STATE OF NEW JERSEY

GENERAL ASSEMBLY

TUESDAY, January 14, 1964.

At 12 o'clock noon, today, Tuesday, January 14, 1964, Assemblyman-elect Douglas E. Gimson of Hunterdon County, called to order the One Hundred and Eighty-eighth session of the General Assembly (the seventeenth under the Constitution adopted by the people in 1947) by reading the following call:

“This being the second Tuesday of January, the time fixed for the beginning of the Legislative year, the General Assembly of the State of New Jersey is now called to order.”

Prayer was offered by Very Rev. Lloyd G. Chattin, Dean, Trinity Cathedral, Trenton.

Upon calling the roll, the following members appeared and answered to their names:

Messrs: Addonizio, Bateman, Beadleston, Berglund, Biber, Bigley, Brady, Bressler, Brigiani, Burke, Collins, Crabiel, Curry, Davis, Dickey, Doren, Everett, Fairhurst, Farrington, Fisher, Gelber, Genova, Gimson, Halpin, Hauser, Hierung, Higgins, Hughes, Kay, Keegan, Keith, Kijewski, Kimmelman, Kordja, La Corte, Lynch, Mallett, Mandelbaum, Maraziti, McCord, McDermott, McDonough, Moraites, Musto, Panaro, Policastro, Randall, Rimm, Rutherford, Sears, Smith, A. S., Smith, W. L., Sweeney, Tanzman, Vander Plaats, Wallwork, Wegner, Werner, White, Woodcock—60.

Absent—None.

The Speaker led in the Pledge of Allegiance to the Flag.

“America The Beautiful” was sung by M. Donald Lang, accompanied by Bert Fread.

Mr. Gimson announced that nominations for temporary chairman were now in order.

Mr. Everett, of Essex County, nominated Mr. Kay, of Cape May County, which nomination was seconded by Mr. Rutherford, of Sussex County.

Mr. Gimson announced that he would entertain a motion that nominations for temporary chairman be closed.

Mrs. Higgins moved that the nominations be closed.

Which motion was adopted by the following vote:

In the affirmative were—

Messrs. Addonizio, Bateman, Berglund, Biber, Bigley, Brady, Bressler, Brigiani, Burke, Collins, Crabiell, Curry, Davis, Dickey, Doren, Everett, Fairhurst, Farrington, Fisher, Gelber, Genova, Hauser, Herring, Higgins, Hughes, Keegan, Keith, Kimmelman, Kordja, La Corte, Lynch, Mallett, Mandelbaum, Maraziti, McCord, McDermott, McDonough, Moraites, Musto, Panaro, Policastro, Randall, Rimm, Rutherford, Sears, Smith, A. Mr. Kay, temporary chairman, appointed Mrs. Kordja, Messrs. Rimm and Maraziti to act as a committee of three to escort the Speaker to the bar of the General Assembly, where he would take the oath of office.

The Honorable Haydn Proctor, Justice of the New Jersey Supreme Court, administered the oath of office to the Speaker.

The Speaker, on assuming the chair, addressed the General Assembly.

REMARKS BY ALFRED N. BEADLESTON

SPEAKER OF THE NEW JERSEY GENERAL ASSEMBLY

JANUARY 14, 1964

Within the past sixty days, due to the tragic and shameful assassination of President Kennedy, the world has witnessed the true greatness of the American system of government. The orderly and effective transition of government and the willing acceptance of the change of leadership by all the American people have been held up for the free and captive peoples of the world to see and to ponder.

Last November 5th, here in New Jersey we held a state-wide election at which one-half the membership of the State Senate and all sixty members of this house were elected. Here again a change was made—this time by the free choice of our citizens through the secret ballot. As a result, we are witnessing here today, in this Chamber, another orderly transition of leadership from one of two great political parties to the other.

The eyes of the nation will be on us in 1964 for that reason alone. They will also be on us as we celebrate New Jersey's Tercentenary—our 300th birthday as a State and as we serve as host, this September, to legislators from all the other forty-nine states at the Annual National Legislative Conference to be held at Atlantic City where earlier the Democrat Convention will be held to select their candidates for President and Vice-President of the United States.

At the last General Election, the \$750 million bond issue proposal was overwhelmingly defeated. Now we must determine, as legislators, what next step to take. Shall we turn to a broad-based tax, such as the modified sales tax; shall we submit this to a referendum next November 3rd; or shall we propose one or two smaller bond issues to cover critical priority capital needs?

However, it is absolutely necessary, if we and the electorate are to make intelligent decisions, for us to determine

the short and long range needs of our institutions, our schools and colleges, our highway system and other areas and to establish priority schedules. Consequently, legislation is being introduced for immediate and prompt reviews by our Committees in both houses. These committees will report at an early date. In the meantime, a \$50 million bond issue for institutions will be dropped into the "hopper".

It is equally important for us to know, and for our citizens to be advised, how efficiently and economically our fourteen Executive Departments are being operated and whether any savings can properly be made. Our judicial system is acknowledged as the finest in the United States and is under constant review and the Legislature has just received, at its own request, a complete report on the operations which I will comment on further in a few moments. What is needed, for a study of the Executive branch of our State Government, is a "Little Hoover" Commission and legislation will be introduced to create such a body.

We must also consider, as part of any proposed broad-based tax, how to use a considerable portion of it for additional state-aid to local school districts to give some much needed relief to real property owners who are carrying such a heavy burden of local taxation.

Other important matters will command our attention and will require appropriate legislation. In the field of law enforcement, we should enact stringent laws on narcotics and barbituates to prevent especially the ruination and degradation of our youth by the unscrupulous and conscienceless. Bills are ready in this field as is legislation to recreate the Law Enforcement Council.

In the field of Health and Welfare, we shall have bills to up-date our Mental Health program and to permit insurance companies, through the creation of non-profit associations, to write low cost medical and hospital insurance for those over sixty-five years of age.

It is hoped that we can agree upon a Civil Rights Bill; a bill increasing the benefits of employees under Workmen's Compensation and at the same time eliminating many of the so-called "nuisance" awards; legislation on Conflicts of Interest at the state level; on the registration of professional lobbyists; to limit the number of trotting race tracks to the one now in existence; to study the advisa-

bility and constitutionality of merging for purposes of economy the administrations of the New Jersey Turnpike and the Garden State Parkway; to implement the farm land assessment constitutional amendment adopted last November 5th; to attract new industries to our state to supply additional job opportunities; and a wide variety of other important subjects.

We will too, during 1964, improve the operating procedures of the Assembly. The report on legislative procedures, which I referred to earlier and which was made by the Eagleton Institute of Politics at Rutgers—The State University, contained eighteen recommendations, of these we will adopt six in full as follows:

1. Recommendation No. 2 calls for better liaison between Senate and Assembly. We will amend our rules to create a Liaison Committee.
2. Recommendation No. 4 suggests a Constitutional Amendment to lengthen the legislative session to two years (the term for which Assemblymen are elected) for a variety of reasons. We will introduce legislation to put the question on the ballot next November.
3. Recommendation No. 6 concerns a Lobby Control Law and I have covered that already.
4. Recommendation No. 7 deals with unauthorized persons on the floor of the House. I have issued strict orders to the Sergeants-at-Arms to enforce this to the letter.
5. Recommendation No. 8 urges the discontinuance of the practice of recognizing individual groups in the gallery. Henceforth, they will be greeted by one morning and one afternoon over-all resolution offered jointly by the Majority and Minority Leaders.
6. Recommendation No. 11 will be complied with by legislation to create, under the Legislative Services Commission, a separate Division of Law Revision whose sole and continuing function will be substantive revision of our statutes, separate from Bill Drafting.

Six others we will adopt in a modified form:

1. Recommendation No. 1 calls for sending passed bills to the Governor within one week of passage. We will

- do this after two weeks unless the Governor, for good and sufficient reasons, requests a further delay for a specific bill.
2. Recommendation No. 3 suggests a one week's notice to members of bills to be voted upon. It is impractical to do this and in most cases unnecessary. We will, however, adopt a procedure giving more notice to each Assembly member than has been done in the past but this will require the full cooperation of the Executive branch. Instead of supplying the proposed calendar on Saturdays, we hope to furnish most of it by Thursday preceding each session. This should be ample time. In this connection, few bills will be passed by emergency resolutions this year. They must be true emergency matters and, in each case, typed mimeographed or printed copies must be distributed to each member of this House to allow him ample time to study the particular measure.
 3. Recommendation No. 5 proposes a "consent calendar" procedure. We will endeavor to develop such a list of bills and reserve 2 P.M. of each session for the voting on as many of them as time will reasonably allow.
 4. Recommendation No. 10 puts forward a plan to create three Joint Committees, (on State, County and Municipal Government; on the Judiciary; and on the Revision and Amendment of Laws) due to the fact that many identical or similar bills of major importance are introduced annually in both houses and referred to one of these three Committees. Usually these committees have a very heavy load in addition and Eagleton recommends the hiring for each of a full-time professional staff. This would be rather expensive and so it is planned that 1) the three chairmen will be asked, when similar or identical bills are pending that seem to present problems, to request a joint meeting with the appropriate Senate Committee, 2) we will also consider adopting a rule to require, when a public hearing is planned, the Chairman of any Assembly Committee to invite the proper Senate Committee to sit in, 3) the Legislative Services Commission will be asked, as needed, to staff these joint hearings and joint meetings and 4) a study will be

made of changing the names of our Committees to more nearly represent the various types of legislation we process to permit more meaningful references and a more even distribution of the annual work load.

5. Recommendation No. 14 urges more staff for the Speaker and for the two Party Leaders. The Speaker doesn't need more staff but we will give to each Leader an additional aide who will be available, we hope, to all the members of his Party.
6. Recommendation No. 15 calls for a \$2500 annual allowance to each member for secretarial assistance. We have been giving \$400. It has been woefully inadequate. But \$2500 would cost the State's taxpayers an additional \$126,000 annually just for this house. We have settled on \$750.

Four of Eagleton's suggestions are not directly in our power to implement but the appropriate agency will be urged to do so as soon and as best possible. I refer to:

1. Recommendation No. 12 for an additional annual appropriation for the Legislative Services Commission of \$50,000 for professional staff, to assist the Legislature on a year round basis.
2. Recommendation No. 13 to have that Commission revamp the Office of the Legislative Budget and Finance Director.
3. Recommendation No. 17 for that same Commission, starting in 1965, and every two years thereafter, to set up and conduct an Orientation Program for newly elected Legislators.
4. Recommendation No. 18 for adequate space for legislative conference and committee rooms and private offices for legislators. This is the subject of a soon-to-be-released report of the State Capitol Development Commission and we will study it. However, only a few private offices are needed and should be assigned by the State House Custodian upon request.

Lastly, there are two recommendations that most of us feel should not be acted upon. They are:

1. Recommendation No. 9 calling for two sessions per week. Part time legislators, all of whom live and work

within two hours of the State House, should not be asked to do this and the resulting "speeded-up" session would be less in the public interest than the normal five or six months we now take. Our present procedure allows the public more time to learn about and more fully acquaint themselves with pending legislation.

2. Recommendation No. 16 to reimburse legislators for out-of-pocket expenses. Despite the detailed legal analysis in the Report, most of us feel that it would be unconstitutional to do so.

In addition to all the foregoing, I am asking two of our Committees to take on special assignments. Repeatedly over the past several years, our judiciary has pointed to contradictions or omissions in the laws of our state that have prevented our judges from fully deciding cases before them. Our Judiciary Committee will be asked to meet with the Chief Justice and the Administrative Director of the Courts to establish a continuing liaison, to go back over the record and report to this house as to any legislative action which they deem necessary and advisable.

The Business Affairs Committee is being asked to study c. 51, P. L. 1960, the real estate and personal property tax law now partly deferred to determine whether, in their opinion, it should be further deferred, allowed to go into operation as is or with the repeal of either the business inventory tax or the machinery and equipment tax or both and adequate replacement tax or taxes.

It has been a longstanding tradition in this house, under the capable Speakers that have preceded me, that this high office be administered as impartially as possible and in the best interests of all the people of our State. I pledge to you, ladies and gentlemen of the Assembly, to adhere to that tradition.

On the front of the State House Annex appear two inscriptions hewed in the stone. One of them reads "This building is erected upon ground hallowed by the blood and made sacred by the sacrifices of the forefathers of our state and nation, who offered everything they had upon their Country's altar." The other reads "The Legislature by the enactment of wise laws, the Governor by causing them to be faithfully executed, the courts by impartially interpreting

them have earned for New Jersey an enviable reputation." Let us bear these two sets of words closely in mind as we go about our part of the state's business. I know that, with His help, we will.

Thank You.

The Speaker named his secretary, Warren A. Gibbs.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker appoint forthwith a committee of five to wait upon the Governor and inform him that the General Assembly has organized by the election of the Honorable Alfred N. Beadleston, of Monmouth County, as Speaker, and of Paul Boruta, of Bergen County, as Clerk of the One Hundred and Eighty-eighth Session of the General Assembly of New Jersey, and is now ready to proceed to business.

The Speaker appointed a committee of five, consisting of:

Messrs. A. S. Smith, Atlantic County; Rutherford, Sussex County; Moraites, Bergen County; Hauser, Hudson County; Farrington, Mercer County.

A message was received from the Secretary of the Senate as follows—and was read by the Clerk:

STATE OF NEW JERSEY,	}
SENATE CHAMBER,	}
January 14, 1964.	}

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:15 P. M., both Houses of the Legislature meet in joint session for the purpose of receiving the Annual Message of His Excellency Richard J. Hughes, Governor of the State of New Jersey, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

Mrs. Higgins moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution adopted.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Clerk of the General Assembly be directed to inform the Senate that the General Assembly has organized by the election of the Honorable Alfred N. Beadleston, of Monmouth County, as Speaker, and Paul Boruta, of Bergen County, as Clerk of the One Hundred Eighty-eighth Session, and has proceeded to business.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted by the following vote:

Be It Resolved, That the General Assembly proceed to fill the remaining several offices of the General Assembly, and the nominations be made and a vote taken for all of the offices at one and the same time.

In the affirmative were—

Messrs. Addonizio, Bateman, Beadleston (Speaker), Berglun, Biber, Bigley, Brady, Bressler, Brigiani, Burke, Collins, Crabiel, Curry, Davis, Dickey, Doren, Everett, Fairhurst, Farrington, Fisher, Gelber, Genova, Gimson, Halpin, Hauser, Hierung, Higgins, Hughes, Kay, Keegan, Keith, Kijewski, Kimmelman, Kordja, La Corte, Lynch, Mallett, Mandelbaum, Maraziti, McCord, McDermott, McDonough, Moraites, Musto, Panaro, Policastro, Randall, Sears, Smith, W. L., Sweeney, Tanzman, Vander Plaat, Wallwork, Wegner, Werner, White, Woodcock—57.

In the negative—None.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That unless otherwise ordered the regular hours of meeting of the General Assembly for morning, afternoon and evening sessions be respectively at 11:00 o'clock A. M., 2:00 o'clock P. M., and 8:00 o'clock P. M.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the Speaker is hereby authorized and directed to appoint a committee of seven members to serve as a Committee on Rules.

The Speaker appointed: Messrs. Sears, Morris County, Chairman; Rutherford, Sussex County; Woodcock, Bergen County; Genova, Essex County; McDonough, Union County; Mandelbaum, Essex County; Fairhurst, Hudson County.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That the rules of the General Assembly for the 1963 session be adopted as the official rules for the first three weeks of the session of 1964.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That Miss Sherley Collins and Master Craig Collins, daughter and son of Assemblyman Loree Collins, of Union County, be adopted as daughter and son of the General Assembly of 1964.

The Speaker announced the following Legislative Commission appointments:

State Air Safety Commission—David M. Mandelbaum, Newark, for the unexpired term of G. Edward Koenig. Expiration of term—July 10, 1965.

Beach Erosion Commission—William T. Hering, Toms River; Albert S. Smith, Brigantine; Alfred N. Beadleston, Rumson; Robert E. Kay, Cape May. Terms expire January 12, 1965.

Tercentenary Commission—Marion W. Higgins, Hillsdale, until January 11, 1966. Charles E. Farrington, Trenton, until January 11, 1966.

County and Municipal Law Revision Commission—Nicholas St. John La Corte, Cranford, replacing George H. Barbour.

State Capitol Development Commission—Vincent R. Panaro, Trenton, until January 11, 1966. Joseph C. Woodcock, Jr., Cliffside Park, until January 11, 1966.

New Jersey Water Research and Development—See note re terms below—David A. Gelber, Hackensack, replacing George H. Barbour, and until January 14, 1967.

Liability in Tort Cases Study Commission—Irving E. Keith.

Note: N. J. Water Research and Development Commission—when Messrs. Rutherford, Barbour and Mandelbaum were first appointed on October 25, 1962, it was not stated, as required by c. 148, P. L. 1958, which of the appointees was to a 1 year term, which to a 2 year term and which to a 3 year term. The Speaker ruled that Mr. Rutherford's term is for 3 years to expire October 25, 1965, Mr. Mandelbaum's is for 2 years to expire October 25, 1964, and Mr. Barbour's was for 1 year and expired on October 25, 1963.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved. That the number of copies of the Legislative Manual apportioned by law to the General Assembly be distributed under the direction of the Clerk of the One Hundred and Eighty-eighth General Assembly as follows: To each member of the General Assembly, twenty (20) copies; to the Clerk, twenty (20) copies; to the Assistant Clerk, Speaker's Secretary, Clerk to the Majority Leader and Clerk to the Minority Leader, each two (2) copies; to the Journal Clerk, Sergeant-at-Arms, Supervisor of Bills, Bill Clerk, Calendar Clerk, Assistant Journal Clerks, Assistant Bill Clerks, Assistant Supervisors of Bills, Assistant Sergeants-at-Arms, Pages, Legislative Correspondents and Reporters, each one (1) copy.

Mrs. Higgins moved that the General Assembly recess for the purpose of a Joint Session.

The Senate and General Assembly met in Joint Session.

Mr. Sandman, President of the Senate, appointed Messrs. Deamer and Grossi to escort the Governor.

Prayer was offered by Rabbi Isaac J. Wasserman, Congregation Anshe Chesed, Somerville.

Governor Richard J. Hughes delivered his Annual Message to the Legislature:

SECOND ANNUAL MESSAGE

January 14, 1964.

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

This year marks New Jersey's Tercentenary. During this period the mind will turn naturally to a review of the past accomplishments of our State and to thought of the people who contributed so much to its achievements. This history will refresh our sense of pride in New Jersey. This is how it should be.

To the extent that the past serves as a useful guideline for the future, every citizen will benefit from this year's review of what has gone before. If there is a single group in the State, however, which can least afford the pleasant luxury of looking only backwards, it is we who assemble here today. Other legislators and governors have made their contributions. Their efforts, whether great or humble, are recorded upon the history of their times. But, our work is far from completed. Our task, our purpose, is to build upon the established foundations of the past to provide the best possible future for the people of this State. This is a heavy responsibility indeed, but one that we can meet together.

In a world as complex as ours, we have come to realize that a beneficial and prosperous future is not ours by right; nor can it be expected to occur spontaneously. If it is to occur at all, it will be the result of careful planning and preparation and considerable hard work. To this end, each citizen has his own concern to do his utmost, to advance himself and his family. The business and commercial interests of this State also bear no small part of this responsibility. Not only do such enterprises provide a substantial portion of the State's economic well-being, but they also hold within their hands the power to advance the State's ability to cope with many of the most pressing social and economic problems of our day. For example, some of our greatest industries, in cooperation with the State, are helping establish the pattern and

the procedure for the constructive integration of all qualified persons, regardless of race, religion or nationality, into the work force of the State.

To dwell upon the responsibilities of the private citizen, however, is to lose sight of the special responsibilities we here today have willingly assumed. As we have been elected, so have we elected to undertake the obligation of serving the people of this State. Having chosen to serve, can we now shrink from the obligation to perform the duties of our office faithfully to the best of our abilities?

The problems which confront the State are not nearly as difficult to conquer as is the fear to undertake solutions. To those of us who would fear the unpopularity of meaningful measures to curb drunken driving, I would point to the 964 persons who died upon our highways in 1963—how much of this is the price of past inaction? To those who would hesitate indefinitely to provide the revenues so necessary to our survival, I would point to the more than one quarter billion dollars by which local real property taxes have risen in the last four years and still have failed to meet the needs of a modern State—the near intolerable price of inaction. To those of us who would preach the brotherhood of man and yet equivocate about writing its full meaning into the public policy of our State, I would point to the waste of human potential, to the mounting social ills and welfare problems and worse, which afflict the body politic to the cost of every one of us.

People—Purpose—Progress; this is the Tercentenary motto. The people are waiting. The purpose is evident. It is progress we must seek.

FIRST STEPS TO PROGRESS

We must measure the foundation required for the State's future progress partly in terms of today's existing needs.

During the past year, there was considerable discussion concerning the immediate and near future needs of the State in two critical areas, (1) capital construction, and (2) increased financial aid to local governmental units.

Each of these areas of need has been documented in great detail over the past years. For example, the State's requirements for institutional construction are supported by numerous departmental studies dating from 1959 and even earlier. These studies establish the need for a capital construction program of more than \$100 million, of which \$60 million is sufficiently urgent to require immediate consideration.

The capital construction needs of our public institutions of higher education have been carefully documented by the 1962 Strayer Report which projected a minimum capital construction program of \$134 million in the next several years. Unless these facilities of education are provided we will be turning our backs upon the more than 23,000 additional students who will be seeking college accommodations in our public institutions, for instance, in the scholastic year 1970. Demonstrating the immediacy of this problem is the fact that we will require facilities for 12,000 more students than our public institutions handled in 1961 by as early as September, 1965.

A third major area of need certainly is that of highways. For more than six years the Highway Department has been issuing, on a consistent and periodic basis, comprehensive reports detailing the necessity of a construction program which will total approximately \$2 billion by 1975. New Jersey's traffic density is already five and one-half times the national average; three times that of Pennsylvania and three and three-quarter times the density on New York State highways. Considering today's congestion, it is frightening to contemplate conditions in 1980, by which time our traffic engineers say vehicle miles of travel will double the 1960 figure.

As to the requirements of our local school districts for increased State financial assistance, there has been a detailed and comprehensive report by the Commission on State Tax Policy which more than establishes the pressing need for this action. Even if this report did not exist, a quick glance at the statistics of the increase in local property taxes over the past years would establish this need. In less than 10 years these taxes have increased by more than one-half billion dollars. Does anyone in the Legislature

seriously believe that the local property taxpayer can continue to absorb a financial burden of the magnitude now posed by these taxes?

During the bond issue discussions, there were those, including some members of this Legislature, who indicated that they were not convinced that the needs which I have briefly outlined in this message exist or that their existence has been fairly proven through careful and impartial study. In light of the studies which have been conducted by the State, by consultants of unquestioned integrity and by commissions of the highest repute, I find it difficult to understand such a contention. Nevertheless, I say to this legislative body that if there should be any of you who choose to argue with the facts as they exist today, and as we all know them, conduct such studies as you may wish. I ask only that you do it quickly, for we are surfeited with studies, and the people are waiting. I am confident that no reasonably intelligent individual can long escape the inevitable conclusion that New Jersey's ability to progress in the future is tied very directly to the needs which I have outlined and to the many other areas of needs which I will touch upon in this and my other messages, particularly in the Budget Message which I shall deliver to you next month.

A CONTINUING OBLIGATION TO ACT

Before we turn our attention to a consideration of new matters or to a consideration of new developments in some of the older problems, I feel that I must comment upon a proposal presented to you last year which did not receive legislative approval.

In my first message, I devoted considerable attention to the pressing necessity for the "driving while impaired" legislation and the "implied consent" law. Since last year, death on New Jersey's highways has continued to increase at an alarming rate. Nearly 200 more persons died on our roads in 1963 than did in 1961. The State's alcoholic determination program has consistently established, year after year, that more than 50% of the drivers involved in fatal accidents were found to have an alcohol factor.

I well realize that a driver's license is a most valuable possession in our way of life which depends upon automobiles as a necessary means of transportation. The loss of a license is a serious handicap to its owner, but can it be equated with the loss of a life?

If we are to discharge our responsibilities, we must make every reasonable effort to improve our motor vehicle laws and enforcement programs so that lives will not be sacrificed needlessly. A strengthening of the drunken driving laws is an absolute essential. The proposals are before you. I request your serious and early consideration of this problem.

A REPORT OF STEWARDSHIP

We can take substantial pride in the fact that State government in New Jersey has established a record for economy of operations. The most recent figures available indicate that our per capita cost of operating State government is the lowest in the nation. State tax collections, computed as a proportion of personal income in the State, are also the lowest in the nation. We employ fewer persons per capita than any other state. I doubt that anyone could claim that there is another state in this nation whose economy of operations is better, in terms of cost, than ours in New Jersey.

I mention these facts not in a spirit of complacency, for it is certain that in some areas we are not meeting our responsibilities because of lack of funds, but to set the record straight. In other words, what we are doing we are doing efficiently and economically. To those who would criticize State government, I would request that they specify the services they would abandon or deny and that they not resort to generalized, unsubstantiated claims of possible saving.

But no one can claim perfection. Mindful of our continuing responsibility to maintain efficiency, I have had conducted a series of studies concerning State government. Last year, the Governor's Committee on Efficiency and Economy in State Government conducted such a study. I am pleased to be able to report that many of its non-legislative recommendations already have been implemented, and others are in the process of implementation with considerable savings being realized to the State. For example, a

review of State supported activities has led to the establishment of a centralized motor pool, and we are providing for centralization of printing and duplicating activities. A long-range planning program for capital improvements has been established. In addition, specific steps have been taken to assure for State government the full advantages of electronic data processing; studies for a centralized data processing operation are now under consideration.

Yet, while these and many other recommendations of the Governor's Committee on Efficiency and Economy have been implemented by the Executive Branch, I am not aware that any of the legislative recommendations have been implemented, and thus I assume that the report remains under study by the Legislature.

I also would strongly recommend expansion of the State's fiscal note law. At present, this law affects only those bills which would increase or decrease State revenue or expenditures. It is of equal importance that the Legislature and the general public know what effect proposed legislation will have upon local revenues and expenditures.

It is my intention to continue during the forthcoming year my review of State operations with a view to maintaining and improving our present high degree of economy and efficiency. And to continue and expand the comprehensive study of the operations of our State government, not only for its betterment but for the composure and information of our citizens, I recommend the creation of a Hoover-type commission.

It is essential, however, to the well-being of the State that any such commission be not a vehicle for political harassment but a means for an objective evaluation of the problems of government. To that end, I feel that I must stipulate that such a commission, if created, be composed of public members appointed by the Governor subject to confirmation by the Senate.

It is this means of balanced responsibility which the Constitution has established as a guarantee of the highest quality in appointments—from the Chief Justice of the Supreme Court through the whole range of the judiciary, for instance, where

justice and impartiality form the touchstone of achievement. This method of appointment is certainly best, if indeed we are all sincerely interested in objectivity without suspicion of partisan motivation.

THE PEOPLE

CIVIL RIGHTS—NOT A POLITICAL MATTER

New Jersey is justly proud of its pioneer position in making the promise of the Declaration of Independence a reality for all its citizens. But during 1963—the hundredth anniversary of the Emancipation Proclamation—the conscience of New Jersey, as well as the nation, was aroused by intensified demands for inter-racial justice. Many came to realize that there was much more to be done before all our citizens could truly share in the full freedom and equal opportunity which should be available to all citizens regardless of race, religion or national origin.

Over the years civil rights has never been a partisan matter in New Jersey. The first substantial gains in this field were made by a Republican Governor working with a Republican Legislature. Under Governor Meyner this pioneer role was continued, with notable progress, particularly within the Executive Department, and with additional legislative achievements which were the products of bipartisan effort.

This administration, working with legislators of both parties, has recorded a number of achievements. We have implemented a campaign pledge to bring the Division on Civil Rights within the Department of Law and Public Safety, thus better preparing the Division to meet today's need to assure equal opportunity. A bipartisan Legislature broadened our civil rights statutes to outlaw discrimination by all public contractors. It was my privilege to sign this bill into law.

We have seen in New Jersey this year a series of landmark decisions—the first of their kind in the Nation—by the Commissioner of Education in which the State successfully has come to grips with the problem of “de facto” segregation while maintain-

ing the structure of the neighborhood school system, so much a part of public education in New Jersey.

Confronted with the growing moral crisis during the year past, the Democratic and Republican parties formalized their cooperation in meeting the challenge of civil rights by establishing the Bipartisan Conference on Civil Rights to deal specifically with the problems of equal opportunity in the fields of education, employment and housing.

Clearly this was a positive recognition that civil rights is not a political matter, but a matter of morality and democratic ideals.

Spokesmen for the major faiths have reminded us in no uncertain terms that the demands of conscience require that we move rapidly and courageously in all areas of public and private life to share the full benefits of freedom with all our fellow citizens.

It is this moral conviction which must guide us as we again take up the important matter of fair housing legislation. There have been differences that have blocked this legislation. Important legislative leaders have described these as differences, not of moral substance, but of legal form. The Bipartisan Conference on Civil Rights has recommended solutions to this impasse. I would hope that the same spirit of bipartisan cooperation reflected in the Conference on Civil Rights will continue. If it does, I am sure that the Legislature will pass a meaningful fair housing bill which will reflect credit on itself and on New Jersey as a leader in the field of civil rights.

TO MATCH SKILLS AND JOBS

Total employment and average income in New Jersey have reached a new high. In construction and in the production of goods and services we have set new records. And our economists forecast that 1964 will be even better.

This is but a part of the story—the bright side. Unemployment in New Jersey, as in the nation, remains high. During the past year it has averaged 6.5 per cent. As our technology advances, a greater proportion of job opportunities is found in the skilled and professional categories. But employment of the unskilled is

rapidly falling. Many New Jerseyans find themselves unemployed, not because there are no openings, but because they lack the skills required for available jobs.

In part, we are already attacking this problem. Using funds provided under the Federal Manpower Development and Training Act, our Education and Labor Departments, in cooperation, are training hundreds of unemployed in higher or more employable skills. This Federal program recently has been extended and enlarged, and we shall take full advantage of these added opportunities.

YOUTH EMPLOYMENT—THE PROBLEM

But our most knotty problem—that of youth unemployment—is not resolved by this approach. In the next seven years, more than half a million young people will be entering the New Jersey labor force. Nearly 30 per cent of these will be high school dropouts, most of them without the necessary skills for a steady, productive job.

Such figures point up the tragically dramatic condition wherein 40 per cent of New Jersey's unemployed in 1963 were under the age of 25 while this group constitutes only 14 per cent of the labor force.

These young people face a life of recurrent or near-continuous unemployment. And our communities face the ever-increasing economic and social burdens that this functionally unemployable group presents—a stark prospect for the taxpayer.

Opportunities for professional and technical workers, for sales and clerical workers, for managers and proprietors, are increasing; but opportunities in unskilled and semi-skilled types of work are fast disappearing. Today more than 90 per cent of the available job opportunities in our State demand a minimum of a high school education, and a rapidly growing percentage demand specialized vocational training, college and university preparation, and even graduate study. The challenge of youth unemployment and the high school dropout is immediate and critical. It confronts all of us and must be met by the combined efforts of both the private and

public sectors of our society. This is a matter of conscience as well as economics which this administration proposes to meet in a broad and coordinated way.

TOWARD SOLUTIONS

I have vested in the Commissioner of Labor and Industry the primary responsibility for coordination of all State programs relating to manpower training and utilization, with emphasis on programs affecting the priceless asset that is our youth.

Furthermore, the Department will be charged with continuing and expanding the State's activity as expert adviser, as catalyst and as originator in a number of citizen-sponsored programs in this area.

Plans already under way will demonstrate, I believe, the real benefits available from imaginative intragovernmental cooperation in this area. The Departments of Labor and Industry, Conservation and Economic Development, and Education are proceeding with a plan to utilize our public lands—expanding so notably through the Green Acres Program—as a medium for training, education and public service.

As a first step, a group of boys from the rolls of the Newark Youth Career Development Center soon will move into East Creek Lodge in Belleplain State Forest. These young men, while working to develop public recreation facilities under the supervision of conservation experts, not only will learn productive work habits but also will have the opportunity to repair some of the major educational deficiencies which bar them from even minimal employment in their home communities. These special educational programs will be developed in the Department of Education through its Adult Education Division.

This pilot project will be undertaken at minimal State cost. Should it meet the anticipated success, it will be expanded to other public areas. Thus, these young men, while beginning to shape their own economic futures, will help transform our Green Acres from tomorrow's promise into today's recreational reality for New Jersey's growing millions.

I am pleased to report that this program has the firm support of New Jersey's organized labor which sees this youth endeavor as a first step for young men who will become productive members of the labor force of future years.

Private endeavor, in a great American tradition, has been responsible for some of the most striking developments related to youth employment in New Jersey. In communities throughout the State, organizations, private agencies and interested individuals have developed effective and imaginative programs to combat school dropouts. These efforts must continue to be encouraged and broadened by State support.

Many young people leave high school before graduation because of the need to earn money to assist with family expenses or to meet their own expenses. Voluntary agencies in this State have recognized this problem and developed an effective solution—the Youth Employment Service. YES programs, financed by local service organizations, are functioning in 26 of our communities. This fine community service program—at no public expense—finds part-time jobs for high school students which will supplement their income without interfering with their education. In Princeton, YES obtained almost 600 jobs for students last year. This is a program which must be broadened. We will continue to lend the support of the State in promoting, coordinating and guiding its expansion to still other communities.

Another promising development which will have an impact on reducing school dropout rates and improving the transition for many youngsters from school to employment is the carefully planned work-study program now operating in three North Jersey comprehensive high schools. Non-college bound students are given special aptitude tests and placed in carefully selected commercial and industrial jobs for part of each school day. The student earns and learns on the job and returns to school the rest of the day in a carefully planned curriculum tailored to meet the special interests and needs of the individual. This research and demonstration project can be expanded and extended to schools in other parts of the State—again at minimal State and local government

cost under the Federal Smith-Hughes Act which provides Federal funds for the necessary supervisors.

In a few communities, small numbers of young people have been helped to continue in school and keep pace in spite of home and health handicaps by special tutorial programs. These, too, are volunteer efforts, often housed in church basements, community centers or private homes. They provide a place where young people can come and study under proper conditions and with interested help and guidance. Retired teachers, college undergraduates, interested adults and even qualified high school students have shown themselves to be available and eager to help in the promotion of these worthwhile projects. By a planned marshaling of talent, this program can be expanded to divert many more potential dropouts from that dead-end course.

Meanwhile, there remains the serious problem of designing a system of vocational education to meet the special needs of today's youth. Toward this end, the Commissioner of Education recently appointed a Committee to Study the Needs of Vocational Education, made up of laymen and professional educators and representing all possible interests in this field. It will review our present program with a view to revisions that will best meet the needs of our time.

THE FUTURE

These are but a few of the developments which have been taking place quietly in New Jersey. They do not need vast public outlays to enrich them. But they do need our leadership and encouragement. And they need the public awareness that will bring further support and volunteer participation.

In summary, I am suggesting to the people of New Jersey that each of us—individually and through our government—has a responsibility and an opportunity to work on the solutions of these challenging problems facing our youth. We cannot legislate a solution; we cannot purchase a solution; but we can and we will bring to bear the resources no money could buy, no law command—the dedication, the resourcefulness and the energy of concerned government and concerned citizens.

WELFARE—CONCERN AND VIGILANCE

I commend to the Legislature a careful review of the findings of the Welfare Investigating Committee of the Legislature. Evidence has been adduced by this Committee that the single item of rent constitutes a considerable portion of all welfare payments now being made. For example, in one of our principal municipalities, of a total of \$600,000 in local assistance costs, \$170,000, or one-third, is expended for rent, not including the entire cost to the taxpayer of heat and utilities. In another city, one-half of the total amount of welfare payments is for rent.

The Commission asserts that in many cases these rents are unconscionably high. Quarters which rented for \$18, \$20 or \$25 a month under the old rent controls, with little or no improvements having been made and despite an agreement of the landlords' associations that the line would be held, now carry monthly price tags of \$100, or \$120 or \$140. There is at least the implication that this situation has arisen largely because the tenants happen to be on relief, and the welfare authorities are defenseless in the face of these exactions.

Since, as determined by this Committee, cold water flats and other disreputable dwellings are now being rented for as high as \$140 a month to welfare clients—since such quarters are, by any standards, worth only a fraction of these amounts—and since such quarters are, all too often, all that is available to the families who must seek welfare, we should consider the enactment of legislation which will authorize municipalities, where such exploitation exists, to adopt special ordinances to bring these apparent frauds under control.

There is involved here, of course, the human factor, the victimizing of those least able to defend themselves against the unscrupulous conduct of slumlords. But, beyond this, there is the obvious public interest in seeing that a dollar spent in this manner is not wasted. Every taxpayer, including those in our most prosperous communities, has a direct financial interest in this situation in his county tax burden.

The State must develop an ever sharper alertness in defense of its taxpayers, and moreover in defense of what is right and just. For example, we are obliged to assure that aid to dependent children is indeed used for the care of youngsters for whom it is intended. The majority of people who find themselves obliged to participate in programs of this type are certainly good, decent members of the community. Unfortunately, there apparently are some who divert such funds to their own, rather than their children's, advantage. I am in accord with the Committee's view that stricter controls must be considered to conform all expenditures to the public intention.

Also, when one considers the millions of dollars of unmet obligations owing from parents who have shirked their parental responsibilities, the value of a new concerted effort in prosecution of such individuals is evident. In this regard, I am certain we can depend upon the full cooperation of the courts. I remind our prosecutors, probation departments and juvenile court judges of the interest of this administration in strict control and swift retaliation against deserting parents.

MENTAL HEALTH—NEW STANDARDS

With regard to legislative treatment of the always important subject of mental health, I again commit this administration to the general objectives outlined in the so-called mental health bills which passed the Assembly last year. Our shared intention should be to push New Jersey's mental health programs forward to cope adequately with this deep social problem. With legislation of this type, we will be in a position to proceed with the development of a broad, modernized program of diagnosis, treatment, care and rehabilitation while providing standards for determining impartially the responsibility of relatives and public agencies to pay for needed care. I call on all agencies of State and local government which have authority in this area to consult together and with voluntary agencies with regard to any modifications needed in the proposed legislation and to explore alternatives to achieve these objectives consistent with our responsibilities and obligations to all the citizens of New Jersey.

NARCOTIC ADDICTION

In terms of human tragedy there is nothing more serious, nor more difficult of solution, than drug addiction.

A year ago we established a Narcotic Drug Study Commission which assumed responsibility for making a comprehensive review of all matters relating to the causes, prevention and control of drug addiction. It is my understanding that this Commission has met regularly during the past year and its report should be forthcoming in the near future. This report and any recommendations which it may contain will warrant careful consideration by all of us.

HOPE FOR THE HANDICAPPED

The person with a lifetime disability needs health, education, rehabilitation and related social services of a special character at different stages of his life. Many agencies, public and private, are engaged in providing these multiple services needed by the permanently handicapped. Indeed, New Jersey's record in this field is among the best in the nation; its tradition of service is a proud one.

This effort, however, calls for constant reappraisal and planning. As commendable as our achievements may be, compared with other states, this is a sector of our community life that still suffers from much neglect. We have a strong obligation to strengthen our services to the handicapped. This will bring them out of the shadows of neglect and into the world of opportunity for personal growth, self-respect and independence, adding new strength to the lifestream of our society.

In order to effect coordinated and comprehensive programs for the person with permanent handicap, I have established an Interdepartmental Committee on Lifetime Disability and appointed an Advisory Council, made up of a broad representation of lay and professional citizens, to bring public, voluntary and professional efforts into coordination with the planning and programs developed by the Interdepartmental Committee.

I am pleased to report that much progress has been made in the field of mental retardation—the first area to be considered by the

Committee and the Advisory Council. This has enabled the State to file promptly an application for a Planning Grant in Mental Retardation under recently enacted Federal legislation.

This year we mark the tenth anniversary of a special program for the mentally retarded and physically handicapped in the public schools of New Jersey. This mandatory program was established by legislation enacted in 1954, expanded in 1959 and commonly known as the "Beadleston Laws" in tribute to the leadership of Assemblyman Alfred Beadleston, now the distinguished Speaker of the General Assembly. This legislation—the first of its kind in the country—gives new hope to our handicapped children for a better and more independent life.

Presently, a Commission appointed by the Commissioner of Education is reviewing the effectiveness of these programs. Its report, due in April, will be presented to you for any legislative action needed.

AN APPRAISAL OF HIGHER EDUCATION

In my Legislative Message last year, I announced my intention to appoint a panel of impartial authorities to make a broad study of all our resources of higher education, both public and private. I assigned it the responsibility to recommend the policies and structure which the State should adopt to provide educational opportunities for the qualified youth of New Jersey and to provide the programs and facilities to produce the trained personnel required for the dynamic economy of a progressive, urban State.

This study is now well under way by the Governor's Committee on New Jersey Higher Education headed by Dr. Carroll Newsom, now Vice-Chairman of the Board of Prentice-Hall and formerly President of New York University. The study is being financed by a group of New Jersey business firms. They are to be commended for this public service and their contribution to the future of the youth and higher education in New Jersey.

I often have referred to the essential relationship between economic development and the excellence of higher education. Those familiar with the significant areas of competition between

states in attracting industry know that a key factor is the research capability of our colleges and universities and the availability of trained personnel for modern industry.

I expect that the study will be completed during this year, and it should offer the responsible authorities and the people of New Jersey a comprehensive look at the future of this most vital area of our State life.

On a related subject, plans are under way to formulate the State plan necessary to benefit under the Higher Education Facilities Act of 1963, signed by President Johnson just a month ago.

THE ECONOMY

In examining the condition of the State, it is apparent that the people of New Jersey continue to enjoy the benefits of a prosperous economy. During the year past, a variety of business indicators showed steady and, in some respects, record gains. Our economists forecast that 1964 will be an even better year with general activity moving to record levels and with our per capita personal income remaining among the highest in the nation. This prospect will be enhanced by the expected passage of the Federal income tax reduction.

While we can take satisfaction in this outlook, we would be foolish, indeed, to assume that economic problems do not exist which will challenge all our ingenuity.

The health and vitality of our business community is essential to all of us. America is in the midst of a great era of technological change. At the same time, a natural concern arises from inevitable changes in defense production in which New Jersey industry has been a leader. To provide for our immediate and future needs we must face up to the economic truths of our time—the advances of technology, the encroachment of automation, the need for advanced technical training for our exploding population and the concomitant problem of unemployment. It is no longer possible to trade upon the achievements of past generations, nor to risk our future growth solely upon our geographic and natural resource advantages, as important as they may be.

AN ACTION STATE

New Jersey is an action State, and our economic leadership and strength will in no small measure depend upon what we do now and the steps we take to meet the demands of the future.

We are in the process of increasing our efforts to attract industry to New Jersey. I have directed the Commissioner of Conservation and Economic Development to assume full responsibility for a new approach, with new emphasis, on programs aimed at fostering the most desirable climate for business and industry. I envision the creation, with the important assistance of leaders in the fields of industry, banking and finance, labor, power and utilities and industrial real estate, of technical action teams representing the varied segments of New Jersey's commercial and industrial community to provide information necessary to outside business and industry in search of new locations. In short, the work of these teams would be to "sell" New Jersey to new business and industry.

These teams would be supplemented by a working staff of governmental experts in industrial resources, ranging the whole gamut of New Jersey's assets, including transportation, education, available labor market and many others. The expert knowledge and experience of industry representatives, such as those of the utilities of New Jersey, already gained in their continual search for new industry for this State, would be available to this effort and I know would be cheerfully given.

An example of such cooperation is provided by the eagerness of the New Jersey business community to cooperate in projects for the betterment of the State by its participation in raising funds for our Tercentenary observance far exceeding expectations and entitling these New Jerseyans to the continuing gratitude of our citizens.

A CLIMATE FOR INDUSTRY

The day is long since past when industry would locate "on the other side of the tracks," on inferior margins of the community's available land. To maintain our industrial position we must look

at the overall programming of our communities relating to sound planning and zoning. Our communities should be setting aside lands that are attractive to industry from the viewpoint of modern sewerage and water systems; access to major highways, railroads and airports; and flexibility for expansion. I hope that one day there will be uniform industrial and business codes in order to foster economic development throughout the State.

World trade and commerce historically have been the backbone of any great nation and this fact never has been more significant than it is today. New efforts on the Federal level are proceeding quickly. It is my belief that as a State we must look to our international markets, not only from the standpoint of the national balance of payments, but for outlets to absorb the increased productivity of our expanding technology. We plan trade missions to regularly foster commerce with our counterparts in other nations; on-the-spot representatives of New Jersey business in the trade centers of the world, and volunteer private citizens, particularly of the business community, who will carry the message of New Jersey with them in their travels throughout the world.

I envision the development of the full potential of Port Elizabeth, Port Newark and the Delaware River up to our Capital City of Trenton. I hope that New Jersey will become a leader in foreign trade. To implement this program, I am recommending the establishment of a section on International Commerce in the Department of Conservation and Economic Development.

STATEWIDE INTERESTS

It must be our firm position that the economic growth of New Jersey should accrue to the advantage of every part of the State. The efforts of this administration have not been limited to any one section of the State. We have seen the birth of the Atlantic City Expressway Authority to construct a vital highway from that resort center to Camden, an east-west link, so important to our resort industry. We have seen an accommodation of the interests of Camden and Philadelphia under the Delaware River Port Authority to develop a rapid transit system extending to Kirkwood and which one day may run to Gloucester and Burlington

counties. We have participated in the union of New Jersey and Delaware in the Delaware River and Bay Authority to promote transportation between these States and to include, among other things, the addition of a parallel span to the Delaware River Memorial Bridge and the opening of the Cape May-Lewes, Delaware, Ferry. I was happy to support and sign legislation authorizing construction of the Gloucester Bridge by the Delaware River Port Authority.

Through the most efficient cooperation of the Federal, State and local governments, we were able to rebuild our resort areas after the disastrous storm of 1962. Although many believed that this vital industry would never recover from that catastrophe, I am happy to report that in the past year our resorts have enjoyed a record-breaking season. A total of \$40 million in public funds has been invested in the New Jersey coast and the substance of this investment can be measured, among other things, in last year's record \$2 billion resort season. Assistance of this nature will continue. By these efforts we have built permanent protection into the shore, and we will make certain that the New Jersey coast remains the great natural asset that has meant and will continue to mean so much to this State.

Of course, all of us, regardless of political affiliation, can take pride in the fact that New Jersey this year for the first time in its history will serve as host to the convention of a national political party. I am sure that all may agree that this convention, which will place New Jersey on the world stage, will result in untold benefits for the Atlantic City area, in particular, and indeed the entire State.

DEFENSE SPENDING—CHANGES AHEAD

Much national attention is being focused on the economic impact of shifts and cutbacks in national defense spending. Some New Jersey industries already have experienced the effects of changes in defense programs and these cutbacks have caused substantial hardship, particularly for the displaced employees and the communities in which they live. With the anticipated future revisions in the national defense establishment, it is most important

that we be prepared to cope with the economic dislocations caused by reductions or changes in defense outlays affecting New Jersey industry.

We should not allow such difficulties, however, to overshadow the preeminent position of New Jersey industry in the national defense system. New Jersey continues among the top states in the nation in the amount of defense contracts awarded to its business firms. This is impressive testimony indeed to the capabilities of our industry.

As Governor, I have devoted considerable energy in the interest of New Jersey industry involved in defense production. I intend to maintain this interest and to exercise my best efforts on behalf of New Jersey's fair share of defense outlays.

But it is obvious—with this amount of defense spending in New Jersey—that we must begin to plan for the real possibility of further dislocation since we surely can expect future changes both in the pattern and level of defense expenditures.

We need to know the facts about defense outlays in this State and the probable consequences of reductions or shifts in defense spending, as these could affect New Jersey industry and the ways and means for easing the possible transition of manpower and resources from defense to other types of economic activity.

Such planning is essential so that we will have the flexibility to respond promptly and positively to defense cutbacks. For this reason I have directed that the full facts be marshaled in order that New Jersey government and industry be in a position to make smooth and speedy economic adjustments.

We are now exploring the best way to accomplish this with the appropriate Federal departments and research agencies within the State. In this connection I would urge our business and industrial leaders to give serious consideration to the need for reconversion planning. I can assure them that this administration is prepared to cooperate fully with the Federal authorities and defense industries in the public-private effort which will be required to translate problems of revised defense spending into new economic opportunities for the citizens of New Jersey.

JETPORT—DYNAMIC POSSIBILITIES

The attention of this State has been directed for some years to the dynamic economic possibilities, as well as the practical need, of a major airport in New Jersey. The history of this discussion has been a troubled one. Most recently, a two-year effort by this administration on behalf of a jetport in South Jersey has failed to overcome the unyielding obstacle of its location in the path of airways among the most congested in the world.

The Port of New York Authority, at my request, now will be conducting detailed studies of the suitability of two proposed jet airport sites in Northern New Jersey. One is located near Bearfort in Northwestern Passaic County at the Sussex County line. The other is in Bowling Green near the Morris-Sussex County border.

Both of these sites appear to meet most of the generally accepted criteria for the location of a new jet airport. They lie within the northwest quadrant of the region, thus satisfying the requirements concerning air space and air safety. In addition, existing and proposed highways make them readily accessible to the population areas which such a jet airport would be required to serve.

Significant questions remain relating to the suitability of local climatological conditions and the economic feasibility of preparing these sites for jet airport operations. These are the factors which the Port Authority will review.

I do not think that it is necessary to repeat in detail to this group the importance of such a jet airport to the economy of New Jersey. Consultants have estimated that this jet airport will generate 135,000 new jobs with an annual payroll of over \$700 million.

I intend to exert every effort that I can, consistent with my campaign commitments, to assure for the State of New Jersey the acquisition of this facility. I am convinced that New Jersey offers the best possible location for such a jetport and that its construction in this State would bring benefits far outweighing any possible disadvantages.

One of the most difficult tasks that is confronting the entire nation is that of providing sufficient employment for its citizens.

We cannot turn our backs upon a facility such as this which is not only essential to the continued economic growth of the State but is also, potentially, one of the State's major job-creating industries.

I shall report to the Legislature the results of the Port Authority studies as soon as they are available. If, as I hope, this report is favorable to one of the proposed New Jersey sites, it will be necessary for the Legislature to consider, at that time, the authorization to permit the Port of New York Authority to undertake this project, that Authority being the only agency financially capable of sustaining a project of such magnitude.

A TRI-STATE PLAN

The past 15 years have demonstrated quite clearly that the State of New Jersey lies in the direct path of an immense, irresistible tide of growth. Moreover, we have only begun to feel the effects of this wave of population. Within the next 15 years, the State's population will increase by nearly 50 per cent over the 1960 level. In little more than five years, there will be as many people in the northeastern section of this State as there were in the entire State in 1960.

New Jersey cannot expect to absorb and accommodate such large numbers of people unless it prepares itself for their arrival. For the past several years, this State has cooperated with the States of New York and Connecticut through the medium of the Tri-State Transportation Committee. This arrangement has proven to be of great value to all of the participating states. For example, the Committee is responsible for the initiation of the new "Park 'N' Ride" station in New Brunswick, a pilot project in the nation. The Committee also has undertaken numerous studies related to improving transportation in the metropolitan area.

It has become apparent, however, that a truly satisfactory master plan for the development of the northern area of this State, which is under the heaviest growth pressure, cannot be achieved through the use of the informal Tri-State Transportation Committee arrangement. Nor can our planning be considered adequate if it concentrates primarily upon transportation problems.

In addition, a failure to undertake comprehensive planning throughout the New York-Northern New Jersey urban area will seriously jeopardize New Jersey's highway construction program which is financed in large part through the Federal Highway Aid Program. The Federal Highway Act of 1962 precludes the Secretary of Commerce from approving a program for highway projects in any urban area which has not established a "comprehensive transportation planning process" by July 1, 1965. The Federal aid funds which are available from the Housing and Home Finance Agency also will be jeopardized by a failure to act on a comprehensive basis.

In order to assure ourselves the development of a realistic and workable master plan for Northern New Jersey and in order to guarantee satisfaction of the Federal requirements, it was concluded that an interstate planning agency created by a formal compact would be essential.

Such a compact was adopted by the States of Connecticut and New York during 1963. This compact was arrived at by compromise and, therefore, it contained some provisions which I did not consider necessary. On balance, however, the compact was clearly in the best interest of this State. It had the real advantage of representing a basis for formalizing the present arrangement. And it would have guaranteed the continuation of the essential planning on a partnership basis with the Federal government and our sister states. By our failure to join with these states, it has become necessary to negotiate a new agreement which will satisfy not only ourselves but the Federal officials involved, as well as New York and Connecticut. These new negotiations may give us our opportunity to improve upon the compact as originally proposed.

In discussions which I intend to have with the Governors of New York and Connecticut in regard to a possible compromise, I shall suggest broadening the purpose of the planning agency to include consideration of essential environmental factors such as air and water pollution. I shall suggest also changes relating to the representation of the States and the scope of the Governors' veto powers. In these discussions I would invite the participation

of the Legislature so that we can be assured that the compact finally approved will represent a bipartisan agreement that can command the support of the Governors and the Legislatures of the states involved.

This is a problem of pressing importance. There is relatively little time in which to undertake advance planning for the increased population which is growing up around us.

REVITALIZING THE CITIES

As we focus our attention on the problems created by growth, we must inevitably concern ourselves with the very real part our large urban centers must play in any solution to such problems. For it is precisely in the cities that the problems of growth are most directly magnified.

Since the close of World War II, the nation has witnessed a gradual shift of population from the older urban cores to the suburbs. The increased mobility made possible by the automobile, combined with the tremendous growth in our population, has made a large-scale movement of people and industry a natural development.

The result of this movement, however, has been to decrease the capacity of the urban centers to meet the joint challenges of growth and deterioration, at a time when they most need their full vitality. Unfortunately, this has become such a truism that some seem prepared merely to adjust themselves to the problem's existence. Since the difficulties of the cities are no longer new and glamorous—they have been recognized by every Governor since World War II—there appears in some quarters a tendency to view them, fatalistically, as a condition beyond relief.

I do not believe, however, that the State can turn its back on our metropolitan centers. It is unthinkable to consider these communities as being outside the realm of our concern. Their problems are our problems—their future is the future of the entire State.

Of prime concern to the municipalities—as to all government in the State—are the fiscal problems confronting all of us. This

is a subject on which I will speak further in my Budget Message. The continuing acuity of this problem, however, is unfortunately aggravated by the enactment of any legislation imposing mandated increases in local government costs without concurrent recognition of the State's responsibility to participate, through additional financial aid, in the burden thus cast directly on the property owner. This is an area which we cannot afford to disregard.

There are forms of affirmative assistance we can render. Ours is an increasingly complex society and the growing pains of the metropolis demand a concerted treatment—one which brings to bear, through effective coordination, all the available tools of governmental activity. Without such coordination we cannot hope to protect our vast human and natural resources, nor to safeguard our public and private investment.

THE NEW DEPARTMENT

In my last Annual Message, I spoke in this vein of the need for establishment of a Department of Community Affairs. As envisioned, it would be the specific responsibility of this new department to assist the local communities in solving problems relating to housing, urban renewal and planning, as well as those particularly affecting the aged and the youth. To that end, we would bring together the State agencies now functioning in these areas as well as those primarily concerned with local government, such as the Division of Local Government, the Local Property Tax Bureau and the Bureau of Tenement House Supervision. Thus State government would, for the first time and at a modest cost, present to the local administrator one centralized location to which he might refer for all available assistance, guidance or direction.

Our own thoroughgoing examination of the program has been deliberate, and purposely so, for this undertaking is a significant one. Not only the cities are involved, but all communities in this rapidly urbanizing State. Copies of the final report on this proposal have been made available today, so that a full review may be made by you, before legislation is offered.

MIDDLE INCOME HOUSING

If our cities are to play a vital role in a growing State, we can no longer defer assistance which will enable families of middle income to remain in the cities at rentals they can afford to pay. No clearer invitation to the continuing decay of our cities can be found than the high rents and slum conditions and lack of decent housing which impel these families to move to the suburbs.

There has been before you middle income housing legislation which would provide for the creation of an autonomous New Jersey Housing Finance Authority. Such an authority would have the power to issue bonds backed by its own credit and revenue and to lend the proceeds from such bond issues to qualified developers of middle income housing. The credit of the State would not be involved. Our six years of legislative consideration of this subject have prepared us for affirmative action at this time.

Modernization of our Tenement House Act, to meet present building practices, is essential. Bills for this purpose have been before the Legislature for several years and merit prompt consideration. They will benefit not only owners and builders but, by permitting a reduction in the cost of building, the tenants as well.

Also important is the need for amendment of existing law to require landlords to provide heat essential to the health and well-being of the tenant.

PROGRESS ON GREEN ACRES

To meet the demands of the future, the State embarked on its now nationally famous Green Acres program. We have made excellent progress in carrying out the mandate of the voters in this far-reaching program. A total of 67,765 acres has been purchased or approved for purchase. Of this amount, 58,513 acres are being set aside under the State program and 9,252 by local jurisdictions. In all, \$33,749,462 has been appropriated for Green Acres purchases.

The Green Acres program is providing us with the open space and recreational lands which are so vital for our future genera-

tions. It is my hope that we no longer shall be forced to turn away thousands of people as we did at State beaches last year because of the tremendous demand placed on these facilities. On this point, I should like to note that negotiations are being completed to acquire an additional 450 acres from the Army on Sandy Hook. This will complete the land acquisition for what will eventually be one of the finest public beaches on the Atlantic coast.

One of the most exciting projects comes as part of the Green Acres program and with special significance in our birthday year—Liberty Park in Jersey City facing the Statue of Liberty. The acquisition and development of Liberty Park, now being planned by the Department of Conservation and Economic Development, will provide a proper setting for this national shrine.

We plan to make 1964 a memorable year for the outdoor Jerseyman. Among many other activities, 1,000 campsites will be developed in New Jersey parks and forests. This will almost triple the number presently available to campers. This is in accord with the philosophy of developing present resources for today while, at the same time, acquiring new resources for tomorrow.

MEADOWLANDS—A REPORT

My Message last year outlined the steps that were being taken by the State and various Federal and local agencies to prepare for the development and utilization of the meadowlands. These programs are continuing.

Among the accomplishments of the past year, the State, together with the 13 communities in the Meadowlands Regional Development Agency, has filed a request for Federal funds to share the cost of a master plan and transportation plan for the meadows.

A leveling survey by the United States Coast and Geodetic Service is rapidly nearing completion and, hopefully, will help solve some of the problems concerning the troublesome question of the State's riparian interest in the title to much of the meadowlands. A comprehensive engineering and reclamation program keyed to these areas is also under study by the United States Corps of Engineers.

Because of the divergent groups which are now pursuing their individual responsibilities in regard to meadowland development, there has arisen the possible danger of overlapping and duplication of efforts. To assist in the coordination of this overall work, the Commission to Study Meadowlands Development has been constituted. This Commission will work closely with the Meadowlands Regional Development Agency and the State in bringing to fruition a workable and practical plan designed to benefit all of New Jersey's citizens.

THE BUSINESS OF GOVERNMENT

LAW ENFORCEMENT

The level of law enforcement in New Jersey remains high and we are giving constant and close attention to the problems presented by our steadily expanding and mobile population. Manpower problems exist in police forces, both on the State and local levels. Consideration is being given by this administration to a program to permit payment for overtime work by police, particularly in urban centers, where severe problems of law enforcement, such as in large housing projects, have come to exist. The need also remains to revise the State Police's pension system in order to give added stability to the future of the members of this dedicated law enforcement arm.

A close liaison is maintained by the Attorney General with Federal law enforcement officials and with prosecutors and chiefs of police. It is sustained by periodic meetings among these officials and by the exchange of useful information. There is constant surveillance of known hoodlums and racketeers living in New Jersey.

Experience with law enforcement problems has only confirmed the urgent necessity for prompt approval of measures needed by our police officials, both State and local, in their continuing fight for more effective law enforcement. Last year I requested the passage of a mandatory police training program. I again make this request. Competent police work in this day and age must be founded upon adequate training. I again urge legislative action

to require a uniform system of crime reporting and to permit essential evidence to be obtained from a witness, by court order in proper cases, through a grant of witness immunity.

Recent decisions of the United States Supreme Court have created an urgent need for clarification of our laws pertaining to arrest, detention and search. I have directed the Attorney General to review this entire subject. Any recommendations this study develops will be submitted to you.

The tragic assassination of President Kennedy emphasized the need for reconsideration of the restrictions that should be imposed on people who buy guns. The traditional right to bear arms never was intended as a license to bear them irresponsibly. It is essential that our laws be updated to provide maximum protection to the public. Bills to accomplish this are being prepared by the Attorney General's Office with the assistance of the county prosecutors.

GROWTH'S DEMANDS ON GOVERNMENT

Growth and progress; the first is inevitable, the second we must seek. In every area of State operations, the pressures of growth intensify the need for quick, responsive legislative action if existing programs are to remain capable of promoting or regulating orderly development.

HEALTH NEEDS

In the area of health, increased population means increased danger of air and water pollution as well as the possibility of weakened health standards.

Last year, a series of bills to strengthen the Department of Health's ability to cope with the problems of pollution and to strengthen its regulatory powers in the food and drug area were before you. They included proposals for regulating the installation of new sanitary disposal systems, for requiring marine toilet facilities, and for amending existing regulatory statutes. If the State is to meet its responsibility for establishing and maintaining minimum health standards for the protection of the public, it must be granted these essential tools of enforcement. These proposals will be reintroduced. They deserve your support.

LABOR NEEDS

In the area of labor, we cannot expect to satisfy the demands of a growing economy by ignoring the basic requirements which should be extended to all workers as a matter of right and necessity in this day and age. The State has had minimum wage protection for women and children for more than 50 years. Yet, for some unexplained reason, we balk at expanding this concept of fundamental justice to male employees. I urge that you promptly enact a meaningful \$1.25 per hour minimum wage bill without the almost universal exclusions heretofore proposed in the Senate.

I would also bring to your attention once again a proposal which I made last year for the enactment of a long overdue labor relations law providing effective machinery for the swift and peaceful settlement of labor-management disputes. This merits your immediate consideration.

Similarly, the proposals which have been before you on numerous occasions in the past for a revision of the workmen's compensation program and the passage of the worker health and safety legislation demand your consideration and your support.

MOTOR VEHICLES

In the field of motor vehicles, the relentless expansion of automotive activity can only serve to underline the need for prompt and responsible action. In New Jersey there are now more than 3 million licensed drivers and over 2,700,000 registered vehicles. Neither the administrative nor the law enforcement aspects in this area can be maintained at the level of efficiency which the public demands and deserves without the enactment of the revisions which have been sought for the past several years. I have already discussed the necessity for the "driving while impaired" and "implied consent" legislation. In addition to these proposals, immediate consideration should be given to the proposed revision of lighting and brake requirements for commercial vehicles. Also, the interstate compacts relating to vehicle equipment safety and to drivers' licenses will come before you again for consideration.

Both of these compacts have been adopted in many of our sister states and they warrant your careful attention.

YOUTHFUL DRINKING—A NEED TO PERSIST

While we have met painful rebuff in our efforts to persuade the government of the State of New York to bring about a minimum drinking age that conforms to that of the rest of the nation, this administration intends to continue its efforts. The rewards of our success will be measured in terms of young lives and we shall continue the moral pressure to bring about this change.

CONSUMER PROTECTION

Under the supervision of the Board of Public Utility Commissioners, the utilities of this State initiated rate reductions, refunds and other tariff revisions which resulted in consumer savings of \$6,200,000. As offset by rate increases granted in the sum of \$1,100,000, the State's utility consumers accordingly were saved over \$5,100,000 in 1963.

One of New Jersey's larger electric companies announced that it is about to construct a new \$68 million nuclear generating plant in Ocean County. Designed to reach an ultimate capacity of 600,000 kilowatts, this will be the largest privately owned atomic plant in the world when it is completed in 1967.

This installation will be a sizable addition to the generating capacity of the State. Last year, the major New Jersey electric utilities united with electric companies in Pennsylvania for construction of the "Keystone" project, to consist of large-scale, mine-mouth generating stations and an ultra high voltage transmission system for New Jersey. Already in construction is the hydro-electric "pumped storage" generating station at Yards Creek, which is part of the Tocks Island Development along the upper Delaware River. This extensive development of electric generating capacity will make available to present and future consumers—residential, commercial and industrial—an abundant supply of energy at reasonable rates and should prove particularly valuable in our attempts to attract new industry into the State.

During the past several years, explosions attributable to leaks from gas mains and distribution pipes have caused a number of fatalities, serious personal injuries and extensive property damage throughout the State. The Board has conferred continually with the utilities involved and has instituted two formal investigations with respect to two gas companies in whose territory many of these explosions have taken place. Out of these conferences and investigations, the Board has developed numerous recommendations for improvement of inspections and other safety measures to be taken by the gas distributing companies.

The Board has found, however, that a substantial number of such explosions have been caused by accidental damage done to gas mains by contractors in the course of excavation work. For that reason, the Board requested the passage of a bill to require such contractors to notify the gas utilities whenever they begin excavation within 200 feet of a gas line and to again notify the utility if and when any damage is done to the gas line. As A-301, this bill was passed by the Assembly, but was not reported out of committee in the Senate. It is respectfully urged that this bill be introduced and passed by the 1964 Legislature.

MILK

This administration has undertaken a searching review of the role of the State government in the distribution of milk. Many millions of dollars have been saved for the consumer thus far, without creating chaotic competitive conditions. Following the enactment of the "Emergency Milk Control Law of 1962," the Department of Agriculture initiated two major surveys, one a study by a management consulting firm of certain industry costs; and the other, a study by a committee of leading milk economists. The committee recommended a transitional period of price control in New Jersey as a first step towards a gradual readjustment of the laws and regulations affecting the milk industry. It was the committee's conclusion that chaotic conditions would occur in the industry in the event there was an immediate lifting of price control rather than a gradual readjustment.

Following the public distribution of the results of these surveys, hearings were conducted by the Office of Milk Industry for the purpose of determining a future milk marketing program. Testimony at these hearings substantially supported the recommendation for a transitional period. Hearings are now being conducted by the Office of Milk Industry to establish the minimum prices to be effective during the period of transition. I anticipate that the minimum prices so established will preserve for the consumer the benefits of fair competition while extending to the industry a measure of price stability during this period of adjustment.

OF LAWS AND LAWMAKERS

Both of the State's major political parties have publicly recognized the desirability of enacting conflict of interest legislation which would clearly establish both for governmental personnel and the general public a standard against which the conduct of our public officials and employees could be measured. The proposal of the legislative commission which studied this subject some years ago has been regularly passed on a bipartisan basis by the State Assembly. With almost as much regularity, the Senate has passed its own modified version of this measure. To date, there has been no indication of agreement between the two Houses.

During the past session a new approach to this subject has been proposed by Senator Waddington. His plan, unlike those which have preceded it, does not purport to establish any fixed standard of conduct. Nor does it rely upon the sanction of the criminal law for its efficacy. The Senator's proposal, while not specifying what constitutes permissible conduct, would require executive and legislative personnel to disclose those activities in which they are privately engaged to the extent that such activities also relate to the operations of government. This bill leaves to the public the decision whether the actions of these governmental officials are sound and desirable. The Legislature should give serious attention to this proposal which may represent the means to the long-awaited agreement on a conflict of interest measure.

In this opening meeting of the Legislature, it also seems appropriate for me once again to suggest consideration of the

proposals for registration of lobbyists. In a representative government, we should expect and encourage the general public to present their views to their public representatives. In this regard, most of the individuals who engage in lobbying activities in the State Capitol perform a valid and often useful service, not only for their employers, but for the public itself. The general public and its representatives, however, should be able to assess and evaluate the extent to which organized interests are seeking to impress their viewpoints and attitudes upon governmental activities. I am certain that a properly prepared lobby control act can balance effectively the right of the public to present its views as against the equally important right of the public to know which of its members have chosen to exercise such a right on an organized and professional basis.

One final aspect of legislative activity requires your serious attention. During recent years, it has been necessary to attempt most formal law revision by means of individual legislative commissions. It has been necessary to resort to this device because the Law Revision Commission has not had adequate staff to take responsibility for time consuming law revision work. In most instances, the use of individual law revision commissions has not worked very satisfactorily. Some commissions which were established four and six years ago still are working on revision projects which are in various stages of completion.

While I do not believe that the entire responsibility for law revision can or should be vested in the Law Revision Commission, certainly this Commission should be strengthened to the point where it can shoulder a greater part of this work. I would be willing to give sympathetic consideration to any sincere efforts on the part of the Legislature to strengthen the law revision aspects of this Commission. One of the important subjects, which could come within the purview of such a general law revision instrument, would be the modernization of our election laws.

So, too, revisions of several parts of the statutes have been prepared or are now in preparation by some of the Departments. The Department of Law and Public Safety is preparing to submit revisions concerning the Weights and Measures Law, cemetery

corporations and the Bureau of Securities. The Department of Education has under consideration the Revision of Title 18.

In all of these areas the basic law has not been revised in many years and should be modernized.

UNFINISHED BUSINESS

CHAPTER 51

We can recall that Chapter 51, Laws of 1960, was adopted after extensive study to provide, among other things, a workable method for assessing business personal property and to avert the threat of "tax lightning." The enactment followed the Supreme Court's ruling that differences between existing tax practices and existing tax law no longer could be ignored. Guidelines and stability of administrative procedures, such as those provided by this law, are indispensable if New Jersey is to achieve order and uniformity in real and personal property tax administration.

During three postponements of its effective date, no alternative has been developed. A survey of personal property informational rates will be ready shortly and I commend it to the Legislature's consideration.

As long as the personal property tax is retained in this State, New Jersey will need—in the interest of equity—to accept a single approach to the taxation of business personal property with the adjustments that may result.

I am informed that there is substantial business opinion that Chapter 51 is preferable to continuation of the uncertainties under present law. Therefore, I recommend that Chapter 51 be permitted to go into effect for the tax year 1965.

With the possibility of Chapter 51 going into effect with the 1965 tax year, there arises the necessity of revising the limitations placed upon the indebtedness that may be incurred by any municipality. The Division of Local Government in the Department of the Treasury is meeting with representatives of the municipalities with a view to working out a formula which will not unduly hinder the essential expansion and improvement of our

municipalities while preserving the financial stability of these local units. A proposal to amend these debt limitations will be submitted to you during the forthcoming session.

THE CONSTITUTIONAL AMENDMENTS

Of the four amendments to the State Constitution approved by the people in November, two already have been implemented by the Legislature. There remains the necessity of carrying into effect the farm land assessment proposal which is so very important to the preservation of family farming in New Jersey. I have reconstituted the Governor's Committee on the Farm Land Assessment problem which will be ready to work with you in this respect. Similarly, there is a sense of urgency in taking final action on the constitutional change relating to residency requirements and voter qualifications in State and presidential elections. Inasmuch as this is a presidential election year, it is vital that no qualified person be deprived of the opportunity to vote for the candidate of his choice.

CONCLUSION

This year, by the will of the people, you and I enter upon a new relationship, with members of the Republican Party in the majority in both Houses of the Legislature. As I see it, this casts more serious responsibilities upon each of us. It invokes more than the ordinary amount of bipartisan effort. It teaches new lessons of humility and it presents new temptations for the exercise of partisan power. But in the final analysis, nothing has changed in the nature and extent of our mutual obligations to the people whom we serve. They expect of us not partisanship, but joint effort.

I embrace the challenge of this new relationship and will join with you completely and wholeheartedly to serve the common good in a frame of bipartisan reference. Political success and failure can fluctuate quite frequently in this State, for the independence of the people identifies political responsibility with the rendering of faithful service, not to party but to the public.

We will all be called to account for the stewardship we render in this governmental year, and I hope that we can look back upon it as a year of achievement and success, not for members of one or the other political party, but for the people of New Jersey.

RICHARD J. HUGHES,
Governor

January 14, 1964

Attest :

LAWRENCE BILDER,
Acting Secretary

“The Lord’s Prayer,” was sung by M. Donald Lang.

Mr. Ozzard moved the Joint Session be adjourned.

Which motion was adopted.

AFTERNOON SESSION.

The General Assembly reconvened.

Upon calling the roll, the following members appeared and answered to their names :

Messrs. Addonizio, Bateman, Beadleston (Speaker), Berglund, Biber, Bigley, Brigiani, Burke, Crabiell, Curry, Davis, Dickey, Doren, Everett, Fairhurst, Fisher, Gelber, Genova, Gimson, Halpin, Hauser, Hierung, Higgins, Kay, Keegan, Keith, Kimmelman, Kordja, La Corte, Lynch, Mallett, Mandelbaum, Maraziti, McCord, McDermott, McDonough, Moraites, Musto, Policastro, Randall, Rimm, Rutherford, Sears, Smith, A. S., Smith, W. L., Tanzman, Vander Plaat, Wallwork, Wegner, Werner, White, Woodcock—52.

The Chairman of the Committee, or the Committee, to which any Assembly Bill, so endorsed, is referred, shall request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him, or it, a fiscal note for the bill. If such bill, so endorsed, is not referred but is not immediately advanced to second reading, then the Speaker shall request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him, a fiscal note for the bill. If the Chairman of the Committee, or the Committee, to which any Senate or Assembly bill not so endorsed is referred, shall be of the opinion that the effect of such bill, if enacted, would be such that a fiscal note should be annexed to or accompany said bill, or that any statement in the nature of a fiscal note which is annexed to or accompanies said bill is not an accurate fiscal note for said bill, he, or it, shall request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him, or it, a fiscal note, or an accurate fiscal note, as the case may be, for the bill. If any Senate or Assembly bill not so endorsed is not referred, but is not immediately advanced to second reading, then the Speaker, if he be of the opinion that the effect of said bill, if enacted, would be such that a fiscal note should be annexed to or accompany said bill, or that any statement in the nature of a fiscal note which is annexed to or accompanies said bill is not an accurate fiscal note for said bill, shall request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him a fiscal note, or an accurate fiscal note, as the case may be, for the bill.

If the said Director, when so requested, shall determine that the effect of the bill as to which such request is made, if enacted, would be to increase or decrease State revenues,

or to increase State expenditures, or to require the appropriation of State funds not set forth in dollars therein, and that no fiscal note is annexed to or accompanies said bill, or that any statement in the nature of a fiscal note, which may be annexed to or accompany said bill, is not an accurate fiscal note for said bill, he shall cause to have prepared and certified a fiscal note, or an accurate fiscal note, accordingly, and no such bill shall be reported out of Committee or have second reading until such request shall have been fully complied with, or until the Chairman of the Committee, or the Committee, or the Speaker, as the case may be, has been notified by the Legislative Budget and Finance Director that no fiscal note is required for said bill, or that any statement in the nature of a fiscal note annexed to or accompanying said bill is an accurate fiscal note for said bill.

Delete Assembly Rule 15:1G.

Amend Assembly Rule 15:2 to read as follows:

15:2. Any bill, joint resolution, concurrent resolution, or resolution may be made the order of a particular day, on which day it shall be taken up, whether or not it is upon the Calendar for said day, in preference to any others whether or not they are on the Calendar.

Amend Assembly Rule 15:19 to read as follows:

15:19. Every bill, joint resolution or concurrent resolution, when passed by the General Assembly, shall be signed by the Speaker and thereafter shall be delivered forthwith by the Clerk to the Senate, with all documents incident thereto, with the request, in the case of every Assembly bill, joint resolution or concurrent resolution, that the Senate concur therein. It shall be the duty of the Clerk to have all Assembly bills, joint resolutions and concurrent resolutions returned to the General Assembly after passage by the Senate.

Add a new Assembly Rule to be known as 15A:2 to read as follows:

15A:2. In reprinting bills, joint resolutions or concurrent resolutions, which have been amended in the General Assembly or in the Senate, with the amendments included, a legend shall be added at the top of the print, following the date of introduction, indicating that the bill has been amended, the House or Houses by which it was amended and the date or dates upon which it was amended.

Add a new Assembly Rule to be known as 16A:1 to read as follows with the following heading :

PUBLIC HEARINGS

16A:1. In every public hearing held, upon any bill, joint resolution or concurrent resolution, by any standing committee of the General Assembly, the members of the standing committee of the Senate similarly entitled, or the Committee of the Senate to which said bill, joint resolution or concurrent resolution was referred, if it was so referred, shall be invited to sit with the members of the said standing committee of the General Assembly and participate in such public hearing, but they shall not be entitled to participate in the deliberations of the committee upon said bill, joint resolution or concurrent resolution. The chairman of the standing committee of the General Assembly by which such hearing is to be held shall preside at all such hearings and it shall be his duty to give reasonable notice to the members of the proper Senate committee of the time and place of the holding of any such hearing.

Messrs. Crabel, Tanzman, Doren and Brigiani offered the following resolution, which was read by the Clerk and adopted:

An Assembly Resolution congratulating The Daily Home News of New Brunswick upon the 85th anniversary of its publication.

WHEREAS, February 1, 1964 marked the 85th anniversary of publication of The Daily Home News, an outstanding newspaper, with a circulation of nearly 50,000 serving an expanding keystone area of the State of New Jersey; and

WHEREAS, Hugh N. Boyd, the publisher of this great newspaper, represents the third generation of family ownership of The Daily Home News, the oldest family-owned newspaper in the State of New Jersey and one of the most respected newspapers in the United States; and

WHEREAS, The Daily Home News as a medium for advertising serves the great and small businesses within its distribution area and is in no small measure responsible for the enormous economic development of the Raritan Valley; and

WHEREAS, The editorial policy of this newspaper has been in the highest tradition of unbiased interpretation, that it has used its voice, influence and hands to promote higher standards in the civic, cultural, and economic development of the communities it serves; and

WHEREAS, The Daily Home News has grown, as the area it serves has grown and that it brings to residents of the

area the news of the world with sophistication without losing a folksy contact with the local events; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

Congratulations are extended to the publisher and staff of The Daily Home News of the City of New Brunswick, Middlesex County, upon the occasion of the 85th anniversary of its publication; and

Be It Further Resolved, That a copy of this resolution signed by the Speaker and attested by the Clerk be sent to The Daily Home News, New Brunswick, N. J.

2. That the Clerk of the General Assembly forward 21 copies of said Assembly Concurrent Resolution No. 13 to the Senate with the request that the same be placed upon the desks of each Senator in open meeting forthwith.

The Clerk then caused to be placed on the desk of each member a copy of Assembly Concurrent Resolution No. 13 and the placing thereof was noted in the Minutes accordingly.

The General Assembly recessed for the purpose of a Joint Session.

The Senate and General Assembly met in Joint Session.

Speaker Matthews turned the Chair over to Senate President Ozzard who called the session to order.

The Governor delivered his Budget Message as follows:

BUDGET MESSAGE

Mr. President, Mr. Speaker, Members of the Senate and General Assembly:

I present to you today a budget that is balanced without the need for new or increased taxes. It meets the requirements of State operations at their present level. As you will note, it is one of strict economy.

It makes provision for necessary improvement of programs within the present framework of General State Operations; for the rising needs of our State aid programs; for normal merit increments to State employees and for other essentially mandatory increases which are really beyond the practical control of any Governor and account for more than 75 per cent of the increase of this budget over last year's; for the continuation of our traditional pattern of limited capital construction, principally highways, augmented by planning funds for major capital needs in welfare and education, whether or not those needs are to be accomplished in the future by bond issues or taxes.

For lack of money, this budget does not meet the broader needs of this State that have come to be recognized by most people. This balanced budget does not make provision for the institutions this growing State has been unable to build, for the college and university facilities which we must have if we are to meet our obligation to the youth and future of New Jersey, for the expanded highway program upon which our economic destiny depends, and for the increased State aid to education and local roads that would ease the ever-rising financial burden on the local property taxpayer.

Two years ago, in my Inaugural Address, I spoke of "government unafraid to act in the people's service." If we are to provide such government, then we must move to meet these yet unfulfilled needs. In this Message, I will propose means by which we

can undertake these solutions. Within this Legislature there is a broad recognition of the requirements of our State and, I would hope, a desire that we meet those requirements. And this recognition is not new.

In 1959 the Republican Party discarded its traditional pledge against new taxes in order to be free to act.

In 1961 the Democratic Party followed suit.

Thus, neither party is bound by the pledges of the past to neglect the needs of the future.

If we avoid the pitfalls of partisanship, I am convinced that we can reach the financial decisions that will provide adequately for the future of New Jersey and assure equity to the taxpayers who elect us. If we allow political maneuver to hobble our efforts, we fail in our public trust. I stand ready to work with you to fulfill that trust. Indeed, I am bound in conscience to do so.

In my Inaugural Message I made it quite clear that I was not tied to a rigid tax policy, except to continue every economy in government compatible with our obligations to the future. I foreswore any temptation to shirk my responsibility to the building of a modern and progressive State. And I pledged that my administration would do its full duty, measuring it carefully and providing for its cost. While campaigning for Governor, I had made it clear that I would not oppose a broad-based tax if there was no alternative to raising required funds. I did propose an alternative in my Message of January, 1963, entitled "A Program for the 1960s." It was submitted for the judgment of the people at the polls. I fought long and hard to convince my fellow citizens that by this means the State's needs could be met for several years and new taxes avoided in the interval. In their wisdom, the people rejected this alternative. I have no quarrel with this verdict, because I have an abiding confidence in the people. But I am convinced that this rejection was not because the needs were thought unreal, but because of the method proposed to meet them. This view is supported by the very fact that members of the majority party in this Legislature have proposed bills to levy a broad-based tax, or to provide a bond issue to partially meet these needs.

And this is where we are today: neither party bound to the past, both parties obligated to the future. Before speaking of that future, let me discuss with you what might be called the house-keeping features of the budget of New Jersey.

REVENUES

We are enjoying generally favorable revenue collections during the current fiscal year. Funds derived from the newly increased inheritance tax have exceeded original estimates by a rate of approximately \$9 million annually. We are enjoying revenue overruns in other areas. The yield from inheritance and motor fuels taxes, and a variety of fees, should result in earnings beyond our anticipation during the current fiscal year of some \$12.5 million after provision for certain underruns in other sources. To those overruns can be added the surplus of \$7 million originally anticipated to be on hand on June 30 next and expected lapses on that date of approximately \$4 million, or a total of \$23.5 million before deducting \$3.6 million for supplemental appropriations recommended in this Message for the current fiscal year. The result will be an estimated surplus of \$19.9 million on July 1, 1964.

Revenue estimates for 1964-65 amounting to \$574 million have been developed on the foundation of past and current collections. They have been modified by the possibility of a revenue loss which may result from the recent disclosure by the Advisory Committee to the Surgeon General of the United States concerning the damaging effect of cigarette smoking. Therefore, we have reflected a reduction of \$2 million, under our original estimate of \$71.2 million, from this source in the current fiscal year. We believe the same amount can be expected next year, although there may be an area of uncertainty for some time to come.

Thus, our total resources for 1964-65 equal \$594 million.

BUDGET REQUESTS

Formal requests of over \$752.6 million for the fiscal year 1964-65 were presented to the State Budget Director by department heads who presumably had taken very seriously my repeated

requests to cut spending to the greatest possible extent. Nevertheless, I have trimmed these requests by \$162.7 million in arriving at final recommendations of \$589.9 million.

In the field of General State Operations, I cut \$37 million from the amounts requested. The State aid requests were reduced by \$9.1 million. Capital construction requests, aside from those for mandatory debt service, were cut most severely. For instance, I had to eliminate entirely the construction item of \$38 million for the State University, many millions more requested and needed for construction at institutions and State colleges, and \$36 million from the amount requested for needed highway construction.

I cut most of these construction items reluctantly, and only because of lack of financial resources to meet the requests, however valid. These and other needs continue and will be dealt with later in this Message.

THE BUDGET IN BRIEF

Estimated Surplus, July 1, 1964 (after providing for supplementals)	\$19,857,242
Estimated Revenues for 1964-65	574,006,537
Total Resources for 1964-65	<u>\$593,863,779</u>
<i>Recommendations</i>	
General State Operations	\$268,793,546
State Aid	256,029,836
Capital Construction	65,102,638
Total Recommendations	<u>\$589,926,020</u>
Estimated Surplus, June 30, 1965	<u>\$3,937,759</u>

EDUCATION

The largest increase in this budget goes for education. It is \$15.4 million or 7 per cent more than the current budget, bringing State support of all educational programs to \$245.3 million, which is 41.6 per cent of the total budget for 1964-65. It includes an increase in General State Operations for education of \$6.3 million of which \$5.1 million is for higher education. State aid for education will increase by \$10.4 million of which \$6.3 million is for mandated grants-in-aid to school districts, and \$4.1 million is for the required costs of teachers' pensions, social security and

insurance benefits. These increases total \$16.7 million and are offset by a \$1.3 million decrease in capital spending for educational purposes.

I pointed out in my Budget Message of last year that New Jersey historically has sent a far greater proportion of its high school graduates to colleges outside the State than have other states. However, enrollment pressures in other states make it necessary for them, more and more, to curtail the numbers they can take from New Jersey. The result is that it is becoming, more and more, our burden to provide educational opportunities for worthy New Jersey students. And this is as it should be. Next Fall, we expect to enroll 104,887 students, both full and part-time or 14,097 more than in the present year. On a basis equated to full time, i.e. 16 credit hours, per semester, the number to be enrolled in the Fall will total 43,296, which is 3,909 or 9 per cent more than the current year.

Following well-established standards, this budget continues to recognize a faculty-student ratio of 1 to 16 at the State Colleges, and of 1 to 12.6 at the State University. To maintain these ratios in relation to the increased student enrollments next year, 296 additional faculty positions are recommended.

The State Board of Education recently reviewed the status of faculty salaries in the publicly-supported institutions of higher education in this State. It found that faculty salary ranges compare favorably with institutions of similar size and purpose in other states. However, to keep pace, it reports that the present salary ranges do not provide sufficient latitude to recognize appropriately those faculty members whose teaching service is notably exceptional. The State Board suggests that the present six-step salary ranges for Professors and Associate Professors should be extended to 10-step ranges. The four added discretionary steps would permit special consideration to those faculty members who have distinguished themselves in the area of classroom teaching service in a manner distinctly superior to faculty members on the whole. I am informed that the cost of the suggested 10-step ranges for outstanding Professors and Associate Professors can be absorbed within the amounts recommended for the University

and the State Colleges. I am recommending that this course be followed.

The State Board has also suggested that a sabbatical leave program be adopted which would give leaves of absences to outstanding faculty members to do outside research and study while on half salary to be borne by the State. This is a practice currently in vogue at many institutions of higher learning. Whatever its virtues, I am not recommending it at this time because we cannot afford it.

STATE AID TO EDUCATION

Apart from the increases in this budget which are required by statute for grants-in-aid to school districts, there are two particular areas of aid to education which this budget accommodates in relatively significant amounts.

The first of these is our County College Program which has received a financial boost by a recent act of Congress. Federal funds of \$1.3 million will become available in the current fiscal year and in each of the next two years for 40 per cent of the cost of construction of county colleges. Under our County College law, the State will provide matching construction funds to counties for such colleges.

We should not lose this opportunity to obtain such Federal aid for our counties which reduces the respective shares of county and State from 50-50, originally required for construction under the County College act, to 30-30 of the cost. Because two years of these Federal funds, or \$2.6 million, will be available on July 1, next, I am recommending appropriations of new State funds in the amount of \$1.7 million which, together with \$200,000 of unspent current appropriations made for this purpose, will make \$1.9 million of State funds available to be matched by county funds in like amount. Therefore, together with State, county and Federal funds, a sum of \$6.4 million will be available to advance the County College Construction Program which is now developing in 14 of our counties.

The legislation authorizing the County College Program was based on evidence showing that this type of college is needed to

enhance the opportunities for post-high school education of our youth. It is intended to provide, at minimum expense, either a two-year transfer program or a two-year terminal program for employment in technical and semi-professional fields. At the same time, it can provide facilities for adult retraining programs and other adult education activities. We must take advantage of the Federal aid which will make these ends attainable.

The second aid-to-education area which will receive a significant lift from this budget is that of our local libraries. I am recommending that the sum of \$600,000 now appropriated for that purpose be increased to \$800,000 as a step toward the provision of substantially larger grants to meet their future needs. More and more, the community library serves as a foundation for local educational advance.

One of the facets of the request for State aid to education covered the State's share required for vocational education, if we were to take full advantage of funds available under the new Federal aid to vocational education act. The amount requested was \$2.2 million which would be matched by Federal moneys. The intent of the Federal act is to encourage States and localities to expand vocational opportunities for secondary school youth, out-of-school youth preparing to enter the labor market, and for those already in the labor market who need to upgrade skills or learn new ones.

Since there is no basic statute on the books which would set up State aid programs for this purpose, I have recommended no funds in this budget to make it possible to acquire these Federal funds. Federal money could become available should local districts include appropriations in their budgets as the matching source required for this program.

Should the Legislature decide that the State should enrich its present State aid program for this purpose, I would be more than pleased to consider the approval of such legislation; provided, however, that revenue measures accompany legislation making an appropriation for this purpose.

STATE AID FOR WELFARE

Aid for welfare is increased by \$8.7 million and constitutes the second largest increase in the budget for 1964-65. In addition, I am recommending supplemental appropriations for 1963-64 of \$2.1 million for additional costs that developed this year in our welfare programs, particularly Assistance for Dependent Children and aid to county mental hospitals. The total sum recommended for the State's public assistance program is \$37.9 million which is the State's share of the combined Federal, State and county expenditures of \$125 million for public assistance in 1964-65. Some 177,000 persons will be aided with those funds, a rise from 162,000 in this year.

Although these expenditures and the number of persons to be aided appear staggering, the fact is that of the nine states in the New England-Middle Atlantic area, New Jersey's recipient rate in October, 1963, ranked fifth in medical assistance for the aged, sixth in dependent children assistance, eighth in disability assistance and ninth in old age assistance. The increases in costs for public assistance, next year, are directly attributable to three principal factors: (1) Increased costs of nursing home care and of hospitalization; (2) an increase in standards to recognize more adequately the basic needs of the welfare recipients, and (3) an increase in the case load.

INSTITUTIONS AND AGENCIES

I am recommending an increase of \$5.3 million for operations of our institutions and agencies.

Of this sum, \$3.2 million is for mental retardation. With these additional funds, we will plan a four-front attack on this tragic problem.

By late Fall, the first severely retarded patients, five years of age and over, of both sexes, will be admitted to the new Woodbridge State School. By the end of June, 1965, 500 patients should be in residence. Admission will be primarily from the waiting list and by transfer from other State institutions for the

severely retarded. This fine and long-needed new facility will require 302 positions and \$1.2 million for its operation in 1964-65.

Second, I am recommending \$1 million to purchase care in private facilities for about 300 severely retarded on the waiting list. These persons are now eligible for admission to a State facility and require institutional care which will not be available in the State's facilities next year. This stopgap measure is designed to meet a human tragedy which is almost beyond belief.

Third, at existing institutions I propose to strengthen medical services and patient care, by adding 196 new positions. A recent survey demonstrated that the number of severely retarded in New Jersey's residential populations has increased to 52.5 per cent. Such persons are harder to care for, need more training, have more physical disabilities and place a greater strain on the staff. Concurrent with staff additions, all these institutions have made, and will continue to make, improvements in all aspects of patient care.

Fourth, day care funds are increased to carry on existing services in two counties and to extend the program in areas where definite interest has developed. Forty-six children are enrolled now and 109 youngsters are identified preliminarily as potential participants. The Centers serve those over age five who are not eligible for trainable or educable classes in the public schools or in sheltered workshops. These children are presently at home without any program available to them. This pilot service assists the family in its efforts to maintain the child at home by relieving the family from the burden of care of these children for some part of each day.

The future portends more services to more cases. Institutional expansion and modernization is in progress, the character of existing facilities and services is changing, case loads are rising. The State is attempting to provide sufficient and varied programs to train the retarded to the level of their capacity and to discharge our responsibilities effectively.

In our mental hospitals, we are pushing ahead on two fronts: medical-surgical and children's services.

There has been a developing need to strengthen the existing quality levels of surgical service, medical treatment, and convalescence. Toward these objectives, I have recommended 40 additional positions.

In response to demands upon the mental hospitals to increase admissions of children, a policy was adopted to establish units for a maximum of 75 children in each State hospital. These separated units accommodate children with mental and emotional handicaps. Until now, these units were staffed primarily to provide ward care only. I am recommending 50 additional positions for these units to provide increased ward care, permit more admissions, and to introduce specialized treatment services for these unfortunate children.

It is gratifying to report that mentally ill patients are spending shorter periods of time in our hospitals because of more efficient and effective methods of care and treatment. This is being accomplished despite a 31 per cent increase in the number of admissions to these institutions since 1959. The total number of hospitalized patients has decreased. Recruitment of professional staff and in-service training has improved. Our hospitals continue to enjoy accreditation by joint commission of the American Psychiatric Association and the American Medical Association and are approved for three years of psychiatric residency training.

Community mental health clinics assisted by State aid funds are providing more and more services to both adults and children with significant mental illnesses. These people otherwise would require care in a mental hospital.

On February 5, 1963, President John F. Kennedy delivered an historic appeal to the American people calling for an all-out program to combat mental illness. In all respects, the President's proposals gave new impetus and increased depth to New Jersey's mental health programs. Available Federal funds are now being utilized to plan comprehensive programs of service for the mentally ill. Our existing State hospitals are moving in this direction—making a medical facility available to large groups of the population and providing a continuum of services including in-

patient, outpatient, day care, foster home, consultation and referral facilities.

The budget recommends 23 positions at the Rahway Prison to operate the new laundry facility which is scheduled to begin operations during June, 1964. This consolidated laundry will serve the Woodbridge State School, Greystone Park State Hospital, Diagnostic Center, Menlo Park Soldiers Home, and North Jersey Training School. The budgets of these institutions include funds to cover the costs of processing their laundry. The Greystone Park laundry will be discontinued and the equipment relocated at other State-operated laundries. This will provide work opportunities to 168 inmates who are now dangerously idle. Our experience in operating regional laundries with inmates indicates the soundness of expanding the program to utilize maximum security inmates at the Rahway Prison to operate this facility. The project will also overcome the reduction in the availability of working patients in the mental hospitals and of minimum security inmates who can perform work assignments away from their institution.

Beginning next Fall, patients will be accepted in the new hospital-infirmiry and dormitory units of the Menlo Park Soldiers Home. This facility, whose capacity will increase from 80 to 250 beds, will serve non-ambulatory veterans. The new units require 62 positions which add \$191,888 to the State's fiscal requirements in 1965.

LAW AND PUBLIC SAFETY

I am asking for \$25.3 million to operate the Department of Law and Public Safety next year. That sum reflects an increase of \$1.9 million to cover a number of significant improvements in the services it renders.

DIVISION OF LAW

All of our State departments rely heavily upon the Division of Law for important legal advice and opinion which directly concern their constantly increasing everyday operations. This service is often delayed because of the heavy turnover in deputy attorneys general employed by this Division. To overcome this

problem, we should provide adequate salaries to induce these lawyers to stay for longer periods of time, so that their experience can be used to the fullest advantage. To accomplish this, I am asking for \$15,000 in special salary increases.

DIVISION OF STATE POLICE

Demands upon the Division of State Police for the many kinds of services it renders to the citizens and local governments of the State have continued to increase. Therefore, I have recommended 60 new Trooper positions and nine new positions for Division headquarters to enable the State Police to maintain its high standards of service. However, recruiting problems encountered over the past several years indicate that the 60 new Troopers probably could not be appointed for all of the budget year. Therefore, I have reduced the funds recommended for those positions for a half year. These funds, approximating \$230,000, can be readily identified and set aside until appointments are actually made.

POLICE TRAINING

I am recommending a special appropriation of \$25,000 to the Police Training Commission to establish a course in police administration at the State University. Such a program will go far toward the education of selected police officers in modern methods of law enforcement.

DIVISION OF MOTOR VEHICLES

My recommendation of \$11.3 million for the Division of Motor Vehicles includes \$314,172 to administer the recently enacted Motor Carriers Road Tax; \$150,000 for an expanded Courtesy Plate Program to yield new revenue of \$650,000 through the issuance of courtesy license plates with digits over the number "20"; \$208,152 for an across-the-board salary increment to the Inspector and Examiner personnel, in addition to any normal increments to which they may be entitled; and \$157,404 for 36 new positions to accommodate the increased workload in its variety of operations.

Traffic law violations and traffic accidents are increasing twice as fast as our driver population. The Division has just installed electronic equipment to process driver record and license information at high speed to aid in our attack upon driver irresponsibility.

To expedite automobiles through our inspection stations, I am recommending additional overtime of \$219,040 as a more practical and economical alternative to employing part-time Examiners. It will provide 6,000 additional lane hours for vehicle examination, an increase of 3.5 per cent over the present schedule and 16.5 per cent over last year. This plan is subject to change in the event that the Legislature revises the scope of the vehicle examination program.

DEPARTMENT OF THE TREASURY

Appropriations recommended for operation of the Department of the Treasury are \$12.1 million, or \$823,000 more than the current year. That increase includes \$326,692 for the maintenance of the new State buildings in the State House complex, all of which will be in operation next year; \$75,000 to conduct studies of personal property returns required under Chapter 51 of 1960; and \$143,415 for 31 new positions of which 21 are needed to process our expanding revenue collections.

I am recommending a significant change in the appropriation to the Racing Commission as the result of which the State should save \$61,860 in fees paid outside auditors. This comes about by eliminating the need for the continuous and concurrent audit of the pari-mutuel calculations at the several tracks. Instead, my recommendations would substitute spot-check audits at a cost of \$15,000.

DEPARTMENT OF STATE

Recommendations to operate the Department of State total \$701,000, which is \$80,000 more than current appropriations. This sum will cover the cost of the expanded activities in the Office of the Secretary in processing the new system of corporate annual reports. The fees charged under the new legislation concerning corporate reporting have produced over \$1 million in additional revenues.

The increase for this Department also includes \$35,000 for the Division of the Aging for three new positions and additional costs for survey and demonstration projects.

I am also asking for supplemental appropriations of \$70,000 to provide additional operating costs necessary to process the new corporate annual reporting system during the current year, and for additional election expenses resulting from the large number of referenda which had to be carried on the ballot during the last election.

DEPARTMENT OF AGRICULTURE

The amount recommended for the operation of this Department is \$1.8 million, or \$193,969 more than this year. The Department requested \$307,253 to establish an Agricultural Chemistry Program to which would be transferred the regulatory aspect of that function now carried on by the Agricultural Experiment Station. With the opening of the new Health-Agriculture Building and the Laboratory in which research for both departments will be conducted, the time is appropriate to transfer from the Experiment Station certain laboratory activities which should be conducted by the Department of Agriculture. The timetable for completing the new facility makes it inadvisable to transfer those activities during the next fiscal year. However, steps should be taken that year to prepare for the transition beginning July 1, 1965.

This budget contains \$100,000 for basic laboratory equipment. When augmented with a supplemental appropriation which I will recommend next year to complete this laboratory, all will be in readiness for the transfer of the regulation of commercial feed stuffs and fertilizers to this Department.

The Department also requested \$100,000 for the cost of a hog cholera eradication program. Since the cost of this program will be borne by fees derived from those who will benefit from it, I am recommending that if such a program is legislated, the law provide for the appropriation of fees to cover its cost.

DEPARTMENT OF HEALTH

Recommendations to operate this Department total \$4.3 million for an increase of \$477,255 over the current year. Additional sums are included for a variety of purposes such as moving costs into the new Health-Agriculture Building; the purchase of public health services by contract in various hospitals of the State; scientific equipment to be used in the Department's new Laboratory; and 28 new positions to be used in the improvement of the State's health programs.

Of special significance is the installation and operation of an air-monitoring system to cost \$108,696. Much concern has been expressed in almost every corner of the State about the unmitigated pollution of our air from a variety of locations and sources. To cope effectively with this problem will require adequate detection devices. It is time that the State took vigorous action to curb air pollution which is considered by many competent authorities to be a serious health hazard.

DEPARTMENT OF LABOR AND INDUSTRY

Appropriations totaling \$7.9 million, an increase of \$589,624, are recommended for this Department's operations. The bulk of this increase, or \$397,674, will make a total of \$3.2 million available to carry on the work of the Rehabilitation Commission. The active case load carried by this Commission continues to mount as more and more persons seek to restore themselves to useful lives through the services which the Commission extends. About one-half of the appropriations recommended to this agency come from Federal funds.

The Division of Labor, under legislation enacted within the last several years, has been given increased responsibilities in the areas of construction safety and wage and hour administration. I have recommended 16 new positions to carry out these activities and for the improvement of the Division's general operations.

There is no let-up in the mounting case load to be processed by the Division of Workmen's Compensation. But to keep pace with

that rise and accommodate the many claims from injured workmen, we must add staff to avoid injustice from delays in making necessary awards. Toward that end, and to maintain these courtrooms adequately, I am recommending six new positions.

DEPARTMENT OF CONSERVATION AND ECONOMIC DEVELOPMENT

The total amount recommended to operate this Department for 1964-65 is \$10.4 million, or \$426,000 more than the current fiscal year. In my Annual Message to the Legislature, I pointed out the necessity for expanding our activities in the promotional area, with particular emphasis on world trade. This is a heavy responsibility upon the Department of Conservation and Economic Development, which upon my direction has established a Section on International Commerce. I am recommending a \$100,000 increase in the amount available for promotional expense. This accords with a growing bi-partisan recognition of the need for activity in reaching for world markets and in attracting new industry to the State of New Jersey.

Also recommended in this budget is an additional \$50,000 to increase State-wide co-operative governmental planning for sound growth and development of the State and its local units with the aid of Federal funds.

In another area of economic importance, I recommend additional sums to rehabilitate our shell fisheries industry by providing \$50,000 for replacement of a boat, now unseaworthy, to police the Delaware Bay oyster beds and for other enforcement purposes, and \$20,000 for additional shells to be planted on our natural seed oyster beds as a base on which seed oysters will "set." Heavier shell planting will help the industry to make a comeback.

STATE HIGHWAY DEPARTMENT

The Federal government, in providing substantial funds for the construction of the State highway system, limits its participation in the program to construction only. After the roads are built, the State must maintain them. This budget contains funds

to maintain increased road mileage which will be in use by the end of next year.

There is recommended the sum of \$6 million to cover the cost of our existing agreements for the continuation of commuter services. The Highway Commissioner requested that the amount of \$6 million currently provided for these services be increased by about \$2.5 million. Our revenue structure at the present time does not permit this increase. I am, therefore, recommending a continuation of the \$6 million program; but should the Legislature increase our revenues by a sufficient sum, I would be in favor of increasing the amount for this purpose to that requested by the Highway Commissioner. The deep public interest in the maintenance of commuter passenger services is well known, and as a matter of fact is a part of existing State policy.

I speak later in this message of the Highway Construction Program and needs.

DEPARTMENT OF DEFENSE

Total appropriations for the operation of the Department of Defense have been increased by \$171,000 over the present year. Much of this increase is for the Division of Civil Defense for which I am recommending an additional \$79,000 to enable it to maintain civil defense installations throughout the State. In addition, I am asking that certain charges heretofore borne by other departments on behalf of civil defense operations be transferred to the Division of Civil Defense, where matching Federal funds will carry half the cost.

The National Guard operations will need an additional \$78,000 which includes eight new positions, most of which heretofore have been financed entirely from Federal funds but which the Federal government has determined are now the responsibility of the State to the extent of 25 per cent of their cost. The Federal government will contribute 75 per cent and we have anticipated those revenues in this budget.

OTHER DEPARTMENTS AND AGENCIES

The Department of Civil Service requires more funds to service the continually increasing number of local governments which embraced Civil Service. Its workload mounts steadily and we must recognize the work which goes into the service it renders in administering the Civil Service laws. I am recommending an additional \$85,000 for this Department, including 10 new positions to help discharge its responsibilities.

I have also included adequate funds for the support of the Department of Public Utilities and of the Department of Banking and Insurance for their operations next year. As you may know, all of the costs to operate the Department of Banking and Insurance are offset by fees derived from the banking and insurance institutions in the State.

During the 1964 calendar year, New Jersey will be celebrating its 300th Birthday. Part of this celebration will take place at the New York World's Fair. Toward the request of \$481,000 which the New Jersey Tercentenary Commission has made for next year, I am recommending \$410,000. In addition, I am requesting an appropriation of \$60,000 to provide for supplemental needs in the current fiscal year.

INTER AND NON-DEPARTMENTAL ITEMS

During 1964-65, we will begin to meet in fuller measure the rent payments to our two pension funds for the Education, Health-Agriculture and Cultural Center Buildings which will be in operation for most or all of next year. Those payments total \$1.2 million, an increase of \$829,903 over the current year. However, some of these costs will be recovered from agencies supported from other than general State fund sources which will be housed in those buildings.

All in all, the net cost of rent for all State agencies supported from general State funds will be \$608,780 more than this year.

In addition to the sum of \$59.5 million recommended in the State Aid Section of the budget for teachers' pension costs, I am

also recommending \$19.9 million for similar costs covering State employees. This budget, then, requires \$79.5 million as the State's contribution for pension purposes. That amount is more than 13 per cent of the total budget.

The current appropriation for the State's share of the State Police Retirement and Benevolent Fund will not be spent in 1963-64 because implementing legislation to place the fund on a sound, actuarial basis has not been enacted. Therefore, I recommend that the money be reappropriated so that necessary legislation which should become effective on July 1, 1964 can make it available for that purpose.

THE JUDICIARY

The amount recommended for the operation of the Judiciary is \$2.9 million or approximately \$135,000 more than the amount available in the current year. This sum should provide for normal increments and the additional employees required by the Chief Justice in the operation of this branch of government during the next fiscal year.

I should pause here to commend the judicial system for working against great odds to cope with the consistently expanding burdens of litigation. In 1957 there were 11,000 cases pending at the end of the year, on the combined Superior and County Court law list. At the end of 1963, 26,000 cases were pending on the same list. In 1957, however, as against a little more than 15,000 cases added, the judges were able to dispose of 16,000 cases. In 1963, more than 25,000 cases were added and the courts were able to dispose of some 23,000. It is apparent that the courts are expending every effort with a judicial establishment which generally approximates that of six years ago to cope with the mass of litigation being filed. Consideration will have to be given soon to expansion of the judicial system in order to render proper service to the public of New Jersey.

CAPITAL CONSTRUCTION

The State Highway Department requested the sum of \$81.3 million for highway construction, but again our lack of funds

182 MINUTES OF THE GENERAL ASSEMBLY

make it impossible to meet or even approach this request. However, in keeping with our practice of matching Federal funds and allowing for construction costs of non-federally-aided projects, I am recommending the sum of \$45.9 million which is an increase of \$1.3 million over current appropriations.

One of the more gratifying aspects of the direction in which the highway construction program is going, was the step taken by the Highway Commissioner to utilize funds freed by reallocating prior year's commitments and applying them to Federal allotments which otherwise could not have been matched until next year. In that way the Department accelerated by one year, \$86.7 million (\$77.7 million Federal and \$9 million State) of matched construction funds. The balance of the 1964-65 program which remains to be matched is \$16.5 million of which the State's share is \$7.8 million.

This budget recommends that sum to match the balance of the 1964-65 program. In addition, to continue the acceleration of the Federal-State Program, it provides \$16.3 million of matching State funds to build \$97.7 million of highways out of the 1965-66 advance program totaling \$114.2 million. To completely match that program would require an additional \$8.2 million of State funds.

My recommendations also include \$12.2 million for 100 per cent State projects and for certain costs of Federal-State projects in which the Federal government will not participate.

This budget also includes \$332,991 for 57 new positions, the bulk of which is for procurement of rights-of-way. The Department's right-of-way acquisitions, I am advised, may triple as the highway construction program progresses.

I am also asking for \$380,000 to continue our program of building maintenance facilities at strategic points along our highway system.

LAW AND PUBLIC SAFETY

Recommendations for construction of facilities for this Department total \$721,950. They include \$494,500 for the establishment of a new inspection station on State-owned land in Paramus in Bergen County, containing three inspection lanes and supporting facilities. The need for construction in this area was emphasized last Spring when we were required to vacate rented inspection facilities in Hackensack and institute temporary arrangements in surrounding localities of that region. The Attorney General was able to allocate some \$26,000 at that time for advance planning of the new facility. The funds in this budget should carry it through to completion at a date earlier than that which would have been otherwise possible had planning funds not been previously allocated.

I am asking for \$212,450 for a new State Police Barracks in Bergen County in keeping with our program of adding State-owned facilities in place of rented quarters.

STATE CAPITOL FACILITIES

This budget includes \$1.9 million for acquisition, development and improvement of State Capitol facilities. In keeping with recommendations of the State Capitol Development Commission, I again ask for \$725,000 to acquire the real estate between the State House and Willow Street in the city of Trenton.

The sum of \$500,000 is recommended to honor our contract with the city of Trenton for the purchase of land in the John Fitch Way Redevelopment Project.

Both of these steps are mandated by existing legislation, of several years' standing.

Modern concepts of providing efficient working conditions for State employees require that we embark upon a program to air-condition the State House, the State House Annex and the State Office Building. I am recommending \$400,000 as the first step of a three-year program for this purpose.

ARMORY CONSTRUCTION

The Federal government will contribute 75 per cent of the cost of armory construction. With these funds, I am recommending construction of an armory at the Morristown Airport, which will require an appropriation of \$191,000 as the State's share of the cost.

CIVIL DEFENSE

The Legislature has previously appropriated \$72,000 which matched a like sum of Federal money for the planning and architectural service for the construction of an alternate seat of government at West Trenton. The Federal government has already appropriated \$1.2 million which must be matched by an equal sum by the State to provide this facility. This installation will serve as an operating control center in the event of an emergency. In view of the previous action by the Legislature, I am recommending the sum of \$1.2 million to match the Federal funds available for this purpose.

GRADE CROSSINGS

I am recommending the continuance of an annual appropriation of \$2 million as the public's share of the cost to eliminate grade crossings.

RESOURCE DEVELOPMENT

I am recommending an appropriation of \$500,000 to continue our program for the development of the State's parks and recreational areas.

STATE EDUCATIONAL FACILITIES

I have recommended \$811,738 for various capital purposes of the State Department of Education. Those funds include \$300,000 for advance planning and design of State college classroom buildings. I am looking ahead to a construction program to be financed from additional revenues which I would hope this Legislature will provide. In a subsequent section of this Message, I will go into further detail on my conception of our needs for higher education facilities.

My recommendations also include \$172,000 to equip the new Upper School now under construction at the State School for the Deaf; and \$119,738 to equip the new Library as a part of the Cultural Center which will be opened early next year.

INSTITUTIONS

This budget recommends \$2 million for capital construction for institutions. It includes \$700,000 for advance planning and design of new institutional facilities for which I anticipate that construction funds will soon become available.

I also recommend the sum of \$1.3 million for routine but vital capital improvements in our various institutions to continue our modest annual program to cover these needs.

REDUCTION OF DEBT

Throughout the capital construction budgets for the various departments are found items for redemption of bonds issued in the past for capital improvements in those departments. Recommendations to redeem bonds due next year total \$12 million which represents an increase of \$2.1 million over this year's requirements.

THE UNFULFILLED NEEDS OF THE STATE

The fact that this budget is balanced and does not require any new or additional taxes to meet it should not be a cause for self-satisfaction. It leaves unfilled needs of the State which are urgent for its progress, which are measurable and which ought to be met without delay.

Many studies concerning these needs have been made. Outstanding among them are the landmark Tenth Report of the Commission on State Tax Policy, the Strayer Report on Higher Education, the carefully documented priority lists of the Department of Institutions and Agencies, and the detailed master plan of the State Highway Department.

While the completion of new studies may be necessary in order to ascertain the maximum needs of the State, there seems little

doubt that an immediate determination must and can be made by us as to the minimal needs of the State.

What are these minimal needs?

First, let us examine the question of State aid to education. In recent years the steadily rising burden of local taxation has become almost confiscatory as to the local home owner and rent payer. New Jersey's local property tax is among the highest in the nation. The greater proportion of this burden comes about by reason of the increased cost of local education. Last year, for instance, the burden of local property taxation rose by about \$65 million, and this has become in recent years an almost automatic increase. As our population expands, no one can foresee any lessening of this constantly increasing burden.

Many years ago New Jersey recognized the justice and necessity of some State aid to education. Its contribution has risen from year to year until this year the amount recommended by this budget for aid to local districts—not including State contributions for teachers' pensions—is \$114.5 million. This represents approximately 16 per cent of the cost of local public education. Other States bear a much higher proportion of the cost of local education, and thus more adequately relieve the local property taxpayer.

Must the local home owner and rent payer continue forever to carry the crushing burden represented by the cost of local education?

I believe, and many responsible New Jersey citizens contend, that the State should assume a greater participation in the cost of local education. The State Tax Policy Commission report recommended an increase in the State's contribution by \$84 million per year. Because of intervening growth in school population, this has become \$86 million.

There is no more definitive amount before the State than the \$86 million recommended by the Commission on State Tax Policy. Every dollar granted by way of increased State aid to education should militate not only to the continued excellence of public education but to the relief of the local property taxpayer.

Whatever the Legislature decides, it should make sure that this increased State aid to local education should be a matter of home rule and its expenditure should be guided by the discretion of local authorities subject to vigilance on the part of the individual taxpayer.

Concerning the capital construction needs of the State, I direct your attention first to those in the area of Institutions and Agencies. These needs were projected last year by the Department of Institutions and Agencies at \$129 million. Having studied these needs and their relative importance for at least two years, I remain of the opinion that \$60 million should be made available to the Department of Institutions and Agencies for the most essential construction in the next five years.

In the field of higher education, it is also obvious that capital construction is desperately needed. The Strayer Report estimated needed capital construction to provide for our college population between now and 1970 at \$134 million.

We are all familiar with the extreme shortage of college space in New Jersey. Unless we are prepared to deliberately waste a generation of worthy college youth, we must provide for the next five years \$125 million for the construction of essential higher educational facilities.

With respect to highway construction, the master plan of the New Jersey State Highway Department has been the subject of broad discussion in the State in recent years. There are few factors more identified with the economic future of New Jersey than adequate highway transportation.

For lack of money, I have been obliged to refuse requests of the State Highway Department for this construction for this year of more than \$30 million. I believe that if New Jersey is to survive in the present competitive world, we must give close attention to adequate highway construction; and I, therefore, believe that an additional \$150 million should be provided for highway construction over the next five years.

To recapitulate, the minimal capital needs of the State in these areas over the next five years will total \$335 million, or \$67 million

in each of the next five years. The portions of this annual sum to be allocated to each of the three areas will vary from year to year.

I do not believe that this program, in any way, exaggerates the needs of our hard-pressed local taxpayers for more State financial assistance or the needs of the State for capital construction. In many respects, it can be argued that this program does not completely satisfy minimal needs in that it does not provide for capital requirements in other areas of State activity. I am confident that the State's fiscal framework, broadened by a major new revenue source, can accommodate a fulfillment of these needs on a limited, carefully managed basis.

This Legislature can make its most meaningful contribution to the citizens of this State if it recognizes that the pressing problem confronting New Jersey today is the absolute necessity to make a start on solutions of these problems. The longer we delay, the more difficult it will be, and the more costly to the people. This is readily shown by the constantly increasing spiral of building construction and highway right-of-way costs, to take but two examples.

It thus becomes the duty of the Legislature to adopt revenue measures which will permit a meaningful program of increased State assistance to local taxpayers and a basic capital construction program, commencing with the next fiscal period.

This program, if it is to be financed in its entirety from current revenues, will require \$153 million in new revenues which would be allocated during the fiscal year 1964-65 as follows:

Increased State aid to local districts	\$86 million
Institutional capital construction	18 million
Higher educational construction	25 million
Highway construction	24 million

In subsequent years the amounts allocated to institutional construction will decrease, thus making available additional funds in the other areas of capital needs. I intend to make available to subsequent Legislatures a sharply defined annual list of priorities.

I realize that there has been considerable discussion within the Legislature of continued bond issue financing for certain of our capital needs, particularly in the field of institutions. This dis-

cussion follows a pattern traditional in New Jersey financing. For the past 15 years, for example, pay-as-you-go financing of non-highway capital projects has averaged less than \$5 million annually. During the same period, the State has authorized capital expenditures outside the regular budget of \$311 million, which is equivalent to nearly \$21 million per year.

Service of this debt, it should also be remembered, was based not on any new source of revenue, but on the existing framework of State taxes. And yet it is the consensus, despite this spending, that great needs remain.

Nevertheless, if the capital needs of higher education and the Department of Institutions and Agencies are to be financed through the use of bond issues, the annual need for current revenues can be reduced to approximately \$120 million, which includes service of such new debt.

Accordingly, the Legislature should choose:

(1) To meet these needs on a pay-as-you-go basis. This would require increased annual revenue of \$153 million.

(2) To meet these needs partially by bond issues for college and institutional needs, and pay-as-you-go for highways and State aid to education. This would reduce the annual requirements for new revenue to \$120 million.

In either instance, a new source of permanent revenues must be found.

The Commission on State Tax Policy, in a divided vote, proposed a 3 per cent sales tax which would exempt food for home consumption, prescription drugs and consumer items already taxed by the State. The Commission last year estimated a return of \$165 million from such a levy. Today's estimates by our tax authorities raise the potential proceeds of such a levy to approximately \$180 million annually. Thus a 2 per cent sales tax netting about \$120 million would meet the financial requirements of the combination bond issue and pay-as-you-go program. If we were to depend upon it to finance a full pay-as-you-go program, the sales tax would have to be scaled upward proportionately.

Despite its prominence in current broad-based tax discussions, I cannot endorse the concept of a sales tax. By its very nature it has its greatest impact on those least able to pay. For instance, we in New Jersey, at considerable community sacrifice, recently have established a State policy making special provisions for our elderly neighbors through local property tax exemptions. The beneficiaries of these exemptions would be among the hardest hit by a sales tax. We also make special provision for our veterans who receive a somewhat smaller property tax exemption. To many thousands of these veterans the exemption has an important meaning and a meaning that would be wiped out by the regressive impact of a sales tax.

It should be remembered that the impact of the sales tax increases with the size of the family. It presents particular problems to those of marginal income, including working men striving to support a family as well as many thousands who subsist in large part on their social security incomes.

Furthermore, a sales tax would impose on the retail business of New Jersey much of the burden of tax collection and special accounting. It would wipe out the considerable advantage enjoyed by our merchants over their competitors in New York City and Pennsylvania. New Jersey should not toss this advantage aside lightly.

The other principal broad-based tax is a personal income tax. There has been considerable discussion, in general terms, of such a levy. Such a tax would, for ease of administration, be geared to the Federal income tax return which has an almost universal application. An important part of its burden would be borne by the Federal government because it would be deductible from income in computing the Federal income tax obligation.

Our neighboring State of New York relies on a graduated personal income tax for a major portion of its financing. At the New York rates, New Jersey could collect some \$300 million annually from this tax, a figure far in excess of our needs. At one-half the New York rate, the return would approximate \$150 million, which could finance a full pay-as-you-go program. Should

the Legislature prefer partial bond issue financing, the income tax revenue would be scaled down.

To build this needed foundation for New Jersey's continued progress, I, therefore, recommend that this Legislature adopt a graduated income tax that gives closest attention to the protection of those least able to pay.

I am fully aware of the political consequence as I advance this proposal, for nobody likes taxes. But I also am aware that I was elected by the citizens of New Jersey to chart a course for a modern and progressive State that sees and does its full duty to the people.

Sometimes a man must choose between conscience and political popularity; between the easy way and the path of duty. This choice is often a difficult one. But it is made the easier by many signposts along the way. My illustrious predecessor, Woodrow Wilson, made such choices when he resisted to the last the involvement of America in World War I, and when he failed magnificently in fighting for the League of Nations which might have prevented World War II. Our martyred President, John F. Kennedy, made a choice on the side of civil rights for all Americans. My immediate predecessors, Governors Alfred E. Driscoll and Robert B. Meyner, made innumerable decisions on the side of conscience as against political expediency. Many members of this Legislature surely can remember having made decisions in favor of what was right rather than what was popular.

And even if there were no such inspiring examples, a realistic self-appraisal and understanding of obligation would point the way to these decisions of conscience. A Governor of New Jersey represents not only the loud and powerful, but the weak and silent and defenseless. He acts, equally, for the retarded children on our waiting lists, the mentally disturbed in our hospitals, the suffering residents of our slums, the children in our schools, the hopeful candidates for college, the working man who awaits new industry, the local taxpayer who has no lobby.

And such a Governor owes a single-minded obligation of loyalty, not to his own power and popularity, nor to his own political

party, but to all the people of New Jersey. He so swears on the day he assumes the office to which he is elected by those people. And I do not view that oath lightly. It was taken in full awareness of my particular and heavy responsibility to the people of New Jersey. I knew that it would foreshadow decisions of doubt and difficulty. I knew a day like this would come, and that other like decisions of difficulty lie in the future.

And I am further sustained in what I do today by something that I described in my Inaugural Message as the sensing of a new spirit, a new pride of the people. I think that New Jersey pride resents the slow undoing of our institutional strength and its breakdown into a shambles of neglect, the turning of our back upon the education of our youth, the betrayal of our economic destiny by the ignoring of our highways, the acceptance of less than the status of a first-rate State and the steady stretching of our local property taxpayers upon a rack of never-ending costs.

And beyond all this, it may be that the gloomy portents of political retaliation against those who tell the truth, even about taxes, are wrong.

The public may be tired of the usual bromide of "no new taxes," while at the same time tasting the bitter medicine of higher local taxation and ever more inadequate State facilities. The intelligence of the people may be detecting even now the political opportunism of those who say there are no needs, in the very face of crowded institutions, of closing college doors, of shrinking highway systems, of unjust increases in the local tax burden.

Perhaps most people even doubt those who say that our needs are not so pressing but that they can wait for a convenient time—say until 1966, the year after the next gubernatorial election.

Maybe the political experts are wrong. Maybe the people of New Jersey recognize the facts of life. Maybe they will commend rather than punish the men who tell the truth about them.

But whatever the event, and regardless of the consequence, there can be no alteration or bending in the path of duty. Following that straight path, I recommend to you today a program to meet

the obligation of New Jersey's future. I ask you, with all respect, to join with me in courage and in candor in bringing it to reality.

Respectfully submitted,

RICHARD J. HUGHES,

Governor of New Jersey.

Attest:

The Clerk declared a quorum present.

The Speaker led in the Pledge of Allegiance to the Flag.

The Clerk started to read the Minutes, and Mrs. Higgins moved that the reading of the Minutes of the previous meeting of February 3, 1964, be dispensed with.

Which motion was adopted.

A message was received from the Secretary of the Senate and read by the Clerk, informing the General Assembly that the Senate has passed Assembly Concurrent Resolutions Nos. 6, 7, 8 and 9.

Whereupon the Clerk delivered Assembly resolutions referred to in the Senate message to Mr. Rimm, Chairman of the Assembly Joint Committee on Passed Bills for presentation to the Secretary of State.

Mr. Everett, of Essex, delivered the Lincoln Day address.

Mr. Speaker, Ladies and Gentlemen of the House and guests. . . .

One hundred years ago, Abraham Lincoln delivered the Gettysburg Address. I am going to ask you to bear with me while I read these simple well chosen words that have stirred the feelings of a nation ever since. I feel that what Mr. Lincoln said that day so long ago, applies to the present day also.

“Four score and seven years ago our fathers brought forth on this continent a new nation *conceived in liberty and dedicated to the proposition that all men are created equal*. Now we are engaged in a great civil war testing whether that nation or any nation so conceived and so dedicated can long endure. We are met on a great battlefield of that war. We have come to dedicate a portion of that field as a final resting place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this—but in a larger sense we can not dedicate, we can not consecrate, we can not hallow this ground. The brave men living and dead who struggled here have consecrated it far above our poor power to add or detract. The world will little note nor long remember what we say here but it can never forget what they did here. It is for us the living rather to be dedicated here to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us that from these honored dead we take increased devotion—that we here highly resolve that these dead shall not have died in vain—that this nation under God shall have a new birth of freedom—and that government of the people, by the people, for the people, shall not perish from the earth.”

Let us reflect upon these words for a moment. . . .

“Conceived in liberty and dedicated to the proposition that all men are created equal.”

Are all men equal? I think not. . . .

“Now we are engaged in a great civil war.”

We are still engaged in a great civil war. Certainly not the same as the war of 1861 to 1864, but nonetheless we are engaged in a great struggle still to be resolved.

There are no easy solutions. Some propose to legislate; others say we must educate. *I personally feel we cannot legislate against prejudice.* True civil liberties must come from the hearts of *all* men. Unless we have compassion and understanding for one another, legislation will have little meaning. And I repeat *all men*—because we must be very careful that in our desire to alleviate injustice against one group, we do not sacrifice the freedoms of others.

In a letter written on August 1, 1858, Mr. Lincoln wrote, and I quote: “As I would not be slave, so I would not be master. This expresses my idea of democracy. Whatever differs from this, to the extent of the difference, is no democracy.” End of quote.

May we as legislators, and with God’s help, strive for a new birth of freedom, a true democracy, for all people.

Recently I visited Williamsburg, Virginia, and for a few days lived in an atmosphere of yesteryear, where I was reminded of the great sacrifices of our forefathers who conceived this great nation of ours; and continuing to turn the pages of history through the Civil War where again great sacrifices were made so all men may be free.

As members of this House, we must be ever mindful of our great responsibility to protect and preserve these freedoms, and in the words of Abraham Lincoln, dedicate our lives to the unfinished work so nobly advanced by our forefathers.

Should we become depressed and feel our problems too great a challenge, we should remember that many years ago a young midwestern lawyer suffered such depressions that his friends despaired for his life. He wrote: “I am now the most miserable man living. Whether I shall ever be better, I cannot tell; I awfully forbode I shall not.”

He was wrong. The challenges life offered him saved his health and strength and through him, saved his country . . . our country. Few men have given so much. That man was Abraham Lincoln.

I would like to close with this passage from Scripture found in Matthew 25:40 . . . They are not Lincoln’s, but I am sure that he agreed with them.

“Inasmuch as ye have done it unto one of the least of these my brethren, ye have done it unto me.”

Thank you very much.

Mr. Sears offered the following resolution, which was read by the Clerk and adopted by the following vote:

Resolved, That Rule 15:1C of the General Assembly, of the 1964 Session, be amended to read as follows:

15:1C. The Chairman of the Committee or the Committee, to which any Assembly bill, so endorsed by the Committee on Revision and Amendment of Laws of the General

Assembly, is referred, shall, before reporting the bill, request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him, or it, a fiscal note for the bill. If such bill, so endorsed by the Committee on Revision and Amendment of Laws of the General Assembly, is not referred but is not immediately advanced to second reading, then the Speaker shall request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him, a fiscal note for the bill. If the Chairman of the Committee, or the Committee, to which any Assembly bill not so endorsed by the Committee on Revision and Amendment of Laws of the General Assembly, or any Senate bill, is referred, shall be of the opinion that the effect of such bill, if enacted, would be such that a fiscal note should be annexed to or accompany said bill, or that any statement in the nature of a fiscal note which is annexed to or accompanies said bill is not an accurate fiscal note for said bill, he, or it, shall, before reporting the bill, request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him, or it, a fiscal note, or an accurate fiscal note, as the case may be, for the bill. If any Assembly bill not so endorsed by the Committee on Revision and Amendment of Laws of the General Assembly, or any Senate bill, is not referred, but is not immediately advanced to second reading, then the Speaker, if he be of the opinion that the effect of said bill, if enacted, would be such that a fiscal note should be annexed to or accompany said bill, or that any statement in the nature of a fiscal note which is annexed to or accompanies said bill is not an accurate fiscal note for said bill, shall, before the bill is advanced to second reading, request the Legislative Budget and Finance Director, in writing, to cause to be prepared and certified to him a fiscal note, or an accurate fiscal note, as the case may be, for the bill.

If the said Director, when so requested, shall determine that the effect of the bill as to which such request is made, if enacted, would be to increase or decrease State revenues, or to increase State expenditures, or to require the appropriation of State funds not set forth in dollars therein, and that no fiscal note is annexed to or accompanies said bill, or that any statement in the nature of a fiscal note, which may be annexed to or accompany said bill, is not an accurate fiscal note for said bill, he shall cause to have prepared and certified a fiscal note, or an accurate fiscal note, accordingly,

and no such bill shall be reported out of Committee or have second reading until such request shall have been fully complied with, or until the Chairman of the Committee, or the Committee, or the Speaker, as the case may be, has been notified by the Legislative Budget and Finance Director that no fiscal note is required for said bill, or that any statement in the nature of a fiscal note annexed to or accompanying said bill is an accurate fiscal note for said bill.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL No. 18

To the General Assembly:

I herewith return Assembly Bill No. 18, without my approval, for the following reasons:

This bill would add to the present State highway system a portion of Federal Aid Secondary Route No. 236 which extends between County Road No. 29 and County Route No. 35 in Atlantic County. As in past similar instances, I am constrained to disapprove the measure because funds are not available to permit the State to meet its current commitments in this area, let alone to assume new obligations which are incapable of fulfillment.

For some uncertain reason, the Legislature has seen fit to dispense with a fiscal note to this bill. Nevertheless, because of the sharp fiscal impact this bill could have upon State expenditures, I believe it may be valuable to the members of the Legislature to know some of the facts about this bill. The road in question is 3.8 miles in length and is primarily characterized by an abundance of bridges in varying stages of disintegration. There are no less than 10 bridges concentrated within this short span of roadway, or approximately one bridge every 2,000 feet. I am informed that 9 of these bridges were constructed of timber and are in dire need of repair or replacement. The necessary

MONDAY, APRIL 13, 1964

replacement cost of one particular bridge alone has been estimated at approximately \$1,000,000.00. Altogether, the projected capital improvement cost with respect to these bridges would come to \$2,210,000.00, while it would require \$110,000.00 more in capital outlay to improve the road itself. Additionally, there would be an estimated total annual maintenance cost of \$31,500.00 of which \$18,500.00 would be devoted exclusively to the maintenance and operation of the bridges. To this extent, it would appear that the primary motivation behind this bill is the desire to achieve a State takeover of obsolete county bridges. The addition of a county road to the State highway system would seem decidedly secondary under this set of facts.

Since there are not sufficient revenues available at this time to effectuate either purpose, I am returning this bill without my approval.

Respectfully,

RICHARD J. HUGHES,
Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

ASSEMBLY COMMITTEE SUBSTITUTE FOR
ASSEMBLY BILL NO. 138

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Committee Substitute for Assembly Bill No. 138, with my objections, for reconsideration.

Assembly Committee Substitute for Assembly Bill No. 138 would provide that the New Jersey Commission on Interstate Co-operation "shall annually name a delegate as a member of the Board of Managers of the Council of State Governments for this State, who shall serve for the legislative year in which he is elected and until his successor

shall be chosen and shall qualify." In view of the commission's statutory mandate "to carry forward the participation of this State as a member of the Council of State Governments," I agree that an implementary measure of this type should be enacted. At the same time, however, I feel that the legislative purpose is susceptible to a somewhat more coherent expression than is accomplished by the language of this bill.

I refer particularly to the provision that the chosen delegate "shall serve for the legislative year in which he is elected." At first blush, this might be read to limit eligibility for the honor to those members of the commission who hold elective office, i.e., the 5 members of each House of the Legislature who serve on the commission by virtue of their appointments to the standing committee on interstate co-operation of that House. Such an interpretation would render ineligible for the position of delegate the 5 non-elected State officials who also serve on the commission, and from among whom the chairman of the commission must by law be designated. Further reflection, however, indicates that this cannot possibly be the meaning of the bill since no member of the Legislature is ordinarily elected to that body for the single legislative year to which the measure refers. The word "elected", then, presumably pertains to the process whereby the commission itself designates from among its entire membership the member who shall serve as its delegate.

This being so, it would appear that the establishment of "the legislative year" as a term of service is not intended to exclude the non-legislative members of the commission from consideration. It seems designed to acknowledge the fact that the advent of each legislative year may bring about a turnover in the commission's membership. (As mentioned above, the 10 legislative members owe their *ex officio* commissions to membership on the standing committees on interstate co-operation of the Houses of the Legislature which they respectively represent. Under the rules of both the Senate and the General Assembly, such committee assignments usually expire at the end of each legislative year.) Such conclusions are based more upon intuitive reasoning rather than the actual wording of the bill. There should be no need, however, to engage in the type of analysis set forth above in order to arrive at the legislative purpose when that purpose can be made self-evident on the face of the bill.

I am, therefore, suggesting several changes to clarify the language of the bill. Additionally, since it would further the interests of continuity to provide that the chairman of the commission shall act as the commission's delegate whenever no regularly appointed delegate is available for service, I have recommended the insertion of such a provision.

Accordingly, I am returning Assembly Committee Substitute for Assembly Bill No. 138 for reconsideration, with the recommendation that it be amended as follows:

On page 1, section 1, line 10, delete "name" and insert in lieu thereof "appoint, from among its entire membership,".

On page 1, section 1, line 12, delete "elected" and insert in lieu thereof "appointed as a delegate".

On page 1, section 1, line 13, delete "chosen" and insert in lieu thereof "appointed".

On page 1, section 1, line 13, after "qualify." insert the following sentence: "Whenever the commission shall fail to so appoint a delegate, or the duly appointed delegate becomes unavailable or unable to serve for any reason whatever, the chairman of the commission shall serve as the delegate until such time as a delegate has been appointed and has qualified."

Respectfully,

Amend page 1, Title, lines 3 and 4, delete "and to lands now or formerly below the high-water mark or under tide-water".

Amend page 1, section 1, after line 7, insert "Exempt Lands" shall mean any lands, whether or not riparian lands as herein defined, notwithstanding that they are now or were formerly flowed by mean high tide, record title to which has been held by any person or corporation or his or its predecessors in title for the last past thirty years and which have been assessed for taxes for the last past twenty years, and any such lands record title to which is now in any county, municipality or any department, commission, bureau or agency thereof."

Amend page 2, section 2, after line 24, insert "Riparian lands" shall mean those lands within the State, which in their natural state, lie or would lie below the mean high tide line of waters of any of the tidal rivers, bays, streams or inlets within or bordering the State and of the Atlantic Ocean.

Amend page 2, section 2, line 25, after the second word "owner" insert "of exempt lands, or" after "riparian" insert ",".

Amend page 2, section 2, line 26, after the word "said" insert "exempt lands,".

Amend page 2, section 3, line 5, after the word "party" insert ", at least one of whom shall reside in a county in each of the following areas: (1) bordering on the Atlantic Ocean; (2) bordering on Newark Bay or the Hackensack River; (3) bordering on the tidal portion of the Delaware River or Delaware Bay."

Amend page 3, section 4, line 7, omit "July 1, 1963" insert "January 1, 1965".

Amend page 13, section 29, line 2, omit "the value".

Amend page 13, section 29, lines 3 and 4, omit.

Amend page 13, section 29, line 5, omit "said improvements and such an" insert "or taxes paid thereon to any State, local or other governmental unit, the commission in fixing the compensation therefor to be paid to the State of New Jersey, for a grant or lease thereof shall not include the value of any said improvements and shall give due consideration to the fact of payment of taxes, the amount thereof, and the value of such lands at the time when the applicant acquired such color of title. Such".

Amend page 13, section 29, line 9, omit second "said", insert "the".

Amend page 13, section 29, line 12, omit ", except a" insert "."

Amend page 13, section 29, line 13, omit.

Amend page 13, section 29, line 14, omit.

Amend page 13, section 29, after line 14, insert a new paragraph to read as follows:

"In making grants or leases of the riparian lands of the State the commission may reduce the price to be paid by the applicant to the extent of any improvements which said applicant undertakes to make within five years from the date of said grant or lease pursuant to a written and detailed agreement with the commission, if, in the opinion of the commission, said improvements would substantially increase the opportunities for the development of the riparian lands of the State and are likely to aid in the economic development of the State. Upon completion, these improvements shall be inspected by the commission in order to determine if they were made in conformity with said agree-

ment. In the event that said improvements are not made in conformity with said agreement within five years of said grant or lease, the amount by which the price was reduced shall immediately become due and payable and be a lien upon the lands when recorded in the office of the clerk of the county or counties in which the land is located unless the commission shall extend the period in its discretion for a period of not more than two years. The improvements referred to in this section may be made either by said applicant or any person to whom he transfers said lands.”.

Amend pages 16 and 17, omit sections 35, 36, 37 and 38 and substitute the following:

“35. Any person having an interest in any parcel of land or any land adjoining any parcel of land or in any exempt lands and who may desire to be informed as to the title or rights claimed by the State as riparian lands may apply to the Commission for an official determination of the rights claimed by the State. The application shall be in writing in such form as shall be prescribed by the Commission. Such application shall describe the lands which are the subject matter of the application. Such application shall contain a statement of the applicant’s interest in the lands described. If the applicant claims the lands to be exempt lands, the application shall be accompanied by certified copies of such documents and records as are necessary to support this contention. There shall also be attached a map of the lands which are the subject matter of the application, made by a licensed surveyor which shall delineate and designate any riparian lands or exempt lands which may be included within or adjoin the exterior boundaries.”.

“36. Upon receipt of such application and upon the payment of such reasonable fee as the Commission shall fix, the Commission shall cause an examination to be made of the application and the accompanying documents and of its records.”.

“37. Upon the conclusion of said examination, the Commission shall issue under the hand of its Secretary a certificate fixing the boundaries of lands claimed as riparian lands, if any, and of lands determined to be exempt lands, if any, or if the State claims no title or right in any portion of the lands in question as riparian lands it shall issue a certificate accordingly. Such certificates shall be capable of recordation as a deed.

If any person, in reliance upon such certificate, shall acquire, for value, any interest in any lands covered thereby, or, having an interest therein, shall take any action in relation thereto of such character that he would be damaged if any claim as to said lands as riparian lands of the State, not shown as such upon said certificate, is asserted by the State, such person shall hold such interest free from any claim of the State in said lands as riparian lands.”.

“38. Any recipient of any certificate who is dissatisfied with any claim of the State as it is set forth therein, shall be entitled to a hearing by the Commission to be held within thirty days after request therefor may have been filed with the Secretary of the Commission, provided such request was filed within thirty days from receipt of the certificate.

Notwithstanding the authority contained in Article 2, Paragraph 9 hereof, the proceedings of any such hearing shall be transcribed and the Commission shall make findings of fact and conclusions of law and shall order the affirmation or amendment of the certificate, which is the subject matter of the hearing, in accordance with such findings of fact and conclusions of law.

Such affirmed or amended certificate shall be a final administrative agency determination.

At any such hearing in which the applicant claims ownership of the lands, which are the subject matter of the hearing, it shall be sufficient to prove a prima facie case of ownership if it is proven that the lands are not at the time of hearing below the mean high tide line of the waters of any of the tidal rivers, streams, bays or inlets within or bordering the State and of the Atlantic Ocean.”.

Amend page 17, section 39, line 7, after “shall” insert “, except as otherwise provided,”.

Amend page 17, section 39, line 12, after “law.” insert a new sentence to read as follows:

“A public utility, as defined in R. S. 48:2-13, or any natural gas pipeline utility, as defined in section 2 of chapter 166 of the laws of 1952, holding such license shall be granted a reasonable period of time in excess of said 30 days following a notice of revocation within which to remove, replace, or rearrange such structures erected or maintained under said license.”.

Amend page 21, section 52, line 4, omit "for" insert "or".

Amend page 38, after section 110, insert the following three new sections:

"111. The State shall have no title to exempt lands."

"112. The validity of any grant or lease of riparian lands or license or permit affecting riparian lands, heretofore made, shall not be in any manner affected by the enactment of this act."

"113. Should any section or provision of this act be held to be invalid by any court of competent jurisdiction, the same shall not affect the validity of this act as a whole, or any part thereof, other than the section or sections, provision or provisions, so held to be invalid."

Amend page 38, section 111, renumber this section as "114".

Amend page 39, section 112, renumber this section as "115".

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
April 20, 1964. }

ASSEMBLY BILL No. 147

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 147, with my objections, for reconsideration.

The Mechanics' Lien Law now provides that a claimant who "improperly refuses or neglects" to file a certificate to discharge a mechanic's notice of intention after his claim has been satisfied or abandoned may be ordered to pay the costs and reasonable attorney's fees incurred by any proper party in a proceeding instituted to have such notice dis-

charged. Assembly Bill No. 147 would amend the law to additionally specify that if the satisfied claimant "improperly refused to honor a written request to file such certificate after a demand therefor, served upon the claimant 15 or more days after the satisfaction of the claim and 10 or more days prior to the application to the court for an order to discharge the notice, the court may assess additional costs against the claimant and in favor of the applicant in [sic] amount of \$50.00." In other words, the bill would authorize the imposition of a penalty in aggravated instances of failure to comply with the filing requirement.

While I have no objection to the substance of this measure, it seems doubtful whether the term "improperly" constitutes an adequate characterization of the contumacious attitude which the bill apparently is designed to penalize. From a semantic point of view, a failure to comply with the law can be "improper" without amounting to the type of conduct which warrants legal punishment. No penalty, however slight, should be lightly imposed. The courts have long construed penal statutes strictly, and might well interpret the language of this bill to connote a willful failure to discharge a known obligation. See *Frank Rizzo, Inc. v. Alatsas*, 27 N. J. 400, 405 (1958). In order to be certain that this meaning is placed upon the bill, in accordance with our traditional abhorrence of civil penalties except in richly deserved cases, I would suggest the imposition of a penal assessment where the claimant "willfully refused", rather than "improperly refused", to honor the request for compliance with the law.

Accordingly, I am returning Assembly Bill No. 147 for reconsideration, with the recommendation that it be amended as follows:

On page 2, section 1, line 30, delete "improperly" and insert in lieu thereof "willfully".

On page 2, section 1, line 34A after "in" insert "the".

Respectfully,

[SEAL]
Attest:

RICHARD J. HUGHES,
Governor.

LAWRENCE BILDER,
Acting Secretary to the Governor.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,)
EXECUTIVE DEPARTMENT,)
April 27, 1964.)

ASSEMBLY BILL No. 81

To the General Assembly:

I herewith return Assembly Bill No. 81, without my approval, for the following reasons:

This bill would abolish the Office of Milk Industry and assign its functions to a newly established Division of Dairy Industry in the Department of Agriculture. Unlike the Office of Milk Industry, which is headed by a director appointed by the Governor with the advice and consent of the Senate for a term coextensive with that of the Governor, the new Division would be administered "subject to the supervision of the Secretary of Agriculture" by a director to be named by the State Board of Agriculture in conjunction with the Secretary. There is no provision for the continuation in office of the present Director of the Office of Milk Industry as the first director of the new Division for the remainder of his statutory term. The bill would also create a six-member "dairy advisory committee" within the Division of Dairy Industry, consisting of two representatives of the New Jersey Dairymen's Council, two representatives of various milk dealer, handler or processor organizations and two representatives of the general public.

In general, the organizational scheme of the executive branch of State government contemplates the establishment of direct lines of responsibility, with the heads of the various principal departments accountable to the Governor for the workings of their respective departments. The Governor, in turn, is accountable to the public for the performance of his chosen department heads. The unique

statutory makeup of the Department of Agriculture, however, reflects something of a departure from the overall pattern. This Department is headed by the State Board of Agriculture, which by law is composed entirely of farmers "recommended" to the Governor by the agricultural industry for appointment to the Board with the advice and consent of the Senate. The Board appoints the Secretary of Agriculture, subject to the approval of the Governor, to serve as the chief administrator of the Department. Acting in conjunction with the Secretary, the Board also appoints the directors of the various divisions in the Department and most other departmental personnel. The Department of Agriculture, in short, stands alone as the only principal department headed and staffed by the chosen representatives of the particular segment of our economy which it is designed to serve and regulate.

The Office of Milk Industry, though located in the Department of Agriculture, is invested with regulatory powers and duties which reach beyond the specific concerns of the agricultural community to encompass the broader interests of the public at large. This agency is not charged with the responsibility to protect the welfare of the dairy industry alone, but to strike and maintain a delicate balance among the respective interests of the farmer, the processor, the dealer, the sub-dealer and the consumer. For that reason, neither the Office of Milk Industry nor its predecessor agency (the Milk Control Board) has heretofore been subjected to the traditional appointive supervision of the agricultural industry over the Department of Agriculture itself. By the enactment of various statutes going back to 1933, the Legislature has repeatedly expressed the policy that the milk industry is particularly amenable to governmental regulation, including price controls, in the best interests of both the industry and the consuming public.

Recently there has been much popular support for the elimination of price controls. The price control controversy has continued to date, with this sensitive issue being debated and explored in the courts, in legislative debate and in the various studies which have been commissioned to shed light on the problem. Despite the efforts of both the Legislature and myself to arrive at an answer, a long range solution has not yet been agreed upon. When minimum resale price controls were removed in October of 1962, the resulting threats of economic chaos impelled the Legislature to

MONDAY, APRIL 27, 1964

authorize the Office of Milk Industry to establish temporary minimum price levels while conducting certain studies. As a result of these studies and after an extensive public hearing of the interested parties, the Director adopted a new milk control order which was promulgated only two months ago. The effectiveness of this order, from the public's viewpoint, remains to be determined. Adjustments, minor or major in nature, may be required in future months.

Against this background, it does not seem wise at this time to remove the field of milk regulation from the mainstream of direct executive responsibility. A final determination of the proper function of government in this area may well dictate the placement of the Office of Milk Industry on an identical footing with the existing divisions in the Department of Agriculture. Until such a determination is made, however, the Office of Milk Industry should be maintained as presently constituted.

Respectfully,

RICHARD J. HUGHES,

Governor.

[SEAL]
Attest:

LAWRENCE BILDER,
Acting Secretary to the Governor.

Messrs. McDermott, La Corte, Collins, McDonough and Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

An Assembly resolution calling upon all officials and residents of the State to improve the appearance of public and private property.

WHEREAS, Hundreds of thousands of visitors from all over the United States and foreign lands will be visiting New Jersey in connection with the New Jersey Tercentenary celebration and passing through the Garden State enroute to and from the New York World's Fair; and

WHEREAS, Many of these people will be seeing our State for the first time and gaining an impression which will be a lasting one; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. The citizens of New Jersey, employees and members of the official families at the municipal, county and State levels, and indeed all residents of our State, are urged to make a particular effort to clean and tidy up our roadways and municipal streets and private properties for this mass visitation with special attention given to our main highways in the transportation corridor that leads through New Jersey from New York to Philadelphia which will be traveled by the largest number of visitors.

2. The members of the General Assembly believe that if every homeowner, every municipal official and employee, every county and State employee makes one single effort in this direction, the appearance of our State would be improved immeasurably and the image of the Garden State will be greatly enhanced throughout the nation.

WHEREAS, May 3, 1964, marks the 173d anniversary of the Polish Constitution of 1791, and which coincided with our own Constitution of eight years before, and which equally sought the guarantee of life, liberty and the pursuit of happiness, and which established a government "of the people, by the people, and for the people"; and

WHEREAS, The Polish Revolution against the Overlords was waged against tyranny and oppression, it was waged concurrently with our own Revolution; and

WHEREAS, The people of Poland have ever fought on the side of Liberty, from Kosciusko and Pulaski in our own Revolution, unto our own Polish-Americans who today make up a substantial part of our Armed Forces in the continued fight for Liberty; and

MONDAY, APRIL 27, 1964

WHEREAS, While the government of Poland is today Communistic, our investigations show that the People of Poland are not communists, that they continue their freedom-loving fight, both actively and passively, against the iron hand which hangs over their heads; now, therefore,

Be It Resolved, That we, as Americans, because of the close spiritual kinship between Poland and the United States, feel duty bound to support the People of the Republic of Poland in their firm maintenance of the spirit of Democracy in the face of repeated tyrannic oppression; and further

Be It Resolved, That since the Polish people in Poland are not free to openly celebrate their own great symbol, their guarantee to freedom, the Constitution of May 3, 1791, that the members of this General Assembly join the three-quarter million persons of Polish descent in New Jersey, and the millions more throughout our Country, in celebrating this Day; and further

Be It Resolved, That copies of this resolution, signed by the Speaker and attested by the Clerk, be sent to the President, Lyndon B. Johnson; Secretary of State Dean Rusk; Governor Richard J. Hughes; our New Jersey Senators; the Honorable Clifford P. Case and Harrison Williams; the Polish-American Congress in Washington, D. C.; the Sons of Poland, Jersey City; and the Polish University Club of New Jersey; further

Be It Suggested, That May 3, 1964, State and Nationwide, be proclaimed as Polish Constitution Day.

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
May 4, 1964. }

ASSEMBLY BILL No. 148

To the General Assembly:

I herewith return Assembly Bill No. 148, without my approval, for the following reasons:

Assembly Bill No. 148 would place a financial millstone upon the State highway system by the addition of the portion of Cape May County Road No. 585 which extends over 3.4 miles between State Highway No. 9 at Burleigh and the northeasterly line of North Wildwood.

This bill has a long but unvaried history. It was first vetoed in 1957, at which time the State Highway Department estimated the cost of modernizing this roadway at a minimum of \$4 million. The Department has informed me that the cost today would be approximately \$7 million, of which the Federal Government would bear no part. This amount represents nearly $\frac{1}{3}$ th of the total amount requested this year from the Legislature for State highway construction.

When the bill was next vetoed in 1962, I observed that the State was then under statutory direction to take over 1,128 miles of local road for which no funds were available to meet estimated modernization costs of over \$2 billion. The gap between commitment and fulfillment has since widened even further. Nevertheless, the Legislature has again seen fit to present me with this measure.

With the passage of this type of bill, the second of this session, the Legislature only puts the cart before a phantom horse which may never materialize to take up its burden. Knowing well that the State cannot begin to afford such expenditures, but refusing even to consider ways and means of meeting the increasingly urgent needs of the State in this and other vital areas, this Legislature apparently is content to merely create the semblance of action and accomplishment. It is one thing, however, to direct the Highway Commissioner to add a local road to the State system. It is quite another to make it possible for him to do so.

MONDAY, MAY 4, 1964

Unquestionably, our communities could use effectively additional State assistance for roads, schools and other essential governmental functions. These local needs should be met but not on a basis of political favoritism. The State Highway Department has a master plan for highway improvement. The Assembly Highway Committee has held hearings on this plan and is supposed to issue a report of its findings shortly.

If the Legislature is seriously interested in assisting our communities to meet their highway needs, it should give thought and consideration to the reports of the State Highway Department and its own committees.

Respectfully,

RICHARD J. HUGHES,
Governor.

Attest:

LAWRENCE BILDER,
Acting Secretary to the Governor.

ASSEMBLY BILL No. 586

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 586, with my objections, for reconsideration.

Assembly Bill No. 586 would provide that the existing definition of the term "lottery", as used in our criminal statutes, henceforth shall not pertain "to the distribution of prizes by chance as a gift where admission to the class of donees is based upon the purchase of merchandise or other thing of value at a price which is reasonably related to the true value" thereof. The bill's statement indicates that its primary purpose is to legalize certain advertising and merchandising programs generically known as box-top contests. The statement additionally notes that the measure is also designed to authorize door prize distributions at

MONDAY, MAY 11, 1964

events to which admission is charged. The broad language of the bill itself, however, makes no concrete reference to these or any other particular objectives.

On March 6, 1964, I filed an identical measure, Assembly No. 741 (1963), in the State Library without my approval. I did so not because I disapprove of the box-top contests which the bill was principally intended to sanction, but because the wording of the bill was so broad it engendered serious constitutional problems. Since Assembly No. 741 was passed by the Legislature on the last working day of the 1963 session, it was not possible to develop and offer suitable amendments. I hope that my prompt action on this bill will give to the Legislature at this time sufficient opportunity to consider the changes I recommend.

In 1947, the citizens of New Jersey adopted a new Constitution which provided that "no gambling of any kind shall be authorized by the Legislature unless the specific kind, restrictions and control thereof" have been heretofore or are hereafter authorized by direct vote of the people, Art. IV, Sec. VII, para. 2. At that time, the form of gambling known as the lottery, traditionally involving the distribution of prizes according to chance among a group of persons who furnished a consideration for their eligibility to participate therein, long had been outlawed by statute and by the Constitution of 1844. Among the types of lotteries consistently recognized and condemned as such by the courts were the promotional devices whereby the purchase of merchandise or a ticket of admission to a theatrical event qualified the customer or patron as a contestant for prizes to be awarded by lot. Such lotteries, therefore, undoubtedly constituted "gambling" within the meaning of the 1947 constitutional proscription against "gambling of any kind" unless approved by the voters at a general election.

For these reasons, it is not appropriate for the Legislature and the Governor to broadly legalize contests based "upon the purchase of merchandise or other thing of value", as is proposed by Assembly Bill No. 586, without submitting such a proposal to the will of the people in accordance with the plain mandate of the Constitution. This is too sensitive and dangerous an area to admit of such abstractly worded legislation. Additionally, the bill's breadth of language, in conferring blanket approval upon door prize distributions, might undo by legislation the re-

strictions and controls imposed by the people upon bingo and raffles when they amended the Constitution by referendum in 1953 to permit those activities in certain instances under tightly specified conditions.

The sponsors and proponents have indicated, however, on the floor of the Legislature and to the press that they are primarily if not solely interested in the box-top feature of this legislation. A specific limitation of the scope of the bill to box-top contests would remove many of the constitutional difficulties inherent in a general and abstract authorization of prize contests without the approval of the electorate. Such a limitation would also meet my objection to the inclusion of the very different subject of door prize distributions in the same bill with box-top contests. In view of the professed desire of the Legislature and the public to attain legality for box-top contests in particular, I am recommending amendments to limit the application of this bill only to box-top contests.

It should be observed, however, that even the amendment I propose will not dispel all doubt as to the constitutionality of the bill. There is a divergence of respected legal opinion as to whether box-top contests constitute a form of gambling within the import of the constitutional ban so as to require the direct approval of our citizens. But box-top contests, as I know them, are innocuous, recreational activities which do not partake of the social evils inherent in the virulent types of gambling which the constitutional prohibition brings immediately to mind. Such contests could be characterized as gambling events only in the most technical and legalistic sense, if at all. This is clearly an instance in which constitutional doubts should be resolved in favor of the bill.

In addition, I recommend the elimination of that portion of the statutory definition which renders "an actual inconvenience", not requiring the expenditure of money, sufficient "consideration" to characterize a contest as an illegal lottery. It would be anomalous to sanction box-top contests which may involve the expenditure of money to purchase the sponsor's products, while continuing to outlaw contests requiring no more of the participants than an "actual inconvenience" such as attendance at a store to deposit an entry blank. See *Memorandum Opinion of the Attorney General* (December 12, 1961). Since such a deletion will render superfluous the circuitous and largely

meaningless proviso that “[t]his definition shall not pertain to a distribution of prizes by chance when there is an intent to distribute prizes as a gift where the class of donees performs acts not exceeding those necessary to become a member of the class of donees or to receive the gift”, this language should also be deleted.

Accordingly, I herewith return Assembly Bill No. 586 for reconsideration, with the recommendation that the bill be amended as follows:

On page 1, section 1, line 4, delete “which may be”.

On page 1, section 1, line 5, delete “or in the form of an actual inconvenience”.

On page 1, section 1, lines 6 through 13, inclusive, delete these lines in their entirety and insert in lieu thereof:

“Consideration shall not be deemed to exist with respect to a distribution of prizes by chance in a contest where admission to the class of distributees is based upon the submission of a box top, package, label, coupon or other similar article connected with merchandise produced or sold by the sponsor of the contest in the regular course of business, provided that the sales price of said merchandise does not include any direct or indirect charge to the purchaser for the right to participate in such contest.”

Respectfully,

ASSEMBLY BILL No. 359

To the General Assembly:

I herewith return Assembly Bill No. 359, without my approval, for the following reasons :

Assembly Bill No. 359 would re-create a Law Enforcement Council consisting of 9 members, of which 3 would be appointed by the President of the Senate, 3 by the Speaker of the General Assembly and 3 by the Governor. The members would be appointed on a bipartisan basis. The bill specifies in considerable detail the numerous functions, powers and duties of the Council. The scope of this agency's jurisdiction can be seen from an examination of only a few of these powers. For example, the Council is to "examine into and appraise on a continuing basis, the administration, enforcement and operation of all State and local laws, ordinances and regulations relating to crimes and offenses." The Council is also to examine and audit on a continuing basis the performance of all law enforcement agencies at all levels of government and to initiate and conduct such investigation of law enforcement agencies as may in its judgment be required to advise the Governor and the Legislature on the condition of law enforcement within the State. To carry out these responsibilities the sum of \$50,000.00 is appropriated.

The predecessor of this proposed Council is best remembered for its excesses, its abuse of power and its vicious demonstration of partisanship. Although this edition of the Council is advanced as a proper exercise of the legislative power to investigate prior to lawmaking, it would possess all of the broad and amorphous powers of its ancestor and, thus, presumably, would be authorized to indulge in equally unjustifiable activities.

Under the grant of authority contained in Assembly Bill No. 359, there is no apparent limit to the jurisdiction of the Council to interfere with and disrupt the activities of the legitimate law enforcement agencies of the State. As

interpreted by the prior Council, these powers permit this body to function as a law enforcement group in direct conflict with the duly constituted authorities. While the Legislature is so entitled to obtain facts necessary to intelligent lawmaking, it is not permitted to usurp the law enforcement responsibilities of the other branches of government. The division of powers is clearly set forth in the *New Jersey Constitution*, at Article III, paragraph 1:

“ARTICLE III

“Distribution of the Powers of Government

“1. The powers of the government shall be divided among three distinct branches, the legislative, executive, and judicial. No person or persons belonging to or constituting one branch shall exercise any of the the powers properly belonging to either of the others, except as expressly provided in this Constitution.”

It should be recalled that the powers assigned to this Council are those which were granted to the old Law Enforcement Council when it was an integral part of the Attorney General's Office. Such “law enforcement” powers are not appropriate for a legislative agency.

Even apart from the question of the scope of this agency's jurisdiction, there remains the very real consideration as to whether the Council warrants reconstitution in any form. The original Council was created in the aftermath of the sensational hearings of the United States Senate's Kefauver Committee and the New York State Crime Commission, at a time when public confidence in law enforcement was at an extremely low ebb. Years later, the establishment of the Council in 1952 was characterized by one objective observer as a measure “to satisfy political considerations rather than any executive-administrative needs,” and as a “political palliative” to satisfy a growing demand for more stringent law enforcement. *The New Jersey Law Enforcement Council*, 81 *New Jersey Law Journal* 61, 68 (1958). While I do not propose at this late date to argue that point, it is in any event quite apparent that a comparable situation does not exist today.

The administration of justice in New Jersey now rests upon a firm bipartisan base. The investigatory aspects are lodged not only in the Attorney General's and County Prosecutor's offices but in the local police agencies. The

MONDAY, MAY 11, 1964

Grand Jury system, which constitutes the bedrock of justice in a democratic form of society, is under the direct supervision of the Assignment Judges who do not reflect political influence.

Shortly before leaving office in 1954, Governor Driscoll was able to inform the Legislature in his seventh annual message that:

“* * * the services of our Department of Law and Public Safety have been immeasurably strengthened. Our policing agencies are larger, better staffed and better trained; and when judged against the perspective of history, will be found to have done one of the best jobs in the country.”

Conditions have continued to improve, and it cannot be seriously contended that New Jersey law enforcement is now wanting in competence and integrity. Additionally, Governor Meyner in 1954 inspired the establishment of a Criminal Investigation Section in the Division of Law of the Department of Law and Public Safety. This agency to date has functioned most effectively as a criminal investigation unit and as a coordinator and liaison between the 21 county prosecutors and the Attorney General. The Criminal Investigation Section, in short, is performing the proper functions of the former Law Enforcement Council as they were originally conceived. The reestablishment of such a Council would, therefore, cause a wasteful duplication of effort. Any additional funds available for such a purpose should be appropriated to the Criminal Investigation Section.

Finally, I feel obligated to comment upon the obvious motivation underlying this bill. I cannot bring myself to believe that it is designed to accomplish anything more than political mischief on the eve of a gubernatorial campaign. This belief is bolstered by the fact that Assembly Bill No. 359 conveniently provides for the demise of this Council one week before the next scheduled Inauguration Day. The floor debates during the passage of this legislation lend further credence to this suspicion. Reports indicate that the primary sponsor of this bill, when challenged on the floor of the General Assembly to cite a single instance indicating a current breakdown in law enforcement, was unable to do so.

This naked admission is most revealing. The bill is not advanced and justified by its sponsor as a measure necessitated by any existing breakdown in law enforcement. The apparent purpose is an unfounded fishing expedition for political purposes.

I do not intend to lay open the law enforcement agencies of this State to the unbridled attacks of partisanship of which this Council would be capable without some decent justification for such an assault.

If the Legislature has a sincere desire to improve the condition of law enforcement in this State, it has the opportunity to do so through the exercise of its legitimate function, the enactment of laws. Although I have indicated my concern about the actions of the previous Law Enforcement Council, it was responsible for several suggestions with which I would presume no one could quarrel. For example, the Council recommended the enactment of legislation to require that all local law enforcement officials be adequately trained before attaining a permanent status. They also recommended legislation to provide for uniform crime reports and to authorize the granting of immunity to witnesses for the purpose of obtaining evidence which would otherwise be unavailable. All three of these proposals have been strenuously recommended for more than six years, both by myself and by my predecessor in office. Before the Legislature concerns itself with the re-creation of a Law Enforcement Council, it should give some attention to these recommendations of its predecessor which still await their consideration.

The State does not need traveling circuses and side shows in the area of law enforcement. It needs more and better trained personnel; it needs the modernization of laws to permit these men to carry out their duties in an effective and just manner. The Law Enforcement Council will provide none of these things. If the Legislature will turn its attention from investigation to lawmaking, it can. It is only when it has nothing constructive of its own to offer our citizens that it finds it far easier to investigate than to legislate.

Respectfully,

RICHARD J. HUGHES,

Governor.

ASSEMBLY BILL No. 371

To the General Assembly:

I herewith return Assembly Bill No. 371, without my approval, for the following reasons:

Assembly Bill No. 371 would authorize the courts to require defendants in matrimonial actions to pay the county probation officer a collection "fee" of up to \$0.50 for each installment of alimony or support paid through the county probation office pursuant to court order.

The bill appears to reflect the thesis that the expense of such collections should be included in the costs of litigation because the collection facilities of the county probation office are principally designed to serve the private interests of the litigants. But the public also has a substantial interest in the prompt, regular and efficient enforcement of alimony and support orders. Experience has demonstrated that absent such enforcement, many beneficiaries would be receiving some form of public welfare payments to the manifest financial detriment of the public at large. Additionally, an extra charge of up to \$26.00 a year might, in some cases, stimulate efforts to avoid this procedure or to have the amount of the judgment reduced to take the collection fees into account. Such efforts would be incompatible with the public welfare.

Since the public as well as the litigants has a definite stake in the effective continuation of this method of collection by the county probation office, the costs of collections constitute a legitimate governmental expenditure which should not be passed on to the particular individuals involved. I am therefore constrained to return Assembly Bill No. 371 without my approval.

Respectfully,

RICHARD J. HUGHES,
Governor.

ASSEMBLY BILL No. 156

To the General Assembly:

I herewith return Assembly Bill No. 156, without my approval, for the following reasons:

This bill would amend the chapter of the Uniform Commercial Code concerning bulk transfers of business property to indicate that the terms "creditor," "creditors," or "existing creditors," as used in the Bulk Transfers Chapter, shall mean "business creditors only and shall not include creditors of the transferor who are such creditors by reason of personal or private transactions with the transferor which did not arise out of or in the course of the transferors' business."

The Uniform Commercial Code was enacted in 1961 after an intensive study of the subject by a special study commission which produced a thorough and comprehensive report on the proposed code. One of the major reasons advanced by this group for the enactment of this legislation was the desirability of uniformity of treatment of commercial transactions by the states.

Since this bill was delivered to me by the Legislature, requiring action in ten days, I requested the sponsors to submit certain information concerning this proposal, including the treatment accorded this Chapter by the other states which have adopted this code. The sponsors have indicated that they were not familiar with the law in the other states. A quick but incomplete review of the out-of-state laws by my staff has revealed, however, that 28 states have now enacted the code. Apparently none of these states has restricted the definition of creditor in the manner proposed by this legislation.

In addition, the Uniform Law Commissioners of New Jersey and the National Conference of Commissioners on

MONDAY, MAY 11, 1964

821

Uniform State Laws have indicated their opposition to this proposal. Although these groups recognize that the present provisions may be broader than are entirely necessary, the type amendment suggested by this bill would eliminate protections which have been developed for the benefit of creditors, not only legislatively in the Commercial Code and the laws that preceded the Code, but also through judicial decision. *Chorpenning v. Yellow Cab Co.*, 113 N. J. Eq. 389 (Ch. 1933), *aff'd*, 115 N. J. Eq. 170 (E. & A. 1934).

The Uniform Law Commissioners further point to the danger that may occur from destroying the uniformity of the code's provisions through amendments of the type proposed by Assembly Bill No. 156. They note that:

“Sales of businesses and notices to creditors will involve companies and people outside the State of New Jersey. If we have a peculiar definition of creditors it not only engenders mistrust of the Bulk Sales chapter of the Code, but all of the balance of the Code insofar as it is the law in New Jersey.”

Although it is possible that there may be an approach to this problem that would carry out the intent of this legislation without creating the difficulties perceived by the experts, the time allotted to me to consider this bill does not permit the development of an alternative proposal. In light of the objections which have been raised to this proposal by the groups which are most familiar with the provisions of the Uniform Commercial Code, not only in this State but throughout the nation, I feel I have no alternative but to return Assembly Bill No. 156 to the Legislature without my approval.

ASSEMBLY BILL No. 46

To the General Assembly:

I herewith return Assembly Bill No. 46, without my approval, for the following reasons :

This bill amends the law authorizing the Director of Motor Vehicles to seize a motor vehicle when he has reason to believe that it has been stolen or otherwise operated under suspicious circumstances and to dispose of such a motor vehicle through a public sale. The bill would reduce the period of time for such a sale from 90 days to 30 days.

The proponents of this measure have indicated that their primary desire in this legislation is to permit this procedure to be authorized for the sale of motor vehicles which have been abandoned upon the municipal streets and public highways. Because of the limitation of this law to motor vehicles which have been stolen or operated under suspicious circumstances, it is not possible to carry out this intent fully. For this reason a substitute measure, Assembly Bill No. 706, has been prepared and is now before the Legislature. It has my full support.

I am therefore returning Assembly Bill No. 46 without my approval.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
June 22, 1964. }

ASSEMBLY BILL No. 618

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 618, with my objections, for reconsideration.

This bill would amend the State Competitive Scholarship Act to extend the period of eligibility to cover students enrolled in courses of undergraduate study regularly requiring more than 4 academic years for completion.

The present 4-year limit is based upon the fact that the ordinary undergraduate program consists of 4 years of study. Gradually, many undergraduate schedules have been extended to cover a 5-year period. For example, pharmacy and certain fields of engineering are now 5-year programs. The proposal to cover the entire period of undergraduate study appears to be both equitable and consistent with the intent of our scholarship program. I am, therefore, in complete agreement with the intent of this amendment. The Department of Education, however, has informed me that the particular language employed in Assembly Bill No. 618 may not carry out the full intent of this proposal but will probably cause unnecessary administrative problems.

The bill restricts the extended scholarship awards to those students who enroll initially in a program the duration of which exceeds 4 years. This would result in the elimination from such extended awards the many students who do not elect a 5-year program until after the completion of one or more years of college. It would also require the scholarship commission to make a determination of a student's intention to undertake an extended program at the point in time at which he is initially enrolled in college. This would necessitate a periodic review by the commission in order to determine that the student remains enrolled in the extended program of instruction. Such a cumbersome administrative procedure does not seem necessary or useful.

These problems can be avoided if the act is amended to permit any person enrolled in an undergraduate course requiring 5 academic years to hold his scholarship for the

length of time regularly required for the completion of the course.

Accordingly, I herewith return Assembly Bill No. 618 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, lines 4 through 8 delete said lines in their entirety and insert in lieu thereof, "except that in the case of a scholarship holder who is enrolled in a course of undergraduate study required by the institute to cover 5 academic years, the period of the scholarship shall".

Respectfully,

LAWRENCE BILDER,
Acting Secretary to the Governor.

Mr. Bateman moved that Assembly Bill No. 618 be placed on first reading for the purpose of re-enactment pursuant to the recommendations of the Governor.

Which motion was adopted.

Assembly Bill No. 618 was placed on first reading for the purpose of re-enactment.

Messrs. Bateman, Rimm, A. Smith, Maraziti and Crabiell offered the following resolution, which was read by the Clerk and adopted:

The Clerk read the following message from the Governor:

STATE OF NEW JERSEY, }

ASSEMBLY BILL No. 404

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 404, with my objections, for reconsideration.

This bill would change one of the alternative bases for the apportionment of amounts to be raised by constituent school districts of a regional school district. School district costs can now be apportioned on the basis of average daily enrollment. Assembly Bill No. 404 would change it to the "number of pupils enrolled on the last school day of September of the current school year," thereby taking into account any increase in the number of school children a district might have on an immediate basis rather than having this reflected in the apportionment for the following year. This appears to be an equitable method of apportioning regional school costs. Assembly Bill No. 404, however, would amend a section recently changed by Chapter 106, P. L. 1964.

In order to avoid any question of an implied repeal of the changes made by Chapter 106, I suggest Assembly Bill No. 404 be amended to insert in section 4 thereof the language added by said chapter.

Accordingly, I herewith return Assembly Bill No. 404 for reconsideration and recommend that it be amended as follows:

On page 8, section 4, line 4, after the word "municipalities" add the following " , or the boards of education of 2 or more school districts,".

On page 8, section 4, line 6, after the words "for such school district" add the following "or districts".

On page 8, section 4, line 7, after the words "school district" add "or districts".

On page 8, section 4, line 13, after the words "board of education" add "or each such board".

On page 8, section 4, line 22, after the words "municipalities in the" add "regional".

On page 8, section 4, line 23, after the word "district" add "would be created".

On page 9, section 4, line 34, after the words "school district" add "or each of such school districts".

Respectfully,

RICHARD J. HUGHES,

Governor.

Assembly Bill No. 724,

Favorably, with committee amendments.

Mr. Moraites offered the following committee amendments to Assembly Bill No. 724:

Amend page 1, section 1, line 6, after “or”, insert “for the tax years 1965 and 1966”.

Amend page 1, section 1, line 11, before “The”, insert “2.”

Amend page 2, section 1, lines 22 and 23, delete “For each tax year subsequent to 1965, the fraction derived in step first, above, shall be multiplied” and insert in lieu thereof “For the tax year 1966 first, there shall be derived a fraction calculated by multiplying the fraction derived in step first, above,”.

Amend page 2, section 1, line 35, immediately preceding “For” insert “c.”

Amend page 2, section 1, line 35, following “calculation” insert “of the fraction in step first”.

Amend page 2, section 1, line 41, following line 41 insert as part of the same section the following:

“d. If, in any taxing district, the ‘adjusted personalty tax rate for such district’ shall be higher than the property tax rate calculated for all taxable property in the district for the tax years 1965 or 1966, the tax rate to be applied to the taxable property other than tangible personal property used in business and tangible household personal property and personal effects, for such year, shall be calculated as follows:

“First, the amount of the property tax levy to be derived from tangible personal property used in business, computed in accordance with step ‘second’ of subsections (a) or (b) of section 2 above, shall be deducted from the total property tax levy in the district for the particular tax year involved. Second, the remainder so determined shall be divided by the total taxable value, for the particular tax year involved of all taxable property other than tangible personal property used in business and tangible household personal property and personal effects. The resulting tax rate shall be deemed to be the general tax rate for the district for the particular tax year involved.”

Amend pages 2 to 6, sections 2 to 8, change section numbers 2 to 8, inclusive to 3 to 9, inclusive.

Amend page 6, section 8, line 3, after line 3, insert a new section as follows:

“10. If any part or provision of this amendatory and supplementary act shall be declared unconstitutional or held invalid, all the amendatory and supplementary provisions of this act and rules and regulations issued pursuant thereto shall be inoperative.”

Amend page 6, section 9, line 1, delete “9.” and insert in lieu thereof “11.”

Mrs. Higgins and Mr. Crabel offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Throughout the country flags are flying at half-mast honoring the memory of former President Herbert Hoover who recently died in his 91st year; and

WHEREAS, During the past 3 decades the 31st President of the United States has been one of our principal elder statesmen whose advice has been constantly sought on matters of great public concern ever since he completed his term in the Presidency; and

WHEREAS, Prior to his election as President he had been an outstanding contributor to the welfare of the Nation in countless positions of importance to the people; and

WHEREAS, It is quite impossible to catalog his achievements we are most fortunate in having President Hoover's books, papers, addresses and his memoirs, all of which will be guiding lights in the Field of Political Science; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

1. That on behalf of the State of New Jersey public tribute is hereby paid to the memory of President Hoover and we join in this period of National mourning on the occasion of the passing from the public scene of Herbert Clark Hoover.

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
November 9, 1964.	

ASSEMBLY BILL No. 162

To the General Assembly:

I herewith return Assembly Bill No. 162, without my approval, for the following reasons:

Assembly Bill No. 162 would supplement Title 18 of the Revised Statutes (the school law) to require periodic medical examinations of school bus drivers, to be conducted by each local board of education providing transportation to school children, in the same manner and according to the same standards now applicable to regular school board employees.

Although I agree with the fundamental purpose of this bill, both the Department of Education and the Division of Motor Vehicles agree that such examinations should be held under the supervision of the Director of Motor Vehicles rather than by requiring each local board of education to undertake such an obligation. The medical examination of school bus drivers is essentially a motor vehicle problem and not an educational concern. It should be approached as such.

The bill itself would exempt from examination drivers who possess special licenses issued by the Director of Motor Vehicles pursuant to R. S. 39:3-10.1. This section of the motor vehicle law provides that drivers of commercial buses must qualify for special licenses by passing a stringent examination pertaining to driving ability, previous experience, good character and physical fitness. They must thereafter annually satisfy the Director of their continued qualification to hold special licenses. This section should be amended to encompass school bus drivers, thereby accomplishing what is intended by Assembly Bill No. 162. A substitute measure is being prepared which will accomplish this change. I hope the Legislature will give this measure its prompt consideration.

ASSEMBLY BILL No. 170

To the General Assembly:

I herewith return Assembly Bill No. 170, without my approval, for the following reasons:

The Escheat Act, N. J. S. A. 2A:37-11, defines escheatable personal property as "moneys . . . and every other kind of tangible or intangible property". Assembly Bill No. 170 would amend this definition to include within the

term personal property "moneys deposited with any county welfare board for the account of any person who shall have died leaving no heirs or next of kin or other persons entitled to receive the said moneys."

I have been advised that the proponents of this bill consider the amendment necessary to escheat money which is deposited with the county welfare board for the benefit of an indigent person by his relatives or friends. The escheatable status of such property is said to be ambiguous because it is unclear whether legal title vests in the beneficiary when the deposit is made. Any existing ambiguity, however, stems from the difficulty of determining the intention of the depositor rather than from the uncertainty of the statutory definition of escheatable property. If it is known that the depositor intends an outright gift to the beneficiary, then the money becomes the latter's property and upon his death intestate and without heirs or next of kin it would escheat to the State under present law. Similarly, if it is clear that the depositor intends the fund to revert to himself upon the demise of the beneficiary, then the money would not escheat to the State under either present law or the provisions of this bill.

Assembly Bill No. 170, therefore, does not accomplish any useful purpose and could only serve to confuse further the already complex area of escheat law.

ASSEMBLY BILL No. 242

To the General Assembly:

I herewith return Assembly Bill No. 242, without my approval, for the following reasons:

This bill would supplement the motor vehicle law by providing that the driver of a vehicle approaching or about to enter a traffic circle or traffic island shall yield the right of way to any other vehicle already traveling on such circle or around such island.

At my request, this bill has been reviewed and evaluated by several traffic safety experts. They have advised me that in the particular case of traffic circles, the establishment of rigid right-of-way rules is unnecessary and undesirable. The very purpose of traffic rotaries is to induce a smooth and unhindered interflow of vehicles converging from various directions and going their separate ways without undue congestion. This objective presupposes that the vehicles involved must be operated at normal and uniform speeds in order to merge with, weave across and emerge from the prevailing traffic pattern in a safe and effective manner. If the vehicles approaching the rotary were required to stop or to curtail their speeds sharply in order to "yield the right of way" to vehicles in the circle, the operational pattern would be akin to that of an ordinary intersection and the special advantages of the traffic circle might be lost or seriously impaired. The resulting confusion (see R. S. 39:4-90, governing the right of way at intersections) and potential hazards militate against the imposition of an inflexible right-of-way rule in this area.

If a particular rotary should present problems warranting special traffic controls, there is no reason why "yield right of way" to "stop" signs cannot be erected at the appropriate intersections in accordance with the procedure specified by R. S. 39:4-140. However, I cannot agree to the enactment of an abstract right-of-way rule which would operate to negate the very reason for the existence of the traffic rotary. Consequently, I am returning Assembly Bill No. 242 without my approval.

ASSEMBLY BILL No. 318

To the General Assembly:

I herewith return Assembly Bill No. 318, without my approval, for the following reasons:

Assembly Bill No. 318 reads as follows:

“Whenever a civil or a criminal action shall have been brought against any person for any act or omission arising out of and in the course of the performance of his duties as a member of a municipal police department and such action results in final disposition in favor of such person, the cost of defending such action, including reasonable counsel fees and expenses, together with costs of appeal, if any, may, in the discretion of the governing body, be borne by the municipality.”

N. J. S. A. 40:11-19, however, now provides that:

“Where a member of any police or fire department is made a defendant in any suit or other legal proceeding arising out of the performance of police or fire duty or out of any incident arising in the line of such duty, the officer, board or body in control of such police or fire department shall provide all necessary legal aid necessary for the defense of such suit or other legal proceeding; *provided*, this shall not apply to any disciplinary or criminal proceeding instituted against such policeman or fireman by the municipality in which he is employed.”

Assembly Bill No. 518 would amend Title 18 of the Revised Statutes (the school laws) to require every school bus, except those with engines mounted in the rear, to be equipped with a convex mirror affixed to the front of the bus in such a manner as to enable the seated driver to observe the road ahead from the front bumper to the point where unaided observation is possible.

In common with several other bills vetoed today, this measure attempts to solve what is essentially a motor vehicle problem outside the scope of the motor vehicle law. Title 18, which the bill would amend, contains no enforcement provisions and gives the Division of Motor Vehicles no specific authority to secure compliance with school bus safety equipment laws. Additionally, I have been advised that motor vehicle law enforcement officers generally are unfamiliar with the school laws, and must rely on the provisions of the motor vehicle law to detect deficiencies in vehicular safety equipment.

For proper implementation and enforcement, a bill of this type should be incorporated into Title 39, the Motor Vehicle Law, rather than into Title 18, the school laws. A substitute measure is being prepared which will accomplish this change. I hope the Legislature will give this measure its prompt consideration.

RICHARD J. HUGHES,

ASSEMBLY BILL No. 536

To the General Assembly:

I herewith return Assembly Bill No. 536, without my approval, for the following reasons:

Assembly Bill No. 536 would authorize the imposition of mechanics' liens upon land which has been improved "by

the construction, including the paving or surfacing, of any highway, road, street, driveway, curb, gutter or sidewalk or the installation of any sewer or storm drain lines.”

This bill apparently is intended to protect the interests of those who furnish labor and materials for the improvement of roadways and the installation of subsurface sewage and water disposal utilities on tracts of land developed as building projects.

I am not unsympathetic to the proposition that contractors and materialmen should be secured for labor and materials furnished for the construction of public streets and the installation of utilities. To the extent that Assembly Bill No. 536 would make these liens superior to the rights of the public in dedicated streets, however, it is unacceptable legislation. It would be highly undesirable and, to say the least, impractical to allow an unsatisfied lien claim to culminate in an execution sale of public streets. See N. J. S. A. 2A :44-109, 110.

The portions of development tracts which are to be improved as paved and surfaced roadways invariably are dedicated by the developer to public use prior to the commencement of the contractor's work. When the developer's offer of dedication is accepted by the municipality upon satisfactory completion of the improvements, the streets assume the character of public property subject to municipal control, with the dedicator retaining only a bare legal title which is subordinate to the public's right-of-way. *State v. Cooper*, 24 N. J. 261, 266-267 (1957). Moreover, the dedication of land for a public street ordinarily includes not only the surface, but also so much beneath the surface as is necessary to lay down sewers, drains and other common utilities. *Haven Homes v. Raritan Tp.*, 19 N. J. 239 (1955). Thus, it is evident that the type of land upon which Assembly Bill No. 536 would permit the impression of mechanics' liens is peculiarly affected with a public interest which must remain superior to that of the contractor or materialman.

I would suggest, therefore, that the Legislature give further consideration to this problem with a view toward developing a solution which will effectively protect these contractors and materialmen in a manner consistent with the public interest. It is possible, for example, that such

developers should be required to post completion and surety bonds before the acceptance of dedicated streets. I will give sympathetic consideration to any such solution that does not subordinate the rights of the public to those of the private parties to construction contracts and agreements.

ASSEMBLY BILL No. 548

To the General Assembly:

I herewith return Assembly Bill No. 548, without my approval, for the following reasons:

N. J. S. A. 39:4-128.1 now requires motorists on undivided highways to halt their vehicles not less than 10 feet from a school bus which has stopped to receive or discharge school children, provided that the school bus carries appropriate front and rear markings to identify it as such. Assembly Bill No. 548 would add the further proviso that a school bus must also be so designated by the electrical identification and flashing warning lights prescribed by N. J. S. A. 18:14-12.1, in order to hold approaching drivers to the duty of stopping their vehicles.

The purpose of this bill is not entirely clear. Literally interpreted, Assembly Bill No. 548 would permit motorists to deliberately pass a halted school bus which, though plainly marked and visibly discharging or receiving passengers, is not properly equipped with electrical identification. Obviously a defect in school bus equipment should not provide a motorist with an automatic excuse to compound the hazard to the lives and safety of school children, and I am unwilling to ascribe to the Legislature so patently undesirable an objective.

I would assume that the Legislature instead was concerned with the entirely different problem of incorporating into the Motor Vehicle Act, for purposes of enforcement, the requirement that school buses be equipped with electrical identification devices. This identification requirement now appears only in Title 18, the school laws, with no sanctions specified for violations, and its introduction into Title 39 undoubtedly would lead to more effective implementation and enforcement. Insofar as Assembly Bill No. 548 undertakes to bring the electrical identification requirement within the purview of the Motor Vehicle Act, its purpose is a good one. As noted, however, it would have the effect of giving errant motorists in some instances a complete defense to charges of wilfully passing school buses, and that result is unacceptable.

A revised school bus safety bill is being prepared which, among other things, will properly accomplish the incorporation of the electrical identification requirements of N. J. S. A. 18:14-12.1 into Title 39 and make violations thereof motor vehicle offenses. I hope the Legislature will give this measure prompt consideration.

ASSEMBLY BILL No. 551

To the General Assembly:

I herewith return Assembly Bill No. 551, without my approval, for the following reasons:

Assembly Bill No. 551 would provide that all vacancies in county offices required to be filled by appointment of the board of chosen freeholders, and "arising from or created by any cause other than expiration of term of office," henceforth shall be filled for the remainder of the unexpired term

only. The bill also would specify that no such vacancy shall be filled during the interval between a general election and the next annual meeting of the board, "except for a term to expire on February 1 next following, and thereafter such appointment shall be made for the remainder of the unexpired term."

While this bill is cast in deceptively simple terms, it would have a sweeping effect upon the existing power of all county boards of chosen freeholders to fill vacancies in county offices arising by reason of the death, disability or resignation of the previous incumbent prior to the completion of his designated term of office. In order to appreciate the significance of the bill in this respect, it is necessary to realize that terms of public office generally fall into two distinct categories. Some terms are fixed by statute with reference to the beginning and end of the period during which the office is to be occupied, with a provision that vacancies are to be filled for the remainder of the unexpired term only. These terms are said to be attached to the office itself rather than to the particular occupant thereof, and continue to run whether or not the office is occupied at any given time. Thus a vacancy occurring prior to the expiration of such a term is filled only for the remainder of that term. Assembly Bill No. 551, aside from the novel proposal concerning appointments between election day and the date of the next annual meeting, merely confirms the existing state of the law in regard to this type of office.

As to many county offices, however, there is an entirely different sort of term which, as a matter of legislative intent, attaches to the occupant of the office rather than to the office itself. The office of county auditor, for example, has a statutory term of 3 years which is fixed only by reference to that length of time. The statute specifies no dates for commencement or termination of the term, and makes no mention of unexpired terms. Such a term is personal to the incumbent, beginning when he is appointed to the office and ceasing when he leaves it, whether before or upon the expiration of the designated time period. A vacancy in the office of county auditor prior to the expiration of the current occupant's 3-year term automatically extinguishes that term, and the succeeding appointee receives a full 3-year term of his own.

Assembly Bill No. 551 apparently seeks to abolish such personal terms in county offices. In effect, the bill would

MONDAY, NOVEMBER 9, 1964

1023

convert all terms of county offices which are personal to the occupant into terms which attach to the office itself. While I am not opposed to the proposition that every county office should carry a term which is coextensive with the office itself rather than with the occupancy of the particular incumbent, I am disturbed by the manner in which Assembly Bill No. 551 would accomplish so fundamental a change in the terms of office of so many county officials.

The bill is designated as a supplement to chapter 21 of Title 40 of the Revised Statutes. It would operate, however, to alter the nature of many statutory terms of office now established by various specific sections of Title 40 and is intended to amend all of these sections without specific reference thereto. Such an amendment, buried in chapter 21 as a separate section, could cause much uncertainty and confusion. Any person wishing to determine the term of a given office naturally would look first to the particular statute creating the office and establishing its term, and might conclude from an examination of this statute that the term is intended to be personal to the incumbent. Unless such a person also happened to be aware of the impact upon that statute of Assembly Bill No. 551, an association which is not readily apparent from the general and self-contained language of the bill, his ultimate conclusion would be erroneous, raising limitless possibilities of litigation.

If it is the Legislature's intenton to convert all existing personal terms of county office into terms that run with the office, it should do so clearly, preferably by direct amendment of the statutes concerning the specific county offices affected. Any such proposal should also make allowance for the need to adjust the method of computing the duration of the terms which would be converted from personal terms to terms attached to the office. The commencement and expiration dates of such terms should be fixed by statute.

ASSEMBLY BILL No. 644

To the General Assembly:

I herewith return Assembly Bill No. 644, without my approval, for the following reasons:

This bill would allow any individual who has served as a sanitary inspector first class in any municipality of this State for at least a 10-year period and as an executive officer of a municipal board of health for at least 10 years, to obtain a license as a health officer without the necessity of passing the examination required by N. J. S. A. 26:1A-39.

Of all the trained professionals who serve our municipalities, health officers rank among the most important. They have the major responsibility for safeguarding the public health of the community. Since April 1, 1961, local health departments have been required to comply with the Recognized Public Health Activities and Minimum Standards of Performance for local health departments in New Jersey. To satisfy these standards a licensed health officer must direct programs which include among others: collection and analysis of public health sanitation, air pollution control, bathing place and camp sanitation, food, housing and milk sanitation, public water supply control, sewage disposal control, solid waste disposal control, stream pollution control, veterinary public health control, control of communicable diseases, chronic disease control and health education.

Commensurate with the increasing responsibilities of health officers, the qualifications for the position have necessarily become more stringent. In 1950, standards for the position of health officers were raised to require both a college degree and successful completion of an examination at the professional public health level.

I have been informed that most of the individuals who would be affected by Assembly Bill No. 644 have served in municipalities under 10,000 in population. These people would be licensed as health officers and would be legally

by Chapter 47 of Title 40 of the Revised Statutes. The City is permitted to employ such non-residents if it shall find as a fact that adherence to the residency requirement "would seriously impede its ability to establish and maintain competent personnel for its police force and paid fire department." Non-residents so employed would be required to live within a distance of not over 5 miles from the police or fire headquarters of the City of Plainfield.

Without regard to the merits of this proposal, I must return Assembly Bill No. 659 without my approval because of a failure to comply with the provisions of Article IV, Section VII, paragraph 10 of the New Jersey Constitution which provides that legislation regulating the internal affairs of a municipality or county may be passed by the Legislature only upon petition by the governing body thereof specifying the general nature of the law sought to be passed. Unlike two similar measures which I have already approved, Senate Bills Nos. 228 and 374, this bill did not conform with this requirement of the Constitution. It must, therefore, be disapproved.

It is appropriate at this time to point out that the approval herein sought by the City of Plainfield is somewhat different from that granted to the Borough of Glen Ridge and the Borough of Sea Girt in Senate Bills Nos. 228 and 374. In each of these cases, the municipality in question had a population of less than 10,000 persons, a situation which clearly made it difficult to recruit the requisite personnel for their police and fire departments. The City of Plainfield, on the other hand, has a population of more than 45,000 inhabitants. It is the 19th largest municipality in this State.

Before enacting any exemption from the general residency requirements for policemen and firemen, I believe that the Legislature and I should be satisfied that a city of this size cannot recruit the personnel required from its own residents. If, in fact, such a situation does exist in Plainfield, this may indicate that the general residency requirements for policemen and firemen are no longer realistic and that consideration should be given to a revision of these general requirements rather than to the enactment of numerous special bills affecting only individual municipalities. I recommend, therefore, that this aspect be given consideration by the Legislature before any further action

is taken on special measures to waive the general residency requirements.

RICHARD J. HUGHES,

Governor.

ASSEMBLY BILL No. 670

To the General Assembly:

I herewith return Assembly Bill No. 670, without my approval, for the following reasons:

The New Jersey Caustic Poison Act now requires all household products containing caustic acids and caustic alkalies, as defined by the act, to be labeled with the word "Poison." Assembly Bill No. 670 would require additionally that such preparations also bear the following legend:

"Warning

Don't mix bleaching agents and toilet bowl cleansers
and ammonia
and lye
and rust remover
and vinegar
and oven cleaner

In short—never mix bleaching agents with any other cleaning compounds."

This bill apparently is intended to alert consumers to the specific phenomenon, recently noted in several medical journals and other publications, that a mixture of certain cleansing agents with chlorine bleaches is capable of releasing a poisonous chlorine gas. However, since chlorine bleaches are the noxious substances involved in this hazard, the bill seems to be misdirected in its indiscriminate application to all caustic acids and alkalies rather than to chlorine

bleaching chemicals as such. All caustic acids and alkalies are not chlorine bleaches, and it is by no means clear that all chlorine bleaches are caustic acid and alkali products. Thus Assembly Bill No. 670 might well impose needless burdens in some cases while failing to reach its objective in others.

Notwithstanding the technical nature of Assembly Bill No. 670, the Legislature failed to seek any expert analysis or review of the bill prior to its passage by both Houses less than one month after its introduction into the General Assembly. While some measures may lend themselves to such treatment, bills affecting the health and safety of the public manifestly deserve more thorough legislative consideration.

I am hopeful, therefore, that the Legislature will reconsider carefully the problem projected by Assembly Bill No. 670. In that connection, consideration might be given to the Model Labeling of Hazardous Substances Act which was recently developed by the United States Food and Drug Administration along the lines of the federal labeling law of 1960. This act would establish comprehensive and uniform specifications and machinery for regulating the labeling of all dangerous chemical products, and appears to have widespread support among those who are knowledgeable in this field. It is possible this act may provide a suitable approach to this important general problem.

RICHARD J. HUGHES,

ASSEMBLY BILL NO. 389

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 389, with my objections, for reconsideration.

The Banking Act of 1948 now specifies that the annual meeting of the stockholders of every state bank shall be held on such day in January of each year as the by-laws shall provide or, in the absence of a governing by-law, on the fourth Tuesday in January of each year. Assembly Bill No. 389, by deleting the mandatory January date from this law, would permit each bank to hold its annual stockholders' meeting on any day of the calendar year fixed by its by-laws.

I have been informed by the Department of Banking and Insurance that the existing requirement of January meetings is highly desirable from an administrative standpoint. Under the Banking Act, bank directors are elected at annual meetings and must subscribe to formal oaths of office within 30 days after election. These oaths must be filed with the Department, which is charged with the duty of supervising their timely and proper execution. By virtue of the uniform January meeting provision of the act, the oaths of all elected bank officers are filed with the Department within the same 30-day period. Such concentration of filing makes for an efficient and relatively uncomplicated system of recording and supervision.

Assembly Bill No. 389, in eliminating the uniform January date, manifestly would compound the administrative burden by requiring the Department to keep a continuing record and to maintain constant supervision of directors' oaths throughout the year. Moreover, widespread inquiry among the banking community has failed to indicate that the bill would serve any useful banking purpose to offset the administrative hardship to the Department. While it may be inconvenient for some bank stockholders to attend meetings during the winter months, such peripheral con-

siderations must bow to the greater public interest in the orderly and efficient administration of the Department of Banking and Insurance.

Thus there is no valid reason for granting blanket permission to state banks to hold their annual meetings in months other than January. I am advised, however, that some state banks have recently become subject by law to the registration provisions of the several federal Securities Exchange Acts, and that the requirements thereof will render it impracticable for these banks to hold their annual meetings earlier than April. In order to accommodate the real need which has been demonstrated in the case of the relatively few banks affected by this new development, I suggest that the bill be amended to permit such banks to hold annual meetings on the fourth Tuesday in April, while preserving the January meeting requirement as to all other banks.

Accordingly, I am returning Assembly Bill No. 389 for reconsideration, with the recommendation that it be amended as follows:

On page 1, section 1, line 4, delete "The" and insert in lieu thereof "Except as otherwise provided in this section, the".

On page 1, section 1, line 5, after the word "day" insert "in January".

On page 1, section 1, line 6, after "January." insert the following sentence:

"A bank which is required to comply with the Securities Exchange Act of 1934, as amended, or with the Securities Act of 1933, as amended, and with the regulations promulgated under the authority of the said acts by the Board of Governors of the Federal Reserve System or the Federal Deposit Insurance Corporation, or any agency or officer succeeding to their powers, may, pursuant to resolution of its board of directors, and notwithstanding any by-law provision governing the date of the annual meeting, hold its annual meeting on the fourth Tuesday in April, provided that written notice of its intention to hold such meeting in April is

ASSEMBLY BILL No. 657

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 657, with my objections, for reconsideration.

I have been advised that this bill was introduced in order to permit county boards of chosen freeholders to maintain, improve, or repair any existing street, road, viaduct, bridge or parkway not shown on the official county map as long as the acquisition of additional land is not involved. The measure as drafted, however, fails to meet that objective. Repairs, maintenance and improvements to existing roads within the county jurisdictional limits are, by virtue of the proposed amendatory language, still confined to roads depicted upon the official map.

Accordingly, I herewith return Assembly Bill No. 657 for reconsideration and recommend that it be amended as follows:

ASSEMBLY BILL No. 446

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 446, with my objections, for reconsideration.

Assembly Bill No. 446 would amend P. L. 1960, c. 32 to allow an admitted insurer to write any insurance coverage declared eligible for export by the Commissioner of the Department of Banking and Insurance through any licensed New Jersey agent as well as through any surplus lines agent as is now required by the Surplus Lines Insurance Law. Insurance written under this provision by an admitted insurer would be subject to the tax on premiums to which all insurance written by admitted insurers is subject rather than to the tax imposed upon premiums for insurance written pursuant to the Surplus Lines Insurance Law.

Insurance declared eligible for export are coverages found by the Commissioner to be difficult to place due to the unusual risks involved. Such coverages may be placed pursuant to the Surplus Lines Insurance Law with an unlicensed insurer without regard to rate filings. An admitted insurer must make placements of such insurance through a surplus lines agent.

Surplus lines agents are licensed by this State and are particularly skilled in the placement of such insurance. There are now approximately 70 agents so licensed. Because of this relatively small number, the Department of Banking and Insurance can readily supervise coverages written under the present law.

If admitted insurers are permitted to place insurance classified as eligible for export directly through any licensed insurance agent, this highly specialized area would be thrown open to the large number of general agents, most of whom are untrained in the workings of the Surplus Lines Insurance Law. This would place upon the Department of Banking and Insurance a considerably greater supervisory burden without any apparent benefit to the general public. The Department is further concerned that such a weakening of control over surplus lines insurance would tend to reduce its effectiveness in other areas of insurance regulation where rate filings are now required. For these reasons, I feel it is inadvisable to approve this change in the Surplus Lines Insurance Law.

A great number of admitted insurers now utilize electronic equipment and, therefore, find it difficult to separate the insurance coverage written under this provision in order to pay the 3% tax imposed by the Surplus Lines Insurance Law. The loss of revenue which would result from allowing coverages written under this provision to be taxed at the 2% rate imposed on other premiums received by such admitted insurers is estimated by the Department of Banking and Insurance to be minimal. Since the revenue implications of such a change are so limited, it would seem reasonable to permit premiums received pursuant to this surplus lines provision to be taxed at the same rate as the other premiums.

Accordingly I herewith return Assembly Bill No. 446 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, line 5, after the word "agent" delete "or any licensed New Jersey agent".

Respectfully,

ASSEMBLY BILL No. 545

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the Constitution, I herewith return Assembly Bill No. 545, with my objections, for reconsideration.

This bill requests the Governor to issue annually an appropriate proclamation designating the period of July 1 through July 7 of each year as American Flag Week, and calling upon the citizens of this State to display the flag of the United States on those days.

In selecting the week of Independence Day, the sponsors of Assembly Bill No. 545 undoubtedly were motivated by the understandable wish to concelebrate American Flag Week with the holiday commemorating the birth of our Nation.

However, June 14th traditionally is set aside as National Flag Day. It was on that date in 1777 that the first flag of the United States was adopted by congressional resolution. It has been suggested that the establishment of the first week of July as American Flag Week would conflict with the national observance of Flag Day. To avoid any possible conflict, the bill should be amended to change the period designated as American Flag Week to June 7 through June 14, thereby making it coincident with National Flag Day.

Accordingly, I herewith return Assembly Bill No. 545 for reconsideration and recommend that it be amended as follows :

On page 1, title, line 1, delete "July 1 through July 7" and insert in lieu thereof "June 7 through June 14".

On page 2, section 1, lines 2 and 3, delete "July 1 through July 7" and insert in lieu thereof "June 7 through June 14".

ASSEMBLY BILL No. 547

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 547 with my objections, for reconsideration.

This bill would validate any deed or conveyance of real estate, and any deed of correction thereof, executed and delivered by a substituted administrator, which has been recorded for at least 10 years prior to the effective date of the bill, notwithstanding that the deeds were not executed and delivered pursuant to court order or consent.

I have been informed by the proponents of the bill that it is intended to correct a procedural defect caused by the failure of a particular substituted administrator to submit certain conveyances to either the prerogative court or the orphans' court for approval, as was then required by law. R. S. 3:17-14 (repealed in 1952). Except for this omission, the conveyances were valid and in compliance with the substantive directions and authorizations contained in the decedent's will.

The bill as drawn, however, is not limited to the validation of procedural errors. It would in fact validate instruments executed and delivered by substituted administrators even though the instrument might have defects of a substantive nature such as failure to follow testamentary instructions. A validating act of such broad scope would be undesirable and unnecessary.

Accordingly, I herewith return Assembly Bill No. 547 for reconsideration and recommend that it be amended as follows:

On page 1, section 1, lines 8 through 10, delete "such deed or conveyance and the deed of correction were

not executed and delivered pursuant to court order or consent" and insert in lieu thereof "the terms of sale of such real estate were not submitted to, and approved by, the former prerogative court or the former orphans' court of the county wherein the real estate lies".

ASSEMBLY BILL No. 561

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14(b) of the Constitution, I herewith return Assembly Bill No. 561, with my objections, for reconsideration.

Assembly Bill No. 561 would create a new program of State aid to counties and municipalities for repairing the damage to municipal and county roads caused by vehicles of a gross weight and load of 40,000 pounds or more bearing "constructor" registration plates. The bill provides that the State may pay up to 90% of the total cost of the repairs of such damage. No provision is made, however, for any appropriation to meet the cost of this program.

As I have often indicated on past occasions, I do not favor fiscal legislation which fails to pay its way by appropriating the necessary funds. Such legislation ordinarily has no effect other than to engender expectations which may be incapable of fruition, and to create pressures for further action which may be incapable of satisfaction. State funds are not now available to accomplish the objectives of Assembly Bill No. 561. The affected counties and municipalities should clearly understand that this aid program can have no real meaning to them unless and until the Legislature unearths a new source of revenue from which a suitable appropriation can be made.

At the same time I recognize that this bill at least would establish the machinery for the implementation of a worth-

while project, provided that the Legislature undertakes to breathe life into the program by finding and appropriating the money for its effectuation. The sponsors of the bill have assured me that the Legislature seriously intends to fulfill this responsibility in the near future.

In its present form, however, Assembly Bill No. 561 presents serious administrative problems, generally pertaining to (1) the difficulty of estimating the amount of harm done to a given road by constructor vehicles, and (2) the degree of control to be exercised by the State Highway Commissioner over the entire aid program. With the cooperation of the sponsors, the proposed amendments set forth below have been developed to meet these problems.

Accordingly, I herewith return Assembly Bill No. 561 for reconsideration and recommend that it be amended as follows:

On page 1, Title, line 2, delete "repairing damage to" and insert in lieu thereof "reconstructing".

On page 1, Title, line 2, delete "caused by" and insert in lieu thereof "destroyed by reason of".

On page 1, Title, line 4, delete "license" and insert in lieu thereof "registration".

On page 1, section 1, lines 2 and 3, delete ", or reimbursing the various counties or municipalities for,".

On page 1, section 1, line 3, delete "repairing damage to" and insert in lieu thereof "reconstructing".

On page 1, section 1, line 4, after "roads" insert "destroyed".

On page 1, section 1, line 6, delete "licenses" and insert in lieu thereof "registration plates".

On page 2, section 3, line 3, delete "repair of the damage to" and insert in lieu thereof "reconstruction of".

On page 2, section 3, lines 3 and 4, delete "or in accordance with which such damage was repaired,".

On page 2, section 5, line 4, delete "repair" and insert in lieu thereof "reconstruction".

On page 2, section 6, lines 3 and 4, delete "or, if already performed, shall be approved by him".

On page 3, section 7, line 5, delete "repairs" and insert in lieu thereof "reconstruction".

On page 3, section 7, line 8, delete "N. J. S. 40A :2-46" and insert in lieu thereof "N. J. S. 40A :4-46".

On page 3, section 7, line 10, at the end of section 7, insert the following new section:

"8. The State Highway Commissioner is hereby empowered and authorized to adopt such rules and regulations as shall be necessary to implement the provisions of this act."

On page 3, section 8, line 1, delete "8." and insert in lieu thereof "9."

ASSEMBLY BILL No. 643

To the General Assembly:

Pursuant to Article V, Section I, paragraph 14 (b) of the Constitution, I herewith return Assembly Bill No. 643, with my objections, for reconsideration.

Assembly Bill No. 643 would exclude "nonconventional type motor vehicles"—vehicles designed or used primarily for purposes other than highway transportation—from the provisions of the motor vehicle law which govern the transfer of title to motor vehicles and the perfection of security interests therein. As a result, transactions involving vehicles designated as "nonconventional" would no longer be recorded by the Division of Motor Vehicles, and security interests in such vehicles would be perfected in the manner specified by the Uniform Commercial Code with respect to ordinary personal property. The bill enumerates various categories of "nonconventional type" vehicles, and also empowers the Director of the Division of Motor Vehicles "to determine whether or not a particular vehicle is of the nonconventional type."

In concept, this measure has the desirable objective of freeing both the general public and the Division of Motor Vehicles from the burdens of compliance with the Motor Vehicle Certificate of Ownership Law where the property to be transferred is not actually a "motor vehicle" except in the most technical sense of that term. However, my attention has been directed to certain objections to the bill as presently drawn.

Many banks and mobile home dealers have strenuously opposed the inclusion of mobile homes among the categories of "nonconventional type motor vehicles" established by the bill, on the ground that the Certificate of Ownership Law provides more effective protection of security interests in such vehicles than would the Uniform Commercial Code. It has also been suggested that the categories in general might be more clearly delineated, and that the limitations on the

Director's power to determine what vehicles are "nonconventional" should be clarified. The Division of Motor Vehicles has also requested an amendment of the bill's definition of "inventory held for sale", in order to eliminate any possible confusion as to the respective permissible activities of new and used motor vehicle dealers. Finally, it has been recommended that the operative date of the bill be deferred for a reasonable period of time after its enactment, in order to give affected parties an opportunity to adjust to its provisions.

With the full cooperation of the sponsor, the interested private parties and the Division of Motor Vehicles, amendments have been developed to meet the objections and reservations outlined above. Accordingly, I herewith return Assembly Bill No. 643 for reconsideration and with the recommendation that it be amended in the following respects:

On page 2, section 1, lines 21 through 30, delete these lines in their entirety and insert in lieu thereof: "ditch-digging apparatus, well-boring apparatus, road and general purpose construction and maintenance machinery, asphalt spreaders, bituminous mixers, bucket loaders, ditchers, leveling graders, finishing machines, motor graders, road rollers, scarifiers, earth-moving carryalls, scrapers, power shovels, drag lines, self-propelled cranes, earth-moving equipment, trailers and semi-trailers which weigh less than 2,500 pounds, except that no mobile home or travel trailer shall be classified as a nonconventional type motor vehicle, motorized wheel chairs, motorized lawn mowers, bogies, farm equipment, whether or not motorized, including farm tractors, industrial tractors, motor bicycles, scooters, go-carts, gas buggies and golf carts. The Director of the Division of Motor Vehicles shall have power to make, amend and repeal regulations, not inconsistent with the provisions of this paragraph, prescribing what further vehicles or types of vehicles, not specified in this paragraph, shall be included in the category of nonconventional type motor vehicles."

On page 2, section 1, line 30c, before the word "by" insert "used motor vehicles held for the purpose of sale".

On page 4, section 3, line 1, delete the word "immediately" and insert in lieu thereof "on the 30th day next following the date of its enactment".

WHEREAS, Leonard Norman died suddenly on October 31, 1964; and

WHEREAS, Leonard Norman has been a legislative correspondent at the State House for more than three decades; and

WHEREAS, This fine gentleman served as Executive Director of the Republican State Committee, with headquarters in Trenton, for a number of years; and

WHEREAS, He was noted for his kindness, his cooperative outlook, and his friendliness during the more than thirty years of service in the State; and

WHEREAS, Through his reportorial abilities he has represented the Standard News Association, Fairchild Publications, The Journal of Commerce, and other publications during his fine career; and

WHEREAS, He has been an active member of the New Jersey Legislative Correspondent's Club during this long period; now, therefore,

Be It Resolved, That the members of the General Assembly express their deep regret at his untimely passing and extend their sympathy to his widow, Mrs. Ann Burk Norman, in her bereavement; and

Be It Further Resolved, That a copy of this resolution, signed by the Speaker of the General Assembly and attested by the Clerk, be sent to his wife, Mrs. Ann Burk Norman.

A message was received from the Secretary of the Senate and read by the Clerk, informing the General Assembly that the Senate has passed the following resolution:

WHEREAS, At the 17th Annual Meeting of the National Legislative Conference held in Atlantic City on September 25, 1964 the delegates to the Conference from 45 States and 2 Island Possessions of the United States elected The Honorable Frederick H. Hauser, a Member of the New Jersey General Assembly from Hudson County, as its President and thereby honored an outstanding New Jersey Legislator and reflected honor upon the State of New Jersey and its Legislature; and

WHEREAS, The National Legislative Conference is an organization established and maintained under the auspices of the Council of State Governments not only for the purpose of study of methods for the improvement in the Legislative Processes and of the services to be rendered to Legislators by Legislative Service Groups but also for the purpose of providing constant reminders to the citizens of the United States of the importance of the Legislative Branches in the State Governments and in the Government of the United States as the essential factors in safeguarding the freedom of the citizens; and

WHEREAS, Assemblyman Hauser has rendered great service to the State of New Jersey in the carrying out of these objects as a member of the New Jersey Law Revision and Legislative Services Commission for the past 10 years and as its Chairman for the past 4 years, and to the Nation as a delegate to the National Legislative Conference for the past 11 years and as a member of its Executive Committee for the past 4 years and he is thus particularly well fitted to occupy a key position of influence among the State Legislators in a year in which the future State Legislative bodies will be a matter of particular concern and interest throughout the entire United States; now, therefore,

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

The New Jersey Legislature hereby extends the congratulation of its Members to the Honorable Frederick H. Hauser on his election as President of the National Legislative Conference as an honor which he richly deserves and expresses their entire confidence that he will fill this position with honor and distinction and with credit to this State and the other States of the Union.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

Mrs. Higgins moved that the General Assembly concur in the resolution.

The Speaker put the question, "Shall the General Assembly concur in the resolution?"

Upon a *viva voce* vote being taken, the Speaker declared the resolution concurred in.

Mrs. Higgins and Mr. Crabel offered the following resolution, which was read by the Clerk and adopted:

An Assembly Resolution of commendation on the success of the seventeenth annual meeting of the National Legislative Conference.

WHEREAS, The New Jersey Legislature, in behalf of the State of New Jersey, was privileged to be host for the seventeenth annual meeting of the National Legislative

Conference held at Atlantic City during the week of September 21, 1964;

WHEREAS, The National Legislative Conference is an organization comprised of the legislators and legislative staff personnel from all of the 50 States and the American territories and possessions and devoted to improving the legislative process;

WHEREAS, Said seventeenth annual meeting was a distinct and signal success as evidenced by a resolution adopted unanimously by the Conference and by numerous messages of commendation and congratulations on the warm welcome and true hospitality extended to the delegates on behalf of the people of the State of New Jersey during their celebration of New Jersey's tercentenary; and

WHEREAS, The success of this meeting was due, in large measure, to the painstaking and cooperative efforts of many persons, including the members of the Law Revision and Legislative Services Commission and its staff; the members of the staffs of the Senate and General Assembly; the Conference Steering Committee, particularly its Secretary, who effectively directed and coordinated the numerous details essential to the planning and execution of the Conference arrangements; the Host Executive Committee; the Hostess Executive Committee, comprised of the wives of legislators and staff personnel; and the Senator and Assemblymen from Atlantic County, who gave unselfishly of their time and effort in formulating and directing local arrangements; now, therefore,

To the General Assembly:

I herewith return Assembly Bill No. 239, without my approval, for the following reasons:

This bill would supplement the statutes relating to juvenile and domestic relations courts to open to public inspection all juvenile and domestic relations court records pertaining to the commission or alleged commission of any act by a person under 18 years of age which, if committed by a person of the age of 18 years or over, would constitute a high misdemeanor.

Consistent with the existing legislative policy with respect to juvenile offenders, the rules of court now provide that all juvenile records "shall be strictly safeguarded from indiscriminate public inspection." R. R. 6:2-11(c). The court rules, however, expressly make such records available to judges of the County, Superior and Supreme Courts, the Governor and other designated public officials, and such other persons as the court for good cause may allow to examine them.

Juvenile records invariably are called for and considered in connection with such matters as sentencing, admission to probation, and applications for parole and executive clemency. Thus the present practice, though obedient to the statutory mandate that no accused juvenile offender under the jurisdiction of the juvenile and domestic relations court is to be treated or regarded as a criminal, is designed to protect also the public by assuring that unsuitable persons are not released to walk the streets as a result of official unawareness of their past records as juvenile offenders.

The philosophy underlying Assembly Bill No. 239, as expressed by its statement of purpose, is that "juveniles who are charged with the commission of crimes such as murder, rape, burglary and the like, should be treated the same as adults under similar circumstances." If this thesis represents the considered judgment of the Legislature, it amounts to a direct repudiation of a long-standing legislative attitude toward juvenile offenders. See *State v. Monahan*, 15 N. J. 34 (1954). Moreover, the bill itself is markedly out of step with the spirit and overall design of the Juvenile and Domestic Relations Court Law, which has been on the statute books since 1929. Under that law, a charge against a juvenile of the age of 16 or over can be referred by the court to the county prosecutor to be dealt with in the same manner as any criminal case, if the juvenile is an habitual offender, or if the offense charged is of a heinous nature and the circumstances are such as to require criminal treatment. N. J. S. 2A:4-15. As to all other juvenile proceedings, however, the act is clear that the accused offenders are not to be treated as criminal defendants for any purpose whatever. In particular, N. J. S. 2A:4-39 has long provided that:

"No adjudication upon the status of a child under 18 years of age shall operate to impose any of the civil disabilities ordinarily imposed by conviction, nor shall such a child be deemed a criminal by reason of such adjudication, nor shall such adjudication be deemed a conviction.

"The disposition of a child under 18 years of age or any evidence given in the juvenile and domestic relations court shall not be admissible as evidence against the child in any case or proceeding in any other court, nor shall such disposition or evidence be held against the child's record in any future civil service examination, appointment or application."

See also N. J. S. 2A:4-2, 2A:4-21 and 2A:85-4.

Thus the rule of court against "indiscriminate public inspection" of juvenile records is only a reflection of an established policy adopted by the Legislature 35 years ago. If the Legislature now believes that a new approach to the problem of juvenile delinquency is warranted, it should carefully review the existing statutory scheme in its entirety, and not merely tuck into the present act a new sec-

tion which is fundamentally hostile to that scheme. I am certain that most legislators, on further reflection, would agree that it is impossible to reconcile the concept of Assembly Bill No. 239 with the intent of the very act which it would "supplement", and that a legislative policy of such long standing should not be undone so casually.

While I am by no means unsympathetic to the further development of reasonable deterrents against the commission of serious juvenile offenses, such sanctions should be conceived and applied within the framework of an integrated legislative policy. Because Assembly Bill No. 239 fails to meet this fundamental legislative requirement, I am constrained to return the bill without my approval.

Respectfully,

RICHARD J. HUGHES

Governor.

STATE OF NEW JERSEY,	}
EXECUTIVE DEPARTMENT,	
November 16, 1964	

ASSEMBLY BILL No. 261

To the General Assembly:

I herewith return Assembly Bill No. 261, without my approval, for the following reasons:

Assembly Bill No. 261 would require all prescriptions for the dispensation of narcotic drugs to be written on special narcotic prescription forms designed by the State Department of Health. The bill would also amend three separate sections of the Uniform Narcotic Drug Law (R. S. 24:18-1 to 24:18-49 et seq.) to require all physicians, dentists, pharmacists and veterinarians, in their dealings with narcotic drugs to write or accept prescriptions only upon such special narcotic forms.

The apparent *rationale* of this bill is that the mandatory use of official forms will effectively curtail the ability of unauthorized persons to obtain narcotic drugs by means of forged prescriptions. While I am sympathetic to any legislation which would contribute to the effective prevention of illegal possession of narcotic drugs, it is doubtful that the special forms envisioned by this bill would add significantly to the existing legal controls in this area. The bill, for example, specifies no procedures for state control over these forms after their distribution by the Department of Health to physicians, dentists and veterinarians. Once in circulation, these special forms could be stolen and forged as readily as any prescription blanks now in use. Assembly Bill No. 261, therefore, would not provide any significant protection to the health and safety of the general public.

There is an additional aspect to this legislation which is disturbing. Assembly Bill No. 261 is directed against the legitimate professional person who must handle narcotic drugs as a part of his everyday responsibility. It does not even purport to reach the criminal element responsible for traffic in narcotics. Yet, it would impose upon such professional persons extremely severe penalties for any violations of the act.

For example, because Assembly Bill No. 261 amends the Uniform Narcotic Law, a physician, dentist or veterinarian who prescribed a narcotic drug upon a form other than a special narcotic prescription form, by reason of that fact alone, would be subject to a "fine not exceeding \$2,000.00 and by imprisonment, with hard labor, for a term of not less than 2 years nor more than 15 years", R. S. 24:18-47. In addition any pharmacist who filled a narcotic drug prescription which was not written upon a special narcotic prescription form would be subject to a similar penalty. I cannot believe that the Legislature intends to impose such harsh penalties upon professional persons because of a failure to use a proper form. A fair and literal reading of the provisions of the bill, however, would require such a result.

It should be possible for the Legislature to consider solutions to the problem caused by the criminal use of narcotic drugs without resorting to the adoption of measures so casually prepared as to subject four of our most respected professions to the stringent consequences which could be imposed upon them under the provisions of this bill.

For example, section 11 of the bill provides that the county parole board shall not release a prisoner unless

“the board is of the opinion that there is reasonable probability that, if such prisoner is released, he will assume his proper and rightful place in society, without violation of the law, and that his release is not incompatible with the welfare of society.”

To fulfill this mandate, the board would require an opportunity to observe closely the attitude and conduct of the prisoner and to assemble and consider pertinent medical, psychological and psychiatric reports. Yet the bill, by providing that prisoners shall be eligible for parole after serving $\frac{1}{3}$ of their sentences, would compel the board to consider parole applications as early as 10 days after confinement. The board would, therefore, be forced to determine many parole applications without having had sufficient time to form a considered judgment.

This aspect of the bill raises the question whether prisoners serving extremely short sentences should be eligible to be released on parole. Experience has shown that the benefits to be derived from a parole system are dependent on the existence of both an efficient rehabilitation program within the prison, and an adequate supervisory program after release. Neither program can be expected to accomplish its purpose when forced to operate within the curtailed period necessitated by a short sentence.

In addition, the sentencing judge may reduce or change a sentence within 60 days of its imposition. R. R. 3:7-13. To the extent that this bill would permit the release of any prisoners within the first 60 days, it creates the possibility for an unnecessary conflict between the sentencing judge and the board.

Moreover, Assembly Bill No. 406 provides that board members shall be “citizens, having recognized ability in the fields of penology, law, psychology, psychiatry or related social sciences, not employed . . . by the county”, and that such members shall serve without compensation. Since the parole system envisioned by this bill would require the board to meet practically every day, it is doubtful whether even the most public spirited person with such valuable qualifications could be persuaded to assume this task on a gratuitous basis.

Some lesser problems include the fact that the bill would permit each county parole board to establish rules and regulations, but does not contain guidelines to insure uniform procedures in the counties. The bill also would allow parole consideration to be initiated by the prisoner himself or by certain other persons on his behalf, rather than providing for automatic consideration based on length of sentence and amount of time served. These defects, as well as the others noted, should be corrected in any future legislation on this subject.

SPECIAL MESSAGE TO THE LEGISLATURE
BY GOVERNOR RICHARD J. HUGHES
ON MEDICAL AND DENTAL EDUCATION
IN NEW JERSEY
NOVEMBER 16, 1964

I come before you today with a special message of vital importance: the condition of medical and dental education in New Jersey and its meaning for every citizen of New Jersey.

No more crucial problem has engaged our attention or demanded a resolute and immediate response from those of us entrusted with the stewardship of public office. What is at stake is nothing less than the health and well-being of our fellow citizens and it is our task to act in the service of the people by taking a historic step in the life of our State. Upon us has fallen the challenge of determining whether or not the State should be committed to a new, yet proper, responsibility: a full public program of medical and dental education.

It is a responsibility—we must say in candor—that has been too long neglected. However, we now have the opportunity to correct this neglect. By force of circumstance, public attention has been directed on the entire problem of our needs, facilities and plans for medical and dental education in New Jersey.

The circumstance, as you know well, was the decision by the sponsor of the Seton Hall College of Medicine and Dentistry that, to use the words of the President of Seton Hall University, Bishop John J. Dougherty, "it can no longer carry the financial burden and therefore turns to the State requesting that it take over at the earliest possible date."

The State then is confronted with an unusual and immediate challenge. Because of the critical nature of the challenge—the possible loss of New Jersey's only accredited and operational college of medicine and one of the two colleges of dentistry—it was absolutely essential that the entire matter be considered in the most objective

and non-partisan manner. It was for this reason that I, together with the leaders of the Senate and General Assembly, established the Seton Hall Fact-Finding Committee which had as its members, men of broad experience in public and private life and of proven dedication to the best interests of the people of New Jersey.

I am pleased to report that the people have been well served by the members of this Committee. Without fear or favor they have set forth their findings after an intensive and careful analysis of the problem. No one can read their report without being impressed with the solid documentation of need, the thorough exploration of alternatives, and the fairness and persuasiveness of their recommendations.

The Committee measured the full scope of the problem:

- the need for additional physicians and dentists to meet increased demands both for quantity and quality medical and dental care;
- the need for interns and resident physicians to meet the growing requirements of New Jersey hospitals;
- the need for medical and dental educational facilities to provide for New Jersey youth a better opportunity to pursue a career in medicine or dentistry;
- the need for graduate and post-graduate programs in basic medical science and research so that practicing physicians can have available the facilities for the continuing education required by modern medicine and so that New Jersey's industrial and research organizations will have a sure supply of scientific and technical personnel.
- the need for long-range planning for the comprehensive development of facilities and programs for all health professions and research capability for the growth in the decades ahead.

In other words, the Committee measured the health needs of this State in the light of the prospective loss of Seton Hall College of Medicine and Dentistry. The Committee presented impressive documentation, but it is necessary to cite only certain key facts to appreciate the choice with which the Committee was confronted:

1. New Jersey needs 400 additional physicians and 320 dentists annually to maintain existing ratios of physi-

cians and dentists to our population until the year 1980.

2. Last year, 63 per cent of the filled internships in New Jersey were occupied by foreign-educated physicians as compared to 19 per cent for the nation, 37 per cent for New York and 23 per cent for Pennsylvania. In 1964, 40 New Jersey hospitals required 514 internships, but only 108 of these internships were filled by physicians educated in the United States, 24 of these at Seton Hall College of Medicine. A similar pattern exists as to residencies.
3. Admission policies of public medical colleges in other states are leaving fewer places for out-of-state students which means that New Jersey students must seek admission to private schools with their significantly higher tuition rates. This situation will be aggravated by the trend in the establishment of new medical schools—of the 13 now under development, only two are privately controlled.
4. New Jersey is the leading pharmaceutical state, and this industry employs large numbers of medical scientists, but of the 5,166 students in graduate medical sciences programs in the nation, only 6 were enrolled in full-time study in New Jersey's only medical school.

Of these factors, the shocking data about internships and residencies in New Jersey hospitals clearly have the most immediate and striking impact. Every citizen who enters a New Jersey hospital can be affected by this condition. The quality of care is directly related to the competency of a hospital's interns and resident physicians. The quality of the men and women needed to fill these internships and residencies is, in turn, directly related to the existence of medical schools in some proximity to the hospitals.

If New Jersey hospitals are to improve the present unfavorable situation, it is necessary that the supply of well-qualified physicians be increased as soon as possible by the continuation and expansion of medical education in New Jersey.

As to New Jersey's present and planned programs for the production of physicians and dentists, the Fact-Finding Committee presented the following facts:

1. Seton Hall College of Medicine has averaged 70 graduates annually over the past 5 years.
2. Rutgers Medical School will admit 16 students in September 1966 to its two-year program, following which they will transfer to a four-year medical school to complete their training. Thus, it will be 1970 before any graduates of this program have their degrees in medicine. Provided the facilities are available, Rutgers plans to admit 64 students in September 1967, but it is not possible at this time to know when a four-year program will be in operation at Rutgers.
3. Seton Hall College of Dentistry has averaged 35 graduates annually over the past 5 years and the Fairleigh Dickinson School of Dentistry has averaged 40 graduates annually during the same period.
4. Seton Hall University and the sponsoring agents of its College of Medicine and Dentistry have invested 10 years of development effort and expended more than \$20 million to bring the College to its present status. But the College is burdened with a remaining debt in excess of \$7 million.
5. By the accepted measures of achievement—the number of applications for admission, the comparative ranking of accepted applicants in the Medical College Admission Test, and the comparative standing of graduates in the examinations of the National Board of Medical Examiners—Seton Hall presents a record of high quality.

It was on the basis of these facts and such conditions that the Fact-Finding Committee concluded that there is a demonstrated need for two medical and two dental schools in New Jersey. Therefore, in the Committee's words, "the loss of the four-year medical and dental programs now offered by Seton Hall would be catastrophic and a serious reflection on the State of New Jersey."

With this judgment the legislative leaders and I are in full and unanimous agreement and we would hope that all members of the Legislature share this view. The bill being submitted for the acquisition of the Seton Hall College of Medicine and Dentistry was drawn up with the approval of the Fact-Finding Committee and the legislative leaders.

It is a joint product and represents, in my view, the finest kind of cooperation for the common good.

In order to avoid any public misunderstanding of the proposed take-over of Seton Hall College of Medicine and Dentistry by the State of New Jersey, I would like to comment briefly on certain basic provisions of the bill now before you.

1. The College will be purchased outright by the State for \$4 million. This amount represents the approximate worth of the tangible personal property of the College which has been appraised at \$3.7 million for the depreciated value and \$4.25 million for the reproduction value. These values have been certified by an independent appraisal and are set forth in the Report of the Committee.
2. The indebtedness incurred by Seton Hall continues to be the sole responsibility of the Archdiocese of Newark. On payment of the \$4 million, Seton Hall University and the Archdiocese of Newark would relinquish all interest in the Medical and Dental School.
3. The control and operation of the College, to be known as the New Jersey College of Medicine and Dentistry, will be vested in an independent and separate Board of Trustees appointed by the Governor with the advice and consent of the Senate, for terms expiring July 1, 1970.
4. The Governor will have a veto power over the actions of the Board of Trustees.
5. The annual budget and the capital development program for all medical and dental education facilities will be subject to review by a temporary commission—the New Jersey Council on Medical and Dental Education—which will function until January 1, 1970 as an advisory body to the Governor and the Legislature. The Council also will review the proposals for the continued operation of the College.

I believe that we should recognize the effort of all those who in any way contributed to the creation and development of the Seton Hall College of Medicine and Dentistry. The sponsors of this facility were proud of their accomplishment

and it must have been with great reluctance that they came to the decision that they could no longer operate the school. Truly the people of New Jersey can know that they are receiving great value for their investment of \$4 million.

It should be clearly understood that the State's acquisition of the Seton Hall facility in no way conflicts with the on-going plans for the establishment of a two-year medical school at Rutgers, the State University, and its eventual development into a four-year program of medical education as part of a full-fledged medical center. In order to clarify beyond doubt the establishment and operation of the Rutgers' program of medical education, as part of the State's responsibility, a bill will be introduced today to declare this intention. It directs the Board of Governors to include in its annual budget request for the next fiscal year, \$1 million as the initial payment on a total of \$6 million required as the State's share for the establishment of the two-year medical school at the University Heights Campus of Rutgers.

Together with your legislative leaders and the Fact-Finding Committee, I wish to express in this concrete and certain way the confidence of the State as well as its support for the effort and dedication of Rutgers' officials and faculty in developing a first-rate medical educational and research facility at New Brunswick. By enacting this legislation, we will be sharing the hopes and aspirations of all those who are devoted to the task of building a medical center that will be excellent in all respects.

Because of the nature of a medical school—a very human institution with its heart and soul in its faculty—it is absolutely essential that we take immediate action to assure the Seton Hall faculty of the State's determination to acquire and continue operation of the school as part of a permanent system of medical and dental education in New Jersey.

It is impossible to overemphasize the urgency of this situation. A failure to act decisively and quickly can be most damaging. It was the recognition of this fact which led the Fact-Finding Committee to urge consideration at this meeting of the Legislature. Consideration of this matter, in the Committee's view—and, indeed, in my opinion—should not be postponed until next year—and for good reason. There is a real danger that equivocation will result

in the dispersal of the excellent faculty now assembled at Seton Hall College of Medicine and Dentistry. Anyone familiar with the workings of the academic marketplace knows of the insatiable demand for good faculty and the competition which exists for first-rate medical faculty members. I know of no more certain way to damage the present excellence of this medical school than to continue the present uncertainty as to its future. For if we fail to act now, it will be a signal to the academic world that the faculty raiding can commence in earnest and, before too long, this school can be stripped of its heart and soul. Then, too, we have an obligation to these men and women to let them know our intention. We should not dally with their professional careers.

I know that a resolution has been introduced requesting further study of this acquisition. May I respectfully urge that there is no need for a further study that would produce disastrous delay. Indeed, such a study could very well lead to the danger which I just described. I would remind you that the Fact-Finding Committee was the product of joint action of the legislative leaders and the Governor. The legislative leaders have been intimately involved in all phases of the study and the subsequent discussions leading to the proposals being placed before this Legislature today.

I do not mean to suggest that there is no need to study the future development of this school as well as the Rutgers facility, but that such study should properly take place *after* the acquisition so that those who have the responsibility for operating the medical schools can participate in the planning and development.

One of the main responsibilities of the Board of Trustees of the new college will be to develop plans for the school's future. To avoid any harmful competition and to encourage the orderly development of medical and dental education in New Jersey, it is the consensus of the members of the Fact-Finding Committee, the legislative leaders and myself that a temporary commission—the New Jersey Council on Medical and Dental Education—be established. The Council will consist of two members of the Board of Trustees of the College, two members of the Board of Governors of the University, the State Treasurer and two public members appointed by the Governor with the advice and consent of the Senate.

It will be the Council's responsibility to coordinate the development of medical and dental education by reviewing the annual budgets and capital development programs for such educational facilities and to advise the Governor and the Legislature. Further, the Council is to recommend at the earliest possible date and not later than January 1, 1970, a comprehensive program which would provide for the centralization of administration of the medical and dental facilities of the College and the University and the integration of such facilities as separate operating entities. The bill further provides that on and after July 1, 1970, the administration of the College will be centralized within the state university system.

If there was ever a time for us to put first things first, it is now, with this legislation. These bills do not seek to resolve all the issues of long-range operation and development of medical and dental education. Rather it is recognized that such issues remain to be resolved and, therefore, a mechanism is established for seeking their resolution and to provide for an eventual centralized and coordinated administration.

May I suggest that under the circumstances such provisions should satisfy all reasonable and fair-minded men so that we can proceed in good conscience to do what must be done without delay: the acquisition of the Seton Hall College of Medicine and Dentistry and a firm commitment to the establishment of a program of medical education by Rutgers, the State University.

If you act decisively on this legislation, we will have together inaugurated a far-reaching program of accomplishment for the health and well-being of our fellow citizens. Those who minister to the ills of man serve a very noble cause.

And those who set aside partisan rivalry and make a prompt and well considered decision for the health of their fellow citizens and succeeding generations are entitled to the thanks and high respect of all.

RICHARD J. HUGHES,
Governor.

Absent—

Mr. Hauser—1.

The Clerk declared a quorum present.

The Speaker led in the Pledge of Allegiance to the Flag.

The Clerk started to read the Minutes, and Mrs. Higgins moved that the reading of the Minutes of the previous meeting of November 16, 1964, be dispensed with.

Which motion was adopted.

Mr. Kay offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Former State Senator and Assemblyman, I. Grant Scott, of Cape May, died on November 17, 1964; and

WHEREAS, Senator Scott only recently retired as Clerk of the New Jersey Superior Court and had been in May last elected to his second term as Mayor of Cape May; and

WHEREAS, Senator Scott, a native of Trenton, New Jersey, had a long and distinguished public career including his

service in the Assembly in 1936 and 1937, and in the Senate from 1937 to 1944, and as President of the Senate in 1941 and 1942, and as the Clerk of the former Court of Chancery, and as the first Clerk of the New Jersey Superior Court under the new Constitution; and

WHEREAS, Senator Scott had been a Commissioner of the City of Cape May and its Mayor, and was widely known throughout the State not only for his public services, but as a Reserve Officer in the United States Navy, in the American Legion, in college fraternity circles and in many civic activities; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That public tribute is hereby paid to the memory of the late I. Grant Scott and profound regret is expressed on the occasion of the passing of this distinguished citizen of his county and State and sympathy is extended to his family; and

Be It Further Resolved, that this resolution be spread upon the minutes of the General Assembly and that a copy signed by the Speaker of the General Assembly and attested by the Clerk of the General Assembly be forwarded to the family of former Senator I. Grant Scott.

Messrs. Maraziti and Sears offered the following resolution, which was read by the Clerk and adopted:

WHEREAS, Former Senator, Frank D. Abell of Morristown, died on November 22, 1964; and

WHEREAS, For years Senator Abell was an outstanding citizen of his County of Morris and of the State; and

WHEREAS, Senator Abell had long been active in civic government and banking affairs having served in the State Assembly in 1925 and 1926 and in the Senate from 1926 to 1931, and for 12 years had been a member of the Board of Chosen Freeholders of Morris County, and at one time was a member of the Port of New York Authority; and

WHEREAS, Senator Abell is remembered for his interest and active participation in Y.M.C.A. and the Morris County Grange, as well as in banking circles; now, therefore,

Be It Resolved by the General Assembly of the State of New Jersey:

That public tribute is hereby paid to the memory of the late Frank D. Abell for his outstanding public services and civic activities and sorrow is expressed at his passing; and

Be It Further Resolved, that this resolution be spread upon the minutes of the General Assembly, and that a copy signed by the Speaker of the General Assembly and attested by the Clerk of the General Assembly be forwarded to the family of the late Frank D. Abell.

The following message was received from the Senate by the hands of its Secretary and was read by the Clerk:

STATE OF NEW JERSEY, }
SENATE CHAMBER, }
November 30, 1964. }

Mr. Speaker:

I am directed by the Senate to inform the General Assembly that the Senate has passed the following resolution:

Be It Resolved by the Senate of the State of New Jersey (the General Assembly concurring):

That at 2:20 P. M., both Houses of the Legislature meet in joint session for the purpose of receiving a Special Message of His Excellency Richard J. Hughes, Governor of the State of New Jersey, relating to reapportionment, which will be delivered in person.

In which the concurrence of the General Assembly is requested.

HENRY H. PATTERSON,
Secretary of the Senate.

The Senate message was taken up and Mrs. Higgins moved that the General Assembly concur in the Senate resolution.

Which was read by the Clerk and adopted.

Mrs. Higgins moved that the General Assembly recess for the purpose of a joint session.

Which motion was adopted.

The Senate and General Assembly met in joint session.

Mr. Sandman, President of the Senate, introduced Governor Hughes.

Governor Hughes delivered the following special message to the joint session.

STATE OF NEW JERSEY
OFFICE OF THE GOVERNOR
TRENTON

SPECIAL MESSAGE TO THE LEGISLATURE

By RICHARD J. HUGHES, *Governor of New Jersey*

November 30, 1964.

Mr. President, Mr. Speaker and Members of the Senate and General Assembly:

The business which brings us together today has deep roots in the history of America. We must begin by reminding ourselves again that all political power is inherent in the people; that governments which are instituted among men derive their just powers from the consent of the governed; that government, based on this political power, is intended to secure those equal rights of life and liberty and the pursuit of happiness described by our ancestors in the Declaration of Independence as being sacred in origin and inalienable in character.

So it was that "We the people of the United States," in the case of the Federal Government and "We the people of the State of New Jersey," in the case of our State Government, consented to the exercise of the political power of the people by the governments established by the respective constitutions. In both constitutions certain powers of amendment were preserved. In the case of New Jersey, our Constitution in Article I, paragraph 2 provides that:

"* * * Government is instituted for the protection, security, and benefit of the people, and they have the right at all times to alter or reform the same, whenever the public good may require it."

We have now, by necessity, reached that point of inevitable change.

An important and indispensable part of the State Government is its legislative branch. State Legislatures are, historically, the fountainhead of representative government in this country. But representative government is in essence self-government through the medium of elected representatives of the people and each and every citizen has

an inalienable right to full and effective participation in the political processes of his State's legislative bodies. Most citizens can achieve this participation only as qualified voters seeking the election of legislators to represent them. Full and effective participation by all citizens in State Government requires, therefore, that each citizen has an equally effective voice in the election of members of his State Legislature.

The United States Supreme Court has held that with respect to the allocation of legislative representation, all voters, as citizens of a State, stand in the same relation regardless of where they live. Since the achieving of fair and effective representation for all citizens is concededly the basic aim of legislative apportionment, the Equal Protection Clause of the Fourteenth Amendment of the Constitution of the United States guarantees all voters an equal voice in the election of State legislators. Such was the force of the reasoning which led the United States Supreme Court in its historic decision in *Reynolds v. Sims* to determine that:

“* * * as a basic constitutional standard, the Equal Protection Clause requires that the seats in both Houses of a bicameral state legislature must be apportioned on a population basis.”

The importance of the constitutionally protected right to vote can hardly be overstated. It has been described variously by the United States Supreme Court as “involving one of the basic civil rights of man,” and as a “fundamental political right, because preservative of all rights,” as being “an essential part of the concept of a government of laws and not men,” and as being “at the heart of Lincoln's vision of ‘government of the people, by the people and for the people’”.

Following the decision of the United States Supreme Court, the New Jersey Supreme Court in *Jackman v. Bodine* has considered the nature of this Legislature, which in material part is apportioned on a basis other than population. It has concluded that the:

“* * * legislative article of our State Constitution must * * * be adjudged to be invalid insofar as it deals with the apportionment of the members of the Legislature.”

We are now called upon to revise this most basic portion of the State's organic law. We are reminded by the Court that the prime responsibility to do so rests upon the Legislature and the Governor as well as the people of the State. If we fulfill our responsibility, the Court will stay its hand. But, if we fail, the Court must act, as it says, as "a last resort."

I wish to make it clear that I come before you not as a champion of the political interests of any group, but as the elected Governor of all the people of New Jersey. I address you, not as 81 legislators with individual constituencies and concerns, but as a Legislature which is collectively responsible for the enactment of laws to govern all the people. We have all sworn an oath which makes it our deepest obligation to support the Constitutions of the United States and of this State. For many years we and our predecessors in office have found it possible to discharge this two-fold obligation in a manner which has given full meaning and support to both constitutions.

But, in obedience to the supreme law of the land, the New Jersey Supreme Court now has told us that the legislative article of the New Jersey Constitution, insofar as it deals with the apportionment of the members of the Legislature, is in conflict with the Fourteenth Amendment to the Federal Constitution and, therefore, is invalid. The case of *Jackman v. Bodine* has been decided. We must now abide by that decision and take the steps necessary to implement it. If there be some among us who would view this decision merely as the departure point for additional appeals, permit me with all respect to caution against such an attitude as unrealistic. We have reached the moment when we must recognize our responsibilities. There can be no justification for a bitter resistance to the ruling of the Court, a resistance that can be calculated only to delay and not to avoid the inevitable outcome.

When the *Jackman* suit was instituted two years ago, I immediately directed the Attorney General to defend our existing constitutional system of legislative representation as vigorously as possible with all the resources of his office. My instructions were carried out to the letter as long as it was possible to do so. Even before filing an answer to the complaint, the Attorney General seized the initiative by moving on an exhaustive brief to dismiss the action.

On February 21, 1963 the Superior Court granted the motion and entered a judgment vindicating the apportionment of the Legislature on the basis of the law as it then existed. When the decision was appealed, the Attorney General appeared before the Supreme Court on November 6, 1963, to argue strenuously in support of the provisions of our Constitution. In addition, he actively participated in the cases then pending before the United States Supreme Court, filing a separate brief and presenting oral argument on behalf of the Attorneys General of 14 States. I think it can be said fairly that so long as there was any reasonable chance that our system of representation might prevail in harmony with the United States Constitution, no public official could have put more effort and dedication into attempting to uphold it in the courts.

But on June 15, 1964, the situation changed, not only for New Jersey but for all the States in the Union. As I have pointed out, the United States Supreme Court, in *Reynolds v. Sims* and five companion cases, decided squarely that, "as a basic constitutional standard, the Equal Protection Clause requires that the seats in both Houses of a bicameral State Legislature must be apportioned on a population basis." The State Supreme Court promptly called for reargument of *Jackman v. Bodine*.

Even then, when the Attorney General came to me for guidance, we carefully explored every possibility that the *Reynolds* decision might not apply to New Jersey. We were determined to continue our defense of the New Jersey system so long as any reasonable basis of defense existed. After much study, however, we became convinced that the cases decided by the United States Supreme Court could not be distinguished from *Jackman*.

Accordingly, I had no alternative but to direct the Attorney General to change his course in the litigation. I did this not as a matter of personal preference, but in response to the warning of our highest court that, "No State legislator or executive or judicial officer can war against the (Federal) Constitution without violating his undertaking to support it." On these rare and sometimes painful occasions when State constitutional provisions are declared to be in conflict with the Federal Constitution, my higher obligation, as well as yours, is to uphold the Constitution of the United States.

At this point, let us remind ourselves that the subject of reapportionment should be approached as a governmental rather than a political undertaking. It has long been a part of our political folklore to regard quests for reapportionment as controversies between urban Democrats and rural Republicans. In the days when there were only cities and farms, this may have been the case. Today, however, it is the fast-growing suburban areas, populated with residents whose political leanings defy type casting, which hold the balance of political power. It is also our suburbanites who stand to gain the most in voting strength from a proper reapportionment. While prevalent, the myth that reapportionment will materially benefit or harm either major political party is precisely that—a myth. It would be a grave mistake for anyone to treat this problem as a struggle for partisan political advantage or to seek to measure solutions in terms of political gains. The suggestions I set forth today are intended to provide the machinery which will insure nonpartisan, deliberative consideration of the problem of apportionment. These suggestions are offered in that spirit.

Weighted Voting

Before discussing the steps which I will suggest that this Legislature follow in order to meet its responsibilities in the area of apportionment, I should like to speak about the weighted voting measure which was adopted by a change in the rules of the Senate on November 16. If such action represented a conclusion by the members of the Senate that the Court would not permit the continued functioning of the Senate under its present apportionment, it is apparent that such reasoning no longer can prevail.

The opinion in the *Jackman* case clearly provides that this body, as it is now constituted, can continue to exercise the legislative power of the State, with perhaps some limitations, until the second Tuesday in January, 1966. A weighting of the votes of the members is not necessary during the present or next legislative session in order to satisfy any constitutional requirements. Weighted voting, therefore, can now serve no useful function except to becloud the basic issues which must be faced. Its only function would be to confuse and delay the deliberations which should be commenced immediately. It cannot prevent but it perhaps could postpone the inevitable—a realistic reapportionment of this

Legislature in accordance with the requirements of the Constitution of the United States.

Thus, I respectfully suggest that the Senate rescind its action of November 16 and restore its rules to their original posture. Such action, I believe will be recognized by all as the signal that this body indeed intends to meet its present responsibility in a forthright and resolute manner.

TWO FIELDS OF ACTION

Turning again to *Jackman v. Bodine*, the judgment entered by the Court in this case indicates there are two areas in which the Legislature must act. First, a decision must be made, as quickly as possible, on the apportionment of the members of the interim Legislature to be elected in November, 1965. Second, the machinery for devising a permanent plan for legislative apportionment must be agreed upon by April 1, 1965 so that such a plan can be formulated and submitted to the people for approval and so that the selection of the members of the permanent Legislature can be made in November, 1967. These are separate and distinct tasks and can and should be treated individually.

The Interim Legislature

To make a comprehensive study of the delicate question of apportionment of the interim Legislature and to make recommendations based on that study, I would recommend that this Legislature provide for a temporary commission of 16 members. Half of its members would be appointed by the President of the Senate and the Speaker of the General Assembly from the membership of the Legislature. The other half would be public members appointed by the Governor. All of these members would be selected on a bipartisan basis. Such a method of appointment would insure the active participation by both the legislative and executive branches of government—each of which must act on the recommendations of the commission—would remove any vestiges of partisanship, would utilize the expertise of the Legislature, and provide the people with an important voice in this momentous decision.

I urge formation of such a commission, in part, because this is the one method whereby the public can participate

directly to some extent. It does not seem to me to be justifiable to attempt to exclude the people from some direct participation in a matter which is of such fundamental importance to them, for even the interim distribution of political representation involves a power which is inherent in the people. I realize, of course, that there are members of this body who may believe that the exclusive responsibility for resolving this problem rests with the Legislature. I strongly suggest that the voice of the people should be heard, even in a limited way, through the service of distinguished public members selected on a bipartisan basis.

Such a commission should be required to report to the Governor and the Legislature at the earliest possible time, perhaps at its convening date in January 1965, with its recommendations for apportioning the members of the Legislature to be elected in November, 1965. This will provide sufficient time for the Legislature to consider and implement the recommendations of the commission. It will also afford an ample opportunity for the selection of the candidates to be voted upon in the November election.

A Permanent Program of Apportionment

The most important task confronting the Legislature concerns devising the method for developing a permanent apportionment plan for the State. The State Supreme Court has indicated that all members of that body agree that proposals for the necessary revision of the legislative article of the State Constitution can be formulated by a constitutional convention. While the Court leaves open the question whether there are other methods which can also be used, I can see no reason to pass beyond the constitutional convention.

The State Constitution under which we now function was the handiwork of a constitutional convention. Its efforts have been proclaimed universally. Indeed, our Constitution has formed the basis for the organic law adopted in several of our sister states. In the eyes of most, the achievement of the 1947 Constitutional Convention was an outstanding one. In this time of confusion and dispute, the public-spirited efforts of the men who deliberated 17 years ago can serve as a clear inspiration. The use of a constitutional convention brings with it the advantages of elected representatives at the same time that it provides a means

1140 MINUTES OF THE GENERAL ASSEMBLY

whereby the public can express directly its views and its desires. A convention has a certain dignity and creates a climate of deliberation which is compatible with the grave obligation of revising the organic law to distribute to the people's legislative representatives the political power which is theirs.

The task of redrafting these most delicate provisions of the State's Constitution must fall to a group which is both public-spirited and representative. It must be a group which is devoid of self-interest and partisanship and yet one that is both knowledgeable and responsible. Such severe criteria can be satisfied by a constitutional convention. I know of no other method which has its advantages and is as free from handicaps.

I believe this legislative body can make no more serious mistake than to attempt to hold within its own hands the responsibility for the momentous decisions which must be reached in the very near future. The use of a constitutional convention will serve to reassure everyone that this Governor and this Legislature seek to achieve a solution which is truly free of partisan advantage and dedicated to the public well-being.

Now as to the date for such a convention, if a convention is so ordained. It must be noted that the November, 1965 election will be one of the important elections in the history of this State. Presumably, it will be warmly contested both as to the governorship and members of the Legislature. There will be many issues debated that will be completely extraneous to the issues concerning the election of delegates to a constitutional convention. To insure the selection of the most impartial and qualified delegates possible, the election of such delegates should be completely free from such a contest. Since even an election of delegates prior to the general election will necessarily run the risk of involving the delegates in the campaign, I would recommend the prompt enactment of legislation providing for a constitutional convention and specifying that the election of delegates to such a convention be held early in 1966. This will establish that such a convention will be held without involving the delegates in the 1965 campaign. It will also provide the delegates to such a convention four to six months' time within which to consider all possible apportionment proposals and still provide ample opportunity for

the proposal selected to be presented to the people in November, 1966. This in turn would permit the election of the new Legislature by the time fixed by the Court, namely, the general election of November, 1967.

Conclusion

While some may approach our forthcoming tasks with the trepidation that arises from such fundamental change in the status quo, I think most of us will view the present situation as an opportunity—an opportunity that has come to few who have served this State.

If we deliberate dispassionately and act wisely, we can devise tools of government that are responsive to the needs of the complex human equation that is New Jersey. Thus will all the people be served. Thus can we meet the challenge before us and devise a legislative formula that will accurately reflect the distinctive aspirations of all New Jerseyans. Thus will we give new and precise meaning to the American tradition of democracy.

So let us cast from our hearts and minds any idea of narrow political advantage. Let us resolve to work together—not as Democrat and Republican, not as city, county or suburban representatives—but as concerned citizens singularly privileged to create for New Jersey an edifice of government that will stand on the firmest foundation yet devised by the wisdom of man, the Constitution of the United States of America.

Attest:

RICHARD J. HUGHES,

LAWRENCE BILDER,

Governor.

Acting Secretary to the Governor.

PROCLAMATION

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT.

WHEREAS, In my opinion the public interest requires a meeting of the Legislature of the State of New Jersey; now, therefore,

I, RICHARD J. HUGHES, Governor of the State of New Jersey, by virtue of the authority vested in me by the Constitution of this State, do hereby convene the Legislature of this

State for a meeting in its current regular session to be held at the State House in Trenton on Monday, the thirtieth day of November, one thousand nine hundred and sixty-four, beginning at two o'clock in the afternoon.

[SEAL] Given, under my hand and the Great Seal of the State of New Jersey, this 25th day of November, in the year of Our Lord one thousand nine hundred and sixty-four and of the Independence of the United States, the one hundred and eighty-ninth.

/s/ RICHARD J. HUGHES,

By the Governor:

Governor.

/s/ ROBERT J. BURKHARDT,
Secretary of State.

Majority Leader Mrs. Higgins moved that the joint session adjourn.

Which motion was adopted.

The General Assembly reconvened.

Mr. Keith offered the following Assembly amendments to Senate Bill No. 184:

Amend page 2, section 1, lines 28-32, delete lines 28-32 and substitute the following:

“(f) ‘Newspaperboy’ means any male minor between 12 and 18 years of age who engages for and on his own behalf in the occupation of delivering, soliciting, selling and collecting for, newspapers outside of school hours on residential routes.”

Amend page 5, section 5, line 34, delete phrase beginning with “provided” and ending with word “day;” at line 43 and insert:

“Provided, that nothing in this act shall prevent newspaperboys as defined in this act, between 12 and 14 years of age, from delivering, soliciting, selling and collecting for newspapers on routes in residential neighborhoods between the hours of 5:30 o’clock in the morning and 7:00 o’clock in the evening of any day; and newspaperboys 14 years of age and older from delivering, soliciting, selling and collecting for newspapers on routes in residential neighborhoods between the hours of 5:30 o’clock in the morning and 8:00

o'clock in the evening of any day; and provided further that no newspaperboy under the age of 18 years shall be permitted to engage in such occupation beyond the period of time wherein the combined hours devoted to said occupation as a newspaperboy and the hours in school shall exceed a total of 40 hours per week.

Amend page 6, section 5, line 66, delete line 66 and the remainder of the section and insert the following:

“The publisher shall forthwith mail 3 copies of such special permit to the issuing officer as defined in section 1 of this act, one of which copies shall be forwarded to the Commissioner of Education and one copy to the Commissioner of Labor and Industry in such manner as may be provided by regulation of said commissioners. A copy of such special permit shall also be furnished by the publisher to the parent, guardian or other person having custody and control of the newspaperboy and the publisher shall retain at all times a file copy thereof.

The special permit shall remain in full force and effect unless and until the publisher is notified by the issuing officer that the newspaperboy is not physically fit or that in the opinion of the issuing officer, engaging in the occupation as a newspaperboy will be harmful to his education. In such case, the said special permit shall be suspended unless and until the issuing officer shall revoke said notification. In the event of such notification and suspension, however, if either the parent, guardian or other person having custody and control of the newspaperboy or the publisher shall deem such decision to be erroneous, an appeal may be made to the Commissioner of Education who shall have authority to reverse or modify such decision of the issuing officer.

The publisher shall keep a record of the name, address and birth date of each newspaperboy to whom such special permit is issued; the date said newspaperboy commenced and ceased delivering newspapers published by said publisher together with a record of the number of newspapers sold to each newspaperboy and a general description of the area of the route served by each newspaperboy. Such records shall be kept on file by said publisher for a period of 2 years after the newspaperboy has ceased delivering newspapers published by said publisher.”

Amend page 6, section 5, after section insert a new section 6 as follows:

“6. Notwithstanding anything in this act contained, the Department of Labor and Industry and its inspectors and agents acting under the Commissioner of Labor and Industry shall have the full power and authority to enforce the provisions of this act as provided by the act to which this act is an amendment.”

Amend page 6, section 6, line 1, delete “6.” insert “7.”.

Senate Bill No. 410, entitled "An act to amend the 'Financial Business Tax Law (1946),' approved April 26, 1946 (P. L. 1946, c. 174), and section 54:9-1 of the Revised Statutes relating to the taxation of the common capital stock of banks, national banks and trust companies,"

By emergency resolution,

Was taken up, and on motion of Mr. Moraites was read a third time by its title, and passed by the following vote:

In the affirmative were—

Messrs. Bateman, Beadleston (Speaker), Berglund, Bigley, Curry, Dickey, Everett, Farrington, Gelber, Gimson, Hering, Higgins, Keegan, Keith, Kimmelman, La Corte, Maraziti, McCord, McDermott, McDonough, Moraites, Randall, Rimm, Sears, Smith, A. S., Smith, W. L., Vander Plaat, Wallwork, Werner, White, Woodcock, Woodson—32.

In the negative—

Mr. Brigiani—1.

The following bill was introduced, was read for the first time by its title, ordered to have a second reading, and was referred to committee as follows:

By Mrs. Higgins, Messrs. Beadleston, Dickey, Collins, McCord, A. Smith, McDermott, Berglund, Gelber, White, Hierung, Rimm, W. Smith, McDonough, Gimson, Kay and La Corte,

Assembly Concurrent Resolution No. 54, entitled "A Concurrent Resolution making application to the Congress of the United States to call a convention for the purpose of proposing an amendment to the Constitution of the United States in accordance with Article V of said Constitution,"

Without reference.

A message was received from the Secretary of the Senate and read by the Clerk, informing the General Assembly that the Senate has passed

Assembly Bills Nos. 73, 152, 245, 260, 352, 520, 540, 559, 561, 592, 596, 623, 656, 657, 658, 682, 710, 757 and 765.

Whereupon the Clerk delivered Assembly Bills referred to in the Senate message to Mr. Rimm, Chairman of the Assembly Joint Committee on Passed Bills, for presentation to the Governor for his approbation.

A message was received from the Secretary of the Senate and read by the Clerk, informing the General Assembly that the Senate has passed

Assembly Bills Nos. 389, 446, 560, 638, 643, 661, 696, 736, 755, 756, 762, 779; Assembly Joint Resolutions Nos. 30 and 28; Assembly Concurrent Resolutions Nos. 30 and 43.

Whereupon the Clerk delivered Assembly Bills referred to in the Senate message to Mr. Rimm, Chairman of the Assembly Joint Committee on Passed Bills, for presentation to the Governor for his approbation.

Mrs. Higgins moved that the call of the General Assembly be lifted.

Which motion was adopted.

Mrs. Higgins offered the following resolution, which was read by the Clerk and adopted:

Be It Resolved, That when the General Assembly adjourns it be to meet on Saturday, December 19, at 10:00 o'clock A. M. and that when it then adjourn it be to meet on Monday, December 21, at 10:00 o'clock A. M., and that when it then

STATE OF NEW JERSEY	}
EXECUTIVE DEPARTMENT,

ASSEMBLY BILL No. 44

To the General Assembly:

I herewith return Assembly Bill No. 44, without my approval, for the following reasons:

As originally introduced, and as conceived by the Riparian Lands Study Commission (created under J. R. No.

11 of 1960) which prepared this legislation, Assembly Bill No. 44 was advanced as a proposed revision of the law of this State pertaining to riparian lands and rights with the general intention "that the cumbersome process of securing a riparian grant be expedited and that the statutes be made more comprehensible." (*Report and Recommendations*, The Riparian Lands Study Commission, May 6, 1963, p. 9).

There can be little quarrel with the Commission's finding that the accumulation of statutes which have grown out of the ancient development of riparian laws is in need of modernization and clarification. During my administration, I have had occasion to witness the inconvenience and, at times, even hardship that can be experienced during the time consumed by the State's adherence to the safeguarding steps established in connection with the processing of a riparian grant application. I am not unsympathetic to the need for periodic re-evaluation of these procedures to the end that this burden might be minimized, consistent with adequate protection of the very real public interest.

Neither is there any doubt in my mind that the difficult questions of title which have arisen with respect to meadowlands properties, largely as a consequence of the application of established legal principles to such properties in recent cases, must be shortly resolved so that the urgently needed development of these areas can safely proceed.

Despite this awareness, however, I am not now prepared to assert, by placing my signature on this bill, that the way to cure the apparent procedural ills is to remove entirely those safeguards inherent in requiring the signed assents of responsible State officials. Even more do I question the propriety of curing individual title defects by a general waiver of the public's rights and interest, without even an effort to determine the value of that interest to the public.

Because there is machinery at hand for an independent appraisal of each of the procedural changes contemplated by this bill, I do not intend to comment upon them individually at this time. In general, my concern goes to the very heart of the bill's approach. We are here asked to replace the twelve member Resource Development Council, which presently can recommend approval of grants, with a 5-member Riparian Lands Commission, and to give to this latter Commission the non-reviewable authority to make riparian

grants or leases on behalf of the State. The presently required concurrence of the Commissioner of Conservation and Economic Development, the Attorney General and the Governor, and thus the supervision which they are able to bring to these dispositions of public property, would be eliminated. Gone, too, would be the opportunity for other public officials, for example, the State Highway Commissioner, to note in advance a projected State use of the property and thus avoid the costly necessity for reacquisition by purchase or condemnation at an inflated price.

As Governor, I view with considerable respect the responsibilities attendant upon my oath of office. The functions which have been assigned to the Executive in connection with the disposition of State property are important and, in my view, appropriate. I have not asked to be relieved of the burden of these responsibilities and do not intend to participate in their removal, without some better showing of necessity and some greater assurance of improved protection of the public interest.

One additional aspect of this bill deserves specific mention here. By Assembly Committee amendment, there was added to Section 2 of the legislation proposed by the Riparian Lands Study Commission a definition of "exempt lands" to include any land within the State, regardless of its riparian quality, as to which record title has been held by any person or corporation or by their predecessors in title "for the last past 30 years and which have been assessed for taxes for the last past 20 years." There was also added, at section 111 of the bill, a simple declaration that "the State shall have no title to exempt lands." The solution proposed by this device to our complex meadowlands problems is clear. What is not clear is whether the Legislature had any comprehension of the potential value of the State's interest in such property, an interest it must have assumed in considering the amendment.

My efforts to evaluate these two provisions of the bill caused me to inquire whether the Riparian Lands Study Commission had considered or commented upon such an approach. It is worth noting here that in its Report, addressed to the Legislature, at pages 9-10, that Commission said:

"... It will be further noted that no definition of the term riparian lands is given. The reason is that

it was the feeling of the Commission that *the Legislature could not constitutionally either extend or limit the ownership of the state in the riparian lands* by this legislation. Under Article 8, Section 4, Paragraph 2 of the Constitution of 1844 the Fund for the support of Public Schools was set apart as a perpetual fund, inviolate against invasion or appropriation in any manner by the Legislature. Under Chapter 71 of the Laws of 1894 and Chapter 1, Section 168 of the Laws of 1903, continued as R. S. 18:10-5 all of the tide lands of the state have been placed in the School Fund. Unquestionably in view of the decisions in *Henderson v. Atlantic City*, 64 N. J. Eq. 583 (Ch. 1903) and *In Re Camden*, 1 N. J. Misc. 623 (Sup. Ct. 1923) any statute which limited the state's interest in any lands flowed by tide-water as that interest was defined at common law would be unconstitutional . . . Accordingly the Commission felt constrained to leave the definition of a riparian lands (sic) in the position that the courts have left it at common law. The Commission has not ignored the request that some clearer and easier to apply in practice definition be given; it simply cannot comply with the request." (Emphasis added.)

We have not been provided with a specification of any legitimate basis upon which disregard for this clear admonition, backed by three years of study, can be justified. We are not, I submit, presently in possession of sufficient information to properly make the ultimate decisions called for by this legislation.

There is a means available by which we can gather much of that information. In December, 1963, I participated with the Legislature in the creation of the Commission to Study Meadowland Development (J. R. No. 8 of 1963). We assigned to its members the duty:

"to make a comprehensive study of the meadowlands of North Jersey for the purpose of developing a long-range comprehensive plan for the reclamation and development of the entire meadowlands area. The commission is further authorized to study and inquire into any subject or matter deemed by the commission to be relevant to the purposes of its study or helpful to it in the consummation of its work."

Additionally, the Commission was authorized to include in the report it will submit, prior to June 30, 1965, any "specific changes or additions to the statutory law relating to the reclamation and development of the meadowlands" as it deems appropriate.

Subsequently, the sum of \$50,000 was appropriated to that Commission to carry on its assignment. I have been informed that, using a Committee arrangement, this group has embarked on a conscientious effort to fulfill its assignment and has retained competent legal and engineering staff to that end. One worthwhile consequence of this endeavor will be the compilation of statistical data reflecting property valuations in the meadowlands area, thus providing those of us charged with the management of the State's affairs and interests with some estimate of the potential fiscal consequences of legislation such as this.

Because this Commission was assigned, by legislative act, the responsibility to study the meadowland problem, I requested the members of the group to consider Assembly Bill No. 44. They have submitted a report commenting upon the bill in considerable detail. They have noted some of the reservations that I have already expressed in this message. The report, for example, seriously questions whether the portions of Assembly Bill No. 44 which relate to waiving the State's interest in so-called "exempt lands" are valid. The report further indicates the intention of the Commission to deal with the fundamental problem which gave rise to the amendments concerning exempt lands.

Although the Commission obviously does not deem itself capable, at this point, to value the State's interest in riparian and meadowlands that would be abandoned if the approach suggested in this legislation were approved and upheld, it has indicated, with regard to only the Hackensack Meadowlands, that the State may have an interest in property valued in excess of \$25 million. Considering the vast areas and meadowlands which exist throughout the State, it is apparent that this legislation would seek to abandon all State claims, from the most secure to the most tenuous, to property worth untold millions of dollars but certainly in excess of \$100 million.

At meetings with proponents of this legislation, it was conceded that the formula used for determining what constitutes "exempt lands" results in the eliminating of any

State claim to the entire meadowland areas of the State. Indeed it was indicated that this result was intended by the draftsman. Although it was suggested that the formula could be modified to make it clear that the State would maintain its interest in lands which are actually flowed by waterways, the proponents of this legislation believe the State should surrender its interests in this property.

As sympathetic as I am to the desires of landowners to clarify the uncertainty which exists as to the title to property in the meadowlands area, and as anxious as I may be to promote the development and growth of many of the areas in or bordered by the meadows, I cannot conclude that it would be in the best interest of the State to approve, at this time, legislation which would have such a broad and permanent effect upon the legitimate interests of the State and more particularly the interests of the Fund for the Support of the Public School. I believe it would be poor governmental practice, so soon before the report of the Commission to Study Meadowlands Development is due to take the irretrievable steps contemplated by this legislation.

At the very least, acceptable recommendations for more efficient handling of meadowlands problems would bring into sharper focus the route to clarification of the law with respect to other riparian matters. More than this, however, we may anticipate that this coordinating study will place in the hands of both the Legislature and the Governor the additional information essential to any final and proper resolution of the complex problems before us.

ASSEMBLY BILL No. 73

To the General Assembly:

I herewith return Assembly Bill No. 73, without my approval, for the following reasons:

Assembly Bill No. 73 would amend the Public Utility Law concerning railroads to repeal the present prohibition against placing freight cars in the rear of a passenger train. This prohibition would be replaced with a provision that no explosives or flammable liquid freight shall be transported within the State in a passenger train except in conformity with the regulations of the Interstate Commerce Commission.

The prohibition against such mixed freight and passenger trains has existed in this State for more than 60 years. It apparently was adopted as a safety measure. It is now contended that the interests of safety are no longer served by such a limitation on train makeup. There are, however, others, including the organizations of workers whose responsibility it is to operate these trains, who maintain that such a change in the safety policy of this State is unwarranted. Further, the Division of Railroad Transportation has indicated that it does not believe that such mixed trains should be permitted in the case of commuter passenger trains. Finally, the opponents of this bill point out that this proposed law would not even prohibit the carrying of explosives or flammable cargo in a passenger train but merely requires that such a train makeup be authorized by the Interstate Commerce Commission.

I believe that industry generally should not be prohibited by law from making changes and innovations in techniques and procedures which are consistent with modern safety requirements. I do not feel, however, that in face of the objection that has been registered with this office, that the authorization of mixed trains contemplated by this bill is warranted. After so many years of prohibiting such train makeup, the State should retain some degree of regulatory control. I would suggest, therefore, that the Legislature consider vesting such authority in the appropriate State agencies.

Ordinarily, I would suggest the specific changes needed to satisfy my objection. As I have noted, however, with several of the bills that I am returning today, this bill was not adopted by the Legislature until December 17, 1964 and was thereafter delivered to me by the Speaker, thus requiring a decision by me on this bill by this date. It has not been possible to consult with the necessary groups and

agencies in this relatively short period of time to work out the required amendatory language.

ASSEMBLY BILL No. 245

To the General Assembly:

I herewith return Assembly Bill No. 245, without my approval, for the following reasons:

Assembly Bill No. 245 would amend the Transfer Inheritance Tax Law to extend from 8 to 12 months the period following the death of a decedent during which the transfer inheritance tax on his estate can be paid without interest. This bill also provides for a deferment of interest charges where, "without default" by the executor or any other person liable for payment of the tax, a statutory notice of assessment and levy has not been given by the State within 11 months after death, in which case interest would begin to run only after the expiration of 30 days following the date on which such notice finally is given.

It is primarily the latter objective which impels my disapproval of this measure. Experience in this area has demonstrated that through no fault of either the testamentary representative or the State, the value of a taxable estate often cannot be established with certainty for a considerable period of time after the decedent's death. There are factors, such as litigation involving estate assets, claims against the estate and the necessity of awaiting federal marital deduction valuations, which frequently delay final settlement of the estate beyond 8 or even 12 months after death. In such instances, interest ordinarily is computed at a lower rate of 6%, rather than the 10% which is charged in cases of delinquency. Since inheritance taxes actually are due and payable at the time of death (N. J. S. A.

54:35-1), the 6% interest rate which attaches upon expiration of the grace period of 8 months is a fair reflection of the fact that the estate continues to enjoy the benefits of revenue belonging to the State. Additionally, the representatives of an estate are entitled to deposit with the State at the time of death or thereafter whatever amount they wish to be applied as a payment on account of any taxes which may be levied, thereby avoiding the payment of any interest on that amount no matter how long it takes to settle the estate.

In view of these considerations, it would be unfair to the State, and unduly advantageous to the taxpayer, to permit the indefinite postponement of interest charges pending the final valuation of every estate. Such a measure also could discourage the existing and prevalent practice, mentioned above, of payments on account of taxes to avoid interest charges. Such payments normally run ahead of assessments in a stable pattern, and a disruption of that pattern might dislocate our present fiscal structure.

Respectfully,

RICHARD J. HUGHES.

Governor.

ASSEMBLY BILL No. 638

To the General Assembly:

I herewith return Assembly Bill No. 638, without my approval, for the following reasons:

Assembly Bill No. 638 would interpose a new category of criminal assault and battery between the existing statutory extremes of atrocious assault and battery, a high misdemeanor which carries a maximum penalty of seven years in prison and/or a \$2,000 fine, and simple assault and battery, a disorderly persons' offense which bears a maximum sanction of one year's imprisonment and/or a \$1,000 fine. This new category is intended to encompass, and to punish

as a misdemeanor with a maximum prison sentence of three years, the sort of violent action which falls short of the "savagely brutal or outrageously or inhumanly cruel or violent" quality of an atrocious assault and battery (*State v. Edwards*, 28 N. J. 292 (1958)), but is sufficiently serious to warrant treatment as a misdemeanor rather than mere disorderly conduct.

The statement appended to this measure indicates that it was prompted as a result of the wide discrepancy between the sanctions which are attached respectively to atrocious assault and battery and to simple assault and battery. I agree that the creation of an intermediate misdemeanor of assault and battery would bring a desirable flexibility to this area of the law, and in some instances would render the quantum of punishment more fitting to the nature of the particular assault involved.

The Supreme Court has observed that "there is much to be said for such a gradation in an offense of such a wide range as assault and battery" (*State v. Maier*, 13 N. J. 235, 241 (1953)), and I would give favorable consideration to any legislation which effectively accomplishes a meaningful distinction among (1) the high misdemeanor of atrocious assault and battery; (2) the misdemeanor of assault and battery; and (3) the disorderly persons' offense of simple assault and battery.

This bill was passed by the Legislature on December 17 and delivered to my office on December 22, 1964, thus requiring action by this date. In the limited time available, I have endeavored to consider all aspects of this proposal. My review of this bill indicates that it fails to establish a separate and distinct offense. The misdemeanor which this measure would establish as a lesser crime than atrocious assault and battery is described in the following manner:

"Any person who willfully and wrongfully *wounds or inflicts grievous bodily harm upon another*, either with or without a weapon, is guilty of a misdemeanor." (Emphasis added.)

But N. J. S. 2A:90-1, the statute dealing with the high misdemeanor of atrocious assault and battery, provides:

"Any person who commits an atrocious assault and battery by *maiming or wounding another* is guilty of a high misdemeanor." (Emphasis added.)

Comparison fails to disclose any significant distinction between the statutory elements of the existing high misdemeanor and those of the less serious crime envisioned by Assembly Bill No. 638. The phrase "wounds or inflicts grievous bodily harm upon another" is conceptually indistinguishable from the prohibition against "maiming or wounding another." And while the courts have amplified the statutory characteristics of atrocious assault and battery to specify that the act must be "savagely brutal or outrageously or inhumanly cruel or violent," surely the act of a person who, in the language of this bill, "willfully and wrongfully wounds or inflicts grievous bodily harm upon another," more often than not would meet that criterion.

It is evident, therefore, that Assembly Bill No. 638, while purporting to establish a new misdemeanor which is different from and lesser than the existing high misdemeanor of atrocious assault and battery, merely paraphrases and recasts the greater crime in the form of the lesser. As a result, this bill could create unnecessary confusion in the administration of criminal justice, for the same act could be punished as either a high misdemeanor or a misdemeanor, depending upon the unguided discretion of the prosecutor and the court concerned.

Moreover, the proviso of Assembly Bill No. 638 that the injury can be inflicted "either with or without a weapon" would further compound the confusion. N. J. S. 2A:90-3 now makes it a high misdemeanor, separate and apart from the high misdemeanor of atrocious assault and battery, to commit a willful or malicious assault "with an offensive weapon or instrument * * *." But under this bill, an attack with such a weapon would in effect be downgraded to an ordinary misdemeanor, with a maximum of three rather than seven years' imprisonment. In view of the serious and potentially deadly nature of the crime of armed assault, I cannot believe that the Legislature intended such a downgrading and I attribute that result to inadvertence.

This bill, in short, represents a basically sound idea which requires far more legislative consideration than it has received if it is to materialize as meaningful legislation. No one, I am certain, would want or expect any legislative proposal to be enacted into the law of this State until it has been carefully examined and evaluated against the background of all available factual information and pertinent

legal considerations. It is the responsibility of the Legislature, in the first instance, to gather the operational facts, to measure the probable legal and social effectiveness of all proposals and to set forth properly such proposals in bill form. To the extent that the Legislature has not adequately discharged that function, this time-consuming but indispensable task has fallen upon my office with its limited resources.

On 27 occasions this year, I have returned to the Legislature measures with suggested changes. Most of these have related to technical problems. While I would ordinarily attempt to suggest suitable language change for a bill of this type, it has not been possible to do so in the time allowed.

I am, therefore, returning herewith Assembly Bill No. 638 without my approval.

Respectfully,

RICHARD J. HUGHES,

Governor.

ASSEMBLY BILL No. 661

To the General Assembly:

I herewith return Assembly Bill No. 661, without my approval, for the following reasons:

Assembly Bill No. 661 would provide that any parent, guardian or other person having legal custody of a child 16 years of age or under, is liable for damages done to real or personal property not in excess of \$250.00 provided that the child "willfully, maliciously or unlawfully destroys or injures" such property. The express purpose of this legislation is to provide "some legal deterrent to juvenile acts of vandalism and to parental neglect of child supervision."

I am in fundamental accord with this express legislative purpose. In 1953, I participated in preparing the report

of the Juvenile and Domestic Relations Court Committee of the Supreme Court. This report considered proposals of this nature and concluded that they would not provide the relief from juvenile delinquency that was intended. In recent years, however, we have come to see a growing wave of vandalism and wanton destruction of property by young juveniles which is reprehensible. It is a frightening commentary upon our present society to note that there are numerous children, although only a small percentage of the total, who apparently have yet to learn respect for the rights of others. Therefore, to the extent that this lack of respect can be attributable to the parents, I now am in agreement with this proposal. In such cases, the damage is as much the fault of the parent as it is of the undisciplined child who is acting in such a wanton fashion.

It is, therefore, with some reluctance that I conclude that I cannot approve Assembly Bill No. 661. I find, however, that it contains within it the seeds of injustice in providing for a civil sanction against parents without regard to whether parental neglect in fact exists. The common law concept of tort liability generally has required the existence of a casual relationship between the injury done and the person sought to be held liable. The existence of such a relationship has always been deemed to be fundamental to the right of recovery. This bill would subject to liability, however, all parents of children who willfully or maliciously destroy or injure property even though some of such parents may have exerted every ounce of influence they possess to prevent such an occurrence. In these cases, the provision for civil liability could act more as a lever against the parents in the hands of an irresponsible youth than it could as a measure for responsible conduct on behalf of both parent and children.

I see no reason why a proper measure of this type cannot be prepared. Unfortunately, this bill was not passed by the Legislature until December 17th and thereafter was delivered to me by action of the Speaker. This has necessitated my acting upon this measure by today thus rendering it impossible for me to devote sufficient time to work out the necessary adjustments.

I hope to review this matter with the various sponsors of Assembly Bill No. 661 in an effort to work out a mutually

acceptable proposal. I would hope that any such proposal will have the prompt consideration of the Legislature.

Respectfully,

ASSEMBLY BILL No. 656

To the General Assembly:

I herewith return Assembly Bill No. 656, without my approval, for the following reasons:

Assembly Bill No. 656 would authorize "the director of welfare" to apply welfare funds directly to the payment of rent to landlords of relief recipients who are eligible for permanent home relief. The bill also would empower "every director of welfare" to withhold such rental payments "in any case where he has knowledge" of dangerous or detrimental housing conditions arising from violations of any law pertaining to building standards.

This measure is designed to provide a powerful new incentive for landlords to comply with building code requirements and, conversely, to impose a meaningful economic sanction upon violators. I am in complete agreement with both the underlying principle and the desirability of this objective. Unfortunately, this bill has been prepared in such a manner as to raise substantial ambiguities which require clarification if legislation of this type is to be effective.

The most serious of the bill's defects stems from its unqualified use of the term "director of welfare" without indicating whether that term is applicable to municipal welfare directors or to county welfare directors or to both. Parenthetically, it may be noted that the title of the bill affords no clue in this respect, for it purports, through inadvertence, to supplement Title 40 of the Revised Statutes, a Title which has nothing to do with the welfare laws.

Insofar as the bill might be construed to apply to county welfare directors, it could severely endanger the continuation of our federally assisted aid programs. County welfare departments now receive assistance from the State, part of which comes from federal funds. Under federal law, these funds must be disbursed by the county directly to the relief recipient except in cases involving payment of medical expenses. At the present time, the federal government contributes over \$42 million annually to various welfare programs. If county welfare directors were to make direct rental payments as authorized by Assembly Bill No. 656, they would be acting at variance with federal requirements and would unnecessarily jeopardize our right to federal funds. Thus it is essential that any legislation in this area should take pains to exclude county welfare programs from its scope, and to expressly limit its application to municipal assistance programs.

Another serious problem concerns the absence from the bill of a definite procedure to guide the discretion of the welfare director in making or withholding payments of rent. Section 2 predicates that judgment upon the director's personal knowledge of building code violations, and imposes no limitation upon the methods by which he may acquire such knowledge. While there is a requirement that "the appropriate department or agency having jurisdiction over violations" must report all violations to the welfare director, the bill does not confine the welfare director to acting only on that source of information. Thus he would be free to act as his own building inspector or to turn to any other informants of his own choosing.

Inasmuch as this measure apparently is intended to coordinate welfare payments with the enforcement of building codes by the appropriate authorities, it is doubtful that the Legislature meant to allow welfare directors to perform both functions. Since the bill in its present form might lead to such an interpretation, I suggest that future legislation on the subject be clarified to authorize welfare directors to withhold rent payments only upon certification by the municipal authority charged with enforcement of the building code that a violation has been found to exist and is outstanding.

I have several other and minor suggestions for the improvement of legislation in this field which need not be

detailed now. Because of my sympathetic interest in this subject, I have instructed my legal staff to provide all necessary assistance to the proponents of Assembly Bill No. 656 in preparing a replacement measure for introduction during the next legislative session. I am hopeful that a bill will shortly be enacted to effectively accomplish the laudable purpose of Assembly Bill No. 656.

Respectfully,

RICHARD J. HUGHES,
Governor.

ASSEMBLY BILL No. 696

To the General Assembly:

I herewith return Assembly Bill No. 696, without my approval, for the following reasons:

Assembly Bill No. 696 would authorize every Superior Court and County Court judge assigned to hear matrimonial actions in the Chancery Division in a county of the first class to designate, from among the regular court attendants of the county, a person to act as his sergeant-at-arms.

Such authorization now is granted by statute to Law Division and County Court judges sitting in first class counties, as well as certain other judges, but has not been extended to judges assigned to the Chancery Division of the Superior Court. Whether the privilege of appointing sergeants-at-arms should be so extended ultimately depends upon the basic desirability of the practice as it now exists. The court has suggested that the position of sergeant-at-arms serves no real purpose, and should be abolished in favor of a flexible procedure requiring the sheriff of each county to provide all courts within the county with regular court attendants on the basis of need, as determined by the Assignment Judge. Neither this proposal, nor the opposite view embodied in Assembly Bill No. 696, can be evaluated

properly without a thorough review of the duties now performed by sergeants-at-arms, and a consideration of whether those duties can be performed effectively by regular court attendants.

Unfortunately, however, this bill, which was not passed by the Legislature until December 17, 1964, was presented to me by the Speaker on December 22nd and consequently must be acted on today. Lacking sufficient time to give this measure the type of consideration it obviously warrants and, in consideration of the viewpoint expressed by the court, I am constrained to return Assembly Bill No. 696 without my approval.

Respectfully,
