

The Port Authority of New York & New Jersey

September 2013

Monthly Traffic Report

**Newark Liberty International
John F.Kennedy International
LaGuardia
Stewart International
& Teterboro**

Aviation Department - Traffic Statistics

JoJo Quayson
John Cuneo
Deyssi Mesa
Sukhrob Khalilov

Notes1: The section entitled Air Transport Association Carriers is included to give a comparison between Port Authority Airport traffic growth and aggregate growth as measured by the majority of the U.S. carrier industry.

Note2: The page 2 Access Mode: residents report excludes passengers arriving by hotel courtesy vehicles, helicopters, and the miscellaneous "other" category. The airline OAG summary uses schedules effective for the week in the middle of the month being summarized."Flights (daily) refers to the daily-each-way average flights which can be thought of as 1 directional departing or arriving flights.

The region's YTD September passenger traffic grew 1.7%. The trend remains consistent with our year-end forecast of 1.8% growth and is slightly higher than the nation's 1.2% growth rate. The international sector continues to drive the region's growth with YTD seat capacity and passenger gains of 2.1% and 3.9% respectively. With our region's YTD September traffic up (very close to our year-end forecast of 1.8%), our airports are positioned to set an all-time record this year, which will break the previous record of 110 million set in 2007. In contrast, YTD domestic traffic grew only 0.6% and seat capacity shrunk 1%. In contrast, the region's cargo business continued to deteriorate. YTD September cargo fell to -5.5% from June's -4.2%.
