended by the army board to take the place of the Springfield rifle.

The competition of the teams representing the National Rifle Association took place during the past year at the camp ground at Sea Girt instead of at Creedmoor, which had been used for this purpose since 1871. The Sea Girt range has attained a national reputation, and it was gratifying to have the National Rifle Association select the rifle range at the New Jersey State Camp. Those competing expressed entire satisfaction with the camp and its management.

SOLDIERS' HOME.

On the thirty-first day of October, 1892, there were 461 beneficiaries in the Soldiers' Home at Kearny, being an increase of four over the preceding year. During the year, 423 were admitted, 345 discharged, twenty-two summarily and two dishonorably, and fifty died. The average number per day was 483. Since the home was opened there have been 17,357 soldiers cared for by the institution. The total receipts for the year, including balance on hand, were $77,086.23. This includes a balance of the appropriation for the new ward, amounting to $6,000. The disbursements were $67,191.87, leaving a balance in the hands of the Treasurer of the home of $9,894.36.

At the close of the fiscal year 337 of the inmates of the home were receiving pensions from the general government, aggregating $38,171.92 per annum.

STATE PENSIONS.

The Adjutant-General reports that the State pension roll for veterans of the war of 1812 includes four persons, as against seven reported last year, three having died. Under the provisions of the act granting pensions to the soldiers of the National Guard, injured in the line of duty, or to the widows of soldiers killed in the performance of military service, there are now on the pension rolls two soldiers and three widows of soldiers; one claim was allowed during the past year, and three applications are still pending.

PENSIONS UNDER ACTS OF CONGRESS.

The Adjutant-General's office has continued its work on behalf of those New Jersey volunteers who have unsettled claims for pensions pending before the pension department of the United States. Under joint resolution No. 1, approved March 10th, 1880, these claims have been examined in the Adjutant-General's office, and in proper cases their allowance urged upon the proper auditing officers of the United States Treasury. More than twenty-three hundred calls for information have been made upon the various departments of the United States Government during the past year in reference to pending claims for the relief of soldiers, sailors and their dependents, under the several acts of Congress, and great assistance has been rendered by the State to this class of our citizens.

GETTYSBURG MONUMENT ASSOCIATION.

This Commission was created under the act of March 13th, 1889 (*Laws of 1889, page 52*). Under this act William H. Corbin, Col. E. L. Stratton and Dr. George T. Riddle were appointed commissioners. I have received their final report, which they conclude with the statement that their term of office has expired, and that in their opinion it would be unnecessary to continue the Commission longer unless the State should undertake some new work upon the field of Gettysburg.

They report their receipts to have been $1,870.87 and their expenditures $1,783.97, leaving a balance on hand to be covered into the treasury of $86.90. There are upon the Gettysburg battlefield about three hundred and fifty monuments, which are under the care of the Gettysburg Battlefield Memorial Association of Pennsylvania, which has control of the field.

The Commission reports that all the New Jersey monuments and markers, twenty-six in number, and their surroundings are in thorough order; that their solidity and simplicity in design will tend to render them permanent; that they are all of granite of most excellent quality, and that not the slightest deterioration is as yet noticeable in them, and that even without any care or attention they will stand for centuries.

The Commission, in the fulfillment of their duties, paid four visits to the Gettysburg battlefield, and caused, by direction of the Governor, a bronze tablet to be placed over the monument erected to Battery A, with the inscription thereon:

"Hexamer New Jersey Battery."

"Commanded in this battle by First Lieut. Augustine H. Parsons."

I call your special attention to the interesting history contained in this report of the monument to the First New Jersey Brigade, which was composed of the First, Second, Third, Fourth and Fifteenth regiments of infantry, the monuments to the Fifth, Sixth, Seventh, Eighth, Eleventh, Twelfth and Thirteenth regiments of infantry, the monuments to the First cavalry and the monuments to the Hexamer and Clark batteries. The report contains a clear and graphic description of the monuments, their surroundings and relations to this great battlefield, which will interest every patriotic citizen.

WASHINGTON ASSOCIATION.

The treasurer of this association reports that during the year ending November 1st, 1892, the association has expended for the care, main-

tenance and perpetuation of the headquarters at Morristown the sum of $3,247.29.

DEPARTMENT OF BANKING AND INSURANCE.

This department was created under the provisions of an act to establish a department of banking and insurance, approved February 18th, 1891. (*Laws 1891, page 17*).

The increasing number of banking, insurance and other financial corporations of like character, the growth of their assets, the important interests involved and the increasing duties of the Secretary of State, together with the limited powers of the State boards, made the creation of the department a necessity.

The efficiency of the work of the department since it has been in operation has been moit satisfactory, and it has demonstrated the value of its establishment.

In most of the States insurance and banking corporations are under the control of separate departments, but they were united in this act in the interests of economy and good management.

The salaries of the department are paid out of the fees collected from the corporations under its control, and it is, therefore, conducted without expense to the State.

The department is supervisory in its character, and on the Commissioner is imposed all the duties formerly performed by the Secretary of State, acting as Commissioner of Insurance, and the duties of the Board of Bank Commissioners and other boards relating to these corporations.

The Commissioner is charged with the execution of all laws relating to insurance, banking, savings, trust, guarantee, safe deposit and other similar corporations.

At present 260 corporations are reporting to, and under the supervision of, the Commissioner. Careful examinations have been made into the condition of most of these, and successful efforts have been made through the courts and by other means to retire weak and failing institutions and to era licate fraudulent short-term organizations.

The reports of the Commissioner will be found of great interest and invite careful examination. They contain comparative statements of the growth of the business of the various corporations reporting to the departments, and valuable information in reference to different kinds of insurance and banking institutions, the investment of their assets and the nature and volume of their business.

He calls attention to the improper use of the benevolent and charitable act of 1875, by a class of short-term endowment associations, which, while claiming to be benevolent in character, have been repudiated and generally denounced by the genuine benevolent organizations of the State. The recommendations of the Commissioner for

legislation and his views concerning the enormous increasing fire waste throughout the country should receive consideration.

The National Boord of Fire Underwriters have invoked official influence to secure legislation looking toward compulsory investigation into causes of fires and the prosecution of fradulent cases. Some States have already taken action in this matter and others will undoubtedly follow their course in such legislation as will enure to the benefit of the companies and the property-owning public.

The losses by fire in the United States in 1891 reached the enormous total of $143,000,000, and in this State these losses increased from $1,152,220 in 1888 to $2,027,958 in 1891.

During the last session of the Legislature a bill was introduced to provide for the investigation of the origin of fires, but failed to pass. It provided for an investigation by the chief of the fire department, and in cases in which there might be be a reasonable ground of suspicion that the fire was by design, an inquest was directed to be held by the coroner. The purpose of the act was not only to punish persons guilty of arson but to reveal special sources of danger and point out faults in buildings through which fire might originate.

After careful consideration of the subject, I am satisfied that a law should be passed providing for the appointment of a State officer by the Governor, to be confirmed by the Senate, who should, when directed by the Governor upon request of any insurance company, investigate any fire in which such company was interested. The creation of such office should not entail any expenses upon the State, but the investigation, when made, should be paid by the companies interested in the insurance. The limited revenue paid by these corporations to the State does not warrant expenditures from the treasury for this purpose, and their pecuniary interest in the result of the investigation makes it reasonable and proper that they should pay the expenses thereof. Such officer should report to the Commissioner of Banking and Insurance and be under his immediate direction and supervision as to the character of the investigation and the expense thereof.

STATE PRISON.

The State Prison account for the fiscal year, according to the Comptroller, is as follows:

EXPENSES.

Salary account	$82,327 55
Maintenance	83,077 91
Repairs	5,042 49
Money paid discharged convicts	1,348 50
	$171,796 45

From this deduct prison receipts as they appear in his report (*a*)...	75,608	04
Deficiency	$96,188	41
The Supervisor reduces this deficit by a claim for increase on account of bills receivable and stock on hand October 31st, 1892, over October 31st, 1891, amounting to.....	12,550	21
Which, if allowed, would reduce the actual deficiency of 1892 to.....	$83,638	20

The previous fiscal year embraced payments for thirteen months, including the accounts for the month of October, 1890, and October, 1891.

The elimination of this extra month made in my previous message, amounting to $7,233.97, left the deficiency on State Prison account properly chargeable to the fiscal year ending October 31st, 1891, $86,834.09. (*b*)

The daily average of prisioners confined in the State Prison during the last fiscal year was 975, of whom 946 were males and 29 females. This is an increase in the daily average of 24. The number of prisoners at the close of the fiscal year was 947, a decrease of 42 over the previous year.

The law authorizing the parol of prisioners by the Court of Pardons upon their obtaining the certificate of the keeper that they are proper cases for parol, accompanied by a certificate guaranteeing them employment upon their release, is highly approved of by the keeper of the prison.

The system of parol, while it releases the prisoner from physical confinement, does not pardon him or restore him to citizenship. His being at large depends upon his good behavior, and he can at any time be returned to the prison to serve out his sentence if his conduct is not that of a good citizen. The question of restoration to citizenship is left to be determined thereafter by the Court of Pardons, if it is found that he has continuously during the remainder of his sentence conducted himself in such a manner as to warrant the court in remitting the further penalties of his crime. Its good effect is shown by the fact that only two out of seventy-eight paroled have been re-

(*a*) The Supervisor makes the earnings from convict labor $76,058.93. This would leave $450.89 which has been earned, but not turned over to the State treasurer.

(*b*) The Supervisor reports that this should be $89,111.08. The difference, $2.276.99, he accounts for by certain debits and credits shown in his accounts. He debits cash returned to Comptroller in November, 1890, for receipts for month of October, 1890, but not included by Supervisor in his report for fiscal year of 1890, $6,093 81. He deducts from this as credit three items, viz.: Expenses of removing pregnant woman, paid directly by Treasurer, $9 80; amount of increase of amounts receivable and stock on hand October 31st, 1891, over 1890, $3,307.02; amount refunded keeper on account of over-payment made by him in 1890, returned by Supervisor in his report of 1890, $500. This leaves the above amount of $2,276.99, which he claims should be added to the sum of $86,839.09 and would make the real deficiency for 1891, $89,111.08.

turned. The remainder have shown by their conduct that the clemency of the court was wisely exercised. Under the provisions of the law requiring separate confinement for each criminal, the prison will only accommodate 706 inmates. This provision cannot be complied with because the number sent to the prison greatly exceeds the limit, and if it were not for those released on pardon and parol the condition of things in the prison would be intolerable by reason of overcrowding.

The prison authorities report that the old wing, which is now used for blacksmith shops and other purposes, could be remodeled so as to give cell room for 200 additional convicts at an expense of $75,000, and that this change could be made without any practical interference with the management of the prison. If a new wing were built it would cost about $35,000 additional and would involve interference with the south wing now occupied by convicts, who during the alteration, would have to be crowded into the remaining portions of the prison. The financial condition of the state warrants this expenditure of $75,000, and legislation should be had authorizing this change to be made under the supervision of the Governor and the prison authorities.

I again call attention to the recommendation in my message of 1891 in reference to the reorganization of the State Prison management, so as to decrease expenses, and to my suggestions for increasing the income of this institution. The annual deficiency is a heavy drain upon the State treasury.

STATE REFORM SCHOOL FOR BOYS.

At the close of the fiscal year ending October 31st, 1892, there were 348 boys in the institution, an increase of 19 over the previous year. During the year, 93 boys were committed to the institution and 68 boys were returned, making the total number cared for during the year, 490. During the same period 75 boys were released on their recognizances; 39 indentured, 14 escaped, 7 were discharged, 5 died and 2 were returned to court as incorrigible. The boys are engaged in farming, printing, manufacturing brushes and bricks, and in various trades useful in carrying on the institution.

The State Reform School received during the year for maintenance the sum of $49,508.24, and for manual training a special appropriation of $5,000. In addition the school received from the sale of farm produce and live stock the sum of $2,602.12; from the manufacture and sale of brushes, $10,732.81; from the labor of the boys in the manufacture of brushes under the old piece-price plan, $526.34; from the manufacture and sale of miscellaneous articles, $493.81; from provisions and board, $71.54; from the sale of old articles,

$46.60. The trustees also received directly from the State Treasury $284 for traveling expenses incurred in the performance of their duties.

All the expenses incident to these sources of revenue are charged to maintenance account, except the brush manufacturing account, the salary of the printer, whose time was devoted exclusively to instructing the inmates in manual training, and $138.36 for relaying the floor in the school room used for manual training. The expenses of the brush industry amounted to $12,899.59, leaving a deficiency over receipts of $2,166.78.

This industry has, however, to its credit money due for brushes sold	$1,462 64
Machinery, tools, etc., on hand, costing	431 32
Manufactured and raw material on hand, valued at	3,072 13
Assets to offset cash deficiency	$4,966 09

There was no income from the printing department, and the $1,000 salary paid the superintendent is all charged against manual training. Last year the institution was employed in the brush industry under the piece-price plan, and received for labor $3,092.77, the contractors furnishing the tools, machinery and all the materials. The contractors refused to continue the contract, and the institution was obliged to proceed with the work on its own account; this involved the purchase of machinery and material and selling the products.

The balances at the end of the fiscal year, October 31st, 1891, were on the maintenance account	$4,220 27
On appropriation of 1887	727 56
On library appropriation	387 93
On lighting appropriation	1,747 95
	$7,083 71

The balances on hand at the close of the fiscal year, October 31st, 1892, were as follows:

On lighting account	$1,747 95
On library appropriation	387 93
On $5,000 paid in 1892 for manual training appropriation under act 1891 (*L.* 1891, *page* 495)	2,726 08
On maintenance account	142 23
Total	$5,004 19

The maintenance account was increased during the last fiscal year by the following expenditures, which are not annual charges:

New pump and repairs to steam pipes	$2,113 86
Less amount taken from the appropriation of 1887	278 60
Leaving	$1,835 26

Amount spent for new uniforms	2,213 54
Total	$4,048 80

INDUSTRIAL SCHOOL FOR GIRLS.

At the opening of the fiscal year there were 70 girls in the school and 20 out at service under indentures, making a total of 90 girls under the control of the trustees. October 31st, 1892, there were 87 girls in the school and 21 under indenture, making a total of 108.

The treasurer reports the receipts for the year as follows:

From State Treasurer for additional building and furnishing same	$24,984 95
From State Treasurer for maintenance	13,446 49
From State Treasurer for expenses of trustees	118 40
From sale of produce	418 42
Balance on hand October 31st, 1891	1,214 76
	$40,183 02

The expenditures were:

For an additional building and furnishing the same	$24,984 95	
For other purposes	11,720 39	
		36,705 34
Balance on hand October 31st, 1892		$3,477 68

HOME FOR FEEBLE-MINDED WOMEN.

The Superintendent reports that the institution had fifty-eight patients on September 30th, 1892, being an increase of sixteen over the previous year.

The report of the Treasurer of receipts and expenditures from October 23d, 1891, to October 26th, 1892, is as follows:

Balance on hand, last annual report	$370 53
Maintenance, State patients	11,059 77
Maintenance, private patients	719 92
State appropriation for building	12,000 00
Advances	3,084 50
	$27,234 72

The expenditures are as follows:

New building	$12,202 40
All other expenses	14,428 79
	$26,631 19
Balance on hand	603 53
Total	$27,234 72

The expenses per patient according to the above is $248.77 per annum.

SCHOOL FOR FEEBLE-MINDED CHILDREN.

This training-school is under private management, but the State has generally sent all the feeble-minded children to this institution, because it is situated in this State.

The State has paid for the education, clothing and maintenance of 163 children, during the fiscal year, the sum of $38,936.05. The average per capita per annum sum paid is about $280. The reports of the Board of Directors and of the officers of this institution makes an excellent showing of the rapid and healthful development of every department. Without any aid from the State whatever, except a per capita yearly allowance for indigent children, the school has acquired a plant, chiefly through the generosity of public-spirited citizens, which the management estimate to be of the value of $70,000.

The inauguration and successful conduct of this school deserves just recognition. It is delightfully situated at Vineland, and in my visits to this institution I have been pleased with its management. It is a great charity, under the management of a Board deserving of high praise for its great work for those poor children, who appeal so strongly to our sympathies for their care and comfort.

STATE ASYLUM FOR THE INSANE.

The work of the new Board created under the act of March 17th, 1891 (*P. L. 1891, page 68*), has been very gratifying. The Board has control of both the asylums at Trenton and Morris Plains. The Warden of the Morris Plains Asylum in his report to the Board compares the results accomplished in that asylum in 1892 with those of 1890, prior to the establishment of the new Board. It shows most gratifying results. The magnitude of the interests under the management of the Board was shown in my message of 1892. I there stated the value of the land and improvements and the number of patients and officers and employees under their control.

The medical director at the Morris Plains Asylum reports that the institution is overcrowded; that while the building was originally erected to accommodate not over 650 patients, the number at the close of the fiscal year was 949; that in order to increase the capacity of the institution, the fourth floor of the building, which was not intended to be occupied by patients, has been utilized in making the present capacity of the institution capable of accommodating 825. He also recommends that there should be an infirmary, detached from the main building, in which patients having contagious or infectious diseases can

be isolated and cared for. He refers to the harmony existing between the business management of the institution, as carried on under the superintendence of the warden, and the medical department as carried on under his direction.

Trenton Asylum.

At the close of the fiscal year there were under treatment at this institution 878 patients, of whom 421 were males and 457 females, a gain of 58 over the preceding year. The total number treated during the year was 1,056, of whom 528 were men and 528 women. This is an increase of 67 over the largest number under care at the institution in any one year. The number of new cases admitted was 236, of whom 116 were men and 120 women. The daily average of patients was about 839. During the year, 178 patients ceased to be inmates of the institution, of whom 75 died, 69 recovered, 29 improved, 4 unimproved and 1 escaped. There were at the close of the fiscal year 759 patients classed as indigent, who are supported by the counties sending them, except one dollar per week per patient, which is paid by the State; there were 101 private paying patients, and also 18 convict patients supported by the State.

The receipts and disbursements for this asylum, according to the steward, were as follow:

RECEIPTS.

Cash on hand November 1st, 1891	$40,888 55
Amount received from private patients	30,684 71
From the counties for board and clothing and incidental expenses of county patients	122,367 72
From State Treasurer for county patients	37,337 57
From State Treasurer for convict patients	6,714 88
From sundries	1,975 29
	$239,968 72

EXPENDITURES.

Real estate, fixtures, grounds and grading, improvements to buildings and repairs	$13,410 50
Wages	51,701 43
Other expenses	115,311 33
	$180,423 26
Cash balance on hand October 31st, 1892	59,545 46
	$239,968 72

The accounts of the treasurer and steward at the beginning and close of the fiscal year differ, because the treasurer did not pay an outstanding order of 1891 of $20.00 until after Oct. 31, 1891; there were unpaid outstanding orders Oct. 31, 1892, amounting to $41.30.

These figures leave a balance of $21.30, which is just the difference between the balance of accounts of the steward and treasurer at the close of the fiscal year.

Morris Plains Asylum.

At the close of fiscal year there were 949 patients at this institution, 471 males and 478 females, a gain of 51 over the preceding year. The total number treated during the year was 1,151, of whom 590 were men and 561 women. The daily average for the year was about 930. There were, at the close of the fiscal year, 791 patients who are classed as indigent, and are supported by the county sending them, except $1 per week per patient, which is paid by the State; 115 private paying patients and also 43 convict patients supported entirely by the State. During the year 253 new cases were admitted, of whom 135 were men and 118 women. During the same period 202 ceased to be inmates of the institution, of whom 68 recovered, 30 improved, 9 unimproved, 91 died and 4 escaped.

The total receipts and expenditures of this institution were as follows:

RECEIPTS.

Cash balance October 31st, 1891	$6,444 62
Amount received from private patients	41,449 47
From counties for board, clothing and incidental expenses of county patients	140,715 41
From State treasury for county patients	39,958 57
From State treasury for convict patients	16,067 38
From sundries	7,623 67
Total	$252,259 12

EXPENDITURES.

Real estate, fixtures, grounds and grading, improvements in buildings and repairs	$19,340 38
Wages	46,537 53
Other expenses	167,077 61
Total	$232,955 52
Cash balance October 31st, 1892	19,303 60
Total	$252,259 12

The improvements on real estate, on account of new buildings, etc., and the increased value of stock and new materials on hand, which give additional value to the institution, and amount to many thousands of dollars, is included in these expenditures, and were deemed necessary by the Board in order to put the institution in proper con-

dition. A more detailed statement will be found in the report of the warden.

The report of the warden also gives a comparative statement of the cost of maintenance in 1890 and 1892. In 1890 it was $126,698.54 and in 1892, $103,355.68, a reduction of $23,342.88, although the average number of patients in 1892 in excess of 1890 was $61.32.

The comparison is made between 1890 and 1892, because the new Board was only in office during seven months of the fiscal year of 1891. He also states that there is now

Due to the institution from the State, county, and private patients a sum which has been already earned during the fiscal year, but which has not yet been received, amounting to	$46,753 39	
In addition, there is in store, according to inventory and estimation of appraisers, placed at actual cost price at wholesale, and fuel and subsistence, valued at market price, a total of	15,031 10	
		$61,784 49
From this sum should be deducted the liabilities properly chargeable to the fiscal year of 1892, including bills on file, amount due on pay-roll, etc., not paid in that year	17,802 23	
Additional credit beyond cash balance		$43,982 26

STATE CHARITIES AID ASSOCIATION.

The Board of Managers state that there should be a change in the laws which govern our jails, because under the present system commitment to jail is not dreded; it is not looked upon as a place of punishment. They recommend cumulative sentences with hard work, and call attention to the probationary system in operation in Massachusetts, and recommended the passage of a similar law for our State. They report a steady and slow improvement in the management of alms houses, and the dismissal therefrom of a number of old and infirm persons whose relatives are able to maintain them. They call special attention to the necessity of legislation to stop the repeated return to the alms houses of women who seek its shelter for the birth of illegitimate children. They state that this evil is becoming so notorious that it is necessary to give it immediate attention.

They commend the management of the county asylums, but strongly condemn the keeping of the insane in a number of the county and town alms houses, and recommend legislation to prevent the continuance of the injustice and cruelty resulting from this state of affairs; they call attention to the desirability of providing trade schools for pauper children; they commend the State Institution for Feeble-minded Women and Girls at Vineland, and recommend that all restrictions as to the age of those to be sent to this institution be removed by legislation.

They also commend the management of the Deaf-Mute School at Trenton, the Industrial School for Girls and the Reform School for Boys, and call attention to the fact that the State Prison and the Reform School are both overcrowded. They recommend the establishment of an intermediate reformatory, based upon the system at the Elmira Reformatory. The also commend the management of the Essex and Hudson Penitentiaries.

STATE BOARD OF HEALTH.

I call attention to the important matters affecting the health of our citizens, referred to in the report of the State Board of Health. They embrace questions of water supply, sewage, house construction, plumbing arrangements, collection and disposal of refuse matter, and the management of contagious and infectious diseases. During the year special attention has been given to organizing local boards and instructing them in the details of their duties and privileges under our excellent system of sanitary laws. The Board has given special attention to the institutions of correction and charities, and report that there has been general improvement in State institutions, especially in sanitary matters. They report their conference with the Executive in reference to the danger to health and life caused by the cholera-infected ships from other countries lying in waters adjacent to our State, and to the use of Sandy Hook by the National Government for quarantine purposes. They report that all the necessary powers to protect our State from this dreaded disease can be exercised by the local boards, in connection with the special powers authorized to be exercised by the State Board over transportation companies. Active preparations were made to meet any possible contingency that might arise. The Board joined with the Executive in protesting against the use of Sandy Hook as a quarantine station by the United States, as such use was a menace to the health and lives of our citizens, and a most serious injury to the various summer resorts on our coast.

In view of the use of Sandy Hook by the United States for quarantine purposes, I call the attention of the President of the United States to the terms upon which jurisdiction was vested in the United States by the State of New Jersey under the act of March 12th, 1846. I claimed, on behalf of the State, that it was to be used for military purposes, and that the use of it for quarantine purposes, as contemplated, was not within the mind of the Legislature at the time of the grant. I also insisted that if the United States exercised any power to use the ground for quarantine purposes, it could not permit it to be used by the State of New York without affirmative action on the part of the New Jersey authorities. I called attention to the fact that Sandy Hook was part of the mainland, and to the necessity of

extraordinary precaution to be taken by the United States authorities if they used this land for quarantine purposes. I urged the employment of a water patrol and proper guards on the land to prevent any of the passengers from cholera-infected ports, or those having charge of them, coming in contact with any of our citizens.

I also urged that if the United States assumed quarantine jurisdiction, it should have proper vessels to take up and destroy all floating matter thrown from any of the incoming steamers or vessels, and that it should prevent in the future such dangerous matter being thrown into the waters of the lower bay, where it floated on our shore. I call attention to the fact that boxes and bedding from these steamers had already been found upon the shores of the township of Middletown, between Keyport and Atlantic Highlands; also to the fact that in former visitations of cholera our people who handled matter floating on the shore from cholera ships were attacked by this disease, and those now living there were naturally anxious lest the same result should follow like causes; that if the United States assumed quarantine control of these vessels, its officials should secure the people living along the shore from this danger. I also called attention to the fact that our State and local Boards of Health were doing everything possible to guard against the cholera being introduced into the country through their jurisdiction, and that they desired to act in harmony with all other authorities working for a like purpose. The United States authorities, against the protest of our State, determined to use Sandy Hook for quarantine purposes, but promised to do all in their power to remedy the other matters complained of by the Executive and the State Board of Health.

GEOLOGICAL SURVEY.

The work of the Geological Survey for the past year has been directed to the study and mapping out of the surface formation of the State, under the immediate direction of Professor R. D. Salisbury, assisted by C. W. Coman and others. The past year has been devoted to the additional study of certain areas with a view of showing their surface features upon the topographical maps, and has included the counties of Bergen, Hudson, Essex and Union. The greater part of Passaic and a large part of Morris and Middlesex counties have been mapped; nearly all of Monmouth county has been traversed, but further surveys will be necessary to complete this work. Work has also been done in tracing the Trenton gravel formation from its source at Belvidere to Trenton, and in correlating this gravel formation with the sands and gravels in the southern part of the State.

The State Survey has also co-operated with the United States Geological Survey in the study of the green sand marl and associated

beds in the southern part of the State. This work has been in charge of Prof. William B. Clark, who was assisted by Mr. Coman; these observations covered the whole green sand marl belt, as well as the associated beds, which are assigned geologically to the cretaceous and tertiary ages. A geological map showing the area of the several beds has been made of the eastern and northern parts of Monmouth and the southern part of Middlesex counties.

The work of collecting data for the report upon water supply and water powers has been continued, and has consisted in the measurement of the flow of a few important streams and the gathering of all available data from engineers and others; the reduction of these observations and the intelligent study of streams has required surveys to be made of some of the lakes and stream channels. When finished, this work will furnish the means for deducing accurate rules for computing the supplying capacity of our various streams.

It is highly desirable that official estimates should be had of the capacity of all important water sheds, and of the fitness or unfitness of their waters for domestic consumption, so that those interested may intelligently judge of their present or prospective value as sources of supply. It is intended that the report shall be a complete hand-book of reference upon this question, as well as a guide to the available sites for water power. This work is in charge of Mr. C. C. Vermeule.

Attention has also been given to the study of artesian and deep well borings in the central and southern parts of the State, and the investigation has yielded material valuable in the study of geological structures, and will be helpful in the location of sources of water supply.

The State Geologist, by permission of the Board of Managers, visited Europe and devoted considerable time to the study of the construction and location of the dykes of Holland, and the method of protecting the coasts against the sea. Every facility was given him by the officials of that country, and the knowledge obtained will be referred to fully in his report, with his conclusions as to how far the same can be utilized on our coast. His attention was also directed to the reclamation of land for agricultural purposes. He states that there are in New Jersey 296,500 acres of tide marsh lands, of which about 34,000 acres have been embanked and more or less improved. Nearly 25,000 acres of these tidal lands lie in Bergen, Hudson, Essex and Union counties, and within fifteen miles of New York City. He refers to the successful reclamation of such lands in parts of Salem and Cumberland counties, and their productiveness, as evidence of what can be done in other portions of the State.

The Geological Survey also directed its attention to the large tracts of wood land and brush land, not in farms, in the southeastern and southern parts of the State, in Monmouth, Ocean, Burlington, Cam-

den, Atlantic, Gloucester, Salem and Cape May counties. These lands are capable of great improvement, and under proper reclamation will add largely to the productiveness of the State and the increase of its population.

The State Geologist calls attention to the great natural resources and capabilities of the State, and the wisdom of presenting to prospective immigrants the advantages of settlement upon unoccupied lands and cultivating them. He recommends that the subject be entrusted to some bureau or State department, or to the State Board of Agriculture, for the purpose of presenting these advantages to those seeking homes in the United States, and drawing their attention to lands in this State.

He has also directed the work of collecting materials illustrative of the natural products of the State, which he deems of economic importance, so as to prepare a proper exhibit for the World's Columbian Exposition in 1893. Collections have been made of building stones, ores, minerals, marls and geological specimens, for this purpose.

The expenses of the Geological Survey have been $13,884.35.

PILOT COMMISSIONERS.

There are 54 pilots holding licenses from the Board, of whom 47 are in active service as Sandy Hook pilots, 2 as Amboy local pilots, and 7 are inactive or superannuated. The number of New Jersey pilot boats now in service is 8. No boats were lost during the past year.

The number of vessels piloted inward and outward were 2,578, and the gross amount of pilotage earned, including off-shore pilotage and transportation during the past year, was $180,593.34.

The Board states that considerable time, work and patience has been required in the adjustment of the pilotage on vessels that were detained at quarantine by cholera.

The Board reports that the joint agreement between the New York and New Jersey Boards, providing a system for the service of pilots otherwise than from pilot boats, is proving advantageous and satisfactory. It also calls attention to the fact that New Jersey has not its quota of pilots as compared with New York; that the laws of that State discriminate in favor of the pilots serving under that system, and against the New Jersey system; that the New York Board has made several pilots during the past year from boat keepers, while the New Jersey Board was unable to license a single one; that the condition of the law in New Jersey practically prevents the appointment of those who, in fairness and justice and for the good of the service, should be made pilots, and that New York has taken advantage of this to increase their number at our expense. The report calls atten-

tion to the fact that under the law as it now stands, requiring apprentices to serve four consecutive years on the same pilot boat, and three years as boat keeper, even the most faithful apprentice is liable to be dismissed from the boat as soon as his time is near at hand to be made a pilot, and it is the opinion of the members of the Board that, unless the laws are changed so as to give the New Jersey Board the same powers as the New York Board, the number of pilots in our State will continue to decrease, while those of New York will increase. This condition of affairs, in their judgment, should be remedied by legislation.

The Board expresses its appreciation of the energetic and faithful performance of their duties by the New Jersey pilots, and the cheerful assistance they have given to the Board in all cases when called upon; the report also refers to the friendly relations existing between the pilot boards of New York and New Jersey.

THE STATE LIBRARY.

The whole number of books, pamphlets, magazines, etc., in the library, October 31st, 1892, was 40,141, an increase of 1,555 over the previous year. I call attention to the very interesting report of Colonel Morris R. Hamilton, State Librarian, setting forth the advantages of the library and its usefulness.

WORLD'S COLUMBIAN EXPOSITION.

The Commission created under the act of March 18th, 1891 (*P. L. 1891, page 186*), has continued its work and deserves the highest commendation for the results accomplished. The members have visited Chicago, and have devoted a large portion of their time, to the exclusion of their private business, to make the exhibit of this State one of which every citizen will be justly proud; their self-sacrificing work deserves the encouragement of the Legislature and the gratitude of every citizen in the State.

In June last the Commission communicated directly with every manufacturer in the State, setting forth the importance, from a commercial standpoint, of a representation at the exposition, and in reply received applications from one hundred and five manufacturers and firms, residents of the State; and, in addition, thirty-four applications have been made directly to the authorities at Chicago.

The preparation of the exhibits to be made by the State Departments is well under way, and will consist of displays by the State Board of Agriculture, the Geological Survey, the Agricultural Experiment Station and the Board of Education.

The exhibit from New Jersey will, I am satisfied, show that our State stands, in comparision with the extent of her population and territory, first among her sister States in the variety and value of her manufacturing industries, her agricultural and mineral resources, in substantial wealth per capita, in natural location, in her unrivaled seaboard, in the high character of her educational institutions and her almost unequalled perfection of transportation. While sharing largely in the general industry of the entire country, she will show in certain specialties or branches of manufacture the greatest development, both as to the capital employed and the extent and value of production.

First in importance stands the great silk industry, which is largely concentrated in New Jersey, equaling, at least, the combined production of all the other States. In her various manufactures of iron, in connection with the value of certain ores peculiar to our State, entering largely into the highest grades of manufacturing metal, she will have a most prominent and important rank. In the manufacture of costly and artistic jewelry she will be found to be unrivaled. In the manufacture of glassware in its variety, and in the finest grades of pottery, her display will hold the highest rank in competitive exhibition. In her manufacture of leather she will be unrivaled. In the preparation of a series of photographic views she will present to those visiting the exhibition the progress made in her shore and health resorts, and her claims to supremacy as the leading seaside resort of the nation.

Under the authority of the Legislature a Board of Lady Managers was appointed, consisting of Mrs. Robert Adrain, Miss Mary F. Clark, Mrs. Thomas T. Kinney, Mrs. M. T. Barrett, Miss Rosa Murray, Mrs. Emily Warren Roebling, Mrs. Edwin A. Stevens, Mrs. Sarah G. Ware and Mrs. Margaret B. Yardley. This Board has organized by the election of Mrs. Edwin A. Stevens as chairman, Mrs. Thomas T. Kinney as vice-chairman and Mrs. Emily Warren Roebling as secretary, and has entered heartily into the spirit of its work, and will undoubtedly succeed in making such a display of the handiwork of the women of New Jersey as shall be creditable alike to their sex and to the State.

The erection of State headquarters upon the exposition grounds at Chicago has occupied the attention of the Commission. Competitive proposals were called for, and some twenty plans were submitted. Three plans met with special favor from the Commission, one of which was finally selected. The one chosen represents a structure similar to the Washington headquarters at Morristown. While it is not an exact reproduction of the building, the general lines and details have been adhered to. The historical associations connected with this building will make its reproduction one of special interest at the exposition. It is being constructed with a view of finally removing it to the camp ground at Sea Girt. It is centrally located, and it is expected will be completed about February 1st, 1893.

The Commission will ask for a further appropriation in order to make the exhibit commensurate with the dignity and history of the State, and in order that New Jersey may maintain her proper position among her sister States I recommend that a further appropriation be made for this purpose.

RAILROAD LITIGATION.

The most important litigation now pending are the several suits brought by the Attorney-General against certain corporations connected with what is commonly known as the Reading System. At my request, the Attorney-General has prepared a brief account of these suits, and the questions involved therein, which I have deemed of such great importance that I have caused the same to be published and transmitted to the Legislature for its information.

The condition of the litigation at present is this:

First, there was an information filed on May 30th, 1892, against the Central Railroad Company of New Jersey, the Port Reading Railroad Company and the Philadelphia and Reading Railroad Company; the Attorney-General obtained an order on the defendants to show cause why an injunction should not issue, and a preliminary injunction was granted by the Chancellor, commanding the defendants to desist from carrying out the alleged combination to increase the price of coal. The questions were argued before the Chancellor, each of the companies being represented by eminent counsel from this and other States; the State was represented by the Attorney-General, Barker Gummere and Frederick W. Stevens. The Chancellor filed his opinion October 25th, 1892. He held that the lease was not only unauthorized, but was expressly forbidden by law; that its effect was to combine the coal producers and carriers, and to partially destroy competition in the sale of anthracite coal, a staple commodity of the State; that such action was a corporate excess of power which tended to monopoly and to public injury. He granted an injunction which was served upon the defendants, directing them to desist and refrain from performing and carrying into effect the lease and the tripartite agreement, and directed the Central Railroad Company to take possession of its own road, and not permit the Port Reading or the Philadelphia and Reading to operate it, and directed the latter companies to desist and refrain from continuing to control the railroad, property and the franchises of the Central, and from in anywise intermeddling therewith. He commanded the defendants to refrain from operating their roads in this State in such a manner as to diminish competition in the trade of coal, and enjoined them from acting under any arrangement or combination having for its object, effect or result the control or operation of the Central Railroad Company by the other defend-

ants. From this decision the Philadelphia and Reading Railroad Company appealed to the Court of Errors and Appeal, but the Central Railroad Company declined to join in the appeal. Testimony is now being taken in the case to be used on the final hearing.

On October 17th the Attorney-General filed a supplemental information charging that the injunction and orders of the Chancellor had been wilfully and deliberately violated. An order to show cause was granted why a receiver to enforce the orders of the court should not be appointed as prayed for. The matter was finally argued on the first day of December, and is now held under advisement by the Chancellor.

The Attorney-General, on the seventeenth day of October, also filed an information against the Easton and Amboy Railroad Company, the Lehigh Valley Terminal Company, the Philadelphia and Reading Railroad Company, the Lehigh Valley Railroad Company, the Central Railroad Company of New Jersey and the Delaware and Bound Brook Railroad Company, charging that the action of the various companies had been *ultra vires*, and that the attempted lease to a Pennsylvania corporation was in direct violation of the laws of the State, and that its object was to accomplish a forbidden purpose and create a monopoly in anthracite coal. The rule to show cause why the information should not be granted was signed by the Chancellor, the defendants filed answering affidavits, and the informant obtained permission to cross-examine defendants' witnesses and take additional testimony as to certain new matter in the answer. Testimony is being taken in this case, and it will be presented to the Chancellor at an early day for argument.

On September 27th an information, in the nature of a *quo warranto*, was filed against the Port Reading Railroad Company, with a view of forfeiting its charter, which litigation is still pending.

The final decision of these suits by the courts will establish the law upon the most important questions that can arise between the citizens of New Jersey and the corporations of this and other States. If the courts hold that they are powerless, under the law as it stands, it will be the duty of the Legislature to pass whatever laws may be necessary to protect our citizens. In the opinion of the Attorney-General the courts now have all the power necessary for this purpose.

I desire to express my high appreciation of the services rendered by the Attorney-General, and of his masterly presentation of the great questions at issue on behalf of the State; they are the most important that can affect the interests of our people and the great corporations interested in their decision, and their final settlement by our courts is awaited with intense interest. Everything that can possibly be done by the Executive or the Attorney-General has been done to protect the rights of the State and of the people, and in view of the great

work and labor involved in these suits they have been advanced to their present status with unexampled celerity.

COMMISSION TO REVISE STATUTES CONCERNING TOWNSHIPS, TOWNS AND VILLAGES.

This Commission was created by an act of the Legislature, passed March 9th, 1891 (*P. L. 1891, page 90*), and under it the Governor appointed A. D. Campbell, George E. Page and Jacob C. Hendrickson, commissioners to revise, simplify, arrange and consolidate all the general statutes of this State applying to and relating to villages, towns and townships, which should be in force at the time the commissioners should make their final report. The commissioners were directed to lay a copy of the general statutes so revised and consolidated by them before the Legislature, and to suggest such contradictions, omissions and imperfections as appeared in the original text of the several acts, and how the same had been reconciled, supplied and amended; they were also to designate such acts or parts of acts as in their judgment should be repealed, with their reasons for advising such repeal, and also to recommend the passage of such new acts or parts of acts as in their judgment might appear necessary or expedient, either in lieu of or in addition to any of the acts so revised and consolidated.

The Commission organized on the second day of June, 1891, by the selection of A. D. Campbell as chairman, and George E. Page as secretary, and immediately commenced the work entrusted to them. The preparation of this work involved as a preliminary thereof an examination of all the acts of the Legislature bearing upon every conceivable subject in which these municipalities were or might be interested. It involved the consideration of over two thousand sections of various acts, the manuscript alone of notes and suggestions taken therefrom covering over two thousand folios. It was necessary to consider the different acts in relation to each other, and discuss such amendments or changes as their own judgment or the experience of those interested therein might suggest. All this was preliminary to the consideration of the final work of the Commission, which involved the framing of a new act, and the giving of suggestions and reasons called for by the Legislature. The Commission found, as is shown in their report of 1892, that in order to render the act clear it was necessary to divide the subject matter into different general heads. This mode of treating the subject enables every one who examines the act to find under one heading all that properly belongs there. It relieves him of the necessity of searching under different heads and in various acts for the information desired. The Commission divided the matter, as shown in their first report, into six different headings, embracing subdivisions thereof amounting to forty in all.

The act under which the commissioners were appointed provides "that the said commissioners shall lay a printed copy of the said general statutes, so revised and consolidated by them, before the Legislature at its next session."

During that session the commissioners made a report covering sixty-six pages, which indicated the plan and scope of the work, leaving at least fifteen hundred pages of manuscript to be disposed of, the greater part of which was in the form of references to the various statutes examined and collated by them. The work being unfinished, a supplement to the act providing for their appointment and designating their duties was passed and approved March 22d, 1892 (*P. L. 1892, page 157*), extending the time for the completion of the work and the making of a final report to the Legislature. In proceeding with their work they have used tne material and investigations made by them, so as to complete each subject as set forth in the subdivisions, stated in their original report, and they will present, in printed form, to the Legislature about two hundred and fifty sections of the proposed new law. To complete the work will require the framing of as many more sections, but these do not involve subjects which are so complicated, or require so much time in their consideration as the work already finished. The subdivision which required the most careful consideration, and involved the greatest amount of time entitled "the duties and powers of the respective township officers." The importance of this subject and the time required for its consideration will appear from an examination of the work of the commissioners, which shows that over two hundred sections of the proposed act are devoted exhaustively to its treatment.

The work as far as it has gone, even if the Legislature should not pass the act suggested, is exceedingly valuable, containing as it does references to all the laws upon the subject treated, and it will be of the greatest importance to the courts, the bar and to all interested in township matters. The completion of the work upon the lines indicated by the Commission will present not only a proposed new act, but, in itself, will be an exhaustive brief upon all the subjects treated, and an invaluable aid in any consideration of township legislation.

I recommend that the Legislature act upon the report of the Commission as far as it has completed its work, and that it consider the propriety of passing an act embracing the sections reported. Such an act, although leaving certain portions of the work to be considered hereafter, and to be dealt with by other laws, will simply the subject so far as it has been treated by the Commission, and will furnish the township officers and those interested, with a plain, clear statement of their duties and powers in matters which are dealt with every day by this important class of officials.

It is clear that the work of the Commission cannot be fully completed during the present session of the Legislature. In view of

what has been accomplished, and the wisdom and necessity of clear and comprehensive laws upon this subject, I recommend that the Commission be continued, in order that its work may be finished. In my judgment, the work can be fully completed during the present year.

LABOR BUREAU.

The Chief of the Bureau reports that it has continued the investigation, begun in 1889, of the effect of occupation on the health and trade life of those employed in industrial pursuits in this State. The inquiry has embraced fully 5,000 wage-workers engaged as railroad trainmen, segarmakers and bakers, and since the beginning of the investigation it has covered over 18,000 journeymen actively employed in their respective trades.

He also reports that the returns from the building and loan associations of this State show the following results for the year: There has been an increase of 21 of these associations; the number of shares outstanding and in force show an increase of 52,000 during the year; the number of shareholders show an increase of 9,000 during the year; and the number of shares pledged for advances from the associations show an increase of 17,000, and now amount to 148,000. The number of shareholders receiving advances as borrowers, show an increase of 2,000, the number now being 21,500. The net assets of the associations are reported as $28,600,000, being an increase of $3,000,000.

FACTORIES AND WORKSHOPS.

The Chief Inspector reports that the result of the work of his department during the past year has been thoroughly satisfactory. The number of factories inspected is 1,950; permits granted to orphans, 163; accidents investigated, 43; changes ordered, 435; children discharged, 263; number of visits to factories, 7,836. He reports the attendance of minors, engaged during the day, at evening schools, to have been largely increased; he reports that the machinery, elevator shafts and hoistways in the factories throughout the State are fairly well guarded; that the ventilation and sanitary arrangement have received a large share of attention from his deputies, and that all the factories recently erected or in course of erection are being supplied with all the latest improvements; that nearly every factory having 20 or more persons employed above the second story is now supplied with outside fire-escapes or with two or more ways of egress; that the enforcement of the fifty-five hour law has received a large share of attention from this department, and that there are several cases now pending to test its validity. He urges the passage of a law giving

the inspector power to condemn unsafe buildings used either for manufacturing or for places of assembling; that it be made mandatory on owners of elevators to have them provided with safety catches, and that the working ages of boys be raised from twelve to fourteen years.

COMMISSIONER OF MINES.

The office of Commissioner of Mines was created under an act of the Legislature of 1892. (*P. L. 1892, page 37.*) Under this act I appointed Robert O'Hara, of Warren county. His most interesting and valuable report shows the wisdom of this legislation and the necessity and usefulness of a commissioner to take charge of this subject.

My attention was called to the necessity of legislation by the condition of affairs at Oxford, in Warren county, during the past year, and a legislative committee recommended the passage of this act. There is an omission in the law which ought to be remedied. It does not provide for the payment of expenses incident to the surpervision of mines and in considering the question of further legislation suggested by the commissioner in his report, provision should be made, under proper limitation, for the payment of necessary expenses incurred.

The report shows that there were in operation at the date thereof, within the limits of this State, twenty-four mines, eighteen producing iron ore, four zinc, one copper and one ochre; that eight are located in Warren county, six in Sussex and ten in Morris; that there are employed therein one thousand eight hundred and twenty-seven men, of whom one thousand three hundred and eighty-four work under ground, and four hundred and forty-three in various capacities upon the surface. The commissioner calls attention to the dangerous nature of the employment and the accidents that have occurred by reason thereof. He has most carefully attended to the duties of his office, and the recommendations made by him are entitled to consideration.

He recommends—

1. That a second outlet be provided for each mine.
2. That accurate suveys accompanied by maps be made of all mines and deposited in his office.
3. That ladders and landings should receive more attention and be kept in better repair.
4. That safeguards should be erected in all dangerous places.
5. The adoption of some contrivance to prevent the escape of mining cars into the mine before the chain or rope is attached.
6. The prohibiting of the storing of explosives in the mines beyond what is necessary for the day's use.

7. That the dangerous habit of the workmen riding in ore buckets to and from work should be prohibited.

8. That all new mining operations should be reported to the commissioner within thirty days after beginning work.

9. That some competent person at each mine should be charged with inspecting hanging walls and their natural and artificial supports.

10. That all boilers about the mines should be inspected by a competent person at least three times annually.

11. That all accidents should be reported to the commissioner.

12. That all wire ropes used in hoisting should be frequently inspected.

He reports that these recommendations will not be burdensome either to the employer or employee, but, on the contrary, will prove of mutual advantage to both, and that, in addition, they are called for by the highest considerations of safety to those engaged in this dangerous occupation.

LABOR LEGISLATION.

The history of labor legislation in New Jersey shows more practical gain for the wage workers than the history of similar legislation in any other State in the Union. In behalf of this large and important body of our citizens, the Legislature has passed various laws to further their interests and protect their rights.

To guard their health and secure their comfort it has enacted laws—

Compelling employers of females in manufacturing, mercantile and mechanical establishments to provide and maintain suitable seats for their use during employment, when not necessarily engaged in active duties;

Limiting the age and employment hours of children and women;

Establishing regulations for factories and workshops to secure the safety and health of operatives, and regulate their working hours;

Providing against over-crowding in work places;

Compelling the furnishing of suitable dressing rooms for females in factories;

Protecting operatives in establishments where dust is generated and inhaled;

Requiring the ventilation of mines, factories and bake shops;

Protecting those engaged in the dangerous occupation of mining;

Limiting the number of hours constituting a day's work in factories, workshops and other establishments.

Laws have been passed for the protection of life and limb for those engaged in dangerous occupations—

By requiring the erection of fire escapes in factories and mills;

By establishing safeguards against mill gearings, machinery, hatchways and hoists;

By prohibiting the storing of dangerous combustibles in places where they prevent the egress of employés in case of fire;

By providing regulations to secure employés from the dangers arising from unguarded machinery, and for the outward opening of the main doors of factories.

Laws have also been passed to promote the mental and moral education and advancement of workmen—

By the establishment of public libraries;

By providing additional school accommodation, and by compelling the education of children, to guard against the selfishness or indifference of parents;

By creating Saturday half holidays, and establishing a labor day to give time for recreation and mental advancement.

Laws have been passed to prevent unjust competition between the great body of honest workmen and those laboring in our prisons and reformatory institutions—

By abolishing the contract convict labor system in prisons and reformatories, and limiting the mode and extent of employment therein, so as to prevent, as far as possible, injury to honest labor.

Enacting the prison stamp law to distinguish between prison labor and outside labor.

The right of labor to protect itself by organization has been recognized by the passage of laws—

For the incorporation of labor and trade unions;

For the formation and regulation of co-operative societies of workmen;

Making it lawful for workmen to combine for the purpose of persuading or encouraging others by peaceable means, to leave or enter the employment of another person or corporation.

Employés have been protected by establishing safeguards and securities for the payment of their wages;

The mechanics' lien law secures them their wages due for the erection of buildings and other structures;

They are given liens for work and labor done for municipal corporations;

The unjust forfeiture of wages of employés has been prohibited;

Private labels and trade marks have been protected;

The wages of laborers and workmen in the employ of corporations have been secured by making them prior liens in case of insolvency;

The store order system has been abolished, and workmen can no longer be held in vassalage in any place, and are now entitled to receive their wages in cash, or orders redeemable in money;

To secure the practical enforcement of these and other rights which have been given by the Legislature, the State has established a State Bureau of Labor and Industries as a means of bringing in contact and unison the State and wage-earners, so as to ascertain their desires and necessities, and make such suggestions as will be for their benefit and advantage;

It has created an inspector of factories and workshops, giving him deputies, with extensive powers for the enforcement of labor laws;

It has created an inspector of mines for the protection of those engaged in this dangerous industry;

It has established a State bureau of arbitration for the amicable adjustment of grievances and disputes between employés and employers, and I have appointed as members of this board, Joseph P. McDonnell, Lewis D. Robertson and Patrick F. Doyle, whose position in trade organizations is an assurance that they will be found in full sympathy with the wage-workers of the State.

It has protected workmen from the assaults of hired and irresponsible agencies, under pay of corporations or individuals, by prohibiting the employment at any time of non-residents as peace officers, and preventing the exercise of the powers of such officials by any person not regularly deputed by a sheriff or proper officer.

The Legislature has crowned its work by the passage of the ballot reform law, which gives secrecy and protection to their ballots, through which they are enabled to secure that representation in the Legislature to which they are entitled. Under this law they may freely exercise their rights as citizens.

REVIEW OF LEGISLATION.

It may be of interest to briefly review the general legislation of the past three years, by reference to the principal laws enacted during that period, and I annex hereto an appendix stating various subject matters, and referring to the acts passed in reference thereto.

In closing my last annual message, I take pleasure in testifying to the faithful performance of duty by State officials, and to the kindness and courtesy extended to me by them, and by the members and officers of the Legislature. I have at all times sought to perform my duty conscientiously and for the best interests of all its citizens. I invoke

the blessings of Almighty God upon our beloved State, and pray that He may increase the happiness and prosperity of the people.

LEON ABBETT.

EXECUTIVE DEPARTMENT,
TRENTON, January 12th, 1893.

APPENDIX TO GOVERNOR'S MESSAGE.

REVIEW OF LEGISLATION DURING THE PAST THREE YEARS.

State Revenue.—In the act extending the jurisdiction of the riparian commissioners to the islands, reefs and shoals under tidal waters, a source of revenue has been provided, which will in the future augment the income of the State. (*P. L.* 1891, *page* 15.)

To relieve the financial condition of the State, an act was passed in 1890, authorizing the use of the proceeds of new riparian grants and leases, for State purposes. (*P. L.* 1890, *page* 92.)

An act for a collateral inheritance tax provides a new source of revenue, already productive. (*P. L* 1892, *page* 206.)

An act abolishing the Commissioners of the Sinking Fund, imposes their duties on the State Treasurer without extra compensation. (*P. L.* 1891, *page* 136.)

Labor Interests.—The laws on this subject have been already referred to, and the principal ones passed during the last three years will be found as follows: *P. L.* 1890, *page* 479; *P. L.* 1891, *page* 418; *P. L.* 1892, *pages* 37, 38, 171, 187, 230, 369, 384, 426.

Veterans.—An act appropriating $3,000 for the purchase of cemetery grounds for the Soldiers' Home. (*P. L.* 1890, *page* 97.)

An act appropriating $20,000 for the erection of new buildings for the Soldiers' Home. (*P. L* 1891, *page* 322.)

An act providing for the exemption of veterans and widows of veterans from poll tax and from general taxation on $500. (*P. L* 1890, *page* 22.)

Providing for 1,000 copies of the records of officers and soldiers of the late war. (*P. L.* 1891, *page* 528.)

A joint resolution appropriating $1,000 to pay the expenses incurred by the Grand Army of the Republic in attending the funeral of General William T. Sherman. (*P. L.* 1891, *page* 523.)

An act to prevent the removal from office of honorably discharged soldiers and sailors of the late war for political reasons. (*P. L.* 1891, *page* 101.)

National Guard.—An act providing for the erection of armories, and limiting the appropriation of the State to $75,000, not to exceed $25,000 in any one year. (*P. L.* 1890, *page* 290.)

Acts to amend the National Guard act. (*P. L.* 1890, *page* 306, *and* 1892, *page* 440.)

State Boundary Lines—An act fixing and establishing the boundary line between New York and New Jersey as fixed by the Commission of the two States. (*P. L.* 1892, *page* 441.)

Surrender of Contract for Exemption from Taxation.—An act for the surrender of contracts for exemption from taxation; under this act the Morris and Essex Railroad Company filed an agreement surrendering its claim to exemptions. (*P. L.* 1890, *page* 171.)

Railroads.—Acts for the extension of time for the completion of railroads are passed every year. They are defective in not requiring a statement of the amount of expenditures, and the purposes for which the same have been made. The details should be stated so as to permit the Executive to ascertain whether reasonable progress has been made. These extensions are sometimes obtained to prevent others using the right-of-way.

Ballot Reform Law.—An act to provide for ballot reform in New Jersey. (*P. L.* 1890, *page* 361.)

Supplement to the ballot reform law, remedying certain defects of the old law. (*P. L.* 1891, *page* 225.)

Riparian Commission.—An act providing for the re-organization of this Board, and fixing the terms of their office. (*P. L.* 1892, *page* 84.)

State Police.—An act providing for their designation, and defining their duties with a view of avoiding the use of the military in case of civil disturbances. (*P. L.* 1891, *page* 110.)

Agriculture.—An act creating a State Weather Service to furnish data to farming and other interests concerning crops and weather. (*P. L.* 1890, *page* 481.)

An act providing for increased power for payment of expenses and for compensation to the secretary and clerk of the State Board of Agriculture. (*P. L.* 1890, *page* 151.)

An act for the protection of peach growers. (*P. L.* 1892, *page* 178.)

An act providing that the money received under the act of Congress of April 30th, 1890, be used for the more complete endowment and maintenance of the State Agricultural College at Rutgers. (*P. L.* 1891, *page* 13.)

Roads.—An act providing for the permanent improvement of roads of the State, making a State appropriation to assist in the construction of the same. (*P. L.* 1891, *page* 378.)

An amendment thereto. (*P. L.* 1892, *page* 346.)

Fisheries.—An act to provide for the protection of young sturgeon. (*P. L.* 1890, *page* 98.)

An act to protect shad and other fish in the Delaware river. (*P. L.* 1890, *page* 221.)

An act confirming the use by citizens of this State of certain grounds used for planting clams and oysters, and regulating the use thereof. (*P. L.* 1890, *page* 280.)

An act appropriating $2,500 to provide means to increase the fish production of the State. (*P. L.* 1890, *page* 408.)

An act for the preservation of clams and oysters. (*P. L.* 1890, *page* 473.)

An act for the preservation of sturgeon. (*P. L.* 1891, *page* 275.)

An act appropriating $5,000 for stocking the waters of the State with fish. (*P. L.* 1891, *page* 425.)

Providing for the appointment of a commissioner for the protection of fish and game, and stocking the waters of the State with fish. (*P. L.* 1892, *page* 61.)

Further amendments to the act for the preservation of clams and oysters. (*P. L.* 1892, *pages* 360, 361, 362 *and* 363.)

An act exempting from taxation lands devoted to fish and shell fish culture, and biological stations. (*P. L.* 1891, *page* 325.)

Educational.—An act providing for the erection and furnishing of an additional building for the State Normal School and appropriating $40,000 therefor. (*P. L.* 1890, *page* 119.)

Providing for the establishment of free scholarships in the State Agricultural College, and the payment therefor by the State. (*P. L.* 1890, *page* 161.)

Providing for the furnishing of public schools with copies of Smith's History of New Jersey, and appropriating a sum not to exceed $4,000 therefor. (*P. L.* 1890, *page* 332.)

An act to re-organize the State Board of Education, making the Board non-partisan, and placing in the new Board the control of the Deaf-Mute School. (*P. L.* 1891, *page* 164)

Providing for the taking of a State school census with the purpose of correcting abuses in the old methods. (*P. L.* 1892, *page* 25.)

An act to provide for the incorporation of Boards of Trustees of schools for industrial education. (*P. L.* 1890, *page* 21.)

State Prison and Reformatories.—Providing a library for the State Prison. (*P. L.* 1890, *page* 156)

Appropriating $100,000 for the erection of a new wing and hospital for the State Prison. This act will require amendment before it will be effective. (*P. L.* 1890, *page* 245.)

Appropriating $25,000 for erecting and furnishing additional building for the Industrial School for Girls. (*P. L.* 1890, *page* 277.)

Appropriating $8,000 for the erection of a new family building at the Reform School for Boys, and furnishing it. (*P. L.* 1890, *page* 350.)

Appropriating $12,000 for the erection of a gas generator in the Industrial School for Girls. (*P. L.* 1891, *page* 326.)

Appropriating $5,000 for manual training in State Reform School, and $7,000 for the erection of a chapel. (*P. L.* 1891, *page* 495.)

Charitable Institutions.—An act appropriating $12,000 for the erection of an addition to the Home for Feeble-Minded Women. (*P. L.* 1890, *page* 348.)

Lunatic Asylums.—An act to consolidate the management of Lunatic Asylums at Trenton and Morris Plains, and the appointment of one board of managers therefor. (*P. L.* 1891, *page* 168.)

Subway Commission.—An act creating a commission for the placing of electric subways underground in cities, and creating a commission to authorize and supervise the same. (*P. L.* 1892, *page* 78.)

Geological Survey.—An act establishing a museum for the geological survey. (*P. L.* 1890, *page* 349.)

Taxation.—Joint resolution creating a non-partisan commission to revise the system of taxation. (*P. L.* 1890, *page* 515.)

An act to create the State Board of Taxation. (*P. L.* 1891, *page* 189.)

Acts amending the miscellaneous corporation tax act of April 18th, 1884. (*P. L.* 1891, *page* 150, *and* 1892, *page* 136.)

Banking and Insurance.—An act creating a department of banking and insurance for the control and supervision of all moneyed institutions; the expenses to be paid by corporations. (*P. L.* 1891, *page* 17.)

An act providing for a standard fire insurance policy. (*P. L.* 1892, *page* 366.)

Dentistry.—An act to regulate the practice of dentistry, and providing for a board of registration of dentists. (*P. L.* 1890, *page* 227.)

Medicine.—An act to regulate the practice of medicine and surgery, and creating a State Board of Examiners to license physicians and surgeons. (*P. L.* 1890, *page* 300.)

Municipal Legislation.—An act to provide for the appointment of a commission to revise and consolidate public statutes relating to towns, villages and townships. (*P. L.* 1891, *page* 90.)

Parol.—An act providing for a Court of Parol. (*P. L.* 1891, *page* 426.)

State House and Grounds.—Acts under which the new Assembly chamber, court rooms, etc., were provided for and furnished; the old library ventilated and improved, the Senate chamber altered and other improvements made.

(*P. L.* 1890, *pages* 450, 467 *and* 470; *laws of* 1891, *pages* 526 *and* 119; *laws of* 1892, *page* 475.)

An act placing the State House and grounds under the care of a superintendent, providing for his appointment and fixing his term of office and duties. (*P. L.* 1892, *page* 17.)

Chicago Exposition.—An act providing for the appointment of a State Commission at the World's Exposition in 1893, and appropriating $25,000 (*P. L.* 1891, *page* 186.)

A supplement thereto, making an additional appropriation of $50,000. (*P. L.* 1892, *page* 181.)

WHEREAS, There exists a wide-spread conviction among those persons using telephones, that the present charges of companies controlling the exclusive patents under which they are supplied, are extortionate, and largely in excess of a fair and reasonable profit on the actual investments of said companies; therefore, for the purpose of ascertaining the facts upon which to base legislation that shall be fair to both companies and the public by fixing a rate that shall be equitable;

Be it resolved, That the Secretary of the Senate be and hereby is directed to serve forthwith a copy of this resolution and the subjoined list of inquiries on the president or secretary of each and every company operating telephone lines within the limit of this state, with a request that the information sought in said list of inquiries be furnished before the first day of February next; and the Committee on Railroads and Canals is hereby directed to prepare and report to this body a bill that shall contain a practicable plan for regulating the charges of said telephone companies, so as to protect the public from extortion on the part of such corporation, leaving the rate per month, or per year, or per message, to be fixed by this body when it shall have obtained the data sought in the answers to said list of inquiries.

1st. Under the laws of what state is your company organized?

2d. When was it organized?

3d. What was the original capitalization at time of organization?

4th. For what was capital issued?

5th. Has original capital been increased, and if so, when and how much, giving present capitalization of company?

6th For what was increased capital issued?

7th. What proportion of original capital was issued to the American Bell Telephone Company, and what for, and what proportion of increased capital to the same, and what for.

8th. What is the rate charged per month at each exchange for use of telephone, and what toll charged for extra territorial communications by both ordinary and long distance systems?

9th. What dividend has been paid to stockholders each year?

10th. What is the amount of the annual license per telephone paid by your company for the use of patents, and to whom paid?

11th. What proportion of your capital stock is held by other corporations, and by what corporations is it held, giving name and location of the principal office of such corporation, and whether such holdings were acquired by purchase or whether issued for other than money considerations, stating fully for what it was issued?

Mr. Perkins, from the Joint Committee on State Prison, for the year 1892, presented the following report:

The Joint Committee of the Legislature on the State Prison respectfully report:

That, as required by law, we have visited the institution and examined its general condition.

The accounts of revenues received from the labor of convicts and the expenses of their maintenance are systematically kept, and are audited by the Board of Inspectors, monthly, and paid upon warrant of the Comptroller by the State Treasurer, and included in his accounts.

From the vouchers presented, signed by the Treasurer and countersigned by the Comptroller, we find the amount paid into the State Treasury for the fiscal year to have been $75,608.04, an increase over last year of $1,832.54. From the balance sheet exhibited to your committee, we find as follows:

First, Total amount received from convict labor and other sources for fiscal year ending October 31st, 1892, was $76,058.93, while that of the previous year was but $74,371.50, an increase of earnings this year over last of $1,687.43.

Second, That the cost of maintenance, salaries, repairs on buildings, and amount paid convicts on their discharge was $159,696.48, the total cost to the State over receipts being $83,637.55 against a total cost last year of $89,111.08, a saving to the State, this year, as compared with last, of $5,473.53.

Your committee desire to call attention to recommendations of the Supervisor, set forth in his annual report, relative to the re-enactment of the old contract system of labor in place of the present "piece price," and the re-enactment of the law vesting the control of employment and discharge of deputy keepers in the Board of Inspectors.

We consider the present shop-room insufficient for the needs of the institution, and would recommend that such provisions be made as will enable the authorities to erect such buildings as will obviate this difficulty in connection with this recommendation. We would call the attention of the Legislature to the suggestion of the Supervisor of the Prison, relative to the Arsenal grounds and buildings for such purposes.

We would recommend that at the earliest practicable moment commissioners be appointed, and the amount appropriated by the Legislature of 1890, for the erection of a new wing be expended, thus

affording the authorities relief from their continued over-crowded condition, there being on the 31st of October 947 convicts confined in 700 cells.

To the energy, economical administration and financial ability of the Supervisor, James M. Seymour, is largely owing the gratifying results as shown by the report of this year.

In conclusion, the attention of the Legislature is called to the reports of the Supervisor, Inspectors, Keeper, and other officers for a more full account of the expenditures, general operations and present condition of the prison, and your committee desire to commend the general management of the institution, and return thanks to the Supervisor, Keeper and other officers of the prison, for courtesies extended to the committee.

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,
ASSEMBLY CHAMBER,
February 24, 1893.

Mr. President:

I am directed by the House of Assembly to inform the Senate that the House of Assembly has passed the following bills:

Assembly Bill No. 299, entitled "An Act concerning the maintaining of race courses in this state, and to provide for the licensing and regulating of the same,"

The Governor's objections thereto notwithstanding, with the veto message;

Assembly Bill No. 300, entitled "An act to provide that betting and the practice and betting, commonly known as book-making, upon horse races within the enclosed grounds of any incorporate association or body in this state, or the keeping of a place or places within such grounds to which persons may resort for such betting, shall not constitute any misdemeanor or criminal offence when such association or incorporated body is not indictable for the carrying on of said races therein,"

The Governor's objections thereto notwithstanding, with the veto message;

Assembly Bill No. 301, "Supplement to an act entitled 'An act for the punishment of crimes'" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four,

The Governor's objections thereto notwithstanding, with the veto message;

In which the concurrence of the Senate is requested.

LEONARD KALISCH,
Clerk of the House of Assembly.

The veto messages accompanying said bills were taken up and read, as follows:

To the General Assembly:

I herewith return to the General Assembly, in which House it originated, Assembly Bill No. 299, entitled "An Act concerning the maintaining of race courses in this state, and to provide for the licensing and regulating of the same," with my objections thereto briefly stated.

Bill No. 299 provides that boards of chosen freeholders of any county, or the governing body of any municipal division of this State, may, for a term not exceeding five years, license the maintenance of race tracks and the use thereof for the running, racing or trotting of horses for any purse, stake, plate or other things, and that it shall be unlawful to maintain or use a race course in this State without such license.

The running, pacing and trotting of horses for purses or prizes at fairs or exhibitions of any agricultural or other incorporated society is not now unlawful in this State. It has become a leading feature, and to many persons the chief attraction, at the various State and county agricultural fairs and exhibitions held yearly throughout the State. Practically the racing of horses for prizes or purses may be regarded as generally permissible. The effect of the passage of Bill No. 299 would be substantially to render unlawful, unless license be obtained, what is now lawful without license. Thereafter license would be required for all places where prizes or purses might be offered to be contended for by the running, pacing or trotting of horses.

If, therefore, the running, pacing or trotting of horses as now permitted be deemed objectionable, Bill No. 299 should be approved as tending to limit and repress the objectionable practice. Standing alone and without reference to attendant legislation, the bill, to my view, furnishes no occasion for serious objection. Bill No. 299 is, however, but part and parcel of a scheme embodied in two other Assembly bills, namely, Nos. 300 and 301. Viewed in connection with these bills, which are also returned without Executive approval and for reasons appearing in the veto messages thereof, I am constrained to withhold my approval from Bill No. 299.

GEORGE T. WERTS,
Governor.

To the General Assembly:

I return herewith to the General Assembly, in which House it originated, Assembly Bill No. 300, entitled "An Act to provide that betting and the practice and betting, commonly known as book-making, upon horse races within the enclosed grounds of any incorporate association or body in this state, or the keeping of a place or places within such grounds to which persons may resort for such betting, shall not constitute any misdemeanor or criminal offence when such association or incorporated body is not indictable for the carrying on of said races therein," with my objections thereto.

The object of said bill is to permit and legalize betting, and particularly that form of betting termed "book-making on horse-racing" within the exterior enclosure of the grounds of any race course, of any agricultural society or other incorporated body in this state. I regard the proposed legislation as in conflict with and prohibited by that clause of the State Constitution which provides that "no lottery shall be authorized by a law of this State, and no ticket in any lottery not authorized by law of this State shall be bought or sold within this State."

Furthermore, if not liable to the constitutional objection, the proposed legislation is not, in my opinion, in harmony with the enlightened popular sentiment or accordant with sound public policy. Recognizing the difficulty if not the impossibility, of entirely suppressing the practice of betting on races and other events, the advisability of repressive legislation in reference thereto may fairly be a subject matter of discussion.

Such legislation might prove wise and beneficial, as in dealing with the liquor traffic, but the bill in question, while limiting betting to the racing enclosure and to race days and upon races within such enclosure, to all intents and purposes renders the practice unlimited, in that no restriction of time or otherwise is imposed. The matter is therefore not dealt with as a practice to be suppressed, restrained or regulated, but rather as one to be protected and encouraged. I do not think *that* a proper way to deal with the subject.

I shall not advert to the alleged demoralizing defects to society and the individual attending upon and resulting from legalized or illegal betting. Those are questions that address themselves to the personal consideration of each legislator. For the reasons stated I decline to approve the bill.

GEORGE T. WERTS,
Governor.

To the General Assembly:

I return herewith to the General Assembly, in which House it originated, Assembly Bill No. 301, entitled "Supplement to an act entitled 'An act for the punishment of crimes' (Revision), approved

March twenty-seventh, one thousand eight hundred and seventy-four," with my objections thereto.

The effect of the passage of said bill will be to prevent any person or corporation owning or carrying on a licensed race track (as provided for in Assembly Bill 299) from being indicted as a keeper of a disorderly house, etc. Should Assembly Bills 299 and 300 become laws the passage of Assembly Bill 301 is altogether useless. Should Nos. 299 and 300 not become laws Bill 301 (if operative) would provide very disproportionate and inadequate penalties. I therefore withhold my signature from the bill.

GEORGE T. WERTS,
Governor.

The following message was received from the House of Assembly by the hands of its Clerk:

STATE OF NEW JERSEY,

The following message was received from the Governor, by the hands of Mr. McMaster, his Private Secretary, returning

Senate Bill No. 77, entitled "Supplement to an act entitled 'An act for the formation and government of boroughs,'" approved April second, one thousand eight hundred and ninety-one.

STATE OF NEW JERSEY, EXECUTIVE DEPARTMENT,
To the Senate: TRENTON, February 7th, 1893.

I return herewith to the Senate, in which House it originated, Senate Bill No. 77, entitled "Supplement to an act entitled 'An act for the formation and government of boroughs,'" approved April second, one thousand eight hundred and ninety-one, with my objections thereto.

The bill authorizes, in counties of the fourth class, all boroughs incorporated under the act of April second, one thousand eight hundred and ninety-one, to elect a chosen freeholder to represent the borough in the board of chosen freeholders of the county in which the borough is located.

Such boroughs are generally small communities—some of them casting not over twenty-five votes—others will, in time, be created. It seems unfair that such small communities should have equal representation with the larger and more important bodies, the townships. The creation of a few boroughs, for political or other reasons, will enable them in cases to control the board of freeholders, to the possible detriment of the remainder and probably the larger portion of the county.

I return the bill without approval, and with the suggestion that it might be the better course to enact that the legal voters of each borough should be entitled to vote for freeholder in that township to which the borough is situate.

GEORGE T. WERTS,
Governor.

Which was read and ordered printed.

Senate Bill No. 191, entitled "A Further Amendment to 'An act to amend an act entitled "An act to regulate and establish the com-

pensation of law or president jupges of the courts of common pleas of the counties of this state," " passed May eleventh, one thousand eight hundred and eighty-six, and amended May sixth, one thousand eight hundred and eighty-nine, and further amended March tenth, one thousand eight hundred and ninety-one,

The following message was received from the Governor, by the hands of Mr. McMaster, his Private Secretary, returning

Senate Bill No. 193, entitled "An Act concerning the appointment of municipal officers and boards in cities,'"

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, March 7, 1893.

To the Senate:

I return herewith to the Senate, in which House it originated, Senate Bill No. 193, entitled "An act concerning the appointment of municipal officers and boards in cities," with my objections thereto.

The proposed law consists of four sections, and is open to constitutional objections. Section three provides, therefore, that if any section of the act shall be held unconstitutional, its other provisions shall not be affected thereby. Section four repeals prior inconsistent legislation, and provides that the proposed law shall have immediate effect.

Section one enacts that in cities of the first class the corporation or city counsel and the corporation or city attorney shall be appointed by the board having charge of the financial affairs thereof, &c., by an affirmative vote of not less than two-thirds of all the members of such board. This section, with the exception of requiring a two-thirds instead of a majority vote (in which respect it is more objectionable), is identical with Section one of Senate Bill No. 13, which, after passage by both Houses, was recalled from the Executive by concurrent resolution.

Section two enacts that (excepting certain minor officials) "in every case, in any city where the Mayor thereof is now authorized by any law to appoint any municipal officer or member of any municipal board, the name of the person appointed shall be submitted to the

board of such city government having control and management of the financial affairs * * * in such city, and no such appointment shall take effect until such board has confirmed the same by a vote in favor thereof of not less than two-thirds of all the members of such board," &c.

The proposed law is intended simply to meet an existing condition of affairs in Jersey City. The "Board" referred to is the Board of Finance, consisting of five members, and two-thirds thereof is four of its five members. It is not now and was not at the time of his election in political accord with the present Mayor of Jersey City.

Under the charter of Jersey City the appointment of the Corporation Counsel and Attorney, and most of the other officials and boards (including four of the five members of the Board of Finance) is vested in the Mayor alone. The effect of the proposed legislation will be to divest him absolutely of the power to appoint the Corporation Counsel and Attorney and to make his heretofore untrammeled power of appointment of other officials (including successors to four members of the present Board of Finance) dependent upon the concurrence, *i. e.*—the will of four of the five present members of that board, they and all other acting officials meanwhile to continue in office until such concurrence be had.

It is manifest that under such provisions the Board of Finance will exercise the controlling power over all appointments. Nomination by the Mayor becomes a meaningless privilege, of which he were better deprived altogether. To enact that the concurrence of two-thirds of the Board of Finance shall be required before any of its own members can be succeeded by others, is simply to constitute that body a self-perpetuating machine totally irresponsible to the people or any other authority. I can conceive of no scheme more likely to prove inimical to the public welfare.

The proposed legislation is further objectionable in that it is a mere device to evade the popular will as legally expressed in a recent local election. It subverts municipal home-rule and practically establishes government by legislative commission in its stead. Purely partisan legislation may be proper in certain cases, but should not be enacted in defiance of the declared intention of any municipality to work a change in officials or methods, and only for the purpose of defeating such intention.

At the last municipal election in Jersey City, a Mayor was elected, with full knowledge by all the voters that he would be invested with the discharge of various duties, including the appointment of officials. It must be presumed it was the purpose and desire of the majority that he should perform those duties and appoint those officials. If the proposed legislation be enacted, that purpose and desire is nullified, for no other apparent reason than the attainment of mere partisan ends.

As already stated, the Board of Finance of Jersey City is, under existing law, composed of five members, four of whom (but not more than two from one political party) are appointed by the Mayor; the fifth member is the President of the Board of Aldermen, who is elected by the people of the city at large and becomes *ex-officio* a member of the Finance Board. In his election the people of the city can determine the political complexion of the Board of Finance.

At the municipal election in April next a new President of the Board of Aldermen is to be elected. The terms of the Mayor's appointees in the present Board of Finance also expires in April subsequent to the election. If the proposed law provided that from and after the entrance of the new President of the Board of Aldermen into the Finance Board, the Mayor's nominees should be confirmed by a *majority* vote of the new board, it would recognize the right of municipal home rule. The people would then in voting for the President of the Board of Aldermen, fix the polttical character of the Board of Finance and of the officials to be confirmed by that board.

If they desired those officials to be or not to be in political accord with the Mayor, they would vote accordingly, and their desire would find expression in the action of the majority of the board. The proposed law, however, is not drawn on such line. On the contrary it seems intended to defeat the popular will as heretofore expressed, and to circumvent it hereafter if not expressed in the desired direction.

I shall not advert to the constitutional objections that might be urged against the bill. The ojections stated seem to me all sufficient.

GEORGE T. WERTS,
Governor.

Scudder, one of the Justices of the Supreme Court, and also an ex-President of this body; be it *Resolved*, that the President appoint a committee of three to draft and report suitable resolutions, and that, as a mark of respect, the Senate do now adjourn—156.

Resolved—By Mr. Daly.—That a special committee of three, to be appointed by the President, be directed to investigate forthwith the reorganization of the First Bridgade of the National Guard, and particularly as to the alleged disorganization, insubordination and lack of discipline resulting therefrom among the members of the National Guard in Newark, Paterson, Orange and Hoboken. The committee shall also investigate and report by what authority Major-General Plume acted in ordering the consolidation of the Second Regiment, located at Hoboken, with the Fourth Regiment, located at Jersey City, and the consolidation of the Fifth with the First, of Newark; and the consolidation of the First, Second and Third Battalions into a regiment, and called the Second Regiment of the National Guard. And further, that the said committee shall report if the necessity exists of reorganizing the National Guard, and, if so, upon what basis; and further, as to whether the National Guard could not be efficiently maintained at less expense, and without a major-general and division staff—162, 163.

By Mr. Barrett.—(The House of Assembly concurring), That the Governor be requested to the Senate for further consideration, Senate Bill No. 25—166, 170.

By Mr. Barrett.—(The House of Assembly concurring), That a joint meeting of the two houses of the Legislature be held in the Assembly Chamber, on Tuesday, the 21st day of February, 1893, at the hour of 12 o'clock, noon, for the transaction of such business as may be necessary and proper—190, 198.

By Mr. Drake.—That 300 additional copies of Senate Bill No. 76, as amended, be printed—225.

By Mr. Winton.—(The House of Assembly concurring), That Assembly Bill No. 239 be returned to the Senate for correction of title—228, 246.

By Mr. Winton.—That all matters pertaining to the contested election case of Riddle v. Hoffman be laid over until Wednesday, March 8th, 1893, and that the testimony and the majority and the minority reports be printed for the use of the Senate—294.

By Mr. Barrett.—That the Secretary of the Senate be authorized to pare indexes of the Journal of the Senate and minutes of the executive sessions, in the same general manner as the indexes of the session of 1892, and that he be paid the same compensation as is is allowed by law for preparing the indexes of the House of Assembly minutes—313.

By Mr. Winton.—(The House of Assembly concurring), That the Governor be requested to return Assembly Bill No. 62, for the purpose of amendment—321.

By Mr. Barrett.—That when the Senate adjourn, it be to meet on Friday morning at 10 o'clock, and that when it then adjourn, it be to meet on Monday evening at 8 o'clock—325.

By Mr. Daly.—That the House of Assembly be requested to return to the Senate, for further consideration, Senate Bill No. 107—376.

By Mr. Barrett.—(The House concurring), That the Governor be requested to return to this house, Senate Bill No. 175—423.

By Mr. Barrett.—By the Senate of the state of New Jersey (The General Assembly concurring), That the consent of the legislature of this state is hereby given that the stock, property, road and franchises of the New York and New Jersey Underground Railway Company, a corporation duly organized and subsisting under the

laws of this state, may be united, consolidated and merged with the stock, property, franchises and road of the New York, New Jersey and Eastern Railroad Company, a corporation duly organized and subsisting under the laws of the state of New York—427, 436.

Resolved—By Mr. Stokes.—That five thousand copies of Senate Bill No. 76, as amended, be printed in pamphlet form, and be distributed by the Superintendent of the State Capitol, among the members of the Legislature, in the same proportion in which Legislative Manuals are now distributed—539.

By Mr. Barrett.—That a committee of three be appointed to wait upon the Governor and inform him that the Senate has completed its labors and is about to adjourn *sine die*, and inquire if the Executive has any further communication to make to this body—586.

By Mr. Rogers.—Whereas, The Hon. Robert Adrain, President of the Senate, has discharged the duties of that position with honor to himself and to the entire acceptance of this body; therefore, in appreciation thereof, and in testimony of our high regard, *Resolved*, That the Senate pleasantly recalls the unvarying patience, courtesy and impartiality of its presiding officer during the session now closing, and hereby records its unqualified approval of the manner in which the duties of his difficult position have uniformly been performed—588.

By Mr. Drake.—That each of the officers of the Senate have been courteous and obliging in their intercourse with the Senators, and prompt and faithful in the discharge of their respective duties; in recognition and appreciation thereof the thanks of the Senate are hereby extended, with its best wishes for their future welfare and prosperity—589.

By Mr. Stokes—That the thanks of the Senate are hereby extended to the representatives of the Press, for the courtesies and favor they have extended to this body—589.

By Mr. Barrett—That the hour of adjournment having arrived, the Secretary shall inform the House of Assembly that the Senate is now ready to adjourn *sine die*, and awaits the presence of the House of Assembly—589.
