19:47-14.6 Poker overview; general dealing procedures for all types of poker

(a) Poker shall be conducted in a separate and distinct area of the casino floor or the casino simulcasting facility approved by the Commission.

(b) Poker shall be played by a minimum of two players and a maximum of 11 players. Poker shall be dealt by a dealer at a poker table. For all types of poker set forth in N.J.A.C. 19:47-14.8, the dealer shall not participate in the playing or outcome of the game in any way except as otherwise authorized in this subchapter.

(c) A player shall wager on the cards that the player holds in his or her hand. All bets by a player shall be placed by the dealer in the designated area of the table known as the pot. A player may be required to ante or place a blind bet prior to the receipt of any cards. After each round of cards is dealt, a betting round shall be conducted. Each player shall decide whether to continue contending for the pot by calling or raising the bet of the other players.

(d) The object of the game shall be for a player to win the pot either by making a bet that no other player elects to call, or by having the hand of highest rank at the showdown in accordance with the provisions of N.J.A.C. 19:47-14.3. If two or more players are still in contention for a pot after all cards have been dealt and the final betting round has been completed, there shall be a showdown among the players still in contention to determine which player has the hand of highest rank. Based on the type of poker being played, the winning player may be the player who holds the highest ranking high poker hand, the highest ranking low poker hand or both the highest ranking high and low poker hands.

(e) The following procedures shall be utilized by the dealer when dealing the game of poker:

1. The dealer shall choose the hand in which he or she will hold the cards. Once the dealer has chosen a hand, the dealer must use that hand whenever holding the cards. The cards held by the dealer shall, at all times, be held in front of the dealer, as level as possible and over the poker table. If during a round of play, the deck must be set down to handle a transaction, the dealer shall place a marker button on top of the deck until the transaction has been completed.

2. The dealer shall verbalize or physically indicate the action which is occurring at the poker table with regard to the conduct of the game and instruct each player as to his or her various turns to act and options.

3. All burn cards required by this subchapter shall be kept separate from the pile of discarded cards.

4. The dealer shall be required to count the stub, at least once every 15 minutes, in order to determine that the correct number of cards are present. If this count reveals an incorrect number of cards, the deck shall be removed from the table in accordance with N.J.A.C. 19:46-1.18(n).

5. At the completion of a round of play, the dealer shall award the pot to the winning player or players after a showdown or to the last remaining player if all other players have folded. Prior to pushing the pot to the winner and collecting the winning hand, the dealer shall first collect the cards from all losing players.

6. All side pots shall be awarded before the dealer awards the pot in the center of the poker table.

7. All discarded hands shall be counted by the dealer to determine that the proper number of cards have been returned.

8. The dealer shall collect the rake in accordance with N.J.A.C. 19:47-14.14.

19:47-14.7 Wagers

(a) Only players who are seated at the poker table may be permitted to receive cards and participate in each betting round.

(b) Depending upon the particular type of poker game being dealt, a player may be required to:

1. Place an ante prior to receiving any cards;
2. Place a predetermined blind bet prior to receiving any cards; or
3. Place a forced bet to initiate a betting round based on that player's up-card.

(c) A player may only participate in the wagering during a round of play with the gaming chips, gaming plaques or currency which were already on the poker table in front of the player when the round of play commenced. In addition, a player may use coin for the purpose of placing an ante in an amount less than \$1.00 and in denominations of \$.25 or \$.50.

1. A player may only add to his or her gaming chips, gaming plaques or currency between rounds of play and may not remove any of his or her gaming chips, gaming plaques or currency from the poker table at any time during ongoing play pursuant to the definition of table stakes as set forth in N.J.A.C. 19:47-14.1.

2. Currency which is available for use by a player pursuant to the requirements of this section may be utilized to initiate, call or raise a bet if such currency is expeditiously converted into gaming chips or gaming plaques by the dealer in accordance with the regulations

governing the acceptance and conversion of such instruments. Coin which is available for use by a player pursuant to this subsection may be utilized to place an ante in an amount less than \$1.00, and any such coin shall be expeditiously converted into a \$1.00 gaming chip by the dealer upon the pot accumulating an equivalent aggregate value in coin.

3. In order to participate in a round of play, a player shall be required to have an amount of gaming chips, gaming plaques or currency available on the poker table prior to the start of the round of play which is sufficient to make any bet required by (b) above and at least one bet at the posted table minimum.

4. A player who satisfies the requirements of (c)3 above but who depletes his or her funds on the poker table prior to the completion of a round of play shall be deemed to be "all-in."

i. An "all-in" player shall retain financial interest in the outcome of the round of play, but shall only be eligible to win the amount of the pot to which he or she contributed;

ii. An "all-in" player shall continue to receive any cards to which he or she would normally be entitled; and

iii. Betting shall continue unimpeded among the other players by generating a separate secondary pot which only those players shall be eligible to win.

(d) A verbal statement of "fold," "check," "call," "raise," or an announcement of a specific size wager by a player, assuming it is within the rules of the poker game being played and the minimum and maximum wager limits for the poker table, shall be binding on the player if it is that player's turn to act.

(e) A player who announces a bet or raise of a certain amount but places a different amount of gaming chips or gaming plaques in the pot shall be required to correct his or her bet or raise to the announced amount in accordance with the instructions of the dealer.

(f) A player shall be considered to have placed a bet if the player:

1. Pushes gaming chips or gaming plaques forward to indicate the intent of placing a bet;

2. Releases gaming chips or gaming plaques into the pot; or

3. Releases gaming chips or gaming plaques at a sufficient distance from the player and towards the pot to make it obvious that it is intended as a bet.

(g) A player shall not be permitted to make a bet and thereafter attempt to increase the amount of that bet.

1. If the player wishes to add additional gaming chips or gaming plaques to the bet, the player must indicate at the time the bet is being made that the bet is not yet complete.

2. A player who puts the proper amount of gaming chips or gaming plaques into the pot to call a bet, without indicating his or her intention to raise, may not thereafter raise the previous bet.

3. Subject to the posted table wagering limits, a player who announces "raise" may continue to bet gaming chips or gaming plaques until both of his or her hands come to rest in front of the pot.

(h) It shall be the dealer's responsibility to ensure that no player touches any of the gaming chips or gaming plaques once placed into the pot.

(i) Unless a raise has been verbally announced by that player, a player who puts into the pot a single gaming chip that is larger than required is assumed to have only called the preceding bet and to be awaiting change from the dealer.

(j) Unless specifically posted to the contrary, a player shall be permitted to raise after he or she has previously checked in a betting round.

Amended by R.1999 d.123, effective April 19, 1999.

See: 30 N.J.R. 3394(a), 31 N.J.R. 1082(b).

In (a), added 6.

19:47-14.9 Seven-card stud poker; procedures for dealing of cards; completion of each round of play

(a) Each casino licensee shall be required to observe the procedures set forth in this section for each game of seven-card stud high, seven-card stud high-low split or seven-card stud high-low split eight or better poker offered in its casino room or casino simulcasting facility.

(b) Each poker table shall be restricted to a maximum of eight players as determined by the casino licensee. Each player who elects to participate in a round of play may be required to place an ante. The rule governing the placement of an ante and the amount of the ante, if any, shall be posted on a sign at each poker table in accordance with N.J.A.C. 19:47-8.3.

(c) Starting with the first player to the left of the dealer and continuing in a clockwise rotation around the poker table, the dealer shall deal two rounds of cards face down and one round of cards face up to each player.

(d) Once each player has received three cards in accordance with (c) above, the first betting round shall commence by comparing the up-card of each player. For the purposes of this subsection only, in the event that two or more up-cards are of the same rank, the up-cards shall then be ranked by suit, with the highest to lowest ranked suits in order as follows: spades, hearts, diamonds, clubs. Betting shall be commenced by:

1. For high poker, the player with the lowest ranked up-card;
2. For high-low split poker, the player with the highest ranked up-card. For this purpose, an ace shall be considered ranked below a two; and
3. For high-low split eight or better poker, the player with the lowest ranked up-card. For this purpose, an ace shall be considered the highest ranking card.

(e) Following the placement of the forced bet required by (d) above, each subsequent player may, proceeding in a clockwise rotation from the player who placed the forced bet, fold, call or raise the bet. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(f) Upon completion of the first betting round, the dealer shall burn the top card of the deck and then, starting with the first remaining player to his or her left, deal a fourth card face up to each player who has not folded. The next betting round shall commence as follows:

1. The player with the highest ranking poker hand showing shall be required to bet or check; or
2. If the highest ranking poker hand showing is held by two or more players, the player closest to the left of the dealer shall be required to bet or check.

(g) Following the initial bet or check required by (f) above, each subsequent player, proceeding in a clockwise rotation, may fold, call, raise or, if the preceding players have not made a bet, check. Each player may check until a bet has been made. Once a bet has been made, the next player in a clockwise rotation may fold, call or raise. After the last player has responded to the most recent bet, the betting round shall be considered complete.

(h) The dealer shall then deal two additional rounds of cards face up and one round of cards face down to each player who has not folded, with each such round followed by a betting round conducted in accordance with the provisions of (f) and (g) above. Prior to each round of cards being dealt, the dealer shall burn the top card of the deck. If insufficient cards remain in the deck to give each remaining player a seventh and final card, the top card of the deck shall be burned and a common card shall be dealt face up in the center of the table. If there is one or less cards remaining in the deck, the dealer shall shuffle the burn cards, burn a card and then deal the common card.

(i) If more than one player remains in the round of play after the final betting round has been completed, a showdown shall be used to determine the winner of the pot. Each player remaining in the game shall form a five card poker hand from the seven cards which he or she was dealt. This five card hand shall constitute the poker hand of that player at the showdown. The winner of the pot shall be:

1. In high poker, the player with the highest ranking five card high hand;
2. In high-low split poker or high-low split eight or better poker, the player with the highest ranking five card high hand and the player with the highest ranking five card low poker hand, subject to the provisions of (j) below, who shall divide the pot equally.

i. If a pot cannot be divided equally, the excess amount, which shall not exceed \$1.00, shall be given to the player with the highest ranking high hand.

ii. If a tie exists between two or more players for the highest ranking high hand, the high hand share of the pot shall be divided equally among the tied players. If the high hand share of the pot cannot be divided equally among the tied players, the excess, which shall not exceed \$1.00, shall be given to the player with the highest ranking high poker card by suit.

iii. If a tie exists between two or more players for the highest ranking low hand, the low hand share of the pot shall be divided equally among the tied players. If the low hand share of the pot cannot be divided equally among the tied players, the excess, which shall not exceed \$1.00, shall be given to the player with the lowest ranking low poker card by suit.

iv. For purposes of this subsection, the cards shall be ranked by suit with the highest to lowest ranked suit in order as follows: spades, hearts, diamonds and clubs.

(j) In seven-card stud high-low split eight or better poker, a winning low hand may not contain any pairs or a nine, 10, jack, queen or king. This defines the qualifying clause known as "eight or better." In the event that none of the hands of the remaining players satisfies this requirement, the entire pot shall be awarded to the player with the highest ranking high hand.

(k) In seven-card stud high-low split poker and seven card stud high-low split eight or better poker, the player may form two different hands of five cards each out of the player's seven available cards, enabling that player to contend for both the high hand and low hand share of the pot. A player may use the same five card grouping to make a high poker hand and a low poker hand. For example:

1. A hand consisting of a two, three, four, five and six would qualify as a straight for purposes of the high hand and as a high ranking low hand; or

2. A hand consisting of five cards of the same suit, none higher than an eight, would qualify as a flush for purposes of the high hand and as a high ranking low hand.

(l) In seven-card stud high-low split poker and seven-card stud high-low split eight or better poker, an ace may be used concurrently as a low card to satisfy a low hand and as a high card to satisfy a high hand.

19:47-14.10 Hold 'em poker; procedures for dealing of cards; completion of each round of play

(a) Each casino licensee shall be required to observe the procedures set forth in this section for each game of hold 'em high poker offered in its casino room or casino simulcasting facility. Hold 'em poker shall be played to determine a winning high hand only.

(b) Each poker table shall be restricted to a maximum of eleven players. Each player who elects to participate in a round of play may be required to place an ante. The rule governing the placement of an ante and the amount of the ante, if any, shall be posted on a sign at each poker table in accordance with N.J.A.C. 19:47-8.3.

(c) The order in which the cards shall be dealt and the order in which players shall be required or have the option to bet shall be determined as follows:

1. A flat disk called the "button" shall be used to indicate an imaginary dealer;

2. At the commencement of play, the button shall be placed in front of the first player to the right of the dealer; and

3. Thereafter, the button shall rotate around the table in a clockwise manner after each round of play.

(d) The player to the immediate left of the button shall be required to initiate the first betting round by placing a blind bet in accordance with the posted table requirements. A casino licensee may require additional blind bets to be made immediately subsequent to the initial blind bet. The amount and number of all blind bets required by the casino licensee shall be posted on a sign in accordance with N.J.A.C. 19:47-8.3.

(e) Starting with the player to the immediate left of the button and continuing in a clockwise rotation around the poker table, the dealer shall deal two rounds of cards face down to each player, with the player with the button being the last player to receive a card each time.

(f) Following the placement of the blind bet(s), each player shall in turn, in a clockwise rotation around the poker table, either fold, call or raise the bet. The option to raise shall also apply to the player who made the blind bet(s). After the last player has responded to the most recent bet, the betting round shall be considered complete.

(g) The dealer shall then burn the top card of the deck and proceed to deal three community cards face up in the center of the table. The next betting round shall commence with the option to bet or check belonging to the first player to the left of the button who has not folded. Each subsequent player may, in clockwise rotation, fold, call, raise the bet or, if preceding players have not made a bet, make an opening bet or check. The betting round shall be considered complete when each player has either folded or called in response to the most recent bet.

(h) Upon completion of the betting round required by (g) above, the dealer shall again burn the top card of the deck and then deal a fourth community card face up in the center of the table. The next betting round shall be commenced and completed in accordance with the requirements of (g) above.

(i) Upon completion of the betting round required by (h) above, the dealer shall again burn the top card of the deck and then deal a fifth and final community card face up in the center of the table. The final betting round shall be commenced and completed in accordance with the requirements of (g) above.

(j) If more than one player remains in the round of play after the final betting round has been completed, a show-down shall be used to determine the winner of the pot. Each player remaining in the game shall form his or her highest ranking five card high poker hand by using, in any combination, his or her own two cards and the five community cards available on the table. The winner of the pot shall be the player with the highest ranking five card high poker hand. If the highest ranking five card high poker hand that each of the remaining players can form is comprised of the five community cards, all players remaining in the round of play shall share equally in the pot.
