Case Notes

Department of Environmental Protection (DEP) must make findings under the standards in the statute governing the issuance of permits for development in coastal zones, even if DEP finds that a Coastal Area Facility Review Act (CAFRA) permit application complies with its specific regulations. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Department of Environmental Protection (DEP) was required to amend its implementing rules with respect to Coastal Area Facility Review Act (CAFRA) to set forth requirement that it make findings under standards set forth in CAFRA prior to issuing permit for development thereunder. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Department of Environmental Protection (DEP) did not invalidate Coastal Zone management (CZM) rules by giving regulatory effect to state development and redevelopment plan by presuming that boundaries established by state planning commission would function as boundaries pursuant to Coastal Area Facility Review Act (CAFRA), and then by using those boundaries to establish impervious cover limits in CZM rules. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Coastal zone management rules preempted township ordinance governing placement and length of docks. *Tumino v. Long Beach Township*, 319 N.J.Super. 514, 725 A.2d 1173 (N.J.Super.A.D. 1999).

SUBCHAPTER 1. INTRODUCTION

7:7E-1.1 Purpose and scope

(a) This chapter presents the substantive rules of the Department of Environmental Protection regarding the use and development of coastal resources, to be used primarily by the Land Use Regulation Program in the Department in reviewing permit applications under the Coastal Area Facility Review Act (CAFRA), N.J.S.A. 13:19-1 et seq. (as amended to July 19, 1993), Wetlands Act of 1970, N.J.S.A. 13:9A-1 et seq., Waterfront Development Law, N.J.S.A. 12:5-3, Water Quality Certification (401 of the Federal Clean Water Act), and Federal Consistency Determinations (307 of the Federal Coastal Zone Management Act). Requests for Water Quality Certification shall also be reviewed

in accordance with other applicable statutes and regulations administered by the Department including the Surface Water Quality Standards, N.J.A.C. 7:9B. The rules also provide a basis for recommendations by the Program to the Tidelands Resource Council on applications for riparian grants, leases and licenses.

(b) In 1977, the Commissioner of the Department of Environmental Protection submitted to the Governor and Legislature the Coastal Management Strategy for New Jersey CAFRA Area (September 1977), prepared by the Department as required by CAFRA, N.J.S.A. 13:19-16, and submitted for public scrutiny in late 1977. The Department revised the Coastal Management Strategy for public review as the New Jersey Coastal Management Program—Bay and Ocean Shore Segment and Final Environmental Impact Statement (EIS) for Federal approval. In August 1978, the Governor submitted the revised New Jersey Coastal Management Program—Bay and Ocean Shore Segment and Final EIS for Federal approval, which was received in September 1978. In May 1980, the Department submitted further revisions, published as the Proposed New Jersey Coastal Management Program and Draft Environmental Impact Statement for Federal approval, which was received in September 1980. The Coastal Zone Management rules constitute the substantive core of the program.

(c) By revising and readopting these policies as administrative rules, according to the Administrative Procedure Act, the Department aims to increase the predictability of the Department's coastal decision-making by limiting administrative discretion, as well as to ensure the enforceability of the Coastal Zone Management rules of the coastal management program of the State of New Jersey prepared under the Federal Coastal Zone Management Act. Further, the Department interprets the "public health, safety and welfare" clause in CAFRA (N.J.S.A. 13:19-10f) and the Wetlands Act of 1970 (N.J.S.A. 13:19A-4d) to include a full consideration of the national interests in the wise use of coastal resources.

(d) The coastal land and water areas of New Jersey are diverse. The same development placed in different locations will have different impacts on the coastal ecosystem and built environment as well as different social and economic implications. Decisions on uses of coastal resources shall be made using the three step process consisting of the location rules (N.J.A.C. 7:7E-2 through 6), the use rules (N.J.A.C. 7:7E-7), and the resource rules (N.J.A.C. 7:7E-8) of this chapter. Depending upon the proposed use, project design, location, and surrounding region, different specific rules in each of the three steps may be applicable in the coastal decision-making process. The Coastal Zone Management rules address a wide range of land and water types (locations), present and potential land and water uses, and natural, cultural, social and economic resources in the coastal zone. The Department does not, however, expect each proposed use of coastal resources to involve all location rules, use rules, and resource rules. Rather, the applicable

rules are expected to vary from proposal to proposal. Decisions on the use of coastal resources in the Hackensack Meadowlands District will be made by the New Jersey Meadowlands Commission, as lead agency, and by the Department, consistent with the Hackensack Meadowlands District Master Plan, its adopted components and management programs.

Case Notes

Numeric limitations on impervious cover established by Department of Environmental Protection (DEP) in connection with subchapters of Coastal Zone Management (CZM) rules pertaining to development intensity were appropriately coordinated with state plan, despite differing goals of Coastal Area Facility Review Act (CAFRA) and state plan. In the Matter of the Protest of Coastal Permit Program Rules, 807 A.2d 198, 354 N.J.Super. 293.

Principle that the purpose of Department of Environmental Protection regulations is to assure predictability of its actions applied to the Department of Transportation in holding that a municipality was not entitled to any type of hearing concerning the Department's decision to place traffic control signals on a State highway. Cedar Grove Twp. v. Sheridan, 209 N.J.Super. 267, 507 A.2d 304 (App.Div.1986), certification denied 104 N.J. 464, 517 A.2d 448 (1986).

Regulation reflects Department's determination to limit its discretion and assure the greatest possible degree of predictability in its actions. Crema v. Dept. of Environmental Protection, 94 N.J. 286, 463 A.2d 910 (1983).

General discussion of regulations as policies for the use of coastal resources. Lusardi v. Curtis Point Prop. Owners Ass'n, 86 N.J. 217, 430 A.2d 881 (1981).

CAFRA regulations define standards to be used in reviewing applications for permits to construct coastal area facilities. Lusardi v. Curtis Point Property Owners Assn., 86 N.J. 217, 430 A.2d 881 (1981).
