

2. The use of a procedure code will be interpreted by the New Jersey Medicaid program as evidence that the physician or practitioner personally furnished, as a minimum, the service for which it stands.

3. For purposes of reimbursement, a physician, practitioner, physicians' group, shared health care facility or physicians sharing a common record are considered a single provider.

4. When billing, the provider must enter a CPT/HCPCS code into the procedure code column field 24-D of HCFA 1500 claim form.

5. Date(s) of service(s) must be indicated on the claim form and in the physician's own record for each service billed.

6. When submitting a claim, the physician or practitioner must always use his/her usual and customary fee. The fees designated for the HCPCS procedure codes represent the New Jersey Medicaid program's maximum payment for the given procedure.

7. All references to time parameters shall mean the physician's or practitioner's personal time in reference to the service rendered unless it is otherwise indicated.

i. Reimbursement will be made for an assistant surgeon when the service is medically necessary and when a duly qualified surgical resident or house physician is unavailable, and when the primary procedure performed has a procedure code specialist fee of at least \$142. The allowance permitted is a maximum of 15 percent of the listed specialist fee. The minimum payment is \$27.

ii. When billing for assistant surgery services, affix to the appropriate procedure code the modifier "80" which identifies surgical assistant services.

8. Certain listed procedures are commonly carried out as an integral part of a total service, and, as such, do not warrant a separate charge. Concerning the terminology "separate procedures" when attached to a HCPCS/CPT-4 description, when a procedure is carried out as a separate entity not immediately related to other services, the indicated value for "separate procedure" is applicable.

9. Additional charges on a fee-for-service basis may be reimbursed for complications or other circumstances requiring additional or unusual services concurrent with the procedure(s) or during the listed period of normal follow-up care with a "22" modifier, if so designated with additional documentation accompanying to the claim form.

10:54-9.3 Definitions of modifiers

(a) Services and procedures may be modified under certain circumstances. When applicable, the modifying circumstance should be identified by the addition of alphabetic

and/or numeric characters at the end of the code. The New Jersey Medicaid program's recognized modifier codes are:

| Modifier Code | Description |
|---------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 22 | Unusual Services: When the service(s) provided is greater than that usually required for the listed procedure, it may be identified by adding modifier '22' to the usual procedure number. A report with additional documentation must accompany the claim form to justify the greater services, unusual services or complications. |
| 26 | Professional Component: Certain procedures are a combination of a physician and a technical component. When the physician component is reported separately, the service may be identified by adding the modifier '26' to the usual procedure number. If a professional component type service is keyed without a '26' modifier and a manual pricing edit is received, resolve the edit by adding a 26 modifier. |
| 50 | Bilateral Procedures: When bilateral procedures are provided at the same operative session, the first major procedure may be reported as listed. The second (bilateral) procedure may be identified by adding the modifier '50' to the usual procedure number(s). |
| 51 | Multiple Procedures: When multiple procedures are performed on the same day or at the same session, the major procedure or service may reported as listed. The secondary additional, or lesser procedure(s) or service(s) may be identified by adding the modifier '51' to the secondary procedure or service code(s). This modifier may be used to report multiple medical procedures performed at the same session, as well as a combination of medical and surgical procedures, or several surgical procedures performed at the same operative session. |
| 52 | Reduced Services: Under certain circumstances a service or procedure is partially reduced at the physician's election. Under these circumstances the service provided can be identified by its usual procedure number and the addition of the modifier '52', signifying that the service is reduced. This provides a means of reporting reduced services without disturbing the identification of the basic service. |
| 62 | Two Surgeons: Under certain circumstances the skills of two surgeons (usually with different skills) may be required in the management of a specific surgical procedure. Under such circumstances the services of each may be identified by adding the modifier '62' to the procedure number used by each surgeon for reporting his services. |
| 66 | Surgical Team: Under some circumstance, highly complex procedures (requiring the concomitant services of several physicians, often of different specialties, plus other highly skilled, specially trained personnel and various types of complex equipment) are carried out under the 'surgical team' concept. Such circumstance may be identified by each participating physician with the addition of the modifier '66' to the basic procedure number used for reporting services. |
| 75 | Concurrent Care: Services Rendered by More than One Physician: When the patient's condition requires the additional services of more than one physician, each physician may identify his or her services by adding the modifier '75' to the basic service performed represented by the procedure code. |
| 76 | Repeat Procedure by Same Physician: The physician may need to indicate that a procedure or service was repeated subsequent to the original service. This may be reported by adding the modifier '76' to the procedure code of the repeated service. |
| 77 | Repeat Procedure by Another Physician: The physician may need to indicate that a basic procedure performed by another physician had to be repeated. This may be reported by adding the modifier '77' to the procedure code of the repeated service. |
| 80 | Assistant Surgeon: Surgical assistant services may be identified by adding the modifier '80' to the basic procedure code. See N.J.A.C. 10:54-9.2(b). |
| AA | Anesthesia services personally rendered by anesthesiologist. |

| Modifier Code | Description | IND | HCPCS Code | Mod | Allowance \$ | Basic Units |
