“Agreement Corporation” is defined under USCA Title 12, section 601, et seq. as a national banking association which, under regulation of the Federal Reserve Board of Governors, is authorized to establish foreign branches, or branches in United States dependencies or insular possessions, for the furtherance of United States foreign commerce, or to invest not over 10 percent of its capital in United States domestic corporations which are principally engaged, directly or through controlled institutions, in international or foreign banking or banking in United States dependencies or insular possessions; or to hold stock in banks organized under foreign laws, or United States dependencies or insular possessions laws, which banks are not engaged in United States activity, except incidentally; and to extend credit to such foreign or United States dependencies banks. Agreement Corporations shall operate under an agreement with the Federal Reserve Board of Governors, and shall furnish information concerning their condition to the Comptroller of the Currency as well as to the Federal Reserve Board of Governors.

“Edge Corporation” is defined under USCA Title 12, section 611, et seq. as a corporation organized to engage in international or foreign banking or other financial operations, or to engage in such operations in United States dependencies or insular possessions, either directly or through local institutions. An Edge Corporation is operated under Federal supervision with sufficiently broad powers to be able to compete effectively with similar foreign-owned institutions, in the United States or abroad. The Federal Reserve Board of Governors shall issue regulations to assist an Edge Corporation in providing banking and financial services to foster international trade.

“International Banking Facility” means a separate, segregated set of asset and liability accounts, set apart on the books of a bank, a banking corporation or other depository institution, including a United States bank or agency or foreign bank; or an Edge or Agreement Corporation as defined below. The separate accounts may include only international banking facility time deposits, or international banking facility extensions of credit, as defined below.

If the United States enacts a law, or the Governors of the Federal Reserve System adopt a regulation changing the definitions of international banking facility, international banking facility time deposits or international banking facility extensions of credit set forth in this rule, the New Jersey Commissioner of Banking shall promptly adopt regulations conforming these definitions to the revised United States law or Federal Reserve regulations, and the Banking Commissioner's regulations shall then, under P.L. 1983, c.422, provide the applicable definitions.

The funds must be used only to finance the foreign operations of the borrower, or its foreign affiliates.

“International Banking Facility Time Deposit” is defined, in (United States Federal) 12 CFR 204.8(a)(2). It is a deposit or Federal obligation represented by a promissory note or other obligation or instrument, not in negotiable or bearer form. The deposit must remain in the depository at least over night, and be issued to either an office outside of the United States of another depository, or an office of an Edge or Agreement Corporation, or a foreign office of a foreign bank, or any office anywhere of the establishing international banking facility, or of another international banking facility, or an institution exempt from Federal interest rate limitations. The obligation must be payable no sooner than two business days later, and must represent funds deposited to the credit of a foreign resident, or a foreign branch or affiliate of a domestic corporation.
