SENATE BILL NO. 205
(First Reprint)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Senate Bill No. 205 with my recommendations for reconsideration.

This bill would exempt a nursing home "affiliated with a well established religious body or denomination" from the Certificate of Need (CN) process, so long as the facility reserves at least 65 percent of its beds for patients who are members of that religious body or denomination. The bill requires that all nursing homes constructed under this bill reserve, for Medicaid recipients, at least the Statewide Medicaid average of beds. The nursing home would also have to be in compliance with all State licensure regulations.

I recognize the importance of accommodating those seniors who require nursing home care and who want the special atmosphere of a religious home. However, I believe that this bill unduly weakens present Department of Health regulations. For this reason I must take exception with this legislation.

Current Department of Health regulations exempt "Statewide restricted admission facilities" from compliance with the need methodology established for determining when applications may be approved and from county-based health care facility planning requirements. Statewide restricted admissions facilities include non-profit nursing homes which are owned and operated by a religious organization and which serve only members of that religious organization and their immediate families. Applications for certificates of need for new or expanded Statewide restricted admission facilities are reviewed through an expedited process.

Under the Department's regulations, a Statewide restricted admission facility can expand as desired to accommodate the demand of members of their religious organization provided: (1) it explicitly states in its bylaws that only members of the specified religious organization and their immediate family members will be admitted to 100 percent of the long-term care beds; and (2) the facility admits at least 50 percent of its patients from outside the health planning area in which the facility is located. This bill would relax the 100 percent membership requirement to 65 percent and would eliminate the requirement that these facilities reserve 50 percent of their patients from outside the health planning area in which the facility is located.

The fundamental reason for exempting these facilities from the CN review process altogether is because these facilities serve a specific religious membership. I understand that in the spirit of benevolence some religious organizations wish to build nursing homes which will provide spiritually-comfortable settings for the senior members of their congregations and other senior members of that particular religious organization. However, I cannot accept the proposed relaxation of the 100 percent membership requirement, which these Statewide restricted admission facilities have met in the past, and still maintain that these religious facilities should be exempted from the CN process altogether. This bill would benefit if it were amended to codify existing Department of Health regulations regarding the 100 percent membership requirement to ensure that the special needs and desires of those seniors who seek care in these types of facilities is ensured.

I believe this proposed amendment serves the best interests of our State's seniors because it will exempt nursing homes operated by religious organizations solely for the benefit of members of such organizations from the CN application process, thus removing any perceived barrier to constructing religious nursing homes and entitling our State's seniors to the opportunity to reside in nursing home settings that provide environments consistent with their particular spiritual values and beliefs.

Accordingly, for the reasons stated above, I herewith return Senate Bill No. 205 and recommend that it be amended as follows:

Section 1, Lines 8-14:After "contrary," delete in

entirety and insert "a religious organization which reserves 100% of its licensed bed capacity for use by patients who are members of that specific religious organization and their immediate family members and is wholly owned (including real property), operated and managed by the religious organization is exempt from the requirement of obtaining a certificate of need, provided the nursing home maintains adequate records evidencing each patient's religious affiliation and provided the nursing home is in compliance with all State regulations governing its licensure."

Respectfully,
GOVERNOR

SENATE BILL NO. 1623
(First Reprint)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Senate Bill No. 1623 (First Reprint) with my objections for reconsideration.

This bill would permit the governing body of Jersey City by resolution to accept bonds, notes or other obligations in consideration for municipally held tax sale certificates. In doing so, it would permit the creation of a municipal financing technique to turn a non-performing municipal asset (accumulated tax liens) into cash. I support the goal of this bill to provide potential tax relief to the thousands of overburdened property owners in Jersey City and to fund its municipal services by raising funds for the City. However, I cannot ignore the needs of the tenants of Jersey City who are understandably concerned that this legislation if unaltered and if not administered prudently could result in their eviction.

This bill is permissive. It permits but does not mandate Jersey City's officials, in their discretion, to undertake this new financial vehicle. Accordingly, this bill places an undeniable responsibility on the mayor and the governing body to implement the bill responsibly

to protect the interests of the City's citizens and its short- and long-term fiscal health.

Thus, in structuring any bulk lien sale, the local officials need to address and satisfy themselves and the public that the up-front cash payment to the City is adequate, that the issuing costs of the special purposes corporation are within the norm, that a competitive bid process for the sale is truly competitive, and that the City responsibly utilizes the "one-shot" revenue gained from the lien sale to ensure that the City gains not just a short-term illusory fiscal benefit, but instead strengthens and fortifies the City's future fiscal stability. In the end, the City's residents will be looking to their local elected officials to implement the mechanism permitted by this bill responsibly and wisely.

However, one persistent concern has been raised regarding the possible impact of this bill on the tenants of Jersey City. It has been estimated that about half of the properties potentially subject to inclusion in the bulk lien sale are residential in nature. I cannot ignore the concerns of this segment of Jersey City's population - the estimated 28,000 tenants who may be adversely impacted by this bill.

As you will remember, last session I approved legislation that placed a moratorium on eviction actions by landlords against tenants with respect to condominium or cooperative conversions. I took that action because of my commitment to tenants and the need to provide quality housing at an affordable price. Jersey City's Mayor, Bret Schundler, has publicly stated his support for Assemblyman Raul "Rudy" Garcia's proposed legislation, Assembly Bill No. 2402, which is designed to protect tenants. Mayor Schundler has also promised to include provisions in the tax lien sale mechanism to protect tenants. Tenants deserve security from unjust evictions. In particular, our senior citizens deserve assurance that they will not find themselves out on the streets and counted among the homeless.

Accordingly, I am recommending that this bill be amended to apply the goal of Assemblyman Garcia's proposed legislation to this bill. This proposal will preserve and protect the interests of tenants while simultaneously providing tax relief to homeowners in Jersey City.

Therefore, I herewith return Senate Bill No. 1623 (First Reprint) and recommend that it be amended as follows:

Page 2, After Section 3:Insert New Section as follows:

"4. No lessee or tenant or the assign, under-tenant or legal representative of such lessee or tenant may be removed by a lienholder or successor thereof established under this act except for good cause as provided under P.L. 1974, c. 49 (C. 2A:18-61.1)."

The Secretary read a communication from the Governor who has conditionally vetoed Senate No. 1648.

SENATE BILL NO. 1648

To the Senate:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Senate Bill No. 1648 with my objections for reconsideration.

Notwithstanding the provisions of the Supplemental Municipal Property Tax Relief Act (SMPTR), Senate Bill No. 1648 would permit any municipality that received formula aid funds under that Act, including hold-harmless formula aid under P.L. 1992, c. 149, in State Fiscal Year 1993, to anticipate in its budget for the current local budget year, the receipt of at least the same amount of funds it received under those acts in State Fiscal Year 1993.

This bill attempts to eliminate the uncertainty associated with the amount of State aid that a municipality can anticipate when formulating its budget, thereby enabling a municipality to more

effectively manage its fiscal affairs. However, based upon the current State aid allocation under the SMPTR for State Fiscal Year 1994, the provisions of this bill would necessitate an additional appropriation in order to fund the shortfall that would be created in the formula SMPTR appropriation.

Although I recognize the pressing need many municipalities have for State aid, the number of requests for funding under SMPTR far exceeds available funds. Rather than address these individual requests in a piecemeal fashion, it is imperative that the Legislature utilize the budget process to review all funding issues during its extensive hearings. Thus, as a result of the fiscal impact that Senate Bill No. 1648 would have on our State budget, I recommend that it be subject to thorough legislative review during this budget season.

Therefore, I herewith return Senate Bill No. 1648 and recommend that it be amended as follows:

Title, Lines 1-2: After "concerning the" delete "anticipation of certain funds in the local budgets of" and insert "receipt of certain State aid funds by"

Page 1, Section 1, Lines 6-8: Delete "Notwithstanding the provisions of the 'Supplemental Municipal Property Tax Relief Act,' P.L. 1991, c. 63 (C.52:27D-118.32 et seq.), any" and insert "Any"

Page 1, Section 1, Line 9: Delete "that act" insert "the 'Supplemental Municipal Property Tax Relief Act,' P.L. 1991, c. 63 (C. 52:27D-118.32 et seq.)"

Page 1, Section 1, Lines 10-13: After "fiscal year 1993" delete in entirety and insert "shall receive in the State fiscal year 1994 the amounts appropriated for municipal aid under the 'Supplemental Municipal Property Tax Relief Act' at the levels established in the 1994 annual appropriations act."

Change Synopsis to read as follows:

"Concerns receipt of certain State aid funds by certain municipalities."

Respectfully,
GOVERNOR

Attest:
Chief Counsel to the Governor

SENATE BILL NO. 205
(First Reprint)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Senate Bill No. 205 with my recommendations for reconsideration.

This bill would exempt a nursing home "affiliated with a well established religious body or denomination" from the Certificate of Need (CN) process, so long as the facility reserves at least 65 percent of its beds for patients who are members of that religious body or denomination. The bill requires that all nursing homes constructed under this bill reserve, for Medicaid recipients, at least the Statewide Medicaid average of beds. The nursing home would also have to be in compliance with all State licensure regulations.

I recognize the importance of accommodating those seniors who require nursing home care and who want the special atmosphere of a religious home. However, I believe that this bill unduly weakens present Department of Health regulations. For this reason I must take exception with this legislation.

Current Department of Health regulations exempt "Statewide restricted admission facilities" from compliance with the need methodology established for determining when applications may be approved and from county-based health care facility planning requirements. Statewide restricted admissions facilities include non-profit nursing homes which are owned and operated by a religious organization and which serve only members of that religious organization and their immediate families. Applications for certificates of need for new or expanded Statewide restricted admission facilities are reviewed through an expedited process.

Under the Department's regulations, a Statewide restricted admission facility can expand as desired to accomodate the demand of members of their religious organization provided: (1) it explicitly states in its bylaws that only members of the specified religious organization and their immediate family members will be admitted to 100 percent of the long-term care beds; and (2) the facility admits at least 50 percent of its patients from outside the health planning area in which the facility is located. This bill would relax the 100 percent membership requirement to 65 percent and would eliminate the requirement that these facilities reserve 50 percent of their patients from outside the health planning area in which the facility is located.

The fundamental reason for exempting these facilities from the CN review process altogether is because these facilities serve a specific religious membership. I understand that in the spirit of benevolence some religious organizations wish to build nursing homes which will

provide spiritually-comfortable settings for the senior members of their congregations and other senior members of that particular religious organization. However, I cannot accept the proposed relaxation of the 100 percent membership requirement, which these Statewide restricted admission facilities have met in the past, and still maintain that these religious facilities should be exempted from the CN process altogether.

This bill would benefit if it were amended to codify existing Department of Health regulations regarding the 100 percent membership requirement to ensure that the special needs and desires of those seniors who seek care in these types of facilities is ensured.

I believe this proposed amendment serves the best interests of our State's seniors because it will exempt nursing homes operated by religious organizations solely for the benefit of members of such organizations from the CN application process, thus removing any perceived barrier to constructing religious nursing homes and entitling our State's seniors to the opportunity to reside in nursing home settings that provide environments consistent with their particular spiritual values and beliefs.

Accordingly, for the reasons stated above, I herewith return Senate Bill No. 205 and recommend that it be amended as follows:

Section 1, Lines 8-14: After "contrary," delete in entirety and insert "a religious organization which reserves 100% of its licensed bed capacity for use by patients who are members of that specific religious organization and their immediate family members and is wholly owned (including real property), operated and managed by the religious organization is exempt from the requirement of obtaining a certificate of need, provided the nursing home maintains adequate records evidencing each patient's religious affiliation and provided the nursing home is in compliance with all State regulations governing its licensure."

Respectfully,
GOVERNOR

To the Senate:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Senate Bill No. 1648 with my objections for reconsideration.

Notwithstanding the provisions of the Supplemental Municipal Property Tax Relief Act (SMPTR), Senate Bill No. 1648 would permit any municipality that received formula aid funds under that Act, including hold-harmless formula aid under P.L. 1992, c. 149, in State Fiscal Year 1993, to anticipate in its budget for the current local budget year, the receipt of at least the same amount of funds it received under those acts in State Fiscal Year 1993.

This bill attempts to eliminate the uncertainty associated with the amount of State aid that a municipality can anticipate when formulating its budget, thereby enabling a municipality to more effectively manage its fiscal affairs. However, based upon the current State aid allocation under the SMPTR for State Fiscal Year 1994, the provisions of this bill would necessitate an additional appropriation in order to fund the shortfall that would be created in the formula SMPTR appropriation.

Although I recognize the pressing need many municipalities have for State aid, the number of requests for funding under SMPTR far exceeds available funds. Rather than address these individual requests in a piecemeal fashion, it is imperative that the Legislature utilize the budget process to review all funding issues during its extensive hearings. Thus, as a result of the fiscal impact that Senate Bill No. 1648 would have on our State budget, I recommend that it be subject to thorough legislative review during this budget season.

Therefore, I herewith return Senate Bill No. 1648 and recommend that it be amended as follows:

Title, Lines 1-2: After "concerning the" delete "anticipation of certain funds in the local budgets of" and insert "receipt of certain State aid funds by"

Page 1, Section 1, Lines 6-8: Delete "Notwithstanding the provisions of the 'Supplemental Municipal Property Tax Relief Act,' P.L. 1991, c. 63 (C.52:27D-118.32 et seq.), any" and insert "Any"

Page 1, Section 1, Line 9: Delete "that act" insert "the 'Supplemental Municipal Property Tax Relief Act,' P.L. 1991, c. 63 (C. 52:27D-118.32 et seq.)"

SENATE BILL NO. 1180

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning Senate Bill No. 1180 with my recommendations for reconsideration.

This bill would create the New Jersey Council of Economic Advisors, a five-member body of economic experts responsible for providing the Governor, the Legislature, and the public with advice on current economic conditions, and forecasts of future economic trends. The Council would have responsibility for preparing timely reports to assist both branches in the preparation of the annual budget. The five members of the Council would be appointed respectively by the Governor, the Senate President, the Speaker of the Assembly, the Senate Majority Leader, and the Assembly Majority Leader, with the Governor's appointee serving as chairman.

I want to congratulate the Legislature for presenting me with a bill that would provide State government with what would certainly be a welcomed source of additional information and advice on vital economic issues. This Council would add a constructive voice to the healthy chorus of views that the Legislature and the Executive Branch rely upon in fashioning a balanced budget every year.

Recognizing that economic forecasting is by no means an exact science, we should be proud of the admirable service provided to this State by the distinguished individuals over many years who have helped both branches of government produce budgets that made sense in light of the economic times in which they were crafted. Because we are constitutionally obligated to balance our annual budget, this State has developed a tradition of cooperation in the development of revenue estimates and economic assumptions that form the basis of the more lively process of deciding how to appropriate anticipated revenues.

Thus, this State has learned to rely on the dependable advice provided to each branch of government by offices within each branch of government, such as the Office of Management and Budget and the Division of Taxation within the Department of Treasury, and the Legislature's own Office of Legislative Services. In addition, these offices have traditionally contracted with private consultants of high standing in the economics community to provide independent economic projections and assumptions. And, just last year, I signed S-583 into law (P.L. 1992, c. 75), establishing the State Revenue Forecasting Advisory Commission, a Commission composed of individuals

appointed by the Legislature as well as the Governor, which will be responsible for assisting the State in the process of anticipating revenues.

I am confident that the Council proposed in this bill will prove to be a valuable addition to this process. Although I am concerned that the functions of this Commission appear to overlap somewhat with those of the Revenue Forecasting Commission, I believe that this State can only benefit from more, rather than less information. Therefore, I want to express my support for creating this Council.

Nevertheless, I believe this bill could be improved in two important respects. First, the bill fails to make a specific appropriation to provide the means necessary to get this Council started. I believe it would be a mistake to create this new and important entity without specifying the cost. That is why I am today recommending that the bill be revised to set forth a specific appropriation, in an amount that will provide the Council with enough resources to fulfill its statutory responsibilities within a reasonable budget.

Second, this bill proposes to fund the Council over the long term by creating a nonprofit organization that would be affiliated with the Council, and which would be entitled to solicit tax-exempt donations from private citizens. Although I want to commend the Legislature for its creativity, I believe this funding idea should be saved for more appropriate circumstances. Rather, funding for the Council should be addressed in the annual budget process to the fullest extent possible.

While I have no objection to allowing the Council from time to time to accept grants and donations from organizations wishing to sponsor studies, I believe we must ensure that the Council does not become so dependent on charitable donations that it begins to crowd out other contestants in the race for fewer and fewer private dollars. I simply do not believe the interests of these charities would be served by the creation of a State-sponsored entity authorized to compete with them for private donations and State grants. It is hard enough for our State's great charities to raise funds without competition from State government. Let us not make their task more difficult than it already is. Therefore, I am recommending that this bill be amended to provide for the more traditional, and time-tested method of funding independent commissions of this kind: a direct appropriation from the State budget, coupled with an explicit authorization to accept grants and donations as they are from time to time made available.

For these reasons, I herewith return Senate Bill No. 1180 and recommend that it be amended as follows:

Page 2, Section 2, Line 26:	After "select" insert "and fix the compensation of";
Page 2, Section 2, Lines 27-28:	After "director" delete "and chief executive officer of the Foundation for Economic Analysis established pursuant to section 5 of this act";
Page 2, Section 2, Line 33:	After "period." insert "The council may also employ and fix the compensation of

such other expert and clerical staff as it may deem appropriate, within the limits of funds appropriated or otherwise made available to it.";

Page 3, Section 4, Lines 28-29: After "council" delete "and the foundation established pursuant to section 5 of this act, particularly in the incorporation of the foundation";

Page 3, Section 5, Lines 30-41: Delete in entirety;

Page 3, Section 6, Lines 42-47: Delete in entirety;

SENATE BILL NO. 1524

TO THE SENATE:

Pursuant to Article V, Section I, Paragraph 14, of the New Jersey Constitution, I herewith return Senate Bill No. 1524 with my objections for reconsideration.

This bill creates the criminal offense of attempting to lure a child into a motor vehicle with the purpose of committing a crime with or against the child. The purpose of the bill is to punish -- and hence to deter -- individuals who even attempt to entice children into an automobile for the purpose of harming them.

I want to commend the sponsors of this bill for proposing legislation that will fill a significant gap in our current law. Under current law, it is nearly impossible to prosecute individuals who attempt to abduct children into their cars until after it is too late -- that is, until the criminal has succeeded in taking control of the child, and thereby

inflicting serious psychological, and sometimes even physical harm on the victim.

What our police officers need are stronger laws that will empower them to prosecute these criminals for even attempting to commit these heinous acts. That is what this bill does. For the first time, the mere attempt to abduct a child with the intent to commit a crime will be punishable as a criminal offense. As a result, those who try, but fail to entice children into their cars, will be regarded rightfully as criminals, and will be punished.

I am happy, therefore, to express my complete support for this bill. I believe the bill can be strengthened, however, by increasing the classification of the crime from a fourth degree crime to a third degree crime. This modification would raise the maximum penalty from eighteen months to five years imprisonment, and would impose a minimum penalty of three years imprisonment. These tougher sentences are certainly appropriate for anyone who commits a crime against a child that is tantamount to attempted kidnaping. I am suggesting an amendment to the bill that will protect this important legislation from constitutional attack, to ensure lasting enforcement of these critically important standards.

Therefore, I herewith return Senate Bill No. 1524 and recommend that it be amended as follows:

Page 1, Section 1, Line 7:	Delete "fourth" insert "third"
Page 1, Section 1, Lines 20-24	Delete in its entirety.

Respectfully,
/s/ Jim Florio
GOVERNOR

Senator Cardinale offered the following amendments to Senate No. 886 pursuant to the recommendations of the Governor, which amendments were adopted.

SENATE SUBSTITUTE FOR
SENATE BILL NO. 886 AND ASSEMBLY BILL NO. 1221

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Senate Substitute for Senate Bill No. 886 and Assembly Bill No. 1221 with my objections for reconsideration. In recent years, financing and delivery systems that provide health care services through networks of health care providers have been developed in response to increasing demands by consumers for ways to moderate the rising costs associated with traditional fee-for-service health care. Economic studies have confirmed that these "managed care" arrangements help to control cost increases.

Among the types of managed care networks in existence in New Jersey are those involving contractual agreements between insurance companies and health maintenance organizations and pharmacies and pharmacists. Under these agreements, the health insurer directs its subscribers to a network of pharmacies established by it to fill their prescription and pharmacy service needs.

These managed care arrangements have been successful in New Jersey because they benefit pharmacies, health insurers and, most importantly, consumers. Pharmacies and pharmacists pursue the patronage of subscribers to preferred participant prescription plans and HMO programs because these arrangements not only generate business, but also enable the pharmacy to make cost savings possible to consumers from economies of scale.

Health insurers find the managed care networks attractive because the costs paid out for prescriptions are lower and pharmacies frequently agree to provide additional services to subscribers as a condition of participating in the network. The lower prices and additional services made possible through the managed care pharmacy networks help make the insurer's progress more attractive in the prepaid health care market to consumers, including employers which provide health care coverage to their employees. Because of the lower prices and additional services made possible through these arrangements, consumers benefit from managed care programs. Although managed care systems are working,

however, a tension still remains between consumers, who may want the "freedom of choosing" to use a pharmacy outside the network; health insurers which must decide which competing pharmacies to include in their managed care networks, and pharmacies, which need to have the fair opportunity to participate in these networks. In this regard, I believe that it is very important that, as we as a State move toward a system of managed competition with a greater emphasis on managed care networks, all pharmacies be permitted at least equal opportunity to participate in these developing networks of care. Our challenge, therefore, is to balance the need to reduce and control health care costs, which can be accomplished through managed care networks; the ability of consumers to, at an appropriate point in the process of obtaining health care coverage, choose benefits to be obtained through a limited network of providers or through pharmacies selected by the consumer, and the ability of pharmacies to be able to participate in managed care networks. The bill that I am returning to the Legislature today goes a long way toward striking the appropriate balance. This bill would require health insurers that provide coverage for pharmacy services and prescription drugs through preferred or contracted pharmacists or pharmacies to permit subscribers, insureds and enrollees to select pharmacists and pharmacies to patronize and would allow all registered pharmacists and pharmacies to participate in managed care networks so long as they comply with the terms of the plan contract.

The bill would also prohibit health insurers from imposing any copayment, fee or other condition upon any subscriber, insured or enrollee choosing a participating or contracting pharmacist or pharmacy that is not also equally imposed upon all enrollees selecting a participating or contracting pharmacist or pharmacy. Finally, the bill provides that health insurers may not require that their subscribers, insureds or enrollees obtain pharmacy services or prescription drugs through a mail order pharmacy.

I am returning this bill to the Legislature, however, because it lacks clarity in a critical respect and because a revision is needed to ensure that the managed care networks that are being developed work to everyone's benefit. The issue that needs to be clarified and resolved is the question of when the consumer should choose the pharmacists and pharmacies to be utilized. Under the bill as currently drafted, a consumer could choose to patronize one pharmacy one day, and another pharmacy the next. This would wreak havoc on the ability of pharmacies to offer lower prices for their services and products. A pharmacy, or a cooperative of pharmacies, offers discount prices to insurers because it will thereby attract a certain, planned volume of customers.

Prices are kept low because of volume sales and because of reduced administrative and marketing costs. If this volume is decreased during the course of the agreement, these pharmacies will lose money and may be placed in danger of going out of business. The cost of premiums would rise for all consumers.

As discussed above, consumer freedom of choice is important, but it is best exercised at the time the consumer initially chooses the benefit program. Thus, under the revision of the bill I am recommending, subscribers, insureds and enrollees would, at the time of issuance or renewal of the policy, be permitted to choose a pharmacy or pharmacist for the provision of prescription drugs and pharmacy services, provided that the pharmacist or the pharmacy selected is registered pursuant to N.J.S.A. 45:14-1 et seq. This would enable consumers to comparison shop for the benefit program that best meets their needs. It would also enable pharmacies and insurers to make a rational decision whether to establish or participate in a network program and enable them to plan the program in such a way as to maximize cost savings and establish workable mechanisms for ensuring quality care. If, at the expiration of the policy, the consumer decided that a different benefit program was more appropriate, the consumer could change to that program. This revision, therefore, will maximize consumer choice and bring needed stability to the provision of prescription and pharmacy services in this State.

In addition to this revision, the bill contains a serious drafting error which must be corrected. In five sections of the bill, there is a provision providing that nothing in the section "shall be construed to operate to add any benefit, to increase the scope of any benefit, or to increase any benefit level under any group contract." (Emphasis added). Because the bill applies to both group and individual insurance policies, however, the provision cited above cannot be limited to "group" contracts. Therefore, I am recommending that the word "group" be deleted from these sections of the bill.

In sum, the bill that I am returning to the Legislature will, with the revisions I have recommended, ensure that consumers have the ability to choose, at the most appropriate point in the process, i.e. when a benefit program is selected, the pharmacies and pharmacists who will provide services to them. The bill, as revised, will also ensure that, as we move toward a system of managed competition, both on a State and on a national level, all pharmacies will be permitted the equal opportunity to participate in the developing networks of care. Finally, these revisions will ensure that, in these difficult times, insurers are able to control health care costs for all of us.

Therefore, I herewith return Senate Substitute for Senate Bill No. 886 and Assembly Bill No. 1221 and recommend that it be amended as follows:

Senator Martin offered the following amendments pursuant to the recommendations of the Governor, which amendments were adopted.

SENATE BILL NO. 1143
(First Reprint)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14, Of he New Jersey Constitution, I herewith return Senate Bill No. 1143 (First Reprint) with my objections for reconsideration. This bill would provide that if the maker of a bad check does not make it good within 20 days of the date that a written demand for payment is mailed by certified mail by the payee, the maker of the check would be liable to the payee, in addition to the amount owing upon the check, for attorneys fees, court costs, and costs of mailing the demand for payment and for liquidated damages of $100 or three times the amount of the check, whichever is greater, except that the damages may not exceed an amount which is $500 greater than the amount of the check.

These provisions could be enforced in a civil action brought in any court and the defendant would have the opportunity to settle the case by paying the payee the amount of the check and the incurred attorneys fees, court costs and costs of mailing and demand for payment any time prior to the hearing in court. In addition, the court or jury could waive the liquidated damages if the maker of the bad check is suffering from economic hardship. I support this bill, which will provide for a civil action for the recovery of bad checks by New Jersey banks and businesses.

I am, however, concerned that the 20-day time period by which the bad check must be made good is too short especially in cases where an honest mistake has been made. The bill may unnecessarily lead to the filing of lawsuits in cases where an additional period of time would have enabled the maker of the check to make good on it. I am therefore,

recommending that the legislation be amended to increase the time period for making good on the check from 20 to 35 days.

Therefore, I herewith return Senate Bill No. 1143 (First Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 12:

SENATE COMMITTEE SUBSTITUTE FOR
SENATE BILL NO. 111
(First Reprint)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I am returning the Senate Substitute for Senate Bill No. 111 (First Reprint) with my recommendations for reconsideration.

I strongly support the intent of this bill, which would establish a streamlined procedure for the approval of certain local stream cleaning projects by the Department of Environmental Protection and Energy (DEPE). At the same time, I am concerned that this bill, in its current form, could inadvertently result in environmental damage to our State's streams and waterways, since the bill is unclear on the extent to which projects involving the disturbance or removal of sediments at the bottom of a stream would be eligible for the proposed "fast-track" DEPE approval process. In particular, while one bill provision would prohibit stream cleaning projects that remove any material extending below the "natural stream bed," a second provision specifically authorizes the removal of "accumulated sediments" from a stream. Since sedimentation is a naturally occurring physical process within streams, these provisions could cause confusion in the regulated community, or they could be interpreted as authorizing major stream channel straightening or channel deepening projects with only minimal DEPE oversight. With these concerns in mind, I would propose a key amendment that would have the effect of restricting "fast-track" stream cleaning approvals to the removal only of accumulated debris or garbage from a stream with a natural stream bed, or the removal of any materials from a stream previously channelized with concrete or similar artificial material. This amendment would continue to authorize speedy action by local governments to remove rubbish and other major in-stream obstructions, while at the same time restricting automatic approvals for more environmentally disruptive channelization or channel deepening projects. I would also propose the inclusion of an amendment that would specifically require local governments, as part of their project certifications to the DEPE, to provide a photograph of the affected stream segment and also identify the regulatory water quality classification of the stream. This additional information would enable DEPE officials to give prompt, careful attention to the review of stream cleaning projects that affect our State's most environmentally sensitive waterways, such as trout fishing streams or drinking water sources.

For these reasons, I herewith return the Senate Committee Substitute for Senate Bill No. 111 (First Reprint) and recommend that it be amended as follows:

Page 1, Section 1, Line 27:Delete "sediments,"

Page 1, Section 1, Line 27:After "debris" delete ","

Page 1, Section 1, Line 27:After "garbage" insert "from a stream with a natural stream bed or the removal of any accumulated material from a stream previously channelized with concrete or similar artificial material"

Delete "and" and insert ", a description, including a photograph, of"

After "place" insert ", and an identification of the regulatory water quality classification of the stream in which the activity is to take place"

SENATE BILL NO. 1447
(First Reprint)

To the Senate:

Pursuant to Article V, Section I, Paragraph 14 of the New Jersey Constitution, I herewith return Senate Bill No. 1447 (First Reprint) with my objections for reconsideration.

This bill is designed to improve the mechanism by which a Board of Education ("board") may remove illegally enrolled non-resident students from the schools of the district. The bill specifically addresses two types

of students -- a child living in the district with a person who is not the child's parent or guardian (commonly referred to as an "affidavit student") and a child living with a parent or guardian who claims to be, but in fact is not, residing in the district (commonly referred to as a "non-domiciled student") and establishes standards for their removal from school in a district in which the students are ineligible to attend.

Under current law, an "affidavit student" is entitled to attend school in the district in which the person with whom they are residing ("resident") lives if the resident is supporting the child and the parent or guardian is not providing any support for the child. The board can require the resident and the parent or guardian to file sworn statements regarding the residence and support of the child as well as other supporting documentation. In the event the board believes that the evidence does not support the resident's claim that the child is entitled to attend the schools of that district, the board may challenge the sworn statements in a proceeding before the commissioner. In such a proceeding, the resident has the burden of proving that the child is eligible for a free education in the district.

This bill makes several changes to the process regarding the removal of "affidavit students" and "non-domiciled students." The primary goal of the bill, and one that I strongly support, is to place an affirmative obligation on the resident, parent or guardian, to challenge the board's conclusion that the child is not entitled to attend school in that district rather than forcing the board to initiate administrative proceedings to remove the child. Furthermore, the bill appropriately provides that this appeal to the commissioner will be heard on an expedited basis. Additionally, the bill provides necessary protection to the educational needs of the student by permitting the student to attend school until the commissioner renders a final decision.

However, I do not concur with the bill's attempt to enhance the penalty for the filing of false affidavits by the resident, parent or guardian from a disorderly person's offense to a crime of the fourth degree. While I do not condone attempts by parents to have their children attend schools that they are not entitled to attend, I do not think such actions should constitute an indictable crime that may result in jail time; rather I believe a disorderly person's offense with a monetary penalty is more appropriate. Furthermore, by making this offense a crime of the fourth degree, more of a burden will be placed on our already overburdened criminal justice system. Action by the county prosecutor and grand jury will be needed to prosecute the cases. This would be an unwarranted and inefficient use of those limited resources and I am therefore recommending that the offense continue to be classified as a disorderly person's offense.

Additionally, I believe the bill needs to be clarified as to the protection afforded to both the "affidavit student" and the "non-domiciled student" already enrolled in the district from having their education disrupted. The sections dealing with "affidavit students," 1(b)(1), and "non-domiciled students," 1(b)(2), specifically protect the

student from removal during the pendency of proceedings before the commissioner but does not mention the 21-day period in which the resident, parent or guardian has the right to contest the board determination that the child is ineligible for a free education. My recommended changes, therefore, include language which would clarify what I believe was the intent of the bill -- to have the child remain in the school until the commissioner has determined whether or not the child is entitled to be there.

Finally, I believe the bill would be improved by some additional clarifying language and minor changes which are included in the recommendations below.

Therefore, I herewith return Senate Bill No. 1447 (First Reprint) and recommend that it be amended as follows:

Page 2, Line 10:
After "commissioner." insert "In the event the child is currently enrolled in the district, the student shall not be removed from school during the 21-day period in which the resident may contest the board's decision nor during the pendency of the proceedings before the commissioner."

Page 2, Lines 14-15:

Page 2, Lines 18-19:

Nothing shall preclude a board from collecting tuition from the resident, parent or guardian for a student's period of ineligible attendance in the schools of the
district where the issue is not appealed to the commissioner."

Page 2, Line 43:
