OF THE

Quartermaster-General

OF THE

STATE OF NEW JERSEY,

For the Year 1891.

REPORT.

STATE OF NEW JERSEY,
OFFICE OF THE QUARTERMASTER-GENERAL, }
TRENTON, October 31st, 1891.

To the Governor and Commander-in-Chief:

SIR—I have the honor to submit herewith my report of the operations of this department for the fiscal year just ended.

The total number of Springfield breech-loading rifles, calibre .45, the property of the State, including those in possession of organizations of the National Guard, is three thousand nine hundred and fifty-nine (3,959). In addition to the above the State possesses a considerable number of muskets, serviceable and unserviceable, of obsolete patterns. The Senate, at its last session, acting upon the suggestion contained in your Message, passed a concurrent resolution urging our Senators and Representatives in Congress to use their influence to secure such legislation as would authorize the Secretary of War to issue, in exchange for arms of obsolete patterns in possession of the several States, Springfield breech-loading rifles of the latest improved model. Copies of this resolution will be forwarded to our Senators and Representatives at the opening of the approaching session. On the 13th of April last, a fire in the Arcade building, at Elizabeth, used in part as the headquarters of the Third Regiment, National Guard, destroyed military property of the State to the value of \$982.08. The loss was promptly adjusted and paid. Statements in detail of the number of Gatling guns, howitzers, heavy ordnance and other military stores the property of the State, at the State Arsenal, and in possession of the National Guard, will be found in the Appendix.

I have carefully examined the annual returns made by companies, and find the general condition of the arms, accoutrements, etc., in their possession as follows:

First Regiment, with the exception of Company B, condition "good."

Second Regiment, with the exception of Company E, condition "good."

Third Regiment, with the exception of Company A, condition "good."

Fourth Regiment, condition, with exception of Company A, "poor."

Fifth Regiment, condition, without exception, "good."

Sixth Regiment, with the exception of Company F, condition "good."

Seventh Regiment, with the exception of Company B, condition "good."

First Battalion, condition, without exception, "good."

Second Battalion, with a few exceptions, "fair."

Third Battalion, condition, without exception, "good."

Gatling Gun Company A, "good."

Gatling Gun Company B, "much worn," etc.

All arms reported in unserviceable or "poor condition" will be ordered returned to the State Arsenal for the necessary cleaning and repairs. An examination of the arms returned to the Arsenal as "utterly unfit for service," etc., fails to discover defects that would warrant their condemnation, and such complaints are generally based on their inefficiency for fine shooting on the range.

In view of the adoption by the general government, at an early day, of a reduced calibre arm, and its consequent substitution in this State for the present service rifle, I think it would be unwise to purchase a new supply of rifles of calibre .45, or condemn those at present in possession of the National Guard. As to the probability of an early change to a reduced calibre rifle and the use of smokeless powder, I will insert here an extract from the last annual report of General Flagler, Chief of Ordnance, United States Army. He says:

"The advantages of a reduction of calibre, and of a change to smokeless powder for the cartridge, are well established, though in regard to the latter much has yet to be determined in regard to the ability of this country to supply a suitable powder in suitable quantities, and of the ability of such powders to stand long storage and exposure to low temperatures without too great deterioration of their ballistic qualities.

"The success that has been arrived at in the manufacture of the calibre .30 cartridge, at the Frankford Arsenal, and the excellent results obtained with the new calibre .30 Springfield

single-loader. lead the Department to believe that if the adoption of a magazine arm is deferred the Department may, at an early date, commence to furnish to the army reduced calibre arms and ammunition charged with a satisfactory smokeless powder. The Department is earnestly urging on the experiments and other work for arriving at a solution of this question, and as soon as a satisfactory powder can be obtained the question of the immediate adoption of the reduced calibre arm will be submitted to a board."

ENCAMPMENT.

The First Brigade, National Guard, under the command of Brigadier-General Dudley S. Steele, encamped on the State Camp-grounds, Sea Girt, from July 13th to 18th.

The appearance of the grounds has been greatly improved by the removal of the barns and stables and other out-buildings from their location just east of the Governor's headquarters to a point on the lake south of the mess halls. All improvements hereafter will be made with a view to permanency.

The receipts from the camp-grounds for the year for sales of grass, hay and pasturage, amounted to seven hundred and sixty-seven dollars and three cents (\$767.03).

SHERMAN OBSEQUIES.

By authority of a Joint Resolution of the Legislature, transportation was furnished through this office to a large representation of the Department of New Jersey, Grand Army of the Republic, to participate in the obsequies of General Sherman in New York city, February 19th, 1891. The expense incurred under this resolution is shown in the reports of the Comptroller and Treasurer, and is not chargeable to militia account.

SEA BRIGHT FIRE.

Acting under your authority, three hundred (300) common tents were issued to the committee appointed for the relief of the people deprived of shelter by the disastrous fire at Sea Bright on the 16th of June last. The greater bulk of these tents have been returned to the Arsenal, and the committee has assured me that the balance will be returned as soon as they are in suitable condition. The committee of the Sea Bright Fire Relief Fund is entitled to great credit for the excellent condition of the property returned.

EXPENSES OF THE NATIONAL GUARD.

The total expenditures for militia purposes, for the year, amount to one hundred and twenty-four thousand four hundred and eighteen dollars and sixty-eight cents [\$124,418.68].

The difference between the several items of expense for the two years may be briefly explained as follows :

APPROPRIATIONS FOR COMPANIES.

The stoppages for uniforms against the appropriations of 1891 amounted to \$3,103.42, as against \$10,405.65 in 1890.

ANNUAL ENCAMPMENT AT SEA GIRT.

The expenditures for the Encampment of 1891 exceeded those of 1890 by \$8,793.39. The amounts required for items of pay, subsistence, company cooks, etc., were naturally larger than those of 1890, when the Second Brigade, a much smaller organization than the First, was encamped.

10 QUARTERMASTER-GENERAL'S REPORT.

CAMP AND GARRISON EQUIPAGE AND QUARTERMASTER'S STORES.

The expenditures on this account were quite heavy this year, exceeding those of 1890 by \$3,459.38, the most important items being necessary purchases of knapsacks, blankets, camp cots and stools, materials for repairs of tents, crockery, glass-ware, etc., etc., to complete the complement necessary for the encampment of the First Brigade.

RIFLE RANGE AND PRACTICE.

The expenditures on this account exceed those of 1890 by \$1,442.35, and the excess is principally chargeable to the improvements made on the range just previous to the season of practice.

STATE CAMP-GROUNDS.

The current expenses of the camp-grounds exceed those of 1890 by \$1,178.40. Over three thousand dollars have been expended in permanent improvements. The details of these expenditures are given elsewhere.

TRANSPORTATION FOR BATTALION DRILLS, ANNUAL INSPECTIONS,
PARADES, ETC.

The excess, about \$1,500 over expenditures of last year for this service, are principally chargeable to the Regimental Inspection of the Sixth Regiment, at Atlantic City, in May, and the Field Day of the Third Regiment, at Keyport, in October.

UNIFORMS.

The expenditures for uniforms were heavy this year, but no more than were actually and absolutely necessary to fit the First Brigade for the encampment.
